1975 Cleanup Campaign to Be May 26-31

The directors of the Collingsworth Chamber of Commerce set a date for the annual Clean-Up Campaign for the week of May 26 through 31 at their regular meeting Monday, April 14.

The date was set somewhat later than in previous years because the directors felt inclement weather had prevented many citizens from beginning outdoor clean-up activities.

Enoch Fuller reported on plans of the Men's Progressive Organization to clean up the flats area in conjunction with the Clean-Up Campaign.

The directors also approved participation in an industrial workshop sponsored by the Texas Industrial Commission. The date will be set later.

Slow-Pitch Teams for Women Sought

All county women interested in playing slow-pitch softball this season will meet Monday, April 21 at 8:00 p.m. at Marian Ballpark.

Teams will be organized and games scheduled if enough interest is shown.

Those who wish to participate but cannot attend the meeting should contact Vicki Black, 447-2661, or Joy Belew, 447-5441, before the meeting.

Softball League Formed, Field Renovation Begun

Organization of a men's slow-pitch softball league was completed Monday, April 14, and plans were finalized for complete renovation of Marian Ball Park.

Work on the diamond is a joint project with the City of Wellington. The city will furnish materials required and softball league members and parents of Little League players will do the work.

Tony Stephens was elected president of the league, with Mike Smith vice-president and Kenneth Patterson secretary.

There will be six teams: Lee's Grocery, Martin Seed, 3-C Construction, Farmers Co-op Gin, First Baptist Church, and a high school team headed by Coach James Williams.

"Everyone wishing to play this year should contact one of the officers by Saturday, April 19, if possible, said Mr. Stephens.

"Interest is growing in the league in Wellington, and we hope everyone will attend the games," the president continued. "A complete schedule of games to be played, plus dates of tournaments, will be published at a later date.

Mr. Taylor said the remodeling of the park will be the most complete since it was built shortly after World War II -- almost 30 years ago.

It will be adapted for play by both men's softball league and as an official Little League baseball field.

The stands will be repainted and seats repaired and painted. A complete new fence will be put up around

Amendment Vote To Be April 22

Collingsworth voters will join others from throughout the state in balloting on two constitutional amendments Tuesday, April 22.

One of these concerns revision of the state retirement system and the other would set salaries of members of the legislature.

Seven absentee votes have been cast, according to Mrs. Helen Gollihugh, county-district clerk. The deadline for absentee voting is 5:00 p.m. Friday, April 18.

The two proposed constitutional amendments as they appear on the ballot are:

For or against: The constitutional amendment revising and consolidating provisions relating to state and local retirement systems and programs and providing for a maximum state contribution to state systems of 10 percent of the aggregate compensation paid to individuals.

For or against: The constitutional amendment setting the salaries of members of the legislature at $600 per month and setting a per diem of $30 per day during legislative sessions and a mileage allowance at the same rate provided by law for state employees.

There will be voting in all voting boxes, Mrs. Gollihugh said. These include:

Box 1 Wellington High School.
Box 2 Dodson American Legion Hall.
Box 3 Court House
Box 4 Lutie Gin
Box 5-6 Samnorwood Gym
Box 7 Bura Handley Community Center
Box 8 Quail School
Box 9 Wellington Elementary School.

Norwood Class Asks Early School Data

The freshman American history class at Samnorwood High School is gathering information on early county schools and is requesting the help of those who attended or taught at those schools, Mrs. Denny Marcum, class teacher, said.

The class hopes to compile their findings and donate them to the museum as a bicentennial project.

Anyone who has information on early schools is asked to contact Mrs. Marcum at Samnorwood High School. Anecdotes about the schools would be welcome, as well as approximate size, location, number of grades, and dates of founding and consolidation.

Senior Boys Sweep District Tennis

Wellington senior boys tennis teams swept the District 2-A competition in Clarendon Tuesday, April 15 and will go into regional play at Lubbock Friday and Saturday, April 25 and 26.

This was the first year out for Coach Ronny Glenn's teams.

Lee Templeton placed first in boys singles, defeating his opponent from Memphis 6-2 and 6-4. Allen Sanders was fourth.

When it came to the doubles finals, two Wellington teams faced each other. Sammy Gonzales and George Brewer won over Richard and Randall Sims 7-5 and 6-4. First and second place winners go to regional, so Coach Glenn will take these five men to Lubbock.

In the freshman division, Joe Ed White was first in boys singles and Lyn Hurst was second. The doubles team placed third, made up of Dean DeVoss and Clay Don Lacy.

Girls players got into the quarter finals but Wellington had no winner this year.

Speaking of his senior boys team, Coach Glenn said:

"All of these boys will be back next year. Lee is a sophomore now, and both doubles teams will be seniors next year. With the

Commissioners Court Approves Population Survey for County

A population survey of Collingsworth County to determine accurately the number of people living here midway in the 1970s was approved by the Commissioners Court Monday, April 14.

"Long range projections call for a drop in population of both the town and the county, and we don't think there has been one," said County Judge Zook Thomas.

The decision on the 1975 census was made because Judge Thomas and members of the commissioners court believe the county is being penalized by these projections which they feel are not accurate.

Loss of revenue sharing funds has resulted from the projected population drop, the county judge said. Population is a determining factor in the approval of many federal and state grants, he pointed out.

"These are some of the ways we are being penalized," said the county judge. "We don't agree with the projections that the population of our county is dropping. In fact, we think it is increasing."

The federal census in 1970 showed Collingsworth County with a population of 4,755 and Wellington with 3,215.

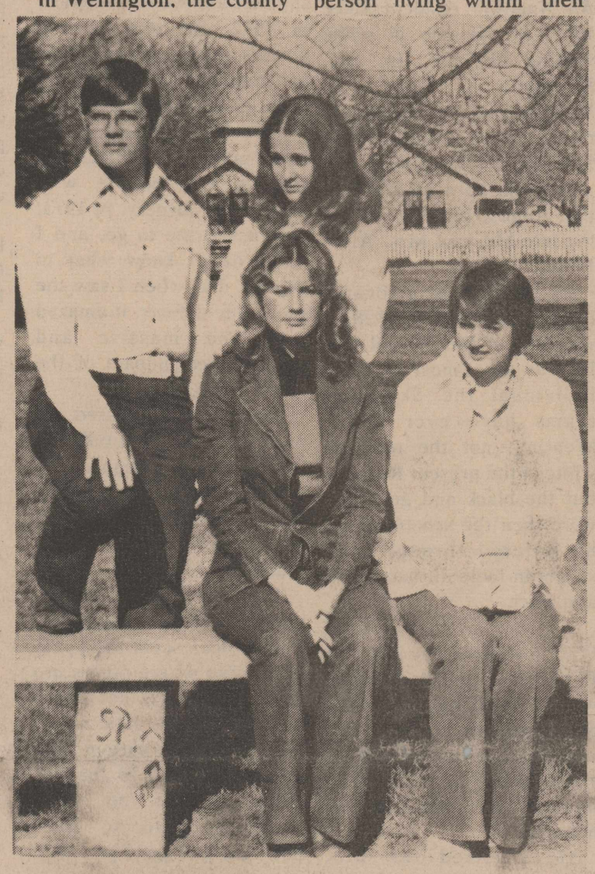

The mechanics of the census are being worked out this week. A kick-off date has not been set, but it will be as soon as plans are completed.

