As of September 1, 1983, a thief has to work harder to become a felon!

That's right, the state legislature enacted a law which now says that for a theft to be a felony offense it has to be in excess of \$750.00.

Anything under that, from \$20.00 up, is a misdemeanor of varying degree.

Now come on, Lawmakers! What we need is stricter laws...not more lenient ones.

Theft is theft, and dishonesty is just that, and it should be treated as such.

No one, not one person involved in law enforcement that we have contacted, thinks this new law will be helpful in lowering the number of thefts...how could it?

Perhaps the legislature thinks that allowances for inflation should be made? Perhaps they think that the statistics showing how mad felony theft is will go down if they raise the amount...and they will!

Pardon my ignorance, but there seems to be absolutely no valid reason for making it a lesser crime to steal more!

Theft in this area...and throughout the state, is already completely out of hand.

A local farmer left his tractor on the turn row for a few hours...and came back to find the expensive hydraulic cylinders stolen from it!

People come home from funerals or vacations to find their homes empty of their expensive possessions.

Theft of gasoline, batteries, tires, small personal items...the list is endless, all are on the increase.

This seems to indicate that we need stricter penalties, not lighter ones!

Back in the "old days" stealing a ham was a felony. The sentence handed down reflected the severity of the crime...and that is how it should be.

The hands of law enforcement officers and prosecutors are increasingly being tied!

Well, it's time to DO something about the situation. We must begin examining the voting records of legislators more carefully...we must care enough to do something about the situation!

And on a local level we must work to protect our neighbors and ourselves by watching carefully what is going on around us...and reporting when things seem amiss.

It won't be an easy situation to correct...but it will never be corrected until we ALL try to correct it!

Jamie Brown

Nine-year old Jamie Brown of Paris has set a national record.

But no one believes him when he tells them about it.

Jamie, the son of Frank and Connie Brown, 930 Old Jefferson Road, plays video games with a passion. And he's good. So good, in fact, that he set a national record on the game named Gyrrus produced by Centuri Inc. of Miami, Fla.

Jamie, whose mother manages the local Ken's Pizza Parlor, had been playing the newest machine located just inside one of the establishment's entrances for a few days when he plunked another quarter in the slot at 7:15 p.m. Monday Aug. 15.

When he finished his game, some two hours later, he had posted a score of 2,138,680 on the machine which is the newest in a trio of related space-theme games. He'd already mastered predecessors Galaxy and Galagala.

The fact that her son had been playing almost two hours on the same quarter sparked Connie Brown's interest. "I called (the game's) distributor in Dallas, because I'd gotten a little curious," she said. "Someone there told me I'd have to call Centuri in Miami. That's where they told me he'd set a new national record. The closest score to Jamie's was 1,743,400 and it had been set by a 27 year old truck driver."

According to Jamie, it took some time for there to be much pleasure in having posted the record. "By the time I got through, my hands were numb. I couldn't feel a thing," he said. "They looked like I'd been washing dishes...all wrinkled and everything. I couldn't

believe it."

Then came the problem. In spite of the fact that Jamie's feat prompted an interview by a local radio station, apparently none of his classmates or teachers listen to that station because none of them would believe that he'd done what he said he'd done.

"Nobody wanted to believe I'd done it," Jamie said, a somewhat dejected tone coloring his voice. "Guess they didn't want to think a nine-year-old could do something they couldn't..."

Jamie is the son of Frank and Connie Brown of Paris, grandson of James and Mary Brown of Bogata and Billy and Jean Hill of Paulden, Arizona.

Great grandparents are Millie Harper of Bogata and May Whitaker of Clarksville and Jack and Mildred Whitt of Paris.

## Fulbright Good Neighbors Meet

The Fulbright Good Neighbor Club met September 8 with Mrs. Travis King as hostess. The meeting was called to order by the president, Mrs. King. Two songs led by Stella Ridens and the club prayer were repeated in unison. Roll call of "What I Like About Fall" was answered by nine members. In a 10 minute demonstration the hostess showed a refrigerator towel and a dust buffer.

