

Military Leaders Study Defenses

TOKYO—(AP)—American commanders in the Pacific and Alaska discussed measures to prevent another Pearl Harbor in a series of top secret conferences with General Douglas MacArthur ending today.

The problem of Pacific defenses brought together key officers of the Army, Navy and Air Force guarding the northwestern and far eastern frontiers.

Air Force Lt. Gen. Nathan F. Twining, commanding the Alaska defenses, and Vice Admiral John L. McCrea, deputy commander of the U. S. Pacific Fleet, met with General MacArthur for three days.

Informed sources confined information on the talks to two points:

1. The American commanders discussed with General MacArthur practical precautions against the possibility of another surprise attack.
2. The high-ranking officers attained a "fine spirit of cooperation and coordination" among the Army, Navy and Air Force. This was described as an outstanding achievement.

Agreement to work together in the Pacific followed the general pattern of unified defense set forth by Secretary of Defense Forrestal. The Tokyo talks got down to the practical application which must take place in the event of war.

Sources reviewing the conferences made no reference to the first mid-winter amphibious landing attack exercise in the Far North. It will be held next February in "the Alaska area," Pacific Fleet Headquarters announced yesterday.

Stevenson's Endorsement of Porter Brings Johnson Home

By The Associated Press

Lyndon Johnson, Democratic candidate for U. S. Senate, returns to Texas to find himself facing an intensive campaign by Republican Candidate Jack Porter of Houston.

Porter has the support of former Governor Coke Stevenson who lost the Democratic nomination to Johnson.

35 States To Vote on Amendments

WASHINGTON—(AP)—Voters in 35 states will decide the fate of scores of proposals Nov. 2 besides picking national and state officials.

Louisiana alone has posed 40 Constitutional questions.

Californians will ballot on 15 proposed amendments to its Constitution, one referendum and four initiatives. Alabama and Florida each have 11 Constitutional matters up for decision, followed by Texas with eight and Maryland with seven.

Only thirteen states will confine their ballots to elective officials.

An Associated Press survey of the questions and subjects to be submitted to the various electorates shows that 12 states will deal with the issue of aid for veterans, eight concern the liquor question and three have controversial amendments touching on labor.

Other topics include revision of tax and old age pension systems, bond issues, pay revisions for state legislators and officers, lines of succession for state officials, and voter qualifications.

Of the three states considering labor measures, two—Arizona and Massachusetts—also deal with the subject in the 1948 election.

At that time, Arizona adopted a Constitutional amendment to outlaw closed shops; so did Nebraska and South Dakota. Arizonians are being asked by referendum this year to approve legislation to put the ban into effect.

Massachusetts voters have three referendums on the ballot. One—a "right-to-work" measure—would See STATES, Page 11

Body of Crash Victim Enroute For Burial Here

The body of Lt. Wesley Bruce Fleming, who was a crew member aboard an Army transport plane that crashed in the Italian Alps last December, will arrive in Pampa at 8:21 a. m. tomorrow for final burial.

Fleming, who was born Nov. 1, 1918, lived at 1320 E. Frederic. He was the son of Mr. and Mrs. W. H. Fleming, who lived at 1320 E. Frederic. He was the son of Mr. and Mrs. W. H. Fleming, who lived at 1320 E. Frederic.

In addition to his wife, Geneva, Fleming is survived by his mother, Mrs. Mary Fleming of Pampa; by four brothers, William of Pampa, Charles A. and Eugene C. of Borger, and the Rev. A. M. Fleming of Bonville, Mo.; and by five sisters, Mrs. Elizabeth McNally of Borger, Mrs. Rose Walker of Pampa, Mrs. Fannie Fulbright of Hickory, N. C., Mrs. Lydia Porter of Pampa, and Mrs. Mary Sutton.

Funeral arrangements to be conducted by the Duengel-Carmichael Funeral Home, are pending.

Today

28th Day of the Year

Today, in 1444, William Penn, founder of the Quaker colony in Pennsylvania, was born. — Pres. Theodore Roosevelt shot and severely wounded at Milwaukee by John Schrank, a fanatic, on this day, in 1912. — This is the birthday of ex-Governor of the Army Dwight D. Eisenhower, who was born in Texas; now it is the birthday of Columbia University President. — 1942—Allies Platten Great Jag Range of Rabaul. — 1945—New Fighter Plane Operates Without Pilot. — Verse for today: "Blessed is every one that feareth the Lord: that walketh in His ways. For thou shalt eat the labor of thine hands: Happy shall thou be, and thou shalt be well with thee." — Ps. 128:1-2.

The Weather

SHARP PRICE DROP FEARED BY FARMERS

By OVID A. MARTIN
AP Farm Reporter

WASHINGTON—(AP)—Government forecasts of a boom in meat supplies and lower prices by late 1949 may be over-optimistic. Made chiefly by the Agriculture Department, these predictions have been based largely on the fact that at the moment, the relationship between feed prices and livestock prices is very favorable for producing meat animals.

This year's record grain crop has pulled down costs of feed, while livestock prices have remained relatively high.

But reports from the corn belt indicate that farmers are not jumping in to expand livestock production as much as the department has expected.

These reports say many farmers fear that prices may drop sharply by the time new meat animals can be produced, fattened and marketed.

The view was expressed by Carl C. Malone, Iowa State College economist, before an Agriculture Department farm outlook conference here this week. He was supported by several economists from other Western corn belt states.

Malone said he does not believe farmers will meet the government's goal of a 60,000,000-head 1949 spring pig crop. Such a goal must be met if there is to be a big jump in pork supplies next year. It compares with this year's spring crop of 61,000,000.

Malone said many farmers in Iowa—the major corn-belt state—prefer to put their eggs in government price support loans and thereby escape any risk that might be involved in feeding the grain to livestock.

The department itself reported similar skepticism among corn belt cattle feeders in a report yesterday. It said the volume of beef cattle to be fed in the See PRICES, Page 11

Dewey Calls for 'Teamwork'; GOP Lacks Foresight -- HST

President Calls for Election of Ball's Opponent

Aboard Truman Campaign Train

—(AP)—President Truman cut a political war path through Minnesota and Wisconsin again today, terming his opponent a man lacking "foresight" and a "risk at a time of world crisis."

He took off the gloves last night at St. Paul with a description of Gov. Thomas E. Dewey as a maker of "mealy mouthed political speeches" and a user of "catch phrases" like "unity" and "efficiency."

And, in a speech sprinkled with New Deal phrases, he declared that the Republicans had changed Senator Joseph H. Ball from a fighter "on the people's side" to one of the "champions of reaction."

He called for the election of Minneapolis Mayor Hubert Humphrey to Ball's seat as a "fighting liberal."

Mr. Truman will climax a day of speechmaking today with a major address at 8:40 p. m. (CST) in Milwaukee.

At Madison, the Wisconsin capital, the President leaves his train at 3:45 p. m. (CST) for another speech.

In his St. Paul talk, one of his sharpest, the President invited all liberals to fight with him for "the right kind of unity" under Democracy.

While he didn't call Governor Dewey's name, he linked him with "recent converts" to a bipartisan foreign policy he said was preaching "me, too, but I can do it better."

An audience which overflowed the 3,600-seat hall whooped it up as he declared the GOP liked the government so well they wanted to "buy it."

He pulled foreign policy into the campaign, asserting Gov. Dewey supplied no unity on that front as late as 1944. He said Republican leaders were "mainly isolationist" in 1940.

The President said Dewey in 1940 said production of 50,000 airplanes a year was "fantastic" and the nation produced 100,000.

"He had so little foresight about post-war problems," Mr. Truman continued, "that he felt we could completely demolish our military strength, the minute hostilities ceased."

Auction Offers Most Everything

NEW YORK—(AP)—The Board of Transportation conducted its annual auction of lost and unclaimed articles today.

These included:

- 4,970 assorted umbrellas.
- An artificial arm.
- A vacuum sweeper.
- A box filled with false teeth.
- 300 odd shoes.

Work Begins On Addition To Elevator

Excavation has already begun for a \$75,000 storage addition that will double the capacity of the L. S. Fisher Company's grain elevator at 600 S. West, across Broadway from Oiler Park.

Eight 21-foot storage tanks, each 110-feet high, will be added to the north end of the present structure, doubling it in size, as well as in capacity. Loading and distributing machinery now installed in the "head house" at the top of the elevator's south end, is capable of handling any additions the company plans, either on the south or the north end, B. R. French, superintendent of construction, said today.

Thus, it will not be necessary to build another head house, French said, but the gallery holding the grain distributing belt will be extended.

When the new addition is completed, the whole elevator will have a capacity of nearly three-quarters of a million bushels of grain. The present elevator holds about 375,000 bushels.

Youths Face New Charges

The two Pampa teen-age brothers, charged with car theft and arrested early Wednesday morning in Shamrock, faced two additional charges of burglary today following statements they made to Chief Deputy Rufe Jordan late yesterday this morning.

The boys, Bill Loucks, 18, and his 14-year-old brother, told officers they burglarized two garages and service stations in McLean the same night they stole a Plymouth automobile in Lefors. Deputy Sheriff Charles Nicholson, McLean, said the boys broke into the Crockett Motor Co. by tearing out the panel of a large garage door and then prying open an inner office door inside the building where they found \$10.90 in a drawer. At Clyde Patterson's Magnolia Service Station, the boys used a 16-inch screw driver to pry open a window. Inside, they stole \$2.45 in pennies.

Jordan said this morning the loot was recovered from the boys by officers.

McLean was given a suspended sentence for forgery last winter in Carson County, officers said.

Mother of Miami Mayor Succumbs

Mrs. Margaret Virginia Russell, 83, mother of the mayor of Miami, died at her home there at 7:38 a. m. today. Funeral services will be held at 2:30 p. m. tomorrow from the Miami Methodist Church, with the Rev. J. W. Rosenberg, pastor, officiating.

Mrs. Russell, who had been a resident of Miami for nearly 40 years, was born Oct. 2, 1865, in Grangerville, Mo., where she was married to Ezekiah Russell on Nov. 15, 1891. They moved to Miami from Sawyer, Kansas, in March, 1908. Mr. Russell died Jan. 10, 1927.

Mrs. Russell, a lifelong member of the Methodist Church, is survived by four sons, W. L. Russell, mayor of Miami, Charles and Frank, all of Miami; and Ed Russell of Abilene; by three daughters, Mrs. D'Alor Finch of Miami, Mrs. Vena Barnes of Terrell, Tex., and Mrs. Inis Walker of Canadian; by two sisters, Mrs. Mollie Granger of Springfield, Mo.; and by 16 grandchildren and 8 great-grandchildren.

Palbearers for the funeral tomorrow will be: Dallas George, W. D. Allen, George Wells, Lawton Hoffer, S. L. Moore, and W. G. Ehman.

Burial by the Duengel-Carmichael Funeral Home will be in Miami Cemetery beside her husband and a daughter who died several years ago.

Divorce Grounds Prove to Be Good

BRISTOL, Eng.—(AP)—Army Sergeant Kenneth F. Willis testified in divorce court his wife doused him with kerosene and tried to set him on fire.

The sergeant got his decree.

Board Clarifies Regulations On Classification in Draft

To avoid possible misunderstandings and to save students unnecessary correspondence or trips to the main office on their draft classifications, C. H. Walker, chairman of the four-county board, 82, U. S. Selective Service, issued the following statement this morning:

"Full time college or high school students will be classified in 1-A and will remain in that classification until the end of the school year unless their status should change in the meantime. They may be called for induction as others but upon their written request they will be deferred until they finish their school year. If their status changes in any way they are required to notify this board of the fact."

"Any registrant may appear before the board on any Tuesday at 2 p. m. if he is not satisfied with his classification."

"After registrants are ordered for induction, preinduction physical examinations, those who pass will not be ordered for induction for 21 days after their physical examination."

