Band, Choir Add Laurels In Contests

CORPUS CHRISTI — Snyder High School's band and choir, grand sweepstakes winners for two years in a row at the Buccaneer Music Festival, not only repeated but added to their laurels here Saturday. The Snyder High School Band, directed by Melvin Montgomery, was named outstanding band in Class AAA, while the Snyder High School Choir, directed by Robert Clinton, topped similar honors in the choir competition. This of course, was enough to win grand sweepstakes honors for the third consecutive year. Some 10,000 young musicians, representing 90 bands and 50 choirs, were entered in the contest. Durant, Okla., topped the field in Class AAAA, entering the top band and winning grand sweepstakes. Raymondville had the top Class AA band, while Vanderbilt was tops in Class A and Lamar Junior High of Austin was tops in Class B. Brownsville units copped the Class AAAA and Class B choirs. Bishop won the Class A grand sweepstakes. The Snyder band paused in San Antonio on Friday while en route to Corpus Christi long enough to rate first division in marching, concert playing and sight reading and win sweepstakes in regional interscholastic league competition. The Snyder band and choir will return from their trip Monday.

Deny Towns Captured

By NESTOR VERDINA ASUNCION, Paraguay (AP) — Interior Minister Edgar Insfran told a news conference Saturday night an invasion of Paraguay by armed rebels had been "completely smashed." Insfran, former Asuncion police chief, said an invading band of about 150 men had been scattered and disorganized with the help of the air force and presumably had fled back to Argentine territory. He said Puerto Carlos Antonio Lopez and Colonia Otazo, two small towns along the Parana River, were not captured by the invaders as previously reported. Insfran said three invaders were wounded and government forces had no casualties. The Paraguayan government previously had announced that a rebel force of between 500 and 1,000 men crossed the Parana River from Argentina's Misiones province Friday and attacked the two towns. A government communique had announced the fall of Colonia Otazo but had not mentioned any rebel takeover of Puerto Carlos Antonio Lopez. Earlier government statements claimed the rebels were armed with Argentine weapons, and said civilian militants as well as troops and police resisted them. Colonia Otazo was said to have been defended by only five policemen. Informed border sources in Argentina said Saturday that well-

KEEPING THEIR HEADS UP—Two entries in the Miss Snyder contest, Sherene and Carla Gladson, practice walking with their heads erect in preparation for the "Big Walk," in front of the judges Friday, May 13. All contestants are getting group lessons on how to walk and how to stand under the supervision of the Snyder Jaycees who are sponsoring the Miss Snyder Pageant. (GB)

Turkey Bristles As NATO Parley Nears

By GARVEN HUDGINS ISTANBUL, Turkey (AP)—Students shouted for freedom in new demonstrations Saturday against Premier Adnan Menderes' government, host to a meeting Monday of NATO foreign ministers. Troops and police answered with mass arrests. U.S. Secretary of State Christian A. Hetter and British Foreign Secretary Selwyn Lloyd were among early arrivals for the first conference of the 15-nation alliance ever held under martial law. They flew from Tehran into this city, bristling with guns and tanks. Both said they were glad to be in Turkey and looked forward to the conference, which opens Monday in a new still incomplete Municipal Building. Neither commented on Turkey's current Korean-style internal disturbances. Troops and tanks had moved before their arrival to put down the biggest antigovernment incidents. Infantrymen with bayoneted rifles removed 2,000 student sit-down strikers from the University of Istanbul campus to temporary detention camps, on charges of violating martial-law regulations. The students, who had held out for 18 hours, appeared tired, hungry and drawn. Some chanted freedom slogans and sang patriotic songs as they filed to waiting army trucks. There were 100 guards. About 1,000 students and other youths defying a martial-law ban on public gatherings, later paraded before the troop-guarded Municipal Building. With Turkish flags flying, they shouted "Freedom!" Thousands of soldiers stood shoulder to shoulder in the dusty heat. Tanks were drawn up at every approach. Helicopters whirled overhead.

Think Crash Scene Found

MILWAUKEE, Wis. (AP)—The Coast Guard believed Saturday that it had located the spot in Lake Michigan a few miles east of the Milwaukee harbor where a Royal Canadian Air Force plane crashed Friday night. No bodies have been recovered but debris has been found. Six men, all RCAF personnel were aboard the World War II B25 Mitchell bomber when it crashed attempting to make an emergency landing at Gen. Billy Mitchell Airfield with a runaway propeller. Apparently none survived. A widespread search in the fog and rain by vessels of the Coast Guard, Army, Navy, Milwaukee Fire Department and private owners was halted temporarily Saturday when a wind shift made the lake rough. Marked by a buoy was a spot approximately three miles east of the harbor entrance where oil bubbling to the surface indicated the twin-engine plane may have crashed and exploded. Among the dead in the crash was Air Commodore J. G. Stephenson of Windsor, Ont., who was en route from Ottawa, Canada, to Triax Air Force Base, Madison, Wis., to inspect the North American Defense Command. Also aboard were Wing Cmdr. George W. Kusser, New Toronto, and four other airmen: Flight Lt. G. E. Dyck, Mt. Range, Sask.; Flight Officer Robert Howard, London, Ont.; Sgt. L. W. Byson, Wainwright, Alberta; and Leading Airfitterman N. A. Porteous, Ottawa.

Gas Co. Asks Hike In Rate

Representatives of the Lone Star Gas Co. have asked for a spot on the City Council agenda Monday night to present a request for a rate increase. In other business at the regular May meeting which is set for 7:30 p.m. in the city hall, the council is slated to consider the second reading of the new peddler ordinance and appointments to various boards. The terms of W. A. McGowan and Dr. John Blum expire on the Colorado River Municipal Water District board and Gene Dufaney has submitted his resignation on the board of adjustment. A replacement commission for Herman Tripp, who resigned, also is due to be named. The position on the planning and zoning board expires June 1, 1962.

SCHOOL HEAD AT HERMLEIGH QUILTS POST

LOCAL WOMEN EARN 'HELP-MATE' TITLE

Women frequently earn the title "help-mate" in the partnership of marriage but it's a strong and continuing factor towards progressiveness when they are more than passively interested in the family business. There are many cases when the wife does a smattering of telephone work, bookkeeping and lunch relief but one of the remarkable things to crop up in the Snyder story is the trend in which hubby is getting labor from the "other half." One wife operates a ditching machine to help hubby on other dows sanding and finds parts and replacement for her body-shop-operating husband.

New Petition For Chessman

SAN FRANCISCO (AP)—Caryl Chessman's attorney petitioned anew for his life Saturday before a court not scheduled to meet until two hours before the convict is due to die in the San Quentin Prison gas chamber Monday. Chessman, meanwhile, held a "farewell" press conference in prison, and he could prove he was innocent of the sex perversion crimes which brought him two death sentences 12 years ago. A new petition for a writ of habeas corpus and a stay of execution was filed before the State Supreme Court at 3 p.m. Saturday by attorney George T. Davis. Even before Davis showed up, the court clerk said in anticipation of the action that the court would not be in session until 8 a.m. Pacific Daylight Time Monday. The execution hour is 12:10 a.m. Chessman asked that his execution be delayed until the attorney general can complete an investigation of Charles S. Terrenova, described in the petition as the man who always has been the prime suspect in the red light bandit crimes. The petition also said William Woodfield, Argony magazine writer, had given the attorney general the names of three men who could verify that Chessman was not the Los Angeles red light bandit. These men were named as Paul R. Judd, David H. Knoles and William Wampler.

DEMAND FOR ABSENTEE BALLOTS INCREASING

Absentee voting for the first Democratic primary election was beginning to picken its pace by the end of the week. Only two more days remain before the deadline, and County Clerk Dan Cotton reminded that the clerk's office is the courthouse closes at 5 p.m. Therefore, those who need absentee ballots must submit their applications by 5 p.m. Tuesday. The primary is set for next Saturday, May 7, and some candidates said they feared that many voters would be out of town on the day of the election since it is the day before Mother's Day. This will be the first primary since the new election law changing the dates went into effect. Previously the first primary was held on the fourth Saturday in July. Cotton said 86 absentee ballots had been issued by Saturday, and that the rate of applications had picked up toward the end of the week.

School Head At Hermleigh Quits Post

HERMLEIGH, Sp. — Orville Paty, superintendent of the Hermleigh Schools for the past 10 years, has resigned, effective at the end of the school year. Paty said he had no definite plans but would continue in school work. During his 10 years here as superintendent, green high school building has been completed, new football stands have been built, a water well has been drilled for irrigating the football field, tennis courts have been built, pavement has been installed adjacent to the school building and a new teacher's garage has been purchased by the school district. Several courses of instruction have been added to the school's curriculum during Paty's administration. These include trigonometry, physics, chemistry, Spanish and driver education. Mrs. Paty is now employed by the Hermleigh Post Office. The Patys have four children: Orville Wayne who is attending San Angelo Junior College; Joe who is a junior in high school; Britt who is a sixth grade pupil; and Lady Pam, an eight-month-old daughter.

One wife operates a ditching machine to help hubby on other dows sanding and finds parts and replacement for her body-shop-operating husband.

Guiana Greet French Chief

CAYENNE, French Guiana (AP)—President Charles de Gaulle, fresh from his triumphal tour of the United States and Canada, arrived Saturday to a welcome as warm as the tropical temperatures of this French territory on the northeast coast of South America. De Gaulle's plane landed in a pouring rain from New Orleans, last stop on his U.S. tour. But the rain let up as his motorcade headed down a highway bordered by mangroves and palms to Cayenne, a city of 15,000. Crowds lined the 16-mile route cheering and waving. The President stood up in his car and returned the waves. At the city square, De Gaulle got out of his car, and walked through the crowds grasping outstretched hands and kissing little girls.

Americans Flee Cuba As Big Crowds Launch May Day Rally

By HAROLD K. MILKS HAVANA, AP—Thousands of Cubans streamed into Havana Saturday night for Sunday's giant May Day rally that is expected to produce another barrage of U.S. denunciations by Prime Minister Fidel Castro. Many American residents, fearful Castro's oratory might spark anti-U.S. disorders, crowded into air fights for Miami. Those remaining here stuck close to their homes. A predicted crowd of 1 1/2 million for the rally—called to show support for Castro's regime—was scaled down to one million by pro-government newspapers. No explanation was given. The capital was alive with speculation over what Saturday would bring. "I'm amazed from predictions that Castro would declare Cuba a Socialist state, or break off diplomatic relations with the United States," says one Cuban who would voice familiar charges of an American plot against his government. He will speak after a parade of about 150,000 armed militiamen, mostly peasants, workers and students. Arrangements for the rally require a maximum effort by officials to drum up national support for his regime in the face of what is believed to be growing discontent. Bus and train services were used exclusively for bringing in the crowds from the provinces. Some Cubans came on foot. All theaters, restaurants, beaches, clubs, and liquor stores will be closed. "To further encourage a good turnout and because May Day falls on a Sunday, the government declared Monday a national holiday. Mixing in the celebration will be the usual display of banners demanding higher wages for labor. The powerful Cuban Confederation of Workers, the main organizing force behind the rally, has banned such ideas as counter-revolutionary. Also missing will be David Salvador, once Castro's right-hand man in labor circles. A political moderate, he has been virtually ousted from the confederation's top post of secretary general by extreme leftist Jesus Soto. Reports from Camaguey, where Salvador returned to his old job in a sugar mill, said he was suffering from a liver ailment and would be unable to participate in the rally.

WEATHER

SNYDER TEMPERATURES: High 70, low 48, dew point 47, wind 17 at 7 a.m. Saturday, 44 degrees. North Central, East and Southwest Texas: Clear to partly cloudy Sunday and Monday. Sunday high temperatures generally in the 70s, a little warmer Monday. South Central Texas: Partly cloudy and mild Sunday and Monday. Highest Sunday 72. Northern Texas: Clear to partly cloudy Sunday and Monday. Highest Sunday 64 to 74. Oklahoma generally hot through Sunday week. Warmer in the south portion.

Refrigerated Air Covers State; Clouds Pushed Out

By The Associated Press Refrigerated air, rare for the last of April, spread over all Texas Saturday evening; clouds ending three days of welcome rains. Unseasonable cold from that dropped temperatures below freezing in the snow-dotted Panhandle surged on into the Gulf of Mexico. A cool, windy night was in prospect but a warming trend was forecast for Sunday. Excess water from South Central Texas rains that measured up to 8.50 inches Friday at Giddings tumbled down swollen streams to the sea with a minimum of damage and discomfort. High temperatures Saturday ranged from 84 at Presidio to 97 at Amarillo. Most other temperatures were in the 60s and 70s. Rainfall amounts for a 24-hour period ending at 6 p.m. Saturday include Laredo 1.16 inches, Kingsville 35, Galveston 36, Cotulla 23, Palacios 29, Beeville 17, Corpus Christi 13, Dallas 66, Victoria 96, Beaumont 91 and a trace at Lufkin and College Station. Truman McManhan, publisher of the Colorado County Citizen, reported the Colorado River running bank full at Columbus but little damage was expected. Construction crews building a bridge across the river removed their equipment until waters could subside. Considerable flooding of an area about 20 miles south is expected, but the area mainly is French land. The Weather Bureau warned that necessary precautions be taken with machinery and livestock on the lower Colorado. A crest of 30 feet was predicted by noon Sunday at Wharton, where flood stage is 26 feet. As the cold front passed San Antonio, severe winds knocked out power lines in a 60-block area and tore down a 122-foot Spanish oak beside the San Antonio Light. Gusts measured up to 40 miles an hour. Indeed the winds were strident throughout the state and usually from the north, making the temperatures seem colder than actually they were.

# Truman Enlivens Big Party Rally

By DOUGLAS B. CORNELL  
WASHINGTON, AP — A steamed-up Harry S. Truman told thousands of rallying Democrats Saturday night in only slightly camouflaged language that some Republicans prefer political retirement to running with Vice President Richard M. Nixon.

The former president also took a swipe at the present one by inviting fellow Democrats to "look at what passes for leadership at the other end of Pennsylvania Avenue these days."

Truman urged the party loyal to sweep the November election and throw out what he called the party of privilege.

"These last years of drift and neglect and indecision must be reversed," he said.

The age to do it, he said, is to keep reciting to the people a GOP record he said is mostly messy and bad. He said that the more he thinks about this record, "the more I get steamed up."

"The fiery former chief executive slashed at his old enemy, Nixon, predicting the Democrats will roll up November victories giving them even bigger majorities in both Senate and House.

"Let me ask you a question," Truman said. "Why do you suppose so many Republican members of the House are 'voluntarily' retiring this year? How would you feel if you had to run for Congress as a Republican on a ticket headed by this vice president?"

"All I can say is, there are some things much worse than retirement."

In a speech for a dinner to raise money for Democratic congressional candidates, Truman whined away with unlagging vigor and impartiality at the GOP. President Eisenhower, Nixon and the records of all three.

In text and tongue-lashings, it was a throwback to the give-and-take Truman who rang up a stunning victory in the 1948 presidential election.

But in the scramble for this year's Democratic presidential nomination, Truman held his announced position of neutrality. He said the wasn't the time or place to say which man he considers best.

Perhaps more by circumstance than plan, the party festivities at

## Search Still Endures For Gluckmann

HONOLULU (AP) — The disappearance Wednesday at sea of Peter Gluckmann, a veteran of many overseas flights in small planes, kept the Coast Guard doggedly searching Saturday for the flying watermaker.

A green flare and a faint radio message were the only clues in the search for Gluckmann, whose name in German means "lucky man."

Gluckmann, a 260-pound 34-year-old bachelor of San Francisco, had expressed hope he would be lucky in his attempt to set a new long distance solo flight record from Tokyo.

But he also was worried. A friend and fellow flier, Robert O. King, formerly of Larchmont, N.Y., said Gluckmann told him he would run out of fuel on the flight to the U.S. mainland unless he got lucky winds.

"He thought he would run out of fuel about 250 miles short of the West (California) Coast if he didn't get some real lucky winds," King said.

"I saw Gluckmann when he passed through Honolulu en route to Hong Kong. We kidded about his taking out life insurance, but he had no pretension of a crash."

I think there may still be a chance for a day or two that he is alive."

Gluckmann's last report was made Wednesday, seven hours after he took off the Tokyo in his heavily loaded single-engine plane.