New business was a discussion of the fair stew cook off on Saturday, September 10, in Clarksville and a trip to Lake Bob Sandlin was discussed with the final plans to be made at the next meeting.

The program led by the hostess was on fall with Mmes. Ethel Epps, Audrey Baker, Kathryn Campbell, Curtis Hovver, Stella Ridens and Jimmie King reading parts.

Refreshments were served and meeting adjourned to meet with Mrs. Worth Baker September 22.

## Footprints From The Past

By John W. Hood

Fall of the year is almost here and that used to be an exciting time for me when I was a small boy as it meant that you had to start to get ready for the fall harvest. It was also the time of the year that you had a little extra money as you could sell the cotton that you had worked all year to grow and get ready for the market and it was also time to get the cotton gins ready for the ginning of the cotton crop.

My Dad and also my father-in-law always worked at the gins in the fall of the year and they had to start to get the gins ready to do the work they had to do and that meant over hauling all of the gin from the boiler to the stands. They would start to work about the middle of August to be ready when the first bale came in to be ginned and the towns would start to fill up with a lot of strangers all come to help with the harvesting of the cotton and to make some money to buy some clothes and groceries for the long winter ahead it was exciting time in this part of the country every thing and everyone was busy and all the gins would be running full time to try and keep up with all the ginning some times they would run all night and all day and still could not keep up with all the ginning when everyone made a good crop and all the clothing stores would be open late at night to try and serve all their customers.

Saturday was a busy day for everyone as all the local people were buying school clothes for their kids and the people who came to help with the harvest would be in town buying supplies for the coming week and also for the time when they would be going back home. Home for some of them was as far away as Mexico and also all the other states as well for the fall of the year was the time when you could have a little money to buy some of the things that you had done without all the rest of the

year. Cotton harvest time was about the only way to make any extra money in this part of the country as we had no manufacturing plants and we did not have a strong enough economy to have many other ways to make any money except to work in the fields and the spring of the year when planting time and then the chopping and hoeing of the cotton and corn was the only way to make money and we did not last very long so we all looked forward to the coming of fall and the harvesting of the cotton crop for besides being a time to make some extra money it was also a very exciting time of the year with all the hustle and bustle and the stores jammed with people buying things. You could hear the gins humming and the rumble of all the cotton wagons either hauling the cotton to the gin or on their way home to get another load and you could hear both the wagons and the gins all day and night. This part of the country had their part of the gins as I can remember that there were three gins in Deport and two in Fulbright, one in Pattonville, one in Minter, one in Cunningham and several in Paris and one or two in Clarksville so you can see that we had our part of the gins and they were all busy all day and night.

There was a lot of hard work back in the days when I was growing up and not much money but there was also some things that a lot of the younger generation will not get to experience and some things that we all miss and that is the hustle and bustle of fall of the year when you and I was young.

## Freaky Food Factory Facts

Everyone enjoyed Friday September 9 when we had the great pleasure in helping kindergarten through the fourth grade to honor their Adopted Grandparents. Each class gave their Adopted Grandparents with a beautiful Red Rose corsages and handmade cards, then they came and had lunch in the cafeteria. A special thanks to Mr. Max Ballard and teachers and the ladies and gentlemen for making it an extra special day.

The class and their adopted grandparent were: Mrs. Sheila Pierce - Kindergarten I - Miss Lottie Vickers, Mrs. Tammie Bailey - Kindergarten II - Mrs. Marine Bradley, Mrs. Jo Ann Gerringer - First I - Mrs. Dilli Nagy, Mrs. Kay Wright - First II - Mrs. Lona Brewer, Mrs. Keren Hargus - Second I - Mrs. Mable Parker, Mrs. Becky Blackburn - Second II - Mrs. Mildred Graves, Mrs. Bonnie Singleton - Third I - Mrs. Mable Sessums and

Mrs. Rosella Carter, Mrs. Helen Ressler - Third II - Mrs. Dorothy Wilson, Mrs. Pam Howser - Fourth I - Mrs. Billie Crawford and Mrs. Georgia Clark, Mrs.

