THE JUNCTION EAGLE

Volume 47

Junction, Kimble County, Texas, Thursday, October 9, 1930

Number 26

BRADY IS INUNDATED WHEN CREEK GOES OUT OF BANKS RESULT CONCHO CO. RAINS

Giant Dirigible R-101 Crashes Sunday Morning

Heavy Wind and Rainstorm Is Given As Cause of Accident

The British airship R-101 crashed on a wooded hillside south of Beauvais, France, shortly after 2 a. m. Sunday, took fire and was destroyed. Of the 54 passengers aboard, 46 were either killed by the impact or burned to death. Another died from injuries and the remaining seven that were saved were badly burned. A heavy wind and rainstorm which the airship encountered shortly after it crossed the English Channel, was believed to account for the disaster. Weighted by the rain, the dirigible lost buoyancy and finally bumped into the ground once or twice. Then it struck a hillside and in ten seconds it had caught fire.

Many notables were killed in the tragic end of the largest airship in the world. The British Air Minister, Lord Thomson, was listed among the casualties.

The giant ship had just sailed from England southeastward across France on its maiden voyage of any length, a trip to India and return.

Junction Lions Will Have Ladies Night Oct. 23rd

Eighteen Members Present At Regular Luncheon Wednesday

At the regular luncheon of the Junction Lions Club Wednesday noon, the club voted to have a Ladies' Night Thursday evening, October 25, in honor of the wives and sweethearts of the members of the club. This banquet will take the place of the next regular luncheon.

There were eighteen members and four guests at the luncheon Wednesday. Dr. H. E. Wright had as his guest Judge Weaver H. Baker; B. L. Smith invited Judge J. B. Randolph; Doc Farmer had Carl Nelms, local telephone manager, and L. D. Borden had E. M. McLendon as his guest.

Judge J. B. Randolph and Judge Weaver H. Baker made interesting addresses. Judge Randolph discussing the Highway No. 4 proposition and Judge Baker discussing the possibilities of an irrigation project for the Llano Valley.

Dr. H. E. Wright acted as president during the absence of President G. H. Delano, who is sick.

Board of Directors Lions Club to Have Business Meeting

Monday evening at 8 o'clock the Board of Directors of the Junction Lions Club will meet at A. W. Browning's Realty office for their regular business meeting.

Several important things will be discussed at this meeting and every member of the Board, as well as members of the club, are urged to be present.

Much consternation was caused last Monday and Tuesday when Mr. and Mrs. V. P. Emmons and daughter, Dicky Dane, could not be located after they had left Abilene Sunday for Junction. They were marooned by high waters and did not get to Junction until Tuesday afternoon.

Water Was Seven Feet On Courthouse Plaza

Monday morning the business district of Brady, Texas, was under water from three to ten feet deep, when Brady Creek went on a rampage and flooded the entire district. More than fifteen blocks of the residential section was flooded.

Red Cross workers immediately took charge of relief work and typhoid vaccine was rushed from several points to the stricken town. More than sixty homeless families were given shelter for the night in the part of the business district which was not under water, and camp kitchens were set up in the street to feed the scores that were unable to prepare food in their own homes.

The court house plaza, which is two blocks away from Brady Creek, was three to seven feet under water, and there was eight feet of water in the Chamber of Commerce building. Twenty or more small homes along the creek banks were washed away.

It was stated that a frame building was floating around on the surface of the water in the street, butting itself against more substantial structures.

Scores of automobiles were washed down the creek. It was estimated that more than 1000 bales of cotton were washed from a cotton yard down the creek.

The flood was caused by a ten inch rain at Eden. The Brady Creek heads in Concho County, and this heavy rain sent the little creek out of banks, inundating acres of land on each side.

Firemen Stage Parade Monday

Part Of Fire Prevention Week Program

Monday afternoon at four o'clock the Junction Fire Department, assisted by school children, staged a Fire Prevention Week parade on the main streets. Both fire engines were in the parade. Large signs proclaiming Fire Prevention Week were on the fire trucks.

The parade was part of the program which was prepared in keeping with Fire Prevention Week, which closes today. The local school children co-operated in the movement, doing special work in their classes pertaining to fire prevention and remedies.

Flood Victim Buried In Junction Tuesday

Funeral services for Mr. A. Fields, aged El Pasoan who was drowned in the flood waters of the North Llano River Monday morning, were held Tuesday afternoon at two o'clock at the Junction Cemetery, with the Rev. G. W. Crabb officiating.

Deceased was seventy-five years old, and had resided in El Paso for many years. He was engaged as a peccan gatherer. He is survived by a wife and son, W. A. Fields, of El Paso and a daughter, Mrs. Pearl Baker, of San Antonio. None of the relatives were present at the funeral.

STERLING TO HUNT DEER WITH SAN ANGELO MAN

Ross Sterling, governor pro-spective of Texas, and Judge W. A. Wright of San Angelo will hunt deer south of Mason on the Charley Martin ranch Nov. 16. Mr. Sterling is an enthusiastic hunter, and is said to be a good shot with a rifle.

Swollen Stream Washes Automobile Over 1300 Feet

A Ford roadster belonging to Fred Coleman was practically demolished Monday when it was carried down Brady Creek by flood waters. Dick Coleman was driving the car and it stalled when he was trying to cross the creek. He left the car and went for help. While he was gone the creek came down on a rise and washed the car about a quarter of a mile down stream. The car was badly damaged, the sides being battered up caused by striking against trees and rocks.

Last summer the same car was stolen, but was later recovered in Orange, Texas, by Sheriff Frank Patterson.

Rocksprings to Play Junction Here Saturday

Game Will Be Second District Affair For Local Squad

Saturday afternoon at 3:00 o'clock the Junction Eagles will meet the Rocksprings Bulldogs on the local field, which will be the second district tilt for Junction. It will be the third district game for Rocksprings. Sonora and Rocksprings played through four quarters to end with a scoreless tie. Week before last, Rocksprings defeated Ozona 18 to 13.

Junction has played only one district game, having defeated Sonora week before last by the score of 13 to 0. The Eagles did not look like district contenders in their clash with Sonora, but they were off form. If the Eagles are right Saturday afternoon, they should win by two touchdowns, but if they play the kind of football they played against Sonora, Rocksprings will win.

On account of the rain, the Eagles were forced to miss practice Monday afternoon, and they are not in shape to miss practices.

Although the team has lost some players because of ineffectibility, the squad has not suffered from injuries. Everyone is in good shape, and the game Saturday should be a good one. Rocksprings is coming with the idea of winning, and fans will be assured of a hard fought game.

Bank Closes Monday For Columbus Day

The Junction State Bank will be closed all day Monday celebrating Columbus Day.

Mr. and Mrs. Carl Tibbitt and children returned yesterday from a visit in Brady. They were there during the flood and say that the newspaper reports were not exaggerated.

Trappers Must Tag All Fur Bearing Animals This Year

Trapping season in Kimble County for fur bearing animals opens December 1st, according to S. O. Durst, local game warden. Another law has gone into effect this year pertaining to the sale of pelts which states that trappers must attach a tax receipt tag to each pelt before he offers it for sale. When the tag is attached, the trapper must write on the tag the date when it was attached.

It will be a violation of the law if any trapper offers for sale any pelt of a fur bearing animal which does not have the tax receipt tag attached.