King said it was a strange coincidence that Mrs. J. E. Stricker of Bandera, Tex., reported she heard a radio message from a pilot saying he was down on a beach 150 miles from Honolulu.

Search of the area disclosed no trace of Gluckmann or his plane. "Nobody knew about it," King said. "But Gluckmann had a crystal on 18 megacycles—the same frequency as the message she heard."

A green flare in the same Honolulu area was reported by a Navy pilot early Friday.

Gluckmann's fuel should have run out early Friday. He had estimated his flight time to New York at 58 hours.

**EATING BENEFITS FOR EVERYBODY**—Nearly 700 people enjoyed "larrupin' good" pancakes and sausage at the ABC Club's pancake supper Thursday night. Net profits of over \$300 will be used to benefit youngsters of Scurry County in many ways, one of which will be a teenage baseball team.

## Humphrey Slaps Back At Kennedy

CHARLESTON, W. Va. (AP) — Sen. Hubert H. Humphrey (D-Min.) slapped back at Sen. John F. Kennedy (D-Mass.) Saturday, saying Kennedy was pushing the panic button in making personal attacks on him.

"It has always seemed rather amusing to me," Humphrey told a sidewalk crowd in the lumber town of Richwood, "to see Jack Kennedy publicly challenge other candidates to enter the primaries, and then when someone does enter, he complains there is a conspiracy to stop him and deny him the nomination."

"Politics is a serious business, not a boy's game where you can pick up your ball and run home if things don't go according to your idea of who should win."

Kennedy accused Humphrey Friday night of having "distorted my record, attacked my integrity, and played fast and loose with smears and innuendoes."

It was his strongest statement about Humphrey since the two began campaigning for the September National Convention in July at a cant May 10 West Virginia presidential primary.

No Republican presidential hopefuls are entered. No write-ins are permitted. And the state's 25 delegates to the Democratic

## Back Council Of Churches

LUBBOCK, Tex. (AP) — The 73rd annual assembly of the Texas Convention of Christian Churches gave a vote of confidence Saturday to the National Council of Churches, attacked recently by an Air Force manual and accused of Communist tinges.

In its final business session the assembly passed a resolution affirming its faith in Council of Churches at national, state and local levels.

"The council through its leaders, boards and assemblies have rigorously disproved the charges and discredited those who have made these harmful attacks," the resolution stated.

The Rev. Karl Parker, minister

of the First Christian Church in Pasadena, Tex., near Houston, was elected president of the 1961 convention.

Fred H. Wadley, Arlington, and Mrs. Henry C. Hoffa of Texas, were elected to head the state's men's and women's fellowships.

The convention began Wednesday and 6,200 persons attended.

### Elect W. M. Marion Dabbs

## Nixon Remains Mum On His Ideas Of Policy For GOP

NEW YORK (AP)—Vice President Richard M. Nixon has indicated that he differs with the administration's policies on some major national issues, but he says he will not point out the differences until he is named the Republican candidate for president.

"Only when I become the nominee," Nixon said in an interview, "can I appropriately express independent views that I may have."

John S. Knight, president and editor of the Knight Newspapers, interviewed Nixon last week. He disclosed the vice president's position on several political questions Saturday in his weekly column, "The Editor's Notebook."

Knight questioned Nixon about reports that he and President Eisenhower are not in complete agreement on questions of defense, health insurance, and farm policies.

Nixon replied, Knight said, that while Congress is in session, "I would very properly be criticized for expressing any views which would be at variance with the President's programs and thereby jeopardize their passage."

Nixon added that this "is exactly the understanding I have with the President, and to which he referred in his recent press conference when he said I would be 'stupid to simply stand pat on what this administration has done.'"

Knight said Nixon is resisting pressure to start campaigning at once.

Nixon's view is that the critical point in the battle for the presidency will come in the closing weeks of the campaign. Knight quoted him as saying, "This is going to be a close election, whichever candidate wins, and a close election is usually decided in the last three to four weeks of the campaign."

"That is why I want to be as fresh both physically and mentally as possible in that period. I think it would be most unwise to waste good ammunition now that could be much more effective later when it really counts."

Knight reported that Nixon, unlike some of his supporters, is not disturbed by indications in recent

## Space Officials Draw Criticism

By EDWIN B. HAKKINSON  
WASHINGTON (AP)—Top civilian space officials drew criticism from the Senate Space Committee today for underestimating total costs of the man-in-space project by 150 million dollars.

At the same time the Senate group, headed by Sen. Lyndon B. Johnson (D-Tex.), indicated origi-

nal requests for \$1,648,300,000 by the National Aeronautics and Space Administration for the new year had been cut back some 133 million or about 13 per cent.

The critical comments accompanied a voluminous and highly technical outline of NASA projects, for which the Senate group unanimously recommended

an authorization of \$20 million during the 12 months that began July 1.

Johnson said this was 50 million more than President Eisenhower had requested and the House had approved.

Johnson said the extra 50 million will provide a cushion for possible scientific breakthroughs or setbacks in the space program.

Dr. T. Keith Glennan, NASA director, was closely questioned by Sen. John Stennis (D-Miss.) about Glennan's estimates a year ago that costs of the man-in-space project—known as Project Mercury—would be about 200 million

# Bids Are Due On Scurry Project

AUSTIN (AP) — The Highway Department said Saturday it will take bids May 17 and 18 on 800 miles of construction and repair work.

The department estimated low bids will total 17 million dollars.

Of the mileage listed 567 miles are farm roads and 231 miles U.S. and state highways. The mileage total also includes 282 miles of asphalt seal coat projects.

Projects, by counties, up for bid May 17 include:

- Anderson: Farm 1121 structures and paving, 2.8 miles; east of Clouse.
- Brewster: Farm 106 and 107, seal coat and resurface, 2.3 miles; east of Farm 122, 6.4.
- Marion and Union: State 152, surfacing, 3.2 miles; State 26 to Big Cypress Creek.
- Carson and Hidalgo: Farm 1421, etc., seal coat, 10.1 miles; U.S. 77 and 81 south of Henderson to Nacogdoches County.
- Jefferson and Martin: U.S. 99, State 100 and 102, paving, 9.5 miles; Branch Road to Houston to Logan Drive.
- Case: Farm 125, seal coat, 10 miles; State 43 to Louisiana line.
- Floyd: Farm 201, etc., surfacing, 17.4 miles; Swisher County line south to Farm 201.
- Marshall: State 217 and Spur 44, paving, 1.4 miles; east to U.S. 66.
- Bell: Farm 2410 structures and surfacing, 5.3 miles; U.S. 190 in Killen southeast to intersection.
- Archer: Farm 582 structures and surfacing, 5 miles; southwest of State 23 to Farm 26.
- Williamson and Milan: U.S. 79, etc., paving and surfacing, 4.1 miles; west of Thrall to east of Milford County line.
- Comanche: Farm 2486, 1702, etc., structures and surfacing, 18.8 miles; Farm 2702 at Energy east to Hamilton County.
- Brown: Farm 2520 structures and surfacing, 5 miles; Farm 2773 to State Park, Road 15.
- Scurry: U.S. 81 structures and paving, 2.8 miles; Mitchell County to near Herringburg.
- Smith and Van Zandt: Farm 724, etc., structures; Prairie Creek, Wilgona Creek, Nelder, River, etc., bridge.
- Hidalgo: U.S. 81 and Farm 404 structures and paving, 5.3 miles; Farm 1014 to Farm 1908.
- Hopkins: Farm 71, structures and surfacing, 3.3 miles; U.S. 67 at Harker north to State 11.
- Jasper: State 63, structures, 7.6 miles; south of Angeline River to south of Alabama County.
- Huskey: U.S. 81 bridge structure, west of Mercedes main, west Hockley, near El Paso, Farm 76, structures and surfacing, 9.4 miles; Farm 659 to north of Clint.

# Mystery On TV Follows Some Rules

NEW YORK (AP) — There should be a few rules about the televised mystery dramas. Some of course, are well-known. The batter should never be the one who did it. It's not fair to knock off a puzzle involving murder and 17th century witchcraft in a modern suburb by having the victims a witch and a warlock. This isn't cricket even if it's done tongue-in-cheek.

Barbara Bel Geddes played Marie, the young suburban housewife, mother and pillar of the library fund drive who was really a vengeful French witch burned unsuccessfully obviously — at the stake in 1672. George C. Scott, in a get-up that looked as if it had been left over from "Masquerade Party," played her 1672 lover. They continued to knock off a descendant of the judge who had sentenced them to the stake. The witchcraft angle was wonder-

ful during the first half of the hour when they played it straight. Then everything went supernatural at a bad, worse, etc.

Leonard Bernstein and the New York Philharmonic concluded their season of young people's concerts with a group of very talented young singers from the New York City High School of Music and Art singing Aaron Copland's "The Second Hurricane." Bernstein cut his usual chatter to a minimum. The fine music from the youthful voices was further enhanced by the filming technique. The camera roamed over the singers, focusing first on one ear, then fresh face and another.

NBC pulled together a lot of old newsreel clips and still photos of

### Walker Is Troubled With Swollen Legs

SALT LAKE CITY, Utah (AP) — Dr. Barbara Moore, who has hiked more than 820 miles since April 13, is having trouble with swollen legs.

The British physician complained of them Friday morning on leaving this Utah capital for Heber, where she spent the night, 46 miles southeast of here.

A newswoman who spoke with her said Dr. Moore's legs appeared badly swollen.

The dauntless veterinarian is trying to set a new record for walking from coast to coast. So are two British sergeants, who set off from San Francisco a day ahead of her.

The sergeants, Mervyn Evans and Patrick Moloney, were far to the north of her at Echo, Utah—a highway junction about 50 miles northeast of Salt Lake City.

# Market Has Big Loss For April

By ED MORSE, AP Business News Writer

NEW YORK (AP) — The stock market in April took a sharp loss, disappointing hopes that first quarter earnings news would spur a spring rally.

The United States Stock Exchange on the New York Stock Exchange closed at an estimated net loss of \$1.4 billion during April, based on the fall in the Associated Press average. This put the total market value of stocks listed on the exchange at around 281 billion dollars.

The mixed nature of corporate financial reports, further indications of a squeeze on earnings and forecasts that second-quarter results would not be as good as those for the first quarter helped dampen sentiment. As some profits declined despite record earnings, analysts observed earnings are only a record of past performance, not of the future.

The averages took their third straight weekly loss in the week just ended.

The NY stock average fell 2.80 to 209.70, its steepest decline since the week ended March 5 when it dropped 7.10.

The Dow Jones industrial average fell 14.62 to 561.70.

This drop brought the Dow industrials near the 1959 closing low of 560.10 reached March 9. This is regarded by Wall Streeters as a "support level" which may or may not hold. If it holds, the market is expected to rise again. If it fails to hold, a decline to

DE GAULLE PRESENTED PAINTING—Archbishop Joseph Francis Rummel, of New Orleans, La., presents a painting of St. Louis Cathedral to French President Charles de Gaulle at the start of a service at the cathedral. President de Gaulle attended services at the cathedral after reviewing a parade in his honor in the New Orleans famed French Quarter. (AP Wirephoto)

# Grain Futures Are Generally Higher.

CHICAGO (AP)—Sold commercial factors were rather scarce in the grain futures market this week but prices finished generally higher on outside influences such as a government report on supplies.

All contracts except nearby corn were steady to strong for the week as a whole with most futures ahead major fractions or more. Rye led the advances with gains upward from a cent.

Old crop soybeans were the most active months, moving alternately up and down over the fairly broad range but finishing unchanged from a week ago. One day the May deliver was at its lowest price of the season.

After pushing to the rim of its previous peaks twice, May wheat finally cracked through to a new peak before retreating on moderate profit taking. The setback failed to squelch the bullish sentiment, however, and at the end of the week it was again within a small fraction of the top.

The government report early in the week on the stocks of grain in all positions as of April 1 provided some lift in spots, but while some dealers called it mildly bullish, others constructed it as bearish. Net price changes on that account, therefore, were small.

At the end of the week, wheat was 3-1/2 cents a bushel higher, May \$2 10-1/4, corn 1/2 lower to 1/4 higher, May \$1 15-1/2, oats unchanged to 1/4 higher, May 76-75, rye 1-1/4 higher, May \$1 22-1/4, soybeans 1/2 lower to 1/4 higher, May \$2 18-1/2.

# Indiana Ballots Offer New 'Straws'

By J. W. DAVIS  
WASHINGTON (AP) — People who reach out for political straws in the wind won't have to wait for the West Virginia presidential primary May 10.

That's the one most in the news lately but next Tuesday there'll

## Bill Hikes Milk Funds

WASHINGTON (AP) — President Eisenhower signed a bill Saturday increasing funds for the school milk program under which schools sell milk to children below cost.

The program has grown steadily since it began in 1954 with 41,000 schools participating. Last year it provided more than two billion half-pints of milk for 81,000 schools.

The measure signed Saturday, boosts spending for the current fiscal year which ends June 30 by four million dollars to a total of 85 million dollars. It also makes 95 million dollars available for fiscal 1961, which starts next July 1.

New Guinea in the South Seas is the second largest island on

the three things worth noting for their possible effect on the 1960 presidential election:

1. In Indiana, Democratic Sen. John F. Kennedy of Massachusetts and Republican Vice President Richard M. Nixon will be running on their parties' separate presidential preference ballots.

This won't be a clearcut contest between the presidential front-runners, but it will offer some grounds for comparison and speculation.

For sure, Kennedy will pick up 34 convention votes and Nixon 32. 2. In Ohio, there'll be two slates of candidates for Democratic na-

tional convention delegates, both committed at the outset to Kennedy.

One slate, led by Gov. Michael V. DiSalle, would decide at the convention on what course to follow if Kennedy failed of nomination. The other, led by Cuyahoga County Democratic Chairman Ray T. Miller, would be bound first to Kennedy, then to whomever Kennedy might designate.

Here, Kennedy will be gaining 64 convention votes. The 56 Re-

publican convention votes from Ohio are in Nixon's bag. 3. In the District of Columbia, Sen. Hubert H. Humphrey of Min-

nesota and Sen. Wayne Morse of Oregon will do battle in a small-scale Democratic presidential preference primary.

The district will have nine votes at the Democratic convention. Its eight votes at the Republican convention are committed to Nixon.

Nixon and Kennedy found grounds for gratification in returns from Tuesday's primaries in Massachusetts and Pennsylvania.

The final unofficial figures from Massachusetts are: Kennedy 171,569; Democratic — Kennedy 95,914; Stevenson 29,698; Humphrey 13,441; Stevenson 4,595; Humphrey 364; Stymington 6,269 and Johnson 446. Sen. Stuart Symington of Mis-

souri 414; Sen. Lyndon B. Johnson of Texas 290.

Republican — Nixon 54,438; Gov. Nelson A. Rockefeller of New York 4,235; Henry Cabot Lodge 578.

There were 833 Nixon votes in the Democratic primary and 3,413 Kennedy votes in the Republican.

In Pennsylvania, where only Nixon's name was entered and other candidates names had to be written in, late tallies showed: Republican — Nixon 947,702; Rockefeller 10,921.

**TURMOIL IN TURKEY**—Fellow students carry an injured comrade from the fray in Istanbul after clashing with the police in an anti-government demonstration reminiscent of the South Korea uprising. Thousands of Turkish troops patrolled Istanbul to curb the demonstrations, which were sparked by a ban on political activity instituted by the strong man government of Premier Adnan Menderes. (AP Wirephoto via radio from London)

## Top Students To Be In Contests

AUSTIN (AP) — Some 2,000 top high school students and athletes will compete for state championships here next weekend.

The one-act play division will open competition in the 50th annual Interscholastic League state meet Thursday. Final events will be held Saturday.

Events include the one-act play, journalism, number sense, slide rule, typewriting, shorthand, poetry reading, original oration, declamation, debate, ready writing, extemporaneous speaking, golf, tennis, track and field.

Literary and academic contests begin Friday morning following an evening of plays.

Championships will be determined in five divisions by the size of the school.

The league's golden anniversary commemorative dinner will be held Thursday night. Dr. Harry Ransom, university vice president, will speak.

The convention of the Interscholastic League press conference, a league-sponsored organization of junior and senior high school journalists, will also be held. General sessions begin Friday morning.

