"For Forty-One Years a Builder in Collingsworth County"

VOLUME XLII

Wellington, Collingsworth County, Texas, Thursday, March 29, 1951

Number 39

## J. A. Richerson, Retired Farmer, Dies Tuesday

J. A. Richerson, 88, prominent retired farmer and resident of the county for the past 33 years, died Tuesday morning, March 27, at 3:00 a. m., after a serious illness of several weeks.

Upon first coming to the county, Mr. Richerson and his family lived in the Fresno community, where he was active in the affairs of that section. Upon his retirement from farming, they moved to their present family home, near the southwest corner of the town section.

Funeral services were held at the First Methodist Church Wednesday afternoon at 3:00 p. m., with the Rev. H. E. Long, pastor of the Wellington Methodist Circuit, and the Rev. L. L. Hill of the Wellington church in charge. Burial was in the Wellington cemetery under the direction of the Kelo Funeral Home.

Pall bearers were C. C. Goodwin, Jr., Bob Huckabay, Raymond Ford, N. N. Newton, Frank Falk, Virgil Weatherly, James Murphy and Sam Privity. Flower bearers were Mrs. C. C. Goodwin Jr., Mrs. Bob Huckabay, Mrs. James Murphy, Mrs. Sam Privity, Mrs. Virgil Weatherly, Mrs. Raymond Ford, Mrs. T. D. Arnold, Mrs. Velma Hylton, and Mrs. Shey Hoffman.

In addition to music by the choir, L. B. Bratten sang "The Lord's Prayer" and "The Holy City." James Alfred Richerson was born November 1, 1862, at Shelbyville, Tenn., and was named for his father. At the time of his death he was 88 years, 4 months and 27 days of age.

Mr. and Mrs. Richerson were married September 12, 1886, at Cleburne. Later they moved to Hall County, where they resided until moving to the Fresno area. Mr. Richerson became a member of the Fresno Methodist Church in 1918, and his membership was there at the time of his death.

Surviving Mr. Richerson are six daughters, Mrs. Hayden Williams and Miss Lola Faye Richerson of Wellington; Mrs. J. H. Weatherly of Carey; Mrs. W. O. Wood of Earth; Mrs. V. O. Newton of Slaton; and Mrs. W. W. Hodges of Sunnyvale, Calif.

Other survivors are a brother, J. L. Richerson, of Irving; 17 grandchildren; 17 great grandchildren and two great-great grandchildren.

His wife, three sons and three daughters preceded him in death.

HONORING THE FALLEN—As a ship bearing the first 50 American war dead to be returned to the U. S. from Korea left Yokohama recently, an honor guard stood and saluted. At center is an empty flower and flag-draped casket symbolizing all Americans who have died in the Korean War.

# Blood Typing Schedule Given Urge Co-operation of Everyone

A blood typing schedule which will cover the entire county was announced this week by Dr. Tom Hunter, chairman of the county's blood typing campaign which gets underway Monday, April 2, and will continue through Saturday, April 14.

"During this time we hope to

cover the entire county was announced this week by Dr. Tom Hunter, chairman of the county's blood typing campaign which gets underway Monday, April 2, and will continue through Saturday, April 14.

"During this time we hope to

## Baptist Revival Begins April 1 At Samnorwood

A series of revival meetings will be held at the Samnorwood First Baptist Church beginning April 1st and will continue through April 8th.

Rev. J. E. Anderson, pastor of the Victory Mission of the First Baptist Church of Amarillo will be the evangelist.

Ernest Tate, director of music of the Lutie Baptist Church, will have charge of the song services and special music.

Morning services will start at

blood type all of the approximately 4,000 eligible persons in the county—everyone between the ages of 12 and 60 years," Dr. Hunter declared.

Working with Dr. Hunter is Fred LeDerer as city chairman, and chairmen of each community in the county.

The blood typing is done by trained personnel from the Jones-Watkins Clinic and St. Joseph's Hospital, assisted by a team of two volunteer clerical workers. These latter were announced Tuesday evening by Mrs. Bill Hughes, president of St. Joseph's Hospital.

The typing unit will be set up at three points outside of Wellington, on the following schedule:

Dodson, Tuesday, April 3, 1:00 to 4:00 p. m.

Quail, Wednesday, April 4, 1:00 to 4:00 p. m.

Samnorwood, Thursday, April 5, 1:00 to 4:00 p. m.

The units will operate at the Jones-Watkins clinic, St. Joseph's Hospital, each of the schools and at a location on the square in Wellington under the following schedule:

St. Joseph's Hospital: Monday, April 2 and Friday, April 6, 2:00 to 5:00 p. m.

Jones-Watkins Clinic and St. Joseph's Hospital: Monday, Tuesday, Wednesday and Friday of both weeks, from 7:00 to 9:00 p. m.

Wellington high school: Tuesday, Wednesday, Thursday and Friday, April 10 through 13, 1:00 to 4:00 p. m.

Booker T. Washington school: Monday, April 9, 1:00 to 4:00 p. m.

Court House Square: Saturday, April 7, and if necessary, Saturday, April 14, 2:00 to 6:00 p. m.

Workers assigned by Mrs. Hughes for each day are:

Monday, April 2: St. Joseph's Hospital, 2:00 to 5:00 p. m. Mrs. Bill Hughes and Mrs. E. K. Jones.

7:00 to 9:00 p. m., Mrs. Austin O'Neil and Mrs. Jimmy Cochran.

Clinic: 7:00 to 9:00 p. m., Mrs. An-

(Continued on Page Eight)

## Funeral for Mrs. J. L. Needham Here Thursday

Mrs. J. L. Needham, a county resident for 26 years, died at her home Tuesday night, March 27, at 9:30 o'clock, after a lengthy period of ill health.

She was 78 years of age.

Funeral services will be held at the First Methodist Church in Wellington Thursday afternoon at 2:30 o'clock, with the Rev. Lester Hill in charge. Burial will be in the Wellington cemetery under the direction of the Ellis Funeral Home.

Mrs. Needham was born in Clinton County, Kentucky, May 30, 1872.

Survivors include her husband, J. L. Needham of Wellington; five children, C. S. Needham, Walter Needham and Levi Needham of Wellington; Mrs. Addie Gibson of Tula Vista, Calif.; and Mrs. Willie Dell Pollock of Greenfield, Ohio.

She was rearing a granddaughter, Ruth Rogers.

There are 31 grandchildren, 33 great grandchildren, and a brother, Amos Gollighugh of Phoenix, Arizona.

# Farmers and Business Men to Hear Noted Soil Conservationist April 5

J. C. Porter, director of the agriculture department of the First National Bank in Wichita Falls, and one of the best informed men on agriculture and soil conservation in Northwest Texas, will speak to farmers and business men of Collingsworth County in two meetings Thursday, April 5, in what will be one of the high points of farm work in the county this year.

## J. D. Aaron, 35, Dies Saturday Of Heart Attack

J. D. Aaron, 35, one of the area's prominent young livestock buyers, died suddenly at his home Saturday morning, March 24, of a heart attack. He was stricken at 9:00 o'clock, and was dead before a doctor could be summoned.

His death came as a shock throughout this section, for he had suffered no illness during his entire adult life, members of the family said. Mr. and Mrs. Aaron had returned to Wellington Friday night from a business trip to eastern Oklahoma.

John David Aaron was a native of this county. The son of Mr. and Mrs. Calvin Aaron of Wellington, he was born November 16, 1915, and at the time of his death he was 35 years, 4 months and 8 days of age. Much of his childhood was spent in the Lillie area, and he received his education in the county schools.

He was married to Miss Ruth Keller in September, 1934.

For several years, he farmed northwest of Wellington, but for a number of years he had been associated with his father in buying and selling livestock.

In this business, he had a reputation for his ability to judge livestock, and for his complete honesty and integrity in all his dealings, not only on a business plane, but

(Continued on Page Eight)

The First National Bank in Wellington working through the Extension Service, is bringing Mr. Porter here.

Two meetings are scheduled. There will be an open meeting at Quail School Thursday night, April 5, beginning at 7:30 p. m. Every farmer and business man in the county is invited and urged to attend.

A luncheon sponsored by the Rotary and Kiwanis Clubs will honor Mr. Porter Thursday at noon. Business men and farmers of the county are being invited to this.

During the afternoon, the conservationist will be taken over the county to see what Collingsworth is doing in the way of soil conservation, and what it needs to do

to keep up the fertility of its land. Mr. Porter, known throughout the North Texas area, is one of the most entertaining and inspirational speakers in the interest of soil conservation, but every sentence is full of facts and his ability to open the eyes of his listeners to agriculture problems and potentialities is widely known. Dick Wiley, president of the First National Bank, pointed out.

As guest speaker at the Rotary-Kiwanis luncheon, Mr. Porter will discuss "The Business Man's Interest in the Agriculture of the County."

At the evening meeting at Quail, he will go into the agriculture problems of the area and discuss some practices for a better and more stable agriculture in this section.

"We invite every farmer in the county to attend this meeting. You will like what Mr. Porter has to say, and this bank believes that you will get enough out of this one down-to-earth talk to put money in your pocket and add to the general prosperity of the county," Mr. Wiley said.

Woodrow Wilson, president of the Farmers Organization for the Lillie, Salt Fork, Cross Roads and Quail area, will be in charge of the meeting at Quail.

Mr. Porter has been invited to remain in Collingsworth County through Friday.

Assisting J. W. Thomas, county agent, in the arrangements, are the vocational agriculture departments of the county.

Mr. Porter is a former district conservationist for North Texas with the U. S. Soil Conservation Service. In this capacity he studied extensively and closely what is wrong with North Texas agriculture and what it needs to correct it.

He carried his efforts one step farther, into the inter-relationship of agriculture and business—the close economic connection between farmers and business men.

Recently, when the First National Bank of Wichita Falls set up its new Agriculture Department, it chose Mr. Porter to head the department.

In this work, and under his direction, the department works with all agricultural agencies and banks in a wide area through Northwest Texas to help them in developing new farming methods, more conservation and better standards of living among farm families.

Recognition has come to Mr. Porter previously. In 1949, he received from the U. S. Department of Agriculture the Meritorious Accomplishment Citation for outstanding work in soil conservation. His visit here is regarded by both business and farm leaders as one of the important soil conservation events of the year.

## Voters Name Mayor, Two Aldermen Tue.

Wellington voters will name a mayor and two members of the city council in the annual municipal election Tuesday, April 3, Mrs. Jennie Williams, city secretary, reminded this week.

This entire slate will be new, since neither Mayor Ernest Lewis nor Aldermen F. A. Hatch and Dr. J. M. Orr are asking re-election.

Two candidates are asking the place as mayor, C. R. (Monk) Leggett and L. B. Bratten.

Running for the two places on the council are Jimmie Cochran, Claude Nelson, John Coleman and Dr. Tom Hunter.

While there has been little political activity, so far, the vote is expected to be heavier than usual, since a larger number of candidates are asking office.

In the past, the poll has general-

ly run from 50 to 100 votes. The election will be held in the county court room.

The election will be held in the county court room.

SOIL SPEAKER HERE

J. C. Porter, director of the agriculture department of the First National Bank in Wichita Falls, will speak to farmers and business men of Collingsworth County in a meeting at the Quail School Thursday night, April 5, at 7:30 p. m.

He will discuss the farm problems of the area and suggest means of improvement. At noon he will address a meeting of the Rotary and Kiwanis clubs and the business and farm leaders who are their guests. Mr. Porter's visit here is sponsored by the First National Bank in Wellington.

## June Watkins Succumbs to Rare Illness

June Marie Watkins, six-year-old daughter of Dr. and Mrs. Dale Watkins, died Saturday evening, March 24, in St. Joseph's Hospital. She was suffering from a rare blood disease, spastic anemia, which was diagnosed about a month ago. Although her condition had seemed to improve from time to time, it had been serious from the beginning of her illness.

June Marie was the oldest daughter of Dr. and Mrs. Watkins and was born in Dallas December 29, 1944. Most of her life, however, was spent in Wellington, and at the time she became ill she was attending kindergarten here.

Funeral services were conducted at Our Lady of Mercy Catholic Church Monday morning, March 26, at 9:30. The Mass of the Angels was said by the Rev. Charles (Continued on Page Eight)

## County Gets .81 Inch of Moisture During March

Eighty-one hundredths of an inch of moisture has been received so far in March, as recorded in the government rain gauge at the home of J. M. Strong, and this amount is considered general over the county.

Rain Monday amounted to .48 inch on the official gauge, and reports coming from most parts of the county estimated the fall at around half an inch.

The first, and only other moisture received during the month amounted to .33 and was received on Saturday, March 10, Mr. Strong said.

## L. W. Marsh Has Eye Injury

L. W. Marsh lost the sight of one eye Thursday night, March 22, when a sliver of steel from a plow on which he was working penetrated his eyeball.

Mr. Marsh, who is employed by Darwin Nix doing deep plowing, was working near Erick, Oklahoma, and at the time of the accident was trying to remove a bearing from the plow.

An Amarillo eye specialist, to whom he was taken Friday, said the sight of the eye was destroyed and it is not yet known if it will be necessary to remove the eyeball.

Mr. Marsh is receiving treatment in Northwest Texas Hospital, Amarillo.

## Recruit Officer Here Regularly

Sgt. J. C. Gaskill, recruiting officer from Childress, will be in Wellington each Monday and Friday afternoons from 1:00 to 4:00 p. m. in the court house recruiting for the army and air force.

Anyone interested is invited to come by and talk to him, he said.

## A Civic Club Project

# Dodson Has Town Wide Clean-Up For April 5

Thursday, April 5, has been officially declared Clean-Up Day in Dodson by Mayor Howard Hunt, and when that day ends, all trash, tin cans and debris that has collected on vacant lots and alleys during the winter months is due to be removed completely.

The Clean-Up campaign is sponsored by the Dodson Civic Club, with Mrs. T. R. Whisenant as president. The Club, in addition to providing the impetus for the drive, is furnishing a driver and truck to pick up the trash.

The school children have entered the campaign by making appropriate posters to be displayed in the windows of business houses.

"It's an all out war, so if you live in Dodson, have your trash carefully gathered on April 5. It will be hauled for you free of

## Abra Oil Test Down 1,500 Feet

Drilling on the oil test in the Abra community had reached approximately 1,500 feet by the week end, W. R. Coleman of Dozier said early this week.

The test is near the northeast corner of the southeast quarter of section 75, block 22, owned by Mrs. Mettie Brown, and it is being drilled by the Superior Oil Company.

Actual drilling is being done by the Adams Contracting Company, Mr. Coleman said.

## Riders Escape As Car Overturns

Two Wellington men escaped without serious injury Sunday when the car in which they were riding overturned at the intersection of Highways 83 and 203, striking a tree and uprooting it as the vehicle flipped over.

Jack Ball Jr., driver of the 1936 Chevrolet belonging to a Mr. Isaacs, received a broken collar bone, and Harold Leach, riding with him, was shaken and bruised, Sheriff Hubert Mauldin said.

The accident occurred about 5:30 p. m. when a tire blew out as the car, traveling north, started to go round the curve into the Quail highway, Mr. Mauldin said.

Deputy Sheriff Bob Barnett, returning from Canyon, arrived at the scene a short time after the accident and conducted the investigation.

Ball was released from St. Joseph's Hospital Sunday night.

## Revival Under Way at First Christian Church

Revival services opened at the First Christian Church Sunday night, March 25, and will continue indefinitely, the Rev. Archie Gray, pastor, has announced.

Rev. Gray is in charge of the preaching, and song leaders and

singers from the various other churches of the town are helping with the singing.

Services begin at 7:45 each evening, and the public is urged to attend.

## Largest Number of Entries Expected

# Project Show Features Improved Dairy Class

While this year's Youth Project Show will be the largest and best from a standpoint, particular improvement will be noted in the dairy cattle section, J. W. Thomas, county agent, reported this week.

Altogether approximately 145 animals will be exhibited, including 40 beef calves, 80 hogs and 25 dairy animals.

Most of the dairy cattle exhibitors will come from the north part of the county, where interest in registered Jersey cattle has grown during the past few years, and where there is considerable stock of the Brampton strain.

A number of the Jerseys exhibited will be offspring of Brampton MR Oliver, brought to the county by a bull circle, who secured him from Bull and Son, Jersey breeders of Brampton, Ontario, Canada. This bull is a half brother to two cows with championship production records which have been exhibited in fairs throughout the nation during the past year.

Brampton M. R. Oliver was recently sold by the circle to J. B. Cristner, dairyman in the north part of the county.

"Competition will be keen in all classes and everyone connected with the show believes the judges

will have the most difficult time of any show held here in deciding which animals are best," Mr. Thomas said.

## Landowners Must Consent to Trapping

# County Trapper Begins Work; Operation Methods Explained

William Hamilton of Crosby County began work here March 16 as county trapper, A. J. Fires, secretary of the Coyote Trapper Association, the organization sponsoring the county trapper, has announced.

He has already set three lines of cyanide guns, about 20 miles to each line, Mr. Fires said.

Explaining how Mr. Hamilton will work, Mr. Fires said that the lines will be checked every third day for the trapper to pick up scalps and rebait the guns.

"No one has the authority to tell Mr. Hamilton where to put a cyanide gun. It's up to him to catch coyotes and he puts them where it is necessary to catch the most coyotes.

"It is too late to make a big showing in catching coyotes this year. There will be some relief, but the season when coyotes are hungriest, and most likely to take a baited cyanide gun has passed. The coyotes are hunting live meat now," Mr. Fires pointed out.

A farmer having one old coyote that catches chickens around his farm can arrange with Mr. Hamilton to come to the place during the summer, but that is the only time he will work for one individual only. This work, close in to farmsteads, will be done with steel traps, and while dogs may get caught, they won't get killed.

Any persons having suggestions concerning trapping in the county are asked to contact Mr. Fires or P. E. Starr, president of the Coy-

ote Trapper Association. In connection with the work, Mr. Fires explained the use of 1080, a deadly poison now coming into use for coyote eradication. It is already too late in the season to use the poison here, since it is put out on horsemeat in December.

So powerful is the poison that only one and one-half ounces are used for 1,000 pounds of horse meat, and only two ounces of the meat will kill a coyote.

"It is certainly an improvement over strychnine. The formula will not kill birds, although it will kill coyotes, dogs and skunks.

"The formula will not kill birds, although it will kill coyotes, dogs and skunks.

