Six Itinerants Killed When Freight Train Wrecks

SEVENTH IS IN HOSPITAL NEAR DEATH

DIGHTON, Kan., May 9. — Six itinerants were instantly killed when the Missouri Pacific freight train they were riding was wrecked 17 miles west of here today.

All the dead were riding in one box car. The journals of the car were burned out and it nose-dived into the right of way. Sixteen cars telescoped through it. An ambulance from Dighton brought the bodies here.

Two of the dead men were identified as Ora and Norman Rogers, brothers, of Crowley, Colorado.

A seventh man was taken to Ransom, Kansas, hospital where his condition was pronounced critical.

CISCOANS PUT ON PROGRAM AT COUNTY HOME

The inmates of William Eppler Memorial home, more commonly known as the County home, were made glad Friday when a group of Cisco church people put on a Mother's Day program for them at the home and presented them with fruits, candles and other edibles. Also they left many books and magazines.

Circle 4 of the Cisco Baptist Woman's Missionary society sponsored the entertainment and the visit. Among those in the group were: Mesdames D. D. Lewis, J. B. Harris, H. D. Blair, S. B. Parks, Eugene Langford, S. A. Green, S. C. Odum, A. D. Estes, W. L. Curry, W. I. Ghormley, I. Lamb, R. T. Porter, J. B. Wood, A. A. Williams, Cecil Adams, C. E. Allen, C. O. Meek, Jasper Daniels, B. Montgomery, Bob Key and Miss Velma Green.

The Mother's Day program led by Mrs. H. D. Blair, was as follows: Songs — "The Old Home Place," "My Mother's Bible," "Tell Mother I'll Be There," "Give Me Three Roses While I Live."

"What a Friend We Have in Jesus."

Devotional — From Proverbs 31, conducted by chairman of Circle 4, Mrs. D. D. Lewis.

Reading — By Mrs. Cecil Adams, Margaret Key and Ruby Gene Meek. Superintendent Pafford of the County Home stated Saturday not only himself but every person at the home wished to thank each and everyone in the party for their visit to the home, the splendid entertainment furnished and the many good things to eat they gave the inmates.

Former Ciscoans Make Visit Here

Mr. and Mrs. E. J. Battaille, of Malone, Texas, and their two sons were here Friday visiting the Rev. and Mrs. H. D. Tucker. Mr. Battaille, who is publisher of a newspaper at Malone, will be remembered by many Ciscoans as having resided here several years prior to 1922 when he moved. He and his family were en route to Abilene to visit his sister, Mrs. G. Fiske.

EXPECTED BACK

Miss Ruth Ramey, county home demonstration agent, accompanied by Mrs. Lee Burkhead of Rising Star were expected to return to Eastland Saturday from Denton where they have been attending a meeting of county demonstration agents.

LITTLE KNOWN MOTHERS OF WELL KNOWN FOLK

Here Are Women Whom Some Famous Americans Will Honor on Mother's Day

Famous sons and daughters occupy the spotlight for 364 days of the year — but Sunday is Mother's Day. And in the pictures above, The Cisco Daily News NEA Service cameramen lift these mothers of noted Americans out of the comparative obscurity in which they live. Air-minded mother of an air-minded son, Mrs. Evangeline Lindbergh is shown in aviation

toys, upper left, with Col. Charles A. Lindbergh. Champion Glenna Collett's smile is well known to golf fans, and in the photo, lower left, taken with her mother, you see that the smile is an inherited one. Upper center are Mrs. Charles A. Vallee (at right), whose crooning lullabys in other years may have inspired Rudy Vallee to croon to all the nation; and and at (at left) the mother of

Lou Gehrig, who dished up the first "home plates" the Yankee slugger ever saw. Many political deponents forecast the nomination of Governor Franklin D. Roosevelt as the next Democratic presidential candidate, and he has no more ardent supporter than his mother, shown with him in center. Helen Willis Moody's return to active tennis competition will be eagerly watched by her mother,

pictured with the court queen, lower center. Mrs. E. N. Nichols, seen upper right with Ruth Nichols, is aiding her aviatrix daughter in her plans for a trans-Atlantic solo flight this summer. And when Elmer Smith, another famed woman flyer, lands after her various record attempts, her mother — seen with her lower right — always is at the field to greet her with a smile.

GET RID OF WEEDS HEALTH BOARD IS ASKING CITIZENS

COOK 4-H CLUB WILL HAVE CAMP

The Lucille-Grace 4-H club of Cook met in a very interesting program entitled "Farm Boy and Farm Girl Club Work."

The program was: "The Farm Boy" by S. J. Clark. "The Increased Desire For Education" by Mattie Weise. "The Influence of Reading" by Bemous Carver. "Play" by Ena Mae Walker. "Physical Development" by Audy Moore. "Companionship With Parents" by Georgia Hunt. "Cultural Interests" by J. A. Munn. "An Appreciation of Farming" by Agnes Williams. "Community Leadership" by Roy Williams. "Club Work Begins" by Reba Clark. "The Girls Take Hold" by Alma Walker. "A Great Year's Work" by Muri Moore. "Farms of Organizations" by W. L. Townsend. "The 4-H Emblem" by Lois Walker. "What Is Agricultural Extension Work" by Bulah Walker.