Featured speakers include Turner Catledge, managing editor of the New York Times; William F. Matthews, vice president, Young and Rubicam, New York Advertising firm; and Joe Pickle, managing editor of the Big Spring Herald.

The annual league breakfast and state meeting of delegates is scheduled for Saturday morning. Announcements will be made there concerning the debate proposition for the 1961 school year and the results of a vote by schools to abolish a rule that prohibits state winners in some contests from competing in those contests again.

R. J. Kidd, league director, said those other items may be discussed. An amendment to the league award rule which prohibits a school from getting awards for interschool competition over \$15 a year.

Other possible issues include an amendment to the present rule on changing schools to permit league

participation by foreign exchange students, reinstatement of the science contest, and a reclassification study for all schools with the view of adding another conference.

## Illness Claims Boy Who Gave Watch Away

CANDOR, N.C. (AP) — Twelve-year-old Don Stuts, who once gave his own Christmas watch to a playmate dying of leukemia, himself has died of the disease.

Don, a freckle-faced sixth grader, died in a hospital Friday. His illness, often called blood cancer, was diagnosed last August, but Don was not told he had an incurable disease and he continued to attend school up until the day before his death.

During his last weeks, Don received gifts, letters and attention from a wide area. Two Greensboro entertainers traveled to his home to put on shows especially for him.

Don wondered about all the fuss. He was told that it was because of something he did for a friend at Christmas, 1955.

That was the Christmas when 8-year-old Don got from Santa Claus the wrist watch he wanted. Later in the day, Don visited a friend, 11-year-old Billy Davis, who lay dying of leukemia and whose parents' money went for medicine and drugs, not Christmas presents.

"I wish Santa Claus had brought me a watch," said Billy, admiring Don's Christmas present.

Don, a quiet but cheerful lad, gave Billy the watch.

# Farmers, Ranchers Welcome State Rains

COLLEGE STATION (AP) — Good rains cheered farmers and ranchers last week but the rains were light and spotty in many sections. Director John Hutchison of the Texas Agricultural Extension Service said Saturday.

The moisture was beneficial to ranges, pastures, growing crops. The general condition of livestock improved as more grazing became available. Ranchmen made good progress with the working of cattle, sheep and goats. Sheep shearing is well underway, district agents reported to Hutchison.

Moisture was short in most of far South Texas. Ranges need rain but cattle held up well. Farmers were busy cultivating. Hill damage 3,000 acres of cotton in Aransas and San Patricio counties.

Rains in South Central Texas will benefit cotton, corn, grain sorghums and pastures. Moisture was needed to finish planting. Onions are about ready for harvest. Tomatoes are making slow progress.

A general rain is needed in the upper Gulf Coast counties. Spotted showers helped some parts of the district but pastures and crops need a general rain. Early crops are up and growing. Cotton planting is continuing and rice planting is well underway. Livestock is improving.

Light rains in deep East Texas were beneficial to young crops

and pastures. Planting can now be pushed to completion. General conditions were excellent.

Moisture was short at midweek in northeast Texas and moisture was needed for crops, pastures and planting. Livestock improved.

pastures, small grains and legumes furnish grazing.

In far West Texas, the moisture situation was fair to poor. Dry-land farmers are waiting for rain to plant.

Planting of irrigated crops is reported as near completion. Hill damage caused some replanting in the Ft. Stockton area. Livestock conditions were good; sheep shearing was well underway and that lamb crop was good.

Rains in Central Texas varied from light showers to heavy thunderstorms. The rains restored surface moisture, helped mature oats, helped crops already up and gave cotton planting a boost. Fruit prospects were good and said pastures and livestock are in good condition. Moisture would be very helpful.

A general rain is needed in central West Texas to mature small grains, keep range vegetation coming, provide moisture for planting and air crops already planted. Some favored spots in the district have received rains,

but hail also caused some damage especially at San Angelo. Livestock is in good condition and sheep shearing is in full swing. Prospects for small grain depends upon more rain.

Showers, especially over the eastern counties in North Central Texas, have helped crops, ranges and pastures. Cotton planting will increase now. Livestock conditions are good.

Moisture is needed in all the Rolling Plains (Vernon) area. Wheat is heading in all counties and needs moisture for maturity. Ranges need rain and stock tanks are becoming low. Grain is being irrigated where water is available. Up to 15 per cent of the district's cotton crop is planted, and 10 to 20 per cent of the sorghum is planted.

Only showers have fallen in the South Plains (Lubbock). Moisture is scarce. From 2 to 40 per cent of the cotton crop had been planted, mostly on irrigated land. Ranges and small grains need moisture but livestock is in good shape.

Surface moisture is short in the Panhandle. Wheat was making good growth and was in good condition. Ranges and cattle were in good condition.

## Business In State Soars

AUSTIN (AP)—A booming first quarter of 1960 points to a fine year for business in Texas, the Bureau of Business Research reported Saturday.

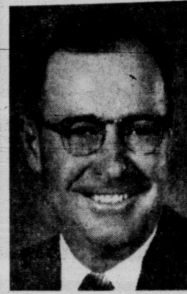

The first three months of the year saw a climb in the overall business index of four per cent over the last quarter of 1959 and five per cent above the 1959 average.

A drop of four per cent was recorded in March from February but the index still topped all previous three-month periods. However, the bureau said business still was not increasing as rapidly as had been expected.

Spending by consumers at retail has been somewhat disappointing but still represents a major hope for future increases in business, the report said. The first quarter dropped three per cent from 1959's first quarter in spite of the fact consumer income has continued to

rise. Average weekly earnings in Texas industries improved in March and generally were above a year ago except in the oil business. Agricultural conditions improved and prices received by farmers rose two per cent in March but are still below the level of a year ago.

## WAYLAND G. HOLT

EXPERIENCED as a prosecutor — 2 terms as County Attorney and one term as District Attorney.

QUALIFIED by experience and by education — honor graduate of Baylor University Law School.

RECOGNIZED as an able prosecutor by authorities — Commended by State's Attorney in Court of Criminal Appeals.

TRUSTWORTHY — diligent as a prosecutor, yet fair to all who come before him.

DESERVING of your vote and support on May 7 for reelection to a second term as

**DISTRICT ATTORNEY**  
(Paid Pol. Adv.)

TOP SENIORS FROM HERMLEIGH this year are Jane Beeks, valedictorian, and Mickey Winter, salutatorian. Besides being top scholastically, both have participated in almost every activity of the school.

## Top Seniors At Hermleigh Named

Top honors in the Hermleigh senior class of 1960 go to Jane Beeks, daughter of Mr. and Mrs. R.O. Beeks, and Mickey Winter, son of Mr. and Mrs. Milton Winter. Jane was announced as valedictorian this week with an average of 93.4 with Mickey running a close second with 93.1. This climaxed 22 years of competition for the two with all but two of the years going to Jane. When they graduated from Junior High, Mickey was third in the class, but he was top man the first two years of high school until he got interested in "other things."

Mickey participated in every sport offered in school, including football, basketball, track, tennis, volleyball and baseball. Some of his other activities were being in the junior staff, a member of the annual staff and an FFA member. Both students are named in the Who's Who section of the annual, "The Cardinal Call."

## Man Shows Up To Stop Own Funeral

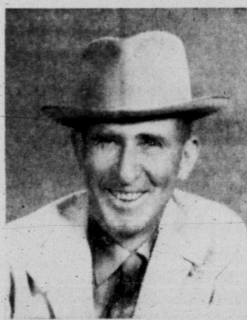

CAP CHAT, Quebec (AP) — Emilien Lajoie showed up alive — just in time to stop his own funeral.

The 38-year-old farmer and his wife were reported burned to death in a fire that swept their home Wednesday.

Lajoie strolled out of the woods Friday. His funeral was scheduled for this morning. Two of Lajoie's four children died from injuries suffered in the fire. The other two are still in the hospital.

Police said Lajoie would be held as a material witness in connection with the fire. Lajoie is now described officially as missing.

## SO THAT PEOPLE WILL KNOW

J. B. TURNER

Candidate For County Commissioner

Of Precinct 3 — Scurry County

## MAKES THIS STATEMENT

1. The vote of the people will be strictly followed and controlling in any decision which I may make as a member of the Commissioner's Court.
2. Whether or not the County should build a new courthouse at this time like anything else requiring the expenditure of a large sum of money, should be left to the voters and taxpayers for final decision. Our present Courthouse can be made more adequate by sensible rearrangement of County offices to create more space for the ones which are now crowded. This could be done without architectural expense.
3. Available equipment and labor should be used on all roadwork and other County projects where at all practical.
4. Where contracts for County work are necessary local people will have my vote when at all possible.
5. Local purchase of all supplies and equipment bought by the County will be my consistent policy.
6. County salaries are high enough and should not be raised under present conditions.
7. The existing services of the County should be maintained at a high level, particularly our Hospital, roads and schools.
8. I will co-operate fully with other County officials. I believe the Commissioners Court should follow a definite policy of long range planning of County business in order to achieve the best results.
9. If I am elected Commissioner of Precinct 3, I will strive to perform the duties of the office in a manner which will be beneficial to the entire County. I will not be wondering how my decision will effect me in the next election. I will do my utmost to make every decision on the basis of fairness and impartiality to all.

# LAW DAY U. S. A. -- 1960 ... Till Heaven And Earth Pass

(Editors note—Today is Law Day U. S. A., a date set aside for Americans to recognize the importance of law in their free society. J. Ray Martin, Scurry County Judge, prepared the following at the request of the Scurry County Bar Association, in connection with observance of the day.)

BY J. RAY MARTIN  
Scurry County Judge

The institution of law among men and nations is an ancient and modern method of resolving chaos, savagery, and ignorance among men into civilization and security. No man can obtain for himself the benefits of mankind's progress without the security achieved through the institution of law. Certain branches of the law, i.e., the laws of property inheritance, domestic relations, contracts, negligent wrongs, and crimes, are well established and fairly uniform so that society can feel secure in their application; but international law of nations (which has its origin in the just sentiment of early Roman law), is not well received in the modern world because of the independence of nations, national sovereignty, and of their mistrust of each other and lack of confidence in the fairness and enforceability of international law. As a result of such mistrust and little faith in international law, modern nations, with mechanical implements of war and atomic bombs, periodically slaughter and sacrifice their youth for lack of adequate guidance of

law in their affairs, in much the same way as the ancient barbarians; and in effect these modern nations proclaim that the law is necessary for them to establish for their own individual citizens but is not to be trusted by the nations themselves in their affairs with each other. Such mistrust and lack of confidence in law manifest a lack of faith in the wisdom expressed by the Roman orator Cicero (106-43 B. C.), one of the greatest statesmen of history.

"True law is right reason and in agreement with nature; it is of universal application, unchanging and everlasting; it summons to duty by its commands and averts from wrongdoing by its prohibitions. And there will not be different laws at Rome and at Athens, or different laws now and in the future, but one eternal and unchangeable law will be valid for all nations and all times, and there will be one master and ruler, that is, God, over us all, for He is the Author of this Law, its Promulgator, and its enforcing Judge. Whoever is disobedient is fleeing from himself and denying his human nature; and by reason of this very fact, he will suffer the worst penalties, even if he escapes what is commonly considered punishment."

The advance of law has always been associated with, and necessary to the preservation of, human progress—from the time of the Code of Hammurabi in Babylonia (2100 B. C.) from the time of Biblical Israel with Moses'

Ten Commandments and the "Law and the Prophets"; from the time of Imperial Rome with its Justinian the Great (A. D. 483-565), who formulated the maxim of Roman law that "all men are created equal"; which played a great part in the ideology of the British Magna Charta and of the American and French Revolutions over a thousand years later; and from the time of the Prince of Peace, who in the Sermon on the Mount announced:

"Think not that I am come to destroy the law, or the prophets: I am not come to destroy, but to fulfill, for verily I say unto you, Till heaven and earth pass, one jot or one tittle shall in no wise pass from the law, till all be fulfilled." Matthew 5:17-18.

In recognizing that the question is not one of war or peace but rather one of law instead of war, President Eisenhower, has proclaimed Sunday, May 1, 1960, LAW DAY, throughout our fair and blessed land. To foster deeper respect for law and an awareness of its essential place in American life, as well as to encourage the efforts now being made to bring about an extension of law as an instrument of world peace and orderly progress in all international relationships for the future benefit of mankind.

In this Twentieth Century when through the genius of science man truly has dominion over all the earth, it is imperative that he not forget the law and its dominion over him lest by his own folly his heaven and earth pass.

ROY WILSON

## Youth Wins Europe Trip

Roy Wilson of Fort Worth, 15-year-old grandson of Mrs. Dora Preston of Snyder, returned recently from a free trip to London and Paris. A carrier for the Fort Worth Star Telegram, he won the trip by selling 35 new subscriptions to the paper in a month long contest.

While in London he saw Big Ben, visited Parliament, attended soccer matches, went boating on the Thames and was received by John Hay Whitney, the U. S. Ambassador to Britain. He also visited Buckingham Palace, saw the changing of the guards, was welcomed by the Lord Mayor of London and took a channel steamer to Calais.

His sight-seeing in Paris included the Louvre and Napoleon's Tomb, the sewers of Paris, and boating on the Seine. He was served breakfast in bed during the entire trip which cost the Star Telegram approximately \$2,700 plus \$240 spending money for Roy.

## Weather Blamed For Construction Lag

DALLAS (AP) — Unseasonable weather got part of the blame Saturday for a continued dip in Texas construction this year. The Texas Contractor, construction news weekly, reported April heavy engineering and non-residential awards totaled \$81,133,420. April awards brought the total for 1960 to \$329,481,506 compared with \$421,777,908 in 1959. The April total last year was \$91,921,632.

## Another Sought In Seaman's Slaying

SAN DIEGO, Calif. (AP)—The Navy said Friday night it is seeking another sailor for questioning in the slaying of Mitchell Ferreira, 20, a seaman apprentice of Hayward, Calif. Ferreira was found beaten to death in a Tijuana motel last Saturday. The Navy is holding Raymond Woodward Jr., 19, an apprentice fireman of San Angelo, Tex., although he has established his whereabouts at the time of the slaying.

## Nixon Camp Prepared For A Setback

By JACK BELL  
WASHINGTON (AP) — Vice President Richard M. Nixon's camp is running up some distress signals in advance of next Tuesday's Indiana and Ohio presidential primaries.

Nixon's associates are taking a bearish approach with forecasts that the vice-president won't get as many votes on the GOP ticket as Sen. John F. Kennedy (D-Mass.) fields on the Democratic ballot in Indiana.

Kennedy, not to be outdone in clutching at the underdog role, said in Kokomo, Ind., Friday he thinks that on the basis of 1956 results Nixon will get more votes Tuesday than he does.

Asked for comment, Herbert G. Klein, Nixon's press secretary replied: "That would be a very pleasant surprise in view of the fact that there are four times as many contestants in the Democratic primary as in the Republican."

In Ohio, where the voting is on delegate states, Nixon's friends are bemoaning the candidacy of former Sen. George H. Bender, Bender, pledged to vote for himself, is running for at-large convention delegate outside the or-

The Snyder (Texas) Daily News, Sun., May 1, 1960

ganization slate pledged to Nixon. The thought among some of Nixon's people is that Bender, often a statewide candidate, might cash in on organizational apathy in an otherwise uncontested election. On the Democratic side, there is a battle calculated to bring out the voters in the heavily populated areas. Cleveland's Democratic leader Ray Miller is running a group of candidates in a bid for 29 of the state's 64 Democratic votes. Any of these who win would be expected to support Kennedy.

Gov. Michael V. DiSalle's full slate of delegates would be pledged to Kennedy on the first ballot, so the Massachusetts senator can't lose in any outcome.

## Lunch Bars Closed Due To Sit-Ins U. S. Press Must Improve Its Service, Speaker Declares

AUSTIN (AP) — Sit-in demonstrators appeared at seven of the nine Renfro Drug Stores in Austin Saturday, stopping service at the fountains and food counters.

One group left when asked to do so by the store manager. Others sat for 15 minutes to almost three hours.

There was no violence and the sit-ins attracted little attention. Most of the demonstrators were Negro college students although each group contained at least one white student.

Joe Renfro, president, said later he had no plans to desegregate his lunch counters.