Animals that are classed as fur-bearing animals in Texas and on which a tax must be paid are Badger, Civet Cat, Fox,

Aged El Pasoan Is Drowned When North Llano River Overflows

Completed County Census Rolls Show 1226 Scholastics Enrolled

This Year's Total Shows Small Increase Over Last Year

Judge J. B. Randolph has completed the census rolls for Kimble County and all the transfers have been made. There are 1226 this year.

The following is the result of the scholastic census after the transfers were made:

Junction	593
Evergreen	25
Segovia	50
London	174
Noxville	18
Adams	29
White Bluff	18
Eight Mile	16
Bear Creek	19
Whitworth	7
Bodare	45
Murr	31
Bishop	10
James River	22
Ivy	39
Roosevelt	49
Watson	8
Tea Cup	66
Hull	11
TOTAL	1226

London 4H Members Have Started Work On Demonstrations

Fattening Calves Most Popular Demonstration Among Club Boys

The London 4H Club was organized last week and many of the members have already started their demonstrations.

Alton and Dell Bannowsky have sixteen chickens each for their demonstrations. Robert and David Walters have five goats each. Neal Lambert has three calves, J. D. and Frank Wooten have three calves each, Woodrow Kothmann has one calf and Lester Pearl has a flock of chickens.

The 4H Club work is gaining interest in London, and more boys and girls are taking part in the work. Last year some of the London 4H boys won first prizes with their demonstrations at the Kimble County Livestock Judging Meet, and are planning to win again this year.

ONLY FIFTY BALES COTTON GINNED HERE

Fifty bales of cotton have been ginned up to date at the local gin, according to Mr. C. W. Atchison. He expects to gin about ten more bales before the season ends.

Go to Church Sunday.

Local Aviator Buys Site For Landing Field

H. O. Denman Has 10,000 Miles Flying Credit With Only One Mishap

H. O. Denman, local aviation enthusiast, has purchased the field west of the present landing field from Guy Wynne and will convert it into a landing field.

This field is 2,500 feet long and 671 feet wide, being longer than the present field he is using.

The new field has the standard AIA Department of Commerce rating in length for this altitude running with the prevailing winds. However, it is not standard in width, but cutting out trees between the new and old field will compensate for this except under abnormal weather conditions. This will give Junction a fair landing field.

The deal was closed last week, and Mr. Denman plans to make many improvements. The gasoline filling station has already been completed, and it is one of the most efficient in the country. A plane can be refueled without the pilot leaving the ship.

In the near future, the present hangar will be moved from the old field to the new one.

Mr. Denman passed successfully his examinations in San Antonio two weeks ago for the renewal of his private license. He has 130 flying hours to his credit now. Since he bought his Curtis Robin monoplane he has flown 10,000 miles. His cross country flights total 2,532 miles. He has made over 200 flights, and during the entire time he has been flying he has had only one minor mishap which was caused when he tried to take off on a soft field at Boerne after he had to make a forced landing. A propeller was broken. Mr. Denman says this accident was caused merely by his inexperience, not being accustomed to taking off on soft ground.

T. B. Phillips Made Honorary Member Fire Department

Firemen Show Appreciation For Services Rendered By Mayor

Mayor T. B. Phillips was made an honorary member of the Junction Fire Department for life at the last regular meeting of the members of the department, according to John M. Hankins, fire chief.

The fire department bestowed this honor upon the mayor because of his loyalty to the department and the services which he has rendered.

Borden Ice Co. To Handle Sea Foods

The Borden Ice Company has started handling fresh fish and sea foods, and will keep a fresh supply on hand at all times.

The sea foods handled by Borden's are shipped direct from the Gulf Coast in ice and are kept in prime condition by the Ice Company. The wholesome and economical food will be easily obtained now at Borden Ice Company, and its freshness is assured.

Mrs. John Hankins and little son returned Sunday from a visit in San Antonio.

Twenty-Five Foot Rise Washes Out Both Rivers

LIVESTOCK LOSSES

Junction Is Marooned For Twenty-Four Hours

A man identified as Mr. A. Fields of El Paso was drowned in the North Llano River Monday morning when a twenty-five foot rise swept down upon his camp on the bank of the river at the Six Mile crossing. His two companions, William Weaver and Jerome Frost, both of El Paso, were sleeping at the camp when the high wall of water swept over them. They were both poor swimmers but managed to keep out of the swift water, and finally drag out on the bank.

Fields was a man about 75 years old, and his age probably prevented him from fighting the current long enough to get out. His body was recovered Tuesday morning; Deputy Sheriff George Strong finding it about one hundred yards below the six mile bridge where it had lodged on a tree.

The victim and his companions were peccan gatherers, and had camped on the river bank about fifty yards above the bridge. Their car and possessions were badly damaged by the water, most of their property being destroyed or lost.

Rivers Out of Banks
Both the North and South Llano Rivers ran amuck Monday morning leaving their banks and sending down a wall of water twenty-five feet high, which was the largest rise the rivers have had since 1915 when a thirty-foot rise washed out the valleys. According to Mr. E. Holekamp there was a 42-foot rise in 1889, which is credited with being the highest on record. A two years' accumulation of trash, rubbish and moss was washed out of the rivers Monday and Tuesday.

Marooned Twenty-four Hours
Junction was marooned for a period of twenty-four hours, when traffic from every direction was halted because of the flooded rivers and creeks. A bridge over the North Llano River at Coppavas was washed out. The Mason crossing on the Main Llano River was a quarter of a mile wide Monday morning. Traffic to Rocksprings, Kerrville and Menard was blocked.

Five and One-Half Inches Rain
According to the government gauge, five and one-half inches of rain fell in Junction during the seventy-eight hours period from Friday morning until Monday.

(Continued on page 4)

Rocksprings-London Football Game Called Off Because of Rain

Because of the heavy rains and bad weather the London-Rocksprings football game, which was scheduled for last Saturday, was called off. The entire London team and school students were disappointed, because they were planning on a victory.

Another team that was interested in the game was the Junction Eagle squad. The Eagles play Rocksprings here Saturday, and had the game been played, the result would have been interesting to the Junction team.

Mr. Felix Watson was a business visitor in Junction Wednesday.

Grades Are Urged To Elect Reporters

Reports were not received from all of the grades this week, as some of the grades do not have reporters, and it is very difficult for the regular grade reporter to get around to all of the rooms each week. Those classes not having reporters are urged to elect them.

The home room teacher of 7-A class, and sponsor of the Harmonica Band, reports that they are doing well, and says that they will be ready to make a public appearance in a few weeks, provided they get an invitation. They are not likely to want an invitation very long. Anyone of the Seventh grade who wants to join the Band is invited to do so, Mrs. Kindrick says.

The home room teacher of 5-A, Miss Cecelia Merchant, reports that her classes will spend the next four weeks trying to overcome the bad grades of the last months.

The B section of the Third grade is learning sentence structure in English, and addition and subtraction in Arithmetic. They have a policeman who goes around each morning and examines the finger-nails to see that they are clean. This class consists of 25 pupils, and contests add interest to the work done in the classes.

The pupils of Miss Dickey's class organized a club last Monday. It is to be called the "Owl's Club." The following officers were elected: President, Nancfred Duderstadt; V-President, Tyrus Holland; Treasurer, Mary Able; Secretary, Mabel Hodges.