"In the event a registrant is ordered for induction into the armed forces he will be given at least 10 days notice before the induction date."

"Any registrant who believes he has any obvious physical defects that would bar him from service in the Army should appear before the board on Tuesday afternoon when he will be assigned to a local medical advisor for a report to this board."

"Registrants who write to the office for information as to their classification should always inform the day, month and year of their birth."

Republican to Speak Tonight In Kansas City

Aboard Dewey Campaign Train

—(AP)—Gov. Thomas E. Dewey called today for "teamwork" between Congress and the White House to "tackle the big job we have before us."

Heading for Kansas City and a major speech tonight, the Republican presidential nominee told a Joplin crowd, "We must have an administration that will work with Congress—that wants to work with Congress."

Dewey said this country must "establish a foreign policy so clear that everybody—both the free and the slave world—will know where we stand. They must know that we stand firmly for peace, that we are not going to weave, wobble, and wiggle."

Assistant Police Chief Walter Plenner estimated 3,000 persons were in the crowd.

Dewey's Kansas City talk is scheduled for 8:30 p. m. (CST). Paul Lockwood, the New York Governor's secretary, said Dewey would "promise to bring to Washington a government that believes wholeheartedly in the American system of freedom; that knows where it is going; that practices teamwork; that has integrity; that is competent, and that has vision, faith and courage."

This large order seemed unlikely to prevent Dewey from including indirectly to President Truman's connection with the Kansas City Pendergast organization.

In the district where Mr. Truman purged a Democratic Congressional candidate in 1946 only to have his choice lose to a Republican, the New York Governor was expected to hear down on ballot box integrity.

Senator Kim (R-MO.) tried unsuccessfully to win a Congressional investigation of Attorney General Clark's handling of the Kansas City vote frauds.

Dewey scheduled Missouri stops at Joplin, Carthage, Monett and Springfield before his arrival in Kansas City.

He spent the day in Oklahoma yesterday, largely on a mission that even some of his friends thought was futile, an attempt to elect Rep. Ross Rixley, Republican, as the next senator from Oklahoma.

Jews Charged With Neglect In Slaying

PARIS—(AP)—Dr. Ralph Bunche charged before the Security Council today that Jewish authorities took insufficient measures to protect Count Folke Bernadotte, the slain U.N. mediator for Palestine.

"It unquestionably was a well planned, carefully timed assassination aimed directly at the mediator," Bunche, now acting mediator, told the council.

Bernadotte was killed in Jerusalem Sept. 17 by a group from the Jewish Stern gang.

Britain and France were reported ready to submit a resolution calling for tougher U.N. action against Jews and Arabs breaking the truce. The council earlier voted, 8 to 0, to consider means of more strict enforcement. Syria, Ukraine and Russia abstained, with Syria and Russia contending Bunche's report contained nothing new.

Bunche said Israeli Foreign Minister Moshe Shertok told him at a meeting made up of measures taken by Israel against terrorist groups, but not of the investigation proper.

The Israeli representative, Aurev S. Eban, took notes as the acting mediator spoke. He sat beside Paul Amoun of Lebanon. They and Mahmoud Fawzi of Egypt were invited to sit in on the hearing.

Warren Austin of the United States, October council president, also invited a member of the Arab higher executive to the hearing, but none appeared. The Arab higher executive boycotted the hearings last July, saying "We will not sit while you recognize the provisional government of Israel."

Bunche's report recommended stronger measures to insure safety for truce observers and better compliance from Jews and Arabs in keeping the peace.

Bunche, an American Negro, succeeded Count Folke Bernadotte as the Swedish nobleman's death.

Case Settled Out of Court

The 31st District Court today non-jury hearing in the suit for recovery of C. M. Carlock, First National Bank, administrator of the L. P. Olive estate versus E. C. Dudley was settled shortly after noon yesterday after both plaintiff and defendant had taken the stand.

Attorney for the plaintiff, Walter Rogers, and Defense Counsel Grady Fox, Amarillo, announced to the Court they had settled the matter during the noon hour pending approval of the Court.

Findings by District Judge Lewis M. Goodrich are expected to be handed down later on approval of the settlement.

Phillips Backing Recent Crude Hike

HOUSTON—(AP)—The president of the Phillips Petroleum Company said here yesterday, "We have no intentions of backing tracking."

On Sept. 28, Phillips posted a 35-cent a barrel increase in the price of crude oil. The increase has been met by a few independent buyers but no major purchasers have posted increases.

President K. S. Adams, said the increased price "is a function of the market and is a fact of life."

Peace Efforts by Neutrals Rejected

PARIS—(AP)—Western power delegates met today in the Berlin crisis and authoritative sources said they were framing a joint demand for Security Council action to lift the Soviet blockade.

The Council takes up the Berlin issue again tomorrow. Hope vanished for mediation outside the Council with Russia's reported rejection of conciliation efforts by the so-called neutral states.

American, British and French delegates studied the Kremlin's answer to the mediation efforts. The content of the Soviet note was not made public, but Western sources said it set back the Berlin dispute to where it was six weeks ago.

Members of the 11-nation Security Council met on the Palestine situation. A reliable source said they will be asked to crack down harder on both Arabs and Jews to keep the peace.

The council met at 3 p. m. (8 a. m. CST).

Dr. Ralph Bunche, interim mediator since the assassination of Count Folke Bernadotte, is expected to speak.

Britain was expected to demand of Israel's representatives what progress has been made in tracking down the assassins of Count Bernadotte.

The six "neutrals"—Argentina, Canada, Belgium, Colombia, Syria, and China—in the Security Council met this morning to discuss a resolution they may introduce, Argentine sources said.

When the council meets tomorrow, Argentina's Juan A. Bramuglia is expected to detail his six-power mediation efforts of the past week. Western sources expressed hope Bramuglia would make public both the Russian and the joint Western answers to the mediation efforts. Western informants said the delegates of the U. S., Britain and France had not received a copy of the Soviet reply.

Argentina believed the dispute had reached the stage of "face-saving" and that the Russians could be persuaded to lift the blockade, but could not be forced to do so.

"Both parties," Bramuglia said in an interview, "maintain their positions. The Western powers insist on the lifting of the Berlin blockade as the starting point, while Russia says the Big Four foreign ministers and not the Security Council should discuss the matter."

New Building On N. Ballard

John M. H. Garman is erecting a 25-by-80-foot fireproof business building next to the Southwestern Public Service Building, 321 N. Ballard, it was announced today.

Concrete is now being poured. The foundation is being laid for a 50-by-100 building, but the building to be erected now will be 25 by 80.

The 25 structure, to be occupied by an unannounced concern, is expected to be finished by about Dec. 1. It will be built at an approximate cost of \$20,000.

The foundation is being laid for a possible three-story building. If it were needed in the future.

The building occupied by the utility company is also owned by Garman.

Warren Celebrates Wedding Anniversary

Aboard Warren Campaign Train

—(AP)—Gov. Earl Warren celebrated his 23rd wedding anniversary today as his train rolled through the Pacific Northwest on the final leg of his coast-to-coast stump tour.

As the vice presidential candidate headed southward, he sounded a note of criticism against President Truman and the Democratic administration.

The Chief Executive, he charged before a Spokane audience last night, was left with only the support of the Pendergast organization of Missouri.

Barkley Confident New Mexico Safe

Enroute With Senator Barkley

—(AP)—Senator Alben W. Barkley chalked up New Mexico as safe for the Democrats today as he headed into Oklahoma.

In Oklahoma where Barkley has scheduled speeches at Clinton and Enid, Republicans are being hard pressed to put over their senatorial representative, Ross Rixley, who is opposed by ex-governor Robert S. Kerr, Democrat.

JAP PREMIER NAMED

TOKYO—(AP)—Shigeru Yoshida was chosen premier of Japan for the second time since the occupation. The ultra-conservative leader of the Democratic Liberal Party was elected by the House of Representatives, 185 to 1.

Jews Charged With Neglect In Slaying

PARIS—(AP)—Dr. Ralph Bunche charged before the Security Council today that Jewish authorities took insufficient measures to protect Count Folke Bernadotte, the slain U.N. mediator for Palestine.

"It unquestionably was a well planned, carefully timed assassination aimed directly at the mediator," Bunche, now acting mediator, told the council.

Bernadotte was killed in Jerusalem Sept. 17 by a group from the Jewish Stern gang.

Britain and France were reported ready to submit a resolution calling for tougher U.N. action against Jews and Arabs breaking the truce. The council earlier voted, 8 to 0, to consider means of more strict enforcement. Syria, Ukraine and Russia abstained, with Syria and Russia contending Bunche's report contained nothing new.

Bunche said Israeli Foreign Minister Moshe Shertok told him at a meeting made up of measures taken by Israel against terrorist groups, but not of the investigation proper.

The Israeli representative, Aurev S. Eban, took notes as the acting mediator spoke. He sat beside Paul Amoun of Lebanon. They and Mahmoud Fawzi of Egypt were invited to sit in on the hearing.

Phillips Backing Recent Crude Hike

HOUSTON—(AP)—The president of the Phillips Petroleum Company said here yesterday, "We have no intentions of backing tracking."

On Sept. 28, Phillips posted a 35-cent a barrel increase in the price of crude oil. The increase has been met by a few independent buyers but no major purchasers have posted increases.

President K. S. Adams, said the increased price "is a function of the market and is a fact of life."

ONE OF JAPAN'S SUICIDE PT BOATS is being exhibited in front of F. W. Woolworth Company, 105 S. Cuyler. The fantastic weapon, known as the "Shinyo," will be at present location until 9 p. m. today for public observation. The PT boat was captured intact at Atsugi Island in the Ryukyus Islands. It was brought to this country by the Navy Department for test and observation. It is now on loan to the U. S. Navy Club and is being toured nationally.

Sam Houston College Has Turned To Jazz

HUNTSVILLE — (AP) — Jazz has been added to the curriculum at Sam Houston State College.

a Master's Degree in music but who took a hot saxophone, has been added to the faculty as "director of popular music."

There are insects which hatch and Charles Lee Hill, 37, who has died of old age within a single day.

American Army Sergeant Becomes First to Crack Russian Blockade

BERLIN — (AP) — A fast-talking sergeant from Nebraska who said he "used psychology on the Russians" became the first American of record to drive through

the four-month-old Soviet land blockade. He is Staff Sgt. Ralph M. Felling, Jr., formerly of McCook, Neb. His parents live there. His wife, Mary Elizabeth, and two children, live in San Antonio, Tex.

Felling buzzed through the Russian Zone into Berlin over the super-highway from Helmstedt last Friday, he disclosed Monday. Berlin is entirely surrounded by the Soviet Zone.

Military police at the U. S. traffic check point here said he drove about 90 miles an hour all the way, halving the time for the trip, which usually takes about four hours.

"I got past the Russian soldiers guarding the Helmstedt road barrier by some psychology, fast talking and a few candy bars," St. Felling said.

"I had tried it the previous night, but they told me they couldn't let me pass because the bridge was closed and night traffic was not allowed on the Autobahn. They said to come back in the morning. I did, and it worked."

He said he just wanted to bring his car to Berlin.

Although Australia has 3 million square miles of land—an area about that of the United States—it has only 7 million inhabitants.

Star May Wed

Elizabeth Taylor, 16-year-old Hollywood actress, may marry Lt. Glenn Davis, one of Army's all-time football greats. Miss Taylor's mother says, however, that the starlet is "not engaged" to Davis, now on duty in Korea.

109 Buildings Left at Field

DALLAS — (AP) — The regional office of the War Assets Administration reported that schools and other priority claimants acquired only 27 of the surplus buildings at Alamo Army Airfield, Victoria, Tex. This leaves 109 buildings available to the general public until Oct. 18 on a sealed bid basis.

