Our Town...

By JOE BELL

Seven citizens — five men and two women — face one of the big tasks within our city.

But their appointment as members of the city's first park and recreation board offers, also, a fine opportunity for community service.

They are stepping into a new field, so to speak, for all the community.

They are the ones who must plan, organize and lead.

* * *

But if previous expressions by the citizenship mean anything, constructive ideas and efforts by these board members will be warmly supported by the majority of citizens.

In case you have forgotten, recreational and park facilities were the No. 1 items listed by citizens a few years back in a community clinic seeking to determine the major needs of the city.

The same pair — parks and recreation — have been mentioned time and again at City Council.

And in recent months a spontaneous effort among citizens, organized by the Chamber of Commerce and encouraged by Colorado City Ministerial Alliance, has resulted in the adoption of a parks and recreation ordinance with appointment of a board.

* * *

Still, the seven board members — as they go about their job of organizing and leading and enlisting assistance — will find there are persons who will hesitate, pull back, criticize and even attempt to block their efforts.

Some of that will result from misunderstanding and misinformation.

Some will come, too, from those who figure only a dollar makes a community . . .that every breath should be directed toward seeking an industry or an additional oil field.

Those last ones, they are the ones who forget that often by making your community a better place to live you keep the best at home and attract the element that later provides that new industry and the extra oil production.

* * *

Like we said before, the board has a big job ahead.

First, of course, will be the setting their basic goals for the first year or two . . . obtaining City Council support for finances, not extravagant money, but enough to start a bonafide program in practical and sound fashion . . . and a selection of a park and recreation director.

A lot will depend upon the board's ability to find and recommend a specialist for the job of director . . . to show the way . . . and to stand firm when some are reluctant to try the new.

Infact, it is the general appraisal that a lackadaisical board can break the program at the start.

* * *

Just as important, too, will be the attitude of City Council.

Councilmen authorized, created and appointed the board.

They can now form a cooperative link and provide the support that will put the parks and

IN TALK TO LONE WOLF 'FAMILY'

Utility Suit Challenges Co-ops' Right to Exist, Attorney Says

An Austin attorney told Lone Wolf Electric Cooperative members here Tuesday their right to exist as a cooperative has been on trial in Texas courts.

But he predicted a continuation of legal victories for the co-ops with a coming decision from Texas Supreme Court.

The attorney was William A. (Bill) Brown, legal counsel for electrical cooperative of Texas.

Brown, principal speaker for the Lone Wolf Co-op's annual membership meeting, traced the development of electrical cooperatives in Texas into the present period when "fringe area" competition is beginning to result between the co-ops and utility companies.

That "fringe area" competition was the basis for the start of a legal battle between one cooperative and a utility company in federal court that spread to Austin with the state attorney general against the co-op's position.

Start of the legal battle was in Upshur County, where 15 years ago a rural electrical cooperative began serving an area outside of the city of Gilmer.

The outside area, according to Brown, was a section the utility refused to service because electrical users would be too far apart and the operation would be unprofitable.

"The utility company," he said, "would not go one block across the city-limit line so Negro school children could have electric lights."

But with the electricity furnished by the cooperative through the REA program, the outside area began to prosper and grow.

"And in 1950," Brown said, "the City of Gilmer took in much of this area served by the electrical cooperative.

"Then the utility — Southwestern Gas & Electric Company — asked that the electric cooperative be expelled and that members be expelled from the cooprative so that utility could take over."

When the cooperative refused the utility company filed suit for the cooperative to turn over its members as customers of the utility.

The cooperative — joined by other electrical cooperatives in the state — contended that the Gilmer question was a problem concerning every electrical cooperative.

And the cooperative, Brown said, contended that monopolies are contrary to free genius and enterpries and that competition is the only element that make commercial power companies go out and offer better service, better rates.

This contention was upheld in federal court proceedings that extended to the U. S. Court of Civil Appeals, New Oleans, La.

"Then the power companies went to Austin in an attempt to

J. D. Hill Hurt In Nolan Oil Field Mishap

J. D. Hill, farmer in Buford community, is in Sweetwater's Young Medical Center with serious injuries received in an oil filed accident.

His left arm was crushed by oil well machinery at about 4 a.m. Sunday.

Hill had returned to his oil field job Saturday night after serving five days and nights as a juror in the Joe Johnson rape trial here.

Mrs. Hill was in Dallas last week end for a relative's wedding and was notified of the accident while en route home.

Hill's condition was reported satisfactory Thursday. Surgery was performed on his arm Sunday to remove part of the bone.

Two members of the oil field crew and three local citizens — Jasper Wood, Wilford Oyler and Hallace Pendergrass — provided blood for transfusions.

Storm Leaves 120 Loads of Broken Limbs

Last week's storm still is keeping city crews busy hauling away debris.

City Manager Rollin K. Snethen reported Thursday that 65 truck loads of tree limbs had been carried from the city's residential area since the storm.

