Stage Set for Products Show Next Week

FRIDAY FIELD DAY TOUR TO ATTRACT 300

Trippers to Gather on Square Friday Morning at 9:45 O'Clock; Jennings Farm First

Final details were wound up Wednesday for the annual field day tour that will be sponsored Friday by the local Farm Security Administration—a tour that is expected to attract about 300 people.

Horace D. Seely, local FSA supervisor, Hugh Birdwell, assistant, Mrs. Jacqueline Crosby, home management supervisor, and Helen Cauble, clerk-typist, report that "everything is in readiness" for opening event of the field day.

With continued pretty weather, which broke through Wednesday afternoon, Friday's events are expected to compose a red letter day for the FSA. Farm Security Administration borrowers, business men, county agricultural officials and others will participate in the tour.

Initial event of Friday's field day will be a concert, Friday morning starting the business section of tours, directed by R. G. Dillard, local CC manager. Cars will be assembled in front of the local Bryant-Link Company building at 9:45 o'clock, and the caravan of cars will go directly to the J. W. Jennings farm seven miles east of town on Highway 15.

Those on program at the Jennings farm will include Mr. and Mrs. Jennings, Estella Rabel, county home demonstration agent, Edward S. Hyman, county agent, and Herman Hundsnurscher.

Second stop of the tour will be at the Charlie Prather farm. Talks will be made by Prather, C. B. Bentley, Garland Parks, T. A. Morrow, Odes White, John Curnutte and Dale McWhirter.

At 12:30 p. m., tour attendants will arrive at the Cliff Birdwell farm for an old fashioned basket lunch and barbecue dinner. Seely, local FSA chief, will act as toastmaster for the dinner and will be in general charge of the afternoon program.

Those on the afternoon program will include Robert Fisher, district FSA rural supervisor, Mrs. Joe B. Norris, Mrs. J. E. Smith, Mrs. Perman Kelly, Auburn V. Carmack and Mrs. S. T. Minor.

At a men only session at the barn, Hugh Birdwell, John A. McKinney, Alford Browning, Dale McWhirter, Cliff Birdwell and Seely will talk on matters of importance to livestock owners.

At a women only session, Mrs. Crosby will direct panel discussions. Mrs. Lena Taylor, district FSA home management supervisor, will speak, as will Mmes. Herbert Martin, William C. Eades, Clay Reeder, Sam Adams, Wamon Green, Clarence Brush, Raymond Hull and John Derryberry.

Group singing of patriotic songs and the national anthem will bring the day of festivities to a close about 3:45 o'clock Friday afternoon.

Ten More Boys from County to Air School

Burt Davis, bonded registrar for Southwest Aeronautical Institute, Dallas, who recently located here, announced this week that 10 more Scurry County youths have been signed for SAI training at Dallas.

Young men already in Dallas for their preliminary training include: Hollis Fields, Lee Jones, Ray Helms and Charlie Morrow of Snyder, Milton Adams of Hermleigh, Harold Denson, W. A. Billingsley Jr. and Avis Black of Dunn.

Davis asks that young men of the county interested in aviation training contact him immediately at the Manhattan Hotel. Young men enrolled now will be in line for good paying jobs within a short time.

Who's New In Scurry County

The Leonard Gills, three pound, three ounce daughter, at the local hospital Monday afternoon, 5:50 o'clock.

A daughter, Vondell Fae, Mr. and Mrs. W. W. Sumruld, weight seven pounds, 12 ounces at birth Friday, in Snyder General Hospital.

Eight pounds, 13 ounces is the weight of the son of Mr. and Mrs. B. W. Gallahan of Dermott, born at the hospital Tuesday morning at 1:15 o'clock.

Donnie Sue, nine and one-half pound daughter of Mr. and Mrs. Bryan Roberts, born last Thursday morning, 3:45 o'clock, in Rosser hospital.

Gas Manager

Shown in this picture is Roy J. Porter, new local manager of Community Natural Gas Company, who replaces B. G. Johnson, now district manager at Walters, Oklahoma. Porter comes here from Wichita Falls, and has worked his way up from ditch digger. —Miles Photo.

Johnson Goes to New District Gas Place at Walters

Promotion of B. G. Johnson, local Community Natural Gas Company manager for the past 12 years, to position of district manager for the gas company at Walters, Oklahoma, was announced last Thursday by M. L. Bird of Abilene, regional manager, and J. D. Holbrook of Sweetwater, district Community Natural Gas Company manager.

Johnson has been a member of the local Lions Club for the past several years and has been a member of the local volunteer fire department. As district manager at Walters, Johnson will have seven Oklahoma towns under his jurisdiction.

Johnson went to his new headquarters late last week, but is back here this week to introduce the new manager for Snyder, Roy J. Porter, who has been with Community Natural Gas Company at Wichita Falls the past nine years.

Porter, as new local gas company manager, started out as a ditch digger for the company, went first to office work and then became plant engineer for Community Natural Gas at Wichita Falls.

The new local manager's wife and their nine-year-old daughter, Retha Ann, will move here within the next several days, Porter states.

$15,000 in Parity Checks Come To County Tuesday

Attaches at the county Triple A office announced Tuesday afternoon the arrival of $15,000 in 1941 cotton parity checks, bringing the total in parity payments for the current crop years to date to approximately $131,000.

Local AAA officials point out that only from $10,000 to $12,000 in 1941 parity benefits remain outstanding—a record for Scurry County during the current AAA year.

Arrival of 1941 parity checks at such an early date is pointed out as a reason for county farmers having a "back log" of spending money at the beginning of the 1941 cotton harvesting season.

"We find," the state AAA office writes local AAA committeemen, "that Scurry County has cooperated whole heartedly in the matter of securing cotton parity checks, and that farmers have been eager to get the proper forms signed in time to get their checks before farmers in several other counties did so."

4-H Boys Feeding Club Beef Calves

More than 15 beef calves have been put on feed recently by Scurry County 4-H Club boys, according to Edward S. Hyman, county agricultural agent, who says the club boys are evidencing considerable interest in their calf feeding projects.

Among the county 4-H Club boys who now have calves on feed are: J. B. Davidson, Don Lay, Van Echols and Frank Martin of Dunn; Horace Davis and Wayne Davis of Ennis Creek, Billy Joe York of Snyder, Raymond Jordan of Ira, Eugene Glasscock and Wallace Jones of Fluvanna.

LINT YIELD OF FARMS TO BE AAA PROBLEM

Figures Must Be Approved Before Insurance Applications Can Be Accepted

Determining an average lint yield and premium rate per acre for every cotton farmer in Scurry County is the first task to be accomplished under the cotton crop insurance program, Ross Williams, chairman of the county AAA committee, stated Tuesday afternoon.

Until these figures have been approved by the state AAA commtitee and the Federal Crop Insurance Corporation, applications cannot be accepted, Williams declares.

"We hope to start writing insurance applications in the county later in the fall," the county AAA committee chairman said, "but will not go into detail work until 1942 farm allotments have been determined. Cotton allotments, however, will be issued by November 1 in order that the food-for-defense program can get underway."

Members of the county AAA committee point out that the 1934-1940 cotton history of a farm will be the basis for determining the average lint yield of a farm. In the event historical data is not available, appraised figures will be used in determining the average yield.

Premium rates, for example, which reflect as nearly as possible the crop insurance risks of a farm, will be taken from losses shown in the base period. By this method, each farm will have an individual rating and the possibility of the good farmers carrying part of the risk cost of the poor farmer will be avoided, local AAA committeemen declare.

The crop insurance program, under which 50 per cent or 75 per cent of the average yield may be insured, protects farmers against hail, rain, flood or drouth and other factors over which they have no control. It does not insure losses because of poor seed, poor management, or failure to plant cotton at the proper time of the year, the AAA officials concluded.

Financial Drive For Scouts Begun With Breakfast

Approximately 30 workers attended the "kickoff" breakfast Wednesday morning at the Manhattan Hotel, staged as a go sign on the Boy Scout District.

J. E. Blakey, finance chairman of the district, acted as master of ceremonies for the breakfast. Visitors present included Charles E. Paxton of Sweetwater, president of the Buffalo Trail Council, and S. P. Gaskin, also of Sweetwater, Buffalo Trail Council scout executive.

Captains of the six campaign teams were announced at the breakfast as follows: Wayne Boren, W. D. Harral, Willard Jones, A. C. Kincaid, Allen Beadel and Lyle Deffebach.

This year's financial drive, from evidence gathered Wednesday, will prove successful and allow the Snyder District to be right on the front line of scouting activities during the coming year.

Snyder's Boy Scout District now boasts active troops here and at Fluvanna, Pyron, Hobbs, Dermott, Dunn and Hermleigh.

City Marshal Visits Points in East Texas

Simon Best, city marshal, and Mrs. Best, accompanied by Ray McFarland, left last Thursday morning for a brief visit with relatives at Dallas and Greenville. McFarland stopped in Fort Worth to visit with friends, while the first stop of Mr. and Mrs. Best was Dallas.

After a whirlwind visit with relatives, the Bests, McFarland and Mr. and Mrs. George Dulan started back to Snyder last Thursday afternoon. Mr. and Mrs. Dulan are known to a number of county residents, and will remain here for a visit with relatives and friends.

Mexicans Planning Addition to Church

The local Mexican church, a mission point of the Snyder's First Baptist Church, is getting underway with the necessary means of making a needed addition to the church building, Rev. E. P. Gonzales reports.

Something like $150 will be required to make the necessary addition, and of this amount approximately $80 was reportedly raised through Wednesday by local Mexicans.

Abandoned Baby Girl No Longer Homeless; Lives in Seagraves

Remember the abandoned baby girl, weighing five pounds and four ounces, that was discovered a week ago in East Snyder by officers, lying helplessly in the mire of a pit toilet?

The baby girl was rushed to a local hospital, where tender care and administration of proper nourishment, soon restored the infant to normal breathing and warmth. The infant had no home for several days—except the hospital—and it looked for a while that no one wanted to give the infant a real home—the kind other children have.

Then Mr. and Mrs. Dall Pennington of Seagraves heard about the abandoned baby, and came here last week to seek adoption of the tot, provided a court order could be obtained giving them permission to give the baby a home.

As a result, Mr. and Mrs. Pennington obtained permission Friday in district court to adopt the foundling. They took the baby to Seagraves Sunday, and report the adoption "happy to both of them."

Pennington is an engineer for a California concern, and although he came to Texas several years ago from Evansville, Indiana, he was born in Texas and reared in Hill County.

Pet Parade Will Precede Party at Fair for Entries

Led by Snyder's High School's band, there will be staged Friday afternoon, October 17, at 1:30 o'clock the biggest Pet Parade this section of the state has yet witnessed.

The Pet Parade will form Friday, October 17, at the Products Show grounds one block north of the square, go around the square and return to the show grounds where each person in the parade will be the guests of the fair association at a party—with plenty of eats for all.

Mrs. J. D. Scott, who has charge of the show's pet division, invites everyone, both young and old, to bring in their pets for the Products Show. Everything from a canary to a bull elephant will be eligible for exhibition in the parade—and anything from the sublime to the ridiculous will go in the parade. The utmost cooperation of county residents is asked in order to make this event an outstanding success.

County Singers To Convene Sunday at Tabernacle Church

Attention of singers and song lovers in Scurry and nearby counties is directed this week to the Scurry County Singing Convention, which will be held Saturday night and Sunday, October 25 and 26, at the local Tabernacle Baptist Church.

Initial session of the convention, J. M. Glass, president, states, will get underway Saturday evening, October 25, at 8:00 o'clock.

An array of singing talent, including quartets and duets from this territory, will be on hand for the convention, and several radio quartets have been tentatively secured for the song fest.

Ben W. Newhouse, convention vice president, and Leon Guinn, secretary, report that a complete program for the forthcoming convention will be made available next week. Members of the local Tabernacle Baptist Church are assisting in arrangements to take care of visitors.

She Raises 'Em Big!

Mrs. P. F. Harmon, who lives out on Route 1, Snyder, brought a fair sample of turnips to The Times office last week. Three huge turnips, which Mrs. Harmon said grew in a month and a half, were just as sweet and luscious as smaller turnips, and went a lot farther toward giving the editor and his family a good meal.

Entertainment Heads for Show Appeal for Help

E. O. (Red) Wedgeworth, C. M. Kiker and Lambert [illegible] completing the membership of the Products Show entertainment committee, sent out their final appeal this week for entertainers to appear on the show's to appear on the show's free entertainment program Thursday evening through Saturday.

Wedgeworth, Kiker and Lambert have a job on their hands very few people would want—the job of supplying free, interesting and snappy entertainment from 2:00 p. m. to 4:00 p. m., and from 8:00 to 10:00 p. m. each day of the Products Show.

Initial free entertainment program will get underway Thursday evening, October 16, at 8:00 o'clock and continue until 10:00 o'clock. It will require a varied array of talent to keep folks of this trade area entertained, and those who can offer a helping hand will be greatly appreciated.

Only a few more days remain in which to assign entertainers "spot" places on the Products Show entertainment program, and those who can offer novelty numbers or perform other types of amusement are urged to contact Lambert, Kiker or Wedgeworth immediately.

The committee promises that a full program for the triple-day show will be completed early next week.

Jaycees Will Boost Tigers in Assembly Gathering Friday

Snyder's Junior Chamber of Commerce, led by Herman Trigg, president, issued an appeal this week to all business men of the town and others interested to meet Friday morning, 10:00 o'clock, at the local bandstand on the northwest corner of the court house lawn.

From the bandstand, the group will be asked to go to Snyder High School auditorium for general assembly, 10:00 to 11:00 o'clock, to boost Snyder's Tiger squad just before their first conference game—a game that will be played here Friday evening against Roby's highly touted Lions.

Jaycee officials express the hope that Friday morning's gathering of local business and professional people at the bandstand will be one of the largest the town has sponsored for a Tiger conference game in several years.

RODEO GROUP VOTES TO BUY SHOW GROUND

Stockholders in Wednesday Night Meeting Decide to Isssue 200 More Share of Stock

Directors of the Scurry County Rodeo Association, at a called meeting Wednesday evening in the county court room, voted unanimously to purchase grounds and build a new home for the rodeo.

Meeting of the stockholders was marked by harmony and unity of purpose throughout. It was agreed at the gathering to issue 200 additional shares of stock, valued at $25 per share.

Before the rodeo association meeting was brought to a close, 25 of the additional shares spoken of were sold, with money for the shares laid on the barrel head.

The following committees were announced at the conclusion of Wednesday evening's meeting:

Charter and Stock Committee—and R. G. Dillard.

Land—J. O. Stimson, C. W. Wellborn and J. C. Dorward.

Finance—Hugh Taylor, J. O. Stimson, Richard Parks and Weldon Johnson.

Each stockholder of the rodeo association was also named a member of the finance committee. Each smtockholder was asked to be responsible for the sale of three shares of stock.

County 4-H Boys At Encampment And State Fair

A duet of Scurry County 4-H Club boys, Ben Brooks, of Snyder, and Raymond Jordan of Ira, left Monday for Dallas, where they are attending the 4-H Club educational encampment at the State Fair of Texas, the county agent's office announces.

Boys from every county in the state are attending the 4-H Club encampment, which will be concluded today (Thursday). Brooks and Jordan report that the encampment headquarters is located in a special dormitory above the beef cattle barns at the fair. A number of county agents are present at the encampment in sufficient numbers to allow one agent to be in charge of each 10 4-H Club boys.

Brooks and Jordan are scheduled to return from the encampment Friday. The county club representatives, as well as representatives from other counties, are recieving a great deal of information on livestock and crop judging, and are getting acquainted with fellow 4-H Club members from all sections of the state.

American Legion Asking Pastors to Dedicate Services

A. B. (Boss) Baze, commander of the local Will Layne American Legion Post No. 181, announces this week that pastors of all churches in the county will be urged to dedicate their sermons Sunday, October 26, to men in their congregations now serving in the U. S. Navy.

Local American Legion Post officials are cooperating with the churches in the movement, and will furnish all pastors data on which a special Navy Day sermon may be based. Monday, October 27, is Navy Day, but pastors of churches will be asked to make their October 26 sermons built around the navy so that free program Thursday evening people may more fully appreciate what the U. S. Navy is doing for America.

All Legionnaires and other ex-service men of the county will be urged to attend the church of their choice Sunday, October 26, as a means of participating in Navy Day observances.

Methodist Pastor in Floydada for Rites

Rev. I. A. Smith, local Methodist pastor, was in Floydada Tuesday afternoon, where he conducted funeral services for Dr. Lon Smith, prominent Floydada physician and a man known in many sections of the Panhandle.

Dr. Smith was an uncle of Mrs. Wilson Connell of Scurry County, and had ministered to the sick and afflicted people of Floydada and Floyd County. Rev. Smith, Mr. and Mrs. Connell returned Tuesday night.

Pokey or Perky?

"Are You a Perky or a Pokey?" This may seem like an unusual question, but it will be answered in an unusual manner next Thursday, Friday and Saturday at the Products Show by means of the local Farm Security Administration booth.

In the booth will be found, as a special display feature, hand carved dolls, seated at a miniature family table, showing the difference between "perks" and "pokes." You'll have to see the display for yourself to appreciate it.

County Women Named to Assist In FSA Exhibit

Mrs. Jacqueline Crosby, local Farm Security Administration home management supervisor, reported Tuesday afternoon that county women named to assist with FSA's exhibit [illegible] shaping up exhibits and displays at a very satisfactory rate.

Exhibits of canned foods, vegetables, fruits and other farm grown products are being arranged for FSA under direction of Mrs. Crosby, Mrs. Joe Norris and Mrs. Sam Adams of Canyon.

The local National Youth Administration work center is cooperating with the local Farm Security Administration in making shelves, hand carved dolls and miniature tables for FSA's display of the currently popular theme, "Are You a Perky or a Pokey?"

