

A WEST TEXAS PAPER FOR WEST TEXAS PEOPLE

Dickens Co. Times

Volume 5 | SPUR. DICKENS COUNTY, TEXAS, THURSDAY, OCTOBER 31, 1929 | WHOLE NUMBER 256

Who Believe In Better Staple Cotton To Meet In Spur Saturday

All farmers who are interested in taking up a movement for better cotton market at Spur and Dickens County are asked to meet in Spur next Saturday at 2 P. M. at the old Lyric Theater which is across from the post office.

The present basis of cotton is being taxed about $20 per bale on account of short staple. Cotton buyers state that eighty percent more of all cotton received here is below 7-8 inch and therefore known as untenable cotton.

This meeting has been called by the County Agent at the request of all six gins at Spur and several of the leading farmers of the County. When interviewed by a representative of this paper the County agent had the following to say:

" I met with the six ginners and some of the leading farmers last week at which the local situation was taken up. This was discussed thoroughly from the ginners, growers and buyers standpoints. The sum of the meeting was that the ginners want a cotton that will run from 15-16 to 1 inch staple and with a hard fibre. It takes a hard fibre to clean out to a middling basis when it is snapped. Any cotton must stand snapping as that habit has come to stay. The buyer wants a cotton like the above as it is what is in the greatest demand with the spinners. Wha t the grower wants is most money per acre. It was the unanimious opinion of those present that any good strain of Mebane cotton will satisfy all three parties if it is bought strictly on its value to the spinner. And it seems that that is what is to happen from here out. There are a dozen good strains of Mebane cotton on the market under various names which are bought every year and do well in this part of the state."

The editor of this paper urges that all its readers who are believers in building our basis back to the good old days when it sold "on" the month instead of 300 points to the present. We honestly believe that the day of "hog round" buying is gone and that the time is here Lafayette to remedy the situation.

Spur Defeated By Slaton 13-30

(By Jeptha Craig)

A line smashing Slaton High football team taking advantage of the breaks defeated the Spur Bulldogs at Slaton last Friday afternoon 30 to 13, The game was played on a dry field but it was cold with low hanging clouds. The largest crowd to witness a high school game of class D except for the Northwest Texas Fair game was on hand. An immense delegation, including the band, High school Pep Squad were on hand from Spur.

The first touchdown was scored early in the first quarter after Slaton had intercepted a Spur pass They failed to go over at the time but after a penalty they carried over. Spur followed with their first touchdown shortly after on a long pass from Puckett to Hahn. Spur scored their second touchdown in the third quarter after a [illegible] and a plunge by Puckett.

Although defeated the Bulldogs fought hard throughout the game and showed some strong defensive stars in Puckett, Hahn, Gaines and Barrett. Hahn and Lewis played the best offensive game for Spur. Puckett scoring ace for the Spur team was suffering from a stiff leg and was unable to get started the few times he was called on to carry the ball. Rickles played even better than he did against Floydada with his tackling and intercepting of passes.

The Slaton Tigers may know some football other than line plunging but they failed to show it. The same team has played together for three years and this was clearly illustrated when they carried the ball. O. Cannon, Quarterback was their best man and Austin, fullback, failed to stand out as he has in the past games this year. Capt. McManamy was a power in the line.

Spur received two penalties for off sides to four for Slaton. On first downs Slaton registered 29 to Spurs 11. Slaton registered ten of these in the first half and the balance in the last. Spur registered two first downs in the first half. ,

The Spur folks were treated royally by the Slaton people. The Spur Pep Squad was admitted free of charge to the game.

Several telegrams from firms and individuals of Spur were received by the coach and team during the game. These were highly appreciated. Flowers were sent Saturday to Evans, guard of the Tigers who received a broken leg in the first play.

First Quarter

Slaton kicked to Worthen on the 20 yard line, he returned to the 30. Evans left guard for the Tigers received a broken leg on this first play and was sent immediately to the Lubbock hospital. Lewis failed to gain around left end, Rickles made three yards around right end. Slaton intercep-

Spur Laundry A Financial Asset To Spur

The Spur Laundry is proving to be a great financial institution to Spur as well as an industry in the town. Mr. W. A. Wilson, one of the owners of the laundry stated last week that there is more money brought into Spur from other towns than is paid out in the pay roll. At this time there is an income to Spur from other towns of around $350.00 per week which amounts to about $1,400.00 per month. If this amount be multiplied by twelve it will show an income to the town of close to $17,000 per year.

There is another feature that is well worth considering. The Spur Laundry is showing a nice little pay roll to the town. Usually there are from 12 to 14 people employed to take care of the business. These people live in Spur, spend their money here, and are home people. On an average $1,200.00 per month is paid the employees of the laundry. This does not include what the owners get, but what the employees get.

We need a few more institutions to bring cash into our towns as the Spur Laundry is bringing it in. Then in addition to this the laundry is furnishing a nice little income to the city of Spur. The amount paid to the city for water in the run of one year is quite a little sum. The laundry uses thousands of gallons of water per month. Then there are a number of electric motors all of which are on the city power and light plant. During the month the city gets a nice little amount from the sale of electricity to the city Laundry. All of this means an increase in business.

