EAST-WEST HIGHWAY OFFICIALS MEET TODAY IN BRECKENRIDGE

Will Plan Request For Aid On Route To State Line

Sam Richardson, president of the East-West Highway Association, has called a meeting of the executive committee of the association at Breckenridge, today.

The purpose of the meeting is to formulate a definite request for construction on Highway 15 to present to the State Highway Commission in its November meeting. It is understood that the Federal Bureau of Public Roads has approved about 1400 additional miles of Federal Aid road in Texas, and as Highway 15 from Roby west to the New Mexico line was recommended to the Federal Bureau, it is felt certain that at least a part of the road will be placed on the Federal Aid system this year.

In the meeting today, the executive committee will decide what portion of the road to request construction on, and a concerted effort will be made to get the entire road from Roby west to the State line placed on Federal Aid System.

Members who are attending the meeting from Lamesa are Sam Richardson, Judge W. M. Yates, J. E. Barron, and A. G. Bearden. Other members who will be present at the meeting are Colonel R. A. Thompson of Dallas, who is former State Highway Engineer; Charles G. Cotten of the Fort Worth Chamber of Commerce; John M. Chamberlain, manager of Mineral Wells Chamber of Commerce; Judge A. J. Morgan of Breckenridge; Judge Omar T. Burleson of Anson; Judge Carl Wilson of Roby; Judge H. J. Brice of Snyder; Judge Charles Nunnally of Gail; and Judge W. G. Gibbs of Seminole.

The committee plans to go before the State Highway Commission at Austin about Nov. 22 and ask for some early construction on Highway 15.

SCOUTING METHODS KEPT MODERN, SAYS MISS McCORMICK

Visitor Will Speak To Men's Clubs While In Lamesa

Girl scouting is constantly adapting itself to the changing needs of the girls and young women of this day and age, according to Miss Olive McCormick of New York City, a member of the Girl Scout National staff, who arrives today to conduct a school for leaders in Lamesa. While here, Miss McCormick will use the Women's club house for conferences and instruction. The visitor will be introduced to the women of the community at a tea tomorrow afternoon from 4:30 to 6:30 at the country club. The local council is sponsoring the affair. Everyone interested in Girl Scout work is invited to attend the tea and to participate in the school.

"Our three-fold program for girls from 7 to 18 years of age is constantly being revised," Miss McCormick explained. "We are working with a committee of prominent educators as a steering committee and our objective includes a wider range of activities for older girls, and a more flexible inter-

(Continued on Back Page)

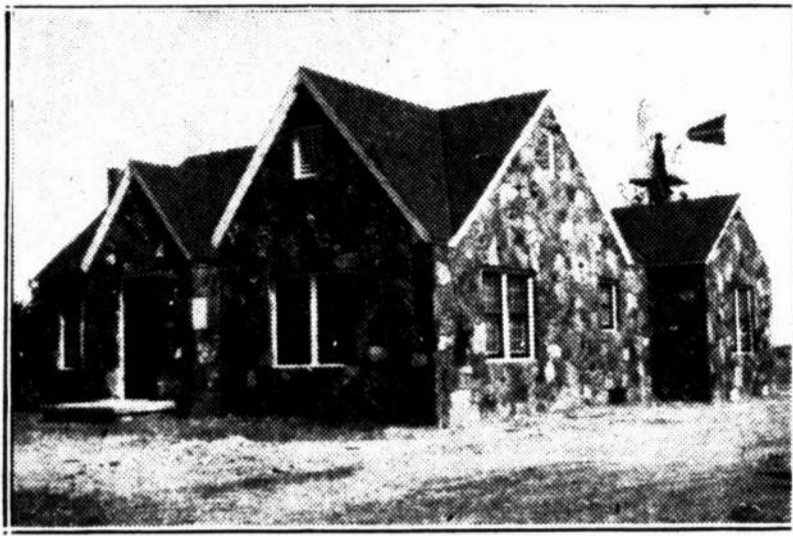

DAWSON COTTON REACHES 50,000 GINNED BALES

A survey of gins in Lamesa revealed a total of 24,226 bales of cotton ginned in the city up to noon Wednesday. Estimates placed the output of rural gins at 25,000 additional bales, bringing the total to 50,000 bales for Dawson county.

Excellent weather the past week brought in the cotton at a rapid rate, completely filling available storage space at local gins, most of which are operating on 24-hour schedules. If the weather continues fair, it is expected that this rush season will continue for several weeks as the cotton is estimated to be not half gathered as yet.

Census reports from the Department of Commerce show there were 22,280 bales of cotton ginned in Dawson county from the crop of 1937 prior to Oct. 16, as compared with 14,627 bales ginned in Oct. 16 of last year.

New Dawson County Home

Above is shown the attractive rock veneer home of Mr. and Mrs. Sam Hodge who live twelve miles north-east of Lamesa in Dawson County. The home is equipped with all modern conveniences.

Mr. and Mrs. Sam Hodge Planned Home In Detail

Rock Veneer House Is Modern In Every Appointment

Planning every item themselves, from the first floor board to the last shingle, Mr. and Mrs. Sam Hodge have planned the building of their model farm home twelve miles north-east of Lamesa that is as satisfactory to them as it is beautiful.

"We started with two gables," said the Hodge's, laughing, "and finished with an English rock veneer of eight gables and five rooms."

Roofs from six Texas counties and two states went into the construction of the attractive exterior of this farm home which combines the best points of both dignity and color. Chosen for texture, durability, and coloring, the rocks are as excellent in quality as could be obtained.

"It wasn't easy," said Mr. Hodge, "to plan or to obtain the materials we wanted. After we had once made up our minds," he added grinning, "as to what we would build, the job was half completed." Two months went into the planning alone, during which time the owners spent hours poring over plan books, making and editing drawings. Three months were consumed in the actual construction of the building, with either Mr. or Mrs. Hodge on hand at all times to oversee the workmen. The home was completed and moved into early in the fall.

Mr. and Mrs. Hodge have been residents of Dawson County 22 years and both are well known here. Mr. Hodge is at present serving his third term as county commissioner of Precinct 2, and occupies an influential position in the community. Mrs. Hodge is active in home demonstration club work.

The Hodge home, erected at an approximate cost of \$4500, is heated by artificial gas which is piped to all rooms and which also serves for cooking and refrigeration. It will be lighted by its own electrical unit, complete in every detail.

The home is equipped with its own

Adults and Children Availing Themselves of Recreational Facilities at New Public Club

Attendance Average Is Around 200 Say Supervisors

With an average daily attendance of 200 children and adults, Lamesa's Recreational Department is going into its second week of successful operation. W. P. Witt is in charge of the department as supervisor, assisted by 13 leaders who have charge of play activities.

Supported by WPA, operating in cooperation with the city and county, the school is rapidly being outfitted with athletic equipment and the exhibit building on the Dawson County Fair Grounds has been turned into an indoor gymnasium which offers facilities for volley ball, table tennis, tumbling badminton, tennis, ring games, checkers and dominoes.

A boxing and wrestling ring has been built near the front entrance of the

Santa Claus Will Be Here December 3

Santa Claus is coming to town in Lamesa on Friday, December 3, to oversee personally the official opening of the Christmas season, announced the Chamber of Commerce this week.

Mr. Claus, in a recent communication, stated that he would be exceedingly happy to be present upon that important and auspicious occasion and would do all possible to make it a success for the grown-ups as well as the kiddies.

Many plans are being made for the affair, which will be one of the most outstanding of the holiday season. A special program is being arranged, a parade will be held, and Old Saint Nick will appear in person to distribute candy and nuts to the children.

Merchants will prepare special windows showing holiday merchandise, and the colored Christmas lights around the business square and courthouse will be turned on that night for the first appearance of the season.

December 3 will be the date of a gala occasion in Lamesa, one that no one, young or old, can afford to miss.

Common Schools Get First Apportionment Of \$4 Per Capita

Dawson county common schools received this week their first apportionment from the State, \$6000, or \$4 per capita, announced Miss Pauline Bulsterbaum, county superintendent.

This is the first money to be received this year on the apportionment for common school districts in Texas. \$2 per capita will be supplied by the state this year to defray school expenses of maintenance and salaries.

Courier's Half Price Subscription Sale Opens This Week

Opportunity is here! It's knocking at your door! It's offering you a year's subscription to your home town paper, The Dawson County Courier, for only 50¢ half price!

Beginning this week, the Courier's Half Price Subscription Sale is open to all residents of Lamesa, Dawson and adjacent counties. The offer will be open for a limited time only.

There are no rules or regulations of any kind attached to this sale. The Courier wants to make it possible for every family in this trade area to subscribe to the home town paper, thus offering them a chance to take advantage of the many bargains advertised on its pages each week.

Thousands are already "shopping The Courier Way." This is your opportunity to avail yourself of a complete newspaper for twelve months, 52 weeks at only 50 cents.

CONSTRUCTION RAPID ON FEDERAL BUILDING

Post Office Is Now 15 Percent Finished, Says Pylant

Work is progressing rapidly on Lamesa's new federal building which is now 15 per cent finished and operating ahead of schedule, stated A. C. Pylant, superintendent in charge, this week.

A slight delay is being caused by failure of Texas sandstone to arrive from Austin. The basement is nearing completion with all concrete poured except that for the floor. Fill-in work around the basement will be done this week, states Mr. Pylant, and then the building will be ready for stone laying.

Plumbing and heating contracts have been sub-let to the Parwell Company of Dallas, and installation of plumbing has already started.

The electrical contract has been sub-let to the Ansel Company of Lubbock who will have charge of wiring and installation of fixtures.

The decorative base stone, Texas Cordova limestone, is being furnished by Texas Quarries at Austin, the face brick by the Acme Brick Company of Fort Worth and the common brick by the Mineral Wells Clay Products Company.

"We expect to have the roof on by Christmas," stated Mr. Pylant, "and hope to turn over the keys by March 1." Almeron Blair of Montgomery, Ala., has the contract for the building at \$62,337, with a specification of 210 working days, which would put the completion date of the building around April 12.

W. M. Njehol, construction engineer, is government representative and inspector.

KAYAL HOME WILL BE MODERN THROUGHOUT

Work is progressing on the R. N. Kayal home in the Harp Addition on North Fourth Street. The house, which will have seven rooms and bath, will be of brick veneer and will be modern throughout.

