FIRE DESTROYS ROOMING HOUSE

Three persons died and eight were injured in this fire in San Rafael, Calif., that completely destroyed the building. The Lodge, a rooming house with about 35 occupants was discovered ablaze by one of the roomers, Robert Lindell, 19. He ran through the house awakening all that he could. Five persons were taken to the Marine General Hospital for injuries suffered when they jumped from the upper floors. The three who were killed are as yet unidentified. Firemen take shelter behind palm at right.

Giles Declares 'Plenty' Will Be Said Of Shivers, Shepperd

Nagy Trouble Could Spread, Paper Reports

VIENNA, Austria (AP)—The well-informed Vienna newspaper Arbeiter-Zeitung speculated today that the premiers of Communist Poland and Albania—like Hungary's Imre Nagy—soon will be on their way out of office.

The paper said the position of Poland's Josef Cyrankiewicz and Albania' Lt. Gen. Mehmet Shehu is identical with that of Nagy, who was charged with "rightist deviationism" at a session this week of the Hungarian Communist party's Central Committee.

Cyrankiewicz and Shehu became premiers when the Communist party "strong men"—Boleslaw Bierut in Poland and Gen. Enver Hoxha in Albania—withdrew to positions as first party secretaries after Stalin's death. In Hungary, Nagy succeeded Matyas Rakosi, who retained his party secretary post.

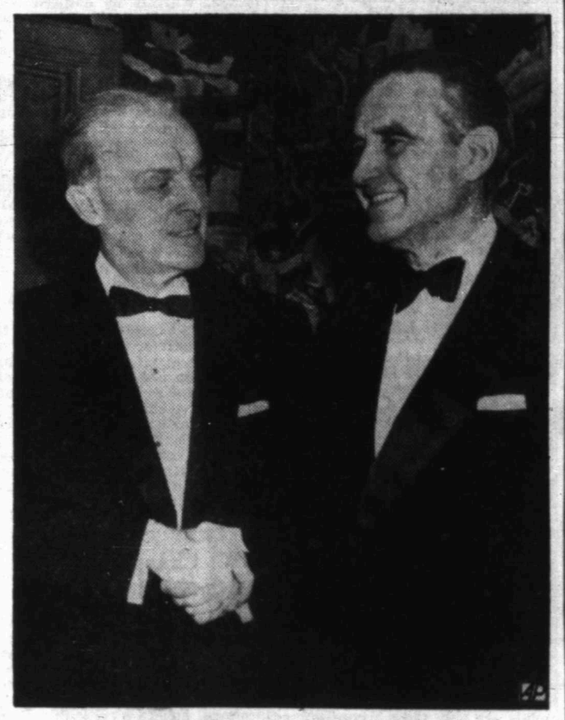

Rakosi made his comeback as Nagy's chief accuser in the Central Committee session. He is expected to take revenge on the followers of the "new course" under Nagy, Arbeiter-Zeitung said.

The paper said the attack on Nagy appeared to signal the end of the period of "collective leadership" in the satellites and a return to the one-man rule customary under Stalin.

Arbeiter-Zeitung precited that Nagy, following the pattern set by ousted Soviet Premier Georgi Malenkov, will formally resign after a "confession" at a Parliament meeting.

New accusations were made against Nagy today in an editorial of the Hungarian party newspaper Szabad Nep, broadcast by Budapest radio. The editorial charged he falsified Communist party directives when he made his 1953 government proclamation stressing increased production of consumer goods and promising to ease up on forced farm collectivization.

The editorial indicated the Hungarian Communists fear resentment by the people concerning their action against Nagy.

POSSIBLE CANDIDATE?

Paul Butler, left, Democratic National Committee chairman, declared on a television program it was "possible" Gov. Averell Harriman of New York would be the Democratic presidential candidate in 1956. Butler made the statement on Dave Garoway's "Today" program. Butler and Harriman are shown at the Waldrof Astoria Hotel in New York where they attended the "1956 strategy dinner" of the Democratic National Committee.

Bond Posted In San Antonio Case

SAN ANTONIO (AP) — Former Land Commissioner Bascom Giles posted $50,000 bond today on an indictment charging he accepted a $30,000 bribe in a land sale under the veterans land program he fathered.

Giles said "there'll be plenty to say" about Gov. Shivers and Atty. Gen. John Ben Shepperd at his trial.

Giles, the governor and the attorney general formed the board that officially administered the program and ultimately passed on all applications for the 40 year, low payment loans.

Under the 100 million dollar program, designed to take the place of a state bonus for veterans of World War II and Korea, the state bought land and resold it to veterans on low interest, easy terms.

Giles said he welcomed the opportunity to stand trial "so the true facts can be developed."

He did not elaborate on his reference to Shivers or Shepperd.

Shepperd has pushed an investigation into many sales under the program. He said yesterday he will not "hide anything."

Giles is already under $60,000 bond on a Travis County indictment of conspiracy to commit theft in a land transaction.

More than a hundred criminal indictments have been returned against various persons for alleged fraud in land sales to the state.

Giles said the $50,000 bond was "excessive, exceedingly excessive."

"There is certainly another side to this matter," he told reporters. "There's always two sides to every story and mine's going to come out in court."

Shivers in Austin said he had "no comment" on Giles' utterance.

Shepperd was with a DeWitt County grand jury in Cuero probing land sales and could not be reached for comment.

Giles was indicted by the Bexar County grand jury yesterday. Indicted on charges of offering the bribe were C. V. Wynn and Arthur McKenzie, both of San Antonio.

Bonds for Wynn and McKenzie were set at $2,500 each.

It was the second indictment against Giles in less than a week. A Travis County grand jury indicted him Friday on a charge of conspiracy with intent to commit theft of $83,500 in another veterans land program deal. He is free under $60,000 bond on that complaint.

The new indictments alleged Giles, McKenzie and Wynn entered into an agreement Jan. 29, 1954, whereby Giles, then chairman of the Veterans Land Board, was to "act, vote and render judgment" favorable to McKenzie and Wynn in their sale of 652 acres of Bexar County land to 32 veterans under the state program.

It was alleged Giles was to get one-half the profit to be made on the sale. It was further alleged payment was made May 22, 1954, in the form of four cashiers checks, two for $10,000 each and two for $5,000 each.

Judge M. D. Jones said he likely would set trial in the cases for April 11.

Giles had been chairman of the Veterans Land Board from its creation in 1949. He declined to take oath of office as land commissioner for his ninth term in January.

Gov. Shivers and Atty. Gen. John Ben Shepperd have testified that administration of the program had been turned over to Giles. The board passes on land sales to veterans who seek loans under the program.

Shepperd and three members of his staff were with the grand jury when it acted yesterday.

Shepperd said later he knew "the people of Texas have been jolted" by the indictments against Giles. He said he had promised to hide nothing in the land program tangle. "And that promise will be kept," he said.

Shepperd was to meet this week with other grand juries checking veterans land program transactions. He has also filed 12 state suits seeking recovery of state funds paid in allegedly fraudulent veterans land program deals.

Flood Crests At 61 Feet In Cincinnati

CINCINNATI (AP)—The worst Ohio River flood since 1948 crested at 61 feet at Cincinnati today and moved into the Indiana-Kentucky area.

The crest was reached "between 2 and 3 o'clock this morning," the Weather Bureau announced. It was nine feet above flood stage.

After remaining stationary for a short time, the water began to drop at a rate of about one-tenth of an inch per hour.

The flood caused multimillion dollar damage and made several thousand persons homeless. It never reached the proportions of a major catastrophe.

High waters indirectly caused one death when a Cincinnati warehouse worker drowned, trapped in an elevator descending into deep basement waters.

Police said the man, Trenton Harton Jr., 30, was trapped when he apparently became excited and failed to stop the elevator. He had taken the ride to see "how deep the water was" in the warehouse basement near the river. His calls for help echoed from the death cage.

The Red Cross said 3,182 families in Ohio, West Virginia, Kentucky and Indiana had been affected so far by the flood.

Crests have swept past Pennsylvania and West Virginia and are scheduled to leave Ohio at Cincinnati today.

Indiana state officials looked to flood walls and levees to help protect low area property. Flood walls in Ohio and West Virginia were credited with saving millions of dollars in damages.

Scattered showers were forecast for the Ohio Valley but the predictions offered slight cause for concern.

The Huntington, W.Va., district of the Ohio River engineers was the first to come up with a flood damage estimate. That district covers the river from Powhatan Point, Ohio, to Maysville, Ky., plus the river's tributaries in the area.

Col. George T. Derby, district engineer, estimated the damage at more than $8,657,000 but he said flood walls and reservoirs had prevented another 50½ million dollars in damage.

There still was a lot of water in and around Cincinnati. The Coney Island amusement park and the River Downs race track were from 6 to 20 feet under water.

Low-lying streets in the downtown district also were flooded and so were several railroad yards.

Democrats Ready For Sharp Tax Cut Debate

By JOE HALL

WASHINGTON (AP)—Senate Democrats prepared for sharp, partisan debate on tax relief today with a plan to offset income tax cuts with revenue from other sources.

The Senate Democratic leadership unveiled its own income tax cut plans yesterday as a substitute for the House-passed $20-a-person reduction for everybody.

The House provision, an annual $2,200,000,000 cut, had seemed doomed to defeat in the Senate.

The substitute would give 908 million dollars of annual relief, nearly all of it to low income families, at the rate of $20 for the taxpayer and $10 for each dependent except his wife. But it would repeal other benefits for corporations and higher income taxpayers which Democrats contend would more than offset that amount.

Their chances of putting over the substitute did not appear too bright. Two powerful Southern Democrats on the Finance Committee, Byrd (Va), its chairman, and George (Ga), said they would not go along.

George said "it's better than the House bill" but added "I do not think it is likely it will change my position."

Byrd said "I do not think it will change things on the Senate floor."

Majority Leader Lyndon B. Johnson (D-Tex) declared he believed the substitute "will appeal to a majority of the senators."

Other Democratic sources, however, said that it was likely that only enough votes would be switched by the substitute to cut Byrd's supporters down to about six Democrats. He has been claiming 10 would go down the line with him against an income tax cut.

Thus, these sources said, the outcome will depend on whether many Republicans will desert the administration.

So far Senate GOP leaders have insisted they will lose no more than two votes. The Senate now is 49-47 Democratic.

The Senate Democratic leadership's income tax cut could be used only to the extent it exceeds the advantage of income splitting now enjoyed by married couples; the effect of this generally would be to limit the cut to families with incomes below $5,000.

To offset the revenue loss, the substitute would repeal two major provisions of the Eisenhower administration's omnibus tax revision bill of last year.

One of these, the accelerated depreciation plan which means big tax savings to corporations, would be repealed immediately. The other, which gives 362 millions of annual savings to stockholders on dividend income, would be wiped out as of next July 1.

Johnson said the effect of these three changes would be a net gain of three million dollars in revenue in fiscal 1956, which begins July 1 this year, and a net gain of 354 million in fiscal 1957.

The substitute also would:

Extend to July 1, 1957, corporation income and excise taxes rates scheduled to drop April 1. The House bill would extend them for one year as the administration asked.

Repeal a provision in the 1954 tax law which permits companies to set up reserves for business expenses and charge them off against current income.

Johnson called the latter provision the "Humphrey blooper" and said minimum estimates of the loss from it are one billion a year.

Secretary of the Treasury Humphrey has disputed such estimates but has asked for repeal of the section, calling it an "inadvertent error." He said many taxpayers were trying to use it in a way not anticipated.

The House Ways and Means Committee, meanwhile, called Humphrey for testimony about the provision, and Democrats promised some lively questioning as to how it came to be included in the revision law.

Both Chairman Cooper (D-Tenn) and Rep. Daniel A. Reed (R-NY), senior Republican on the committee, have introduced bills to repeal the disputed section.

Jury To Get Fuller Case

By REX THOMAS

BIRMINGHAM, Ala. (AP)—Defense attorneys get their final chance today to convince a jury that it wasn't Albert Fuller who killed A. L. Patterson, the man who swore to clean up vice-ridden Phenix City.

The jury is expected to start deliberating the ex-chief deputy sheriff's fate late today or tomorrow after opposing lawyers conclude arguments.

