City water is in fine shape and Mayor Herman Johnson and Water Superintendent Tom Shults have received letters this week from the State Health Department complimenting them for their interest in the Water Supply Sanitation Program of the Department.

The letter says: "On February 10, 1961 our representative, Mr. Hector Herrera, made an inspection of the public water system serving the residents of Rockport, Texas, in company with Mr. Tom Shults, Water Superintendent."

"As a result of our representative's evaluation of the conditions existing at the time of inspection, it pleases us to advise you that your city continues to operate and maintain its public water supply so as to warrant continued approval by this department."

Michael's Students To Stage Victoria Art Show May 19-20

The Victoria Art Guild has planned its annual exhibit in the Arcade at Village Center for May 19-20, and artists from Goliad, DeWitt, Jackson, Calhoun, and Victoria counties are invited to exhibit. Each exhibitor may enter up to six paintings.

The two-day art exhibit will include five categories of work—portrait and figure, landscape, marine, still life and free composition, in all mediums. All paintings must be original, and no painting previously shown in any Victoria exhibit can be shown again.

The Victoria Art Guild's annual show at the Village Center arcade is an event that brings hundreds of people together each spring—art lovers and artists.

Cash awards are given, and additional awards are made possible by the Village Business Merchants Association each year. In addition, there are the A. B. J. Hammett Special Art Awards.

A number of new artists have already signified their intentions of participating, which should make the show most interesting, according to Simon G. Michael, of Rockport, under whom many members of the Art Show study.

Blakley's Name Leads Ballot For Senatorial Race

Incumbent Senator William A. Blakley's name was first out of the box this morning, when names were drawn for positions on the April 4 ballot, and that of State Senator Henry B. Gonzalez was 43rd.

John G. Tower, Republican candidate for the post, is third, following Otto Forester, Jr., of Hidalgo County.

Instructions on the manner of marking the ballot are contained in Article 6.06 of the 1960 edition of Texas Election Laws, which reads as follows:

In all elections, general, special or primary, the voter shall mark out the names of all candidates he does not wish to vote for. When party columns appear on a ballot, a voter desiring to vote a straight ticket may do so by running a line with a pencil or pen through all other tickets on the official ballot, making a distinct marked line through all tickets not intended to be voted; and when he desires to vote a mixed ticket, he shall do so by running a line through the names of such candidates as he desires to vote against. If the name of the person the voter wishes to vote is not printed on the ballot, the voter shall mark through the names which appear on the ballot in that race and shall write in the name of the candidate for whom he wishes to vote in a general election in the write-in column under the appropriate office title, and in a primary or special election in an appropriate place under the title of the office.

The failure of a voter to mark his ballot in strict conformity with these directions shall not invalidate the ballot, and a ballot shall be counted in all races in which the intention of the voter is clearly ascertainable.

"The period of compulsory school attendance at each school shall begin at the opening of the school term unless otherwise authorized by the district school trustees," Judge Wendell said, "and notice given by the trustees prior to the beginning of such school term; provided that no child shall be required to attend school for a longer period than the maximum term of the public school in the district where such child resides."

"According to the law," Judge Wendell said, "any parent or person standing in parental relation to a child who fails to comply with this law can be fined \$5 for the first offense, \$10 for the second offense, and \$25 for the third offense, and every day the child remains out of school counts as a separate offense."

The archway which framed the ceremony was framed with pink net through which pink roses and lacy ferns were twisted.

J. M. Stevens rendered the wedding music, singing two solos. Preceding the ceremony, he sang "Because," and at its close "I Love You Truly."

Given in marriage by her father, the bride wore a beige silk dressmaker suit. Its buttoned jacket was fashioned in box line. Her accessories were brown and beige.

Hostesses for the afternoon were Mrs. S. F. Jackson and Mrs. J. H. Mills, Sr. The center table was decorated with a red, white and blue tablecloth. "Total Electric Heating ...

as well as cooling — is the feature we like most in our Gold Medallion Home," say Mr. and Mrs. P. A. Martin of 449 Haraldson, Corpus Christi.