Rocksprings Plays Junction Saturday

The Eagles were all disappointed when Coach Bowers reported that it was impossible to get a game last week, but they are all set and ready for Rocksprings.

Rocksprings has the strongest team that they have had in the last few years, but when the Eagles get that old do or die fight, nobody can beat them.

The Eagles have practiced hard and are in tip-top shape. Each of them is ready to go Saturday.

Journalism Club Is Organized Monday

The staff of the "Eagle Screams" met in the auditorium Friday to organize the Journalism Club. Ella Simon had charge of the meeting.

Hazel Lister was elected president of the Journalism Club, and Wilbur Jeter was elected vice-president. It was decided to let the president, vice-president and sponsor appoint the secretary, entertainment committee and program committee.

They are: Secretary, Blake Chenault. Entertainment committee—Lois Goodwin, chairman, Louise King, Raymon Furr, Raymon Schneider and Katherine Johnson.

Program committee—Harry Witt, chairman, Sarah Schneider, Eleanor Highsmith, Lorena Couey and Pat Bierschwale.

The critics are: Mr. Guy C. Moses and E. M. McLendon.

RAYMOND FURR NAMED CIVICS CLUB PREXY

The Civics class had a meeting September 30, for the purpose of organizing a "Civics Club." Raymond Furr was elected president. Vivianne Livingston was elected secretary. The club is going to abide by parliamentary rules. The topics for discussion the next meeting were assigned. The meeting adjourned at twelve o'clock.

Junior Class Orders Class Pins This Week

The Junior class has sent off their order for pins, and everyone is eagerly awaiting their arrival.

The 10th grade history class is now studying the Literary Digest. Topics are assigned to individuals and special reports are made each week.

Mr. Moses has been teaching the 10th grade geometry class all week. The Juniors feel highly elated over their new teacher.

Those waterbound Monday morning were: Eunice Northcutt, John Lewis Weaver, James McInnis, Oliver Lynn Vierling, Vernon Kirkpatrick and Marie and Sloan Davis.

Pep Squad Practice Stunts For Saturday

The Pep Squad didn't meet last week to practice as there was no game during the week-end. It is hoped that the weather will clear up so that the Pep Squad will be able to practice hard, and have several new stunts for Saturday's game with Rocksprings.

Owing to the bad weather there has been no calisthenics this week. This period has been used as a study period.

EXPRESSION CLASS HAS FIRST MEETING

Mrs. Patterson's Expression class had its first class lesson Wednesday afternoon at her home. The lesson consisted of a drill in physical culture, a practice program, and a folk dance. At the close of the session the children were treated to Eskimo pies.

Raymond Furr—Katharine, I think you are the eighth wonder of the world.

Katharine J.—And who are the other seven?

Senior Girls Given Bracelet and Ring

This is the sixth week of school. Almost all of the Seniors seem to be studying rather hard, especially on English. Wonder why? Must be some great attraction.

The members of the English IV class are studying hard now so that it won't be compulsory to have two English classes a day near the end of the year. They think they are progressing rather fast, but from all accounts, Mrs. Felps does not think so.

A cross bone ring and a blue bracelet have been presented to the girls of the Senior class. Each girl will be permitted to wear this jewelry a week. Lucille Motley has already worn it, and Lois Goodwin is wearing it now. Wonder who ever thought of this?

Spanish Papers Are Ordered For Class

The Shorthand pupils find that they have to learn rules in Shorthand as well as in English or Geometry.

The Spanish II class expects to organize a Spanish Club in the near future. Spanish papers have been ordered for this purpose.

The members of the Typing class report that it isn't as simple as it looks to type perfect papers. They also report that it requires a large supply of typing paper. The typing class will be required to take examinations every six weeks.

SOPHOMORE REPORT

Miss Bennett surprised the Latin I class Friday, by giving it a six weeks examination.

The History II class has a lesson from the Literary Digest once a week. These lessons are very interesting, some are about politics, others are about different current events. The pupils have topics to report on, and some make good reports. Some of the pupils might make better reports if they reported on jokes at the back of the Literary Digest.

The English II class is studying capitalization. Many of the pupils get confused on the rules and do not know where to put a capital, except at the beginning of every sentence.

The Biology class has been making some oxygen, nitrogen and carbon dioxide in the laboratory. The pupils write these experiments up and have to draw a picture of the experiment. The class has some good artists.

PERSONAL

Louise King was absent from school two days last week on account of illness.

Eleanor Highsmith and Vivienne Livingston spent Friday night at the ranch home of Vivienne Livingston.

Margaret Ray from Brownwood spent the week-end with Lucille Taylor. Margaret went to school here year before last.

Athalie Burt and Lella Besant spent the week-end with Lee Ola Hodges at her ranch home.

Maxine Wright spent Saturday and Sunday in town with Vivienne Livingston.

Tommie Jones, John Whitworth, Marjorie Whitworth, Lee Ola Hodges, Helen Parker, Audrey Winkle, Roy Nelson, J. B. Dunbar and S. L. Jeter were absent from the Sophomore class Monday on account of the rivers being up.

A COLLECTION OF SPOONS FROM MANY LANDS

Portland, Oregon.—Dr. Ella Kves Dearborn of Portland, Oregon, is said to have the largest collection of spoons in the world. She is here shown holding a large aluminum spoon, the largest in her collection, while behind her are 2456 more spoons. She started her collection in 1893 and thinks, at 71, that life is far too short to gather an adequate collection. Every country in the world is represented in her collection.

CAT BURIED 2 WEEKS DUG UP ALIVE BY MECHANICAL DIGGER

Austin, Texas.—Here's another "endurance" story. Without the loss of a single one of its reputed seven lives, a gaunt, hungry and rather dirty feline was excavated by a mechanical ditch digger from a grave in which it had lain for exactly two weeks.

Just two weeks ago workmen were digging a deep trench near the State School for the deaf here. Shortly after the excavator passed, the sides caved in. The excavator came back. The first load of stone and dirt brought up the cat, workmen swear. It was rushed to a nearby hamburger shop for first aid.

Joe Roberts went to San Antonio, where he will receive medical treatment.

Monday Mrs. Frank Patterson substituted for Miss Bennett, as she could not get to school because the rivers were up.

Only eight members of the Senior class were present Monday morning. The others were water-bound.

Lemuel Jones visited school Tuesday morning.

John Lewis: "Honey, I'm knee deep in love with you."

Eleanor: "All right, I'll put you on my wading list."

Reagan Lister has started the season by walking away with Maxine Wright.

We hear that a ranchman on the South Llano interests Margaret Hubbell, and one on the North Llano interests Hazel Lister.

"The Supreme Authority"

WEBSTER'S NEW INTERNATIONAL DICTIONARY

Here's the **EVIDENCE** A Library in one Volume

Hundreds of Supreme Court Judges concur in highest praise of the work as their authority.

The Presidents and Department Heads of all leading Universities and Colleges give their endorsement.

The Government Printing Office at Washington, use the New International as standard of authority. High Officials in all branches of the Government endorse it.

The Colleges voted overwhelmingly in favor of Webster as standard of pronunciation in every one of 6,000 illustrations. America's Great Question Answered.

Country Correspondence

LONDON LOCALS

The lack of interest in this column this week should be charged to profit and loss, mostly loss, because up to this minute we have no notes to proceed with. We have had company all week. If you don't believe we had company ask our neighbors. They had company, too—at long range. That bunch of grandbabies are the healthiest, heartiest and the soundest hunded congregation of children to be found, and we enjoyed every minute of their stay and felt sad when the hour came to part with them.

