Same Band To Furnish Music Sept. 8th

Spearman's first "Name Band" is scheduled at the Memorial building in Spearman Wednesday evening Sept. 8th, from 9:00 p. m. until 11:00 p. m. At this time the newest favorite radio ten piece orchestra, "Merl Lindsay and his Shamona Night Riders", will furnish dance music. The dance is under the auspices of the VFW organization of Hansford county.

One-Man Crime Wave Originated In Spearman With Robbery of Spearman Super Service Station August 15th

Sheriff J. B. Cooke spent a portion of last week checking on a one-man crime wave in Spearman with the robbery of the Spearman Super Service Station Sunday morning August 15th. Vassaur, 19 year old son of Berger, Texas, was employed at the Super Service Station one week prior to his confession of the robbery. In a statement to Sheriff Cooke last week, Vassaur stated that he robbed the station of approximately \$50.00 in cash and the keys stolen from the station. He was able to open a Coca Cola box and empty the box out to make the job complete. The accused also admitted he had stolen an R. E. Lee Company tank truck immediately after the station robbery. However, the loss of this truck was not known until Monday August 16th. The truck was found by Sheriff Cooke after a three day search. The truck had been abandoned at Hale Center, Texas. Cooke located it late Monday afternoon. Starting from the station, Cooke traced the activities of the accused Vassaur and briefly he stated that it is alleged Vassaur stole a passenger car at Lubbock, Texas, purchased a plane and driven on the highway to Brownfield, Texas. It is alleged that Vassaur saw a pretty girl driving a car alone on the highway, passed her and pointed a back tire on her car indicating she had a flat. The girl stopped the car, and it is alleged Vassaur jumped out of his car, armed the car owned by the girl at pistol point forced her from her car and into a nearby field where he raped her. It is alleged the said Vassaur abandoned the car stolen at Lubbock, after the alleged crime of rape, but after he had been chased by a highway patrol car and he wrecked the car. It is alleged Vassaur escaping the highway patrol near Brownfield then another car and took a trip to New Mexico, picking up a hitchhiker, who he robbed after a short ride. Vassaur finally arrested at Brownfield, Texas, and held by three Rangers. County officials at the airport in Brownfield, Texas, where he is held for Terry county officials on rape charges, and after three charges and robbery charges. The offense of high feeling in and out of Brownfield, Texas the young girl who was arrested. Sheriff Cooke stated that he would be released to an attorney to be released to an attorney. He indicated that the case would be carried in Terry county, carry the penalty of the chair.

Miss Elizabeth Miller Receives Degree Friday
Special To The Reporter.
DENTON, Texas—August 25, 1948. Elizabeth Miller of Spearman is a candidate for the bachelor's degree to be awarded at North Texas State College August 27. Third largest in the history of the college, the class is composed of 549 graduates, 155 of whom will receive the master's degree and 394 the bachelor's degree. Miss Miller is the daughter of Mr. and Mrs. W. J. Miller of Spearman and will receive her degree in education. She is a member of Future Teachers of America, Press Club, Quintillians, and Elementary Council.

PIONEER FATHER
The following is a poem written in dedication to her father, the late Joe Close, by Mrs. Gladys Close Buchner.
OUR PIONEER FATHER
His tired hands are folded
They rest from tasks well done
His life was one of service
He loved us everyone.
He cleared our paths of thorns
That we might never see
The hardships of pioneering
As our country use to be.
The dreams of a brighter tomorrow
Were born on rutted roads
That we might ride on pavement
Free from hardships loads.
His hands laid up treasures
For future little ones
That we may better understand
How to rear our sons.
Please Dear God, I ask thee
Guide our Daddy home,
Let him visit with your Angels
So he may never be alone.
Help us to understand
And say, "Thy will be Done".
That we may join our Daddy
At the setting of the Sun.
GLADYS CLOSE BUCHNER

Memorial Services Held For Burl B. Brockus Aug. 22, At Baptist Church

Memorial services honoring the memory of a truly popular citizen of Spearman for the past 20 yrs, Burl B. Brockus, age 50, who died at his home in Amarillo, Texas, Friday August 20th, were held at the First Baptist church in Spearman Sunday afternoon, at 3:00 P. M. Memorial services were conducted by Rev. James Todd, assisted by Pastor Sam Malone of the Baptist church. Interment was at the Hansford Cemetery under the direction of the Masonic order, Boxwell Bros. officiated.

Death came as result of a heart attack suffered Friday evening at his home in Amarillo. Burl became very ill early in the evening and Mrs. Brockus summoned the family physician, who recommended that Mr. Brockus be carried to the hospital. Burl began feeling some better and remonstrated expressing his desire to remain at his home, and expressing his belief that he would be all right. He had suffered several attacks before this date. Later in the evening another attack was suffered, and Mrs. Brockus and Buddy started to the hospital with the patient. Burl died en route to the hospital.

Burl Brockus, a personal friend of this writer, was truly a good useful citizen and an excellent father and husband. He engaged in the cafe business in Spearman for some 15 years, and at the same time engaged in farming and cattle raising. Burl retired from the Cafe business several years ago devoting his time to farming and ranching. He purchased a home in Amarillo less than one year ago, moving from Spearman to his new home.

The body lay in state at the home of Mr. and Mrs. Carl Archer until time for memorial services Sunday afternoon.

Burl B. Brockus was born at Buffalo, Missouri, Feb. 23, 1898. He received his education and early training in Missouri, enlisting in the army during the first World War in 1917, where he served his country faithfully. He was discharged from the army as a non commissioned army officer, and later moved to Carlman, Oklahoma. 1921 the deceased was married to Miss Frances Holmden of Enid, Oklahoma. To this union

FUNERAL SERVICES FOR HERMAN HARRIS

Funeral services were held in Lubbock Wednesday August 18th, 1948 for Herman Harris, who passed away Aug. 17 at Veterans Hospital, McKinney, Texas. Rev. T. J. Youngblood of Ft. Worth officiated at the services. Pallbearers were: LeRoy Mussett, Gruber, Bert Tucker, Spearman, Bobby Grillo, Robert Hall, Crosbyton, Marvin Enzee, Lubbock.

Survivors include his widow, one daughter, Linda Kay, one son, Wm. Robert of Spearman; Mr. and Mrs. W. H. Harris, parents, Stephenville, Texas. Herman represented the Meade Bakery Company in this area prior to his death. He was a war veteran, and a very popular young business man.

Sid Clark is at home and feeling better this week after being a surgical patient at St. Anthony's hospital, Amarillo last week.

Rock McCleod Is BEST COWBOY!

It all happened at a little town in Kansas, name of Sharon Spring. It seems that Sharon was having their annual celebration, just as Spearman, Gruver, Perryton and other Texas towns have, and Rock McCleod, who works near Sharon Springs, was talked into riding in the parade, which was a feature of the celebration.

Well, Rock saddled up old paint and rode him to town, and rather reluctantly entered the parade. Right off Rock was feeling kinda small, as all the other Kansas cowboys were dolled out in their green satin shirts, and Rock was in his usual working jeans.

The big parade started, the brass band started blaring, and Rock's horse started rearing. However, Rock straightened old Paint out, and was going good, when suddenly an iron horse (model T) began popping off just behind the cowboys. This was too much for old Paint, and Rock too, and he twisted and turned, so finally Rock had to leave the parade and call it quits.

It seems that the judges of the parade ("typical cowboy" must have seen Rock when he was having trouble with old Paint, and admired the way he handled the animal. Anyway, out of all the Cowboys in the parade, Rock was picked as the "Typical Cowboy" and awarded a \$10. bill. So, from now on, when you see old Rock, just call him the "Kansas Kid."

Mrs. Mareta Martin and Mrs. R. F. McCommod left Sunday for a weeks visit with their aunt in Denison, Texas.

Mr. and Mrs. Ruffus Raney of Lubbock visited relatives here last week.

City Officials Well Pleased With City-Wide Clean-Up Staged In Spearman Tuesday August 24th

Back To School Issue Of Paper Published Sept. 2

Next weeks issue of the Reporter will be the annual Back to School issue of the newspaper. Every effort will be made to present all the information regarding the schools of the county in this newspaper. Merchants who want to present messages to parents are asked to prepare their copy early, since the Reporter will be unable to accept display advertising after Tuesday noon of next week.

NOTICE TO ALL MEMBERS OF THE BAPTIST CHURCH AND TO ALL OTHER FRIENDS OF BRO. AND MRS. MALONE
As a final tribute to the Beloved Pastor and family, a basket dinner will be held in the basement of the First Baptist Church on Sunday August 29 following the regular church services in the morning. Bring a basket lunch and enjoy this final fellowship with the Malones. All church members of the Baptist church and all other friends in Spearman are cordially invited.

Ike Baggerly is reported on the sick list this week.

SAM MALONE WILL PREACH LAST SERVICES OVER WEEK - END

Sam Malone who has been pastor of the Spearman Baptist Church for the past three years and eight months, will terminate his connection with the local congregation with the two services Sunday morning and evening. He has accepted the pastorate of the newly organized Seminole Baptist Church and the family will move to Seminole Tuesday of next week.

The church at Seminole expects to begin the construction of a new \$80,000 church building, the 1st unit will begin within the next 60 days. Seminole is located in the heart of a vast region of oil development in the South Plains area and the town is undergoing rapid growth to meet the needs of tremendous drilling campaign. Oil in that section is being developed from six structures ranging from 5,000 feet to 12,000 feet.

