Search for Youth Missing In Copano Bay Continues

Telephone Rates To Be Increased

By a split vote, the City Council passed an ordinance Tuesday that will raise phone rates and provide Southwestern Bell Telephone Company an increase of approximately 30 per cent annually in revenues from service here.

Aldermen N. F. Jackson and Murray McMillan voted in favor of granting the increase in rates. Aldermen Charlie Carrett and Joe "Pepe" Zambrano voted against the proposal. Mayor Delmar R. Hiller broke the tie by voting in favor of the ordinance.

This was the first request by Southwestern Bell for a rate increase since 1956.

The ordinance pointed out that the phone company had submitted a sworn financial statement for the year ending Dec. 31, 1970, indicating that the company sustained a loss for this period and a "negative return of 4.75 per cent of the fair value of its property used and useful in rendering its service."

The ordinance further stated that Southwestern Bell produced evidence covering its operations in the Rockport telephone exchange for 1965 through 1969 "indicating an average annual percentage return of 2.42 per cent."

The ordinance gave Southwestern Bell the right to place in effect the following schedule of rates for local exchange telephone service, subject to the company receiving authorization from the Federal Price Commission to increase such rates:

Class of Service and Monthly Rates are as follows:

One party business flat rate, \$13.50; Business Extension Station flat, \$1.50; One Party Residence, \$6.25; Two party residence, \$4.90; Residence extension station, \$1.00; Commercial PBX station, \$1.50; Measured Hotel PBX station, \$1.00; Coin telephone charge per local message, .10; Extension semi-public - Coin, \$1.50; Extension semi-public-non-coin, \$1.00; Suburban Four party residence, \$5.25; Rural eight party business, \$9.60; Rural eight party residence, \$2.50.

A search continued Tuesday in Copano Bay for a 16-year-old LaPryor boy, Wayne Wagner, missing and believed to have drowned.

He and his father, Joe Wagner, 49, were fishing in 17-foot boat which sank Saturday night. Wagner was rescued Sunday morning by a Coast Guard helicopter and taken to Lyman Roberts Hospital in Aransas Pass.

A Parks and Wildlife Department plane flew over the area Monday morning, and several boat owners were assisting the sheriff's department in a search on the surface. Deputy Sheriff, Vernon Duke, took his plane up in the search. Sheriff Robert Hewes reported.

The two Wagners were fishing about 2 p.m. Saturday. When they failed to return, the Sheriff's department was called at 8:05 a.m. Sunday. The Coast Guard Air Station was contacted immediately and had a helicopter on the scene by 9 a.m. Wagner was found several minutes later near his boat. He had been in the water about 15 hours.

Wagner said he saw his son go under water and did not see him surface again.

The Coast Guard has postponed its searching activity until further developments.

Voter Registration

Up to Jan. 31, a total of 3,521 persons in Aransas County had registered to vote, Mrs. Margaret Weber, County Tax Assessor-Collector, reported this week.

Between Feb. 1 and Mar. 1, an additional 302 registered. Since Mar. 1, an additional 24 registered.

Those who registered after Mar. 1 will not be able to vote in the April 1 City Election and the April 1 School Trustee Election, but they will be able to vote in the May 6 Democratic Primary Election.

Persons who have not registered must do so by April 5 in order to be eligible to vote in the May 6 Democratic Primary Election.

Mrs. Weber points out that many persons who have received voter registration applications in the mail have not filled out the applications and returned them to the county tax office in the courthouse. She is certain that many people mistakenly have assumed that the application forms are voter certificates. She urges such people to examine the application forms they received some time ago.

Zeeman was taken to Memorial Medical Center in Corpus Christi where he was admitted to the intensive care unit.

Raymond Nelson, 27, of Rockport, the driver of the Marshall Funeral Home ambulance, escaped injury. A spokesman for the funeral home said two other ambulances were dispatched from their home office in Aransas Pass, one to the scene of the accident and the other to pick up the heart attack patient.

The Department of Public Safety reported that both drivers here headed north on Texas 35 when Zeeman attempted to make a sudden left turn ahead of the ambulance. The impact of the collision threw Zeeman out of his truck, the DPS said.

discussed and maps showing the proposed corridor routes and other information will be displayed at the public hearing. This information will be available for copying and public inspection and is now available at the Resident Engineer's office at Padre Island and Greenwood Drive, Corpus Christi. It is also available for inspection and copying at the offices of the County Judge in Sinton and Rockport and at the city halls in Gregory, Rockport and Aransas Pass.

The State's Relocation Assistance Program, the benefits and services for displacees and information concerning the relocation assistance office will be discussed at the public hearing. Tentative schedules for right-of-way acquisition and construction also will be discussed. All interested persons are invited to attend the public hearing.