Dora Stidham - Fourth II - Mrs. Aileen Herron, Freaky Food Factory - adopted Granddad - Rev. Leo Owen. They had name place cards on the tables for each

one and a grandparent ribbon with teachers class and adopted grandparent name on them so they could keep to remember for years to come.

## PUBLIC NOTICE BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS SPECIAL ELECTION NOVEMBER 8, 1983

### PROPOSITION NO. 1 ON THE BALLOT

House Joint Resolution 91 proposes a constitutional amendment which requires a county with a population of 30,000 or more to be divided into not less than four nor more than eight justice of the peace precincts. A county with a population of 18,000 or more but less than 30,000 shall be divided into not less than two nor more than five justice of the peace precincts. A county with a population of less than 18,000 shall be designated as a single justice of the peace precinct or, upon a finding of necessity by the commissioners court, shall be divided into more than one justice of the peace precinct but not more than four. The amendment provides further, that in any precinct in which there is a city with a population of 18,000 or more, two justices of the peace shall be elected. The amendment allows a justice of the peace, constable or commissioner to continue in office until the expiration of his term, although a change in precinct boundaries results in the officer no longer being a resident of the precinct or appointed and allows a justice of the peace or constable to continue in office until the expiration of his term even though a change in precinct boundaries results in the abolition of the precinct or more than one justice of the peace or constable serving the precinct. Vacancies in the office of justice of the peace or constable that result from a precinct boundary change shall be filled by the commissioners court until the next general election. The amendment would take effect on January 1, 1984, and counties with populations of less than 30,000 and with more than four justice of the peace and constable precincts would have until January 1, 1987 to comply with the amendment.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing fewer justice of the peace and constable precincts in counties with a population of less than 30,000 and providing for continuous service by justices of the peace, constables, and county commissioners when precinct boundaries are changed."

**PROPOSITION NO. 2  
ON THE BALLOT**

House Joint Resolution 105 proposes a constitutional amendment which would limit a homestead in a city, town or village to a lot or lots amounting to not more than one acre of land, together with any improvements on the land. The constitutional requirement that, at the time of

designation, an urban homestead not exceed ten thousand dollars in value without reference to the value of any improvements on the land would be eliminated.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment replacing the limitation on the value of an urban homestead with a limitation based on size."

### PROPOSITION NO. 3 ON THE BALLOT

Senate Joint Resolution 1 proposes a constitutional amendment that authorizes the Legislature to enact legislation that permits representative associations of agricultural producers to collect refundable assessments on their product sales to be used solely to finance programs of marketing, promotion, research and education relating to those products. It provides, further, that adoption of the proposed constitutional amendment will bring into effect Senate Bill 607, Acts of the 68th Legislature, Regular Session, 1983, with rejection of the amendment resulting in Senate Bill 607 having no effect.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment providing for the advancement of food and fiber production and marketing in this state through research, education, and promotion financed by the producers of agricultural products."

### PROPOSITION NO. 4 ON THE BALLOT

House Joint Resolution 30 proposes a constitutional amendment which authorizes the Legislature to enact laws to provide for the succession of members of the Legislature in the event of enemy attack and allows the suspension of procedural rules imposed by the Constitution in the event of, or immediate threat of, enemy attack. The amendment empowers the Governor, after consultation with the Speaker of the House and the Lieutenant Governor, to suspend the constitutional requirement that the Legislature hold its sessions in Austin and allows the suspension of procedural rules by the Governor issuing a proclamation in which the House of Representatives and Senate concur by resolution approved by a majority of the members present. Suspension of the constitutional rules may not exceed a period of two years under a single proclamation; however, the Governor may renew the suspension by issuing a new proclamation concurred in by the House of Representatives and the Senate through a resolution approved by a major-

ity of the members present.