Our gin has turned out 260 bales to date. The crop was so short we never ventured a guess at the number of bales but stated at the beginning of the season that we had the shortest crop since I knew this country.

Our 4-H Club boys are as follows: Alton and Dell Bannowsky, 16 chickens each. Robert and David Waters, 5 calves each. Woodrow Kothmann, 1 calf. Lester Pearl has chickens. These boys are laying the foundation in practical that will insure for themselves success in life, both in finance and leadership. They are gaining the knowledge by experience under the leadership of Mr. Homann that will be useful to themselves and to their community as long as they live.

We are indebted to Master Dell Bannowsky for the above list. If there should be others we would be glad to have their names as it is our intention to visit these boys and note the progress made. There is no greater and more useful branch of science being taught than that which Mr. Homann is engaged in and let me note one thing in line with this work: fatten a calf and follow that calf with a pig and note the good results. It will pay well.

M. M. Nelson was in town Saturday. He gets about fine. Uncle Tol Amberson is not feeling so well for the last few days, but when the weather clears up we hope he will feel better.

M. C. Reese was seen on our streets last week. It seems good to see "Cot" come to London. He ought to come often. Our High School football team was much disappointed Saturday when Rocksprings wired Coach Morrison and informed him the game between Rocksprings and London was cancelled because of the bad weather. This was a disappointment to all. It left the entire board of teachers and all the larger pupils all dressed up with no place to go. The entire community felt the disappointment as we felt sure of victory for our boys. With the support of the school and community all set on victory they would have brought it back.

The continued fine rains are the cause of great joy, though the rains came to us late it will save our people many thousands of dollars in feed. To some it means another fine feed crop from the old stubble, to others it means an opportunity to now sow small grain with an assurance of a good stand and to still others who used the better judgment and put their seed in the ground just after the earlier showers it means early grazing for their stock. Mr. W. L. Kothmann has 130 acres of oats, rye and wheat now growing. Mr. O. D. Price also has quite an acreage sown to small grain and probably others who have their small grain up and grow-

ing, but the majority have their seed and ready to plant as soon as the weather clears away.

Monday, the 6th, many have gone to the river to see the old Llano on another rampage and they estimate the rise to be from 20 to 35 feet. What a pity we have no way to conserve this flood water and utilize it for irrigation purposes. Talk about California, I have been in that state when nothing but sage brush would grow around Los Angeles, and now Los Angeles is the play ground of the civilized world. What did it? They put in an irrigation system and conserved the flood waters of the mountain streams which cost them possibly \$20 to where it would cost \$1 to conserve the flood waters of the Llanos and their tributaries, but it would take money and labor to do it.

Our school is the just pride of our community and is moving just right. There is perfect co-operation with faculty and good co-operation with trustees and the community backing up both teachers and trustees. This is as it should be. The only consideration should be for the success of the school. All personalities and personal preferences should be kept in the background and the interest of the school kept to the forefront all the time. This can be nothing less than the most successful term ever taught at London.

Campbell Soups, after advertising for years in magazines exclusively, started in January to use newspaper space. In the twelve months just past they sold 48,500,000 more cans of soup than in the preceding year, in spite of existing business conditions, or a gain in dollars of between four and five million.

In the work season the farm horse should eat only at regular intervals. He needs concentrates to supply the energy for hard work. Feed large amounts of roughages only in periods of rest. Excessive feeding of hay is wasteful; it is expensive, reduces the horse's efficiency, and may cause respiratory troubles.

Last year the accidental death toll reached a new high record of 97,000, as compared with 95,086 in 1929, according to the National Safety Council. This increase was due entirely to the automobile, which claimed 31,000, 3,000 more than in 1928. All other causes of death show a gradual decline.

Everybody's depending upon you to make good. Don't disappoint.

PRACTICAL JOKER FOUND DEAD BUT THAT WASN'T JOKE

Mandon, N. D.—Edward Loran was a practical joker. He often had told his brother, Ted, that he planned to play a good one on his wife—make her believe he had hanged himself.

Recently funeral arrangements were being made for Edward after his body had been found suspended from a noose in his basement. Ted Loran said his brother's body was about one-fourth of an inch off the floor. He thought Edward had misjudged the length of the rope.

Rain Provides Season For All Small Grain Crops

Punctuation is Systematized by Venetian Printer

Punctuation has become so valuable that it is hard to conceive how difficult it must have been to read without any. Yet it was not till the fifteenth and sixteenth century that punctuation became systematized through the ingenuity of Aldus Manutius, a Venetian printer.

In all the early manuscripts no break or punctuation is found between the words, sentences and paragraphs. One can only faintly imagine what a hard time ancient readers had to decipher their long scrolls. At that time it must have been as much of a guessing game to read a simple story as it is to work out some twisted puzzle today. It is a generally accepted idea that all manuscript without punctuation marks of any kind were written before the eighth century, though the first attempt of punctuation of any kind is found in the Alexandrian manuscripts of the fourth century. These are simple marks to indicate paragraphs. Manuscripts having no capitals or other divisions of letters or words are always very old; usually the fewer and easier the punctuation marks, the older the manuscript.

Gradually after the fourth century a sort of plan was worked out, which is really part of the foundation on which present-day punctuation is founded. First a circle was made for a full stop, having somewhat the semblance of our present-day period and standing for the same mark. At the same time a dot was used high above the line for a lesser thought or shorter pause, somewhat like the semicolon we use today. A dot midway above the line indicated a slight break. For a while this system was used by the Latins, especially by scholars, but it was never systematized or used extensively. The more intelligent people were quick to see the advantages of punctuation, and constant attempts were made until Manutius established his system.

Since then many variations and reforms have made in punctuation and still are continually being made, but the system as it exists in all modern languages is based on the scheme first originated by the Venetian printer.

Tells Men Over 50 What They Should Weigh

A famous British Physician—Specialist in Obesity—gives these as the normal weights for men over 50.

5 feet 5 inches	149 pounds
5 feet 6 inches	153 pounds
5 feet 7 inches	157 pounds
5 feet 8 inches	162 pounds

Weights include ordinary indoor clothing. Get on the scales and see if you are overweight and how much.

The modern way to take off fat is known as the Kruschen Method—and is well worth a four weeks trial.

Cut out pies, cakes, pastry and ice cream for 4 weeks, go light on potatoes, butter, cheese, cream and sugar—eat moderately of lean meat, chicken, fish, salads, green vegetables and fruit—take one-half teaspoon of Kruschen Salts in a glass of hot water every morning before breakfast—don't miss a morning.

An 85 cent bottle of Kruschen lasts 5 weeks. Get it at Heyman Drug Store or any drug store in the world.

LEVE LEANS LEANER

Junction Tailor Shop

With the present planting season well embedded in the soil many are enthusiastic over planting small grain for grazing purposes, also a small grain crop next spring.

County Agent R. E. Homann advises that a careful consideration should be given kind of seed, treatment of seed for smut and rust and preparation of seed bed.

If land has been in cultivation and row crops planted, seeding between the rows, allowing the cotton stalks or grain sorghum stubble to aid in holding the soil and furnishing protection, is a good method. Small grain requires a semi firm seed bed and on Kible County lands should be rolled or packed after seeding.