After the program County Agent Patterson talked to the boys about their record books and keeping up their projects. Miss Ramey gave the girls patterns for their aprons and caps. The club camp will be held June 5 and 6.

All the work to be undertaken this year is well started and the club will meet only once more before the camp. Date for the next meeting has not been set.

W. H. Kittrell Is Oldest Alumnus

Next week is weed campaign week, the city health board announced today.

Every homeowner is asked to constitute himself and his family a committee to get rid of the weeds which have already become rank in the alleys, vacant lots, about vacant houses and even in the front yards of occupied residences.

These weeds, which will shortly begin to decay constitute a very serious health hazard, offering harboring places for mosquitoes, flies and other insects as well as filth which is dangerous to the public health.

The board is seeking the cooperation of all the citizens to the end that the campaign may be carried out quickly and effectively.

CONVENTION TO CONSIDER COLLEGE HERE

The Randolph college question will be on the agenda of the state convention of Christian churches at Wichita Falls beginning next Tuesday.

Delegates from Cisco will include the Rev. E. L. Miley, pastor of the First Christian church, and E. B. Isaacks, dean of the college. Prominent members of the denomination who are on the program of the convention are Dr. H. L. Pritchard, of Indianapolis, Ind., Dr. Edgar DeWitt Jones, of Detroit, and Dr. E. E. Snoddy, of Kentucky.

STILL AT LARGE

Marcus Jimenez, Eastland Mexican wanted in the connection with the fatal shooting of Bruno Lopez, another Mexican, in Eastland Wednesday night, was still at large Saturday morning. Officers have the assurance of Jimenez relatives and friends that Jimenez will surrender.

W. H. Kittrell Is Oldest Alumnus

The death of Col. A. T. McKinney, of Huntsville, Texas, last surviving member of the constitutional convention of Texas in 1875, leaves W. H. Kittrell, Sr., of Cisco the oldest surviving alumnus of Austin college. Mr. Kittrell attended Austin college at Huntsville where it was located before removal to its present site at Sherman.

George Robinson, well known journalist of Waco, is the next oldest alumnus. Mr. Kittrell was born in Huntsville in 1851 during the lifetime of Sam Houston and Henderson Youakum, first historian of Texas, who lived there. He attended school with his children. His father, Dr. P. W. Kittrell, was family physician to Houston and Youakum. Next to Baylor university Austin college is the oldest educational institution in the state. It was established in 1849.

Sherman Wins Over Cisco Debate Team

AUSTIN, May 9. — Only final debates for boys and for girls remained on the schedule of literary and public speaking events on the University Interscholastic league's 21st annual state meet today.

Both boys and girls teams from Sherman high school are in the debating finals.

Cisco high school's boys team was eliminated by Sherman.

Famous Scientist Dies Saturday

PASADENA, California, May 9. — Dr. Albert Abraham Michelson, 78, dean of American scientists, died at his home here today.

The distinguished career of Dr. Michelson ended at 12:55 p. m. when he died, with his wife, Mrs. Edna Stanton Michelson, and a daughter Mrs. Sheldon Dick, of Provincetown, Mass., at the bedside.

Dr. Michelson was unconscious at the time of his death. Late yesterday he suffered a cerebral hemorrhage and a stroke of paralysis.

From that moment the great mind of the scientist remained in a coma from which Dr. Michelson never recovered.

HOUSE PASSES EDUCATIONAL FUNDS BILL

AUSTIN, May 9.—The Texas house of representatives today passed finally its educational appropriations bill carrying \$14,300,000 for two years. The departmental appropriation bill was then called up and given a place on the calendar so it will be pending business for Monday.

The educational appropriation bill is approximately \$1,700,000 less than the total when it was presented to the house. Proposed buildings totalling \$950,000 was stricken from the bill. All salaries between \$1,500 and \$2,750 were ordered cut five per cent and those over \$2,750 were ordered cut 10 per cent. These mean actual cuts below the present salaries in the university and other state schools as they had been placed in the bill at existing amounts.

Collects Back Pay for Juror Service

A. S. Brooks, formerly of Eastland county but now residing in Sweetwater, was at Eastland this week to collect back pay for services he rendered Eastland county and the state in Nov. 1922. Brooks told Mrs. Mae Harrison, county treasurer, that in November 1922 he served four days as a juror to which he was entitled \$3 per day, or \$12. Mrs. Harrison looked up the records and found that the county owed the \$12 and said it would be paid.

R. A. Williams Is Back on Visit

R. A. Williams, formerly assistant superintendent of District B of the West Texas Utilities company and now commercial manager for the Southwest Utilities company engaged in power development in the new East Texas oil fields, is here on a brief visit with his family. He will return this evening to Longview where he has headquarters.

W. T. B. OF A. OFFICERS TO MEET HERE

Cisco will be hosts to the next meeting of the officers and directors of the West Texas division of the Broadway of America Highway association. At the meeting in Colorado Friday the invitation of L. B. Campbell, of Cisco, was accepted and the date for the meeting will be announced later. J. E. Spencer also attended the meeting from this city.

