"Traditions of the Baptist congregation should inspire its 800 members to determine that the year shall be outstanding in its realm," suggested the Rev. Dick O'Brien, pastor.

Evangelism is to be given stronger emphasis during the coming months than in the past, was comment given by the Rev. Cal C. Wright of First Methodist church. Rev. Sam H. Young of Sweetwater, Methodist presiding elder, recently gave utterance to the same objective.

E. L. Wyche, Jr., Dies After Rifle Bullet Plows Into His Heart; Burial Rites At Lamesa Wednesday

A regrettable tragedy that marred the holidays here was accidental death of E. L. Wyche, Jr., 8, son of Mr. and Mrs. E. L. Wyche, who was instantly killed Tuesday afternoon at 1:30 o'clock when a rifle being handled by him and N. A. Rogers, Jr., his friend, was discharged.

The accident occurred in yard of the N. A. Rogers home in North Colorado. The Wyche boy was visiting in the Rogers home and the boys asked permission of Mrs. Rogers to go hunting. The request was at first declined but she finally agreed on condition that she accompany the boys.

The boys went into the yard with a small rifle. Mrs. Rogers returned into the house to get her hat and coat. Returning she found that the Wyche child had been shot. She carried the boy to the Root hospital, nearby, where it was found that death had been instantaneous.

Funeral rites were conducted from the Church of Christ Wednesday afternoon at 1 o'clock with Minister Willis Kreager officiating. The body was taken overland to Lamesa in a Kiker & Son funeral coach where burial was had after brief services in a chapel there.

Members of the Rogers family and several other friends of the late boy and his family attended the services, both here and in Lamesa. Among the number were officials and employees of the West Texas Construction Company, builders of Lone Wolf Creek bridge. Father of the slain boy is construction superintendent on the bridge project.

The child is survived by his parents and three sisters, Lucile, 12; Billie Dean, 10, and Patsie Ruth, 4.

FOOTBALL CONTESTS ON NEW YEAR'S ATTRACTION FOR FANS OF COLORADO

The three "Bowl" football contests staged on New Year's Day furnished interesting diversion for Colorado fans, hundreds of whom huddled about radios in their homes and downtown stores to hear reports on the games, play by play.

Exaltation was to be heard when a flash came that T. C. U. had won over L. S. U. at New Orleans, in the Sugar Bowl classic. But local Texans did not evidently approve of the billboard report to come from the Pacific coast, announcing the S. M. U. Mustangs had been defeated by Stanford's Red Skins.

The Sun Bowl game, played by Hardin-Simmons Cowboys and the New Mexico Aggies was still another interesting game. Disappointment was also registered here in news that the Abilene team had only held their opponents to a tie score.

Mexican Cattle Import Order Received With Concern Among Ranchers Of Area

Local cattlemen Wednesday were considering with concern press announcement out of Washington that cattle imported from Mexico hereafter are to be admitted into this country on the same favorable terms recently granted Canada.

That the tariff ruling, favorable to Mexican cattlemen, would go into effect without delay was further asserted in statement by H. P. Hornsby of San Antonio, collector of customs.

Tariffs are reduced from one and one-half cent to one cent per pound under terms of the trade agreement. The duty on horses is cut from $30 to $20 under the Canadian pact and it was accepted that the same schedule would apply on imports from the Southern republic.

There are to be no changes in duty on sheep and goats. Most of the Mexican cattle imports are received into Texas at Eagle Pass, Del Rio and El Paso. The new duty schedule is to have its effect on the cattle industry of this immediate section, as well as throughout the State, it is being pointed out here.

Sunday As Their Golden Wedding

Loraine Couple Honored on Golden Wedding Anniversary

Sunday was a gala day in the lives of Mr. and Mrs. C. M. Thompson, pioneers of Loraine, as their children, relatives and friends from over a wide section of the State converged at that east Mitchell county community to pay homage to them on occasion of their golden wedding anniversary.

Celebration attending recognition of the anniversary started Saturday night at the Thompson farm home a few miles east of Loraine, when their eight living children met there for an exclusive family reunion with their father and mother. No other guests were received. After enjoying this unique association until a late hour, all the children retired for the night, as they did in other years while living under the parental roof.

The wedding anniversary celebration was renewed Sunday morning at the residence of Mr. and Mrs. T. R. Bennett in Loraine, where some fifty relatives and close personal friends of the honorees gathered for dinner. Mr. and Mrs. Thompson occupied a place of prominence at head of the long table where sat kin from various parts of Texas, many of whom, like the honored guests, were well along in years.

Younger people priviliged to attend the dinner were served cafeteria style and at improvised dining tables in adjoining rooms and the yard at the Bennett home.

From 3 to 5 o'clock Sunday afternoon reception for Mr. and Mrs. Thompson was given at the residence of Mr. and Mrs. K. L. Taylor, Loraine. During the hours 200 guests filed through the home to greet the honorees and others in the receiving line. Daughters of Mr. and Mrs. Thompson received the guests as they entered. Mrs. C. C. Thompson of Colorado presided at the registration book, while other children served punch from a lace covered dining table, gave wedding rings as souvenirs and escorted the guests into another room where the large array of beautiful gifts were on display.

Attending the noon dinner were honorees, Mr. and Mrs. Clyde Smith of Loraine, Mr. and Mrs. A. B. Smith of Loraine, Judge and Mrs. B. L. Templeton and daughter of Colorado, Mr. and Mrs. Homer Richards and children of Loraine, Mr. and Mrs. C. P. Gary and children of Colorado, Mr. and Mrs. T. R. Bennett and son of Loraine, Mr. and Mrs. Wylie Thompson and family of Dublin, Mr. and Mrs. Artie Thompson and son of Hico, Mr. and Mrs. Archie Thompson and son of Coahoma;

Mr. and Mrs. Brad Barnett of Lamesa, Mr. and Mrs. W. P. Keeling and Mr. and Mrs. Cone Thompson of Tyler, Sid Altman and family of Albany, F. B. Altman of Cisco, Mr. and Mrs. Mason Altman of Abilene, Mr. and Mrs. Kirk Taylor of Loraine, Mr. and Mrs. Floyd Griffin of Buford, Mr. and Mrs. C. C. Thompson of Colorado, Miss Rilla Thompson of Loraine, Mrs. Willie Mae Thompson of Denton, Mrs. Cora Hall of Bryan, Mr. and Mrs. Tommy Long and son of Inadale;

Henderson and L. P. Henderson of Loraine.