Rural women of the county who are assisting in arrangement of the FSA booth include:

Mmes. John Smith and Wamon Green, Fluvanna; Mmes. William Eades and Gene Parker, Canyon-Crowder; Mmes. Harold L. Roberts and Ben G. Hartley, Dermott-Tuscola; Mrs. Charlie Prather, Ennis Creek; Mmes. Thomas Knight and Verne Gilmore, Hermleigh-Pyron; Mmes. Herbert A. Martin and William H. Hudson, Pleasant Hill; Mrs. Calvin Huddleston, Cuthbert, and the following girls, who are working on a series of well balanced meals that will be prepared from farm grown products.

Yvonne Green, Mary Frances Smith, Lanell Morrow, Ida White, Dorothy Adams and Frances Eades.

Lack of Steel Halts NYA Work Shop Construction Plans

Work on Snyder's new NYA work center just south of the city waterworks has been halted, James A. Cowan, foreman, and John E. Spelce, assistant, reported Tuesday, due to the fact no more construction steel has been received.

Erection crew of the International Derrick Company, which will put up the new NYA building has been notified that construction steel has not yet arrived, and that no construction activities can be started until sufficient supplies are on hand.

Cowan and Spelce report the arrival of some more equipment at the site on 25th Street—the arrival of a heavy duty shaper.

Youths interested in obtaining National Youth Administration employment are urged to contact Cowan or Spelce if they fail to see the district youth counsellor when he visits Snyder.

Hermleigh Seniors Get Rings.

Class reporter for the 1942 senior class of Hermleigh School stated this week that the 19 class members received their class rings. The girls received autograph books and bracelets with the official "H" on them. Boys of the senior class purchased belt buckles with a red and white "H" on the front. Each senior was reported to be glorified and the parents horrified when the rings, belt buckles and autograph books with the "H" on them were distributed. Class sponsor is Jayne Lea Abbott, new faculty member who came from Wichita Falls.

Call for Corn!

County corn producers are asked this week by R. G. Dillard, local Chamber of Commerce chief, to bring in six good quality ears of corn, produced in the county, which will be suitable for exhibition in a booth at the Products Show.

With the favorable growing season that county farmers have experienced this year, it is for that some farmer will be glad to bring in corn so that an important exhibit for the show next week can be completed.

PRACTICALLY ALL BOOTHS AT EXHIBIT SOLD

Everything Will Be Ready for Three-Day Exposition by Wednesday, Fair Officials Declare

Only two remaining commercial booths remained to be sold for Scurry County's 1941 Products Show, October 16,17 and 18 as The Times went to press this (Thursday) morning.

Final plans for the triple-day show C. T. McLaughlin, Products show chairman, reports, have been worked out and everything set to formally open the county's greatest Products Show next Thursday evening at 8:00 o'clock.

Fully 10,000 people are expected to see this year's Products Show during the three days it will run. Demand for Products Show catalogs has been so great that the supply was practically exhausted several days ago, show officials report.

Rising of the curtain next Thursday [illegible] Products Show in county history will be the go signal for three days and nights of festivity unsurpassed for color and gaiety anywhere in the Southwest.

There are bigger expositions than the county's 1941 Products Show, officials state, but nowhere else in Texas or the entire Southwest will one find a three-day show, featuring 346 different events, that is free like the Products Show will be. There will be no general admission charges of any kind to see this year's show.

There will be three tents at the three-day exposition, one block north of the square, on the city tabernacle grounds, the largest tents ever secured for such an exposition. The commercial tent alone will be 50 by 154 feet—enough room to house the varied exhibits, ranging from refrigerators, electrical appliances and household conveniences to washing machines, and leave ample room for inspection.

Amusement lovers will find plenty of high class entertainment for their enjoyment. Contract has been signed with the Santa Fe Exposition Shows for a ferris wheel, merry-go-round, kiddie car and the ever-popular merry mix-up.

A highlight of this year's show will be the free entertainment programs directed by Hilton Lambert, E. O. (Red) Wedgeworth and C. M. Kiker. The free programs will begin each afternoon of the exposition at 2:00 o'clock, run to 4:00 o'clock; start again after the supper hour at 8:00 o'clock and run until 10:00 o'clock.

Talent secured by the trio of entertainment program chiefs includes quartets, duets, octets, dance teams, fiddlers, banjo players and musicians who can really put across novelty acts.

Grounds for the Products Show are being put in shape for the forthcoming show, and pens rearranged to accommodate more livestock than ever have been shown at previous county fairs.

At 12:00 noon Friday, October 17, Hop Halsey and his Drug Store Cowboys of Lubbock will put on their regular noon-time radio broadcast, by remote control, in front of the Times office.

Following the Friday noon radio broadcast, Hop Halsey and the Drug Store Cowboys will play Friday evening, from 10:00 o'clock 'til for a dance at the local skating rink. The dance will be sponsored by Snyder's Junior Chamber of Commerce, and all profits realized will go to the Products Show.

Special booths at the Products Show will include those of the Farm Security Administration, Texas Dental Society, State Department of Health, Soil Conservation Service and exhibits from many other agencies.

Members of the show's various committees declare that the quality and number of exhibits that will be shown at the October 16, 17 and 18 show will surpass anything of like nature in fair history. Entries are piling up in the beef cattle, dairy cattle, hogs, poultry, sheep and goats, horse and mule divisions at exceptionally satisfactory rates, with indications that everything will be ready by Wednesday for the opening whistle of the show.

Harrie Winston, general superintendent of the show, reminds county residents that all entries must be received at the local grounds by 6:00 o'clock Thursday afternoon, October 16. This deadline will be strictly adhered to, he states.

No exhibits of any type entered in the show may be removed before 9:00 o'clock Saturday evening, October 18. Since all exhibits will be carefully guarded by watchmen at all times, exhibitors can feel sure that everything entered in the show will be ready for shipment back home Saturday evening when the final curtain falls.

The WOMAN'S Page

Progressive Club Opens New Club Year.

Progressive Study Club began its 1941-42 club year at a covered dish luncheon recently in the home of Mrs. C. E. Ross. Members gathered at the home of Mrs. Ross, the club's first president, at 1:30 o'clock.

Living room and dining room of the house were beautifully decorated with cut flowers in white and gold, carrying out the club's official color theme.

"Impressive and beautiful" were the words used by club members to describe the installation service that was in charge of Mrs. Leon Wren, retiring president. Mrs. J. W. W. Patterson, new president, gave a gracious responsive and later conducted the business session, in which Mrs. Roy Hargrove was elected to membership.

Progressive Club members present for the opening meeting were: Mmes. Roy McFarland, Dewey Everett, J. W. W. Patterson, Leon Wren, Henry Kelley, J. W. Clawson, Luther Fargason, M. E. Shelbourne, John Truss, Lora Miller, A. P. Morris, S. L. Terry, Edgar Wilson, Bryan Jordan and C. E. Ross.

Mrs. W. G. Williams Hostess for Party.

Lovely deep red dahlias predominated in floral decorations for entertaining rooms of the W. G. Williams home Friday when Mrs. Williams was hostess to El Feliz Club members and guests. Other cut flowers were also arranged in the rooms.

Following forty-two games of the afternoon, the hostess passed a salad course with tarts and coffee to the members and Mmes. Pearl Shannon, J. E. Blakey and R. W. Cunningham, guests.

Members attending were: Mmes. Joe Strayhorn, I. W. Boren, A. J. Cody, W. E. Doak, P. C. Chenault, L. D. Green, J. E. LeMond, Wade Winston, R. H. Odom, W. J. Ely, G. H. Leath, J. W. Scott and A. W. Waddill. Mrs. Chenault will be next hostess to the club October 17.

New El Feliz officers are: Mrs. Waddill, president; Mrs. Odom, vice president; Mrs. Strayhorn, secretary; Mrs. Ely, treasurer; Mrs. Scott, reporter, and Mrs. Boren, parliamentarian.

Carbon paper at The Time office.

Hattie Herm Gives Cronin Book Review.

Hattie Herm, teacher in the local school, was presented Tuesday afternoon before Alpha Study Club in a review of A. J. Cronin's late best selling book, "Keys to the Kingdom." Mrs. David Strayhorn was hostess at the club meeting to Alpha members and two guests, Mmes. Garth Austin and Pat Bounds.

In her review, Miss Herm told of Cronin's building his novel as moving as any sermon on the three keys to the kingdom. He depicts the character of an humble Scottish priest, a non-conformist and a sentimentalist, in "Keys to the Kingdom." Her concluding remarks founded the book among Cronin's group of outstanding works as his greatest—"There is little doubt," she said, "that this is Cronin's outstanding work."

During the business session, more discussion was brought on plans for the club's antiques booth at the Products Show next week. In general charge of this year's showings will be Mmes. Wade Winston and Forest Sears. The study group voted to hold a special meeting soon to sew and knit for the Red Cross. Individuals are already assisting with the production work.

Crusaders Class Has Supper Monday.

A covered dish supper held in the basement of the Methodist Church Monday night attracted a good portion of Crusaders Sunday School class. Occasion for the supper and meeting was regular monthly class meeting for the group.

Brief business session was presided over by Mrs. J. O. Littlepage. New class officers introduced and installed Monday night are: Mrs. R. H. Odom, teacher; Mrs. H. T. Sefton, president; Mrs. John E. Spelce, vice president; Mrs. Howell McClinton, secretary and treasurer.

Members attending the meeting were: Mmes. A. E. Schmidt, Ora Wells, Hattie Belk, Sterling Williams, T. W. Pollard, J. P. Billingsley, C. R. Burk, Lyle Deffebach, Odom, W. W. Headstream, Littlepage, Spelce, Clay, McClinton, Hill, W. O. Britton, Sefton and Wiggins, Oleita Mitchell, Nellon Minix, Hattie and Gertrude Herm. Frances Billingsley, Elizabeth Spelce, Maxine McClinton and small Betty Sterling Williams were guests.

August Bride

Mrs. Melvis Ellis, in the above picture, became an August bride in a simple marriage service in Clovis, New Mexico. Announcement of the two-month-ago wedding is being made this week by the bride's parents, Mr. and Mrs. J. W. Ivison. Mrs. Ellis is the former Fern Ivison.

Officers for YWA Installed Monday.

Philacurean Young Woman's Auxiliary of the First Baptist Church installed new officers at its meeting Monday evening at the home of Mrs. Ethel Eiland, sponsor. Nelle Curtis is new president of the girls' church group.

Others accepting duties in the installation ceremonial were: Bertha Fowler, vice president; Velma Lee Edmonson, secretary; Lucille Grimmett, treasurer; Maxine Jones, reporter; Daurice Worley and Ruth Letcher, group captains; Martha Lou Holmes, song leader, Daurice Worley, pianist; Mrs. Ethel Eiland, counsellor.

Mrs. Vernon Shaw, W.M.S. president, will be guest speaker at the Y.W.A. meeting next Monday evening. She will discuss the Standard of Excellence.

Baptist Women Are Organized for Work.

Plans for a new year's work were formulated by the Baptist W.M.S. Tuesday evening at an executive board meeting and furthered at the group's first business meeting Wednesday morning.

Twenty-four members attended the executive board gathering, for which Mrs. Vernon Shaw, new W. M. S. president, gave a devotional on the organization's watchword for the year. It is from Psalms 67.2—"That thy way may be known upon the earth, thy salvation among all nations."

At the board meeting Mrs. A. P. Morris, president of the W. M. S. last year, was presented an award pin in appreciation for her diligent work as leader of the organization the past year. Mrs. Clyde Boren made the presentation.

At Wednesday's business session, that began at 9:30 o'clock, Mrs. Shaw again conducted the devotional. All circles organized in units at the meeting. Schedule for W. M. S. meetings during the year will follow that of the past few years with first Mondays being devoted to business meetings, second Mondays to mission study in circles, third Mondays to missionary programs, fourth Mondays to more circle mission study and teaching the colored women of the town, and fifth Mondays to socials.

Attending the Wednesday meeting were the following: Mmes. J. W. Clawson, J. E. LeMond, D. V. Merritt, T. E. Shelburn, Edgar Wilson, Jack Inman, J. M. Newton, J. R. Reeves, W. D. Harral, H. H. Eiland, B. H. Connally, J. A. Woodfin, N. M. Harpole, H. L. Wren, Fred Jones, J. W. W. Patterson, Morris and Shaw.

Moffett on Army Leave.

Vernon Moffett, sergeant in the United States Army, arrived here late last week for a 15-day visit with his parents, Mr. and Mrs. W. J. Moffett, and other relatives and friends. The former Snyder High School athlete enlisted in the army more than a year ago, first stationed at Fort Ord, California. Now he is at Fort Leonard Wood, Missouri, with the Headquarters Company, Engineering Division of the 7th Corps Area. He is due back in camp October 20.

Mrs. Bob Davenport and young son, Sammy, of San Angelo, are guests here of their parents and grandparents, Mr. and Mrs. L. D. Green, and Tippy Burns.

Fern Ivison Bride Of Melvis A. Ellis.

Mr. and Mrs. J. W. Ivison are this week announcing the marriage of their only daughter, Fern Ivison, to Melvis A. Ellis, son of Mr. and Mrs. Jackson Ellis of Dunn. Marriage of the couple took place in Clovis, New Mexico, Thursday, August 14, with C. A. Lorts, Church of Christ minister, reading the service.

The bride, an attractive brunet, is a graduate of Snyder High School, and she has attended Draughon's Business College in Abilene.

Ellis graduated from Dunn High School and John Tarleton Agricultural College, Stephenville, and studied in Texas A. & M. College a year and a half. He left A. & M. to enlist in the Army Air Corps as a flying cadet. The former Scurry County boy is now employed as an inspector for Consolidated Aircraft Corporation and is stationed in San Diego, California.

Mrs. Ellis is in Snyder at the present time, but she plans to join her husband in California soon. The couple will live in San Diego.

Mrs. Harry Ward Is Mexican Supper Host.

Mrs. Harry Ward was hostess Monday evening to the Altrurian Daughters Club at a Mexican supper at her home at 7:00 o'clock. After supper, the club members spent the evening doing Red Cross work. Baby undershirts and baby gowns were made, 65 yards of material sewed into girls' dresses, and several members knitted—all for the war production program.

Attending the meeting and Mexican supper were the following: Mmes. Harold Brown, P. W. Cloud, Herman Darby, Jack Dennis, Herman Doak, Billie Mitchell, J. D. Mitchell, Winfred F. Newsome, J. D. Scott, Joe Hale and R. C. Miller Jr., Rose Marie Clawson, Polly Harpole, Rube Lee, Thelma Leslie, Jeannette Lollar, Katherine Northcutt, and Estella Rabel.

Tot Shop Has New Stock.

The Tot Shop, located at the home of Mrs. Hattie Hargrove at 2112 Twenty-fifth Street, announces a new stock of small boys' clothing which arrived at the shop recently. Mrs. H. W. Boss is proprietor of the children's clothing shop.

Methodist Women In Worship Program.

"The Church, the Light of the World" was the theme for an impressive worship service Monday afternoon, when 16 Methodist women met at the church for 3:00 o'clock meeting of the Woman's Society of Christian Service. Mrs. T. M. Howle, study leader, conducted the service.

A lighted world globe formed the center for the candle-light display. Members lighted 14 large white candles and 70 smaller ones to illustrate different denominations, representing the World Council of Churches.

Lesson for the day centered on chapter five of "A Christian Imperative." Mmes. Lida M. Hardy and Howle are study leaders for the two circles.

Other women of the church are invited to participate in these regular Monday services and study, held each week at 3:00 o'clock at the church.

Art Guild Holds Meet at Grantham's.

Edith Grantham was hostess Tuesday evening to the Art Guild, and entertaining rooms were decorated with lovely roses. Effie McLeod, club president, was leader for the program, giving a discussion of the principles of art appreciation. Mrs. Mabel Belcher's program topic was "American Paintings of Today."

At the close of the program the hostess served a salad course with coffee to the following members: Mmes. Billie Mitchell, C. M. Kiker, L. H. Butler, M. E. Stanfield, Belcher, Alice Montgomery, C. W. Popnoe, Wilmeth Wade, Ivan Gatlin and Ivan Hill, Frances Farr, Jewel Foster, Effie McLeod, Frances Boren, Jewel Walker and Estella Rabel.

LeMoine G. Lewis at Harvard.

LeMoine G. Lewis, local Church of Christ minister for two years, is now a student in Harvard University at Cambridge, Massachusetts, where he was recently awarded the Work Scholarship. In addition to his studies, Lewis is assistant minister at the Church of Christ at the school. The popular young minister took a group of local boys north this summer to sell Bibles.

Get your typewriter at The Times.

Monthly Fellowship Social Meeting Held.

Monthly social gathering of the Fellowship Class of the First Presbyterian Church was held last Wednesday at Mrs. P. C. Chenault's home. Rev. Hubert C. Travis, church pastor, was a guest for the meeting, and he led the opening prayer. His five-year-old son, Alfred Murray, gave two readings.

Mrs. Chenault was leader for the study "With Christ in the School of Prayer." She was assisted in presenting the lesson by Mmes. Hubert C. Travis and Jesse Jones. Mrs. Travis also presided for a brief business session.

A refreshing salad plate was served to those on program and the following: Mmes. John Abererombie, T. A. Faver, Dolph Faver, C. E. Ferguson, J. T. Hayes, E. F. Sears, Mary B. Shell and J. W. Woody.

Eastern Star Meeting.

Stated meeting of the local chapter of the Order of Eastern Star will be held Friday night at 7:00 o'clock in the Masonic Hall. Mrs. Lynn Henderson, worthy matron, urges every member to be present, and invites visiting members to attend.

Alatheans Enjoy Business-Social.