H. P. Davis, of Pecos, was chosen secretary-manager of the association. Plans for distributing 25,000 maps and other literature were discussed but decision was held up pending conference with officials of the Broadway of America Highway association for the purpose of correlating activities of the two.

The meeting is due to be held here within the next two or three weeks, it was said.

E. H. VARNELL WINS HONORS AS INSTRUCTOR

E. H. Varnell, Cisco vocational agriculturist, last night attended the meeting of the West Texas Vocational Teachers' association, of which he is president, at Abilene. The association is composed of some 20 teachers in this section.

Mr. Varnell for the second time in as many years was awarded second place in the master vocational teachers contest in Texas. All vocational teachers in the state are graded on their general program and success in carrying out this program. Mr. Varnell won second place last year also. Mr. Elam, of Taylor, Texas, took first place. The contest amounts to a rating of the vocational teachers of the state in efficiency and ability, and Mr. Varnell's high standing is to Cisco's credit.

Information that he had won this distinction again was brought to Cisco Friday by J. B. Rutland, of Austin, assistant supervisor of vocational education in the state. While here Mr. Rutland visited a number of other schools in this section, including Ranger, Rising Star, Cross Plains and Brownwood.

GREEN LANTERN IS RAIDED BY OFFICERS SAT.

Officers led by Sheriff Virge Foster raided the place known as the "Green Lantern Tea Room" on the Lake Cisco road Saturday afternoon at 3:30, making one arrest and confiscating a quantity of bottled beer.

Charges were filed in Justice of the Peace McDonald's court Saturday and a fine paid.

Officers making the raid with Sheriff Foster were Constable R. L. Wilson, of Cisco, and sheriff's deputies Louis Woods and Steel Hill, of Eastland.

World Chamber to Urge Arms Cut

WASHINGTON, May 9.—The International Chamber of Commerce prepared to make a significant gesture at its closing session today by suggesting that reduction of war debts, tariffs and the cost of armaments and navies may offer relief from the world depression.

While the resolution to be adopted today is general in character any action along this line by the representatives of 36 nations will be considered important to the chancelleries of the world.

Zoo Needs Lion, More Monkeys--- You Can Help

The Cisco zoo wants a lion and some more monkeys. Of all the animals who inhabit zoos for the amusement of the public — these animals, are the most desirable because they are traditionally associated with circuses and zoos and because, for various reasons, they invariably attract the greatest interest.

Dr. Charles Hale, whose hobby is the zoo, who devotes his spare moments zealously to its development and who more than any person in Cisco is responsible for the praiseworthy institution that has been built up at Lake Cisco, has a plan. Briefly that plan is to organize among the citizens of Cisco a zoological society similar to those existing in Fort Worth and other cities, the funds derived from this society to be used in buying additional animals and making the replacements that are necessary.

Everybody Can Help.

Every man, woman, boy and girl in Cisco would be given an opportunity to have a part in this work. The annual fee would be small but if enough people take an interest in the organization the total funds raised, while not great, would be sufficient to carry out a program that would insure the city of an attraction such as does not exist elsewhere in this section and which would continue to be as it is now a strong drawing card for this city.

One who doubts the interest which the Cisco zoo creates can very quickly disabuse his mind of the misconception by visiting the site on a warm sunny Sunday afternoon. Literally hundreds of people pass through the place in the course of such a day. Add a lion and a cage of eight or ten monkeys to the menagerie and the number of visitors will be increased an astonishing percentage. Not only individuals but large groups including school children frequently visit the spot, inspecting the zoo, the swimming pool, the lake and making enjoyable employment of idle afternoons among the attractions that are provided about the lake site, attractions not afforded them in collection at any other spot in this part of Texas.

Vacation Center.

Dr. Hale and his co-workers realize the potential value of this place as a vacation center and they visualize an extensive exploitation of the potentialities, at only a small cost. The place is ideal for picnicking and vacation parties.

If the people of Cisco will join hands with Dr. Hale and those who are associated with him it will not be difficult to provide the essentials for the fullest development of this possibility and the proposed zoological society is one of the surest ways of putting this cooperation to work.

Nobody else will provide these things. Cisco must do it for itself.

JOE CLEMENTS IS IMPROVING CITY STREETS

Street Commissioner Joe Clements is making needed improvements on Cisco streets at a number of points about the city. Although he has been in office but a short while he has carried out a number of projects which provide more convenience and better service for the public.

Particularly at G avenue and Sixth street he has constructed concrete steps where wooden steps formerly were in use.

A number of improvements on H avenue and Sixth streets testify to the interest which the new commissioner is taking in his job.

SUBSTITUTED CARTRIDGE.

QUINCY, Ill., May 9. — Sixteen-year-old Arthur Weisenberger recalled today that he was the one who put the real bullet in the stage gun which killed Mildred Hughes last night during a rehearsal of the home talent play, "The Jade God."

LAST TASK UNCOMPLETED BESIDE HIM

WACO, May 9.—The heart that built a life of far-reaching influence around the name of Dr. Samuel Palmer Brooks continued to fail tonight.

