## EX-SUDENTS HOMECOMING VERY DELIGHTFUL AND INTERESTING

By WANDA WILLIAMS
Secretary

Talco Ex-Students Homecoming got underway at 9:30 a. m. Friday when Exes began arriving and registering. The high school presented an assembly program at 2 p. m. The band presented a series of numbers; Linda Neugent gave a talk on the activities at Talco High School.

High School Supt. and Principal, W. R. Young and A. C. Newsome welcomed the Exes and Jimmy Weisinger responded. Jilmmy recognized the classes and read some articles on the honor class, 1949.

Jerry Spruell presented the following awards to Exes: Coming the fartherest distance, David Johnson, 1956, from Germany. He received a free football ticket.

The oldest Ex who married an Ex was Laura Easterling Smith. She received a bow and arrow.

The oldest Ex-Letterman, Billy Gene Jones, was presented a walking cane.

The Ex who had the most children, Virginia Hargrove Wright. She received a mum corsage.

The Ex who had the youngest child, Virginia Hargrove Wright. She received a piggy bank.

The oldest Ex, Mrs. Ruth Jones, was awarded a cake of asafoetida.

Coffee, cold drinks and cookies were served all day by the National Honor Society. Most of the Exes enjoyed lunch in the Talco cafeteria.

A pep rally was held at 3:00 p. m. in which the ex-cheerleaders and lettermen participated.

The Exes enjoyed seeing the Trojans win their game with James Bowie.

A get-together at the Humble recreation hall followed the game. The business meeting preceded the banquet with the following officers being elected: President, Jerry Jones; 1st vice-pres., Billy G. Jones; 2nd vice-pres., Janice Davis; 3rd vice pres., Wanda Vickers; program chairman, Guy Nell Morris; sec., Marie McGonagill.

The banquet program was as follows: Master of ceremonies, Jerry Jones; invocation, Jimmy Weisinger; welcome, Jerry Jones; guest speaker, Fred Fisher; benediction, Billy G. Jones.

Many compliments were passed on the meal prepared by P-TA ladies. Menu consisted of chicken-fried steak, baked potatoes, salad, pies, rolls, coffee and tea.

## Heavier Penalties For DWI Cases

The last Legislature passed a law that will have a tendency to hold youthful drivers who drink and drive in check.

Under the new law, the maximum DWI penalty for the 14-17 age group is a $100 fine and court costs of $25 or $30.

Adults (over 17), can receive a maximum penalty of two years in jail and a $1.000 fine on a DWI conviction.

Drivers licenses are automatically suspended for six months.

## United Nations Day Saturday, Oct. 24

Col. James A. Caviness of Paris, asks this newspaper to remind readers that Saturday, Oct. 24 is United Nations day. Fourten years ago the United Nations to prevent war was founded. President Eisenhower has written a proclamation asking for observance of the day.

## Community Public Service Company Honors Employees

Miss Lois Philley of Deport and J. Lee Smith of Bogata, were two of the six employees of Community Public Service Co. to receive the company's service awards at the division's fall meeting Monday in the Grayson hotel in Sherman. Leslie Cooke, CPS assistant treasurer, made the presentation in the absence of R. L. Bowen, president, who was ill, at a dinner Monday evening.

Miss Philley was presented a seven piece Wm. Rogers silver service for 30 years with CPS. All of that time she has been cashier in the Deport office. One of the oldest cashiers in the years of service, she completed 30 years on August 1 this year. During the past 30 years Miss Philley has worked with seven local managers, some of them twice, but the majority of the time was under the late C. B. Bardwell.

Smith was presented a pin bearing the company insignia and a diamond for 20 years of service. Foreman of the line crew for this area the past several years, he was connected with CPS at Whitewright, Detroit and Talco before moving to Bogata.

Hermon Philley of Detroit, was chairman of the program. Joe Garrison, new district manager in Deport, was co-chairman of the sectional meeting. Appearing on the program was Tommie Burks of Detroit, besides Miss Philley and Smith.

Attending from this area were Miss Philley, Mr. and Mrs. Joe Garrison of Deport, Mr. and Mrs. Fred Whitten Jr., Mr. and Mrs. J. Lee Smith, Mr. and Mrs. David Lee Hudson, Jerry Ward, Mrs. Hester Morgan, Bogata; Miss Wanda Williams of Talco, Mr. and Mrs. Hermon Philley, Mrs. Betty Brown and Tommie Burks of Detroit.

## Red River-Titus Accident Report

Rural traffic deaths increased slightly in the Northeast Texas Highway Patrol District the first nine months as compared with the same period in 1958. Eleven people were rural traffic victims in September this year; the same number were killed last year.