The pulp committee of the local Baptist Church has been busy the past thirty days trying to locate a new pastor for this field. It is expected that a new preacher will be on the field before long.

The Baptist parsonage will be redecorated within and the work will be started next week.

At the Sunday evening services at the new Baptist Church building, congregations from one of the other churches of the community will meet with the Baptist to give the retiring pastor a farewell service.

During Malones ministry here the church has raised through the regular chure budget over \$20,000 for local expenses and the building fund, has given over \$4,000 to missions, and has raised for all purposes over \$100,000. The report of the past year's work which closes August 31 is by far the best report the church has ever made.

RESOLUTIONS
Whereas it has pleased the Grand Architect of the Universe in His wisdom to remove our beloved brother B. B. Brockus, from the trials and tribulations of this troubled world, to a peaceful world above, of eternal duration; therefore be it

Resolved that we, the members of Hansford Lodge No. 1049 A. F. and A. M., Spearman, Texas, do hereby extend to the widow and son of our deceased brother our most sincere sympathy in their hour of bereavement.

Be it further resolved that a copy of these resolutions be mailed to members of his family and a copy spread upon the minutes of this lodge.

All of which is fraternally submitted.
August 23, 1948.
J. K. Hicks, W. J. Miller, Freeman Barkley,
Homer C. Beck
Worshipful Master

The City of Spearman can indeed be heartened by the results of an extensive war on weeds and dirt that was conducted in this City, Tuesday, August 24th. Several truckloads of trash and rubbish found their final rest at the city dump grounds, and the contribution to the health and happiness of this community was a big step closer to assurance.

Business men, housewives, clerks, city officials and a host of others contributed to the gratifying results which are now apparent. Several contributed their equipment and time to the city. Many others, after cleaning their own premises, not only hauled off their own trash and rubbish, but that of their neighbors.

In fact, the whole hearted cooperation of the people of this community in this clean up endeavor was a heart warming experience to this editor.

Sell Space For Hansford Fair Display Rooms

Committeemen S. R. Turner and Sam Henry report the sale of most of the available space for the first annual Hansford county fair to be held at the Memorial building October 1st and 2nd.

Few Men In Age Limit Are Exempt From Registration

Curtis Jones, Hansford county member of the Registration Board for the Panhandle area, attended a Panhandle wide meeting held at Amarillo Tuesday August 24th. The meeting was held at the Herring Hotel, and Mr. Jones reports that he did not learn a great deal more about the coming registration, other than information printed in last weeks newspaper. However, he did state that anyone who desires to do so can register beginning Monday August 30th, in advance of their scheduled date for registration. This is for the purpose of aiding college boys and those who know they must be out of Spearman on dates set for registration. If you as a prospective registrant want to take advantage of this offer, report to Johnnie Lee at the court house in Spearman on Monday or any date thereafter.

While only a few male citizens in the age limit are exempted from registration, Mr. Jones learned that a member of an organized reserve unit that holds a minimum of 35 scheduled drills or training periods or 35 days of active Federal service, or combination thereof per year, are exempted from registration. Many of the registration age are in the reserve, but are not classified "Active" and therefore are not exempt from registration.

If any reader is in doubt about date of registration they can check with last weeks Spearman Reporter, or with the daily papers throughout the state, which continue to print schedules for registration.

EASTERN STAR PICNIC AUGUST 27.

The annual Robert Morris picnic for members of Eastern Star and their families will be held Friday evening, August 27th. All interested meet at the Masonic Hall Friday at 6:30 p. m. Bring your family and your food.

A Typical Scene at Boys Ranch: All of the boys learn to handle a tricky rope!

Sunday, September 5th, is Rodeo Day at BOYS RANCH, Old Tascosa. It's the day of their Third Annual Rodeo and Barbecue. Naturally, all the boys are looking forward to a good time and plenty of good Barbecue, but it really means more than that to them. It means a chance to show off the ranch to the visitors, and also to show off themselves and their riding and roping abilities. This is an opportunity for the boys to show everyone what they are doing, and what they can do. Every boy at the ranch, from the youngest to the oldest, looks forward to, and works for this all year long. For the past 2 or three months, the older boys have been training and practicing

Funeral services will be held this afternoon (Thursday August 26th) for Mrs. Olivia Melchman Cator (Mrs. Bert O. Cator), at the First Baptist Church in Spearman. The body will lay in state at the church from 1:00 p. m. to 5:00 p. m. the time for funeral services. This newspaper was unable to learn who would conduct the memorial services, but presume it will be the Methodist pastor of Morse, where Grandma Cator lived for 49 years.

The deceased was one of the two oldest citizens of Hansford county from the standpoint of years lived in the county. She was the widow of Bert O. Cator, pioneer Hansford citizen who died in this county in 1921.

Among the first families that settled in the county were the Bert Cator, Bob Cator, Leslie Cator and Jim Cator families. We understand that all but Bob Cator spent much of their mature life in this county.

Grandma Cator is survived by her sons Bert Cator of Glenwood Springs, Colorado; Marshall Cator of Sunray; Pete Cator of Morse; John Cator of Morse; Geo. Cator of Nara Vasa, N. M. She is survived by one daughter, Mrs. Annie Clifton of Morse, Texas.

Mrs. Cator died at an Amarillo hospital Tuesday August 24. She was born Feb. 1, 1868, passing away at the age of 80 years.

Hansford Man Building New Amarillo Stockyards

The new and very modern Amarillo Stockyards is nearing completion and should be in operation sometime in September.

J. D. Amend and Paul Higgs, well known cattlemen of this area, have selected an ideal location for their yard, Northeast of Amarillo at the Junction of Highway 66 and 136, the Fritch Oil-field Highway. In addition to the easy availability to truck traffic, the new yard will be served by spur tracks from two railroads, one from Santa Fe, and one from Rock Island.

The new operation will feature Commission Firms, with alley sales daily, a Sales Ring, and facilities to feed, water and rest any size shipment of cattle, whether by rail or by truck. The sale days for the Sales Ring will be announced as construction has been completed. The Sales Pavilion will be spacious, well ventilated and will have comfortable seating arrangements.

Pens will be "Bull Proof", constructed with concrete posts and oak panels, making the yard as nearly fire-proof as possible. Fresh running water will be available in every pen in concrete troughs and large feed bunks are being built-in in all pens. As an added feature, approximately half

of the pens will be hard surfaced to keep cattle out of the mud in wet weather. Concrete alleys are being built around all of the pens for the convenience of the stockmen and buyers, and as an added precaution, the entire yard is built with two way grading to permit adequate drainage.

Upon completion, the units under construction will allow the easy handling of up to eight thousand head of cattle at any one time, and plans are underway to increase this capacity as the need warrants the expansion.

The Amarillo Stockyard owns two hundred acres of land at the site of the new yard, and inquiries have been received from two meat packers with reference to securing locations for packing plants. It is the aim of the owners of the Amarillo Stockyards to establish a central market in Amarillo to serve the surrounding territory in a comparable manner to other central markets throughout the country.

Two modern buildings will house the various offices and there will be comfortable waiting rooms and facilities for visitors and customers.

The personnel to operate the Amarillo Stockyards is being "Hand Picked" by Amend and

Higgs. Their aim is to get the top hands to handle the various jobs, thus assuring the shipper and buyer of safe, efficient, prompt, and fair handling of all cattle. This new stockyard is geared to handle the needs of a five-state area including New Mexico, Oklahoma, Kansas, Colorado, and Texas.

View of the partially completed loading docks and pens at the new Amarillo Stockyard. This photograph shows the concrete post and oak panel construction of the pens and the incomplete hard surface that is to be installed in approximately half of the pens. Also shown at the left of the picture is the rear of one of the administration buildings, and the Fairbanks-Morse Scale that will be used to receive cattle at the yard.

Picture B.

Panoramic view of the site and construction of the new Amarillo Stockyards. The building on the right will house the commission firms, Sales Ring, and Sales Offices. The four Hay Barns in the center, all capable of holding 150 tons of hay, are to be added to in the future expansion of the yards, and the building on the extreme left will be the Amarillo Stockyard office and supply storage.

H. D. NOTES

Are you freezing foods this fall? If so, perhaps the following suggestions will help you: 1. Freeze only the best. 2. Wash and sort carefully. 3. Peel, trim, and slice. 4. Use a discoloring agent for light colored fruits as peaches. A new product now on the market is A C M, used as a sugar or a syrup, and can be obtained from the Drug Store. Remember too, that to keep apples from darkening, scald slices in steam or boiling water for 1 1/2 to 2 minutes. 5. For all vegetables except green peppers, the dry pack is satisfactory and less trouble than the brine pack. Green peppers are best packed in a weak salt solution (1 teaspoon salt to 1 cup water).

6. Scald before packing and be sure to check time for scalding on Time Table. These may be secured from the home demonstration agent's office. 7. Chill immediately in cold water.

8. Package right in moisture vapor or resistant material that can be sealed tightly. 9. Freeze quickly and store at 0 degrees.

If you're landscaping your yard or setting out more shrubs and trees. Plan for an open lawn in the public area with an evergreen maybe a Blue Spruce or some tree to be the center of interest. Some shrubs to include in the

foundation planting are: Mahonia, Spirea, Coalberry, Nandina, Abelia, Barberry, Forsythia, Pyracantha, Winter Jasmine, Crepe Myrtle.