The city's regular waste disposal crews have hauled away the broken trees without extra help.

However, Snethen estimated that the crews still have between 50 to 60 more loads to go before the clean-up job is completed.

At City Hall the job preparatory to recodifying city ordinances is getting under way.

Miss Joann Merket, Colorado High senior, has been employed as a stenographer to type all ordinances on record. Actual recodification is expected to be accomplished through voluntary work of local attorneys.

Street Dance, Fish Events To Draw West Texas Crowd

Roping Events Set Sunday at Rodeo Arena

A pre-holiday jackpot roping program — with open barrel race and a kids' goat scramble — will be staged Sunday.

Sponsoring the program at the local rodeo arena will be Colorado City's Three-R Club.

Starting time for the roping will be 2:30 p.m., according to Bob Motley, Three-R president.

Four major events are scheduled in the afternoon program with three money payoffs in each event.

The open jackpot roping with a two-calf average will have a $25 entrance fee.

Junior goat roping for youths 16 years of age and under will have a $2.50 entry fee.

And there will be a $10 entry fee for the open barrel race.

However, the kids' goat scramble will be free.

Three-R Club officials are expecting a fine crowd for the program that gets the jump on area Fourth of July events. Admission will be paid at the gate.

Ropers, barrel racers and youths planning to enter the events can obtain additional information, Motley said, by phoning RA 8-3362 or RA 8-3244.

VENUE CHANGE POSSIBLE

Second Trial Due In Johnson Case

The case of Joe Richard Johnson, 19, charged with rape, will go before another jury.

District Attorney Eldon Mahon revealed Thursday that he plans a new trial.

First trial in the rape case ended Saturday after four days of testimony with a hung jury.

Plans for a new trial were announced after the district attorney conferred with the 18-year-old mother, the alleged victim of rape, and her family.

Mahon said the young mother and her family wanted to go ahead with the second trial.

However, a new trial in the case of Johnson, who is charged with Don Earl Dossey with raping the woman last Dec. 16, may mean a change in venue to another city.

The district attorney has expressed doubt that a non-biased jury could be obtained in Mitchell County for a second hearing in the case.

The jury of 11 men and one woman was dismissed Saturday at 2:55 p.m. by Judge A. S. Mauzey after reporting it was deadlocked.

Final vote taken by the jury was eight to four for equittal, the Record learned. However, it was reported that the count had previously been six for conviction and acquittal.

Jury in the first trial deliberated 22 hours and 55 minutes after receiving the case at 5 p.m. Friday after final arguments. And there was speculation for a deadlock Friday night when the jury retired for the night at 10:30 p.m.

Twice the jury foreman, W. E. Stockton, reported Saturday that the jury was unable to agree on a verdict.

The first time was shortly before noon, but Judge Mauzey instructed the jury to continue deliberations at the request of Perry Barber, defense lawyer.

In his closing arguments before the jury Barber had claimed the rape case was the idea of an "ambitious young district attorney" hopeful of becoming Texas attorney general and that the alleged victim did not want to prosecute the case.

For Johnson the jury deadlock Saturday was the second time in eight months he has walked away from a jury trial without a guilty verdict.

A jury in County Court last Nov. 18 returned a verdict of not guilty when he was tried on a charge of driving a motor vehicle under the influence of intoxicating liquor.

He still faces another charge however, in addition to the rape accusation. He and another youth were charged May 20, 1955, in County Court with aggravated assault and released on $750 bond.

Co-op Returns Entire Board For New Term

All nine directors of Lone Wolf Electric Cooperative Inc. were re-elected Tuesday at the cooperative's annual meeting.

They are W. H. Cooper of Region 1, Forrest Porter of Region 2, Ed Roach of Region 3, Gwan C. Strange of Region 4, R. H. Marth of Region 5, Martin Murphy of Region 6, Corley Rogers of Region 7, Sam Williams of Region 8 and Lon A. Strain of Region 9.

Cooperative members voted by printed ballot after the nominees had been reported to them by W. T. Brooks member of the nominating committee.

Other nominees for the board were Harlan Reed of Region 1, Willis Cornutt of Region 2, Dennis Fortenberry of Region 3, E. Leon Ashford of Region 4, Gilbert Hrbacek of Region 5, Fred Bowers of Region 6 and Woodrow Crabtree of Region 7.

In the election board members are named to one-year terms. Strain is now serving as board president and Strange is secretary.

However, election of board officers for the 1956-57 term will not come until the board's reorganization meeting in July.

Hundreds of Lone Wolf members and twonspeople attended the cooperative's annual meeting and electric fair under "big top" tents on Highway 208 (to Robert Lee).

Entertainment and appliance and farm implement displays began Monday night and continued all-day Tuesday.

The fishing contest will continue for 24 hours until 6 p.m. Wednesday, July 4.

