County Gins 21,842 Bales In 1956 Season

Collingsworth county ginned 21,842 bales of cotton during the 1956 cotton season, preliminary figures released by the Bureau of Census, Department of Commerce, show.

This is almost 10,000 bales less than were ginned during the 1955 season, when the total reached 31,608.

Collingsworth was the second county in production in the southeast Panhandle, exceeded only by Hall, which ginned 25,706. That county in 1955 ginned 41,087 bales. Childress county ginned 8,772 bales this year in comparison to 20,407 last year; Cottle had 11,172 bales this year and 21,574 in 1956. Donley had only 9,059 bales for 1956 and 11,173 for 1955; and Wheeler county had 9,355 bales compared to 13,091 last year.

Top cotton producing county of Texas was Lubbock with 230,539 bales in 1956 and 215,854 bales in 1955.

Wellington School Invites Visitors All Day Thursday

The Wellington Schools are observing Public School Week in Texas with a day of visitation Thursday, February 7, Supt. Bennett Goodloe has announced.

All parents and friends are invited to see the school as it operates on a day-to-day basis, it was pointed out.

Supt. Bennett Goodloe pointed out that visitors are most welcome at any time, but the special invitation is issued for Thursday because of the Public School Week observance.

The school will be dismissed Friday, along with schools throughout the Panhandle, for teachers to attend the District 9 conference of the Texas State Teachers' Association.

New Pump for Dodson Well

The Dodson City Council recently approved the purchase of a new pump for one of the city's water wells, Mayor Bynum Hightower has announced.

The pump will be used as an extra for the time being he said. "For the last two or three summers, we have had plenty of water from our two wells, but there have been a few times that a pump broke down and we were afraid we'd be out of water," he explained. "That's why we want to have the new one on hand."

City Drills Well At Fair Ground

The City of Wellington is drilling a new water well on the old Fair Grounds, City Manager Bura Handley said this week. Four test holes were drilled earlier and one of these looked good enough to develop.

All-School Event

Quail Pageant Tuesday Traces Texas History

More than 250 years of Texas history will be traced in song and acting by the students of Quail school in their annual all-school program Tuesday, March 12. This program is in observance of Public School Week.

Held in the high school gym, the program will begin at 7:30. Legends associate with the state flower, bluebonnet, the mockingbird and the state seal will be incorporated in the pageant.

First efforts at Christianizing the Indians will be shown when Richard Keller portrays Father Massenet, who reached Texas in 1689. Pioneer boys and girls will sing to portray that period.

Sam Houston, played by J. C. Saunders, will reveal how the Texas seal was adopted. Junior high girls will show in song the influence of Mexico. Homemaking students will depict the story of the making and adopting of the Texas flag, while Future Farmers will conduct Judge Roy Bean's Court. The High School boys chorus will give World War II songs.

Narrators will be Nancy Emmert, Diane Moseley and Virginia

Moisture Nears Two and a Half Inches; Far Above Normal

The county, during the first two months of the year, plus five days of March, received 2.41 inches of moisture, more than twice the amount of moisture that it normally gets, and February alone accounted for 1.18 inch.

More than that, rain fell on almost one third of the days during February, records of Odus Killingsworth, Weather Bureau Observer, show.

Farmers consider almost unbelievable the fine condition of the wheat, much of which was dusted in.

Old timers remark that there

may have been years when there was more mid-winter moisture, or when it fell better, but they can't remember when.

Moisture penetration now goes down to around 20 inches in places where the soil is mellow, County Agent J. W. Thomas reported. On the other hand, however, penetration is no more than 8 to 10 inches.

About the same amount of rain has fallen over most of the county.

The February moisture reported by Killingsworth is:

Feb. 7—27 inch

Feb. 8—0.1

Feb. 18 — .52
Feb. 19 — .05
Feb. 20—02
Feb. 22—14
Feb. 23—Trace
Feb. 24—06
Feb. 28—11
Total 1.18 inches
March 2—48
March 3—Trace
March 5—06
March 6—15
During January, .54 inch of moisture was measured here.
Moisture for the same two months period a year ago amounted to about .60.

Steve Owens Pays Salaries for One Month

Citizens Take Action to Keep County Agent and HD Agent

A group of approximately 70 county citizens meeting Monday night, March 4, took action on the failure of the commissioners court to approve the county agent and county home demonstration agent for the month of March, by passing a resolution that the commissioners court be asked to continue these services and that of the Vet-

erans Service Officer and the surplus commodity program.

The group next named a committee of 17 to present these wishes to the commissioners court on its regular meeting Monday, March 11. It will be presented in the form of a petition that will contain the minutes of the Monday night meeting, which is being circulated this week.

Home Talent Entertainment at C-C Banquet

The complete program for the Chamber of Commerce banquet Thursday, March 7, was announced this week by N. M. Higdon, manager, and includes home grown entertainment features along with the nationally known guest speaker, Mrs. Mary Cain.

J. D. Wilson will be master of ceremonies.

Dinner music will be provided by the high school orchestra. Special songs will be the national anthem sung by Frank Jones and songs by Ted Parker and the Pride of Dodson. Henry Sullivan will introduce Mrs. Cain.