Twenty buildings claimed during the priority period went to Victoria County for school purposes, to be used with the expansion of Victoria Junior College.

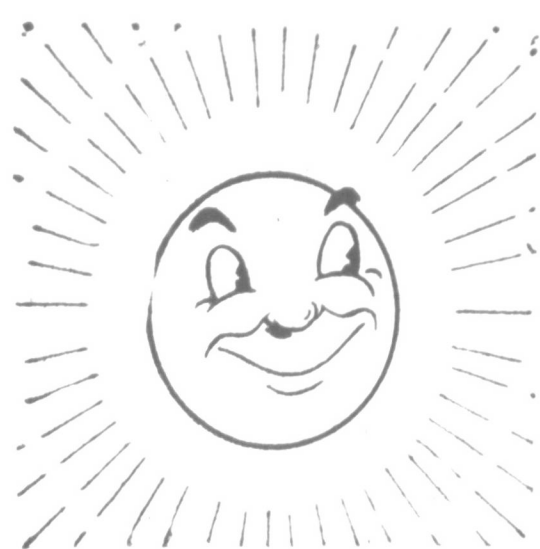

Still to be sold for offsite use are mess halls, barracks, an infirmary and other standard Army-type buildings.

The Australian government is a federation of six states established in 1900.

We Salute Oil, Gas Industry

The petroleum industry is an outstanding example of growth and progress under the American free competitive system. This week—and specifically today, Oil Progress Day—the nation pays special attention to the oil and gas industry.

Founded in 1859, the industry played an important part in the opening and development of the machine age. It made possible America's commanding leadership in industrial production.

From a mere handful of companies in 1859, today the industry has grown to more than 34,000 competitive firms. This growth is still in progress. More than 2,200 new companies have entered the industry as oil producers during the last three years, and 1,300 firms have entered the marketing end of the business in the last year.

Today the oil industry provides a good business career and a good living for about two million men and women; its record of employment, production, and American industries for stability, welfare and benefit plans, and opportunities for advancement.

The Texas Mid-Continent Oil & Gas Association says that 189,000 Texans work in the petroleum industry. Their pay totaled more than \$680 million in 1947.

More than 44 percent of the nation's crude oil production comes from Texas. The average output in 1948 is about 2.4 million barrels daily.

Texas has more than 90 trillion cubic feet of natural gas in reserve—54 percent of the national reserves.

Pampans should all be aware of the part oil and gas play in their lives. It is one of the two or three major industries of this area. Around 80 companies have offices in Pampa.

Carbon black, a product of the industry, is produced in abundance in the Panhandle of Texas. The industry of carbon black which is a continually growing enterprise with the new findings of science has 44 plants in Texas—accounting for 88 percent of the nation's production of carbon black. Pampa is the home of one of the largest carbon black companies, with all its subsidiaries.

Today, we salute, as a city, the oil and gas industry.

Communist Lawmaker Gets Suit From U. S.

TOKYO (AP)—When Communist Kiyuchi Tokuda showed up in the Diet today in a new suit, members who are a bit shifty admired it.

Tokuda was asked to stand for all to see the natty, double-breasted suit.

"From the Soviet Union?" one lawmaker asked.

"No," Tokuda blushed. "Friends in the United States."

MOPSY by Gladys Parker

TRUMAN'S RED-HUED BANNER

by Upton Close

Truman's catering to Communist-liberal voters is splitting off more and more supporters from the Independent Progressive Party.

At the same time, he is driving a constant stream of Democrats and nonpartisan voters into the Republican camp.

Defections from the Henry Wallace Communist-backed party into the Democratic Party have been observed in increasing numbers in many parts of the country.

Some of the defections have been on instructions from the IPP itself, undoubtedly with the consent of the Communist Party. The rest of it has been due, in considerable measure, to the realization that the Wallace backers would lose their vote, and there was at least a chance of electing Truman.

Truman's chances are not improving much if any, however, with these defections because the Red hue in the Truman banner compares with the influx of former Wallaceites.

As a practical matter, the Communists are between a rock and a hard place, knowing that by keeping Wallace in campaign they will virtually guarantee the election of a Republican president, whom they are not fond of.

Though Dewey is a liberal, Communist Party Secretary Eugene Dennis probably was not

French Unrest Strengthens Position of Gen. de Gaulle

By JOHN FISHER

Again General Charles de Gaulle has become an irresistible force in French politics and in the affairs of the continent.

His demand that the new Western defense organization should be based in France is a double move to ally French fears of a Russian invasion and to raise French prestige.

His strong opinion and his hint that he may soon regain power—by one means or another—probably will alter Allied military strategy. For until France feels secure and has a tough-fibered executive she cannot be a reliable partner in teamwork against Soviet aggression, either in the United Nations or in any form of Western union.

American observers from Paris say that despite ERP and a fine harvest France is confused, worried and weakened by internal strife. Her people have lost faith in the structure and the personnel of her government. They are frightened by the possibility of war, an anxiety which Communists aggravate repeatedly.

REDS WOULD AID RUSSIA

The Third Republic has an excellent military potential in its manpower and reviving industries. But its soldiers are either in Germany or in the distant colonies. The army is without tanks, tanks and planes. The loyalty of many troops is under suspicion.

The Communist Party recently announced that the French nation will never make war on the Soviet Union. This is an advance tip that local Communists will do nothing to prevent a Red invasion and in such an event might hamper the French military machine by crippling strikes, sabotage and espionage.

Although Russia alone endangers the peace of the world, Thorez and his agents are trying to convince the French public that America and Britain seek to transform the United Nations into an instrument of war against the Soviet Union. This charge is effective among many Socialists whose party for years has favored pacifism and disarmament. The old desire for the status of Swedish neutrality, so strong before their attack in 1939, is reurgent.

The Reds are attempting to cast America in the role of warmonger and therefore a menace to peace-loving Frenchmen. A recent Communist radio broadcast declared: "The U.S.A. tries to annex every country to which it gained access during the war."

"Greece is practically American already. France must relinquish base after base, Brest, Bordeaux, Toulon and Marseilles. The present international instability is due to the expansion of the United States which is straining every nerve in preparing war against the Soviet Union."

PLAYS ON FEAR

Another Communist line is to accuse America of linking forces with Germany for another war. Russia is far away. Germany is next door. Three times in a generation her armies have swept across the border. More Frenchmen perished from German bullets than in all the other wars of the last century.

Naturally, everyone in France trembles at the prospect of a renewed German militarism. Thorez cleverly capitalizes on this traditional mistrust by declaring, "Our people will not consent to become an ally of Western Germany to wage war on Communist countries."

Were France united in spirit her statements and military leaders could build a defense that would wipe out the fear of invasion from either Germany or Russia. Unfortunately she is split over politics, foreign policy, anticlericalism and economic conditions. Her internal weakness encourages the growth of war jitters.

Economic problems are unsolved. The bread ration has been raised from 10 to 12 ounces daily. But bakers and customers, aware of rich harvests, object to rationing. The government, afraid that increased current consumption will create a shortage in the spring, threatens to suspend flour deliveries to bakers who ignore the ration limits. This makes the government unpopular among women shoppers.

Paul Reynaud, formerly minister of national economy, proposed to reduce the budget deficit by raising the price on products of nationalized industries. He cut some taxes. But food prices jumped and the Socialist ministers walked out on him. Later even non-Communist unions have joined the Red-inspired strikes for

double talking last week when he branded as "a desperate lie" Truman's charge that the Reds were keeping Wallace in the race in order to elect Dewey.

It is most significant that the IPP has officially withdrawn at least 13 candidates from Congressional races in districts where the Democratic candidates were acceptable and where the IPP candidate would insure the election of a Republican. The Reds simply couldn't stand by their guns; they could not go on seeing their candidate add to the Republican majority in Congress.

WHY NOT WALLACE TOO?

A statement issued by IPP officials last week in withdrawing several of their candidates "notably in California Congressional districts, is suggestive of possible future action. The statement said that 'the Democratic nominees (in these districts) have now turned to a much more constructive liberal path.'"

This raises the old question, frequently asked before the conventions in June and July: Was it Communist strategy in the first place to enter these candidates, including Wallace himself, into the race to force the Democrats to go far to the left in bidding for the "liberal" vote? And will the Reds yet take Wallace out of the campaign, or at least desert him during the last

higher wages. Thorez called them at a time the United Nations General Assembly was in session in Paris to show the delegates the power of communism even in the West.

STRENGTH GROWS

The French government shrinks from enforcing drastic measures to cure inflation lest the voters turn against it. By postponing this month's elections, national elections Premier Queuille demonstrates his fear that the returns would reveal an increase in De Gaulle sentiment.

Successive coalition governments have made such a mess of things that the general's star is rising. During the past twelve months his influence has increased steadily. The cabinet smashed last November's general strike after De Gaulle, by winning the October municipal elections, showed that the nation backed his anti-Strike stand. Lately a number of Socialist and MRP deputies have announced that in an election they would join the general's "Rally of the French People."

Communist Party bigwigs hate De Gaulle and attack him continually. Strange as it seems, many persons who voted the Communist ticket are swinging over to the general. The reason for this odd shift is that non-Marxists with gripes against past governments voted Communist as a means of expressing their dissatisfaction. These malcontents are flocking to De Gaulle as many Germans listed as Communists climbed aboard Hitler's bandwagon in 1933.

Thorez undoubtedly has received orders from his boss in the Kremlin to prevent the Pied Piper from depicting the Red ranks and in the event of De Gaulle's assumption of power to block his every move. Premier Queuille's combined forces also bitterly oppose the general.

But as none of the coalition premiers has cured the nation's political and economic paralysis, the public appears inclined to consider Doctor de Gaulle's proposed remedies.

In Hollywood

By ERSKINE JOHNSON

HOLLYWOOD (NEA)—Joe Kaufman, who produced "The Bad, the Ugly and the Beautiful" story of a hillbilly feud with the Marx Bros. and the Ritz Bros. on opposite sides. How about Noel Coward to write the screen play?

Howard Hughes and former Academy Award winner, Laine Rainer are about to get together on a picture deal. By way of proving that their reconciliation is permanent, Danny Kaye gifted his wife with a pair of diamond earrings.

When President Truman was in town, he met Edward Arnold and told him he was his favorite actor. Arnold, an ardent Republican, is still blushing.

Warner's Mike Curtiz seems to be in for a lawsuit. According to starlet Jerry Cobb, Mike promised her a big role and star billing in a picture and she ended up with a one-day bit and a visit to her attorney. Jerry Austin, the midwife, wore a beard for his role in "The Adventures of Don Juan." When the picture finished, the little fellow bought the beard from Warner Brothers and now parades up and down Hollywood Blvd. in the long chin foliage that almost reaches down to his knees. I asked him why.

"It gives me dignity," he said. "I tell people I'm a diplomat from a small country."

SPICY MICKY

Mickey Rooney's new personal appearance act—he opens in N.Y. around Nov. 15—is racy and spicy and topped off with an imitation of Peter Lawford that should have 'em rolling in the aisles. You can make a bet that Harold Keel will snag that choice spot opposite Judy Garland in "Annie Get Your Gun." He's the lad who sings with the road company of "Oklahoma."

RKO wants to remake the old Wheeler and Woolsey films with Bob Sweeney and Hal March. Evelyn Knight will take a film test at Paramount when she returns from the East. U.I.K. Dorothy Shay's newest hillbilly tune: "You'll Be Just Another Notch on Father's Shotgun."

Herbert Marshall's ex, Lee Russell, and Ann Sothern's ex, Bob Sterling, will announce their engagement soon. There's a deal cooking for Dinah Shore and George Montgomery to co-star in

days before the elections? If so many Democratic nominees now "have turned" so liberal that the Reds withdraw candidates who would split their vote, how about Mr. Truman? Is there a single Democratic candidate in the field, including Helen Gahagan Douglas, who "has turned" more "liberal" than the President, who called the Communist spy revelations "a red herring?"