For the door step, such shrubs as, Euonymus Japonica, Lodense Privet, Savin Juniper, Pfizer Juniper and Logastrum are suitable.

Screen plantings may include

vitex, flowering willow or desert willow, Russian Olive, Smoke Tree, Apricots, Tamarax, Lilac, Chaste Tree, and Cherries. Bridal wreath and spirea are exceptionally good and blooms early about April. For further information and help, see your Home Demonstration Agent, Vivian Vance. Polio Insurance. See Willis Peters.

The Product That Makes Me Proud—
Phillips 66 Premium Motor Oil!

Man this "Lubri-tection" is something to boast about! It means the two things you get with Phillips 66 Premium—lubrication *plus* protection! Here's a motor oil with all the great lubricating qualities you just naturally get from fine base stocks and expert refining, *plus* additives and inhibitors that protect by helping to lick sludge, carbon and varnish deposits.

That's a lot in one quart of oil but Phillips 66 Premium's got it! Why don't you switch to "Lubri-tection" today!

PHILLIPS 66
PREMIUM

* "Lubri-tection"—the protection rendered by an oil of fine base stock containing special detergent and oxidation inhibiting ingredients.

TEXAS must lead the fight FOR FREEDOM

Texans, your personal freedom and the freedom of your children is in danger. Truman's so-called civil rights program will destroy our way of life. Never since the Alamo has Texas been in such danger.

If we are to be saved, we must unite today... all creeds, all factions, farmers, laborers, businessmen. EVERYBODY!

If the Truman forces steal the Fort Worth Convention on September 14 by unseating the States' Rights delegation, you will still have the chance to vote for STROM THURMOND AND FIELDING WRIGHT.

Money must be raised... it is YOUR fight. It is now or never!

C of C Letter

In some instances activities and decisions of immediate interest to this membership occur, and we feel that deviation from the once a month rule of information is both necessary and anticipated. So close on the heels of our recent letter, we submit another report on some current happenings.

CLEAN-UP

Upon the invitation of the City Council, members of your Board and other interested citizens met Wednesday, August 11, and discussed the need and plans for a general Clean-up. The following was resolved by the Council as necessary to the general success of this move:

a. That Tuesday, August 24, was by proclamation of the Mayor, observed as Clean-up Day for the City of Spearman.

b. That the selection of a Captain in charge of clean-up aided by 5 zone captains are necessary to coordinate clean-up activities.

c. That men and equipment, working on a volunteer basis under the direction of zone captains, can insure the success of this clean-up plan.

d. That all citizens should feel a moral responsibility for the cleaning of their premises and properties.

e. That all civic minded groups be invited to cooperate in any manner which, at their discretion, will contribute morally or materially to the clean-up plan.

f. That business houses close from the hours of 8:30 A. M. to 1:00 P. M. on the 24th in cooperation with the announced plan.

The City Council announces that the gutters in the business district have been cleaned, and that another general spraying of the business and residential areas would follow the clean-up.

LAW ENFORCEMENT

The City Council, which has shown great concern in recent weeks over hazardous parking practices and running violations of traffic laws, also heard the recommendations of two members of the Texas Highway Patrol on traffic law enforcement.

As a result, certain traffic enforcement procedures will soon be under-way, and violators will now be served notices with the assurance that Justice of the Peace G. E. Oakes will hold court on all violators. Lenient handling of first offenders was adopted by the Council to familiarize all violators with what the law expects of them. Second offenders, however, will forfeit this consideration, and fines commensurate with the violation will be imposed.

There is a growing realization each and every day that a 24 hour vigil on the driving habits in the City of Spearman is fast becoming a real necessity. The present night police officer can do a lions share of this work, but the council is also cognizant of the fact that the services of a day officer may still be necessary to round out efficient police supervision. It is still probable that this move will be taken by the council.

STAND REMOVAL The City Council, which previously authorized the removal of the stand by the Chamber of Commerce, granted additional permission to Herman Mitchell removal of the stand and clearance of the trees from that stand. Mr. Mitchell stated that he was only interested in doing his share toward eliminating this eyesore. We extend our thanks to his cooperation. At this present writing, Mr. Mitchell has already accomplished his interest

in the matter. We are confident that the necessary paving will soon be accomplished.

A COUNTY FAIR

Yes, sir, it's a fact; October 1-2 will witness the showing of a Hansford County Fair, under the sponsorship of the Spearman C. of C. announced T. R. Shirley, Chairman of the General Fair Committee.

At a lengthy meeting of the Committee which was preceded by a short meeting with the Board of Directors of the Spearman Chamber of Commerce, Thursday August 5, the following actions were taken.

BY the Board of Directors:

a. By unanimous decision of the Board, all moneys necessary to defray the expenses of this Fair, should be subscribed and collected prior to the showing of the Fair. The method of finance to be a charge for display space used by commercial entries.

b. Extended invitations to Gruver Morse, Hitchland and Oslo Community for participation in this event.

By the Fair Committee:

a. Established the place and dates of the Fair as the Community Building on October 1-2.

b. Appointed T. R. Shirley Chairman of the General Fair Committee.

c. Selected the main exhibit divisions of the Fair and appointed Chairman of each exhibit division as follows: Commercial, T. R. Shirley, Chairman, Sam Henry, and Lester McLain; Agricultural, County Agent Zack Jagers; Live stock, Ernest Wilmet; Home Demonstration Clubs, Mrs. B. J. Garnett; Domestic Arts and Sciences, Mrs. Virgil Hull; Flower Clubs, Mrs. Paul Roach; Arts and Photography, Bruce Sheets;

and Youth Organizations, Freeman Barkley. Entertainment Committee, Bob Vaughn. Bill Masters will be concessionaire.

d. Appointed G. E. Oakes as Fair Superintendent.

e. Appointed Pat Ryan as General Secretary.

Zack Jagers, County Agent, and Miss Vivian Vance, County Home Demonstration Agent, will serve as advisors to the General Fair Committee.

So while the Fair is still in the planning stages, we are extending a special invitation to you to add your efforts towards making this and subsequent Fairs a successful annual event.

Thanks for the fine response

we were accorded on our first effort. The several suggestions we received will be incorporated in our program and will serve to guide our efforts in planning future endeavors.

M. S. CHAMBERS, President

Morse - Pringle News

Vacations are taking many community members away from home, and others are returning from tours and travels to other places. Mr. and Mrs. Jack Johnson Jr., and Mr. and Mrs. Earl Henderson went to Colorado recently, leaving the youngsters home with the grandparents. Mrs. Chas. Thompson drove to California with Mr. and Mrs. Ernest Leib to bring Mrs. Ella V. Parks home. She had gone out with Mr. and Mrs. H. B. Parks and Sharon, who were also accompanied by Mrs. Parks mother, Mrs. Besse

Henderson. Their tour was rather extensive and took them thru Colorado, Idaho, Oregon, and down into California and back the Southern Route. They enjoyed many scenic views of the Great Northwest. The E. J. Copelands and Joe Lynn and Kim have been to Estes Park and other points in Colorado. The Jim Ownbeys have been to Pagosa Springs, Colorado on business and pleasure. The Forrest Prices have just returned from visiting in Oklahoma where they have relatives and friends.

Speaking of business and pleasure, tho it may have been too hot for much pleasure, was Mike and Kathryn Valentine's trip to Fort Worth to buy cattle.

An August birthday I missed; Rev. C. R. Hankins. And incidentally, Mrs. Desmond Kelly entertained the Rev. and Mrs. C. R. Hankins at a birthday dinner on Sunday. The occasion was the birthday celebrated by both the Rev. Hankins and Mr. Kelly whose birthday fell on the same date and they were the same age. More vacation news: the Billy

Jarvises recently visited Yellowstone National Park and report a wonderful time, complete with trailer, boat, fish and scenery.

Rev. and Mrs. C. R. Hankins were dinner guests in the Erlis Pittman home Sunday evening.

Maxine and Joe Reiszewicz have been in Perryton the last three weeks helping Mrs. Helen Reiszewicz Joe's mother, do some remodeling and re-decorating in her home there.

Don't have the complete story department: Jim Womble's shower given the other nite at Roy Womble's.

Mr. and Mrs. Roy Womble were honored last Friday nite at a social in the Morse school house when community members joined to bid them farewell pending their leaving the last of August for Mineral Wells. The Wombles have sold their home in Morse and other property as well and plan to make their home there permanently for their health.

Mr. and Mrs. O. E. Vaughn visited their daughter and her family, the Bruce Wombles of

Dalhart, last week-end. They brought them home and visited Sunday with the Eddie Vaughns in Morse.

Mrs. Mack Dorich and Mrs. Desmond Kelly visited with Mrs. Robert Ownbey Thursday afternoon.

Why don't you people get together and demand an X-Ray test like so many communities are having? Amarillo has had all her population over 15 years of age X-rayed to show if T. B. tests are negative or positive. There is no charge; it is unnecessary to remove clothing; the procedure takes less than a minute and a half; and the outcome shows if your lungs are negative or if there is the need for further X-rays and tests. The miniature pictures are read and the results mailed to your address. Moore county has done it; Stratford in Sherman county is on the schedule. Why not Hutchinson and Hansford counties? It'd be nice to know that you DON'T have it wouldn't it?

Irrigation news! Henry Reid is drilling an irrigation well two miles south and one quarter mile east of Morse. The project is to water his farming land there. Much interest is being shown in the drilling. There is one other irrigation well a few miles west of Morse on the Ola Hall-Hanson farm, and a larger one being used by Cal Burkett nearer Sunray.