Prosecutor Cecil Deason said he will ask the death penalty. The jury alone can fix the penalty.

Deason devoted most of his time yesterday to a preliminary rundown of the testimony. He spoke of gambling and kindred forms of racketeering that flourished in Phenix City, then declared:

"Albert Patterson was going to clean all that out. That's the reason today that Albert Patterson is in his grave. They knew he meant what he said. They knew the heyday of gambling and vice and prostitution was over when he was elected."

Despite the opposition of Phenix City gamblers, the former state senator had won the Democratic nomination for attorney general of Alabama 17 days before he was slain outside his law office there June 18.

WEATHER

NORTH CENTRAL TEXAS: Partly cloudy and warmer through Friday.

WEST TEXAS: Generally fair through Friday. Not so warm in Panhandle and South Plains and El Paso area late tonight and Friday.

EAST and SOUTH CENTRAL TEXAS: Partly cloudy and warm through Friday. Fresh to locally strong southerly winds on the coast.

Puerto Ricans Are Convicted

NEW YORK (AP)—A federal court jury early today convicted 10 Puerto Rican Nationalist party members of seditious conspiracy after deliberating the case for nearly 16 hours.

An 11th man was acquitted.

The group had been charged with trying to bring about the "political independence of Puerto Rico from the United States by force and violence and armed revolution."

Testimony at the trial linked the Nationalist party with the 1950 attempt to assassinate former President Truman and the wounding of five congressmen in the U.S. House of Representatives March 1, 1954.

In charging the jury, Judge John F. X. McGohey said it must decide whether the defendants helped in these shootings. If the jury found that the shootings were the isolated act of a few persons unaided by the defendants, the jury could not consider them against the defendants, he said.

Bell, Strauss Subpoenaed

CUERO (AP)—U.S. Rep. John Bell and State Sen. Gus Strauss have been subpoenaed by the DeWitt County grand jury, which has returned 159 indictments in veterans land program deals.

Bell, of Cuero, is driving to Texas from Washington. He is expected to testify before legislative committees looking into alleged fraud in the program by which the state helps veterans buy farms and ranches.

Strauss, of Hallettsville, has testified before such committees.

The subpoenaes weren't disclosed until today. Several prominent Cuero men also were subpoenaed.

Bell and Strauss have said money they took in land transactions were legitimate fees for legal services. Both are attorneys.

School Fuss Still Snarled

IRVING (AP)—Both sides in the school snarl awaited today a decision by County Judge W. L. Sterrett whether to call an election that could wipe out the Irving Independent School District.

A committee of Irving residents, summoned by the judge for today's conference, said it still wanted the election—merely a means to an end.

The election would decide whether the school district should continue to operate as a political entity. If the district is erased, so would be the school board—the ultimate aim.

The board is in a right with a superintendent it fired.

Embattled school trustees also announced today the 5,600-pupil district now has practically a full staff. The trustees said 102 new teachers, seven principals and 11 others han been hired since March 1.

That's the day when more than half of the school district's employes, including nearly 100 of the 207 teachers, voted not to work until Supt. John L. Beard was reinstated.

The school board then dismissed the striking employes. Sterrett said he will order the election March 26.

Red Jets Reported Moving To Strait

By SPENCER MOOSA

TAIPEI, Formosa (AP)—A new Communist jet air division from Manchuria is being moved to the Formosa Strait area for possible assault on the offshore islands, an unconfirmed Chinese Nationalist report said today.

The English language China News credited the report to Nationalist intelligence sources, but the Defense Ministry said it had not heard about it.

The report said Red China was bringing down the division "to beef up its invasion threat against Free China."

The newspaper said a Communist air division has up to 75 planes including MIG17s, "the latest Soviet improvement on the high-flying, heavily armored MIG15" which was the main Red air weapon in the Korean War.

Earlier reports had stated the Reds were preparing for expected ground reinforcements in the Foochow area, opposite Formosa.

Official Nationalist circles welcomed wholeheartedly Secretary of State Dulles' speech Tuqesday night on his Asian tour. They said he made clear that the United States would maintain a strong position against communism in this part of the world and would meet force with force.

Wen Hua-ling, a former Communist naval official who deserted to the Nationalists last December, told The Associated Press the Reds were determined to invade Formosa but first would try to seize the offshore islands.

Wen said he was convinced the Communists would try by diplomatic maneuvers to get the U.S. 7th Fleet withdrawn from protecting Formosa, but if this failed they might try a sudden attack on the fleet. They would try this only if they had Soviet Russian air and naval support, he said. In his opinion, Russia would provide this support if political maneuvers fail.

Wen said he was sure the Reds would not dare attack Quemoy and Matsu if convinced the United States would defend those islands.

Ike Pledges Europe Force

WASHINGTON (AP) — President Eisenhower told America's European allies today the United States will maintain its "fair share" of military forces in Europe so long as there is a threat to the area.

The pledge was given in a message from the President to the prime ministers of seven European nations which are setting up a Western European Union to include a rearmed West Germany.

These nations are Britain, France, West Germany, Belgium, Italy, Luxembourg and the Netherlands.

The message is designed to dispel any fears in France or other countries that once German power is added to that of other Western nations the United States would pull out of Europe. It is also designed to spell out U.S. policy on cooperation with the North Atlantic alliance.

Eleven Seated On Jelke Jury

NEW YORK (AP)—Eleven persons, including three women, have been seated as jurors in the Mickey Jelke vice retrial. But the court ran out of prospective jurors yesterday and a recess was called until Monday.

One more juror and two alternates were yet to be picked.

Both sides agreed yesterday on three jurors, including unmarried Kay Brunell, who joins two married women, both mothers, on the panel.

Men seated were George F. Servio, a telephone company foreman, and Allan H. B. Wahlberg, manager of a 5th Avenue apartment building.

The prosecution rejected a series of women prospects warned by both the defense and the state they would hear seamy testimony on sex.

Jelke, 25-year-old oleomargarine heir, is being retried on two counts of compulsory prostitution for which he was convicted in his first trial in 1953. No women served on the jury which heard testimony from high-priced call girls.

A new trial was ordered when the Appellate Division ruled General Sessions Judge Francis L. Valente denied Jelke a fair trial in barring the press and public from a portion of the first trial.

Temperature Hits 88

Snyderites shed their coats yesterday as the temperature climbed to 88 degrees. Some Texas cities reported record heat marks for the day. A low of 48 degrees was recorded overnight, David Strayhorn, acting weather observer, said, with 50 degrees at 7:30 this morning.

Legislature Far From Goal At Session's Half-Way Mark

By DAVE CHEAVENS

AUSTIN (AP) — The Legislature plodded to the eve of its first half today, miles away from the goal on most controversial issues, but working on them.

Some progress was made yesterday on part of Gov. Allan Shivers' program when the Senate completed action on two hospital improvement bills and sent them to his desk for final approval.

Both House and Senate Appropriations Committees were up to their ears in putting together the big money bills to finance essential state operations during the next two years.

Tomorrow is the 60th day of the 120 days during which the lawmakers will draw their $25 a day pay. After that their salaries will drop to zero.

After tomorrow, "free" introduction of bills comes to an end. Only certain measures such as the major money bills and matters recommended as emergencies by the governor may be introduced except by permission of four-fifths of the membership.

Strict rules governing debate will be dropped automatically by the Senate and it is expected to get its teeth into such issues as water-saving, finances, and insurance reform bills.

The house has not been operating on the same rigid rules which have limited Senate debate to noncontroversial questions.

It has started already arguments in which economy forces have urged members to go slow in setting up new senior colleges in the face of a state fund shortage that will almost certainly bring on a big tax bill.

Rep. Stanton Stone, Freeport, chairman of the Revenue and Taxation Committee, has suggested that the necessary tax bill be held down to providing funds for new essential expenses. That apparently will be the administration's objective.

Stone has ready for introduction a revenue measure levying on beer, cigarettes and cigars. The governor has suggested two cents a gallon more tax on gasoline to finance new highway construction.

Two measures relating to revenue were sent to subcommittee yesterday by Stone's committee. One would exempt Dallas' Union Terminal from the state franchise tax. The other would bring company-owned gasoline filling stations under the same state chain store tax that applies now to clothing and grocery stores.

A move started outside the legislature to urge the lawmakers to boost the pay of the three railroad commissioners to $20,000 a year from the $10,600 they now get. The raise was recommended by the Texas Independent Producers and Royal Owners' Assn. the association called attention to the raises in pay recently voted for the governor and other constitutional officials.

Sen. Jarrard Secrest of Temple and Rep. Richard H. Cory introduced companion bills yesterday which they said would help claim holders against insolvent insurance companies. The bills were referred to committees in both houses.

Eccles Urges Tighter Credit In Stock Market And Housing

By ED CREAGH

WASHINGTON (AP)—Marriner S. Eccles, former chairman of the Federal Reserve Board, said today "there are elements of real danger to the economy" in the stock market and housing booms. He called for tighter credit in both fields.

Eccles, now a Salt Lake City banker, told the Senate Banking Committee that margin requirements should be promptly raised to at least 75 per cent.

"If the value of stocks continues to rise," he said, "the margin requirements should ultimately be increased to 100 per cent. As a matter of fact, they should never have been reduced in February, 1953. It looks as though the stock market was being favored."

Margin requirements are now 60 per cent, meaning one who buys stocks need put up only 60 per cent of the cost in cash and may borrow the other 40 per cent from his broker.

In February, 1953, the Federal Reserve Board, which has authority in that field, dropped the margin requirement from 75 per cent to 50 per cent. It was raised last January to 60 per cent.

An earlier witness was John J. McCloy, board chairman of the Chase National Bank. McCloy expressed the view that the committee's "friendly study" of the stock market "is not viewed with any great apprehension" in financial circles.

Referring to the break in stock prices yesterday and the day before, McCloy said:

"I don't believe—I hope, at any rate—the general condition of the country is not so jittery that the facts developed here would result in a general depression of values."

McCloy, former U.S. high commissioner for Germany, also told the senators the United States is becoming economically more dependent on its Allies "as the free world grows stronger." He said this trend works the other way too—that other Western countries increasingly need the support of the American economy.

The inquiry, directed by Sen. Fulbright (D-Ark), is now a week old.

Share prices dropped sharply on the New York exchange for the second day yesterday although a fairly broad recovery followed.

Fulbright stood by his contention that the Senate inquiry didn't cause the price break.

McCloy was asked to testify about the impact of foreign participation in the American stock market. His reply, in prepared testimony, was that it's not very great and appears to have been decreasing in recent years.

"At the end of 1953," he said, "foreigners were reported by the Department of Commerce to hold U.S. stocks, common and preferred, valued at $3,400,000,000. This was equal to only 2.9 per cent of the total value of stocks listed on the New York Stock Exchange."

McCloy said industrial experience of 1953-54 casts doubt on a widely held belief that "even a minor recession in the United States would set in train a downward spiral in the economies of other nations which they could not avoid."

While American production dropped as much as 10 per cent, McCloy said, Western Europe's output rose 7 per cent and "it was the strength in demand from Western Europe that took up the slack in raw material markets and did so much to hold prices stable."

He said, however, that the outcome undoubtedly would have been different if the United States during that period had not continued to "provide the rest of the world an extra lift in the way of supplies and financial aid."

"The fact is," he said, "that even as the free world grows stronger, it grows more interdependent. We need the help of other lands for raw materials, markets and mutual defense; and they need the support of our economy if they are to achieve stability and a satisfactory rate of economic progress."

AREA OIL ROUNDUP

Three Deep Tests Scheduled In Area

Three new deep wildcats, two to the Ellenburger and one to the Pennsylvanian, have been staked in Nolan, Fisher and Coke Counties.

Three and three-quarter miles northwest of the West Rowan & Hope Pennsylvanian reef lime field of northwest Nolan County, Cities Service Oil has spotted location for a 7,200-foot Ellenburger prospector. It will be the No. 1 B. Young, 1,980 feet from south and 660 feet from east lines of 16-23-T&P.