If land is in no state of preparation, disking with a disc harrow four inches, followed by seeder and roller makes the best seed bed. From observation made on small grain plots last year rye and barley afford the best grazing crops in this county, followed by wheat and then oats. Rye is a poverty crop and will do better on poor soil. It's heavy stouling out qualities and long grazing periods with the abundance of protein make it a valuable crop.

Ordinary oat seed is planted it should be treated for smut and rust with formaldehyde. Seed thus treated insures a surer germination and yield. A more desirable and salable and edible feed.

Varieties best adapted to this country are Nortex, Red Rust Proof, and Hundred Bushel.

See your county agent if you are interest in sowing small grain.

Endowment of \$200,000,000 for the University of Texas from its oil royalties and bonuses alone is predicted within forty years by the Land Commissioner. In a little more than seven years it has received over \$13,000,000 from this source.

EL PASOAN DROWNS

(Continued from page 1)
day noon. The rain fell slowly allowing the dry ground to soak it all up.

Ranchers Lose Stock
Tuesday morning scattered reports of loss of livestock when the rivers went out of banks began coming into town. Mr. and Mrs. Jack Turner are reported to have lost 80 head of registered nannies, 20 head of ewes and one registered buck ram. E. L. Smith stated he lost one registered buck valued at \$25. W. R. Eckert is reported to have lost 60 ewes; Jeff Chapman is reported to have lost 200 sheep, and other ranchmen report some losses.

With the exception of the loss of some livestock, which was not great, very little damage was done by the rain. It was a slow falling rain, unaccompanied by wind.

A pecan gatherer from Abilene who was camped on the Main Llano a mile below Junction lost his tent and possessions which were valued at four hundred dollars.

Rain Worth Millions

The value of the rain to Kimble County is beyond estimation. It put a season in the ground that will make small grain, and provide moisture for pasture lands which will produce good grazing before cold weather sets in. And lastly, it washed out the rivers, which will make the fishing good again.

County News

LITTLE SALINE SAVINGS

Everyone is proud of the rain we had last week-end.

The best estimate we had of the rain we had about 7 inches. Sowing grain will be the cry for a few days.

Mr. Hugo Reichnau worked Friday and Saturday at the school house, building a sand table for the primary room, and

Society

Mrs. A. W. Loeffler, Society Editor—Phone 138

LEONA MAE ALLEN IS HONORED WITH PARTY

Mr. and Mrs. W. L. Allen complimented their little daughter, Leona Mae, with a party in honor of her birthday Tuesday evening at their residence.

The house was decorated with cut flowers and hanging baskets of artificial sweet peas.

Amusing games were enjoyed during the evening.

The pink and white birthday cake was iced in white and was crowned with 4 pink candles. Pink and white ice cream were served to the following:

Robert Taylor, Albert Dunbar, Louise Bowers, Anna Bell Becker, Jewel Marie Parker, Audrey Borden, Myrtle House, Charles Taylor, Oma Mae Fish, Silva Taylor, Anna Amelia Jetton, Tunney Wood, Marguerite Hendricks and Mesdames Chas. Taylor, Lydia Dunbar, C. W. Turner, Andrew Wood and Miss Louise Turner.

CELEBRATES BIRTHDAY

Wednesday afternoon Mrs. Roy Reynolds complimented her little son, Roy, Jr., with a birthday party.

The happy little folk played games on the lawn and much merriment was aroused by the costumes, as each child wore a clown suit.

Cookies, lollipops and soda pop were served. The pretty birthday cake was iced in pink

and proudly bore five pink candles.

Those present were Ruth and Mary Kathleen Hodges, Janice Loeffler, Maurine Jones, Elizabeth Crofoot, Helen Hardin, Amelia Jetton, Edwina Lowgren, Hilda Henderson, Billy Don Jordan, George Crofoot, Bobby Earl Maddux, Milton Powell, Ennis Terry, R. V. Ball, Carl Edward Amick and Goree Durst.

There was a storm party at Miss Vada Spruells Friday night. Everyone enjoyed themselves.

Messrs. H. C. and Elgin Reichnau visited Mr. and Mrs. Dock D'Spain last week.

Miss Lorene Pool, Radie Walker and Claud Baker attended the picture show at Junction Saturday night.

IVY ECHOES

An old time rain began falling in this part of Kimble County last Friday and continued thru Saturday, Sunday and until Monday morning. When the elements lifted Monday, the entire country was once more water-soaked and the old Llano River was carrying a twenty-five foot rise—a sight to behold. The river, at the mouth of Red Creek, was so wide as to totally obscure the bluff at the mouth of the creek. Observers say that the river was higher than it has been for sixteen years.

Blix and Raymond Smith enrolled in school last week.

Our student body is hard at work and judging from the way the classes are "digging" we have reason to believe that this will be our banner year.

Thirty-five pupils have enrolled in school up to this time. We shall enroll others when school resumes again.

Weekly Motto: "Beyond the Alps, lies Italy."

Mr. and Mrs. Tatum Honor Little Club

Mr. and Mrs. Rudolph Tatum entertained the members of the Little Club and a few friends Wednesday evening at their home.

Mr. and Mrs. Irvin Jarvis made high score in the bridge games and were rewarded with a handsome vase of Willer pottery. The second prize, a Hall's teapot, went to Mr. and Mrs. J. A. Thompson. Mr. and Mrs. Vann Martin made low score and received a blue pitcher.

Fruit salad in cracker baskets, which were tied with pink, yellow, blue and green ribbons, was served with sandwiches, olives, cookies and coffee.

Those present were Mr. and Mrs. Pierce Hoggett, Mr. and Mrs. J. A. Thompson, Mr. and Mrs. Irvin Jarvis, Dr. and Mrs. L. E. Standifer, Mr. and Mrs. Vann Martin, Mrs. Dorothy Westmoreland, Messrs. Dillard Motley and Doeboy Taylor.

and proudly bore five pink candles.

Those present were Ruth and Mary Kathleen Hodges, Janice Loeffler, Maurine Jones, Elizabeth Crofoot, Helen Hardin, Amelia Jetton, Edwina Lowgren, Hilda Henderson, Billy Don Jordan, George Crofoot, Bobby Earl Maddux, Milton Powell, Ennis Terry, R. V. Ball, Carl Edward Amick and Goree Durst.

Sunday at Our Churches

Invitation Extended By Church of Christ

All of the regular services of the Church of Christ will be held Sunday, and a cordial invitation is offered to all visitors, according to the Elder J. S. Newman, pastor.

Bible Classes will meet at 10 o'clock Sunday morning, and preaching will be at 11. Evening service will start at 7:45 o'clock this week.

Full Gospel Services To Be Held at Theater

Services of the Full Gospel Church will be held in the Texan Theater Friday evening at 7:45 o'clock and Sunday morning at 10 o'clock. The Sunday evening service will start at 7:45 p. m. The Rev. Chauncey Merwin will do the preaching.

Friday evening will be a Divine Healing Service, the subject of the sermon being, "Is Divine Healing for Today?" Scriptural basis for the sermon will be given, stated the Rev. Merwin. Everyone is invited to attend these services.