Happy home-coming to Bernice Davis who underwent a major operation at North Plains Hospital in Borger last week. While she was hospitalized, Ruth Reagan and Mrs. Searcy stayed with the children.

Work has begun on the Dude Berry house across the street from the Jim Frazier residence in Morse.

Mrs. G. E. Stotts and children of Cottonwood, Arizona, are visiting her sister, Mr. and Mrs. W. R. Greever and family this week.

Mrs. John Neely was in Perryton on business Monday.

HYDRA-MATIC HEADQUARTERS

WHERE THE SERVICE IS AS MODERN AS A FUTURAMIC OLDSMOBILE!

As Oldsmobile Dealers we're way out ahead with Hydra-Matic Drive. Not only in sales, but in service, too. Our mechanics have invaluable experience in the automatic transmission field. We've secured the necessary equipment and built up a backlog of Hydra-Matic parts. All of which means, if you're a Futuramic driver—a driver who never shifts gears or pushes a clutch—you probably want service that's ultra-modern, too. Why not drive in soon!

YOUR OLDSMOBILE DEALER

Only the Servel GAS Refrigerator

STAYS SILENT... LASTS LONGER

GIVES YOU A TEN-YEAR GUARANTEE

IS TEXAS' BIG FAVORITE...

FROZEN FOODS—ICE CUBES

BIG FLEXIBLE INTERIOR

NO NOISE, NO WEAR

Operates anywhere ON NATURAL, BUTANE OR PROPANE GAS

STAYS SILENT... LASTS LONGER

Servel The GAS Refrigerator

LOOK FOR THIS SIGN OF AUTHORIZED DEALER

MORE AND MORE TEXANS want the Gas Refrigerator! This modern refrigerator stays silent, lasts longer because it has no moving parts in its freezing system. There's no motor to wear! No machinery to get noisy! And that's why your new Servel comes with a ten-year guarantee of noise-free, worry-free performance. (Accompanying 18 and 20 years' satisfaction is not unusual—say many of Servel's 2,000,000 happy owners.) In the Gas Refrigerator just a tiny gas flame does the work. And Servel operates anywhere—on any kind of gas. Come see the new models now on display. You'll find every new convenience you want—a big frozen food compartment, lots of ice cubes, moist cold and dry cold for fresh foods. It's first come, first served for Texas' big favorite—the Servel Gas Refrigerator.

R. E. Lee Oil Company

SPEARMAN, TEXAS

Don't Gamble

PLANT { Comanche Westar Wichita } **ALL 3 WINNERS!**

We all know it doesn't pay to gamble. Neither will old, undesirable varieties out-yield new, desirable varieties of wheat. Cash returns per acre are definitely highest with the new improved varieties. Besides the increased yields, millers this season are offering premiums for carlots of wheat high in percentages of acceptable types. Next year undesirable types now going to export may be discounted or avoided entirely.

Seventy per cent of today's bread is baked in commercial bakeries that use mechanical mixers and require strong gluten varieties of wheat. Housewives will not accept poor bread at any price. Texas wheat growers today know they must grow strong gluten varieties to improve the demand for their wheat.

Comanche and Westar are ideal for the South Plains and the Panhandle. Wichita is best for the early territory. We have some pure seed of these varieties. First come, first served. Bring in your old wheat — take home pure seed of the kind the mills will buy.

AVOID FUTURE DISCOUNTS! DON'T GAMBLE!

Boy Boys Big Red Fire Engine for 25 Dollars

NAPA, CALIF. — Like most boys, 10-year-old David Hotelling dreamed of owning his own real, regulation-size, red fire engine. He heard that the Napa city council was selling a 1926 model to make room in the firehouse for new equipment.

David counted his savings—earned by selling household articles and doing odd jobs—and made a \$25 bid.

It was the only one the council received and David was awarded the fire engine.

Hundreds Join Gold Rush in New Jersey

Searchers Excavate Fervently For Buried Treasure

Highlands, N. J.—A seashore gold rush was underway as hundreds of people converged here in a hunt for buried treasure.

The reported discovery of six more 18th century gold coins on the banks of the Shrewsbury river, near the Atlantic ocean, gave impetus to the search.

About 400 men, women and children streamed over the beaches beginning at chill dawn in a big beachcombing operation. Armed with rakes, screens, shovels, pails and assorted digging implements, many sifted the sand in this legendary pirates' port of call.

A Newark coin dealer, Fred W. Burnett, said from descriptions of the coins found he believed them to be old Portuguese doubloons, possibly pirates' treasure. He estimated that, in good condition, the coins probably are worth about \$75 each.

Fifteen of the coins have been discovered altogether since William Cottrell, 75, first picked one up while strolling on the beach.

The oldest is dated 1735.

The coins were turned up near the area of the previous finds, some below the high water mark.

Stories of pirates' treasure flew thick and fast in this resort town of about 2,000 population. A crowd gathered to watch the excavations of the hopeful hunters.

Many believed the coins had been dug from the river bottom when the Shrewsbury was dredged about 12 years ago. Sand from the dredging was pumped along the banks and has been washed and blown away during the years.

Nurses in V. A. Hospitals Quit Jobs to Get Married

WASHINGTON.—Veterans administration officials, struggling to maintain hospital personnel, face an unstable foe—Cupid.

"Our resident doctors and internes are marrying our nurses too fast," complains Dr. Paul B. Magnuson, VA medical director.

Not all of the nurses quit their jobs as soon as they get married, he said, but many do.

This, however, is only one of Dr. Magnuson's several hospital personnel problems.

In all types of medical personnel, V.A. now is short 6,000.

There are 4,217 doctors in the 126 V.A. hospitals, of whom 1,200 are scheduled to leave this year. These are young men who will have completed their training under special army and navy programs.

Dr. Magnuson believes a number of these will decide to remain with V.A. for additional training toward their medical specialties.

He also is working out a deal with the country's best medical schools to get other young doctors, also working toward specialties, to take two years of training at V.A. hospitals.

He can offer them salaries ranging from \$4,100 to \$7,000, and the advantage of supervision and instruction by the best of the nation's medical men.

Pregnant Ewes Need Good Feed to Produce Top Lambs

AMES, IOWA.—It is important that pregnant ewes are fed adequately, especially during the last half of the pregnancy period, to produce strong, healthy lambs, W. F. LaGrange, animal husbandman at Iowa State college, said.

In figuring a ration, consider more than maintenance of the ewe. Remember, she is producing one or more lambs, growing a fleece of wool, and building up reserves for the suckling period, all at the same time, LaGrange advises.

High quality legume hay is a good base for a ration, LaGrange says. That means hay that is leafy, of good green color, and free from mold. Silage may be included up to one to one and one-half pounds per day until lambing time. After lambing, the amount of silage may be increased.

During the last month or two of pregnancy, one-half to one pound of a mixture of corn and oats should be added, depending on the size and condition of the ewe. Free access to salt and a mineral mixture is important, especially if leafy legume hay isn't fed.

Pregnant ewes should have regular exercise, too, LaGrange says, but it should not be severe.

A woman's promise to be on time carries a lot of weight.

The distance between some people's ears is one block.

We don't know how fast our automobile will run. Neither do we know how far we can lean out of a tenth-story window.

H. D. NOTES

With the steady increase in rural electrification, a new and very large electrical appliance market has opened. As soon as the farm or ranch house is wired for electricity, the average family starts to buy electrical equipment.

The Rural Electrification Administration says that the rural housewife first invests in better lighting equipment, such as floor and table lamps. Then comes an electric iron, a radio or a radio-phonograph. Refrigerators and washing machines come next—these are items that are more expensive and usually take a little budgeting.

The installation of an electric water system in the home is usually planned next. Mrs. Bernice Claytor, extension home management specialist of Texas A and M. College, says the electric water system is one of the greatest time and labor savers for the rural home-maker, even though its installation usually comes after the purchase of other items.

Mrs. Claytor points out that with new electrical appliances in the home, care must be taken to prevent plugging too many into one outlet. It pays to have enough outlets, as overloading cuts down on the current, means less power, dim lights and may blow a fuse.

Plenty of conveniently placed outlets will cut down on potential accidents, too, she says, as there will be no need for long extension cords, which are unsightly.

inconvenient and dangerous. The best time to install the outlets is when the house is wired.

In some of the modern steps, the dancers exercise everything but discretion.

Most vacationists go away for a little change, but come back with a lot less.

Wouldn't it be nice if it took as long to spend money as it does to save it?

Advice seldom helps. If we are dumb enough to need it, we have not sense enough to use it.

Wisdom of the humble: "When you ain't got no education, you jest GOT to use yo' brains."

Fun is like life insurance—the older you get the more it costs you.

Pulling the shades down over a dark past makes it easier to find a bright future.

Fairs in Early Times

Merchant guilds of the Middle Ages found that traders preferred to barter in one city rather than in half a dozen. Thus we came to have one community famous for its lace, another for leather, a third for pottery, and so on. The great international fair at Leipzig founded in 1170 furnishes an example. This institution had a marked effect upon the commercial development of Europe. Highway robbery and pillage were so common in medieval times that rulers granted safe conduct and protection to merchants on their way to and from the fair, even though the merchants came from an enemy nation. The Leipzig fair was revived following World War I, and in 1922 reported 12,586 exhibitors and 155,000 buyers, 32,000 being from foreign lands.