"The formula will not kill birds, although it will kill coyotes, dogs and skunks.

"The formula will not kill birds, although it will kill coyotes, dogs and skunks.

"The formula will not kill birds, although it will kill coyotes, dogs and skunks.

"The formula will not kill birds, although it will kill coyotes, dogs and skunks.

"The formula will not kill birds, although it will kill coyotes, dogs and skunks.

"The formula will not kill birds, although it will kill coyotes, dogs and skunks.

"The formula will not kill birds, although it will kill coyotes, dogs and skunks.

"The formula will not kill birds, although it will kill coyotes, dogs and skunks.

"The formula will not kill birds, although it will kill coyotes, dogs and skunks.

"The formula will not kill birds, although it will kill coyotes, dogs and skunks.

"The formula will not kill birds, although it will kill coyotes, dogs and skunks.

## Box Supper An Annual Event

# CORONATION OF QUAIL SCHOOL QUEEN PLANNED TUES. NIGHT

One of the highlights of the year for the Quail school comes Tuesday night, April 3, with the annual pie supper and coronation of the school queen, Mrs. Monty Mitchell has announced.

The program begins at 7:30 p. m. Identity of the school queen will not be revealed until the time of

her coronation. A program of music will be given in her honor, and later pies will be auctioned.

Candidates for queen are Juanita Tipton, senior class representative; Betty Duckworth, juniors; Fern Neely, sophomore; Fayteen Peoples, freshmen; and Joan Lacy, eighth grade.

## Object to Aid Civilian Defense

# CIVIL AIR PATROL NAMES INTERIM OFFICERS, URGES BLOOD BANK AID

Thirty-one members of the Wellington Civil Air Patrol Squadron met Friday evening, March 23, in the community building with commanding officer Bill Hughes presiding.

Temporary officers were ap-

pointed by Mr. Hughes to serve for the 90-day interim period, after which the permanent commanding officer will be named and he in turn will appoint a permanent staff.

(Continued on Page Eight)

### Higher Moral Standard Needed In Government

The venerable and respected Bernard M. Baruch last week wrote a letter to The Daily Oklahoman that expressed aptly what is in the mind of many.

"If they are going to control prices," he wrote, "why didn't they do it in the beginning? Why the wait-and-see policy? Everybody has lost—no one has gained. And above all we have lost some of our courage and much of our morale."

"I would like to see more of a discussion regarding higher standard of morals than our standards of living. Without the former, you cannot have the latter."

Right now, Americans are deploring the existence of conditions which the Kefauver Committee has revealed in some of the major cities across the country. They are embarrassed by them, as these criminal conditions sit in spotlight before the world.

Texans are concerned enough that their Legislative bodies have ordered a crime probe in the state.

Enough individuals are concerned enough that they are plain worried about the condition.

Essentially, almost all Americans are fine and upright citizens, although somewhat careless about their duties as collective watchdog of their government. There are few of them, taken as a whole, who do not want clean and constructive government, free from corruption of all kinds — from the five percenters to the gang leaders who betrayed the trust of the land of their adoption to the faintly pink who don't have enough realism in their makeup to know what they are talking about.

If enough of these plain common-sense Americans can make up their minds that they want their government cleaned up they can have it. But they must do more than "deplore." They must be more than "embarrassed" and "concerned." They must ask for good government—demand it—and take steps to see that they have a higher standard of morals in their national life.

This can be done. Hard work will do part of it. More attention to what is going on, both above and below the visible surface of government life will do part of it. And so will a constant remembering of Mr. Baruch's sage advice in the last two sentences of his letter above: "I would like to see more of a discussion regarding higher standard of morals than our standards of living. Without the former, you cannot have the latter."

#### A Farm Meeting For Farmers And Business Men

One of the finest things brought to the county this year in connection with trying to solve some of our farm problems is the

meeting at Quail Thursday night, April 5, sponsored by the First National Bank through the Extension Service and the Veterans Vocational Schools.

J. C. Porter, who will be the speaker, is director of the agriculture department of the First National Bank in Wichita Falls a former district conservationist with the U. S. Soil Conservation Service. He knows farming from more than one angle. He knows about it from the standpoint of conserving good soil and building up wornout land. He knows it from the business man's standpoint and how dependent the one is on the other.

The speaker is known for his pleasing way of getting a point over to a group of people, but he is also known for hard facts he puts out. He will have something to say that business men of the county and every farmer ought to hear. It is doubly important that they hear it in view of the complete dependence of this county's economy on agriculture — both farming and stock raising.

Good crops and inflation may gloss over the farm problem somewhat, but nevertheless, we have one and it is real and serious.

The bank in Wellington and that in Wichita Falls are to be commended for their recognition of a need for business to enter more actively into the agricultural economy, and for doing something about this participation.

#### Memphis Civic Suggestion

Wonder what has been done about the move to install waste paper receptacles over the business section? This movement should be pushed, as all the waste paper blowing over town is lodging in places where they certainly make an unsightly mess, and that is in a town where people want beautified — Claude Wells in The Memphis Democrat.

If you've ever been overseas you can testify that one get as drunk on water as on liquor.

Detroit may have put the nation on wheels; but Washington certainly put it on skids.

Confusing isn't it, but Chili is the hot test country in the world?

Chorus girls know the right answer to waist motion.

America's money has saved the world before, but then it wasn't done with 58c dollars.

### Other Days Familiar Names

Ten Years Ago 1941

The Ford car belonging to Mrs. George Brewer, stolen in town, was found abandoned near Wellington.

Mrs. A. C. Boverie advertised a Shetland pony for sale for \$25.

Mrs. Fred LeDerer was the new president of the 1924 Study Club. Weddings announced that week were those of Miss Lucille Priddy, of Lamesa, and Merle Walker, of Samnorwood, while Mr. and Mrs. Tolbert Painter were honored with a wedding shower.

Free lunches were planned for the colored children through the WPA cafeteria.

The county got another inch and a half of moisture.

Donald Curry, manager of White's Auto Store, moved that business to the south side of the square.

Bill McDonald, Texas Highway Department employee, received a certificate of merit for having operated a highway department truck three years without being involved.

The Quail Quails won the district basketball title. On the team were R. B. Johnson, high point man in the district finals, Harold Hammit, James Sessions, Pate Wilson.

Little Jim Tom Neeley of the Ella community returned home after several weeks in Sayre, Okla., under the care of a doctor.

Seventy Five Fort Worth Kiwanians, on a booster trip through West Texas, were guests of the local Club.

Women of the Baptist Church were observing a Week of Prayer.

George DeBora, of Samnorwood, returned after two months treatment at the Veterans Hospital in Amarillo.

Twenty Years Ago 1931

The Ritz advertised "Introducing a new Star! Marlene Dietrich the ravishing rage of two continents, and Gary Cooper in "Morocco."

Baker & Hanna Brothers advertised Peppercorn pillow cases 5 for \$1.00.

Mrs. J. H. Campbell returned after four months visit with her sister-in-law and niece, Mrs. Sallie Buchanan and Miss Mollie Buchanan in Obion, Tenn.

Miss Marie Friend and Miss Antonette Alschier went to Amarillo to attend the musical program given by Paderewski.

### C-C Membership Drive Brings Total of 104

Final count of the recent membership drive of the Chamber of Commerce showed a total of 104 new members, Mrs. Bura Handley, membership chairman, announced.

Of these 47 are business members and 57 have individual memberships. Added to the current membership of 70 businesses and 30 individuals, the new total membership is 204.

Additional new members include A & J Cleaners, Kendricks Oldsmobile, Plains Electric and Hacker and Frisbie, businesses; and J. M. Strong, Jr. and Bessie Rainier, individual members.

"During the membership drive we tried to contact everyone and invite their membership, however, if we missed you you may join by calling at the Chamber of Commerce office," Mrs. Handley said.

### SWEARINGEN

By MRS. JOHN W. MESSER

Benny Forester of Quail is visiting in the Travis McGuire home this week.

Visiting in the home of Mr. and Mrs. Carl Stout Sunday were Mr. and Mrs. E. Orcutt of Littlefield.

Mr. and Mrs. Frank Lonnick of Superior, Wisconsin, and Mrs. T. J. George of Dallas spent several days last week with Mr. and Mrs. Jett Roberts.

Mr. and Mrs. Rondel Farrar of Plainview visited Mr. and Mrs. George Creed over the week end.

Mr. and Mrs. Sam Brown visited in Quail with Mrs. Leroy Pate.

Richard Daugherty of Borger spent the week end with his parents, Mr. and Mrs. E. R. Daugherty.

Mr. and Mrs. Benton Shields visited Mrs. W. M. Davis Sr. in Memphis last Sunday.

Mr. and Mrs. L. G. Yarbrough visited in the W. M. Hughes home last Sunday.

Mr. and Mrs. R. A. Wells and Addie Lou of Memphis spent Sunday with Mr. and Mrs. Hill Wells and family.

The Quilting Club met with Mrs. Jett Roberts as hostess. Present were Mmes. D. M. Jarrell, Clyde Brown, C. E. Allen, Cliff Pitts, Travis McGuire, A. B. Jones, Benney Smith, Hill Wells, Elvis Pitts, Jim Gleaton, E. Gleaton, Carl Stout, J. L. Souder Sr., L. G. Yarbrough, George Creed, Sam Brown, E. R. Daugherty, John Messer and Newell Shields.

### Outlook for Farm Labor Supply Tight

This year's outlook is for a tightened labor supply and a rising level of farm wages, J. A. Coleman, chairman of the county PMA committee, said this week. However, the situation may not be much more difficult than in 1948, a year of virtually full employment and a record year for farm output. This assumes only partial defense mobilization, as announced in the

**BEARS GET RAM**—Dr. J. F. Wilson, California University's Professor of Animal Husbandry, exhibits an Australian Merino ram, one of a shipment of three rams and nine ewes. The first sheep to be exported from Australia in 30 years, the animals will be used for "experimental purposes only" on the University's ranch at Davis, Calif.

goals for the size of the armed forces and military expenditures.

The announced goal for the size of the armed forces is 3 million, to be reached by the middle of 1951. Present strength is about 1.8 million. If the net increase should be drawn from civilian males 19 through 25, agriculture would supply 12% or about 140,000 men. If the increase were drawn from non-veterans in this age group, however, nearly 17%, or about 200,000 would be drawn from agriculture. Women, youths, and older workers would provide replacements in full or in part.

The situation now apparently differs from that at the beginning of World War II in several respects: (1) Agriculture relies on young men between the ages of 18 and 24; (2) there is a far smaller reservoir of young men for military manpower on farms; and (3) the potential contribution would be only about 250,000 of the number of the young men of these ages employed in agriculture were re-

World War II, when manpower mobilization provided an armed duced to the number at the end of force of more than 12 million. Another significant difference in the situation is found in the greater inventories of farm equipment and machinery at present, and the greater potentialities for substituting machinery for labor. For example, the expected increase in the number of mechanical cotton harvesters next year may reduce the number of cotton pickers needed during the season about 50,000. Increased substitution of machines for human labor will not be confined to the cotton areas or harvest.

Mrs. John Bevers visited her son and family, Mr. and Mrs. Dan Bevers and daughter, Dana Lee, in Amarillo over last week end.

China was once a strong nation until her best soil washed away.

—By Deskins Wells

News Notes: Junior Melton has been elected assistant coach at McLean to serve under Don Leach. Both are former Rockets and West Texas State stars. The Frank Eikenburgs are moving to Dallas. The Farmers Co-Op Gin is running its delinting and seed treating plant day and night. Merchants are beginning to feel some better what with the rain coming, March 15 past and most of their OPS charts filled out. Saturday is the last day to put on 1951 license tags. Get your blood typed next week. This could be most important to you or a member of your family.

A preacher who is going to have a revival at Samnorwood came in Tuesday to put an ad in the paper. He told me that once he weighed over 400 pounds. I asked him what he weighed now and all of a sudden he became publicity alert. "You are not going to put my name in the paper along with my weight are you?" he asked. I said: "Well, if you don't want your name in my column, I think that I should respect your wishes and not put your name in the paper."

This preacher is not a glutton. He has a deficiency of the pituitary gland. Instead of burning up carbohydrates his body turns all of them into fat. Here is an example of what I mean. Judge C. C. Bishop probably has the same thing to a certain extent. Judge Bishop has a very hard time in keeping his weight down. On the other hand, Goat Hopper looks like a scarecrow even if he does wear a very nice looking suit when he ushers at the Methodist Church on Sundays. Goat eats twice as much as Judge Bishop. It is a difference in their ability to assimilate food.

Here is an example of one of Goat Hopper's typical breakfasts. I saw him eat it when Juanita, with a little assistance from Goat, ran the celebrated Goats Cafe. He was eating breakfast at nine o'clock in the morning. He had two large country styled sausages, three eggs and a full stack of hot cakes. They were spaced on a platter big enough to hold a turkey. He put on about a half a pound of oleomargarine (Goat never served cow butter). He salted and peppered the eggs. Then he turned up a pitcher of syrup and poured it over the entire platter. And I sat there with my mouth open and watched him eat every bite and mop up the last drop of syrup. If I had not seen it I would not have believed it.

A few years ago I ran across Judge Bishop in Tom Bryant's Cafe. I was having a cup of coffee in the early morning hours and so was the Judge. I observed that I could not eat early in the morning. He replied: "I could eat anything. If they had the chili ready, I would enjoy a bowl right now."

Here are four paragraphs and not once have I mentioned the name of the Samnorwood preacher who is holding a revival and who has an advertisement in the paper. He is genial and jolly but to learn his name for sure you will have to journey to Samnorwood. I have not printed it in this column.

Lawdy Lawd! I swore off making speeches in 1940. But John Pound talked me into making one on Wednesday March 28. It will have been done by the time you read this. As I write I understand that my audience is to number six. There will be four girls and two boys. I do not know how it will come out, but right now I feel like the vanishing Indian.

Here is a comforting note for the cotton farmers as they prepare to plant and harvest the most expensive cotton crop in the history of the United States. Or is it? Mexico is selling cotton for export for 65 cents a pound. South America is selling cotton for 70 cents a pound for export. Egypt is selling cotton for \$1.12 a pound for export. Our ceiling price for cotton is 45 cents a pound. How come? Do you wonder about the prices in other nations? Were they made possible by American tax dollars, Farmers pay taxes too.

Several cotton ginners have told me that land owners as far as Miami and Laketon are phoning down here for cottonseed. It could work on that rich black land of theirs; but the percentage is against it. A lot of farmers are figuring on planting cotton who are 100 miles from the nearest gin. Year in and year out that land is not suited to grow cotton on a competitive basis. How does it happen that this nation has to go to such extremes at a time when peril threatens? Our most favorable soils and climates could produce

**WEST OF THE BORDER**—Though the threat of World War III is hanging over Europe and the world, there seems to be little evidence of tension along the West German-Russian zone border-line in such towns as Setzelbach, Germany, where this farmer plows his fields only 300 yards from the Russian zone. Other farmers, who have farmland in the Russian zone, require special passes to cultivate fields over the boundary. All are complacently resigned to the fact that tomorrow dreadnaughts of war may rumble over their crops.

enough cotton to supply the world. But the stupidity of our bureaucratic controls has forced us to use marginal cotton land. So we are going to try to grow it on land that should be in grass or sorghums. And if these speculators hit a fortunate year, they are going to sell their cotton for a maximum of 45 cents a pound. (It will mean about 35 cents a pound for their best cotton after grade, staple and transportation have been figured and perhaps less). But in the meantime our friends to the south will be selling cotton for 65 cents a pound and higher, while we loan them money. It does not make sense.

The red robins have been bob bob bobbing along in my yard for weeks. And I saw two cardinals over at my mother's place. But the visitor that excited my interest was a ground dove. There was only one. It stayed two days. It had a lovely song. We observed it and looked it up in books. The range is from the Carolinas along the coast into Mexico. It is most numerous on the gulf coast of Texas. It has a plumper body than our mourning dove, and a smaller head and a longer tail. It's habitat is on the coast. What was it doing this far upland?

The dove I saw in my yard looks like the turtle dove. It reminds you of the songs of King Solomon. He said something about the song of the turtle being heard in the land. He was not talking about a turtle, tortoise or terrapin. The various translations of the Bible could account for that. He was not talking about a turtle at all. He was talking about a dove.

## LOCO

By BETHINE ADKINS

Easter Sunday was truly a spring day, not a single sign of the usual cold spell we have on Easter day. But I suppose the one we had earlier in the week could suffice for the one we missed that day.

Rev. H. E. Long closed the revival at the Bethel Methodist Church Sunday night. There were two additions to the Church. Good crowds attended all the services during the revival. Mr. and Mrs. J. A. Killian of Fresno attended services Thursday and Friday night.

Mr. and Mrs. Eddie Boggs of Amarillo spent on Monday until Wednesday in the home of Mr. and Mrs. M. L. Adkins and family. T. A. Hamilton and son, Alvis, spent the holidays in Dallas. Mrs. Hamilton, who has been visiting there for the past two weeks, returned home with them. Mrs. H. G. Smith, the Hamilton's daughter, who has been ill for the past month, is some improved.

Mr. and Mrs. Coy Cates and Kathryn and Mr. and Mrs. Herschel Mayhugh and family were visitors in Amarillo Thursday. Sidney Elmore of Fresno visited in the G. W. Adkins home Tuesday.

Clair Lawrence and Willie West purchased new cars this week, while Joe Bob Wyrick bought a new pickup.

Mrs. G. W. Adkins and Bethine attended the wedding of Miss Peggy Scarberry and Ray Wolf in Wellington Saturday afternoon. Miss Adkins also attended the wedding of Miss Teresa Hunsaker and Jark Covey in Wellington Saturday morning. Heartiest congratulations to both of these young couples!

Mr. and Mrs. Melvin Summers and sons of Amarillo were recent visitors in the home of her parents, Mr. and Mrs. Raymond B. Scott.

Mr. and Mrs. Herman Belew, Leroy Belew and Donnie Belew of Wellington, and Mrs. M. L. Adkins were visitors in Amarillo Friday. Mr. and Mrs. Belew and boys visited Mr. and Mrs. Weldon Belew and family and Mr. and Mrs. Grady Belew and daughter, while Mrs. Adkins visited her daughters, Mr. and Mrs. Eddie Boggs, Miss Katie Adkins, and son, Bill Adkins, and sister, Mr. and Mrs. F. D. Adkins.