W. F. Nenney of Tyler will drill an Ellenburger wildcat three and a half miles south of Sylvester in southeast Fisher County as the No. 1 Alice Cross. The drillsite is 660 feet from south and east lines of subdivision 39, Bastrop County school land survey No. 323. Contract depth is 6,100 feet.

Seaboard Oil announced site for the 7,500-foot Pennsylvanian wildcat in central Coke County, five miles west of Robert Lee. It is the No. 1 Effie Rose, 660 feet from northwest and 2,875 feet from southwest lines of J. Kiler survey No. 490.

MITCHELL LOCATION

J. P. (Bum) Gibbins, Inc., No. 1 TXL is to be drilled as a 2,800-foot wildcat nine miles southeast of Coahoma in Howard County. Drillsite is 990 feet from south and 330 feet from east lines of 43-30-tls-T&P.

STRAWN DISCOVERY

C. L. Norsworthy, Jr., of Dallas No. 1 Lance Sears, southwest Nolan County wildcat, is to be completed as a discovery from the Strawn reef. Its original destination was the Ellenburger.

The last Strawn drillstem test reported was from 6,823-843 feet. The tool was open 63 minutes with gas surfacing in 55 minutes. There was no estimate on the volume of flow. Recovery was 185 feet of mud and 70 feet of heavily oil and gas-cut mud.

A drillstem test from 6,793-823 feet had mud at the top in 30 minutes and oil in 35 minutes. The flow was turned to pits for 11 minutes at the estimated rate of from 75 to 100 barrels hourly.

The well is in 153-1A-H&TC, five miles west and slightly south of Maryneal.

WILDCAT FAILURES

Shell Oil Co. No. 1 N. H. Reed, northeast Howard County wildcat, has been quit as a failure at 9,150 feet in the Siluro-Devonian. That zone flowed sulphur water. None of the higher formations logged shows for commercial production.

The well was four miles northeast of Coahoma and in 19-30-tln-T&P.

British-American Oil Producing Co. No. 1 Harry Rotan, east Nolan County prospector 10 miles northeast of Blackwell, drilled to 6,298 feet in dry Ellenburger. Location was 330 feet from south and 1,300 feet from east lines of 5-Z-T&P.

SHARON RIDGE

C. T. McLaughlin of Snyder has filed applications to drill two new wells in the Sharon Ridge 1700 field two miles south of Ira.

The No. 16 Wellborn is 990 feet from north and 330 feet from west lines of the northeast quarter of 102-97-H&TC. The No. 17 Wellborn is 330 feet from south and west lines of the same acreage. Both are to drill to 1,850 feet, with the No. 16 starting by March 15 and the No. 17 starting by March 25.

DRILLING REPORT

James R. Snowden and others No. 1 R. H. Jordan and others, in the Fluvanna field of northwest Scurry County, is drilling in dolomite, shale and chert below 6,244 feet after a four-hour drillstem test from 5,892-914 feet. There was a strong blow throughout. Recovery was 1,300 feet of mud and sulphur water and 1,760 feet of salty sulphur water.

Sun Oil No. 1-D Shannon, proposed wildcat 11¼ miles northwest of Snyder, has not begun operations. Ada Oil No. 1 R. H. Odom, six miles northeast of Snyder, is drilling in shale below 6,527 feet.

Magnolia No. 1 York in east Borden County is drilling in lime and shale below 7,917 feet.

Sunray and Seaboard No. 4 Spires in Kent County is drilling toward 6,755 feet where it will drillstem test.

Man Is Released From Jail On Bond

J. B. Francis, about 22, Snyder, was released from the county jail yesterday afternoon on bond of $100 set yesterday morning when he pleaded innocent to a county court charge of aggravated assault.

Sureties on the bond were R. W. Burney and Garland Armstrong. The charge alleges assault on the defendant's wife.

Military Success Can Pose Problem

By HAL BOYLE

NEW YORK (AP) — The surprise capture of the Remagen bridge across the Rhine 10 years ago is now accepted as one of the stunning feats in military history.

But when it actually happened it is hard to say who was dismayed most by it—the German enemy or some of the top Allied strategists.

At an anniversary reunion this week President Eisenhower honored 12 heroes who were among the first to cross and seize the bridge. Warmly he assured them that their action typified "the dash, the ingenuity, the readiness at the first opportunity that characterizes the American soldier."

But diplomatically he refrained from mentioning that this sudden battlefield prize became for a few days quite a hot potato at his own wartime headquarters. The big question: What to do with the bridge?

Some military strategists, like wives at housecleaning time, hate to change their tidy plans, no matter for what reason. That's why the unexpected capture of the Remagen bridge upset and even annoyed some Allied chieftains.

Here was the situation in early 1945:

Nobody expected to breach the ancient barrier of the Rhine except as a result of a mighty effort. A big plan had been laid to make the crossing in Field Marshal Montgomery's sector.

Most British—and some American—advisers to Eisenhower at SHAEF were pressing him to mass the Allied strength behind Montgomery in a single big march across Germany.

But Gen. Omar Nelson Bradley and other American field commanders favored another plan. Bradley himself wanted also to cross the Rhine with his group, swing north, link up with Montgomery and thus pocket the Ruhr, Germany's industrial heart.

So the issue stood—still undecided—on March 7th. Then doughboys and tankment of the 9th Armored Division dramatically changed the picture. Traveling so swiftly they actually had gone beyond their road maps, they arrived at the Rhine. Startled German engineers, led by a major, frantically tried to destroy the Ludendorff railway bridge. Two explosions weakened the structure. But before they could complete the job, American gunfire drove them off. The Yanks raced to the far side of the Rhine.

Today many of the survivors have been honored with medals. Equal honor is owed to the memory of dozens of American Army engineers, who repaired the bridge under shellfire for 10 previous days and lost their lives when it collapsed into the Rhine.

No medal went to the German major who had been ordered to blow up the bridge, and didn't quite succeed. There is no possible excuse in the German Army for failing to blow a bridge across the Rhine.

He was tried and shot, and it didn't take very long. Somehow, looking back at the Remagen story, which I helped cover 10 years ago as a war reporter, I cannot escape a feeling of regret at the German major's penalty. Fate put him in the wrong place at the wrong time, and he paid a high price for some bad battlefield luck. He left, I believe, a family.

DWI Charge Is Filed In Court Here Today

A charge of driving while intoxicated was filed this morning in county court against Gaston Wayne Blair, 43, Snyder.

He was arrested by E. W. Green and Bill Zimmerman, highway patrolmen, at 9:05 o'clock this morning in the 3000 block of Avenue S.

He had not been brought before the court by noon.

Fine Assessed Here On Charge Of DWI

Ransom E. Parrish, 45, Big Spring, was fined $73.50, including court cost, when he pleaded guilty this morning to a county court charge of driving while intoxicated.

He was arrested Tuesday night by Bill Zimmerman, highway patrolman, and the charge was filed yesterday morning.

Parrish was credited with having served the three-day jail sentence mandatory in convictions of drunken driving. His driver's license was suspended for six months, also mandatory.

Sunspots reach a maximum on the average of every 11⅛ years and theorists believe that there are cyclical changes in the weather in the same intervals, perhaps caused by the sunspots.

Mrs. Ray Cockrell, left, is shown serving refreshments to Mrs. Mark H. Latimer, center, and Mrs. Arleen Draker, guests at a tea given by the Medical Auxiliary yesterday. (Lee Watson photograph)

Medical Auxiliary Honors State President At Tea

Mrs. Mark H. Latimer of Houston, state president of the Women's Auxiliary to the Texas Medical Association, was honored at a tea given in the Country Club yesterday afternoon. Accompanying Mrs. Latimer here was Mrs. Arleen Draker of Austin, executive secretary of the Auxiliary.

Mrs. John Y. Battenfield and Mrs. Ray Cockrell presided at the tea table. It was laid with a green floor-length cloth and held an arrangement of daffodils and English ivy in a white ironstone compote.

During the afternoon, Mrs. Latimer spoke to the group about state and national legislation which will affect the medical profession. She also reviewed the projects of auxiliaries which she has visited recently in her state-wide tours. One project of interest is being undertaken by the Midland auxiliary. That group has bought a house and is furnishing it as a residence for a couple who will provide a temporary home for abandoned children until other arrangements can be made for their care.

Mrs. Latimer also reminded auxiliary members here that the state meeting will be held in Fort Worth from April 24-27. The district meeting is scheduled on April 21 in Midland, with most of the local auxiliary members planning to attend.

About 10 members of the Snyder auxiliary attended the tea. Mrs. Cockrell directed arrangements.

MR. AND MRS. HAROLD LEE RODDY

Thornhill-Roddy Ceremony Conducted At Ira Sunday

The home of Mr. and Mrs. Bailey Thornhill of Ira was the scene of the wedding of their daughter, Mary Pearl, and Harold Lee Roddy, the son of Mr. and Mrs. Layne Roddy, route 3, on Sunday.

The Rev. C. J. Smith, pastor of the Knapp Baptist Church, officiated at the double-ring rites at 2:30 p.m. The couple stood before double windows to recite vows. Ludie Sue Thornhill, sister of the bride, was flower girl. She wore a dress of blue faille with a trim of seed pearls on the collar.

Given in marriage by her father, the bride wore a dress of blue faille trimmed with seed pearls on the collar and cuffs. A white lace hat held her veil, also trimmed with seed pearls. She carried white roses atop a white Bible. Her jewelry was a pearl necklace which originally belonged to the bridegroom's grandmother.

At the reception which followed the wedding, Eula V. Holdren and Ruby Lou Matlock presided at the refreshment table. The table was laid with a white linen cloth which had been a wedding gift of the bridegroom's parents. Carolyn Smith secured the names of guests for the bride's book.

When the couple left on a week's wedding trip to San Antonio the bride wore a gray suit with brown accessories. Upon their return, they will be at home at 906 Avenue O in Lubbock. Both are students at Draughon's Business College in Lubbock, and were graduated from Ira High School. Mr. Roddy is also employed at Reeves studio in Lubbock.

Cosmorama Club Hears Yarbrough

Dr. Cecil Yarbrough, superintendent of school, was guest speaker for the Cosmorama Club when it met yesterday afternoon with Mrs. Jack Bowden as hostess.

Famous scientists connected with the H bomb, Robert Millikan and Robert Oppenheimer, were discussed under the general theme of National Defense.

Floor plans for a woman's clubhouse to be built here were viewed and discussed. Other discussion in the business meeting included the district federated club convention to be held here in April and the rodeo parade this summer.

Twenty-six club members attended.

Shelley Is Speaker

B. J. Shelley, city manager, was guest speaker for the Alpha Study Club Tuesday afternoon. He was introduced by Mrs. Frank Wilson, program director. Mrs. Helen Trix McMullen was hostess for the meeting, attended by 19 members.

The British railways operated a number of firefighting trains.

NEWS FROM CANYON

By MRS. MARGARET RILEY

Diane Kerley attended the volleyball tournament in Odessa Friday night. While there she also visited her brother, Ed Kerley. Miss Kerley was in Big Spring Saturday for a Future Homemakers of America meeting.

Among those attending the basketball tournament at Canyon over the weekend were Mr. and Mrs. John Layne, Mr. and Mrs. Ed Taylor, Mr. and Mrs. Nathan Shepherd, Mrs. Jim Stirling, Lorita and Joy Stirling, Mrs. L. F. Stirling, Mr. and Mrs. Orville Taylor, Mr. and Mrs. Houston Kimbrell and family, Mr. and Mrs. Grady Moore, Marylin Moore, Darla Bryant, Clifton Thomas and Judy Thomas.

Mrs. Jim Stirling and daughters and Mrs. L. F. Stirling spent the weekend with Mr. and Mrs. Elma Cummings in Canyon and Mr. and Mrs. C. L. Hood in Amarillo. Mrs. Ed Taylor also visited Mrs. Cummings.

Bruce Kerley went to Sweetwater Saturday on business.

Bobbye Taylor recently visited here with Mr. and Mrs. Ed Taylor and Mr. and Mrs. Orville Taylor and family.

Earnest Adams and T. M. Pherigo were in Big Spring on business Tuesday.

Mr. and Mrs. Robert McCoy and Linda visited Mrs. L. M. McCoy in Anson and Mr. and Mrs. Dee Smith and family in Stamford over the weekend.

