AN Invitation TO FAITH

"Or despiteth thou the riches of His goodness and forbearance and longsuffering; not knowing that the goodness of God leadeth thee to repentance?" (Rom. 2:4)

The dictionary says of repentance: "...contrition for sins, with amendment of life." Repentance is more than an act one does in association with faith to become a saved person. It is a new state of mind toward sins. It is being broken down with sorrow for sin. It is sorrow toward one who has been good, and forbearing, and patient. It has a continuous action after one has been saved. Yes, even more so does the repentance toward God grow in the life of the saint. History bears out that those who have gone down in print as the "great saints" of history were those who never boasted that they "had repented, and therefore were saved" but they continually saw themselves as the recipients of God's grace and mercy. They saw themselves as being vile creatures saved by grace. God's goodness led them to repentance daily which led them to holy living.

Now Paul's question comes with force upon each one. Is it your ignoring God's goodness that keeps you from repenting of your sins? Or is it that you are despising "the riches of His goodness"? However, you cannot despise ignorance in the Day of Judgment; God has revealed His love in the giving of His Son. He has fulfilled His promise through love and grace. Do not boast of tomorrow; look upon His goodness toward you until you can with sincere soul ask Him to forgive you of your sin. THEN by faith in the crucified risen Son of God you can rise above your sins (I Cor. 10:13).

You will feel welcome at the Faith Baptist Church of Iowa Park. Brother George Shropshire, pastor. adv

3 New Families

Three men and their families have moved to Iowa Park from Archer City, where they have been employed with Clyde's Market of Archer City. They are now working at Clyde's Market here.

Clyde sold his Archer City store and transferred the men.

They are Luther Wakefield Jr., C. B. Hale and Charlie Mathis. Wakefield is in charge of the produce department. Hale is the butcher. Mathis is the stock man.

Mr. and Mrs. Hale have moved into the Buzzard house at 322 S. Bond. Their daughter Charlene is 16 years old and a sophomore in high school; Judy is 12 and in the 6th grade. They attend the Baptist church.

C. B. is originally from Eldorado, Okla., and has worked with Mr. Hutchinson in Electra and Archer City.

Luther Wakefield and his wife Laverne, and children Larry 2, and Susie, 10 months, have bought the Jimmy Miller home at 413 West Aldine. They attend the Baptist church and Luther has joined the Noon Lions club.

Wakefield is a 1954 graduate of Archer City high school, where he was a member of the Wildcats football team. He attended Midwestern university for 1 1/2 years.

Mr. and Mrs. Mathis are moving into the Hucksby house at 904 E. Railroad (or Highway). He also worked with Clyde in Electra and Archer City. He originally came from Kaufman county.

Mrs. Mathis is a teller at the Wichita National Bank of Wichita Falls.

They attend the Methodist church.

Mr. and Mrs. Mathis have two married sons: Charles R. of Des Moines, Ia., and John Kenneth of Dallas.

Mrs. J. A. Churchman was admitted to Wichita General hospital Sunday night for treatment.

Supt. Swim Reports on Conference

Supt. Keith D. Swim has written a report on his recent trip to San Francisco, as follows:

While attending the American Association of School Administrators in San Francisco, Calif., on Sunday afternoon all school superintendents who have pupils that are federally affected students met in Room 402 of the Civic Center auditorium to hear a thorough discussion on the legislation now pending before Congress that would determine whether financial aid would be continued for students whose parents are directly, or indirectly, employed in such places as Sheppard Air Force Base. We were told at this meeting that there had been quite a lot of opposition to this aid, both from the President and the Division of Health, Education and Welfare office in Washington; but the Congressman who was chairman of the educational committee told us that it was his belief that the legislative act would be renewed for at least three more years. He suggested to us that we could influence this legislation by keeping in close touch with our Congressman and Senators. This legislation would mean approximately \$9,000 to this school district.

