TAXES

Comptroller Robert S. Calvert has released his end-of April statement on state income and outgo, comparing income with the same eight months (September through April) of the previous state fiscal year. Report shows that inflation and retail sales are continuing to grow

In addition, the new fiscal year included a 0.25 per cent increase in the state general sales tax. But even without the increase, the gain from last year's $222.9 million to this year's $295.5 million would show an increase in sales and retail prices. Car and truck sales are rising, since the tax take rose from $54 to $62 million. Net value of auto sales rose from $2.1 billion to $2.35 billion.

MASSIVE DISASTER

Acting Gov. Ben Barnes immediately called up state agencies for emergency duty in Lubbock following the devasting tornado which struck there May 11. Clean up and security details were coordinated by the Senate Defense Council.

An estimated 3,000 are homeless. Death toll is figured at 21 and injuries at 500. Property damage, highest in state history from a tornado, may reach $200 million.

President Nixon declared the battered and bruised South Plains city a disaster area. He also applied the same designation to Hockley, Hale, Briscoe, Donley, Swisher, Gray, Cochran, Lamb and Parmer Counties which were hit by storms April 17-18.

Maximum federal assistance thus will be made available in recovery operations.

FREE COTTON CLASSING

We have prepared necessary papers so that cotton growers in the McLean area can obtain free cotton classification for the coming season.

Would Leman Andrews and Bryan McPherson please drop by the McLean News and sign the papers we have left. There is a deadline on the date these papers can be mailed. So please drop by and sign them.

We are also leaving cotton sampler's bond for Bill Estes to pick up.

Although, the deadline is sometime in the future, we should get this out of our way.

In visiting with Bill Estes, he tells me no one has planted any cotton to his knowledge. As dry as the weather has been I seriously doubt that you could get anything up.

I ran into Max Coleman on Tuesday and had a short visit with Max. He is farrowing ten sows and plans to farrow about 100 gilts later this year.

Hog prices are around $23.50 at present. There are several predictions the market will rise from now into the summer. Hogs have proven very profitable the past few years.

Max says we are needing a rain very badly. I've heard several say the same thing over the entire Panhandle.

This last weekend I made a trip across the Northern portions of Oklahoma from Woodward to Alva and on into El Dorado Kansas. I've never seen as pretty a wheat crop as they have in this area. I was visiting with Emmett Lefors who accompanied me on the trip in to Kansas. Emmett says the wheat looks the best to him that he has observed in many years. They had a lot of winter snows in that area. Emmett has been making this route in to Kansas since 1916 each year. He pastures a rather large number of cattle in this area. He summers a large number of bulls which he has raised. I saw 65 head of three year old bulls in a half section pasture 10 miles north of El Dorado, Kansas. This was a sight for sore eyes. The cattle were in grass up to their bellies. The beautiful rolling plains country look like the nearest thing to a paradise for cattle that I had ever seen. This is the famous bluestem country. However I noted a great deal of broome grass as well. This was my first trip to that area. I was very impressed.

Local Men Appointed By School Board

The McLean ISD Board of Education has secured the services of O.R. Blankenship to make an inventory of taxable property in the McLean School District. Mr. Blankenship will be calling on the school tax rolls. Your courtesy and co-operation with Mr. Blankenship will be appreciated.

The Board of Education would like to point out that Mr. Blankenship is not assessing taxes nor setting values on property. He is only making an up-to-date inventory. The inventory is being taken in an attempt to get an accurate listing on all property for the school tax rolls. All property can then be placed in their proper category and reviewed more easily by the Board of Equalization.

The Board of Equalization appointed by the McLean Board of Education for 1970 is composed of Clyde Magee, J. W. Meacham, James Ellison, Bob Massey, Tony Smitherman, John B. Rice, Junior Windom and Leslie Darsey. A date will be set later for a Board of Equalization meeting with local property owners and this date will announced to the public. All property owners will be given the opportunity to appear before the Board of Equaliziation and present any questions concerning their property values and assessments.

LOOKIN' BACK

by Vera Featherston Back

Two more good people have been lost to the community: Mrs. Bunia Kunkel and E. T. Duncan.