Traffic accidents in Red River County caused an economic loss of $3,120.00 with one injured in September. Breakdown of accidents included seven property damage.

Accidents in Titus County caused an economic loss of $3,500.00 with five injured in September. Accidents included five property damage, three injuries. The Highway Patrol in District 1-B Northeast Texas Area contacted 5662 motorists violating traffic rules in September.

Captain Warner urged motorists to be more alert in their driving. Schools are open for the school term and many students are riding school buses. He stated the Patrol require strict compliance with the school bus law. To protect the lives of our students obey the school bus law —stop for school buses.

## Judge Blackburn Suffers Stroke

Austin.—Asst. Atty. Gen. Geo. P. Blackburn is in Brackenridge Hospital after suffering a stroke Tuesday.

Blackburn, 72, widely known in Texas legal circles, is chairman of the opinion committee on Atty. Gen. Will Wilson's staff.

He served four terms as a district judge at Paris and practiced law in Tyler. He was an assistant attorney general under Gerald Mann and Grover Sellers, and at one time was state's attorney for the Court of Criminal Appeals.

## Talco Junior High Tops Bogata Pups By Score 20 to 0

By KENNETH DAVIS

Trojan Junior High defeated Bogata Puppies the second time this season by a score of 20-0. This makes four wins with no losses for Jr. Trojans.

Jackie Dixon scored from the Bogata 9 yard line on the first series of Talco plays. Try for extra points failed.

Later in the first quarter Monty Rogers ran from the Bogata 19 for pay dirt. Jackie Dixon ran the extra two points to make it 14-0 at the end of first quarter. Outstanding play in the first quarter was a 55 yard run by Dixon.

No score in the second quarter. In the third quarter Monty Rogers made a beautiful 34 yard touchdown run. Gerry Screws also made a beautiful run for Bogata in the third quarter.

Little Johnny Taylor stopped a serious Bogata threat in the third quarter by intercepting a pass.

The Bogata boys played a fine defensive game but were plagued by fumbles and pass interceptions.

Talco was forced to punt for the first time in the fourth quarter. No score in the fourth quarter. Final score Talco 20, Bogata 0.

The Jr. High boys face Cooper again next Tuesday night at Cooper. They won over Cooper 26-0 in the first game.

## TALCO TROJANS CONQUER JAS. BOWIE 38-8 HOMECOMING GAME

By KENNETH DAVIS

Talco Trojans used their Sunday punch to thrash the James Bowie Pirates 38-8 before a homecoming crowd on Trojan field Friday night. This win made the score 1 and 2 in conference play, the Trojans having lost to Liberty Eylau and Queen City.

The playing field was under full command of the Trojans throughout the game by virtue of scoring every time they got possession of the ball except for having one pass intercepted and one loss by a fumble. The Trojans were never forced to punt at any itme. They racked up 21 first downs—most of these came on rushing plays.

Jere Paul Parrish was the first Trojan to cross the 6 point stripe; only three and one-half minutes deep in the first quarter. Try for extra points failed. In the same quarter Virgil Jones went over from the Pirate 3 yard line for the second Trojan TD. Parrish passed to Vernon Smith for the extra two points.

Freddie Stephenson hit pay dirt in the second quarter, going over from the Pirate 9 for 6 more points. James Via tacked on 2 more points by taking a pass from Parrish in the end zone.

At half-time the Trojans were leading 22-0.

The Pirates received the kick off to open play in the 3rd quarter, only to lose possession by not being able to penetrate the tough Trojan line. The Trojans took possession on a punt and promptly marched to the Pirate 25, where Virgil Jones took a pass from Parrish for 6 more points. Dale Funderburk added 2 more points by taking a pass in the end zone from Parrish.

Early in the final quarter the Trojans drove to the Pirate 10 yard line where Parrish passed to Vernon Smith for the final Trojan tally. Parrish passed to Jones for the 2 extra points.

The coaches then cleared the Trojan bench. The Freshmen and Sophs gained good yardage on the Pirates with several first downs, but lost the ball on a fumble. The Pirates on several good pass completions, scored in the closing minutes of the game on a pass from Milton Minter to William Thomas. Minter's run for the two extra points was good. Final score Trojans 38, Pirates 8.

The 290 yards rushing gained by the Trojan backfield was well divided between the four ball carriers. Virgil Jones carried 9 times for an average of 6 yards per carry. Parrish carried 11 times for an average of 7.5. Funderburk carried 10 times for an average of 6 and Stephenson carried 12 times for an average of 7.8 per carry. The men in the line played harder than ever to make up for the loss of Jerry Miller and Pepper Cole who are out due to injuries.