Meanwhile, at least three of the downtown stores visited by sit-in demonstrators Friday began serving groups of up to three and four Negroes at a time. They were told the lunch counters would be closed if large groups of demonstrators appeared. The three stores were F. W. Woolworth, H. L. Green and Kroger.

Other stores visited in the mass sit-in demonstration of the downtown area Friday indicated they did not plan any desegregation. In one place cardboard cartons were set up on lunch counter seats and removed for white patrons only. A large cafeteria kept an employee stationed at the door to tell Negroes they could not come in. A cafe lowered a chain stretched across its doorway only for white patrons.

## Dies In Accident

ALAMOGORDO, N.M. (AP) — Joseph Grady Westmoreland Jr., 31, a former Texarkana, Tex., resident, died in a car accident near here Saturday.

DALLAS (AP) — The press in America has been losing prestige and needs to improve itself in many ways," Bernard Kilgore, president of the Wall Street Journal, said in an address here Saturday.

"It must emphasize quality," Kilgore said. "It must bring itself up to date, meeting the challenges of today. It must get rid of inferior material and cheap promotion."

Speaking to the annual convention of the Texas Assn. of Sigma Delta Chi, he said he thought unionization of news men had hurt the editorial side of many newspapers. "It has damaged the prestige of news jobs," Kilgore said, "and if the American Newspaper Guild combines with the Typographical Union, still more damage will be done. Bright young men certainly will not be attracted to such an arrangement. Already the guild includes non-news men, such as clerks and office boys. I prefer to think of reporting, writing and editing as an art."

## Sweetheart Named

FORT WORTH, Tex. (AP) — Ann Everett, 18, a Texarkana, Tex., high school cheerleader, was chosen sweetheart of Allied Youth of the Southwest District as some 250 members of the organization wound up their annual conference with a dinner Saturday night.

On Enoshima Island in Japan there is an escalator to take sight seers up a rugged hill. Climbing from sea level to a lovely botanical garden at the top, the fourstage escalator cost \$500,000.

Kilgore said that journalism, news director of WBAP AM-TV, Fort Worth, introduced Kilgore and said of him: "I don't know anyone who has been involved successfully in more tough jobs than Bernard Kilgore."

Kilgore said he thought editors often have more to say about the management of smaller papers than they do in the case of the big ones. "I think editors should be willing to take on tasks of general management if the need arises," he stated. "Otherwise, we shall find every last one of our newspapers bossed, at the very top by business office executives."

"There are great career opportunities in journalism for those who really fit," Kilgore concluded. "There is probably even some fun in journalism for those who don't fit and will eventually go elsewhere. Journalism puts very little premium on seniority alone, but it rewards experience. It provides enormous opportunities for service, and I don't think it will ever stop challenging the imagination and the intellect. Journalism will help keep you young!"

James A. Byron, past national president of Sigma Delta Chi and

CUTAWAY VIEW—Tornado funnels which passed low over Oklahoma City caused a lot of damage to homes and buildings. Typical is this side view of a home with the roof touched — a 50 mile long strip of central Oklahoma caused widespread damage and 31 injuries. One man in Oklahoma City died, several hours after suffering a heart attack when the 85 miles an hour winds pelted the city, and damaged his home. (AP Wirephoto)

# Politicians Near Countdown Stage

By GARTH JONES  
Associated Press Staff Writer  
Texas politics reached the crucial countdown stage Saturday, 7-6-5-4-3-2-1 and May 7, the first Democratic primary.

Without exception the major statewide candidates announced plans for a final week of frantic activity.

The old professional politicians argued that voters had already decided Saturday which way to mark their ballots.

The new pros argued that one more television or radio speech might switch enough votes for one of Texas' famed close election decisions.

At any rate the candidates took no chances by any setup in speech making or "shaking. There were signs, however, that some charges and counter charges may give way to peaceful get-out-the-vote appeals.

Here's the prospects for next week after Saturday's scrimmage: Gov. Price Daniel announced a reception Saturday in Lubbock, then went to Wichita Falls for an area-wide luncheon. He had no formal speeches scheduled for the day. Monday he opens the final week with a statewide televised news conference over 21 stations. It will originate in San Antonio. Jack Cox, Daniel's opponent, visited and talked Saturday in Lower Rio Grande Valley points, including Harlingen and McAllen. In Brownsville he called the lobby control bill "a pious fraud" and a devious deception and a rather bad joke. Cox said the lobby control act should be strengthened and clarified to distinguish between private citizens who appear before legislative committees and paid professional lobbyists. Cox planned to spend Sunday night in Corpus Christi, then visit Monday in Kingsville, Alice, Beeville, Kennedy and San Antonio.

Atty Gen. Will Wilson campaigned Saturday in San Angelo, Temple, Lubbock and Houston. He attended the University of Houston annual Bar dinner Saturday night. Wilson planned to be in Austin, San Antonio, and Waco on Sunday Monday morning.

Speaker Waggoner Carr campaigned in Austin Saturday with appearances in Harlingen and Edinburg. He told a group of supporters in Edinburg that he believed Texans "want their laws

administered by leadership that does not look at a man's voting record, political affiliation or income level before deciding to take an interest in his case. I want the man in coveralls to get as much attention when he comes to the office of his attorney general suit," Carr said. Carr planned an appearance Saturday night at a League of Women Voters meeting in Edinburg. Sunday he speaks to the American Legion in Pharr and over a San Antonio television program.

Land Commissioner Bill Allcorn began his final week in Harlingen. "The Texans who want a non-political General Land Office — and a land commissioner with integrity — are the people who have fervently backed my administration and my campaign," he said. He will return to Austin Sunday.

Jerry Salder, candidate for land commissioner, was at his "Palace" home town Saturday. He said he had no electronic tabulator of bookkeeping machine yet devised which will ever be able to straighten out

the chaos of control over state-owned lands in Texas without enactment of a common-sense legislative program." Salder plans the first part of his final week in Dallas-Fort Worth, Houston and Beaumont-Port Arthur.

## Honor Roll At Gail Is Disclosed

GAIL—The honor roll for the second sixth weeks of the second semester has been announced for the Board of County Independent School System.

To make the honor roll, a student must have a grade of 90 or above in all subjects, except citizenship in which a 90 average is required.

Making the honor roll at Plains Elementary School were Sandra Hancock and Bobbie Ludke in the second grade, and Catherine Dzwazky in the third grade.

In the Boardman County School at Gail the honor roll is as follows: Third grade—Triva Lynn Boyd, Don Jackson and Pamela Wilson.

Fourth grade—Sara Bledsoe. Fifth grade—Vickie Brinson, Diana Sue Curry, Jacqueline Dennis, Waine Kelly, Daisy Killough, Don Nunnally and Shawna Willis.

Sixth grade—Pamela Beaver, Kay Sneed and Charles Teague.

Seventh grade—Sherry Barr, Mary Ann Dennis, Janie Johnson, Brenda Kay Reid and Ronald Sweat.

Eighth grade—Tommy Burrus, Bill Nunnally, Kemma Reddell and Pamela Stephens.

Ninth grade—James Telchik. Tenth grade—Bobby Burrus, Rusty Hensley and Gwendolynn Sue Sittler.

Eleventh grade—Neal Brinson and Pattie Harrell.

Twelfth grade—Larry Doyle, Ronald Martin, Carol Patterson and Ralph Williams.

Civil Defense Test Slated For Tuesday

DENTON (AP)—All radio and television stations are scheduled to go off the air at noon Tuesday as part of a 30-minute, nationwide civil defense test.

Regional headquarters of the Office of Civil and Defense Mobilization here has announced that some stations will come back on the air and broadcast on the 640 and 1240 conrad frequencies.

Non-essential stations will remain silent during the test. The purpose of the exercise is to test and train government, industry and private organizations in the general public in responding to a national emergency.

Certificate Is Awarded

Skill and knowledge of sewerage plant operation has won a Grade C certificate of competency for Loyd Holly of Snyder.

The certificate was awarded under Texas general sanitation law that municipal sewerage plants must be under the supervision of an operator who has proved his knowledge of the job and his public health importance in a written examination and has been certified by the Texas State Department of Health.

Holly's newly won certificate will be valid for three years. After meeting certain requirements in experience and training beyond those he now has, he will be eligible to try for higher certification.

Under the law, only one plant operator on each shift has to hold certification. But other plant personnel often seek certification on their own time and at their own expense to advance themselves professionally and to increase their efficiency as public servants.

Grade C certification requires a minimum of one year of experience, plus 40 credits earned through attendance at annual district and state short schools sponsored by the Texas State Department of Health, the engineering extension service of Texas A. and M. College, and the Texas Water and Sewage Works Association.

Construction Shows Gains

AUSTIN (AP)—March construction in Texas totaled \$107,900,000, up 36 per cent from February.

The Bureau of Business Research said Saturday the monthly gain is not enough to give a confident tone to figures for 1960. Building the first quarter is still seven per cent below the level of last year. Non-residential building shows a 17 per cent gain but residential construction is down 18 per cent.

New urban residential construction authorized in March totaled \$66,700,000, a 38 per cent gain over February.

The report showed total construction authorized in March for Houston was \$93,440,000, El Paso \$81,890,000, Austin \$80,150,000, Dallas \$77,340,000, Fort Worth \$32,580,000, and San Antonio \$33,710,000.

## Pagentry Climax To Royal Romance

By EDDIE GILMORS  
LONDON (AP)—A blaze of pagentry on Friday will climax the storybook romance of Britain's lovely Princess Margaret.

On that day amid the magnificent pomp this monarchical democracy stages in utmost splendor, she will wed her commoner sweetheart, Antony Armstrong-Jones.

Under the majestic trappings, it's the simple story of boy-meets-girl and the wishes of countless thousands for their happiness.

There's nothing simple about the setting, though. The pretty princess will ride in a glass coach beneath an archway of 30,000 roses. Massed trumpets will sound. Drums will roll and royalty, the famous and the unknown will watch.

The settings are historic Westminster Abbey, Buckingham Palace, the streets of storied London, and the honeymoon yacht sailing down the Thames to the West Indies.

The magic moment for the royal wedding comes at three minutes past 11 o'clock Friday morning. British summer time is six hours ahead of Eastern Standard Time.

At this minute the carriage procession carries the bride's oldest sister, Queen Elizabeth II, Queen Ingrid of Denmark and members of the British royal family will leave Buckingham Palace.

A mile away at the same time the glass carriage — the smoothest riding of all the royal rigs — will carry Margaret and her brother-in-law, Prince Philip, from Clarence House.

At 11:23 the princess and Philip will roll up before the abbey's great west door.

Meanwhile the bridegroom and his best man, Dr. Roger Gillatt, will drive to the deanery beside the abbey and slip into the abbey through a side door near the Poet's Corner.

Inside the great edifice, the archbishop of Canterbury, Dr. Geoffrey Fisher will take over a simple but rarely seen religious ritual which binds the couple together—the blessing of the rings and the wedding rings. This ceremony is not used in most Church of England marriages, but Princess Margaret and Armstrong-Jones asked for it. Friends said by Margaret because she desires to stress the importance of the marriage vows — including her promise to obey.

By 12:40 p.m. the bride, groom and the wedding party should be back at Buckingham Palace for what is technically called the wedding breakfast.

Then early Friday afternoon Margaret and her husband will ride from the palace to the muddy Thames. A royal barge will take them to the Royal Barge Station and with 20 naval officers and 237 sailors, the honeymooners will sail at 5:15 to the English Channel across the Atlantic to the warm breezes of the West Indies.

The entire operation will be confined to the Ft. Hood reservation here.

The defending troops first will seek to clear a road network of the enemy, then take up defensive positions and fall back and later counterattack.

The exercise lasts two weeks.

Destitute Robber

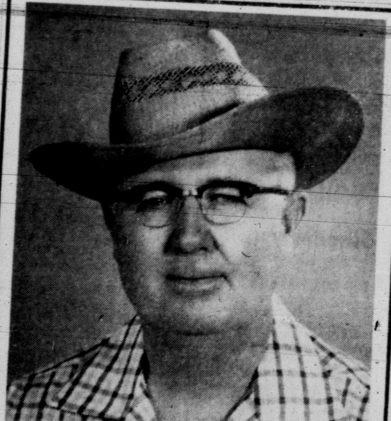

WORCESTER, Mass. (AP)—A masked man entered a home Friday night and escaped with \$37 after telling a 15-year-old girl who was alone that he needed the money to pay bills. Donna Schramm quoted the robber, as saying he has five children and is debt-ridden.

Fort Worth, Tex., attracts about 450 conventions a year.

# McLaughlin Gets Top Award As Snyder's Jaycees Install

By GERRY BURTON  
Daily News Staff

J. Mark McLaughlin was named "Young Man of the Year" for 1959 at the annual officer installation banquet held by the Snyder Jaycees Friday night in the Martha Ann Woman's Club. Speaker for the occasion was Col. Homer Garrison, Jr., director of the Texas Department of Public Safety.

Speaking on the problems of the law enforcement bodies of the state Garrison said the spending of an amount of money is justified in controlling the sordid, unpleasant element with which his department has to deal. Garrison heads 1,000 employees in the Texas Rangers, highway patrol, narcotics squad, and the intelligence division.

"This vicious minority could overturn the government with the passive attitude toward law enforcement held by most citizens if it were not for the constant vigilance of men who have sworn to uphold the law," Garrison said, adding that even with constant vigilance crime in this country was increasing "in alarming proportion" and conditions are "most grave."

Garrison blamed the increase of youth crimes on the idleness of today's youngsters, stating that with the population living in urban areas "on a postage stamp size where the neighbors' eyes stay out of the lowered and mother says to stay out of the street" in contrast with the rural life where everyone had a job to do and nature for release. He added that one can safely say that here is no crime, in nature.

"Youth today grows up in an atmosphere of war, talk of war, horror shows and sex shows on TV he has no chance to establish a true set of values and we need the support of each and every one of you to sit down, discuss the problem and find a solution," Garrison explained, stating that in a metropolitan society, a parent is so "beat" trying to support and keep his family that he has no time for them, that he has no opportunity to teach discipline to his children.

In concluding Garrison stressed, the tremendous job that was heaped on the heads of law officers. "A highway patrolman is a man of skill and intelligence, highly trained, a master of all situations, a man who can even deliver a baby if the occasion arises, a man who must be infallible, who makes split-second decisions, a man who is allowed no mistake by the public, this man is given a badge and a gun and bears the resentment of many because he has a little more prestige and power, this man is the thin blue line that stands between order and chaos, democracy and anarchy and when he gives his life for you, he only did his duty as he had sworn to do," Garrison said.

He alluded briefly to the day in 1917 when the Boston police force did not work, the day so often referred to as "the darkest day in America's history." On that day, Garrison said, even law abiding citizens went wild and joined in the reign of bedlam and terror with no fear of punishment.

"Backed by your support, we department of public safety" can

build a state we can be proud of," Garrison concluded.

Responding to Garrison's speech C. T. McLaughlin, honorary member of the Snyder Jaycees urged the men of Snyder to take a better look at the empty buildings around town and bid for the expanding industrial business of the northern area by creating a wholesome atmosphere to tempt them. This would include reasonable rent and fair housing, unspoiled labor, adequate fuel and water, a healthy tax structure with no outstanding bonds to put a heavy burden on new industry and competent and fair public officials.

McLaughlin touched briefly on the fact that approximately 3200,000 goes to Big Spring or bootleggers every year, and will now go to Post that could be used in Snyder to fill some vacant buildings. He commented that personally he would just as soon all liquor would be washed away, but if it was a part of our lives, Snyder might as well have the business, adding that "no bootlegger ever asks a boy if he is 21, instead he asks if he has that \$3.50 or \$5."

He also mentioned that "many Snyder people would be alive today if they could have bought a home instead of going to Big Spring and doing on the way back.

These speeches climaxed an evening of award-giving and installing officers. Following the invocation given by Walter Mitchell, pastor of the First Baptist Church, Ernest Sears, outgoing president recently elected state vice president from Area V, presented awards.

The "unshod rooster" pin was presented to Dick Roberts who is the last of the charter members

of the Snyder Jaycees to reach retirement age.

Merit certificates were presented to Ray Houpt, Arthur Blanchard, Johnny Greenfield, Hermon Bond, Glenn Cavitt, Kenneth Baker.