It is hoped that the people of Spur and community will take time to read the Spur Laundry advertisement in the paper this week and see the different classifications of work they are doing. It will be noted that there are five general classes of work the laundry is doing. This means five different ways of serving the people. Then they ask that if your work is of a different class from these, that you get in touch with them by telephone or otherwise and get special service.

The Spur Laundry has been one of the most needed institutions in our city and as a community assett it is one of the most profitable.

Baptist Workers Have Big Meeting Here Last Week

The Workers Meeting of the Dickens County Baptist Association met with the First Baptist Church here last Thursday and Friday, enjoying two days of very interesting discussion. The meeting was started Thursday evening with a song service let by M. D. Ivey, Choir Director for the First Baptist Church of Spur. Mrs. J. H. Busby and Miss Carrie Coffee of Spur and Mr. B. J. Howell of Espuela discussed the work relative to the B. Y. P. U. work in the association. Then Rev. F. G. Rogers of the First Baptist Church of Spur discussed the relations of the B. Y. P. U. to other church services.

At 8:15 Rev. J. V. Bilberry of Dickens was introduced and preached a very able sermon using the subject "Faithfulness". Rev. Bilberry has been in Dickens county a long time and his life is about as great a sermon as he or any other man can preach.

Friday morning was devoted to W. M. U. Work and Y. W. A. work. Mrs. Cap Ellison of Crosbyton took up the W. M. U. work and discussed it thoroughly, stating the outlook of the work for the future. Mrs. P. C. Nichols of Spur then took her subject, "The Joy I get from Y. W. A. work" and made a very fine talk. This was followed by Mrs. E. J. Cowan and Mrs. W. M. Hazel of Spur both of whom made very fine addresses on the importance of child training in the church.

The denominational work was discussed by Rev. Wayne Grizzle of Kalgary and Rev. J. V. Bilberry of Dickens. Both of these gentlemen set forth some very fine reasons why Baptists should stand by the State Board and the State Work. Rev. Harris of Dickens preached to the meeting at 11:20 bringing a very fine message.

Lunch was served in the church basement at 12 o'clock.

The afternoon session was taken up in discussing the major church problems. The Sunday school work was greatly emphasized during the discussions. Rev. J. C. Scott pastor of the Calvary Baptist Church at Crosbyton discussed the subject "What is a Sunday School?". A. L. Bowman, and Rev. W. B. Bennett discussed the importance of a Sunday School in growing a church, and each of them brought out some fine points.

Finances in the church was discussed by Joe Kellam of Spur, and Robert Reynolds of Dickens. Each of these gentlemen outlined the Bible plan of financing and made it impressive that it is the duty of Christian people to give of their means to take care of the church work.

Mrs. E. J. Cowan discussed the subject of evangelism in the church. She emphasized the importance of making this feature the main work in the church. A round table discussion followed and many other spoke on the subject of child training.

Business sessions of the W. M. U. and the Associational Board took up some time. The business of employing an Associational Missionary was the main subject discussed at the Board meeting. A committee was made to select plans and make recommendations at the next Workers meeting in November. This meeting will be held in Dickens, and at that time a missionary will be employed.

The following churches were represented at the Board meeting: Spur, Espuela, Duncan Flat, Calvary, Steel Hill and Soldier Mound The following were represented by Proxy: Friendship, Watson, Dickens and Dry Lake.

Mrs. Myrtle McKnight of Wichita Falls and Mrs. C. L. White of Waco visited H. T. Garner and family last week.

L. J. Williams of Afton, was in our city Tuesday doing some trading.

Ginning Report From Spur Gins

According to the reports turned in at ten thirty o'clock yesterday morning Spur had ginned 2453 bales of cotton of the 1929 crop.

Spur gins are turning out good samples considering the class of cotton that is in the community. Drouth has caused the staple to be short and brittle.

Cotton is selling on short staple basis from 12 to 16.00. Standard staple is rangeing around 18.00. The average on short staple is about 14.50. The market Wednesday opened down, but a raise came on second quotatioin which increased selling.

———oOo———

Big Carnival Tonight Given By Girl Scouts

Featuring one of the greatest Hallowe'en socials in our city will be the carnival given by the girl Scouts of Spur on the vacant lots just north of the West Texas Utilities office. This affair will have 150 people in it, all of them real actors. There will be one main show in the center of the grounds with free attracaions. Buying a ticket at the gate will entitle you to see this show. Then there are twenty side shows, all of them will have interesting intertainments.

The Girl Scouts want it strictly understood that this is to be a "dime Carnival". The admission at the gate will be a dime; the sandwiches sold will be a dime each, every side show will be a dime, all novelties will be a dime each, everything sold will be a dime and you can get the cup of coffee just by asking for it, for that will be served free.