Mrs. R. E. Adams and Mrs. T. M. Pherigo were in Colorado City Wednesday. Mr. and Mrs. Adams visited Mr. and Mrs. Gene Carlisle in Ira Sunday.

Mr. and Mrs. Joe Willingham of Woodson spent the weekend with Mr. and Mrs. Jud McGaha and sons.

Jerry Thomas, who is attending Texas Tech, spent the weekend here.

Ronnie and Kent Shepherd spent the weekend with their grandparents in Sweetwater. Visiting Mr. and Mrs. Nathan Shepherd Sunday were Mr. and Mrs. H. W. Shepherd of Snyder.

Mr. and Mrs. Howard Myers of Snyder visited Mr. and Mrs. Grady Moore recently.

Mr. and Mrs. John Layne visited Mr. and Mrs. C. W. Kimbrough in Snyder Monday.

Sandra, Carol and Linda Leech of Hermleigh spent the weekend with their grandmother, Mrs. Myrtle Burrow. Mr. and Mrs. Clifford Burrow and family of Fluvanna visited Mrs. Burrow Sunday.

WOMEN'S CALENDAR

THURSDAY

Central PTA, 3:40 p.m., Central Primary cafeteria.

OES Study Club, 7:30 p.m., with Mrs. Carl Couch, 2912 Avenue F.

North Elementary PTA, 3:45 p.m., school cafeteria.

FRIDAY

Ladies Day, 9:30 a.m., Country Club. Mrs. John Casebier, hostess.

Opti-Mrs. Club, 12 noon, Manhattan Coffee Shop.

Altrurian Club, 3 p.m., with Mrs. R. D. English, 2304 Thirtieth Street.

Helps For Homemakers

Send your questions to "Helps for Homemakers," Snyder Daily News, or call 3-5486.

Meat and potatoes have come to be a favorite American mainstay for a majority of meals. Ground beef and potatoes go together in these burgers for an economical main dish.

BURGERS

¾ pound ground beef
¾ cup ground or coarsely grated raw potato
¼ cup ground or grated onion
2 tablespoons chopped green pepper
1 teaspoon salt
1 egg
Drippings or other fat
1 cup tomato juice or puree
1 tablespoon flour

Mix all ingredients except fat, tomato juice and flour. Form into four or five flat cakes. Brown the cakes on both sides in fat in a frying pan, then add the tomato juice, cover, and simmer slowly until done (about 25 minutes). Remove the cakes, keeping them hot. Mix the flour with a little water and stir slowly into the tomato juice in which the cakes simmered. Cook slowly, stirring constantly, until thickened. Pour over the cakes.

You can also make these cakes from cooked meat and potatoes. Just combine 1½ cups diced or ground cooked meat, 2 cups mashed potatoes, 1 egg and 2 tablespoons minced parsley. Mold into flat cakes, flour lightly, and brown in a little hot fat.

To complete the meal, add squash or another cooked vegetable, a fresh salad like an apple-celery-raisin combination, and a light dessert.

• • •

Like onions with your steak? Boil two onions, press through a sieve, and use for thickening steak gravy.

• • •

Butterscotch toast for that first important meal of the day: Spread toast with butter or margarine and sprinkle with brown sugar. Toast under the broiler until the sugar bubbles.

Troy Lilly, Jr., Is Honored On Birthday

Mrs. T. L. Lilly honored her son, Troy Lilly, Jr., at a party for his sixth birthday Monday in the family home.

An Easter theme was used in the decorations. Refreshments of cake and ice cream were served the guests, Sharon Carter, Philip Wiley, Debbie McLennan, Barbara Aycock, Sandra Howard, Robbie Frizzell, Cathy Poe and Mitchell Rambin.

Send 30c for PATTERN with Name, Address, Style Number and Size. Address PATTERN BUREAU, Snyder Daily News, Box 42, Old Chelsea Station, New York 11, N.Y.

Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra five cents per pattern.

WHAT'S GOING ON

Mrs. Oliver S. Wills of Fluvanna was brought to Cogdell Memorial Hospital from the home of her daughter in Vincent by Bolger ambulance yesterday.

James Villa was transferred from Battenfield-Jones Clinic-Hospital to the Veterans Administration hospital in Big Spring yesterday by Bolger ambulance.

Robert Langford, 1702 Avenue R, was brought home from an Abilene hospital by Bolger ambulance this morning.

Mrs. Norman Christian, Colorado City highway, was taken to Root Memorial Hospital in Colorado City last night by Bell ambulance.

Mrs. Roy Lashaway, 1102 Twenty-fifth Street, and Mrs. Bill Davis, 1207 Twenty-fifth Street, are in Elkhart, Ind., on business. They will return Friday.

Mr. and Mrs. Harmon Elder of Winters visited Monday evening in the home of Mr. and Mrs. Clark Farrar, southwest of city. Mr. and Mrs. Farrar will visit in Winters next Sunday to celebrate Mrs. Farrar's birthday.

Mr. and Mrs. Oran Bell and children of Weatherford left Wednesday after visiting several days in the home of Mrs. Bell's sister and brother-in-law, Mr. and Mrs. P. A. Ware, southwest of city.

Mrs. A. A. Broyles and son, Ferrell Ray, Huffman and Avenue W, left today to spend the weekend with Mr. Broyles, who is working in Fort Worth.

The ancient Egyptians took homing pigeons on sea voyages.

Iota Psi Chapter Has Oriental Party

The Iota Psi chapter of ESA was entertained at an oriental party Tuesday night in the home of Mrs. Art Dibble, 117 Browning. Mrs. Wayne Pitner was co-hostess.

Sixteen members and five rushees attended. They were Mrs. Dick Dean, Mrs. Jim Pilant, Mrs. Dean Strick, Mrs. Jim Thomas and Mrs. Hershel Hinshaw. Mrs. Zeb Williams won the prize given for the best costume. An oriental theme was carried out in house decorations.

Refreshments of sandwiches and punch were served by the hostesses.

Mrs. Melton Heads High School P-TA

Mrs. R. H. Melton was elected president of the High School Parent - Teacher Association Monday night.

Other new officers named were Mrs. H. N. Atchison, vice president, Mrs. Harry Ward, secretary, and Mrs. Bill Teaff, treasurer. The new officers are to be installed at the next meeting.

A life membership was presented Mrs. B. V. Gillean. Other business included the approval of plans to send Mr. and Mrs. T. D. Wiman, Jr., to the state PTA convention in Abilene next month.

VANILLA SOUFFLE WITH CHOCOLATE SAUCE
. . . never-fail souffles are made with tapioca

Souffle Will Be Fluffy If You Serve It Immediately

Don't believe it when those who have tried say that souffles are just too temperamental.

These supremely fluffy, egg rich dishes are particular about one thing only — being served right when ready with no idle chatter time between the oven and the table. Otherwise, they mix easily, are no trouble in baking, and provide wonderful variety for meatless meals.

A deep casserole dish should be used with a souffle. If this isn't available, use a smaller dish but give it additional height by fitting a piece of waxed paper several inches above the rim and tying it around with a piece of string.

This basic recipe for a cheese souffle, the favorite of all souffles, should have a golden brown crust on top.

BASIC CHEESE SOUFFLE

4 tablespoons shortening
5 tablespoons flour
1 teaspoon salt
½ teaspoon paprika
1½ cups milk
1 cup grated yellow or smoked cheese
6 egg yolks, beaten until thick and lemon colored
6 egg whites, stiffly beaten
Dash of cayenne

Melt shortening in saucepan, add flour, salt, paprika, and cayenne and blend well. Add milk gradually and cook until thickened, stirring constantly. Add cheese and stir over low heat until cheese is melted. Removed from heat. Add beaten egg yolks and blend thoroughly. Fold in beaten egg whites. Pour into 1½-quart greased casserole and place casserole in pan of warm water. Bake in moderate oven (350 degrees F.) 40 to 50 minutes. Serve immediately. Serves 6.

For those who need extra assurance that the souffle will be its fluffy best, the following recipe using tapioca is practically guaranteed to give results.

TAPIOCA CHEESE SOUFFLE

3 tablespoons quick cooking tapioca
1 teaspoon salt
1 cup milk
¾ cup grated American cheese
3 egg whites
3 egg yolks

Combine tapioca, salt and milk in a saucepan. Place over medium heat and cook until mixture comes to a boil, stirring constantly. Remove from heat; add cheese and stir until melted. Allow to cool slightly while beating eggs. Beat egg whites until stiff. Beat egg yolks until thick and lemon colored. Add tapioca mixture to egg yolks and mix well. Fold into egg whites.

Turn into 1½-quart baking dish. Place in pan of hot water and bake in moderate oven (350 degrees F.) 50 minutes, or until souffle is firm. Makes 4 or 5 servings. This souffle may also be baked in custard cups. Bake in moderate oven (350 degrees F.) 30 minutes or until souffle is firm.

COTTAGE CHEESE SOUFFLE

2-3 cup flour
1 teaspoon salt
Dash black pepper
1-3 cup butter, melted
1 cup milk
2 cups (1 pint) creamed style cottage cheese
4 eggs, separated
1 teaspoon finely grated onion

Blend flour, salt and pepper with melted butter. Slowly stir in milk, keeping mixture smooth. Stir in cottage cheese. Place over low heat and cook, stirring constantly, until thickened. Remove from heat. Beat egg yolks until thick and lemon colored. Slowly stir hot sauce into egg yolks. Add onion. Beat egg whites until stiff but not dry. Fold cottage cheese mixture into egg whites. Pour into 2-quart casserole. Bake in slow oven (300 degrees F.) until lightly browned and top is firm and dry.

Any cooked fish, leftover or canned, may be used in the following basic recipe for a seafood souffle. The oyster souffle has a few more seasonings. Any seafood souffle will taste extra delicious with the special shrimp sauce.

SEAFOOD SOUFFLE

¼ cup butter
1-3 cup unsifted flour
1½ teaspoons salt
2 cups milk
4 egg, separated
2 cups cooked fish

Melt butter in top of double boiler; blend in flour, add salt and milk and cook over direct heat, stirring constantly until sauce boils and thickens. Beat egg yolks until light; stir in a little of the hot sauce and pour back into rest of sauce; cook over boiling water, stirring constantly for 2 minutes. Remove from heat. Flake fish and mix with sauce. Beat egg whites thoroughly into mixture. Pour into a well buttered 6-cup casserole and bake in a moderately slow oven (325 degrees F.) for 1 hour. Makes 5 to 6 servings.

OYSTER SOUFFLE

1 dozen oysters, drained
1½ teaspoons butter
6 tablespoons quick cooking tapioca
½ teaspoon salt
⅛ teaspoon pepper
1 teaspoon grated onion
1 tablespoon finely diced celery
1 teaspoon Worcestershire sauce
Oyster liquid plus milk to make 1½ cups
2 tablespoons finely chopped parsley
3 egg whites
3 egg yolks

Saute oysters in butter about 3 minutes or until edges curl. Cool and cut into small pieces Combine tapioca, salt, pepper, onion, celery, Worcestershire sauce, and liquid in a saucepan. Cook and stir over medium heat until mixture comes to a boil. Remove from heat and add oysters and parsley. Allow to cool slightly while beating eggs.

Beat egg whites until stiff. Beat egg yolks until thick and lemon colored. Add tapioca mixture to egg yolks and mix well. Fold into egg whites. Pour into 1-quart baking dish. Place in pan of hot water and bake in moderate oven (350 degrees F.) 1 hour, or until souffle is firm. Makes 4 servings. To make 8 servings, double all ingredients but use 5 eggs instead of 6. Bake in 2-quart baking dish.

SHRIMP SAUCE

Melt 2 tablespoons butter in a small saucepan. Add 2 tablespoons flour and stir until smooth. Add 1 cup milk gradually, stirring constantly. Cook and stir over medium heat until mixture is smooth and thickened. Pour small amount over 1 slightly beaten egg yolk, stirring constantly. Then add remaining mixture and mix well. Return to saucepan. Add 2 teaspoons sherry and 1 cup cooked shrimp, which have been cut in half lengthwise. Season to taste with salt and pepper. Place over heat until thoroughly heated. Do not boil. Makes about 2 cups sauce, or enough for 4 servings.