The condition of the dying president of Baylor university ravaged by abnormal cancer, remained extremely critical, Dr. J. T. Harrington announced.

Rev. J. M. Dawson, the "Prexy's" pastor, visited the death bed late today and discussed favorite scripture passages with him.

"This is the death of a true Christian," Rev. Dawson commented on leaving the room at Baptist sanitarium.

A mantle of sadness about the hospital room was lifted for a moment late today when Martha Lou Brooks, a granddaughter, was led in. Dr. Brooks was unable to see the child whom he had personally ministered to in her infant illnesses, however.

On a table near by the death bed lay 168 unsigned diplomas, remnant of the last task Dr. Brooks had undertaken. Several times this week he attempted the work of inscribing 468 diplomas for this year's class of graduates of the university. He completed 300 of them Thursday but during the last two days has failed to muster enough of his fast-ebbing strength to complete the work. His efforts had already exhausted him and hastened the approaching end.

CISCO W. T. U. DISTRICT WINS SALES CONTEST

District B of the West Texas Utilities company, with headquarters at Cisco, has again won the Fridgidaire sales contest in which all districts of the company participated. As a reward District Supt. P. E. Shepard and Mrs. Shepard will be awarded a trip to New Orleans including excursions to various places of interest along the Mississippi and in the Gulf adjacent to New Orleans.

The contest this season was styled the "Down the River Campaign" with each district represented by the name of one of the famous old steamships which formerly plied the Mississippi. Mr. Shepard's entry was styled the "Kate Adams" it is probable that Mr. and Mrs. Shepard will go aboard their campaign namesake while on their trip.

District B won the contest by piling up a total percentage of 245.8 per cent which was 145.8 over its quota. The Cisco district includes Cross Plains, Rising Star, Putnam, Moran and other towns in this section.

Mr. and Mrs. Shepard will leave within the next few days for their trip.

DAILY BIBLE THOUGHT

RIGHT REASONING: — Let us reason together, saith the Lord: though your sins be as scarlet, they shall be as white as snow.—Isa. 1: 18.

SAFE FROM ALL EVIL: — The Lord shall preserve thee from all evil: he shall preserve thy soul.—Psalm 121: 7.

A VOICE FROM THE TOMB.

Discovery in a barn of more than 20,000 letters to and from Stephen A. Douglas was announced by George Fort Milton, "a literary feller" and newspaper editor of Chattanooga on the 118th anniversary of Douglas's birth. George Milton read all the letters, after which he returned this verdict:

"A reading of Douglas's correspondence leads to the almost inescapable conclusion that the Civil War was an avoidable war, had only there been enough statesmanship north and south to do so."

Perhaps if George had lived in that dead period of history war would have been avoided regardless of the slavery issue and all other issues. All the wise men come into being and activity after the avoidable wars have stained the pages of history. Moses never knew that he was a blunderer until the late Robert G. Ingersoll, thousands of years after the passing of Moses, delved into the catacombs of the past and found sufficient material to fill a large-sized book which he christened "The Mistakes of Moses." It is well for genius of the Fort brand to study mighty men and their measures "now on earth."

ANOTHER WORLD-WIDE DISASTER COMING.

Another world-wide disaster is coming. It involves the extinction of man and the enthronement of woman. The modern young man, said Cosmo Hamilton, the British author, who divides his time between New York and London, is just about 50 per cent below the modern young woman. Cosmo thinks it may be due to rickets or it may be because the modern young man watched the laurel wreaths die during and after the World War and grew up in a world without heroes, without illusions, without God. At any rate the British author and playwright returned this verdict:

"The modern young man is afflicted with half-wittedness, a vacuous ego, undesirable and inability to earn his living, a tender skin and mental freckles. Man should be dominant. The present transcendence of women indicates the decline of the cycle, the beginning of the end."

Col. Arthur Brisbane made a second convert. The voracious as well as voracious Brisbane predicts man will be reduced to the size of a salt water crab in coming time while women will be of Amazonian figure and carry friend hubby about in her capacious pocket. Will this be a survival of the strongest or the fittest?

CATTLE MOVEMENT ON.

Annual movement of 200,000 Texas cattle into the green pastures of the Oklahoma Osage country has begun. Train-loads of white face cattle are arriving at Pawhaska for fattening on the bluestem grass before they move to market. Cattlemen say the grass is plentiful and the water supply adequate. Nearly 100,000 head of cattle were wintered in the Osage country. In 1930, 200,000 Texas cattle were grazed, although in other years the number reached a mark higher than 400,000 head.

DEATH BY FIRE IN TEXAS.

State Fire Insurance Commr. J. W. DeWeese has the figures. Since 1922 the records show 2530 Texas men and women and children have met their death by fire. Three hundred and forty Texans were burned to death last year. A large percentage of the deaths was caused by improper use of kerosene and gasoline. He warned the public that the practice of cleaning clothes with gasoline was a dangerous one. He asked motorists not to smoke in a garage or in their automobile while the tank was being filled. Man at best is a careless creature. Warnings go over his head.