Among those IPP candidates withdrawn were those opposing Mrs. Douglas and Chet Holifield, of Los Angeles, for re-election to Congress and the candidate splitting the vote of Chester "OPA" Bowles for governor of Connecticut.

I see no reason why at the conditions of the present campaign existing in these races do not also apply to the Truman-Wallace-Dewey-Thurmond race.

Bedford Henry could wake up some October morning and find himself without even Communist support. Or he could suddenly get sick. Or the Communists could do something mighty mean to him to put him out of the running and blame "fascists" for the accident. It would not do for the Communists to openly throw their support to Truman—but they would not have to. Who else would the Reds vote for if Wallace were out?

Common Ground

By R. C. BOILES

Some Startling Statements By an Educator

(Continued)

In the last issue I was quoting from "America in Search of Culture" by William Ayloott Orton. Professor Orton has been professor of economics at Smith College since 1922.

In the last issue he contended that it was not the illiterate but the literate who were causing our social problems. I continue to quote from him on this subject: "For the intellectual, the moral, and the aesthetic conscience of the community is in his keeping; and the freedom he asks to go for his own end is also that which it is the highest interest of society to preserve for him. The lot of a leader in this field is hard enough anyway. His values cannot always be self-evident to his pupils—in fact, it is a criterion of his worth that they should be in some measure novel to them—not to the mass of mankind."

PERPETUALLY AT WAR

"He (the educator) must be perpetually at war, as all the great teachers have been, with the forms and conventions that he finds around him; that is his function, his value in the world. However fine they be, for him they must be better yet. For he is charged with a challenge to all achievement, bearer of the faith that the spirit of humanity is greater than all its forms. And he must figure that making has been his personal admiration for the mass of mankind."

And if the educator is really an educator and is standing for principles instead of current popular ideologies, he can be any man selected by the majority stand against the majority? How can a tax-supported superintendent of schools selected by a board of education which represents the will of the majority stand firmly for principles that the majority does not believe in. It is no more possible for a teacher to teach the majority to teach the eternal principles that the majority does not understand than it would be for a man to lift himself with his boot heels.

Professor Orton is aware of the danger of following the majority. Listen to this remark:

"The one thing that a majority can never afford to sacrifice is the minority. If there is one fact patent in history, it is that. If the majority is not sacrificing the minority when it has the right to take any fraction of the minority, it is not doing it. It is the order to take for the kind of an educational system the majority desires, then there can be no such thing as a sacrifice of the minority. As Rose Wilder Lane says, public education is 'the primary tyranny,' and as Isabel Paterson says, public education is 'tyranny naked.'"

If we have people who contend that one who opposes tax-supported education is pouring poison into the minds of people. As Mr. Orton says, the educator "must be perpetually at war with the forms and conventions that he finds around him; that is his function, his value in the world. He is not a you man."

an English picture.

"OUTLAW" RAKES IT IN

"Howard Hughes' 'The Outlaw' has crossed to date \$3,000,000. Charles Feldman will produce the Broadway hit, 'Glass Menagerie,' as an independent. Present plans call for Talullah Bankhead to star in the role created on the stage by Laurette Taylor. More big business for Bing Crosby. Now it's a television station in Tacoma, Wash.

The latest poll reveals that moviegoers owning television sets are attending motion pictures approximately 10 percent less than the average moviegoer.

Ella Raines is being paged for the Broadway play, "The Story of Lily Crane." Adele Rogers St. John and M-G-M have called it a day. Her contract had three years to go, but she preferred to go. Frances Gifford just won her release from M-G-M. Now watch this gal go places.

News Clearing House

"It is for such as utter that which he sincerely believes to be true, and add his unit of influence to all the units of influence and at the results work themselves out." Spencer. Contributors are urged to confine their articles to 300 words.

To the Editor:

In accepting your invitation to the public for an expression of opinion of your suggestion regarding the removal of the Junior High School from its present location, my viewpoint is that of a non-resident.

Having for many years been a property owner and taxpayer in Pampa, I am vitally interested in the welfare and development of the community. On the occasion of my first and only visit to Pampa, early in 1947, I formed a great liking and admiration for the friendly spirit and enterprise of the people.

One of the first things I observed about the town was the location of the Junior High School, in the business section and civic center.

I am heartily in accord with your suggestion that this property be sold and the proceeds be used to buy land in locations more suited to school purposes, and a new Junior High School on the north side and one on the south side would be a big step toward relieving the present congestion in the schools. At the same time the conversion of the present location of the school to commercial purposes would be a very desirable addition to the business section.

These are the views of an outsider, but hope they will be taken in the spirit offered, for the good of the community, and that you will keep the subject alive.

Sincerely,
WALTER P. WILLIAMS,
Star Route, Box 24,
Escondido, Calif.

NATIONAL WHIRLIGIG

news behind the news

By RAY TUCKER

ALBANY—Governor Thomas E. Dewey will persist in his campaign strategy of not mentioning President Truman directly and of discussing issues as he sees them instead of indulging in personalities. He and Governor Earl Warren agreed on that technique at their first Albany conference after their nominations.

Mr. Dewey, however, makes almost the same reservation that was drawn in 1944 by his opponent of that year, Franklin D. Roosevelt. Explaining that conduct of the war effort would leave him no time for "ordinary, political campaigning," FDR kept himself free to answer unwarranted or untrue attacks on his Administration.

Only if Mr. Truman carries name-calling to extremes will the Republican presidential nominee reply. He does not think that the people relish the "meat and drink" of these serious times. And, as he delegated Harold E. Stassen to answer Mr. Truman's radio broadcast against the 80th session of Congress, so he will leave the sock-'em-and-pock-'em speeches to lesser party lights. They have already taken to the stump, and the, are old hands at parliamentary and political infighting.

MISTAKES — In making this kind of an appeal for votes, Governor Dewey believes that he tempers the tone of his campaign to the mood and spirit of the people. He is also profiting from mistakes made by himself in 1944 and by the 1940 and 1936 nominees—Wendell Willkie and Alf Landon, respectively.

As he analyzes their attempts to defeat an incumbent chief executive, he notes that they permitted themselves to be dragged into meaningless and undignified brawls with FDR's "meat and drink"—the late Charles Michelson, Harold L. Ickes, Henry A. Wallace and his pamphleteers.

The possible reappearance of Ickes in the Truman camp, and the memory of his "barefoot boy of Wall Street" characterization of Mr. Willkie, confirm the Albany strategists in the wisdom of their oblique attack.

Remembering how FDR's indifference and jostling treatment of his efforts in 1944 led him to hum and sputter and finally lose his temper in his Oklahoma City outburst, Mr. Dewey will not repeat this blunder. He also suspects that his refusal to slug it out with Mr. Truman may have the same provocative effect on

tempt to describe how a man in Mr. Dewey's shoes feels.

PROBLEMS — He anticipates no bed of roses, however.

Although he is blessed by formulation of a bi-partisan foreign policy, he may have to build an entirely new structure on the foundation which has been laid by the Truman-Marshall-Vandenberg moves. He may face the prospect of war.

Unless President Truman acts in the interim, Mr. Dewey may have to decide whether to re-establish an anti-Moscow, lend-lease program, and whether to send a full-sized military force abroad.

He realizes that there is no easy solution to the question of high prices, mounting taxes, unbalanced budgets and all the other causes and symptoms of inflation. He will antagonize many supporters if he seeks to cut costs.

He has Grundy-Halleck conservatives and Aiken-Tobey liberals in Congress, and a similar split within the party organization. He may even have a Democratic Senate on his hands. Even if the GOP captures the upper chamber, the margin will be so narrow that it will enjoy organizational but not legislative control.

The bare outline of the problems about to beset him leads an

Gracie Reports

By GRACIE ALLEN

I guess I've heard everything now. I see that the government is prosecuting foreign accords that sneezed into the country illegally. It sounds funny, but I think Uncle Sam is on the right track. I've always had an uneasy feeling that certain types of musical instruments were sneaking into the United States. Our next-door neighbor has a saxophone that I'm positive came from behind the Iron Curtain with instructions for nasty subversive activities. And there's a trombone down the street that I'll bet is sending out atomic-bomb information loud enough for Stalin to hear. It certainly isn't music.

If the government really wants to round up these musical fifth columnists, I think they should get Mr. Petillo for the job. Maybe I have a suspicious mind, but I'm certain he'd find a lot of Russian balalaikas masquerading as old-fashioned American banjos and guitars.

Intimate friend to say with a wry, wistful smile:

"The next president of the United States has got to be mean and tough!"

LUNCH BOX that Wakes up Appetites

EASY TO FIX WITH **Morton Foods**
The spicy pickle relish in Morton Sandwich Spread makes delicious, tasty sandwiches. . . Meat and cheese sandwiches stay flavor-fresh with quality Morton Mayonnaise. . . Your favorite salad is tasty, nutritious, good when mixed with Morton Salad Dressing. . . And Morton Potato Chips are the light, crisp taste treat for every lunch.

Oilman Says US. Reserves Exceed Trillion Gallons

NEW ORLEANS — (AP) — Known oil reserves in the United States now exceed one trillion gallons, says Cecil Morgan, general counsel of the Esso Standard Oil Co. He addressed some 100 business and professional men here during a banquet to usher in Oil Progress Day Thursday.

Morgan said, "Known and proven reserves have constantly increased, even as production and use have increased." He hailed Louisiana as the nation's leading oil producer per square mile. Morgan said Louisiana leads Texas, the nearest competitor, by 108 barrels per square mile a day.

A morose view of the future of civilization is taken in articles by Albert Guerard and Rushton Coulborn.

Southwest Is Draining Off Oil Reserves

DALLAS — (AP) — The Southwest is draining off its oil reserves so rapidly that we may live to see the horse-and-buggy replace the automobile.

The warning is from Green Peyton of San Antonio, writing in the autumn edition of Southwest Review, quarterly magazine published by Southern Methodist University's University press.

Peyton says the public, by demanding faster planes and bigger cars, is as much to blame as oil men for the "carefree pillage" of oil supplies. "Proven" reserves will be gone by 1960 at the present rate. He admits that "proven" reserves do not constitute the total supply but declares "there is obviously a limit somewhere close at hand."

Women Get Show Tickets

Five more Pampa women were issued tickets by local street patrolmen yesterday.

All five tickets, however, were passed to the LaNora Theater—a result of observing traffic rules when driving downtown.

The Pampa Business and Professional Women's Club is sponsoring a week of safe driving, held in conjunction with the National Business Women's Week, Oct. 10-16. Each day this week three motorcycle policemen and one car of patrolmen will be on the lookout for good women drivers.

Yesterday's theater passes went to Miss June Mott, 601 N. Nelson; Mrs. John H. Hutchens, 924 E. Francis; Mrs. H. Orville Heiskell, 821 Yager; Mrs. Gayle Crump, 1019 Christine; and Miss Jane Babb, Route 2.

The patrolmen followed the women from downtown sections to their homes. They observed the women's signals, turns and speed in school zones.

A SHOOTER—Shown above is the Helms-Hickman oil well, brought in a few days ago three miles northwest of McLean. When first brought under control after throwing oil over the derrick, the new find flowed approximately 100 barrels in 24 hours. Production is said to have been found in the Permian Pontotoc Series, which is the same as that in the Sayre, Okla.-Wheeler County field, and is not considered a part of the Panhandle Field. TRUMAN CAMPAIGNS IN OHIO—President Harry S. Truman chats with James Cox, former governor of Ohio, at Dayton. Earlier, in a station platform speech, the President remarked in an aside that he would much rather have world peace than be President. (NEA Telephoto).