Alathean Class of the First Baptist Church enjoyed the regular monthly business and social gathering last Thursday afternoon in the church basement. Beginning of the new year was marked by yearly reports and election of new officers.

In the year's report, the following items were of interest: 203 visits made in interest of the class, 457 talks, 610 sick visits, 208 trays, 106 bouquets, 625 hours nursing, eight garments and one quilt to needy, 478 visits to old people, 55 trays, 29 bouquets to old folks, 3,187 chapters in the Bible read by members. Each month the class paid $1 to the 100,000 Club, and during the year made one quilt and 75 garments for the Red Cross.

Ice cream and cookies were served to the 12 class members attending the meeting.

Formal Opening Of Frank's Store Slated This Week

Formal opening of Frank's Department Store, located on the west side of the square, is announced in today's edition of The Times by a special four-page advertisement.

Assisting Frank and John Bayouth in staging the formal opening is E. M. Odell, who has assisted in preparing the advertisement in this issue and the large circular appropriate for the occason. Odell is head of the Gate City Sales Company.

Frank Bayouth came here in April of this year, and has made extensive improvements since taking over the local department store, formerly known as Kayal's Department Store.

Goods for the formal opening were recently purchased in New York City, Chicago, St. Louis and the four corners of the United States by Bayouth, and represent the "cream of the merchandise" crop.

Frank Bayouth has had an interesting career in the dry goods and department store business. He grew up in the business, and drove 26,000 miles, covering several states, before choosing this city—not only for his store but for a home.

Bayouth's family consists of himself, his wife and four children, who are in school here. The children are Betty Joyce, Jacqueline, Ed Frank and La Noard Bayouth.

Allendale pattern of Syracuse China arrived today.—H. G. Towle Jewelry Company. 1c

Mrs. Lewis Lingo will leave this week-end to join her husband, who returned Monday from Louisiana army maneuvers. Before Mrs. Lingo goes to San Antonio, she will visit her parents, Mr. and Mrs. George Boozikee, at Roscoe.

Mr. and Mrs. Medlin Carpenter of Ralls were week-end guests of the T. W. Pollards and Evelyn. Mrs. Carpenter was formerly Hazel Pollard.

Mr. and Mrs. E. M. Deakins spent the week-end visiting in Floydada with their son, Jack Deakins, Mrs. Deakins and small Margaret Ann.

Farmers of County Warned of Bogus Machine Inspector

Local officers issued an appeal to county, farm and mechanical equipment owners to beware of an "International Harvester" employee—unless he can produce satisfactory proof—who is operating, reportedly, in this territory.

The "employee" calls upon farmers who are using McCormick-Deering equipment, representing himself to be an engineer or inspector, and inquires if any service work or parts are needed, and if they need pamphlets or other printed literature.

Farmers are then asked to sign their names in his notebook in order that he might receive credit for his call. Signatures are then forged on checks drawn on local banks, and cashed in sums ranging from $125 to $340.

City officers, as well as police departments in neighboring towns, are on the lookout for such an "employee," and ask that any such case be immediately reported. Legitimate employees, of course, are not to be questioned, but just this lone inspector who seemingly can't keep his hands from taking hold of check books.

Mrs. Henry O. von der Hoff and small daughter, Amarette, of Dallas are guests of the D. P. Yoders. Mr. and Mrs. Yoder visited in Dallas with the von der Hoffs, the A. V. Johnsons and Lyman Yoder, S.M.U. engineering student, last week, and their daughter and granddaughter came home with them.

Mrs. Roland Bell Jr., the former Hortense Ely, is in Snyder, a guest of her parents, Mr. and Mrs. L. G. Ely, and her husband's parents, the W. R. Bells.

Mrs. Ella Neel of Lubbock is spending the week with her sister, Mrs. H. T. Sefton, and Mr. Sefton.

Martha and Minnie Stewart, students in Hardin-Simmons University, Abilene, were home for the week-end.

Pets at Products Show to Receive Plenty of Care

Pet lovers of this trade territory were cheered this week by the announcement at the county's Products Show, October 16, 17 and 18, will be devoted to the exhibition of pets—dogs, cats, rabbits and other pets that people may wish to enter.

The pet division is being added to this year's Products Show by popular demand, and is expected to prove one of the most popular features introduced in several years.

Pet owners of this entire trade territory are asked to register their pets as early as possible with Mrs. J. D. Scott, who will direct the pet show, or at the Chamber of Commerce office. Registration is not mandatory, but it will safeguard the proper return of pets.

R. G. Dillard, chairman of the show's catalog and advertising committee, states that pet owners can enter their animals in this year's exposition with the assurance that the best of care will be shown all entries.

Advantages of registering entries for the pet show division are summed up by Mrs. J. D. Scott as follows:

Registration, first of all, will guarantee the safe return of your pet when the Products Show is over. Pet owners who have registration cards on their entries can collect whatever their pets are worth if they are not found at the close of the show. Enumeration of pets will allow Products Show officials to determine how much room will have to be made for the pet division, and allow more suitable and appropriate quarters to be set up. Lastly, registration will make possible the awarding of suitable ribbons.

Draftees Urged to Correct Ills Before Reporting to Board

"Consult your doctor and dentist to correct any remedial defects before you are called for examination by your local board," members of the county's local draft board urged registrants this week.

Calling to attention that statistics compiled by National Selective Service headquarters show a high rate of rejections of registrants for remediable physical disabilities, local board members urge that registrants awaiting call for military training should endeavor to fit themselves for acceptance not only as a patriotic duty in a period of national emergency, but also in the interest of public health as well as for their own personal well being.

"Many of the men rejected by local boards," board members declare, "are turned down because of defects which clearly are remediable. If registrants will consult their personal physicians and dentists before they are examined by local board physicians they will have an opportunity to learn of their disabilities and have them corrected."

Hospital Snyder General

Sandra Sue Martin, month-old daughter of the J. D. Martins, is still in the hospital and now weighs 10 pounds, four ounces. Mrs. Robert Welborn and her week-old daughter, Lorena Joanne, were still in the hospital Wednesday, and Wylie Akers, medical patient, is the other old patient in the hospital.

Three babies, two girls and one boy, were born in the local hospital the past week. The three-pound, three ounce daughter of Mr. and Mrs. Leonard Gill was born at 5:50 o'clock Monday afternoon. Mrs. B. W. Gallahan of Dermott and her son, weight eight pounds, 13 ounces, are also in the hospital. The baby was born at 1:15 o'clock Tuesday morning. Vondell Fae, seven pound, 12 ounce daughter of the W. W. Sumrulds, was born Friday.

Other new patients in the hospital Wednesday afternoon were: Mrs. M. McGuire, medical, Mrs. Joe Roggenstein and Jean Hughes of Fluvanna, surgical.

Registrants 28 Years Old Must Conform To Board's Orders

Although deferred by law from actual military training, county Selective Service registrants who are now more than 28 years old must conform to orders from their local boards or be liable to penalties prescribed for delinquents, H. J. Brice, J. C. Dorward and E. L. Farr, members of the local draft board, stated Tuesday.

While the amendment to the Selective Training and Service Act of 1940 recently adopted by Congress precludes induction of men who were 28 years of age or older on July 1, 1941, these registrants must still live up to the obligations imposed upon them by the act, local board members said. They must keep their registration certificates with them at all times, and keep their local boards advised of any change of address.

Although registrants who were 28 years of age or older on July 1, 1941, must fill out questionnaires, the county draft board explained, when it becomes evident that they are deferred because of age, they will be placed in the proper deferred classification by their local boards.

It is intended, they declared, that hereafter registrants who are deferred by reason of age will continue to be classified in the same manner as other registrants, except that they will be given no physical examination, and except that those of such registrants who are being classified for the first time and who are not classified in Class I-C, Class IV, Class III or Class II will be placed in Class I-H. Those of such registrants who are classified into Class I or Class IV-E before becoming entitled to deferment by reason of age, will be placed in Class I-H and Class IV-E-H, respectively upon becoming entitled to deferment by reason of age.

Geraldine Shuler, who is teaching in Lawn, visited during the week-end with the H. L. Wrens and other relatives.

Truck Owners Urged to Cooperate in National Defense Hauling Program

All Scurry County truck owners, including farmers, were asked this week by Edward S. Hyman, county agricultural agent, to help the War Department in its transportation planning for national defense.

Cards to be filled out, showing the make, year, model, tonnage and other data pertaining to pickups, trucks, commercial delivery wagons and other means of transportation were mailed to county truck and commercial vehicle owners Monday by the county agent's office.

Hyman states the local county agent's office will be glad to help truck and pickup owners fill out their white cards, and will assist farmers in every way possible to get the complete data to War Department officials.

The inventory is being made at the request of the War Department and the National Advisory Commission by units of the Federal Works Agency in cooperation with each of the state motor vehicle registration agencies.

Within the next few days, each truck or commercial vehicle owner will receive a special national defense inventory card from the Texas Highway Traffic Advisory Committee, Hyman states, to the War Department. This inventory card will request information concerning the truck, kind or body, capacity, time of year the vehicle is most urgently needed, and whether or not the owner would be willing to hire the vehicle in time of emergency—or lease it to a government agency.

Similar facts will also be requested on all busses and on all freight trailers with a capacity of 3,000 pounds or more. Information given will be strictly confidential.

Purpose in collecting the records of trucks and busses, the Federal Works Agency explains, is more effective planning of highway transportation in the assembly of national defense materials, delivery of military and civilian supplies, relief of dock and terminal congestion, and movement of passenger traffic in emergencies.

"To prevent a bottleneck in transportation during the unlimited emergency," the county agent's office emphasizes, "the Highway Traffic Advisory Committee to the War Department needs detailed information on each bus, truck, truck-tractor, trailer and semi-trailer in the country. It must know at once where each is located, which ones can be made available in emergencies and the character and customary use of each.

"We feel," the agent's office continues, "that every bus and truck owner in the entire county will see that it is a patriotic duty to fill out the white cards, or have our office assist him, and get the necessary information to the Highway Traffic Advisory Committee at the earliest possible date. In this way we can serve our country by supplying information that may come in exceptionally handy during the months ahead."

"Well, Mike," remarked the foreman, "I'm sorry you're leaving the works. Aren't the wages satisfactory?"

"The wages are all right," returned Mike, "but I keep having a guilty feeling all the time."

"About what?"

"I'm all the time thinking I'm doing a horse out of a job."

Host—"Come right in. Don't mind the dog."

Visitor—"Doesn't he bite?"

Host—"That's what I want to find out. We just bought him this morning."

A farmer who was rather miserly in all things bought a horse at a county fair. After getting it home and stabling it, he gave it some feed but the horse refused to eat. A little later it similarly refused water.

The farmer's eyes gleamed hopefully.

"By golly," he said excitedly, "if only this nag's a good worker, what a bargain I've made."

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION
for Coughs, Chest Colds, Bronchitis

Auto Registrations At Collector's Office Moved to West Wing

A rather important change occurred this week at the county tax assessor-collector's office [illegible] that is calculated to make office work smoother and a great deal less confusing.

Herman Darby, assessor-collector, reports that the automobile registration and certificate of title department has been switched to the west portion of the assessor-collector's office—a department that old-timers remember as the assessor's department.

Due to the fact that certificate of titles will be required of every car and truck owner in the county, the technical side of this work has increased many fold, Darby reports, making the separation of this from other assessor-collector work almost mandatory.

Darby is being assisted in office work by Edgar Taylor, deputy, and Alfreida Schultz. Patrons are invited to drop by—just as soon as new paint dries—to inspect the division of assessor-collector work.

Two Complete Air School Training

Ethridge Strickland and Willie Smyrl were reported this week to have completed their training at the Aircraft Training School, Dallas, and left Wednesday for San Diego, California, where they begin work in an aircraft factory.

Mrs. Strickland and daughter, Mrs. Smyrl and son plan to join their husbands in San Diego within the next three or four weeks.

Mr. and Mrs. Shirley Morgan and daughter, Shirlene, and Mrs. Fred Jones and son, Roger Wayne, were in Abilene Saturday. Morgan attended the ACC-McMurry College football game there.

Wondering about the 1942 cars?

Here is Buick's superb solution to the problems posed by making our national defense, as it should be, industrial America's No. 1 job

BUICK BUILDS FOR DEFENSE

Our assignment: Building Pratt & Whitney valve-in-head aircraft engines for defense use.

IT WAS no time to duck or dodge the facts. So we didn't try.

Instead we said—these being the materials critical in the defense program, we'll do our planning for 1942 with that foremost in mind.

Not merely for an "acceptable" car—certainly not for any "ersatz" number.

We had to have a real and representative Buick. One we could be proud of. One *able* enough, *active* enough, *durable* enough to serve till annual new models are the rule again.

We resolved on a 1942 automobile of such merit as could carry the Buick reputation without fault until other new Buicks, however far off, could come along to refresh it.

Now we're announcing those 1942 cars.

Why waste words telling you how good they are! You can't put language in the gas tank and learn either how many or how enjoyable are the miles you'll get per gallon.

There's a better answer—you drive these cars themselves. Come on, do that! Put your *own* yardstick on their quality.

It would be a shame, for you and for us, to have you miss the dreadnaught Buick we've built to stand up successfully to the toughest job in years.

No other car has ALL THIS FOR YOU IN 'FORTY-TWO

FIREBALL STRAIGHT-EIGHT VALVE-IN-HEAD ENGINE ★ COMPOUND CARBURETION (standard on most models) ★ OIL-CUSHIONED CRANKSHAFT PINS AND JOURNALS ★ STURDI-LITE CONNECTING RODS ★ STEPON PARKING BRAKE ★ BROADRIM WHEELS ★ FULLY ADJUSTABLE STEERING POST ★ BODY BY FISHER ★ WEATHERWARDEN VENTI-HEATER (accessory)

ducts Show To Draw Prize 4-H Club Pigs

Edward S. Hyman, county agricultural agent, reported Wednesday that the county 4-H Club boys who received pigs several weeks ago in the Sears, Roebuck & Company Sow-Pig-Hen contest will exhibit their pigs next week at the Scurry County Products Show.

The pigs, which will be entered in the regular 4-H Club and FFA Department will also compete for additional prizes offered by Sears, Roebuck & Company.

Two best pigs exhibited at the Products Show will be eligible for either a registered Jersey heifer or 150 white leghorn chickens. Other prizes will be 100 chickens, 50 and 25 chickens for additional placings.

County 4-H Club boys who received pigs in the contest include Henry Gafford Jr., Hal Clarkson, Jack Flippin, Leonard Gill, Walter Ellerd, Austin Casey, James Perry Echols, Truman Wemken and W. J. Corbell Jr.

Two high ranking pigs exhibited at the Products Show will be entered in the four-county contest at Sweetwater October 31, Hyman points out.

Let us be true: This is the highest maxim of art and of life, the secret of eloquence and virtue and of all moral authority.—Amiel's Journal.

Hermleigh Future Farmers Elect New Officers for Year

Hermleigh's Future Farmers of America chapter elected chapter officers Monday evening and transacted other business of importance to current chapter work.

Officers were named as follows:

C. A. Dacus Jr., president; Ray Bucklow, vice president; Jimmie Chorn, secretary; Frank Kubena, reporter; Joe Roemisch, treasurer; Harold Mason, historian; Clyde Neal Martin, parliamentarian; Doyle Wemken, farm watch dog; C. A. Dacus Jr., band leader; and C. B. Bentley, chapter adviser.

Katherine Reeves, daughter of Mr. and Mrs. Lloyd Reeves and a senior in Hermleigh School, was named, unanimously, Hermleigh FFA chapter sweetheart for the ensuing year.

Total of 11 "Green Hands" were initiated Monday evening. They were: J. P. Hale Jr., Joe Doris Roemisch, Jessie Henley, Billy Harkins, Clyde Neal Martin, Edward Bevil, Fred Campbell, Jack West, Orvil Hillis, Billy Bob Bayless and W. L. Wemken.

Visitors at Monday evening's FFA meeting included A. C. Bishop Jr., school superintendent; J. H. Herring, Ben W. Newhouse, band director, and a number of chapter member's fathers.

The Bernard Longbothams Jr. and daughter, Connie, of Shallowater are visiting with local relatives and friends.

Tigers Will Play First Conference Game With Roby

With four practice games behind them which have showed Snyder's Tigers sometimes hot and sometimes cold, the local lads open conference play in District 6-A Friday night at Tiger Stadium against the Roby Lions. A large delegation of Roby boosters are expected to follow their charges here, and Coaches Frank Weaver and Hollis Schultz declare their Bengals will give them plenty of action.

This week's game will also be the first conference tussle for the Fisher County gridmen, whose early season record is a little better than that of the Tigers. They won a close one from Rotan, last year's district runner-up and considered fairly strong again. The Lions are reported to be in good shape for this week's tilt. The Tigers will be out to boost their percentage, having lost three out of four of their pre-conference games. The locals lost last week to Munday's Moguls, 6-0.

Snyder's starting line-up:

NAME—	No.	Wt.	Pos.
Owen Dorman	75	150	RE
Junior Miller	78	160	RT
Forrest Bruton	88	160	RG
Jimmy Burt	84	160	C
Milton Moore	83	155	LG
Jack Blanchard	77	178	LT
Orval Rollins	76	143	LE
Bobby Hicks	80	120	LH
W. T. Thompson	86	148	RH
Ross Blanchard	87	160	FB
Howard Crenshaw	74	142	QB

Substitutes: Eddie Richardson, No. 72; Douglas Witherspoon, 98; William Leftwich, 82; J. B. Early, 89; Billy Bob McMullen, 71; Raymond Keller, 79; Jimmy Randals, 73; Tommy Major, 68.

Mrs. Dennis Adams, Mickie Norred and Thelma Coleman drove to Comanche during the week-end for a visit with Mrs. Adams' parents, the L. L. Lightfoots. En route home they drove out to Camp Bowie, Brownwood, and inspected the camp under direction of Mrs. Adams' brother, Spencer, who is stationed at the army camp.

