Mrs. Tom Crabtree brought in a cotton plant that had 11 squares and two blooms. She says there is a lot of good cotton and feed in the Quail area. We still have a chance.

* * *

Throckmorton and Haskell counties got between 5 and 7 inches of rain and it came as near as Vernon to us Tuesday.

* * *

Are you worried about the dry weather, business overhead, etc.? I have a recipe that will enable you to escape it all. I went out the other night to turn off the water and made a misstep among the cobble stones, thereby tearing a ligament in my right foot. My wife is down helping with the business and all I have to do is to sit up here with my foot on a table reading magazines and books and listen to the pleasant sound of the rain dripping from the eaves of the house and through the leaves of the pecan trees. Nothing to worry about at all. And the nice part of it is that the doctor says I should stay off of the foot for at least six weeks.

* * *

But I do need to borrow a size 10 or 11 houseshoe for the right foot. I wear a size 9, but it won't go on over the bandage. Need a houseshoe so that I can putter around the house and in the yard when my wife is not looking. Of course, when she is here my foot is very painful and I groan and grunt loudly going no farther than the bath.

* * *

Tried to buy an oversized houseshoe for the right foot from Lowell Wells; but he says that they sell them in pairs strictly—claims that there are not enough one-legged men in the area to make the practice profitable. Sounds like very poor business accommodation to me. On our part we would gladly sell him one, two or three advertisements a week if he thought he needed them.

* * *

Did you read the story in The Leader last week about Reverend Russell D. Allen, Methodist pastor who serves Aberdeen, Fresno, Salt Fork and Loco? It interested me as much as any story the paper has published in several weeks. He is also the laboratory technician at the Jones-Watkins Clinic. By training he is a research scientist. In case some of my friends like Ed Crawford and Chub White do not know what a research tist is — I will tell them. A research scientist is a scientific scientist. He is the real McCoy. He discovers the facts that enable other so-called scientists, who are really nothing more than production men, to make such things as radar, television, atom bombs, etc. He is discoverer. Of course, about 99 per cent of what he discovers is "what ain't" and only one percent is "what is." But that is O.K. Sometimes it is much better to know what ain't than it is to know what is.

* * *

All of the above is persiflage. What intrigues me about the young and personable Rev. Allen is this: Why did a young man with such a start in science leave it to take up the ministry? I remember the days of my boyhood when the preachers tore the rafters about evolution and used that old corny one about which came first, the egg or the chicken, and some preachers went so far as to call scientists evil men. Evidently Rev. Allen saw no conflict between the material facts of the Universe and the teachings of the Bible as related to the human soul.

* * *

Goodbye, folks. I have enjoyed living among you these 53 years and working as your editor for the last 28. Logan Cummings has been elected superintendent of schools at Ralls, Texas, and he has promised me a job as teacher of "Elocution." I explained to Logan I never studied speech, that I had a first class teacher's certificate; but that I did not know whether or not the Gilmer-Akin act recognized Elocution as a subject. This grand old political buddy of mine said that he would recognize it as a subject. I have until September to fill out the application forms; but right now I am busy polishing up on elocution — you know registering such emotions as fear, horror, joy, love and many others. It is really very simple. You do it by wrinkling your face and moving your hands and feet. The only difference between teaching elocution and swimming is that in teaching elocution, you do not have to teach the young hopefuls how to blow their breath out under the water.

* * *

The paragraph above may start another rumor. Last week an old friend of mine stopped me on the south side of the square and asked: "Say, did you move Cecil Shanks off your mother's farm?" I said: "Nope, but who on earth gave you such an idea," "Oh, you ought to know him," he said, "he is that tall fellow who hangs out in front of Cochran's, City Grocery and Super Market." "That is very good identification," I said, "you go back and tell him that the renting of the place is not in my hands at all but entirely in the hands of my sister and secondly that I consider Cecil Shanks among the best of the young farmers in the county."

THE VOICE OF FREEDOM

When the Declaration of Independence was signed by representatives of the 13 colonies in 1776 . . the news was months in reaching the farthest outposts of freedom in the new world.

Today, telephone service spans our nation and the entire globe, bringing the cities and towns of the 48 states within seconds of each other. And today, there are more telephones per person in America than in any other nation in the world.

This communication . . the free interchange of ideas, thoughts and opinions . . is at the basis of a free nation. It is the heart of America's freedom of speech. It is the motivating power behind America's system of free enterprise that has helped America grow from these fledgling 13 Colonies in 1776 to the greatest and most powerful nation in the world today.