A feature of the dwelling will be the pool room which Mr. Kayal is personally supervising.

Mr. and Mrs. Carl Peterson visited in Big Spring Sunday.

Slaton Called Ineligible For Conference Play

TORNADOES TO MEET TAHOKA HERE FRIDAY IN LAST NIGHT GAME

Bulldogs Are Threat To Leading Team In District

The Lamesa High School Golden Tornadoes, leaders of the pennant chase in District 5-B, will meet the Tahoka High School Bulldogs in the last night game of the season at McCollum Field, Friday night, November 5, at 7:45 to determine whether or not the Tornadoes will be able to go into the home stretch of the race with an unblemished record or whether Tahoka is capable of upsetting the Lamesa apple cart and handing them their first defeat.

The Bulldogs are beginning to show winning ways after a slow start and are primed and ready for the Tornadoes. Although they have lost several games, they were able to hold their opposition scoreless in every instance until the closing minutes of the third quarter, and several times held out until the final minutes of the game. They have won their last two games, played with Olton and Pext, by almost the same scores as Lamesa made in defeating those teams, and experts are predicting one of Lamesa's hardest games to date.

The Tornadoes will have several of their regular starters on the sidelines suffering with injuries and it is reported that a number of the boys have had slight attacks of the flu this week. If this is the case the Tornadoes are in for trouble with the Bulldogs and will have to play their best brand of football to come out on top.

The Lamesa Parent-Teachers Association is aiding in the sale of tickets for this game and reports are that considerable interest is being shown. After expenses of the game are met, the P. T. A. will share in the proceeds for school improvement purposes.

GOODYEAR STORE WILL BE OPENED SATURDAY, NOV. 6

Opening date is set for Saturday, Nov. 6, for the Goodyear branch store in the Yates building, 520 North First Street.

Under the management of R. R. Kennedy, assisted by John R. Green, the store will handle a complete stock of Goodyear tires, tubes and accessories.

This 30x100 foot brick business house has been completely remodeled and furnished an attractive background for the display of merchandise. It is floored throughout with concrete, is well-lighted and conveniently outfitted.

MRS. W. P. AVRIETT TO ATTEND CONVENTION

Mrs. W. P. Avriett, first vice-president of the Women's Federated clubs of Texas, will leave Sunday for Austin to attend the state convention which meets there Nov. 8 to 11.

Ruling Cancels Game Here Thursday November 11

Following action Saturday of the Executive Committee of District 5-B, suspending Slaton from further participation in the conference chase this season, the annual Lamesa-Slaton football game scheduled for Thursday, November 11, was definitely cancelled.

A majority of the District Committee requested the suspension of Slaton when it was learned that they had played an ineligible man in a number of conference and non-conference games. The man in question was found to be 19 years old considerably over the interscholastic league age limit, and therefore ineligible to participate in interscholastic affairs. The games in which he had played were forfeited, and the remainder of the Slaton schedule cancelled.

The superintendent and coach at Slaton did not protest the ruling, maintaining that they did not know of the player's ineligibility until the protest was made, and that after their own investigation were satisfied that the boy was ineligible.

The Tornadoes are making every effort to secure another game to take the place of the one cancelled but as yet arrangements are not completed and no definite statement can be made. As it is rather late in the season to schedule a game, some trouble is being experienced in securing a good team, but school officials promise to do the best they can on such short notice.

Revised standing in the district following Saturday's action by the Executive Committee follows:

Team	Won	Last	Pct.
Lamesa	5	0	1.000
Brownfield	5	1	.833
Littlefield	4	1	.800
Levelland	5	2	.714
Tahoka	3	3	.500
Slaton	2	3	.400
Olton	3	5	.375
Crosbyton	2	4	.333
Falls	1	4	.200
Post	0	5	.000

Lamesa High Exes Call Off Homecoming Celebration, Nov. 11

Eyes of Lamesa High School have decided to postpone their homecoming celebration indefinitely, announced Cleve Austin, president, this week.

The homecoming was planned for Thursday, November 11, the date of Lamesa's grid battle with Slaton, and was postponed because of Slaton's team being declared ineligible for conference play, thus cancelling the game.

Future plans of the Ex-students association will be announced at a later date, said Mr. Austin.

JACKSON KIDS STRING BAND TO BROADCAST SUNDAY

The Jackson Kids String band will broadcast over radio station KFYO, Lubbock, on Sunday afternoon between the hours of 4 and 5 o'clock. The six children of Mr. and Mrs. S. A. Jackson make up the band.

AMONG THE YOUNGER SET

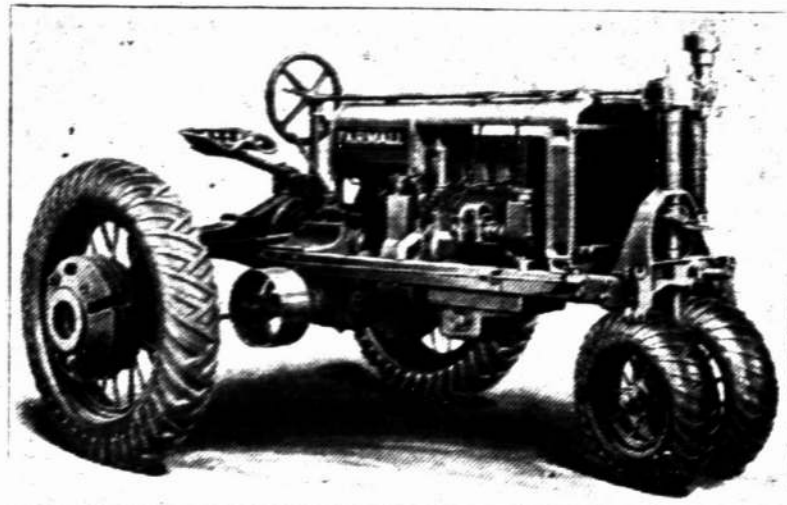

LINDA LOU JONES

The smiling young lassie above is Linda Lou, one-year-old daughter of Mr. and Mrs. David Jones of this city. Active and full of fun, she is a favorite visitor at the home of her grandparents Mr. and Mrs. Milley Powers of Lamesa.

CATTLE SHIPPED SHOW INCREASE OF 81 PERCENT

Forwardings from Texas to Fort Worth stockyards and interstate points during September of all classes of live stock totaled 7,704 cars, compared with 4,247 cars during September last year, an increase of 81 per cent, according to the University of Texas Bureau of Business Research. Cattle shipment, 3,996 cars, compared with 2,529 last year, gained 58 per cent; shipment of calves, 1,830 cars, compared with 857 cars, increased 113 per cent; hog shipments, 638 cars, compared with 354, were up 80 per cent; and sheep forwardings, 1,240 cars, compared with 507 gained 146 per cent.

Shipments of all classes of live stock to the Fort Worth market maintained a wide margin of increase over September last year, and forwardings of cattle calves and sheep direct to feeding areas in Kansas, Missouri, Iowa, Illinois and other corn belt states were several times those of September last year.

Poultry and Egg Shipments Are Low

Poultry and egg shipments from Texas to interstate points during September reached a seasonal low, it has been reported by the University of Texas Bureau of Research. Poultry shipments totaled only 33 cars, but this total was substantially above the eighteen cars shipped during September last year. Egg shipments of 26 cars were exactly equal to those of September last year.

Receipts of eggs at Texas markets from out-of-state points amounted to only five cars, compared with 26 cars last year. This year two cars originated in Kansas and three in Missouri. A year ago nine cars were received from Kansas, nine from Missouri, one from Oklahoma, and seven from Nebraska.

Heirs Give Bust Of James Stephen Hogg To Texas University

Heirs of James Stephen Hogg have presented to the University of Texas archives a bust-relief of the former Governor of Texas. Donors were Miss Ina Hogg and Captain Mike Hogg of Houston, and Tom Hogg of San Antonio.

The bust was carved by William McVey of Houston, sculptor, and is framed in ebony and gold. Mr. McVey has also executed the James Hogg memorial at Texarkana and is going the sculpture for San Jacinto at Houston, under commission by the State Board of Control.

TEXAS BUSINESS CONTINUED RISE DURING OCTOBER

In contrast to a current downward tendency of business in the country at large, Texas business continued during the last thirty days its strong upward trend, the gain from August to September having been almost as great as that from July to August, according to Dr. F. A. Buechel, assistant director of the University of Texas Bureau of Business Research. After adjustment for seasonal variation the composite index for September is 105.6 compared with 103 for August and 91.7 for September, 1935, an increase of 14 per cent over last year. The index is expressed as a percentage of the average month in 1930 which is used as a base.

"Each of the components of the index for September made sharp gains over the preceding month, except that of payrolls, for which the decline—98.7 to 98.7—was almost negligible," Dr. Buechel said.

"The index of employment rose from 94.4 to 96.6; miscellaneous freight carloadings from 81.4 to 84.1; runs of crude oil to stills from 176.3 to 182.6; department store sales from 110 to 115.3 and electric power consumption from 124 to 129.

Accident Repeaters Can Be Cured Says Safety Magazine

Automobile accident repeaters can be cured. That is the gist of an article in Public Safety, by Edward L. Yarden, describing the results of a corrective system applied last year by the Registrar of Motor Vehicles in Massachusetts to 500 drivers as possessing the worst accident records in the Commonwealth.

Every one of these drivers had been involved in a number of accidents. One man, for instance, had injured several pedestrians by striking them with the right side of his car. Tests disclosed a weakness in his right eye, which was corrected with glasses. Another driver had had his car rammed three times from the rear. Tests showed his brake reaction to be exceptionally fast and he was advised to watch out for the car in the rear when making sudden stops. So it went with all 500. At the end of the test instruction period, the 500 accident repeaters were allowed to drive again. Eight months later the Registrar assembled their records. The 500 had driven an aggregate of more than 3,250,000 miles in that period. Not one of them had become involved in a serious accident. Only three of them had had any accidents at all.

HIWAY BAPTIST CHURCH
Next Saturday night, at 7:30, the Hiway Baptist church will hold its regular monthly conference meeting. This is also the annual conference meeting night, at which officers and pastor will be selected for another year. Therefore each and every member of the church is urgently requested to be present.