## Bogata Bulldogs Talco Trojans to Play Friday

Talco Trojans journey to Bogata Friday night for a game with the Bulldogs. Bogata has a better team than it had last year when the Trojans beat the Bulldogs 54 to 0.

On the other hand this year's Trojans are not as good as those of 1958, which went to State quarter finals.

The game Friday night at Bogata should be much more interesting than that of last year.

## Games Scheduled

Games to be played in this conference this week end are:

Queen City at Hughes Spgs.
Talco at Bogata
Liberty-Eylau at Mt. Vernon

## School Band Plays at Fair

Talco High School Band attended the State Fair Tuesday. They played a short concert at various places on the fair ground.

The band played a short concert, consisting of five numbers. which were: Burst of Trumpets; Prairie Jump, Americans We, On the Street and Boogie March.

Talco Band, along with 35 other bands, elected an East Texas representative from each town. They were introduced at a night show at the Cotton Bowl, which featured Herb Shriener. Talco representative is Jerry Ann Rothwell. The Band has worked very hard this year, and has a lot of people backing it.

Mr. and Mrs. Joda Nelson, Neva Jo and Debra, of Nashville, Ark., spent the week end with Mrs. Nelson's parents. Mr. and Mrs. H. F. Teague.

**NAGGING WIVES** cause heart disease among men, says a California heart specialist. This editor knows a man who suffered with heart trouble for two years. When he finally got rid of his nagging mate he also got rid of his heart trouble.

**NOT MUCH** of a pecan crop in this area this year. Too much rain when the powderly male blossoms were trying to contact the females, and too much rain in July which caused pecans to become waterlogged, become spotted and fall off. The editor will not be without roasted and salted pecan meats this winter. however. He has some picked out and frozen from last year's crop.

**TEXAS CAR OWNERS** with good accident-free records will get a break, beginning January 1. They will not be penalized by increased insurance rates for bad driving as they have in the past. Their insurance will be reduced 20 per cent. On the other hand the driver who has had accidents over a three-year period will be penalized by higher rates than are now being paid. A nice reward for the safe and careful driver.

**NEWSPAPER WEEK** is intended as a time for people to give expressions of appreciation for services rendered by their newspapers. Rather than toot its own horn. this home town weekly would like to thank advertisers, subscribers and buyers of printing for their patronage which makes its publication possible. Some of our subscribers are so loyal that they ask merchants with whom they spend their money to support the newspaper by patronizing its advertising columns.

**IT FINALLY LEAKED OUT.** and the TV Moguls are cancelling their quiz shows, but it will require a long time for a gullible public to forget how it was taken for a ride. Intelligent viewers were sure the programs were "fixed," but they had no proof other than their common sense that told them no intellect was endowed with as much useless information as contestants recited in response to questions. Truth is that most TV shows are now so sorry that it is necessary to advertise them in the newspapers to get a TV audience. We don't believe that crooks could have put over a "steal" like that on the newspaper publishers of America.

**GEN. GEORGE C. MARSHALL.** soldier and statesman, died Friday at 78. He was the greatest American of our generation. In three great wars and in two cabinet posts, Marshall had served his country with distinction. He was a key craftsman of U. S. strategy and policy in World II, in the baffling Cold War with Russia, and in the conflict in Korea against Asiatic Reds. The greatest military force in American history—some nine million men—was at Marshall's command in the greatest war in history. On him fell the responsibility for mobilizing, equipping and training this force and driving it on to eventual victory. In a time of tremulous peace, he was an architect of the Marshall Plan, to bolster with American billions the economies of Free World nations and their will to resist communism. For that, Marshall was honored with the Nobel Peace Prize in 1953.

## EDITORIALLY SPEAKING

BURT LOCKHART
in Pittsburg Gazette

The reason an editor does not print everything he hears is because he wants to continue to live in his home town.

Our friend up the street thinks that the proper way to lend a helping hand is to have some folding money in it.

The cigarette bill for Americans is placed at six billion dollars for 1959. Lung cancer seems to have no fears for smokers.

Our reader up the street says the only economy car he has seen lately was one that had all the tires off and was locked up in the garage.

However costly they may be, strikes go on just the same. It is generally agreed that nobody wins, but the game is played—win or lose.

If a bank is held up by masked men we call it robbery, but if the robbery takes place behind mahogany desks, we call it misappropriation of funds.

Christianity is reported to be losing ground in South Africa. Probably the natives are more interested in material blessings from Washington than spiritual aid from Heaven.