The amendment will appear on the ballot as follows: "The constitutional amendment authorizing statutory provisions for succession of public office during disasters caused by enemy attack, and authorizing the suspension of certain constitutional rules relating to legislative procedure during those disasters or during immediate threat of enemy attack."

### PROPOSITION NO. 5 ON THE BALLOT

Senate Joint Resolution 12 proposes a constitutional amendment that authorizes the Legislature to enact legislation providing for the use of the permanent school fund and income from the permanent school fund to guarantee bonds issued by school districts. The amendment provides, further, that the Legislature may appropriate part of the available school fund for administration of the permanent school fund or of a bond guarantee program established pursuant to the amendment.

The constitutional amendment will appear on the ballot as follows: "The constitutional amendment authorizing use of the permanent school fund to guarantee bonds issued by school districts."

### PROPOSITION NO. 6 ON THE BALLOT

House Joint Resolution 1 proposes a constitutional amendment which would permit the Legislature to provide for the garnishment of wages to enforce court-ordered child support payments. The garnishment remedy would not be available for other purposes.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment allowing the Legislature to provide for additional remedies to enforce court-ordered child support payments."

### PROPOSITION NO. 7 ON THE BALLOT

Senate Joint Resolution 14 proposes a constitutional amendment that authorizes the Veterans' Land Board to provide for, issue, and sell general obligation bonds of the State of Texas in an amount not to exceed \$800 million to provide financing to veterans of the state. The amendment requires that three hundred million dollars of the state bonds be dedicated to the Veterans' Land Fund. The Fund is to be used to purchase land to be sold to veterans under such terms, rules and regulations as may be authorized by law. The amendment creates the Veterans' Housing Assistance Fund and requires that \$500 million of the state bonds authorized by the amendment be dedicated to the Fund. The Veterans' Housing Assistance Fund will be utilized by the Veterans' Land Board for the purpose of making home mortgage loans to veterans for housing within the state and for the administrative

costs of administering the fund and issuing the bonds. The amendment provides, further, that if there is not money in either the Veterans' Land Fund or the Veterans' Housing Assistance Fund available for payment of principal and interest on the general obligation bonds issued pursuant to the amendment, then money coming into the Treasury in each fiscal year is appropriated in an amount sufficient for payment of principal and interest due in that fiscal year.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment for financial assistance to veterans and to authorize the issuance of \$800 million in bonds of the state to finance the Veterans' Land Program and the Veterans' Housing Assistance Program."

### PROPOSITION NO. 8 ON THE BALLOT

Senate Joint Resolution 1 proposes a constitutional amendment that authorizes political subdivisions to exempt veterans' organizations from ad valorem taxation on their property. The amendment requires that the veterans' organizations be chartered by the United States Congress, be composed of members or former members of the United States Armed Forces, and be organized for patriotic and public service purposes. The amendment provides, further, that political subdivisions may exempt fraternal organizations from ad valorem taxation on their property. The amendment requires that the fraternal organizations be organized to perform and be primarily engaged in charitable or benevolent functions. The Legislature would be authorized to enact laws that prescribe eligibility requirements for fraternal organizations to benefit from the exemption and to pass legislation limiting the types or amount of property owned by a fraternal organization which may be exempted from ad valorem taxation.

### PROPOSITION NO. 9 ON THE BALLOT

House Joint Resolution 70 proposes a constitutional amendment to authorize the Legislature to provide, by local or general law, a method by which judges of statutory courts with probate jurisdiction may be assigned to any other statutory court with probate jurisdiction and to any constitutional county court in any county in the state.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment providing for assignment of judges of statutory probate courts to other statutory county courts with probate

jurisdiction and to county courts."