D. E. Scott, outgoing president, and C. T. Hubbard, 1957 head of the Chamber, will speak briefly. Official hosts will be Messrs. and Mrs. Buster Hughes, Fred Squyres, Ed Miller, Mack Saied, Bryan Denley, Dudley McMillin, Bobo Castleberry, Lowell McMillin, Robert Lewis and Jim Cochran. Approximately 500 persons are expected.

Dodson to Name Three Aldermen

Dodson voters will elect three aldermen in the city election scheduled for Tuesday, April 2, Mayor Bynum Hightower announced this week.

sten and Mrs. Truman Crownover; Precinct 2: Jack Lowry, Rusty Henard, Mrs. J. L. Alexander and Mrs. Ernest Tate; Precinct 3: J. I. Morgan, Mr. and Mrs. Travis McGuire, and Mrs. John Nash; and Precinct 4: Wood Coleman, Monty Mitchell, Mrs. Buck Breeding and Mrs. John Carson. J. C. Emmert is the committeeman at large.

The meeting was the outgrowth of a spontaneous response on the part of those present to information that came out during the week end that the commissioners had failed to approve the county's part of the salaries of County Agent Lefty Thomas and Miss Kathryn Potter, county home demonstration agent for March. (Since the first of the year these offices have been approved by the month, instead of for the entire year as in the case of the other county officials.)

Miss Potter and Thomas were officially notified Monday morning of the action.

In the meeting Monday night, Steve Owens volunteered to pay the local portion of the salaries of the county agent and county home demonstration agent for one month, in order that Collingsworth may be assured their services through March.

Knox Parr, district agent, and Miss Edith Lois Wilson, district home demonstration agent, both of Amarillo, were present.

Henry Sullivan was elected to preside at the meeting.

The motion by the Monday night group, as it was passed unanimously, was to recommend to the commissioners court that they maintain the extension service, and the veterans service officer.

In voting that followed, this group showed its preference in services to be kept, in case such a decision would have to be made: first, the county agent; second, home demonstration agent; third, county veterans service officer, and fourth, the county commodity welfare program.

The committee of 17 to meet with the commissioners includes two men and two women from each precinct, and one committeeman at large: Precinct 1: Floyd Teutsch, Roy Thomason, Mrs. Emil Ker-

Ann Kennedy.

All students and teachers in the school are participating, and there is no admission charge.

Hog exhibits will dominate the annual Quail FFA livestock show Friday, March 8, vocational agriculture instructor, Frank Kennedy, said this week. This is held each year during Public School Week.

The number of animals to be included has not been definitely determined, but both a larger show and one of higher quality than in recent years is expected.

Prize money will total \$88. Kennedy said, and will be paid on first, second and third places. Ribbons will be awarded these places as well as fourth place.

Classes will include barrows, feeder pigs, registered gilts under six months, registered gilts over six months, grade gilts, sows, dairy heifers, beef heifers and beef steers.

"We would like to invite and urge all parents as well as all others interested to visit the show, and also to visit the school on Friday," Kennedy said.

Five Seek City Council Post; Two for Mayor

Late filing in the city election brought five candidates for the two posts of city alderman and a second candidate for mayor, Mrs. Jennie Holcomb, city secretary, has announced.

Hiram Cudd, co-owner of Cudd Brothers Trucking Company, has filed as a candidate for mayor, the post for which Eli Wolf had announced earlier. Mayor J. B. Castleberry is not a candidate.

Doc Barjenbruch filed for reelection as an alderman. He is completing his first elective term and prior to that had completed an unexpired term.

Other candidates for alderman are Steve Owens, Toots Breedlove, Harold Morrow and Richard Bailey. None of this group has been in politics, either county or city, at any time in the past.

The election will be held April 2.

Commissioners Accept Finance Recommendations

The recommendations a finance committee made recently to the Commissioners Court, whereby the county could work out its financial problem and get on a sound basis, was approved unanimously by the court in a special meeting February 25, with one amendment on the recommendation that the State Highway Department select farm-to-market roads in Collingsworth county.

In other action, the court hired Eurt, Hamilton and Company, Inc. of Dallas to handle the 30-cent ad valorem tax election and hired F. E. Coan of Amarillo to prepare the 1957-58 budget and work with the finance committee.

In a meeting February 15, which was a continuation of the February 11 meeting, these orders were passed:

No. 1: Approved claim for payment of car mileage to John Rainey, Sheriff, Tax Assessor and collector, for January in amount of \$223.02.

No. 2: Accepted county repository pledge contract from Wellington State Bank, pledging U. S. Treasury Notes in the amount of \$60,000.

No. 3: Order to void warrant in the amount of \$150. This had been issued to Mack Bush, principal of Junior High School, as the library and supply fee for a youth in temporary custody of county. Bush returned the warrant and asked that it be voided as the pupil was enrolled for such a short period of time.

No. 4: Court rejected claim for payment from John Bevers as Service officers in the amount of \$51 for car expense for January and \$72.34 for salary as service officer.

No. 5: Accepted and approved officials' monthly reports.

In a special meeting February 25, the following orders were approved:

No. 1: Court unanimously approved the financing plan outlined by the county auditor F. E. Coan, with details to be worked out in the near future.