H. B. Martindale of Wellington, father of Mrs. Loyd King of this community, recently returned from

the Dallas hospital, where he has been receiving treatment for over a week. He is some better now.

Easter Day guests in the home of Mr. and Mrs. G. T. Austin were Mr. and Mrs. Dan Austin and daughter of Norman, Oklahoma, and Miss Zora Dell Austin of Denton.

Other visitors in the M. L. Adkins home this week have been Mr. and Mrs. Emmet Ware and children of Wellington, Mr. and Mrs. R. C. Boggs and children of Dodson, Mrs. Bill Powers of Amarillo, and Gordon Moltenhour of Hollis, Oklahoma.

Mr. and Mrs. Edgar McWhorter of Odessa, Miss Dorothy Harbin of Abilene, and Mr. and Mrs. Faulkenberry of Loop were guests in the home of Mr. and Mrs. Charlie Bearden and Mr. and Mrs. W. F. Harbin during the Easter holidays.

Mrs. Fanny Belew accompanied her son and family, Mr. and Mrs. Arthur Belew of Wellington, to Houston, where they spent the holidays with Mr. and Mrs. T. P. Belew.

Mrs. R. H. Lacy, Billy, Calvin, and Virginia, and Mrs. J. K. Porter, Sr. of Wellington spent the week end visiting relatives in Carthage and Paris. They also visited in Shreveport, Louisiana.

Rev. R. L. Melton of Wellington, the newly called pastor of the Baptist church here, filled his regular appointment here Sunday morning and evening. A large crowd attended both services. An Easter egg hunt was given for the children of the primary and junior department.

On the sick list this week are L. H. Wolf and G. W. Adkins. Mr. and Mrs. John R. Thomas and Nell spent the Easter holidays in Dallas with their sons, Cloy and Henry Thomas.

A soil conservation meeting was held at the Arlie Gin Tuesday afternoon. The farmers of this area were given aerial maps of their farms, showing newly added terraces and other improvements made on their farms during the past year. A large number attended.

Visiting in the Methodist Church services Friday night were Mrs. Martin, wife of the visiting evangelist from Pampa, and Donna Kay and Beverly Graham, also of Pampa.

Visiting in the E. S. Copeland home Sunday were Bob Copeland and Mr. and Mrs. Sam Crow and daughters, all of Canyon, and Mr. and Mrs. C. B. Carter and children of Hollis.

Miss Treva Young of Canyon spent the week end here with her parents, Mr. and Mrs. Tiffin Young, Sr.

## Personal

Mr. and Mrs. George Farris and sons visited Mr. and Mrs. Louis Farris and family at Snyder, Oklahoma recently.

Mr. and Mrs. Cameron Beam, Sr. visited Mrs. Beam's aunt and uncle, Mr. and Mrs. Dick Coffee, at Vernon over last week end.

Mrs. Prebble Russell of Dimmitt spent the holidays visiting her sons, Dale and Neal Russell, and her parents, Mr. and Mrs. A. V. Green.

Mrs. Floyd Dickey and daughters, Marilyn and Suzanne, of Borger spent the week end visiting her parents, Mr. and Mrs. Joe Thompson.

Mr. and Mrs. D. G. Robertson and children, Beverly and Gage, of Amarillo, spent the week end visiting their parents, Mr. and Mrs. Alf Wynn and Mr. and Mrs. V. P. Robertson, Sr.

James Stevenson of Lubbock and Mrs. Frances McCaskill of Pampa spent the week end in the home of their parents, Mr. and Mrs. J. B. Stevenson.

Mrs. Jack Gibson and Mrs. Os McDowell were Hollis, Oklahoma, visitors recently.

Mr. and Mrs. J. E. Hedger spent Sunday in Pampa where they visited Mr. and Mrs. S. E. Winegart.

Mr. and Mrs. Arthur Dakil and Floyd spent Easter Sunday in the home of his brother and family, Mr. and Mrs. Frank Dakil of Childress.

Judge and Mrs. McNeece of Dallas spent Saturday afternoon visiting friends in Wellington. They are former residents of this county. Judge McNeece will be remembered as the son-in-law of the late Mr. and Mrs. H. W. Holbert.

Mr. and Mrs. Sam Raburn and Tony and Mr. and Mrs. O. B. Raburn, Jr., all of Amarillo, spent Sunday afternoon in the home of Mr. and Mrs. O. B. Raburn, Sr.

Mr. and Mrs. Bill Langford were in Childress Sunday to visit their daughter and son-in-law, Mr. and Mrs. J. D. Bruce.

Mr. and Mrs. Jack Ford and children and Mrs. J. L. Burt spent Easter Sunday in Amarillo visiting Mr. and Mrs. J. L. Burt, Jr.

Cameron Beam Jr. of Baylor University, Dallas, and Louie Beam of Hardin-Simmons University, Abilene, spent the holidays with their parents, Mr. and Mrs. N. C. Beam.

Miss Patsy Smith, a North Texas State College student in Denton, spent the holidays in the home of her parents, Mr. and Mrs. Willie Smith.

Bennie Karnes of Denton spent the week end with his parents, Mr. and Mrs. R. L. Karnes, here. He also attended the Hunsaker-Covey wedding Saturday, and was organist for the Easter services at the Methodist Church Sunday.

Mr. and Mrs. L. Bratten of Hollis, Oklahoma, were Sunday guests in the home of their son, Mr. and Mrs. L. B. Bratten and family.

Newell Van Pelt and Billy Wayne Karnes, students at North Texas State College in Canyon, spent the holidays here with relatives and friends.

Joe Lynn Moore from Baylor University, Dallas, spent the week end with his parents, Mr. and Mrs. L. A. Moore. Also visiting the Moores were their son, Howard, from Lubbock, and their daughter, Mrs. Zonetta Cherry and daughter, from Big Spring.

Donald Joe Terry, Sandy Parsons III, and Keith McMillin, all students of Texas Tech in Lubbock, spent the holidays in the homes of their parents, Mr. and Mrs. Joe Terry, Mr. and Mrs. Sandy Parson, Jr., and Mr. and Mrs. Dudley McMillin.

Misses Peggy Langford and Neeta Ball, students at Texas State College for Women at Denton, spent the week end with their parents, Mr. and Mrs. Frank Langford and Mr. and Mrs. Jack Ball.

## REWARD

# The Blood Typing Program Is Your Obligation

## Visit A Blood Typing Station

### APRIL 2 to 14

**In Case of Disaster, Injury or Serious Illness Whole Blood Is the Best Medicine Then Knowing Your Blood Type Is Essential**

If you are a victim of an accident, sickness or other disaster, your doctor may need to give you a blood transfusion. This can be done much more quickly if you already know your blood type.

To the individual involved, a car, home or farm accident is as much a disaster as one involving hundreds of persons.

If your blood type is known, when you need a transfusion, a telephone call will bring someone from the hospital's donor list in a matter of minutes.

Collingsworth County Defense Program  
Identification and Blood Type

Name \_\_\_\_\_

Address \_\_\_\_\_

Next of Kin \_\_\_\_\_

Blood Type \_\_\_\_\_ RH \_\_\_\_\_

This is the reproduction of the identification and blood typing card you will be given. Carry this with you at all times. It will fit into your bill-fold or purse.

We need every one of the 4,000 eligible residents of Collingsworth County.

### Blood Typing Schedule

The following schedule will be observed unless demands for the service make its revision necessary:

- Dodson, Tuesday April 3, 1:00 to 4:00 p. m.
- Quail, Wednesday, April 4, 1:00 to 4:00 p. m.
- Sammorwood, Thurs., April 5, 1:00 to 4:00 p. m.
- Wellington
- St. Joseph's Hospital: Monday, April 2 and Friday, April 6, 2:00 to 5:00 p. m.
- Tuesday, Wednesday, Friday and Saturday, April 10 through 14, 7:00 to 9:00 p. m.
- St. Joseph's Hospital and Jones-Watkins Clinic: Monday April 2, through Friday, April 6, 7:00 to 9:00 p. m.
- Wellington High School (for student blood typing) Tuesday, Wednesday, Thursday and Friday, April 10 through 13 1:00 to 4:00 p. m.
- Downtown Blood-typing Station: On the Square: Saturday, April 7 and 14: 2:00 to 6:00 p. m.
- Colored Section: Booker T. Washington School, Monday, April 9, 1:00 to 4:00 p. m.

### Blood Typing Program Only

This is a blood typing program only. Having your blood typed in no way places you on any blood donor list, nor does it in any way obligate you to ever serve as a blood donor. It is for your own benefit and your loved ones, in case you should ever need to know, quickly, what your blood type is.

### A Civilian Defense Measure

This program is set up under the County Civilian Defense Program as part of the National Civilian Defense Program.

In this locality, however, we do not think of it so much in terms of war and bombing, as in terms of a peacetime disaster, . . . a cyclone, an explosion or fire . . . or even in terms of an accident that involves only one or two persons. The need is just as great to that latter individual as when many are concerned.

### 5 Minutes Only

It will take only 5 minutes of your time in addition to a small fee to type your blood. That is a small price to pay for the possible saving of your life later on.

### You Are Identified

The identification and blood typing card you may carry with you at all times and will contain the information any doctor will need to give you a transfusion of whole blood. Your own doctor may have on record your blood type. Away from home—in case of accident or illness—a stranger doctor would not know your blood type without a test.

### A Blood Transfusion Comes First

"A blood transfusion is the first thing a disaster victim requires. A blood transfusion cannot be given until after your blood type is determined. If you need a blood transfusion, you would need to give up some blood to be typed before you could be given a transfusion.

"Consequently, many lives could be saved in the event of a disaster if the doctors and hospitals already know the blood type of the victims."

R. L. Templeton  
Director Civilian Defense  
Collingsworth County

### Why Blood Typing?

In a community-wide catastrophe, such as a cyclone, explosion or disastrous fire, or in case of victims of car or other accidents, a large percentage will suffer from shock or collapse, with dangerous fall in blood pressure. Some will go into shock from bleeding. Others will suffer shock from leakage of blood fluids from tiny blood vessels into body tissues.

Many die quickly unless given blood or other fluids to restore blood volume and blood pressure.

On an average, each casualty will need five pints of fluid.

**The People and the Land**

**UNDERSTANDING CHINA NEEDED TO KNOW WORLD PROBLEM**

China today holds the key position in the Far East. In addition, the entry of communist China into the Korean war has confronted the world with the very real possibility of a third world war. In view of these facts, an understanding of China—its history or background, the nature of its communist regime and its war potential—is exceedingly important.

**CHINA'S PEOPLE**  
Of primary consideration in understanding China is a knowledge of its people. It seems to be established definitely that perhaps as early as 3500 B. C. neolithic culture of a high order existed in parts of China. It is evident also from the discoveries made of pottery and other articles that these peoples were not isolated and that the intervening regions were at least partially occupied by peoples of the same or nearly the same stage of development.

Who these original Chinese were, whence they came, and where they obtained the earliest elements of their civilization are questions upon which there is a wide difference of opinion among anthropologists. In all probability the Chinese had their beginnings in central Asia, although other theories as to the site of their origin have been advanced. The first migrants to what is today called China seem to have settled in the Yellow river valley. They in turn were driven southward by succeeding waves of migration, in much the same way that the American Indians were driven southward from the Far North until they spread over the entire western hemisphere.

The culture brought by the immigrants into China must have been very primitive, although it is believed that from an early time they were settled agriculturists and lived in family groups.

**RACIAL MIXTURE**  
The general stock from which the people of China have sprung is the Mongolian. Yet there has been during the past several hundred years considerable racial intermixture. Racially, the Chinese are mixed people. Many racial groups have contributed to create the prevailing Chinese type. In this way the Chinese people much resemble those of us in this country. The racial groups which have contributed to the formation of the Chinese people include the Tibetan, the Tatar, the Shan and the Japanese.

Another point of interest is that the people of China are not all of one type. The people of Manchuria are very large and have white skins. Traveling south the people become smaller and also darker. This latter characteristic is to be explained by the closer proximity to the equator and by the warmer climate. The people of the north eat millet, maize and wheat. Those of the south depend largely on rice.

**VAST POPULATION**  
The present population of China is about 450 million or approximately one-fourth of the world's population. The Chinese are numerically the largest fairly homogeneous national group in the world. This factor of population is exceedingly important today in estimating the war potential of China.

In land area China is one of the largest political-geographic units in the world. The Chinese Republic is a huge mass covering four and a quarter-million square miles. It includes China proper, Manchuria, Chinese Turkestan, Mongolia and Tibet. China proper comprises about one-third of the total area. It falls largely in the north temperate zone with the variations ranging from extremely cold regions in the north to tropical regions in the south.

This wide variation in climate together with adequate rainfall form most of China proper during the growing season made possible historically the development of a well-diversified agricultural life. The staple crops include rice, cotton, sugar, tea, wheat, barley and millet. Most of China proper is very fertile, a factor which has contributed greatly to the development of an agricultural economy.

**NATURAL RESOURCES**  
In addition to her wealth in soil, China also possesses large mineral resources. Coal, iron, copper, tin, lead, antimony and silver are all found in the country. In pre-modern time they were sufficiently worked to supply the primitive needs of the people. Today China's mineral wealth is sufficient to support a much greater degree of industrialization. Foreign capital and technical skill are needed, however, to exploit these resources fully.

China proper possesses as great a geographical diversity as the United States or any other country. Not only is there a great variation in climate but there is a wide range in physical features. In the north are to be found the fertile loess plains. The loess is a striking feature of northern China. It is a dustlike loam which has been brought in and deposited

during thousands of years by the northwest winds.

In places this deposit is several hundred feet thick. The plains of northern China are watered and often inundated by the Yellow river. South of the Yellow river lies the broad central area drained by the Yangste river, the greatest waterway of China and one of the greatest in the world. Although shorter than the Mississippi river, the Yangste pours out approximately twice as much water.

**CHINA'S WATERWAYS**  
Still farther south lies the basin of the West river and its confluents. These three great river systems help to distinguish different geographical areas. The bulk of the Chinese people historically have been concentrated in these river valleys. The population today along the Yellow river is the most concentrated in the world. The rivers also have facilitated communication and intercourse. China is one of the best watered countries in the world.

Much of China proper can be classified as a plain. The monotony of the plains is relieved by mountain ranges. There are four main chains of mountains. These ranges rise ever higher to the west and the southwest until they reach the Himalayan system, one of the highest in the world.

Like the rivers, the mountain ranges help to distinguish or set-off different geographical areas. Where the rivers have facilitated transportation and communication, the mountains have restricted them. They run north to south and cut the country into well-defined geographical sections. They have made for the isolation of large parts of China from each other. This has been an important factor in retarding the development of China.

**MOUNTAIN RANGES**  
The presence in China of great mountain ranges running from north to south and dividing the country into well-defined sections has had other important effects. It has contributed to the development of numerous spoken dialects. The Chinese have the same written language, but the spoken language is different. This factor makes for localism or provincialism. In addition, the great mountain ranges on the west, northwest and southwest before the last century formed barriers which shut China off from the rest of the world.

This natural isolation was extremely important for the development of China. In the first place, her older civilization received relatively few contributions from the outside. The absence of outside stimuli meant that progress was slower in China than it was in the West. In addition, the lack of intimate contact with other cultures bred in the Chinese a feeling of intense pride and superiority. They had known no civilization equal to their own.

Dr. C. E. Killingsworth, of Borger, son of Mr. and Mrs. Claude Killingsworth, who was injured in a car wreck a month ago, has been released from the Veterans Hospital in Amarillo and has returned to his home at Borger, his mother said this week. Dr. Killingsworth had both ankles broken when the car he was driving overturned by Lake Clinton, en route to Oklahoma City. The car hurtled a ditch 28 feet wide and 8 feet deep and turned over three times, Mrs. Killingsworth said.

Mr. and Mrs. L. L. Hughey of Mangum spent Sunday with Mr. and Mrs. Lee Hughey.

Mr. and Mrs. Floyd Taylor of Quanah visited her parents, Mr. and Mrs. Mack Saied, Sr., over last week end.

**THE SKI'S THE LIMIT**—With not quite the greatest of ease, ski star Katy Rodolph flies over the shiny slopes of Sun Valley, Ida., where she will make her bid for an Olympics squad berth on March 10 and 11. Although she looks a trifle apprehensive above, Katy usually performs with a confidence that has helped to make her one of the country's top ski stars.

**Cattle, Registered Hogs Best Ever**

**AARON, PEGGRAM, GRAND CHAMP EXHIBITORS AT QUAIL SHOW SAT.**

Jack Aaron showed the grand champion female hog and Gene Peggram the grand champion fat calf in the annual Quail FFA Project Show Saturday.

Describing the event as one of the most successful held by the Quail Future Farmers, Frank Kennedy, vocational agriculture teacher, said that both the cattle and registered hog classes were the best ever exhibited in a show. "We value these shows because the boys get to see one another's animals. They listen carefully to what the judge has to say, and they get a good picture of the part played by management and selection in producing a prize-winning animal," Mr. Kennedy said.

A total of 56 animals were exhibited, including 34 hogs, 8 calves and 14 rabbits. Jake Tarter was project show judge.

Winners included: Grade Gilts: first, Billy Winkler; second, Buddy Price; third, Royce Parker and fourth, Jack Aaron.

Grade sows: first and second, Ray Bradshaw; third, Joe Lindsey,

fourth, Charles Wright.

Feeder pigs: first, Denzil Patchell; second, Billy Winkler; third, Marion Finley; and fourth, Ray Bradshaw.

Boars: first, Jack Aaron; second, Buddy Price; third, Ray Bradshaw; fourth, Gene Peggram. Registered gilts: first, Sam Jett; second, Alvin Homer; third, Jack Aaron; fourth, Cleo Kirkland.

Registered sows: first, Jack Aaron; second, Ray Bradshaw; third, Wallace Blasingame and fourth, Stanton Caviness.

Beef heifers: first, Sam Jett; second, Don Kennedy; third, John Farris and fourth, Dewey DeBord. Fat steers: first, Gene Peggram; second, Jack Aaron.

Bulls: first, Wayne Lacy. Does: first, second and third, Ray Bradshaw, with New Zealand whites; and fourth, Wayne Lacy. Bucks: first, Ray Bradshaw; second, Wayne Lacy, third, Charles Wright and fourth, Wayne Lacy. The registered gilt given away was won by Austin White of Wellington.