Another feature of the two-day program will be a talk here Tuesday at 4 p.m. in Civic House by U. S. Senator Price Daniel, who is campaigning for governor.

* * *

Approximately 300 out-of-town square dancers are expected to converge on Colorado City for the big street dance Tuesday evening, according to Dr. Marvin Majors, sponsor of Do-Si-Do Square Dance Club.

His club has sent out invitations to more than 400 square dancers and dance groups in an area extending from Fort Worth to El Paso and from Lubbock to Del Rio.

Jim King Boys, a Big Spring western band, will play for the unique dance and Marshall Flippo of Abilene, one of the state's foremost sqaure dancers and Callers, will be master of ceremonies.

Guest callers will be here from nine area cities for the dance.

They include Jack Fomby of Sweetwater, Stewart S. Bangeman of Crane, Jack Chaney of Abilene, Curtis A. Dukes of Robert Lee, Floyd N. Tidwell of Lubbock, Claude Mewborn of Merkel, J. C. Luttrell of Sonora, Ned White of Snyder and Ben Davis of Slaton.

Prizes will be awarded to the best dressed square dance couple, best caller of the night and to the dancing couple traveling the longest distance.

Recognition will be paid also to the oldest square dancers — in years of dancing, not age, according to Majors.

IN FIRST METHODIST CHURCH

Bonnie Jean Taylor Is Wed to John L. Jones III in Slaton

First Methodist Church in Slaton Sunday afternoon was setting for the marriage of Miss Bonnie Jean Taylor of Slaton and John L. Jones III of Colorado City.

The bride is the daughter of Mr. and Mrs. W. T. Taylor of Slaton. Jones is the son of Mr. and Mrs. J. L. Jones II of 804 East 7th Street.

Rev. J. B. Sharp, church pastor, read the double ring ceremony before an archway of cathedral tapers, banked with palms and baskets of majestic daisies.

Pews were marked with lighted candles.

The bride, given in marriage by her father, wore an original gown of white imported French lace and nylon tulle over net and satin. The fitted bodice was designed with a high neckline, a sheer yoke enhanced with an applique of lace and long fitted sleeves ending in points over her hands.

The voluminous skirt, made of fully shirred tulle, was overlaid with scalloped lace and emphasized by hoops and crinoline.

She carried a white orchid with a white pearl Bible.

Miss Patsy Holloman of Slaton was maid of honor. Mrs. Bobby Taylor of Slaton and Mrs. Douglas Chamber of Lubbock were bridesmatrons. Miss Shirley Teague of Lubbock, Miss Barbara Jachetz and Miss Shirley Saage of Slaton were bridesmaids.

They wore strapless dresses of pink nylon net over taffeta and matching stoles. Headpieces were discs of net scattered with pearls.

Miss Holloman carried a bouquet of pink daisies. Other attendants carried multi-colored daisies on fans.

Debroah Sue Stotts of Lubbock was flower girl. She wore a pink organza dress. Pat Pounds of Acuff was ring bearer.

J. L. Jones II was his son's best man. Ushers and groomsmen were Dean Fisher of Colorado City, David Key of Snyder, Bobby Taylor of Slaton and Chester Pierce of Clovis, N. M.

Mrs. Webber Williams, organist, presented wedding music and accompanied Mrs. F. L. Elterman as she sang "Entreat Me Not to Leave Thee" and "The Lord's Prayer".

A reception in the church recreation hall immediately following the ceremony honored the bridal couple.

Bride's table, laid with a white Madeira cloth over pink was centered with an arrangement of white majestic daisies. Pink tapers flanked each side of the floral centerpiece. Floating candles accented the punch bowl.

Mrs. Jerry Stotts, sister of the bride, served cake. Mrs. Billy Tom Taylor, sister-in-law of the bride, presided at the lighted punch bowl.

For their honeymoon trip to Ruidoso, N. M., the bride wore an aqua polished cotton dress with white accessories. Her orchid corsage was from her bridal bouquet.

Following their wedding trip, the couple will live in Slaton.

The bride is a graduate of Slaton High School and is employed by Santa Fe Railway Company there. Jones was graduated from Colorado High School and attended Sul Ross College before serving in the Marines for three years. He will enroll in Texas Technological College in Lubbock in September.

Big Torque of the Best Sellers

IT WOULD stand to reason that automobiles selling in the same league, so to speak, would be pretty close in their engineering specifications.

Like in "torque multiplication"—the twisting force a transmission delivers to the drive shaft. *(The greater the torque multiplication, the greater the performance).*

But what do you find?

You find that any '56 Buick with advanced new Variable Pitch Dynaflow delivers a higher torque ratio than any standard-production car in America.*

And you find that this high-torque performance is one reason for Buick's best-seller standing. For Buick is now more strongly positioned in the Top 3 of the nation's biggest-selling automobiles.

That's news—and there's plenty more where that came from. For the '56 Buick is jam-packed with new engineering and styling advances to make it the best Buick yet, by far.