Mainly About People

Mrs. Emma Dunwoody has been ill at the home of Guy Dunwoody since Wednesday. She returned to her home on Francis Street today. For rent bedroom for 2, close in, private entrance, breakfast if desired. 426 N. Cuyler.

The Southern Club now has no table charge. The admission is still \$1.00 with tax paid. Dance Saturday night to Josh O'Neal's 3 sax, drum, piano, bass and vocalist.

Lee Cisneros and H. H. Hahn are in Houston this week on business.

Wanted used tenor saxophone in good condition. Phone 1006W.

For Rent: Nickleodeons Ph. 273 Top O' Texas Amusement Co.

Mrs. McLaughlin, new Principal of our Shorthand Department, has had 20 years experience as Shorthand and Typing teacher. Enroll now as school will fill up rapidly. Pampa Business College 309 E. Foster. Phone 323.

The Fidelity Class of the Central Baptist Church will have its monthly social at 7:30 tomorrow in the

home of Mrs. Hal Upchurch, 511 E. Browning, rather than next week as was planned.

Mrs. Ruth G. McLaughlin who holds an M. A. Degree and 20 years of Gregg's Shorthand and touch-typing offers in night school two new courses. The Legal Stenographer and Medical Stenographer. Pampa Business College, 309 East Foster. Phone 323.

Free barbequed-chicken and beer, Legion-VFW Club Open House, 7 p.m. Thursday. All Veterans welcome.

For Rent wheel chairs, crutches, canes. Prescription Laboratory.

Jim Wilson, son of Mr. and Mrs. Elmer E. Wilson, was elected president of the Freshman Class at Sul Ross College, Alpine, Tex.

If you gotta' go Call 880. Two permanently employed business girls with excellent references want to rent small house or apartment furnished. Call 668 office hours.

For limited time only one 6x10 black and white finish portrait only \$1.50 at Koen's Studio, 409 N. Wells. Phone 2045.

Get your reserve seats for Barbershop's Jamboree Oct. 23 and 24 at Berry's Pharmacy, Court House Cafe and Harvester Drug. Tickets 50 on sale Friday (tomorrow).

Viola Brock has moved her sewing shop from 505 N. Yeager to 304 W. Foster with the Pampa Sewing Machine Exchange. Ph. 3559.

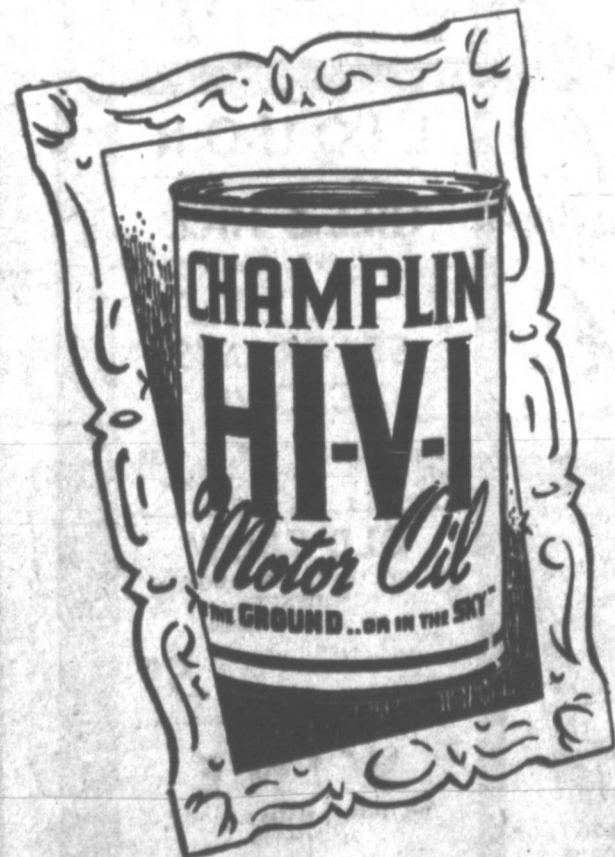

Duenkel - Carmichael Cadillac Emergency Ambulance. Ph. 400.

Charles Shoemaker of Kansas City, Mo., and Donald Miller of Lawrence, Kans., manager and assistant manager of the Japanese suicide PT boat on exhibit in front of Woolworth's today, said that they were going to take the exhibit next to Berger and then to Odessa, Midland, Colorado City, and Cisco.

REP. WEST IMPROVES WASHINGTON — (AP) — Rep. West (D-Texas) is improving, physicians at Walter Reed Army Hospital said yesterday. He had been reported in grave condition over the weekend.

A picture of quality

This quality motor oil cleans as it lubricates. Its Twin-Action lubricating qualities stand up to boiling and above, yet flow freely below zero.

Police Seek 'Thief'; Find Night Watchman

OKLAHOMA CITY — (AP)—Some one said there was a man in the Rye and Carroll Wholesale Tobacco Co., and police went to see

about it. Officers O. E. Higginbotham and J. A. May found an open window, crawled in, and stole upon the scene. There was the man all right—Night Watchman Durward Jones. Read The News Classified Ads

From where I sit... by Joe Marsh

How to Celebrate Your Wedding Anniversary

The "Dutch" Millers celebrated their 10th wedding anniversary Saturday. Everything had to be in. Kellen even ate off the plates, and drank coffee out of the cups.

When it was time to drink a toast to the "bride and groom," out came the final touch: ice cold beer in cans. And come the Millers' 10th anniversary (Glasses) I expect we'll be toasting them with sparkling beer in bottles!

And I couldn't help thinking that there was a lesson for married folks in the way Dutch and his

minus have got along together—in their policy of live-and-let-live, with never a criticism of each other's differences in taste.

From where I sit, it's due to two things: Temperance—as that moderate preference for beer suggests, and Tolerance—for their own differences of opinion—and for the tastes of others, whether applied to beer, to politics, or how to celebrate an anniversary.

Joe Marsh

Copyright, 1948, United States Brewers Foundation

Leaves From a Correspondent's Life Note Book

By HAL BOYLE

HARRISBURG, Pa. — (AP)—A newspaper publisher—one of the men who say whether I do or don't get into print—suggested that after five years of this business I should explain who and what I am.

So here I am: I am a medium-sized, middle-aged balding man with an ineffectual smile of good will. I haven't the hypocrisy to believe that anybody ought to buy a cheap crystal ball and be a pundit on what lies ahead. Nor do I feel that I have emphasized enough what I see in my own crystal ball—that if courage and loyalty don't lie ahead, then neither does America.

I was born Feb. 21, 1911, of an immigrant mother who has been the biggest influence in my off-key career. She was an Irish girl who took the Statue of Liberty seriously. She had only a third-grade education. She had five children and educated herself by reading the Kansas City Star, but she thought I should know more than they print in a family newspaper. So she backed me through the University of

Missouri. I have been lucky enough to come through a major world war unscathed—but I think that completely unimportant. Some things you can't trade on all the way, even in this world.

The one thing I can't forgive is the failure of people born in this country to appreciate the freedom and opportunity it offers, and which my mother came here to find—and found motherhood instead, a strange and limited freedom in every land.

As for the rest, in war or peace, I still live on the consolation I was reared by—that it is better to be poor and have fun than it is to be rich and bored. I was taught that getting it was more fun than having it. And I was taught right.

There are about 1,500 known species of mosquitoes.

Oil Production In Texas Hits All-Time Record

TULSA — (AP)—The nation's crude oil production reached another all-time high of 5,542,975 barrels daily during the week ended Oct. 2, the Oil and Gas Journal reported, this week.

This total, the journal said, was 175,650 barrels more than the previous week's figure. It was 790 barrels over the previous best daily average production during the week ended Sept. 11.

California approached its normal production with an increase of 162,450 barrels to 912,250 barrels.

Other increases listed by the journal were: Colorado, up 1,280 barrels to 48,780; Montana, 1,140 to 25,030; New Mexico, 1,485 to 133,310, an all-time high for that state; Texas 25,775 to 2,807,000, also an all-time record; Oklahoma, 1,450 to 430,300; the Eastern area 2,700 to 48,100; Florida 880 to 300 and Kentucky, 60 to 25,100.

The greatest declines included: Illinois, down 1,800 barrels to 180,100; Michigan, off 1,200 to 43,800; Mississippi, 1,185 to 125,285; Louisiana, 2,780 to 482,150; Kansas, 14,300 to 290,780; Wyoming, 1,980 to 188,930.

Indiana was down 100 barrels to 27,400, Alabama dropped 150 to 1,250 and Arkansas declined 575 to 82,300.

Preparations to Prevent Injury Bring on Deaths

SAN ANTONIO —(P)— Careful preparations by their parents to prevent infant twins, Roger and Janice Loy, from injuring their heads in bed resulted in their death.

The twins, 2 months old, were children of Mr. and Mrs. Roger Loy.

When the infants were put to bed their parents placed a pillow and blanket at the head of the bed to prevent them from hitting their heads on the headboard.

Mrs. Loy looked in on them in their nursery at 12:30 a.m. before going to bed. They were sleeping peacefully.

In the morning they were found huddled under the pillow unconscious.

The tots were rushed to a fire station by their parents where firemen assisted by two doctors strove for 40 minutes to revive them without success.

French Kissing Mode Advocated by Journal

LONDON —(P)— The Medical Press concluded that there's a lot to be said after all for the French way of kissing (on both cheeks, but not on the lips.)

"The adoption of the French mode of kissing on both cheeks may diminish the prevalence of common colds, if not many other diseases," the science journal said in an editorial.

Gray County Women Leave For State THDA at Temple

Five Gray County women left yesterday for the annual state Texas Home Demonstration Association meeting being held in Temple, Tex., Oct. 14, 15, 16.

Mrs. W. E. Melton of the Hopkins Home Demonstration Club will be installed as vice president of District 1 which is composed of 18 counties, at the meeting. She was elected by members of District 1 to serve in this capacity at their spring meeting.

Accompanying her will be the three official delegates who were presented by their clubs to the County THDA at the spring meeting and were elected for the position. They are, Mrs. D. L. Lunsford, Worthwhile Home Demonstration Club, Mrs. Ernest McKnight, chairman of the County Home Demonstration Council, and Mrs. Conner O'Neal, White Deer, Bell HD Club and county chairman of THDA.

Mrs. G. H. Anderson, council reporter, will attend the meeting as a visitor.

MRS. W. E. MELTON

The object of the Texas Home Demonstration Association is to cooperate with a and coordinate agencies for statewide activities of Home Demonstration Clubs. An annual statewide meeting is held as well as the district meetings each spring.

Besides attending general meetings and taking part in the election of state officers, the Gray County women will attend workshops in Education and Expansion

Committee work, 4-H Committees, Recreation Committees and Legislative Committees work.

When they return from the meeting they will present the workshop material to each Home Demonstration Club in the county. They left for Temple in a bus chartered from Amarillo, with the group from the rest of the district.

GS Troop 7 Has Modeling Class

A modeling class was held when Girl Scout Troop 7 met at the Scout House Tuesday evening. Mrs. Betty Boswell, leader, supervised the class in which girls learned how to walk, a few make-up fundamentals, proper clothing and poise and charm tips.

Plans for a slumber party, to be held at the Scout House Saturday evening, were discussed. It was also decided to have a wiener roast and scavenger hunt at some future date.

Only one member was absent from the meeting. After the troop sang taps, the meeting was adjourned.

Twentieth Century Forum Has Meet

Twentieth Century Forum met Tuesday afternoon in the home of Mrs. Gene Fatheree. Mrs. J. B. McCrory, president, took charge of the business meeting.

Mrs. John Ketter talked on the "Exchange Professor," relating some of the experiences of the American teacher in England and the impressions American people and their customs made on the teacher from England.

Mrs. Eben Warner, Jr., spoke to the group on "Exchange Student Program," relating some of the many opportunities students have to study specialized subjects through scholarships and fellowships. The government also sponsors a large student exchange program, she said.