"This has been one of the brightest days during the fifty years that Mrs. Thompson and I have lived together and the impressions that have come to us through association of all these relatives and friends shall never be forgotten," Mr. Thompson stated Sunday afternoon as he sat in an easy chair in the Taylor home and reflected events of the past day and night.

Many of the guests attending the noon dinner program and the reception that afterncon were close personal friends of Mr. and Mrs. Thompson through a number of years. One of the visitors from Tyler had known Thompson for sixty years, they having grown up on adjoining farms in Smith county.

Children of Mr. and Mrs. Thompson enjoyed the anniversay celebration equally as much as their parents, according to C. C. Thompson of Colorado, one of the sons. "I would not have missed having part in this event for anything in this world," the Coloradoan stated to a representative of The Record Sunday afternoon a short time before the reception came to a close.

Mr. and Mrs. Thompson have been resident citizens of Mitchell county since 1906, after moving here from Erath county. They are the parents of nine children, eight of whom are living and were present with members of their families to offer homage to a beloved father and mother. One son, Otha Thompson, was lost as a casualty of the World War. He died a few years ago from effects of injury received while in the service of his country.

The children attending were: Mrs. T. R. Bennett, Mrs. Cora Hall, Mrs. K. L. Taylor, and Miss Rilla Thompson of Loraine; C. C. Thompson and Bill Thompson of Colorado; W. B. Thompson of Dublin, and Mrs. Floyd Griffin of Buford.

Service Organization Prides In Record Of The Past, So Officials Announce

Benevolences that during the past several years has been a major objective by the Lions Club is to be continued through 1936, officials of the organization have recently stated. If there is to be any change from last year it will be a more ambitious one, it was declared.

Rendering assistance to school students with defective vision through the years has been a prided feature of the club's activities. During the recent Christmas holidays scores of kiddies were made to realize some of the joys of that happy season because there was a Lions Club in Colorado, a member of the club suggested Wednesday.

President Benton Templeton hopes to see the New Year develop into the greatest in history of the organization, especially as applies to that scope of Lions endeavor centered about service to others.

C-C Looks To The Future With Hopes Of Progress Ahead

President Thompson Invites Coloradoans Cooperate For Better City And County

The chamber of commerce Wednesday morning entered another New Year with definite plans of striving to make 1936 a year of material progress for both the city and county.

President C. C. Thompson and his assistants have outlined that the chamber is supported as a clearing house for the citizens of this county and they are invited to make use of its every facility. Financial and moral support of the organization is invited.

"A united people banded together under the common cause of making this a better section of West Texas in which to live and do business," has been suggested as slogan under which the organization launches its campaign for the year.

Banquet Speakers

best market this nation has for its cotton, Mr. Mahon emphasized the need for developing a friendlier spirit between the two countries.

"It is absurd to think the Japanese want war with us," he said. "Russia and China keep them occupied, and will for many years."

Mahon touched on the disorganization of China, saying that the nation is "going to rack" because of ancestor worship. He called its 450,000,000 population a "sleeping giant."

Of the independence of the Philippines he said: "When the United States gave the Philippines their independence it was the most magnanimous thing any nation ever did for another. But I am very fearful that when the stars and stripes are pulled down at Manila and the protecting arm of the United States is withdrawn for good, the Philippines will have lost their greatest asset, and will fall prey to some stronger, more ambitious nation."

Governor Allred, speaking some time after Congressman Mahon, kept the gathering in an uproar of laughter for several minutes with remarks about the hay fever from which he is suffering, and other subjects.

In a more serious vein he told of the leadership which Texas has furnished to the nation in recent years, citing as specific examples Col. E. M. House, Jesse Jones of Houston, Vice-President Garner, and others.

Of Roosevelt's administration he said, "It should not be forgotten during the coming months of increasing criticism of our national administration that President Roosevelt has worked untiringly for the interests of the average man, for the interests of the farming sections of the nation.

"I see every reason for optimism as I look into the future," the governor declared. "But we still have our big problems—the liquor question, unemployment, the old age pension which we have voted but which we have not yet financed in full. The solution of all these will take time and patient effort. The idea for a reformation may come into existence suddenly, but the reformation itself never does."

In closing Governor Allred talked of plans for the Centennial.

Newly elected directors of the chamber were announced at the opening of the banquet as follows: T. W. Stoneroad, R. F. Fee, Joe Smoot, P. K. Mackey, Jake Richardson, and W. J. Wooster.

All entertainment numbers were Spanish in type. Mrs. W. R. Martin of Loraine and Mrs. C. A. Wilkins of Colorado sang solos, accompanied by Mrs. E. L. Latham. Nina Katherine Quinney, Verna Campbell, Susie Beal Snyder, Jane Axtell, Hunter Brandon and Dub Crow were presented in dance numbers.

Costumes of the Far East, collected by Daphne Mahon, little daughter of Congressman and Mrs. Mahon, were modeled by Mary Ann Latham, Billy Marie Seward, Juanice Elliott, Daphne Mahon, Billy True Templeton, and Joan Mills.

Pupils of Mrs. Martin were presented in the floor show which was staged during the dance following the banquet. Arnold Marshall sang several solos. Dance numbers were by Nina Katherine Quinney, Verna Campbell, Craig Porter, Phyllis Berman, Emmajean Morrison, and Billie Margaret Gregory.