Mr. and Mrs. Royce C. Elland and young daughter, Cherry Lynn, of Childress were week-end guests of Mrs. Ethel Elland.

Conscience is merely our own judgmentment of the right or wrong of our actions, and so can never be a safe guide unless enlightened by the word of God.—Tryon Edwards.

Though a good motive cannot sanctify a bad action, a bad motive will always vitiate a good action.—William Jay.

Products Show to Be Well Policed Next Week-End

Scurry County's 1941 Products Show, to be staged here Thursday through Saturday of next week, will be the best policed show on record in annals of county fair history!

So declared Products Show officials Tuesday afternoon, following completion of arrangements to provide all the watchmen and caretakers needed to keep the triple-day show operating at a smooth clip.

Total of six watchmen wil be placed on duty at this year's Products Show, C. T. McLaughlin, show chairman, and R. G. Dillard, chairman of the catalog and advertising committee, announce.

Watchmen will be on duty 24 hours per day during the Products Show, so exhibitors can rest assured that no vandalism will be tolerated in any form.

Watchmen and Products Show officials will stand directly responsible for exhibits at the show from Thursday evening's formal opening to the 9:00 o'clock expiration date of the show Saturday evening.

Therefore, when the 9:00 o'clock time limit of the show rolls around and exhibitors get ready to take their products and goods home, the Products Show stands ready to pay for the goods if they cannot be produced.

Arrangements are being made to carry on the triple-day show rain or shine, so exhibitors can rest assured that entries will be viewed by the biggest number of people that have yet attended a county exposition.

Stampede Begins To Secure State Drivers' Licenses

Almost half the residents of Scurry County became excited Wednesday over the campaign for driver's licenses—a movement that is state-wide in extent.

There's really no great hurry, State Police Director Homer Garrison explains to county car and truck owners. From now until December 31 old licenses from one to 450,000 will be renewed.

From January 1, 1942, until March 31, those numbered from 450,001 to 900,000 will be renewed.

Those numbered from 900,001 to 1,350,000 will be renewed between April 1 and June 30.

Any license numbered from 1,350,001 upward will be renewed between July 1 and November 1.

Here's the procedure for getting your new license:

Obtain an application form from any highway patrolman or drivers' license examiner, or by writing directly to the Department of Public Safety in Austin. The forms also will be available from police and sheriff departments, banks or other public places.

Either print in ink or use a typewriter to fill out the application, enclose a 50-cent money order or cashier's check with it, and mail it directly to the Department of Public Safety, Austin. The new license, good for two years, will be mailed to you from Austin.

Persons renewing licenses will not have to take an examination unless they have a bad record of traffic violations or collisions.

But if you fail to renew your license in the stipulated time, you will be liable both to arrest for driving without a license and an examination.

This period is not essentially one of conscience; few feel and live now as when this nation began, and our forefathers' prayers blended with the murmuring winds of their forest home.

Labor to keep alive in your breast that little spark of celestial fire called conscience.—George Washington.

Charity is never lost; it may meet with ingratitude or be of no service to those on whom it was bestowed, yet it ever does a work of beauty and grace upon the heart of the giver.—Middleton.

Draftees Urged to Travel Light on Way To Army Centers

County Selective Service registrants are requested by the local board, when en route to army induction centers, to travel "light," taking nothing but essentials in order to avoid inconvenience to themselves and others.

One small bag, for example, should be sufficient to carry the things a selectee needs until he is given his equipment by the U. S. Army.

"If you wish, take a small bag with a few clean clothes, a few handkerchiefs, socks, soap, towel and other necessary toilet articles. These are not essential, for you will be issued necessary equipment by the Army, but they may come in handy should there be any delay in your induction.

"Leave jewelry, large sums of money, and other valuables at home, for they may be easily lost. If possible, take a little spending money for such needs as you may have before your first pay-day. Take some postal cards or stationery and stamps, a fountain pen, and an inexpensive watch if you have them."

Selectees were warned by local draft board members to leave automobiles and motorcycles at home. Commanding officers will tell the men on their posts if they may have these vehicles and the soldiers will then have an opportunity to get them from their homes, they pointed out.

The young wife was heart-broken. "What's the matter?" asked a friend.

"Oh, my husband is so absent-minded. After breakfast he left a tip on the table and when I handed him his hat he handed me another tip."

"Well, that's nothing to worry about. It's just force of habit."

"That's what worries me. He kissed me when I gave him his coat."

Gradine Fisher and Frances Chenault, Johnson Motor Lines employees in Abilene, spent the week-end with homefolks in Snyder.

Do not wait for extraordinary circumstances to do good actions; try to use ordinary situations.—Richter.

Mrs. Lora Miller is home now after spending a week with her daughter, Mrs. Melvin Stoker of Abilene, who has had a severe siege of pneumonia. Mrs. Stoker, the former Bonnie Miller, is doing well now, Mrs. Miller reports.

Thursday Will Be Intake Day For Blind Applicants

Jim Cloud, local representative of the State Department of Public Welfare, announced this week that Thursday, October 16, will be the intake day for October on acceptance of applications for aid to dependent children.

"As it will be impossible to accept applications for aid to dependent children, aid to needy blind and old age assistance applications on the same date," Cloud stated, "we have set Thursday after the second Monday in each month as the date for taking applications for dependent child aid.

"My regular intake day," Cloud points out, "for the purpose of accepting applications for old age assistance and aid to the needy blind will continue in the future as in the past, that date being Thursday after the third Monday of each month."

All persons interested in making application for aid to dependent children are urged to contact Cloud at the courthouse on Thursday after the second Monday of each month.

Mrs. Jim Farrar, her son, Paul, and daughter, Billie, and her mother-in-law, Mrs. Cornelia Farrar, all of Brownfield, were Sunday guests here of the older Mrs. Farrar's nieces, Mrs. A. M. Curry, Mrs. Minnie Jonte of San Diego, California, and Allene Curry.

New Equipment for Snyder Tailoring Co.

Mr. and Mrs. Earl Fish of Snyder Tailoring Company are announcing installation of a new boiler at their plant just south of the Palace Theatre. The new equipment was received last week.

The yeteran Snyder cleaners and tailors say that the new equipment will assure them of capacity production no matter what the weather this winter, and invite friends and customers in to see them.

The place of charity, like that of God, is everywhere.—Quarles.

IT PRACTICALLY PURRS YOU TO SLEEP!

The NASHUA BLANKET That HAS EVERYTHING
CHOSEN AS OUR OCTOBER BLANKET FEATURE
- 5-Year Guarantee against Moth Damage
- Luxurious Extra-Wide Rayon Satin Binding
- 6 Full Inches Longer Than Standard Size
- Warmer Than Many Higher Priced Blankets

$6.95

It LOOKS like other Blankets, of very luxurious quality. It FEELS like other Blankets in your hands. But one night's sleep under NASHUA'S PURREY will convince you that here is an amazing new kind of Blanket. Wonderfully warm and light, it is made of rayon and wool! The long fluffy nap has a glorious sheen, while laboratory tests show it is warmer than many blankets selling at higher prices. The rayon satin binding is five inches wide, a sumptuous note indeed! 72x90 inches, six inches longer than the usual size, which means plenty of length to tuck in at the foot and wrap snugly under your chin. Guaranteed against moth damage for five years, it ends your worries about storing in Summer. Seven gorgeous solid colors: Winter Rose, Blue, Green, Dusty Rose, Yellow, Rose and Peach.

Pay Delinquent Taxes Now Without Penalty!
(Taxes for 1940 Excepted)

House Bill No. 76 provides that delinquent taxes on real and personal taxes, prior to 1940 may be paid during October without penalty and interest. On November 1 unpaid delinquent taxes will draw penalties, some as much as 46 per cent.

In order to take advantage of the penalty and interest savings on delinquent taxes, all taxes must be paid at the same time. In other words, only a portion cannot be paid.

Taxpayers are urged to avail themselves of these savings on their delinquent taxes, as we feel sure all taxing agencies will resort shortly to more stringent means of tax collection.

State and County taxes are covered by the bill, as well as taxes for the Canyon and Ira School Districts, which are collected at my office.

Herman Darby
Tax Assessor-Collector for Scurry County

Plainview School To Present First Pageant Friday

Entertainment 3 nights of the month for people of Plainview and nearby communities will be presentation Friday evening at Plainview School of a school pageant-operetta. The program will start promptly at 7:45 o'clock.

Directed by Mr. and Mrs. J. T. Glass, the free entertainment program will be known as "The Autumn Fantasy." Students participating in the performance will do so as the first in a series of extra curricular activities for the current school year.

Cast for the entertainment follows:

Harvest queen, Vernelle Head; Brownies, Ted Arnold Jr. and Curtis Corbell Jr.; Man of the Fields, Marshall Pylant; Man of the Gardens, W. H. Arnold;

North Wind, Bobby Corbell; East Wind, Dorothy Mae Arnold; West Wind, Daphna Eicke; South Wind, Farris McCombs; Jack Frost, E. J. Russell; Fairy Queen, Patsy Pogue;

Fairy attendants, Norma Sue von Roeder and Virginia Arnold; flower attendants, Anita Head, rose, Tellice Eicke, carnation, and Janice Smith, violet; queen bee, Bobby Ward;

Worker bees, John Paul Derryberry, Earl and Kenneth Oliver; bluebirds, Eula Pearl Arnold, Winfred Derryberry, A. B. Pylant and Willie Joe Hendrix;

Sunbeams, Mary Dove Pogue, Colleen Smith, Joyce von Roeder and Clarice Mae Russell.

Woman Who Forged Checks in Area Gets Two Years in Pen

Local officers were resting "easier" this week, after a 32nd District Court at Sweetwater assessed Mrs. Georgie May Irvin of Abilene two years in the state penitentiary on charges of passing a forged instrument.

Mrs. Irvin was wanted in 14 towns of this section of the state for passing forged checks. J. B. Patterson, also of Abilene, is now at liberty in Abilene, and has been charged with forging the checks Mrs. Irvin passed in Sweetwater. He was arrested after the "female check artist" made a statement to Sweetwater officers involving the Abilene man.

Deputy Sheriff N. D. Reeves of Nolan County says Mrs. Irvin was taken to Beaumont early this week to face forgery charges there. Officers throughout this section of West Texas have been on the lookout for her the past several weeks.

Demonstration Club Notes

Estella Rabel, County Agent

Attractive everyday foods for defense can mean three things—first, everyday foods are foods which are common, such as vegetables and fruits of all kinds, milk, cream, butter, eggs, meat and lard, second we want foods to be attractive. In the words of a great nutritionist, we want them to have E. A.—"Eating Appeal." Then the foods we select should provide the kind and amount of nutrients that are best for our bodies.

If the woman can make everyday foods attractive—then she is serving food for defense. The army is being taken care of—what concerns us is our families. We want them to be well—glad to be up, alive and doing.

We suggest one day's meals of attractive every-day foods.

Breakfast.

Rolled oats cooked in milk plus top milk and sugar; dried apple sauce, hot (cinnamon and sugar); crisp bacon; biscuits, cinnamon rolls; coffee and milk.

Dinner.

Tomato crown (hamburger or sausage, onion, tomato); whole wheat bread; butter; cabbage slaw (cream dressing); baked brown rice and date pudding, plus milk to drink.

Supper.

Creamed peas and eggs, plus parsley; raw carrots; swiss chard; yellow cornmeal muffins; butter; preserves; milk to drink; fruit and cream.

A few of the above recipes:

Brown Date and Rice Pudding—
3 T rice
1-8 t salt
4 C milk
3-4 C dates, chopped

Mix the first four ingredients and put in baking dish. Bake in a low oven (very low) from 2 3-4 to 3 hours. Add dates 30 minutes before done.

Hot apple sauce—

Wash 1 lb. dried apples. Let soak overnight in enough water to cover. Cook in covered vessel until tender. Put through sieve, and serve hot. Sprinkle with cinnamon and sugar mixture of 2 T cinnamon to 4 T sugar.

Tomato crown—
1 T butter
8 slices of onion 1-2 inch thick
2 t salt
8 sausage patties or slices about same size as onion slices
4 tomatoes

Grease a shallow baking dish or pie pan of a size to hold the onion slices as a single layer. Heat the butter in a frying pan. In this brown lightly the slices of onion and place them in a greased dish. Salt and pepper each onion slice and upon each place a sausage pattie. Remove the stem of each tomato and cut in halves crosswise. Do not peel. Salt and pepper each one and place on top of a pattie, skin side up. Bake in a moderate oven (350 degrees F) until both onion and tomator are tender, about 45 minutes.

An interesting Achievement Day program was held Tuesday at the home of Mrs. Rusty Prescott, cloth-ing demonstrator for the China Grove Home Demonstration Club.

Estella Rabel, county home demonstration agent, was present and demonstrated cookery preparations to Mmes. Bill Hairston, Iva Prescott, R. D. Mallory, Hairston, Stanley Merket, Jim Merket, O. N. Laster and Cliff Stevenson.

It was reported at the Achievement Day program that the China Grove Home Demonstration Club has turned in 20 garments, and reported 29 more Red Cross garments completed. Members of the club are doing their part in the national defense program.

Mrs. Rusty Prescott has added a clothes closet—one made of scrap lumber and scrap materials at no expense to her. She makes her own clothes and has set her clothing budget at $35.49. Mrs. Prescott has a foundation pattern and has made five dresses by the pattern. This club member is keeping a complete record of all expenses.

Formal Conoco Blessing Given New Wholesaler

Presentation of the robes of office to Herman E. Doak, and the giving to him of the necessary equipment by Frank Moore of Ponca City, Oklahoma; composed a high point of installing Doak Friday evening, in the basement of the Methodist Church, as authorized Continental Oil Company wholesale dealer for Snyder.

Doak succeeds his father, W. E. Doak, as local Conoco dealer. The elder Doak served as Continental Oil Company dealer here many years, and was extended thanks from Conoco officials for his loyal service.

Moore, who is associated with the company's sales department at Ponca City, made a talk that had attendants cheering when he halted for breath. Moore was born and reared in Australia, and related important mileposts in the growth of Continental Oil Company.

John Simmons of Sweetwater, district Conoco superintendent, was toastmaster for the dinner that preceded the induction ceremonies. Dinner course, served by ladies of the Methodist Church, consisted of fried chicken, candied sweet potatoes, gravy, fruit salad, pie and dressing. Mrs. Lucile Daugherty furnished music during the dinner hour.

Total of 35 local business and professional men were attracted to the church for the occasion. Continental Oil Company officials present, besides Simmons and Moore, included P. W. Riggins, Truman Joyce and Charley Oden, all of Conooo's Fort Worth office.

It is not the incense or the offering which is acceptable to God, but the purity and devotion of the worshiper.—Seneca.

Rules for Exhibitors Set at Products Show

Rules and regulations for Scurry County's 1941 Products Show, which will be staged here Thursday evening through Saturday of next week, provide that:

All booths, except those of the schools, must be in place not later than 6:00 p. m., Thursday, October 16, and must remain until 9:00 p. m. Saturday, October 18.

All livestock must be in place and registered not later than 10:00 a. m., Friday, October 17.

Judging of all classes will begin promptly at 10:00 a. m., Friday, October 17.

Livestock cannot be moved until after 3:00 p. m., Saturday, October 18.

The decision of the judges will be final, and no appeals will be considered.

Ten Draftees To Answer Call Into Service Sunday

Officials of Scurry County's Selective Service Draft Board issued a call this week for 10 county draftees to report Sunday afternoon, 4:00 o'clock, at the city hall, preparatory to being sent to El Paso, for induction into the U. S. Army.

County draftees ordered to report Sunday afternoon include:

R. L. Sturdivant, order No. 467; Earl Edward Sturdivant, order No. 518; J. W. Lee, order No. S-604; William Harwood Miller, order No. 617; J. M. Sterling, order No. S-623; Johnie Doyle Boswell, order No. 634; Delbert Clyde Jones, order No. 635; Morris Eugene Underwood, order No. S-642; Lonnie D. Wiggins, order No. 644; and Robert Lee Lunsford, order No. 681.

So far as local draft board members know to date, Sunday's call will be the only one set for October. Needs of inducting more recruits later in the month, however, might change the picture, they report.

Let the motive be in the deed and not in the event. Be not one whose motive for action is the hope of reward.—Kreeshna.

When a man has not a good reason for doing a thing, he has one good reason for letting it alone.—Walter Scott.

Read About Your Friends in the Rural Sections of the County

Ira News

Mrs. Mabel Webb, Correspondent

Billy Wayne Williams of Snyder spent the week-end with his grandparents, Mr. and Mrs. H. M. Blackard.

We are glad to report Mr. Miner able to be up again after suffering from injuries from a fall.

We extend our sympathy to the loved ones of Mrs. Thompson, who passed away last Tuesday at her home in Snyder.

Mrs. Oscar Webb spent Friday with her daughter, Mrs. B. F. Eades of Snyder.

Mrs. Sears Cook returned home last week after a three-week visit with Mr. and Mrs. Shirley Cook of El Paso. Mr. and Mrs. Cook are entertaining a baby boy.

Mr. and Mrs. Edgar Eades attended the BTU zone meeting at Snyder Sunday afternoon.

Rev. W. A. Strickland of Dunn filled his regular appointment at the Baptist Church over the week-end. He was accompanied by his wife and her sister, Mrs. Scott of Carlsbad. They were guests in the Sears Cook home Sunday.

Mr. and Mrs. Lloyd Webb and son, James Lewis, attended a family reunion in the W. W. Lloyd home of East Snyder.

L. M. (Bub) Kruse of Louisiana spent the week-end with relatives here and at Snyder.

Mrs. Eugene Kruse and a group of girls attended singing at the Tabernacle Baptist Church at Snyder Sunday afternoon.