No. 2: The court voted unanimously to set the county on a fiscal year basis to end September 30 for financing purposes, September 30 being the time the actual tax year is covered.

John Sherman Heads '57 Red Cross Fund Campaign

John Sherman has been named Red Cross Roll Chairman for the annual fund-raising campaign that will continue through the remainder of March. R. D. Wiley, county chairman announced this week.

The county's quota is \$2,300. Mr. Sherman in turn outlined plans for the opening of the drive and named workers who will help him direct the campaign.

James Sullivan will serve as co-

chairman with Mr. Sherman, and Mrs. Mish Dukeminier will direct the house to house solicitation.

Other workers will include Dan Henard, J. W. Wells, Mrs. Deskins Thomas, Horace Small, Dudley McMillin, Bobo Castleberry, Jimmie Kelso, Roy Horn, Jim Cochran, Jones Singley and Mack Saied.

The campaign starts with a kick-off breakfast for these workers Thursday morning, March 7, at Jay's Drive-In. It begins at 7:30.

Solicitation in the business district, over the residential area, and throughout the county will begin immediately afterward.

Sherman pointed out that the half of all money collected remains in the county for Red Cross work. Most of this is handled through the office of Miss Katherine Boverie, home service chairman. Almost all goes to help persons in this county who need help of one sort or another. One of the major items is to maintain contacts between men in service and their families here in case of emergency.

But even the money that goes from here to national headquarters could come back, Sherman pointed out. In case of a disaster, such as a tornado, the Red Cross is the only organization on which we could depend, and it would be on the ground and ready to function in an hour.

The May 10, deadline date also applies to any excess wheat acreage above the allotment or permitted acreage.

The girls actually won the game in the first quarter, when they took a 16-3 lead. They were never seriously threatened during the remainder of the game.

The Quail Bobwhites, playing at Samnorwood the same night, lost the bi-district title to Wheeler by 5 points, 60 to 65, Coach Howard Perkins said. This closes their play for the season.

Tonette Band Makes First Appearance

Wellington School Bands Hold Annual Concert Tuesday Evening

A band concert, that will feature Wellington school musicians from the fifth grade through high school will be given Tuesday, March 12, featuring a variety of music ranging from concert pieces to swing, Doyle McElroy, bandmaster, has announced.

It will be given in the high school auditorium, beginning at 7:30 p. m.

Participating will be the 67-piece Skyrocket Band, composed of high school students; the Rockin' Rockettes, a 16-piece high school band taken from the regular band; the 19-piece beginners band from the sixth grade, and the Tonette band of 45 students from the fifth grade. This will be the first public appearance for the latter group.

In addition to these, there will be special ensemble numbers, McElroy said. A clarinet quartet, composed of Jonakin Cecil, Robert Weir, Ann McCarver and Elaine Crawley, will play "Caprice"; "A Night in June" will be presented by a cornet trio, Kern Pigg, Rebecca Carter and Tommy Akin; and Pigg will give a cornet solo, "Bride of the Waves". All of these are interscholastic league contest numbers.

The Rockin' Rockettes will give "Canadian Sunset"; "After You're Gone"; "Singing the Blues" and "Swanee A la Dixie".

Three contest numbers will be given by the high school band: "Monarch March", Oliveadoti, and

two overtures, "Athenian Festival", Barr, and "Coronation", Sharnicka.

Modern composers will be featured almost altogether.

McElroy explained that the Tonette band is to prepare younger boys and girls for band participation, instilling in them a sense of rhythm, ability to read notes and to familiarize them in making these notes with their fingers and lips, and give them the fundamentals of marching.

A small admission charge will be found and proceeds will go into the fund to help pay for band uniforms, repair of instruments, and purchase of new instruments and music.

City Council to Enforce Dog and Trash Ordinances

Dogs had their night before the City Council Monday, March 4, and the bone of contention was their activities among the garbage barrels.

The city has been receiving numerous complaints of dogs prowling the alleys, turning over garbage barrels and strewing the contents about. Many of these are not stray dogs, but dogs which are licensed, and in some cases pedigreed dogs, City Manager Bura Handley said.

In view of these complaints, the council moved Monday night that the ordinance requiring all dogs to be vaccinated and tagged shall be enforced.

Since there is no veterinarian in Wellington, the council agreed that the pharmacists at any of the three drug stores may vaccinate the dogs.

Commissioners and City Agree on Rural Fire Truck

The Commissioners Court in a meeting Monday, February 11, entered into an agreement with the City of Wellington on the rural fire truck and approved a method by which the county would pay part of the cost of rural fire protection.

The court also ordered the county attorney to get the opinion of the Attorney General defining the official duties of the county sheriff; called the special election on the proposed 30 cents ad valorem tax and separation of the sheriff and tax assessor-collector's office; and passed 13 other orders and voted on still another that failed to carry.

Altogether, 18 orders were considered.

The first two orders dealt with the election, called for April 2.

The third order was entered in the minutes of the court, although it failed to get the unanimous vote needed to pass, since it concerned highways. The motion voted upon was to allow the Highway Department to select the farm-to-market roads in the county.