### PROPOSITION NO. 10 ON THE BALLOT

Senate Joint Resolution 17 proposes a constitutional amendment that authorizes the Legislature to enact laws which would allow a city or town to expend public funds to relocate or replace sanitation sewerage laterals on private property if done in conjunction with the replacement or relocation of sanitation sewer mains serving the property. The amendment requires that the law authorize the city or town to affix a lien on the private property, with the consent of the owner, to cover the costs of the replacement or relocation of the sewer laterals on the property. The lien may not be enforced until five years have expired since the date the lien was affixed. The amendment provides, further, that the law require that the costs of the replacement or relocation of the sewer laterals on the private property be assessed against the property with repayment to be amortized over a period not to exceed five years and at an interest rate provided by law.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to permit a city or town to expend public funds and levy assessments for the relocation or replacement of sanitation sewer laterals on private property."

### PROPOSITION NO. 11 ON THE BALLOT

Senate Joint Resolution 13 proposes a constitutional amendment that would change the Board of Pardons and Paroles from a constitutional agency to a statutory agency and would eliminate the Governor's power to revoke paroles. The Legislature would be authorized to establish the Board of Pardons and Paroles and to require it to maintain records of its actions and the reasons for its actions. The amendment would empower the Legislature to enact parole laws. Constitutional language specifying the qualifications and terms of office for members of the Board of Pardons and Paroles is eliminated. The constitutional language governing the composition of the Board of Pardons and Paroles and the manner of filling vacancies on the Board is eliminated.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to change the Board of Pardons and Paroles from a constitutional agency to a statutory agency and to give the board power to revoke paroles."

## "Notch Years" Penalize Recipients

A number of "notch-year" babies have written in or contacted the paper concerning a letter in a famous "advice" column concerning social security. They expressed the desire that people in the area should know about the situation, and perhaps remedy a situation that seems most deplorable. It seems that if a person is drawing Social Security and was born in 1917, 1918, 1919, or 1920 and 21 called "notch" years, there is a penalty by receiving lower benefits than those born prior to or after the above mentioned names! If a person worked until they were 65 years old before starting to draw their Social Security, they receive \$100 less than those born before 1917 or after 1921. A bill in Congress which would have corrected this situation failed to make the committee and died at the end of the 1982 session. The information given was checked out, and is true! People, especially those who are "notch year babies" should write their U. S. congressman and let him know that you feel this should be corrected.

## Weekly Agricultural Briefs

The annual N.E.T. Brahman Field Day will be held September 24 at the Arnold Barfield Ranch located three miles north of I-30 in New Boston. The field day is being held by the Northeast Texas Brahman Association, according to association past president, Henry Burruss of Paris.

Activities get underway at 9:00 A.M. Field day features will include live cattle displays, an educational program, 4-H and FFA cattle show and barbecue meal.

Everyone in the area interested in Brahman cattle are invited to attend. Sodseeding Winter Pastures...

Extend your warm season pasture's grazing period by sodseeding a cool-season grass or legume.

A common example is ryegrass sodseeded into bermuda grass to provide winter and spring grazing. Before deciding to sodseed, carefully consider the disadvantages and advantages.

Because of the warm season base grass, sodseeded pastures furnish less fall and early winter grazing than those planted in prepared seedbeds. Also, some warm season grazing is lost with sodseeding, and sodseeded pasture may retard the growth of warm season grasses during a dry spring.

In addition, sodseeded pastures require more nitrogen than those planted on a prepared seedbed and are highly dependent on rainfall near or after planting.

On the "plus" side, sodseeding uses land during a normally unproductive

period by extending the pasture's grazing period. Also seedbed preparation is simpler with sodseeding, thereby reducing land preparation costs.

Sodseeded pastures also provide better footing for grazing livestock due to the warm-season grass root system. In addition, fertilizer applied will help warm season grasses next spring.

"Need" is the determining factor when deciding between sodseeding and prepared seedbed winter pasture.

Stocking calf operations need fall and winter grazing, so the producer is almost forced to pick the prepared seedbed. Spring calving cows and calves winter well on good hay, and sodseeded pastures provide early spring grazing.

If you decide to sodseed, allow the warm season grass to make early September growth but do not fertilize. In late September graze or closely cut the grass so sunlight can reach the soil.