Rev. R. E. Bowden of Big Spring will fill his appointment at the Church of God Sunday afternoon and night.

The Ira P-TA will have a called meeting at the school house Friday afternoon, October 10, at 4:00 o'clock to discuss and lay plans for a lunch room at the school. Every one is invited to attend this meeting and help get the lunch room started.

Sunday visitors in the W. O. Webb home were Mr. and Mrs. W. C. Eades and children, J. C., Frances and Jack of Crowder, Mr. and Mrs. H. S. Rodgers, Bill Rodgers and daughter, Lucille, Bobbie Joyce and Johnnie Overbolt, all of Canyon, and Mr. and Mrs. John Taylor.

Mr. and Mrs. J. A. Merritt of the Pleasant Hill community visited Mr. and Mrs. E. W. Baldwin Sunday.

Mr. and Mrs. John Taylor visited Mr. and Mrs. J. A. Merritt of Pleasant Hill Monday.

Melvin Howard and Campbell Lloyd of San Antonio spent the week-end with their parents, Mr. and Mrs. W. M. Howard and Mr. and Mrs. M. L. Lloyd.

Mr. and Mrs. H. M. Blackard visited in the Wayne Williams home at Snyder Sunday.

Mr. and Mrs. Marshall Boyd and son, Jimmie, visited Sunday afternoon with her parents, Rev. and Mrs. R. E. Bratton of Canyon.

Mr. and Mrs. Bill Childress and children visited in the Clyde Childress home of Dunn Sunday night.

Cars Collide at Church Corner.

Shock and slight lacerations resulted Saturday evening when Mrs. Jesse V. Jones, driving a 1941 model Chevrolet sedan, collided with the Bill Greene automobile at the First Baptist Church corner. Mrs. Jones was confined to bed most of Sunday, but is reported able to be up and about now. Greene sustained minor injuries, while one side of his car was virtually crushed.

Dunn News

Mrs. L. A. Scott, Correspondent

Helen Ramsour of Ft. Worth is spending several weeks with her grandparents, Mr. and Mrs. L. E. Russell.

Miss Eda McFarland of Fort Worth spent last week with her father, Ray McFarland. Eda is taking a business course in Fort Worth.

Mr. and Mrs. Elmo Herring and son, Doyle, spent Sunday in Abilene with Mrs. G. Herring.

Mrs. B. B. Johnson of Pyron returned to her home Sunday, after spending several days here in the home of her son, Royce, and Mrs. Johnson.

Mrs. G. N. Richardson was carried to Young Hospital, Roscoe, Friday night where she received treatment for her teeth. She was brought home Sunday.

Mr. and Mrs. C. E. Tarter of Snyder were Saturday night guests of Mr. and Mrs. Carl Tarter and children.

Mrs. W. P. Edwards is receiving medical treatment in a Colorado City hospital.

Mr. and Mrs. Dick Billingsley of Colorado City were supper guests of Mr. and Mrs. N. A. Billingsley and son, Sunday.

Dale, son of Mr. and Mrs. L. W. Cotten, who received a broken leg when kicked by a horse a month ago, is improving nicely.

Junior Turner of Barstow is here working for her uncle, W. L. Turner.

N. A. Jr., son of Mr. and Mrs. N. A. Billingsley, Harold, son of Mr. and Mrs. D. M. Denson, and Havis, son of Mr. and Mrs. W. W. Black, all of Dunn, left Sunday morning to enter the Aeronautical Institute at Dallas.

Dunn School News.

Members of Dunn's senior class this year are: T. E. Grimes, president; Yvonne Harrison, secretary; Sue Dene [illegible] Marlene [illegible], Billie Jo Denson, Bonnie Durham, Charles Merritt, Wayne Cotten.

Dunn School is in the sixth week of study and progressing nicely. Two new teachers are with us this year. Fay Massie, a graduate of McMurry College, Abilene, teaches English and Spanish; Mr. Weyman teaches typing, history and music.

The P-TA has started activities for the school year, with one meeting a month to be held at night. A Hallowe'en carnival is being planned by the group for October 31.

School will be dismissed Friday for two weeks, in order that the children may help gather crops.

Bethel News

Helen Watkins, Correspondent

Mr. and Mrs. Weldon Sumruld are the proud parents of a baby girl.

Mr. and Mrs. C. W. Beavers and children visited their daughter, Mrs. Ray Haney, and family Sunday.

Mr. and Mrs. J. R. Jones of Dunn visited in the O. C. Moses home Sunday.

J. B. Moses of the Valley has been visiting in the O. C. Moses home.

Mr. and Mrs. Marvin Bishop and children of Bison and Miss Margie Heath of Pleasant Hill spent Sunday in the E. E. Woolever home.

Nellie Marie Morton spent Saturday night with Joyce Moses.

We are sorry to have lost the Jim Greens from our community, but we hope they like their new home at Pleasant Hill.

Standard Quantities for Exhibits at Products Show Given for Exhibitors

C. T. McLaughlin, chairman of Scurry County's Products Show, points out that standard quantities for exhibit at the show October 16-18 will prove of untold value in determining show winners.

The show chairman is joined by Harrie Winston, general show superintendent, and other officials in urging exhibitors to observe these rules for standard quantities in exhibits:

1.—Cotton, 20 bolls.
2.—Corn, 10 ears.
3.—Grain sorghums (feterita, hegari, milo, kaffir, etc.), 10 heads.
4.—Small grains (oats, wheat, barley, etc.), one quart or one bundle five inches in diameter.
5.—Hay and forage (sorghums, sudan grass, dorso, hays, native grasses), one bale eight inches by 15 inches or one five-inch bundle.
6.—Legumes (alfalfa, soy beans, cowpeas, etc.), one bale eight inches by 15 inches.
7.—Irish potatoes, one plate of six potatoes.
8.—Sweet potatoes, one plate of six potatoes.
9.—Turnips, one bunch of six turnips.
10.—Beets, one bunch of six beets.
11.—Carrots, one bunch of six carrots.
12.—Radishes, one bunch of six radishes.
13.—Spinach, three bunches three inches.
14.—Mustard greens, three bunches three inches.
15.—Swiss chard, three bunches three inches.
16.—Pumpkins, one (any variety).
17.—Squashes, three (any variety).
18.—Watermelons, one (any variety).
19.—Cabbage, one head.
20.—Cucumbers, six (any variety).
21.—Cantaloupes, three.
22.—Roasting ears, six.
23.—String beans, one plate cross, or one quart (canned in glass jar).
24.—Peas (fresh), one pint, or one quart canned in glass jar.
25.—Peas (dried, shelled), one quart.
26.—Beans (dried, shelled), one quart.
27.—Okra, 12 pods.
28.—Onions, one plate of six.
29.—Green onions, one bunch of six.
30.—Collards, one stalk.
31.—Egg plant, one fruit.
32.—Pepper (Mexican), one pint.
33.—Peppers (bell), one plate of six.
34.—Tomatoes (any variety), one plate of six.
35.—Eggs, one dozen of brown or of white.
36.—Butter, one pint in glass jar.
37.—Cottage cheese, one pound.
38.—Lard (home-made), one pint in glass jar.
39.—Wool, one fleece.
40.—Mohair, one fleece.
41.—Tree fruits, one plate of 6 or one quart canned in glass jar.

Rev. J. W. McGaha, Veteran Baptist Preacher, Sees 62 Years in Pulpit

Sharing the joys and sorrows, the successes, failures and achievements with people for 62 years has been the outstanding record marked up by Rev. J. W. McGaha of the Canyon community. The pioneer Baptist minister has preached in pulpits from Alabama to Texas, and in practically all sections of Central West Texas.

This span of service as a soldier of the cross will be celebrated Sunday morning, October 19, when the veteran Baptist minister preaches his 62nd anniversary sermon at Canyon Baptist Church.

Rev. McGaha, now 83 years of age, recalls that he preached his first sermon 62 years ago at the Baptist Chapel one and a half miles east of Winfield, Alabama. He was 21 years of age at the time, and chose as his sermon text, "For What Shall It Profiteth a Man," based on Mark 8:36.

Besides pastoring churches in Alabama and various points of Central West Texas, Rev. McGaha has pastored churches at his home community, Mooar's Creek, Ennis Creek, Ira, Camp Springs, Westbrook, Buford, Dunn and other communities in this immediate vicinity.

For 41 years now, with the exception of a little "furlough" eastward, "Brother" McGaha, as folks of every creed know him, has been living in Scurry County. He settled in the Canyon community—at one time the most densely populated area of the county—and has continued to live there.

Traveling along life's pathway, "Brother" McGaha has married so many couples, buried so many dead and preached so many sermons that practically every family in the county that has been here 20 years or more can recall incidents in which the kindly and sympathetic preacher has been "a very present help in time of trouble" for them, or their friends and relatives during his more than 40 years in the county.

The general public is extended a cordial invitation to be at Canyon Sunday morning, October 19, at the 11:00 o'clock hour for "Brother Mc's"

REV. J. W. McGAHA

anniversary sermon. He wasn't sure Wednesday just what his text would be, but promised that it "will be one of interest to my friends and acquaintances throughout this section of the state."

Still a keen student of the Bible, "Brother" McGaha will bring a sound old-fashioned gospel message the third Sunday morning that will fit people today as aptly as that first sermon in Alabama 62 years ago.

Dinner, the good old fashioned basket lunch variety, will be spread at Canyon School during the lunch hour. Friends and neighbors will bring their lunches to help celebrate the occasion, and a session of gospel singing will follow in the afternoon.

The pioneer Baptist preacher was born and reared near Winfield, Alabama, and became interested in the Bible and ministerial work at an early age.

Through all the years since he became interested in the Bible, Rev. McGaha has held to a kindly philosophy of life built around the tenets of the Golden Rule. He believes that people need the gospel now more than ever, especially in view of the troublesome times the world is now going through—a world that is said by some preachers to be in "The Last Age," referred to so unmistakeably in prophecy.

Now that Rev. McGaha has silver in his hair, and is looking at the orange and gold across life's horizon, his friends and neighbors say he imparts his Biblical knowledge to them more clearly than ever. His words are accepted as jewels of truth, given by a preacher who has looked on life and found every single step beautiful and intrigiting. That's why his friends and neighbors are extending the public an invitation to join them Sunday week in making the day a special occasion, not only for "Brother" McGaha, but for Canyon Baptist Church as well.

Church of Christ

Bible classes Sunday morning at 9:45 o'clock. Worship at 10:45 a. m. and 7:45 p. m.

Young people's class, 7:00 p. m.

Ladies' class, Wednesday, 2:30 p. m. Prayer meeting 7:45 p. m.

Sunday morning sermon: "The Sabbath and the First Day of the Week." In this discourse Bro. Kelcy will answer these questions: "Is the Sabbath law still binding? Is Sunday the Christian Sabbath? Did the Catholics Change the Day as They Claim?"

Sunday evening sermon, "The Rise of Catholicism." This is the second in a series of sermons on the New Testament church. In this discourse the development of the Catholic hierarchy and the rise of ecclesiasticism will be discussed.—Raymond C. Kelcy, Minister.

Violators of Tax Provisions Will Harbor Trouble

Tell Them, Secretary F. a message to The Times Wednesday, warns that it will crack down on any "tax profiteers"—dealers, for example, who attempt to reap larger profits by misrepresenting the new federal excise taxes which went into effect Wednesday.

The Bureau of Internal Revenue states it will seek prosecution of:

Any merchant, for instance, who increases the price of an article 20 per cent to cover a 10 per cent tax, and then advertises that the entire increase was due to added taxation.

Any dealer, who by purchasing in large quantities, undersells smaller competitors and calls attention to his accomplishment by telling the public: "We absorb the tax."

The bureau will rely on its recently increased staff of field agents and upon the consumer public to detect law violations. The Office of Price Administration also plans to watch price increases closely.

The revenue code provides a maximum of $1,000 for dealers falsely blaming high prices on the new federal levies. The 1941 tax bill contains a section providing a similar penalty for dealers who attempt "to lead any person to believe that the price of the article does not include the tax imposed by this chapter"—in other words, the people who tell the public we absorb the tax."

Most of the new excise taxes, county residents are informed, will be levied on the basis of the manufacturer's price, rather than on the retail sales price, except in the case of furs, jewelry and cosmetics, which will be taxed 10 percent above the retail price.

Among the commodities which will now be higher as a result of the new excise taxes are washing machines, radios, cameras, playing cards, musical instruments, electric goods, gas and oil appliances.

Doctor (after examination)—"I must tell you frankly, madam, that I don't like the looks of your husband."

Patient's Wife—"Well, I admit he's not handsome, but he's very good to me and the children."

Duff Car Found Held in Storage; Thieves at Large

Stolen cars, sometimes, like chickens, have a habit of getting back home after so long.

Duff's 1939 model Studebaker sedan, which had been listed among the missing for several weeks. Late last week it was found in New Mexico officers that his car was in storage at Hobbs, New Mexico.

Duff went immediately to Hobbs, and discovered that the automobile had been in storage there 29 days. It was taken in tow by New Mexico state troopers, after being abandoned near Hobbs, but they had delayed, for some reason, the sending of proper word to local officers.

Duff, upon payment of a 29-day storage charge, was allowed to bring his automobile back to Snyder. He got back Monday evening, and stated the only equipment missing was the tire, tube and accessories sold by the car thieves in Gail.

The Studebaker isn't what it used to be, however, for the thieves evidently drove it at top rate speed to the spot where they abandoned it. The motor sounds all right, but is now a heavy oil drinker, Eunice reports, and the body has been shaken and brakes injured by unusually fast driving.

So far as New Mexico and Texas officers knew late Wednesday, the thugs who took the Duff machine remained "on the loose."

Baumgardener Has Charge of New Hotel

C. R. Baumgardener, who recently purchased the Gulf Service Station a block north of the square on the Post highway, this week is announcing opening of a hotel in the building over Maples Funeral Home and a taxicab service for Snyder, with offices at his filling station.

The Snyder newcomer offers hotel accommodations, furnished apartments, room and board, or rooms at the new hotel, and stresses taxi service in connection with the new taxi business.

If the motives of human affection are right, the affections are enduring and achieving.

Munday Gridmen Down Locals on Wet Field Friday

Coaches Frank Weaver and Hollis Schultz of the Snyder Tigers found a wet field and a stubborn bunch of Munday Moguls too much to overcome last Friday night at Munday, and came home with a 6 to 0 defeat. It was the last warm-up game for the Tigers, who open their conference season here tomorrow (Friday) night against Roby's Lions, and the local coaches were said to have pulled some punches in trying to ready their team for the more important conference strife.

Other results involving members of District 6-A saw Merkel barely get by Winters, 7-0, and Loraine take Hermleigh's Class B Cardinals, 32 to 0. Merkel's Badgers were the surprise lunch of the week, expected to beat the Blizzards by a hefty margin.

Games this week pit Rotan against Roscoe, Loraine at Merkel, Baird at Ballinger, and Roby at Snyder.

Conference standings:

TEAM—	W.	L.	Pct.
Merkel	1	0	1.000
Baird	1	0	1.000
Snyder	0	0	.000
Rotan	0	0	.000
Roby	0	0	.000
Loraine	0	1	.000
Roscoe	0	1	.000

She—"Sorry I can't accept you, Bill, but circumstances over which I have no control prevent me."

He—"And what are those circumstances?"

She—"Yours."

Stribling Dispersion Sale Draws Interest Of Local Stockmen

County ranchers, livestock owners and other interested folk by the dozen left this (Thursday) morning for the John B. Stribling & Son Ranch community 32 miles south of Abilene to witness the dispersion sale of 40 linebred Herefords.

The Stribling-Ellsworth dispersion sale of linebred Anxiety 4th Herefords of straight Gudgell & Simpson breeding is attracting quite a bit of attention from cattlemen in this area. A number of strikingly good females are slated to go to the highest bidders.

During the past five years, Stribling reports, he and his son have sold $250,000 worth of Herefords. Their cattle business has earned an average net profit of approximately 20 percent on invested capital. John Stribling expresses the hope that he and his son will be back in the business "some day" with the best strain of animals money can secure.

"YOUR HOME COUNTY PAPER"

VOLUME NUMBER 54 — SNYDER, TEXAS, THURSDAY, OCTOBER 9 NINETEEN HUNDRED AND FORTY — ISSUE NUMBER 19

COUNTY GOALS FOR AAA TO BE OFFERED SOON

Allotments Being Speeded up About Six Months in Preparation for National Defense Canvass

Speeding up work to get 1942 AAA allotments to farmers by November 1 is the gigantic task facing county offices now, Ross Williams, chairman of the county AAA committee, announced this week.

Allotments are being issued about six months before the usual time since all decks must be cleared for the house-to-house canvass in the national defense program, the AAA official said. The farm plan sheet method, through which farmers plant crops for maximum payments under the AAA program, will be used by committeemen in the feed and food campaign.

Since greater production of milk, eggs and other foodstuffs are being asked of Texas farmers, county goals will be announced within a few weeks, Williams said. Secretary of Agriculture Claude R. Wickard outlined details of the defense program to Southern agricultural workers in Memphis, Tennessee, September 29 and 30.

Flexibility of the AAA program to curtail production of surplus commodities and at the same time increase production of commodities essential to defense needs is evidenced in the 1942 AAA program which has been designed to meet a national emergency, local AAA committeemen said.

Cotton, wheat and allotments will be established as in former years but no general allotments will be made because of the increased emphasis on feed and food. Allotments will also be established for commercial Irish potatoes.

When details of the 1942 program are received, educational meetings will be held in the various communities, the county AAA committee members concluded.

Plenty of Moisture Falls in Santa Fe's Area in September

"All sections of West Central Texas served by the Santa Fe experienced an unusual mixture of weather in September," the October 1 agricultural report of the Santa Fe Railway Company shows.