At the conclusion of the program, refreshments were served. In addition to those mentioned, members present were: Mmes. Louis Cabot, Roy Bourland, E. J. Dunigan, J. R. Holloway, Biggs Horn, Dick Hughes, Frank Kelley, Bruce Pratt, R. P. Rossmann, Aubrey L. Steele, Arthur Teed, and Ed. Welas, Jr.

Lutherans Celebrate Mission Festival

Zion Lutheran Church will celebrate its annual Mission Festival with two services Sunday. In the morning service the Rev. C. W. Keturaat of Texhoma, Okla., will deliver the sermon.

His sermon text will be Psalm 96:3 and his theme will be, "The Progress of the Church." In the evening at 7:30 colored slides pictures of our Texas District Convention held in San Antonio in June will be shown.

The Sunday School lesson is the story of Naboth's Vineyard and the Adult Bible Class will continue its study of the Apostles' Creed. Church services begin at the usual time, 11 a.m., with Sunday School and Adult Bible Class at 10 a.m.

GRATED TUNA makes quick open-face luncheon sandwiches. Combine it with a little grated onion and mayonnaise and spread on bread slices; top each slice with a slice of tomato and a little partly-cooked bacon—cut in bits—and broil until heated through.

Not to avenge one's self upon one's enemies is the command of almighty wisdom; and we take this to be a safer guide than the promptings of human nature.

CHANGE of LIFE?

Are you going through the functional "middle age" period peculiar to women (35 to 45 yrs.)? Does this make you suffer from hot flashes, feel so nervous, high-strung, tired? Then be sure Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound also has what Doctors call a stomachic tonic effect.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Gray Countyites Win Fair Honors

Five Home Demonstration Club women from Gray County came home with a multitude of honors from the Tri-State Fair judging in Amarillo, Saturday.

Among them, they won 11 first place ribbons, four second places and three third place ribbons. Winners were: Mrs. Joe Stone, second place, corn; Mrs. C. H. Brickey, first place in apples, peach, sweet pickles, pillow cases and novelty mats, and third place for her mixed vegetable relish and for her lima beans.

Mrs. W. E. Melton won four first place ribbons in the following divisions: hooked rug, crocheted table cloth, pieced cotton quilt, and quilting.

Mrs. H. H. Threatt received two first places for a cutwork lunch cloth and for a finger-tip towel and three second places for cut work pillow cases, cross stitch table cloth and a finger tip towel.

Mrs. Jack Frasier won first place with her blackberry jam exhibit and third for her canned blackberries.

Shower Honors Forer Pampan

Mrs. M. H. Keyser of Oklahoma City, formerly of Pampa, as honored with a pink and white shower Friday, in the home of Mrs. John Wilde, with Mrs. J. E. Barrett as co-hostess.

A corsage of pink and white carnations was presented to the honoree. Guests included: Mmes. Paul Barrett and Cheryl, Ben Barrett, H. H. Keyser, E. A. Baldwin, Mike Herr, Maurice Newton, Park Brown, Aaron Meek, Claude Byrd, Ruth Moseley, R. K. Douglas, E. B. Barrett and Miss Lois Barrett.

Brownies Honor Mothers at Tea

B. M. Baker School Brownies Troop 8, led by Mrs. Archie Bullard, entertained mothers at a tea, Monday afternoon, at the Lions Club Scout House.

The girls of the troop made 17 dozen cookies Saturday afternoon in preparation for the tea. All

the girls took a part in serving the punch and cookies to their mothers.

Mothers attending the tea were: Mmes. Foy Hulse, C. L. Trussell, O. O. Crocker, Frank Hogsett, Milton Harris, J. B. Crocker, Clifford F. Jones, H. E. Monras, C. E. Stewart, O. E. Tidwell, O. L. Jackson, G. M. Adams, Ira Wiggins, J. W. Bullard and Paul Rittenhouse.

Girls in the troop include: Martha Sue Harvey, Betty Lou

Hogsett, Beth Slagle, Charlotte Vaughn, Sue Fulton, Anna Lea Buntin, Barbara Bullard, Mary Francis Wylie, Gail Simpson, Lawannah English, Linda Palmer, Aurelia Adams, Noreen Gillespie, Barbara Toth and Jennie Bullard.

BLUEBERRY MUFFINS
Add 1 cup of fresh blueberries to a standard two-cups of flour muffin recipe; sprinkle the top with a little cinnamon and sugar before baking.

PROOF IS TRUTH

IT'S NEW! IT'S BETTER! IT'S ARMOUR'S!

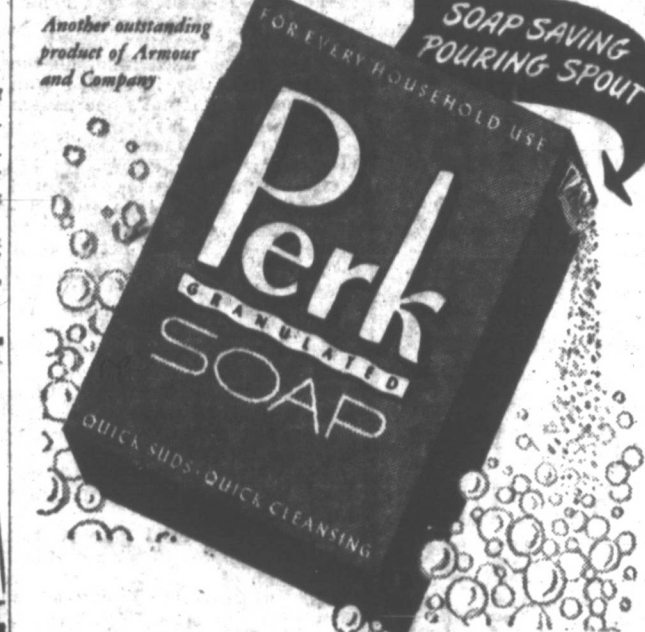

Perk with Armocel®

saves one third on soap
...washes clothes really clean

HERE'S PROOF BEYOND QUESTION
... proof from 1,218 washing tests

Perk saves 1/3 on soap. Identically soiled fabrics were washed equally clean with new Perk and three other leading types of soap. To get things really clean, it required 1/4 less Perk than any of the other soaps tested.

Wash after wash, the Hunter Reflectometer and General Electric Spectrophotometer also proved: New Perk with Armocel washes whites up to 46° whiter, colors 31° brighter than any other leading type of soap.

*ARMOCEL
the Double-Action Wash Perfecter.
Only Perk contains Armocel, Armour's exclusive new ingredient that gives you: 1. Moister Action: Perk with Armocel draws dirt out of clothes like a magnet, seals it in the water so dirt cannot settle back. Remover accumulated grime, prevents future grime. 2. Sunshine Action: Perk with Armocel gives clothes a new sunshine brilliance that reflects the radiant, sunny new whiteness and brightness in all of your wash.

Double Your Money Back!
If you don't agree new Perk is the best soap you ever tried, bar none, return the unused portion of the package to Armour and Company, 1355 W. 31st St., Chicago, and you'll receive double the price you paid, plus postage.

PROOF TELLS YOU WHY PERK IS YOUR BEST BUY—for clothes, for dishes

Former Texas Socialite of 60 To Be Released From Prison

COLUMBIA, S. C. (AP)—A gray-haired former Texas socialite of 60 who killed her divorced Army husband's second wife will be released from the women's prison of the South Carolina Penitentiary Oct. 27, her penalty served.

Tall, stately Jenny May Walker Burleson, once a suffragist leader, entered the cafeteria of the Jefferson Hotel here, March 8, 1940. A revolver was concealed in her handbag.

She walked up quietly behind 55-year-old Mrs. Isabelle Reece Knowlton Burleson, who was dining alone. A shot silenced the cafeteria's normal conversational buzz.

As astounded patrons placed the sound, the Texas divorcee stepped in front of the slumping woman at the table and fired another shot into her body.

The assailant went quietly with hotel officials and awaited police. She was charged with murder, but a general sessions court jury returned a verdict of manslaughter and recommended mercy.

Now She Shops "Cash and Carry" Without Painful Backache

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause aches, backache, rheumatism, leg pains, loss of pep and energy, setting up headaches and dizziness. Frequent or steady urination, swelling, puffiness under the eyes, and a general feeling of uneasiness are some of the signs that your kidneys are not doing their job.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 30 years. Doan's give happy relief and will help the 15 million of kidney tubules flush out poisonous waste from your blood. Get Doan's Pills.

Demo Governor Chooses Between Dewey, Dentist

OKLAHOMA CITY (AP)—The Republicans are sure getting a lot of work out of Roy Turner—the 100 percent Democratic Governor of Oklahoma.

Every time a big Republican like Tom Dewey comes to steal Oklahoma from the Democrats, hospitality forces Turner down to the station to greet him.

First it was Earl Warren. Wednesday it was Dewey himself.

And Thursday it's Harold Stassen.

Since Turner is national president of the Truman-Barkley clubs, you can imagine how happy this makes him.

But what can a governor do? People wouldn't want him sulking in the statehouse, so Turner put on his biggest Truman button and does his duty.

Wednesday it wasn't so bad. If the thought of shaking hands with Dewey was a pang, at least it was the lesser pang.

Turner called off a serious personal appointment to meet the Republican.

It was either Dewey or the dentist.

Fish apparently obtain about all the water they need through their skins and the food they eat.

Most Honored Soldier Gets Starring Role

By BOB THOMAS
HOLLYWOOD (AP)—As Audie Murphy steps before the camera in his first starring role, he can reflect that things are finally turning out well for him.

The most decorated soldier in the life has taken three happy turns: 1. Wednesday he started the lead in "Bad Boy."
2. Last Saturday he sent his life story, "To Hell and Back," off to the publisher.
3. This week Wanda Hendrix wrote from Rome (where she's making a movie with Tyrone Power) that she'll be home by Christmas to marry Audie.

Luck hasn't always been with the Farmersville, Tex., lad. Broke, jobless and homeless a few months ago, he was about to turn his back on Hollywood. But let's begin at the beginning.

After returning from the war, the hero was spotted on a magazine cover by James and William Cagney, who offered him an acting contract. Audie laughed, it off until Texas theater man Bob O'Donnell advised him to give it a whirl.

Audie came to Hollywood amid a flurry of Cagney publicity. Then nothing happened.

"For a year and a half, I did nothing but take lessons," he recalls. "They turned down some offers for roles. Finally people thought 'If he hasn't been in a picture by now, there must be a reason.'"

Quietly the Cagneys dropped Audie. He did a couple of bit parts that netted him publicity but little footage or cash. His lean days set in.

With no income (he sent his pension home to support his orphaned brothers and sisters), he slept in a bed at Terry Hunt's body-building salon.

Things became so grim that he once had to borrow five bucks to attend a Purple Heart dinner at which he was an "honored guest."

Meanwhile he was having romantic troubles. He had admired starlet Wanda Hendrix on a magazine cover and arranged to meet her at a party. Their sodasipping courtship became one of the nicest things in town. But her family interfered and she began having other dates.

Audie just about decided to head back to Texas and take a job offer from Bob O'Donnell.

Then the picture brightened. Book agent Stanley Rose landed a \$1,500 advance for Audie's book. Wanda decided Audie was the love of her life. And Producer Paul Short signed him for a series of pictures.

Does he regret the wasted time? "No, it taught me you have to wait in this business." Didn't he learn that in the Army? "No, ours was a fast-moving outfit." (Fifth Army, Third Division.)

As to his 17 decorations, Audie has just about retired them. The business of being a hero is a tough one, involving being accosted by strangers who ask, "Will there be another war?" "How the hell would I know?" Audie tells them.

Dew is condensed water vapor, and there is always some vapor in the atmosphere.

