

## Water Bill Payment To Be Strictly Enforced

At City Council meeting Tuesday night, employees were given instructions to rigidly carry out the long-standing rules on payment of water bills.

Starting August 20, 10 percent penalty will be charged for payment after 20th of each month and cut-off date is 26th. A \$1 charge is made to turn water back to customer.

These rules were passed many years ago and in order to maintain present rates, collections must be made on current dates.

## Gray Has New Plane For Crop Treatment

John Gray of Gray Butane Co., has just purchased a new Piper Pawnee plane for crop dusting and spraying. The new type plane is reported to be the safest and best plane of its kind manufactured. It is strictly an agricultural plane designed for this work alone. It has all the new features to do the best possible job of crop treatment.

With insect damage growing each year, Mr. Gray, who has done a large amount of crop treatment in the past few years, saw a growing need for this work and bought the best equipment available to do the job. See him for particulars and free estimates.

## Three Local Ladies To Attend THDA

A number of Fisher County HD Club women will be in San Angelo August 9 and 10 for the annual State meeting of the Texas Home Demonstration Association.

The meetings will be in the City Auditorium. Delegates elected to attend from the county are, Mrs. B. F. McGee of Longworth, Mrs. Holman Boyd of McCaulley and Mrs. H. L. Dycus of Rotan. A number of women will attend in addition to these three.

## Dowell Exes Reunion Draws Good Crowd

The annual reunion of Dowell School Exes was held at VFW Hall with a good crowd attending. Towns represented besides Rotan were Paint Rock, Abilene, Sweetwater, O'Donnell, Lamesa, McAdoo, Fort Worth and Roby.

In the afternoon the group heard George McBeth make a very interesting talk. Theme of this was "Through The Years."

A few Exes who live here and are not attending these meetings are missing a very enjoyable occasion.

## Farmers Union Has New Leaders

Texas Farmers Union has recently lost the two men that built the organization in this state from a few hundred members to several thousand. In the spring Richard Alexander, secretary-treasurer, resigned to become a district fieldman with the ASC, to be stationed in Amarillo. In July the president of Texas Farmers Union, Alex Dickie, resigned to become executive secretary for Senator Ralph Yarborough. Both of these men have been in Fisher County many times. In president Dickie's place the executive board has appointed Jay Naman, president of McClennan County Farmers Union, to serve until the state convention in December.

Frank So Relle of Sherman, N. M. was in Rotan Wednesday enroute to Camp Perry for National Rifle Association meeting. He is southwestern director of the association.

## Cancer Crusade Leaders Are Commended

Leaders of the 1961 Cancer Crusade in Fisher County have been commended by officials of the Texas Division of the American Cancer Society for their part in what appears to be a record breaking year for cancer control education and fund-raising in Texas.

Crusade Chairmen Mrs. H. Thompson and Mrs. Homer Aaron have been notified by the Society that an all-time high for Texas is now within reach before this year's activity concludes in August.

Fisher County has reported total Crusade funds raised of \$1,388.28. The county's assigned minimum share of state goal was \$1,150. It is one of 112 counties in Texas which have already gone over the top.

With more than \$1,100,000 already reported, Texas has in prospect a new record contribution to the control of cancer. The highest year previously was 1959, when Texans put \$1,189,563 into the fight against cancer. State officials now predict that when the books are closed on the current Crusade at the end of August, this record will have been surpassed.

In a letter of commendation received by Mrs. Thompson and Mrs. Aaron, Texas Division Chairman Edwin T. Phillips, Jr., and President John H. Childers, M. D., pointed out that the key to this promising report is the thousands of hours of volunteer work done.

"This report," they said, "represents many thousands of hours contributed by our county Crusade leaders who brought to this Crusade the wealth of their personal abilities. Your efforts exemplify the spirit of the Society and its desire to 'get the job done.' We know that because of you more funds will be available during the coming year to expand our program for research, education and service."

These funds from the Crusade will be put to work immediately in the Society's program of research, education and service. Research the hope for future control of the disease, draws the largest share of funds.

Sixteen scientists and three medical institutions in Texas are currently working under grants of the Society. Total grants by the American Cancer Society for current research projects in Texas amount to \$572,537.