The Texas Highway Department has made a study for the improvement of SH 35 from Gregory to Copano Bay Causeway because of the increase of traffic in this resort area which is rapidly being developed, residentially and commercially, and because this section of roadway is a high accident rate highway. The present 1970 traffic on existing SH 35 is approximately 5,100 vehicles per day and the anticipated 1984 traffic will be 14,000 vehicles per day. The existing facility has had a high accident rate over the last five years and travel time is exceedingly slow on the existing route. For the safety and convenience of the traveling public, improvement of the existing route of SH 35 is necessary.

The route improvement study begins East of Gregory on SH 35, 3/4 mile South of the intersection of SH 35 and SH 361, at the end of a previously proposed freeway from Portland and Gregory, and ends at the South end of the new Copano Bay Causeway, which was completed in 1966, approximately 3 miles Northeast of Fulton.

Always Bad Reports

By Carl Duckworth

Too few people think about it, but it's absolutely incredible how our lives are affected by radio and television announcers. Especially the goons who stand up in front of the cameras and say, "...Heh... heh... looks like the coast is in for another bad weekend of weather."

They predicted a bad one last weekend, and the one before that, and on and on... Only it wasn't a bad one. Beautiful days, but few tourists. Of course, we are closer to it than most, in the motel business, but it reaches one and all... Pure and simple: Bad reports, no business.

What have these guys got against us? Are they paid by some dely at hand to destroy man's normal fishing pox (that becomes dormant during week days, and active on Thursday afternoon.) That's the city folk, I'm writing about... True fishermen aren't side-tracked by bad reports. They come anyway; but there aren't too many

true fishermen around...

We hear it every day: "They said the weather was going to be bad for fishing, but we just had to get away..." The weather's great... But where's all the people? ... Now, that just about says it all...

San Antonio recently reported us all under water... Or so a guest said, who was curious, and came just to see what we looked like all under water... (Recent 4" rain they had on the other side of Corpus Christi was source of reporting...) There is one radio station though, that hands us a fair

shake. They call each morning at 6:00 a.m. for an up-to-the-minute report on the weather and fishing. The station is K W B Y and broadcasts from Edna, Texas. Manager Bob Nance (recent judge in our Beauty Pageant) likes to tell it like it really is. Our thanks to him for putting out the truth. Their station covers a lot of territory, and hopefully, we will begin to see the results soon. Considering K W B Y does not have any advertisers from the Rockport area, it's quite a thing he's doing for us. So they're not all bad, just most of them.

WHAT IS REAL ESTATE

I am the basis of all wealth, the heritage of the wise, the thrifty and the prudent.

I am the poor man's joy and comfort, the rich man's prize, the right hand of capital, the silent partner of many thousands of successful men.

I am the solace of the widow, the comfort of old age, the cornerstone of security against misfortune and want. I am handed down to children, through generations, as a thing of greatest worth.

I am the choicest fruit of toil. Credit respects me. Yet I am humble. I stand before every man bidding him know me for what I am and possess me.

My possessors learn to believe in me; invariably they become envied. While all things wither and decay, I survive. The centuries find me younger, increasing in my strength. The thriftless speak ill of me. The charlatans of finance attack me. I am trustworthy. I am sound. Unfailingly I triumph and my detractors are disproved.

Minerals and oils come from me. I am the producer of food, the basis for ships and factories, the foundation of banks.

Yet I am so common that thousands, unthinking and unknowing, pass me by.

I am REAL ESTATE.

SEE YOUR "REALTOR", A PROFESSIONAL IN THE REAL ESTATE BUSINESS, WHEN YOU WANT TO SELL OR BUY REAL ESTATE. HE SUBSCRIBES TO A STRICT CODE OF ETHICS TO PROTECT YOU IN EVERY TRANSACTION.

Library News

Corinne Crabb, Librarian of the Aransas County Public Library, attended the March 4 meeting of the Coastal Bend Library Association in Fallsburg.

Dr. Carl R. Wrotenbery from the University of Corpus Christi showed slides of the devastation caused by "Hurricane Celia," including the extensive damage done to UCC Library. His talk was on "The Care and Preservation of Books," assisted by slides which showed what can be done to restore books that have been severely damaged by winds, water and fire.

He concluded by suggesting that a committee be formed by the Coastal Bend Library Association to establish, at a central location, a center which would have the necessary equipment available for the restoration of damaged books; this Committee was formed.

Other subjects which were discussed was a need to have your local fire chief visit your library in order to form a plan to control a fire with the least amount of damage to books; and for each library to have advance plans to meet emergency needs.

Mrs. Crabb was selected to serve as a member of the nominating committee for new officers.

* Aransas County Public Library will present a short course on "Developing Research Skills with the Encyclopedia" and "How to Use an Encyclopedia" to 3rd, 4th, 5th, 6th and 7th grade students or any other interested persons, upon application either at schools or the Aransas County Public Library.

This service will be in cooperation with the basic skills being taught in schools. A large number of students do their extra research in the Aransas County Public Library and this program will familiarize them with the material available. One course will be one hour or less, the other may require two meetings of no more than 40 minutes each.