Other types of meat and vegetables take well to the souffle treatment. Nothing much else is needed for a meal except a good tossed salad, hot rolls, and a fruit dessert.

MEATY LUNCHEON SOUFFLE

¼ cup butter or margarine
¾ cup finely diced onion
¼ cup flour
1 cup milk
1 3-ounce can broiled mushrooms
½ cup diced yellow American cheese
3 eggs, separated
⅛ teaspoon celery salt
¼ teaspoon dry mustard
1 cup diced cooked ham or luncheon meat

Melt butter or margarine in saucepan over moderate heat. Add onion and cook 5 minutes, stirring frequently. Stir in flour. Add milk and contents of can of mushrooms. Cook, stirring constantly, until sauce thickens. Turn heat low, add cheese and stir until cheese melts. Remove from heat; stir a little of the hot mixture into beaten egg yolks; combine with rest of sauce, add celery salt, mustard and ham or luncheon meat and stir well. Beat egg whites until stiff but not dry. Fold into meat and mushroom mixture. Turn into ungreased 1½ quart round baking dish. Bake moderate oven (350 degrees F.) about 1 hour or until firm. Serve immediately. Makes 4 servings.

CARROT SOUFFLE

2 tablespoons butter or margarine
1 tablespoon minced onion
1 tablespoon finely shopped green pepper or parsley
2 tablespoons finely chopped celery
2 tablespoons flour
¾ cup milk
4 eggs, separated
1 cup, diced cooked carrots
¼ cup fine dry bread crumbs
⅛ teaspoon salt
Paprika

Cook onion, green pepper and celery lightly in melted fat; blend in flour and add milk. Cook over low heat, stirring constantly, until thickened. Beat egg yolks. Add sauce, then vegetables, crumbs, salt and pepper. Beat whites until stiff but not dry; fold in vegetable mixture. Pour into a greased baking dish and bake in moderate oven (325 degrees F.) 50 to 60 minutes or until firm. Serve at once with tomato, cheese, or mushroom sauce. Serves 4.

SPINACH AND CHEESE SOUFFLE

1 box frozen spinach
1 tablespoon minced onion
6 tablespoons butter
5 tablespoons quick cooking tapioca
1½ cups milk
1 teaspoon salt
Dash of pepper
1 cup grated American cheese
4 egg yolks, beaten until thick and lemon colored
4 egg whites, stiffly beaten

Cook spinach as directed on package. Drain and chop. Saute onion in butter in saucepan until golden brown. Add to spinach. Combine quick cooking tapioca, milk, salt and pepper in saucepan. Place over medium heat and cook until mixture comes to a full boil, stirring constantly. Remove from heat. Add cheese and stir until melted. Add spinach mixture and egg yolks and mix well. Add very gradually to egg whites, folding in thoroughly. Turn into greased 2½-quart casserole. Place in pan of hot water and bake in moderate oven (350 degrees F.) 1 hour, or until souffle is firm. Serve at once with creamed mushrooms or egg sauce, if desired. Makes 8 to 10 servings.

One of the simplest ways to make a vegetable souffle is with canned cream soup of all types. Here are a few examples.

TOMATO CHEESE SOUFFLE

2 tablespoons butter
3 tablespoons flour
¾ cup milk
½ cup condensed tomato soup
1½ cups grated cheese
¼ teaspoon dry mustard
4 eggs, separated

Melt the butter, add flour and cook until frothy. Then add the milk, heated, and cook thoroughly until thickened. Stir in the condensed tomato soup and the grated cheese and heat until the cheese is melted. Remove from the fire and add the mustard and egg yolks, adding 1 egg yolk at a time and beating thoroughly after the addition of each egg yolk. Beat the egg whites until stiff, but not dry, and fold them into the mixture. Pour into a well greased casserole and set the casserole in a pan of water. Bake in a moderate oven (350 degrees F.) 50 to 60 minutes or until firm in the center. Serves 5 to 6.

GREEN PEA SOUFFLE

1 10½-ounce can condensed green pea soup
2 tablespoons milk
4 eggs

Stir the milk into the condensed green pea soup and heat. Then add the egg yolks, adding one yolk at a time and beating thoroughly after adding each yolk. Beat the egg whites until stiff but not dry. Fold the egg whites into the mixture. Pour into a buttered casserole and put the casserole in a pan of hot water. Bake in a slow oven (325 degrees F.) for 50 to 60 minutes. Serves 5 to 6.

Souffles can finish a meal perfectly, too. If you're going to serve a souffle for dessert, and it has to be kept waiting, keep it warm in a very low oven.

CHOCOLATE SOUFFLE

5 eggs, separated
2 tablespoons flour
2 tablespoons butter
¾ cup milk
1½ ounces chocolate
½ cup fine dry bread crumbs
½ cup sugar
1 teaspoon vanilla
¼ teaspoon salt
½ teaspoon cream of tartar

Separate eggs right out of the refrigerator, then let them warm to room temperature, if you can. They whip better that way. Blend flour and butter in a saucepan, add milk and cook until smooth, stirring constantly. Add chocolate and stir until melted, then add crumbs and sugar. Add hot mixture slowly to well beaten egg yolks and beat thoroughly. Add flavoring. Cool. Fold into stiffly beaten egg whites (beat whites with salt and cream of tartar). Bake in a casserole greased on the bottom only, set in a pan of hot water, from 1¼ to 1½ hours at 300 degrees F. Serve at once with plain or whipped cream or custard sauce.

Bank's Loan Rates Are Tied To Federal Reserve System

By FRANK O'BRIEN

WASHINGTON (AP)—The federal reserve system can make money hard or easy to borrow—and thus affect your pocketbook — by its loans to banks and by its buying and selling of government bonds.

It can also do the same thing by changing the amount of reserves it requires its 7,000 member banks to keep on deposit with reserve banks.

But changing the reserve rate is described by Reserve Board Chairman William McChesney Martin Jr. as a "blunt instrument" that he hestitates to use very often. It hits all banks, those with plenty of reserves and those with thin reserves alike, tieing up or liberating operating funds, changing the very basis on which the banks do business.

So the Federal Reserve Board likes to hold reserve rate changes back, for use to counter basic economic changes, principally to attack or prevent inflation (by raising reserve requirements) or to stimulate the economy in times of recession (by freeing reserves).

The system prefers to use two other, more delicate and selective, ways of increasing or decreasing reserves.

The first of these is its "open market operations." This is the buying and selling of government securities by the reserve system.

If a reserve bank buys a government security in the open market (not from the government, that is), it has to pay for it, just as you would have to pay.

The reserve bank's check in payment for the security is written on the 1¾-billion-dollar national gold hoard for which the reserve system is trustee. This kind of a check, based directly on the nation's gold reserve, increases the reserves of the bank to which it is made out.

So by buying securities in the open market, the reserve system can at will increase bank reserves by just the amount it wants.

Of course, the opposite is also true. By selling securities it owns, the Fed can cut reserves.

This buying and selling of reserves, therefore, can be used—and is used, daily—to hold a delicate balance between the economy's need for credit, and the availability of credit.

One of the privileges of membership in the reserve system is that of borrowing from a reserve bank. A sharp seasonal demand for credit may exhaust the lending power of a commercial bank (that is, it may not have enough reserves left to meet the local needs for credit).

This can happen in any farm town in the planting season, when farmers borrow to put in their crops, or it can happen anywhere else. The demand for credit shoots up sharply in cities in the late summer and early fall, when businessmen borrow to stock up their shelves for the fall and winter trade.

One of the prime purposes of the reserve system is to avoid such seasonal or local "freezing" of credit just when it is needed most. Without enough elasticity to meet these swings, you might be thrown out of a job for the simple reason that your employer might not be able to get the credit with which to pay your salary, or otherwise operate his business, during the seasons of the year when he operates on credit.

Inability to meet seasonal swings with quickly adjusted credit resources would put a major crimp in agriculture. It could prevent your getting a loan to buy the house you want. It would make for violent ups and downs in interest rates, because interest is the price of money — high when money is scarce, low when money is plentiful.

The reserve system has tightened the money and credit supply recently, mainly by selling Treasury securities in the open market. It has done it gradually, and gently, aiming to give business enough credit for growth, but at the same time to prevent an inflationary credit binge. The tightening up followed more than a year when the reserve system had followed a policy of "active ease" to help spur business out of the downturn of 1953-54.

During such periods of tightening up, the fact that member banks can borrow from their reserve bank acts as an escape valve. The loan increases the borrowing bank's reserves. Say it is a check for $1,000. With the reserve ratio at 20 per cent, new reserves of $1,000 can be used by the commercial banking system to make loans up to about $5,000.

The reserve system can encourage or discourage such borrowing for reserves by lowering or raising the interest rate it charges on its loans. This is known as the reserve bank's "discount rate." And that discount rate is the third main way in which the reserve system can change the richness of the economic climate, making money and credit more plentiful, or harder to get.

Since it can regulate the availability of money and credit, the reserve system has the power to keep the supply of money and credit from getting bigger than the supply of goods to be purchased. When buying power outruns the supply of goods, bidding for the goods may start, and prices may go up. That is what is generally meant by inflation.

By using its powers to keep the supply of money and credit in line with the supply of goods, the reserve system acts to prevent price rises and breaks, and to create "stable values."

By easing credit during the business downturn, and turning to a slightly less easy attitude when activity picked up, the reserve board over the past two years has been a big factor in keeping prices level and making saving worthwhile.

The reserve board also sets the limits to which credit can be used in stock transactions.

It was given that authority after the 1929 crash to help keep speculation on credit from controlling the market.

When the board last month raised margin requirements from 50 to 60 per cent of the stock's price, it acted not because the price of stocks was rising but because, in its opinion, credit was beginning to be used in a way that looked dangerous to the board.

"Jerry's told me so much about you that I feel I know you well enough to dislike you already!"

Tobacco Quota In Texas Is Slender

By TEX EASLEY

WASHINGTON (AP)—A Kentucky newspaperman, admitting a desire to "explode that legend" about everything being big in Texas, reported he heard one lonesome Texas farmer gets a quota for growing burley tobacco.

Agriculture Department officials confirm it, substantially at least.

Texas, which gets 42 per cent of the nation's 18 million acre cotton quota for this year, has a grand total of one-half an acre for burley production under the 1955 tobacco program.

The planting is being increased from last year's allocation of two-tenths an acre for one farm and one-tenth for another. The 1955 Texas allocation is for three farms, one to get a tenth an acre, the others two-tenths each.

Leading all Texas' 254 counties in burley production—and last, too—is Uvalde, where former Vice President John Nance Garner grows chickens and pecans.

In 1953 1,496 pounds of burley were harvested from one farm of nine-tenths an acre and 436 pounds from another farm of two-tenths an acre.

Kentucky's crop averages 1,525 pounds per acre—or 1,326 pounds per nine-tenths an acre.

The Kentucky newsman, Bill Hudson of Lexington, wrote on the matter:

"Texas makes the 17th state to produce burley, but outside the eight-state belt, most of the others don't raise a shirt-tail full."

Around the capital:

Excerpt from newsletter of Rep. Jim Wright of Weatherford:

"Washington is 'reception struck.' Three weeks after the convening of Congress, receptions continue unabated. 'Welcome' parties for the new members are still rife. . . one almost every evening."

Rep. J. T. Rutherford of Odessa, writing impressions of a newcomer, said:

"Here, the chairman of the committee usually ends up as the 'author' of the bill, changing it and placing his name on it before it passes his committee. Sometimes the bill has been revised; and although the idea will belong to a congressman, the bill is no longer associated with him by name after it leaves the committee."

In 1933, Rep. Clark Thompson of Galveston had a lot of business to do with an Army captain who was aide to Gen. Douglas MacArthur. The junior officer was Dwight D. Eisenhower.

That relationship, in which Thompson was pushing passage of legislation to increase the size of the Army to 165,000 from 117,000 men, has continued over the years.

The latest evidence of how that relationship has stood Thompson in good stead came when a delegation representing small family-size cotton farms in Fayette and Lavaca counties came up to urge increases in cotton acreage allotments.

