### Committee Will Study Plan for Poultry Group

(By Associated Press)  
MEXICO CITY, Jan. 9.—Lyman F. Barber, American mining engineer who was held captive for three weeks by Mexican bandits seeking 15,000 pesos (\$7,500) ransom, was back in Mexico City tonight with a thrilling account of having escaped by killing four armed guards with stones and bottles.

Barber returned to his home last night, stumbling into the presence of his wife, worn, ragged, and weakened after a perilous flight through the mountains in shoes that scarcely deserved the name.

Had Passed Sentence  
A sentence of death because of failure to receive the ransom, and perhaps to rid themselves of the burden of a prisoner while fleeing from federal troops, spurred Barber to his desperate attack.

The 35-year-old engineer, employed by the Monte Carlo Mining Company, was kidnaped December 15. The bandits first asked \$100,000 from friends and the company 1,000 pesos, then 5,000. They finally demanded, but did not get 15,000 pesos.

Meanwhile the outlaws were constantly traveling over mountain trails with their prisoner, without allowing him to rest, and toward the unrelenting hardships of the exhausting marches in almost bare feet and sleeping in the mountain cold with out adequate clothing. They were forever in fear of pursuing federal troops.

Collected Bottles  
Last week Barber, as he recounted here, overheard a statement that he would be killed tomorrow unless he was ransomed. Already desperate because of his privations, Barber began collecting stones and bottles.

MANAGUA, Nic., Jan. 9.—An American marine corps airplane crashed in flames within sight of the rebel General Augustino's sharpshooters today.

The plane, piloted by Lieut. Vernon M. Guyman, developed engine trouble over Sagotilla ridge, scene of the most recent battle between marines and rebels, but was brought down by the pilot without injury to himself or his observer.

The landing took place on the tiny emergency field laid out at Quilali, primarily to enable men to be removed through the air instead of being forced to make an arduous trip on muleback over mountain roads to Ocotal where the nearest fair-sized landing field is situated.

### Hickman Sane Is View of Alienist After Close Study

Welby Hunt Likely to Testify Against Youth Attorney Says; Walsh Back in Kansas City.

### NEWS FLASHES

(By Associated Press)  
LOS ANGELES, Jan. 9.—The state of California tomorrow will look scientifically into William E. Hickman's defense of insanity for his confessed kidnaping and killing of Marian Parker.

Three prominent alienists have been ordered by District Attorney Asa Keyes to visit the "Fox" in his cell in the county jail and report on the youth's mental condition. They are E. Huntington Williams, Dr. Victor Parkin and Paul M. Keys.

Keys said today that two other alienists already had examined Hickman and found him "absolutely sane." Doctors Cecil Reynolds, noted authority on mental diseases and disorders, and Dr. A. A. Nichols spent several hours talking to the youth, Keys declared, and both indicated their willingness to take the stand for the state when Hickman's sanity trial opens January 25.

That Welby Hunt, 16, Alhambra youth who confessed that he and Hickman staged a drugging hold-up in the suburb of Rose Hill, during which C. Ivy Thomas was killed, testified against Hickman, was intimidated by A. Bray Gilmer, Hunt's attorney. He said his client might take the stand to give it as his opinion that the confessed kidnaper was sane at the time of the hold-up, nearly a year before the murder of Marian Parker.

Memories Faded  
Hickman today abandoned what jailers said were attempts to feign insanity.

### EIGHT BROUGHT OUT OF MINE UNINJURED

Flames, Not Gas, Caused Death of Workers in Mine Is Opinion; Employees Damage Plane.

### FALL

(By Associated Press)  
WEST FRANKFORT, Ill., Jan. 9.—Twenty-one miners were killed outright in a gas explosion which wrecked a one-mile chamber in the Industrial Coal Company's mine No. 18 here today. Twenty-one bodies, burned and mutilated by the force of the blast, were found late today and identified by the numbers of the safety lamps attached to their clothing.