A summer reading program will also be offered which will be in the form of a Sailboat Regatta with a prize for the person who wins the race and prizes to everyone who completes the program. More information on this program will be available in the near future.

The following people have donated books to the library since the first of this year: Mrs. Cecil Martin, Mrs. John A. Anderson, Mrs. Delmar Hiller, Col. R. C. Strook (Messages from President Nixon and Governor Maddox of Georgia on the Centennial), Mrs. J. S. Puster, Mrs. W. S. Blanton, Wayne Booth, Mr. and Mrs. Homer Truax, Mr. and Mrs. L. R. Dauplaise, Mary K. Johnson, Gordon Stanley, Jackie Lanfair, Dr. Gerdine and Rev. Cecil Lang.

There have also been cash donations made by the Aransas County Woman's Club, the Rotary Club, Mary K. Johnson and J. Frank Miller.

Your Library gratefully acknowledges these donations.

loves our location by the sea, the birds and wildlife, the beautiful leaning oak trees, and most of all---the friendliness of our residents.

She has only one beef. . . Litter. . . Mention litter, and sparks fly. "Why can't something be done about people who litter up the area?" (looks exasperated) "Don't we have laws concerning this?" . . .

And you know, she's right. . . We do have laws, and something really can be done about it. For those of you who really care, take down license numbers whenever you see someone throwing trash from a car, or truck, boat, or even an elephant.

Report it; it only takes a few minutes, (and our Police Department will love you for it.) . . . And instead of fining these litterers money--why not sentence them to one full day of picking up other people's litter . . . This would really make believers out of them.

I'm not guilty myself, I don't even throw out a cigar wrapper. . . They're dropped on the floor of the car, along with newspapers, dixie cups, Coke bottles, and old notes. . . From time to time, the whole thing gets cleaned out. . . Have you ever wondered why they don't make soft drink bottles square---so they won't roll around?

It was mentioned before, in one of the articles published by the Pilot---about a friend who had found 200 dollars wadded up in a piece of white paper. . . So you can never tell what you'll find, if you will only take the time to help clean up our area. . .

The following advantages await the citizen who stops to pick up litter:

1. It's great for the waist-line.
2. Makes you feel better for doing it.
3. Makes your sinuses open up.
4. Shows the observers that you are a good citizen.
5. You might find money or jewels, lost by fleeing bandits.
6. Money placed in cans---or wrapped in paper, by eccentric millionaires.
7. You set an example for our younger generation.
8. Last, but not least, you will make our little town cleaner.

Now the disadvantages to the people who litter:

1. A resident might report you, by writing down your license number.
2. Someone, (tired of picking up other people's litter), may drive you into the ground like a fence post. . .
3. You could be relieved of two hundred hard-earned dollars (if caught).
4. Your conscience hurts.
5. You will never be lucky enough to find anything on the ground, such as; money or jewels, lost by fleeing bandits.
6. You will have a sinus condition forever.
7. You'll continually gain weight around your middle.
8. In being a litterer---you'll constantly be talked about behind your back.

Basically, there aren't too many bad people. If you get right down to it, I think a lot of littering is done without intention---just carelessness. . . It'll make you a better person---no matter how rotten you are.

Track Team Places Sixth

Rockport-Fulton's 1972 Track Team placed 6th out of 14 teams at the Petrus Track Meet held last Friday. The Pirates scored 38 points, but the main story is that the team had people in the finals of all events with the exception of the high hurdles. Woodstoro won the Meet.

The Pirates had two 2nd place performances by Billy Beasley in the pole vault (11') and Glyn Landrum in the 330 Intermediate hurdles (42.2) to pace the team scoring.

Third place ranking was achieved by Nelson Barre in the high jump.

Gaining fourth place finishes were Wally Sanford in the 100 yard dash (10.4), Charles Crusier in the 880 yard run (2:11.4) and the 440 yard relay team of Joe Pina, Glyn Landrum, Wally Sanford, and Joe Green in the time of 45.0 which ties the Rockport-Fulton school record.

The Varsity Track Team will compete in the Gollad Meet this Saturday, while the Freshmen Team will go to Refugio.

Lamar Fireman's Auxiliary Meets

The Lamar Volunteer Firemen's Auxiliary held their regular monthly meeting March 6 at 7 p.m. at the Fire House.

The first item on the agenda was the acceptance of minor changes of the Auxiliary's Constitution and By-Laws. These changes "up-dated" the organization which was founded April 30, 1963. There are four charter members still very active in the Auxiliary. They are Mary Clark, Jewell Greeson, Jennie Heldenfels and Agnes Roberts.

A study was begun to determine the feasibility of other fund raising campaigns other than the Annual Chili Supper.

The meeting adjourned with the hostesses Agnes Roberts and Polly Moss surprising the members and guest, Mrs. Nestoney, with home made ice cream and cake.