People respected Earnest Duncan for his sincerety and his friendly personality. For numbers of years the Duncans were strong supporters of McLean Schools where each of their seven daughters and one son graduated. Am sure the entire community joins me in heartfelt sympathy to Mrs. Duncan and the entire family. His place in the community will be hard to fill.

For as long as I can remember as a citizen of this community, Bunia Kunkel was a busy person-busy in caring for her children and serving humanity. Her one desire, so it always seemed to me, was to be a friend to everybody and a comfort and help to those whom she knew.

Though confined to a rest home for over a year, Bunia Kunkel did not ask for sympathy. Her feet were weak and her heart was big and, though her hands were gnarled and stiffened with age and work, she kept them busy doing for others. Am sure her grand daughter Sue will cherish every stitch in the nursey quilt on which Grandmother was working before her hands were stilled forever. This last was a hard task but a labor of love. Good-bye, Bunia! You will be missed by many.

Wouldn't you love to have been in Washington D.C. recently when First Lady Pat Nixon presented scholastic achievement checks of $500 each to three blind girls - college graduates of honor. One of those young ladies was our own Mary Jane (Janie) Cummings who graduated as valedictorian of her class at the University of Texas.

How well I remember, as do many of you, when we realized Janie would never see and how we, on radio, followed her to New York with her mother. Yes, we heard her and her mother as they were introduced to the nation at McNeals' Breakfast Club (wasn't that the name of the then most popular morning program?). How we waited at school for word of the operation and its outcome! How saddened we were when it was known that her sight could not be restored!

Several years ago many of her McLean friends heard Janie in a piano recital at Wellington and were thrilled with her performance. And now she has graduated from the University with highest honor. Our little Janie who was loved by all who knew her for her sunny disposition and her outlook on life! The last time she visited in our home was when we lived on the hill south of town and Mrs. Cummings was admiring my figurines. Janie said, "Let me see the!" She "saw them" by taking each tenderly in her hands and running her sensitive fingers over them while her mother helped by describing them. Not a word of complaint! Really she received as much joy at this as did we who watched with open eyes! Congratulations, Janie!

Because of so many conflicts, the Alanreed-McLean Historical Society has not had a formal meeting in several months. We will again gather at the school cafeteria at 3:15 this coming Sunday, May 24. A good program has been planned. There will be a sing-a-long with George Saunders in charge. The stories of T. A. Bodine and his wife, the former Bill Phillips, will be read by Johnnie and Cindi Carpenter. You will enjoy hearing these recollections of early days in McLean. As they say on T.V., Don't you dare Miss It.

Ju Jitsu, the fighting form of the sport Judo is of pre-Christian Chinese origin.

LOOK HERE! Frankie Saluto, one of Ringling Bros. and Barnum & Bailey Circus clowns, says that they put mirrors in the craziest places. The super-spectacular 1970 Edition of The Greatest Show On Earth comes to the Amarillo Civic Center for 9 big performances beginning Thursday afternoon, June 4, through Sunday evening, June 7.

Clowns Are Abundant In The Greatest Show On Earth

"Clowns are the pegs on which to hand a circus."

No less a showman than P. T. Barnum made that statement almost a hundred years ago. This year, in the magnificent 1970 edition of Ringling Bros. and Barnum & Bailey Circus, clowns are just as important--maybe even more so--as in Barnum's day.

The all-new edition of The Greatest Show on Earth, opens at the Amarillo Civic Center on Thursday, June 4th, for nine big performances through Sunday, June 7th.

Throughout its 100 years of life, Ringling Bros. and Barnum & Bailey Circus has had a world-wide reputation for presenting the greatest clowns in the world. To make sure that this reputation always remains intact, the circus has opened a unique annual training program to instruct young performers in the clowning arts' very special skills.

Each fall, at the Circus' winter home in Venice, Florida the Ringling Bros. and Barnum & Bailey College of Clowns opens its session. Applications are received throughout the year and from the hopefuls, the most promising applicants are selected. Successful graduates of the College are offered contracts to appear in one of the mammoth touring editions of The Greatest Show on Earth.