Another interesting part of the trip was a visit to George Washington high school in San Francisco. This school has been well written about in the March issue of the National Parent Teacher magazine and also in the March issue of the Reader's Digest. The principal, Mr. Schmaelzle, told the group that they promoted scholarship with every means they knew how. He told us that they even had examples of boys studying their math lessons in between the halves of a basketball game. They have been recognized, for five years in a row, as being the best academic high school in the state of California. The students from that school have scored the highest grade-point averages in all of the California colleges. We found that they had a very strong student government and found that they also had very strong teachers. They were interesting to have one teacher tell us that the beginning teacher salary there was \$4600 and could go as high as \$8750, after a few years experience. We found that they asked the students to plan on

homework every night all year long. They had signs in the halls that said "What you achieve here will determine the next years of your life." Every new student must take a course in how to study. In this course all scholars, no less than athletes, must be conditioned physically with an "early to bed—early to rise" regimen. Some of the main goals of this school, as pointed out by Mr. Schmaelzle, were:

1. Every student must pass a critical examination in English at the end of each semester during all three years. Standards of grading are inexorable. Failure to punctuate correctly, for example, may cause the student to fail the course.

2. Every student must pass a comprehensive examination in mathematics at the end of his junior year. If he fails it, he must take a refresher course in general math along with his regular course for that year.

3. Every student must learn how to use research facilities and methods.

4. To dramatize the appeal of scholarship, Mr. Schmaelzle sets aside what the calls "Closed Week" three times every semester. All extra-curricular activities are brought to a halt, and teachers encourage the youngsters to relax, look within themselves and measure their capabilities against their achievement.

5. Citizenship is rated right along with scholarship at George Washington high school: a mark is given each semester.

Other outstanding speakers heard during this convention were James B. Conant, formerly high commissioner to Germany and president-emeritus of Harvard university. His talk was mainly on Public vs. Private schools. He concluded that, according to statistics made, public school students rank higher than private school students. Other speakers included: Robert E. Richards, outstanding athlete and minister for the Church of the Brethren. (He holds the world's record for pole-vaulting.) Benjamin C. Willis, general superintendent of schools, Chicago, Ill.; Harold Hunt, formerly superintendent of schools, Chicago; and Senator Frank Forrester Church, youngest senator in the United States Congress.

Revival Continues Scout Troop 37

The Assembly of God is in its fourth week of a revival being conducted by Rev. and Mrs. Earl Dean, evangelists of California.

The Deans have been in Texas since the first of this year conducting revivals. They plan to stay for some time in Texas and Oklahoma in that work.

The meeting in Iowa Park is conducted each night, except Saturday, at 7:15. Rev. Dora Lane, pastor, and members of the local congregation extend a cordial welcome to the public to come and hear Mr. and Mrs. Dean preach and sing. There are solos and duets and fine congregational singing at each service.

Surgery

Mrs. O. R. Owens will have surgery Friday morning at the M. D. Anderson hospital in Houston. She will be a patient there about six weeks. Friends can address cards and letters to her in Room 512W. Russ is staying at the Park Towers, Room 915, at 1700 E. Holcombe, which is quite close to the hospital.

All of the Iowa Park friends of Maude and Russ are thinking of them and wishing for her a speedy recovery.

Mrs. Scott Morris received word this week her daughter in law Mrs. Scott Morris Jr. was operated in an Austin hospital. She wishes to express sincere appreciation for all who remembered her daughter in prayers and with loving concern at this time.

The younger Mrs. Morris is in Breckenridge hospital at Austin.

Dedication Set

The Randolph Duval Clark Memorial Chapel of the Methodist church will be dedicated Sunday, March 23, immediately following the regular morning worship service. The chapel is a gift of Dr. and Mrs. Gordon G. Clark in memory of their son, known to many friends as Ranny, who was fatally injured in an automobile accident several years ago in Colorado.

The chapel will be dedicated to the young people of Iowa Park. The service will be conducted by Dr. Wesley V. Hite, a former pastor of the local church, who is now superintendent of the Dallas southwest district.