"Conditions ranged from unsettled to moderate rains during the early part of the month to severe storms and heavy rains the past 10 days. Rains have delayed the maturity and harvesting of cotton and permitted insects to take a heavy toll of young bolls and squares.

"Although rains the past 30 days have greatly improved grazing conditions, a sharp reduction is noted in Scurry and other counties in the number of turkeys. Early feed crops have matured and are being harvested, with too much moisture reported in sections of this area for harvesting of grain stuff as it ripens.

"A considerable amount of cotton bolling is underway in Scurry and nearby counties, but continued dry weather is needed to hasten cotton harvesting operations throughout October," he report concludes.

Bank Closes Monday.

Officials of Snyder National Bank announced this week that the town's only banking institution will be closed Monday in observance of October 12, Columbus Day, which falls on Sunday this year. Patrons are urged to arrange their business matters accordingly, so that the closing will not inconvenience anyone in this trade area.

Traffic Now Going Through Underpass At Colorado City

Traffic began going through the new Highway 101 underpass at Colorado City early this week.

The underpass is connected on the north by pavement with Colorado City's main street, which is U. S. Highway 80. On the south the underpass connects with the new Colorado River bridge, replacing one which washed away in the flood of June, 1939. Pavement extends several hundred feet south of the bridge.

Completion of the underpass and the bridge marks another step in the highway progress of Mitchell County.

Designated Highway 101 route connects Colorado City on the south with San Angelo via Sterling City. On the north it connects Colorado City with Snyder. The north part of the highway has been paved from Colorado City to the Mitchell County line for some time.—Colorado Record.

Increased Output Of Food and Feed Asked of Farmer

Farmers of Scurry and the other counties of Texas were asked this week by the U. S. Department of Agriculture State Defense Board to produce 162,000,000 pounds more milk and 18,000,000 dozen more eggs as their share in the food production drive for national defense.

Members of Scurry County's Defense Board announce through Ross Williams, chairman, that the Texas food production goals were announced at a Southern regional meeting recently in Memphis.

Williams points out that increases have been asked this week for vegetables and several feed crops to meet the forthcoming food needs of the nation.

Members of Scurry County's U. S. Department of Agriculture Defense Board declare that a food production goal for this county will be set shortly.

The county and community AAA committeemen, working with the local defense board, will contact every farmer in the county to assist in planning farming operations for 1942 so that each farmer may do his share in attaining defense production objectives.

Greatly increased production will be asked by the state defense board for virtually all kinds of farm and ranch products—milk, eggs, hogs, beef, lamb and mutton, oats, barley, peanuts, soybeans, grain sorghums, cotton, wheat, corn, veal and farm gardens.

Homicide Charges Filed Against Man After Death of Pair

Felix B. Secret Jr., employed as a consulting engineer for a Houston company on the Big Spring airport job, was charged at Colorado City Saturday night with negligent homicide as a result of the death of two negroes in a U. S. Highway 80 accident, one mile west of Westbrook, Friday midnight.

The negroes were struck by an automobile while trying to push their stalled car out of a muddy barrow ditch beside the highway, it was stated by officials. One colored man, Joe Calloway, 35, died in a Colorado City hospital before dawn Sunday and the other, E. M. Tennell, 19, died Saturday morning. Testimony of eye witnesses showed that Secrest gave first aid and called an ambulance. He made a bond of $1,000 and waived examining trial.

Birth Registration Regarded As Vital Factor for County Records

Maybe you, as an average Scurry County citizen, think that the mere fact that you are here is prima facie evidence that you were born. Such is not the case at all.

It doesn't even begin to be. And if you think it is, just try getting a job with the government, for example.

What is needed is a birth certificate. You've simply got to have one by one means or another, and if you haven't one, you should, by all means, get one as soon as possible.

The net result of which is that the Scurry County clerk's office has for the past two years been recording many more births than occurred in the two-year period. Many of the births occurred 40 or more years ago.

These are known as delayed birth certificates, and unofficially as office headaches. They are issued under a state law passed in 1939 and have become a considerable item in the routine of the clerk's office.

Getting the proper forms for the certificates filled out is not a simple matter, either, calling for answers to 21 questions as the facts existed at the time of the birth.

There are two of the forms, one for cases in which the attending physician at the birth is still living, and the other for cases where the attending physician is not living.

In the first case, the physician may fill out the proper form, supplied through the clerk's office, make an affidavit to its accuracy, and present it for filing.

In the second, however, two affidavits are necessary, both from persons who are personally acquainted with the facts and one of which must not be related to the individual either by blood or marriage.

No person may fill out his own certificate, since it is assumed that he can't remember that well.

The information called for includes place of birth, full name of child, sex, whether or not legitimate; and name, residence, race, age at time of birth, birthplace, occupation, and number of children born for both the father and mother of the person seeking the certificate.

And after all of that, the probate court may accept or reject the application for certificate, or require any additional proof deemed necessary.

New Building at A. & M. Will House State AAA Offices

Construction work is now getting underway on the new three-story building that will house the state AAA office on the campus of Texas A. & M. College. Pictured above is the artist's conception of the new structure, in which will be kept all AAA farm and ranch program applications and forms from Scurry and the other counties of Texas.

NYA Work Will Be Aid to Snyder School Students

Snyder School is one of 1,650 schools in the state that has qualified to offer NYA work to needy students who desire to stay in school, J. C. Kellam, state NYA director, announced Tuesday in Austin.

In addition to high schools that have qualified to take part in the National Youth Administration program during the current year, Kellam declares, 86 colleges have been approved to offer NYA employment.

As a result of the present NYA program, the state director declares that 20,000 young people in the state, from 16 to 24 years of age, are being enabled to continue their school studies and earn a certain amount of work experience that will prove valuable in later years.

"Although students participating in the NYA program are required to work certain hours on the NYA program, they have maintained better than average grades," Kellam concluded.

Cotton makes house cleaning easier if one wet mop, one dry mop, three cleaning cloths for floor and baseboards, six dust cloth and four washing and scouring cloths are kept on hand.

All growth that is not toward God is growing to decay.—George MacDonald.

Pat Bullock Says School Job Is Like Getting in Harness

"Back in the harness again" was the way local and county residents greeted A. A. (Pat) Bullock Monday, when he took over the duties, temporarily, as acting county superintendent.

"I am glad to be back in the county superintendent's office on a temporary basis," Bullock stated to a Times reporter, "and since I served eight years as regular county superintendent, I feel back at home again.

"A check-up reveals that everything is in splendid shape at the superintendent's office, and that we have an outstanding corps of teachers in county schools. I plan to visit each school in the county as soon as they re-open after being out for cotton picking. All my friends and acquaintances are invited to drop over, for we're having open house for visitors."

Bullock, accompanied by Mrs. Bullock, returned from Austin Sunday, where he had been the past several days as chairman of a Joint Legislative Advisory Rural Aid Committee to check on maps of counties in the state showing various school bus routes.

Assisting Bullock at the superintendent's office is Sybil Irvin, stenographer and checker. Mrs. Roy O. Irvin, attache at the office, left over the week-end to join Lieutenant Roy O. Irvin, Company G officer, while he is on duty with the armed forces.

Dillard Plans for Increased Drive For Red Cross

R. G. Dillard, local Chamber of Commerce manager who successfully headed Scurry County's Red Cross Roll Call last year, will head the county Roll Call again this year, Red Cross officials announced Tuesday.

Under Dillard's guidance, membership in last year's Roll Call reached an all-time high of 575 members—a goal that is expected to be doubled this year because of the added duties the Red Cross has taken on in the national emergency.

Roll Call quota for Scurry County this year will be in line with quotas set for other nearby counties in proportion to population, and will be set at a figure that will allow the organization of mercy to function at its smoothest pace.

This year's Red Cross Roll Call will be carried on from November 11 through Thanksgiving Day. Dillard states that a team of Roll Call campaign members for various sections of the county will be announced within the next few days.

The number of milk cows on farms in the United States increased nearly three per cent between June, 1940, and June, 1941, according to the Agricultural Marketing Service.

An REA safety and job training course is being organized on a statewide basis in Texas.

FREIGHT RATE DIFFERENTIAL TO BE RAISED

Texas Railroad Commission Issues Order Friday That Will Lift Surcharge November 1

Intrastate differential freight rates, a relic of pioneer days, will sink into oblivion November 1, it was announced this week by the West Texas Chamber of Commerce, with regional offices in Abilene.

The abolition of intrastate rate differentials will save shippers of this immediate vicinity and other sections of the state an estimated $1,000,000 annually.

The formal order, the result of an agreement between the Texas Railroad Commission and rail carriers, was issued Friday by the regulatory agency.

The railroad commission, WTCC officials report, dropped a suit through which they had enjoined enforcement of a previous similar order, and were in turn permitted to substitute a straight mileage scale on certain commodities which move under maximum or bob-tail rates, two of many classifications in the state's rate structure.

In a statement for The Times, Commissioner Jerry Sadler estimated differentials, a surcharge to movement in, to and from territory in this immediate vicinity, the Panhandle and Southwest Texas have cost shippers $1,000,000 annually.

Officials of the local Chamber of Commerce have actively supported the fight by the WTCC for abolition of freight rate differentials here and elsewhere in the state.

Waco Named Press Confab Site for 1942

Waco was named as 1942 convention city for the Texas Press Association, June 13 to 15, at a meeting of the executive committee of the organization Friday at the Baker Hotel in Dallas. Several newspaper publishers of this immediate vicinity who are Texas Press Association members were unable to attend Friday's conclave.

Charles K. DeVall, Kilgore publisher, presided in the absence of David Warren, Panhandle, president.

Ginnings BY COTTON JOE

I guess about the most worthwhile things I've accomplished have been the raisin' of a lot of cotton an' a houseful of girls. An' everytime I see the girls in one of these cotton fashion shows I'm mighty proud of both jobs.

New State Liquor Law Practically Puts Drinks Out of Stores

Members of the Scurry County Drys, and others interested in temperance expressed keen satisfaction this week in figures supplied by the Texas Liquor Control Board, showing that the flood of liquor through drug stores in this section of the state had been reduced to the barest trickle by September as a result of the board's enforcement of House Bill 373.

House Bill 373 is known as the "Drug Store Liquor Law," and really puts the skids under sales of liquor through drug stores.

The Texas Liquor Control Board pointed out Tuesday that only 3,595 liquor prescriptions were filled in Texas during August of this year, compared with 499,288 prescriptions filled in August of 1940—a reduction of 99 per cent.

It is surprising to learn now there are only 121 drug stores in the state and 95 licensed physicians licensed to write liquor prescriptions. This is in sharp contrast to 484 drug stores with licenses in effect in August, 1940, and 1,184 physicians licensed to write liquor prescriptions.

CC Manager Goes to State Convention of Officials at Dallas

R. G. Dillard, local Chamber of Commerce manager, Mrs. Dillard, Misses Gertrude and Hattie Herm returned Sunday from Dallas, where the quartet attended Saturday the State Fair of Texas. Dillard also attended the Texas Chamber of Commerce Managers Association meeting Saturday.

Saturday's TCCM meeting was attended by Chamber of Commerce managers from all sections of the state. TCCM officials stated "that not only individuals but government agencies are seeing more and more clearly that a community's Chamber of Commerce is an agency that gets the job done when the going gets rough.

"The local Chamber of Commerce is looked upon today," TCCM officials declared at the Dallas meeting, "as a sound, hard business institution."

The quartet reported an enjoyable time at the State Fair of Texas, with thousands of people on hand for the formal opening from all points of the Southwest.

Seven Candidates For My Home Town Speaker Berth File

Seven candidates for the honor of being Snyder's "My Home Town" speaker at the West Texas Chamber of Commerce convention in Midland November 3 and 4 were announced through Tuesday by local Chamber of Commerce officials.

R. G. Dillard, local Chamber of Commerce manager, announces that the town's "My Home Town" speaker will be named between October 13 and 18. The successful candidate will go to the district speaker's elimination contest the week of October 27 at Odessa.

If successful at the district contest, the town's "My Home Town" speaker will go to Midland November 3 and 4 to compete in the WTCC convention speaking contest. Entries in the local contest will be received by local Chamber of Commerce officials this week. Those desiring to enter should do so immediately.

List of candidates for "My Home Town" speaker, filed through Wednesday at the local Chamber of Commerce office, includes Hughlene Jeffress, Keegan Townsend, Ray Martin, Doyle Stokes and Odelle Fenton.

JINX FOLLOWS FIREMEN CREW TO CONVENTION

Hard Luck in Contests Again Keeps Local Team from Placing First At Merkel Convention

Shadow of the "Jinx" that has caught up with Snyder's volunteer fire department at the past two conventions kept the boys from placing first last Thursday at the Midwest convention in Merkel, but allowed the local boys to bring back two second places in convention contests.

Contest in which the shadow of the "Jinx" played the chief part was in the coveted pumper race. Members of the team who entered the contest made their hook-up in record time, but were kept from placing first by a "closed" nozzle—something that wasn't in the cards to be used for the pumper contest.

The local boys made the hook-up for the pumper contest in almost exactly 15 seconds, and were slated to complete this event in around 20 seconds. Despite the setback, Snyder placed second in this event with a time of 34 seconds. Albany copped first place with a time of 30 seconds.

Snyder also placed second in the hotly contested six-man hook-up race, Cisco placing first and Albany third.

Dr. H. Bucks, Howell McClinton, A. P. Biggs, A. L. Jones, Doc Bynum and J. T. Campbell composed the membership of the six-man hook-up team and the pumper race team.

Total of 75 people attended the opening business last Thursday afternoon of the Midwest convention at the W. O. W. Hall. N. W. Autry, chief of the local fire department, presided over the meeting as association vice president.

School Superintendent Connor Robinson welcomed the visiting firemen and Merkel's Fire Marshal D. H. Vaughn led a round table discussion on "Mutual Relationship Between Neighboring Towns."

Ray Marshall of the West Texas Utilities Company, Abilene, exhibited a sound motion picture entitled "Fire." Entertainment, Autry reports, included solos by Betty Lou Higgins and Thelma Matthews.

Approximately 150 firemen, their wives and guests from an 11-county area attended the banquet and dance held last Thursday evening as the closing events of the Midwest Firemen's and Fire Marshal Association semi-annual convention.

Mrs. Howell McClinton, Mrs. A. P. Biggs, Mrs. J. T. Campbell, Mr. and Mrs. Bill Graham, Roy Davis, James A. Cowan and Melvin Newton attended the evening festivities, as did Dr. and Mrs. C. E. Helms, association guests.

As a sidelight to the Midwest convention, the local fire department paid out $5 in entry fees and copped a total of $5 in prizes for the duet of second places they won.

Colorado City was picked for the spring meeting, to be held the first Thursday in April as the Mitchell County town. In addition to Snyder, other towns represented included Baird, Colorado City, Cisco, Albany, Trent and Merkel.

Egg Curing Plant At Lamesa To Be Outlet For Area

An additional outlet for eggs from Scurry County poultry owners was seen this week in the announcement that construction has started at Lamesa on a refrigeration and storage building for the egg drying plant of Henningtom Brothers, New York City.

Present plans call for the refrigeration and storage building to be 50 by 140 feet, and completely equipped with the latest kind of machinery for storing egg shipments.

The concern that will purchase fresh eggs from poultry flock owners in Scurry, Borden, Garza, Dawson and other counties of this area las leased from the owners of the old West Texas Dairy Products Company in 1933. Last March Hennington Brothers obtained control of all stock and equipment, and now owns the entire plant.

Powdered whole eggs is the chief product, although a powdered egg yolk and flake albumen or the dried or dehydrated whites of eggs are produced. The whole eggs are largely for use in Great Britain and are shipped overseas. Bakeries, army camps, hotels and candy manufacturers use the products from the plant also.

Tommy Davenport Visits.

Tommy Davenport, a former local boy, who has been at Fort McArthur, San Pedro, California, with Headquarters 2nd Battalion, 63rd Coast Artillery, the past two years, arrived Sunday night for a visit with local friends. Tommy, who is on a 30-day furlough, will visit relatives at Clayton, New Mexico, before transferring to Camp Davis, Wilmington, North Carolina.

OLDSMOBILE

B-44

NOW ON DISPLAY!

SPECIFICATIONS SUBJECT TO CHANGE WITHOUT NOTICE

BETTER LOOKING BETTER LASTING BETTER BUILT THAN ANY OLDSMOBILE IN 44 YEARS!

TO SERVE THE VITAL NEEDS OF TODAY'S AMERICA!

In addition to cannon and shell for the needs of defense, Oldsmobile contributes a new kind of car to the new needs of America.

THE General Motors car that gave the world the famous Hydra-Matic Drive now takes another great step forward! For '42, Oldsmobile contributes the B-44—a brand new, heavier, huskier motor car—with Hydra-Matics available for every buyer! The B-44 is *stamina-styled* for better looks, with new Double-Duty Bumpers and new Fuselage Fenders. It's *stamina-built* for better durability, with heavier, new Dreadnaught Frame and enlarged Hydraulic Brakes. And it's *stamina-powered* for long, trouble-free life, with new Econo-Master Engines that develop more "fire-power" with minimum use of gas. Come in and see the new Olds B-44, compare it, drive it. You'll find it offered in five separate series—two 100 H. P. Sixes and three 110 H. P. Eights. You'll find it priced lower than you might expect—but far beyond your expectations in styling and all-round quality.

DEFENSE COMES FIRST

Oldsmobile is now turning out high-caliber artillery shell—now going into mass production of automatic airplane cannon.

HYDRA-MATIC DRIVE*

NOW ENTERING ITS THIRD GREAT YEAR!

Proved in the hands of over 130,000 owners — Hydra-Matic Drive is again offered on all Olds models. Hydra-Matic saves time, saves effort, saves 10 to 15 per cent on gas!