In Wellington, the county will be on a block to block basis. In the county outside of Wellington, it will be section by section. The four county commissioners will carry heavy responsibility in this, since they are already familiar with almost every person living within their individual precincts, even those who have moved in recently.

The Wellington count will be made by contacting at least one person in each block to secure the names of every person, of all ages, living in that block, Judge Thomas explained.

"With the people that we know have moved into the county within the last year or two, with the number of mobile homes that have been moved in to house our people, and from other

Dr. V. C. Saied Discusses Mexico's Proyecto Huasteco

"In about two hours of work, a person's life can be dramatically changed...he becomes 'normal' again and assumes a role in society he never before dreamed of..."

Dr. V.C. Saied, chief of the department of anesthesiology of Wichita General Hospital, was speaking on the project, "Proyecto Huasteco", where teams of physicians and nurses donate their time in Mexico to the surgical correction of cleft lips and cleft palates. His talk was to the luncheon meeting tuesday of the Wichita General Hospital auxiliary.

Dr. Saied is one of four doctors (the others are from Fort Worth) who has been involved in this program - donating their time and paying their own expenses, to go to Mexican cities and work for 3½ days and doing as many as 30 or so operations.

Dr. Saied headed the anesthesia team to Tampico for his first trip in 1973. He became aware of this through friends of his in Fort Worth, Dr. Vanetin Gracia, a native of Mexico and Dr. Roger Moore, a general practioner, who was also part of the team.

"The project, named for a tribe of Indians who originally inhabited that area, was the dream of Dr. Gracia, who when he was young, remembered the people born with cleft lip and palate. They were - and are - outcasts. They are ridiculed and scorned and the children are relegated to the back room of the house - to stay. Adults with this defect cannot get jobs. They want to hide from people.

"Dr. Gracia vowed he would return someday and help the people. In 1965, he gathered a handful of supplies and went to Mexico; in 1972, he took several doctors and nurses and went to Tampico. In the meantime, civic clubs in Tampico were doing the preparatory work; going into villages and finding the people who needed the surgery. In 1973, they asked me to go, and I really didn't know what to expect - but when I saw the grotesque defects, it amazed me. The massive and psychological impact of the whole thing hit me.

"But what impressed me most was the gratitude on the part of the people. We (the doctors) had completely transformed their lives and they couldn't be more grateful," he said.

The defect is not hereditary, Dr. Saied explained, "but it does seem to appear in families where others are afflicted. It is prevalent there because there has never been corrective surgery and there are 60 and 70 years to make up; also the defect could be due to poor nutrition and poor pre-natal care."

Dr. Saied has been involved in 131 corrective procedures, he said, and he commended the work of the nurses from Wichita Falls and Fort Worth - "they were completely dedicated to their work," he said.

"There are no more gracious people than the Mexicans," he said. "We were treated wonderfully and I feel this will help to better relations between the two countries. We were not 'gringo' tourists; we were there to do what we could to help these people to lead normal lives."

Graveside Rites Held Here for Raymond Powell

Raymond Powell, 63, youngest of three brothers for whom Powell Field was named, died Wednesday, April 9, in Bethesda Naval Hospital, Washington, D.C. An Amarillo resident since 1959, he became ill while visiting his son, Lt. Col. Raymond R. Powell, in Washington, D.C. Graveside rites were held here Saturday at 3:00 p.m.

He was born at Wellington, August 10, 1911, son of the late Mr. and Mrs. A.W. Powell.

By the time he graduated from high school in 1928, it was said of Mr. Powell that he was the "most valuable individual the Skyrocket teams have ever had." Wearing, not the red and white of the present Rockets, but the black and gold that were then the school colors, he lettered through high school in football, basketball and track.

His two brothers, Lloyd Powell of Amarillo and Lee Powell of Byars, had helped write Wellington High School athletic history a few years earlier, and when the time came to name the football field, this trio was honored.

He received the B.S. degree from West Texas State University, M.A. from the University of Northern Colorado, and in 1970 was recipient of a scholarship to the Freedom Foundation in Valley Forge, Pennsylvania.

His long teaching career began at Samnorwood, but he also taught at Ralls, Waka and Perryton. He taught 10 years in Sam Houston Junior High and 6 at James Bonham Junior High in Amarillo.

Funeral services were conducted at 11:00 a.m. Saturday in Blackburn-Shaw Memorial Chapel, Amarillo, with the Rev. Jack Riley, pastor of Trinity United Methodist Church officiating. The graveside rites were here by Kelso Funeral Home.

Mr. Powell is survived by his son, a daughter, Mrs. Barbara Laughlin of Austin; his two brothers

He is survived by 9 grandchildren.

Mrs. Floyd McNabb, Mrs. Jessie Lee Brown and their aunt, Mrs. John Turley, all of Amarillo, visited with relatives Friday. Mrs. McNabb and Mrs. Brown are the daughters of George Brewer.

Deadline for Transfers Set

May 1 is the deadline for making school transfers for the 1975-76 school year, Mrs. Nita Brantley, school tax assessor-collector, has reminded.

After May 1, transfers can be accepted only on hardship cases.

This is a state regulation, Mrs. Brantley pointed out.

Transfers are made through the office of the superintendent of each school district into which the child is transferred.

factors, we cannot believe that we have fewer people than we had when the federal census was taken in 197;," he declared.

Sandy Parson, Jr., Chamber of Commerce president, told the commissioners, as well as the C-C directors Monday night, information brought out in recent meetings of the Panhandle Regional Planning Commission that the figures contained in the long-range population figures are frightening for the entire east side of the Panhandle.

One of these projections holds that by the year 2,000, Collingsworth county will have a population of 2,700.

"This is in the planning in Washington," Mr. Parsons said.

It is to refute these figures by presenting an accurate 1975 population count that the census was approved by the Commissioners Court.

Collingsworth is not the only county that is being penalized by these projections, Judge Thomas pointed out, adding that in a recent water meeting which he attended, he found that neighboring counties also are losing revenue sharing funds. These funds, he explained, are determined by a formula of which population is one part.