That the banquet was representative of a wide section of Texas is shown in fact visitors from Lubbock, Westbrook, Abilene, Stanton, Denison, Dublin, Marshall, Gonzales, Austin, Fort Worth, Rule, Sweetwater, Midland, Snyder, Rotan, Loraine and Wichita Falls, Texas, and Washington City, were presented.

There were two district judges present, Judge A. S. Mauzey of Sweetwater and Judge Clapproth of Midland, both of whom delivered a brief address. Jas. T. Brooks of Big Spring, a former district judge, was another guest to be heard. Howard Davison of Rotan, legislative representative, was another visitor to be presented, as were representatives of the Snyder, Abilene, Loraine, Westbrook and other delegations.

Business Concerns Extend Strong Bid For Public Favor

Special January Sales Open At Some Stores In Order To Clear Large Stocks

Business concerns of Colorado are extending strong bid for patronage of the public from a wide section of this part of West Texas, as they move to clear out seasonable Fall and Winter stocks to make room for shipments of Spring and Summer apparel soon to begin arriving.

At some of the local stores special sales are being announced. Special barrain prices will obtain throughout the places, so it is stated, as an inducement to move the goods. These merchants, cooperating in objective to extend Colorado's trade territory even to further bounds, cordially invite the public to visit their places and note quality of merchandise offered, along with comparison of prices with legitimate business concerns at other points.

MRS. C. W. HART, 70, DIED IN O'DONNELL ON THURSDAY NIGHT

Mrs. W. C. Hart, 70, mother of R. D. Hart of Colorado and half-sister of L. A. Costin, died at her home in O'Donnell Thursday night after a month's illness. Funeral services were held at 3 o'clock Friday in O'Donnell with interment there.

With her husband, the Rev. W. C. Hart, Mrs. Hart came to Mitchell county in November, 1897, and for several years thereafter lived in this section. The Rev. Mr. Hart was an itinerant Methodist preacher. They were moved to several places after leaving here. They bought a home in O'Donnell in 1914 and have lived there ever since except for three years when the Rev. Mr. Hart supplied at Becton and Roaring Springs.

Mrs. Hart was born Angie Wilson in 1863 in Alabama. She was married there and she and her husband came to Texas in 1886, living in Falls county until coming to this section. She was the mother of twelve children. The following survive her: J. L. Hart of Albany, R. D. Hart of Colorado, Guy C. Hart of O'Donnell, T. C. Hart of Carlsbad, New Mexico, R. C. Hart of Searcy, Arkansas, and Mrs. Bob Clements of Friona.

REV. MONTGOMERY INJURED IN CRASH EARLY WEDNESDAY

Painful injuries were sustained by two occupants of a car which overturned twice when it was in collision with another about a mile north of Valley View school near the Earl Brown place early Wednesday morning.

The Rev. R. H. Montgomery, former and Baptist preacher who lives on the Logan Spalding place (also known as the Scott place) at Longfellow, was pinned beneath his car as it overturned. The other car belonged to Hugh Hallmark of Loraine, who had two sons with him. Both cars were badly damaged.

Two sons of the Rev. Mr. Montgomery were with him. One of them, Norman, sustained a bad gash in his arm. The Rev. Mr. Montgomery was considerably bruised and suffered from shock. He was treated at his home.

How Calotabs Help Nature To Throw Off a Bad Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed.

How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminants, thus cleansing the intestinal tract of the germ-laden mucus and toxines. Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the system. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds.

Calotabs are quite economical; only twenty-five cents for the family package, ten cents for the trial package. (Adv.)

FRIENDS MEET HERE FOR FIRST TIME SINCE 1894

Two friends of years ago met for the first time since 1894 when Mrs. Nina Holmes Hawks of Anadarko, Oklahoma, knocked at the door of Mrs. R. B. Terrell's home Christmas morning.

Mrs. Hawks will be recalled by Colorado's earlier residents as the daughter of Mr. and Mrs. J. W. Holmes. Mr. Holmes and J. T. Harness, father of Mrs. Anna Simon, were partners in a grain business which was located on the present site of Mills Chevrolet company.

Mrs. Terrell and Mrs. Hawks were girlhood chums. They never saw each other after the Holmes family moved away from here in 1894.

The two spent Christmas day recalling old times and piecing together the years since they had seen each other. Mrs. Hawks was accompanied by her daughter, Miss Pauline Hawks. They had been to Abilene to attend the funeral of the son of Mrs. Hawks' cousin, a Mrs. Oldham.

GIRLS KNOWN HERE IN FATAL MIDLAND CRASH

Three girls who are known in Colorado, two of them being former residents of this place, figured in a fatal car crash at Midland Thursday night. Mary Elizabeth Newman, 16, Midland high school student, was killed in the accident.

Estelline and Thelma Chivers, formerly of Colorado, and Bessie Dale, who has visited here at various times, were sitting in a car which had stalled on the highway six miles west of Midland. CHURCHES

FIRST BAPTIST CHURCH

With the deepest sort of gratitude for the blessings of the past year and with a spirit of optimism as we face the New, we urge a full attendance at all services at the church next Sunday. We are sure of our grounds when we advise church attendance as a proper way to begin the New Year. With the surcharged with a spirit of hopefulness for business improvement let us not forget to give attention to the betterment of our spiritual lives. Prosperity that includes the material only, is lopsided and partial. You have made the year just past very happy for us by your loyalty to the church and your thoughtful consideration of the pastor and his family. We consider it a high honor and a heavy responsibility to be pastor of a church with a glorious history of more than a half century, and a membership of more than 800. To each one of you we hope the New Year will bring the realization of every legitimate desire.

Beginning next Sunday we expect to begin a series of morning messages on the Book of Deuteronomy. In this book we find the greatest written sermons ever publbished.

Dr. Walter T. Conner, head of the Systematic Theology department, of Southwestern Seminary, and author of several books, will fill the pulpit at the evening hour. Lets get a good start by being in every service all day.