Getting White House appointments for constituents is difficult, even for leading Republican congressmen. Thompson telephoned a White House aide the visiting Texans would like to present their problem personally to President Eisenhower.

A few hours later the White House aide called back, saying the President was leaving town the next day and would it be possible for the group to come at once. Minutes later they were escorted in to tell Eisenhower their problems.

Mrs. Davies Gets Divorce

GOODING, Idaho (AP)—Mrs. Joseph E. Davies, who accompanied her ambassador husband on his "Mission to Moscow" just before World War II, ended her 19-year-marriage to him in this little southern Idaho town yesterday.

Dist. Judge D. H. Sutphen granted a final decree of divorce to Mrs. Marjorie Merriweather Post Davies after she filed a complaint charging the ex-ambassador with extrme mental cruelty.

Mrs. Davies, 68, had been staying in nearby Sun Valley since Jan. 25 to establish residence. She entrained for New York yesterday afternoon.

Davies, 79, was U.S. ambassador to Russia from 1936 to 1938. He told of his experiences in the best-selling "Mission to Moscow."

No property settlement or alimony was involved in the divorce, and the couple had no children by their union. Each had three grown daughters by a previous marriage.

Dies In Time To Fulfill Prophecy

ROCK SPRINGS, Wyo. (AP)—Deputy Sheriff Ed Phillips used to tell his wife Ruth he'd never live as long as his father did.

His father William died after an operation Sept. 4, 1918, in Aguilar, Colo. He was 38 years, 2 months and 16 days old.

Ed Phillips was fatally wounded in the Green River railroad yards when he and other officers were shooting it out with a crazed gunman, who later was killed.

Phillips died next day. He was 38 years, 2 months and 12 days old.

Work, Sleep, Play In Comfort

Without Nagging Backache

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

FISH FOR COMPLIMENTS

"So delicious"..."Marvelous flavor"..."Wonderfully fresh-tasting." Compliments like these will come your way every time you serve fish selected at Safeway. Our Frozen Fish Service brings you fillets and steaks full of the natural goodness of fresh-caught fish. Modern methods and equipment make it possible to hold ocean-fresh flavor for you to enjoy any time. No need to wait for certain days or seasons.

Perfect flavor is only part of the story. These delicacies-of-the-sea come to you in pan-ready form. There's no cleaning to do. They're ready for pan or oven just as you buy them.

Easy on the purse, too, because they're waste-free. You pay only for what you use.

Come try them. There are big, thick steaks like those you've enjoyed at famous seafood restaurants. And tender, flaky fillets that fry to a golden-brown, melt-in-your-mouth goodness. Truly, compliment-getting fish.

SNYDER RUNNERS

Three of Snyder's entries in running events of the Canyon Reef Relays here Saturday are, left to right, Fritz Smith, 440-yard dash; Bobby Pollard, 100-yard dash; and Bobby Staton, 880-yard run. Smith is a senior, while the other two are freshmen. Smith is also a member of the sprint medley and mile relay teams, while Pollard will be on the sprint relay and 880-yard relay teams, and Staton on the sprint medley. (Lee Watson photograph)

Hobbs Wins In Meet

Hobbs took the largest number of points yesterday afternoon in a four-team practice track and field meet held at Hobbs.

The Hobbs team had 62 points to Roby's 45¼, Hermleigh's 32, and Ira's 11. All four of those teams are readying for Snyder's third annual Canyon Reef Relays, which will be held here Saturday.

In one event, the mile relay, Hobbs' team of Mack Etheredge, Bernon Etheredge, Henry Medrano, and Bobby Pullig won with a time of 3:49.0, which is close to the Canyon meet's record of 3:39.5.

Freddie Stuart of Roby led the sprinters, winning the 100-yard dash, 220-yard dash, and 180-yard low hurdles. Clarence Stahl of Hermleigh led the field on the 120-yard high hurdles, while Neal Wilcox of Hermleigh finished first in the 440-yard dash. Pullig was first to finish on the 880-yard run, while Ira's Don Gray won the mile run. Roby's 440-yard relay team won that event.

In field events, Hobbs took all first places but one. Durwood Hopper and George Gantt tied for first in the pole vault, while Doyle Hayes and Hopper tied for top place on the high jump. Hayes won the shot put, and Hopper was top broad jumper. Don Helm of Roby took the discus.

The results:

120-yard high hurdles — Stahl, Hermleigh; Hopper, Hobbs; Hayes, Hobbs. Time 17.7.

100-yard dash — Stuart, Roby; N. Wilcox, Hermleigh; Elam, Roby; Davidson, Hermleigh. Time 10.5.

440-yard dash — N. Wilcox, Hermleigh; C. Wilcox, Hermleigh; M. Etheredge, Hobbs; Hale, Roby. Time 56.8.

180-yard low hurdles — Stuart, Roby; Hopper, Hobbs; Stahl, Hermleigh; Tartar, Hermleigh. Time 21.5.

220-yard dash — Stuart, Roby; N. Wilcox, Hermleigh; Thompson, Hobbs, and Elam, Roby, tie for third and fourth. Time 23.0.

880-yard run — Pullig, Hobbs; Medrano, Hobbs; Waddell, Roby; B. Hardin, Hobbs. Time 2:12.6.

Mile run — Gray, Ira; Warren, Roby; Kiker, Roby; Beene, Roby. Time 5:06.0.

Mile Relay — Hobbs (M. Etheredge, B. Etheredge, Medrano, Pullig), Roby, Hermleigh. Time 3:49.0.

Pole vault — Hopper, Hobbs, and Gantt, Hobbs, tied for first and second; Branson, Roby, Richardson, Roby, and McCelre, Ira, tied for third and fourth, 9 feet, 6 inches.

High jump — Hayes, Hobbs, and Hopper, Hobbs, tied for first and second; B. Etheredge, Hobbs, Gantt, Hobbs, Light, Hermleigh, and Farrar, Roby, tied for third and fourth, 5 feet, 5 inches.

Shot put — Hayes, Hobbs; N. Wilcox, Hermleigh; Taylor, Ira; B. Etheredge, Hobbs, 42 feet, 5 inches.

Broad jump — Hopper, Hobbs; Hayes, Hobbs; Simmons, Roby; McMillan, Hermleigh, 17 feet, 7¾ inches.

Discus — Helm, Roby; Taylor, Ira; B. Etheredge, Hobbs; Hayes, Hobbs. 131 feet, 3 inches.

SPORTS

Princeton To Meet LaSalle

By SHELDON SAKOWITZ
Associated Press Staff Writer

Princeton rooters celebrated the Tigers' Ivy League basketball championship today and the automatic berth in the NCAA Tournament that goes with it. But their jubilation may be short-lived for tomorrow Princeton plays defending champion LaSalle in the regional playoffs at Philadelphia.

Princeton put on a second-half surge to crush Columbia 86-69 last night in a league playoff at Rutgers in New Brunswick, N.J., ending the closest Ivy race in the league's 53-year-old history.

The Tigers, Columbia and Penn finished the season in an unprecedented triple tie, each with a 10-4 record. Columbia disposed of Penn in the first playoff game Monday.

Princeton's Hal Haabestad and John Devoe scored 28 and 22 points with superb jump shooting. Chet Forte, Columbia's 5-9 sophomore, kept the Lions in the game with a 19-point output before the Tigers' defenders stopped him cold.

The Tigers, who received a first-round bye in the NCAA Tournament, have won seven of their last eight starts. LaSalle, which downed West Virginia 95-61 Tuesday, has won 10 straight.

Canisius and Villanova clash in the other NCAA regional game at Philadelphia. Double-headers also will be held at Evanston, Ill.; Manhattan, Kan.; and Corvallis, Ore., tomorrow and Saturday.

Eight teams were eliminated in first-round games Tuesday and the field now numbers 16. The regional playoffs will trim the field to four for the semifinal and finals at Kansas City March 18-19.

The remainder of Friday's second-round schedule: at Evanston, Marquette faces Kentucky and Penn State meets Iowa; at Manhattan, Bradley squares off against Southern Methodist and Colorado clashes with Tulsa; at Corvallis, Seattle plays Oregon State and San Francisco, the nation's No. 1 team, tangles with Utah.

The winners of Friday's games meet Saturday.

Grapefruit, Cactus Loops Open Today

By LARRY MERCHANT

With opening day only a month away, 14 major league teams move into the Grapefruit and Cactus League phase of baseball's spring training today.

Seven exhibition games are on order, including one after-dinner affair between Brooklyn and Milwaukee at Miami. Five other openers are scheduled in Florida: New York Yankees vs. St. Louis Cardinals; Washington Senators vs. Boston Red Sox; Cincinnati Redlegs vs. Chicago White Sox; Detroit Tigers vs. Philadelphia Phillies and Kansas City A's vs. Pittsburgh Pirates.

In the three-team Cactus League, the American League champion Cleveland Indians play the Chicago Cubs at Tucson, Ariz. The world champion New York Giants cool their spikes until tomorrow when they launch their exhibition schedule where they left off in October—against the Indians.

Baltimore, which switched training bases from Arizona to Florida this year, is also idle. The Orioles open with Cincinnati Tomorrow.

Some managers will start "experimental" lineups for the inaugurals but most pilots are leading with their aces.

Casey Stengel, starting his seventh season at the Yankee helm, wants a fast look-see at his Baltimore import Bullet Bob Turley. Turley, who came to the Yanks in that big winter deal, will pitch the first three innings against rookie Larry Jackson of the Cardinals.

Managers Chuck Dressen of Washington and Pinky Higgins of Boston are going with a couple of fastballing right-handers, Bob Porterfield and Frank Sullivan. Yearlings Al Schroll and Al Curtis will follow the 6-7 Sulivan to the mound for Boston.

Three rookies will toil for Detroit as Bucky Harris takes charge of the Tigers for the first time. Opposing them for the Phillies will be the big guy himself, Robin Roberts.

Bob Garver, 19-8 with Denver in 1954, has been given the first three-inning job for Pittsburgh by Fred Haney. Lou Boudreau, another of the managers with new teams, will counter with Marion Fricano, Carl Duser and Bill Oster.

Mike Garcia is Al Lopez' choice to start things off for Cleveland against rookie Joe Stanka for Stan Hack's Cubs.

Virgil Trucks (19-12) will be the first of three White Sox pitchers for Marty Marion. Art Fowler (12-10) has the nod for Birdie Tebbetts' Redlegs.

Cleveland Not Yet Set, Lopez Insists

By JACK STEVENSON

TUCSON, Ariz. (AP)—There is a mistaken idea, says Manager Al Lopez, that the American League champion Cleveland Indians will stand pat on their 1954 outfit.

"We're not set like a lot of people think," he explained as the Indians met the Chicago Cubs today in the first of their exhibition games. "There are several positions yet to be decided. There are several young fellows we have to look over."

Newcomers given strong chances include catcher Hank Foiles, first baseman Joe Altobelli, outfielder Rocco Colavito and, of course, left-handed pitcher Herb Score. All four spent 1954 with Indianapolis of the American Assn.

Lopez would like a strong left-handed pitcher to go with right-handers Bob Lemon, Early Wynn, Art Houtteman and Mike Garcia on the front line. Score might fill the bill, but Don Mossi, an outstanding southpaw reliefer last season, would like that starting assignment. Rookie Hank Aguirre, up from Reading, Pa., is getting attention and veteran Lefty Bill Wight, who played for San Diego last season, isn't counted out. Veteran right-hander Bob Feller counts on another good season with spot assignments.

At first base Vic Wertz is No. 1 as expected but Dale Mitchell, previously an outfielder, makes a bid along with Altobelli.

Al Rosen at third and George Strickland at shortstop appear secure. The same is true of Bobby Avila at second when he signs.

The outfield is filled with talent so an interesting battle develops. Home run hitter Ralph Kiner, acquired from the Cubs after 1954, probably has the hardest fight of his career for a regular job.

Larry Doby in center and Al Smith in an adjacent field appear well assured. But fighting for the other spot along with Kiner are the rookie Colavito, veterans Dave Pope and Wally Westlake plus Harry Simpson, trying for a big league comeback after spending 1954 with Indianapolis. Dave Philley, currently a holdout, played in 133 games last season, so can't be counted out.