SPANISH PLAY — Taking part in a Spanish play at the high school were Gracie Tamez (left) and Gracie Hernandez. The boy in the picture on the wall is Stephen Mayes. The boy acting as a table is Gerry Kleypas.

Spanish Plays Presented Here

The two Spanish II classes of Rockport-Fulton High School under the direction of Mrs. Billie Hale presented "Los Tres Osos" and "Caperucita Roja" in an assembly for the student body on March 1.

The cast of "Los Tres Osos" (The Three Bears) included Shelly Pattillo, Narrator; Tommy Garcia, Papa Bear; Kaye Lauer, Mama Bear; Lucy Griffith, Baby Bear; and Joan Whalen, Goldilocks. "Guests" in the play were Doug Barnette, Julie Bright, Annette Demory, Laura Leisenheimer, Debbie Milley, Joe Pina, and Peden Rogers.

Starring in "Caperucita Roja" (Little Red Riding Hood) were Debbie Halgood, Narrator; Gracie Hernandez, Mama; Gracie Tamez, Red Riding Hood; Manuel Flores, The Wolf; Juanita Garcia, Grandmother; and Joe Dominguez, the Hunter. Filling in as scenery were Gerry Kleypas, Table; Jeanette Demory, Hatrack; Stephen Mayes and Debbie Halgood, Pictures; Kay Anderson and Steve Arispe, Birds; Craig Ashley, Sun; Gloria Torres, Frog; Laurie Little and Sherry Stephens, Rabbits; Pam Lister, Bear; and Steve Arispe, Bust. Assisting back stage were Peter Ehrlich, Sound Effects and Curtains; Carol Mendiola, Script Girl; Maria Pattillo, Costumes; and Abel Salazar, Gilbert Martinez, and Tony Picarazzi, Scenery and Property Managers.

As a finale the two casts presented "Jalisco" which was dedicated to Mr. E. G. Brooks because of his interest in Spanish and because it is his favorite song. To conclude the

finale the Spanish II classes presented Mrs. Hale with a large bouquet of blue carnations.

The casts would like to give special thanks to Mr. Willey and the Choir for help with "Jalisco"; Mr. Baldwin, Mr. Ethridge, and the Shop Boys for help with props; Mrs. Hanks for help with costumes; the Senior Class for scenery; Mr. Harper for blank gun; the Greenbackers for paint; and Mr. Barre for patience and cooperation.

Car Licenses

Mrs. Margaret Weber, Aransas County Tax Assessor-Collector, reminds local car owners that they must purchase their 1972 license plates on or before March 30. The Court-house will be closed on March 31 (Good Friday).

CP&L Colors To Be Changed

Those familiar red-and-white Central Power and Light Company trucks will soon be painted a bright blue, according to John Speaker, CPL's director of advertising and public relations.

A new design for service vehicles is part of an overall change in corporate identity that CPL is beginning this week. The utility company is also changing its corporate emblem to emphasize the letters "CPL", and is taking a new approach in its advertising program. New signs with the letters "CPL" will identify the company's offices, stationery, electric bills and other printed matter will also reflect the change.

About the most unnoticed thing today on the average college campus is a panty raid.

Texas Has Most Deer But They Are Much Smaller

Austin--Texas has more deer than any other state, but Texas hunters have to kill two or three times as many deer to get as much meat as hunters who kill one deer in other states.

This is just one of the conclusions which would be drawn from a survey made by Professor Sidney W. Wilcox of Arizona State University in Tempe. The survey is titled "Deer Production in the United States."

Subtitled, "A Survey by States Showing the Dollar Value of Deer as Table Meat in the Years 1969 and 1970," the survey is based on data received from game departments in all 50 states.

Wilcox found that Texas leads the nation in deer production.

The average field-dressed white-tailed deer came to around 50 pounds in Texas and produced approximately 25 pounds of boneless meat.

Minnesota, at the other extreme, whitetails average 138 pounds field-dressed and produce 70 pounds of boneless meat.

Extensive studies in other states show that approximately 50 percent of the weight of a field-dressed deer is edible meat.

The survey covered all species of deer in the states and revealed that Texas hunters killed approximately 10,000 mule deer in both 1969 and 1970.

Using as a guideline the price of chuck beef, Wilcox estimated the value of the boneless deer meat in Texas, both mule and whitetail, to be \$5,034,285 in 1969 and \$6,088,297 in 1970.

ALONG THE WATERFRONT

By Carl Duckworth

They didn't come every year, but when they did, it was just after Income Tax Time. A doctor, from up north somewhere, who stayed with us. We remembered him, his lively wife, and their fat basset hound.

It had been several years since they had last stayed with us, but some people register in your memory better than others, especially when they pay their rent with fresh-looking hundred dollar bills. As he walked in, I said, "Well, well. Hello Doctor. Long time no see. How have you been?" He looked much older than the last time he was here.

"Wanna' tell you somethin' son, if you get your hands on it---go south with it." (I had always liked him, mainly, because he called me "son".) He chain-smoked, was nervous, and walked around a lot

with his basset hound beside him.