*OPTIONAL AT EXTRA COST

YOU CAN ALWAYS COUNT ON OLDSMOBILE—It's Quality-Built to Last!

E. F. SEARS, Snyder, Texas

Soil Improvement Practices Must Be Completed Soon

Unless farmers of Scurry County take immediate steps to earn their maximum soil-building assistance, they will lose the opportunity to use this money for improvement of the soil on their farms this year, Ross Williams, chairman of the county AAA committee, has announced.

Since the 1941 program ends November 30, all practices must be completed by that date if payment is to be received under this year's program.

Last year, farmers of Scurry County failed to earn $5,039 of the soil-building assistance allowed under the AAA farm program, Williams said, while farmers of Texas fell short of earning the maximum by two and one-half million dollars.

The big issue is not the amount of money unearned, but the amount of soil-building practices farmers failed to use, Williams pointed out.

Improving the fertility of the soil is all the more important now, the official said, since the demands of consumers in this country and the needs of nations resisting aggression require still greater food production in the interest of national defense.

Practices which still can be completed by the end of the contract year include planting winter legumes and applying phosphate, terracing, contour ridging, listing, chiseling and furrowing non-crop pasture, and building earthen tanks and reservoirs.

These practices tend to preserve soil and moisture, prevent erosion and improve grass supply, Williams said, in pointing out their soil-building merits.

Holders of Social Security Numbers Caustioned of Loss

All Scurry County workers who hold social security account number cards were cautioned this week by the Abilene field office of the Social Security Board to exercise more care in guarding against the loss of their account cards.

"We find," the Abilene Social Security Board field office points out, "that a substantial number of workers, through carelessness or lack of foresight, are causing themselves or their supervisors a great deal of unnecessary worry and trouble in establishing their rights to benefits under the old-age and survivors insurance provisions of the Social Security Act.

This is brought about in many instances by the worker himself when he loses his card or for any reason does not have his card available when he goes on a new job. Every worker subject to the provisions of the act is required to have a social security account number, and every employer covered by the act is required to report all employees, their account numbers, and total earnings on the employer's tax returns. Failure on the part of either to comply with the requirements only serves to confuse the worker's old-age and survivors insurance account, resulting, in some cases, in a reduction of benefits payable since the amount of benefits is based on the worker's total earnings. Negligence on the part of either may even result in the loss of all benefits, the Abilene officials conclude.

We must arm ourselves against the forces of evil and destruction. You can help by buying Defense Savings Bonds and Stamps regularly.

What we most need is the prayer of fervent desire for growth in grace, expressed in patience, meekness, love and good deeds.

Cotton Stamps Are Issued on Basis of Acreage Reduction

When a county producer earns cotton stamps, his cotton acreage will be a reduction from 1940 planted acres, or his 1941 cotton acreage allotment, whichever is smaller."

Say, for example, that John Doe had a 50-acre cotton allotment for 1941. His 1940 planted acres were 48, and his 1941 planted acreage was 46 acres. He will have reduced two acres, and if his normal yield is 125 pounds per acre, his reduction will be 250 pounds. This 250 pounds, times 10 cents per pound, will be $25.

This man, John Doe, will not have earned any cotton stamps unless he signed Form SCP-I, Intention Sheet, before June 15, 1941. No farmer, however, will receive cotton stamps earned on acreage above the amount specified on the intention sheet.

No farmer shall earn in excess of $25 worth of cotton stamps per farm, and in no case can a person received more than $50 worth of the stamps.

Rest Literally Is Vital Factor in Physical Defense

Implication of the word "rest" in "restore" is of great importance to Texans in our present defense program, declares Dr. George W. Cox, state health officer. Hot summer weather added to extra-heavy production schedules and strenuous labor places a debilitating load on our population.

At this time adequate rest is of greater importance to all of us than in previous years. Rest is the opportunity the body takes to rebuild and repair the tissues impaired in their efficiency by fatigue. In other words, the sum total of our individual physical fitness is measured by the resiliency of our faculties to return to normal after a depleting day's work.

The means by which we weight the ravages of fatigue through rest are several. Complete rest is most easily obtainable by sleep—at least eight hours or more nightly, according to individual needs.

Physical relaxation (rest) is of value to us also. The change from every day labor and worry through participation in sports, games, hobbies and the like is a recognized principle of good mental hygiene. All of us should get in some sort of physical exercise daily—a brisk walk, if we lack the opportunity for more active sports.

Medical and public health authorities also recognize the need for mental relaxation, apart from physical sports or games which keep the mind keyed to a high pitch. Even when a person's physical apparatus is completely relaxed (resting) the mind may still be plagued with problems and be un-relaxed.

So mental relaxation, valuable as it is, is more evasive than physical relaxation. The simplest form of mental relaxation is "wakeful rest" whereby the individual gets his mind completely away from himself and lets his mind "idle" by following something not of his personal creation or thought. It is thus possible to rest mentally and physically if the mind is entertained rather than exercised. Numerous diversions are available to us which offer inexpensive opportunities for "wakeful rest."

God is Father, infinite, and this great truth, when understood in its divine metaphysics, will establish the brotherhood of man, end wars and demonstrate "on earth peace, good will toward men."

MESCAL IKE By S. L. HUNTLEY — No Cause to Worry

Yoder Named Lay Delegate to Annual Church Conference

Named lay delegate at recent quarterly conference proceedings, D. P. Yoder will head a delegation of local Methodists who will be in Big Spring November 12-16 for the annual conference of Northwest Texas.

Mrs. R. H. Odom was elected alternate to represent the local church if Yoder cannot attend the gathering. Rev. I. A. Smith, local pastor, will be in Big Spring for the conference, as will a number of visitors from the local church and various parts of the county.

Site of the November conference was recently shifted from Abilene to Big Spring because of a conflict in dates with the state Baptist General Convention at Abilene November 10-15.

Rev. J. O. Haymes, pastor of Big Spring's Methodist Church, will be host pastor for the conclave. Last year more than 400 delegates registered for the conference.

Robert Rosson Gets Air Corps Promotion

Announcement was made Tuesday that Robert J. Rosson, local youth stationed at the air corps advanced flying school at Victoria, received promotion this week to the rank of corporal in the U. S. Air Corps. He is a member of the 98th School Squadron.

Rosson is stationed at one of the newest advanced air training schools in the state. Lieutenant Colonel Warren E. Carter, commanding officer, states 137 of the field's 177 authorized buildings have been completed, and that the Victoria training center will be staffed by 200 commissioned officers.

The true grandeur of nations is in those qualities which constitute the true greatness of the individual.—Charles Sumner.

I find the great thing in this world is not so much where we stand, as in what direction we are moving.—Oliver Wendell Holmes.

Annual Confusion Over Thanksgiving Date Approaching

The annual confusion about when to celebrate Thanksgiving Day won't be lessened this year by Scurry County folks, despite the fact President Roosevelt has named November 20 as the date for this year's festivities.

Confusion about Thanksgiving Day will be brought about by the fact 11 states in the union, including Massachusetts, where turkey day started, have changed since 1940.

Approximately two-thirds of the nation, including Texas, is expected to string along with President Roosevelt and celebrate November 20, the date presidential naming sets as Thanksgiving Day.

The other third will carve turkey on November 27, the old fashioned last Thursday-in-the-month sanctioned by long standing.

Governors of both Texas and Missouri haven't yet issued their formal proclamations in regard to the date they will set aside for Thanksgiving, but informative sources believe Governor Coke R. Stevenson of Texas will sanction November 20 as Thanksgiving Day this year.

Massachusetts, where the Pilgrims started it all, will break precedent this year by observing November 20—the president's date—as Thanksgiving in the spirit of national "unity."

George Moore Will Report to Puerto Rico

Private George B. Moore, son of Mr. and Mrs. G. C. Moore, who is here on a 30-day furlough from Chanute Field, Rantoul, Illinois, where he recently completed an airplane mechanics course, was notified Monday that he will report to the U. S. Air Corps at Puerto Rico when his visit here is over.

Before his transfer, young Moore was due to have reported in New York City for attachment to an army bombardment squadron.

Bank Statement for September 24 Shows Stable Conditions

Condensed report on the condition of Snyder National Bank at the close of business September 24 reveals that total assets of the county's only banking house stood at $1,181,044.22.

Compared to other banks in this territory, condition of the local bank at the clost of business September 24 was exceptionally sound, and above the average for banks in this immediate territory.

Loans and discounts were listed at $453,694.54 and municipal bonds at $61,400. United States securities stood at $157,900 and cash and exchange at $433,220.67.

On the liability side of the ledger, undivided profits at the bank amounted to $73,466.45, and reserve for contingencies at $627.71.

Deposits, always a good barometer of business conditions, totaled $1,206,618.72 compared with deposits of $1,157,217.27 at the close of business June 30, 1941.

Wheat Producer May Store Grain To Avoid Penalty

County wheat producers who have excess wheat may store the amount in order to avoid payment of the penalty, Ross Williams, chairman of the county AAA committee, said Tuesday afternoon.

Some wheat farmers have misunderstood the motive of wheat marketing quotas but the primary objective is to keep the excess wheat off the market at this time since the United States has an enormous surplus on hand. The penalties on excess wheat are not to be confused with measures for raising revenue since the penalties are a means of inducing producers to keep excess wheat off the market and in no way constitute a tax.

Wheat producers who have excess wheat and who wish to postpone or avoid the payment of the penalty may either store the wheat on the farm by executing a bond of indemnity, or by placing funds in escrow, through the county AAA committee, or by storing the wheat in a warehouse and depositing the warehouse receipt with the county AAA committee. The excess may be pledged to secure a Commodity Credit Corporation loan which will be at a rate of 60 per cent of that available to cooperators.

If producers do not choose to store their wheat they may avoid the penalty by delivering the excess to the Secretary of Agriculture, through the local county AAA committee, for relief purposes.

Producers who do not choose any of these methods to dispose of their excess wheat must then pay the penalty on the excess before they are eligible to receive wheat marketing cards, Williams concluded.

IT'S EASY TO HAVE PLENTY OF LIGHT!

Put Larger Bulbs in Present Fixtures

A quick and easy way to improve the lighting in your home is to buy lamp bulbs of higher wattages. A 100-watt bulb is the same price as a 75-watt bulb; a 60-watt the same price as a 40-watt, and they give you more light for your money.

Add Low Cost Adapter Units

Inexpensive fixtures that screw into present sockets add to the attractiveness of a home and provide better light. They are ideal for families who rent, for you can take these fixtures when you move.

Modernize Old Lamps at Low Cost

Floor and table lamps can be made more attractive and more useful by adding a new shade, fitting on a plastic diffusing bowl, or making other simple changes. See a Light Conditioning Dealer for ideas on how to make your lamps more attractive.

Governor Proclaims Fire Prevention Week

NO. 1 FIRE PRECAUTION—

Insurance

It could happen to you . . . a wrecked house, a homeless family, a disorganized life . . . FIRE is no respecter of individuals. Fight fire! Take common sense fire prevention precautions and avoid carelessness that leads to disaster. Do it now during National Fire Prevention Week.

But don't let it go at that. In spite of all effort, fire strikes, and if it strikes at you, while we can't minimize the heartache, we can prevent loss and provide the money for a fresh start. Insurance does it . . . make insurance your No. 1 fire precaution.

Hugh Boren & Son Ins. Agency

BASEMENT TIMES BUILDING

CHECK YOUR HOME AND OTHER BUILDINGS NOW FOR FIRE HAZARDS—STOP FIRES BEFORE THEY THEY START

PROCLAMATION BY GOVERNOR

To All to Whom These Presents Shall Come:

Whereas, the prevention of fires is of vital importance to the success of the nation's tremendous defense efforts; and

Whereas, defense orders are taxing to capacity an increasing number of industries and any curtailment of production because of fire becomes a very serious thing; and

Whereas, throughout its history the State of Texas has suffered an enormous loss in lives and property due to fire; and

Whereas, statistics on fire reveals that the "cause" of fires, to a large extent, can be controlled by intensive education and intelligent law enforcement; and

Whereas, all citizens of Texas are desirous of retaining the low insurance rates which have been promulgated by the Board of Insurance Commissioners as a result of the faithful practice of fire prevention measures; and

Whereas, due to the national emergency now existing, the preservation of human lives, and in the interest of sound economy as relating to fire insurance cost, it is the patriotic duty of every citizen of Texas to aid in the prevention of fires;

Now, therefore, I, Coke Stevenson, Governor of the State of Texas, do hereby proclaim and designate the week beginning October 5, 1941, as

FIRE PREVENTION WEEK

And I earnestly call upon the citizens of Texas, particularly civic, school, patriotic and municipal organizations to emphasize the danger of fire and to encourage the adoption and enforcement of fire prevention rules and regulations in an organized movement to lessen the disastrous consequences of fire.

In testimony whereof, I have hereunto set my hand and caused the official seal of the State of Texas to be affixed hereto on this the 13th day of September, A. D. 1941.

Signed—COKE R. STEVENSON, Governor of Texas.
Attest: W. J. Lawson, Secretary of State.

Fire Loss in Snyder For Year Is Under $2,000 Mark to Date

In connection with Fire Prevention Week observances, The Times wishes to commend Snyder's volunteer fire department for the organization's untiring efforts this year to keep the town's fire loss to a minimum.

Exact figures on Snyder's 1941 fire losses to date were not available as The Times went to press, but the figure will fall considerably under the $2,000 mark.

As a result of Snyder's disastrous school fire in March of 1938, a penalty was slapped on fire insurance that will still be in effect until March of 1944. Prompt, efficient action by the local fire department, however, in answering fire calls has consistently kept fire losses at a minimum rate.

As Fire Prevention Week observances touch, directly or indirectly, the lives of us all, local residents and property owners are urged to cooperate with Chief N. W. Autry and the fire boys in keeping losses at a minimum.

Actual Practices for Avoiding Fires Reviewed as Snyder Observes Week

Snyder people are this week observing Fire Prevention Week, with action and interest centering on the need of saving property in the town and county as a vital cog of national defense.

Snyder's National Fire Prevention Week, October 5 through October 11, is coinciding with observances throughout the land, and a period named to include today (Thursday), October 9, as the tragic anniversary of the Chicago fire that claimed millions of dollars of property, and hundreds of lives.

Fire Prevention Week throughout every city and hamlet of the nation is each year being given more attention, not only for the purpose of preventing such major conflagrations as Chicago experienced, but to reduce the composite conflagration that each year amounts to loss much greater than that city experienced.

The per capita fire loss in the United States is now $3.58 per person, N. W. Autry, Snyder fire chief, emphasizes, pointing out that no one knows the day or the time when carelessness or some other cause may bring fire loss home to any citizen in much greater amount, not to mention human suffering.

Mayor H. G. Towle has officially proclaimed Fire Prevention Week for Snyder.

Some extensive Fire Prevention plans will be emphasized at local schools this week, with stress being placed on the need of fire drills, poster making and other activities.

Snyder citizens, particularly, have a well-founded horror of fire, since the red-handed demon turned the major portion of their school plant to ashes during March of 1937. Thus, Fire Prevention Week activities at the schools have double significance.

"Although preventing fires is the local fire department's aim 52 weeks in every year, we want to re-emphasize the importance of Fire Prevention this week to the point that no person, young or old, will be ignorant of the hazards which may result in the loss of life, property or homes," Autry states.

Governor Coke R. Stevenson of Texas issued a proclamation this week, calling upon the residents of Snyder, Scurry County and other units of the state to do everything in their power to reduce the state's annual fire loss. He is joined by Marvin Hall, state fire insurance commissioner, in urging fire drills in schools and taking of proper precautions with ventilation systems.

A Jewish merchant was dying, and momma and his three sons and two daughters were at the bedside. Finally momma bent over her departing spouse and sobbed,

"Can you hear me, poppa? We are all here—all your sons and daughters and old momma, praying for you."

"Is Ikey here?" whispered the dying man.

"Yes, poppa."

"Is Abe here?"

"Yes, poppa."

"Is Jacob here "

"Yes, poppa."

With a scream of anguish poppa sat up in bed. "Then who in hell's looking after the store?"

The most effective help which a civilian can give to Uncle Sam is to buy Defense Savings Bonds and Stamps as often as possible.

A Real Field Day Tour

Hundreds of rural county residents, representing all sections of the county, are expressing a considerable amount of interest in the Annual Field Day that will be sponsored Friday by the local Farm Security Administration. Local merchants and business men join wholeheartedly in the movement, for many want to see first-hand just what FSA has been accomplishing in the county.

Farms to be visited during Friday's Field Day tour will include the J. W. Jennings farm seven miles east of Snyder on Highway 15, the Charley Prather farm in the Ennis Creek community and the Cliff Birdwell farm.

Not only will officials of the Farm Security Administration be on program throughout the day, but farmers, local extension service officials and farmers themselves—pointing out by demonstration and example how FSA guidance is bringing a new day of security to the rural home.

Friday events will compose a real field day tour, and a tour that should receive active support of business men, merchants and others interested in the well-being and progress of our farmer neighbors. The farmers' welfare and security is the concern of the entire community and county, especially in view of the fact we all depend on the farmers to help keep us in our places of business and merchandising.

Show Time Is Here

The good word with county residents this week is that Products Show time is here! Next week the curtain rises on what show officials and people of this trade area declare will be the greatest show of its kind in county history.

Already folks in all sections of the county are rounding up farm crop exhibits, home canned goods and fancy work that will make judging of such exhibits an exceptionally delicate task for the show judges. Quality and variety of exhibits for this year's show are expected to surpass any previous collection of products Scurry County has knowledge of.

Officials of the Texas Extension Service at College Station describe the Scurry County Products Show as a "perfect model" for other counties of Texas to aim, especially in view of the fact there are no entrance fees of any kind assessed in connection with entries in this county's triple-day exposition. Any resident can enter whatever he may desire without entry fees, and attendants from this territory may walk right on to the show grounds without having to buy tickets of any kind.