Home-Frozen Peas, Beans, Equal Commercial Quality

Home frozen peas and snap beans are as fine in flavor and color and as high in vitamin content as those frozen by more rapid commercial methods, says Miss Mable Doremus, extension foods and nutrition specialist.

Vegetables in pound packages require two hours to freeze solidly by commercial methods, and as much as eight hours in home freezers, yet tests made at the New York state experiment station show no difference in appetizing qualities and nutritive value after cooking.

Many folk have felt that the more rapid commercial freezing makes a better product. It has been suggested that foods should be commercially frozen and home freezers used for storage only. However, the New York station reports, the homemaker need not hesitate to use her home freezer for freezing vegetables at home.

Miss Doremus emphasizes the importance of speed in handling and cooling foods for home freezing. She cautions against packing a large number of unfrozen and therefore relatively warm packages closely in the freezer, since this can slow up freezing enough to start spoilage.

Honey Bee Important Agent in Pollinating Farm Acres

Emphasizing the importance of honey bees in pollinating agricultural crops, M. H. Haydak, associate professor of entomology at the University of Minnesota, called bees the "wings of agriculture."

Honey bees by far outweigh the value of other insects as pollinators of plants, according to Dr. Haydak. Between 75 and 80 per cent of our agricultural crops are pollinated by honey bees alone.

Dependability of the honey bee in pollinating is apparent from the tremendous amount of work it does. About 10 loads of pollen are used to rear one bee.

Investigations show that to make one load of pollen a bee has to visit 36 red clover flowers or 84 pear blossoms. A strong colony during a year rears about 200,000 bees and so requires two million loads of pollen.

Locating the apiary close to the field to be pollinated plays a very important part in making services of bees more effective, as does the number of bees per surface area. The more bees per field, the larger the crop that can be expected.

Collective Farmer in USSR Given Small Plot of Land

Collective farmers, operated by farm cooperatives, occupy the principal place in Soviet agriculture. The basis of these associations is the collective ownership of the land and of the instruments and means of production.

A collective farm is a large association of farm families. On an average, a collective farm has at its disposal 1,250 acres of arable land. To direct it skillfully and insure a proper disposition of manpower, a well thought out system of organization of the collective farm labor is essential. Such a system has been in existence from the first days of the organization of these cooperative farms. A model statute governing collective farms was adopted in 1935.

All the members of a collective farm are divided into brigades. A field brigade usually consists of 45 to 60 persons. Each of these brigades is placed in charge of definite portions of land, and is provided with draft animals, implements, etc.

The measure of labor is the workday. For all his labor on the farm the collective farmer is credited with "workdays."

In addition to the "work days" earned by each man and woman farm worker, every farm family of the collective farm has its house and tract of ground varying from two and a half to five or ten acres. What the family produces on its plot—grain, vegetables, fruit, dairy and poultry products, livestock and so on, is its own, for use or sale.

PROPOSED CONSTITUTIONAL AMENDMENTS

H. J. R. No. 39

HOUSE JOINT RESOLUTION

proposing an amendment to Article 5 of the Constitution of the State of Texas by adding a new Section 1-a, authorizing the Legislature to provide for the retirement and compensation of Judges and Commissioners of Appellate Courts and Judges of District and Criminal District Courts on account of length of service, age or disability, and for their reassignment to active duty where and when needed; providing for the submission of the amendment to the voters of this state; and providing for the necessary proclamation and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article 5 of the Constitution of the State of Texas be amended by adding thereto a new Section to be known as "Section 1-a," which shall read as follows:

"Section 1-a. The Legislature shall provide for the retirement and compensation of Judges and Commissioners of the Appellate Courts and Judges of the District and Criminal Courts on account of length of service, age or disability, and for their reassignment to active duty where and when needed."

Section 2. The foregoing Constitutional Amendment shall be submitted to the qualified voters of the State of Texas at election to be held on the second day of November, 1948, at which election all voters favoring such proposed amendment shall write or have printed on their ballots the words:

"FOR the Amendment to the Constitution of the State of Texas authorizing the Legislature to provide for the retirement and compensation of Judges and Commissioners of the Appellate Courts and Judges of the District and Criminal District Courts of this State on account of length of service, age or disability and for their reassignment to active duty where and when needed."

Those voters opposing said amendment shall write or have printed on their ballots the words: "AGAINST the Amendment to the Constitution of the State of Texas authorizing the Legislature to provide for the retirement and compensation of Judges and Commissioners of the Appellate Courts and Judges of the District and Criminal District Courts of this State on account of length of service, age or disability and for their reassignment to active duty where and when needed."

Section 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and have the same published as required by the Constitution and existing laws of the State.

H. J. R. No. 7

HOUSE JOINT RESOLUTION

proposing an amendment to Article IV of the Constitution of the State of Texas, by adding a new Section 2-a, so as to provide for succession to the office of Governor in the event the Governor elect dies, or becomes disabled, or fails to qualify, before taking his oath of office as Governor; and providing for the issuance of the necessary proclamation and publication by the Governor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article IV of the Constitution of the State of Texas, be and the same is hereby amended, by adding another section to follow Section 3, and be designated Section 2-a, to read as follows:

"Section 2-a. If, at the time the Legislature shall canvass the election returns for the offices of Governor and Lieutenant Governor, the person receiving the highest number of votes for the office of Governor, as declared by the Speaker, has died, then the person having the highest number of votes for the office of Lieutenant Governor shall act as Governor until after the next general election. It is further provided that in the event the person with the highest number of votes for the office of Governor, as declared by the Speaker, shall become disabled, or fail to qualify, then the Lieutenant Governor shall act as Governor until a person has qualified for the office of Governor, or until after the next general election. Any succession to the Governorship not otherwise provided for in this Constitution, may be provided for by law; provided, however, that any person succeeding to the office of Governor shall be qualified as otherwise provided in this Constitution, and shall, during the entire term to which he may succeed, be under all the restrictions and inhibitions imposed in this Constitution on the Governor."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of this state at a General Election to be held throughout this state on the month of November, A. D. 1948, at which election all ballots shall have printed thereon:

For the Constitutional Amendment providing for gubernatorial succession in the event the Governor elect dies, or becomes disabled

before qualifying and for such succession in other contingencies.

Against the Constitutional Amendment providing for gubernatorial succession in the event the Governor elect dies or becomes disabled before qualifying for such succession and other contingencies.

Each voter at such election shall mark out one of such clauses on the ballot, leaving the clause expressing his vote on the proposed amendment.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article 5 of the Constitution of the State of Texas be amended so as hereafter to read as follows:

"Section 23. The Legislature shall, at its first regular session after the publication of each United States decennial census, apportion the state into senatorial and representative districts, agreeable to the provisions of Sections 25, 26, and 26-a of this Article. In the event the Legislature shall at any such first regular session following the publication of a United States decennial census, fail to make such apportionment, same shall be done by the Legislative Redistricting Board of Texas, which is hereby created, and shall be composed of five (5) members, as follows: The Lieutenant Governor, the Speaker of the House of Representatives, the Attorney General, the comptroller of public accounts and the Commissioner of the General Land Office, a majority of whom shall constitute a quorum. Said Board shall assemble in the City of Austin within ninety (90) days after the final adjournment of such regular session. The Board shall, within sixty (60) days after assembling, apportion the state into senatorial and representative districts, or into senatorial or representative districts, as the failure of action of such Legislature may make necessary. Such apportionment shall be in writing and signed by three (3) or more of the members of the Board duly acknowledged as the act and deed of such Board, and, when so executed and filed with the Secretary of State, shall have force and effect of law. Such apportionment shall become effective at the next succeeding statewide general election. The Supreme Court of Texas shall have jurisdiction to compel such Commission to perform its duties in accordance with the provisions of this section by writ of mandamus or other extra-ordinary writs conformable to the usages of law. The Legislature shall provide necessary funds for clerical and technical aid and for other expenses incidental to the work of the Board and the Lieutenant Governor and the Speaker of the House of Representatives shall be entitled to receive per diem and travel expenses during the Board session in the same manner and amount as they would receive while attending a special session of the Legislature. This amendment shall become effective Jan. 1, 1951."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of the State of Texas at election to be held throughout the State on the second day of November, A. D. 1948, at which election all voters favoring said proposed Amendment shall write or have printed on their ballots the words:

"For the Amendment to the Constitution of the State of Texas providing that husband and wife from time to time may in writing partition between themselves in severally or into undivided interests community property existing at the time of partition so as to convert same into separate property of the respective spouses without prejudice to the rights of pre-existing creditors."

Those opposing said proposed Amendment shall write or have printed on their ballots the words: "AGAINST the Amendment to the Constitution of the State of Texas providing that husband and wife from time to time may in writing partition between themselves in severally or into undivided interests community property existing at the time of partition so as to convert same into separate property of the respective spouses without prejudice to the rights of pre-existing creditors."

Section 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and have the same published as required by the Constitution and existing laws of the State.