Both looked related. Both were fat and had the same expression: sad. If the doctor had only kept his pants pulled up, they probably would have fit; but they always hung by a bare thread, around his hips. The crotch flapped in the breeze so much, his pants kept our asphalt pavement swept clean.

His basset hound was built so close to the ground anyway, with the added weight, his stomach occasionally dragged. So when you saw them together---and they always were---you knew they belonged. They never fished (the doc and his hound). Just walked.

"Good morning, Doctor. How are you today?", I would say.

"Son, I'm telling you. The government's eating us alive. Whatever you can put in the sock, go south with it."

I once tried to discuss taxes, the government, money, and so forth; but it was plain. He didn't receive me. He seemed to be in a world all his own. So in other conversations with him, I avoided talking about money. It's hard to talk about---if you haven't got it.

"Looks like it's going to be a nice day, Doctor."

"Yes, if they know you got it, they'll nail you someday," he'd say.

"Fishing was great yesterday. Why don't you try wetting a hook."

"Guess so; but put it all in cash. I personally like hundred-dollar bills," he'd say with a

glazed expression. His dog would growl over a flea or something, then say, "wuf" from time to time. I had the feeling that the dog agreed completely with the doctor.

The doctor's wife was a pretty, dignified, and patient lady. Evidently, the doctor was a holy terror in the shower. It took his wife and a maid about an hour to sop up all the water the doc slung around each morning.

From time to time, he would want me to break a hundred dollar bill for change. His bill-fold would be so crammed with them, it required real effort---just to pull one out.

"Good gosh," I said, "you shouldn't carry so much money around".

"Listen, before long, they're going to tax us for going to the bathroom. Get your hands on it and go south, son."

I thought---but didn't say---tell me, doc. How'n earth do you get your hands on it?

"Another thing: live a little. But. . . put some away. In cash. Go south with it," he said shrewdly.

The doctor is no longer among the living. He died several years ago; but I can feel him still. If there is anyway to do it, I figure he took some with him. Even now, whenever a guest pays his rent with a hundred dollar bill, I think of the Doctor. So he must be up there somewhere, saying, "Put it in your sock. Go south with it, Son".

Peter Minuit purchased Manhattan Island from the Indians.

CENTRAL POWER AND LIGHT COMPANY

Times have changed...so have we.

Our generation is for you.

Freshly painted trucks, new office signs, hardhats and emblems do not make a company different. But we've been changing constantly for over a decade, and now we think it's time for you to know how we have become different.

Electricity is, after all, invisible. But what it takes to produce it and keep it coming to you at a fair price often is not.

Our business of supplying power to a growing South Texas means keeping ahead of the times. Like when you purchase a washer and dryer before you bring the twins home from the hospital. It improves your Quality of Life visibly and noticeably. That's what we mean when we say, "our generation is for you."

Like more than \$7,000,000 of the \$30,000,000 needed to build our Barney M. Davis Power Station near Corpus Christi, being spent to protect the environment---for all species. Or the use of electric

power to reduce junked cars to small steel nuggets---for recycling. Were you aware of these? Our generation is for you.

Like technology for service. Introducing sophisticated new computer-automated equipment, permitting us to handle the routines of business quickly and efficiently. And serve you better---from a truck, or storm repair center. Our generation is for you.

Like an expansion program blueprinted well into the 1980's, based on tomorrow's most efficient energy sources---because there is simply no substitute for all the ways you use electricity now. Nor a sure way to predict how many new ways you'll need it in the future.

Whether you're 15 or 50, a new 1972 CPL just wanted you to know some of the ways, seen and unseen, our generation is for you.

CPL
Our generation is for you.

Trailer Inn By the Bay

Saturday nights are the loveliest nights of the week, especially at Trailer Inn by the Bay. Everyone gathers at the recreation hall and enjoys the music and sing-alongs of Mr. and Mrs. William Bates of Eagle River, Wisconsin.

The Bates have been guests of the park and have been entertaining the other guests for the past three winters.

Marge plays the electric mandolin while Bill leads the singing and plays the electric guitar.

This winter they have been assisted in the music by Mrs. Martha McCann of Carlisle, Kentucky on the "Wha-cha-ma-call-it," a washboard mounted on a stick with pans, a horn, and several other indescribable things.

Last Saturday night the park guests were delighted to have Mr. Raymond L. (Bill) Cooper of Hoopston, Illinois, and Major and Mrs. Tony Husak of Fulton, Texas, join with the Bates in singing and playing.

Bill Cooper played a banjo, Tony Husak the electric guitar and electric mandolin, while Velma Husak played guitar and sang several solos.

Girls' Volleyball

The Rockport-Fulton girls' volleyball team is off to a slow start this year with the varsity and junior varsity teams posting a 0-4 record. The freshman team has a 2-1 record. Chapter 3. (entire second chapter censored)

Indian scout Erster led Alonzo de Pineda's Spanish party throughout Aransas, Copano, and San Antonio bays. The exploration began in 1519, and continued for nine years. . . Very little was written until 1528 when Cabeza de Vaca landed. . .