So while we're thinking of the county's October 16, 17 and 18 Products Show, let's think of the part we can play as a community and county to make the show a success. Let's do our best to give credit to whom it is due, and evidence by our presence at the show that we appreciate the staging of such an exposition—one carrying 346 separate events.

Let's remember, too, that the Scurry County Home Demonstration Council will have a booth at the Products Show, and that our unstinted patronage of the booth will mean funds with which to carry on home demonstration work in the county. Concessions will be on hand, too, in the form of soda pop stands, hamburger and sandwich stands, and places where one can get almost anything one desires to eat. A few extra nickels will come in handy when starting to the Products Show, for there will be many things you'll want before starting back home.

Editorial of the Week

A WARNING NOTE

Farm owners participating in the government program who have tenant farmers on their places have had abundant notification and warning from county agents, ACA committees, the Extension Service and from Washington as to exactly what they can and cannot do in regard to the division of government payments.

They certainly should, if they do not already know, exactly what share of AAA checks go to the tenant, and what share they are permitted to retain.

This paper has no definite proof that those regulations are not being lived up to in this or any other county by farm owners.

But from time to time we do hear that there are violations and rumors that all are not, and that there are violations in the pro rata share of those divisions, which are depriving the tenants of the full share which the government program provides for or guarantees, and if such is the case, it should quickly be stamped out.

We believe that even though the cases are isolated, there should be proper investigation, to prove or disprove the facts. Through ignorance, or more probably through fear, some tenant farmers or sharecroppers, are possibly permitting these practices to continue, for fear of retaliation on the part of landlords.

Because permission of such practices to continue, if they do exist, endangers the continuance of the whole farm program, it should be nipped in the budding stage. And every farm owner should welcome such an investigation if his hands are clean.—The County Wide News, Littlefield.

Save a dime a day and one dollar on your birthday. At the end of a year for your $37.50 you can purchase one $50 (maturity value) Defense Savings Bond.

Current Comment

By LEON GUINN

Editor's Note—Expressions or opinions contained in this column are those of the writer and do not necessarily reflect the opinions or policies of The Times. Current Comment is merely carried as a feature column.

After months of patient research, the United States will soon announce what is believed to be the world's outstanding anti-aircraft gun—a weapon that is easily expected to outstrip even the gun unveiled at the Allis-Chalmers plant. . . . The new gun, which will be assembled by the Link-Belt Company, will be a portable affair and fire a 4.7-inch shell. . . . Significance of the gun lies in the fact that it's supposed to shoot considerably higher than 36,000 feet, meaning that no bombing plane built today can fly above its effective range.

☆

In reply to the much discussed question of how long it will be before the United States gets into the war now raging, information gleaned from various sources indicates that this country is already in the conflict economically and navally. . . . If Soviet Russia can hold out long enough against Nazi Germany, those close to President Roosevelt believe that a probable Nazi collapse will be looming on the horizon next spring. . . . President Roosevelt, as most Americans know, is out to keep the Nazis from winning the European war at any cost, but is clinging to the idea, with unshakeable faith, that the United States can keep out of a "shooting war" for many months to come.

☆

Harold Ickes, national oil coordinator, who dislikes big business to a fanatical degree and who is bitterly sincere to a fault, is now preparing a series of long speeches and press releases defending his policies—after a long silence that became provoking on many occasions to gentlemen of the press and heads of other government agencies. . . . Particularly, Ickes wants to answer charges made by Pelley and certain other individuals that he has greatly overplayed his hand in stressing the oil shortage along the Atlantic Seaboard. . . . Although he has made several outstanding blunders, Ickes wants the public to know that he is utterly sincere in his desire to run his department for the best interests of the country as a whole, and naturally expected to encounter some steep opposition.

☆

"Today, success in farming and ranching requires more attention to business principles than ever before," The Cattleman points out in its current issue. . . . "New government programs," the magazine continues, "with written leasing arrangements, budget statements for loans, greater diversification of crops and livestock, increased mechanized power and lower income tax brackets make it now necessary for farmers to know and not guess. . . . To help farmers solve these management problems the best means so far found is a system of farm records to fit their needs."

☆

"We find the Texas Farm Record Book takes care of these needs in an efficient way, and properly used, will lead farmers and ranchers to a better understanding of their business affairs at the farm and ranch," The Cattleman emphasizes. . . . "Such a record book will help you to conduct your farm in a business-like manner, know how much you are making from it, find the weak spots in your organization, prepare a plan for future operations and help in establishing a sound basis for credit." . . . Copies of the Texas Farm Record Book may be secured, at 25 cents per copy, from the College Exchange Store at College Station.

☆

Officials of the Office of Production Management are getting set to turn the heat on concerns throughout the nation that have consistently violated priorities regulations. . . . The agency's priorities division, which has built up an able field force of 80 investigators, is now busy completing numerous check-ups. . . . The agents themselves have found some glaring discrepancies between their own findings and the sworn statements by manufacturers regarding materials on hand.

☆

Crack Office of Production Management sleuths have also found cases of large scale bootlegging, persistent failure to put defense orders ahead of non-defense work and some firms that have overstocked on goods that will soon have to be disgorged. . . . There has been a great deal of confusion among OPM attaches, of course, in regard to priorities and the correct way of putting approved firms on the order list. . . . OPM officials expected some friction to result, but hadn't counted on it being so widespread, a fact that is now slowing down the issuance of priority ratings to firms that are actually "chomping at the bits" to get underway with orders that have been on hand several weeks.

☆

One reason why penumonia is so prevalent during the cold winter months was reported this week by Dr. O. H. Robertson of Chicago, who says that chilling of the skin causes the epiglottis, the valve covering the entrance to the lungs, to contract and permits germ-containing fluids to leak into the body. . . . Since Dr. Robertson is an eminent authority in the field of research, men of medicine throughout the nation are inclined to believe that he has something in the way of a correct theory to proceed on in considering pneumonia cures.

Big Crop of Birds Reported Now in Snyder Vicinity

Here's a little secret Scurry County nimrods don't want to go too far.

Scurry, as well as several adjoining counties, has one of the best quail crops in years, and scattergun addicts are going out into the byways and hedges to seek the birds out when the quail season opens December 1.

Dove hunters are already in the field, and are blasting away at the birds both early and late. The game department, through Will J. Tinker, executive secretary, warns county hunters to lay off hunting quail until the season opens, or else face some pretty stiff fines for violation of games laws and regulations.

Several things have contributed to this year's good quail population. Heading the list is the excellent rainfall that fell almost all over the state in the early months of the year.

The rainfall stimulated an abundant growth of quail food plants, and other plants that quail use for cover and shelter.

Game managers and field biologists of the game department have been at work here and in other counties during the past few months fencing off rather small areas in farmlands and cattle ranges—areas which were planted to vegetation that would offer both food and cover for quail. If such steps had not been taken, officials point out, quail would probably have disappeared from regions in which they are now plentiful.

A final and important factor leading to the good quail crop is protection—protection of quail by field men of the game department and sportsmen in Scurry County. A great deal of cooperation is being shown in tracking down game violators who kill quail out of season.

Deferments May Be Granted to Draftees Who Enter School

County Selective Service registrants who contemplate resuming attendance at school this month should first consult their local boards to ascertain approximately how soon they may be called for military training, members of the local draft board stated Wednesday.

While deferments from military training are being granted students who are preparing to enter certain occupations in which shortages of manpower exist or are indicated, local board members said, there are no group or blanket deferments. Each case must be acted upon individually by the local board having jurisdiction, and unless a student can qualify as a "necessary man" under Selective Service regulations he is liable to be called for induction when his order number is reached.

"It is the policy of the Selective Service System to be as lenient as possible within the law in cases of young men who are earnestly pursuing educational opportunities, even though they are not seeking to qualify for an occupation that is exceptionally important for national defense. Our advice to these young men, therefore, is to consult with their local boards and find out when they probably will be called to qualify for military training. If the probability is more remote than three months or so, they may begin their studies with the understanding that they can at least complete one semester. In the same way it may seem probable, according to their order numbers, that they can complete a full year."

Navy Recruit Agent Coming Wednesdays

Started Wednesday, a part time station of the U. S. Navy Recruiting Station, Big Spring, will be operated at the local post office Wednesday of each week for the purpose of obtaining new recruits for the navy.

Operation of the station here will give interested young men an opportunity to find out what the U. S. Navy offers without having to go to Big Spring to find out. In all, 35,000 new recruits will be enlisted by the navy in the immediate future.

S. L. Cooke, CMM (PA), U. S. Navy, retired, is the recruiting officer in charge of the Big Spring station, and points out that the visiting recruiter here each week will be prepared to take applications and conduct preliminary examinations. Full details can be obtained at the local postoffice each Wednesday.

Snyder Boy on Duty at Texas Gulf Coast Station During Hurricane

Jack Y. Stewart, private first class, and weather observer with the U. S. Air Corps at Ellington Field, near Houston, writes in the following letter to his mother, Mrs. J. W. Rogers, a graphic account of the hurricane that recently struck the Texas coast:

"Time is 9:15 o'clock Tuesday evening as I start this letter to you. Thirty of us, besides the weatherman, a few guards and a couple of cooks, are remaining at Ellington Field.

"The hurricane is nearing its peak, or center, at the field now. Six inches of rain has fallen during the past 12 minutes, wind velocity is 65 miles per hour, and the barometer is falling rapidly.

"I was evacuated last night with 5,000 other soldiers from the field, but got permission to come back to the field to help watch the progress of the storm.

"At 10:00 o'clock the wind speed varied from 70 to 80 miles per hour, and at 10:30 o'clock the wind speed ranged upward to 85 miles per hour, with gusts reaching a speed of as high as 115 miles per hour.

"Lights have flickered a couple of times, and we hope they stay on. The radio and control tower is built only a few feet from the corner of our office, and if it decides to fall we will be in a mess.

"At 11:00 o'clock, all of us had to write by candle light, wind speeds were up to 90 miles an hour and sharp gusts reached a velocity of 115 miles per hour.

"This morning, September 24, the sky is clear and we are without electric power. We have no news from the outside, but hope everything is okay. The lowest barometric pressure was 28.86 inches, and the highest wind speed marked up 115 miles per hour."

Since leaving Ellington, Stewart has received several promotions, and will be associated with the army's weather observation post at Ellington Field.

Wolsey Barrett New Pledge in Tech Club

Wolsey Barrett, son of Dr. Ella E. Barrett, former Snyder professional woman, and Tom Stanford Annett, son of Mr. and Mrs. W. D. Annett of the Spade Ranch, were pledged recently to men's social clubs at Texas Technological College, Lubbock.

Barrett, a sophomore engineering student majoring in electrical engineering, has been pledged to Wranglers, and Annett, a sophomore student in animal husbandry, will join Kemas.

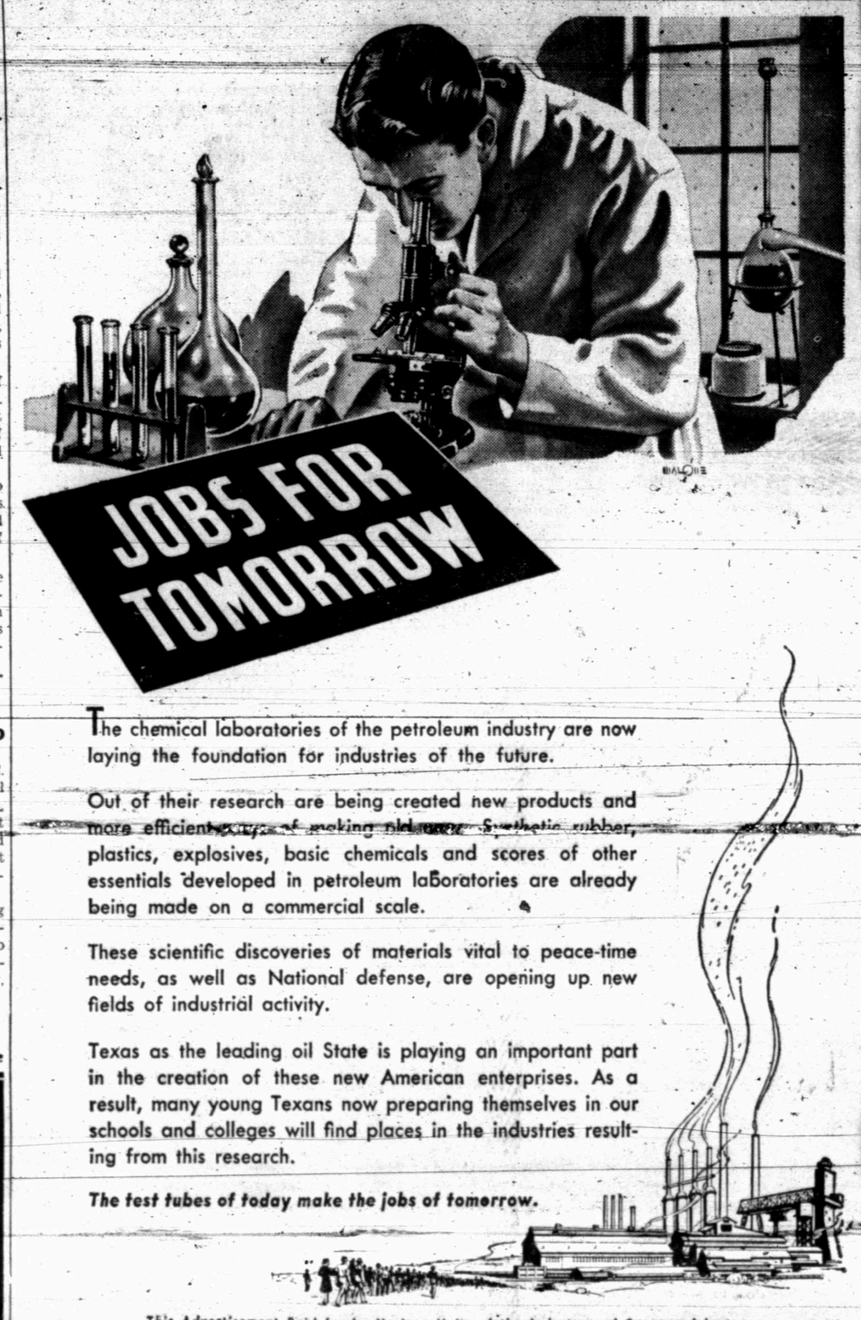
December Quota of Draftees Set at 18,000

In a message to the local draft board, State Selective Service officials announced Monday that the national induction quota for December would approximate 18,000 selectees, a figure about one-third the normal monthly number because of the Christmas holidays.

The December quota is not indicative of any contemplated reduction in enrollment for the land forces, and a proportionate number of youths may be inducted in January.

Inductions into the army, by way of the Selective Service System, have been averaging about 60,000 per month, although varying widely in some cases from 200,000 to 20,000. During the recent Jewish holidays inductions were largely suspended in Jewish districts of the country, local board members point out.

"The going or grace must go before the increase of it; for there is no growth without life, and no building without a foundation.—Lavington.



The chemical laboratories of the petroleum industry are now laying the foundation for industries of the future.

Out of their research are being created new products and more efficient ways of making old ones. Synthetic rubber, plastics, explosives, basic chemicals and scores of other essentials developed in petroleum laboratories are already being made on a commercial scale.

These scientific discoveries of materials vital to peace-time needs, as well as National defense, are opening up new fields of industrial activity.

Texas as the leading oil State is playing an important part in the creation of these new American enterprises. As a result, many young Texans now preparing themselves in our schools and colleges will find places in the industries resulting from this research.

The test tubes of today make the jobs of tomorrow.

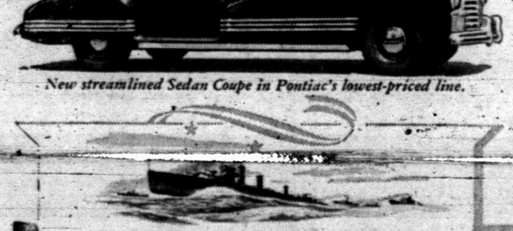
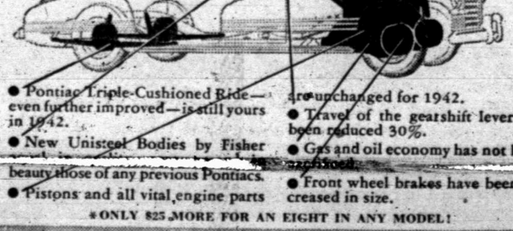
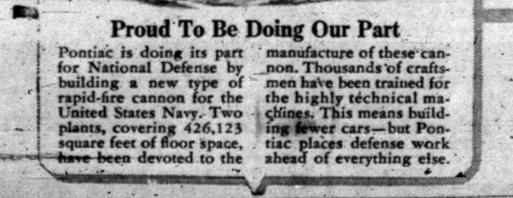
THE FINE CAR WITH THE LOW PRICE—GENERAL MOTORS' MASTERPIECE

ANNOUNCING THE NEW 1942 Pontiac Sixes AND Eights*


New streamlined Sedan Coupe in Pontiac's lowest-priced line.




Proud To Be Doing Our Part
Pontiac is doing its part for National Defense by building a new type of rapid-fire cannon for the United States Navy. Two plants, covering 426,123 square feet of floor space, have been devoted to the manufacture of these cannon. Thousands of craftsmen have been trained for the highly technical machines. This means building fewer cars—but Pontiac places defense work ahead of everything else.
● Pontiac Triple-Cushioned Ride—even further improved—is still yours in 1942.
● New Unisteel Bodies by Fisher
beauty those of any previous Pontiacs.
● Pistons and all vital engine parts
● Front wheel brakes have been increased in size.