Order No. 4 approved the rural fire truck contract for the year beginning February 11. The contract called for the county to pay the city \$1.00 for services rendered. However, the contract shall be renewed from year to year, with the county agreeing to pay the city "a sum of money equal to the percentage of fires outside the city answered by the fire department during the previous year multiplied by the actual cost of operation, maintenance and upkeep for the previous year."

In other words, if approximately seventy per cent of the fire calls answered during the year are rural fires, then the county will pay half the cost of operation and maintenance. This is about the percentage figure for 1956 according to fire department figures.

In the next two orders, the First National Bank was approved as school depository and the Wellington State Bank as county depository for 1957-58.

Dr. Carter Holcomb was appointed county health officer for

1957-58.

The Second Monday of May was set as the date when the Commissioners Court would convene as a board of equalization.

Order No. 9 requested the county attorney to expedite the delinquent tax suit for the years 1947-1948 against the City State Bank, Wellington, and report the progressing status in a written and signed statement to the court for the record.

In the next order, the court, at the request of Ray McKinney, agent for Texas Company, returned to him a bill and voided a warrant issued to him.

Orders 11 and 12 allowed the county librarian's office expenses monthly; the county agent for car expenses, and the home demonstration agent expenses for February.

Each precinct will pay for insurance on vehicles belonging in it, and the county clerk was instructed

and here Thursday night 75-33. Since both teams won their district title, the games were scheduled for the purpose of practice for the state play-offs. Wellington plays Stamford at Vernon while Clarendon will meet White Deer in their bi-district games.

At Clarendon Athan Lowrie was high point man for the Rockets with 16 points, while Jerry Behrens led his team with 10 points. The Rockets got off to a slow start and were leading by only 7 points at halftime, however, they turned on the steam the second half and widened to 26 points as the game ended.

Here at Wellington Thursday night, the Rockets played the kind of basketball that have made them Champs and as a result more than doubled the Bronco scoring. Randall Raburn and Jerry Elbert were the leading scorers in this game with 17 each. Baton led the Clarendon team with 13. Jerry Elbert also set a new rebound record for this year with 19.

The Rocket team has shown tremendous spirit and teamwork during this basketball season and is one of the best, if not the best, basketball teams in the state of Texas. Coach Clement's boys now boast a 29-2 record for the season. The people of this town and county are with you 100% percent team. We know you are the best in the state. Austin or Bust.

Farmers Praise Railroads For Reducing Freight Rates On Drouth Hay Shipments

Railroads serving the drought area in the eight Southwestern states, by the way, have received more than \$25,000,000 in drought relief benefits through reduced rates, within the past four years has asked the southwest, to make a 50 per cent

are of the action of the railroads, we have found ourselves in trouble and the railroads of America, as they have many times in the past, have come to the rescue by reducing rates for our farmers and ranchers. We should all say "thanks sincerely" to the railroads of America.

Any question that the railroads do not make sacrifices to aid agriculture?

The \$25 Million Good Deed

While thinking about good deeds (this being Boy Scout Week, and Scouts being famous for good deeds) I thought of the \$25,000,000 good deed the railroads have done for the west as like a right sizable good deed.

President Eisenhower on three the past four years has asked the southwest, to make a 50 per cent

\$25,000,000 Contribution ...to Farmers and Ranchers

Within the past four years the railroads have contributed to the farmers, ranchers and dairymen, through a 50% reduction in rates on hay and other feedstuffs, 25 million dollars.

Both the Congress of the United States and the Legislature of Texas, by resolution, have expressed their thanks to the railroads for this substantial contribution.

Through the years the railroads have always extended a helping hand to their neighbors in times of disaster. To us this is a basic responsibility of good Americans.

'Suit Spring' Calls for Varied Blouses

BY EDNA MILES

THIS is a suit spring and in any spring where suits are big fashion, it follows that blouses take on a new fashion importance.

This year, you may have a blouse in vivid silk chiffon to contrast with the gray or blue of your suit or to pick up the color of the jacket lining. Or, in a Lady Fauntleroy mood, you may pick rows of ruffles that are lacy or eyelet.

Best part of this ruffle business is that these blouses are in drip-and-dry fabrics to save you tire-some ironing.

Dacron crepes in rose or novelty prints look fresh and new this spring. There are dacron-and-pimas bordered with hand-painted miniature spring flowers that wash beautifully.

The girl who adheres to the well-tailored shirt is not forgotten. Handsome dacron-and-pima monogrammed shirts with roll-up sleeves and convertible collars take to a well-tailored skirt like soap to water.

There are even nylon georgettes, combining the delicate look of georgette with the well-known strength of nylon. A girl couldn't ask for much more in a blouse wardrobe.

Clean-cut classic blouse for spring has panels of hemstitching at neckline and sleeves. Fabric is a drip-dry miracle blend.

Warning All Dogs Must Be Vaccinated for Rabies

Notice is hereby given that all dogs that do not wear a current vaccination tag will be destroyed and the City Marshal has been ordered to enforce the ordinance concerning the vaccination of dogs that are kept in the City limits.

Your dog can be vaccinated at any Wellington drug store, but you must bring the receipt and tag to the City office to be registered and numbered.