Rev. and Mrs. R. L. Melton and Mr. and Mrs. Elmo Jones of Hollis visited their sons, Rogers Melton and Garland Jones, at Cameron College at Lawton recently.

**Perennial Grass Condition Critical**

COLLEGE STATION, The cured forage remaining on pastures in Texas at the present time is higher in quality than during any year in the last 10 to 20.

This higher quality is the result of slow growth made by the grasses during the dry weather last summer and fall, says A. W. Crain, associate pasture specialist for the Texas A. & M. Extension Service.

Because of the drought, however, the plants were unable to store a reserve food supply in the crown and root systems. Since new spring growth is made from stored food, the plants are in a somewhat critical condition.

Crain warns that, due to this situation, proper management is extremely important when the grasses put up new growth in the spring. He advises allowing little or no grazing until after the plants have made good growth.

Crain recommends making the best possible use of oats and other supplemental grazing crops this spring. This will allow the perennial pasture plants to get off to a start and avoid killing many of these plants.

When they receive adequate rainfall, the supplemental forage plants will grow rapidly and carry a large number of animals. Better utilization of the supplemental forage and better per-

ennial pastures will result if the perennial grasses are not grazed for the first month or two after growth begins.

Plant legumes to prosper.

**GOOD EDUCATION GETS GOOD RESULTS**

When the school authorities and business men of Youngstown, Ohio, sat down together three and a half years ago to devise a special educational program for the area's school children, they knew they were tackling a real problem. One hundred high school seniors had been questioned and the results showed serious gaps in their knowledge. They were poorly informed about the history, resources and opportunities of their community and they had a hazy notion of what makes the American way of life tick.

With assistance and counsel from the business and industrial leaders, the educators developed a program which is now producing thrilling results in the elementary and high schools. The program blankets schools in three Ohio and one western Pennsylvania counties, in the Mahoning-Shenango Valley, one of America's most highly industrialized areas. With special textbooks, motion pictures, exhibits, field trips and industrial tours, a new design in education is being perfected. It has national significance.

**VALUE MEASURED**

The value of this industry-school educational project may now be measured on the basis of what it actually is accomplishing in the minds of the children it reaches. Alfred E. Edmunds, principal of Roosevelt School (elementary) at Warren, Ohio, wrote a letter to the industries which the children of his school had visited after having read about them in one of the special textbooks.

"The children have been given the chance to see...that these great diverse industries have been mainly responsible for our standard of living and our security among other nations," he wrote. "This security will hold true so long as the total machine process is guided by free workers and the top planning is done by free men and women."

**"THEIR FUTURE"**

"Only freedom creates the atmosphere for men and women, using all inventiveness, to create an outstanding product in the hope that more people may live better," this school principal continued. "So in the final analysis, schools, executives and industrial workers have much in common. Our mutual concern is our children and their future. You have helped us to turn out a better product by making available your personnel as instructors, and your plants as our workshop."

This kind of teacher attitude can build the strength of America to unassailable heights—through our schools. Ninety-six per cent of the teachers in the district's elementary schools, who replied to a questionnaire regarding the special textbooks, reported favorable acceptance of the textbooks by the

students. Two of the educators noted the fact that parents, as well as students, enjoyed the books. The Youngstown Library reported a long waiting list for the books and said that since their publication there had been more interest in the community and its history than ever before.

**A STUDENTS REACTION**

Following a full semester course of study which utilized all the special materials and tools and was climaxed with a tour of industrial plants, a grade school student wrote the general manager of one of the plants as follows:

"We believe our trip has added to our understanding of a number of things which we've been studying. First, that to make our community grow it takes money for investment, raw materials which can be brought into the area, and machinery which will produce a product quickly and in great numbers. In your plant you have the right to make, to buy, to sell what you please. This...is...what we have been learning about freedom."

The Youngstown pattern could be adapted to any community or region. If you wish additional information, write the Industrial Information Institute, 36 North Phelps Street, Youngstown.

**Texas Meeting Cancer Challenge**

**HOUSTON**—How Texas is "meeting the challenge of cancer" is described in the 1950 annual report of the American Cancer Society, Texas Division, just released.

Cancer deaths in Texas are increasing every year, the report reminds. During 1950 almost 8,000 Texans died of the disease. As in the rest of the United States, cancer is second only to heart disease as a cause of death in this state.

To meet this menace, the Texas Division of the American Cancer Society in 1950 spent \$387,903.59, the amount contributed to the 1949 Cancer Crusade. One-fourth of this money went into research—\$96,975.90. Medical Scientists at four units of the University of Texas, at Baylor University and at the Foundation for Applied Research, are conducting research under grants from the Society.

Fifteen cents out of every dollar donated to the Texas Cancer Crusade went for service to cancer patients, through financial help to eleven tumor clinics in Texas, the report states. Part of the Society's service program also includes the preparation of dressings, the supplying of loan closets and sickroom items, and other aids for the cancer patients. Last year the El Paso County Unit of Society, alone, reported 250 women volunteers participating in this program.

**CANCER SOCIETY REPORT**

Last year the state office of the American Cancer Society received 3,311 requests for cancer information through a special mailing arrangement by which letters are addressed to "Cancer", in care of the local post office. All were answered by letter and literature.

County units of the American Cancer Society are operating

twelve cancer information centers in Texas. The centers are located at El Paso, Texarkana, Amarillo, San Angelo, Dallas, Fort Worth, San Antonio, Austin, Galveston, Houston, Eastland, and Prairie View. Part-time centers include those at Waco, Texas City and Baytown. The Prairie View center, one of the most recent, was established in September for special cancer educational work among the Negroes of the state.

Other phases of the Society's work are said to be devoted to educating the public to facts about cancer, keeping doctors informed on latest development in cancer diagnosis and treatment and the support of vital statistical research among known cancer cases in Texas.

**Grass Gets Vote Of Confidence By Texas Farmers**

Grass, man's best tool for anchoring soil against erosion, was given a sound vote of confidence during 1950 by Texas farmers and ranchers.

Increased respect for this weapon against soil and water waste is reflected by last year's seed harvest, which shows 746,599 pounds of native grass seed harvested by Texas farmers and ranchers, it was pointed out today by Louis P. Merrill, Soil Conservation Service regional director here.

Leading the native grass seed harvest parade in Texas were little bluestem (400,325 pounds), and blue grama (202,410 pounds), both warm season forage plants.

The 1950 seed harvest figures, Merrill said, also reflected widely increased use of King Ranch blue-

stem by conservation-wise farmers and ranchers. It is a deep-rooted introduced perennial grass known for its erosion-resisting and forage qualities and its adaptation to wide extremes of rainfall.

Throughout Texas, a total of 506,537 pounds of King Ranch bluestem seed was harvested, easily a new record seed take for the popular drought and cold-resistant grass, the regional director said.

Of the KR seed harvested in Texas last year, 463,082 pounds or about 91 per cent of the state-wide harvest were taken from the farms and ranches of soil conservation district cooperators, Merrill said. An additional 8,430 pounds of KR seed were harvested from the Soil Conservation Service nursery at San Antonio and U. S. land utilization project areas.

From Texas, more than 4 1-2 million acres in close-growing, soil-conserving legumes, a total of 25,216,000 pounds of legume seed was harvested during 1950, Merrill announced.

Leading in the Texas legume seed harvest was Hubam sweet-clover (11,258,947 pounds) a versatile conservation crop respected for its ability to overcome cotton root rot, decrease soil loss and runoff and improve soil productivity. Second was hairy vetch (10,819,087 pounds), a winter cover crop known as a veritable storehouse of soil nutrients.

The harvest of native and introduced grass and seed and legume seed in Texas last year totaled more than 30 million pounds, the regional director said. "The 1950 seed harvest is a clear indicator that the Texas farmer and rancher is paying increased attention to the use of grass and legume as his best weapons in improving the soil and water waste."

**JUST IN CASE**—Although Communist planes have not presented a major threat to UN troops in Korea, anti-aircraft units maintain constant vigilance while at their posts. The G.I., at right, scanned the skies while other members of gun crew stood ready for action.

## Practical and Humanitarian FIVE COUNTY MEDICAL SOC. GIVES CANCER CRUSADE ENDORSEMENT

The following endorsement of the cancer drive was given by the Five County Medical Society in a meeting here recently:

"Cancer Crusade Endorsement" "The Five County Medical Society of Texas, composed of Armstrong, Donley, Collingsworth, Childress and Hall Counties, endorses the Crusade of the American Cancer Society as representing a worthy humanitarian effort to eliminate suffering and to aid society. Its program of intensive research and practical application is made possible in a truly American manner by the same people who

are benefitting from the program. Ever mindful that one person out of eight in this country is destined to die of cancer, we feel that any contribution may well be for the future welfare of the contributor."

## Blood Typing -

(Continued from Page One)

Tuesday, April 3: Dodson school, 1:00 to 4:00 p.m., Mrs. Tom Birchfield, in charge, and Mrs. Sylvia Dodson, Mrs. Howard Hunt, Mrs. Ross Swift, St. Joseph's, 7:00 to 9:00 p.m., Mrs. Emory Hunter, and Mrs. E. K. Jones, Clinic: Mrs. Deskins Wells and Miss Dorothy Robertson.

## June Watkins -

(Continued from Page One)

Knapp, priest.

Pall bearers were Cliff Campbell, Dr. E. K. Jones, Lt. Eddie Bassel, Lowell Wells, Harold Watkins and Bill Hughes. Flower bearers were Mrs. Harold Watkins, Mrs. Jim Lorente, Mrs. Eddie Bassel and Mrs. Pat Swift.

Burial was in the Wellington cemetery under the direction of the Kelo Funeral Home.

Surviving June Marie are her parents and two sisters, Susan and Constance; her grandmothers, Mrs. Fred Watkins of Wellington, and Mrs. Mae Missner of Waco; three aunts and an uncle, Mrs. Kathryn Bayes of Dallas; Mrs. Herschel Beaty of Midland, Mrs. Eddie Bassel of Hollis and Harold Watkins of Wellington.

Wednesday, April 4: Quail school, 1:00 to 4:00 p.m., Mrs. Lowell Wells in charge. She will choose two teams. St. Joseph's, 7:00 to 9:00 p.m., Mrs. E. W. Jones and Miss Dorothy Robertson. Clinic: Mrs. Warland Brummett and Miss Lucille Bennett.

Thursday, April 5: Samnorwood, 1:00 to 4:00 p.m., Mrs. Selba Rainey in charge, Loretta Barnett, Joy Martindale, Ronnie Gooch and Nora Pearl Honeycutt.

Friday, April 6: St. Joseph's, 2:00 to 5:00 p.m., Mrs. Hughes and Mrs. Cochran. 7:00 to 9:00 p.m., Mrs. J. M. Orr and Mrs. Bobo Castleberry. Clinic, 7:00 to 9:00 p.m., Mrs. Horace Small and Mrs. E. W. Jones.

Saturday, April 7, on the square,

Mrs. Hughes and Miss Priscilla Chase.

Monday, April 9: Booker T. Washington school: 1:00 to 4:00 p.m., Mrs. McDowell, Mrs. O'Neil, Mrs. J. W. Wells and Mrs. Jim Lorente. St. Joseph's, 7:00 to 9:00 p.m., Mrs. Small and Mrs. Castleberry. Clinic: Mrs. Emory Hunter and Miss Chase.

Tuesday, April 10: High School, 1:00 to 4:00 p.m., Mrs. Warland Brummett and Mrs. Kelly Pigg, Mrs. Deskins Wells and Mrs. Jones Singley. St. Joseph's, 7:00 to 9:00 p.m., Mrs. Jimmie Kelo and Miss Dora E. McClaskey. Clinic: Mrs. L. C. Hill and Miss Frances Bell.

Wednesday, April 11: High school, 1:00 to 4:00 p.m., Mrs. Morris Wells, Mrs. Lorente and Mrs. Orr. St. Joseph's, 7:00 to 9:00 p.m., Mrs. Hill and Miss McClaskey. Clinic, 7:00 to 9:00 p.m., Miss Katherine Boverie and Mrs. Jones Singley.

Thursday, April 12: Wellington high school, 1:00 to 4:00 p.m., Mrs. Sandy Parsons Jr., Mrs. Pat Swift, Galiea Needham and Jean Langford.

Friday, April 13: high school, 1:00 to 4:00 p.m., Mrs. Parsons, Mrs. Swift, Miss Needham and Miss Langford. St. Joseph's, 7:00 to 9:00 p.m., Miss Boverie and Mrs. Pigg. Clinic, Mrs. Kelo and Miss Bell.

Saturday, April 14: If it is necessary to operate the typing equipment on that day, the clerical personnel will be selected.

Substitute workers are Mrs. J. D. Glenn, Mrs. Harold Watkins, Mrs. Enis Schaded and Miss Bonnie Willis.

An attempt will be made some time during the campaign to secure the motion pictures of the atomic bomb explosion at Bikini Atoll, and Nagasaga with emphasis on blood transfusion work, and another picture on blood typing.

The program in this county is set up under the Civilian Defense Program as a part of the National Civilian Defense Program. Co-operating are the Civilian Defense set-up, the Chamber of Commerce, the doctors of the Jones-Watkins Clinic, St. Joseph's Hospital and St. Joseph's Hospital Auxiliary.

"An individual may need to know his blood type on a number of occasions," Dr. Hunter pointed out. "In case of mass disaster, such as a cyclone, explosion or fire, knowing or having available information on your blood type may save your life, for a blood transfusion is one of the first things usually needed in case of accident.

There are other reasons, he continued, and included:

The individual may be the victim of an accident involving only

himself. He may wish to act as a blood donor for some member of his family in an emergency.

Blood typing takes only about five minutes and a minimum charge of 25 cents is being made to defray actual expense of the campaign, Dr. Hunter said.

It is not obligatory that a person have his blood typed in his own community, or at the unit nearest him. However, for convenience the following designations have been made.

Wellington will include the 'Rolla, Shinnery, Fresno and Houselog areas: Samnorwood: Lutie, Aberdeen, Dozier, Abra, Nicholson and Lone Mound; Quail: Lillie, Buck Creek, Ring, Swearingen, Cross Roads and Salt Fork; and Dodson: Kelley, Arlie and Pleasant Point.

## J. D. Aaron -

(Continued from Page One)

in every phase of his life.

He was keenly interested in seeing the livestock of the area improved. He was likewise interested in the boys of the county who were interested in studying agriculture, and he had been the donor of the free registered hog given away at the Quail Project Show.

A real liking for people of all walks of life, and a nature that was friendly and pleasant, had gained for him friends wherever he had his contacts.

Funeral services were held at the First Methodist Church Monday afternoon, when one of the largest crowds to assemble on such an occasion in many years gathered. Although it is the largest religious structure in Wellington, the church was unable to hold all those who came to pay final tribute.

The Rev. L. L. Hill, pastor, was in charge, assisted by the Rev. Howard Jones, pastor of the First Baptist Church. Pall bearers were Chub White, Bob Hightower, Denny Judd, Virgil Estes, Darwin Nix, Claude Nelson, Jimmie Cochran and Richard Bailey. Honorary pall bearers were Harley Kern of Temple, Heber Brantley, T. W. Devenport, J. T. Boyd, D. W. Crawford, Bob Harvey, Bill Cummings, G. B. Hopper, J. D. Thomas, Judge C. C.

Bishop, Joe Rountree, Cal Sugg, and Earl Yarbrough.

Flower bearers were Mrs. Chub White, Mrs. Bob Hightower, Mrs. Darwin Nix, Mrs. Denny Judd, Mrs. Cal Sugg, Mrs. Bura Handley, Mrs. Goat Hopper, Mrs. Joe Rountree, Mrs. Billy James, Mrs. Zook Thomas, Mrs. J. T. Boyd and Mrs. Virgil Estes.

Burial was in the Wellington cemetery under the direction of the Kelo Funeral Home.

Surviving Mr. Aaron are his wife and three children, Cal, Jo Ann, and Mary Beth; and his parents, Mr. and Mrs. Calvin Aaron of Wellington. A number of aunts and uncles also survive. A brother and sister, Doyle Aaron and Miss Juanita Aaron, preceded him in death.

## Civil Air Patrol -

(Continued from Page One)

Officers named Friday night were Bura Handley, executive officer; Miss Priscilla Chase, adjutant; Mrs. Jimmy Cochran, personnel officer; J. M. Moore, operations officer; Blayne Brannum, training officer; Beryl Faulkner, commandant of cadets; Miss Dorothy Robertson, public information officer; Randolph Hunt, photography; Hiram Cudd, supply.

Mathew Taylor, engineering; Benton Berry, communications; Dr. Tom Hunter, medical; Miss Dora E. McClaskey, fiscal; and the Rev. Archie Gray, chaplain.

The main function of the squadron is to co-operate and aid in civilian defense. Assistance in the blood typing program sponsored by the Chamber of Commerce and Civilian Defense setup. The CAP squadron will hold a contest during the drive with each member keeping a record of the persons he contacted and was responsible for their blood typed.

It was voted that each CAP member be fined \$1.00 if he fails to carry his blood typing card after April 14.

A board of three members, including Operations Officer Moore, Max Graben and Matt Taylor was set up to rate pilots of the squadron. A film was presented showing the CAP cadet program in operation.

An organization meeting for the staff will be held in the form of a breakfast at Jay's Drive-In Thursday morning, March 29, at 6:30 a.m., when each officer will learn his duties.

Regular weekly meetings will be held each Friday night at 8:00 p.m. at Marian Airpark.

This week the group will meet Thursday and Friday nights to work on the building. Painting and papering are scheduled under the direction of Weldon Cleveland and Mr. Handley.

The CAP members voted that a fine of 50 cents be assessed each member with an unexcusable absence from regular meetings. The excuse must be presented in writing and passed on by the squadron.

## April 1 Slaughter Permit Deadline

All individuals and business establishments who slaughter livestock annually, if they desire to continue slaughtering after April 1, 1951, must apply to the Office of Price Stabilization, Kansas City, Missouri, for a permit to do so and must also file with that office certain data showing their slaughtering activity during the year, 1950.

Forms for the filing of this data may be secured from the Kansas City Office of Price Stabilization upon request.

"This is the first and only information the PMA office has had concerning the slaughtering permits and since April 1, is the date this regulation is to go into effect, we urge that each person who has been butchering meat animals in the past, be sure that he makes application for a permit as soon as possible, if he has not already done so," Millard Brown, PMA secretary, said.