Building Report

Since springtime has started and Iowa Park is having nice weather, it's time to report on the building activity in Our Town.

The telephone building is progressing nicely and taking the shape of a building. The cable has been laid to it.

The Christian church building is rising rapidly, even during the bad weather of the past two weeks. This beautiful structure will improve the looks of Iowa Park, and all citizens will be proud as the member of the church are proud.

The Church of Christ has added more classrooms to the building, which indicates increasing attendance and interest.

Ed Holder's grain elevator, at the corner of Jackson and Ruby, is in the process of being built. At first he will have a 50-ton Fairbanks weighing scale and some storage bins, but he hopes to add more buildings. Ed plans to be able to take care of all the grain in this area by harvest time.

A large number of new homes are being built. It is good to see all this, because it means Our Town is definitely growing.

Jaycees Sign 32 New Members

Iowa Park Jaycees have completed their annual membership drive with most successful results. Thirty-two new members have joined.

The drive was divided into two groups headed by Pete Koonce and Ronnie Deloy, incoming president and vice-president. The Deloy team won the contest and will be treated to a steak dinner by the Koonce team sometime this month.

Iowa Park Jaycees held their first social of the year to introduce new members and for all to get acquainted. Games of bingo, dominoes, 42 and bridge were enjoyed by some 60 plus members and guests. Mrs. Dub Crawford was the only bingo player with luck enough to bingo on two cards at the same time and win a double prize. Buck Voyles won the booby prize.

Everyone reported a fine time and went home happy and enthusiastic about the progress of the local organization.

The meeting of Thursday, March 13, was successful and many things were accomplished, among the most important being the order to buy 400 bags of cement for the floor of the Jaycee Youth Center in the new City Park.

E. C. Holder was awarded the contract to furnish the cement and by Sunday reported the cement was in the storehouse on the truck and ready to be unloaded. Jaycees Holder, Guthrie, Richardson, Singleton, Deloy, Rich, Jacks, Koonce, Crawford, Spruill, McCullough, Hucksby reported for duty and unloaded the cement.

Bill and Phil McDonald, twin sons of Mr. and Mrs. Bud McDonald of Lawton, Okla., had tonsillectomies last Friday at Park Clinic here.

Reflections from the Bible

By Ray Marcum, Minister
Iowa Park Church of Christ

The International Sunday School lesson has to do with "The Church and World Evangelism." May we keep in mind what the church of Christ is. The Church, or Ecclesia, in Greek. EK in the Greek means "out of," and KALEO, "I call" so together they mean "a called out group." The church is composed of all who have answered the Lord's call, and when they came in obedience to Him (Matt. 11:28). He added or adds them to THE church (Acts 2:47). (Please note, no one was given the authority to vote on the subjects). The addition takes place when they pass the line of demarcation and that was when they believed, trusted in the Lord and His word, repented of their sins, acknowledged their faith in Christ, and were immersed into Christ (Rom. 6:3; Gal. 3:27) where salvation is found (II Tim. 2:10).

Many are attempting to carry the "Great Commission" (Matt. 28:19,20; Mark 16:15,16) when they themselves refuse to enter into the Kingdom of God and thus they will not permit others to enter. Jesus condemned such religious leaders and His word condemns them today: "But woe unto you, scribes and Pharisees, hypocrites! for ye shut up the kingdom of heaven against men; for ye neither go in yourselves, neither suffer ye them that are entering to go in" (Matt. 23:13).

Jesus affirmed that "all authority was His! Where is the man that has greater authority? Christ says, make disciples by "teaching" and then baptizing them into the Godhead. Christ is a universal Savior. Have you obeyed His universal gospel? adv

Mrs. Mary Miles Mixon appeared before the Noon Lions club in behalf of the Epsilon Sigma Alpha sorority Tuesday. She spoke on "Muscular Dystrophy."