## Co. Agent Gives Insect Situation

Excellent cotton growing weather and the absence of serious cotton insect infestations have resulted in rapid fruiting of cotton in the area. Cotton producers in this area are experiencing one of the best insect years in some time with the exception of a few isolated areas, according to County Agricultural Agents' reports.

John G. Thomas, Extension Area Entomologist, suggests that fields be examined closely for fleahopper damage and population number before insecticides are applied. The cotton producer often loses many dollars, in reduced yields and lowered quality resulting from insect feeding, but many dollars are also wasted every year on insecticides which are not needed, improperly applied or put on at the wrong time, Thomas stated.

Due to the lack of a general cotton insect problem in the county, James S. Norman, Fisher County Agricultural Agent, urged farmers to check their fields closely before applying insecticides.

Here in the county most cotton continued to fruit and set forms rapidly during the past week.

According to Norman, our insect situation is about the same for the county as for the area. Very little to report except for boll weevils in a few areas along the creeks and rivers in the older cotton.

The following might be of help in making a check for boll weevils: Examine cotton weekly for boll weevils. Pull 100 squares, at least one-third grown, at random, removing a few squares at several representative places in the field. If 15 to 25 percent or more have weevil punctures, begin treatment. Two or more applications of insecticides are required to control weevils. Apply dusts at 10 to 15 lb. per acre at 5-day intervals. Apply sprays at 5 day intervals.

Several insecticides are recommended for the control of weevils. The Extension leaflet L-218, Texas Guide for Controlling Cotton Insects is available at the banks and the local extension office.

## Christian Science Service Sunday

Mankind's need for a spiritually meaningful set of values will be brought out at Christian Science services this Sunday.

Keynoting the Lesson-Sermon on "Soul" is the Golden Text from Psalm 62: "My soul, wait thou upon God; for my expectation is from him. He only is my rock and my salvation."

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy this passage will be read: "Mortals must gratitate Godward, their affections and aims grow spiritual,—they must near the broader interpretations of being, and gain some proper sense of the infinite,—in order that sin and mortality may be put off" (p. 265).

A citation to be read from the Bible (Matt. 16) states: "For what is a man profited, if he gain the whole world, and lose his own soul? or what shall a man give in exchange for his soul?"

Mr. and Mrs. Dan Robinson and children of Fort Worth and Mrs. Joe Stoeltje of Beaumont visited their parents Mr. and Mrs. Roger Smith and also attended the funeral service of Mrs. D. L. Swint, Sunday.

Among those visiting Mr. and Mrs. Grover Terrell Sunday were Mr. and Mrs. D. A. Curry of Hillsboro, Mr. and Mrs. John Bostick of Roscoe, Mrs. Sam Terrell, Mr. and Mrs. Port Williams, Mrs. Duncan, Mr. and Mrs. Fancher all of Hamlin.

**IEH** THE INSTITUTE FOR ESSENTIAL HOUSING

The Institute is the only organization that offers houses in various stages of completion. Typical: the "basic" or "shell" stage; the "basic plus materials package" stage; the "ready-to-live-in" stage and the "finished" stage in which the house is *completely* finished and decorated. These big homes are built from the ground up by skilled local craftsmen on your own land . . . on farm land, rural site or lake side. And no down payment if you own your own land.

# NEWS

\*\*\* County \*\*\*  
Agricultural Agent  
Texas A. & M. College  
Extension Service

The haying season is in full swing in Texas and here in Fisher County. The quality of the crop harvested may well depend on the stage of growth of the plants when cut and the length of the drying period.

Extension agronomists suggest early cutting when nutrients in the plants are near the peak but with adjustment for management practices to remain stands and fast drying to conserve the feeding value of the crop.

From the standpoint of total digestible nutrients, plants accumulate most nutrients during vegetative stages of growth. Some plants may lose up to 60 percent or more of their crude protein when harvest is delayed until the reach maturity.

Generally, the agronomists like to time the harvest to catch the

plant in the boot stage or in early bloom. Quality is best in the Sudan group at the boot stage. Coastal Bermuda should be harvested when it reaches 16-18 inches in height; native grasses in the boot to early bloom stage; alfalfa when a tenth to a fourth of the plants are blooming and lespedeza at the first bloom. As plants get older the quality declines and the undigestible fibers increase.