That new Dynaflow, for example, brings you the world's only switch-pitch performance in cars—plus a new part-throttle getaway response that's swifter, surer, and a gas-saver to boot.

The new V8 engine is 322-cubic-inches big, and packed with the highest horsepowers, the highest compressions in all Buick annals.

There's a joyous new ride, too—a new steering magic—a new "sense of direction" in your every handling maneuver.

Thing to do is come see for yourself. That way you can also look at the prices that have helped move Buick to a new sales success—outselling all other cars in America except two of the well-known smaller ones.

Will you do that, this week?

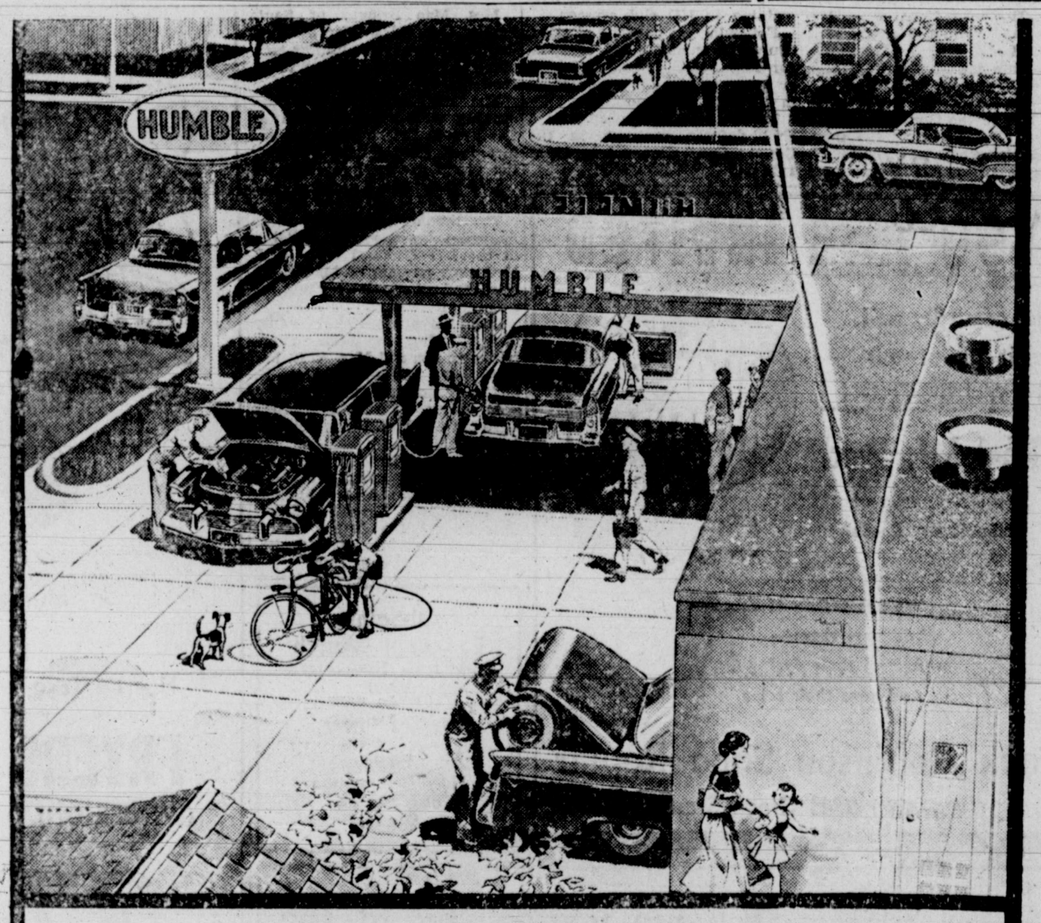

*New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

Sportsmen's Club fishing contest at Lake Colorado City.

Publicity for the contest has spread already among fishermen in West Texas and requests have been received daily by the club from anglers in other cities.

L. M. Parker, manager of the club's facilities, said the letters, telegrams and phone calls have been from fishermen wanting boats, bait and accommodations for July 3 and 4.

The requests have swamped the club and Parker reported Wednesday that if the club had 30 boats, they already would be reserved.

Prizes will be awarded in the 24-hour contest to fishermen (and contestants do not have to be a member of the club) who score best in five categories of fishing.

Those will be for the largest bass in weight, the largest crappie in weight, the largest catfish (any species) in weight, largest carp or rough fish in weight and largest number of rough fish.

The person bringing in the largest string of rough fish will receive a full membership in the Sportsmen's Club with one year of dues pre-paid, according to A. W. Hubbard, secretary of the club.

Only requirement for entering the contest will be for fishermen to conform with state and lake fishing regulations and to record the fish entries with contest supervisors at the Sportsmen's Club during the 24-hour contest period.