With a million men out of employment it looks like unemployment benefits are going to be depleted, belts tightened, credit weakened and industry hurt. And yet strikes go on as if they were profitable.

Gov. Daniel's reason for wanting a third term is to wind up some unfinished business of the last legislature. If the next legislature is no more co-operative than the last, would it not be better to change the legislature instead of the governor

### GOOD QUESTION

A story now being told of life behind the Iron Curtain:

Josef: "If the Western powers attack us, our agents will carry atom bombs concealed in suitcases to Paris, London, Rome, New York and all the other big cities of the capitalist imperialists and destroy them."

Periv: "I guess we'll have enough bombs by then, but how about suitcases?"

### GREAT CONSOLATION

Mrs. Flanagan told her dear friend, Mrs. Murphy. that her son was coming home from prison. Mrs. Murphy said, "But I thought he had another year."

Explained Mrs. Flanagan: "He got off for good behavior."

"Ah," said Mrs. Murphy, "it must be a great consolation to know you have such a good son."

### PROBABLY

"Mates who drive with one hand are headed for the church aisle. Some will walk down it—some will be carried."

# ALCORN PREDICTS RUSSIA'S SPACE WORK WILL FALL OFF

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur, believes he has discovered a fatal error by the Russians, his letter this week indicates.

Dear Editar: I've got other things to worry about which I haven't gotten around to worrying about yet, without spending too much time worrying about the Russians, but since everybody else seems to be concerned about them and what they're up to. I think it would be a public service to point out anything we can find that indicates the Russians aren't perfect and a race of supermen.

Well, I have now found a chink in the Russian armor, or a break in their bobwire fence, if you want to put it in modern terms.

According to a small item on an inside page of a newspaper I read last night, sort of one of those items a newspaper fills up with to have something to go around the advertisements. the Russians have now inaugurated installment buying. They can now go into a store and pay 10 per cent down and come out with a refrigerator.

As far as I'm concerned, this is one of the most satisfying news items to come out of Russia in years, and a smarter editar would have put it on the front page.

I figure installment buying will slow down the Russian outer-space work and the Russian war maneuvering by years, as one of the hardest things on earth to do is to get excited about what's on the other side of the moon when the finance company is hounding you for a payment on your washing machine.

If the United States is smart about this, it'll rush a squadron of credit managers and supersalesmen over to Russia right away and get everybody over there trying to out-buy and out-install everybody else.

You let two-thirds of the Russians get saddled down with a long series of installment payments, and we'll be on even terms with them when it comes to conquering space.

It's almost impossible to keep your head in the clouds when you've got yur nose to the grindstone. Yours faithfully, A. A.

**STRICTLY FROM HUNGER**

"Now tell me," said the personnel manager. "just why you want to work for us."

"Well, sir," the applicant answered, "I got sick and went to my doctor. He gave me five pills and told me to take one after each meal. That was three days ago and still have four pills left."

## How much will get through "THE PAPER BARRIER"?

In the settling of an estate, a lot of paper work is involved. Much of that work is the responsibility of the Will's Executor. If the Executor lacks experience, the estate may suffer considerable loss.

That's plain talk—but the future welfare of loved ones is no trifling matter.

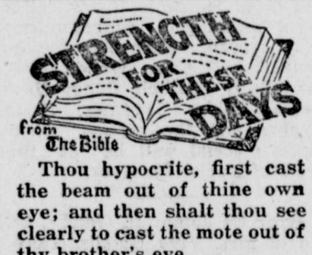

Our institution has served many estates: We *do* know the job. Have your lawyer draw *your* Will; look into the advantages of naming *us* Executor!

# Cooling Waters Cause Turnover In Texas Lakes

Austin. — The "turnover" of lakes means the mixing of water in lakes, according to the assistant director of Inland Fisheries. Texas Game and Fish Commission. "This mixing is brought about by the cooling of the water in lakes during the late fall of the year."

In the early summer or late spring three distinct layers of water form in the larger lakes and in some of the smaller lakes of Texas. The upper layer is called the Epilimnion, the middle layer is the Thermocline, and the lower layer is the Hypolimninon. The top layer becomes warmed by the sun and since warm water is light, tends to remain at the surface. In the middle layer there is a rapid decrease in temperature in a downward direction. The lower layer remains cool and because cold water is heavy, tends to remain at the bottom of the lake.

In late spring or early summer, the top layer is relatively thin. As the sun's rays heat the water, this layer becomes thicker and extends itself deeper until, in some of our deeper lakes, it may be as much as 60 feet thick in late summer.