The Scouts will sell a great variety of novelties. There will be Halloween balloons, whistles, caps and many others. People can wait for the carnival and buy their Hallowe'en caps from the Scouts if they desire.

Two Contests

There will be two voting contests this evening. One of these will be the Baby Show. A dime gives the baby ten votes, and we understand there has been a number of babies entered in this show. The voting will start at six o'clock and close at 8:30. The winning baby must be present when the contest closes in order to receive the prize.

The other contest will be for the people to vote who is the ugliest man in Spur. Well, we presume there would be no objection to people voting on some man for that honor if he lived just out of Spur but in Spur community. The voting on this contest will start at six o'clock and will conclude just after the baby show is over. This will place the closing hour on the ugly man contest about nine o'clock. Mr. Dewey L. Granbury will be in charge of this contest.

The girl Scouts are making an effort to raise money to build an addition to their Scout house in Highway addition. The scout organization in Spur has grown until the present quarters are already too small to accomodate any one division. Hence, an addition will have to be provided soon. The money made at this carnival will be placed in a fund and used for that purpose as soon as the fund is of sufficient size.

The Girl Scouts invite you to be present at the carnival tonight.

Big Program For Spur Trades Day Is Announced

Another Trades day program is planned for next Monday, which is the First Monday in November. The program this time will include cash prizes to the people instead of cows as formerly planned. This is destined to be a greater Trades day than any yet since the people have found that Spur merchants are selling merchandise cheaper than can be bought anywhere in West Texas. Again there are a number of sales now on, and others are starting this week, all of which are in on the Trades Day program and the people can have the advantage of these prices for Trades Day prizes

The standard prize this time will be $100.00 in cash. Then there will be another prize of $25 and a third for $10.00

The program will be held at the Band Stand starting at three o'clock in the afternoon. Any person who gets a prize must be present at that time and remain throughout the program. Prizes are being awarded by the Retail Merchants Association and any information desired can be secured from Miss Ella Garner who is the Secretary.

The merchants of Spur are making bigger and better bargains for this trades day. If you want to buy merchandise at right prices come to Spur next Monday and get in with the crowds.

American Legion To Observe Armistice Day

The Boyd M. Williams Post of the American Legion will conduct their regular Armistice program on Sunday evening November 10. The exercises will be held in the auditorium of the New Palace Theater beginning about 7:30 P. M. Dr. Paul W. Horn, president of Texas Technological College at Lubbock will deliver the annual address. There will be further announcements made next week relative to this service including the complete program.

Bring your guests with you, and if you have planned a Hallowe'en party, let a visit to the carnival be part of your program. They will appreciate it, and you will enjoy it.

Spur Bulldogs Crosbyton Bound Friday Afternoon; Go With Them

(By Jeptha Craig)

Crosbyton vs Spur at Crosbyton is the game scheduled for the football fans of this section this week. This will be another conference game for Spur and despite the fact that Spur was defeated last week this game will have an important bearing on the race for the championship of District 2, Class B. If Post defeats Slaton and Spur was to defeat Post Spur would still be in the running and for that reason every game yet to be played this season is an important contest.

Crosbyton is not rated very high this season but they are traditional rivals of the Bulldogs and are playing on their home field which has an important bearing on any game. Floydada which was defeated by Spur here 40 to 0 eked out a one touchdown victory over Crosbyton last Friday at Floyda. Incidentally Post defeated Paducah 81 to 0 the same day.

The Bulldogs have been going through some stiff workouts this week after the hard tussle last week and are rearing to go. From all indications a far better team will be seen in Fridays game than was put on the field at Slaton. We don't predict any top heavy score for either side but Spur should be in the lead by several touchdowns when the final whistle is blown.

There will be no game next week but on Monday November 11, Armistice Day the Bulldogs journey to Post for another hard conference game against the Antelopes one of the strongest Class B aggregations in West Texas. Also, District champions for the past two years.

Another big crowd is expected to go to Crosbyton Friday. The Pep squad of the High School was in full uniform last week and are planning to be on hand next Friday to keep the spirit of the Dogs up to the highest pitch throughout the game. For the Post game it is planned to close up the town and journey en masse to see the game. If the weather doesn't interfere there will probably be between 3,000 and 4,000 people witness this game. The people of Spur are making their plans now for the game and if you are not on the band wagon, get on, for that is not only going to be a celebration of armistice but will climax the football season for Spur and the Bulldogs.

CORRECTION

In a recent issue of the Dickens County Times there was an article in regard to some insurance stating that "no insurance company could afford to pay 100 per cent" this is a mistake, because in many instances companies pay 100 per cent plus so we would not have our readers think that they could not collect all the insurance that is due them.

Athletic Club Of Spur To Have Feature Program

The Athletic Club of the Spur High School have secured Roberts and Company to put on a feature program at the East side School Auditorium next Tuesday evening, November 5th. There will be six artists in this program who will give clean, refined and high class entertainment. In talking over his numbers Mr. Roberts stated that there was nothing suggestive, no dancing or anything of that sort, but a good program that anybody should enjoy and get something good from it

Roberts & Company are showind under the auspices of the Athletic club and will share in all the receipts. It will be a great help to the school to have the patronage of the people at this time, and it is thought they are giving something all will enjoy. It will be next Tuesday night at the East Side School.