After the hay is cut, the moisture content should be reduced to safe storage level as soon as possible. Protein and other nutrients lost after the hay is cut often mount to 30 per cent or more in some plants depending upon the length of the drying period. Poor quality hay makes poor livestock feed.

## Bull Testing . . .

Mr. Cattleman, you have your whole bankroll tied up in your bulls if you are in the cattle business and are depending on your calf crop as your main source of income. How sure are you on the fertility of your sires?

Uel D. Thompson, extension animal husbandman of Texas A and M College says that keeping bulls in

good physical condition is very important, but this is only half the story. Some bulls may be in perfect physical condition, service cows and yet not a calf be born. There is no way to tell by just looking at a bull whether he is capable of reproduction. However, it is possible to have one tested and thus know in advance that he is capable of doing the job. Many veterinarians have a machine which aids them in collecting a semen sample. This sample is placed under a microscope and evaluated. From this test you have the satisfaction of knowing in advance that your bull can improve the breeding efficiency of your

herd.

A survey made by the A and M College on 1,369 bulls in all ages of Texas showed that 84 percent were satisfactory breeders, 9 percent were questionable and 7 percent were cull. In other words, you could miss a complete calf crop or just get part of a crop.

Read more about it yourself in Bulletin 924, Testing Bulls for Fertility, available from your County Agent's office.

Wheat producers will determine whether or not wheat marketing quotas will be in effect on their 1962 wheat crop on August 24. Sec-

retary of Agriculture Orville L. Freeman set the date and urges full participation in the referendum by all eligible wheat producers.

Whatever is worth doing at all, is worth doing well. - Cleveland.

## Recent Bride Feted With Series of Parties

Several pre-nuptial parties honoring Glenda Burrow were, a Desset Party given in the home of Mrs. Morris Watson July 21st. Mrs. Watson was assisted in serving and entertaining by her daughter, Mrs. Elwood Freeman of Lubbock, who presented a hostess gift to the honoree.

Then Bobby Posey and Sue Dennis entertained with a Breakfast and Pantry Shower in the Posey back-yard Thursday morning, July 22 at 7:00 o'clock honoring Glenda. A plastic basket holding canned goods, jellies etc., wrapped in newspapers was given the honoree. Apple juice and fruit was served the guests and Thursday afternoon Mrs. W. T. Edwards and daughter, Judy entertained the honoree with a Kitchen Shower, at the Edwards home where an array of kitchen utensils were presented her.

## Mrs. Black Teaches 'Sharing of Our Possessions'

The Kathryn Jones Circle, of First Baptist W. M. U. met in the home of Mrs. Obed Hughes Monday in an all day meeting. Circle chairman, Mrs. Hughes welcomed the members and Mrs. Black, then called the Prayer Chairman, Mrs. Edd Darden to read Calendar of Prayer, also to lead in prayer. Remainder of the time was given to Mrs. Black, in teaching this wonderful book, "Christian Sharing Of Possessions" by Annie Wright Ussery. If you have not read this book please read it. Each member brought their Bibles and followed with Mrs. Black as she taught this book.

Others enjoying the teaching of this wonderful book were Mmes. C. C. Roach, C. J. Dalton, W. C. Denton, Emmett Cave, Altha Patton, Shela Taggart, Ira Morrow, Edd Darden, J. T. Smith and Bernice Stockton.

Mrs. Black closed the meeting with a prayer, praying that each of us might be better Christians, in Sharing Of Our Possessions.

## NOTICE

Rotan Gin Co. agrees to--

1. Construct "hoppers" and process the cotton-burs for distribution.

2. Pay 25c a bale (approximately \$1.00 a ton) to the trucker for that part of the burs hauled, and

3. Grant exclusive distribution rights to one person.

We understand the Fisher County ASC Office is prepared to pay \$1.00 a ton subsidy on the burs when they are distributed evenly and at a rate of from 3 to 5 tons an acre. The Gin expects the hauler to--

1. Keep trash cleaned up around the "hoppers"

2. Make every effort to cooperate with the Gin Manager in maintaining good relations with all farmer-customers, and

3. Deliver burs to farmers in rotation and in proportion to the business they do with Rotan Gin Co.

The Board wishes for prospective contractors to bid by stating a price per ton up to 5 miles; and a price per ton mile beyond that distance. (This figure will represent the amount the farmer is to pay and will not take into account the ASC payment of \$1.00 a ton or the Gin payment of 25c a bale.)