Presbyterians Will Meet With Methodists

OUR INVITATION—To you who would worship God, our Father; to you who would serve mankind, our brothers; to you who yearn for greater strength; to you who seek a broader vis-

ion; to you who desire forgiveness from sin, comfort in sorrow, victory over failure, and joy in living, in the name of Jesus Christ, our Saviour and Friend, we extend our cordial INVITATION. Sunday School will meet at 10 a. m.

Three will be morning worship at 11 a. m. and evening worship at 7:30 p. m. in the auditorium of the Methodist Church.

District League Rally Good Despite Weather

The revival now in progress under the auspices of the Presbyterian and Methodist Churches has met with good attention and interest. Services will be held each night this week at 7:30, and all are invited. Prayer services for men and for the young people are being held at 7:15. Don't fail to attend these services.

The District League Rally was held Saturday and Sunday, and in spite of adverse weather conditions proved a splendid success. Only a few out-of-town delegates attended, but the local young people turned out in good force. On Saturday evening, after organization, a social meeting was held in the old church auditorium which was well attended and greatly enjoyed. At 6:30 a. m. a good number of Leaguers met at the church for a service, after which breakfast was served in the old auditorium. The messages

of Rev. Bolton Boone, District Secretary of the Epworth League at the morning and evening services were greatly appreciated.

With the approach of Conference every member of the church is urged to show your loyalty by doing your full part in bringing the year's work to a creditable close.

Remember the services Sunday. Prepare for them by attending the revival meeting every night.

"Husks or Ham," Is Subject for Sunday At Gospel Services

The Sunday morning service of the Full Gospel Church which will be held at the Texan Theater at 10 o'clock will be based on the topic, "Where and What is the Holy Spirit?" This is a service especially for Christian people who wish to live a victorious Christian Life, stated Rev. Chauncey Merwin.

Sunday night the subject of the sermon will be "Husks or Ham." This will be a great evangelistic service. There will be special music at every service. Come and get acquainted with Jesus, the Christ. "No Creed but Christ; No Law but Love."

No Services Baptist Church Sunday Night

All regular services will be held at the Baptist Church Sunday with the exception of the evening service which will be dismissed for the Presbyterian-Methodist revival at the Methodist Church.

Go to Church Sunday.

"This New Home Comfort Rate Makes Electric Refrigeration Even Cheaper"

"You've more than likely wanted one of the modern Electric Refrigerators but have hesitated because of operating costs. Let me explain how cheaply you can use electric refrigeration under the schedule of the new Home Comfort rate.

"The average five-room house without an electric refrigerator, electric range, or water heater uses most of the service included on the initial and second rates, so you would simply connect the electric refrigerator on the lighting circuit, use the one meter, and practically all of the additional service for refrigerator or other use would be recorded on the new low rate of 4c per kilowatt-hour—3c where service is also used for heating or cooking. This means that you could use an electric refrigerator at about one-third the initial rate.

Many other appliances will be just as economical to operate. I'm going to explain some more for you next week."

And Remember—You can make your own average rate

Initial rate 12¢
2nd rate 7¢
Low rate 4¢-3¢

It Isn't Just Luck

THE extra money you make on wool isn't just a matter of luck. Growing good wool and keeping it clean are the things that make your wool worth more. Breeding, feeding and the care of the flock are the big factors that count most of all in determining the quality of the wool you grow. All these factors are in your hands. Here are a few "do" or "don't" points that will help make your wool worth more:

- 1 Use heavy-fleeced rams of the same breeding year after year to grade up the flock. Remember, every lamb born carries half the quality of the ram. Have ewes all alike with the same kind of wool. Their fleece will sell better.
- 2 The wool of underfed, wormy or unthrifty sheep has a weak place or "break" in it. Keep sheep free from parasites and feed a balanced ration.
- 3 Shear sheep as soon as the weather is warm in spring. The wool is cleaner and is worth more. Another thing, lambs can nurse better, too, if the ewes are free of their fleeces.
- 4 Power shearing is preferred to hand shearing as the hand shears often make second cuts in the wool.
- 5 Avoid scattering hay on backs of sheep. Chaff getting into the wool spoils the quality of the wool.
- 6 In storing wool, keep it in a dry, clean place.

Sheep Cubes for Sheep on Range or in the Feed Lot

Think of cottonseed meal, linseed meal and blackstrap molasses—the three best sheep feeds on earth—blended with other essential ingredients and pressed into cubes one-half inch in size! Isn't that a real feed for sheep? Yes, indeed! and that's exactly what Purina Sheep Cubes are.

Purina Sheep Cubes are easy to handle. You can feed them on the ground or in the trough without waste. Sheep take to them. The molasses in the cubes makes sheep plenty of water. Every ingredient in Sheep Cubes has a definite job to do in helping you to make more money from your sheep.

ONLY RUSSIAN FORT IN UNITED STATES

For thirty years Fort Ross in Northern California was a Russian outpost that threatened the Spanish possessions of what is now the Redwood Empire resort lands of San Franciscans. It was established in 1806 by Count Rezanov and garrisoned by 250 men. The photo shows the Greek Chapel and a corner of the stockade heavily built of enduring redwood.

Pig Sty Bank Proves Unsafe Depository, Farmer Learns

The money of a modern Silas Marner was resting securely in the Wharton Bank and Trust Company Monday, the two youths who confessed to stealing the money were resting in the Wharton jail and their victim was resting contentedly on his farm near Hungerford.

Mat Hejl, Hungarian Wharton County farmer, who is approaching his 100th birthday, always had been afraid of banks and he was in the habit of depositing his money in tin cans buried near his pig sty. He had deposited \$7,300 and an undetermined amount of negotiable papers in the pig sty bank, and liked to dig up his money now and then and fondle it.

He went out to his pig sty June 12 and found that his money was gone. He notified county officials and as no results had been obtained after a month he notified W. F. Seifert, manager of the William

J. Burns Detective Agency at Houston, which is representative of the American Bankers' Association, the members of which Hejl had always looked upon dubiously.

Last week the agency got confessions from two neighboring farm boys to the effect that they had robbed the old man's pig sty bank.

The two youths were lodged in the Wharton jail. No charges have been filed yet. Mr. Seifert had the \$6,560 which was recovered deposited in the Wharton bank. The youths said they had spent the remaining \$740.

They said that when they took the money they divided it, placed it in two tin cans and hid the cans in a sorghum patch.

And there the detective agency's investigators found the tin cans containing the \$6,560 nestling 20 feet apart among the sorghum stalks.—Wharton Spec-tator.

Marriages Decrease While Divorces Increase in 1929

During 1929 there were 63,173 marriages performed in the State of Texas, according to figures compiled by the Department of Commerce. In 1928 there were 76,340 marriages, which represents a decrease of 13,167 or 17.2 per cent. This decrease is due largely to the change in marriage laws, which went into effect June 12, 1929, requiring three days' notice to be given before the issuance of a marriage license. In 1916 there were 54,103 marriages performed.

Divorces issued in 1929 totalled 18,386, as compared to 18,073 in 1928, representing an increase of 313 or 1.7 per cent.

In the past fourteen years the number of divorces has nearly trebled. In 1916 there were only 8,504 divorces granted in Texas.

Kimble County was one of the eight counties in Texas where no divorces were granted during 1929. In 1928 one divorce was granted in this county. There were 45 marriages performed in Kimble County during 1929 and there were 31 performed in 1928.

The county issuing the most divorces during the past year was Dallas County with 2,064. Harris County was a close second with 2,038.