Next Sunday, the past. Rev. Jno. R. Denning, will bring the following messages:

11:00 a. m. "Could Ye Not Watch With Me One Hour?"
7:15 p. m. "Fundamentalism's Challenge to Modernism."

FIRST BAPTIST NOTES
"Six days thou shalt work, but on the seventh day thou shalt rest, in earning time and in harvest time thou shalt rest." Ex 34:21. "Not forsaking the assembling of ourselves together—Hebrews 10:25.

Miss Pauline Bulsterbaum joined our church last Sunday by letter from Klondike. There were 70 present last Friday at the Primary Sunday school Halloween social and there were 32 present for the Sunbeam Halloween party last Saturday.

Brother Cole preached last Sunday night on the subject, "Three days in a Submarine," using the Book of Jonah for his story. The pastor is preaching his very best sermons on Sunday night and is anxious for church members and their friends to attend.

In the adult assembly next Sunday a series of short messages will begin on "The Essentials of a Good Organized Class." The first of the series is to be given next Sunday on "We Must Supply the Master's Vineyard."

To increase the efficiency in all phases, the Junior S. S. department is expanding to include four associate department superintendents. Each of the associates will serve as superintendent over her group, the groups being divided into 9-year-old, 10, 11 and 12-year-old children and the workers for each group. Mrs. C. I. Darling is the department superintendent.

A union in the B. T. U. for young married people is to be organized next Sunday night at 6:15. Looking to the organization of this new union, a preliminary meeting was held last Sunday night.

"Mothers' Night" in the Primary B. Y. P. U. will be observed Sunday night Nov. 14, at 6:15. A special program is to be given and the mothers are invited to attend. Mrs. Hattie Butcher and Mrs. Ray Hollingshead are preparing the program.

convey to Mrs. Dacia Bam, a feme sole, all of Lots Four (4), Five (5) and Six (6) in Block Ten (10) of College Addition to the town of Lamesa, Dawson County, Texas, together with all improvements thereon situated and for a consideration of \$1500.00, and of which amount \$250.00 will be paid in cash, and the balance, \$1250.00, to be evidenced by one note in said sum, to be executed by said purchaser, payable to the order of the undersigned at his office in the city of Temple, Bell County, Texas, and the principal and interest of said note to become due and payable in eighty-four (84) monthly installments of \$18.86 each, the first installment to become due and payable December 1, 1937, and one each on the first day of each succeeding 31 months, to bear interest from October 1, 1937 at the rate of seven per cent per annum, the interest to become due and payable monthly, and each payment when made to be applied first to the accrued interest on said note, and the balance to the principal, and to provide that failure to pay any monthly installment of principal or interest thereon when due shall at the option of the holder, mature said note; to stipulate for ten per cent additional as attorney's fees, and said note to be secured by a vendor's lien on the property and premises above described.

Said application will be heard by the Honorable Charles A. Boynton, Judge of said court, after this notice shall have been published for a period of ten days, and any person interested in said Receivership Estate may contest this application.

WITNESS my hand at Temple, Texas, this 18 day of October, A. D. 1937.

SOCIETY

Young People of Methodist Church Had Party

The young people department of the First Methodist Church enjoyed a Halloween party last Thursday evening in the basement of the church. The main diversions of the evening were scavenger hunt, ping pong and shuffle board.

Miss Betty Porterfield won the prize for the most unique costume. At the conclusion of the entertainment refreshments of pumpkin pie topped with whipped cream and punch was served to about 35 guests.

Mrs. Gilbert Watson Hostess To Tuesday Bridge Club

Members and guests of the Tuesday afternoon bridge club were entertained this week by Mrs. Gilbert Watson at the home of Mrs. Jack Phinizy.

At the conclusion of play, Mrs. Elzie Burleson held the high score, with slam awards going to Mrs. Burleson and Mrs. Guy Simpson.

The guest list included Mesdames J. E. Garland, Gordon B. McGuire, Jr., J. L. Spert, Elzie Burleson, Tom Burrade, Cecil Bryant, J. C. Hunt, G. A. Barnett, Jim Little, Jack Phinizy, Guy Simpson and Louis B. Reed.

Wednesday Club Met With Mrs. Clyde Branon

Mr. Clyde Branon delightfully entertained members of the Wednesday afternoon bridge club Wednesday afternoon at her home on South First Street.

Prizes in the bridge games went to Mrs. Louis B. Reed for high score and Mrs. Tom Burrade and Mrs. J. F. Vanhook for slams.

A delicious party was served at the retirement party to Mesdames F. T. McCollum, T. F. Vanhook, A. G. Barnhart, W. B. Collins, M. Q. Martin, Bonnie King, Louis B. Reed and Tom Burrade.

Wednesday Morning Club Members Have Luncheon

Members of the Wednesday Morning Bridge Club enjoyed a luncheon Wednesday afternoon at the Green Hat Cafe. The occasion being the closing of a contest between the members.

After the delicious luncheon the prizes went to the home of Mrs. Guy Simpson where games of contract were enjoyed with Mrs. J. E. Garland and Mrs. Gordon B. McGuire Jr. winning slam prizes.

Those attending this delightful affair were Mesdames Gilbert Watson, Jim Little, Elzie Burleson, Bill Coleman, J. E. Garland, Gordon B. McGuire, Jr., Cecil Bryant and Guy Simpson.

Mrs. W. H. Bennett Hostess to Pioneer Club

Mrs. W. H. Bennett entertained members of the Pioneer club on Tuesday afternoon at her home.

A very enjoyable afternoon was spent playing cards of 54 at the conclusion a delicious refreshment plate was served to Mesdames Harry Parker of Sudan, Dixie Kilgore, R. E. Simpson, A. M. Bennett, Joe Barron, W. V. P. Baker, D. S. Day and Guy Wilmon.

Family Reunion Held Sunday At Ashley Home

The Lisenbee family held a reunion here Sunday at the home of Mr. and Mrs. I. L. Ashley. Luncheon was served to 44 relatives and guests.

Those present were: Mr. and Mrs. W. F. Lisenbee, Mrs. Rhoda Lisenbee, Mr. and Mrs. Dee Petree and children, Mr. and Mrs. Hassie Lisenbee and daughter, Mr. and Mrs. Det. Phillips and son, Alvis Lisenbee, Mr. and Mrs. Page Nelson and children, all of Hancock; W. L. Lisenbee of Andrews, Mr. and Mrs. J. T. Lisenbee and son of Houston; Miss Beacie Lisenbee of Hobbs; N. M. Mrs. John Dudley and children of Lamesa; Mr. and Mrs. Lewis Gillespie of Odonnell; and Mr. and Mrs. ...

Why let improperly adjusted gin machinery chew up your cotton and spit it out? It costs you money. For better samples and bigger turnouts bring your cotton to us. O. LAMBETH GIN. 37-1tc

MISCELLANEOUS

Thirty seven years experience operating cotton gins stands behind the statement when we say we know how to make cotton gin, gin cotton, to bring out the staple and grade to the best advantage to the farmer.

For better samples and bigger turnouts bring your cotton to us. O. LAMBETH GIN. 37-1tc

John Garvin and children of Big Spring. Special guests were Mr. and Mrs. Paul McClelland and daughter of Hancock.

Homemaking Class Gives Informal Tea

The Homemaking class at the Lamesa high school entertained their mothers with an informal tea in the homemaking department this afternoon.

The program was a style review with five models, tailored dresses and cotton print house coats which the girls had selected and constructed in their clothing classes.

The tea was designed to give the girls actual practice in entertaining and in carrying out the duties of the hostesses.

Scout Council To Give Tea For Visitor

The local Girl Scout Council will sponsor a tea honoring Miss Olive McCormick of New York City, member of the Girl Scout National Staff, Friday, Nov. 5, from 4:30 to 6:30 o'clock at the country club.

Everyone interested in Girl Scout work is extended an invitation to attend. Miss McCormick will be here the week of Nov. 4-10 to conduct a school in scouting.

COUNCIL OF H. D. CLUBS TO MEET NOVEMBER 13

Council meeting of Home Demonstration clubs in Dawson county will be held Saturday afternoon, Nov. 13, at 2:30 in the home demonstration agents office in the courthouse, announced Miss Mattie Phinizy this week.

Mr. G. F. Thoup, chairman of the council, will be in charge and will direct the business for the day. Election of officers will be held and plans laid for the coming year's business.

The work of writing up the club histories is being concluded, said Miss Phinizy, and these articles are expected to appear for publication in the near future.

Arrangement days are being observed by the various organizations, at which time the club members prepare exhibits of their accomplishments during past months.

Mar Phinizy, who was injured in an automobile accident in September, expects to be removed from the hospital to her home this week and will direct club activities from there.

Manufacturers To Color Arsenicals

The housewife who carelessly used lead arsenate or calcium arsenate in cooking instead of flour in the future will have no excuse except that she is color blind, for manufacturers of these insecticides have decided to color them a distinctive pink.

Many cases of accidental food poisoning occur because arsenicals are stored in pantry shelves, alongside flour, soda, baking powder, and similar white powdered foods. The arsenicals are likewise white powders, and have no distinctive color to warn the careless cook.

Calcium arsenate is used widely for spraying and dusting vegetables for pest control and lead arsenate is used for fruit.

For years the Federal Food and Drug Administration has warned the public of this danger but reports of food poisoning continue to appear in the papers. Only a few weeks ago several persons working in a mint camp in a western State were seriously stricken after eating flapjacks in which an insecticide was used instead of flour.

Regardless of the precautions of manufacturers, says W. G. Campbell, chief of the Food and Drug Administration, arsenicals and other dangerous insecticides should be kept out of the reach of children. The garage or shed is the place for insecticides, not the pantry shelf.

NINE STUDENTS ARE EMPLOYED THROUGH NYA

Nine students in the Lamesa high school are now doing work under the direction of the National Youth Administration, stated Supt. V. Z. Rogers this week.

These students work twenty hours per month, receiving a monthly salary of \$4. The students are permitted to do work in the offices, or on the grounds so long as they, in no way, replace any regular employee.