Ervin Feld, president and producer of Ringling Bros. and Barnum & Bailey, is pleased with the clowns the College produces. "Fortunately, there's a little of the clown in each of us, though it may be hidden under layers of convention, frustration or fear," Mr. Feld says. "Under the experienced guidance of our staff -- all present and former professional clowns -- our young funnymen develop into a delightful and varied group of young entertainers.

Clowns, be they young or old, Whiteface or August, are part and parcel of Ringling Bros. and Barnum & Bailey Circus.

As long as there is a circus, there will be clowns to charm smiles and laughter from Children of all ages.

Thursday show times are 2:30 and 8:00 p.m.; Friday at 2:30, and 8:00 p.m.; Saturday at 10:30 a.m, 2:30 and 8:00 p.m.; and the final two shows on Sunday are at 2:30 and 6:30 p.m.

Tickets are on sale in Amarillo at the Civic Center and Sears, Sunset Center.

Growing up

Look at your lanky, teen-age son! It's hard believe that he once wore these shoes. It ms only yesterday that he was a baby, yet himself is the best testimonial that the years e passed. Now he stands almost as tall you. He is a fascinating maze of contradics—an eager, lovable youngster one minute, cowling, angry adolescent the next.

It takes patience to understand a teen-ager atience, and a lot of love. Though he strives e adult, he is still a boy. Though he clings childhood, he is almost "grown-up." You not always be aware of it, but he still ks to you for many things. And he sees in an example that he will, almost unconbusly, follow in many ways.

Are you setting a good example? w about church, for instance? If you en't been going lately, start again t Sunday for your son's sake, as ll as your own. And don't forget to e him with you!

Mrs. Nixon Honors Blind Coed From UT

WASHINGTON—A blind University of Texas coed met Mrs. Richard Nixon and played Roosevelt's grand piano in the White House East Room, all in the same afternoon Thursday.

Mary Jane (Janie) Cummings, 22, of Austin, and two other blind coeds received the 1970 achievement awards of Recording for the Blind, Inc., from Mrs. Nixon in the Blue Room of the White House a day earlier than planned.

Mrs. Nixon was to have presented the annual certificates of award from the nonprofit organization, which records textbooks on tape for blind students, on Friday.

HOWEVER, THE coeds' parents were notified Wednesday that plans would have to be changed because the Nixons intended to leave at 5 p.m. Thursday for a long weekend in Key Biscayne, which they did.

As Mrs. Nixon presented Janie with her certificate, she said, "It's marvelous what you've done already and you have so many years ahead of you."

Janie accepted the award with a shy smile, and later told a reporter, "She's very very gracious."

Janie, blind since infancy, is a senior music major at UT and has been on the dean's list every semester. She will graduate with honors this spring. She has a 3.8 average on a four-point system.

Next year, Janie will attend graduate school at UT and she hopes to teach music theory at the college level. She is the daughter of Mr. and Mrs. L. O. Cummings of Austin and was an honor graduate of the Austin State School for the Blind.

A PIANIST WHO had her senior recital a few years ago, Janie was asked to play the Roosevelt grand piano with the gold eagle legs "presented to the United States by Steinway and Sons."

Lucy Winchester, White House social secretary, led Janie to the East Room, where Janie took a seat at the piano, explaining that she had not played in several weeks.

She played the first movement of the Fourteenth Suite by Bartok as her parents watched proudly.

Miss Cummings, a native of McLean, is the daughter of Mr. and Mrs. Logan Cummings. Mr. Cummings was superintendent of McLean Schools from 1947-1952. Mrs. Cummings also taught school in McLean.

SCREWWORM ALERT SHOULD BE STRENGTHENED--It's true only two cases of screwworms have been confirmed in the Southwest until now, but warn officials of the eradication program, fertile flies are moving northward in Mexico. Stockmen are urged to keep a closer watch on all animal wounds and when worms are found to collect a sample and submit it to the Mission Lab for positive identification. Real trouble could come, say the officials, if a few cases should go undetected for any length of time.