The Board will also be interested in knowing what equipment prospective contractors propose to use in fulfilling their responsibility to the Gin and to the customers. This refers to size of trucks, and whether new or used; and to type of distributor beds--whether standard factory manufactured or home-made, etc.

Mr. and Mrs. William (Gene) Edwards and John Ed of Caldwell, Texas have been visiting this week with his parents, Mr. and Mrs. Cecil Edwards. Also visiting in the home during the week were, Mr. and Mrs. D. C. Edwards and Ken of Snyder; Mr. and Mrs. Tom Edwards, Abilene; Mr. and Mrs. Ken Edwards and Ken Cecil, Abilene; Mr. and Mrs. Vernon Edwards and Tom, Mark and Cindy, Abilene.

Mr. and Mrs. Arthur (Buddy) White and children Connie, Sherry, David and Mike and J. E. Gable attended a reunion of the Brown family in Lubbock Sunday.

Mr. and Mrs. Floyd Wilkerson of Dublin and daughter Bessie Whisnant, Mr. and Mrs. Carl Garden, all of Dublin spent the weekend here with Mr. and Mrs. M. F. Garland and Dayid.

## Kindergarten Class Of 1960-'61

### Last Chance On Cub-Dad Overnight Program

The final Cub Scout Dad and Lad overnight at Camp Tonkawa, Boy Scout Camp near Buffalo Gap, will be held Saturday and Sunday, August 12-13 for all Cub Scouts and their dads of the Chisholm Trail Council area.

This overnight camping experience will include boating, canoeing, rifle range, archery, swimming, campfires, fishing and nature hikes. Any boy of Cub Scout age that is registered in one of the Cub Packs of the Council will be eligible to come and take part in this highlight of Cubbing for this summer.

Each dad and his son will be issued a tent which they will pitch for their overnight quarters. Their meals will be served in the large Boy Scout Dining Hall. The past two weekends have seen some 400 Cub Scouts and their dads take part in this type of father-son family togetherness.

For this 18 hour period dad and son work together in each and every event that they do. The Cub Scout really is into everything at Camp during this time is he wishes. In the company of some 100 other Cubs they will visit an Indian campfire and challenge type campfire in which the Cubs will take on their

## Gas Co. Mgr. Urges Cleveland Family Preparation For Winter Has Get To-Gather

Summertime is the best time for Rotan residents to check their home heating needs, according to J. A. Leach, local Lone Star Gas Company manager.

"Cold weather has a way of sometimes hitting without much warning," the Lone Star manager said. "In the interest of your health and convenience, Lone Star is urging all homeowners to compare their existing heating equipment with the family's needs."

Mr. Leach pointed out that by checking now, the homeowner can avoid last minute calls for equipment and service during cold weather when heating contractors are experiencing their busiest season. Lone Star is offering special discounts on gas heating equipment during its annual pre-season heating sales campaign in August and September.

Vented gas heating equipment with its automatic controls is recognized as being safe and dependable and is most economic to operate, said the Lone Star manager.

Lone Star is stressing fresh air heat which minimizes staleness and stuffiness in a home. It aids also in controlling the amount of moisture released in a home by body heat and such day-to-day living habits as bathing and cooking.

The gas company's engineers point out that this stale air condition is controlled to a degree in older homes by air leakage around windows and doors. In newer homes, which have tighter construction and more insulation, normal outside air leakage usually is insufficient.

But, in new gas central heating installations, provisions for adequate outside air can be made easily by providing a fresh air intake in the return duct system, the engineers reported.

Lone Star is offering a special discount on gas lights with the purchase of a vented gas heating system.

A family get-together was held at the home of Mrs. W. S. Cleveland last Wednesday night with approximately thirty-two attending. Sandwiches, cake and home-made ice cream was enjoyed by all.

Attending were Mr. and Mrs. H. A. McGinis, Sid and Marsha, Mrs. Othel Kennedy and Julia Cleveland, Mr. and Mrs. William Edwards and John, Mr. and Mrs. Frank Levens and nieces Kim and Cidy, Ode Levens, Mr. and Mrs. W. M. Williamson, Mr. and Mrs. Fred Williamson and Lida, Mrs. Jim Dugan and Kay,

tem during the heating campaign, the Lone Star manager said.