The bodies were located by mine rescue teams from Herrin, Valer, and Benton, the teams working with gas masks through fallen walls more than a mile from the shaft. Officials of the Illinois Department of Mines and Mithras are conducting an investigation. The position and condition of the dead miners indicated that death was caused by the violence of the explosion although gas was present in the mine when rescue workers descended.

Mine officials refused to discuss the disaster tonight and newspapermen and photographers were ordered to leave the mine premises. An airplane bringing reporters and photographers from Chicago landed near the mouth of the mine and aroused the ire of several employees of the mine who threatened to demolish the machine. Bert Brown, president of the local Miners' Union, interceded and the newspapermen succeeded in preventing damage to their plane.

Eight miners were brought out of the mine alive and uninjured.

### —THE— WOMAN'S DAY By Allene Sumner

It takes a courageous mother to dare brave the world's censure by offering to give away her baby so that she can "see the world." But that's exactly what Mrs. Gracie Jones of Ponca City, Oklahoma, wants to do. The baby boy, known by health officials as a "perfect baby specimen," is less than a month old. "We don't want a baby now," says the mother and father. "We want to see all the states in the union and so far we have only seen all but five. We can't let a baby keep us from those five."

### TOO EXPENSIVE

The Joneses explain too, that they can't afford a baby. Just think of the gasoline and tires it will take for those five states. Besides, Mrs. Jones wants a career. She says that she would "just die" if she stayed home with a baby all day. Her "career" so far has been employment in a laundry. So they are tunting a home for little Bobby Jean Jones.

### MAKES 'EM MAD

Nothing will so infuriate hordes of women and men too, as this story. Even the mother's courage in giving this demonstration will get up-hand. To think that a bob-haired girl would dare to tell women of experience that seeing five states is more important than a baby boy!

### WHY IT IS

Granted they are right, of course, and that a baby is more important, sometimes one wonders if the rage of mothers, who act in the orthodox manner towards their offspring by yielding up their whole lives to their children, who do not, is not self-protection for themselves. In other words, if their life is hard they can at least make it glorious by putting a premium upon their job and insisting that all other women accept the job with the same premium.

### WOMAN'S NERVE

"Another" self-titled "American waitress" has been caught. Dorothy Ayl, at least so she calls herself, lived in one of Brussels' most fashionable hotels until her bill totalled about \$50 and the hotel authorities are suspicious of her story that she was an American heiress of Norfolk, Virginia, waiting for funds. Inquiry brought forth the allegation that she had cashed about \$4000 worth of worthless checks in the leading hotels of Europe. Now she's in an old medieval jail at Bruges. So we hear of more women impostors than men. I believe we do "perhaps it's just a slightly different version of the woman's nerve which will almost invariably dare more than the nerve of men."

### HIS MOTHER

The terrible responsibility of daring to have children unless one is typically and mentally fit is illustrated by Mrs. Eva Hickman, mother of Edward Hickman, who confessed to killing little Man Parker, of Los Angeles. The simile one read "Mother once in same hospital," one knew the answer to Edward. Poor mother, though. Probably she had no knowledge of her weak spots till long after Edward was born, but the innocent suffer for the family blood very time.

### The Morning Avalanche Menu for the Day

BREAKFAST—Halves of grapefruit, cereal, cream, eggs poached in milk on graham toast, fried hominy, syrup, milk, coffee.

LUNCHEON—Cream of celery brown bread, baked Indian pudding, milk, tea.

DINNER—New England boiled dinner, tomato jelly, salad, crisp cookies, canned peaches, milk, coffee.

Corned beef or fat salt pork can be used in a "boiled dinner" as the cook prefers. If pork is used, the vegetables and meat can be cooked together to advantage since the vegetables flavor the meat quite delicately and deliciously. If corned beef is used, the vegetables should be cooked in the meat broth after the meat is done.

Baked Indian Pudding: Two tablespoons corn meal, 3 cups milk, 1 tablespoon butter, 4 tablespoons molasses, 1-2 cup seeded raisins, 1-4 teaspoon salt, 1-4 teaspoon ginger, 1-2 teaspoon cinnamon, 1 egg.