The lower layer becomes a "biological desert" in which there is very little or no oxygen and only anaerobic bacteria can survive. The wind continues to circulate the top layer but, because it is light water, it fails to mix with the lower heavier water in the Thermocline and in the bottom layer. This causes the bottom layer of water to become stagnant and to contain odoriferous decomposition gases, toxic to fish.

As cool, fall weather moves in, the upper water is cooled, becomes heavier, and settles to a lower level. As it settles, mixing between the upper layer and the bototm layer commences. Once more, the winds churn the water and assist this mixing action.

Soon, the three layers are one and the temperature is fairly uniform from bottom to the top of the lake.

The odor. noticeable in the tailraces below dams is caused by the drawoff of water from the lower levels of the lakes.

By early winter, the lakes have "turned over."

# Support Rates Cut '60 Cotton Crop

Washington.—Secretary of Agriculture Benson has proclaimed marketing quotas for the 1960 coton crop and set Dec. 15 as the date for growers to vote approval or rejection of the controls.

Approval by at least two-thirds of the growers voting is required to make the quotas effective. They were approved for this year's crop by 92.2 per cent of the growers voting in a referendum last December.

Under the program—designed to prevent overproduction—a total of 16,000.000 acres will be allotted growers for planting cotton for next year's markets. This is the premium acreage allotment permitted under farm law — largely on the basis of past production history.

As was the case this year, growers will have the choice of abiding by their individual allotments or of overplanting them by 40 per cent.

Those abiding by allotments would be eligible for government price supports at 75 per cent of the parity price of cottin, while those overplanting would be eligible for supports at 60 per cent of parity. The respective rates this year were 80 and 65 per cent of parity.

**HEN HITCHES RIDE, THEN LAYS AN EGG**

Moultrie, Ga.—The hen got a ride, the farmer got an egg, and everybody had a big laugh,

That's what happened when Ed Edwards of Moultrie drove to the nearby farm of R. J. Deas.

A loud cackling from Edwards' truck interrupted the conversation. One of his hens had built a nest under the back seat of the truck and had settled down before the farmer left home.

**CORN CROP AT RECORD HIGH; WHEAT ALSO UP**

Washington.— Agriculture Departmetn Friday estimated the 1959 corn crop at a record 4,429,-154,000 bushels and the wheat crop at 1,117,430.000 bushels.

The corn forecast is 47,382,000 bushels more than the 4,381,772,-000 bushels forecast a month ago.

# Does Life Begin At Seventy Years?

Indianapolis. — Is a man past 70 to old to work?

No. says the Indiana appellate court in a new ruling. "Professional men and women are known the be at their best upon reaching the age of 70.

The court ruled in the case of Elmer Bole, who was ousted as police chief of Ligonier in 1956 on the ground that he was too old for the job at 71. Now 74, Mr. Bole was petitioning the court for reinstatement to his job and back pay.

The judges noted that common law has never held that a person becoming 70 "suddenly lost status in being a man and . . . became a disabled shell of his former self." It ordered Mr. Bole's case back to a lower court for rehearing.

L. A. Adams of Mt. Pleasant was named vice-president and Billy Traylor of Hughes Springs, sec'y-treas.

Legislators who voted to put a tax on advertisements could have made the situation more ridiculous by voting a tax on every word spoken by office seekers over the TV and radio, thus advertising their candidacy for office. The bill would have driven a nail in the coffin of free speech and a free press. Fortunately, there were enough men in the legislature to recognize the evils of the bill to bury it under a big vote.

## RAILROAD FEATHERBEDDING:

# $500,000,000 LOSS

## TO THE NATION—INCLUDING YOU—EVERY YEAR

Featherbedding on the railroads — pay for work not done or not needed — is costing the American people the shocking total of more than $500,000,000 a year.

You pay for it every time you shop, because featherbedding costs are hidden in the price of everything you buy.

Obsolete union work rules, involving the railroad operating employees, are responsible for this gigantic burden. Right now, for instance, these rules require every diesel locomotive to carry a fireman — even though diesels have no fires to stoke, no boilers to tend.

The forthcoming negotiations between the railroads and the unions are urgently important to the whole nation.

In asking the unions to drop these featherbedding rules, all the railroads ask for is **a fair day's work for a fair day's pay.**

## The big change is to an ELECTRIC range

## ...because it's ACCURATE

An electric range takes the guesswork out of cooking. Measured heat electric surface units give you exactly the same heat from the same switch setting every time. The electric oven is precision controlled to provide the precise temperature and cooking time your recipe calls for. There's no need for pot-watching and oven-peeking. With accurately measured and controlled electric heat, you can expect cook-book results every time. See your local appliance dealer soon for a modern electric range.