BASKETBALL SCORES

By THE ASSOCIATED PRESS

Volleyballers Slated To Meet Sweetwater

The Snyder High School volleyball team will go to Sweetwater tomorrow night for two games.

The B team girls will play at 6:30 o'clock. Their record is 0-4.

The varsity squad, which will play at 7:30, has a 2-7 record.

On Monday night, Forsan will come here for two games.

Varsity starters tomorrow night will be Ramona Thompson, Mickey Gillean, Carla Swan, Oneta Ferguson, Lynda Smith, and Carol McKinney.

Richie Ashburn has led the Phillies in stolen bases every year since 1948.

Athletes Arriving For Border Meet

LAREDO (AP)—Nearly 1,000 athletes from a bulging field of 82 schools were arriving here for the Border Olympics.

The track carnival, first big intercollegiate meet of the spring, starts tomorrow. Nine more teams are entered than last year.

At least five Border Olympic marks, plus several division records, will be in danger with the talented University of Texas team favored again.

Texas' sprint relay team will be after a successful effort in lowering the Olympic mark of 41.4 it set last year.

Texas is expected to lead the onslaught again this week end here. Dick Foerster ran a 1:50.8 half mile last week, better than his Olympic record of 1:55.0, held by Bill Heard of Oklahoma A&M, who comes to defend it.

The Steers' mile relay team last week ran a 3:15.6 event, better than the Olympic mark of 3:17.1 set by Texas A&M in 1949.

The high school division will be the largest in history with 54 schools and 550 athletes entered. Nine junior colleges, ten junior colleges and nine universities are entered.

All division champions have returned to defend their titles.

In the golf tournament, seven schools are entered. They are Hardin-Simmons, Baylor, Oklahoma, Texas A&M, Houston, North Texas and Trinity, golf director George Jackson said. North Texas and Oklahoma A&M are co-champions in the golf tournament.

The meet opens Friday with junior college prelims at 8 a.m. and high school prelims at 1 p.m. Saturday at 8 a.m. are college and university preliminaries. High school and junior college finals are Saturday at 1 p.m. And college and university finals are Saturday night at 7 p.m.

ABOVE THE BLEACHERS

By DALE WALTON

The Snyder Tiger baseball squad was to play in Big Spring at 4 o'clock this afternoon in its second game of the season.

The squad has a record of 0-1 so far, with a loss to Midland, while Big Spring's record is 1-1, with a win over Andrews and loss to Midland.

* * *

Lubbock's Troy Harber turned in a time of near 50 flat on the 440-yard dash a few days ago. That might be enough for him to win the event in the Canyon Reef Relays here Saturday. Lubbock's team will try to retain the championship it won in the Canyon meet last year.

* * *

Hale Center, another team entered in the Canyon Relays, almost won a six-team practice meet yesterday, gaining 53¾ points to Abernathy's 55. New Deal, another Canyon team in that practice meet, got 6½ points.

Bill Kelley of New Deal got five of those points when he was clocked at 14.7 seconds on the 120-yard high hurdles. The Canyon record on that event is 15.3. Hale Center won the 440-yard relay with a time of 45.7.

* * *

Bennie Compton, Big Spring's best sprinter, who will be here for the Canyon Relays, has been timed at 10.2 so far this season.

* * *

Bass were biting good this week, according to H. O. Skinner, 707 Twenty-seventh Street, who caught six weighing a total of 14 pounds.

Skinner said he caught them by pulling plugs slowly near the bottom of the lake at Colorado City Tuesday afternoon. The largest weighed four pounds, the others averaging two pounds each.

He plans to fish some next week at Lake J. B. Thomas, where he said he expected to find good catching. Last week he failed to catch any there but reported similar bad luck elsewhere too.

Pan-American Groups Are Busy Drilling

MEXICO CITY (AP)—Competition in the Pan-American Games is still four days off, but the bustle of athletes in training and the behind the scene maneuvering of the high brass kept the scene humming today.

The major item on the agenda on the brass-the Pan-American Congress—was the selection of the site for the 1959 games.

Cleveland's invitation to hold the affair there, in the United States for the first time, appeared to have strong support, in the opinion of American Delegate James A. Rhodes of Columbus, Ohio, former president of the U. S. Amateur Athletic Union. Rhodes extended the formal bid from Cleveland.

At the present count, flags from 22 nations and territories will be unfurled in the mammoth ceremonies formally opening the two-week athletic carnival late Saturday afternoon in the huge 110,000-seat capacity stadium in University City.

Interest in the track and field division centered today on the powerful, newly arrived team from the United States. Loaded with Olympic champions and world title holders, the contingent flew in, spent the remainder of the day in leisurely fashion and planned a comparative light workout Thursday.

There was some concern over Mexico City's 7,500-foot altitude, and many agreed that for the first day or two breaths might come a little quicker than usual.

Giant shotputter Parry O'Brien was a magnet for the visitors to University City but on the missing list was controversial Wes Santee, the mile running star from Kansas.

Santee competed with the team in Houston, Tex., Tuesday night, winning the mile handily in 4:08.5, with a last lap in 53.5, but he was booked to run in Milwaukee Saturday night. Permission was granted for him to rejoin the squad next week.

Texas City Readmitted To Big State League

GALVESTON (AP)—Texas City will be a member of the Big State League again this season.

The Texas City baseball club was readmitted yesterday. The team, known as the Texans, will be a road club until its new park is completed about May 15.

Texas City was admitted Feb. 15 to the league but withdrew 10 days later when it learned its new park would not be ready until about 30 days after the season starts.

Malone Sanders, who represented Texas City at yesterday's meeting of officials, said the Texans would have access to about 15 players to help in building a team this year.

MORE OFFICIAL ENTRIES HERE

Hermleigh, Canyon, and Price College of Amarillo got their entries into the Canyon Reef Relays today to bring the total number of teams in the meet to 31.

The meet will get underway at 9 o'clock Saturday morning and last until about 4:30 o'clock that afternoon.

Strong East Squad Meets Chicago Team

NEW YORK (AP)—It's a young but loaded Eastern Golden Gloves team which will face Chicago's champions in the annual inter-city bouts at Chicago March 31.

Rudolph Corney, a middleweight knockout specialist from new York, headed the team crowned before 8,799 fans Wednesday night at Madison Square Garden.

In winning both his semifinal and final bouts by knockouts, Corney marked himself a possible successor to such Golden Gloves graduates as Joe Louis, Sugar Ray Robinson and Rocky Marciano.

He was the oldest man at 24 on the team which included four hard-punching teen-agers.

The heavyweight, Roy Bullock, who stopped Frank Jackson of Newark in the finals, is 18; Jose Regores of Miami, Fla., via Cuba, the flyweight, is just 19. Tom Schafer, Pittsburgh grave digger who survived the 135-pound class is 18. Baby of the squad is 17-year-old Robert St.John of New York, the 118-pounder who is probably pound for pound the best of the lot.

Other winners included Walter Taylor, 20, of Washington, a clerk; James Archer of New York, a rugged longshoreman with the kick of a mule and light-heavyweight John Horne of Omaha, Neb. an Airman 1.C. at Bolling Field near Washington.

When Paul Andolino tried to cut down the size of his racing stable a year ago he offered his Boston Doge for sale at $7,500. Andolino refused $100,000 at Hialeah after the colt won his seventh straight race.

The Snyder High School band, directed by Melvin Montgomery, along with the Junior high band and high school choir, will present a spring conncert at 8 o'clock tomorrow night in the high school auditorium. One member of this organization and one choral student will receive awards from the National Arion Foundation during the Friday night activities. Three clinicians will be working with the group all day Friday in preparation for the concert, and the same three will be here Saturday for the first annual West Texas Band Festival, an all-day affair involving many bands and choirs. (Katherine Northcutt photograph)

Two Music Students Will Get National Awards Here Friday

Two high school music students will be given national awards Friday night when the high school band, high school a capella choir, and junior high band present their combined spring concert.

The concert, which will be held at 8 o'clock Friday night in the high school auditorium, will begin activities of the West Texas Music Festival, which will have many high school bands and choirs participating here Saturday.

Three nationally - known music clinicians, Neil Kjos and Paul Yoder, both of Chicago, and Nolo Hovey of Indianapolis, will work with the Snyder music groups all day Friday prior to the Friday night concert. The concert program will include numbers rehearsed under guidance of these men during the day. The same men, along with D. O. Wiley, Texas Tech director of bands; Euell Porter, Hardin-Simmons choral director; and M. J. Newman, West Texas State director of bands, will work with the festival bands and choral groups all day Saturday.

The national awards to be presented will be those of the National Arion Foundation, which presents the awards for outstanding musical achievement to high school seniors. Colleges and music schools get many of their scholarship students from the group selected each year by this foundation.

Names of the students to receive the awards will not be disclosed until Friday night, when T. D. Wiman, high school principal, will make the presentations. With the awards go a medal and a lapel pin, while the school will receive a large plaque.

One outstanding band student and one choir student will receive the awards. Last year, winners were Kenneth Lawrence for instrumental music and Joe Devenport for choral music. Lawrence is now studying instrumental music at Texas Christian University on a scholarship, while Devenport, who was in both band and choral activities here; is now a student in instrumental music at North Texas State College.

Melvin Montgomery, high school band director, said the Friday night concert will be considered the annual spring concert. Bob Clinton directs the a capella choir, while Tim Dennis is director of the junior high band. The three clinicians who will be here Friday, however, will be guest conductors Friday night.

Admission for the concert will be 75 cents. Tickets are on sale at the Snyder Drug, Chamber of Commerce, high school, and junior high.

No admission will be charged for any of the Saturday activities. The festival's bands will be working in the high school and junior high all day Saturday, while the choirs will be at the First Baptist Church.

At 1 o'clock Saturday afternoon, the entire festival group of close to 2,000 students will turn out on the courthouse square for a public concert. Also included will be a band marching contest, with trophies to be awarded the winners of each of three classes.

Bands coming for the festival will include high school bands from Roby, Merkel, Spur, McCamey, Albany, Haskell, San Saba, Monahans, Coleman, Brownfield, Lakeview of San Angelo, Stamford, Anson, Lamesa, and Sweetwater. Choirs will be the Snyder junior high, high school girls, Sweetwater a capella, Lamesa a capella, Slaton girls, Brownfield a capella, Anton, Odessa a capella, Odessa mixed choir, San Jacinto junior high of Midland, Albany junior high, and Crockett junior high of Odessa.

Drum Beater Passes Out

AMARILLO (AP)—Billy Wells, 28, tapped out what he believed to be a world endurance record for drum-beating last night only to be carried out on a stretcher.

At 10:04 p.m. Wells ended 58 continuous hours of playing his drums in a department store window. The reported previous world's record was claimed by Roy Harte of Hollywood who last week played the drums for 57 hours.

A few minutes before he reached the mark, attendants lowered Wells onto a stretcher. He played the drums until they told him he had reached his goal.

Attendants said Wells had a temperature of 103 degrees. His physician said that he was suffering from "complete exhaustion."

During the more than two days of continuous drum beating, Wells, member of an orchestra, kept going on cheese sandwiches, cold coffee and malted milks, a diet he said his doctor recommended.

Harte said in Hollywood, Calif., he would like to drum up a battle with Sam Ulano of New York who claims to have beat his drums for 67 hours, 11 minutes and 40 seconds.

Harte added he would be interested in such a contest "if someone would make it worthwhile."

Man Is Questioned In Rooming House Fire

SAN RAFAEL, Calif. (AP)—A former inmate of a state mental hospital was held for questioning today about the rooming-house fire in which seven men perished yesterday. Seven others were burned or injured.

Malcolm R. Schlette, 40, identified by Dist. Atty. William O. Weisich as an ex-inmate of Napa State Hospital, was arrested. Witnesses reported he was the only man who emerged from the flaming building fully clothed. He denied any knowledge of how the fire started.

Investigators said the fire apparently started in a sofa of the livingroom.

The three-story mansion, built nearly 100 years ago with a marble fireplace in every room, was a mass of blackened wreckage. Arnold Leonhard, the owner, estimated loss at $100,000.