Mix cornmeal with one-fourth cup cold water. Heat 2 1-2 cups milk to the scalding point and stir into cornmeal. Cook over boiling water for fifteen minutes. Stir in butter, molasses, raisins, salt, ginger and cinnamon. Remove from heat and add egg well-beaten. Turn into well-buttered pudding dish and pour over remaining half cup of milk. Bake in a moderate oven for forty-five minutes. Serve with or without hard sauce.

#### CARE OF THE HANDS TELLS THE STORY

From time immemorial the hand has been considered a true index to character. In the first place, it is free from confining, concealing or distorting garments. It can assume no mask, as the face often does. It is therefore open to observation and study.

The first point to strike our notice is the shape of the hand. From this characteristic alone, deductions can be made that are more accurate than we care to admit. Though much may be done to improve the general appearance of the hand, it is practically impossible to alter its skeletal structure.

If you have never thought to do so before, examine your own hand now, and get acquainted with its type. Is it long, narrow, with tapering finger tips—the aristocratic type, or is it broad, flat, short with blunt fingers—the artisan's useful hand? The artist's long, lean, nervous hand, with its long tapering fingers is recognized everywhere. In distinct contrast is the small, broad and plump hand of the sensualist.

No matter what the type of hand the way in which its owner cares for it or does not care, for it tells a most interesting story.

## WHY NOT?

We people of Lubbock believe that the people of other sections would be much better off were they to come and join us in the development of the South Plains. We believe we offer the farmers of other sections the greatest land values of the age. We believe in its productivity, in the climate and know that this section offers opportunities in greater proportion than older developed sections. For those and other good reasons the people of Lubbock are intending to expend a neat sum in National advertising. We believe that advertising will be as much for the benefit of those who read it as its results will be to this section. The South Plains, because of its opportunities deserves National advertising.

# City Basketball League Is Proposed For Lubbock

## Meeting Tonight Will Decide About New Local Circuit

Six Weeks Schedule, With Six Teams Competing, Is Planned by Coach Frnka of High School.

Since the basketball season is just getting under way several of Lubbock's business concerns are interested in the organization of a city league and have called a meeting of other concerns that may be interested in the project at this evening at 7 o'clock. The meeting will be held in the offices of the new department of the Super Service company, corner of Broadway and Avenue M.

The Super Service company, Hemphill Price, and the Bankers' city league basketball organization, which consists of the employees of the three banks, have all endorsed Coach Frnka's plans and are ready to join the proposed organization.

## NUT CRACKER by Joe Williams

Jack Sharkey has been unusually quiet in training for his match with Tom Heeny January 12. Maybe he had been really concentrated on battle and earned the practice.

The only fight in the cauliflower market who ever kayed anybody with words was Gene Tunney, anyway.

We'd like to see Jack Sharkey win a fight, but like O'Grady at the soup bowl, we hate to hear him doing it.

The Cleveland Indians are going to try a couple of minor league ball teams. Probably figure that a couple of hundred players in the bush are better than one.

President Barnard of the American League says this is the best baseball's biggest year. Apparently Mr. Barnard is carrying out the policy of Mr. Heydler and Ben Johnson.

Jack Delaney was sold by Pete Reilly for \$50,000—which is \$20 an ounce. If they start selling by the ounce you can buy a couple of Rickard's ring-side seats.

## Fall-Sinclair Case Postponed

April 2 Is Date Set for Retrial of Pair in Oil Conspiracy Case Due to Illness of Fall.

WASHINGTON, Jan. 9.—Retrial of the Fall-Sinclair oil conspiracy case postponed today until April 2 because of the illness of Albert B. Fall.

Atlee Pomeroy, special government prosecutor, said if Fall was unable to appear for the retrial, the government would proceed separately against Henry F. Sinclair, Mary Thompson, Fall's lawyer, said the former secretary of the interior would not be able to appear April 2.

After the court's ruling Pomeroy issued subpoenas for H. M. Blackmer and James O'Neil, missing witnesses in the oil trial. Blackmer was served in the previous trial and excused for contempt when he failed to appear. He also was served for the retrial set for January 6. O'Neil has never been served.