The county judge said that the people will be kept informed of every step taken in the census, and that more complete plans will be announced next week.

Looking on from the sidelines this year was Supt. E.W. Clement, who has coached tennis most of the years he has been with the Wellington Schools. He has coached several players into state competition.

This year, he gave all credit to Coach Glenn and the boys who will be playing in regional April 25 and 26.

The softball league officers have called for volunteers to help with the work.

Interest in the men's league is higher than at any time in recent years and it is estimated that at least 100 men will be playing regularly through the summer.

for the week day services, we know God does not frown on such dress but is much concerned with our vocations. There will be a special music at each of the services, from Jerry, the local Church Choir and groups within the Choir, and possibly Community Groups. Jerry is bringing his Youth choir to sing one night during the week, an event we will all enjoy," said the Rev. James Boswell, pastor.

Rev. McReynolds is a long time friend of the local pastor, and they have worked together on many district and conference projects of the church. He has served many churches in the Northwest Texas Annual Conference, among them being Dumas, Quanah, Spur, Pleasant Valley in Amarillo, and Lockney. A graduate of McMurry College in Abilene, he has done graduate study at Perkins School of Theology at Southern Methodist University, Dallas. He is a native of Stanton, and an uncle of his was a preacher in the Methodist Church for many years.

Mr. Lane is also a long time friend of the pastor, and a native of Panhandle, a church among the many served by Rev. Boswell. He is a graduate of McMurry College, Abilene, and served as a public school teacher in the Hereford system. National Guard Unit Now at Fort Bliss

Wellington's Support Company, Detachment 1 of the Texas Army Guard has joined the U.S. Army's 9th Infantry Division from Fort Lewis, Washington for two weeks of training at Fort Bliss. Members left here during the week end.

The local Texas Army Guard Infantry company, part of the Amarillo based 2nd Battalion, 142nd Mechanized Infantry, will be traveling with the other infantry companies in the 142nd to Fort Bliss Military Reservation beginning April 13 for their two-week annual training period.

But this year the unit will be training with active Army and Air Force units in a joint military exercise named Gallant Shield 75, already under way at Fort Bliss.

The Panhandle battalion will be attached to the U.S. Army's 9th Infantry Division and working as one of the battalions of the division, under the command of Major General John Q. Henion. General Henion will command the Army Forces during the exercise.

Gallant Shield 75 began operations at Fort Bliss on April 5 and will conclude on May 2.

The training exercise, directed by U.S. Readiness Command (USREDCOM) will have units from the U.S. Army, U.S. Air Force, and Reserve Components participating. The 2d Battalion, 142d Infantry will be the only Army National Guard Battalion participating.

Gallant Shield 75 is under the command of Lieutenant General John J. Hennessey, Commander-in-Chief of USREDCOM.

General Hennessey, who will serve as the exercise director, has appointed Lieutenant General Robert M. Shoemaker, Commanding General, III Corps., to serve as the joint task force commander.

The Army's major participating units will come from the 9th Infantry Division, Fort Lewis, Washington; the 101st Airborne Division (Air Assault), Fort Campbell, Kentucky; and the 3rd Armored Cavalry Regiment Fort Bliss, Texas. Tactical Air elements will come from the 355th Tactical Fighter Wind, Davis-Monthan AFB, Arizona, and the 49th Tactical Fighter Wing, Holloman AFT, New Mexico.

The USREDCOM, with headquarters at MacDill AFB, Florida, exercise control of assigned, U.S.-BA Army and Air Force General purpose forces, providing a reserve of combat ready units to reinforce other unified commands. Joint exercises such as Gallant Shield 75, in addition to their vital training function, provide an operational environment for examining current concepts and to test newly developed procedures. None of the exercise objectives deal with desert training. The exercise is schedules at Fort Bliss due to ready availability of terrain and airspace.

Second place in the land judging went to Paducah FFA and third to a team from Wellington FFA.

Valley FFA was second in the plant judging, with Clarendon FFA third.

This serves as the official Greenbelt District contest in these two events, and the winning teams competed on the area level Friday, April 11 at West Texas State University, Canyon, according to Tommy Powell, SCS Conservationist.

High point man in the plant judging was Pepper Jones of Valley, while Clinton Oldham of Samnorwood was second and Mike Hill of Samnorwood third.

Bob Gilbert of Paducah was high individual in land judging, with Doug Coleman of Samnorwood second and Eddie Vinson of Clarendon third.

Directors of Salt Fork SCD board and the staff of the Soil conservation Service were in charge of the contest.

Members of plant judging teams identified 36 grasses and plants, ranging from buffalograss and blue grama to Yellow Indiangrass and wooly loco.

For each, the contestants indicated if it is an annual or perennial, a cool or warm season plant, and if it is native or introduced.

Its economic value was rated for wildlife and grazing. The few poisonous plants were noted.

Land judging team members classified the various types of land and indicated its permeability and the fertilizer needed.

For the first time, girls were members of a winning team. On the first place Samnorwood land judging team were Douglas Coleman, Jr., Mark Tarver, Debbie Oldham and Pat Segura.

In the Paducah team, which placed second, were David Gibbs, Joel Nelson, G.H. Wilder and Bob Gilbert.

Wellington's third place team had Richard Sims, Randall Sims, Don O'Rear and Ricky Ford.

In plant judging, the first place team from Samnorwood consisted of Clinton Oldham, Mike Hill, Robert Cruz and Clifford Oldham.

Second place Valley had Pepper Jones, Jimmy Don Davidson and Joey Barefield.

On the third place team from Clarendon were David Leathers, Billy Pierce and Donnie Garman.

After the judging, SCD supervisors hosted a hamburger feed at Ellison Park.

Banners and ribbons were presented by Doug Coleman, Sr. of Dozier, chairman of the Salt Fork SCD board.

Farmers Co-op Gin Plans Improvements

Wellington area farmers received $166,261.29 in rebates when the Farmers Co-op Gin held its 48th annual meeting Saturday, April 12. This amounted to $12.48 per bale on 13,735 bales ginned during the 1974 season.

During the business meeting, two new directors were named and plans for improvement in the new gin plant were announced, according to J.N. Glasgow, assistant treasurer.

These are Louis Allred and Richard Fourmentin. They succeed R.L. Mabery, vice president and Woodrow Wood, who asked that they not be re-elected.

Directors met later to organize for the coming year. Carl Wischkaemper was re-elected president and Dan Henard, Jr., was named vice president to succeed Mr. Mabery. Re-elected were C.G. Lewis, secretary-treasurer; Webb Johnson, who is gin manager, assistant secretary; and Mr. Glasgow, assistant treasurer.