DICK O'BRIEN, Pastor.

E. J. Duprees Leaving Soon To Live On Bahrein Islands In Persian Gulf

Notice was received recently by E. J. DeuPrees, California company construction engineer who has been stationed here since last March, that he is to be transferred to the company's holdings in the Bahrein islands in the Persian Gulf. He and Mrs. Deupree are making their plans to leave here soon.

Mr. DeuPree is to report at the company's headquarters at San Francisco on January 13. Later he will go to New York and will sail from there for the islands. Mrs. DeuPree does not plan to leave Texas for about six months. She will divide her time between Dallas, Iraan, and Colorado.

"A little thrilled—and a little scared" was the way Mrs. DeuPree described her feelings at the thought of living in such a far-away place when questioned Thursday morning. Mr. DeuPree is to do the same type of work for the company in the islands, which are owned by Great Britain, as he has been doing here.

The Bahrein islands and their neighboring islands in the Persian gulf are described in an encyclopedia as follows: "The Persian Gulf is an inlet from the Indian ocean, running northward through the Strait of Ormuz between Arabia and Persia. . . . It is 520 miles long and 150 to 200 miles wide with an area of about 95,000 square miles. . . . The most important islands are Ormuz, Kishm, and the Bahrein islands, the last being noted for important pearl fisheries. . . . The coasts . . . are high and steep on the Persian side but low and sandy on the Arabian side. . . . Bushire is the most important port and from here Great Britain protects her communication with Bombay and keeps law and order among the barbaric people who inhabit the coast."

Tax Collector Discusses Conditions To Be Met In Qualifying One's Suffrage

Will you be entitled to vote free this year? Do you hold an exemption, either for being 21 years old or over 61, or for some other reason? Do you live in a city of 10,000 or more inhabitants or do you reside in a smaller city or town or in the country?

For those who believe themselves entitled to an exemption, for one or another of the legal reasons, the tax collector suggests a checkup on the standing of the exemption, if any is held, before Feb. 1. A new law and even newer rumors have muddled the voting regulations as public "gets it."

It is emphasized, however, that anyone holding an exemption of a permanent nature such as being over age, need not bother about the checkup provided that he has lived continuously since getting his exemption where he now resides.

If he has moved from one county to another, he needs a new exemption certificate and even if he has just moved from one voting precinct to another he must present certificate to the collector for endorsement showing the new residence.

In the smaller towns and rural districts, only those getting the 21-year exemption must actually secure a certificate. The old people holding exemptions will continue as usual; they don't have to have them.

Roy E. Warren suggests that those wishing to exercise their exemption voting privileges this year study the following requrements set forth in a recent state law and interpretation by the attorney-general's department:

1. Exempt voters moving into another precinct or ward, must present their certificate to the collector for endorsement showing the new residence.

2. Exempt voters moving into another county must secure a new exemption certificate in that county before Feb. 1.

In cities of less than 10,000 inhabitants and in rural districts:

1. Only those voters exempt because they were not 21 years of age on or before Jan. 1 of the year for which the levy was made and those who have moved into this state after said date are required to obtain an exemption certificate.

2. Certificate-holders of these classes moving from one precinct to another must present their certificate to the tax collector for endorsement showing the new residence.

3. Such a certificate-holder moving into another county must present the certificate to the tax collector of that county for re-issue or registration and endorsement at least 20 days before any election at which he expects to vote.

4. Young people who are now 21 years of age and those who may become 21 years of age during the poll tax year should obtain their exemption certificate before Feb. 1.

Baptist Seminary May Establish A Branch Here Soon

Plan To Be Considered And Discussed By Dr. Walter T. Conner Sunday

The probable establishment of a branch of the Southwestern Theological seminary in Colorado will be considered by Dr. Walter T. Conner, head of the department of systematic theology in the seminary, when he visits in Colorado Sunday and preaches at the First Baptist church Sunday evening at 7 o'clock.

Dr. Conner's message will also be based on one phase of Baptist denominational life.

He has requested all prospective members of a class here to meet with him at the Baptist church Monday afternoon at 4:30.

STRONG CAGE CLUBS WILL CONTEST FOR PENNANT AS TOURNEY OPENS THURSDAY

Big Spring, Defending Title Holder, Colorado, Hamlin And Other Strong Quintets Entered For Annual Play

Several of the stronger cage clubs of this part of Texas are to contest for championship pennant as Fifth Annual Invitation Basketball Tourney gets under way here Thursday evening. Indications point to the best meet in history of the tournament, according to C. A. Wilkins, director.

The Big Spring Steers, three times winner of the championship belt and defending that title from last year; the Hamlin Pied Pipers, winner of high honors in eastern section of the district; the Wolves, winner of first place in 1934, and other high school clubs of equal importance in cage circles of the territory, have been entered.

Other clubs registered for competition in the three-day classic include Forsan, Westbrook, Snyder, Loraine, Roscoe, Sweetwater, Roby, Rotan, Post, Levelland, Ira and Dunn.

The opening tilt is set for Thursday at 6 o'clock p. m. Six games are to be played during the evening. First round bouts will be resumed Friday morning at 10, with the semi-finals and finals to follow through Saturday. Trophies are to be awarded to winner and runner-up contestants, as well as to third place winner and winner and runner-up in the consolation round.

Colorado should consider herself honored in having again been accepted as host to this annual classic, Mr. Wilkins stated. He offered strong appeal that liberal patronage be accorded the tourney by citizens of Colorado and vicinity.

DRASTIC ECONOMY ENTERS STATE RELIEF SET-UP TO CURB AVAILABLE FINANCES

Cities And Counties To Have Greater Responsibility Now In Demand For Sustenance And Medical Attention

Texas relief officials Tuesday rationed dwindling funds among unemployables with a New Year's promise "to carry them through the Winter."