Sunday Services
at The Churches

FIRST PRESBYTERIAN CHURCH

Sixth street at H Avenue. Today is National Mother's Day, and though exploited by commercial organizations for the sake of gain, it was never intended for that, but has been observed most fittingly by the church, from the Day's inception, by honoring her if alive by attending her church and properly worshipping her God, and if dead by declaring sacred her memory by worshipping as she did while with us in the flesh. Let us properly observe the day today. Sunday school is at 9:45; and morning worship at 11. Young People's League is at 7:00; and the evening Praise at 8:00. The called congregational meeting this morning will follow the morning worship, which will be abbreviated. A mother's day message will be delivered by the minister, and Mrs. Ben McClinton and the choir will furnish special music. There are matters of great importance to be voted on in the congregational meeting, so every member is urged to be there for that. Everybody is invited to the service preceding, but will be given the privilege of going before the congregational meeting if they so desire.—BRUCE C. BONEY, minister.

HOLY ROSARY CHURCH

Mass today will be at 8 a. m. by Rev. M. Collins. The sermon will be on Mother as this is Mother's Day. The Gospel read in the Mass today is taken from St. John XVI. 23-30 wherein Christ tells his disciples that if they ask the Father any thing in his name He (the Father) will give it to them. Thursday of this week is Ascension Thursday the anniversary of Our Lord's Ascension into heaven, and it is a holiday of obligation in the Catholic church.—All are required to attend Mass which in Cisco will be at 7 a. m. and

in Eastland at 8 a. m. The May decorations will be given on Tuesday at 8 p. m.

EAST CISCO BAPTIST CHURCH

511 East Twelfth street. The revival is going fine. Rev. H. D. Blair is bringing wonderful messages at each service. We are expecting the largest attendance in Sunday school to day that we have ever had. Sunday school at 9:45, then at the preaching hour, Rev. Blair will bring an appropriate message for Mother's day. At 1:30 p. m. a Mother's day program will be given. B. Y. P. U.'s will meet at 7 p. m. Preaching at 8. If not in Sunday school or church elsewhere come to these services, for we feel they will be a blessing to every one. The meeting will continue through next week. A most cordial welcome awaits you at our church.—JAMES L. SMART, pastor.

CHRISTIAN SCIENCE CHURCH

The lesson sermon subject in all Churches of Christ, Scientist, Sunday, May 10, is "Adam and Fallen Man." Galatians 6:3 furnishes the golden text: "If a man think himself to be something, when he is nothing, he deceiveth himself." Included in the lesson-sermon are the following verses from the first and second chapters of Genesis: "And God said, Let us make man in our image, after our likeness. . . . But there went up a mist from the earth, and watered the whole face of the ground. And the Lord God formed man of the dust of the ground, and breathed into his nostrils the breath of life: and man became a living soul."

WOMAN GAINS
IN FIGHT TO
WARD DEATH

EASTLAND, May 9.—Miss June Arnold, confined in the Payne hospital in Eastland where she is suffering from an accidental injury to her head, is apparently gaining slightly in her fight to ward off death. Attendants at the hospital stated this morning that she is still in a very critical condition, but had regained consciousness.

The young woman, while working in the hospital kitchen, sustained the injury to her head Wednesday when she struck it against the sink as she raised up after stooping to pick up a towel. Miss Arnold told hospital officials that her home was in Patterson, N. J. No word had been received from relatives. No efforts have been made to communicate with them, however, except that the story of injury and serious condition was carried in press reports throughout the country.

WEIGHT AS A MEASURE OF TIRE QUALITY IS NOT INCLUDED IN THIS TABLE FOR TWO REASONS:

1st, Because no two tires of the same brand and size weigh exactly alike, and

2nd, Because quality of rubber and cotton fabric used, rather than the compounded weight after being mixed with other ingredients is the determining factor. Reclaimed or second hand rubber weighs more than new rubber. Tires containing a large percentage of second hand rubber, therefore, weigh more than those made entirely of new rubber—even though the tires are exactly alike in size—so "Weight as a standard by which to measure tire quality MEANS NOTHING."

The TRAIL BLAZER is Ward's second quality tire. We frankly admit it. But—certain manufacturers and dealers, jealous of Ward's deserved preeminence in the tire industry, are making and publishing misleading statements about Ward's tires. They give specifications which are NOT those of Ward's tires; and they then compare the prices of their second quality tires with those of our first quality tires—the famous Riversides. The table above shows accurately the manner in which TRAIL BLAZERS compare in quality and in price with other well known makes.

These other misleading advertisements (and if they are not intended to deliberately fool tire consumers, what IS their purpose?) also say that "Mail Order Tires are made by some unknown manufacturer . . ." Well, Ward's tires are made by one of the largest tire companies in the world; a company that has always been famous for the fine quality of its products!

COMPARE

SIZE	WARD'S Trail Blazer	Firestone Oldfield Goodyear Pathfinder Goodrich Defender
29x4.40/21	\$4.55	\$4.98
30x4.50/21	5.15	5.69
28x4.75/19	5.95	6.65
29x5.00/19	6.30	6.98

Not all sizes have been listed—but enough to give an idea of how prices compare. And by the way, Ward's prices are even LESS when you buy in PAIRS!