Mr. Brown pointed out that this regulation does not apply to the person slaughtering meat for the use of his family only, but it does apply to the man who kills a beef or hog from time to time through the year and sells it.

### Miss Peggy Scarberry Is Bride of Ray Wolf

In a quiet ceremony read by Rev. R. L. Porter, Jr., Saturday afternoon, March 24, at 5:00 p.m., Miss Peggy Scarberry, daughter of Mr. and Mrs. W. L. Scarberry, became the bride of Ray Wolf of Wellington, son of Mrs. Jettie Wolf of Little Rock, Arkansas.

The wedding vows were read in the home of the bride's parents at 1100 Fort Worth. For the recitation of vows, the couple stood before a window, which was flanked by seven-branched candelabra holding lighted tapers. Arrangements of palms and fern banked the improvised altar.

To the strains of a recording of "Because," Miss Reba Scarberry, sister of the bride, lighted the candles. She wore a suit of beige linen, complimented with dark brown accessories. She wore a tiny hat of pink straw cloth and a shoulder corsage of pink carnations.

Next entered Mrs. Edward Young, matron of honor, who wore

a dress of pale blue swiss fashioned with a fitted bodice and a tiered skirt. She used white accessories and wore a caplet corsage of pink carnations.

The bride was lovely in a dress of navy blue crepe, fashioned with an all-around peplum. The bodice as well as the peplum was trimmed in white pique. She wore a white pique hat with a nose veil. White kid pumps completed her attire. Her flowers were a caplet corsage of white carnations and net, tied with white satin ribbon. She carried out the tradition of something old, new, borrowed, and blue.

Best man at the ceremony was Leonard Hoyt.

Mrs. Wolf is a graduate of Wellington High School with the Class of 1947, where she was very active in extra curricular work. At the time of her marriage, she was employed as an apprentice linotype operator at the Wellington Leader, and will continue her duties there following a short leave of absence.

Mr. Wolf attended schools near Little Rock, and has served three years with the U. S. Army. He was stationed in Washington, D. C., for most of his enlisted time. He is now an electrician at Plains Electric Company, having completed Refrigeration and Heating School in Chicago, Illinois, in 1950.

#### RECEPTION

Immediately following the ceremony, a reception was held in the dining room of the Scarberry home. After the couple cut the first slice of the wedding cake, which centered the linen covered table, it was served to the guests by Miss Vivian Scarberry, sister of the bride. Sherbet punch was served with the cake.

Present were Mr. and Mrs. J. M. Strong, Jr., Mrs. W. L. Scarberry, Mr. and Mrs. Leonard Hoyt, Rev. R. L. Porter, Jr., Mrs. G. W. Adkins, Mr. and Mrs. Eli Wolf, Mrs. Edward Young, Misses Virginia Robey, Bethine Adkins, Frances Bell, Vivian Scarberry, Reba Scarberry, Mrs. Cleo Robinson and son, Gary Don.

Following a short wedding trip to Amarillo, the young couple is at home in Wellington.

### Mrs. Beam Has Belles Letters

Mrs. N. C. Beam was hostess to the recent meeting of the Belles Lettres Club which met in her home Tuesday, March 20.

The program consisted of talks by Mrs. Bryan Denley, who spoke on "Health," and Mrs. A. B. Clark, who chose the topic of "Safety."

Arrangements of jonquils and snapdragons were used in the entertaining rooms. Refreshments of a salad plate and hot spiced tea were served from a lace covered table.

Present were Mesdames Cook Thomas, Dick Richards, Bob Leggett, J. W. Holder, Bryan Denley, A. B. Clark, Velma Warrick, and the hostess, Mrs. N. C. Beam.

### Dinner in Poling Home Sunday

Mrs. D. J. Poling of Arlie was hostess to a dinner Sunday, March 25, for members of her family and friends. Two sisters and a brother of Mrs. Poling and all of her children, with the exception of one son, Sgt. J. D. Poling who is in Korea, were present.

The place of honor went to the first great grandchild of Mrs. Poling, the tiny daughter of Mr. and Mrs. Garland Covey of Arlie.

Present were Messrs. and Mesdames J. B. Comer and son of Levelland, Richard Comer, Judy and Hugh, of Borger, Bud Comer of Oklahoma City, Dock Collins and Irma of Dodson, Arthur Covey and Kenneth, Garland Covey and daughter,

Messrs. and Mesdames Ted Poling, Bobby, David, and Patsy, Billy Charles Poling, Teddy Wayne and Cheryl, of Childress; John Powell and Clyde, Neil Powell, Dean and Brenda Carol, Lonnie Joe Whitten of Wellington, Mr. J. R. Shoff of Wellington, and the hostess, Mrs. D. J. Poling.

### Karon Cunningham Has First Birthday

Little Karon Cunningham, daughter of Mr. and Mrs. Orville Cunningham of Samnorwood, had her first birthday recently, and was honored with a party by her parents.

As the children arrived, they were given favors of balloons, Easter chickens and Easter eggs.

Refreshments of ice cream and birthday cake were served.

Present were Bobby Christie, Ann Coleman, Nancy and Joyce Alexander, Carolyn and Sammy Pullum, Michael Connors, Sammy Tipton, Larry Thompson, and the honoree, Karon Cunningham.

Darlene Rainey and Ruth Ann Stockett, who were unable to attend because of illness, sent gifts to the honoree.

### Two Honored in Shields Home

A birthday dinner honoring Alex Shields and Mrs. Berton Shields was given in the home of Mr. and Mrs. Alex Shields on Easter Sunday.

A bountiful covered dish luncheon was served to Mr. and Mrs. Berton Shields and family, Mr. and Mrs. Ted Shields and family of Carey, Mr. and Mrs. Edgar Shields and family of Childress, Mr. and Mrs. Warren Carter, Mrs. Nanny Parker of Childress, Mrs. H. E. Bell, Mr. and Mrs. C. E. DePauw, Mr. and Mrs. Charlie Shields and Anita of Childress, Mrs. Burt Huffmaster of Estaline, Mr. and Mrs. Joe Jett and family, Mr. and Mrs. Paul Bell and children, Mr. and Mrs. Guy Bell and family, Mr. and Mrs. Newell Shields and daughters, Pvt. Walker Shields of Fort Sill, Oklahoma, Carolyn Carter of Canyon, Glenna Shields of Abilene, and the hosts, Mr. and Mrs. Alex Shields.

Four A&M college students from the north part of the county home for the Easter holidays were Doug Payne, son of Mr. and Mrs. O. M. Payne of Samnorwood; Douglas Coleman and Dudley Coleman, sons of Mr. and Mrs. Wood Coleman of Dozier; and John Dee Coleman, son of Mr. and Mrs. Dee Coleman of Pleasant Mound community.

Mr. and Mrs. A. Y. Bell had as Easter guests their daughter and her family, Mr. and Mrs. Archie Copeland and son, Jimmy, of Lubbock. Sunday afternoon the group visited with Mr. Bell's niece, Mrs. Bagwell of Lelia Lake, who is ill in the Memphis hospital.

Mrs. Jack Covey

### Teresa Hunsaker-Jack Covey Unite in Marriage

Miss Teresa Beth Hunsaker of Lubbock, daughter of Mr. and Mrs. J. C. Hunsaker of that city, became the bride of Jack Covey of Lubbock, son of Mr. and Mrs. R. A. Covey of Loco, in a beautiful ceremony read before a number of friends and relatives in the First Methodist Church in Wellington, Saturday, March 24, at 11:00 a.m.

Rev. Lester L. Hill, pastor of the church, read the double ring ceremony at a kneeling bench, over which an archway was formed. Entwined in the arch was emerald fern, and at the top was placed a large blue ribbon bow with tiny silver wedding bells hanging from the ribbon. Large blue satin bows marked the family places.

Banking the altar were baskets of pink gladiolus, orchid stock, and emerald fern. Seven branched candelabra were placed on either side of the archway. To the strains of "Simple Aveu" by Thoma played by Benny Karnes of Denton, organist, Howard Moore of Lubbock and Jimmy Thompson of Wellington lighted the candles.

As prelude to the ceremony, Mr. Karnes played "Idyl" by Privilis, "Canzone Amoroso" by Nevin, with "To An Evening Star" by Wagner played softly during the recitation of the vows. The traditional wedding marches from Mendelssohn and Wagner were used as the professional and recessional for the wedding party.

Bridesmaids for the service were Miss Sue Anderson of Dallas and Mrs. Marvin Ross of Lubbock. Mrs. Wayne McClendon of Childress, cousin of the bride, was matron of honor. All wore identical ballerina length dresses of mauve marquisette over taffeta, fashioned with a high neckline, fitted bodice, and full, shirred skirt. The small sleeves were covered with tiny ruffles that extended from the waistline in the front to the waist in the back. Under the tiny round collar was a small self-fabric bow. The three carried crescent bouquets of pastel sweetpeas and Frenched carnations. Each wore a garland of sweet peas in her hair.

The bride, entering on the arm of her father, was lovely in an informal gown of ice blue nylon net over slipper satin. The dress was fashioned with a fitted bodice with long sleeves that ended in petal points over her hands. The yoke of the dress was outlined with lilies of the valley embroidery. The bouffant skirt had scattered appliques like that of the bodice.

Her head dress consisted of a fingertip veil of imported illusion caught to a bonnet cap of satin bands made in a lattice effect. She wore matching blue satin opera pumps. She carried a white Bible topped with a yellow orchid, from which fell showers of ice blue ribbon. Something old, new, borrowed, and blue completed her attire.

Bill Nelson of Wellington served as best man for the wedding, while Edmond Schaded of Wellington and C. G. Gray of Lubbock served as groomsmen.

Mrs. Hunsaker, mother of the bride, wore a dress of navy crepe with taffeta trim, a bonnet effect hat of navy straw, and used other navy accessories. She wore an orchid corsage. Mrs. Covey, mother of the groom, wore a two piece dress of moss green crepe and a hat of black felt. She used other black accessories and also wore an orchid corsage.

Mrs. Covey is a graduate of Wellington High School with the Class of 1946, and has attended the University of New Mexico at Santa Fe, and graduated from Southern Methodist University in Dallas with the spring class of

1951. She is a member of Delta Zeta, Theta Sigma Phi, and Gamma Alpha Chi.

Mr. Covey is a graduate of Wellington High School with the Class of 1945. He has attended West Texas State College in Canyon, and is now a student at Texas Tech in Lubbock. He is a member of the American Society of Mechanical Engineers, Tau Beta Phi, and Tech Military Association.

RECEPTION

Immediately following the ceremony, a reception was held in the parlor of the church. In the receiving line were Mrs. J. C. Hunsaker of Lubbock, Mr. and Mrs. Covey, and other members of the wedding party.

After greeting the young couple, the guests were registered in a white satin bride's book by Mrs. Barney Glenn.

The refreshment table was laid with a linen outwork cloth. Centering the table was an arrangement of blue florist foam holding six stately blue tapers. Placed between the tapers were three orchids, and in the lower part of the holder were shades of pastel sweetpeas.

The wedding cake was made in the shape of a large wedding ring, covered with white icing and decorated with pastel shades of orchid, blue, and pink. After the couple cut the first slice, it was served to the guests by Mrs. Fred Covey and Mrs. Gene Glenn. Mrs. Jim Covey presided at the crystal punch service. Assisting were Mrs. R. A. Covey, Jr., Mrs. Loren Thompson, and Mrs. Frank Anderson.

As the couple left for a short wedding trip to points in South Texas, Mrs. Covey was wearing a suit of gray sharkskin with matching short cape. She wore a yellow blouse, and black suede accessories. For her corsage, she chose the yellow orchid from her bridal bouquet.

They will be at home in Lubbock, where Mr. Covey plans to continue his education.

Sam Lindsey served as best man for the ceremony.

Mrs. Strickland is a graduate of Wellington High School with the Class of 1949. She attended West Texas State College in Canyon during the 1949-50 term. At the time of her marriage, she was employed by the Wellington State Bank as teller. She will continue her work there.

The bridegroom graduated from Wellington High School with the Class of 1949, and has attended West Texas State College and Cameron College in Lawton, Oklahoma. At present he is serving with the U. S. Navy at Camp Elliott, San Diego, California. He will report back there in fourteen days for further assignment.

For their wedding trip, Mr. and Mrs. Strickland visited numerous points of interest in New Mexico and Old Mexico.

ROSE IN BLOOM — Spring fashions recently unveiled by Paris designers include this red taffeta gown by Castillo of Jeanne Lanvin. The crepe silk fans out in a graceful arc, like the petals of a full-blown rose. A simple bodice is graced with a large diamond clip at one shoulder.

### Hunsaker-Covey Rehearsal Dinner

Immediately following the rehearsal of the Teresa Hunsaker-Jack Covey wedding at the First Methodist Church Friday night, March 23, Mrs. Barney Glenn was hostess to a rehearsal dinner in her country home for members of the wedding party. Co-hostesses with Mrs. Glenn were Mrs. John D. Glenn and Mrs. Loren Thompson.

The dining table was laid with a linen outwork cloth centered with an arrangement of mauve carnations, stock, and pastel sweet peas. Flanking the flower centerpiece were branched crystal holders, each bearing three lighted blue tapers. A menu of baked ham, candied yams, cauliflower, green beans, tossed salad, fruit salad, hot rolls, chocolate rolls, and coffee was served.

Present were Misses Teresa Hunsaker, bride elect, Jack Covey, groom elect, Mr. and Mrs. J. C. Hunsaker of Lubbock, parents of the bride, Rev. and Mrs. L. L. Hill, Mr. and Mrs. Marvin Ross of Lubbock, Mrs. Wayne McClendon of Childress, Miss Sue Anderson of Dallas, Edmond Schaded,

C. G. Gray of Lubbock, Bill Nelson, Jimmy Thompson, Mr. and Mrs. John D. Glenn, Mr. and Mrs. Loren Thompson, and Mr. and Mrs. Barney Glenn.

Mr. and Mrs. A. Y. Bell had as Easter guests their daughter and her family, Mr. and Mrs. Archie Copeland and son, Jimmy, of Lubbock. Sunday afternoon the group visited with Mr. Bell's niece, Mrs. Bagwell of Lelia Lake, who is ill in the Memphis hospital.

## Two Dishes Easy on Purse and Palate

BY EDNA MILES

WITH soaring food prices threatening to pop the lid off the food budget each week, dishes that combine economy, nutrition and taste appeal find an important spot in the meal-planner's book.

Macaroni, spaghetti and egg noodle dishes fit this category and because they lend themselves to wide variation with sauces, meats, leftover meat, fish and vegetables, may be repeated often without loss of savor.

This spaghetti with white clam sauce is a quickie, too. Less than 15 minutes preparation should do it.

#### Spaghetti With White Clam Sauce (four servings)

Two tablespoons chopped fresh parsley, 1 chopped clove garlic, 1 chopped onion, ¼ cup olive oil, ½ teaspoon salt, ¼ teaspoon pepper, 1 large can minced clams, 1 package thin spaghetti.

Brown parsley, onion and garlic in hot olive oil until ingredients are cooked. Season with salt and pepper. Add clams and simmer for about 5 minutes. Don't overcook or clams will become hard. Drop spaghetti in boiling salted water. Keep water boiling. Stir occasionally. When tender, run cold water into hot water. Drain and serve with sauce.

#### Macaroni and Cheese Supreme (six servings)

One pound jumbo macaroni, 2 tablespoons butter, 2 tablespoons flour, 2 cups milk, ¾ teaspoon pepper, 1 teaspoon salt, ½ pound American cheddar cheese, ½ cup buttered bread crumbs.

Cook macaroni in boiling salted water. Drain and place in casserole. Melt butter in sauce pan, add flour and blend. Add milk and stir slowly until sauce thickens. Season.

Flake cheese and scatter over macaroni. Cover the top with buttered bread crumbs. Pour sauce over all and bake in a moderate oven (350 degrees F.) 30 minutes.

Mrs. Jack Sherrill

### Jean Morgan Weds Jack Sherrill in New Mexico

Miss Jean Morgan of Hobbs, New Mexico, daughter of Mr. and Mrs. Ira Morgan of Quail, became the bride of Jack Sherrill of El Paso, son of Mr. and Mrs. Cliff Sherrill of Hobbs, Saturday, February 24, in the First Baptist Church in Hobbs.

The impressive double ring ceremony was read by the Rev. Earl Keating, pastor of the church, before an archway entwined with greenery and white carnations. Other arrangements of greenery and flowers flanked the archway.

Given in marriage by her brother, Jack Morgan, a student of West Texas State College, the bride was lovely in an original dress of pale blue shantung. Her cloche hat was of pink amethyst with a background trim of mauve and mauve tulle. Her gloves, mitts, and bag were of pink amethyst. Her flowers were a corsage of pink camellias.

She carried out the tradition of all brides, that of something old, new, borrowed, and blue. A handkerchief belonging to her mother was something old, her wedding costume served as something new and blue, and for something borrowed, she wore a necklace of black onyx surrounded by diamonds. The necklace was made in South America and belonged to a close friend of the bride, Mrs. Newton Sanders.

Miss Doris Downs of Avinger, Texas, served as maid of honor. She chose a two piece dress of navy shantung, complimented with chartreuse accessories. Her shoulder corsage was of white camellias.

Jake Williams of Hobbs was best man. The bride was graduated from Quail High School with the class of 1946. She graduated from West Texas State College in 1950 as a speech major. A member of Delta

Zeta Chi Sorority, Buffalo Maqueurs speech fraternity, Alpha Rho Tau radio fraternity, she was elected as senior representative to the Student Senate, a governing body of the college. For four years, she was chosen as college beauty and represented the college as Sun Princess in El Paso in 1948-49. In 1948, she was sponsored by the college in a contest which lead to the "Miss America" contest. She is now fourth grade teacher at the North Hobbs Elementary School, and will continue her work there.

The bridegroom is a graduate of Hobbs High School, where he was an outstanding boxer. He won many trophies and medals and was offered several scholarships from colleges in boxing. He was employed by the Drillers Exploration Company in Hobbs until November at which time he entered the armed service. He is stationed at Fort Bliss at El Paso, Texas. He plans to continue his education following his service with the Army.

Immediately following the wedding, a reception was held in the church parlor.

The couple took a short wedding trip to points of New Mexico and Colorado.