Key men awards were given to Billy Joe Brown and Frank Taylor.

The title of Mr. Jaycee, the most valuable man in 1959, went to Jerry Edwards.

Boss of the Year for allowing two of his employees to leave their jobs to work on Jaycee activities was Bill Wilson.

Steve Birdwell, recipient of last year's "Young Man of the Year" award presented the plaque to J. Mark McLaughlin, listing some of McLaughlin's accomplishments upon which the committee made its selection.

McLaughlin is president of the Diamond M Foundation, attorney for the foundation, president of the Scurry County Bar Assn., president of the Scurry County Industrial Foundation, troop leader of explorer Boy Scouts, member of the Bishop's Committee of St. John's Episcopal Church, Warden of the church, and was appointed by the bishop to serve on the Executive Council of the Northwest Texas Diocese.

Other accomplishments included being president of the Snyder County Club, a member of the board of zoning and adjustment, a member of the board of directors of the Security State Bank of Big Spring, a member of the board of directors of the Harvest Queen Mills of Plainview, and serving as assistant attorney general under Will Wilson.

In his speech, Garrison stated that it was most unusual for a son

state director with Dan Cotton, Glen Cavitt, and Doug McGlaun as two year directors and Frank Taylor as the only holdover director.

Certificates of appreciation were presented to Hershel Kelly and Lewis Timberlake from Stamford.

## 10 Per Cent Of America's Tanker Fleet Unemployed

NEW YORK (AP)—Ten per cent of the United States oil tanker fleet is unemployed. "The word fleet is in the same predicament."

Shippers say it will be years before demand catches up with the supply of ships.

What caused this glut of tankers?

### Political Announcement

The Snyder Daily News is authorized to announce the following candidates for office, election to be subject to action of the Democratic Primary.

For Congressman, 17th District: ROY SKAGGS, R-M; BOB WAGSTAFF, OMAR BURLISON.

For State Representative—50th District: RENAL B. ROSSON.

Exec. Commissioner, The General Land Office, State of Texas: JERRY SADLER.

For District Judge: STERLING WILLIAMS, ARTHUR BLANCHARD.

For District Attorney: WAYLAND G. HOLT, ROBERT R. PATTERSON.

For County Attorney: GEORGE KILLAM, JR.

For Sheriff: HOWARD GIBBONS, EARL ABERCROMBIE, R. B. SEARS, LLOYD MERRITT, BILLY LOVE.

For Commissioner, Precinct No. 1: W. M. MARION, DABBS, GRADY WILLIAMS, F. B. KNIGHT, BRILL JORDAN, J. ELMO CROWDER.

For Commissioner, Precinct No. 3: JIM STIRLING, J. B. FARNESE, KENNETH SMITH, JACKSON J. P. ELLIS, THAYNE W. MEBANE, L. L. MOORE, FRED SULLARD, J. C. ALLEN, J. C. (Weene) MORGAN, JESS EVERETT.

Tax Assessor-Collector: GERALD GREENE.

Two factors, say shipping men. One was an over-optimistic estimate in 1956 of the rate of increase in demand for oil. The other was the crisis which temporarily closed the Suez Canal.

With the Suez blocked by Egypt, the need for tankers appeared all the greater. The rush to build was on.

On Jan. 1, 1959, eight tankers were on order in the United States. By mid-1957 the number had grown to 39 and by the end of that year to 72.

The construction backlog throughout the world grew to 29 million deadweight tons, equal to 75 per cent of the existing fleet. The backlog would take six years to deliver.

When the Suez Canal was reopened and the demand for oil failed to meet expectations, shippers had too many tankers.

In calculating fleet tonnage, shippers use the 15,000-ton T2 tanker as the measuring stick. That was the standard tanker building during World War II. The world fleet is equivalent to

3,400 T2s. Of this total, the equivalent of 350 are tied up because they can't find oil to haul.

Of the United States fleet of 350, there are 37 idle.

Standard Oil Co., New Jersey, for instance, ordered five 47,000-tonners. It canceled 2.

When the Suez crisis broke, the U. S. Maritime Administration accepted the 1938 Maritime Act to encourage building of tankers.

This act permitted the administration to guarantee 47 1/2 per cent of construction costs.

A number of shippers, mostly independents, took advantage of the act to build ships.

As of Jan. 29 tankers were covered by the mortgage guarantee program. Twenty of the vessels have been delivered. Nine, including two 100,000-tonners, are under construction.

Of these 29 tankers, 18 are "without foreseeable business," a shipping executive says.

Some are doing charter business when they can get it, but aren't making money. The larger vessels are too big for use in the coast-wise trade.

The builders of these vessels saw the maritime administration to take over mortgage payments.

They also have joined with the AFL-CIO maritime unions in urging that the government require that any importer of oil transport at least share in U. S. flag vessels.

Of the outlook for tanker employment, Loren Kable, transportation coordinator for Jersey Standard, says:

"With the present backlog of tanker construction, we don't see a balance of demand in worldwide use in the foreseeable future. By the time new ships are built, shippers will have found compensable employment."

### Boys Ranch Film To Be Shown Here

The Snyder Shrine Club and Scottish Rite Masons will sponsor a movie about the Boys Ranch of West Texas located at San Angelo on Monday, May 9, to which the public is invited and urged to attend.

A choral group from the ranch will sing at the meeting to be held in the Junior High School Auditorium.

### 233 New Oil Wells Completed In Week

AUSTIN (AP)—A total of 233 oil wells were completed the past week, making a total of 2,226 for the year, the Railroad Commission said Saturday. Completions totaled 3,939 for the period last year.

There were 52 gas well completions and 139 dry holes. The week's report showed 6 oil wells, 5 gas and 72 dry holes.

A total of 48 oil and 10 gas wells were plugged.

### Texan Flees Jail In Oklahoma Town

SAPULPA, Okla. (AP)—Officers said that Donald Coker, 16, of Snyder, Tex., escaped from the Chick County Jail Friday night after clubbing two cellmates on the head.

## 4 Drake Marks Fall; Nieder Nips O'Brien

By JERRY LISKA  
Associated Press Sports Writer  
DES MOINES, Iowa (AP)—Four meet records, including a 63-foot, 11 1/2 inch shotput by Bill Nieder in a grudge match, were fashioned Saturday in the 51st Drake Relays.

Nieder vanquished Olympic champion and world record-holding Parry O'Brien in an AAU shot event which grabbed the spotlight before 14,000 fans, who shivered in windy, 45-degree temperature in Drake Stadium. However, the winning toss was nearly a foot and a half under Nieder's 65-7 heave in the Texas Relays earlier this spring. Dallas Long, who also has exceeded O'Brien's 11st mark, wasn't participating in the duel here.

Nieder, former Kansan, now an Army lieutenant, topped O'Brien by over 10 inches in a three-man showdown previewing the United States' prospects in the Olympic shotput at Rome this summer. O'Brien's best was 63-1 1/2 on his first of six turns, a shade under his listed world mark of 63-4. Another shotput giant, Dave Davis, 294-pound Californian, finished third with 61-9 1/2.

The other meet records came in the pole vault with a 15-foot, 1/2 inch leap by J. D. Martin of Oklahoma, a 3:12.2 clocking by Central Michigan in the college mile relay, and the first Drake running of the 5,000 meter event, won by former Minnesota star, Buddy Edelen in 14:35.7.

Kansas and Illinois each won two relays events, while East Texas State of Commerce, Tex., capped three baton titles in the college division.

However, Kansas also came up with a repeating champion in the javelin as Bill Alley won with 238-5.

The Drake mark in the special AAU shot put event was 59-9 1/2, set by O'Brien in 1964.

O'Brien, who holds the current world mark of 63-4, had been called the "Los Angeles Dodger" by Nieder prior to this grudge meeting. O'Brien had charged that Nieder couldn't win the high jumps.

Nieder, who had two scratches in his turns, also had tosses of 62-8 1/2, 63-10, and 63-8. O'Brien, after his opening 63-1 1/2, tossed 61-6 1/2, 60-7, 61-11, 61-6 1/2, and

scratched his final turn.

A special AAU dash was won by Glen Davis, former Ohio State star and the world's quarter-mile record holder, in 47.4. Davis won by four yards over Texan Eddie Southern, 1959 NCAA champion, but his time was well behind his own Drake mark of 46.5 and his world mark of 45.7.

Oklahoma's Mike Lindsay retained his shotput title in the university division with 56-10 1/2, eight inches behind his 1959 Drake record.

Minnesota's Dave Odgaard won a 13.9 victory in the 120 high hurdles, just one-tenth of a second slower than the Drake mark.

Illinois captured the university distance medley in 5:59.5, almost 10 seconds behind the meet record.

The 100-yard dash produced a hot battle between Kansas' Charlie Tidwell, 1959 NCAA champion, and Baylor's Ray Knaub. The race was won by Tidwell in 9.5, a tenth of a second over the Drake mark.

## Palmer Rallies To Tie Collins, Fleck

HOUSTON, Tex. (AP)—Arnold Palmer rallied on the back nine Saturday to catch Bill Collins and Jack Fleck for a three-way tie at the halfway mark of the \$35,000 Classic Golf Tournament.

The Masters champion was three strokes off the pace after the first, 10 holes of the second round but came through with three birdies for a 66-71—137. Collins, the 1959 New Orleans Open winner, finished a few minutes later with an identical score.

Fleck, the 1955 National Open champion from Los Angeles, had posted his 68-69—137 two hours earlier.

Billy Maxwell, Oceanside, Calif., moved onto the final green needing only a birdie to join the dead-locked but three-putted from 20 feet for a 67-72—139.

Palmer scrambled with four bogies and five birdies for his 37-34—71 on the 7,122-yard, par 72 Memorial Park course. Collins went out in 34 and came in with a 37.

Fleck started with an eagle 3 on the 558-yard, par 5 first hole and added two birdies against only one bogey for a 33-36.

All three missed birdie putts on the final green.

"I thought there was no way for mine to stay out of the cup but it took a jump," said Palmer, the muscular Ligonier, Pa., pro.

"That rain just made the greens tough with so much tramping," he said.

**FEARSOME FOURSOME**—Springtime and golf go together like peaches 'n cream, with the above quartet of linksmen typifying the warm weather trend. Shown following completion of a recent nine-hole junket at the Snyder Country Club are Earl Fish (seated in the motorized caddy), Mal Stevenson, Jake Phillips, and Johnny Boren. (Photo by Jackson)

## John Thomas Soars To High Jump Mark

By ED CORRIGAN  
Associated Press Sports Writer  
PHILADELPHIA (AP)—John Thomas, the towering Boston University sophomore, soared through the gloom and mist of Franklin Field, Saturday to a world high jump record—7 feet, 1 1/2 inches—in the Penn Relays.

A record crowd of 42,138 saw Thomas go over on his first try. There was daylight between his graceful body and the crossbar.

Thus the questionable world record of 7-1 set in 1957 by Russia's Yuri Stepanov was toppled. Stepanov made his record with the aid of shoes with raised soles.

His mark was accepted, but the shoe later was banned.

Other highlights of the gigantic carnival:

1. Ray Norton, formerly of San Jose State, equaled the world record of the 220-yard dash around a

turn with a clocking of 20.6.

2. Michigan, which came with high hopes of becoming the third team in the history of the relays to win four events, had to settle for two.

3. Yale, which hadn't won a major test since 1942, came out with two victories.

But in the end it was Thomas who stole the show. The 19-year-old youngster already had cleared 7-2 1/2 indoors, but the International Amateur Athletic Federation recognizes only outdoor records.

This was only his second outdoor competition as a collegian. Last week, he equaled Charlie Dumas' American outdoor record of 7-1, which has been on the books since the 1956 Olympic tryouts.

Thomas tried for 7-2 1/2 three times but missed.

Michigan won the distance medley, but won just one more of the remaining seven top relays. The final tally showed Michigan with two, San Jose State with two, Yale with two and Villanova and Winston-Salem (NC) Teachers with one each.

Michigan won the four-mile relay in 17:27.3.

San Jose State grabbed the quarter-mile in 41 seconds.

San Jose also outlegged Don Canham's Wolverines in the half-mile, which they covered in 1:24.5, equalling the meet record.

Yale finished way out front in the two-mile in 7:27.4.

Villanova won the mile in 3:12.2, and Winston-Salem captured the shuttle hurdles in 59.3 seconds for the third year in a row.

**THE FEET OF TEXAS**—Members of the Texas University quarter-mile relay team are all smiles after a workout at Des Moines, Ia., in preparation for the Drake Relays. Some of them pulled off their shoes to cool their feet. The Texans won the quarter-mile and mile relays events last year. They are, from left, front row, Don Isett, Wayne Porter, Drew Donlap, and Ralph Alspaugh. Back row, Rex Wilson, Don Beard and Nagel McDowell. (AP Wirephoto)

## Kirkwood To Appear At Snyder CC

Joe Kirkwood, nationally famed trick shot golfer, has scheduled an appearance at the Snyder Country Club Wednesday, May 4.

His exhibition will begin at 5 p.m. on that date, with admission prices being \$1.50 for adults, and children accompanied by adults being admitted free of charge.

Kirkwood, in addition to his golfing prowess, is a movie star in his own right, his more noted portrayals being in the role of Joe Palooka.

## Miss Haynie Is Favorite

BEAUMONT, Tex. (AP)—Defending champion Sandra Haynie of Austin is a top-favorite in the 15th annual State Amateur Match Play Tournament of the Women's Texas Golf Association, which will be staged at the Beaumont Country Club starting Tuesday.

Some 180 performers are expected to qualify for the meet Monday.

## Tigers Whack Rotan By 15-1

BY JERRY JACKSON  
Sports Editor

Bennie Greenfield, Snider Tiger pitcher, delivered a scorching regular first base assignment here Friday to hurl his mates to a 15-1 victory over Rotan's Yellowhammers. Greenfield, in going the route of the contest, gave up only three hits, and successfully shook off a first-inning surge of wildness which saw him losing four of the six bases on balls which he relinquished throughout the game.

In the meantime, the Tigers pounded a pair of Lopeses—Adon and Hiram—all over the lot, as they garnered an even dozen base hits, five of which went for extra bases. Adon was charged with the loss, as he went the initial three innings, giving up a pair of runs, then was jerked in the fourth as he allowed the first three Tiger batsmen to get on base in the frame.

Hiram fared even worse, as Snyder batted around on him in both the fifth and sixth innings, picking up five runs in each of those frames. During his tenure on the mound he gave up 9 walks which aided the Rotan cause but little.

**Sweet, But Short**

The Yellowhammer glory was brief, as they went ahead by 1-0 in the first inning before the Tigers remitted in the second and third to go ahead by 2-1. Todd Rauloff, son of the famous Sammy, led off the game by lining out to center, but consecutive walks to the next four hitters produced the sole "Hammer marker of the contest.

Snyder rebounded in the second following leadoff strikeouts by Greenfield and Keith Moffett. Frank Moore sent a line drive past third which rolled all the way to the fence and through it for a ground rules double, which in reality robbed him of a three-bagger. After which Ronnie Wylie singled to center to bring him home with the initial Tiger tally.

The go-ahead run was picked up in the third, as Weldon Ware doubled to left to set the ball rolling, choice on a Greenfield-powered grounder to short.

**Pulled Away**

The fourth found Snyder going out of range, as Moore led off with a single. Wylie was hit by a pitched ball, and Barry Walker singled between first and second. In plate Moore and Hiram Lopez, the demise of starter Adon Lopez. Walker's hit was the first of two which he placed in the same spot, giving him a perfect 2 for 2 for the day, as he walked twice, forcing in runs on both of those occasions.

Completing the fourth inning scoring were Wylie, who came in on a fielders choice, and Walker, who tallied on a sacrifice fly to center by Ware.

The scoring impetus increased in the fifth, as Greenfield began the frame by singling through the box and stealing second, after which Moffett and Moore walked to lead the sacks. Wylie whiffed, but Walker drew a base on balls to force in Greenfield. Spencer Dyer followed up by singling Moffett home. Bubba Fleming boomed a double to center to score both Moore and Walker. Dyer ramped in with the final marker of the frame, as Ware sent another sacrifice fly sailing, this time to right field.

**Franks Delivers Goods**

New faces and five more runs greeted the Rotaners in the sixth, as Coach Don Robbins, subbing for Speely Moffett, substituted freely.