MISSING PLANE LANDS IN ALBUQUERQUE

The Western Air Express announced at Los Angeles Tuesday after noon that its air transport No. 113 flew iinto Albuquerque, N. Mex., late in the day after having been missing more than thirty hours. The plane was not damaged and all on board were safe and well. The machine had been forced down at Trecrado, Ariz.

Five persons were aboard the plane: Dr. A. M. Ward, dentist of San Francisco; W. E. Merz of Mount Vernon, N. Y., passengers; and the ships crew consiisting of James E. Dole, Los Angeles, chief pilot; Allan C. Burrie, Burbank, Cal., and R. L. Briton, Los Angeles, steward.

There had been a great deal of uneasiness manifested which resulted iin an extensiive aerial hunt over two states by many airplanes and overland parties. The hunt was brought to a sudden halt at mid-afternon when the message landed safely was received at Los Angeles.

The plane encountered a terrific snowstorm over Ariizona Monday morning, and Doles circled until he found a safe place to land. He put the plane down at Trechada and he and his crew and passengers spent the night there to await clear weather. Trechada is about seventy five miles south east of Gallup and five miles south of the country treacherous with lava beds and extinct volcanoes.

The plane which had been missing since about 10:30 Monday morning landed at Alberquerque at 3:30 Tuesday.

Otis Foster, farmer near Lytle Wilson county this year sold $6,000 worth of peanuts and peanut hay off 125 acres sown to that crop. The nuts brought $1.06 a

HELPING TO BUILD TEXAS

Turkey growers apprehend that the recent agreement among produce dealers not to ship toms not weighing more than 14 pounds and hens weighing less than nine may seriously reduce the Texas turkey shipments this year, as a lack of good pasture, short age of the feed crop and the long drouth have impeded the growth of young turkeys.

Following announcement that the Carnation Milk Company will build a milk condensery at Sulphur Springs the Southwest Dairy Company gives out the statement that it will establish a modern milk plant there, giving the county two good sized plants. Hopkins county has 23,700 milk cows, according to a recent census, which helps to explain the desire of the large companies to establish plants in that section.

Griggs Canneries, Inc. Indiana concern has started work on the first unit of a cannery at Natalia, in the Medina district below San Antonio. Canning beans, okra, and spinach, it will have a daily capacity of 20,000 cans and will employ about 100 workers. A modern citrus fruit packing plant is being built at Brownsville. The Atkinson Canning Company at Longview is busy with the East Texas pickle crop. The Carnation Milk Co. plant at Schulenberg has begun operations with initial receipts far beyound expectations.

FALL BULBS BLOSSOM INTO SPRING FLOWERS

Now's the time to Prepare for Them

October and November are the best months for planting bulbs for late winter and early spring blooms. To secure best results, whether planted in pots or in the open, the planting must be carefully done. High class bulbs cannot produce of they are handled indifferently and planted. The folowing pointers therefore should prove helpful.

1. When planting bulbs in pots place so the tip of the bulb is just under the surface of the soil. If old pots are used, wash them thoroughly and if new ones are used, soak them thoroughly in water before puting in the soil. Place plenty of drainage material in the bottom of the pots, plates, brickbats or small rocks. A rich loamy soil with a small amount of sharp sand mixed with it is desirable. After planting put the pots in a dark, cool place for five to seven weeks, or if such place is not available, they may be buried in the ground so the top of the pot is covered a few inches. Do not crowd the bulbs in the pot. For one large hyacinth bulb a 4-inch pot is the right size. For four or five bulbs use a 6-to 8-inch one.

2. When planting in the open put the hyacinths and narcissus four to six inches deep, depending on the size of the bulbs, the larger the deeper. Tulips should be about three inches deep. After planting in the open, water thoroughly if the soil is dry, and cover with well rotted manure directly with the the soil, as, if the bulbs come in contact wiith it this may cause decay. In planting do not push the bulbs in the soil, but open up the hole with a trowel or hand and place the bulb in it. If it is pushed down in the soil directly under it, which is undesirable.

3. When planting in the open the large growing bulbs like hyacinths and narcissus should be planted five to seven inches apart and the smaller growing ones like tulips, jonquils, etc., three and a half to four inches. More distance than this can be given if desired, but as a general rule a better effect will be secured if planted this distance apart than if strung out more.

4. In prejaring soil for bulbs, spade up and pulverize thoroughly. Hand rake and if planting in abed leave the center a little higher than the edge in order to provide drainage. If planting in the borders, it is equaly important that the ground be well pulveriized.

5. Plant bulbs where the sun will reach them most of the day, as they will not do their best in a shady place. By planting on the South side or such place as provides protection from the north wind, earlier blooms will result.