Hubbard emphasized that the July 4th contest was for all fishermen and that club membership was not a requirement for participation.

Two members of the club's entertainment committee will be at the Sportsmen's Club from 6 p.m. until 11 p.m. Tuesday and from 6 a.m. until 6 p.m. Wednesday to weigh and record entries. They will serve in three shifts.

That is something councilmen must realize.

Midland Women Hurt in Wreck

A Midland woman was injured at 12:50 p.m. Thursday in a two-car collision 13.3 miles northwest of Colorado City.

She is Mrs. W. B. Henley, 38, who was hospitalized at Root Memorial Hospital with a back injury.

Mrs. Henley and her husband and son, Fatey Bruce Henley, 18, were taken to the hospital in Kiker & Son Funeral Home ambulance.

However, only Mrs. Henley was hospitalized. Her husband was treated for a bruised right eye.

The Henley son was driver of the Henley's 1949 Ford two-door sedan when it was in collision with a 1955 Chevrolet pickup truck driven by Gene Kruse of Route 1, a pumper for Blue Danube Oil Company.

Site of the collision, according to Highway Patrolman Al Chambers, was at an intersection of country roads about half-mile east of Fairview Baptist Church.

Approximately $200 damage was caused to the pickup and about $125 damage to the sedan.

A collision Saturday afternoon at intersection of 19th St. and Vine injured Jim Bodine of Buford, a candidate for Precinct 1 commissioner.

Bodine, who received a broken rib and an ear cut, was driver of one car and Marion Flippin of Colorado City was driver of the other.

Damage to the two cars totaled $550.

Cars driven by Bennie Ray Hodges and Ralph Beal, both of Colorado City, collided Sunday at 6 p.m. at intersection of Sixth St. and Hickory.

No one was injured, but Beal's car suffered $250 damage and Hodges' car was damaged $50.

"The attorney general of your state said . . . in this case . . . that the cooperative had the responsibility to get out.

"And 54 cooperatives came into court and said if this is the law at Gilmer, it is the law for us and we don't want it."

Brown said the state appellate court at Austin upheld the cooperatives and said the commercial power company does not have the right to monopoly and that fringe area competition is natural.

The case is now pending before the State Supreme Court.

"I predict the decision of the appeals court won't be disturbed," Brown said, "because it is sound and the only way you will be able to complete your job and repay the money you borrowed from the government to build your lines.

"This means your continued right to exist."

GIANTS ARE GRADUALLY GAINING

Giants, Yanks Battle Friday For Little League Top Spot

The stage is set for a showdown battle between the Yankees and Giants in the Little League Friday night.

The teams meet in the second game Friday and if the Giants win, the two teams will be tied for the league lead.

If the Yanks come out victorious, they will have a good two-game lead on the second place Giants.

• • •

Giants gained on the Yanks Tuesday night by whipping the Indians 14-5 while the Yanks were losing to the Pirates 5-2.

Pirate pitchers Archie Biggers and Danny Garcia held the Yanks to four scattered hits while gathering eight hits off Jesse Franco and Felix Salmeron.

Garcia put the Pirates ahead in the second frame with a score. Pirates increased the lead to 3-0 in the third inning. Martin Christian singled, went to third on pass ball and scored on Curtis Scott's lick that was bobbled. Scott scored on Biggers' single.

J. Franco scored the initial Yank run in the third when he singled, went to second on a pass ball and scored on Barney Barnett's single.

Pirates continued to pour it on the Yankees with two runs in top of the sixth.

Junior Garcia singled, Pete Garrett got on base via a fielders choice and both scored on David Garcia's single.

Yankees, suffering their third loss of the season, rallied for a lone run in the sixth with Salmeron scoring after socking a double.

• • •

Giants' bats boomed loud as they swamped the Indians 14-5.

They collected only seven hits, but eight walks issued on the wildness of the Indian pitchers helped the Giants to the lopsided victory.

Pitcher Larry Hamner handcuffed the Indians with three lone hits in five innings and relief pitcher Tom Mann allowed only one bingle in the final stanza.

A double by Sammie Vaughn in the first inning paved the way for the Giants' first three runs.

Third inning found the Giants pushed across five runs. Single by Giant shortstop Maxie Connell started the inning.

And then walks were issued to Vaughn, Dickie Summers and Bobby Stewart.

James Nidiffer whammed a single and finished the scoring by crossing the plate on an Indian error.

Indians cut the margin to 8-4 with runs in the fourth inning. Sylvester Williams, Harry Johnson, Jessie Burton and Harold Hendley crossed the plate on the strength of a single, two Giant errors and a walk.

Vaughn scored run No. 9 for the Giants in the fourth while the Redmen chalked up run No. 5 in the fifth when Johnson tallied.

Giants capped off the victory in the fifth with four runs. Kenneth Cannon walked, David McKay got on base on an error, Connell used a fielders choice to reach first and Vaughn slapped a run-producing double.