Pirates Clash With Irishmen In Top Game

SHAMROCK —(Special)— The Class A gridiron spotlight was focused on Shamrock today as Coach Scott McCall's Shamrock Irishmen prepared to meet the

Lefors Pirates here tomorrow night in a highly important District 2A clash. The Irishmen, rated tops in state competition, are not, however, underestimating the power of a potent Pirate outfit. The Irish have compiled an impressive record of five wins and one loss. They were upset, 7-6, by the Phillips Blackhawks Oct. 2, included in this victory string in a 7-0 win over the Perryton Rangers, who whipped the Pirates earlier in the season. Bryan Close, 145-pound halfback, with two years of experience, and Oliver McEmore, other

Shamrock halfback, have been the two big guns in the Irish attack. McEmore tips the scales at 150 and has shown lots of power in previous games. On the line, big Ed Briggs, giant 225-pounder, has been one of the mainstays. Briggs and End Troy Pool have sparked defensively while Guard Phillip Hartsfield and Tackle Roy Zeigler have been the two offensive mainstays. For the Pirates, Quarterback Freddie Newsome has made a bid for all-district honors with his brilliant field generalship and hard running. Newsome and Halfback Bill Combs have sparked the

24 Texas Colleges Slated for Gridiron Action This Week

By The Associated Press
Twenty-four of Texas' 28 college football teams will be in action this weekend in the most important schedule of the year.

Each of the four conferences of which Texas teams are members have battles carrying far-reaching effect on the championship races.

At least three of the state's unbeaten teams appear likely to fall, thus cutting the list to an even dozen.

Amarillo, the northern powerhouse and the team selected in most quarters to reach the finals against Port Arthur in Class AA, plays three-beaten Woodrow Wilson at Dallas.

The Pampa Harvesters, rated as the biggest threat to Amarillo's District 1-AA crown, are idle this week after being beaten by the Wichita Falls Coyotes, 4-0 last week. The loss dropped the Harvesters out of undefeated ranks.

Sweetwater, a Western mighty, takes on Plainview in another top interdistrict battle.

In conference games the Abilene-Odeasa, Gladewater-Marshall and Kerrville-Corpus Christi clashes are most important.

Abilene makes its opening bid for the District 3 championship. Marshall, unbeaten power of East Texas, should get a rugged test from Gladewater in the District 8 race.

Kerrville, beating back to the prominence it knew before injuries well-nigh wrecked its season, engages Corpus Christi in a game that might determine the District 13 championship.

Texas teams range pretty far in interconference strife this week with Austin of El Paso going all the way to Toledo, O., to play Waite High. Bowie (El Paso) plays at Phoenix, Ariz., in another top interconference contest.

Teams most likely to fall from the undefeated list are Austin (El Paso), Marshall and South Park (Beaumont) which plays Galveston.

Other unbeaten teams have these games: Arlington Heights (Fort Worth) vs. Amon Carter-Riverside (Fort Worth), Milby (Houston) vs. Jeff Davis (Houston) and Regan (Houston) vs. Sam Houston (Houston) in the city conference; Amarillo vs. Woodrow Wilson, Sweetwater vs. Plainview, Henderson vs. Longview, Waco vs. Waxahachie, Alice vs. Brownsville, Lamar (Houston) vs. San Jacinto (Houston), Baytown vs. Beaumont and San Benito vs. Kingsville in Class AA. Stephenville and Port Arthur do not have games this

Lefors backfield.

On the Pirate line, Don Stokes, another "kingmaker" has currently been making a name for himself. Stokes was particularly outstanding in the Perryton fracas, where he covered two fumbles and, according to reports, also made a bid for all-district honors.

BABE VS. RAWLS IN THIRD ROUND

PORT WORTH —(P)— Mrs. George (Babe) Didrickson Zaharias meets Texas' Betsy Rawls today in the third round of the women's Texas open here. Yesterday Mrs. Zaharias fired a 68 to better the course record for women's par for the second straight day. Her string of eight birdies eliminated Beverly Hanson of Riverside, Calif., 5-1. Miss Rawls defeated Betty McKinnon of Texarkana, 3-1.

statehouse lawn. And last year the University of Tulsa set up a snapple rig on an old farm to show students how a well was drilled. They got two producers.

The summit of Mt. Washington in New Hampshire is 6,293 feet above sea level.

How To Relieve Bronchitis

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

week. The week's schedule by districts (C indicates conference game):

City Conference—
1-Thursday: Forest (Dallas) vs. Jesuit (Dallas); Friday: Highland Park (Dallas) vs. Crocker Tech (Dallas); Sunset (Dallas) at Weatherford, Adamson (Dallas) at Orange; Saturday: Amarillo at Woodrow Wilson (Dallas).
2-Thursday: Fort Worth Tech vs. Paschal (Fort Worth) (C); Friday: Poly (Fort Worth) vs. North Side (Fort Worth) (C); Saturday: Arlington Heights (Fort Worth) vs. Amon Carter-Riverside (Fort Worth) (C).
3-Thursday: Lamar (Houston) vs. San Jacinto (Houston) (C); Austin (Houston) vs. St. Thomas (Houston); Friday: Milby (Houston) vs. Jeff Davis (Houston) (San Antonio) (C).

Oklahoma Drilling Well in the City
OKLAHOMA CITY —(P)— The Civic Auditorium has an Oklahoma industrial show this week, and there's a portable oil drilling rig out on the lawn—actually drilling. It's just an exhibit, of course—and they're careful not to let it go too far. Less than two miles away are the genuine oil wells on the statehouse lawn.

MEANS SMOOTHER DRINKS!

Get a DU PONT ANTI-FREEZE today!

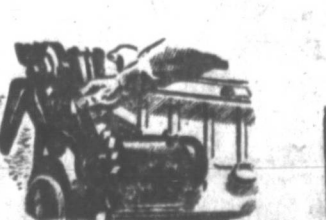

Why it's wise to have your serviceman inspect the cooling system before putting in anti-freeze.

1. INSPECT RADIATOR—If it's rusted, it should be drained and cleaned. (Du Pont Cooling System Cleaner is one of the best for the job.)

2. CHECK FOR LEAKS—Radiator hose, clamps, pump, and cylinder head bolts should be tight. Your serviceman has tools and know-how to make repairs.

3. CHECK FAN, BELT AND HEATER—Slipping belts should be adjusted—replaced if worn. Heater hoses should drain properly and not trap air.

4. PUT IN ANTI-FREEZE—A "Zerex" "Zerex" chart shows amount needed. Radiator tag identifies anti-freeze, warns against draining. *Reg. U.S. Pat. Off.

YOU BUY anti-freeze to protect your motor from a freeze-up and to help it run more efficiently by keeping the cooling system free from rust. If anti-freeze leaks out, what have you got? NO protection... maybe a ruined engine block. Heavy expense, your car laid up. (And you've lost your anti-freeze.)

So, before installing anti-freeze, have the cooling system gone over. No repairs may be needed—but even a simple inspection is worth what it may cost. Here's what a cooling system inspection should include:

BETTER THINGS FOR BETTER LIVING... THROUGH CHEMISTRY

Now, that's what I call good coffee!

A cup of good coffee, savory and mellow, is one of the world's most delightful experiences. And anyone can make it! It takes some care, of course, but it's easy, if you follow these simple rules:

It begins with a fine blend of coffee, Hills Bros. Coffee, that's rich in flavor and really fresh.

It requires a coffee-maker that's sparkling clean. A quick rinse with hot water is not enough. A good rule is to wash your coffee-maker with soap and water every time you use it. When it gets battered and brown-beyond-cleaning, you'll be doing your coffee a favor if you replace the old coffee-maker with a new one.

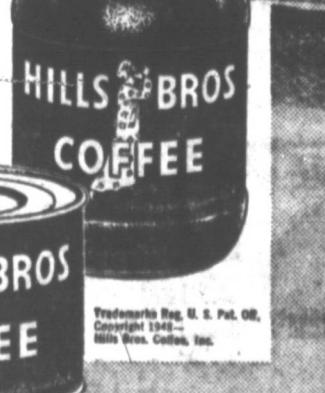

It depends on accurate measuring of water and coffee and careful timing of the brew. For coffee rich in flavor as well as strength, 2 level tablespoons of coffee are recommended for each 6 oz. cup of water.

What kind of coffee-maker do you use... coffeepot - percolator - vacuum-type maker - drip pot? Hills Bros. tell you how to get the best results with any type of coffee-maker in the 28-page booklet—"The Art of Coffee-Making." Send the coupon below for your free copy.

Coffee should be in contact with water for a definite length of time, depending on the type and capacity of the coffee-maker, as well as the strength of beverage desired. After the correct timing has been determined, stick to it; otherwise results will not be uniform.

Coffee is at its best when you serve it fresh-made and piping hot (the delicate flavor is injured by cooling and reheating)... and when it has been brewed in a maker of proper size (you can't make 2 cups of satisfying coffee in an 8-cup maker).

Made correctly, Hills Bros. Coffee brings you a wonderful goodness that's deliciously its own. It's a blend of the world's finest coffees, and "Controlled Roasting," an exclusive Hills Bros. process, assures uniform flavor in every pound. The fragrant freshness of Hills Bros. Coffee is treasured in vacuum-packed jars and cans.

HILLS BROS COFFEE

Fenton Returns to Wrestling To Face California Newcomer

Rod Fenton of Edmond, Canada, will meet a newcomer to Pampa's "wrestling row" at the Sportatorium Saturday night when he faces Dick Trout of Hollywood, Calif.

"Lightning Rod," who is returning to the Panhandle wrestling circuit after an absence of a decade, was one of the all-time favorites in Amarillo during the heyday of the late Dutch Mantell and during the wrestling era of Cal Farley and Dory Detton, now a promoter. His most important match was the night, in the wrestling ring in the Amarillo Armory in June, 1934, when he was married.

Rex Mobley of Borger will continue the discussion he had last week with Jack Steele, the former "Masked Marvel." Mobley, who was referee last week, disqualified Steele for unnecessary roughness and gave the decision to Al Getz, Steele's opponent.

Steele, of course, protested the ruling, and he and Mobley handled rhubarb and recriminations in the dressing room after the match. They will resume in the ring where they left off.

Steele is the former "Masked Marvel" who wrestled here for several months in the early part of this year without a defeat, and, beginning in 1935, he wrestled this circuit from nearly three years without a defeat.

The San Francisco 49ers were the first team in the history of the All-America Football Conference to go through an entire game without receiving a kickoff. It happened against the New York Yankees recently.

Pioneers For Sale

CLOVIS, N. M., (AP)—The Clovis baseball club has been put up for sale by the directors of the club.

The Pioneers finished sixth in the West Texas-New Mexico League last season. Directors said yesterday the sale must be made in 30 days and the franchise stay in Clovis. They offered the club for the price of its liabilities.

By The Associated Press

The Texas schoolboy football campaign rolls to the halfway mark this weekend on a schedule saturated with crucial games.

Conference battles push aside the interdistrict and sectional struggles. Twelve of eighteen districts in the City Conference and Class AA have games counting in the title races.

All of the undefeated teams—Sul Ross, Texas Mines, Baylor and Stephen F. Austin—have games but only Stephen F. Austin appears in for serious trouble.

Sul Ross and Mines, each undefeated and untied, meet New Mexico A & M and Brigham Young University respectively. Baylor, unbeaten once tied, takes on Texas Tech. All are non-conference tilts. Stephen F. Austin, with a record similar to Baylor's, tackles North Texas State in the top championship game of the Lone Star Conference.

Three title tests are on the Southwest Conference schedule with Southern Methodist and Rice in the feature. It marks the start of the conference race for both of these highly rated teams. Texas will also be opening the conference race, engaging Arkansas, which has won one and tied one. Texas A & M making its start in conference play, takes on Texas Christian, which has lost its only conference game played to date—that to Arkansas.