Plant in late September-early October. While specially designed equipment is preferred, a standard drill can be used. The most popular method, disking, is the least effective.

Ryegrass at 20-30 pounds per acre can be seeded alone, overseeded on small grain or seeded in a legume mixture. Seed oats, wheat, barley, triticale or rye at 100-120 pounds per acre.

Fertilizer is the key to successful sodseeding. Determine needed nutrients by a soil test, and apply nitrogen only after the sodseeded grass is up and again in late February.

Lastly, allow the sodseeded pasture to grow five or six inches before grazing it.

Wheat production for the 1983-84 season is estimated by USDA at 2.42 billion bushels which is 14 percent below last year's level. Use, estimated at 2.41 billion bushels is slightly less than production and as a result carry over at the end of 1983-84 may increase slightly.

Increased carry out stocks are expected despite heavy participation in the 1983 wheat program, which contributed to a 23 percent reduction in harvested acres.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socioeconomic level, race, color, sex, religion, handicap or national origin.

Use Energy Wisely....

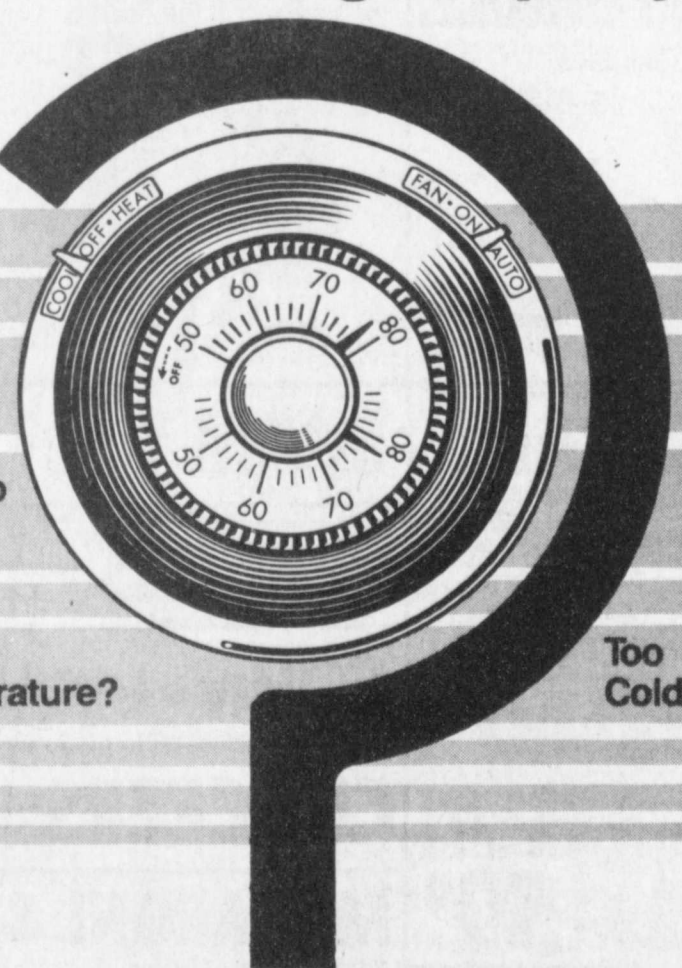

Is Your Thermostat Working Properly?

Too Hot?

On Too Long?

Wrong Temperature?

Too Cold?

Defective or out-of-adjustment room thermostats can cause heat-come on unnecessarily.

Unlevel thermostats, or thermostats located near heat-producing appliances, such as lamps or TVs, can give false readings tempting you to constantly adjust the temperature. To use energy more wisely check your room thermostat to be sure it is working correctly and that it is located in an area free from drafts where it receives a flow of air from the heating and air-conditioning system. Set the thermostat at a temperature of 68° in winter and 78° in summer. For more energy-saving tips ask for a copy of the booklet, "A Guide To Better Home Energy Management."