Ward's Always Sells for Less

No Montgomery Ward tire advertisement is complete without mentioning Ward's first quality Riversides. Riverside tires are one of the best known brands in America. They have been sold for 19 years. They, too, are made by the same large tire manufacturer mentioned above. They are the finest quality it is possible to produce. They are backed by the most liberal tire guarantee ever written. And they sell for less than any first quality nationally advertised tire on the market! These sound like sensational claims. But Montgomery Ward & Co.—one of the largest and oldest merchandising institutions in the world—now in its 60th year in business—the originators of the "Satisfaction Guaranteed or your Money Back" guarantee—stands back of every claim made in this advertisement.

Cisco Commandery Gives Social for Masonic Bodies

Snaps, dragons, carnations, ferns, and other spring flowers furnished a lovely floral setting for the social given Friday evening at the Masonic hall by the Cisco Commandery No. 47 Knights of Templar for the Cisco Lodge No. 556 A. F. and A. M., Cisco Chapter 190 R. A. M. and the Cisco Chapter O. E. S. Mrs. Grace Bettis, chairman of the program committee, presided. An orchestra, composed of Mrs. Ben Krauskopf, leader, Mrs. John Kleiner, Mrs. Troy Powell, Mrs. Geneva Fayte, Bernard Weiser, Herbert Wendt, and Martin Wendt rendered several very enjoyable numbers. Judge Scott gave the welcoming address. Mrs. Krauskopf, accompanied by Mrs. Troy Powell at the piano, favored those present with a violin solo. A very clever stunt, called "Emigrants", was put on by a group of little girls in costumes. In the group were: Evelyn Cullum, Edith Rumbaugh, Loraine Walker, Noma King, Marjorie Lee Morton, Vada Bell Tomlinson, Marnae Tanner, Ruth McKissick, Ruth Rowe, Joan Kimbell, Rosa Lee Kirshner, Anna Rae Clowe, Betty Lou Blankenbecker, Alma Lee Farmer, Evelyn Clements, and Katherine Summers. Mrs. Ben McCollinton sang a solo accompanied by Mrs. L. Waterbury. Miss Margie Linder gave a reading and a dance in appropriate costume. A mixed chorus, composed of Mrs. McCollinton, Mrs. Jamison, Mrs. Wallace, Miss Jewel Boyd, Judge Patterson, Rev. B. C. Boney, and Lory Boyd with Mrs. E. A. Murrell at the piano gave selections. Mrs. P. L. Ullom, accompanied by Mrs. L. Waterbury, sang "The Holy City", while Miss Louise Karkalis gave a chalk illustration. A violin number by Mrs. A. Thomas, Mrs. Krauskopf, and Mrs. Geneva Fayte accompanied by Mrs. John Kleiner, pianist, dedicated a number to the mothers present.

Immediately following the program, a social hour was enjoyed. An announcement that each man was to choose some woman other than his wife for a partner when refreshments were served proved very exciting. A very attractive salad plate was served and blue bonnets were given as favors. Chairman of the various committees were: Mrs. Grace Bettis, Mrs. H. O. Westerfeldt, Mrs. Sherman Roberts, George Boyd, Roy Wilson, J. M. Witten, and K. Pittard. There were between 170 and 175 guests present.

JUNIOR CLASS HAS TREASURE HUNT.

A lovely picnic lunch was served at which the class members returned to town to attend the show and play golf.

Hollis Clark, Alan Lynch, Dayle Dudley, and James Martin, rendered two enjoyable numbers. Following the program, a short business meeting was held, after which the class presented their sponsor, Mrs. Ina Querry, with a beautiful vanity set. All joined in singing the Alma Mater.

Cisco Auto Concerns Push Business as Spring Opens

NEW MODELS ON DISPLAY BY DEALERS

With the coming of spring sunshine and the eternal hope that swells up in human breast at this time of year, the business plans of many concerns in Cisco are getting away from the toils of the depressing influences of past months.

They are planning aggressive campaigns to bring good business back rather than wait for it to come—a thing that will never happen—“Prosperity will not come to a business,” said a prominent merchant recently, “we must go after the prosperity.”

The automobile concerns of Cisco evidently believe that, since they are displaying their new 1931 models and are interesting prospective customers with their sales talks.

The A. G. Motor Co., have just received their line of the New Chevrolet Six, led by the dressed-up Special Sedan. This new line has proven very popular, especially since the first of the year, leading all other makes of cars in sales.

A. D. Anderson says his organization is going to make this the banner year for Chevrolet by extending, along with the smooth six performance of their cars, an unexcelled service in all branches of their business. They invite an opportunity for demonstrations.

The New 1931 Ford is as usual always on the job. The Blease Motor Co., like their cars which always arrive at their destinations along with the others, is showing its pep by displaying the latest of the 1931 models. A new Town Sedan is now being shown for the first time and other 1931 models of the New Ford are also on display at their show rooms. A message on these cars will appear from the Blease Motor Co. in these columns within the next few days. Mr. Byrnm assures that his organization is outdoing itself on service to his patrons.