Here is the complete schedule for Texas colleges:

Friday—Texas Mines vs. Brigham Young at El Paso (night). Saturday—Texas A & M vs. Texas Christian at College Station, Texas vs. Arkansas at Austin, Baylor vs. Texas Tech at Waco (night), Rice vs. Southern Methodist at Houston (night), Hardin County vs. New Mexico at Albuquerque (night), Sul Ross vs. New Mexico A & M at Alpine (night), Trinity vs. Sam Houston State at Huntsville (night), University of Houston vs. East Texas State at Commerce (night), Austin College vs. Howard Payne at Brownwood (night), Hardin College vs. West Texas State at Wichita Falls (night), North Texas State vs. Stephen F. Austin at Nacogdoches, East Texas Baptist College vs. Southeastern Okla. at Marshall (night), Abilene Christian College vs. Western Colorado State at Abilene (night), Texas A & I vs. McMurry at Kingsville (night).

More than \$25,000 preventable fires occurred in the United States during 1946. Sixty percent were put out by fire extinguishers when they were only small blazes.

FANNIN COUNTY HAS UNUSUAL ART SCHOOL

BONHAM, (AP)—The Fannin County School of Lapidary Art and Silversmithing for Disabled Persons here is the only one of its kind in the Southwest.

The school, under the Texas state program of vocational rehabilitation for disabled persons, is conducted by the Rev. Charles G. Kehler, Episcopal rector of Bonham. Classes are held in the Bonham high school building, taught them gem cutting and jewelry making.

J. J. Brown of the State Department of vocational rehabilitation rates the school as giving the most complete training in its field of any in the U.S.

The Rev. Kehler came to Texas from Canada last year, where he spent 16 years in mission work among the Indians of Ontario. He enrolled in the school is small, but because of the highly specialized nature of the work, large classes are not feasible. The disabled students are taught

how to cut cabochons—gems or stones with smooth, curved surfaces. Jewels such as diamonds are also fashioned. Students work with gold, silver, aluminum, brass and copper and are taught plating, replating and engraving. They also learn to recut stones and set them according to customers' design.

The State Department of Vocational Rehabilitation pays tuition, board and room for the disabled students. They provide equipment and materials, and at the completion of the course—a minimum of six months—the equipment becomes the property of the graduate.

Acquiring skill in transforming raw materials into attractive and unusual jewelry is giving a new

Judge Denies Precinct Fixing

SAN ANTONIO, (AP)—Voting precinct boundary lines cannot be changed immediately before elections, Associate Justice James R. Norvell of the Fourth Court of Civil Appeals held in upholding a decision of the Kleberg County Court.

The court had issued a temporary injunction restraining the Kleberg County Commissioners' Court from re-defining the boundaries of two commissioners' precincts, two justice and two election precincts.

Justice Norvell in upholding the lower court's decision, held: "If election precinct lines could be changed immediately before elections, a virtual disfranchisement of voters might result."

start in life to the students, whose handicaps have barred them from other types of work.

Livestock and Horse Show to Start Oct. 16

Combs and Worley are entering eleven top Herefords in the American Royal Livestock and Horse Show at Kansas City, Mo., which will start Saturday.

Approximately \$75,000 is being offered in the breeding and fat classes for this, the largest Hereford show ever staged in America. Excludes of the entries in the junior and carlot divisions, more than 950 Herefords have been entered from 136 exhibitors from 26 states. The show is being held in honor of R. J. Kinzer, chairman of the board of directors of the American Hereford Association. Kinzer has been secretary of the white-face cattle organization for a number of years.

The American Royal is celebrating its fifteenth anniversary offered in purses and prizes. Despite the reduction in livestock population, early entries in the carlot divisions for fat and feeder cattle, fat hogs and sheep indicate the classifications will be as large as previous years.

The Royal will open Saturday with the judging of the steers, pigs, lambs and junior farmers. On Monday the adult exhibitors will enter the arenas with their entries. It is expected that grand champion steer will be chosen Tuesday afternoon.

Because the Future Farmers of America, who formerly held their annual convention at Kansas City the same week as the Royal, have postponed their meeting, the housing situation for out-of-town visitors is expected to be relieved.

Texas Hot Weather Hinders Planting

AUSTIN —(AP)—Range and farm lands over most of Texas continued to suffer last week from lack of moisture, the United States Department of Agriculture said.

Weekend showers were some help in the northern portion of the state, and there was still some moisture left in the south from earlier precipitation.

"Most areas continued very dry, and surface moisture supplies from late September rains were being exhausted in southern and coastal counties," the USDA's Weekly Crop Review said.

Seeding of wheat and small grains was delayed, and there was some planting in the dust. Harvesting continued at a fast pace, benefited from the dry weather, but preparation of land was delayed.

Ranges and pastures deteriorated rapidly over the northern two of September as the usual fall rains failed to materialize, the USDA said.

Sheep are going into the winter only in fair flesh, and cattle were showing shrinkage in flesh except in the areas favored by showers.

Experiment Station Program Told by Soil Conservationist

By QUENTIN WILLIAMS

Gray County Soil Conservationist

More than 20 people from Gray County attended the annual Field Day at the Southern Great Plains Experiment Station at Woodward, Okla., Saturday. More than 3,000 persons from five states were present for the tour and discussions of work at the station.

Main features of the program included observation and discussion of results of their grazing experiments and brush eradication work. It had been found, in previous years, that two successive annual mowings of sagebrush were quite effective if the work was done from about June 10 to July 10. Most of the recent work has involved spraying with chemicals, of which 2,4-D is the one most commonly used.

More than 100,000 acres were sprayed last spring in this general vicinity, with destruction of at least 80 percent of the sage brush and a good kill on skunk brush and undesirable weeds on most of the area treated.

Less favorable results were obtained during the drier weather earlier in the spring, as compared with treatments made when the plants were actively growing, following the late spring rains. The mixture most commonly used is one pound of pure 2,4-D, one gallon diesel oil and four gallons of water per acre.

Pastures on which the sage brush has been largely killed out by mowing, produced 77.2 pounds of beef per acre compared with 43.3 pounds on similar pastures which had not been mowed. It was pointed out, however, that such results would not likely have been obtained if the pastures had not been protected from heavy grazing for at least a year or two after the brush had been killed. Continuous grazing of pastures has been found to produce slightly more beef per acre and leave the grasses in better condition than if a rotation system is followed.

Pastures which have been heavily grazed have produced more pounds of beef per acre than those stocked at a moderate or light rate. However, the heavy grazing is causing the loss of the more desirable tall grasses and, if the present trends continue, the rate of gain per acre on the heavily grazed pastures will, in a very few years, be less than those stocked properly, as there has been a constant decline in amount of beef produced since the experiment was started.

On the other hand, the pastures

of winter peas, which with a favorable season will produce winter grazing. In the late spring these can be utilized as a green manure or else left for seed. He plans to harvest some seed.

Due to the continued dry weather, extreme caution should be exercised to prevent grass fires. Fires at this time of the year are more harmful than when more moisture is available.

Barclay plans to plant 100 acres

Farm Bureau Meeting to Be In Amarillo

District I will hold its Farm Bureau meeting at 10 a. m. tomorrow at the Herring Hotel in Amarillo, J. Walter Hammond, president of the Texas Farm Bureau Federation, said.

C. H. Kupfer of Dalhart, district director, will preside.

The meeting will be one of a series of 13 district meetings being held throughout Texas during October. The purpose of the meetings is to bring farmers and ranchmen first-hand information on the immediate agricultural situation and the economic conditions of the nation as a whole.

"Farm prices have dropped 30 percent in the past nine months, and farmers' buying power has been reduced 18 percent," Hammond said. "Only through a workable, long range farm program can this nation enjoy a balanced economy and avoid another depression," he said. Plans for the Farm Bureau's Fall Membership Round-up will be discussed. Also a district Farm Bureau queen will be selected to participate in the State Queen Contest to be held during the state convention. Texas Farm Bureau's membership goal for 1948 is 60,000.

Lydella Fly New Weapon That Bores from Within

LAFAYETTE, Ind. —(NEA)—

"Living insects—RUSH."

That's what it says on the box which looks something like an army footlocker, and on which is the further warning, "PERISHABLE . . . NO DELAY!" One could forgive a postal inspector for not wanting to look inside. But if he did, all he'd find would be a hundred or so small, round ice cream cartons.

If he took the lid off one of the cartons, all he'd find would be a lot of flies.

They look like houseflies—but the difference is that they and their grandchildren may, one day, be worth millions of dollars to American farmers.

"Lydella" is the name of the principal fly with which Dr. J. J. Davis of Purdue University has been experimenting in an effort to find a bug that will destroy the Midwest farmer's worst enemy, the European cornborer.

European corn-borers took a toll of nearly \$100,000,000 in the great North Central States corn belt last year alone.

Damage is expected to be smaller this year because of favorable weather, unfavorable to the little grey corn worms, and because of "clean farming" methods used by farmers who have learned to plough under old cornstalks, weeds and other refuse in the fall to deny the borers winter sanctuary. Nevertheless, the loss in 1948 will run into many millions.

It was with this problem in mind that, several years ago, Dr. Davis, along with other entomologists of the big Midwestern agricultural colleges, decided that a bug-eat-bug attack might well be tried on the voracious borers.

United States Department of Agriculture scientists co-operated, and the initial research was carried on in a half dozen college laboratories.

According to Dr. Davis, they tried a number of bugs that like corn-borers, or hate them, depending upon the word you prefer. At least the bugs seemed to enjoy eating them. At Purdue University, the fly called "Lydella"—a really pretty name, you'll admit—was decided upon as the best.

Farmers in Corn Belt May Limit Beef Cattle

WASHINGTON — (AP)—The Agriculture Department said yesterday.

Although there are plenty of feed grains at prices apparently favorable to feeding operations, the department said reports show that the number of cattle to be fed will be about the same as last year. Feed was scarce and high priced last year.

The oil industry is breaking the production records it set in World War II

1. This is the "Christmas tree" you've heard oil men talk about. It is a complicated arrangement of valves and meters which regulate the flow of oil from a producing well. This well is at Humble's lease in the Comore field in Texas.

2. Oil pipe lines have worked wonders in oil transportation to carry your record demand for oil. This is the interior of Humble Pipe Line Company's pumping station at Comyn. This company operates 8,703 miles of oil and finished products pipe lines in Texas and New Mexico. Though construction of additional pipe lines has been slow because of the high demand for steel for other purposes, the Humble Pipe Line Company has been able to handle the largest volume in its history; during 1947, main trunk lines delivered 253,000,000 barrels of oil.

3. The oil industry's efforts to find more oil for you have greatly increased the activity of scientific exploration. This picture of Humble geophysical exploration in the Louisiana swamps illustrates the difficulties field crews encounter. It is more difficult—and expensive—to drill wells in areas like this; engineers must solve construction and supply problems before drilling operations can even be considered.

Never before in U. S. history have the oil fields produced as much oil as they are producing today—not even during the crucial days of World War II, when the winning of the war depended on oil production. Today, you're asking for 15% more oil than was required at the peak of the war effort, when the huge war needs of U. S. fleets, armies and air planes were added to the demands of industry and the civilian population.

In the 12-month period before VJ day, the oil industry was asked to produce 5,110,000 barrels of oil daily, and it did.

Today, you are asking the industry to produce 5,700,000 barrels of oil daily, and the industry is doing that, too.

New fields have been discovered, developed, extended. New possibilities are being explored.

This is a slow, tedious, expensive process. The search for oil has reached into swamps and dry, dusty places, and offshore into the Gulf. It has brought about a more intensive exploration of previously explored "prospects." Wells have been drilled more than two miles deep into the earth to find new producing oil sands.

The result has been more oil for your present and future needs. But everyone can help this effort by making their personal demands for petroleum products reasonable and by cooperating with programs designed to conserve oil products.