Other features of the tournament include a long-drawing contest, barbecue, and sport dance. Also, a senior flight for those 55 years of age and over has been set aside. Entrance fee for the meet is \$15.

## Brownwood CC Tourney Set In May

The 24th annual Men's Golf Tournament will be held off May 5-6-7-8 at the Brownwood Country Club, and is open to all amateur golfers.

The schedule of events calls for 54 holes of stroke play, with trophies and prizes for winners of each flight being awarded, while in addition there will be other prizes for winners of each flight being awarded, while in addition there will be other prizes for winners of each flight being awarded.

The Pro-Am feature of the tournament will be played May 5. Qualifying for all flights will include 18 holes, the low 40 being designated as the championship flight and the qualifying round scored as the first round of the tourney. This phase of activity will take place on Friday, May 6. All entries must be made by 2 p.m. of that day.

The first flight will be made up of the high 20 at 36 holes of those 40 which were placed in the original championship flight.

## Stearnes Is Winner Of Event Of Day

Thirteen links women took part in the past week's Ladies' Day play at the Snyder Country Club with Norma Stearnes winning out in the event of the day.

Other honors were nailed down by Rachel Rosser, who had low par, Boots Shaw, the low gross, and Abby Dean and Isabel Wilson, who tied for low net honors. Wilson also was recipient of the "hoops" prize, which was awarded for the day.

One of the highlights of the week's play was a birdie four marked up on the number six hole by Vert Kimbro, the first of her golfing career.

## Bosox Edge Washington

BOSTON (AP)—Boston rallied to beat Washington ace Camillo Pascual 2-1 Saturday on eighth-inning singles by Vic Wertz and Bobby Thomsen.

Pascual had allowed only three singles and struck out when he wobbled in the eighth by walking Pete Runnels and Gene Stephens. Wertz blooped a single into short center to spoil the shutout, bid and tie the score. Then Thomsen lined a hit to left for the winning margin.

Starting Tom Sturdivant, whose only slip in a four-hit, seven-inning stint was a home run pitch to former Sox player Bill Conello, combined with Mike Fioresi and Ted Bowsfield for the victory.

Though the Senators managed only four hits altogether, they had three walks from Fioresi in the ninth.

The Tigers next see action here Tuesday, as they take on Lamesa in a district fray. The Moffettmen are currently leading the AAAA chase with a 2-0 record.

The box score follows:

| ROYAL      | AB | R | H | E | BI |
|------------|----|---|---|---|----|
| Reed       | 4  | 1 | 1 | 0 | 0  |
| Moore      | 4  | 1 | 1 | 0 | 0  |
| Walker     | 4  | 1 | 1 | 0 | 0  |
| Greenfield | 4  | 1 | 1 | 0 | 0  |
| Moffett    | 4  | 1 | 1 | 0 | 0  |
| A Lopez    | 4  | 1 | 1 | 0 | 0  |
| H Lopez    | 4  | 1 | 1 | 0 | 0  |
| Moore      | 4  | 1 | 1 | 0 | 0  |
| Wylie      | 4  | 1 | 1 | 0 | 0  |

# Gwen Verdon Now A Versatile Star

By BOB THOMAS  
AP Movie-TV Writer

HOLLYWOOD (AP)—The entertainment scene is a gala opening at the Civic Light Opera season this week for the return of Gwen Verdon, once a dancer in the chorus. She came back as the most versatile star of the musical theater, dancing, singing and acting up a storm in "Redhead."

The triumph is even greater for the Culver City, Calif., girl who made good in the Big Town because of the vehicle. It is an old-fashioned amalgam of musical comedy techniques in the presence of Verdon makes the stage incarnate.

The Civic Light Opera once presented a yearly repertoire of four operettas in four weeks. This year's season lasts six months and all the good seats are sold out for her attractions. "Flower Drum Song," "Showboat," "Destiny Rides Again."

Jerry Lewis is playing to big crowds at the Moulou Rouge these nights and he's in good form. The more he relaxes, the better Jerry is, but it's a difficult thing for him

to do.

Jerry has one lapse. Even with kids in the front row, he insists on using risqué material. There's no reason for a comic of his talents to purvey dirty jokes, especially with tender ears nearby.

The highbrow critics will have a field day attacking "Pollyanna," but it may be Walt Disney's biggest money-maker. It is a pure sentiment without apology, but wonderful Hayley Mills provides just enough tartness to cut the treacle.

On the other hand, take the current "The Fugitive Kind." Marlon Brando plays a guitar-playing bum run out of New Orleans for taking part in a stage show. Anna Magnani, in the role of a woman married to a dying man, becomes pregnant by Brando—the second electricity of the character.

"Pollyanna" has had Joanne Woodward play a self-aimed lewd vagrant who alternates between chasing men and the bottle.

It will be interesting to see which film earns the most money. "Pollyanna" or "The Fugitive Kind."

COMING HERE SOON—'Story On Page One,' a comedy drama filmed in CinemaScope and starring Rita Hayworth, Gig Young and Anthony Franciosa, will open Wednesday, May 25, at the Palace Theater here.

**Prospect Honeymoon**  
KINGSTON, Jamaica (AP)—Renovations at Prospect, Sir Harold Mitchell's century-old great house on the white sand beach coast, seem to confirm reports that Princess Margaret will spend part of her Caribbean honeymoon there. Members of the royal family and Sir Winston Churchill have holidayed at Prospect.

**Warner Legend Heckles Hunter**  
By BOB THOMAS  
AP Movie-TV Writer

HOLLYWOOD (AP)—Film-land legends die hard, and the one about H. B. Warner is returning to heckle Jeffrey Hunter.

The 33-year-old actor has signed to play Jesus in "The King of Kings," a new treatment of the Christ story to be filmed by Samuel Bronston in Spain, Italy and the Holy Land for six million dollars. Jesus has often been portrayed feigning to be blind, but this is the first important biography since Cecil B. De Mille made his silent "King of Kings" in 1927.

Lean, frazzled-looking Warner played the title role for De Mille and his acting career was blighted for years thereafter. During one of his comebacks, the actor told movie producers, could see him in nothing but religious roles.

"I know there are certain risks involved. But I'm willing to take them because the part is so great," Hunter said.

"I'm not worried about getting typed. I've played so many kinds of roles in my career that I don't think this one could stop me," Hunter said.

"Hunter was playing a widely divergent role when we talked. He stars in 'Hell to Eternity' as Guy Gubaldon, Los Angeles Mayor who captured 2,000 Japanese on Okinawa.

"When I got back from the Okinawa locations they sent me the scripts," he said. "I thought it was great and asked what role they had in mind for me. Like maybe 'Jesus Christ,' they said. I answered 'Sure.'"

The actor isn't certain how he was chosen. He has done no Biblical roles, didn't even test for the film. He hasn't even talked

**Argument On Effects Of Film Strike**  
By BOB THOMAS  
AP Movie-TV Writer

HOLLYWOOD (AP)—Both the movie strike wrought "Now that production has resumed it is possible to make a sounder survey of the long-range effects of the settlement of the month-long strike of actors against the major studios.

Jack Karp, head of Paramount production, says "The major effect of the settlement is to increase the cost of production." In many ways increases in industry, the cost is passed along to the consumer.

"But we can't start charging \$2 for movies, or people would stop coming to the theaters. Increased costs have to be absorbed, adding to the risk of production. We'll just have to learn to cut the cloth to fit the pattern."

Screen Actors Guild President Ronald Reagan comments: "Production costs will increase, but not materially. 17% of all actors worked free, it would only lower admission costs 2 cents. Actors' Biblical roles didn't even test for the average movie's cost."

VOL. 11, NO. 1

SNYDER, TEXAS, SUNDAY, MAY 1, 1960

SECTION B

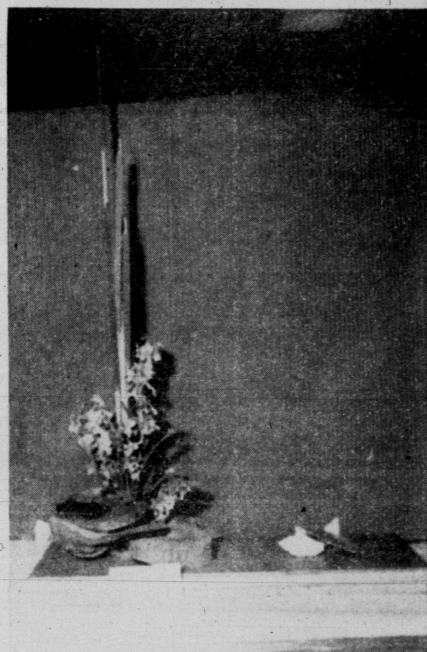

## RIBBON WINNERS IN FLOWER SHOW

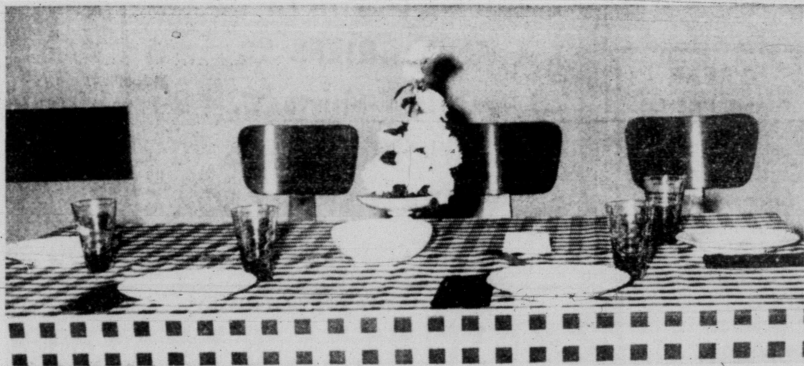

"My Garden" by Mrs. C. A. Likes.

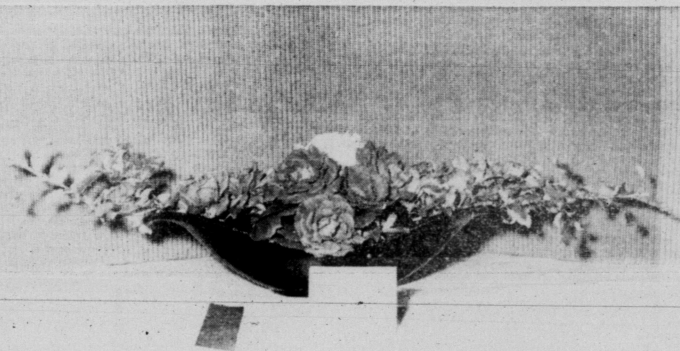

**SHOW JUDGES**—These ladies had the job of determining the exactness and quality of arrangements of the flower show. From left are Mrs. H. B. Thompson of Brownfield Garden Club, Mrs. O. H. Sires, Mrs. C. Jobe, Mrs. O. C. Kellam and Mrs. J. D. Banta, all of the Dawson County-Garden Club. Mrs. Banta and Mrs. Kellam are junior judges while the other ladies are national judges. Mrs. Bruce Frazier of Big Spring, also a national judge, had departed for home when the picture was made.

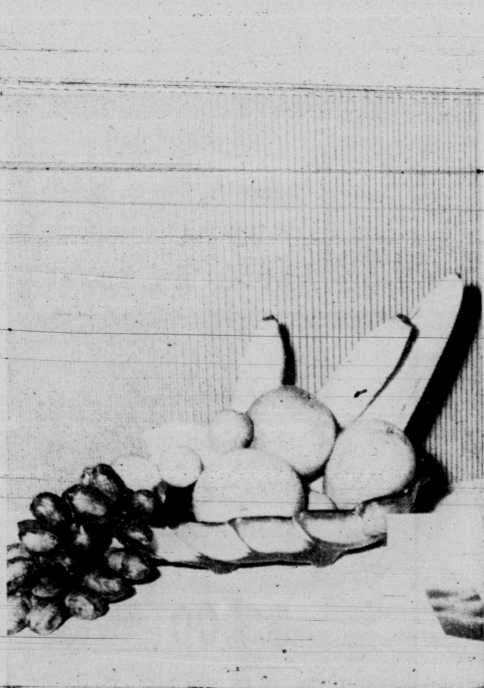

"Fishing Fever" by Mrs. Ernest Sears.

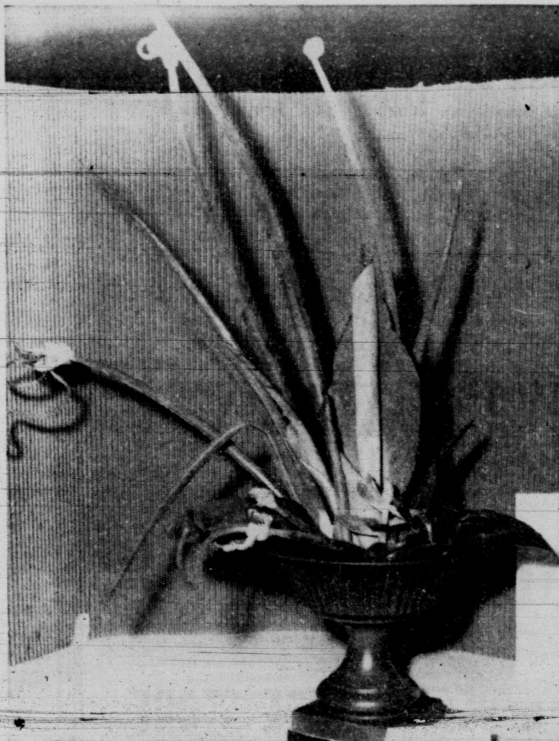

"Summer Frolics" by Mrs. Ernest Sears.

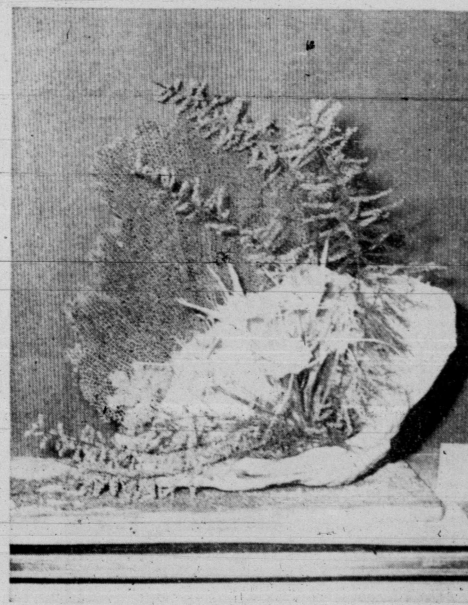

"Invitation for Coffee" by Mrs. Sig. Line.

"Let's Go to the Kitchens" by Mrs. R. B. Sears.

"Wearing of the Green" by Mrs. Paul Sizemore.

"Vacation Wonderland" by Mrs. Jim Moss.

**NEW OFFICERS**—This group of women were recently installed as new officers of the Cosmorama Club in a ceremony held at the Martha Ann Woman's Club. They are, from left, Mrs. W. W. Park, president; Mrs. W.

W. Greif, first vice president; Mrs. E. D. Flynn, second vice-president; Mrs. Bill Newsom, recording secretary; Mrs. Wacil McNoir, corresponding secretary; and Mrs. Charles Musslewhite, treasurer.

### Town & Country Garden Club Holds Annual Flower Show, Winners Named

The Town and Country Garden Club members have had their share of relief and the big event is over. The group held their annual Flower Show Thursday at the Martha Ann Woman's Club and several winners were announced. They are: Mrs. R. B. Sears, first, in design division; Mrs. Jim Moss in horticulture. Some of the ribbon winners are pictured on the first page of this section. The story went like this:

**"Forecast Spring"**  
Design Division  
"Blossoms in the Snow," an arrangement using a white container. Mrs. R. B. Sears, first.  
"Fishing Fever," an arrangement of composition using wild flowers and plant material. Mrs. Ernest Sears, second.

**"Invitation for Coffee"**  
Horticulture  
"Invitation for Coffee," a centerpiece arrangement suitable of coffee table. Mrs. Sig Line, first.  
"A Little Bit of Something," miniature arrangement not to exceed five inches. Mrs. Ernest Sears, first.