Section 4. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

H. J. R. No. 13

HOUSE JOINT RESOLUTION

amending Section 15 of Article XVI of the Constitution of the State of Texas, by adding thereto a provision that the husband and wife from time to time may in writing partition between themselves in severally or into undivided interests all or any part of their community property, whereupon without prejudice to the right of existing creditors the portion or interest set aside to each spouse shall be and constitute a part of the separate property of each spouse; further providing that such Constitutional Amendment if adopted shall be self-operative and self-executing; providing for the submission of this Amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 15 of Article XVI of the Constitution of the State of Texas be amended so as to read as follows:

"Section 15. All property, both real and personal, of the wife, owned or claimed by her before marriage, and that acquired after marriage, by gift, devise or descent, shall be the separate property of the wife; and laws shall be passed more clearly defining the rights of the wife, in relation as well to her separate property as that held in common with her husband; provided that husband and wife, without prejudice to pre-existing creditors, may from time to time by written instrument as if the wife were a feme sole partition between themselves in severally or into equal undivided interests all or any part of their existing community property, or exchange between themselves the community interest of one spouse in any property for the community interest of the other spouse in other community property, whereupon the portion or interest set aside to each spouse shall be and constitute a part of the separate property of such spouse."

This Amendment is self-operative, but laws may be passed prescribing requirements as to the form and manner of execution of such instruments, and providing for their recordation, and for such other reasonable requirements not inconsistent herewith as the Legislature may from time to time consider proper with relation to the subject of this Amendment. Should the Legislature pass an Act dealing with the subject of this Amendment and prescribing requirements as to the form and manner of the execution of such instruments and providing for their recordation and other reasonable requirements not inconsistent herewith and anticipatory hereto, such Act shall not be invalid by reason of its anticipatory character and shall take effect just as though this Constitutional Amendment was in effect when the Act was passed."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of the State of Texas at election to be held throughout the State on the second day of November, A. D. 1948, at which election all voters favoring said proposed Amendment shall write or have printed on their ballots the words:

"For the Amendment to the Constitution of the State of Texas providing that husband and wife from time to time may in writing partition between themselves in severally or into undivided interests community property existing at the time of partition so as to convert same into separate property of the respective spouses without prejudice to the rights of pre-existing creditors."

Those opposing said proposed Amendment shall write or have printed on their ballots the words: "AGAINST the Amendment to the Constitution of the State of Texas providing that husband and wife from time to time may in writing partition between themselves in severally or into undivided interests community property existing at the time of partition so as to convert same into separate property of the respective spouses without prejudice to the rights of pre-existing creditors."

Section 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and have the same published as required by the Constitution and existing laws of the State.

Section 4. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 5. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 6. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 7. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 8. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 9. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 10. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 11. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 12. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the State Constitution be and the same is hereby amended by adding thereto another Section following Section 59, to be designated "Section 60" to read as follows:

"Section 60. The Legislature shall have the power to pass such laws as may be necessary to enable all counties of this state to provide Workman's Compensation Insurance, including the right to provide its own insurance risk, for all county employees as in its judgment is necessary or required; and the Legislature shall provide suitable laws for the administration of such insurance in the counties of this state and for the payment of the costs, charges and premiums on such policies of insurance and the benefits to be paid thereunder."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of this state at an election to be held on the date fixed by law for the General Election in November, A. D. 1948, at which all ballots shall have printed thereon "FOR the Constitutional Amendment providing workman's compensation insurance for county employees" and "AGAINST the constitutional amendment providing workman's compensation insurance for county employees." Each voter shall scratch out one of said clauses on the ballot, leaving the one expressing his vote on the proposed amendment. In counties or other subdivisions using voting machines, the above provision for voting for and against this constitutional amendment shall be placed on said machine in such a manner that each voter may vote on such machine for or against the constitutional amendment.

Section 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the constitution and laws of this state.

Section 4. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 5. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 6. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 7. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 8. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 9. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 10. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 11. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 12. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 13. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 14. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 15. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 16. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 17. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 61, Article XVI of the constitution of the State of Texas be amended so as to read as follows:

"Section 61. All district officers in the state of Texas and all county officers in counties having a population of twenty thousand (20,000) or more, according to the then last preceding Federal census, shall be compensated on a salary basis. In all counties in the state the Commissioners court shall be authorized to determine whether precinct officers shall be compensated on a fee basis or on a salary basis, with the exception that it shall be mandatory upon Commissioners courts to compensate all sheriffs, deputy sheriffs, county law enforcement officers including sheriffs who also perform the duties of assessor and collector of taxes and their deputies, on a salary basis beginning January 1, 1949."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of this state at an election to be held on the date fixed by law for the general election in November, A. D. 1948, at which all ballots shall have printed thereon "FOR the constitutional amendment of section 1-a of Article VIII of the constitution of the state of Texas to provide that no ad valorem tax shall be levied for state general revenue purposes after January 1, 1951, and authorizing the several counties to levy additional ad valorem taxes, providing for a Three Thousand (\$3,000) residential homestead exemption, and providing for tax levies in counties having tax donations." and "Against the constitutional amendment of Section 1-a of article VIII of the constitution of the state of Texas to provide that no ad valorem tax shall be levied for state general revenue purposes after January 1, 1951."

Section 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the constitution and laws of this state.

Section 4. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 5. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 6. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 7. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Section 8. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary,

is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated to pay the expenses of such publication and election.

Selective Service News

(Editor's note: Below is one installment of a series of questions and answers on the second peacetime military training program. It has been prepared under the direction of the Texas Director of Selective Service, Maj. Gen. K. L. Berry.)

QUESTION ? ? ? ? ?

What is the purpose of the new Selective Service Law?

Ans. To train a body of men capable of defending the nation and

to select the men for this duty by the fairest method possible -- registration of EVERY man 18 through 25 years old, regardless of wealth, influence or social position. From this registration will be chosen those men 19 through 25 years of age who are deemed best fitted to receive 21 months of training.

QUESTION ? ? ? ? ?

Is this the first peacetime draft?

Answer. No. The first was in 1940

QUESTION ? ? ? ? ?

How many men will be affected by the Selective Service law?

Answer. Military authorities es-

timate 9,600,000 men will be registered in the United States and its possessions. In Texas between 550,000 and 575,000 men are expected to register.

QUESTION ? ? ? ? ?

Who administers the program? Answer. President Truman has named Maj. Gen. Lewis B. Hershey as national director of the Selective Service System. In each state the governor acts as co-ordinating head and names a state director. Gov. Beauford H. Jester has named Maj. Gen. K. L. Berry, state adjutant general, to hold this position in Texas.

QUESTION ? ? ? ? ?

How long will the law be in effect? Until June 24, 1950, unless sooner terminated by the two houses of Congress.

QUESTION ? ? ? ? ?

What is the purpose of registration under the Selective Service Act. Answer. To get a complete census of men 18 through 25 yrs. of age. From among those 19 through 25 will be selected those most suitable for military training.

QUESTION ? ? ? ? ?

Where will registrars get instructions and material? Answer. The State Headquarters for Selective Service at Austin will forward to each local board sufficient supplies and instructions. The local

board will instruct registrars for all the registration points they establish.

QUESTION ? ? ? ? ?

Where will registration points be located and at what hours will they be open? Answer. At places designated by local boards. Watch your Spearman Reporter for the announcement of registration places. Hours will be from 8 a m to 5 p m.

QUESTION ? ? ? ? ?

Who will be in charge of registration? Answer. The governor of the state will be the directing head, the key men will be members of your local board.

QUESTION ? ? ? ? ?

How will registrars for registration points be selected? Answer. Local board members will select them. Enough registrars will be appointed to complete registration in the required time.

QUESTION ? ? ? ? ?

Suppose a registrant is away from home on his registration day. What procedure does he follow? Answer. Some registrants, such as college men, traveling men, and business men will be away from home on the day they should register. Their registration cards will be forwarded to the proper places.

QUESTION ? ? ? ? ?

Suppose a registrant is sick on his registration day. What should he

do. Answer. He should register with his local board just as soon as he is able to do so.

QUESTION ? ? ? ? ?

Suppose a man is married or suffers from some physical ailment which would make it impossible for him to perform military service. Does he have to register? Answer. Yes. All males between the ages of 18 and 26, regardless of physical handicaps or conditions of dependency, must register on their appointed days.

TONI HOME PERMANENT

Nation-wide survey of retail stores shows women prefer TONI over any other home permanent by an overwhelming majority

- Toni gives the most natural-looking wave you've ever had.
- Contains famous Toni Creme Waving Lotion—developed especially for waving your hair at home.

- Toni has been awarded the Parents' Magazine Tested and Commended Seal
- No special training required to give yourself a Toni. It's easy as rolling your hair up on curlers... but the wave stays in for months

This & That

AROUND GRUVER

Well, here we are back home again. It was cool in the mountains, in fact some thought it was cold. But this writer enjoyed it thoroughly. We drove into Colorado Springs just in time for the start of their Rodeo Parade. Well we liked parades, so we stayed to watch. We have seen many "alleged" rodeo parades, but this was really a parade. It had everything, horses (over a thousand of them), floats, antiques, bands, among them the famous Hardin - Simmonds Cowboy band. It was colorful and exciting. Later in the week we saw the Rodeo itself. We have not seen many Rodeos, but we decided we had never seen a rodeo at all, after what we saw at the Colorado Springs Rodeo. To add to the excitement, it was pouring rain all the time. We had thought that it would be called off, for it had rained for hours before showtime, but they said rain or shine, so it was raining on. If you did not see it this year, plan to see it next year. That is if you are a rodeo fan.

The lady who wrote our column while we were away was too modest to sign her name, so we'll tell you who she is. Mrs. O. V. Walker, the wife of our Deputy Sheriff. Alice, as everyone calls her, is a very lovely lady. She is always doing things for others. We appreciate her kindness in taking over for us, and we still more deeply appreciate the nice things she said about our family. We do not deserve it, but it is nice to know that people feel that way. Alice has three sons, O. V. Jr., Ross and Roy. Each of them has presented her with grandchildren and she makes a lovely grandmother.