A lot can happen in nine years. In hiring scout Erster, Alonzo made it quite clear that he expected a little fun and frolic. . . They only maidens Erster knew were from his own tribe. . . From time to time, he would return and practically empty the village with wild promises of fresh meat, (laced with wine), dances, and story-telling by Alonzo---of his ocean voyages. . . Naturally, the braves didn't appreciate the disappearance of all their young attractive women. . . They became hostile, even with Scout Erster. . .

The Chief met Erster on the outskirts of the village one day and said, "Erster, there's one thing you oughta' know; all the guys don't appreciate you coming back and taking all the young women away with you. . . Where's your appreciation,

man? . . . Didn't we throw a party for you, and present you with the very horse-blanket you're sitting on? By the way, that's a nice horse you got there. First one I've ever seen up close. (He moved nearer, and carefully inspected the horse from stem to stern. . . Erster's horse ate three of the chief's feathers while he was trying to look in his mouth.) Anyway, as I was saying; the guys are mad at you. . . I do appreciate the fact that you've succeeded in your chosen field, and you do bring us all those pretty empty wine bottles; but that's hardly enough. . . Now if you really want to make points with me, and as you know, I'm the head Indian around here ---bring us some of those helmets and swords."

Scout Erster had already thought of this. Each time that one of the men in the Spanish party had died, Erster buried their armor with them, carefully marking each spot. It was time, he decided---to gather them up, and bring them to the tribe. (For a slight fee, of course.)

The morale of Alonzo's group was getting low. . . They were practically out of wine; a serious thing---and prospects of drinking water didn't appeal to them. For one thing, a glass of water brought on an instant "jag"---from excess-

sive drinking the night before. They set up camp, (near the area that is now Seadrift), and hordes of mosquitoes attacked them. . . Scout Erster knew how to take care of this problem, and at the same time---profit from it. . . All he needed was some alligator oil. . . So, he asked for a leave of absence. He traveled to an area, (north of the Tivoli area), hunted, killed, and processed alligators---and returned with enough alligator oil to de-mosquito every member of Alonzo's party for years to come. . . With the alligator oil, he shrewdly bargained for most of the possessions the men had, including first-liens on all their horses. . . Scout Erster became the first wealthy Indian; but had no place to squander his wealth. . .

With the wine supply now exhausted, and the strange disappearance of the empty bottles, something had to be done. . . This prompted several in the party to experiment with many different things, before they discovered that the cactus Century plant could be used to make an intoxicating drink, later named "Mescal." The origin of the name derives from spines on the leaves of the century plant. Alonzo would say, "Calvarez, you're a mess. Just look at you. You've apparently got a hang-over; you feel self-

conscious, you hate yourself ---therefore, you torture yourself in this manner. . . But . . . don't stop making the drink, my boy. . . The morale of my men has soared. . . Someday, someone will write about you and your great contribution to mankind. . . They'll write about all you've done to help discover this great country. True, we haven't found any gold, silver, or diamonds, but we've formed lasting friendships among the natives. . . The native women, that is. . . and, I can hardly wait until you have enough of that drink, so we can throw a party. . . So you just go right on, my boy,---torture yourself if you must; but keep up production."

Calvarez hiccupped and tried to salute, jabbing his thumb in his right eye. . . He often passed out while sampling and striving to step up production. . . One by one, the guys would walk up, look at him, and say, "Cal, you're a mess." In fact, every time a mess was made in camp, they'd think of Cal. Hence, the name, Mescal.

Next week: Building a temporary Fort to protect the group from the now-mad Indians, while under the influence of Mescal.

Members of the white race have more hair on their heads than any other race.

Doins' at The Dunes

By Viola Reynolds

You might think with fishing and all its satellite industries, such as boats, bait shops, fishing equipment stores, etc., ranking high among the occupations, as well as vacation pastime pleasures in this area, that fish might not be an interesting hobby. But it has proved just the opposite for Roscoe Hornsby. He was given a fully equipped aquarium and two pair of guppies by Mr. and Mrs. Charles Harter. Shortly he had a large family of baby guppies, and he has found his new hobby a very enjoyable pastime. Recently he purchased two more tanks and several more fish—so in due course of time he'll have more fish than he can count.

Word has been received from Rev. Lahr Einsel at home in Broken Bow, Okla., asking to be remembered to all his friends at the Dunes. He adds his report from the Scott-White clinic at Temple, Texas, was good and he is back at his jogging again.

Mr. and Mrs. Don Fite of Ottumwa, Iowa, arrived Monday, Feb. 28, from a vacation in the Valley and will be residents at the Dunes for a spell.

Dean and Mrs. Carl Brandly, who have been house keeping in the Yandell Mobile home the past two months left Friday for their home at Champaign, Ill.