Numerous complaints have been received about dogs overturning trash cans and littering the alleys. We do not have an ordinance against dogs running loose if properly licensed and tagged, therefore we point out that a city ordinance does require all trash cans to be covered, and it is also suggested that cans be anchored or tied to fence or post.

Residents who do not have a suitable trash barrel can get one delivered by the city to your alley for \$2.50.

Deck's DIDACTICS

—By Deskins Wells

In the first paper in January I predicted that the drought would break in 1957. It was repeated in the first paper in February in spite of the fact that I had just finished reading a long range forecaster's prediction which said that it would not be broken until 1959. I want to repeat in the first paper in March that the drought will be broken in 1957. And do you know what, folks, if the skies keep performing like they did on March 2 and 3, I am going to start believing my weather predictions myself. The real score cannot be published until September after which the critical months of July and August have passed.

Loyd Langford was listening to some of my weather predictions in a non-advertising barber shop whose name won't be mentioned, and he said: "Yeah, I remember the time you told your readers to get their stock out of the lowlands in May because there would be floods—and it turned out to be one of the driest May months in history." He remembered correctly. I looked it up in the paper. It did rain considerably in the latter part of May; but it was much later than the average arrival of the pre-summer monsoon. But it did rain for sixteen days in early June, far above the average and we made a good crop.

Cheer up, Skyrockets. The peculiar mass mental phenomena that froze you at Lubbock can happen in baseball, football and in any other sporting event. Everybody in the Wellington area considers you as the greatest basketball team that ever walked out on a court for Wellington High School. You are a great group of basketball players, gentlemen. All of the people are behind you more than ever. They blame themselves for looking to Austin and not to the very next game ahead.

Winning is not the most important thing in sports. The important thing is to accept both victory and defeat and to plan ahead from the knowledge thus gained. There will be another year for your boys who wear the red and white.

The purpose of athletics in our public schools is to develop a sound body and a sane mind. Rightly conducted such sports teach young people in those things that are called sportsmanship, fair play, competition, team work and individuality. Coach DuB Clement has lived up to these high principles in an exemplary manner in teaching both the boys and girls. We have a great coach. We have a splendid group of boys and girls. Winning is important; but how we play and what we are playing for is far more significant. Let us remember that as we approach the date when we will open our beautiful and modernistic new gymnasium.

Ted O'Neil writes to say that they are having plenty of rain in their section of Texas. He is

We are wet also. The needed condition is for all the area from the Dakotas to Old Mexico including all of the middle western states to get sopping wet.

Bible Comment:

Anger and Conceit Kept Many From Believing in Christ

IT was both fitting and significant that Jesus should make an announcement of His mission on earth in Nazareth where He had been born and brought up. It was there, after the return from Egypt, that He had "increased in wisdom and stature, and in favor with God and man." There He received the instruction every Jewish child underwent and there he had attended the synagogue. Now He came to his former home to enter specifically the mission which would lead him to the cross. He went to the synagogue on the Sabbath as was His custom.

He was well received and given the book of the prophet Isaiah. But the welcome soon changed as Jesus read from the prophecy the words that His hearers understood as pertaining to the Messiah: "The spirit of the Lord is upon me, because he anointed me to preach good tidings to the poor. . . ."

He closed the book and announced to his startled hearers, "Today hath this scripture been fulfilled in your ears." They marveled at His eloquence but, in their marveling, did not forget that He was Joseph's son.

Perceiving their thoughts, Jesus reminded them that a prophet was not without honor save in his own country. From Jewish history he related incidents and lessons concerning those who had had prophets in their midst but had refused to recognize them or listen to their messages.

Angered, the Jews took Him with mob violence out of the city and threatened to throw Him from the brow of the high hill on which the city was built. It was not an auspicious beginning. The common people were to hear Jesus gladly, but the bitterness of bigotry and prejudice aroused that day in Nazareth grew and intensified on the part of those whose hearts and minds were closed to the new and unfamiliar truth. The climax came in the opposition that nailed Him to the cross.

* REPORT

Dear Editor:

I see where a big sales meeting as just been held via closed TV circuits in 34 cities to teach salesmen new techniques in selling.

You would think to hear sales people talk that if it were not for high-powered salesmanship, all of us folks could just quit buying anything and start to hoarding our money.

But my non-dominant neighbor says actually salesmen are as unnecessary as headlights on a hog. Says most people will buy more than they can pay for anyhow, and his wife makes regular shopping excursions to see if there is anything she has overlooked buying.

I see where some research experts say they have found out that the average person is smarter than he thinks he is.

This news comes as sort of a shock to me. Here I have been consoling myself by figuring that even if I am pretty dumb, I am about average.

But it's proved to me nearly every day that I'm not as smart as thought. If average folks really are all smarter than they think, then me and congress are away slow average.

I note that a prominent column-

tator is bothered because President Eisenhower and ex-President Truman are not on speaking terms.

He calls this childish, but he has got mixed up, on account of children usually find more interesting things to do than hold grudges, which is largely an adultish habit. In fact it's very common. Even right around here we have many leading citizens, especially when they are business competitors, who won't speak to each other except when they get together to raise prices.