On our return home we learned that Mrs. Maupin Sr. was in the hospital in Borger. For several days her condition was very critical, so much so that she had to be supplied with oxygen. We understand at this writing that she is showing some slight improvement. We trust that she will continue to improve. Mr. and Mrs. Maupin are old-timers and have many friends who are concerned.

Mr. and Mrs. Gay Fletcher left Sunday morning for Enid, Okla., to visit Mrs. Fletcher's sister, who is very seriously ill. Mrs. Fletcher's family are all well known, having lived at Hitchland many years. Her parents were the late Mr. and Mrs. Harbaugh.

Horace (Son) Hayes Jr. is in an Amarillo Hospital suffering from a kidney ailment. For several days he seemed to be doing well and his parents returned home. But late in the week he suffered a set back and his parents were worried. At the moment we are sorry to report he is not doing too well. We hope to have better news in the next few days.

Miss Genevieve Hughes suffered painful burns to her left hand, early Monday morning. She had gone down to the Beauty Shop to light the water heater. The heater exploded, burning her hand painfully and scorching her face and hair.

We all sympathize deeply with Mrs. Otto Brooks in the passing away of her father, Mr. and Mrs. Brooks have been residents of Texhoma for many years. They were charter members of the Baptist Church. Mr. Hodges was the father also of Mr. Fred Hodges who recently married Mrs. Pauline Winger. Some thirty or forty residents of Gruver attended the funeral services which were held in the Texhoma Baptist Church last Sunday afternoon.

Our sympathy is also extended to Mr. and Mrs. Tilly Poston. They returned Saturday from Oklahoma, where they had attended funeral services for Tilly's father. Tilly has many friends in this area all of whom sympathize with him.

On our return from Colorado last Friday we wondered why things were so quiet around town. Then we learned the secret. Dr. and Mrs. J. C. Jones and Miss Dorothy were out of town. It seems they left right after we did. That really left the town in a bad fix with both of us gone. Doc, however is still gone. Having included much of the Northwest in their itinerary, including Canada. No one seems to know when they will return, but we hope it will not be long.

While away we met a number of Gruver folk. We first saw the H. L. Boyd's from Kimball way. They were then in Colorado Springs and like us enjoying the parade. But they were heading North. Then we ran into F. A. Shapley Jr. and his family. They were on their way home. They reported having had a fine time, and caught lots of fish, some of which they were bringing home. They seemed to think they needed it to bribe "Pa" Shapley for some reason or other.

At the Springs we met Chester

and Clara Lieb with Peggy and their guest, a young lady from Borger. Immediately on their arrival back home they took out at once for Wichita Falls. When they return from there they will be bringing a new little son with them. This a wonderful break for the little one.

We also met the esteemed County Commissioner from this precinct, Buster Schott. Mrs. Schott and Wayne were along to keep him in order. When we met up with them they were just leaving out for places North and East. They will probably be home this week. Buddy and Mrs. Etling were also there at the same time, but we never met up with them. We just knew they were there. We note they have returned home.

Mrs. Winnie Vernon, wife of Commissioner Ed took off for California several days ago. With her went her son Roger and daughter Winnell and her sister-in-law Mrs. Boyd and family of Spearman. They drove through the country visiting Carlsbad, Old Mexico and then on to Santa Anna where her brother lives, and Culver City where her sister lives. We hope they have a good time, and make it safely home.

Just a word before closing the column for this week. We were interested in the Clean Up Program for Spearman, and the fact we have a County Health officer. We hope he will function as such for the whole county. Let all of us here in Gruver be as careful as possible to follow the instructions regarding sanitation. Polio is one of the things this write is afraid of. We have been receiving literature and information for some time from the Polio Foundation. It is always addressed to us as the County Vice-Chairman. How we got to be that we do not know. No one ever told us, nor gave us any information as to our duties. But we are willing to do all that we can to aid in the fight against this scourge.

Better quit for this week, or Bill will throw it all out!

Henry Dacus of Amarillo was a Sunday visitor here in Spearman.

Chicago Doctor Describes Facial Paralysis Repair

Several techniques for the surgical repair of facial paralysis are described by Paul W. Greeley, M. D., Chicago, in the "Archives of Surgery", published by the American Medical Association.

Facial paralysis may result from injury to the seventh, or facial nerve. This nerve may be damaged in several ways, including skull fracture, bullet wounds, injury from a mastoid operation, or tumors on the nerve.

According to Dr. Greeley, the best method of repair involves surgery of the injured nerve, with the intention of permitting the face to gain motion again. This may include the sewing together of the ends of the lacerated nerve trunk or the grafting of part of one nerve to another to fill in a gap if the injury has made one.

The uniting of one nerve to another, which has been used several times in the treatment of facial paralysis, is undesirable, the report says, because "the associated movements involved in trying to move the facial muscles are awkward and frequently more conspicuous than the original facial paralysis."

When nerve surgery cannot be undertaken, the article says that "the simplest and most satisfactory plastic surgical correction is obtained by supporting the paralyzed face with strips of autogenous fascia lata (a fibrous tissue surrounding the muscles of the thigh)."

"Just Right" Film Wanted To Pack "Bing" Cherries

Any manufacturer who can supply a plastic film that exactly meets the needs of the sweet cherry growers of the Northwest will find eager buyers, according to cherry packaging tests by U. S. department of agriculture scientists.

Films now on the market meet the various requirements, but no single film combines all the qualities needed.

The big deep-red Bing cherries come to Eastern markets and reach consumers from a week to two weeks after picking. When shippers load cherries they place up to half a ton of solid carbon dioxide (dry ice) in the refrigerator car. This keeps renewing the supply of gas, but enough escapes so that the car rarely has more than a 10 per cent supply.

Cherries, like other fruits, respire (breathe). They use oxygen and give off carbon dioxide. Why not pack the cherries in a gas-tight package and make use of this natural supply of the gas? Under test, cherries in a really gas-tight plastic bag used up all the oxygen available and generated too much carbon dioxide and so got to market with off flavor.

What is needed is a strong, transparent film that will allow considerable moisture to escape and some (but not much) transfer of carbon dioxide and outside air. The ideal film would retain just the right proportion of carbon dioxide and moisture for a period of a week or 10 days.

High Compression Engines

New high-compression gasoline engines for some models assembled in 1949 are being planned now by some manufacturers. Long-range goal of this development, which has been in the experimental stage for several years, is to cut the automobile owner's gasoline bill with estimates of potential savings running as high as 33 to 40 per cent. However, first models of the new engines will not reach this goal. A higher octane gasoline than is now generally available will be required by the new engines.

Laying Deep-Freeze Unit? Then Consider These Points

Families intending to purchase home deep freezers should consider carefully how to be made of them before they buy, in the opinion of G. H. Stewart, leader of Clemson agricultural engineering extension work.

Stewart believes that the deep freeze units can best be used in connection with locker-refrigeration plants where they will be used only for storage of frozen foods.

"Money can be saved if the vegetables to be stored can be processed and packed at home and then taken to the locker-refrigeration plant for sharp freezing," he says. "After they have been frozen they can be brought home and stored in the home freezer. This will prove more economical than to have the locker-refrigeration plant do the complete processing," he adds.

He advised that several points be considered before buying a deep freeze unit.

Among these he lists: (1) Money available to invest; (2) whether the unit is open or sealed; (3) insulation, depending on manufacturers, should be closed to protect from pests, and should be moisture-proofed; (4) size needed for the family according to purpose for which it will be used; (5) deluxe, standard, or stripped model; (6) does door open right way for desired kitchen equipment; (7) finish; (8) shelves, space arrangement, adjustable, pull out for ease in reaching; (9) reliable manufacturer, reputable dealer, and available local service.

Middle American Republics Enthusiastic About Sports

Construction has begun in Guatemala on a national stadium which is to be the scene of the sixth Caribbean Olympics in 1950. This highlights the fact that the citizens of 11 Middle American republics are great natural sportsmen. Combined in them are the physical endowments and stamina of the Indians and the temperament and skill of the Latins.

Although the United States is thought of as a sports paradise, the lands lying between Mexico on the north and Colombia on the south go in for a great many more varieties of sport, and generally speaking, sports have a greater significance in the lives of the Middle Americans.

Baseball is already a full-grown sport in Cuba, and is growing more and more popular in both Mexico and Panama. However, the No. 1 sports throughout Middle America is the game of "futbol" or soccer, which attracts crowds that dwarf our football and baseball assemblages. Not even the remotest village is without its soccer field, generally located in front of the church.

"Tejo" is virtually the national sport of Colombia. Roughly similar to the American game of pitching horseshoes, tejo is usually coupled with "pique" or the name of a sort of Middle American picnic.

Korea's Isle of Amazons Lives on Ocean Harvest

As shallow-sea divers for pearls, shellfish, edible seaweed, and various items of commerce, women of Oriental coasts for centuries have outdone the men.

Those of Cheju, 50 miles off Korea's southern tip, have been notably adept. An estimated 10,000 today live by harvesting ocean areas, while their men in some cases tend the children and prepare the meals, notes the National Geographic society.

From this feminine monopoly has grown the tradition of Cheju as an Amazon isle. It took positive form in the West about 1900 when a traveler brought back the tale that the island until 1850 had been populated solely by women and young children in storied Amazon style.