Stewart's single scored Vaughn.

IN PONY LEAGUE ACTION

Key and Bracy Pitch Athletics to 7-4 Win; Cards Blank White Sox

With Billy Key and Robert Bracy handling the pitching duties, Athletics walked past the Braves 7-4 Monday night to keep a clean season slate in the Pony League.

Cardinals blanked the White Sox 6-0 in the other game.

• • •

Athletics now have won nine games and lost none to begin the second half of the season.

Key hurled for five innings, giving up two hits while Bracy finished off the final two innings, giving up two hits.

Bennie Greenfield started on the Brave mound but gave way to Lucky Merket in the fourth.

Athletics marked up two runs in the second inning. Steve Smith led off with a single but was put out on the base paths.

Ronnie Bassinger and Charlie Roach both walked and scored following Key's single.

Merket scored for the Braves in bottom of the second to make the count 2-1.

Athletics teed off on Merket in the fourth for five hits and five runs.

Successive double by Smith and Bassinger started the show. Roach walked, Key singled, Red Lindsey doubled and Danny Maples singled to complete the scoring.

Merket scored again for the Braves in the fourth to make the count 7-2.

Braves rallied for two runs in last of the seventh when William Sanders and Robert Boney scored, but the Athletic margin was too great to overcome.

• • •

Dwain (Shorty) Thomason pitched a four-hitter as the Cardinals blanked the White Sox 6-0.

Hunter Mann broke the scoring ice for the Cards in the third after rapping a double.

Mann duplicated his feat again in the fifth after getting on base on a fielders choice.

Cards broke loose for three runs in the sixth. With no outs, Jerry McKay doubled, Thomason doubled and Richardson slapped a single with all three scoring. Mann's single helped score Richardson.

Billy Bobo scored the Cards' sixth run in top of the seventh when he singled and tallied on Bill Davis' single.

Thomason struck out 13 Sox with no Sox runner getting further than second base.

Cards touched Sox pitcher Danny Fisher for 10 hits.

Gas Firm Sets Low Rate for Air Condition

Dollars will be saved this summer by Lone Star Gas Company customers presently using gas air-conditioning in their homes and places of business.

This saving will result from the introduction by Lone Star of a special summer air-conditioning rate for residential and commercial users.

The new rate for 48 cents per 1,000 cubic feet applies to residential customers between the meter reading dates in May and October, and to commercial customers between the reading dates in June and October.

In 1957, both residential and commercial customers will be billed at the special rate between the meter reading dates in May and October.

"The low rate also will apply to the constantly-growing list of new residential and commercial gas air-conditioning customers daily being added to our System," according to Roy Porter, local manager for Lone Star.

"This special rate was made possible," Porter said, "because Lone Star's facilities and the available quantities of natural gas exceed present summer demand in the comparatively new but fast-growing gas air-conditioning market.

"We are confident that introduction of the rate will enable the company to sell gas in greater volume during the traditionally low demand summer months, thus serving the company's need, economically speaking, to utilize its facilities to the same extent that they are utilized during the traditionally high demand winter months."

How you can be a "guest at your own party" ...with an Electric Food Freezer

Parties take planning and preparation to run smoothly. With an Electric Food Freezer, you can pre-cook and freeze party menus days or weeks in advance . . . avoiding last-minute rush and giving you more time to spend with your guests. Party sandwiches, hors d'oeuvres and canapes can be made ahead of time and frozen. Taken out of the freezer before serving time, they'll be as fresh and tasty as when first made. You can pre-cook and store whole meals, all kinds of cookies and cakes, out-of-season dishes to delight your guests. Even store extra ice cubes or chill a whole case of soft drinks in just minutes. For informal get-togethers, make a large batch of your pet specialty — spaghetti sauce, chili, chow mein — or have a quantity of hamburger patties on hand, ready for the charcoal broiler. LONE STAR FARMER

Petty Graft Pays In Farm Industry

By JOHN C. WHITE,
Agriculture Commissioner.

Petty crime pays off in Texas.

At least, for a small percentage of scheming opportunists it does.

These men make thousands of dollars operating outside our state agricultural laws and then pay small fines for doing business illegally.

The trouble is with some of our laws as they pertain to farm nursery stock and seed sales. The laws are good—offering adequate protection to buyers and sellers—but the penalties for violation are too light.

State inspected and tagged seed is a case in point. The Texas Seed Act provides that each bag of seed offered for sale must be properly marked as to its quality and content on the tag to let the buyer know what he is paying for.

An unscrupulous operator can mislabel his seed bags, changing a high price for what is actually an inferior and cheap product. The penalty for this action is a nominal fine.

If the seller violates the law on a large scare he can make tremendous profits. The only recourse the law has is to fine him for each illegal sale—a lengthy and expensive propostion, even if it can be proved.

The end result is that small fines serve as a nuisance to legitimate businessmen who accidentally violate the law and only slap the hand of schemers who operate of the outer fringes.