Adam R. Johnson, state director, invoked sharp retrenchments in apportioning final state and federal dole funds among destitute unable to work for direct relief through January, February and March.

All employables were dropped from relief rolls, regardless of whether or not they had obtained work relief. Abolition of district offices cut administrative costs in half.

First payments in the "closeout" program were mailed to 36,153 cases, providing aid for approximately 175,000 persons the first half of January. Budgets averaged $16 per case monthly in metropolitan areas and $13 elsewhere.

Officials calculated those schedules could be maintained up to 50,000 cases, the maximum anticipated in February.

The commission started the final three months of direct relief with $3,349,000 on hand. Johnson said $2,300,000 was available for direct relief.

The remainder was needed for administrative expenses and other costs involved in terminating the organization. He said approximately 40 boxcars of records had to be assembled in Austin, indexed and filed, and a final report made.

All district setups were ordered abolished by mid-January and 3,000 employes discharged, cutting administrative costs from $370,000 to $150,000 monthly.

Distribution of relief was changed from a local system to a direct mail method from Austin, eliminating need for disbursing agencies in counties and districts.

Case supervisors were retained under the fifty of district administrators in 22 districts. Under them were 589 case workers, one per 150 cases, to check on justification of relief payments. In addition, the state organization retained 100 intake secretaries and 175 case workers to aid in certifying eligible employables to the Works Progress Administration.

Johnson said rolls were cut from 128,000 cases in December to 36,153 in January, while the WPA reported more than 100,000 employables had been put to work. Employables admitted to relief rolls after Nov. 1, however, were not eligible for WPA certification.

Employables unable to obtain WPA and border line cases, Johnson said, "are the burdens of cities and counties." Destitute farm families likewise must be aided by localities, he said, until other relief may be provided.

Economies enforced in relief disbursements during 1935 enabled the commission to accumulate a surplus, Johnson said, which was augmented by a recent federal grant of $1,000,000. State funds provided $2,167,124 of the current balance.

"If we hadn't built up that surplus," he said, "all the burden would have been on counties now. We would have had to close rolls to all but employables two months ago."

Johnson said cities and counties now must share the task of providing supplementary relief, such as medical treatment and aid other than "the bare subsistence we give them."

That burden, he said, would be lessened when old age pensions are started for 33,000 of the 175,000 on January rolls eligible for old age assistance.

He warned that the budget outlined for the three months was an "inflexible one and there can be no emergency aid. The relief act mandatorily gives preference to unemployables."

PLANS OF TEACHER ASS'N. PRESIDENT FOR FURTHER REVENUE PONDERED HERE

Plans of John H. Gregory of McAllen, president of the Texas State Teachers association, are being studied with interest among school leaders here and in other parts of the county.

Gregory would place a school tax on cigarettes, oil, sulphur and other commodities as a means of relieving the burden of supporting schools by real and personal property levies, as at present.

Declaring that four-fifths of the world's supply of sulphur is produced in Texas and that this State markets 92 per cent of its crude oil outside Texas, he contended that a school tax on those commodities would not injure residents of the commonwealth.

CHRISTMAS TREES

Friday afternoon, Dec. 20, the Junior high school was entertained by a program from Miss Cook's room, 7-A, followed by a Christmas tree. The program included a group of Christmas carols sung by Miss Miller's former choral club and a story by Bobbie Lou Cooper. Then Santa Claus came and distributed the gifts which were around the beautiful tree. A very large box was presented Mr. Holman which contained a nice robe for his car which he had recently wished for. Everyone left, feeling that they would have a nice Christmas. (And they did, from reports Monday morning!)

ENTERTAINMENT

During the week before the Christmas holidays the sixth grade entertained the Negro school.

The program was:

Phyllis Berman—Dance.
Jane Merrel and Frances Sorrells—Dance.
Marion Britton—Song.
Esther Elliott—Reading.
Mary Price—Piano solo.
Mackye Loving and Johnnie Lee Weeks—Song.

After the program candy and gifts were distributed.

COTTON PROJECT

Our social science instructor, Mr. Mason, recently sponsored a contest in cotton projects—the boys submitting tiny models of different types of spinning wheels, and the girls submitting various articles made of cotton or cotton cloth. The winner of first prize, one dollar in the boy's division was Oscar D. Roberts, who made an early Irish model of the spinning wheel.

In the girl's division, Ernestine Moore won first prize. Her entry was a small quilt of tiny blue and rose squares. Elnora Webber won second place, with Alice Womack winning third.

The prizes were awarded in chapel Friday just before the gifts were distributed. The winners of first place lost their entries to Mr. Mason but they all say it was worth it!

CHAPEL

Tuesdays chapel was sponsored by the Clothespin Club under the direction of Miss Bradford.

The numbers were:

Lee Dane Jones—Speech.
Louis Bodzin—Song.
Marjorie Plaster—Reading.
Eva Lee Loftis—Dance.

Phyllis Berman—Dance.
Mackeye Loving and Johnny Lee Weeks—Song.
Inez Custer and Orabelle Foster—Song.
Jo Carroll Dennison—Dance.
Jack McCorcle and Billy Wade—Magic exhibition. (Ask Mr. Glover about it!)
Esther Elliott—Song.

These were assisted by Catherine Slagel, Robert Kirschbaum, and Craig Porter.

ENTERTAINMENT

The seventh grade art class entertained the Mexican school the week before the Christmas holidays. The program was:

Nina Katherine Quinney—Dance.
Emma Gene Morrison—Latin from Manhattan—Dance.
Jack Herrington—Violin solo.
Sarah Guitar—Piano solo.
Inez Rogers—Medley of Christmas carols (piano solo).

Mr. Glover led the group in singing many Christmas songs.

After the program the candy and toys were distributed among the visitors whose behavior was a good example for the Jr. high to follow.