When you pick up your phone to speak to someone across the street . . . or across the nation . . . remember, freedom is speaking, too!

QUAIL DROP DOUBLE HEADER BUT EP SALT FORK LEAGUE LEAD

l was rudely shaken Sun-, June 21, as they dropped both ends of a double-header with the Shamrock Green Sox at Shamrock. Shamrock took the first game by a five-run margin and slammed back to take the second canto by a tight 8-7.

However, this double loss to the Green Sox did not displace the Quails from the tip-top spot but it made their holding on first place a very shaky one.

Jerry Morris and Gaylon Tow took the mound duties in the first game and due to the lack of fielding the ball and numerous miscues the ball game went against the Quails.

Garland Fielding continued to hold the unofficial home run honors. In the first game he counted his sixth of the year with one mate aboard.

In the second game Raymond Neeley took the loss with a tight 8-7 count. In the bottom of the fifth inning Shamrock went on a rampage and scored 7 runs, Quail bounced back and lifted themselves into a tie by doing the same thing, a seven-run outburst. Jack Morgan clouted a four-bagger with two Quails on.

The straw that broke the game wide open fell in the bottom of the seventh as the "Hose" cashed in for a one-run rally. The final score was 8-7 for the "Green Hose."

Red Cross Death Messages to Service Men Speeded Up

Effective June 1, the American Red Cross has been authorized by the Departments of the Army and Air Force, to relay through their rapid communications, death messages involving immediate families of overseas servicemen of these two branches, Miss Katherine Boverie, Home Service Chairman, Collingsworth Chapter, announced today.

Formerly, the Red Cross could send death messages to servicemen via these rapid facilities only if leave for the servicemen, which the family had requested, was denied

Provision has also been made that all of these death notifications contain complete information as to the time and cause of death, welfare of the remaining family, whether leave is being requested, and any other relevant facts. Whenever possible, the message is given in person to the serviceman by the Red Cross field director at his base, to help him meet the shock of distressing news.

The OASIS on your route

The traveler of ancient times sought rest and refreshment at an oasis on his route.

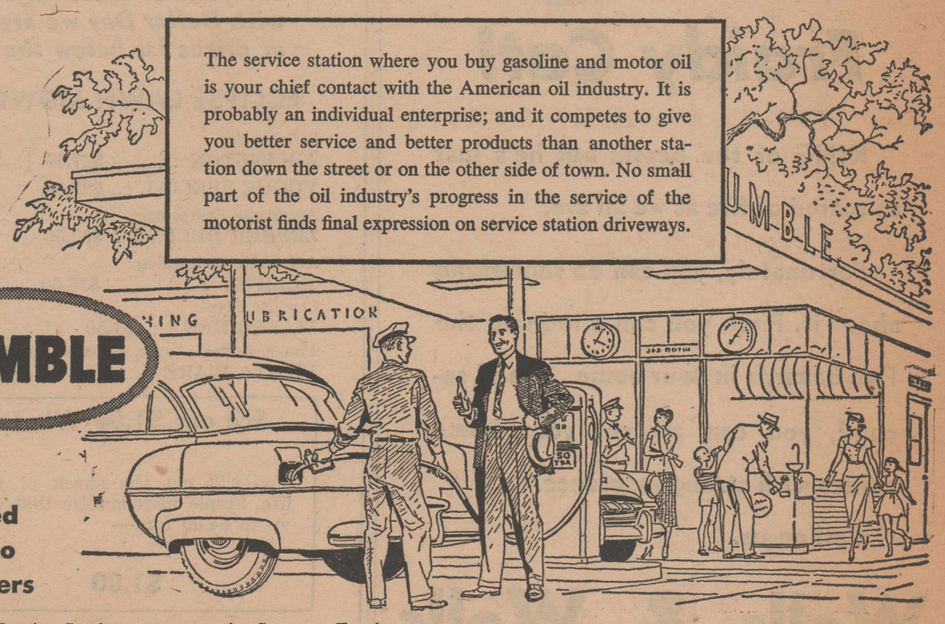

So does the traveler of modern times . . . he stops at an oasis that prepares his automobile for another hundred miles or more of driving . . . at an oasis that provides ice water and a chance to stretch . . . at an oasis that offers clean and sanitary rest rooms . . . at an oasis where our traveler can give and get a friendly greeting.

Today's oasis is the service station on the American highway.