A goal of the Texas eDpartment of Agriculture is to correct this inequality in the next session of the Legislature. For first offenders, the penalty will remain about the same. But for repeated violations, the dealer "should have the book thrown at him".

In the meantime, a drive by agricultural inspectors is underway to offer as much protection as possible to prospective seed buyers. Known offenders of the seed act are being subjected to a "harrasive campaign", to discourage the illegal sales. Fines are being levied fast and frequently.

In addition, wide publicity is being given to cases filed in court on offenders who have been fined repeatedly on other occasions. This is one of the best methods to discourage such operations.

Legitimate dealers have requested this "clean-up campaign". They know that sellers and buyers suffer equally from such disregard of the law by a small percentage of "petty grafters".

BIBLE COMMENT

Faith, Good Must Go Hand in Hand

In the Epistle of James, there is a profound plea for plain, honest, practical Christian living.

There ought to really be a great deal more of it in the Church and in all relationship of Christians with the world.

We have had no right, even in our thought to separate faith and works. Faith is primary and basic, but faith and works go together, and until we relate faith to character and conduct we do not come to understand what Christian faith is.

James, like Paul, emphasizes the fact that God is the source of all goodness. From Him comes every good and perfect gift, and with Him there is no variableness or shadow of turning.

His love and His grace are abiding, and every man who in faith accepts the obligations of the Christian life will find the power of God with him to help him.

We cannot too strongly stress this concise definition of religion, found in the Epistle of James: "Pure religion and undefiled before our God and Father is this, to visit the fatherless and widows in their affliction, and to keep oneself unspotted from the world."

It is this sort of religion which distinguished the early disciples. Paul believed in it just as much as James, but the world is still run largely on the basis of self-interest and not always "enlightened" self-interest.

True Christianity represents something deeped and brighter.

It has produced humanitarian organizations and movements which lift mankind to motives of mutual aid.

This, not self-interest, is the hope of the world's future.

Daughter Is Host

Mrs. J. T. Nelson of Comanche visited last week in the home of her son-in-law and daughter, Mr. and Mrs. J. I. Thomas, at Loraine. Other recent visitors in the Thomas home was Mrs. Gustave Easley of Midland.

KLEBERG STILL DEFIES BALLOT

Court Test Possible on Racial Referendum Despite Two Counties Bowing From 'Fight'

By VERN SANFORD.
Texas Press Association.

Prospects for a court fight over the interposition racial referndum on the July 28 Democratic primary ballot dwindled this week.

Previously, Harris and efferson, Bexar and Kleberg counties had declared intention not to place the racial question on the primary ballot.

They had termed the referndum move a "uesless gesture to stir up animosity and hate," also an "illegal effort to cover up scandals in the Shivers administration by appealing to Ku Kluxism for a campaign of hate."

But Monday found Jefferson and Harris County subcommittees assigned to prepare the ballot bowing to a ruling that it is mandatory to place the referendum on the ballot.

Still voting unanimously Monday to withold the referendum off the ballot was the Kleberg County Democratic executive committee. The committee said that it would bow only to a court decision aimed at placing the issue before the voters.

Attorney General John Ben Shepperd declared in a ruling for Jefferson County officials last week that putting the maters on the ballot was mandatory and that penalties were provided by law for failure or refusal to comply.

State Democratic executive committee members certified placement of the racial issue on the ballot after receiving a petition signed by 153,000 voters — more than required by law. The referendum seeks voter opinion — regardless of "law of the land" decision by U. S. Supreme Court — on question of school integration, intermarriage of Negroes and whites, and interposition.

Hope For Tourists

New hope for early action on the building of tourist lodges in state parks was presented at the State Parks Board meeting.

State Capitol NEWS

During the last session legislatures approved $25 million in bonds for construction of resort hotels in at least six state parks. In past weeks interested groups over the state have become impatient to know why the bonds haven't been sold and the building program launched. Delegations from three towns came to Austin to ask.

Board Chairman Andrew M. Howsley told them the Chicago bonding firm which has the contract has so far failed to sell one bond or find a responsible company to operate the property.

Former State Sen. Howard Carney, one of a group from Atlanta, announced that the Fred Harvey Co., a big nationwide firm, had expressed interest in building lodges in Atlanta State Park, Eisenhower State Park at Lake Texoma and Inks Lake State Park.

Carney predicted construction could begin by September with completion one year later.

Right-of-Way Aid

Relief is in sight for Texas cities and counties which have been unable to finance right-of-way for desired new highways.

For nearly 30 years the State Highway Commission has authorized use of state funds for highway construction only if the cities and counties purchased right-of-way. In populous areas cost of needed land frequently ran into millions. During the past year Dallas and Harris counties failed in financing attempts.

Now the commission has announced the state will start paying for right-of-way under the new federal highway aid bill. Final congressional approval will launch a multi-million-dollar interstate road building program for which the federal government will pay 90 per cent of the costs.