Their testimony is sought in connection with the operations of the Continental Trading company, through which the government charges Fall received a large batch of liberty bonds after he had issued the Trapo Dome naval oil reserve to Sinclair.

## REVERSE DECISION Wire Tapping Case Is Changed by Court

WASHINGTON, Jan. 9.—The Supreme Court reversed itself today and decided to consider the validity of evidence obtained in prohibition cases by wire tapping.

Three cases from the Pacific coast brought by Rep. Gimenez, Charles B. Green, Edward H. McNelis, and others challenge the right of the government in prohibition cases to use evidence obtained by listening in on telephone wires.

In all three the Supreme Court had refused to grant reviews but today it announced that it would examine exhaustively into the subject to determine whether the government has been violating the constitutional rights of individuals.

Task Him Long Time Babe Ruth failed to hit a home run with the bases loaded during the 1927 season until he hit his 52th homer on September 27. He did the feat again on Sept. 28.

## Draft War Among Minor Leagues Is Brought to Close

Rescind Action Taken at Dallas Meeting and Revert to Old Agreement About Young Lawyers.

CHICAGO, Jan. 9.—The draft war among the minor leagues came to a sudden end today. The resolution adopted at Dallas last month, ordering the five big minor leagues to enact their "modification" of the draft, was rescinded by unanimous vote of delegates representing all the minors, both big and little.

Today's resolution, in addition to annulling the Dallas action, provided that the methods of former years should continue during the remainder of the season. The members of the National Amateur Baseball Association, which represents the minors, voted to rescind the Dallas action.

Commissioner Landis did not attend the Dallas action, and neither did the various national and league representatives who conferred with the minor league magnates before the recent season began.

In less than two hours the five big minors—International, Pacific Coast, and Three-sevens, and the Southern and American associations, had presented their opposition to the Dallas resolution and had won their right to continue under the modified draft. This system permits the major leagues to draft only three players who have come down from the major leagues and protect the rule of the big five in possession of the rosters. They have developed themselves for sale to the majors at fair prices.

Little Minor Concern President Thomas Hickey assembled the American association club owners this morning to agree upon their stand. Cowed by the threat of the major leagues, the little minors did not insist upon any concessions in the peace terms but voted to go back to the former system.

The major leagues had served notice that peace must be effected between the Big Five and the little minors by January 16 or the major-minor agreement would become a scrap of paper and the minors would lose the protection of Commissioner Landis' authority.

The only public notice the commissioner took of the minor meeting was to send a list of suggestions which the major leagues advanced at their meeting last month and which the minors promptly adopted. The suggestions provide, among other things, a three-year suspension for any umpire or official caught "scalping" for a club in his league, and permanent suspension for any player, umpire or official found guilty on baseball games.

## Track Work Opens For T. C. U. Squad

Team Practices Under the Guidance of McCorkle, Of Strawn, Star Of Dash Events

NEW YORK, Jan. 9.—Football honors its heroes with places on All-American teams, baseball rewards its star with prizes to the most valuable player in the big leagues, track and field stars get foreign trips to Olympic games as their tributes, and golf players and tennis players win cash and prizes for their conquests.

Now comes boxing with a medal for its most distinguished athlete. "The Ring," a New York boxing magazine, announced recently it would award annually a valuable medal to the boxer who had been chosen as the one who had conducted himself best in "dust-out" of the ring during the year.

The committee, consisting of members of the New York commission, and three well-known writers, has made its official selection. Bill Mullan, senior member of the commission and chairman of the selection committee, has spoken his piece.

"Gene Tunney is the finest representative of the heavyweight class ever has produced," Mullan said. "His conduct in the ring and the high standard of his private life have given dignity and respect to his profession."

It is almost certain, from this expression, that Tunney will get the decision of the committee.

Next to Tunney, Mullan named Tommy Loughran, the light heavyweight, and in this connection he added: "Tunney and Loughran are the finest types of boxers and young men I ever have been associated with."

George Courtney, the Oklahoma middleweight, was placed third on Mullan's honor list.

Mullan's suggestions probably will be adopted by the committee.