**"Washday of the Greens"**  
All green arrangement using green container. Mrs. Paul Sizemore, second.

**"My Garden"**  
An arrangement using flowers grown by exhibitor.

### Mrs. B. Moore Hostess To CRMA Meet

The Canyon Reef Medical Auxiliary held its regular meeting in a 2 1/2 hour morning April 11 in the home of Dr. and Mrs. Ben Moore. Presiding was Mrs. Wilton N. Jones, president. Plans were discussed concerning the Nursing Scholarship given annually by the auxiliary to a graduating Senior girl interested in a nursing career.

### IRA News

By AVA MORAN  
Wednesday guests of the F. C. Ladies family were Mrs. A. C. Rogers and children, and Mrs. Bob Bonner and children of Snyder. Linda Autrey was a patient in the Johnson Hospital at Lottville several days last week. Bonnie Suter of Texas Tech visited his parents over the weekend. He visited Billy Brooks Sunday.

### Mrs. Johnson Returns Home From Eastland

Mrs. Neva Johnson, 1006 Twenty-third Street returned home Thursday evening from a visit with her mother, Mrs. Alice Blair of Eastland. She was accompanied by Mrs. S. A. Petty. Mrs. Johnson visited with two of her sisters she had not seen in 10 years. They were Mrs. Estella Finney and Mrs. Beulah Brown both of Droney, Calif. Also present was another sister Mrs. Katie Acree of Springtown. The California ladies will arrive in Snyder to visit their sister before returning to their homes.

### Medical Auxiliary Receives Honors At Convention

The Woman's Auxiliary in the Canyon Reef Medical Society received honors at the annual convention of the Texas Medical Association in Fort Worth April 9th through 12th. This auxiliary is composed of the 11 doctor's wives in Snyder. In competition with auxiliaries having up to 26 members this auxiliary was awarded first place in public relations and overall program participation. Attending the convention from Snyder were Dr. and Mrs. C. Ray Cockrell both of whom were delegates, and Mrs. R. B. Pierce. Mrs. Cockrell is council woman for District 11 and a member of the State Executive Board. Next year's convention will be held at Galveston April 22nd through 25.

### Fellowship Day Set For Snyder UCW

United Church Women of Snyder will take part in the nationwide observance of May Fellowship Day on May 8 at the Trinity Methodist Church at 10:00 A.M. A covered dish-luncheon will follow the program. The May Fellowship Day theme for 1960 is "Citizenship—Free and Responsible," and offers infinite possibilities in an election year to stir women in a new way to the opportunities and responsibilities of citizenship. A panel consisting of Mrs. Frank F. LeFevre, moderator; Dale Clemmer, Harry Vanderpool and Verba Logan will discuss the fundamental structure of our local, state and national government, and how each woman can be an active participant in the affairs of government. A question and answer period will follow the discussion. The public is invited to attend this program. A nursery will be provided.

### Snyder Couple Looking To June Graduation, New Home

For the sake of a law degree Norman and Sammie Inman left the wide open spaces of West Texas and for five years lived in a trailer house off the University of Texas campus.

This June the young Snyder couple will graduate. Norman from law school, Sammie from the trailer and her secretarial job with Attorney General Will Wilson.

And their young daughter, Laurie Jene, born during the trailer years, will move into her first house.

"This impressive record is a clear indication of the type of citizens Texas is producing," Wilson commented.

"In the first place I didn't think it was possible to get a born and bred West Texan into a trailer."

Sammie, 23, a slender blonde who could easily pass as a high fashion model, is one of the three daughters of Mr. and Mrs. J. W. Rader of Lampasas. Her grandmothers are also Texans—Mrs. J. W. Rader of Mexia and Mrs. Nettie Wilson of Beaumont.

Norman, 26, is the son of Mr. and Mrs. E. M. Inman, 2703 Avenue W. Snyder. Her sister is Mrs. J. D. White of Fort Worth.

After attending Snyder schools, Sammie went one year to Hardin Simmons University in Abilene.

The wedding ceremony was scarcely over before the young couple drew up plans for the law degree.

"The first thing we did was buy a trailer house so rent would never be a problem," Sammie explained. "We parked at North Texas State College for one year and then moved to Austin and the University of Texas trailer park provided for married students."

Rent is \$14 a month and includes space, water, electricity and gas. Sammie points out that the trailer is easy to keep, economical as there is no furniture to buy—everything is built in and it can be sold come graduation day, there-

her education, making in made the trailer. "You've never seen a bigger 'For Sale' sign."

#### Consomme Bellevue

**INGREDIENTS:** 1 can (12 1/2 ounces) clear chicken broth, 1 bottle (8 ounces) clam juice, 3 tablespoons heavy cream, salt, paprika.

**METHOD:** If chicken broth is not fat-free, pour it through a strainer lined with a double thickness of muslin to trap fat. Turn broth into

saucepan with clam juice and heat salt, a small whirl-type beater that is operated with one hand is perfect for whipping a small amount of cream. Pour soup into 4 cups; top each with blob of cream, sprinkle cream with paprika. Serve each cup as it is topped with cream and paprika so cream will look puffy as it is served.

#### Beta Sigma Phi Chapters Dinner Meet

Mrs. Wendell Shifflett was hostess for the occasion when Beta Sigma Phi Chapters, Exemplar and Ritual of Jewels held their Founders Day dinner together April 26 at the Martha Ann Woman's Club.

Mrs. Forrest Beavers was mistress of ceremonies and presented Carolyn Reon Woman of the Year award for the Exemplar chapter, and also an appreciation gift from the club for serving as president 1959-60.

Mrs. R. C. Taylor of Ira, won the Girl of the Year award in the Ritual of Jewels chapter. Betty Brunken made the presentation and presented Mrs. Taylor with the gavel, ex-president pin of the society.

Proceeding the dinner, Betty Brunken led the group in the opening

ritual and Mrs. Frank Taylor gave the Beta Sigma Phi Grace.

Mrs. Howard Gray and Mrs. Gene Conner presented a brief summary of the chapter's activities during the past year.

Carolyn Reon brought the message from the founder, and Mrs. Ollie Peek led the Founders Day Pledge.

The closing ritual was repeated in unison, led by Mrs. Brunken.

Serve a dish of cottage cheese gilded with a sprinkling of brown sugar at breakfast for those who skip milk first thing in the morning. Because of its bland, soothing flavor, this milk food often is most appealing.

#### Local H-D Clubs To Hold Craft Day Thursday

There will be an all day craft meeting in the Towle Barn Thursday, May 5, beginning at 9 a.m.

Eleven Home Demonstration Clubs will display crafts that they have done in their club and members from each club will demonstrate how the crafts were done, and furnish any information requested regarding their particular crafts.

The public is urged to attend and anyone wanting to spend the day may bring a sock lunch. This event is being held in honor of Home Demonstration Club week which is May 2 to May 7.

**JULY WEDDING**—Mr. and Mrs. Ray Burgess, 2208 Fortieth Street announce the engagement of their daughter, Lou Nell, to James Edwin Stegall of Austin. Parents of the prospective groom are Mr. and Mrs. Joe Edwin Stegall. The wedding vows will be exchanged on July 9 in the Colonial Hill Baptist Church with the pastor, Rev. Jimmie Nelson, officiating.

## Regular Check Ups Will Prevent Many Baby Ills

By DOROTHY V. WHIPPLE, M.D.  
AP Newsfeatures

IT COSTS MONEY to go to the doctor. Is it important? Grandmother says it's all a lot of nonsense running to the doctor all the time. Her children never saw a doctor unless they were really sick, and they did all right. But did they? Maybe she has forgotten Uncle Ben's running ear that developed into a mastoid infection and caused deafness in his left ear. Maybe she doesn't believe that Aunt Alice really didn't have to suffer from flat feet all her life. Statistics tell a little of the story.

In 1900 of every 1,000 babies born in this country about 100 died before they were 1 year old. By 1920 this figure had dropped considerably and by 1950 only three babies out of each 1,000 born died within the first year.

Impressive as these figures are, they do not tell the whole story. It isn't only that medical knowledge has increased to the point where we can keep babies alive, it is that we can prevent little ailments from becoming life long handicaps.

Tessy's mother thought her baby was just about perfect. She ate and slept and gurgled her contentment with life. She came in to the doctor's office for her one month check up. Her weight was good. She looked pink and healthy. But as the doctor laid her on her abdomen and stretched her legs down, he noticed that the folds in her plump little buttocks and legs were not symmetrical. He turned her over and pulled on her legs and hips.

"We have trouble here," he said gently to Tessy's mother. "I want an x-ray of these hips." The x-ray showed, as the doctor feared, that the left hip bone was not properly in its socket. Tessy's legs and hips were put into a cast. It was a lot of trouble to take care of Tessy in that contraction, but in six months it was removed for good. Tessy is a 3-

year-old now and runs and jumps like every other 3 year old.

If healthy little Tessy had not been taken to the doctor, it is likely no one would have recognized her deformity until she began to walk and the limp showed. While something could have been done for her, even then, it would have taken much longer time and the results might not have been as good.

Lisa wasn't doing very well. The doctor worried about her more than her mother did. Lisa seemed happy and cheerful, but at her monthly visits to her doctor, she didn't show the amount of gain he thought she should. She seemed a little pale. The doctor couldn't find much wrong and went over the baby's feeding and regime carefully with Lisa's mother.

At the next monthly visit she was no better. In fact her blood count had dropped a little more. She was still happy at home and her parents were not concerned. However, they accepted their doctor's judgment and had some special tests run.

Lisa had a tiny obstruction at the neck of her bladder. It was repaired by an operation. Then Lisa bloomed and it was only when her parents saw the amazing improvement in her that they realized how listless she really had been. If that tiny obstruction had not been found and removed, Lisa would never have grown up.

Our aim is buoyant health for every child. We cannot always achieve it, but there are many little things that can be detected early and prevented from becoming lifelong handicaps.

### Mrs. Paul Turner Hostess To El Catorce Club

The El Catorce Club of Pluvanna met Tuesday afternoon in the home of Mrs. Paul Turner. Four tables were in play with 14 members and two guests. Mrs. Wally Jones, Jr. and Mrs. Harley Carmichael attending. Mrs. Alf Beaver took high with Mrs. Bob E. Wargen second. Refreshments of lemon cake, tea, cream, tea or coffee was served by the hostess.

By MRS. OCLE VEST  
Mr. and Mrs. T. D. Craft visited with relatives in Peacock Sunday.

Mr. and Mrs. Ocle Vest, Linda and Ocie and Eddie Lou Wemken visited Sunday afternoon in the home of Mr. and Mrs. Alva Vest in Loraine.

Mrs. B. D. Smith was admitted to Simmons Memorial Hospital in Sweetwater, Tuesday.

Mrs. A. R. Schendel and Robert of San Antonio visited last week with her parents, Mr. and Mrs. W. A. Voss.

Mrs. H. E. Robbins, Ted, Bill and Genta visited Mrs. Hattie Bishop in Slaton Sunday.

Mrs. R. W. West was released from Simmons Memorial Hospital in Sweetwater Monday morning.

Mrs. Walter Dowell of Levelland visited Monday in the home of Mr. and Mrs. Buell Lewis.

Mr. and Mrs. Loyd Reeves and family attended the funeral of his brother-in-law in Wichita Falls Monday.

Oreta Myers of Snyder visited Sunday in the Buell Lewis home. Those visiting in the W. A. Voss home Sunday were Mrs. A. B. Schendel and Robert of San Antonio and Mr. and Mrs. Bill Voss of Abilene.

Earl N. Barnes of La Habra, Calif. visited in the home of Mr. and Mrs. Boyce L. Jones last week.

Mr. and Mrs. H. B. Lewis and family and Mr. and Mrs. Roy Lewis visited Sunday in the home of their parents, Mr. and Mrs. Buell Lewis recently.

Mrs. Johnny Williams of Talco, is visiting in the home of Mr. and Mrs. T. W. Thomas.

Mrs. Jimmy Cooper and baby returned to their home in Midland after visiting a few days with her parents, Mr. and Mrs. W. G. Mayo.

### Mrs. Courtney Hostess To Church Circle

The Training Circle of the Women's Missionary Union of the First Baptist Church met at the home of Mrs. Ray Courtney for Bible Study Tuesday morning. Ten members and one visitor, Mrs. Kent Fields were present.

Each member answered the roll with a verse from the Bible that they had memorized. Each member brought clothes to be sent to orphans.

Mrs. Darral Lambert conducted a short business meeting. Mrs. Walter Mitchell brought the Bible Study on a Christian Home. She said in part, "In the very beginning Adam realized the importance of a Christian home. If we fail to teach our children about God, we

will have a lost generation. One of the most profitable things we can do as mothers is to build a library of Bible stories for our children. The love of Christ must predominate in a Christian home, also mutual love and respect of the members of the family. We can take advantage of services offered by our church and Sunday School by being faithful to the services."

Mrs. Courtney served coffee and doughnuts to Margaret Glass, Janell Pollard, Betty Beardson, Wanda Adams, Emma Lee Hill, Janie Caskey, Janice Valentine and Mrs. Fields.

The United States and the United Kingdom are the last major hold outs against the metric system of weights and measures.

The Japanese art of dwarfing bushes and trees enables a vast landscape to be suggested within the confines of a small room.

The last dance... as enchanting as the first in this full-skirted wonder of a dress with its own nylon petticoat and delicately detailed print in a blended color pattern for figure flattery supreme. Semi-scooped neckline prettily displays summer tanned shoulders. Complete washability. 100% Polyester Dacron

TO WED—Mr. and Mrs. Seth Stockton, 1908 Scott Street, announce the engagement of their daughter, Wilma Jean York, to Bobby Gene Hataway, son of Mr. and Mrs. E. E. Hataway, Route 2. The wedding will take place on May 23.

### Buy Launderable Gifts For Summer Brides

Shopping for showers and wedding gifts increases as June approaches, and well-wishers who want to send the best in linens will look for launderable seal when they make their purchases.

In times gone by, the bride and her family supplied such necessary items as towels, sheets, and pillow-cases. But today it is considered in excellent taste for friends and distant relatives to send these practical articles, as well as such luxury items as lace tablecloths and napkins.

Gifts for the bride should be of

Lasting quality and preferably launderable. Seal of approval is carried on blankets, bedspreads, rugs, towels, sheets, and pillow-cases.

When you buy a gift bearing the seal, you are assured that the fabric has undergone thorough testing. Materials are subjected to tests for shrinkage, wash fastness, light fastness, tensile strength, and general appearance after laundering.

Several well-known brand names display the seal which costs the shopper nothing extra but adds the assurance of long lasting service and unconditional launderability. Seal approved gifts are certain to be well received and gratefully remembered.

As an aid in tenderizing Swiss steak and other less tender meat cuts, marinate the meat in La Choy soy sauce for an hour before cooking. Drain and pound in seasoned flour as usual. You'll discover the flavor is better and meat cooks more rapidly.

Forty persons can stand inside the head of the Statue of Liberty at the same time.

MR. AND MRS. DALE JACKSON LOLLAR  
(Photo by Craft Studio)

## Enid Minor, Dale Lollar Exchange Wedding Vows

Double-ring wedding vows were exchanged by Enid Lavern Minor, daughter of Mr. and Mrs. S. T. Minor of Snyder, and Dale Jackson Lollar, son of Mr. and Mrs. Willard Lollar, Albuquerque, N.M. at the Twenty-fifth Street Church of Christ, Snyder, at 7:30 p.m. April 22.

Bob Barnes, minister of the Church of Christ, Tahoka, officiated.

Candelabras and baskets of pink gladioli formed the background for the ceremony. The reserved pews were marked with pink satin bows.

A chorus consisting of Pat Yarbrough, Margaret Miller, Jan Carey, Marjorie Nicks, Sue Taylor, Freddie Miller, Jimmy Don Robinson, Ringer Geo and Tommy Mitton sang traditional wedding songs. The favors at the altar were lighted by James Lollar, brother of the bridegroom, and Darrell Haney.

Bridesmaids Anne Porterfield and Shereen Gladson entered wearing identical dresses of mint green taffeta. Their bouffant skirts gathered to a point in front. They wore matching shoes and gloves of mint green. Their hairpieces were of mint green, net and taffeta. Each carried one large pink rose, and were met at the altar by groomsmen James Minor, cousin of the bride, and Billy Neill.