Mr. and Mrs. Sherrill are visiting with her parents, Mr. and Mrs. Ira Morgan, at Quail. Mr. Sherrill will leave for overseas duty in the very near future.

### H. D. Council Meets Saturday

The Collingsworth County Home Demonstration Council met Saturday afternoon, March 24, for its regular monthly meeting in the office of the Home Demonstration Agent, Miss Jo Wylie.

During the business session, the council members decided to buy prizes for the first, second and third place winners in each of the six divisions of the 4-H Club Girl's Dress Revue to be held on May 4th. Mrs. Thurman Crownover, Mrs. Guss Gooch, and Mrs. Charles Cason, Sr., compose the purchasing committee for the prizes.

The council also voted to pay for the labor in having the interior of the agent's office re-finished.

Final plans were made for entertaining the District T. H. D. A. Convention to be held in the community building on April 12.

Present for the meeting were Mesdames M. C. Cleveland, Jack Lowry, Walter Franks, Charles Cason, Sr., Guss Gooch, A. L. Honeycutt, J. L. Alexander, Joyce and Nancy, W. M. Tucker, Nathan Thompson, T. J. Bowling, Thurman Crownover, H. C. Yarbrough, H. B. Lowrie, Hubert Mauldin, Otis Bradley, Alfred Knoll, Misses Jessie Fuson, Inez and Mable Clement, and Jo Wylie.

### Fresno H. D. Club Meets Tuesday

The Fresno Home Demonstration Club met in the home of Mrs. A. B. Hicks Tuesday afternoon, March 20, for its regular meeting. The meeting was called to order by the president, Mrs. H. B. Lowrie. The group then sang the song, "America."

Plans were made to bring food for the T. H. D. A. convention luncheon, which will be held in Wellington April 12.

Present were Mesdames W. A. Morrow, Hubert Mauldin, Gayland Rippetoe, J. E. Forbis, John Forbis, E. C. Clement, D. F. Roberts, J. L. Gladney, Misses Mable Forbis, Jo Wylie, Inez Clement, Mable Clement, and the hostess, Mrs. A. B. Hicks.

The next meeting will be in the home of Mrs. Gayland Rippetoe on April 3.

## Requirements For 100 Bushels of Corn Per Acre

COLLEGE STATION—Corn planting time is here or even past in some sections of Texas and many farmers have their sights set on producing yields of 100 bushels or more per acre. Such yields are becoming quite common in the corn producing areas of the state but there is more involved than meets the eye says M. K. Thornton, extension agricultural chemist of Texas A. & M. College.

He says many different plant food elements are required by the growing corn plant before it can be expected to produce a hundred or more bushels per acre. An acre of corn producing at the rate of 100 bushels, represents the following: 4,000 pounds of stover; 1,400 pounds of cobs; 5,600 pounds of shelled corn and 5,200 pounds of root and stubble. This makes a total of 16,000 pounds of air-dry matter and excluding all water, amounts to about 14,200 pounds of moisture-free dry matter. That kind of production points out Thornton, means the soil must be fertile and much of the plant food must through necessity be added in form of fertilizers.

Here according to Thornton, is what research has found it takes to produce this enormous amount of dry matter on one acre of land. From 4.3 to 5.5 million pounds of water or 19 to 24 inches of rainfall; 6,800 pounds of carbon dioxide which is equal to the amount of carbon in four tons of coal; 18 pounds of nitrogen or eight 100 pound bags of 20 per cent nitrogen fertilizer; 40 pounds of phosphorus or its equivalent 450 pounds of 20 per cent superphosphate; 125 pounds of potassium or the amount in 250 pounds of 60 per cent muriate of potash; 75 pounds of yellow sulphur; 50 pounds of magnesium, the amount found in 500 pounds of epsom salts; 50 pounds of calcium or its equivalent 150 pounds of limestone; two pounds of iron; three-tenths of a pound of manganese; six-hundredths of a pound of boron and traces of chlorine, iodine, zinc, and copper.

Good farming practices such as growing a fertilized legume crop on the land prior to the planting of the corn will add much of the

## Mother of Two Praises Hadacol

HADACOL Supplies Deficient Systems With Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron

Mrs. Elmer Hise, 3225 2nd Ave., Council Bluffs, Iowa, is a good mother, and like all good mothers she keeps a careful watch for the welfare of her two young children.

And when little four-year-old Lucille Hise wasn't feeling as her mother knew she should do something about it. Mrs. Hise gave Lucille HADACOL because she had heard how much it was helping children who had poor appetites and stomach distress caused by deficiencies of Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron and Niacin. It helped her so much that now Mrs. Hise gives HADACOL to both of her children.

Here is what Mrs. Hise says: "My daughter has taken two bottles of HADACOL and she has been eating more than before and also sleeps better. I think HADACOL is the best thing for children who do not have an appetite. My daughter is four years old. Before taking HADACOL my daughter complained of her stomach hurting her, and I got her a bottle of HADACOL and she says her stomach doesn't bother her any more. I think HADACOL is wonderful. I am also giving HADACOL to my three-year-old daughter."

**HADACOL Is So Effective**  
An important thing about HADACOL is that you get Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron in liquid form, which means that they are quickly absorbed and dispatched to the blood stream, ready to go right to work. HADACOL helps build up the hemoglobin content of the blood (when Iron is needed) to carry these precious Vitamins and Minerals to every part of your body.

**WHAT, NO MEATBALLS?**—Knowing thoroughbreds are temperamental, owners of speedy Solero, recently imported to Miami, Fla., from Italy, prepared a side order of spaghetti for the horse. Solero, however, appears to be holding out for some of that American hay he's heard about.

needed plant food to the soil, says Thornton. Practices that conserve soil and water are very important and then good seed of the best adapted corn hybrids push up yields.

Thornton says it is a good idea to have soils tested so as to remove the guessing on just what plant foods are needed in the soil. Those lacking can be supplied by the application of fertilizers or by growing legumes. He believes that crop yields in Texas will continue to increase because farmers are paying more attention to the farming practices—that not only conserve soil and water but that actually are building up the tilth and fertility of the soil.

## Bible Comment FOR APRIL 1

### Christianity Is No Life of Ease

The late C. Sylvester Horne, famous minister of Whitefield's Tabernacle in London, England, wrote a book under the title, "The Life That Is Easy." It was the Christian life of which he was writing and so the title proved misleading to many.

True Christianity is not an easy religion. Jesus never offered his disciples ease or pleasure. He offered them joy.

He bade them in a very dark hour to be of good cheer. He spoke of rich-rewards of service in the Kingdom of Heaven. But He always spoke of sacrifice. Did not He describe the Kingdom as a pearl of great price which one should be willing to sell all for?

The distinctive thing about the religion of the Jews from early times was the insistence upon the supreme demands of a righteous God. Clear and plain was the commandment, "Thou shalt have no other Gods before me." Holiness was the law of life.

In this, Jesus fulfilled the law and the prophets. He gave His followers no formal tasks and set up no artificial observances or duties. He demanded no allegiance to Himself, except in the same way He gave allegiance to the Father.

And so the life of Christianity should not be construed as an easy one. The ease that Rev. Horne wrote of was the ease of mastery through long and intimate fellowship with the Master.

There is no half-way place in Christianity and that is why so many professing Christians never find either ease or happiness in their religion. It is in the lives of those who have given themselves fully to Christ that the power, beauty and true satisfaction of the Christian way are found and revealed.

# Blood--Typing

Is FOR YOU - and - YOU - and - YOU!

Support the blood typing program. Give five minutes of your time to this important piece of business. It won't be a ripple in your day's affairs. It may be the means of saving your life in case you are badly injured or seriously ill, or of saving the life of someone you love.

As our own small part in the civilian defense program of the nation, we cannot afford to let this blood typing opportunity pass. Our country has been good to us through the years—now that it is asking this small thing of us in a program that means much to us, this firm urges you to co-operate to the fullest by having every member of your family between the ages of 12 and 60 blood typed at one of the stations between April 2 and 14.

In the 1951 Mobilgas Economy Run, three Studebakers successfully defended their reputation for stand-out gasoline mileage. The Studebakers were piloted by experienced drivers under A.A.A. Contest Board rules. Each Studebaker had overdrive, optional at extra cost—and used regular, not premium, gas. See your Studebaker dealer.

**SWITZERLAND CHALLENGES THE SOCIALISTS**

The present-day political leadership of Europe has been struggling desperately to make Socialism work as a way of life and system of government in first one nation and then another. The results have been an unproductive "austerity" and personal regimentation for the citizens and a sapping of the strength of the nations themselves.

In this stagnant sea of European Socialism, how can political leaders who rose to power by condemning free enterprise capitalism explain away little Switzerland, right in their midst, with its grass-roots republic, its freedom for individuals, and its steel-hard national strength. They can't. For there it is, in almost the exact center of the European Socialist world, gracing the beautiful Swiss Alps—a living, tormenting challenge to the Socialist propagandists. The facts about free enterprise Switzerland are sadly being overlooked by Europeans.

**HIGH LIVING STANDARD**  
Switzerland's splendid progress with the free enterprise system is a challenge particularly to England, because historically the little Alpine country has had many of the basic problems besetting England—lack of natural resources (she has neither coal, oil nor iron), inadequate agricultural production, a heavy dependency on imports. Switzerland, like England, has had to build a substantial export business to get money to buy the food and goods she needs to exist. Unlike England she hasn't had the advantage of heavy industry.

When I visited Switzerland a few years ago after a tour through other European countries, the high living standard and the self-reliant, buoyant spirit of the Swiss people were thrilling to behold. Harding College is sponsoring this year a study tour of Europe by Dr. W. T. Bean, principal of the Butler (Pa.) High School. When he returns he will make reports, especially on education under Socialism, to various groups of the American education profession.

**A THRIFTY PEOPLE**  
Dr. Bean has already visited four European countries which are groping in a maze of Socialism, and his last letter comes from Switzerland. "I'm enthusiastic about Switzerland!" he writes from Hotel Glockenhoff, Zurich. "Out of necessity, the Swiss have become frugal, thrifty people employing every device and scheme to get the most out of what they have. They've built 6,000 power stations to develop electricity from the fast flowing mountain streams, and so they have offset the great disadvantage of having no coal and no oil. Since they have no minerals, they have become skilled in fabricating finished products.

"The rugged terrain, of no commercial value, has been developed into a world-important tourist center; and the Swiss operate the world's best hotels and make a fetish of service. To supply transportation to these sports, they have developed an incredible network of railroads (about 50 per cent of it government owned) — electrically operated, efficient, and immaculately clean. And thus they have capitalized on a national handicap.

**GRASS-ROOTS GOVERNMENT**  
"In a political way the Swiss are even more remarkable. Unlike other countries, the national government is purely on a secondary level. The 22 States, or Cantons, are the real governmental agencies; and yet, the heart of the government is in the communities, where the process is similar to our concept of the 'Town Meeting.' Free enterprise is the basis of excellent business-labor understanding... there have been no strikes in Switzerland since 1937, due more to the understanding of the issues than to any complicated set-up of labor machinery. The schools

**OVERRULES HANDICAP** — Twenty-seven-year-old Edith Fisch, who has been unable to walk since she was 12, has earned three law degrees at Columbia University. This is an accomplishment never matched by man or woman in the university's history. Edith, a polio victim, hopes to teach at Columbia soon.

**Lennon Gives Dodson's 4th Honor Roll**

T. E. Lennon, superintendent of the Dodson schools, announced the honor roll for that school for the fourth six weeks which has recently ended.

Twenty-four of the list comes from the grade school, with only six from high school included.

The list, according to grades, is as follows:

First grade: Kenneth Norman, Gary Don West.

Second grade: Eddie Hunt, Bobby Fillpot, Joe Lennon.

Third grade: Mary Ann Wynn, John Aaron, Don Stewart, Charles Roberts, Carolyn Smith.

Fourth and fifth grade: Zenith Swift, Mary Ellis, Albert Mosenbocker, James Neal Byrd.

Sixth and seventh grade: Geraldine Weaver, Cletha Watson, Jeanette Nipper, Nancy Tipton, Billie Ruth Boggs, Barbara Lennon, Ann Aaron.

Eighth grade: Billy Musick, Fredricka Boyd, Leona Chrisco.

High school: Raymond Daugherty, Johnnie Aaron, Buddy Cornelius, LaVanda Hudson, Pauline Musick, Marilyn Hunt.

of Switzerland are excellent.

"The free enterprise system has done much for the country. Coupled with a love of freedom and the challenge of great handicaps, it has paid off well. The cities reflect good living. The people are well-dressed. The stores are well stocked and the prices are fair. The real raw material of Switzerland is Liberty, and I know of no other country where the citizens understand its meaning quite so well and are so readily willing to undertake the responsibilities that go with it."

People everywhere in the free world should accept this challenge to understand Liberty and to shoulder the responsibility which it confers.

# I Saw-

By VIRGINIA ROBEY

Attorney W. M. Tucker saying if the price of coffee goes up to a dime it will just about put him out of business. He drinks from 12 to 15 cups a day, and seldom if ever less than 10. "It doesn't keep me awake," he says. "In fact, if I'm worrying about a case after I go to bed, I can get up and drink a cup of hot coffee and I'll go right to sleep." He starts the day off with five cups of old-fashioned cowboy boiled coffee as soon as he gets up in the morning. It's made in a percolator, the coffee making parts of which he threw away.

Bess Owen saying his real name was Bester. It's a family name, as he was named for his father, who was named for his father, and who in turn was named for his father — the Wellingtonman's great grandfather. Bess has been told that the name goes even farther back in the family than that.

Some of Ed Poole's friends calling him "One Hundred Percent Poole." This comes from his having won all the cases he's tried before a jury in county court.

An unsigned item on Dodson's cleanup campaign: "When a woman gets that certain gleam in her eye this season of the year, something is bound to happen, and that gleam has appeared in the eyes of all the members of the Dodson Civic Club. Maybe it's because it's spring, but whatever the reason, the women of Dodson are waging a Cleanup War. The women started the war and now the entire town is involved."

When the Wellington Leader's apprentice linotype operator-reporter Peggy Scarberry was married to Ray Wolf Saturday, they weren't the only ones who admitted nervousness. R. L. Porter, Jr., a minister as well as owner of the Pullman Cafe, was performing his first marriage. Peggy formerly worked for him. (Although there aren't many girl linotype operators, the newspaper profession considers them just as good as men operators, and with the draft taking the young men, more and more papers are looking around for girls to train).

Mrs. Pink Sullivan adding something to book reviews in the one she gave before members of the Domestic Science Club recently on the recently-published life of Lydia Pinkham. So-o-o she went down to a drug store and got a bottle of the famous lady's compound to accompany the review. Reports are it was not for sampling purposes, but only so they could read the advertising printed on the bottle.

Supt. T. E. Lennon of the Dodson schools saying this year's class is the smallest in history so far as he knows. There's three boys and one girl — Geraldine Wood, Teddy Max Crownover and A. B. Smith Jr. Originally there were five girls, but four have married since the term opened and have dropped out of school.

Edmond Schaded anxious to get the scores on the National Association of Intercollegiate Basketball Association Play at Kansas City. His alma mater, Regis College at Denver, was playing.

G. H. Wallace, who is responsible for the beautifully cared grounds of St. Joseph's Hospital, saying when he was one of the hospital's patients recently, that it was the first time he'd been sick enough to have a doctor since he was a boy in his teens. He was living in Tennessee then and went

**ELKS MEET TO EAT**—These members of a herd of over one thousand elk fed at an open field near Yakima, Wash., after being driven from the Cascade Range by sub-zero weather. The Washington Game Department, which is providing the food for the animals, is attempting to concentrate them at feeding spots to prevent foraging on nearby ranches.

DISCUSS THE

# Problems Of Agriculture Quail School

## Thursday, April 5, 7:30 p. m.

Because we believe agriculture is the basis of the entire economic structure of this area, The First National Bank is sponsoring, through the extension service the appearance here of J. C. Porter, a man who knows as much about the farming problems of North Texas as anyone in public life.

You'll sit up and take notice when you hear him, and he'll give us plain facts on the agricultural problems of this area.

Mr. Porter knows the busi-

ness man's stake in the agriculture of the county, and he will bring home the importance of business-farmer co-operation.

Seeing the tremendous need for agricultural progress in this area, we are proud to work with Mr. Porter and the Bank he represents.

The only way this area can prosper and progress is for all of us, working together as individuals and institutions at the job of saving and building our land.

## One Hundred Seventy Attend Quail Banquet Saturday Night

Approximately 170 ex-students and guests were present for the Quail Alumni banquet held in the Quail high school gymnasium, which was decorated with a western motif, Saturday night, March 24. Presiding at the banquet this year was Billy Joe Pegram of Wellington, president of the alumni association.

Beginning the program, Fred Bourland, president of the Quail school board, gave the invocation. James Frederick Lederer and Phil Handley of Wellington, offered two musical selections, "Indian Love Call" and "Moonlight and Roses," with James Frederick playing the trombone and Phil accompanying him at the piano.

Effie Spears sang "Mocking Bird Hill" and a religious selection, and was accompanied by Mrs. Lowell Wells, music teacher for the Quail school, on the accordion.

Herman Moseley, superintendent of the school, introduced members of the Quail faculty and school board to the guests. He also introduced the members of the various classes which attended the banquet.

Receiving the prize for traveling the longest distance for the banquet was Hoyt Langley, who came from San Francisco.

Following the introduction of the guests, Miss Eloise Aaron sang "It Is No Secret" and "God Bless Us and Keep Us," accompanied at the piano by Mrs. Jack Brisbin of Wellington.

Highlighting the evening was the election of officers to be in charge of the celebration for 1952. Jack Brisbin of Wellington was chosen president, with Avyrella White as vice president. Mrs. Bynum Hightower of Dodson is secretary, Mrs. Gorman Owens of Wellington is treasurer. Included on the program committee for next year are Cleo Robinson, Mrs. Frank Coleman, and Mrs. Jack Brisbin.

A ranch style meal of barbecue, beans, potato salad, apple sauce, tomato and lettuce salad, bread, onions, pickles, ice cream, iced tea, and coffee was served.

Decorating committee for the banquet included Naomi Neeley, Mrs. Lewis Morris, Mrs. John Driskill, Olin Richards, and Ralph Bradley.