I note that the new tranquilizing pills are getting very popular as people find out it is simpler to drug trouble than to grapple with same.

My unfretful neighbor says he doesn't use these new pills, however, as he can still lie down beside a stack of monthly bills and go sound asleep.

But he hopes the government won't overlook the chance to further world peace by seeing that the next few shipments of foreign aid are spiked pretty heavy with these pacifying drugs.

I see where King Saud bought himself 60 new jewel-studded Cadillacs while he was here in the US picking up a little of our money for the relief of his poor country.

This is spoken of nastily by some commentators of a selfish disposition, who maybe are having trouble meeting the payments on their Fords on account of high taxes.

But of course all of our best citizens are happy to undergo little hardships like holding off on new

Public School Week Points Up The Fact the Schools Are Ours

This is Public School Week in Texas, an observance in which Collingsworth county schools join. Special events are planned in some schools, but the best thing about the week is that it calls attention to the regular day-to-day work the boys and girls and their teachers are doing.

Every school in Texas puts out a special welcome mat during this week each year, but the facts are that parents and citizens are welcome at the schools whenever they take the time to make such a visit. We don't have to have a child enrolled for it to be our school, you know.

In this week of stock-taking, it might be well to look at our own four fine schools. They are operating on a sound basis, in some respects sounder than at any time in recent years. Weak spots in the curriculum are being corrected. In some cases, such as math and science, this was part of a nation-wide trend that has been discovered and is being corrected.

The almost constant stream of boys and girls who excel in regional and area competition, is a reflection of the kind of teaching they are getting in the public schools. With the home and church, our local schools are helping our boys and girls become outstanding men and women.

There are still those who sincerely feel that education of another day, their own in most cases, was more solid and produced better educated men and women. In fact, the education of that period was good, but there wasn't enough of it.

During the period when Collingsworth County's scholastic enrollment was highest, around 4,000, the two high schools at Wellington and Dodson were graduating about 100 boys and girls each year. A few more roomed in adjoining towns or their parents moved there for the school term. Now, with less than half as many scholastics, there are four high schools graduating almost as many each year.

Many fine men and women still carry the handicap of an eighth grade education because a generation ago, here in Collingsworth, that was all that was available to them.

Enrollment in a fine high school is now available to every boy and girl in Collingsworth County, and in almost every case, as far as we know, a school bus will pick them up near their door and take them to that source of education.

This is a random thought for Public School Week, a designation that in itself that points out that the schools are public, they are free—and they are ours.

shoes for the kids, so the King won't ever be humiliated by having to ride in the same Cadillac twice.

I see where the boys who organized congress this session gave some important committee posts to members fitted for the job instead of just been there a long time.

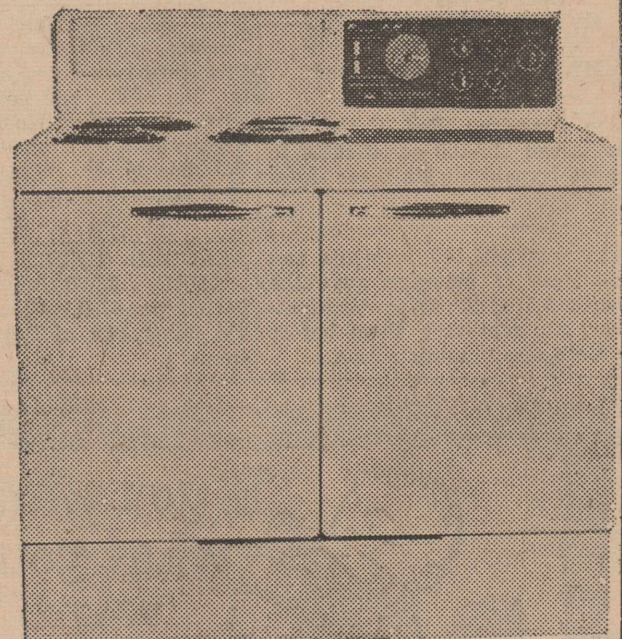

But this is likely only a little dent in the Seniority System esteemed by congress, labor unions, etc. Time may yet come when nobody can even get to be President without having Seniority as an inhabitant of the country.

Which might be as good and cheaper than holding elections, unless we let Seniority get the upper hand and come out with a 150-year-old alligator or a grey mule as President.

"I'll Write You a Check"

- A check binds the bargain — puts a transaction on a strictly business basis.
- It gives you a legal receipt for the amount of money involved.
- You don't have to carry a large amount of cash which might be lost or stolen.
- There's nothing else as good as a check for the purpose.

And when you pay by check, from an account in our bank, it is recorded permanently on our Recordak Film which is filed in our vaults. Even though you may later lose your cancelled checks, there will always be a record of each transaction in our bank . . . if you pay by check.

Trio Arrested For Forgery

Two women and one man, giving Oregon as their home state, were arrested here by Police Chief Bill McCarver last week on a pick-up call from Childress officers. The trio was wanted on a forgery charge, after giving a check for \$61 to Rushing Grocery in that town.

McCarver arrested the trio at Lucky Corner, then called Sheriff Rainey to question them.