Laxative combination folks know is trustworthy

The confidence thousands of parents have in good, old reliable, powdered Thedford's Black-Draught has prompted them to get the new Syrup of Black-Draught for their children. The grown folks stick to the powdered Black-Draught; the youngsters probably will prefer it when they outgrow their childish love of sweets. Mrs. C. W. Adams, of Murray, Ky., writes: "I have used Thedford's Black-Draught (powder) about thirteen years, taking it for biliousness. Black-Draught acts well and I am always pleased with the results. I wanted a good, reliable laxative for my children. I have found Syrup of Black-Draught to be just that."

BAPTIST CHURCHES OF DISTRICT 8 PLANNING CAMPAIGN FEB. 16-23

With the First Baptist church of Colorado scheduled to take an active part, plans for a Sunday school enlargement campaign in 70 of the 81 churches in District Eight February 16 to 23 are going forward, according to statements made by the Rev. Explaining the purpose of the campaign, the Rev. ONE-ARMED ARTIST PRAISED AS SAFE DRIVER

Artist Slater using finger shift

Slater painting with left hand

Though minus his right arm, Harry W. Slater, well-known Detroit artist, drives an automobile as easily and as skilfully as many drivers who "keep both hands on the steering wheel." Slater keeps his only hand on the steering wheel, too, and is rated as one of the safest drivers in Detroit. In fact, in 15 years of driving in Detroit and Chicago he has had only one ticket—and that was for driving too slowly. The ticket read "double parking."

Slater drives his car without taking his hand from the steering wheel through use of the Electric Hand, with which his Terraplane sedan is equipped. In this case, the "hand" has been adjusted so that he can reach it easily with his left hand. In the conventional installation, the hand is so set that it is operated by the right hand.

Previous to acquiring a Terraplane, Slater had considerable difficulty in getting cars that he could operate safely in congested traffic. In one car, he was forced to shift gears by using his right foot to operate the shift lever.

Every day Slater drives to his office through the heaviest of traffic, and at night he swings through the streets, congested with thousands of cars heading north. His unscratched fenders are proof of his proficiency at the wheel.

Recently when Slater applied for a renewal of his driver's license in Detroit, the police department insisted that he take a road test. Before the car had gone a block, however, the test officer said: "You can drive all right. That car was just made for you."—The license was renewed without further question.

The "Electric Hand", with which both Hudsons and Terraplanes are equipped, makes it possible to pre-select the next gear into which the transmission is to be shifted any length of time in advance of the actual shifting. An arm extends from the steering column under the normal position of the driver's hand on the steering wheel. Extending up from this arm is a small lever or trigger, easily reached by the fingers of the driver's right hand. While running in any gear, the driver can move the lever through an H, similar to the conventional gear-shift, to pre-select the next gear in which he wishes to travel.

1936

Yes, write it, 1936. A New Year. As this is the first issue of the Record in the New Year we use this column to extend to one and all a sincere, honest and friendly New Years greeting.

Happy New Year. For to be happy means everything. So I send this word echoing the remindful greetings voicing my cordial salutations and prayerful good wishes for you and yours for this gladsome New Year and through all the days ahead.

As we pass from the Old Year to the swinging gates of the New, may we be steadfastly resolved so to number our days that we may apply our hearts unto wisdom. May we turn from the past, with its futile regrets to follow re-vitalized purposes to noblest goals in the unveiled future.

May we wisely realize that it matters little what kind of a home one lives in, but it matters much what kind of person lives in the house.

May we put far from us the world's tawdry prizes, the lust of display, and the vanity of cheap applause. May we be kept from all pettiness and littleness, all cynicisure and embitterment, all hurtful prejudice and unthinking untolerance, all rancor and ill-will, from all those maladies of mind and moods of spirit that would despoil life of its highest worth. And may our lives be dominated by the love that envieth not, vaunteth not itself, seeketh not her own, rejoiceth in the truth, never faileth.

And when our day's work is done, may there be light for us at the Eventide, and then, a Bridge of Sunset for us to the Morning Land, whither our Pilot has gone to prepare an Eternal Home for all who will follow Him. May He graciously pilot us into that Home, where with Him and His, we shall perfectly know and do His will, in an unshadowed reunion which shall last forever.

NEW YEAR

Another child of time is added to his already indefinite number of children. It is well for us that they are not born twins, triplets or even quintuplets. Our years already are so few that, coming singly, we feel constrained to agree with him who said that the "candle stands in the grave."

Life, so busy, so involed, so occupied, is just long enough for us to learn how to live when we have to die. Time is measured by events. Men are disposed to measure Life by years, but the time measurement of Life should be service to mankind. Some men live more in forty years than others do in ninety measured by service.

The earth makes its journey around the elliptic, and one year dies as another is born. So it is with men.

Time comes, it goes, it remains. Time brings up, leaves us, sends us on. But Life, which Time causes to germinate, develops and matures, simply comes and goes.

Someone has said "Life is a serious business, few get out of it alive." About the only ones who have achieved the distinction of getting out of the business of Life alive that we have record of were Enoch and Elijah.

This writer is an old man and looking back upon Life we are reminded of its shortness.

It is small wonder that some who realize that they are doomed to invalidism the rest of their days, decide to hasten instead of deferring their demise. There are but few of these, however who, if they would realize the fact that relief yet may come would "rather bear those ills we have than fly to others we know not of." Two lines by George Sewell, written two hundred years ago, doubtless have deterred more than one person from ending "the heartache and the thousand natural shocks that flesh is heir to" by beating Time to the end.

"When all the blandishments of life are gone
The coward sneaks to death, the brave live on."

It is often said of we older persons that we are living in the past. This naturally is the case with the majority, for the reason that without activity one can not so much enjoy life. The miracle-working faculty of memory brings the events and persons of youth and young manhood to the view of the aged, and they are pleased to dwell on the achievements and pleasures of the long ago.