Matron of honor was Genevieve Fanning, cousin of the bride, of Artesia, N.M. Her dress was of mint green taffeta with a net overskirt. Shoes and gloves were of the same color as her dress with a hairpiece identical to that of the bridesmaids. She also carried a single mint rose. Johnny Billingsley of Abilene served as best man. The flower girl, Sharon McDaniel, dressed in a miniature copy of the bridesmaids' dress, preceded the bride, strewn pink rose petals. Gerald Lollar, brother of the bridegroom, carried the rings on a white satin pillow. Richard Sharp and Bill Cole served as ushers.

The bride, who was met at the altar by the bridegroom, was given in marriage by her father. She wore a gown of French lace and white satin. The fitted bodice came to a point in front with long tapered sleeves coming to a point at the wrist. Lace formed the sides

and back of the bouffant skirt. Her finger-tip veil of silk tulle was edged in lace matching that of her gown. The bride's bouquet was showery of pink sweetheart roses atop a white ribbon centered with a corsage of Aristocrat rosebuds. Her only jewelry was a single strand of seed pearls, a gift from the bridegroom. The Bible was a gift from the bride's parents. A white lace handkerchief belonging to her deceased grandmother was carried in the Bible as something old. Something borrowed was the bouffant hoop skirt and something blue was a blue garter. A 1949 penny, representing the year she was born, was worn in her shoe completing the tradition.

For her daughter's wedding Mrs. Minor wore a shabby dress of natural color embroidered linen with beige hat, gloves and cummerbund. Her shoes and bag were bone color and her corsage was of pink roses.

Mrs. Lollar chose a rust green dress of lace and silk shantung with beige gloves, bone shoes and bag. Her hat was mint green and pink, matching her corsage of pink roses.

A reception was held at the home of Mr. and Mrs. Ray Haney. The bride's table was decorated with pink roses. A white three-tiered cake topped with miniature bride and groom graced the table while the opposite end of the table was decorated with a crystal punch bowl which held the mint green punch.

After the traditional cake cutting, punch and cake was served by Miss Gayle Browning and Mrs. Keith McCormick. Mrs. Milton Stephens presided over the guest book.

For her honeymoon trip to Cadillac, N.M. and El Paso the bride chose a beige suit with fur trimmed jacket and matching accessories. Her corsage, which was detached from the bridal bouquet, was pink Aristocrat rosebuds.

Following the wedding trip the couple will be at home at 2207 Thirtieth Street, Snyder, where Mr. Lollar is employed with Furr's. Mrs. Lollar is a graduate of Hemphill High School and Mr. Lollar finished school in Abilene.

Mrs. Billy W. Kerley

## Barron, Kerley Vows Read In Abilene

Mrs. Mildred Sheppard Barron, Lamesa, announced the marriage of her daughter, Wanda Sue, to Billy Wayne Kerley, son of Mr. and Mrs. Bruce Kerley of Snyder.

The wedding was an event of Friday, April 29, in the chapel of University Baptist Church, Abilene, with Dr. Lee Hemphill of Hardin-Simmons University officiating.

Honor attendants for the couple were Mrs. Connie Baird of Abilene and the bridegroom's brother, Edd Kerley, also of Abilene.

The bride is a graduate of Lamesa High School and received her bachelor of science degree from H-SU. She is an elementary teacher in the Odessa school system.

Kerley attended Texas Tech and served with the U.S. Air Force. He is presently associated with Graver Tank and Mfg. Co., Odessa.

The newlyweds are at home at 1427 Tanglewood Drive, Odessa.

Increasing in popularity among teens who are watching their complexions are the sweetened varieties of yogurt. The cultured milk food made by Dannon is available sweetened and flavored with orange and vanilla, also with prune, strawberry or pineapple preserves on the bottom of the cup, in addition to the plain variety.

## Storage Of Feed Gains In FHA Area

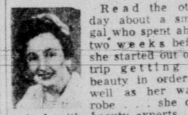

Production and storage of feed is one of the major practices being carried out by FHA borrowers in Scurry and Kent counties since the end of the drought in order to insure and expand their livestock enterprises for additional income, according to county supervisor Joe Box.

At present time, FHA borrowers have 16 trench silos on their farms with storage capacity from 200 to 300 tons each. During 1959-60 four or more additional trench silos are planned.

"Storage of a good quality roughage, such as Atlas Sorgo or Hegari in trench silos has proven to be the best and most economical method of storage," supervisor Box said.

## Beauty Tips from ME to YOU

By Jessie Hampton

Read the other day about a smart gal who spent about two weeks before she started out on a trip getting her beauty in order as well as her wardrobe... she consulted with beauty experts... she was given a demonstration how make-up can correct a fault, change a face, make complexion prettier... she learned to emphasize some points and underplay others... The hairdresser suggested a hairdress that would take less time to set, less time to dry and one that could be brushed two different ways... for either day or evening wear... this is very important.

Don't leave on a vacation with an elaborate hair style that only one operator can do successfully for you... remember you want to look your best when away and not have to spend too much of your precious time doing it. Start planning now... try the hair style to be used on your vacation a time or two before leaving... also get your tan started so you won't become "burned". Just a few things can help make your trip a more pleasant one... Get your camera ready, don't wait until you're on the way. I had taken pictures... a planned vacation can make a trip so much more enjoyable... be wise, get started now, go to your favorite beautician. If you are hanging undecided where to go or dissatisfied, try the Modern Beauty Salon.

OPEN MONDAYS  
MODERN BEAUTY SALON  
1903-45th St. Phone HI 3-3986

It also provides insurance against future droughts. Property stored silage will last indefinitely. West Texas farmers know from past history that they may look forward to years of drought as well as years of plenty, and that sufficient feed supply must be stored to carry their herds through the bad years.

FHA farm families with a 34 years' supply of feed on hand have thought and can also expand their feeder calf operations when marketing conditions are favorable.

Average cows per FHA family have increased from 5 in 1936 to 10 in 1959, according to records kept by Scurry and Kent County farm families. It is planned that average cows per family will be increased again in 1960 due to increased production and storage of feed.

### Peas And Turnips

**INGREDIENTS:** 4 medium-sized (1/2 pound without tops) white turnips, 1 large new potato, 1 package (10 ounces) frozen green peas, 1/2 cup boiling water, 1 teaspoon salt, 1 to 2 tablespoons butter, pepper.

**METHOD:** If peas are, solid pack allow to stand, packages opened, at room temperature about 30 minutes to defrost enough to separate. Pare turnips and potato, cut in 1/4-inch thick slices; cut turnips into about 1/2-inch long pieces and potatoes about 1/2-inch long. Cook turnips and potatoes together rapidly and covered in water and salt just until tender—3 minutes or so, watch so turnips keep their shape. Add the peas and cook about 5 minutes longer, or until all vegetables are tender. Drain and butter for serving. Sprinkle with salt and pepper.

## Texan To Retire As Head Of Indian Claims Commission

By **TEX EASLEY**  
AP Special Service

WASHINGTON, AP—Edgar E. Witt, former lieutenant governor of Texas, is retiring June 30 as chairman of the Indian Claims Commission. He is 81.

Witt, a former Waco attorney, has served as head of the commission since its creation in 1946. He was lieutenant governor during the administration of Ross Sterling and Marian McFerguson.

His retirement plans are indefinite.

"I think I'll just live around a bit," he said in an interview, "and maybe read some Plato and Aristotle—I haven't had time before."

Witt, who still considers Waco home, began practicing law there after winning a law degree from the University of Texas in 1920. From 1918 to 1930 he served as state senator from the Waco area.

But "since most of our friends there are now in the cemeteries," as he puts it, he and Mrs. Witt don't plan to spend their retirement in Waco. He says it probably will be in either Corpus Christi or Austin.

Witt is joint owner with Mrs. Tom Connally, wife of the retired Texas senator, and a cousin, Mrs. Grady Walker of Moody, of an apartment hotel in Corpus Christi and he and his wife may settle there.

After serving as lieutenant governor from 1931 through 1934, Witt came to Washington and went on to the Mexican Claims Division. He subsequently was appointed to head the new commission. It considers claims of those Indians who feel they have been denied rights under treaties which the government has entered into or

ignored.

Recently the commission handed down a decision in favor of the united Indian tribes of California. They claimed they had been unlawfully dispossessed of 70 million acres in the 1850's, shortly after gold was discovered.

If the courts sustain the decision, the Indians' descendants will probably be paid \$0 to 100 million dollars.

About 30,000 Indians are now enrolled in California, although under final terms of the settlement some might not start in the payment. The exact amount to be paid will be determined by the commission, based on mid-nineteenth century values.

Don McCrary, serving on Sen. Lyndon Johnson's staff under a fellowship granted by the American Political Science Assn., has written of his impressions of the House and Senate.

Prior to joining Johnson's staff, McCrary was a newspaperman on leave spent part of his fellowship time in the office of Rep. Frank Beard of Wichita Falls. Of the House, he wrote:

Reporters here have become so closely identified with the government that they stick primarily in their writing to what is done here, and mostly overlook how things get done.

"Take, for example, the unlikely combination of pomp and confusion with which the House of Representatives conducts its business. To a casual observer, it must be amazing indeed that the House accomplishes anything at all. Members mill about on the floor, converse with their colleagues, and apparently pay little attention to the course of business."

"Yet things get done, and you can be sure that some Member is on the floor, alert and ready to jump on skulduggery, whether it be real or imaginary."

## Independents To Air 'Headaches'

By **MAX B. SKELTON**  
TYLER, Tex. (AP)—Texas independent oil operators the next three days are to max discussing industry headaches with a celebration of the anniversary of the discovery of one of the nation's most fabulous oil fields.

The Texas Independent Producers & Royalty Owners Assn. opens its annual meeting here Sunday, only a few miles from the site of the 1900 discovery well that brought in the East Texas field.

In 30 years the field that stretches some 40 miles in length and from 3 to 10 miles in width had produced over 3 billion barrels of crude oil.

The independents frequently claim East Texas as the birthplace of their segment of the industry.

A brighter economic outlook had been anticipated last year when TIPRO officials decided to combine their 1960 convention with an early observance of the field's anniversary. Since then, however, independents have had to tighten their purse strings considerably.

Since last May the Texas crude production allowable "has been slashed by 578,000 barrels a day. All but 164,500 barrels of the sharp cutback have been ordered since

## 114 Jobs In Legislature Up For Grabs

By **GARTH JONES**  
AUSTIN (AP)—There will be 114 jobs in the Legislature up for grabs next Saturday.

Many probably will not be decided until the second Democratic primary June 4.

Some may not be settled finally until the Republican candidates, selected by conventions in some districts, face the Democratic nominees in November.

It all adds up to one of the best legislative battle royals in years. The winners will hunt for House seats in the Legislature of January 1961.

At least 29 new members will enter the House because of vacancies. There are 106 contested Senate races, the same as 1958. Only 18 senatorial posts are open with 15 other senators having 2 more years to serve on their original four-year terms.

Mrs. Neveille Colson of Navasota will remain the only woman senator if she is re-elected. Three women are trying for House places, including incumbents Miss Maud Isaacks of El Paso, and Miss Virginia Duff of Ferris.

Two Bill Jones were slated as candidates for one Dallas post until a challenger to incumbent Bill Jones allowed his name to be listed as William N. Jones.

Two R. L. Bob Stricklands are on the ballot for a San Antonio senatorial place. By court order one will be identified as "State Legislature representative" and the other as "independent businessman."

Here are the contested Senate races by districts:

5. Mrs. Neveille Colson, Navasota—incumbent; J. C. Zbranek, Liberty.

7. Bill Wood, Tyler, incumbent; Galen C. Callahan, Tyler.

9. Doyle Willis, Fort Worth, incumbent; Claude Latson, Fort Worth.

13. Jarrard Secrest, Temple, incumbent; Godfrey Sullivan Jr., Waco.

**JUNE WEDDING PLANS**—Mr. and Mrs. Doss Maner of Route 2, Littlefield, announce the engagement and approaching marriage of their daughter, Kay, to Tommy Echols, son of Mr. and Mrs. Perry Echols, Ira. The wedding vows will be exchanged June 25, at 8 p. m. at the First Baptist Church, Lums Chapel, Littlefield. Miss Maner is a graduate of Whitherald High School, and Mr. Echols is a graduate of Ira High School. The couple are juniors at Hardin-Simmons University, Abilene. Friends are invited to attend the wedding.

**TO WED IN JUNE**—Mr. and Mrs. Taylor M. Barkley, Greeneville, Tennessee, announce the engagement and approaching marriage of their daughter, Kathryn Joslyn, to Thomas Lee Smith, son of Mrs. Dell K. Smith, 3108 Avenue T. The couple will exchange vows on June 26 at the First Presbyterian Church in Greeneville, Tennessee. Mr. Barkley is a graduate of Tusculum College, Greeneville, and is presently a member of the Northridge High School faculty in Dayton, Ohio. Mr. Smith attended Texas Technological College before entering the U. S. Air Force in 1954. At the present time he is stationed at Wright-Patterson Air Force Base in Dayton.

Your vote for this man will be justified — Let's elect him our Sheriff for the next four years.

**ELECT**  
**W. D. (Bill) LOVE**

SHERIFF OF SCURRY COUNTY  
(Pol. Adv. Paid For By Friends Of Bill Love)

**Quick Rye, Fennel Bread**

**INGREDIENTS:** 1 tablespoon butter or margarine, 1 cup sifted flour, 2 teaspoons double-acting baking powder, 1/2 teaspoon baking soda, 1 teaspoon salt, 1/2 cup stone-ground whole rye flour, 1/2 cup sugar, 1 egg, 2 tablespoons dark molasses, 1/2 cup milk, 1 teaspoon fennel seeds.

**METHOD:** Turn on oven to slow (325 degrees). Butter a loaf pan 8 by 4 by 3 inches, put the 1 tablespoon butter in the pan in oven until melted and pan is extremely hot. Sift flour, baking powder, baking soda and salt into a medium-sized mixing bowl, stir in rye flour and sugar. Beat egg thoroughly, add molasses and fennel seeds. Add remaining ingredients, stir until flour mixture is moistened, stir in hot melted butter from loaf pan. Turn into hot prepared pan and bake in preheated oven 40 minutes or until cake tester inserted in center comes out clean. Top will have crack. Loosen bread from sides of pan with a spatula, turn out on wire rack, turn right side up, cool. Bread has coarse-grained crumbly texture so it may be sliced about 1/2 inch thick after cooling or sliced thinner if wrapping tightly in transparent plastic wrapping and stored 24 hours.

World speed record for railroad engines is held by two French electric locomotives which clocked 206 miles per hour in 1955.

By ED DURBS  
ANNAPOLIS, Md. — Midshipmen at the U. S. Naval Academy, where hachelhood is enforced by regulation, are on a parent-hood kick.

**BLINTZES**

**INGREDIENTS:** 3 eggs, 1 cup flour, 1/2 cup water, butter, 1 pound dry cottage cheese, 2 eggs, 2 tablespoons sugar, 1/2 cup raisins, 1/2 cup cinnamon.

**METHOD:** Beat eggs, until yokes and whites are combined, gently beat in flour and a dash of salt, gradually beat in water so mixture is smooth after each addition. Heat about 1 teaspoon butter in a Dutch skillet so surface is well greased and pan is very hot, holding pan above heat and swirling, pour in just enough of the mixture to coat skillet, pour any extra back. Fry quickly only on one side, dump out on board, fry remaining pancakes the same way, adding about 1/2 teaspoon butter to skillet each time. Mix cheese with egg-sugar raisins and a dash of cinnamon, place a mound of the cheese-cheese mixture in center of each pancake, fold top-edge, then side edges over filling, fold bottom edge over. Cover and refrigerate when ready to serve. Fry stuffed pancakes rapidly in butter, turning to brown both sides. Serve with sour cream or sour-cream substitute. Makes 12 pancakes—6 servings.

About 750 craftsmen in England are still churning tools. They are using more eye-strain than wheat these days, since farmers are growing "short" wheat to accommodate combine harvesters.

**THE GRAY POETS**, poems by Peter Levi, S. J. will be published May 13. It is a story of mining and big gold in the Old West. Mr. McCaig has been writing as an association for the past 25 years. He had six westerns published before he joined Macmillan, and his stories have appeared in Adventure, Black Mask, Blue Book, Star Weekly and Montana Magazine of History.