They gave their names to local officers as Dorothy Roten and Clifton Roten, husband and wife, and Lou Drewery. Roten was described as having served a term in the Texas Penitentiary.

One of the women admitted to the local officers that the man made out the checks and his wife cashed them. They had done this at several points since leaving El Paso.

Sheriff and Mrs. Rainey and Chief McCarver took the three to Childress and turned them over to officers there.

Income Tax Problems Are Easier to Solve

If You Remember . . .

Your Checks are Accurate Records of Expenditures

Many people overpay their income tax because they keep no record of allowed deductions. By paying all of your bills by check, you can easily keep such a record that can be worth many dollars to you. The record is actually kept in your check book, and your cancelled check is accepted everywhere as proof of payment.

That is just one reason for conducting your finances by check. It's safer, simpler, more business-like from any angle.

Come by tomorrow and discuss this matter with one of us. It can mean a real saving for you.

Norwood Loses Bi-District Title To Wheeler 58-50

The Wheeler Mustangs rolled past the Samnorwood Eagles 58-50 at McLean, Monday night before a capacity crowd. Wheeler will represent Districts 11 & 12 at Canyon March 1 and 2 for Regional honors. The lead rocked back and forth during the first quarter with Norwood leading 15-13 at the end of the first quarter. Wheeler's size began to pay off in the second quarter as they outscored Norwood 15-6, to lead 27-21 at half-time. Norwood changed into a man-for-man defense and then into a full court press, but could not overcome the half-time lead although coming within 3 and 4 points repeatedly. Leaders in the scoring department for Wheeler were the rugged Wilstoad and Porter who gathered 19 and 16 points respectively. Harvey Pat Bradley led all scoring with 24 points including a perfect 10-10 at the free throw line.

Clark Test of Interest to Dodson Area

Wildcat Locations Set, Leasing Continues

Collingsworth County continued to hold the spotlight in Panhandle wildcat developments during the past week, with three more locations staked in the north part of the county.

In addition one location was staked in the northeast part of Childress county that could play an important part in renewed developments in the Dodson section.

The Steeple Oil and Gas Co. and Petroleum Exploration Inc., staked the No. 1 R. C. Bryan 330 feet from the north and west lines of section 64, block 16, which is 17 miles north and two west of Wellington. This is to be drilled to production of 2,200 feet.

El Paso Natural Gas Co. staked the No. 3-A Betenbough 1,290 feet from the north and 1,390 feet from the west lines of section 100, block 16, twenty miles north of Wellington, for production of 2,350 feet.

El Paso also will drill the Glenn No. 1, 1,426 feet from the east and 902 feet from the south lines of section 85, block 12, to production of 2,350 feet.

The Bryan and Glenn locations are several miles from producing wells.

The Childress county test will be drilled by John A. Murphy on the Clark Ranch, the location being 1,980 feet from the north and 2,319 feet from the east lines of section 6, block 9. It is to go to production of a depth of 7,200 feet. A well was drilled on the Clark Ranch several years ago but reports on no production were given out.

Leasing and selling of leases continued in Collingsworth county along with selling of royalty.

Instruments were filed conveying an overriding Royalty Interest held by R. R. Kyner to the following, in the proportions indicated: G. T. Kimbell II, 1/30th; D. A. Kimbell, 1/15th; David A. Kimbell Trust, 1/10th; G. T. Kimbell, 1/5th; and Glen H. Bear, trustee, 1/5th. At a previous sale of leases to Oil Associate, Kyner had retained an overriding royalty that in most cases amounted to 1/32 of 7/8 royalty, but on several of these leases the amount of the overriding royalty ranged from 1/32 to 105/128ths to 3-128ths of 7-8ths.

The overriding royalty conveyed in the instruments filed last week was on the following leases:

In block 12: sections 58, 61, 80, 78, 81, 82, 68, 96, 97, 98, 99, 100.

First in the low-price field with 2 big-car sizes, a contoured frame and an all-new "inner car," the luxurious '57 Ford brings you longer, lower, livelier going than ever before

Comfort and "sighs" come king-size in the '57 Ford. That's because Ford alone in the low-price field is so wonderfully new all the way through.

The all-new frame, for instance, dips down and out between the wheels for extra passenger comfort, smooth going. Even most high-priced cars don't have this revolutionary new frame yet.

Power? Sure, all cars offer V-8's. But Ford has 22 years more V-8 experience than any other car at the price. And only Ford offers the Thunderbird's own engine.

You have to see these long, low, sculptured lines to appreciate Ford's "Look of Tomorrow." And you have to get behind the wheel to feel the inner beauty of this new kind of Ford.

PURINA BOOST-R-AID

"Gives chickens a boost... When they need it moost!"

Just add it to the drinking water

Any number of things can put a chicken "under the weather". Vaccination, colds, disease, even a change in temperature. They go into a slump mighty fast... but getting them snapped out of it and back in production is often a long, money-losing chore.

That's why Purina built Boost-R-Aid... a powerful formula of important vitamins and aureomycin. You just add it to the drinking water after disease outbreaks or other stress periods... no change of feeding program or handling individual birds. Results often come fast—even before you expect them!

Pick up some Boost-R-Aid next time you're in and keep it handy. Never know when you'll need it!