Mr. and Mrs. Harold Scott have been enjoying interesting

sight seeing trips, dinners out and a real fine visit with two families of long standing friendship, Mr. and Mrs. Harold Fernow, and Mr. and Mrs. Ralph Mitchell. They are enroute home to Marion, Iowa, after a month's stay in the McAllen-Mission area.

Mr. and Mrs. Don Baut moved their trailer home back on their home pad at the Dunes this week after a month's stay in the orange-grapefruit valley.

Mr. and Mrs. Harold Sorenson heard the call of the open road and left Saturday a.m. for a two-week stay in the valley.

Mrs. Darrell Beaver of Sacramento, Calif., arrived by plane Feb. 22 to be a guest of Mr. and Mrs. Ernie Way and Mr. and Mrs. Tom Jones until Monday, March 6. Mrs. Beaver is a sister of Mrs. Way and Mrs. Jones.

Ed Byrne, who submitted to surgery Tuesday, Feb. 29, at a hospital in Victoria, is reported recuperating satisfactorily and hopes to be back at the Dunes soon and having a good game of dominoes with friends here.

Mrs. Darrell Beaver, here visiting from California, and Mrs. Howard Nagel decided to try for the big ones in the channel at Port Aransas Tuesday forenoon. It was a partnership affair with Mrs. Beaver bating and Mrs. Nagel casting out. Almost at once they each had a strike. However, Mrs. Beaver lost hers and Mrs. Nagel after a 30-minute battle and walking her fish up the beach as far as she could go, landed

a 42 pound drum. It was a thrill in a lifetime for Mrs. Beaver, who continued putting on crab bait, but no more luck. However, another fisherman nearby landed a 57 pounder. The ladies gave their giant fish away and headed home from a most enjoyable partnership fishing excursion.

The walls bulged at the seams of the recreation hall for the Friday night get-together of games and eats. Thirty persons gathered around the tables for a wide variety of games and on the long food table there was an equally wide variety of eats. It was a fun night for everyone, as many residents have heard the call from their home ports, and the group will soon be scattered to the four corners of this great land of ours.

Dr. and Mrs. Don Yandell have returned from a two-month trip into Mexico. This is their sixth visit to Mexico, the previous ones being with travel caravans, and this with friends. Leaving the U. S. at Brownsville they spent some time at San Luis Potosi, then on to Guadalajara for a two-

week stay. It is a beautiful city, a distribution center for fresh fruit and vegetables. The Yandells stayed at a trailer court with a capacity of 100 trailers and it was full, mostly Americans and Canadians. At Tepic they drove down the coast to Puerto Vallarta described as not a name but a way of life. The Richard Burtons have a home here. Up the coast to San Blas, a fishing village, for a week's stay, then to Mazatlan where their trailer was right on the seashore, and the roar of the Pacific resounded against a backdrop of mountains. The 200 mile drive to Durango was over these mountains with uncountable switchbacks, beautiful scenery and a very good road. Enroute home with stops at Torreon and Monterrey and back to the U. S. at McAllen. Then a five day stay on south Padre Island and home at the Dunes. Each expressed their pleasure of the trip and Mrs. Yandell pursued her favorite hobby, beachcombing, bringing home many species of beautiful shells.

Letter to the Editor

Dear Sir:
This letter should be titled, "Search for a Taxpayer" since the following events happened

after an ad appeared in last week's Rockport Pilot signed -- A Taxpayer.
My wife, Audrey, said she was a taxpayer, but denied writing the ad. This eliminated two taxpayers, since I know I didn't write it.

I questioned Aransas County Road and Bridge crew. They said they were taxpayers, but did not write the ad. Lee Cody said he had forgotten how to write anyhow. George Benningfield had a bumper sticker reading "Never home - Always broke," so I'm sure he is a taxpayer. All these men said they wished the county would waste a little money and let them rest a few minutes.

Ottie Mundine said his main interest was being a part of our fine school system, and his interest was personal, not political.

Taxpayers on Omohundro Street -- J. W. Pierce, Danny and Betty Mae Adams, and others -- were more interested in the drainage ditch the city and county are jointly rebuilding than politics.

I finally asked an attorney to contact and inform the ad writer of State laws he had violated with the advertisement.

Mr. Editor, can you imagine how completely astonished I was when my attorney informed me that he had forwarded this legal information to my good friend, M. W. Cochran. This is something that will require a lot of consideration. I am sure Mr. Cochran will be more careful while he continues his campaign for my opponent.

There sure are a lot of taxpayers in Aransas County, Mr. Editor.

Sincerely,
Raymond Owens,
Commissioner Precinct 3
Aransas County, Texas

Police News

Chief of Police E. D. Taylor reports the following:
Beverly Owens, 18, was arrested for shoplifting at H.E.B. Family Center and charged with stealing three pairs of slacks and two cartons of cigarettes. In County Court, she was found guilty and fined \$50 and placed on one-year probation.
Taylor also said Kenneth W. Smith, Jr., 23, was arrested on a charge of driving while intoxicated and placed in the county jail under \$500 bond.