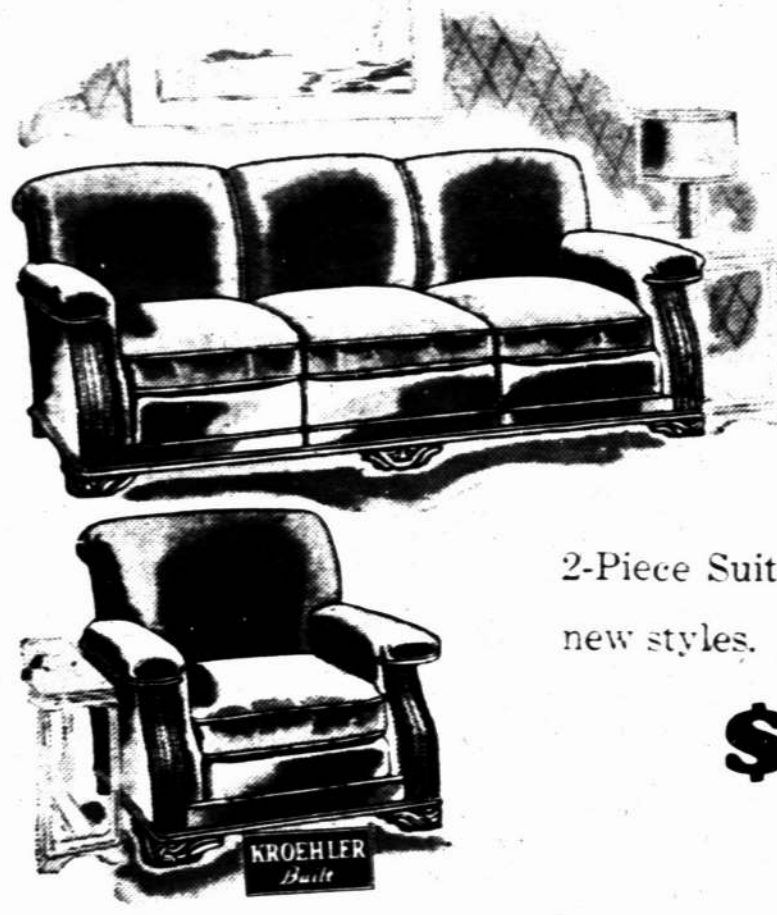

Though the salaries paid are nominal, the students frequently gain invaluable business experience and office training, in addition to the aid the wage gives them in purchasing school supplies.

New Books Received By Public Library

New books received at the Dawson County Public Library include the following: "Man of the Desert," Hill; "Betty Zane," Gray; "Last Trail," Gray; "Wildfire," Gray; "Return to Religion," Link; "Pioneer Herd," Hilton; "Brentwood," Hill; "Sunrise," Hill; "Home for Christmas," Douglas; "Reckless Range," McCulley; "Mayor on Horseback," Oppenheim.

Allie Layman of Midland spent the weekend here with Buster Herndon.

"THE REST OF THE RECORD"

By James V. Alred

As I write this column the special session has been over two days. I regret exceedingly the unfortunate outcome of the thirty-day meeting of the Legislature. The sad and pitiful part of it is that nothing was done to help the needy people, the blind and our underprivileged children — notwithstanding repeated exhortations and warnings. Not only that, but Texas will lose several million dollars of Federal funds to carry on this program. The people are confused and indignant over the outcome. Certain groups such as the representatives of special interests apparently are well contented with the report brought me at the close of the Legislature by the Senate notification committee, which advised me

rather gleefully they "had done their work well." The question uppermost in the minds of the people, however, is "Why, or what, is to blame for these lamentable conditions resulting in the failure to secure funds for the social security program?" The statements have been issued since the session by certain senators and house members. Some of the people are unable to fix clearly the responsibility. Why? The present two-house system of the Legislature is made to order for sly manipulation and buck passing by shrewd parliamentarians. This is not the first session to end with each house blaming the other. The difference is that with the changing and complex problems of recent years this condition has grown worse. Not all the members of either house are to be condemned; yet, the good, the patriotic the diligent, the sincere members often find them-

selves condemned along with reactionaries and demagogues. Lawyers will tell you that delay and time are the greatest aids to a man charged with crime. Delay and time are likewise the most powerful weapons that can be employed to defeat progressive legislation. Under our present legislation system these weapons are readily available and freely employed. During the past session the people have witnessed a strange situation. The special session was called for the purpose of raising revenues for the needy. A powerful minority group declared no taxes were necessary and employed every artifice possible to defeat the purpose of the session. Certain newspapers criticized the call and advocated no taxes.

Now that the session has ended we find that the spoke-man for the same minority group and for the same newspapers criticize the legislature for not passing a tax bill—the very thing they said should not be done. I shall have more to say later concerning this session. The untimely death of Judge S. Latimore shocked the entire state. The beloved judge had served with outstanding distinction on the Court of Criminal Appeals for many years. Friends and close associates, as well as admirers from all walks of life testified to the love and esteem in which Judge Latimore was held as they solemnly entreated to pay final tribute to this distinguished son of Texas.

Faced with appointment of his successor, I chose Harry N. Graves of Georgetown who resigned from the Legislature to accept the judgeship. He is one of the noblest characters I have ever known. Courageously and unselfishly Judge Graves has served the people of his district and state for many years. He is preeminently qualified for this great office and while I regret his patriotic service in the legislature will be ended, I felt that his outstanding service and character should be rewarded. The appointment of a member of the Legislature to a judgeship was not without precedent. From the Forty-fourth Legislature, I selected Sarah Hughes of Dallas to fill a vacancy as district judge. She became the first woman judge in the history of Texas and her splendid record as district judge has won the admiration and acclaim of the Dallas bar.

Rio Grande Basin Land Measured by Unusual Method

Two million acres in the Rio Grande Basin—an area larger than that of Delaware and Rhode Island combined—have been mapped and the acreages of various crops and other vegetation ascertained in record time and in a unique way by the United States Bureau of Agricultural Engineering for the National Resources Committee. The

work was done in a single season, with a small force and limited funds. Practically the entire river basin was mapped on aerial photostatic prints on a scale of 2 inches to the mile in the more open country and 4 inches in the more congested areas of New Mexico. On these prints the fields were numbered or colored as to crop or other vegetation classification.

Outlines of the fields and other areas were scratched with a stylus on sheets of celluloid one hundredth of an inch thick placed over the photostatic maps. Classification numbers were scratched in. The grooves in the thin celluloid made it easy to break the sheets into pieces which were then sorted as to numbers. The acreage by weighing the piles of celluloid pieces on an accurate balance. By this simple short cut the long and tedious process of measuring fields of many shapes and sizes was turned into a relatively simple job.

MOVIE CRITICS PRAISE "GOOD EARTH" HIGHLY

With an almost unanimous vote Stamps-Howard movie reviewers picked the August picture of the month—"Good Earth." Bringing together "the greatest efforts of a great writer, Pearl Buck; an incomparable actress, Luise Rainer; and a magnificent character actor, Paul Muni, this picture stands alone among August releases. Here is what some of the reviewers said:—

Word From Columbus—William S. Cunningham of the Columbus Citizen.—This is the cinema at its peak. There is power and majesty and beauty in its realistic re-creation of rural Chinese life. There are superb performances by Luise Rainer and Paul Muni.

Edward Klinger, the Evansville Press.—From every standpoint this film is a cinema achievement. It would be less than useless to undertake to enumerate the fine points that go to make this picture a triumph.

Laurie March, the Akron Times-Press.—Luise Rainer, for the second time, becomes one of the screen's incomparable actresses; Paul Muni improves upon all recent characterizations; the film is faithful to the book which was great also; the photography is exceptional; the sets are faithful, and the direction by Sidney Franklin is masterly.

James Thrasher, Indianapolis Times.—As nearly perfect as a picture as ever came out of Hollywood "Good Earth" is my choice for the August hit picture performance. Direction and photography are of the highest order and the spirit and style of the book have been captured completely.

Mr. and Mrs. Alfred Finto of Floresville and Mrs. Oley Shields of San Antonio are guests in the home of Mr. and Mrs. W. T. Finto.

UNDULANT FEVER BEING REPORTED STATES COX

Austin, Tex. Nov. 2.—Undulant fever or Malta fever, a disease contracted from cattle, goats or sheep which are infected with contagious abortion, is being reported sporadically throughout Texas and the nation, according to Dr. Geo. W. Cox, State Health Officer. This indicates malta fever to be a public health problem and the attendant need of more general recognition by the public to the disease.

Undulant fever is so called of the wave-like variation in temperature. The symptoms include rise in temperature, loss of weight and strength, chills, sweats and joint pains. The disease has rather a low mortality rate, but important because symptoms may persist for a number of weeks and even months before normal health and strength are restored.

In Texas, the goat, horse and cows are the usual spreaders of this disease. The germs of undulant fever enter the body through the mouth or skin. Therefore, care should be used in handling animals known to be infected and dairy products from the same source should be pasteurized if used. More men acquire this disease than women and adults seem more likely to have it than children. More cases are found in the rural areas than in the cities.

The true prevention of undulant fever is based upon the detection of the disease in livestock and the elimi-

nation of infected stock from the herds. Dairy herds should be tested for Bacillus abortus. This is a task that cannot be accomplished in a short time. Pasteurization of milk will prevent the spread from this source.

OLD QUILTS ARE ONE EXHIBIT AT DENTON SHOW

Denton, Tex. Nov. 2.—An exhibition of old-fashioned hand-woven coverlets or "kivers" typical of those found in Colonial houses and in the homes of the Old South is on display this week in the library building at the North Texas State Teachers College.

Included are six full size coverlets and about a dozen smaller pieces salvaged from the old coverlets ranging from 60 to more than 100 years old. Most of the examples come from the Southern mountain regions of America where they were woven by hand from hand-spun cotton and wool which had been dyed at home.

The display was prepared by Rudolph Fuchs and Kenneth Hunt, two members of the art department who have made a hobby of weaving, and of collecting early American designs in weaving.

Included among the full size coverlets are the fourharness over-shot weave, the cotton honey-comb weave, the Jacquard type, the double cloth weave, and one of the Marseilles spreads. Among the smaller pieces are the Alabama "Waterfall," Lee's Surrender, "Catalpa Flower," "Governor's

Garden," "Popcorn Weave," "Bow Knot," "Tennessee Trouble," and "Wheel of Fortune."