Skyrockets Lose to Muleshoe in Regional Meet at Lubbock

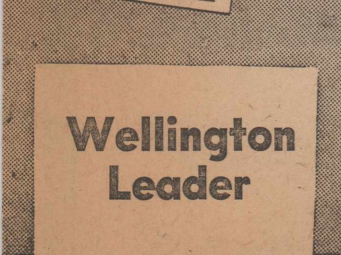

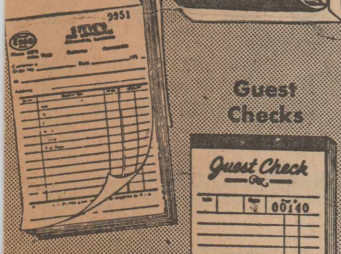

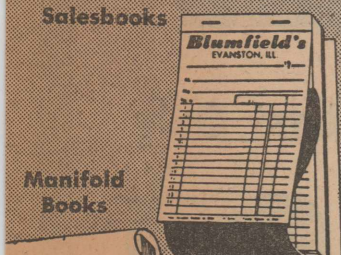

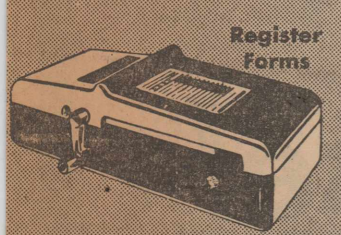

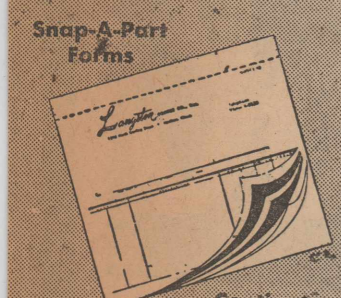

By Lacy and Wilkins
The Muleshoe Mules managed to outscore the Wellington Skyrockets 52-48 in the first round of the regional tournament at Lubbock Saturday. This loss ended the basketball season for the Rockets this year with their final record standing at 30 wins and 3 losses. The bi-district champs compiled a magnificent 60-6 record during the past two years which is credit to the school and community. This is a record very few teams are able to compile and these boys and their coach deserve more credit than the town and community are able to give.
This game Saturday morning lasted 55 minutes and 18 seconds before either team was able to score. This is the longest time all season the Rockets have been held scoreless.
Tremendous pressure and nervousness were factors which the Rockets had to overcome and by the time the team started playing the kind of basketball they have all year, the game was too far gone. Hoot Gibson broke the ice with 10 minutes and 42 seconds left in the first period and the Rockets led 2-0. However Muleshoe started hitting and were leading 8-6 at the quarter ended.
The Rockets begin to get the feel of the large court with glass backboards the second quarter and

IT'S UP FOR GRABS—When you and your girl are staring at that romantic moon some night, look carefully; somebody may be establishing a beachhead up there. This sketch by artist Ken Fagg shows the American flag being planted on the lunar landscape from a space ship. Proponents advocate this move before the Russians can claim the moon with radio-controlled rockets. They say the U.S. has a prior claim by virtue of radar contact with the moon in 1946. Sketch is from *Mechanix Illustrated* magazine.

All these except the hike will take place in Ellison Park, where the Scout hut is located.

Sheena Here in Person Sunday

"Sheena, Queen of the Jungle", will appear in person on the court house square in Wellington Sunday, March 10, from 4:30 to 5:30 p. m., under the sponsorship of Goldsmith Dairy.
All children and their parents are invited to meet her, and much of her time will be given over to visiting with the children and giving them free autographed pictures.
On hand to greet her will be many who each week watch the "Sheena, Queen of the Jungle" TV show.
In real life, Sheena is Irish McCalla, married to a California insurance man and mother of two small sons.
An excellent swimmer and diver, Irish does all the stunts in "Sheena" herself, including climbing and swinging from the trees. She has become an expert at throwing the javelin in exercises with a spear for her jungle role.
Her childhood idol was "Sheena" of the comic strips, and she used to climb trees and make ropes out of vines and was "Queen of the Jungle" in children's games with her four brothers as "white hunters". Once she tried to join a circus, "to be an animal trainer", but was brought back by her father and brothers.

ended the score 23 all as the half ended.
The third period was nip and tuck with each team exchanging baskets, however, the Mules managed to get the edge and were leading by 2 points as the period ended 36-34 with Muleshoe in front.
Muleshoe hit a hot streak the fourth period and just couldn't miss. They jumped ahead by 10 points midway during the quarter and then began stalling the ball. The Rockets were in the game all the way, however, and stole the ball several times during these last minutes. They managed to cut the margin to 4 points as the final buzzer sounded with the score 48-52 in favor of Muleshoe. Had there been only one minute remaining, well, we don't know!
Coach Dub Clement has done a fine job with these boys this year. This team did not have the chance

some teams had since they had to practice in the old gymnasium with its wood backboards. We feel that the new gym will be a great asset to the success of the team next year.
Hoot Gibson and Randall Raburn shared the scoring honors for the Rockets each having netted 11 points. Charlie Jennings was high for Muleshoe with 19.