6. For very early blooms, plant a few crocus. They are small and should therefore be set only about two inches apart. Group a couple of dozen or more of them in the borders or other places where desired. They will die down early in the spring and come back year after year. Where desired they may be planted directly in the lawn, but usually the best results are secured by planting them in groups about the borders and in the corners.

7. For the earliest of all blooms put in a few snowdrop bulbs, either in the borders or out in the middle of the lawn. Because of its extreme earliness it is much liked.

8. Another of the small bulb flowers that is liked and that is very pretty is the freesia. It not only lends itself well to planting in clumps in borders and in beds in the open, but is excellent for focing in pots. For the sake of variety and earliness as well as its beauty. plant a few of them.

9. In deciding what bulbs to plant do not overlook the lily. Plant seven to eight inches deep. Put a double handful of sand in the bottom of the hole where each bulb is planted, for drainage purposes. Lilies are desirable when grouped in borders. The Madonna lily is one of the most popular although there are many other good varieties such as the Regal and Tiger. A sunny place is desirable, but the Regal seems to do about as well in the shade as in the sun.

10. Bulb planting would not be complete without some peonies. October is the best time to plant them. While not one of the easiest flowering plants to grow, it is one of the prettiest and most desirable. It is especially important to avoid planting them too deep, as this is often the cause of failure to bloom. Cover in such a way that the crown will be only about two inches deep. Do not crowd them in the hole, but make it plenty large for the bulb to go in in its natural shape. Where one has peonies that have been planted for two years or more and they haven't bloomed, too deep planting is likely the cause. In this case, dig them up and reset. Do not disturb peonies how ever if they are blooming.

11. The iris is an excellent hardy flower that will come back year after year and probably for the time and effort will give more satisfaction than any other of the flowers of this class. It will do well in almost anykind of soil, but must be where it can get sunshine for best results. Plant this fall in groups along the borders, as it is here that it shows up the best.

12. By investing a few dollars and a little work in buying and planting the bulbs above mentioned, the home grounds and flower garden can be made a riot of bloom and things of beauty next spring and summer.—L. A. Nevins in the Progressive Farmer.

R. H. HAMILTON GOES TO TRIAL SECOND TIME

H. Hamilton of Amar- on trial Monday at Weatherford, Texas charged with the murder of his son-in-law, Tom Wal ton, Jr. which occured last May. The case was transferred from Amarillo to Weatherford by request of the defense. Because of local agitation Hamilton was given a change of venue.

Hamilton is represented by Judge R. B. Hood, Atty. Sam Shadle and Atty. F. O. McKinsey, all of Weatherford. The state is represented by District Attorney Edward Thomerson of Amarillo, and is assisted by County Atty. V. P. Craven and Atty. E. H. Grindstaff both of Weatherford. Attorney Grindstaff is a special counsel for the State secured at the request of District Attorney Thomerson.

During the session of the District Court Monday a number of the 150 veniremen summoned were examined and six qualified to serve on the jury. 61 of the venremen were disposed of, 40 being examined and 21 excused for cause by court.

Hamilton killed Walton at Amarillo May 4, after the slain boy had married Hamiltons daughter while they were students at the University of Texas. Young Wal ton, it is stated went to Hamiltons office to break the news of the marriage which had been kept a secret up to that time. The marriage was said to have been unfavorable with the girls father. Hamilton claimed self defense in the preliminary hearings and it is thought that will be the basis of his defense this time.

The jury was completed Tuesday and the taking of testimony is now under way. No doubt this will be a long technical procedure, and will require many days to complete all the evidence. The youngest juror chosen was 39 years of age. All of them have families and most of them are 50 years of age or more.

———oOo———

Austin C. Rose of McAdoo, and Commissioner for precinct No. 2 was attending to business matters in our city Saturday.

SWEETWATER GIRL WINS LOVING CUP

Miss Elizabeth Jobe, 16, of Sweetwater, was awarded the loving cup by the West Texs Chamber of Commerce in convention at El Paso for making the best talk on the subject "My Home Town." Miss Jobe is a neice of Judge S. B. Roddy of Spur, and a cousin to Fred C. Haile, of the Spur Mutual Life Insurance Co.

———oOo———

Mrs. T. A. Rogers has purchased Lorenes Coffee Shop and is now engaged in running that business.

———oOo———

PANTAGES CONVICTED

The jury in the case of Alexander Pantages Sunday night turned in a verdict of guilty against the multi-millionaire theater man. Pantages was convicted on a statutory offence against Eunice Pringle, 17 year old dancing star. Miss Pringle had gone to see Mr. Pantages about staging a dancing act with his theaters, when she claimed he attacked her. The jury upheld the charge and Pantages is subject to be sentenced any length of time from one to fifty years in penal servitude.

Monday morning he stated he got a raw deal and would ask for a new trial. In the event that is denied he says his attorneys will appeal the case to higher court.

———oOo———

Pike Nichols who is attending school in Abilene came up Saturday to visit his parents Dr. and Mrs. P. C. Nichols.