In her talk Mrs. Mixon said, "I am a member of Epsilon Sigma Alpha, and one of our privileges is to be of service. We have been asked to speak to the different organizations and church groups about our state social service project for this year, the National Muscular Dystrophy Research Foundation, incorporated, of Liberty, Texas."

She explained the talk was not to ask for money, but to educate the public on what muscular dys-

trophy really is. Today this disease is incurable. It strikes adults as well as children. It is not contagious although more than 250,000 Americans, 12,500 of them Texans, have this malady.

There is a three-point program in the fight against muscular dystrophy: research, education and patient aid. \$450,000 is needed now to help fight this muscle destroying disease.

With President R. B. Faulkner in charge, Lion Tamer Henry Jones introduced six visiting Lions: Le Roy Reynolds and George Jones of Electra; Layton Downing and D. L. Ligon of Wichita Falls; Al Reed and Jimmy Stewart of the Evening club.

Lester Brooks presented gifts of appreciation to the Sweethearts.

Faulkner was presented a special award for securing the largest number of new members during

Membership Month.

The club voted to purchase 15 emblems for the team it is sponsoring in Little League baseball. Dan Barnes is to serve as manager.

Buck Voyles was appointed to replace new Lions club emblems on the highways in observance of Identification Month.

Bob Brubaker reported \$355 has been collected from the 1958 Follies.

The members voted to observe the club's 30th anniversary Tuesday evening, May 6, in the school cafeteria. Other clubs of the area will be invited to take part.

The Noon club is making plans to secure some crippled child to send to the Lions camp next summer.

Florea-Luckett

Mrs. Glenda Florea of Colorado Springs, Colo., and SP3 Leonard Wayne Luckett were united in marriage Monday evening in the home of his parents Mr. and Mrs. Wayne Luckett, 100 N. Jackson in Iowa Park. The bride's parents are Mr. and Mrs. Glen Chapman of Colorado Springs.

Rev. Homer W. Thompson, pastor of the First Baptist church, officiated in the single ring ceremony.

The bride couple stood before an arrangement of spring flowers. Their attendants wore his parents. The bride was attired in a street length princess style beige dress. Her accessories were brown. She carried a white Bible topped with a bridal bouquet of pink carnations.

The groom's mother wore a blue linen suit with brown accessories. She completed her costume with a white shoulder corsage.

The bride attended schools in Colorado Springs.

Leonard Wayne is a 1954 graduate of Iowa Park High School, where he was a member of the football and basketball teams. He also entered other sports events while in junior and senior high.

He entered the army in August 1954 and spent approximately two years in Germany. He has been stationed at Ft. Carson, Colo., since his return. At Ft. Carson he was a guard on the Mountaineers football team which won the All-Army title.

Luckett will receive his discharge in July of this year.

The young couple plan to visit with his parents about two weeks before returning to Colorado Springs to establish residence.

ISN'T IT STRANGE!

TRY TURKEY WITH ORANGE STUFFING THIS EASTER

Surprise the family with a luscious turkey treat for Easter this year. The most economical buy at the meat counter, turkey is not only inexpensive, but nutritious and delicious as well... especially dressed for Spring with fluffy Orange Stuffing served in fancy orange cups... a special creation by Betty Crocker. Serve the meat with a tasty Orange-Currant Sauce for an added attraction. The orange cups are easily made, simply cut off the tops, scoop out the pulp and notch the edges with a kitchen scissors.

Turkey with Orange Stuffing and Sauce
Roast turkey according to your favorite directions.

Orange Stuffing
12 cups small dry bread cubes, firmly packed
1 tsp. salt
1 tsp. dried sage, thyme, or marjoram
1 tsp. pepper
Toss crumbs and seasonings together. Add rest of ingredients and toss lightly. Blend well. (If desired, cook onion in butter until golden, but not brown.) When spooning stuffing into turkey cavity, do not pack. Bake extra dressing in separate pan during the last 30 to 45 min. of roasting time. Baste occasionally with pan drippings or broth from cooked giblets. Use baked stuffing to fill orange cups.