## Kelsey, Wood And Byndas Claim Prize Money

Joe T. Kelsey, Bogata, claimed the first place prize money in the newspaper football guessing contest last week with only 6 misses, and picking Wolfe City over Prairiland 20-12. He will be awarded the \$12 first place money.

In second place was another Bogata resident, Denise Wood, who also missed six guesses, but picked Wolfe City to defeat Prairiland 21-8. Denise was the ONLY person in the numerous entries that predicted the Jets would beat Seattle!

In third place is another female football fan, Kay Byndas, who missed six games but picked Wolfe City over Prairiland 21-7.

Close behind was Melvin Hines, missing seven games, and Lori Franks and Carlos Ladd missing eight games.

No contestant managed to see or predict the tie between TCU and Kansas.

Another set of games appear in the ads on the football guessing contest on page 4 in this weeks paper, so check the rules, get out a pencil or pen, and get to guessing...who knows, you might get to claim some money!

## Weekly Agricultural Briefs

Several insect pests can  
be economically important  
this time of year, says Dr.  
James Robinson, entomologist for the Texas  
Agricultural Extension  
Service. Peach producers  
should be treating their  
trees for the peach tree  
borer during early Sep-  
tember. Treat with a  
chlorpyrifos insecticide  
such as Lorsban or Dursban  
or with lindane. The spray  
solution should be applied to  
give thorough coverage  
from the scaffold limbs to  
the soil.

Fall armyworms may  
show up on home lawns,  
coastal bermuda pastures or  
small grains. Producers  
should watch closely for  
signs after rainfall. Car-  
baryl (Sevin) or trichlorfon  
(Dylox) have been used  
successfully for armyworm  
control.

Robinson says that pecan  
producers should be on the  
lookout for pecan weevil  
infestations during Sep-  
tember. The infestations  
usually follow rains ex-  
ceeding one inch or more.  
Carbaryl (Sevin) and  
dialfor (Torak) are labeled  
for pecan weevil control.

Robinson cautions  
producers to follow label  
directions very closely on all  
pesticides. Proper timing of  
insecticide applications is  
very important to good  
control of the insects.

## CARD OF THANKS

**Card of Thanks**  
I would like for all of our  
friends to know how much  
we appreciate the kindness  
shown to us during and after  
my surgery. We would like  
to thank Sam Rice for being  
there during the surgery, we  
want to thank our friends for  
the food, flowers, calls,  
cards and prayers. Thank  
you for being our friends.

## Home Decorating Course Slated

A home decorating course will be offered through Paris Junior College's continuing education division beginning Monday, Sept. 20, said June Jones, director of community services at the college.

Bill Kennedy, owner of Bill Kennedy Fine Furniture and Designs in Paris, will be instructor for the four-week course. Classes will be from 7 to 9 p.m. for four Mondays in the Alford Center at PJC, and the fee is \$15.00. In the course, Kennedy will teach participants to decide what they like in home decorating, what they can do themselves, and what is new in floor coverings, walls, windows, styles and trends. The classes will benefit persons with new homes to decorate and those interested in redecoration, Mrs. Jones said.

Reservations should be made in advance by paying the fee in the PJC continuing education office, Alford Center, or mailing a check payable to PJC into the

office at Paris Junior College, Paris, Texas. More information may be obtained by calling the office, 785-7661, extension 445 or 447.

### Shopping Strategies

Americans are eating less but spending more, according to statistics by the U. S. Department of Agriculture. Most of the money spent in grocery stores—78 percent—went for food. The meat department alone accounted for 21.8 percent of total grocery sales.

Start at home. To determine foods you need, take inventory of food supplies already on hand. Check weekly food specials in the newspapers and note inexpensive or in-season foods. Plan menus to combine the weekly specials and foods on hand; then prepare a shopping list based on your weekly menu.

Clip coupons. They can save money on products you normally buy.

Compare prices. Often, costly brands are conspicuously shelved at eye level. So, look up or bend down to spot bargains.