Members of the board include Mr. Wischkaemper, Mr. Henard, Mr. Lewis, Jerol Morris, Dan Langofrd and Mr. Fourmentin.

Co-op members were told that two more bur machines will be installed in the new plant and the gin stands will be changed from 119 saws to 141.

"All of this will help us do a better job of ginning," said Mr. Glasgow.

Winners of door prizes were Bob Barton, C.L. Shanks, David Phipps, Andy Bell, Cary Don Neeley, G.E. Haralson, John Jackson, Frank Coleman, Jr., Rodell Byers, W.E. Colson, John Wolf, Dan Guthrie, Herman Belew, Albert Fulcher and J.C. Emmert.

Coleman to Represent FB in Washington

A local Farm Bureau leader will get a first-hand look at federal government operations when he attends the Texas Farm Bureau's 1975 County President's Conference April 22-24 in Washington, D.C.

Frank Coleman, Jr. of Wellington, membership chairman of the Collingsworth County Farm Bureau, will fly from Dallas on April 22 and return on April 24. He will be among some 200 Texans attending this meeting.

In a departure from the past, this year's conference is being held in the nation's capital to acquaint FB leaders with governmental functions and to cement greater familiarity between Texas lawmakers and their Farm Bureau constituents. While in Washington, the local leader will meet with Congressman Jack Hightower, representing this district, and the two Texas Senators.

He will also see the usual sights in Washington, including Ford's Theater; the Federal Triangle; the Capital building; the Supreme Court Building; the Library of Congress; the White House; the Washington, Jefferson and Lincoln Monuments; the Cherry Trees; the Smithsonian Institution; the National Gallery of Art; and Arlington National Cemetery.

The group will have a banquet featuring American Farm Bureau Federation President William Kuhfuss and the Washington office staff in a discussion of "The Washington Situation," and will be conducted on a special guided tour of the Department of Agriculture.

Plans for the Washington trip were approved early this year by the Texas Farm Bureau Board of Directors, but it was made contingent upon the state organization meeting certain membership goals. In order to send a representative, a county Farm Bureau had to have 55 per cent of its last year's total membership and 50 per cent of last year's new members enrolled by March 31. In addition, TFB had to have 85,000 members enrolled and 100 qualified counties by that date.

Collingsworth County Farm Bureau qualified by signing up 38 new members and having 353 members enrolled by March 31.

Some 130 counties qualified with the total of new members and renewals transmitted to the Waco headquarters since November 1 (beginning of the organization's fiscal year) exceeding 92,000.

Little Change In Makeup of Schoolboards

Voting was light in the school trustee elections Saturday, April 5, with candidates facing no opposition.

In Wellington, William O'Rear received 232 votes, Frank Coleman, Jr., 224 and Sam Adams 213. There were write-in votes for Jimmy Cochran and Henry Sullivan.

The three trustees will be sworn in for their new terms at the board meeting Monday night, April 14 and the election will be canvassed on the same evening.

Guy Brandvik who moved to Quail a little more than a year ago, was elected a new member of the school board, receiving 16 votes. Paul Fielding received 16 votes and Carl Wischkaemper 14. The latter two were running for re-election. Marvin Blevins received write-in votes.

Raymond Barton did not seek re-election.

LETTERS *from the People*

Editor,
Wellington Leader

Dear Sir:

We want to take this opportunity to thank you and your fine paper for your help in locating the suitcase belonging to our daughter, Tara. And please thank the kind lady (I do not know her name), who contacted the First Baptist Church on Thursday. The suitcase did not have a name on it, so the lady did not know what to do with it until she received your paper. Benny Kilgo from the First Baptist Church forwarded the suitcase to us by bus, and we received it in fine shape on Saturday morning.

Our kids, ("His Children"), appreciated the opportunity of presenting their program at the First Baptist Church, and they report a warm welcome and a friendly and courteous response from the fine people of Wellington.

Sincerely yours,
Mrs. James E. Burke

Editors Note:

Mrs. Murl Lacy found the suitcase and called the church.

Tennis Fashions Serve Up New Color Contrasts

The most flattering tennis fashions ever have arrived, featuring imaginative dashes of bright or pastel colors contrasting with white. They are a particularly good wardrobe investment this spring, now that Celebrity Tennis, the new mini version by South Bend, makes it easy to enjoy the popular sport on any neighborhood lawn, driveway, park or beach. Celebrity Tennis plays by USLTA rules with snub-handled, waffle-faced racquets and a perforated plastic ball, which provide maximum action and excitement in small space.

Fad diets can be injurious to the dieter's health. They rob energy by excluding important nutrients the body needs every day. Selections from the Basic Four Food Groups should be eaten every day even when trying to lose extra pounds, Mrs. Mary Sweeten, foods and nutrition specialist with the Texas Agricultural Extension Service, The Texas A&M University System, advises.

Fix-It Tip

To keep household tools in good shape, use a file now and then on them to keep the cutting edges sharp. Before storing spades and hoes for the winter, sharpen their edges now to avoid preliminary work next spring.

Pruning and grass shears generally have a coating of sap from the plants that have been cut. Since this is corrosive, clean it off the blades. Kerosene is all the solvent you need. Use steel wool on stubborn spots and on rust spots.

Oil the working parts and coat with oil after sharpening.

Check wooden handles for rough spots, splinters. Sand them smooth and then coat the wood with linseed oil to keep it from drying out.

MR. AND MRS. W.L. WHITE

Mr., Mrs. W.L. White Feted On 50th Wedding Anniversary

On the occasion of their fiftieth wedding anniversary, Mr. and Mrs. W.L. White were honored at a reception Sunday, April 13, in Bura Handley Community Center.

Hosts were their children, Mr. and Mrs. Alfred White of Aberdeen, South Dakota, and Mr. and Mrs. John Tribble of Albuquerque, New Mexico.

Guests were received by the three couples, then registered by Steve Roach of Goodwell, Oklahoma, grandson of Mr. and Mrs. White.

The reception table was laid with a gold lace cloth, centered with the anniversary cake. A crystal punch bowl was at one end and the silver coffee service at the other.

Guests were served by granddaughters, Mrs. Steve Roach of Goodwell, Mrs. Jim White of Texhoma, Okla., and Miss Carol Tribble of Albuquerque, N.M.

Other members of the house party were Mrs. John Alf Thomas, Mrs. Chester White, Mrs. Bob Watson, Mrs. John Coffee, Kay Coffee, Linda Coffee, Tanya Watson, Angela Watson and LaVonda Thomas.

Mrs. White retired from the teaching profession in 1969, about four years after Mr. White retired from farming and they moved from Midway community to their present home, 1509 Graham St.