Orange-Currant Sauce
1/2 cup red currant jelly
1 tsp. prepared mustard
1/8 tsp. salt
1/4 tsp. cayenne pepper
Whip jelly and mustard together with fork. Add rest of ingredients; blend well. Makes about 1 cup sauce. Heat to serve or serve cold with leftover turkey.

The leader gave an interesting discussion of Coplan's Patriotic and Absolute works. The discussion was enhanced by the showing of some recent pictures of the composer from the rotogravure section of a St. Louis newspaper that Mrs. Maudie Owen happened across while in St. Louis recently.

Miss Helen Reed gave the story of the Hymn of the Month, "When I Survey the Wondrous Cross."

Social Security Expert Coming

Of special interest to disabled workers is the provision of the Social Security Act which authorizes disability payments at age 50. In order to qualify, the disabled person must be unable to perform any substantial gainful activity and must have worked under social security for at least 5 of the 10 years immediately preceding the date he became disabled. At least 1 1/2 years of this work must have been during the three years just before the disability began. In addition, the disabled individual must have filed an application for these benefits.

Disabled workers who have been unable to work for a prolonged period may lose their rights to payments at age 50 if they do not file an application before June 30, 1958. Failure to file for these disability provisions may also affect their rights to benefits upon retirement and to benefits for their survivors in the event of the worker's death.

Any disabled person who meets the requirements set forth above is urged to contact his nearest social security office. If the individual is unable to make this contact in person, a friend or relative may notify the Social Security Administration in his behalf.

Persons who desire information

"Defensive Driving" Is Key To Safety On The Highway

By Jeanne Smith, Dodge Safety Consultant

LEARNING TO "DRIVE" EVERY CAR on the road, as well as your own, is a professional secret for safe driving.

That's the technique that bus, taxi and trucking officials teach their drivers. Once they master this "defensive driving" habit, professional drivers are able to anticipate the sometimes hazardous moves of motorists in their vicinity.

Here are 10 more professional driving safety rules. Let them be your guide to safe motoring, too!

1. Drive with accuracy and precision. To avoid accidents, form the habit of accurately performing these six basic driving maneuvers: turning, passing, stopping, parking, braking and entering traffic.

2. Watch out for the driver who doesn't care—or who doesn't know how to drive the right way. To protect him, and yourself, adjust your driving to his, when necessary.

3. Don't be a traffic fighter. The wear and tear on the nerves and disposition just isn't worth the effort. Neither is it worth an accident just to be a few minutes ahead.

4. Be prepared for sudden stops. Always drive so that you can stop in time to meet any

road, traffic or weather condition.

5. Don't take chances. Speeding through intersections, passing when visibility is poor and over-driving headlights are examples of chance-taking which can become dangerous habits.

6. Control your emotions—at least behind the wheel. Many a hot temper has been cooled off in an accident!

7. Leave your worries at home. Worries are distracting, lessen your alertness and divide your attention. No matter how bad the problem is, you'll never improve the situation with an accident.

8. Stay alert. Close shaves while driving are sure warnings that your guard is down. Find out what you did wrong so you'll be prepared should the situation arise again.

9. Show your intentions. Learn the proper signals and use them well in advance of a turn or stop. Use the horn when necessary. Don't force drivers around you to guess your next move.

10. Know your vehicle. Experienced drivers know the limitations of their vehicles and at what pace it handles best. And they never try to exceed that pace! Don't drive with your car in a faulty condition, and, before driving someone else's car, allow enough time to "get acquainted" with it.

Two Parties for Bride-elect

Miss June James, bride-elect of Donnie McManus, furnished inspiration for a miscellaneous gift shower Friday evening, March 14. The courtesy extended by 20 hostesses was given in the parlor of the First Baptist church.

Shades of pink, the honoree's chosen colors, were stressed in decorations and appointments. The refreshment table the center of special interest. Covered with a white Madeira linen outwork cloth over pink, it was centered with an arrangement of pink carnations and white candytuft in a heart-shaped container. Burning in a three-branched silver candelabrum were tall white candles.