## Tom Loughran to Fight Again Soon

Elimination Tournament to Select Opponent Will Be Held by Rickard in the Near Future.

NEW YORK, Jan. 9.—Tommy Loughran, fighting king of the light-heavyweights probably will be called on to defend his title some time in March. Tex Rickard announced today, simultaneously, Rickard announced that Loughran had signed a contract giving him exclusive rights to his services for a title bout before November 1.

Under present plans the Philadelphia opponent will be the survivor of an elimination tournament between Leo Lomski, of Aberdeen, Wash., Jimmy Slattery, of Buffalo, N. Y., and Mike McGuire, former middleweight. Loughran has defeated all three within the past three months.

Rickard said he had matched Lomski and McGuire for a bout at the Garden Feb. 3. The winner will face Slattery and the ultimate survivor then will get a shot at Loughran's title in a match on or about March 30.

The promoter made known also that he planned a match at the Garden February 10 between Johnny Rizzo, of Cleveland, and either Jack Delaney or "Napoleon" Jack Dorval.

## RALLS WINS, 13-12 Jackrabbits Trounce Dickens Cagers

HALLS, Jan. 9.—The Halls Jackrabbits, winners of third place in State Intercollegiate League basketball contest last season, defeated the Dickens high cagers last Friday night by a score of 13-12.

## WOOD WILL RUN AGAIN FOR STATE LEGISLATURE

AUSTIN, Jan. 9.—Senator A. E. Wood of Granger, administration floor leader in the forty-third legislature, conferred with Governor Dan Moody late Monday and said that he (Wood) will run for reelection to the senate.

He Surely Feels Good. Horse owned by H. P. Whitney won 75 races during the racing season of 1927.

## Grantland Rice Praises Texans

"Spotlight" Carries High Compliment for Mann and Hunt; Matthews' Work at End Lauded.

In Grantland Rice's daily column "The Spotlight" which appears in the New York Herald-Tribune, the sport authority, very highly commends the gridiron stars of the Southwestern Conference. Here is what Mr. Rice had to say:

THERE ARE NO SUPER STARS. A backfield that carried Caldwell, Joesting, Pressnell, Amos and Connor was supposed to be an invincible army.

It was a close to an All-American backfield as one could pick so far as power was concerned.

But it wasn't able, under actual fire, to do as much damage as Hunt and Mann, from Texas. They lacked the weight and power of the all-star combination, but they did not lack damage. The proved to be as good as backs rated among the stars of many years. In the same way, Ray Matthews, another Texan, stopped more backfield talent than any other end has been asked to face. Not even Oosterbaan, defensively, could have done more Texas-proved he claim to at least three great football players in Hunt, Mann and Matthews, who had just a shade on stars rated above the ordinary.

When Texas next fall announces that she has a certain group of star football players every member of the Eastern team from New Haven to Nebraska will take a lot of stock in the Texas claim. They will understand that it means something.

## SHIFT JURISDICTION Transfer to Navy Department Oil Lease Jurisdiction

WASHINGTON, Jan. 9.—A bill to transfer to the navy department jurisdiction over oil and gas leases issued by the secretary of interior on lands in naval petroleum reserves was approved today by the senate lands committee.

Senator Dyer, Republican, North Dakota, introduced the bill at the request of Secretary Work. It does not affect any of the oil leases which have resulted in long court litigation.

## BUILDING BOOM Spurt at New Year in Coleman Vicinity

COLEMAN, Jan. 8.—Two Coleman buildings costing in the vicinity of \$35,000 neared completion during the week and the country club building committee definitely retained a Dallas architect to detail plans and specifications for the brick English type clubhouse to be constructed when the city is completed, marking the culmination of the first seven day period in 1928 which will be a banner year in this city's construction history.

## CENTENARY OFFER Full Schedule of Tech I Bar to Game With Gents

TEXAS Tech has been offered a football game with Centenary college of Shreveport, to be played at the Dallas Fair on October 2, but due to the fact that the Tech calendar is already full, the college could not accept the offer, according to President Paul W. Horn, of the Tech.