OPEN HOUSE AT N. T. S. T. C. WILL BE NOV. 20

Denton, Tex. Nov. 2.—The North Texas State Teachers College will hold "open house" for "exes," parents, and friends on November 20, date of the annual grudge battle between the Eagles and the East Texas State Teachers College Lions. President W. J. McConnell has announced.

Faculty members will be at home to former students, and other visitors in their respective departments and buildings from 8 a. m. until 2 p. m. Headquarters will be in the lobby of the new library.

A general committee headed by Dr. J. C. Matthews, director of the demonstration school and president of the ex-students association, will work out details of the entertainment. Eleven committees have been named for the decoration of buildings.

Classes will be dismissed for at least a part of the open house period so that students may entertain visiting parents. The students were incited in a called assembly Monday.

BANNER YEAR PREDICTED FOR TEXAS FARMS

College Station, Nov. 2.—A banner year in farm and home activities is indicated for Texas farm families in a preliminary report compiled by the Extension Service division of Texas A. and M. college director H. H. Williamson has announced.

While insects on one hand and bumper crops on the other brought many problems, improvements on farms and ranches and in homes are going forward at a satisfactory pace, Williamson indicated.

Grasshoppers threatened the record wheat and feed crop of northwestern Texas, but swift action and effective cooperation between the farmers, the Extension Service, and the Federal Government halted the insects and prevented an estimated \$5 million dollar loss, Williamson said.

The agricultural conservation program has resulted in the listing of some 56 million acres of range land for improvement. Besides the construction of dams, spreader terraces, and similar practices, 150,000 acres of range land has been contoured to hold rainfall and encourage grass production. County owned equipment alone has accounted for the terracing of more than 400,000 acres of farm land and 1-2 million acres were planted to summer legumes.

Home food supply demonstrations have resulted in the canning of more than 16 million pints of fruits and

vegetables and the storing of 4 million pounds of dried products and 3-1-2 million pounds of cured meats. These figures represent a 10 to 15 per cent increase over 1936 totals. The 67,000 home demonstration club women and 4-H club girls in the state are following the lead of some 2,000 demonstrators in home improvement, according to Williamson.

Meetings to discuss cotton improvement have been held in 81 counties and information on this subject will be carried to all the principal cotton producing counties. Williamson estimated that 200 new one variety cotton communities would be added in 1938 to the 61 in operation in 1937.

COTTON REPORT STATES GRADES WERE LOWER

For the week ended October 28, lower grades of cotton from Texas are reported than for any previous week this season, says the Bureau of Agricultural Economics at Austin. The proportion for the same period for shorter than 7-8 inch in staple length is larger than for any week thus far this year.

Slightly over 31 per cent of the cotton this week was White Middling and better, over 60 per cent for the season to date has been of these grade classifications. The grades White Strict Low Middling and below constitute nearly 28 per cent of that classed during the week, which compare with about 15 per cent for the season. Some increase is also reported this week over previous weeks in the proportion representing all grades of Spotted cotton.

The proportion of cotton tenderable in the settlement of futures contracts is smaller this week than that reported for any previous week this season. The percentage is slightly less than 70 percent; however, approximately 87 percent for the Texas crop to date is tenderable.

Cotton shorter than 7-8 inch in staple represents 26 percent of that classed this week. Over one-half, 55 per cent is 7-8 and 29-32 inch; 14 per cent is 15-16 and 31-32 inch; and 5 per cent is one inch and longer. The respective cumulative percentages for the season are 15, 48, 29 and 7. The proportion shown for the current season for the lengths shorter than 7-8 inch, 15-16 and 31-32 inch, and 1 inch and longer are smaller than those reported for a similar period last season. A much larger proportion is reported this season than last for 7-8 and 29-32 inch staples.

NYA POSITIONS ARE OPENED TO MORE STUDENTS

Austin, Tex. Nov. 2.—Although the number of School Aid jobs assigned to the National Youth Administration in Texas was reduced about one-third this year, 1,850 separate secondary schools have been approved for participation in the program, and at least 300 other have been recommended for participation.

J. C. Kellam, State Youth Director, said this week that the number of schools participating this year probably will equal the maximum reached last academic year, when 2,135 secondary schools took part in a program which needy youths who have passed their 16th birthday are provided with part time employment so they can continue their education.

The secondary schools already approved have been assigned 5,842 jobs on which a student may earn as much as \$6 a month.

The College and Graduate Aid program has been completely organized with 24 colleges and universities participating. Job assignments number 4,096. On each a student may earn an average wage of \$15 a month. However, in some schools, the funds authorized for one job are split through employment of two students, with a result that a greater number are assigned to NYA jobs.

All students selected to receive school or college aid are assigned to useful and practical work under the supervision of the local school officials.

ADMINISTRATION OF TENANT ACT GETS UNDERWAY

First steps for the administration of the Bankhead-Jones Farm Tenant Act wherein money will be loaned to competent tenants, farm laborers, and share-croppers for the purpose of purchasing family-sized farms, are now being taken. L. H. Hauter, regional director of the Farm Security Administration, announced this week.

Information was received from Mr. Hauter by S. P. Collins, rural supervisor in Andrews, Borden, Dawson and Gaines counties.

Details of an order, signed by Secretary of Agriculture Wallace, provide that regional offices will be established with the Farm Security regional director as executive head and with one specialist in tenant farm purchase loans. The entire program will be handled through the regular Farm Security Administration.

Mr. Hauter said the Secretary of Agriculture is expected to announce state and county committees at an early date. Within each state the counties in which loans will be made will be determined by the Secretary of Agriculture after recommendations are received from the farm security advisory committees.

Pursuant to the terms of the Act, distribution of the \$9,500,000.00 is based on farm population and the prevalence of tenancy in each state and territory. Direct administrative costs will be limited to \$500,000 of the amount provided by Congress to carry out the provisions of Title One during the current fiscal year 1937-1938, and the number of loans per county shall not be less than five nor more than 10 except in states in which the total number of loans shall be less than five. Applications for tenant purchase loans shall be filed with county rural rehabilitation supervisors. Mr. Hauter, however, has made an

urgent request that all applications be withheld until the counties in which this program will be administered this year have been announced. He said this policy will protect would-be applicants from acquiring false hopes and also save county rehabilitation supervisors much unnecessary work. Counties in which the program will be administered this year will be made public in the near future.

Tracks In Snow Give Wild Animal Census

Following animal tracks in fresh snow is one of the ways to take a census of certain kinds of wildlife—particularly of some of the fur-bearing animals. The Bureau of Biological Survey sometimes has definite need for a fairly accurate count of the mammals or birds in a given area, perhaps to determine bag limits, or to reveal whether a protective method is working well or needs revision.

Following the tracks in snow—backward or forward—leads the census taker to dens or burrows, but this does not

reveal how many animals may be living in a den. Further study of the snow trails, however, yield such information to an experienced observer.

Each animal in a den has a distinctive footprint that varies from the others in length. When the tracks from a den diverge a trained observer can quickly measure with his eye—or with a scale—the various sets of footprints and can then jot down an accurate estimate of the number of animals in the den and their approximate age groups. For uniformity the animal-census takers usually use the hind footprint in recording the count.

With some animals—deer and elk in particular—spotting from an airplane has proved quick, reliable and more economical than trying to count from the ground. Airplane counts are also helpful in estimating the numbers of wildfowl on water areas.

Mrs. Roscoe Holton and daughter, Marion left Thursday for a visit with relatives in Hico and Fort Worth.

Mr. and Mrs. John Ballew of Portales, N. M., are here visiting Mr. and Mrs. Boldin at the Lamesa Inn.

GOODRICH CRASHES THROUGH WITH A NEW LOW-PRICED BATTERY SENSATION!

IT'S QUICK ON THE START..HEAVY ON POWER AND LIGHT ON YOUR POCKETBOOK

IT'S AGAINST our policy to sell any battery... regardless of price... unless it gives motorists honest value for their money, right down to the last penny. And that's why we're rooting hard for this Goodrich Silver Spark. We know that this bat-

tery contains many features not found in so-called "cheap" batteries, including genuine hard rubber case, full capacity connectors and posts and acid seal cell covers. We know that when it comes to real, honest value, the Silver-Spark is the outstanding battery in the low-price field. Not only does it have the power you need for quick starts and bright lights but it has a genuine hard rubber case to withstand hard service. And, what's more, it's backed by the famous Goodrich name that stands for dependability. Nowonder this battery gives reliable, trouble-free service. Let us fix you up with a new Silver Spark before the next cold spell. And at our low price you'll be money ahead!

Pierce's Toggery

The Dionne Quins Thrive on Oatmeal

For many weeks every man, woman and child watched with tense interest to see what would happen to the Quins. The fate of these famous babies was a source of speculation and wonder. The Dominion of Canada, making their welfare a national obligation, put them in the care of a top-notch staff of child experts. The amazing result of this special care is that the Dionne Quintuplets are miraculous examples of the "law of health"; that science can give. Their diet is composed of things which do them good and which they like—such as oatmeal.

Oatmeal was given to the charming babies by the dieticians because oatmeal with milk contains such an abundance of body-building minerals muscle-building protein, energy-making carbohydrates, and Vitamin B for keeping fit.

Vitamin B is the best safeguard against those dangerous enemies of childhood—nervousness, constipation and poor appetite due to lack of vitamin in the diet. Therefore the Quins thrive on Quaker Oats.

Mrs. Opal McKay of Pampa spent the weekend here with her parents, Mr. and Mrs. W. O. McKay.

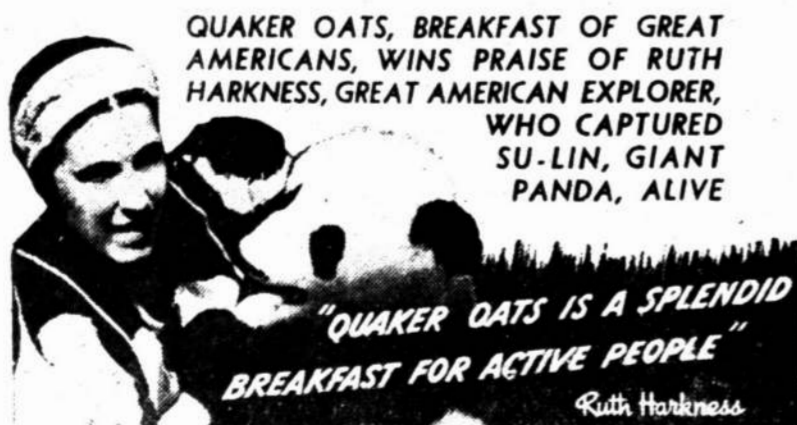

Mr. and Mrs. Bob Saunders left this week for Phoenix, Arizona, where they will make their home.