In the 1946 census, Cheju counted 276,148 inhabitants, virtually all on the coast of the 45-by-30-mile oval of land. There were 113 women to each 100 men on Cheju in 1946, whereas on the Korean mainland men outnumbered women.

Cheju port on the north coast is the island's capital and chief center, counting 30,000 inhabitants. They live largely in crude, thatched-roof huts of mud and stone. Ancient walls to defend against pirate attack still stand along the shore.

"Sheep wearing sea shoes" is an old Cheju saying. It refers to the fact that the women of Cheju are so adept at diving for sea products that they are like sheep wearing sea shoes. The saying is also a reference to the fact that the women of Cheju are so adept at diving for sea products that they are like sheep wearing sea shoes.

Paint Failures

Paint technologists estimate that uncontrolled moisture accounts for over 90 per cent of so-called paint failures. Such damage to paint is not due to failure of the paint to give any service which might properly be expected of it, but is due to excessive concentration of water. Conditions responsible for undue concentration of moisture may often be remedied by structural repairs and alterations. Sources of moisture include excessive humidification, leaks in roofs, down spouts and gutters, and at poorly joined window head and siding butts.

Vitamin B-12 Is Hailed As Great Anemia Weapon

New weapon of medical science, recently isolated in the research laboratory and known as vitamin B12, is showing great promise in the fight against anemia diseases.

So reports Dr. Tom Spies, professor of nutrition and metabolism and chairman of the department in the Northwestern University medical school, in the Southern Medical Journal.

Clinical research with this vitamin, conducted under Dr. Spies' direction, indicates that it is highly effective in extremely small amounts against pernicious anemia, nutritional macrocytic anemia, and tropical sprue.

Although another investigator recently revealed the vitamin's effectiveness against pernicious anemia, it is believed that Dr. Spies is the first to disclose its blood regenerative properties in cases of nutritional macrocytic anemia and tropical sprue.

He was impressed with the potency of the new vitamin and states he knows of no therapeutic agent used in treating human diseases that is so effective per unit of weight as the new compound seems to be.

The research with vitamin B12 was carried on co-operatively by the department of nutrition and metabolism of Northwestern medical school, the nutrition clinic of the Hillman hospital, Birmingham, Ala., and the General Calixto Garcia hospital of Havana, Cuba. Associated with Dr. Spies in the research were Dr. Robert E. Stone and Dr. Tomas Aramburu at the Hillman hospital, and Drs. Guillermo G. Lopez, Fernando Milanese, and Ruben L. Toca of the Havana institution.

Too Few Circuits in Home May Cause Loss of Power

Most families economize on electricity by being careful to turn off lights, but many do not realize that overloading circuits, using appliances unsuited to wiring, or investing in second-rate cords also cause waste, says Louisiana State university extensionist.

Too few circuits and too small wires cause dim or flickering lights and slow down appliances. This means less light, heat or power for the money spent on electricity, and also greater depreciation of equipment.

The way to avoid such waste is to provide adequate circuits and large enough wires when electricity is installed in building or remodeling the home. The average six-room house generally needs one to two circuits for the basement, four to six for the first floor, and two to four for the second floor. Adequate circuits should be installed to take care of present and also future equipment. It costs far less to put these in when the house is built than to install them later.

Wherever possible long circuits should be avoided to prevent loss of electric energy. With No. 14 wire, the outlets should be not more than 25 feet from a fuse box or panel board; with No. 12 wire, not more than 35 feet. If circuits must be longer in a large house, fuse boxes or circuit breaker panels should be installed on each floor, supplied by feeder wires, preferably of No. 8 size, from the service entrance box.

Housewife Query on House Dresses

American Home Economics association recently conducted a survey of 18,000 women to see what they considered to be the necessary qualities in a house dress. The women questioned said that house dresses should be moderate in price, colorfast, controlled for shrinkage or stretching, and constructed so as to prevent excessive raveling, and should have well made seams and hems, good stitching, good buttonholes, well secured and reinforced fastenings and pockets, securely attached trimmings, properly constructed collars, plaques and facings, and shoulder pads properly constructed and placed and secured firmly.

Many women still do not realize that the two fabrics react differently to moisture and heat. Rayons become weaker when wet while cottons are slightly stronger. Therefore, rayons need gentler treatment both in washing and ironing. Rayons are more easily damaged by heat than cottons so should be pressed with a cooler iron, she says.

New Type Heat Resistant Assures Better Sun Lamps

Better sun lamps and laboratory glassware can now be made from a new type of heat-resisting material.

The new glass, called vycor, can be heated to 1,800 degrees F. and rapidly cooled without breaking, and sun lamps made from vycor do not darken and lose their potency as rapidly as lamps containing other kinds of glass. Dr. Richard B. Ellis of the University of Miami told a meeting of the American Chemical society.

A novel process is employed to prepare the glass, which consists almost entirely of silica, or quartz. Fused silica has long been used because it is heat-resistant and does not impede the passage of ultraviolet light, he pointed out, but vycor may take the place of quartz glass, since it is cheaper to manufacture and easier to shape.

Vycor is made from a soft, alkaline glass, which has been molded or blown by conventional methods. The soft glass is then immersed in hot acid and the alkali is dissolved and washed out.

Special Treatment Needed Washing Summer Rayons

Summer rayons would give greater satisfaction in wear and appearance if women generally would not try to launder them like cottons.

Many women still do not realize that the two fabrics react differently to moisture and heat. Rayons become weaker when wet while cottons are slightly stronger. Therefore, rayons need gentler treatment both in washing and ironing. Rayons are more easily damaged by heat than cottons so should be pressed with a cooler iron, she says.

Rayons are not difficult to iron; they are just different. Usually they do not need to be as moist as cottons for ironing. They should be ironed on the wrong side of the fabric so that any shine left by the iron will not show up on the right side. The iron should follow the weave of the fabric, and the fabric should not be pulled or stretched or given much pressure with the iron.

Above all, the iron should not be too hot. It is a good idea to start ironing with the temperature set low and let the iron become hotter until the ideal heat for the goods is found.

Collars, pockets and trimmings usually need touching up with the iron on the right side. Use a pressing cloth over the rayon to avoid shining these places. Rayon creases and jerseys are the most difficult because they have so much "give". A point to remember also is that creases shrink more than plain-crope fabric.

Saving on Vitamin C. Less vitamin C is lost and vegetables taste and look better if they are cooked for a short time in a small amount of water and served soon after they are done.

Six Points to Remember In Overcoming Avian TB

Tuberculosis in chickens is a disease of older birds, according to Dr. D. F. Eveleth, veterinarian of the North Dakota agricultural experiment station.

For the most part it is unlikely that there will be many deaths from tuberculosis in the pullet flock. One of the most satisfactory methods of eradicating avian tuberculosis is a combination of strict sanitation and the elimination of hens over one year old.

Dr. Eveleth stresses the point that "tuberculosis organisms are spread in the droppings of infected birds and that under North Dakota conditions these germs will live in the ground for at least three years."

The important points in tuberculosis control in poultry, as outlined by Dr. Eveleth, are: (1) Market all old birds before pullets are brought off the range. (2) Thoroughly clean and disinfect the laying house before bringing in the pullets. (3) Thoroughly cull the pullet flock. (4) Feed a well balanced ration. (5) Keep the laying house dry. (6) Keep the layers confined to house and sunporch to prevent spread of disease on the premises.

The spread of tuberculosis for the most part takes place on summer range and in the laying house. The range used for the young flock should be a field seeded to a vigorously growing grass or legume and on land not used the previous year for poultry or swine. This is important because of the resistance of the tuberculosis germs. It is very important that the range used be far enough away from the farmstead so that the birds do not come in contact with swine, because the disease appears to be transmitted readily from poultry to swine.

Bird Sleuths Renew Quest For Strange Alaskan Bird

Bird detectives are getting set for another try at solving the mystery that has baffled them for the past 163 years. The bird that has been leading luckless scientists such a long chase is the Bristle-thighed Curlew, the only North American bird whose nesting place and fledgling young have never yet been found or described.

The latest expedition to sleuthing for the haunts of the elusive bird in Alaska is sponsored by the National Geographic society in conjunction with Cornell University and the Arctic Institute of North America.

This member of the curlew family is a long-range commuter. Its habitat most of the year is the South Sea Islands in latitudes as far south as southern Peru and northern Chile. Yet toward the end of each spring it wings thousands of miles northward to the remote fastnesses of rugged Alaska to nest, and raise its brood. Only when the young are full grown—usually sometime in August—does the family depart from its sub-Arctic hide-out to return to semi-tropical isles above and below the equator.

The Bristle-thighed Curlew is so called because of the lengthened shafts of some of its flank feathers which project from its sides like bristles or stiff hairs. The adult bird is between 16 and 18 inches long, with variegated brown plumage. It has a very short whistling call, and it feeds mostly on mollusks, crustaceans and other shore flats life.

Oldest English Borough. Hythe, a quiet little resort, is the oldest borough in England. It has a fine early English parish church and is the terminus of the smallest railway in the world.

SHUN HIGH PRICES

BUY GRAND-TASTING LOW PRICED FOODS

You can bring down your food costs by serving more of our grand-tasting low priced foods. We have them by the hundreds—famous brand foods that give you good eating and good nutrition at prices that go a long way toward balancing the family food budget. So shun high-priced items. Enjoy these grand, good-tasting low-priced foods regularly, and cooperate in bringing down run-away food prices.