Other table appointments were pink napkins inscribed "June — Donnie" in a deeper shade of pink, gleaming silver trays and a crystal punch service.

On top of the grand piano stood a bride doll dressed in white satin, holding one of the wedding invitations.

Guests, who called between 7:00 and 9:00 p.m., were greeted by Mes. Archie Bryant, M. J. McDonald, Lloyd Lowe, Cecil Marquart.

Presiding at the bridesbook were Mrs. Esther Thornberry and Mrs. Rollins Woodall.

Alternating at the refreshment table were Mes. Alan W. Berry, Wilburn Bedford, James Sewell, Jim Miller.

As the honoree opened her packages, the gifts were placed on display by Mes. George R. Huckaby, Dorothy Thompson, J. P. Gard.

Other house party members included Mes. Herman Mahler, Taylor George, F. M. Wilson, Arch Hughes, R. R. Brubaker, Herman Kight, L. E. Brooks, Homer Blalock.

Musical background was furnished by Mrs. Jimmie Jeter, Miss Phyllis Truett and Miss Lynda Jo Thompson during the social.

The young couple will exchange nuptial vows in a ceremony at the First Baptist church at 7:30 p.m., Friday, April 4, with Rev. Homer W. Thompson, pastor, officiating.

Mr. and Mrs. David Lee Minter of Denton were hosts at a dinner honoring Miss June James and Donnie McManus, Saturday evening, March 15. The affair was given in the home of Mrs. Minter's parents Mr. and Mrs. James Sewell.

The dining table was covered with pink linen. The unique centerpiece featured colorful Easter eggs topped with pink daisy mums in a bronze container. Pink tapers burning in bronze holders flanked the centerpiece.

The table was set with coral pottery which provided interesting contrast with the pink appointments.

Other dinner guests were Mrs. D. O. James and Mrs. Virginia McManus, mothers of the honored couple; Mickey and David Sewell.

FAMOUS Department Store

AS TIME GOES B(U)Y!

Ivan Skavinsky Skavar, the average Russian industrial worker, labors five times as long to fill his family's market basket as does Joe Smith, the typical American laborer.

In a talk before the National Food Conference, held recently in Washington, D. C., Vice President Nixon pointed out that Joe Smith can buy a pound loaf of enriched bread with six minutes of labor, according to figures compiled by the United States Bureau of Labor Statistics. Ivan works 14 minutes for the same amount of bread which does not equal the U. S. loaf nutritionally.

Ivan works 132 minutes for a pound of beef. Joe Smith buys it with 31 minutes of labor. Joe works 25 minutes to add a pound of sliced bacon to the family larder; Ivan has to stay on the job 331 minutes to buy the same amount from a Moscow State store.

A grouping of 11 foreign countries, according to the work time required to buy food, indicates that the American worker spent less than one-fifth as much time to pay for a given quantity of food as the Soviet worker. He (the American) spent from 20 to 36 per cent as much as the Italian, Austrian, or French workers; from 39 to 48 per cent as much time as the Dutch, West Germans, Irish or Swiss; and from 62 to 71 per cent as much time as the Danish, British, or Norwegian workers.

Joe Smith works 4 minutes for a pound of flour. Irishmen and Norwegians are runners-up. They work six minutes for their pound of flour. Again, tops in the flour field is Russia, where 27 minutes of work are necessary.

French bread is in demand in many countries, but not so lucky. Pierre works 20 minutes for a pound of it.

To prove the durability of Chevrolet's radical new Turbo-Thrust V8,* the tremendous flexibility of the new Turboglide transmission,* the incredible smoothness of Full Coil suspension, we tackled the most challenging transcontinental road in the world — the 1,000-mile General San Martin Highway. To make it harder, the Automobile Club of Argentina sealed the hood shut at Buenos Aires — no chance to add oil or water or adjust carburetors for high altitude.