Mrs. Dave Campbell of Sulphur Springs is here visiting her son, Truman Campbell and Mrs. Campbell.

Oil Company Employees Review Four Years' Self Help Under Credit Plan

Wage-Earning Sponsors of Oklahoma's First Credit Union Finance Cars, Homes, Farms and Even Babies

PONCA CITY, Okla.: Some 1700 citizens of this community in the employ of the Continental Oil Company are now commemorating the fourth anniversary of a cooperative enterprise that has given them the financial power to build homes, buy cars and furniture, take up side-line farming and even to raise families which otherwise would be a severe strain on the pocketbook.

The enterprise is officially known as a Credit Union but is better described today by Joe C. Creager, its treasurer, as a wage pool that supports reliable members who need cash or credit but have no collateral except their jobs.

The Credit Union operates on the principle that borrowing is a national habit, a convenience and often a dire necessity which should be made as available to the man of small means as it is to the well-to-do. Borrowing, explains Treasurer Creager, is just another name for credit or installment buying and is the life-blood of American business. With most banks lacking the facilities to handle small loans and with the ever-present loan shark ready to pounce on a hard-pressed workman, the employees' Credit Union offers the only relief to the wage-earner who has unexpected sickness, an addition to his family or is threatened with the loss of his home or his car.

Creager today pointed to the record of more than half a million dollars loaned by the Conoco Credit Union during the last four years and cited the example of a girl who was over her head in debt due to the prolonged illness of her mother.

"The Credit Union," he said, "looked into her troubles in a sympathetic manner, not with a view of finding out how much profit they could make on a loan but with the object of putting her on her feet. She owed the grocer, the butcher, the landlord

Treasurer Joe Creager, agreeing that this refinery worker can afford a new car, obligingly extends a loan.

and every doctor and hospital in the vicinity. "We moved the mother to another member of the family who could better afford to support her. We moved the girl from the house to a small apartment. We reached an agreement with all her creditors. Then we put the girl on a budget. Believe it or not, within 18 months she was out of debt and had saved more than \$200, this on a stenographer's pay."

Between recitals of other nearly impossible achievements of the Credit Union, Treasurer Creager explained that assistance is not confined to members who are in trouble. "We have made loans," he said, "for wedding expenses, for the buying of Christmas presents, for back-alimony payments and almost anything else you can think of. With the shorter hours and increased leisure, a lot of men are going in for farming and making a success of it. The Credit Union not only finances them but gives much-needed advice on the size and type of farm that is within their means."

Except for the requirement that all members must be employees, Mr. Creager says he is the only

link between the Credit Union and the company. The company furnishes his salary and office space and seems to consider it a good investment in view of the improvement produced in the workers' morale.

The Conoco unit came into being a few days after enabling laws were passed by the Oklahoma State Legislature in 1933, and was the first in this area. Employees elect a board of directors who in turn elect a credit committee, a supervisory committee, a president, treasurer and other officers. Starting with 108 members and deposits of \$381,64, this Credit Union now has more than 1700 members and close to \$150,000 to draw upon. Funds consist of voluntary savings and profit earned on loans or through investments is paid as interest to depositors.

The essence of the success of the Conoco Credit Union, according to Treasurer Creager, is the sympathetic and close contact of the fellow members and their elected officers and committees. "Then, too," he says, "the money works for those it belongs to and puts support behind the consumption of goods instead of production. It's done a lot of good."

VETERANS PLAN PROGRAM FOR NOVEMBER 11

Veterans of Dawson and adjoining counties are expected to meet at the American Legion hall in Lamesa at noon Armistice day for a program to be given by the Legion and Auxiliary. Informality will be the keynote of the day's activities, announced the program committee, with only three numbers being formal in treatment. A basket dinner for all veterans and families will be served at the noon hour.

The Gearhart orchestra, composed of guitars, banjos and mandolins, will open the program at 11:40 with several lively numbers. The children present will sing World War songs at 11:50. "Chow lines" will form promptly at 12 o'clock noon. Chaplain J. D. Dyer

will give the invocation. Carl Rountree will speak at 12:35 on the subject, "In Memoriam."

Mrs. Clyde Brannon will give "Mrs. Rastus at the Telephone," a reading at 12:35.

The Hon. W. T. (Tanlac) Strange of Big Spring was consented to give his famous version of the battles of Itasca, Boker-Eden and Vin Blain appearing on the program at 12:50. These battles, known to all soldiers, are seldom reported in the so-called authentic histories and Mr. Strange's reviews will be interesting to wives and children and will recall memories to the veterans. Mr. Strange has won a reputation as a philosopher and humorist in the Southwest.

Frank DeLaney will speak at 1:20 on "The Possibilities of Legion Membership."

Veterans and families will bring their own baskets to the dinner.

KING AND BAND MEMBERS ATTEND MUSIC SCHOOL

Conway E. King, band director and instructor in the Lamesa Public schools, and five of his band members are attending the 3-day school of instruction for band masters which opened in Lubbock today.

The school, which is sponsored by the state department of education is the first of its kind to be given for musicians in this part of the state.

The band members who accompanied Mr. King and who will participate in the activities of the All West Texas Band assembled for the occasion are: Bob Crawley, b-flat clarinet; Conway E. King, flute; J. D. Dyer, Jr., clarinet; Owen Taylor, Jr., bass clarinet and Garvin Wilkes, trombone.

All of these musicians were medal winners in the West Texas Band contest last Spring.

The Lamesa delegation also received an invitation to attend a similar school held on the campus of the University of Texas at Austin early this week.

Twenty-Four New Pupils Enroll In Lamesa Schools

Twenty-four new pupils have been enrolled in the Lamesa Public schools in the last two weeks. Twelve were enrolled Monday, Oct. 25, and twelve on Monday, Nov. 1.

Two of these two dozen pupils were from the high school and twenty-two entered the primary and elementary grades. This brings the number of high school enrollment cards to 490 and those in the elementary to 911 making a total of 1401 white children. Five classrooms are fitted out in the high school building and are occupied by primary grades.

J. E. Barron Talks To Luncheon Club About Highway 15

J. E. Barron had charge of the meeting of the Luncheon Club Tuesday noon and talked to the members about the proposed road program for Dawson and adjacent counties.

Relative to the Highway 15 project from Roby west to the state line, a distance of 165 miles, Mr. Barron discussed the recommendation which is being made to have this unit of paving designated as a Federal Aid road. Some 1300 miles of roads in Texas have already been approved for Federal aid by the Federal Bureau of Public Roads, he said, and it is hoped to make Highway 15 a part of that program.

Sam Richardson was appointed program chairman for next week's meeting.

DEPUTY COLLECTOR TO BE IN LAMESA FRIDAY, NOV. 5

Will H. Talbot, deputy collector of internal revenue, will be in Lamesa Friday from 9 a. m. to 3 p. m. in the interest of social security and income tax accounts, and will maintain an office in the mayor's office in the city hall.

Mr. and Mrs. Hickmit Shukru are the parents of a daughter born early Wednesday at a local hospital. Mrs. Shukru is the former Miss Nettie Underwood.

PERSONALS

Mrs. J. E. Parker of Sudan spent Tuesday and Wednesday here visiting Mrs. W. H. Bennett and other friends.

Mrs. Eugene Barrett of Stamford spent the weekend here with her parents. Mr. and Mrs. W. O. McKay

Mr. and Mrs. Archie Tvey of 506 S. Austin are the parents of a 10-1-2 pound daughter, born Oct. 27. The little lady has been named Mary Elizabeth.

Mr. and Mrs. Dixie Kilgore had as their guests last week Mr. and Mrs. Carl Galloway and two daughters of Eureka, Utah.

Mr. and Mrs. E. B. Warren, Mrs. W. E. Roberts and Mrs. L. B. Hodges spent Monday in Seminole and Seagraves.

Miss Helen Bracey has accepted a position as operator at the Roberts Beauty Shop.

Guthrie Allen is ill this week with the flu at his home.

George Gable and L. J. Dugger of Midland visited their parents here over the weekend.

Mr. and Mrs. J. A. Tarter and Mr. and Mrs. Marion Mosley spent Sunday afternoon in Lubbock.

Bill Creighton and W. H. Collins visited in Lubbock Sunday.

Mr. and Mrs. Robert Koger and Mr. and Mrs. F. T. McCollum attended the football game at Waco Saturday.

Mr. and Mrs. Aubie Burns and Mrs. Douglas Hill visited in Big Spring Sunday.

Mrs. Bill Creighton and Miss Vanabel Clark were Lubbock visitors Tuesday.

Mrs. S. M. Mitchell returned Sunday from Dallas where she had been visiting her mother, Mrs. Holt, who has been ill.

Ernest Gamble made a trip to San Angelo Sunday.

Four students working on part-time NYA college aid jobs at the University of Texas have been assigned to the Austin Visual Instruction Bureau to aid it in handling the rapidly increasing volume of work. The bureau is making colored slides on health, nature travel and many other subjects.

Approximately 138 NYA girls in San Antonio assigned to work in the public school cafeteria are receiving practical domestic training assisting in preparing and serving 60,000 lunches weekly. Hirschie Johnson, district supervisor, has reported to J. C. Kellam, State Youth Director. They also assist in meal planning and at the stream table and cash register.

During the last 15-day period youths assigned to a National Youth Administration project in the Houston Public Library prepared 301 books for cataloging, mended 96 volumes, prepared 1500 books for the Children's Room arranged and classified 900 pamphlets, shelved 7800 books, and assisted in mimeographing library material, scrap book work, cataloging and general stenographic work.

In line with the program of off-the-job training for youths working on NYA projects, youths in the Lubbock district interested in business training are being provided during their spare time with typewriters, typing manuals and instruction. A. V. Bullock, district supervisor, reported to J. C. Kellam, State Youth Director.

One group of NYA youths assigned to a land improvement project at Mexia are improving and landscaping the City Park. In addition to clearing and leveling the recreational area, the youths laid 60 feet of stone wall foundation during the last 15-day period.