Population in 24 Counties of West Texas Show Gain

Six Register Hike Of More Than 100 Per Cent With Crane In Lead

The population of 24 counties in this section in agriculture, ranching and oil areas, lacked only a fraction of increasing 50 per cent during the last ten years, bureau of census figures show.

The total population of the state is 5,821,272, an increase of 24.8 per cent since 1920 when the population was 4,663,228.

With an increase of 62,935 persons, the difference between the 1920 total of 128,222 and the 1930 figures of 191,157 the per cent gain in the 24 West Texas counties is exactly 49.08.

Six counties of the 24 registered a gain of more than 100 per cent. Those doubling their 1920 population, in order of their proportional gains, are Crane, Upton, Reagan, Tom Green, Glasscock and Pecos.

Other counties in the section which grew at greater than the average 50 per cent rate were Crockett, Schleicher, Sutton and Terrell. The growth in Concho, Irion, Menard and Sterling was at a ratio greater than that of the state.

The greatest numerical gain was made by Tom Green county, which has 20,819 more persons than it had ten years ago. Others making increases amounting to more than 3,000 were Upton, with an increase of 5,713; Coleman, with 4,855; Runnels, with 4,747; and Pecos, with 3,956. Val Verde and McCulloch counties came near the 3,000 mark in their numerical gains.

The smallest county in the 24-county area is Glasscock. Figures on each of the 24 for 1930 and 1920:

County	1930	1920	%
Brewster	6,619	4,822	37.3
Coke	5,253	4,557	15.3
Coleman	23,660	18,805	25.8
Concho	7,645	5,847	30.8

Man Breaks Leg; Loses Only One Hour From Work

Saturday afternoon about 4 o'clock Pat Tillery, while handling a bale of cotton, accidentally broke one of his legs. The Harvey Gin Co. truck being on the yard at the time, rushed the injured man to the emergency hospital at Demmer's blacksmith shop where Mr. Demmer with the ease of much experience in his profession, soon had the broken limb set. Mr. Tillery stood the treatment OK and inside an hour was back on the job looking for more cotton. It was his wooden leg which was broken.—Ballinger Ledger.

WIFE WAS NON-KISSER Husband Files Suit For Divorce After 17 Years

Charging that his wife never kissed him in their 17 years of married life and finally deserted him in 1928, Harrison M. Conover of Passaic, New Jersey, filed suit for divorce.

She owned two police clubs which she took delight in brandishing when ordering him about, he charges.

Tea Time in London

Any time is tea time to the Londoner, but around four and five o'clock in the afternoon is conventional. Our ordinary conception of an Englander pictures him crouching behind a cup of steaming tea, which may be either Chinese or Indian blend. And this tea complex which overhangs our idea of Englishmen, is one of our "Continental ideas" that isn't far wrong. On all the trains in England, the Britisher is served his tea; at the railway stations it is ready for him, in fact every path frequented by him is provided with a tea room.

But the most interesting experience I had with this leaf habit, was at one of the championship Cricket games between England and Australia. It was a close game and interesting to the Englishmen. Aside from it being a crucial game in the series, it was a thriller. The game was at its height of progress. Four o'clock arrived and play ceased. Both teams retired and the stands began to empty. The game had been stopped for half an hour so everyone could go to tea. I found out afterward that this was a regular custom—the game stops for the cup of tea.

To be in London without friends is one of the greatest calamities that can befall a man. A stranger in this big city is a real stranger. One of the first impressions a new comer in the country gets is that the people are haughty, arrogant and full of "ego." I rode from Folkestone, England, to London, a distance of about 80 miles, in a compartment on a train which was shared by five women and two men, and from the time the train pulled out of the station at Folkestone until it drew to a stop in Victoria Station in London not one word of the King's English was uttered. That El Paso editor that wanted to wager that a woman could not keep from talking four hours, did not reckon with the English lady who has not been introduced.

In London, Westminster Abbey is one of the chief interests to tourists. Besides being one of the most beautiful cathedrals in England from the architectural standpoint, it has served as the burial place of many of England's most illustrious sons. In the nave of the cathedral is the Tomb of the British Unknown Soldier. In the transept, you may stand and gaze on the tombs of such men as Robert Browning, Thomas Hardy, Tennyson, Dr. Samuel Johnson and David Garrick. Going into the Royal burial

place in the cathedral you can see the elaborate tombs of Queen Elizabeth, Queen Victoria, Henry III and Henry IV, the Black Prince, Mary, Queen of Scots and other members of the royal family.

There is the Stone of Scone, brought from Scotland hundreds of years ago and used in the coronation of kings and queens since that time. It is a dark stone attached to an old wooden chair. Every time a new ruler is crowned, the chair is moved into the main part of the cathedral and is used as the coronation chair.

Theaters play a large part in the lives of the Londoners, and they take them seriously. Every evening, hours before the performance begins, long lines of people form in front of the doors waiting for tickets. Sometimes the lines extend two blocks away from the theater. Windsor Castle, one of the lavish homes of English royalty, is another show place in England. Situated on the River Thames, with its high walls and fortresses overlooking the river, it is an impressive sight. An atmosphere of luxury and wealth pervades the entire palace and grounds. It is not elaborate and especially showy as French palaces, but typically English, cold and stately.

English countryside are pretty. They remind you of miniature golf courses. Everything is little, even the streams are narrow winding little affairs, that nearly get lost in the little woody sections. Hedge rows border each side of the public roads, and wild roses spread over the hedges. The fields and the meadows are small. All the farms are well kept though because no man has more land than he can care for.

And then everybody that goes to England makes a trip to Oxford and visits the Oxford University, and goes away greatly impressed. The antiquity of the buildings, their beauty and history especially impress the American youth who learned to respect and love traditions of his college back home which were at least fifty years old. There are twenty-six colleges in the group, four of them being for women.

Over-population, obstinacy of the big business men and the world-wide business depression has placed England among the nations with a serious unemployment situation, and the future for England now is not bright. England, however, is now, as she has always been, a nation to reckon with and to respect.

Museum Treasures Bill of Sale By Billy the Kid

Document Is For Sale Of A Horse To Doctor H. F. Hoyt

Canyon, Texas.—Visitors to the museum of the Panhandle Plains Historical Society can, if they are curious to see a bill of sale written by the famous outlaw, William H. Bonney, better known as Billy the Kid. The bill of sale was for a horse and was made to Doctor H. F. Hoyt, who was a resident of old Tascosa during the days when it was the most popular town in the Panhandle.

It is said that this specimen of hand writing of Billy the Kid is one of the only two in existence. When Billy the Kid was slain at the age of 22 years, he was supposed to have killed 24 men. All of this took place in what was known as the Lincoln County War. Effects of it were felt throughout New Mexico and in the Western part of the Panhandle.

With the bill of sale is a copy of what is said to be the only picture of William F. Bonney in existence. This copy was also once the property of Dr. Hoyt.

A photograph of Dr. Hoyt, author of the Frontier Doctor, has also been deposited with the Society.

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC.
Required by the Act of Congress of August 24, 1912.
of The Junction Publishing Company, published weekly at Junction, Texas, for October 1, 1930.

Bottom Lands Should Produce Good Yields

Alfalfa, yellow and white blooming sweet clover, Black Medic and the vetches are permanent legume crops which are all adapted to this section of the country. Now is the time to plant these crops along with a small grain crop as a nurse crop for the cold weather. Legume crops planted now will produce a heavy root system and will be ready for heavy pasturage or cutting beginning in March.