ED JACKSON PASSES AWAY

Ed Jackson, 70, died at his home 2 1-2 miles southwest of Dickens last Friday. Several weeks ago Mr. Jackson suffered a paralytic stroke which confined him to his bed. His condition gradually became worse until the crisis came last week.

Mr. Jackson was born in the state of Georgia November 7, 1859 and would have been 70 years of age this November 7.. He was a brother to Homer Jackson of Roaring Springs and had been a citizen of West Texas for some time.

Funeral services were held in Dickens Saturday after which interment was made in the Dickens cemetary.

——oOo——

L. N. Riter and Bill Putman returned Sunday from El Paso where they have been attending the West Texas Chamber of Commerce Convention. Lewis Riter of El Paso, accompanied them home.

C. M. Jones of Afton was in our City Monday looking after business affairs.

L. B. McMeans of Twin Wells was transacting business in our city Monday.

See Our New Iris Window Shades

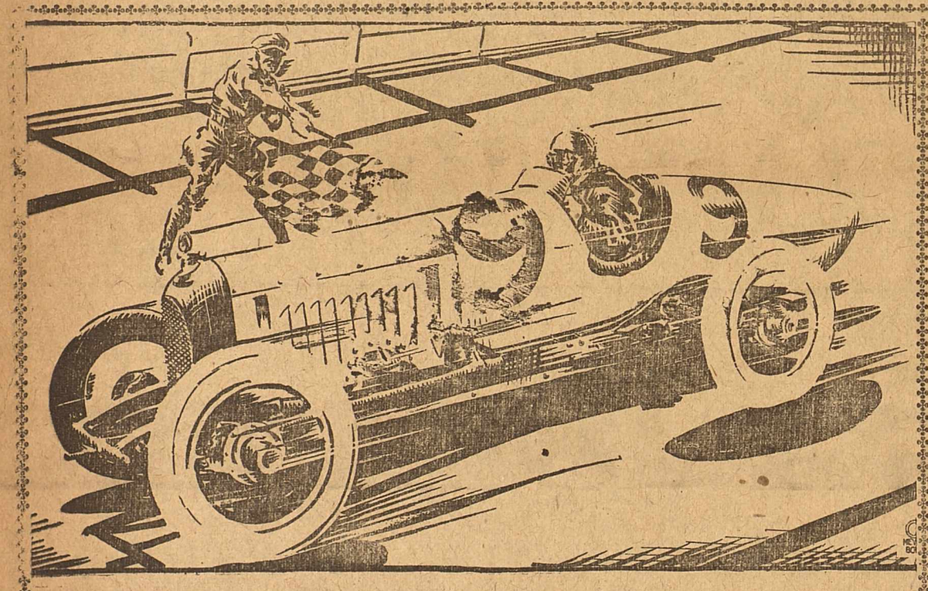

Then you can complete the decorative color scheme of each separate room in your home—"Sharon" color for the room featured by rose tones—"Lilac", or the deeper "Persian" color, where the treatment is in lavender—"Tangier", for the gold or orange arrangement—these are but a few of the possibilities in *Iris* shades.

A distinct color for each setting—colors which show only on the interior. On the outside, a uniform neutral tone is used all around.

There's a marvelous, beautiful blending of color when Iris shades are hung at the windows.

You'll like these smart, new window shades. They're really exquisite! See them on display this week.

W. T. C. OF C. CONVENTION CLOSED SATURDAY NIGHT AFTER BIG PROGRAM

The West Texas Chamber of Commerce Convention, which had postponed from the early summer until last Thursday, closed Saturday afternoon after setting up a very constructive program.

The action of the convention has been discussed pro and con over the state and has been considered by some as rather sectional in its nature. However, that may be, it has been protective to West Texas in a measure and constructive in its entirety. President "Andy" Bourland seemed to have on a great fight in behalf of the rights of the people in general, and he and his board of directors were determined to see that West Texas as a whole should be benefitted and not any particular class.

In their report the Board of Directors made the following recommendations:

1. Approval of the Small Land Act, validating titles to riverbeds crossed by survey lines, the State claiming titles to dry creeks of the Panhandle on the theory that they are navigable rivers.

2. Asking the State Legislature to grant venue in suits for recovery of land in counties where the tracts are located, instead of trying them in Austin.

3. Asking the Governor to submit to the next Legislature and pass an appropriation of $150,000 to reimburse West Texas Farmers who suffered losses due to the pink boll worm zone declarations.

4. Declaring that State supported school in West Texas require more adequate appropriations to enable them to grow and asking that such appropriations be made.

5. Approving of the report of the Parrish investigation and asking the legislature to prevent award of contracts for the collection of delinquent taxes.

6.Indorsing the water priority bill as drafted by Senator W. C. Woodward which make hydro-electric power the last of required use of streams.

7. Approving the proposed amendment to the Constitution to permit issuance of state bonds to construct and build highways with construtc state highways.

8. Ask that congress use care modyfing the immigration laws so that the development of the South west may not be retarded by restriction of immigration, this referring to Mexican immigration.