The Martins said they looked at many homes, but selected this one — built by K. A. Koopman — because it had the Heat Pump combined with the design they wanted. They enjoy the automatic control of temperature no matter what sudden changes happen outside. And Mrs. Martin said, "My home stays so clean and fresh, even the house plants show the difference."

More and more, you'll find folks like the Martins, who are demanding the advantages of a Gold Medallion Home. Wherever you see the distinctive Gold Medallion symbol, you are assured of an all electric home. It means this home has HOUSEPOWER, with excellent wiring and plenty of outlets. It has Light for Living and the major electric appliances you want. And, like the Martins, you'll enjoy clean, flameless electric heating.

When you build or buy, look for a Medallion Home and Live Better — Electrically

Industrial
Speaker Saturday

Nearly 200 members of the Chamber of Commerce, with their wives and guests heard Industrial Expert Richard S. Woodbury, of San Antonio, spell out in no uncertain terms what industry seeks from a community before it will locate there, and watched while officers for the coming year were installed at the annual dinner Saturday night.

Seth H. Steele, the only man ever to hold the office for two consecutive terms, is the new president. Vernon Kleypas is the first vice president; Mrs. Charles A. Roe, Sr., is second vice president, and Charles LaBounty was re-elected treasurer.

Woodbury, director of technoeconomics research at Southwest Research Institute in San Antonio, told those attending the dinner that civic attitude towards industry is the basic question a business planning to locate wants answered, a specialist in the field said here Saturday.

"Industry has found by experience that it is easier to make a living in a community whose attitude is one of friendliness than in one which is neutral or unfriendly."

friendly."

"Industry is convinced that the principal ingredient in the complex of forces affecting its ability to make a living—that is, its ability to turn a profit—is the orientation of the community in which it is located with respect to its industry members," Woodbury said.

The speaker lashed out against procedures of industrial development groups which center on simply ballyhooing a community's desirability.

"What I have to say this evening is the result of a growing personal conviction that most of the industrial development activity in this country is inefficient, ineffective and misdirected," Woodbury said.

"The reason I say this is because most of this effort seems to be expended in eulogizing the community without giving thoughtful consideration to what industry itself expects of a community."

He said that in this country there are between 12,000 and 13,000 active industrial development agencies, spending almost \$50 million a year giving the impression that "every community offers the best of the most desirable features that any industry could possibly expect from any community."

Woodbury said that in fact each company requires different accommodations.

Woodbury called attention to the great diversity in immediate objectives and hence in location requirements, and the complete absence in these specifications of

any reference to habitual tenants of industrial development."

Not that they are unimportant factors, "but the weight given to factors of this nature is bound to be small."

The basic ingredient, however, is community attitude toward industry, Woodbury told his listeners.

Woodbury advised that a portion of the time and money spent trying to procure new industry go instead to preparing the community itself.

Your RIGHT
TO VOTE

MR. AND MRS. VOTER, do you feel that you should have
an opportunity to vote on legalizing Parimutuel Horse
Race Betting?

A constitutional amendment (H.J.R. #4) is being considered whereby Texans will be given an opportunity to legalize horse race betting in Dallas, Tarrant, Harris, Galveston, Bexar, Midland, Hidalgo, Cameron and Webb Counties, subject to approval by LOCAL OPTION.

H.J.R. #4 provides for distribution, ANNUALLY, among all counties that do not have race tracks, one-half of the STATE TAX REVENUE obtained from horse racing. Each county would receive approximately \$1.00 per capita population the first year. Counties where the tracks are located would receive 2% of parimutuel handle. The state's tax income from horse racing alone would run close to \$12,000,000 the very first year—possibly more—besides all the income tourists would bring to Texas—which would amount to millions of dollars, plus a great ad valorem tax on race tracks, breeding farms and many valuable race horses.

Please express your opinion by checking ☒ the appropriate box below. You do not have to sign your name unless you like, but we would prefer it.