Of the 30 years she taught, Mrs. White says she enjoyed every one of them.

Her first school was at Quail, then a three-teacher rural school, in 1923-24. The late Mr. Ming was principal and Lelia Savage, now of Ft. Worth was the other teacher. She was then Merle Hite, and it was during that year the couple met. She was teaching at Salt Fork the following year when they were married in the home of Mrs. A.Y. Bell.

She did not teach while her son and daughter were small, but her later schools were Swearingen, Bray and Midway. She was teaching at the latter when it consolidated with Wellington in 1944, and she remained in Elementary School until she retired.

Mr. White farmed throughout his adult life.

He is past president of the Collingsworth County Farm Bureau and now a director of the Greenbelt TV Translator System.

Mr. White has served as a deacon and she a Sunday School teacher in the Church of Christ.

Presently Mrs. White is regent of LaPaisana Chapter, Daughters of the American Revolution. She is past president of the Wellington Classroom Teachers Association, holds life membership in the Texas Congress of Parents and Teachers, and is active in the National Retired Teachers Association.

Both were small children when they were brought to the county in 1904. His parents, the late Mr. and Mrs. P.J. White, settled at Quail. Her parents, the late W.G. and Mary Lee Walker Hite, lived first at Lutie, but after a few years moved to Wellington, where her father was county treasurer and later justice of the peace.

Mrs. White graduated from Wellington High School and received the B.S. degree from West Texas State University. Mr. White attended Quail and Wellington schools.

Out of town relatives attending the celebration, in addition to the children and grandchildren, were Mrs. Ollie Simmons and Mr. and Mrs. Jack Scott of Memphis, Mr. and Mrs. Elvis White and family and Mr. and Mrs. Donald White and family of Clarendon, Mr. and Mrs. Harold White and family of Hedley.

Fix-It Tip

Plaster walls can develop cracks for a number of reasons.

It isn't difficult to repair plaster walls. The job requires patience, care and a few inexpensive tools.

A plasterer's steel trowel may be needed when you get to filling large holes, but for most minor patching a putty knife will do. A throw-away pie tin is great for mixing the plaster. Large cracks should be undercut so that they are wider at the bottom than at the surface. There is a tool for this but you can make do with a small screwdriver.

Hairline cracks and tiny nail holes can be repaired with a prepared spackling compound or special crack filler. This dries more slowly than plaster but it can be handled more easily.

Two B&PW Club Members Nominated for State Honors

Two members of Wellington Business and Professional Women's Club have been nominated to represent District 10 for top state honors.

Miss Myra Hays is the distrtict's choice for the Outstanding Woman. Mrs. Gary (Linda) Brewer is the nominee as district Young Career Woman of the Year.

Their original nominations came from the Wellington Club, said Mrs. Zook Thomas, president.

The state selections will be made at the annual convention of the Texas Federation of B&PW Clubs, which both Wellington women will attend. Winner of the Young Career Woman category will compete on the national level.

Chairman of the selection committee for the young career woman was Mrs. Gary Killian, while Mrs. H.L. Jenkins and Mrs. Rob Isbell were co-chairman for the outstanding woman.

MISS HAYS

Miss Hays has been an employee of the Farmers Home Administration 38 years and a member of B&PW 23 years.

Her career began in the Wellington FHA office under Harvey S. Dorman. The next year, Ralph W. Dent became county supervisor. Miss Hays worked with him five and a half years and later for 14 years at Plainview.

Three time she worked with Truman S. Jones, twice here and at Wheeler.

From 1965 to 1969, when she returned from Plainview, the county supervisor was Don Jennings, who also held that post for Collingsworth County after Miss Hays left.

She recalls she has worked in the Wellington office three times. One move came when this office was closed for a time. Other tenure was at Wheeler two years, Childress one, a year of traveling out of the Amarillo office, and 20 years at Plainview.

Twice she received the FHA Superior Service Award.

Like her career, membership in B&PW began in Wellington, which she joined in 1946. She was not a member for several years, then rejoined at Plainview.

She has held most B&PW offices, including that as president of the Wellington club. The last two years she was District 10 director.

Most of her community work is tied with B&PW and included the Pioneer Roundup to honor Plainview old settlers, and work with the Cancer Crusade and Red Cross here.

Besides attending most B&PW state conventions, Miss Hays was a delegate to the national convention at Honolulu, Hawaii in 1970 and at Atlantic City, N.J. in 1972. She was an alternate delegate to the Chicago convention in 1974.

A member of First Baptist Church, Miss Hays teaches Sunday School and works with youth.

MRS. BREWER

Linda Brewer, wife of Gary Brewer, teaches math and business courses in Wellington High School and formerly taught in Hereford High School.

Since returning to Wellington, she is active in Young Homemakers, the county unit of Texas State Teachers Association, Classroom Teachers Association and B&PW.

NOTICE OF HIGHWAY IMPROVEMENT

The Texas Highway Department is planning to proceed with the development of the proposed highway improvements on U.S. Highway 83, extending from 4.2 miles South of the Wheeler County line to F.M. Road 1439, at Lutie, in Collingsworth County.

Since the Federal Highway Administration has approved the route and design proposed for this project, the Highway Department will begin work on the next phase of engineering necessary for the development of this project.

The proposed re-construction will consist of widening, reconditioning, and resurfacing the existing highway to provide two 13-foot driving lanes with 9-foot paved shoulders, and an additional 12-foot climbing lane where warranted by a steep grade.

The route of the project is along the present location of U.S. Highway 83, with additional right of way being required to provide for a minimum width of 150 feet throughout the project. There will be no displaced persons or businesses, or relocations, on the project.

Maps, drawings showing geometric design, environmental studies, and all other available data concerning the development of this project may be inspected and copied at the office of O.V. Johnson, Supv. Resident Engineer, Wellington, Texas.

Deck's Didactics

—by Deskins Wells

AS SPRINGTIME advances our annual effort to produce wealth from the soil increases in intensity. This year we have our problems as usual; but we can be thankful that lack of adequate moisture for planting is not one of them.

* * *

IN OTHER years we have been looking anxiously at the skies in April wondering if rain will come soon enough to save the wheat and provide moisture for seasonal planting. That is not the case in 1975 for there is adequate moisture for the present.

* * *

MANY of our problems are signs of a healthy local economy instead of a sick one. The lack of housing means that people are moving back to Wellington instead of drifting away and the important factor is that many of these are younger people. It is a good sign that there is such a problem.

* * *

THE CITY has problems, the school has problems and the county has problems. For the first time in more than 15 years the county is confronted with the knowledge that they will be forced to raise taxes this year in all probability. This is due mainly to the money the county has had to spend for right of way needed to allow the Highway Department to widen Highway 83 north of Wellington. In the long run this is money well spent. Again this is a problem of improvement and not of decline.