Commission Chairman E. H. Thornton Jr. predicted, however, that state right-of-way buying would not begin for some time. First funds will be used for projects where road right have already been secured by local agencies.

Drouth Aid Sought

Free livestock feeds for Texas farmers hardest hit by drouth is being sought by Gov. Allan Shivers.

Shivers has submitted a contract to the U. S. Dept. of Agriculture to secure surplus federal grain. It would be distributed by the State Welfare Department.

Farmers receiving the free feed would be barred from commercial sale of livestock, poultry or products.

Ten counties have been certified by the state as eligible for such aid. They are Karnes, Jim Wells, Wilson, Goliad, Frio, Live Oak, McMullen, Atascosa, Gonzales and Bee.

Shivers also announced he had negotiated for reduced freight rates for ranchers in 80 drouth-stricken counties to ship cattle to outside pasturage.

Final Turnpike Contract

Last contract needed to complete construction of the Dallas-Fort Worth toll road was awarded last week by the Texas Turnpike Authority.

It was for $1,175,804 in paving.

Unless a steel shortage develops, completion of the $58 million road is expected on schedule by July, 1957. It will be Texas' first toll road.

Present plans are to charge passenger cars 50 cents, trucks $1.25 for the 30-mile drive.

More Salk Shots

The U. S. Public Health Service released 229,599 shots of Salk polio vaccine for use in Texas.

Texas Health Commissioner Henry A. Holle advocated removal of the voluntary age restrictions on use of the vaccine. At present, vaccine is available only to children under 20 and to expectant mothers.

Meantime the State Health Department sent a four-man team of experts into the Brownsville-Matamoros area to study the threat of yellow fever. The department said "the inexorable advances of jungle yellow fever from Panama toward Mexico and the Gulf Coast of the United States is causing qualms of uneasiness."

Improvement in Order

State Auditor C. H. Cavness suggested in an audit report on the Insurance Commission that this big state agency improve its personnel methods. He said he found the commission's rental contract for space in an office building owned by an insurance company "not out of order."

HOMETOWN CONGRESSMAN

Mahon Declares 'Responsibility' to West Texas in Election Statement

U. S. Representative George Mahon has authorized the Record to announce his candidacy for re-election to Congress from the 19th Judicial District.

His statement concerning his candidacy follows:

"I am sending this message from Washington where Congress is in session to announce my candidacy for re-election to Congress.

"I am grateful for the fact that I have no opponent.

"If I am honored with re-election, I shall continue to seek to be of every possible service in matters big and small to the people of our district.

CONGRESSMAN MAHON, . . . unopposed in race.

"My principal responsibility is to the people of West Texas. If I serve the district well, I feel that I have served the nation well.

"We continue to be confronted with many problems, local, national and international.

Of principal interest this session was the farm legislation which we passed. It is far from adequate, but it was the best we could get this year in view of a presidential veto and other difficulties.

"I think we did a pretty good job with the military appropriations bill which I handle in the House and which has recently passed the Senate. In spite of new tactics and smiles from Moscow I do not think there has yet been a fundamental change in the objectives of the Communists and we must continue to keep our guard up despite the resultant burdensome costs.

"My object in making this announcement is to ask you for your vote and continued support. The people of our district have been wonderfully generous to me through the years.

"I am very grateful for the opportunities for service which you have given me. I hope you will not hesitate to call upon me at any time.

"The problems are at times difficult, and I may make mistakes, but I shall continue to do my best in an effort to do a good job for our people and to merit insofar as possible, your good will. Thanks very, very much," the statement concluded.

Dowell Places Sales Head in Midland Office

Dowell Inc. has transferred V. W. Grotlisch to Midland as a representative of the company's general office sales department according to R. S. Ousterhout, sales manager services division. Grotlisch will headquarter in Dowell's district office in the Wilkinson Foster Building and will represent a wide area including Dowell's Colorado City area.

An engineering graduate of Iowa State College in 1947, Grotlisch joined Dowell in 1953 as a junior service engineer in the company's Illinois district. Since then he has been service engineer, sales engineer, and development engineer. For the past year and a half he has been in Dowell's general offices in Tulsa.

He was a member of the armored field artillery for three years and served in Germany, France and Belgium. He was discharged with the rank of Lieutenant.

He is a member of the Des Moines Consistory, Kansas City Ivanhoe Blue Lodge and Tulsa Akdar Shrine. He is also an active member of the Petroleum Branch, A. I. M. E. and the A.P.I. He, Mrs. Grotlisch and two children will make their home at 719 Sinclair in Midland.

In his new assignment, Grotlisch will represent the general office sales department in West Texas, North and Central Texas, the Panhandle and New Mexico. His transfer is part of Dowell's long range plan to strengthen sales coverage and to provide better service for our many customers in this very active area, Ousterhout reported.