Memory does for the individual and his life span what history does for the past and for us all, except that one's life history is very much more interesting, to him. The marvelous doings of memory make it possible for "the man of wisdom to be the man of years." But notwithstanding one's desire to dwell on things of the past, it is true as Dryden says that "None would live the past years again."

No matter how old we are, if we are normal we try just as hard to avoid accident and the penalty of age as when we were young, thus manifesting the fear of death. This brings to mind the words that Shakespeare puts in the mouth of Caesar:

Of all the wonders that I yet have heard,
It seems to me most strange that men should fear,
Seeing that death, a necessary end,
Will come when it will come.

It matters not at one's great age, he imagines as one man expressed it, that he still has some unfinished business that he wants to attend to before he takes his departure. Perhaps his meditation on the thought expressed by Hamlet helps to cause this feeling.

"To what base uses we may return, Horatio!
Why may not the imagination trace the noble,
Dust of Alexander
Till we find it stopping a bunghole."

Again on the same thought:

"Imperious Caesar, dead and turned to clay,
Might stop a hole to keep the wind away."

Those of us who have reached the three score and ten point in life are saddened because we read in the press almost daily accounts of the death of one or more friends.

We have cause to think that Time has become quite machinery-minded and that now he has flung away the crude scythe and adopted the modern tractor and reaper.

"There is a reaper whose name is Death
And with his sickle keen
He reaps the bearded grain at a breath
And the flowers that grow between."

While the earth rushes on around the elliptic back to where it started, hairs have whitened, faces have wrinkled, graves have been dug and new cradles made. Some parts of the earth are cluttered up with broken arches, sagging keystones, crumbling monuments and mouldering tombs, while in other lands magnificent new structures have been erected, discoveries made and additional wisdom acquired.

The important thought as we grow older is to be able to say with the heroic Paul:

"The time for my departure is at hand. I have fought a good fight, I have finished my course, I have kept the faith."

At this happy New Year's greetings and resolves is proverbially the time when we are freshly challenged to survey Life's friendships, old and new, and to see that our friendships are kept in worthy repair, faithfully remembering the Biblical injunction, "Thine own friend, and thy fathers friend, forsake not."

May the highest meanings of this happy New Year enter abidingly into our lives, and be translated into the love that manifests itself in uncreasing good will toward all mankind the whole year round.

Let us bravely journey on in the triumphant confidence that the best is yet to be. May the veiled providences that are bound up with our lives disclose to us glorious surprises, at every step of our untraveled future. May we read the trials of life, not as accidents of earth, but as a Divine discipline for our larger happiness and usefulness. May we pass through all these trials unembittered, attuned to deeper sympathy with others, ennobled in character, and strengthened in faith. May we increasingly know that our confidence is not in some dark, impersonal Fate, but in One Who is infinite in wisdom and power and love and who sets all human life in the light of Immortality.

The New Year is upon us. There will be sunshine and rain this year. For some of us there may be clouds and storm, there may be joy and much to make glad the heart, but there may be trouble, sickness and maybe death. But you will never know, my friend, the real sweetness of life, nor the real thrill of an unquestioning hope for the life to come until by a real dedication of yourself to the will of God you begin to "work out your own salvation with fear and trembling." And by the memory past failures, by all that is noblest and best in the life that is now yours, and by all the unrevealed glories of God's better life to come, I beseech you to begin today that sort of a Christian life that will bring gladness to yourself, blessings to others by "going about doing good" in this glad New Year.

Down in the human heart, crushed by the tempter,
Feelings lie buried which grace can restore,
Touched by a loving heart, wakened by kindness,
Chords that were broken, will vibrate once more.

Another Leap Year Arrives To Assure Spinsters That They Will Be Given 'Break'

Arrival of the New Year means that we are in the beginning of another leap year. There are those who might suggest, "What is leap year?"

It seems that when Julius Caesar reformed the calendar, he arranged that in every fourth year, February should have 29 days instead of the usual 28. Thus every year divisible by four is leap year except the concluding years of centuries.

For as far back as 1288, at least, it has been associated with manchasing. It's an "open season" on bachelors. It has been considered a time when it was proper for "spinsters" and maids to "trap" the man of their dreams. Back in 1288, Scotland passed a law which gave the "spinsters" a break. It read something like this:

"It is a statue and an ordinance that during the reign of her most blessed Majesty for each year known as Leap Year, all maiden ladies of both high and low estate shall have liberty to bespeak to the man she likes, albeit he refuses to take her to be his lawful wife, he shall be punished in the sums of one pound or less as his estate may be; except and unless he can make it appear that he is betrothed to another woman, then he shall be free."

A few years later, so profane history records, similar laws were passed in France and in the 15th century the custom was legalized in Genot and Florence.

According to tradition, women have done the wooing in Leap Year for centuries, but most of you can count on the fingers of one hand, and you may have even lost part of them in the machinery, the number of women of your acquaintance who have done the wooing.

Of course many of the married men try to blame the poor married woman's estate on the woman, but that perhaps is because they themselves "can't take it."

But glancing over the Colorado city directory we find the names of many eligible "bachelors" in the area. Many of them have pretty good jobs —they are in every line of industry. So, the "spinsters" have a wide field of activity to select from.

335 ITEMS FINISHED BY WOMEN OF COUNTY'S THREE SEWING ROOMS

Three hundred and thirty-five articles, 126 dresses and 87 quilts, have been completed by women of the Mitchell county sewing rooms, according to reports submitted this week by Mrs. Alma Phillips Miller, county superintendent of sewing rooms.

Mrs. Miller and her helpers, Mrs. J. E. McCleary and Mrs. Vada Wells of the Colorado sewing rooms and Mrs. Irl Zellner of the Loraine room, have endeavored to work out a comprehensive program for the women who work under their direction. The women are taught that quality is to be placed above quantity and are instructed in becoming accurate and careful seamstresses.

They are also learning how to apply the principles of being well-dressed to their own clothes-buying problems with limited incomes. Special classes in garment construction are held by each of the three supervisors, Mrs. McCleary, Mrs. Wells, and Mrs. Zellner, every Saturday.