Guests included Mrs. Travis McGuire, Class of 1936; Class of 1938, Jack Brisbin of Wellington, Gorman Owens of Wellington, J. I. Morgan of Quail, Elvis White of Fort Worth; Class of 1939, Jess L. Robinson of Vega, Mrs. Austin O'Neil, Jr., of Abernathy; Class of 1940, Mrs. Gorman Owens of Wellington, Mrs. Jack Brisbin of Wellington, Mrs. Buster Sublett of McLean, Bill DePauw of Quail;

Class of 1941, R. D. Wiginton, Dallas, Mr. and Mrs. R. B. Johnson of Wellington, Burlin V. Wilson of Cactus, Cleo Robinson of Wellington, Buford Graham of Quail, Mr. and Mrs. James Miller of Memphis, Mrs. Bynum Hightower of Dodson; Class of 1942, Omelee Wiginton of Dallas, Vaudell Wilson of Cactus, Addierene French of Lubbock;

Class of 1943, Carl Wischkaemper of Quail, Mr. and Mrs. Earl Shields of Sunray, Mr. and Mrs. Freddie Poteet of Dumas, Mr. and Mrs. Dale Farris of Dumas, Mrs. David Peters of Quail, Naomi Neeley of Quail, Louise Moss Bevers of Hedley, Thelma Moss of Hedley; Class of 1944, B. J. Pegram, Wellington, Pauline Boyles of Amarillo, Opal Pegram of Tucumcari, New Mexico, Alpha Brock of Wellington, Frank Coleman, Jr., of Quail;

Class of 1945, Mrs. Virgil Robertson of Amarillo, Ted Brock of Wellington; Class of 1946, Loyd Langley of Quail, Alvie T. Clay of Hedley, Mildred Langley of Quail, Glenna Shields of Abilene, Alline Boyles of Wellington, Nelda Mae Hudson of Amarillo, Connie DeBord of Hedley, Barbara Coleman of Quail, Willa Jean Hallmark of Quail, and Viola Sisk, Quail;

Class of 1947, Hoyt Langley of San Francisco, California, Roy Canada of Quail, Faye Neeley, Lubbock, Delbert White of Hedley, Raymond Neeley of Quail; Class of 1948, Mrs. Robert Barjenbruch of Wellington, Jimmy Shields of Wellington, Eloise Aaron of Wellington, Mrs. D. E. Timmons of Amarillo, Mr. and Mrs. Jack Shields of Twitty;

Class of 1949, Calvin Tow of Wellington, Mae Patterson of Quail, Avyrella White of Hedley, Mr. and Mrs. Mearl Parker of Wellington; Mr. and Mrs. Hubert Saunders of Wellington, and Jim Pegram of Canyon; Class of 1950, Donald Langley of Quail, Kenneth Maxwell of Quail, Richard Boyles of Quail, Donald Dollar of Wellington, Kenneth Jett of Wellington, Iva White of Wellington, Wanda Johnson of Wellington, Leroy Brown of Wellington, Billy Jack Phipps of Wichita Falls, Joyce Burdine of Amarillo, Toby Lancaster of Amarillo, Johnnie Fuson of Corpus Christi, Clyde Shannon of Buffalo, Oklahoma, Drusilla Gibbs of Bethany, Oklahoma, Rosa White of Wellington, Jan Allen of Fort Worth;

Class of 1951, Reba O'Hair, Mary Louise Robinson, R. C. Owen, Helen Wischkaemper, Paul Spear, and Buddy Price, all of Quail. Former teachers attending included Mr. and Mrs. Noah Cunningham of Whiteface, and Mr. and Mrs. Verbal Gosnell of Kansas City, Kansas.

Guests attending included Mrs. Jess L. Robinson of Vega, Austin O'Neil, James Cunningham, Mr. Bevers, Mrs. Elvis White of Fort Worth, Robert Barjenbruch, Buster Sublett, Mrs. Cleo Robinson, Mrs. Buford Graham, Bynum Hightower, Mrs. Herman Moseley, Mr. and Mrs. M. T. White, Mr. and Mrs. J. M. Tidwell, Johnny French, Roy Bevers, Ralph Bradley, Mrs. B. J. Pegram, Cecil Hallmark, Dr. Clyde S. McCain, D. E. Timmons, Mr. and Mrs. C. A. Wright, Mr. and Mrs. Jack Phipps, Mr. and Mrs. Fred Bour-

**BALANCING HIS BUDGET**—This smiling Haitian basketmaker has good reason to be happy, for the huge hampers he is carrying will bring him a total of \$3.50—enough to feed him for two weeks. However, the craftsman must travel 22 miles down through the hills to Port-Au-Prince in order to sell his seven hand-made articles.

### Snazzy Malone of Vernon Honored

By MRS. Z. O. MCKINNEY  
Mr. and Mrs. L. A. Rollings were hosts to a party honoring their grandson, Snazzy Malone of Vernon, on his 13th birthday on Easter Sunday.

A lovely dinner and Easter egg hunt were enjoyed.

Present were Mr. and Mrs. Ed Malone and Snazzy of Vernon, Zenith Swift, Eddie Hunt, and the hosts, Mr. and Mrs. L. A. Rollings.

### Former Residents Have New Home

Mr. and Mrs. Fred Cagle of Amarillo, formerly of Quail, have moved into a new modern home there, and recently entertained a number of friends with a social. The group included the directors of the Training Union of the Friendship Baptist Church in Amarillo.

Present were Mr. and Mrs. W. T. Elza, Union Director; Mr. and Mrs. R. E. Getlin, Educational Director; Mr. and Mrs. R. B. Brummett, Church Secretary; Mr. and Mrs. Hugh Sullivan, Union President; Mr. and Mrs. C. B. Ausmur, Adult Training Director; Messrs. and Mesdames T. O. Richardson, L. T. Long, Joe Sneed, Joe Ostrander, Glenn Chambliss, Gus Thompson, Otis Milton, R. R. Bell, L. L. Gilley, and Mrs. Grace Blair.

land, Mr. and Mrs. Dalton Vaughn, Miss Elna Duce, Mrs. Lewis Morris, Olin Richards, and a number of others who failed to register.

Mrs. B. W. Baird was hostess to the club for their March 7 meeting. Mrs. Charles Cason, president, was in charge of the meeting.

Miss Jo Wylie gave a demonstration on putting in a zipper. Eight members and four visitors attended.

On March 21, the club met in the home of Mrs. Charles Cason, Jr., with Miss Jessie Fuson in charge of the meeting.

Mrs. Jack Nelson gave a demonstration on cutting plaids and stripes.

Final plans were made for the T. H. D. A. meeting to be held here on April 12.

Nine members and one visitor was present for this meeting.

The next meeting will be in the home of Mrs. Charles Cason, Sr. on April 4. All members are urged to attend.

### L. Bennett Has Beta Zeta Chapter

The Beta Zeta Chapter of Epsilon Sigma Alpha met in the home of Miss Lucille Bennett Thursday, March 22, for its regular meeting.

Plans were discussed for the District Meeting of the Panhandle Council of Epsilon Sigma Alpha which will be held in Wellington on April 15.

Refreshments were served to Mrs. Willie B. Harwell, Ernestine Brewer, Helen Poole, Misses Dora Elizabeth McClaskey, Anna Lee Graham, Dorothy Robertson, and the hostess, Miss Bennett.

### Domestic Science Hears Mrs. Sullivan

Mrs. S. R. Pinkston was hostess to the regular meeting of the Domestic Science Club in her home the afternoon of Thursday, March 15.

For the program, Mrs. Pink Sullivan reviewed the book, "The Life of Lydia Pinkham" by Jean Burton.

Dainty refreshments of a salad plate and coffee were served to

Mmes. L. C. Hill, Cleo Templeton, Deskins Wells, J. M. Orr, Jimmie Lorente, L. E. Gribble, Pink Sullivan, Henry Sullivan, Dr. Darlene Hunter, and the hostess, Mrs. S. R. Pinkston.

### Ruby Blythe Weds Harvey Brumley

Miss Ruby Blythe, daughter of Ross Blythe of Wellington, became the bride of Harvey Brumley of Hollis, Oklahoma, Monday afternoon, March 25, at 2:00 p.m.

The vows were read in the office of Justice of the Peace Raymond N. Horton. Judge Horton read the service.

Mrs. Brumley attended the Wellington schools, while the groom attended the Hollis schools. They will be at home in Hollis.

Broad base terraces provide year around erosion control.

### Norwood Church Has Study Course

The First Baptist Church of Samnorwood will complete a five day special Soul Winning study course on Friday night, March 30.

This study, sponsored by the Training Union Department, under the direction of Tom R. Cunningham, director, is being conducted in four departments. The adults studying the book, "Every Christian's Job," Rev. W. C. Stoekett, pastor, is teaching the adult class.

The young people with Mrs. Ruby Ledbetter as teacher as studying the same book that is used in the Adult Department. Mrs. G. W. Laycock is teaching the Intermediate class, "Intermediate Fishers." Rolan Bryan has charge of the Junior Department and is using the book "Jesus Saves."

ning is being made in preparation for a Revival Meeting to be conducted April 1st through the 8th.

### Boltons to Observe Golden Wedding

By MRS. R. H. ISBELL  
Mr. and Mrs. Sherd Bolton of Dodson will celebrate their golden wedding anniversary Saturday if Mrs. Bolton's health permits. She has been ill.

If she is able, they want all their old neighbors and friends to attend who can come. Just take a covered dish and spend the day.

Mrs. Vernon Kerns of Tulare, California, is visiting her sister and brother-in-law, Mr. and Mrs. Ray Peoples and children.

Richard Coker of Bryan visited his father, Judge R. H. Coker, over last week end.

## Doherty Nursery

HEDLEY, TEXAS

Located just South of Masonic Building on Main Street  
WE WANT TO CLOSE OUT NEXT WEEK

OFFERS THE FOLLOWING: Fruit trees; Peach, Early Wheeler, Red Haven, Golden Jubilee, Elberta, Frank and Hale Haven, probably the best for this section, nearly always makes fruit. 4 ft. 60c each, the right size to plant. Larger trees a little higher. Plum—Bruce, Santa Rosa, Oka and that great canning plum Sapa, 50c to \$1.25. Apricot—Moorpark some larger ones for yard use. Fine trees 50c to \$1.35. Apples—Golden Delicious, King David and Johnathan.

Heavy trees — 75c to \$1.35  
Pears—Kieffer, Garber, Le Coretse and Douglas, quick bearing. Heavy trees \$1.10 to \$1.35. Fine for yard use.

Surecrop nectarines, nice trees, 75c each  
We have some fine montmorency Cherry trees — \$1.35 each.

Pecan Trees — fresh dug western varieties 5 ft. or more \$3.00 each.

Flowering Shrubs—Fine plants, Crape Myrtle, Watermelon Red and Purple. Snowball with that big white flower, Mock Orange, Althea, Hydrangia Forsythia, flowering Quince, Bridal wreath and Red Bud trees. All at popular prices.

Have a nice lot of Privet hedging.  
Gem everbearing strawberries, 4c each.

We have been here nearly 47 years and know a little about plant life for this section. Home owners who need some of this material, we invite you to come to see us. Now is a good time to put it out.

## Domestic SEW MACHINE HELPS YOU PERFORM SEWING WONDERS

- JUST LOOK AT THESE FEATURES:**
- Dial tension control easily adjusted for loose machine basting or regular sewing by numbers.
  - Hinged Presser Foot eliminates hand basting by enabling you to sew right over pins and heavy seams.
  - 4 Point Feed assures straight stitching by gripping material evenly at the front, back and sides of needle.
  - Pop-Up Fingertip Release releases pressure on the foot so that darning and mending may be done quickly.
  - Built-In Sewlight puts illumination on your sewing right at the needle-point where it is needed most.
  - Forward and Reverse Sewing — a quick way to back-tack seam ends, reinforce corners without stopping machine.
  - Revolving Spool Pins keep thread from getting tangled or broken.

**FREE**

With every machine sold in April we will give free a pair of Wiss

**Pinking Shears Value \$8.50**

and a pretty waste basket to hold your cuttings and scraps.

**BARGAIN** — Antique Oak 8 piece dining room suit Credenza—table, host chair, 5 arm chairs, excellent condition.

### Area Students In Recognition Program at Tech

Three area students were honored at the recognition convocation of Texas Technological College last week when honors were presented by Dr. D. M. Wiggins, president.

Individual honors were given students who are recognized for the first time; class honors for the second recognition; divisional honors for the third recognition and college honors for the fourth time.

Individual honors went to Jack B. Covey, a senior from Loco. Tim Hatch was awarded a football letter and Ted O'Neil received a basketball award. Thomas Cleveland of Belgian Congo, who spent the summer of 1949 with Mr. and Mrs. Joe Baumgardner, was recognized for student leadership; and a former resident, Gene Todd of Quanah, received a scholarship in agriculture.

### Groom Your Flower Garden

COLLEGE STATION—Flowers are loved and desired by almost everyone and they can add to the landscaping of your home if they are chosen carefully and their location wisely selected. Sadie Hatfield, specialist in home-stead improvement with the A. & M. College Extension Service, says that good grooming on the lawn and in the flower garden is just as necessary as it is for the person.

Perennials are recommended by the specialist because they have been tested and proved reliable and hardy. Plants giving a long season of bloom are preferred, but the specialist warns against growing plants that will turn into a pest. For instance, hollyhock seeds are scattered about sometimes and they take up a lot of space that could be used for other plants.

Perennials grow in beds, rock gardens, in front of shrubs, along walls, or in the vegetable garden. Miss Hatfield suggests that plenty of room for each plant and variety be allowed. If perennials are grown with a hedge background they should have three to five feet of space between them and the hedge.

Annual flower perennials, the specialist says, belong in the service area or private area just as much as they belong in the front yard, which is generally considered more of a public area. To insure neatness she suggests making a plan on paper so each variety will be placed properly.

Some of the perennials which thrive in almost all parts of Texas require relatively little water are the Aster, Chrysanthemum, Helianthus, Hollyhock, Hemerocallis, Iris-breaded, and Sedum spectabile, and the Yucca. These plants may be left in the ground during the winter months.

Denzil Bevers, a student at the University of Texas Law School, is spending the Easter holidays with his parents, Mr. and Mrs. John Bevers.

Build terraces now with your own farm tractor or plow.

**UNVEILING "SHAW'S CORNER"**—The late George Bernard Shaw's 12-room home, set in two scenic acres of Hertfordshire, England, was recently opened to the public for the first time. Shown above is the great dramatist's study. It is just as Shaw left it, with full desks and bookcases. The Irishman gave the name "Shaw's Corner" to his home.

### The Buck Creek Philosopher

Editor's notes The Buck Creek Philosopher on his Johnson grass farm on Buck Creek is baffled over the prospects of ceiling prices on live cattle, his letter this week reveals.

Dear editor:

I found a copy of a paper which the March wind blew against my front door, of the two, March dust with March newspapers or no wind and no papers, believe I'd take the latter, don't like to be ignorant of what's goin on in the world but I put comfort ahead of learnin any day in the week, ain't seen a paper yet I hadn't rather be without than have dust in my eye, and pulled it off the screen and brought it inside and shook the dust off and read where cattlemen throughout Texas are excited over the prospect of ceiling prices being put on live cattle.

Accordin to the cattlemen, this will ruin the cattle business, but I look at it another way. As I see it, it'll ruin the price controllers.

That is, it will when they come out here and start puttin ceiling prices on my cows.

As you may know, I ain't never won no prizes at a fat stock show, and my cattle ain't what you'd call registered stuff, and I am

lookin forward to the day when some bureaucrat comes out here and attempts to classify em.

JIM LEACH  
Business Manager  
OFFICES  
CLINIC BUILDING

1007 15th St.

Wellington, Texas

Would I like to know what they are myself. I got one cow that was crossed with what I called a Jersey and a Hereford, but her mother was a cross between a Brainer and a Hostein, and her mother was a cross between a cross and a cross which is too complicated to enumerate. What the calf is, nobody knows, but when it comes to classify it in order to put a ceiling price on it, I believe it would be simpler if the government just asked me to put it in a deep freeze and say nothin about it, and I'm willin if the government will furnish the deep freeze.

Also, I'm wonderin what will happen at a cattle auction when the auctioneer reaches the ceiling price. Who gets the cow when half a dozen bidders is noddin their heads simultaneously at that level? Just don't see how it'll work, which may not be no stumblin block to the government.

Anything to the report they're figurin on puttin ceiling prices on the various grades of live cat fish? Yours faithfully,  
J. A. 15.

## BOOKING ORDERS For Delinting Cottonseed

We are now booking orders for delinting, grading and treating your cottonseed.

We are already booked up for several days ahead; so we respectfully urge you to make your booking now in order that you will have your seed ready when you get ready to plant.

It pays to plant delinted and treated seed.

#### SPECIAL DATES FOR CULLING AND TREATING FUZZY COTTONSEED

We have set aside the days of Thursday, Friday and Saturday, April 19-20 and 21 for culling and treating the cottonseed of those customers who do not want them delinted.

## FARMERS CO-OP. GIN

**Stripper and Harvester Explained**

**MECHANICAL COTTON HARVEST REQUIRES ATTENTION TO PLANTING**

COLLEGE STATION—Cotton can be harvested efficiently with mechanical pickers and strippers— if proper methods of production and preparation for harvesting are used.

The results of mechanical cotton harvesting experiments conducted by the Texas Agricultural Experiment Station in 1948, 1949, and 1950 at Lubbock, Temple, Denton and College Station are given in Progress Report 1337 and are the basis for the above statement.

Stripping machines are generally used on stormproof or storm-resistant varieties of cotton with a stalk height of not more than 30 inches. Approximately 50 percent of the cotton grown on the High Plains in 1949 was harvested with mechanical strippers.

Picking machines will not successfully harvest stormproof cotton. During the past few years, mechanical pickers have been used in South and Central Texas to pick cotton of open-boll varieties. Approximately 300 of these machines were used in Texas in 1949 and 1950.

Production methods should be used that will make the harvesting operation more efficient and these differ for the two types of harvesting machines.

General recommendations for producing cotton to be harvested with mechanical pickers and strippers are given by the research workers.

Plant in 40-inch rows. Plant storm-resistant or storm-proof cotton for harvesting with a stripper and open boll type for harvesting with a picker.

Space plants from two to six inches per foot, depending upon soil fertility and moisture conditions. Such spacing tends to keep branch limbs short for harvesting with a picker.

Plants should be spaced evenly. Hill-drop planting is not advised if harvesting is to be done with a stripper. When the picker is to be used, cotton may be hill-dropped with short spacings.