So the run began — across the blazing Argentine pampas, into the ramparts of the forbidding Andes. Up and up the road climbed, almost 2½ miles in the sky! Drivers gasped for oxygen at 12,572 feet — but the Turbo-Thrust V8 never slackened its torrent of power, the Full Coil springs smothered every bump, the Turboglide transmission made play of grades up to 30 percent. Then a plunge to the Pacific at Valparaiso, Chile, a quick turn-around and back again. Time for the round trip: 41 hours 14 minutes — and the engine was never turned off!

THIS WEEK

—In Washington

With
Clinton Davidson

The hardest man in Washington to discourage is, without doubt, Secretary of Agriculture Ezra Taft Benson. A week seldom passes that he does not reject demands that he resign.

If harsh criticism—and he has had an abundance of it—gets under his skin he shows no sign of it. Eggs and verbal brick-bats have rained down on him for more than five years.

Since January, 1953, he has spent almost \$20 billion on programs authorized by Congress to help farmers. Yet poll after poll has shown that most farmers want him to quit.

Benson, himself, disputes those polls. He would rather rely on the mail he receives which, he says, runs more than three to one in favor of his staying. How many of those are from farmers he doesn't say.

The Congressional Record has printed more than 100 speeches by congressmen demanding that Benson resign. At least a dozen delegations from Congress have faced the Secretary and insisted that he get out.

Recently one such delegation told him that if he didn't go soon he would cause 25 to 30 Midwestern Republican congressmen to be defeated in November. Benson told them, in effect, that he didn't believe it.

Some of those most active in the "dump Benson" campaign claim that Vice-President Nixon is one of their leaders. Nixon, however, has neither confirmed nor denied the reports. Benson says they are not true.

In the Senate and House Agriculture Committees, where farm legislation must originate, Republican and Democratic members have been almost equally critical of Benson and his farm policies. They've made life miserable for him in the hope that he would quit.

The attitude of the farm organization leaders in Washington has ranged from lukewarm to openly hostile. Generally, the Farm Bureau has been less critical than the others.

Benson, on the other hand, is not without staunch supporters. Most important of these is President Dwight D. Eisenhower. He not only refuses to ask Benson to resign, but publicly endorses his farm policies and insists that he stay.

For almost every speech in Congress demanding that Benson resign, there has been another praising him. Principally, these have been made by congressmen from Northeastern states and from predominantly urban districts, but he also has supporters from farm states.

The enigma of it all is that Benson is generally well liked, personally. He is respected for his unshakable devotion to his convictions. A deeply religious man, he simply turns the other cheek to his assailants.

He has said repeatedly that he does not seek personal popularity. The fact that his program does not appeal to many farmers, or to Congress, does not discourage him. Only one thing counts: His firm conviction that what he stands for is right and in the long-time best interest of farmers and the nation.

HOW TO HEAL TENSION IN YOUR HOME

A young fellow was having a lot of trouble with his mother-in-law. Each afternoon when he came home from work, she was always in a peevish mood. She was constantly nagging, angry, complaining and accusing him unfairly.

At first he took it meekly. But then he couldn't bear it in silence any longer. He began to reflect her mood like a mirror. If she complained that she and her daughter had too much work to do, he gripped right back about how hard he worked in the office. When she accused him of not making enough money, he would quickly inform her that he made more than the average person, but that she and her daughter would have broken the Henry Ford family.

In fact, every time she yelled, he yelled. His wife who was caught in the middle yelled first at one and then at the other. The children joined in and just yelled.

The home became so tense and edgy that divorce seemed to be the only solution.

Finally, he decided he must have help. He went to his pastor and discussed the situation with him.

Between them they discussed who was setting the tempo and emotional mood in the household. They both agreed that it was the mother-in-law.

And then the pastor told him this: "You are simply reflecting whatever mood your mother-in-law establishes. There is only one way to insure peace and harmony at your home. You must be the