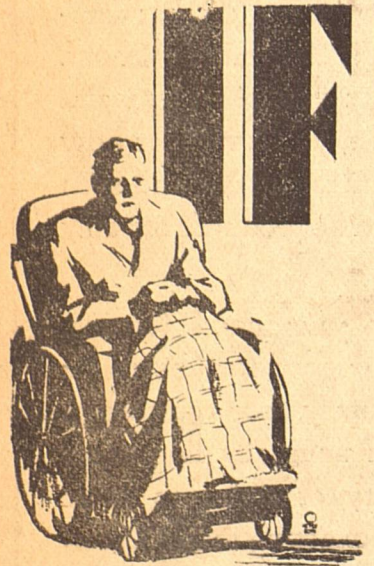

The Carroll Motor Co., at its new quarters on Main street, is also going after business rather than wait for it to just come. New painting of floors, exteriors, interiors, new signs and a general air of activity is observed there and the new Hup with its free wheeling is being featured and demonstrated to prospective customers. Other new cars will arrive in the next few days, according to Mr. Carroll.

It is safe to predict that the next few months will witness the buying of many new automobiles as well as buying in other commodities. People have been in the dumps too long already, they don't enjoy it, and never fear, they'll find something to use for money. It's aggressiveness that wins. Prosperity Will Not Come—We must go get it.

Church to Elect Deacon and Trustee

The session of the First Presbyterian church last Sunday issued a called meeting of the congregation for this morning at the close of the 11 o'clock worship period. Among other important matters to be decided by vote, will be the election of a deacon to fill the place of one who has moved away, and the election of a trustee to fill the place of one deceased. The board of deacons has another matter of vital importance to present. The Mother's Day message will precede this, but will be brief that the hour practically cover both message and called meeting.

SUNDAY SCHOOL LESSON THE PARABLE OF THE POUNDS

Text: Luke 19:11-26.

And as they heard these things, he added and spake a parable, because he was nigh to Jerusalem, and because they thought that the kingdom of God should immediately appear.

He said therefore, A certain nobleman went into a far country to receive for himself a kingdom, and to return.

And he called his ten servants, and delivered them ten pounds, and said unto them, Occupy till I come.

But his citizens hated him, and sent a message after him, saying, We will not have this man to reign over us.

And it came to pass, that when he was returned, having received the kingdom, then he commanded these servants to be called unto him, to whom he had given the money, that he might know how much every man had gained by trading.

Then came the first, saying, Lord, thy pound hath gained 10 pounds.

And he said unto him, Well, thou good servant, because thou hast been faithful in a very little, have thou authority over ten cities.

And another came, saying, Lord, behold, here is thy pound, which I have kept laid up in a napkin.

For I feared thee, because thou art an austere man; thou takest up that thou laydest not down, and thou dost not sow.

And he saith unto him, Out of thine own mouth wilt thou judge thee, thou wicked servant. Thou knewest that I was an austere man, taking up that I laid not down, and reaping that I did not sow.

Wherefore then gavest not thou my money into the bank, that at my coming I might have required mine own with usury?

And he said unto them that stood by, Take from him the pound, and give it to him that hath ten pounds.

And they said unto him, Lord, he hath ten pounds.

For I say unto you, That unto every one which hath shall be given, and from him that hath not, even that which he hath shall be taken from him.

The International Sunday School Lesson for May 10. The Parable of the Pounds. Luke 19:11-26.

By WM. E. GILROY, D. D.
Editor of The Congregationalist

The parable of the pounds may be fittingly compared with the parable of the talents, which will be found in Matthew 25:14-30. The similarity between the two parables is so striking that it is quite possible that they may be different versions of the story as it originally fell from the lips of Jesus.

Our business here is not to dwell on the difference between the two narratives, but upon the teachings of the parable, comprising our lesson. The circumstances under which the parable

was spoken should be particularly noted.

The parable was spoken because the company was near Jerusalem, and those who surrounded Jesus were anticipating some outward manifestation of power in which the Kingdom of God would be established upon earth. To this company in this mood, and with this expectation Jesus proclaims the message of faithfulness. The law of the Kingdom, he points out, is not fulfilled in a gracious and earnest waiting for it but in faithful devotion, according to one's talent and abilities, to the tasks that pertain to the Kingdom.

Parable Teaches All.

All this Jesus teaches through the story of a nobleman who went into a far country to receive for himself the kingdom and to return. Calling to himself 10 servants, he gave them each one pound and imposed upon them the task of faithfully using the money to promote his interest.

The nobleman was called back earlier than he anticipated by a revolt in his home territory, and calling his servants before him he inquired how they had performed their responsibility.

The most successful had by his diligence made out of his pound 10 pounds, and his success was rewarded by his receiving authority over 10 cities. The servant who had turned his one pound into five similarly received authority over five cities; but one servant, zealous for the careful keeping of what his master had committed to him, brought the pound which he had carefully laid up in a napkin. Upon this servant there was ex-

pressed the violence of his master's displeasure.

Is not the lesson of the parable very plain? It is in use and service that the responsibilities of life and its gifts are properly fulfilled. Fear of the Lord that is not expressed in devotion to his will lacks the very essence of real reverence and worship. The great end of life is not to keep one's life unsullied, but to make one's life expressive of the things that are most truly worth while. It is not in negation and in restraint that the highest spirit of the expression of religion is made, but in patient devotion to truth and right.