## PERMIT FOR REICK HOME GIVEN TO DR. STANDEFER

The permit boosted the building total this year to \$63,450.

## Woman In Fight For Senate Seat

Mrs. Minnie Fisher, Who Is In Race for Congress, To Make First Speech at Home Town, Huntsville.

AUSTIN, Jan. 9.—Mrs. Minnie Fisher, Cunningham, first woman candidate in Texas for the office of United States senator, will make her first campaign speech in her old home town, Huntsville, at a date to be announced later, she said here.

Mrs. Cunningham has opened her campaign headquarters with Miss Ruby Neale Long of Brownwood, in charge as assistant manager and director of the speakers' itineraries, including Mrs. Cunningham's own.

An extensive state organization designed not only to boost her candidacy, but to "see that the votes cast in my favor are counted," is planned, Mrs. Cunningham says.

She forged rapidly to the front as a leader in the fight for suffrage back in the war days and under her leadership Texas women gained primary suffrage in 1918. In the brief period in which they could qualify for that year's election, 386,000 women voted largely through efforts credited to Mrs. Cunningham.

She led the campaign for ratification of the national suffrage act by Texas in 1919 and was delegate at large from Texas to the National Democratic convention at San Francisco in 1920. Since then, she has held posts as executive secretary and second vice-president of the National League of Women Voters, and as personal representative of Emily Neffell Blair, vice chairman of the Democratic National committee at Washington.

### RUSH I. C. C. HEARING

Session on Cottonseed Rates Expedited

FORT WORTH, Jan. 9.—The joint hearing of the Interstate Commerce commission and the Texas Railroad commission on rates on cottonseed and cottonseed products in session here, will end Saturday in order that the hearing of the same commodities may be opened in San Antonio Monday.

The meeting today fixed the schedule: San Antonio, Jan. 16; Houston, Jan. 19; Fort Worth, Jan. 23, and Memphis, Tenn., February 6. After the Memphis hearing the hearing will recess until the latter part of March or early in April, at which time the I. C. C. will open hearings on cotton rates.

Gen. Lejeune plans to make a short but intensive first hand study of the situation in Nicaragua. He will spend two weeks inspecting marine posts and discussing conditions possibly penetrating the country as far as Quilich. Then he will return to the United States by the way of San Diego.

Gen. Peck, an experienced campaigner, who was in command of the marines in Nicaragua a year ago but was later relieved, will again assume active command, superintending Col. Louis M. Guilek.

The reinforcement detachments sailing today will concentrate at Corinto on the West Coast, necessitating a passage through the Panama Canal for those embarking at Norfolk and Charleston. It was estimated that the voyage of the latter would require about a week.

insanity. Instead, he skulked in his cell and memorized a morbid poem sent him by a Kansas City man. The poem is Oscar Wilde's "The Ballad of Reading Gaol."

### HICKMAN'S ATTORNEY ABRAYS DEFENSE

KANSAS CITY, Jan. 9.—Gathering of evidence to prove that William Edward Hickman, confessed slayer of Marian Parker in Los Angeles, is suffering from a deformity, dementia praecox, will be begun here Wednesday by James Walsh, young Kansas City attorney, defendant Hickman. Walsh will begin taking depositions on that day.

Dementia praecox was a form of insanity which was made the basis of the defense in the Leopold-Loeb case in Chicago, and in which Hickman expressed much interest.

Walsh said he had been informed by a Los Angeles alienist of wide experience that it was his opinion that Hickman was suffering from dementia praecox, probably formed before birth, and requiring only a shock to transform it from passive to an active state.

An attempt will be made, Walsh said, to produce evidence to show that a transformation had come over Hickman, an honor graduate of a local high school, in the last two years.

**Killed Four Men**

With no other weapons than his wits and broken bottles, it is stated, he attacked, overpowered, and killed four men guarding him. Then he set off into the night, stumbling, falling, bruising himself, and tearing his clothes, in his frantic haste to get away from the bandit camp. At daylight he reached a village where he obtained a conveyance to Cuernavaca, and from Cuernavaca,