Public Okays Romance Of Margaret

By JAMES F. KING

LONDON (AP)—The reports that Princess Margaret intends to marry a divorced commoner aroused sympathetic support today from bellwethers of British public opinion — the writers of "letters to the editor."

"Go ahead and good luck" was the tenor of the first letters on the matter, appearing in the tabloid Daily Mirror. Praise was voiced too for public disclosure of her reported plans to wed 40-year-old RAF Group Capt. Peter Townsend.

Meanwhile, the 24-year-old princess took four days away from official duties. She was expected to spend a good deal of the brief holiday with her sister Queen Elizabeth II and the Queen Mother at the royal lodge in Windsor.

The princess began her brief rest—after her month-long Caribbean tour—by dining with friends in a private room at a fashionable West End hotel last night. Her next official engagement is next Tuesday night, when she attends the consecration of St. Philip's Church in Plaistow.

One of the letters to the editor referred to the case of Margaret's uncle, the Duke of Windsor, whose romance with American divorcee Wallis Simpson was hushed up by British newspapers. A Welshman wrote:

"When the Duke of Windsor chose between duty and love, the public were not given a proper hearing. This folly mustn't be repeated with another beloved person."

A London housewife, however, thought it "in the worst possible taste to greet Princess Margaret after her successful tour with a storm of gossip and surmise."

Neither the princess, in her appearance at the lord mayor's civic reception for her Tuesday, nor Townsend in Brussels have given any outward appearances of being particularly disturbed.

Townsend yesterday told reporters in the Belgian capital—where he is British air attache—that he had been on a short winter vacation, spent mainly in training his new horse.

"I am going back to work Monday," he said.

He refused to answer any questions about Princess Margaret.

Helicopter Can Be Used As Fire Engine

PHILADELPHIA (AP) — A manufacturer of helicopters says its "work horse" model can be used as a hovering "fire engine" for use in fighting plane crash blazes and forest fires in remote areas.

Officials of the Piasecki Helicopter Corp. said yesterday its H21 model is the "first production helicopter with sufficient carrying capacity to lift an effective quantity of fire-fighting agent and the necessary equipment for its application."

Piasecki now is producing H21s for troop transport and military equipment movement.

Gary Crosby Hooks Up With Tennessee Ernie

HOLLYWOOD (AP) — Gary Crosby's got a new job.

He starts out as Tennessee Ernie's radio sidekick. From there he'll go to a network solo show, according to CBS authorities, who disclosed yesterday that Gary had signed an exclusive radio and television contract with CBS.

His TV chores will consist of guest spots on network shows.

Gary, Bing's oldest son, quit Stanford University to go into show business. He's 21.

Gas Line Blast Kills Five Men

VALPARAISO, Ind. (AP) — Five men died yesterday in an explosion of a 22-inch natural gas pipeline, apparently caused by a bulldozer which knocked supports from beneath the line.

The victims were members of a crew working for the Michigan & Wisconsin Pipeline Co. They were relocating the line to clear the right of way for the east-west toll road being built across northern Indiana.

Killed in the explosion seven miles north of Valparaiso were Clovis King, 45; Wilmer Miller, 39, and Lester Kuhn, 45, all of Crown Point, Ind.; and Lester Lind, 45, of Detroit. Hunter Smith, 63, St. John, Ind., died of burns several hours after the blast.

Two other crew members were hurt.

The fire raged for several hours.

The pipeline carries gas from Oklahoma to Detroit. Lind was safety director for the firm, which has its headquarters in Detroit.

New Forest Fires Start In Florida

TALLAHASSEE, Fla. (AP) — Fire fighters who brought a big north Florida woodlands fire under control last night shifted their attention to two new blazes to the north and west today.

John M. Bethea, fire control chief of the Florida Forest Service, said the new fires broke out about the time the one near the Madison-Taylor county line was controlled.

Bethea said there were reports that the new blazes, like the one which spread over 27,000 acres in Madison and Taylor counties, was of incendiary origin.

One Man Killed In Three-Car Collision

AMARILLO (AP) — Claude Straughan, 56, was killed in a three-car collision 10 miles east of here on Highway 66 late last night. Five other persons were injured.

Seriously injured were a brother and sister, Everett Straughan, 40, and Mrs. Glenn Hall, 43. Less seriously injured were Glenn Hall, 45; Carl Weiss, 23, Silverton; and Joe Henderson, 22.

Industrial Use Of Silver Increasing

By SAM DAWSON

NEW YOK (AP) — Silver has marched into industry with the electronics age. And this year more of that metal is going into industrial products than into silverware, jewelry or the arts.

Two chief talking points for silver's use in industry are: (1) its boosters say silver is "the best conductor of electricity known to man," and (2) they say that silver alloys used to join two metals make so strong a solder that the metal parts themselves will break before the silver joint will.

Last year wasn't too good for the silver people, however. Some 85 million ounces were used by U.S. industries and in the arts. But this was a drop of 19 per cent from the year before, and the lowest since 1941.

Handy & Harman — which began as a silver brokerage firm in 1867 but is now primarily a silver manufacturing and research organization — blames the drop on last year's slowdown in the heavy industries where silver is used.

For silver goes into autos, farm tractors, bicycles, dishwashers, washing machines, sewing machines, lawn mowers, guns and phones, as well as into TV and radio sets, radar equipment and the like. Also, the silverware and jewelry makers had some bad months last year.

Use this year is picking up with the general business revival. Production of many of the durable goods that use silver has increased.

Now silver men are eying a new field in TV and radio set production, that of electrical circuits printed on paper and using silver as the ink. The current follows the silver to where the electricity is needed.

The printed sets circuits substitutes for the of wires in older sets. Thus new sets can be made smaller and more compact. General Electric engineers estimate that perhaps one million sets with printed wiring will be made this year.

Silver has plenty of competition in industry from other metals.

At 85¼ cents an ounce—silver's price for more than two years—it is an expensive metal.

Copper and aluminum are much cheaper conductors of electricity. And not even the most avid silver man contends that electric power and telephone companies should string silver across the land.

Baser metals are much cheaper as solder. But silver men have some sales points for certain uses. Because of a low melting point, silver solder flows easily and a small quantity does an effective job, lowering unit costs.

Churchill Presents A Vivid Summation Of Atomic Peril

By JAMES MARLOW

WASHINGTON (AP)—No one has summed up better the peril of mankind in the atomic age than Sir Winston Churchill in a recent speech to the House of Commons on the terrors of the hydrogen bomb.

Churchill's own lifetime spans the transition from the old-fashioned soldier—who, on foot or on horseback, could try to kill only one or a few of the enemy at a time—to the soldier of today who can rain down death on millions from the sky.

Being a man of action and not finding it soon enough, there was a period in his early days when he thought it a "pity that it all had to be make-believe" and that wars between nations had come to an end.

He had overestimated the ability of nations to settle things peacefully. He had his first military service, a dull one, with the British cavalry in India in 1895. He lived to have a hand in directing two world wars.

In World War II the weapons the antagonists produced—until the 1945 atomic bomb explosion—were the peak of all man's efforts to devise instruments for eliminating human beings.

In that half century between 1895 and 1945 Churchill saw weapons progress, if that's the right word, from rifle and cavalry to machine guns, tanks, bazookas and even planes that dropped conventional TNT on factories and battlefields.

India may have been dull for him in the 19th century. He didn't regard as dull the somber days of 1940 when the Germans had overrun Western Europe, were smashing Britain with their stukas, and threatened to invade the British Isles.

Knowing fully the power of the Nazi armament, Churchill looked across the English Channel and, undaunted, told his countrymen: "We shall defend our island. Whatever the cost may be, we shall fight on the beaches . . . in the fields . . . streets . . . hills; we shall never surrender."

That was 15 years ago. Since that time the United States and Russia have developed the greatest of all weapons—the hydrogen bomb. And on Feb. 15 the U.S. Atomic Energy Commission issued a report. It said the radioactive fallout from an H-bomb could cover an area almost as big as New Jersey.

Last week Churchill spoke to his countrymen again, this time in the House of Commons. He said nothing then about fighting on hills or beaches or in the streets. He talked of the power of the bomb. The age of man-to-man fighting had long since passed. Now a few men in planes, releasing bombs, could destroy a nation.

And Churchill, like a man cornered and searching for some escape for mankind itself, said: "What ought we to do? Which way shall we turn to save our lives and the future of the world?"

Then, still undaunted, after reviewing the American and Russian achievements with the new bombs, Churchill made it plain Britain wasn't going to sit like a duck on a rock if a hydrogen war started.

He wanted in on that too. He said Britain would make hydrogen bombs.

Man Keeping Out Of Government Affairs

DENVER (AP)—An elderly man dropped into a private tax consultant's office for help on his income tax report. He'd passed the 65-year-old mark, he said, 10 years ago.

Tax Consultant: "Then I suppose you received a pension?"

Elderly Party: "Nope. Never asked the gov'ment for nothing at no time."

T. C.: "Well, now, you're entitled to that pension and also to double exemptions on your tax if you'll just declare your age."

E. P.: "I don't figure my age is any of the gov'ment's business. I don't ask them no questions and they don't need to ask me now."

Mother Of Slaying Victim Gives Clues

HELENA, Mont. (AP)—The mother of a pretty high school senior found slain in her bed has offered "much needed information," officers said.

Sheriff Dave Middlemas said he talked at length with Mrs. Jessie McCarty, whose daughter Renee, 18, was found dead Tuesday in the apartment where she and her mother lived.

Middlemas said Renee, clad in pajamas and a housecoat, was strangled by an unknown assailant. There was no evidence of a sex attack, he said.

Mrs. McCarthy, hospitalized until late yesterday, was joined by her husband Carl, a worker in a Portland, Ore., truck parts plant.

One suspect had been arrested. Identified by Middlemas as a hotel worker and "friend of the family," he was held without charge.

There are about 60 spiecies of lily.

PINEAPPLE UPSIDE DOWN CAKE

1-lb. 4-oz. can sliced pineapple
½ cup butter or margarine
1 cup brown sugar
1 pkg. Pillsbury White Cake Mix
½ cup Instant PET Nonfat Dry Milk

Drain pineapple and save juice. Add enough water to juice to make 1½ cups. Melt butter over low heat in a 10-in. skillet or a 9-in. square pan. Remove from heat and sprinkle sugar over melted butter. Arrange 8 pineapple slices on sugar. Let stand. Put cake mix into a 2-qt. bowl. Mix in the dry milk with spoon. Add ⅔ cup of pineapple juice and beat hard 2 min. Then add ⅔ cup of juice and beat hard 1 min. Add juice that is left and beat hard 1 min. Pour batter over pineapple slices in skillet or pan. Bake on rack slightly below center in 375 oven (high moderate) about 45 to 50 min., or until cake pulls from sides of skillet or pan. Remove from oven. Let cake stand 5 min. before turning out. Decorate with maraschino cherries, if desired.

Oil Activity Gain Recorded During Seventh Week Of '55

A slight increase was noted in West Texas drilling activity for the eighth week of 1955. A total of 117 applications, including 22 wildcats, were filed in 31 counties in Railroad Commission Districts 7-C and 8.

The number compares to 108 applications, including 23 wildcats, staked the preceding week.

Totals for the year now are 705 field tests and 138 wildcats, a grand total of 843 tests for oil and a weekly average of 105.

Seven counties in District 7-C shared 22 applications to drill, including nine wildcats, while 24 District 8 counties shared 95 applications, including 13 wildcats.

District 7-C wildcats were: Coke, Runnels and Upton, two each; Reagan, Schleicher and Tom Green, one each.

District 7-C field tests were: Coke and Crockett, three each: Schleicher and Tom Green, two each; Reagan, Runnels and Upton, one each.

District 8 wildcats were: Dawson, Sterling and Mitchell, two; Borden, Howard, Lynn, Reeves, Terry, Winkler and Yoakum, one each.

District 8 field tests were: Ector, 13; Andrews, 11; Howard, 10; Pecos, 8; Cochran, 7; Crane, 6; Dawson, Reeves, and Ward, 4 each; Garza, 3; Gaines, Midland and Winkler, 2 each; Glasscock, Hockley, Kent, Loving, Scurry and Yoakum, 1 each.