Lesson Applies Today.

Do we not need to learn that lesson today? May it not be that we pray for the coming of the Kingdom without working for its coming and without living according to its principles? The Kingdom of God does not come through pious hope and zealous expectancy; it comes thorough co-operation with the Master in doing the will of God.

Some one has remarked that the tragedies of failure and irresponsibility are not found entirely among the one-pound people who are timid and inefficient, but that frequently it is the man of great capacities who winds up in failure and tragedy. The point of the parable is not that it is the man who is capable of making 10 pounds out of one who is most worthy but the man who, whatever the circumstances and results, does his best.

The implication of the parable is that if this man who kept his pound so carefully preserved in the napkin had really lost it in seeking to use it well, the master would have been more sympathetic toward his loss than toward his failure. It was the fact that he did nothing, but just neglected his duty and his opportunity, that

brought him under such extreme censure. God requires from each of us according to his abilities, and it is according to that requirement that we are judged.

FREE WHEELING POSITION

PULLING POSITION

Hupmobile's Free Wheeling is a simple over-running clutch built integral with the transmission. Mainly it consists of an outer housing coupled to the engine; an inner core coupled to the propeller shaft (rear wheel driving assembly), and three sets of specially hardened rollers of four each, graduated in size.

Both the housing and the inner core rotate in the same direction (counter clockwise). The three sets of rollers operate in a groove, wide at one end and sufficiently narrow at the other to permit the rollers to contact both the outer housing and the inner cam.

When the engine is pulling (see diagram at right above), these rollers wedge into place. When the foot is removed from the accelerator, the engine slows down to idling speed, as does the housing, the rollers drop back to the free position and the car is permitted to Free Wheel or roll forward without interference from the engine. (See diagram, upper left). When the engine is speeded up again, the rollers lock into place and the engine again pulls the car. Regardless of whether the engine is pulling or the car Free Wheeling, the gears remain constantly engaged.

Vacation tips for mothers

Summer . . . vacation time for everyone but Mother. For her, the months from June to September are filled with new duties in addition to her regular tasks. Groups of boisterous youngsters with their many requests, their interruptions. Days are too short for all the things she must do.

To all of you, who have vowed that indeed a woman's work is never done, we offer a few suggestions.

How a telephone helps a housewife

If you haven't a telephone, we suggest that you learn first hand what an aid one can be. It goes to the grocer for you. To the baker, the butcher. It orders . . . quickly . . . bandages and disinfectants for bruised fingers and toes. It brings the doctor hurrying to look after youthful ailments.

Even the children will use it in planning parties, hiking trips and the like.

Try a telephone this summer. See how it enables you to do more work in less time, to enjoy leisure more thoroughly, to meet emergencies promptly . . . all for a few cents a day.

Put your telephone on half-pay during vacation

Put your telephone on vacation half-rates while you are away this summer. You save money, keep your present telephone number and your name remains in the telephone book. Calls during your absence can be transferred to another telephone. Vacation rates apply to residence telephones for periods longer than 30 days.

Series of Sermons to Be Delivered

"The Book of the Ages" is the subject for a series of three sermons to be delivered by the Rev. A. Rathjen, pastor of Grace Lutheran church. The sermons are to be delivered in the evening services, beginning tonight.

"Since the Bible comes to us, demanding that we submit to it, body and soul for time and eternity, we certainly ought to know something about the book, what it is, and whence it originates," said the pastor.

The preacher will speak of the origin, the properties, and the purpose of the Book of the Ages in the three sermons respectively.

Randolph Seniors Enjoy Outing

Senior day was observed at Ran- dolph college on May 4. Early in the morning, just as the juniors were going to classes, the seniors drove away for a day in the open spaces. The Hi-Y cabin on the Leon was their destination. A large fire was kindled so coals would be ready for the cooking. Beefsteak was broiled and coffee boiled and then the meal was spread upon a large rock. Broiled steak, green onions, dill pickles, raisin bread, bananas, cake, coffee, and ice wa- ter rapidly disappeared.

Kodaking and wading furnished amusement in the afternoon. In the evening, the class attended the picture show.

THE SPIRIT OF NEIGHBORLINESS

IF YOU'VE EVER BORROWED A CUP OF SUGAR---

WHEN you must borrow a cup of sugar, or the use of the telephone or a little gas for the car, why do you unhesitatingly appeal to your neighbor?

GROCER, telephone company, filling station would eventually supply your need. But to meet the immediate contingency you call across the back-yard fence. The sugar—and it's good sugar—is handed over. That's service, prompt, efficient, honest. But there's a certain something more to that little transaction—an indefinable something that can scarcely be described in the printed word or illustrated in a catalogue. It's a feeling of mutual understanding and reciprocity, as of one who, having lived long among strangers, returns again to his own people; it's the same feeling that inspires this, and our similar messages to you.

It's the Spirit of Neighborliness.

AFTER all we're more than mere merchant and patron. We're neighbors. And if service, prompt, efficient, honest, is essential to true neighborliness—and we believe it is—that's the service that we sincerely offer and promise to you.