9. Demanding a more equitable tax system. West Texas for many years having shown that it pays more into the State Treasury than it gets back, while some other counties gets from the state more than they pay in.

10. Warning against the dangerof levying a double tax on industries needed for the development of West Texas. This according to several delegates, could apply to the proposed income tax defeated in the last Legislature.

The convention went on record further as saying, "If it becomes necessary for the protection of life and property, liberty of business interests of West Texas, the West Texas Chamber of Commerc stands solidly to fight the world."

At the session Saturday, W. B. Hamilton, a very progressive business man of Wichita Falls, was elected president for the ensueing year. Abilene has been selected as the next meeting place for the convention, the time to be set by the Board of directors. Spur was honored with a member on the Board in the person of Clifford B. Jones one of the most progressive men in the State. The other members of the Board of Directors are:

R. W. Haynie, Abilene; A. P. Duggan, Littlefield; R. Q. Lee, Cisco; D .E. Aynes, Crosbyton; P. B. Ralls, Ralls; R. L. Russel, Baird; J. Cladue Well, Memphis; Gene Howe, Amarillo; W. J. 'M' SYSTEM GROCERY

STOP AND THINK

Why you do your own washing with five different family washes at your door?—ALL WASHED IN SOFT WATER.

1st. Is our Family Finish, which includes every thing washed and ironed, the flat work at flat work price and the wearing clothes are washed and ironed by the dozen—which runs from $1.20 to $1.50 a dozen according to kind and size of the pieces.

2nd. Is our rough dry which consists of all flat work being washed and ironed and the wearing clothes washed and starched ready for ironing—this service is 9c per pound.

3rd. Is our dry wash—this service includes all flat work washed and ironed, wearing clothes washed and dried—but not starched—this service is 8c per pound.

4th. Is our Thrift Wash or T. T. wash—this includes also all flat work washed and ironed and the wearing clothes washed only and returned damp, just like they came out of the extractor. This service is 7c per pound.

5th. Is our wet wash—this service just consists of washing only. Everything is washed and returned damp just like they came out of the extractor—This service is 5c per pound. No bundle for less than 75c

Next comes our Wednesday and Thursday Special Quilts and Blankets. 4 of either for $1.00 or you can mix them if you care to. In other words quilts and blankets are 25c each on Wednesdays and Thursdays but no bundle for less than $1.00. The balance of the week the prices on blankets and quilts are the same.

Now if you can't find the service you think you would like—or the price that would suit you, call us and let us explain.

All work and service guaranteed or no charge.

NOTICE OF SALE OF REAL ESTATE UNDER EXECUTION

THE STATE OF TEXAS:
COUNTY OF DICKENS:
In the Justice Court of Precinct No. 3, Dickens County, Texas.
The City National Bank of Spur
VS
C. A. Shell

Whereas, by virtue of an execution issued out of the Justice Court of Precinct No. 3, Dickens County, Texas on a judgement rendered in said court on the 7th day of October, A. D. 1929 in favor of the said City National Bank of Spur and against C. A. Shell, No. 991 on the docket of said court, I did, on the 21st day of October A. D. 1929 at 3 o'clock P. M. levy upon the following described tract and parcel of land situated in the county of Dickens, State of Texas, and belonging to the said C. A. Shell, towit: Lot. No. 13 in Block No. 38 in the town of Spur, Dickens County, Texas; and on the 3rd day of December A. D. 1929, being the first Tuesday of said month, between the hours of 10 o'clock A. M. and 4 o'clock P. M. on said day, at the courthouse door of said county, I will offer for sale and sell at public auction, for cash, all the right title and interest on the said C. A. Shell in and to said property.

Dated this the 21st day of October, A. D. 1929.

G. L. Barber,
Sheriff of Dickens County, Texas
By R. E. Lee, Deputy.

WINTER CARE OF AUTOMOBILES

Detroit, Oct. 30—To many automobile owners, "cold weather" and "hard starting" are synonymous.

It is true that an engine does not start as easily in the winter as in Summer, but a little care on the part of the owner will go a long ways toward minimizing the difficulty, Chevrolet motor Company engineers point out.

Since the inception of the Chevrolet motor car more than eighteen years ago company engineers have been applying them selves to the problem of easier starting.

Making use of the "cold room" facilities of the General motors Research laboratories and working hundreds of days in zero weather at the General Motors proving grounds, Chevrolet technical men have been attacking the cold motor problem for many year

In considering the case of the car that is difficult to start in cold weather, Chevrolet engineers call attention first to the rather obvious fact that an engine in good condition will perform all its functions, including starting, more satisfactorily than one that is out of adjustment.

The principal parts which have a direct bearing on the starting of an engine are: Battery, starting motor, carburetor, spark plugs ignition system and valves.

As the efficiency of the battery is materially reduced in cold weather, it should be given great consideration. If the electrical system is weak, complete combustion cannot be obtained, therefore, before the start of winter, it is good preventive insurance to have some reputable electrical service station check over the battery, spark plugs and entire ignition system.