Mrs. Joe Bishop returned to her home in Odessa Tuesday after a visit here with her mother, Mrs. Anna McKessie and grandparents, Rev. and Mrs. J. W. Braswell.

RADIO PROGRAMS WILL SFFK TO AID FARMERS

Radio programs given by the Extension Service the week of Nov. 5 to 11, inclusive, will feature talks on both agriculture and home economics. These programs may be heard from 11:30 to 11:45 a. m. over stations WTAW, WPAF, WFAA, KPRC and WOAI as follows:

Nov. 5—Results of Agricultural experiments, A. D. Jackson, editor of Experiment Station; Animal husbandry notes, D. W. Williams, head of Animal husbandry department, A. and M.

Nov. 6—National 4-H Club Day, Miss Mae Belle Smith, Extension district agent and R. S. Miller, district agent in charge of program from College Station.

Nov. 8—Farm Security Administration, L. A. Macheehl, supervisor, FSA; Dairy husbandry department notes, C. N. Chepardson, head of dept. A. and M.

Nov. 9—Community organization helps to develop ideal farm homes, Miss Mashburn, Extension district agent; Agricultural engineering notes, Don Scotts, head of department A. and M.

Nov. 10—Poultry notes, D. H. Reed, head of department A. and M.; Food education, W. E. Diskill, deputy state superintendent.

Nov. 11—Soil Conservation in Texas, Paul Walser, state coordinator, FCS; Agricultural economics notes, J. V. Barger, head of department, A. and M.

HOSPITAL NOTES

Miss Mattie Phenix who sustained injuries in an automobile accident five weeks ago is reported to be improving and expects to be discharged from the hospital within a few days.

Hoyle Turner, aged 3, of Seminole was dismissed from a local hospital Tuesday. He had been ill of pneumonia.

Mr. and Mrs. Durwin Echols are the parents of a 7 pound boy, born Tuesday, Nov. 2.

Ed Fultz is undergoing observation in a local hospital.

Mr. and Mrs. R. V. Sutphen of Ackery are the parents of a boy born Tuesday, Nov. 2 at a local hospital.

Curtis Morris is reported to be improving.

Miss Carrol Cole was dismissed Tuesday from the hospital where she had undergone a major operation.

W. F. Burleson of O'Donnell, is in hospital for medical treatment.

Mrs. A. P. McGuire was dismissed from the hospital Tuesday.

Kenneth White, who suffered an attack of pneumonia, is reported to be resting satisfactorily.

Mrs. H. B. Stantfield was dismissed from the hospital Tuesday.

to have him with us again soon. His wife, son and daughter were with him and his daughter gave us some fine music on the recordion.

Just two more weeks to complete this year's work. We go to conference Nov. 15. Don't let the rush of business keep you from looking after the interests of the church.

The church quilt is completed and is a beauty. You can see it any time at the parsonage. How about 112 on it is that of Grandmother Knoble of Higinbotham, and the youngest is Donald Preston, new son of Mr. and Mrs. King Preston of Welch.

We have only one more preaching day, second Sunday. Come and help us—J. G. Walker, p. c.

METHODIST CHURCH (Welch Charge)

Everything looked mighty good at our church Sunday. Sunday school attendance better than usual. Program rendered by local talent was fine. Brother Florence certainly brought us a good message. We are...

Eye strain days are here again!

● Early evenings, cooler weather and homework to be done bring youngsters indoors for play and study. Instead of bright, outdoor sunlight, they must use their eyes under artificial light which can be only a fraction as brilliant as sunlight. But this doesn't mean that harm will result to their eyes, if the proper kind of light is provided for them in their homes. I.E.S. Better Sight Lamps are scientifically designed to provide the proper kind of light for easy and safe seeing, and to protect young eyes from unnecessary strain.

Let's get down to ^{crank} Cases

To keep your car from growing old too soon... to make it run with that wonderful smoothness and pep it used to have when it was new... pay a lot of attention to the crankcase. That's where a motor's hardening-of-the-arties starts.

So drain the crankcase—NOT your pocket-book, by refilling with Phillips 66 Motor Oil. It is Phillips finest, made from a costlier 100% paraffin base crude.

It meets the higher requirements of today's modern motors because it has high-degree oiliness. Refined into it by Phillips painstaking modern process. Besides, it is extra clean and extra thrifty. No wasteful light parts to cook out or burn out. Hence the film is tougher and longer-lasting.

Next time, drain and refill with Phillips 66 Motor Oil. It's concentrated! ... This year's big value in car lubrication. Look for the Orange and Black 66 Shield.

30¢ a Qt. refinery-sealed cans

ELMO SMITH, Owner Located on Big Spring Highway

Miss Minnie Anderson spent Saturday night in Lamesa with her aunt, Mrs. Earl Anderson.

Carl, son of the CCC Camp of Lamesa spent the weekend with his mother.

Mr. and Mrs. Albert McGuire are the proud parents of a 7-pound daughter, who arrived Sunday and was named, Kinel Florine.

The following residents of Lamesa were dinner guests of Mr. and Mrs. J. O. Anderson Sunday: Mrs. Earl Anderson and children, Mr. and Mrs. Odie Anderson and baby, and Mr. and Mrs. J. M. Smith and children.

Mr. and Mrs. Otis Lee and sons of Lamesa called on relatives here Sunday afternoon.

Glade Combs spent Saturday night with Dorothy Jones.

Mr. and Mrs. Thad Reeves called on Mr. and Mrs. Charlie Bean Sunday afternoon.

Mrs. Edd Knox returned home Friday from a two week's visit with her mother and other relatives at Whitney.

Mrs. Vera O'Brien and O. L. Haro were united in marriage last Thursday. We wish for them a happy married life.

Mrs. Eave Womack spent Saturday night with Mrs. Eulus Thomas.

Custer Leatherwood has purchased a new car.

Mr. and Mrs. Boatright from Woody spent Sunday with Mr. and Mrs. Bill Leatherwood.

We are sorry to report that Mr. and Mrs. M. C. Lindsay had the misfortune to have a car wreck Saturday night. No one was seriously hurt but the cars were badly damaged.

Sunday school was well attended. Rev. John House of Lamesa preached Sunday morning.

Mr. and Mrs. Lambert Astin are the proud parents of a baby boy. Mother and baby are both doing nicely.

Mr. and Mrs. Otis Archer and Mr. and Mrs. Bill Archer and families visited relatives at O'Donnell Sunday.

Mrs. W. P. Cozart, Lois Cozart and Billy Gene Gary visited Mr. and Mrs. Luther Lee of Sand Sunday.

Mrs. L. M. Baxter spent last weekend with her mother, Mrs. Knobles of Weaver who has been sick for several days. We hope for her a speedy recovery.

Everyone enjoyed the singing at the home of Mr. and Mrs. Marcus Delemam Sunday night.

Mrs. D. P. Huddleston was on the sick list last weekend.

Edna and Arthur Pounds of Weaver entertained their friends of this community with a delicious dinner Sunday. Those enjoying the day, besides the family were: Lula Belle, Carrie Mae and Cicero Huddleston; Lester, Johnnie and Grace Lewis; Mr. and Mrs. Palma Baxter; Aileen Baxter, Logan and Glen Cozart; O. W. Paris, Marie House; John Stanford, June and Kattie Swafford; Mary and Tobie Smith, Dalph Pounds; O. C. Johnson, Mr. and Mrs. Swafford and daughter, Mr. and Mrs. Marcus Delemam, and Mr. and Mrs. W. A. Lewis, son and daughter. Everyone reported an enjoyable time.

Rev. and M. John House of Lamesa visited relatives of this community Sunday.

Mr. and Mrs. Green and children of Pr. Winfield spent Saturday night and Sunday with Mr. and Mrs. Luther Payton and family. Grandmother Payton returned home with them for a visit.

FURROWING HAS ADDED TO GRASS ON PASTURES

Amarillo—Contour furrowing has increased grass growth approximately a ton to the acre on the C E Weymouth ranch 30 miles north of Amarillo, tests made by the Soil Conservation Service camp in this area, reveal.

This section of the Weymouth ranch where the soil is a dark loam on a two per cent slope bordering rough broken land, was furrowed with a two-row lister in August, 1936. The work was done by enrollees of the Civilian Conservation Corps stationed at the Amarillo camp.

The pasture received approximately 14.33 inches of rainfall between May 1 and October 1, 1937, or during the growing season. No grazing was allowed on an enclosed area in which buffalo and blue grama grasses predominate.

After the growing season, five plots were laid out across the contour furrows, and five similar plots were selected where the pasture had not been furrowed. The sun-cured grass then was harvested from the ten plots, each being one rod square.

A total of 94 pounds of grass was harvested from the contour furrowed plots, these ranging from 11 to 24.3 pounds. The unfurrowed plots yielded only 32.5 pounds, ranging from 5 to 8.5 pounds to the plot.

The yield from the contour furrowed test plots was 61.5 pounds greater than areas or an increase in grass growth by weight of 189.2 per cent. Figured upon the basis of an acre this was an increase of 1968 pounds or approximately a ton.

The National Board of Fire Underwriters has just released a bulletin entitled, "What to Look for in Dwelling Fire Inspections." While the bulletin is specially designed for firemen, the advice it gives can easily be followed to advantage by home owners.

Items to be checked from outside the house include: 1. Condition of roof. Old or warped roofing collects sparks. 2. Condition of chimneys. Loose bricks, open joints, cracks, improper supports, etc., present obvious dangers. 3. Condition of the yard. Dry grass, leaves, papers and other combustible accumulations constitute a serious fire hazard to adjacent places. 4. Condition of garages and sheds. Cleanliness and good maintenance are essential precautions. 5. The storage of hazardous materials such as oil and kerosene.

Inside the house a thorough fire inspection must include the checking of accumulated waste and discarded materials; storage of fuel, the condition of furnaces, stoves and other heating appliances; possible defects in inside chimneys, fire stops, etc.

The citizen who is uncertain as to hazards and their elimination can get the necessary information from the National Board of Fire Underwriters, 85 John Street, New York or can doubtless obtain the assistance of local fire marshals. Periodic inspection by owners would unquestionably prevent the great majority of the dwelling fires which destroy millions of dollars in property values and take hundreds of lives annually.