* * *

IF YOU want to see what a trailer home should look like and how homelike and attractive one can be you should drive down Arlington from north to south and slow down at 12th street. There you will find a trailer home with a beautifully landscaped yard. The one item that changes it from a trailer to a home is the skirt on the structure. There are others that have nice plantings started; but they do not look like the home on Arlington. The home belongs to Mr. and Mrs. Lynn Emmert.

* * *

CAR LICENSES in Collingsworth start with the letters ANN- and go on to ANP and ANQ at the present time. I started wondering what happened to ANO and was curious to find out if some other county had those letters. The answer was simple. Joy Belew, at the tax collectors office, told me that O and Q looked so much alike that the state officials decided to eliminate the O.

* * *

LAST THURSDAY Lyndon Crelia said he was convinced that The Leader was continuing the high reader interest it has enjoyed through the years. He said: "This morning I glanced over at the coffee counter and there were four people with a cup of coffee in front of them and they were not talking. Each one of them had a copy of the Wellington Leader spread out in front of him and I had one before me on the prescription counter."

* * *

LUTHER Sullivan asked about my garden and I was a little ashamed to tell him that all I had up were onions and radishes; but I felt better when I learned that he did not have much more than that himself. He said it had been too wet and cold for him to get enthusiastic about planting vegetables.

* * *

THE REAL gardeners in town have not been idle. They have corn that is a foot high as well as flourishing rows of potatoes, green peas, beets, carrots, beans of more than one variety and many have out tomato, cabbage and other plants. At this time of the year, such gardens are beautiful.

* * *

SINCE my garden space is so limited and since so much of my yard is dominated by tree shade and tree roots, I have drifted to plants that tend to last all summer long such as tomatoes, peppers and okra. I do not like to plant okra until Bill Adams has planted his cotton for both are hot weather plants and will not grow off too well if the young plants stand too long in cold damp ground.

* * *

ANYWAY good luck to you hardy souls who do not mind working. The other morning I observed one gardener out hoeing his plants at 7:30 in the morning with the temperature reading 40 degrees.

Sears Catalog Sales Has 6th Anniversary

The Sears Catalog Sales Merchant is observing this week the sixth anniversary of the opening of the store in Wellington, Mr. and Mrs. Clifford Christian, owners, announced.

Special sales events will mark the celebration.

Although the store has remained in the same location the entire time, Mrs. Christian pointed out that they have doubled the inventory of merchandise carried.

During this period, the Wellington store was chosen for a pilot project, sponsoring the 4-H Club Sewing Program. Sixty-two girls participated the first year and 81 the second.

Due to the success of the program here, Sears has expanded the program to include similar projects in Chicago and Los Angeles areas, and this year, there will be two in the Dallas area. Mrs. Christian said that the program will be sponsored here in the future.

During the Sixth Anniversary week; Mrs. Christian said that recognition will be given their first customer, Mrs. Claude Groves; the first credit customer, Mrs. Fletcher White; and the first appliance customers, two sisters, Mrs. Edna Bradley and Mrs. Lillie McLain.

Working with Mr. and Mrs. Christian in the store are Mrs. D.R. McKinney, Mrs. Oscar Herrera and Mrs. Eddie Maxwell.

Notaries Must Reapply Before Last of April

Texas Secretary of State Mark White today announced that all presently commissioned Notaries Public desiring re-appointment for the new term which begins June 1, 1975 and ends June 1, 1977, must pay the required fee and file a new oath and bond with the County Clerk between May 1, 1975 and May 15, 1975, inclusive.

Secretary White further stated that any person not now a Notary Public who desired appointment for the beginning of the new term on June 1, 1975, should apply to the County Clerk before April 30, 1975. The required application forms may be obtained from the County Clerk.

Mr. White emphasized that Notaries Public should not send requests for appointment or for commissions directly to the Secretary of State as the law specifically provides that the County Clerk approve Notary Bonds and forward copies of the application to the Secretary of State.

NEW TERRACES GO IN
Danny Greenway, left, contractor, and Henry Wolf stand beside new parallel terraces under construction on Mr. Wolf's farm a mile north and one east of Wellington. Assistance was provided through the Great Plains Conservation Program.

Terrace Maintenance Need Grows in Area

With recent heavy rains in parts of Salt Fork Soil Conservation District, there is a growing concern by more and more farmers of their need for terrace maintenance, according to James H. Herring, soil conservationist, Soil Conservation Service.

He pointed out that there have been 132,048 feet, or 25 miles of parallel and standard terraces installed since July 1974.

Parallel terraces are under construction at present on the Henry Wolf farm located one mile north and one east of Wellington. Mr. Wolf is constructing terraces and shaping critical areas to be sprigged to Bermuda grass.

The conservationist also pointed out that farmers with water erosion problems who feel they have a need for parallel terracing can contact the Soil Conservation Service office in Wellington for assistance in planning.

One Act Play Selected Alternate at Area UIL

Wellington High School speech department's one act play, "The Small World of Millie McIvor," was selected the alternate production in the Area I Interscholastic League competition Tuesday, April 8, at Plainview.

Should either of the advancing plays, from Vega and Spring Lake-Earth High Schools, be unable to compete on the regional level, Wellington will take its place, said Mrs. Bob McAlister.

Four Wellington cast members received individual honors. Joe Porter and Lucy Sullivan were named to the area all-star cast, while Betty Burba and Jenny Earnest received honorable mention.

The contest play, a comedy farce, is set in 1900 and covers the experiences of two boys who find themselves in a ladies dress shop by mistake.

Others in the cast were Steve Emmert, Geney Morrow and Jim Bob Nall. In the stage crew were Terry Anderson, Renee Mitchell and Beth Derryberry.

A large number of Wellington people accompanied the cast to Plainview to see their performance. They were joined by county students in West Texas State University, Wayland College and Texas Tech.

This is the first year that district UIL winners have competed on an area level, rather than going directly to the regional competitions at Lubbock.

Achievements of Our Young People Receive Recognition

Have you noticed the fine manner in which our young people are representing us throughout the region, and in some instances on the state level, this spring?

These include school as well as young adult organizational activities, and in each instance, their capability is apparent.

A young Wellington teacher, Linda Brewer, and a Samnorwood FFA team seek state honors. The winning Skyrocket basketball team and the individuals and groups who are presently advancing in UIL competition, Quail's representation in the All-Star basketball events, all bring this county the best kind of recognition.

For what they have done this spring, these young men and women need and deserve our congratulations and our encouragement. They should know we are pleased with their performance . . . that we are expecting more of this.