For late cultivations, sweeps should be set so as to leave the middles lower than the ridge of dirt at the base of the plants.

Apply defoliant early enough so that few, if any green bolls will be left unopened when the cotton is ready to strip. After applying the defoliant, from 7 to 15 days should elapse before harvesting. On the High Plains, allow up to 21

**Farmers Can Cut Pig Losses**

COLLEGE STATION—Texas farmers can reduce their pig losses greatly by giving the sow and litter better care during and immediately after farrowing, says E. M. Regenbrecht, extension swine husbandman of Texas A. & M. College.

Regenbrecht advises increasing the ration gradually after the pigs are born until the sow is on full feed. A great deal of milk is required to feed a litter of growing pigs, and it is usually best to feed the sow all she will eat.

He cautions against losing pigs from nutritional anemia. A sow's milk is very low in copper and iron, the elements most necessary for the prevention of this disease.

Symptoms of anemia which the pigs may show are rough hair coats, wrinkled skin, highly arched backs, "stretched" bellies and gasping breath.

Regenbrecht says it is practically impossible to raise a litter of pigs to weaning age on a concrete floor without providing them with copper and iron. Both can be supplied by placing a shovel-full of clean sod in the pen every day.

The pigs will pick up enough of the elements while rooting in the sod to prevent anemia, but Regenbrecht warns farmers not to use soil from an area that may be contaminated with swine diseases.

days. If available, airplanes should be used for applying late insect control defoliation materials.

Tractor wheel shields should be used, if needed, to prevent damage to plants and bolls during insect control, defoliation and stripping operations.

The ground speed of the harvesting machine should be determined by the volume of cotton the machine can handle. Cotton should not be mechanically harvested when damp and should be ginned in a plant equipped for doing the best possible job.

A copy of Progress Report 1337 can be obtained by writing to the Publications Office, Texas, Agricultural Experiment Station, College Station.

**Sorghum Varieties For Panhandle Area Recommended**

COLLEGE STATION—Sorghum varieties adapted to dryland grain production on the hard lands of the Texas Panhandle include Early Hegari, Double Dwarf White Sooner Milo, Martin, Midland, Combine 7078, Redbine 60 and Combine Kafir 60, according to Kenneth B. Porter and Charles J. Whitfield of the Amarillo Conservation Experiment Station.

Plainsman, Caprock, Westland, and Redbine 66 mature too late for best results under usual dryland farming conditions but they may produce higher yields under irrigation, or in favorable years on dryland.

These varieties are recommended as the result of tests conducted at the Amarillo station since 1939 on Pullman clay loam, a heavy soil which is the predominant type in Texas High Plains.

Porter and Whitfield report that Early Hegari and Martin have been the most consistent producers in the tests.

Combine 7078 is a red-seeded variety which blooms in about 65 days. It is more likely to lodge than other varieties, and it does not have a dry head. It has generally produced favorable results for farmers in this area.

Both Redbine 60 and Redbine 66 have dry head stems and can be combined before frost, if desired. They are similar to Martin but have a brighter, reddish-yellow seed.

Combine Kafir 60 blooms a few days earlier than Martin. It has juicy stalks which stand up well in the field. The seed are white with black specks and the seed stems have a tendency to dry out. Heads of Combine Kafir 60 are

borne on long stems, well above the leaves.

Earlier maturing forage sorghum varieties produce higher grain yields, but the later varieties produce more forage. When selecting a variety for bundle feed or silage, the farmer should consider the relative importance of grain and forage, point out Porter and Whitfield.

Texas Blackhull Kafir and Sumac 108 produce good yields of both grain and forage, but they produce much less forage than the later maturing varieties.

Sumac 108 is an early-maturing variety which has been grown at the Amarillo station since 1944.

Hi-Hegari is a new, tall variety of Hegari which was bred and developed for silage purposes. It has been tested only one year at the Amarillo station. Like normal Hegari, it blooms a few days to a week later than Early Hegari.

Wool blankets should be regarded as prized possessions and treated with care because the demand for the production is expected to be one of the lowest on record.

SOIL CONSERVATION is important to every man, woman and child.

Says GEORGE GILL, Taxicab Fleet Operator, Red Bank, New Jersey  
"When five standard Dodge sedans cover a million miles you realize what Dodge dependability means. All those miles were safe, dependable, comfortable miles for our passengers—amazingly economical and trouble-free miles for us."

Depend on it! This great new Dodge will see you thru the long pull ahead!

IN TIMES like these, it pays to own a car you know is engineered through and through to stand up better, serve you longer at lower cost.

That's why we suggest you drive the car whose reputation for long life, ruggedness and stamina is recognized the world over.

Spend 5 Minutes With Us. Come in today. Five minutes is all it takes to check and compare... to learn how much more Dodge dependability can mean to you. Learn how you could pay up to \$1,000

1951 Dependable

**DODGE**

Just a few dollars more than the lowest-priced cars!

more for a car and still not get all the extra-value features of today's big, dependable Dodge.

SMOOTHER RIDE... longer car life. New Oriflow Shock Absorber system gives a truly new kind of ride... "floats" you over roads that stop other cars. Reduces wear on vital chassis parts. Adds miles to car life.

**Castleberry Motor Co.**

**It's Your County Wide Blood -- Typing Program! APRIL 2 - 14**

**4,000 People are Needed to Cooperate in it's Success**

**Why Have my Blood Typed?**

There is a real need for the blood typing program in Collingsworth county. It is our part in the National Civilian Defense Program. It is not a measure to be considered in connection with war and bombing only, but rather in connection with nature, disasters, such as tornadoes, fires and explosions. In case of disaster in a nearby community, a blood-typing program already set up would

put us in a better position to handle volunteer blood donations on a large scale.

The same would work in case of a disaster here. A large number of victims could be treated much quicker if their blood types are known, for transfusions are usually the first thing needed. Where only one person is involved, he, too can be treated more quickly.

**What Shall I Do?**

Go to the blood typing stations at Dodson, Quail, Samnorwood or Wellington between April 2 and 14.

Take 5 minutes of your time. That's all. You'll receive an identification and blood typing card. Carry this with you all the time.

**Is There Any Obligation?**

NO. This is a blood typing program, not a blood donor program. There is no obligation of any kind. It does not include you in any disaster program or any thing else. It is a public service, made

possible for you by the Wellington Chamber of Commerce, the County Civilian Defense Program, St. Joseph's Hospital, St. Joseph's Hospital Auxiliary and the doctors of the county.

"Honor for Excellence"

MEADS BREAD WINS NATIONAL QUALITY RIBBON FROM COUNCIL

In a brief but highly impressive ceremony and in the presence of many delighted guests, E. D. "Jesse" Wood, Wichita Falls manager for Meads Bakery, formally accepted the Blue Ribbon of Excellence awarded to Meads Bakery for recognition by the Independent Bakers Council of America of Meads' Fine Bread as one of the Finest White Breads in the United States.

In accepting the symbol of "Honor for Excellence," Mr. Wood, speaking with heart warming sincerity and extreme modesty, generously gave full credit to the company's production executives and individual employees.

First in line for high praise was Virgil Carlson, Production Superintendent of the bakery whose meticulous and exacting supervision was responsible for the sustained high quality of Meads' Fine Bread. Mr. Carlson in turn, lauded the efforts of the Mead organization in establishing its vast number of grocery outlets in the Wichita Falls market area.

The sales organization of the company was complimented for its diligent and efficient servicing of these grocery stores, to supply the consumer demand for Meads' Blue Ribbon Award Winning loaf.

The production employees as a group were praised for their loyalty and devotion to the uniformly fine production of this baked food product, and for the pride each worker takes in doing his part in producing this nationally recognized quality bread.

Last, but by no means least, Mr. Wood expressed the thanks of his organization and appreciation for the consistent patronage of thousands of Meads' Fine Bread customers, who, he said, were an integral part of the success of the Mead plant, in achieving for their white bread, the Independent Bakers Council of America's Award, symbolizing its achievement of becoming one of the Finest White Breads in the United States.

News of Men in Service

Pvt. Wayne Sullivan, who is stationed at Fort Leonard Wood, Mo., left Thursday after a short furlough spent with his parents, Mr. and Mrs. C. E. Sullivan.

Sullivan entered service November 3, and has completed his first phase of training in engineer aviation.

He reported having located one other Collingsworth county man and a former schoolmate at Fort Leonard Wood, Pvt. Sam Dick Morgan.

The two graduated from Quail high school in 1947.

S. R. Walter Johnson of Camp Elliott, San Diego, California, is home on a short leave from the Navy. He has completed his boot training, and will receive his assignment upon his return to camp.

Johnson, the son of Dr. and Mrs. J. Frank Johnson, will return to California April 4.

Legal Notices

THE STATE OF TEXAS TO: J. W. Linderman, if living, and if dead, his unknown heirs, GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. Nine (9) and Ten (10) in Block One Hundred Fifty-four (154) in the Original town of Wellington, Collingsworth County, Texas.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unsealed.

Issued this the 27th day of March, A. D., 1951.

Given under my hand and seal of said Court, at office in Wellington, Texas, this the 27th day of March, A. D., 1951.

Mrs. O. E. Dodson, Clerk, District Court, Collingsworth County, Tex. (SEAL)

MEADS WINS THE BLUE RIBBON

E. D. "Jesse" Wood, manager of Meads Bakery, and Virgil Carlson, their production superintendent, are shown holding the huge Blue Ribbon presented by the Independent

Bakers Council of America. This ribbon represents the award for excellence accorded to Meads Fine Bread as one of the finest white breads in the United States.

DODSON By MRS. Z. O. MCKINNEY

It's cloudy this morning and looks like we might get some rain. We're hoping we do as it's really getting dry.

Easter came without the usual cold spell. It was really a beautiful day and everyone seemed to enjoy themselves here.

Out of town guests in the V. P. Findley home for Easter were Mr. and Mrs. Bob Metcalf of Amarillo, Mr. and Mrs. Dana Brown ofampa and Mr. and Mrs. W. C. Bell and boys of Brownfield.

Miss Voncile Bonneau of Lubbock spent the week end here with her family.

Mr. and Mrs. Dale Hunt, Vance Hunt, Virgil Lee Binkley and Mr. and Mrs. Junior Turner and son, all of Dallas, were here to be with relatives for the Easter holidays.

Misses Bennie Z. Branum, Virginia Stoddard and Crystal Champion of Amarillo were guests of Marilyn Hunt for Easter.

Mr. and Mrs. Ellis Earle of Claude were here for the week end with her parents, Mr. and Mrs. Clyde Alexander.

Mrs. Jack Stewart and Don, Jeanette Swift and Zenith Swift were in Childress Saturday. Don spent the week end there with his grandmother, Mrs. Betty Gregory.

Billy Pat Swift of Wellington was a week end guest here of his grandmother, Mrs. W. M. Swift.

Mr. and Mrs. Al Walker of Mangum were Dodson visitors recently. Ross Swift and Howard Hunt were in Amarillo last week on business.

Mr. and Mrs. Travis Elliott of Hollis visited last week with Mr. and Mrs. Arthur Lamb here.

Mr. and Mrs. Jack Lewis and boys of Hollis were visiting in Dodson last week.

Mrs. E. C. Alexander and Mrs. Z. O. McKinney were in Wellington Wednesday evening.

The 42 tournament put on by the Methodist ladies last Friday night was well attended.

Mr. and Mrs. Dwayne Miller and boys and Mrs. G. M. Stokes were in Hollis Saturday.

Mr. and Mrs. W. M. Bolton and daughters of Monterrey, Calif., are visiting Mr. and Mrs. Sherd Bolton at this time.

Mr. and Mrs. Glen Jordan of Dumas spent the week end here in the L. B. Jordan home. Mrs. L. B. Jordan is recovering from surgery.

Preston Wesson of Borger was a Dodson visitor Sunday.

Mr. and Mrs. Wiley McKinney, Mary Loyce and Sally of Borger spent Sunday here with Mr. and Mrs. W. O. McKinney.

April 5 has been named as Clean-up Day in Dodson. Everyone is urged to help in this work. Have your trash, cans and all junk piled up and there will be a truck come by and pick it up. This is sponsored by the Dodson Civic Club. Let's everyone co-operate and make our town not only better but more sanitary.

Mr. and Mrs. W. O. McKinney and Mr. and Mrs. Wiley McKinney visited Sunday evening with Mr. and Mrs. Claude McKinney in Wellington.

Mr. and Mrs. E. J. Smith of Hollis, Mr. and Mrs. Roy Tisdale, and Mr. and Mrs. Hugh Painter made a trip to Colorado last week.

Mrs. W. M. Swift left Sunday for San Angelo to be with her sister, Mrs. Ella Smith, who is sick there.

Mrs. Mattie Jameson has been on the sick list the last week.

All land animals are directly dependent upon the soil.

SALT FORK By MRS. R. H. ISBELL

Easter morning was such a lovely time, after the bad windy days. We had more in Sunday school than we have enrolled. The children really enjoyed the egg hunt after Sunday school was dismissed.

Lewis Morris, Wayne Cummings, Horace Hallmark and G. C. Isbell hid the eggs while the others sang songs appropriate for Easter. Clyde Gollighugh found the prize egg. Doris Cummings found the largest number. They got prizes, and little Gerry Joyner got a prize for the one finding the least number of eggs.

Charles Wright won fourth on his sow and third on his rabbit at the stock show at Quail Saturday. Mr. and Mrs. U. S. Bolton, Nell and Richard were Saturday night visitors at the Wright and Isbell home. They drove down to Dodson Sunday morning to visit his parents, Mr. and Mrs. Sherd Bolton. Mrs. Bolton isn't as well as she had been. Several of their children are there for a few days visit.

Mrs. Bill Clifton, Mrs. G. C. Isbell and Billy visited Mrs. Wright and the Isbells one day last week.

Mr. and Mrs. Wayne Cummings and little son attended Sunday school here Sunday.

Mrs. G. C. Wright and Mr. and Mrs. R. H. Isbell visited the Cummings and Hallmarks last Wednesday. The men folks worked on a tractor.

Charles and Edna Ellen Wright and Mrs. Maxwell were supper guests in the Wright and Isbell home Saturday night.

Mr. and Mrs. Sebern Morris, Mr. and Mrs. Bobby Groves and children of Pampa were visitors with Mr. and Mrs. Buck Morris over the Easter holiday.

We want to express our sympathy to the loved ones of J. D. Aaron and Dr. Watkins family in the loss of their loved ones. Easter was a sad time for all of them.

Mr. and Mrs. C. A. Wright attended the banquet at Quail Saturday night.

The bake sale was a huge success Saturday. Thanks to all you friends who helped us make it so. And a great-big thank you to Mr. and Mrs. Nored for their help and kindness. We made \$85.66.

Saw our old friends Mr. and Mrs. Earl Tolleson and Janell in town Saturday. Had a nice visit with them. They live near Ashtola now. They were in Wellington to see their new grandson, the little son of Mr. and Mrs. Carol Wayne Tolleson, who was born last Thursday at St. Joseph's Hospital. Mother and son are doing fine.

Mr. and Mrs. J. W. Gollighugh, Clyde and Jeanette visited the C. A. Wrights awhile Sunday afternoon.

Mr. and Mrs. Lewis Morris and Darrell visited in the Barney Glenn home at Wellington Sunday afternoon.

G. C. Isbell made a business trip to Lubbock last week for Steve Owens.

Mrs. Buddy Poteet and boys visited Mrs. G. C. Isbell and other relatives in Wellington last week.

We hear Mrs. Monty Mitchell, one of the Quail teachers, has the mumps. We're sorry Mrs. Mitchell, but cheer up. Even Uncle Jay of KGNC, Amarillo, has them too. You know we have always heard misery loves company, and there's been lots of mumps out this way.

Mrs. G. C. Wright, Mr. and Mrs. Isbell attended church at Wellington Methodist Church Sunday night. The Easter program by the youngsters was good. Rev. Hill's message was very fitting and in-

spirational, too. Ted Isbell and son, Don, visited the Jack Pritchards at Aberdeen awhile Sunday afternoon.

Mrs. Elsie Smith and her three nieces of Amarillo were greeting friends in Wellington Saturday afternoon. They are visiting Mr. and Mrs. Sherd Bolton at Dodson. They formerly lived here.

Two Divorces Granted Monday

Divorces in two non-contested cases were granted by Judge Luther Gribble in district court Monday morning, March 26.

In the first case, Edward David Drury was granted a divorce from Emma Drury, and in the other Wilbur Cleve Brock was granted a divorce from Iva Gwen Hart Brock, James Richardson, court reporter, said.

Increase your net profit by improving your soil.

Mr. and Mrs. Orville Cunningham and daughter, Karen, of Samnorwood, spent the Easter holidays with her mother, Mrs. Wesley Gibson of Elmer, Okla. They attended an alumni banquet of the Elmer high school graduates. The first year this event has been held, it was attended by approximately 250 graduates and their families.

Mrs. G. D. Gill and sons, Gary and Larry Don, of Texarkana have been spending the past two weeks in the home of her parents, Mr. and Mrs. R. H. Ball. The group were visitors in Wichita Falls Saturday.

Mr. and Mrs. R. N. Barnett were in Amarillo and Canyon during the Easter holidays. They attended the special Easter sunrise service in Palo Duro Canyon.

Cpl. Johnny Clark, who is stationed with the Air Force near Sherman, spent the holidays here with his parents, Mr. and Mrs. George E. Clark.

CHRONIC FATIGUE CASE NO. 2031: A farmer, age 58, complained that for two years he had suffered with low back and leg pains that made his work doubly difficult, also he felt tired all the time, increasingly nervous, worrying too much, sleeping badly, catching frequent colds. His blood pressure was 102. We made a spinal analysis and X-rays, and located the spinal subluxation. Corrective adjustments brought about improved alignment and removed the nerve interference. At the end of the recommended time, he was discharged. Before departing he said he had no pain or discomfort of any kind and his blood pressure was normal. CHIROPRACTIC has restored health and happiness to millions. It has grown to be the foremost drugless health science of all times. Chiropractic is a natural method by which to keep strong and healthy. Thousands of individuals have been restored to robust health and vigorous activity by the application of its principles; its impressive records of achievement in restoring sick people to health merits your consideration, investigation and trial. REMEMBER: It is not true to say "We did everything possible" unless CHIROPRACTIC is included.