The clovers mentioned are very drought resistant and deep rooted and once established can be depended on with only a very little rainfall.

County Agent Homann recommends these crops on heavy bottom land or on semi-subsurface irrigated lands such as found along the river bottoms. These crops, however, will produce heavy yields on swags and hill sides of the upland farms. All legume crops should be inoculated with Nitragin, an artificially prepared nitrogen bacteria culture, which insures an abundant supply of nitrogen from the air. Remember that legume crops are the only crops that have the ability to draw of the air plant food and convert into growth. Lands planted to these crops are greatly enriched and soil is saved by their heavy turving qualities. Try an acre of small grain and one of the above legume crops on your place this year. It is the cheapest and best feed you can buy.

Loses Eyes in Two Separate Accidents

Two successive accidents, coming within a few months of each other, have left J. J. Minatra, farmer living in the outskirts of Ennis, totally blind. Several months ago Mr. Minatra lost the sight of his left eye when a cow hooked him, and last Friday he lost the sight of the other eye when a can of concentrated lye was overturned and spilled in his eye. Mr. Minatra was doing some repair work about his place and when he reached on top of a high shelf for a square, he knocked over the can of lye, which was uncovered.

Junction Trade Notes

(By G. G. Co.)

An agricultural expert estimates the recent drouth added \$500,000,000 to the value of American farm crops and livestock. If that is true, the breaking of the drouth added several billions to the assets of the farmer and ranchman. . . . The week-end rain added conservatively 2c a lb. to the value of every sheep, goat and cow in the range country. . . . M. Reese, in town Thursday after being waterbound several days, said he never needed rain more and never saw a nicer rain fall. . . . High water records were recorded in some places. Copperas Creek was higher than ever known, according to Sayers Farmer who has lived his lifetime there. Frank Remboldt is quoted as saying Johnson Fork was higher than ever known.

In stock, by last of week: Seed wheat, barley, rye and oats. **Gann Grocery Company.**

The first sale of fall wool is reported in Crockett County, two clips selling at 20c and 20 1/2 cents. . . . And an encouraging feature of the Boston market is the request for immediate delivery of wool purchases, as mills are reported to be running at better rate than for some time. . . . The vice-president of Marshall Field & Co. is quoted as saying "distress merchandise" has practically disappeared and that manufacturers are already late in deliveries because of shortage of raw materials.

With the open vegetable season nearing its close, people will turn to canned vegetables. A distinguished health authority says the idea prevailing that canned foods do not contain the vitamin content of fresh vegetables is not true, with present advanced methods of canning. New-pack spinach (considerably cheaper than heretofore), turnip greens, green beans, asparagus, black-eye peas, beets, corn, etc., now in stock. **Gann Grocery Company.**

G. A. Davey of the Watson Divide returned home Saturday after enjoying a vacation in San Antonio and elsewhere. . . . Mrs. H. F. Bossman of the popular V-Bar-H ranch has gone to Dallas for a vacation. . . . Mrs. R. L. Autrey has returned to Houston after enjoying vacation at the beautiful Awtrey-Lewis home fronting South Llano. . . . George G. Murray and children came from San Antonio for an enjoyable week-end in Junction, as they frequently do.

New packages in stock: Fresh prunes and fresh Figs, in tins; the new 3-Minute Oatmeal, with attractive china.

Gann Grocery Company

"Everybody's Store."

Mr. J. W. Coffey of Harper called at the Eagle office last Saturday and renewed his subscription to the Eagle. He was accompanied by H. A. Walker of Yates and J. W. Walker of London.

Mr. and Mrs. J. A. Heyman received notice this week that their son, Dr. J. A. Heyman, Jr., of Wichita Falls had been elected a member of the American College of Physicians and Surgeons and would leave soon for Philadelphia to receive his degree. Dr. Heyman's friends of Junction will be glad to learn of the distinction achieved by him.

Mr. Joe A. Harris, a former citizen of Kimble County but now living in Cincinnati, was a business visitor in Junction this week.

POSTED

Land owned by Mrs. John S. Durst is posted. Pecan gatherers will be prosecuted if caught. **Mrs. John S. Durst.**

"Man," says a scientist, is not advancing alone; the vegetable kingdom strives constantly for improvement. Doubtless all cucumber vines hope their children will be watermelons.

One factor in the nobility of the business man is his supreme faith in human progress.

THANK YOU, FIREMEN

From the depths of my heart I thank Chief Hankins and the faithful members of the Junction Volunteer Fire Department for the honor bestowed upon me by electing me as an honorary life member of the department. I have been interested in the good work you have been doing and shall continue to render such service as I am able to do. There is no more important service organization in the city than the fire department and I have watched with interest and assisted unselfishly your every movement to render service to the community. Again I thank you for the honor bestowed on me and I shall try to prove worthy of your confidence.

Sincerely yours,
T. B. Phillips.

God doesn't owe you anything, but you owe it to him to help yourself all you can.

Sale of Fords Maintains Lead Through August

Registrations of Ford cars and trucks during the month of August in Wayne County, Michigan, in which Detroit is located, again led all other makes by a large margin. The Ford total for passenger cars was 1,668, as compared with 455 for the next nearest. The Ford percentage of the total was 52 per cent as compared with 14.2 per cent for the next nearest. For Model AA Trucks registrations totaled 141 as against 44 for the next nearest.

Incomplete registration figures for all cars during August in all the States in the Union show Ford first with a total of 28,485 his nearest competitor shows 18,285, the next nearest or third in the race shows 4,972, fourth in the race shows 2,719. These figures give Ford a lead over his nearest competitor of 10,200 cars.

Registrations for Texas for the month of August show Ford 3640 and the next nearest 2573, a difference in favor of Ford of 1067.

There IS a REASON. If you are thinking of buying a new car or truck be sure and investigate the new Ford. Remember we are at your service and a demonstration costs you NOTHING.

for three years, will be cashier of the company here.

The new management will attempt to render good service to telephone users in Junction. The company has made many improvements in Junction and territory recently and have been endeavoring to improve the service on the rural lines as well as in Junction.

THANKSGIVING SERVICE

A 45-minute thanksgiving and praise service will be held in the Texan Theater Friday night to thank the Lord for the wonderful rains received in Kimble County. This service will begin at 7:30. Short talks will be made by Mayor T. B. Phillips and the Rev. Chauncey Merwin. Special songs will be rendered. This service as a whole will be a part of the full gospel service held Friday night. Everybody is invited to be present at

this special thanksgiving service. Your committee feels that we have much to thank the Lord for, because of the won-

derful rain the county has received. **Mesdames Walter Richardson, Earl Patterson and W. S. Pearce.**

Plant Small Grain Now!

That good rain we have been looking for has come and the ground has sufficient moisture to plant any and all seasonable grain. Wheat, Oats, Rye and Barley planted now will furnish pasture before many weeks. The short range makes it imperative that small grain be planted to supplement the range this winter.

Land that will be planted to other crops in the spring should be planted in rye which makes a fine winter cover crop and turned under in the spring makes good fertilizer.

County Agent R. E. Homann will be glad to confer with our farmers and ranchmen about the best grains to sow in Kimble County and the amount to sow per acre.

Junction State Bank and Junction Cattle Loan Co.