Estate Tax Reform

Rep. Omar Burleson of Texas has introduced his federal estate tax reform bill in the new Congress and several more Congressmen have joined in supporting the bill, H.R. 1793.

This is an attempt to correct some inequities in the estate tax that has now become unrealistic in view of inflationary pressures on property and other assets.

The Burleson bill would raise the exemption from the federal estate tax to $200,000 from the present $60,000. It would also increase the maximum marital deduction available when a married person dies and leaves property to a surviving spouse.

The bill also has a provision of interest to farmers and ranchers in that it provides a method for valuing farms and woodland for estate tax purposes on the basis of their current use rather than potential higher value uses.

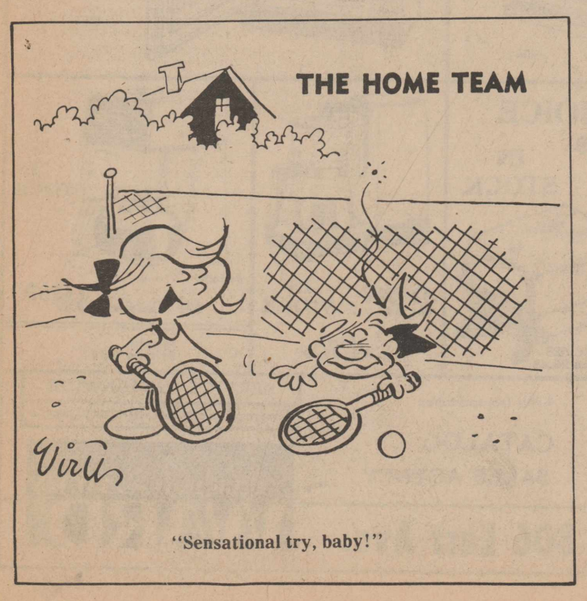

The Burleson bill provides one answer to the knotty problem of how to pass on a family farm from one generation to another. Or how to pass on a family business.

There was a time when a $60,000 estate was considered a whopper and most people didn't worry much about federal estate taxes. It has come to the point now, in an era of $35,000 houses and $6,000 automobiles and $5,000 boats, that a $60,000 estate can be gathered together by a lot of people.

In our own community, we have seen families hard pressed to raise the money with which to pay the federal estate tax. This tax has been the cause of many of the land sales in this area as families were forced to sell their land to pay Uncle Sam his estate tax.

If people out here in the farming area want to do something for themselves, it would be appropriate for them to write their Senators and Congressmen asking support of the Burleson bill. It is a fair and logical piece of legislation that should be enacted into law.

STATE CAPITAL Highlights AND Sidelights

by Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN — Texans are going to get to vote on a new constitution this year after all.

Final legislative agreement on the article-by-article revision proposal will send it to the polls November 4 for a showdown decision by voters.

A major campaign is shaping up for the document, and several efforts can be expected against individual sections.

At least, the revision is shorter, simpler and better organized than the present patched-up constitution. It would give the governor needed fiscal controls, appointive power and agency reorganization authority.

The proposed unified court system is not without some strong criticism, as well as backing. The finance article requires uniform standards and procedures for tax appraisal and countywide appraisals.

Counties, through the new local government article, would be able to change their governmental structure and adopt ordinances. Environmental protection would be mandated along with access to comprehensive health care and equal education.

Voters will decide earlier on two constitutional changes — on April 22. On the ballot then are recommended "emergency" improvements in state employees' and school teachers' retirement programs and a $600 a month pay scale and expense account increases for legislators.

MONEY RUNNING OUT

State revenues, rapidly shrinking in spite of a once-fat $1 billion "surplus," will be far short of needs for real school finance reform, two government officials maintain.

Lt. Gov. Bill Hobby, Legislative Budget Board chairman, predicted about $450 million to $500 million will be available after the general state budget is approved. LBB Director Tom Keel estimated the main budget "leftover" at $472.8 million. That's nearly $300 million below the most modest pricetag of major education finance bills backed by Gov. Dolph Briscoe.

Hobby said the teachers will get a pay raise — less than they are asking — but many other provisions of the Briscoe and Texas State Teachers Association bills cannot be financed.

PRIMARY DELAYED

Presidential preference primary legislation went to conference committee with initial Senate instruction to retain a self-destruct feature which would make the legislation effective for 1976 only.

Sponsors are still trying to get rid of the mandate so they can make the primary a permanent election procedure, unless repealed, as is the case with most laws.

WATERWAYS BILL PASSED

The Senate designated Texas Highway Department as state sponsor for a joint state-federal effort to maintain 426 miles of Gulf Intracoastal waterways.

The Department will cooperate by providing spoil disposal areas along the 426 mile main channel from the Sabine River to Brownsville.

COURTS SPEAK

The State Supreme Court will review a Laredo case which Atty. Gen. John Hill claims may have major consequences for enforcement of deceptive trade practices court orders.

The High Court will also hear arguments May 14 in Exxon's appeal from a damage verdict following suicide of an Abilene truck driver who was injured earlier in a refinery accident.

Two wives of a Chambers County man who died in a Java Sea shipwreck in 1970 are entitled to inherit from his $51,031 insurance-and-unpaid wages estate, the Supreme Court held.

A $10,500 jury award to a Marshall farmer for pollution damage from Atlas Chemical Industries effluent was upheld by the High Court, but a $25,000 exemplary damages award was rejected.

The Court of Criminal Appeals reversed a rape conviction of four San Antonio men because their trial was not postponed to accomodate a lawyer-legislator who had been called into special session.

A Hillsboro burglary conviction of two was also reversed since the jury relied on testimony of an accomplice witness.

AG OPINIONS

Where a county tax assessor-collector is required to assume collection of a city's taxes, he must do so without regard to whether the city's ratio of assessment for prior years has been different from the county's, the Attorney General has held.

In another recent opinion, Hill concluded planning and development of state parks and historic sites may be financed from Texas Parks Fund 31 financed by cigarette taxes.

COUNTIES SHIFTED

Seven West Texas counties have been moved from the North-Northwest Territory to the Central Inland Territory, with a reduction of homeowners and extended coverage rates.

Montague, Jack, Young, Wise, Eastland, Brown and Stephens counties asked the realignment for insurance on buildings. Counties said they didn't have hail, tornado and windstorm damage sufficient to require they stay in the high-rate territory.

SHORT SNORTS

Comptroller Bob Bullock reported unemployment payments climbed 25 per cent last month, to a March total of $20.4 million. The Comptroller said tax revenues will decline when unemployment payments exceed $1 million.

Helath Maintenance Organization legislation, providing for a new system of pre-paid, fixed-premium medical and health care services, passed the Senate and is expected to pass the House.