It *makes* your trip. It provides your contact with the country through which you're driving. On its driveway you feel at home; you get the impression wherever you stop, that this is your America.

Not one service station, but thousands of them. All along the highways you'll find them staffed and equipped to give your car the expert care it requires, to make your brief visits on their driveways comfortable and pleasant.

The service station where you buy gasoline and motor oil is your chief contact with the American oil industry. It is probably an individual enterprise; and it competes to give you better service and better products than another station down the street or on the other side of town. No small part of the oil industry's progress in the service of the motorist finds final expression on service station driveways.

Mrs. Nored Leaves For Alaska July 6

Mrs. Donald Nored and children, Cherryl, Don and Tina, left Tuesday morning, June 30, by car for Fairbanks, Alaska, where they will join Mr. Nored and make their home. In Childress they were met by a family friend, who is making the trip with them.

They will go by way of Denver, Great Falls, Montana, Shelby, Wyoming, Sweet Grass, Montana, before entering Canada at Coutte. After passing through Edmonton, they will go onto the Alcan highway at Dawson Creek and follow it through Fort Nelson, Watson Lake, White Horse, and on to Fairbanks. The trip will be about 4,000 miles.

Their new home will be approximately 100 miles below the Arctic Circle. In his last letter to his parents, Mr. and Mrs. Darrell Nored, Donald Nored said that rain had just stopped after falling continuously 48 hours. A fall of between 6 and 8 inches was received. Mr. Nored went to Fairbanks earlier in the summer on a civil service job. He added that he was wearing a heavy coat to work, and until the rain started, the high wind and blowing dust had been terrible.

Sign Right-of-Way Deeds on FM Road

Signing of right-of-way deeds on the farm-to-market road which will extend from the end of the pavement east of Lutie, east 5 miles to the Needwood school, has started, County Judge R. L. Templeton and Commissioner Alfred Knoll, announced Tuesday afternoon, June 30.

Surveying of the road was completed by the Highway Department personnel recently, according to Clyde Drake, resident highway engineer.

"We understood that all landowners along the route are willing to give the right of way, and we are asking that the deeds be signed carte blanc. If we can, we hope to have all the right of way-land-donated since the county is short of money. But if it becomes necessary to pay any landowner for his right of way, we will pay everyone else," Judge Templeton and Mr. Knoll said.

Mr. Knoll, commissioner of Precinct 2 in which the road is located, said that the Needwood cemetery will not be disturbed by the widening of the right of way. He added that he had been asked about this by several people owning lots in the cemetery.

Craig Receives Promotion in Telephone Setup

The Wellington Exchange will be in the Memphis District under a reorganization of the General Telephone Company of the Southwest which is effective July 1, 1953.

The Memphis District is a part of the newly-created Northern Division with offices in Memphis also. H. E. (Gene) Craig will be the Memphis District Manager and Mills Roberts is to be Northern Division Manager.

Walter G. Wright, president of the Company, in announcing the reorganization, said, "Our primary objective is to improve the service to our customers and we expect to achieve this by placing more responsibility and authority in the field closer to our telephone users."

Under the new type of organization, the General Telephone Company of the Southwest will be divided into five geographical Divisions and these, in turn, will be composed of Districts varying in number from three to six.

The Company, which operates exchanges in Texas, New Mexico, Oklahoma, Arkansas and Louisiana, has doubled the number of Company telephones in service since January, 1950. It is the largest of any independent (non-Bell) telephone company rendering service in the Southwest.

Mr. Craig was head of the maintenance department here for several years. About a year ago, he was transferred to Lamesa and it was considered a promotion. Now he has been promoted again by being placed as district manager at Memphis.

Fred Saied of Lubbock visited in the home of his parents, Mr. and Mrs. Mack Saied over the week end. He is a student at Tech.

Dukes Drop Game To Shamrock

Wellington's Junior Dukes dropped a single game to the Shamrock Green Sox by a 16-11 score. Both teams agreed to let the contest go nine-innings and let it count as double win for the winner. With the conclusion of this contest the Dukes possessed a (2-6) record for the season.

Wellington could not get the needed punch that usually have. Errors and an uncertain field spelled doom for the local squad.

Bobby McCutchen and Bob McAlister took mound-duties for the Wellington crew. Both pitched good ball but the odds were against them.

Jim Leggitt and McAlister tied for slugging honors with two hits in four attempts.

Mr. and Mrs. Herman Crowley and son, David, visited in Vernon Sunday, June 28.