Junior medical office (retating interest), \$2,000 a year; junior medical officer (psychiatric resident) \$2,000 a year. St. Elizabeths Hospital, Department of the Interior, Washington, D. C.

Full information may be obtained from Cleve R. Austin, Secretary of the U. S. Civil Service Board of Examiners, at the post office or customhouse in this city.

Bulletin Tells How To Eliminate Fire Hazards in Homes

The National Board of Fire Underwriters has just released a bulletin entitled, "What to Look for in Dwelling Fire Inspections." While the bulletin is specially designed for firemen, the advice it gives can easily be followed to advantage by home owners.

Items to be checked from outside the house include: 1. Condition of roof. Old or warped roofing collects sparks. 2. Condition of chimneys. Loose bricks, open joints, cracks, improper supports, etc., present obvious dangers. 3. Condition of the yard. Girl Scouts

(Continued From Front Page)

pretation of the program as a whole for all girls.

"The fundamental activities of the Girl Scouts have not changed during the 5 years since the movement was started," she added, "but the approach to them changes constantly. Significant changes are taking place today and the program of the Girl Scouts is being adapted to meet the new needs."

"Educators tell us that the modern girl needs the elements of adventure. Our camping program gives her a bit of adventure with safety. This modern teen-age girl is interested in her appearance, in her ability to get along with other people, in the social graces and in her future. We offer a variety of projects suitable for her age while she is a member of a Girl Scout troop. Under the sponsorship of our adult members, we are able to help her gain the knowledge and experience she needs to obtain these objectives.

"In order to help her, however, we need leaders to work with the girls in carrying out the activities suggested by the Girl Scout national program. When troops are organized, they need troop committees and local councils whose members are active in community affairs. The organization really offers opportunities to girls and women alike."

Miss McCormick addressed the Litch's Club at their December meeting yesterday. She will speak before the Rotary club tomorrow and before the Luncheon club Tuesday.

Today is being devoted to meetings with the general council and the finance committee. Friday morning at 10:30 she will meet with the personnel committee and Friday evening at 7:30 with the awards and merit committee. Saturday morning at 10:30 she will discuss methods with the publicity committee.

Monday afternoon's schedule is a heavy one. From 2 to 4 o'clock Miss McCormick will have conferences with out-of-town visitors. From 4 to 5:30 she will conduct a leaders' meeting and at 7:30 she will center with the camps committee. Tuesday, from 4 to 5:30, she will again meet the leaders.

An invitation is extended to all women, both city and rural, to attend the session of the school while Miss McCormick is here and to learn about scouting and scout leadership.

Hodge Home

(Continued from Front Page)

water and sewage system, water being piped from a 125-barrel concrete tank which is kept filled at all times by a windmill. Overflow from the storage tank fills a surface tank and a concrete stock watering tank.

The spaciousness of the home is the first thing that strikes the eye of the

visitor. No room is smaller than 14x14 feet, which seems doubly large in this day and age of small houses. From the exterior the house appears to be considerably larger than its five rooms would indicate, if one were thinking of numbers rather than size. It fronts west.

The living room, which is entered by way of a small vestibule, is equipped with a fireplace finished in the same rock as was used in the exterior finish.

The dining room and the guest room are 14x14 feet in size, and the latter has a large clothes closet for the convenience of the guests. Quills and bedding closets open into the hallway which leads to the bathroom, equipped with modern fixtures and following a color scheme of black and white.

A miracle of modern arrangement is the kitchen which was planned by Mrs. Hodge and which is a veritable housewife's dream in regard to cabinet space. Reaching from floor to ceiling, with small drawer compartments arranged for convenience, the cabinet provides both storage and working space. Giving Mrs. Hodge ample room in which to prepare and serve meals. There is room for everything, canned goods, dishes, and grocery stocks. A modern new gas range makes cooking easier and a gas refrigerator preserves supplies that require refrigeration. The color scheme of the kitchen is red and white.

One of the most attractive rooms in the house is the bed-sitting room, 14x18 feet, which has both east and south exposures. Spacious and comfortably furnished this room serves as both living room and bedroom for the occupants.

Hardwood floors are to be found throughout the house which is papered and finished in light colors in all rooms. Each window is outfitted with venetian blinds.

The grounds will be landscaped in season, says Mr. Hodge, who expects to have lawn, shrubs, and flowers planted and growing within the year.

Cotton, cattle and feed have made this home possible. All but a small portion of the section of land which surrounds this farm home is in cultivation, planted to cotton and feed. Mr. Hodge estimates that he will raise between 150 and 175 bales of cotton on this place this year. A small pasture is reserved for summer grazing for the 100 head of cattle which usually stock the place. Feed is raised for this livestock on the land which is not planted to cotton. At present there are 50 head of cattle on the farm, the others having been sold only a short time ago.

Mr. and Mrs. Hodge are the parents of one son Curtis B. of Wink, who married the former Mary Naomi McCormick of Lamesa, and who have one son, Sammy Mack.

They are frequent visitors at the Hodge home, as is Mrs. Hodge's father, J. U. Phillips of Taylor County, who is now 90 years of age. Some of the rocks used in building the Hodge home came from his homelace in that county.

Recreational Club

(Continued from front page)

expects to have several 1-act plays and monologues ready for presentation by Thanksgiving. Plays will be given from time to time during the Fall with special programs on all holidays. A Christmas pageant is being prepared for the yuletide season.

A recreational library has also been ordered. Mr. Witt announced this week, and will be ready for use in the near future. Books available will be such works as "Social Recreation" by Mason and Mitchell and "Active Games," by the same authors.

A piano is available at the club and classes are soon to be opened in group singing, and drills for the smaller children.

The general public is invited to visit the club house at any time during the day or evening as both the supervisors and the city and county officials are anxious to have everyone avail himself of these opportunities for play and recreation. "The main objective of our school," says Mr. Witt, "is to provide both children and adults with adequate recreational facilities and with directors who can aid in highly organized sports."

Salaries of the school are paid by the WPA, and equipment is being purchased by the town and county who have already appropriated a fund of \$300 for this purpose.

MAYOR TO AID IN CENSUS OF UNEMPLOYED

Mayor W. L. Marr has been requested to cooperate with Postmaster Owen Taylor in taking the federal unemployment census of Lamesa and Dawson county.

Mr. Marr has appointed A. G. Bearden as chairman of a committee to work in cooperation with the federal government on this project.

This census, which will be taken between November 16 and 20, will endeavor to determine the number of unemployed in the United States. Unemployment report cards will be distributed with the request that every totally or partly unemployed worker in a household fill out one of these cards and mail to the National Unemployment Census before November 20.

"The Congress directed me to take this census," states President Franklin D. Roosevelt on these report cards. "It is important to the unemployed and to everyone in this land that the census be complete, honest, and accurate. If you give me the facts I shall try to use them for the benefit of all who need and want work and do not now have it."

Mr. and Mrs. W. B. Collins and Dick visited Sunday in Brownfield.

DEFEAT OF CUBS BY SCORE OF 7-0 PLACES TORNADOES IN LEAD

Lamesa's Record Clear In March Toward Championship

The Lamesa Golden Tornadoes kept their football record for 1937 clear by defeating the fighting Brownfield Cubs last Friday by a score of 7 to 0, and continued their march on to the District championship.

The game started off by the Cubs making a first down after receiving Steele's kick, but were forced to kick after carrying the ball down the field to the 40-yard line. The Tornadoes were held to downs on the 34-yard line and Steele kicked out of bounds on Brownfield's 34.

Brownfield made another first down and was again forced to kick. The remainder of the first quarter was played on even basis, with neither team showing much ability to gain. The second quarter started off with Steele kicking to the Cubs safety almost on the goal line and the Brownfield safety was tackled on the 3-yard line.

Brownfield kicked from behind the goal line to their own 33. Here the Tornadoes took charge of the game and Brownfield was entirely on the defensive throughout the remainder of the quarter, and fought desperately to stave off a Tornado touchdown.

Three times the Tornadoes advanced within the 20-yard zone during the second quarter, but each time failed to score, and it looked very much like lady luck had deserted the Lamesa boys. The heartbreaker came to the Tornadoes and fans when Hill completed a beautiful pass to Jones on the 15 yard line and Jones shook off several tacklers carrying the ball to the 1-yard line where he fumbled when tackled and Brownfield recovered. This, however, did not faze the spirit of the Tornadoes, for they came

back and had the ball deep in Cub territory when the half ended.

The Cubs came back in the second half with lots of scrap and made two first downs, and then after being held kicked to Allison on the 24-yard line. Steele then got off a beautiful kick from his own 16 yard line, which sailed over the Brownfield safety's head and out of bounds on the 18-yard line.

The Tornadoes finally got possession of the ball on the Cubs 35-yard line and made two successive first downs, placing the ball on Brownfield's 9-yard line, from which point Jones carried over in three line plunges, and Steele kicked the extra point, making score 7 to 0 in favor of the Tornadoes.

Jones, Allison, and Hill alternated in carrying the ball down the field on the touchdown drive. After the Tornado touchdown, the Cubs opened up with their passing attack, only to have their overheads stopped when the alert Tornado backs would intercept their heaves. Exactly 4 Cub passes were in-

tercepted by Jones, Allison and Hill during the fourth quarter.

Brownfield made 7 first downs in the last half, but never once were able to penetrate the Tornado 20-yard line. The game ended with the Tornadoes in possession of the ball deep in Cub territory. It would be impossible to say who were the stars for the Tornadoes, as every player on the team was in the game doing his best, playing heads-up and trying to win.

The starting lineup for the Tornadoes was: Hogg and McKinnon, ends; Morgan and Holliday, tackles; Jacobs and Steele, guards; Mitchell, center; Hill, quarterback; Jones and Allison, halfbacks, and Schmidt fullback.

Ray Barrett of Plainview visited his parents, Mr. and Mrs. J. M. Barrett over the weekend.

Mike Barrett of Kermit spent the weekend in the home of his parents, Mr. and Mrs. J. M. Barrett.

WE WANT TO BUY YOUR

Turkeys

The Thanksgiving Turkey Market is now open and we are ready to dress turkeys.

If you have turkeys to sell, bring them to us at our present location in the Old Panhandle Lumber Company building.