Texas Research League said a tax bill may be necessary this year, regardless of Gov. Briscoe's threats to veto one.

The Governor signed into law a bill assigning priority to in-state use of gas produced from state-owned land.

School teachers plan a giant rally here April 26 to demonstrate support for public school finance reform — and $10,000 a year minimum salaries for teachers.

Texas wheat farmers are expected to harvest a record 1975 crop, Agriculture Commissioner John C. White predicted.

Short Takes

National Parks

Yellowstone was established in 1872 as the first national park, followed by Yosemite, Sequoia and General Grant national parks in 1890, according to the Encyclopaedia Britannica.

Harness Racing

The Hambletonian Stakes, harness racing's most famous event, is named after Hambletonian, known as the "great father" of today's harness horses. About 99 of every 100 harness horses racing today can be traced back to Hambletonian.

Huge Lizard

Komodo lizards, world's largest, were unknown to the scientific world until 1912, when a Dutch scientist, Major P. A. Ouwens, director of the zoological museum in Buitenzorg (now Bogor), Java, brought back five specimens to American and European zoos.

Named for Pope

The Gregorian Chant was named for St. Gregory, Pope of Rome from 590 to 604, who had made a collection of the music used in the Catholic services.

Japan in Canada

World's largest Japanese garden is on the Canadian "frontier." The Nikka-Yuko Gardens at Lethbridge in southwestern Alberta incorporates all five basic types of traditional Japanese gardens, complete with houses, bridges and bell tower, all made in Japan.

Plural Name

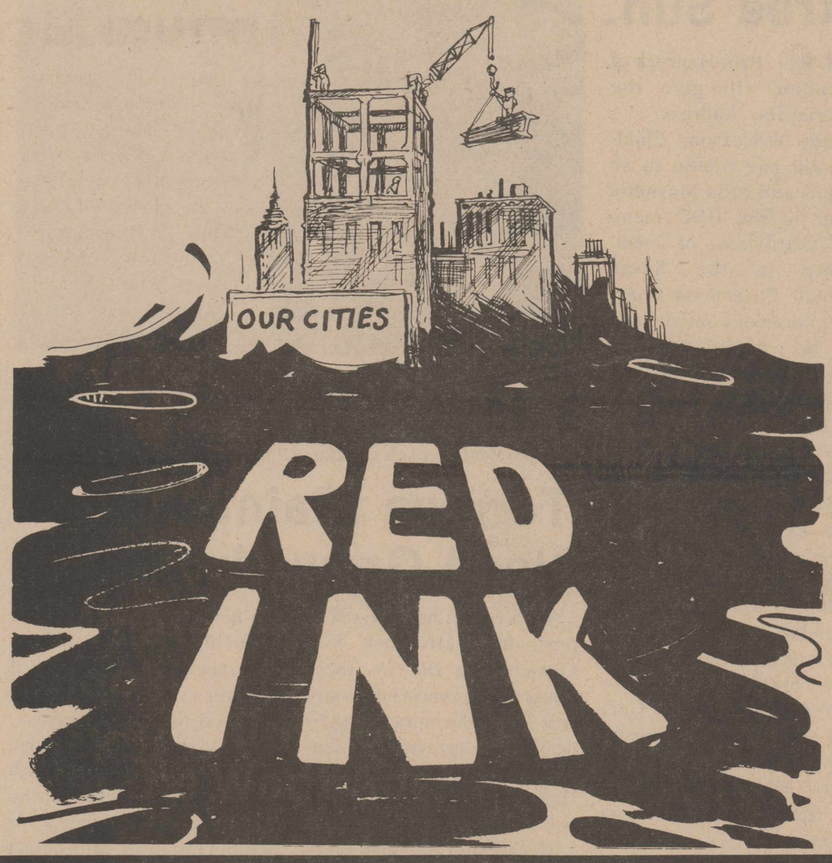

The first U.S. naval vessel with a plural name was the destroyer The Sullivans, launched April 4, 1943. The ship was named for the five Sullivan brothers of Waterloo, Iowa, who died when their cruiser was sunk near Guadalcanal on Nov. 15, 1942.

Rolling Plains PCA Annual Meet April 19

More than 500 farmers and ranchers being served through the Childress, Spur and Matador offices are expected to gather at 11 a.m. Saturday, April 19, for the Rolling Plains Production Credit Association's 41st annual meeting in the Matador High School auditorium. The second session serving the stockholders of the Stamford and Munday offices will meet April 26, in Stamford.

A highlight of the meeting will be election of two directors by the association's membership. Candidates for Place 1 are incumbent Mack T. Claburn of Anson and Robert L. Reves, Sr. of Lueders. Place 2 nominees are P.M. Bouchelle of Wellington and incumbent W.J. Boykin of Northfield.

According to J.R. Gleaton, the association's president, keynote speaker for the Matador session is Jack H. Barton, senior vice president, Federal Intermediate Credit Bank of Houston, who will touch on changing agriculture. The Houston bank is the source of most PCA lending funds and a member-bank of the $25 billion national farm credit system.

Other program highlights include the report from the association's board by Boykin. F.A. Ulmer of Sagerton will give the nominating committee's report. Gleaton is scheduled for the Manager's report. Bill L. Glenn, PCA vice president, will preside.

A meal for participants precedes the business session. Cash attendance prizes will be awarded at each session to those whose names are drawn. All stockholders and their wives are eligible for participation in this cash prize event.

Rolling Plains PCA serves the credit needs of farmers and ranchers in a 17 county area of the Rolling Plains of Texas consisting of: Briscoe, Childress, Collingsworth, Cottle, Dickens, Donley, Foard, Hall, Hardeman, Haskell, Jones, Kent, King, Knox, Motley, Shackelford and Stonewall Counties. Approximately $54 million was loaned by the association in 1974.

The present board of directors is composed of Lasater Hensley, chairman, Guthrie; Mack T. Claburn, vice chairman, Anson; W.C. Mann, Clarendon; J.P. Perrin, Haskell; and W.J. Boykin, Northfield. J.R. Gleaton is president and vice presidents are R.C. Cobb and Bill L. Glenn.

Guests in the home of Mrs. Dan Henard were her son and daughter-in-law, Mr. and Mrs. Joe Henard from Amarillo.

Storm Damages Wheeler Farm

The storm which came through the county Monday, April 7, destroyed a cow shed on the Ted Wheeler farm northwest of town, moving the lumber about 200 yards and scattering it.

It also tore up a barbed wire fence and left it on the Zook Thomas farm. A box car was blown off its foundation, Mr. Wheeler said.

Bill Cagle of Hollis and his sister, Miss Daisy Cagle, of Amarillo were business visitors in Wellington Wednesday, April 9.