Plans are being made to hold open house in the near future to let the public see what the women employed in the sewing rooms are accomplishing. There are sixty women employed in the three rooms with an approximate monthly payroll of $1500.

Year's Extension For Cotton Loans Sought By Co-Ops

Local Planters Are Interested In Plan As Announced At New Orleans Saturday

Projected plan of extending the maturity of loans for one year and waiving all carrying charges to February 1 on 1934 12 cent cotton, as outlined in statement issued Saturday at New Orleans by E. F. Creekmore, vice president and general manager of the American Cotton Cooperative association, is being studied with interest by farmers of the Colorado territory.

Creekmore said the association is not in favor of another plan providing that the Government acquire title to the loan cotton on Feb. 1, the date the loans become due, and dispose of 4,600,000 bales by selling 20,000 bales weekly until liquidated.

"This would require five years before the liquidation was completed," Creekmore said.

On the other hand, he indorsed the alternate plan which he said would permit the sale of a substantial portion of the 12c loan cotton with the futures market level at from 12c to 13c.

"We believe the title or beneficial interest in the cotton should remain with the borrower rather than have it taken over by the Government," he said.

Senator Bankhead of Alabama has announced his intention of submitting a bill at the next Congress providing for the Government to take title to this cotton and then sell it at the rate of 20,000 bales a week.

"We question the advisability of a policy providing that 20,000 bales a week would be forced on the market regardless of world market condition," said Creekmore. "There is an axiom in the cotton trade:

Abilene Special Train Carrying Fans To Sun Bowl Classic Makes Colorado Stop

The Abilene Reporter-News Sun Bowl special train, carrying 300 Hardin-Simmons university football fans arrived at Colorado Tuesday morning at 9:25. A brief stop was made as the fan delegation, Cowboy band and pep squad detrained for a parade and band concert.

Aboard the special was Dr. J. D. Sandefer, president of the university; Solon R. Featherston of Wichita Falls, president of the ex-students association; Mayor C. L. Johnson of Abilene; T. N. Carswell, manager of the Abilene chamber of commerce; D. H. Jeffries, general chairman of the delegation; C. M. Caldwell of Abilene, chairman of the university board of regents, and other notables.

The visitors were met at the station by Jim Greene, chamber of commerce secretary; Congressman George Mahon and others. As the colorful band and pep squad paraded through the street, loud yells, typical of the old west were heard.

The Abilenians were enroute to El Paso where on the following day the Cowboys met the New Mexico Aggies in annual Sun Bowl classic. Head Coach Frank Kimbrough of the Abilene team expressed optimism, indicating that he had every reason to believe his charges would emerge from the battle with heavy end of the scoring record.

First stop after leaving Abilene at 7:30 was at Sweetwater. Other stops were made at Big Spring, Midland, Odessa and Pecos. The Midland stop was for forty minutes to permit the delegation to eat lunch. The special passed through Colorado early Thursday morning on the return trip, after leaving El Paso at 8:30 Wednesday night.

"WANDERER OF THE WASTELAND"
Palace—Friday and Saturday
January 3 and 4

"MUTINY ON THE BOUNTY"
Palace—Saturday Midnight, Jan. 4
Sunday and Monday, Jan. 5 and 6

A superb production viewed from any angle. Call it raw meat; brutal; cruel—yet it remains a motion picture masterpiece, flawlessly produced, magnificently directed, portrayed with complete conviction. Don't be misled into the belief that this is just a "man's picture." It's everybody's picture and, as such, is 100 percent box office. The story of the "Bounty" tells of the sadistically cruel Capt. Blight (Laughton) who, on a two-year voyage, tortures and bullies his officers and crew until finally mutiny under the leadership of the master's mate (Gable) over the protests of Midshipman Byam (Tone) and a few of the men.

"BISHOP MISBEHAVES"
Palace—Tuesday and Wednesday
January 7 and 8

This light and thoroughly entertaining comedy, taken from the stage success, relates the adventures of a whimsical, detective novel-reading bishop and his spinster sister after they deliberately thrust themselves into a real-life mystery. Also involved in the plot are a couple of crooks, a newspaper reporter and a young girl bent on securing justice for the theft of her father's invention. Through all of this Director E. A. Dupont keeps the interest high by cleverly maintaining the suspense and, at the same time, injecting numerous hilarious comedy touches. The choice of Edmund Gwenn as the very human bishop was an inspiration, while Lucile Watson and Reginald Owen also contribute delightful performances.

"ANNA KARENINA"
Ritz—Sunday-Monday, Jan. 5 and 6

Lavish production of the Tolstoy classic, heavy on drama and tragedy and a severe test against general acceptance of the happy ending. Garbo is excellent in the title role, and Fredric March, who leaves her for the army after he has taken her away from her husband and child, gives a good performance. Settings are elaborate and impressive. Freddie Bartholomew who was excellent in "David Copperfield" again does some marvelous acting.

"HIS FAMILY TREE"
Ritz—Tuesday and Wednesday
January 7 and 8

Plentifully sprinkled with good, honest laughs, this farce comedy should be a natural for the family trade and those who go to the movies to be entertained. The picture will be liked because of the performances contributed by James Barton and Maureen Delaney as for its pro-Irish story. Barton plays a likeable old Irishman, who comes to America to find that his politician son and his socially-minded wife have changed their name from Murphy to Murfee. At a redhot political rally he meets the vigorous woman leader of the Irish ward and together they make the son see the folly of being ashamed of a good old Irish name.

Mrs. Uzzle will lay a front walk three feet wide and thirty-five feet long. Her yard plan will be drawn to scale, then filled in and leveled. The walks will be laid and allowed to settle a month before being cemented together. Beds around the foundation of the house will be dug up and refilled with new rich soil, preparatory to the setting out of shrubs in the spring.