The starting motor very seldom causes trouble.

The carburetor must be properly adjusted for the winter and choke and throttle controls properly connected.

The spark plugs are equipped with two electrodes set in such a manner that the electric current must jump across a small gap from one to the other. In making this jump, a spark occurs. It is this spark that ignites the mixture of gasoline and air in the combustion chamber of the cylinder. The size of the gap between the electrodes affects the type of spark produced. It is, therefore important that this gap should be inspected for proper adjustment.

Obviously the spark plugs should be cleaned; and the terminals of the spark plug wires firmly attached. If the plugs have been in use for 10,000 miles they should be replaced.

The ignition system, including all wiring [illegible] terminals should be checked [illegible] beginning of winter, pa[illegible]ention being paid to t[illegible]timing and to condit[illegible]points.

If the[illegible] seat properly, a [illegible]ression occurs re[illegible]plete combusion which hinders starting and also tends to foul the spark plugs.

Attention to these suggestions will eliminate your starting troubles this winter and cut down the wear and tear on your nerves as well according to the Chevrolet engineering division.

MOVES TO SILVERTON

W. W. Flournoy, who has been a citizen of Spur for a number of years, left the first of the week for Silverton where he will make his future home. He sold his residence in Spur the last of the week and stated that while he is leaving Spur he is not saying good bye to any one yet. He has purchased an interest in a theatre in Silverton and will get back into that line of business again.

For a number of years Mr. Flournoy ran a theatre in Spur and during that time he gave the people the advantage of some of as good pictures as found in any circuit. He tried to get the best all the time. On leaving he said "Tell all my friends to come and see me when in Silverton and I'll treat them to a good show."

WINTER CARE OF AUTOMOBILES

Detroit, Oct. 30—To many automobile owners, "cold weather" and "hard starting" are synonymous.

It is true that an engine does not start as easily in the winter as in Summer, but a little care on the part of the owner will go a long ways toward minimizing the difficulty, Chevrolet motor Company engineers point out.

Since the inception of the Chevrolet motor car more than eighteen years ago company engineers have been applying them selves to the problem of easier starting.

Making use of the "cold room" facilities of the General motors Research laboratories and working hundreds of days in zero weather at the General Motors proving grounds, Chevrolet technical men have been attacking the cold motor problem for many year

In considering the case of the car that is difficult to start in cold weather, Chevrolet engineers call attention first to the rather obvious fact that an engine in good condition will perform all its functions, including starting, more satisfactorily than one that is out of adjustment.

The principal parts which have a direct bearing on the starting of an engine are: Battery, starting motor, carburetor, spark plugs ignition system and valves.

As the efficiency of the battery is materially reduced in cold weather, it should be given great consideration. If the electrical system is weak, complete combustion cannot be obtained, therefore, before the start of winter, it is good preventive insurance to have some reputable electrical service station check over the battery, spark plugs and entire ignition system.

The starting motor very seldom causes trouble.

The carburetor must be properly adjusted for the winter and choke and throttle controls properly connected.

The spark plugs are equipped with two electrodes set in such a manner that the electric current must jump across a small gap from one to the other. In making this jump, a spark occurs. It is this spark that ignites the mixture of gasoline and air in the com bustion chamber of the cylinder. The size of the gap between the electrodes affects the type of spark produced. It is, therefore important that this gap should be inspected for proper adjustment.

Obviously the spark plugs should be cleaned; and the terminals of the spark plug wires firmly attached. If the plugs have been in use for 10,000 miles they should be replaced.

The ignition system, including all wiring and terminals should be checked at the beginning of winter, particular attention being paid to the timing and to condition of points.

If the ... seat properly, a ... ression occurs re... plete combusion which hinders starting and also tends to foul the spark plugs.

Attention to these suggestions will eliminate your starting troubles this winter and cut down the wear and tear on your nerves as well according to the Chevrolet engineering division.

MOVES TO SILVERTON

W. W. Flournoy, who has been a citizen of Spur for a number of years, left the first of the week for Silverton where he will make his future home. He sold his residence in Spur the last of the week and stated that while he is leaving Spur he is not saying good bye to any one yet. He has purchased an interest in a theatre in Silverton and will get back into that line of business again.

For a number of years Mr. Flournoy ran a theatre in Spur and during that time he gave the people the advantage of some of as good pictures as found in any circuit. He tried to get the best all the time. On leaving he said "Tell all my friends to come and see me when in Silverton and I'll treat them to a good show."

PEACE OF MIND

He who has health has that peace of mind which is contentment. He who lacks health lacks the greatest blessing of life, both physical and mental And in most cases the lack can be supplied; the health can be restored.

You may suffer from ill health. You may have tried many ways to restore health and have failed But have you tried a scientifical correction of the cause—the removal of spinal pressure from the nerves? Have you tried CHIROPRACTIC MASSAGE?

By my CHIROPRACTIC MASSAGE health method I correct dis-eases of the eyes, ears, nose, throat, heart, stomach, liver, bowels and lower organs.