Girl Scouts Celebrate 60th Birthday Sunday

Woody and Mrs. Gene Gregory, will attend the Methodist services. The girls are making posters to put in merchant windows to tell the story of their troop's activities.

Troop 431, a Brownie troop under Mrs. Robert Tillison, Mrs. Richard Underwood and Mrs. Barbara Maley, will attend the Calvary Baptist Church and put a display in the window of C. P. & L.
Junior Troop 469, under Mrs. Willie Rice and Mrs. Bonnie Littlefield, will attend The Church of Christ and have posters and displays in community windows.

The Kinsey Report

It's easy to take for granted the blessings we have in living in the Rockport area.

Perhaps a couple moving here from a cold, windy, bustling city such as Chicago is more inclined to be aware--every day--of the many advantages of living here.

During the 20 years Mrs. K and I lived in the Chicago area, we spent this time of the year counting the days until warm weather would arrive--maybe by June.

In the daytime, I spent about an hour and a half--each way--going and coming home from work, traveling about 30 miles from suburban Deerfield to Chicago. By train or by car, it was an ordeal, especially in the winter battling the below zero temperature, snow, ice and wind.

When mild weather finally did arrive, my thoughts would turn to such things as golf. And if I wanted to play a game at a public course on a Saturday or Sunday, I'd have to get up at the crack of dawn and hurry to the course and then wait 45 minutes or longer to tee-off.

Turning to another disadvantage, real estate taxes in nice suburbs of Chicago were approximately 10 times higher than they are in Aransas County.

So...if I ever forget about how lucky I am to be living here, all I have to do is think about the wonderfully mild weather we have, the fact that it takes me less than five minutes to get to work, the fact that real estate taxes are low....to mention just a few of the reasons why living here is great.

State President Guest Speaker

Mrs. Maurice Angly, president of the Texas Federation of Republican Women will be guest speaker at the March 16 meeting of the Republican Women of Aransas County.

The meeting will be held at the Fellowship Hall of the Presbyterian Church. An Italian spaghetti supper will be served at 6:30 p.m. All interested persons are cordially invited to attend. There will be a donation of \$1.50 per person.

Committee members in charge of the event are Mrs. Samuel Crosby, chairman, Mrs. Harry Allen, Mrs. H. T. Bailey, Jr., Mrs. Meyer Brown, Mrs. Paul Hathorn, Mrs. Polly Petersen, and Mrs. W. R. Schocke.

While we are busy changing dates for holidays, why not make April Fool's Day come on April 15 instead of the first day of the month?

Rockport Sailing Club Holds Awards Banquet

The annual meeting and awards presentation banquet for the Rockport Sailing Club was held February 26 at the Key Allegro Club. The Sailing Club sponsors various events in sailboat racing and cruising during the year and then recognizes the winners in the different classes at the February meeting.

First and second place in Sunfish this year was won by Mrs. Jeannette Morrison and Rev. Cecil H. Lang. The new Clipper-21 fleet held a fall series only this year with 5 boats participating. First place was won by Warren Gerdine, second by Dr. J. Martin Shaw and third place by Dr. Jim Wideman. The Cal-25 fleet winter-71-series first place went to Mike Hill, second place to Painton and third Foster. The spring series first place was Travis Bailey. Dr. Painton took first place in both the summer and fall series.

Election of officers was also the order of business at this meeting. The 1972-73 Commodore is Dr. Cliff Painton, vice commodore is Dr. J. Martin Shaw and secretary treasurer is Roy Hicks.

The Rockport Sailing Club is always in search of new members and owning a boat is not necessary. Many positions as crew members are available to those interested in sailing so contact any of the members if you are interested.

"Deaf" Choir To Sing Here

On Saturday, March 11, at 7:30 p.m. the Signs of Praise Choir from Southern Bible College at Houston, Texas, will present their ministry of music at the Pentecostal Church of God, Highway 35 south.

The 18-voice choir travels extensively, and is dedicated to presenting the living gospel of Jesus Christ to all people, especially the deaf.

The members of this choir feel the impact of the deaf ministry--some are even called to this field of labor, with anointed hands and voices they sign and testify, in the Spirit, the burden of their hearts.

Pastor L. O. Crawford extends a hearty welcome to everyone to attend this spiritual and unusual service.

William Jennings Bryan ran for president four times.

NOTICE OF PUBLIC HEARING CORRIDOR ROUTE

The Texas Highway Department will conduct a route public hearing on Tuesday, March 14, 1972 at 10:00 a.m. in the VFW Hall, 401 East Market Street, Rockport, Texas for the purpose of discussing the improvement of State Highway 35 from Gregory to Copano Bay Causeway. The proposed corridor route will bypass the cities of Aransas Pass, Rockport and the town of Fulton.

The first 3/4 mile of the improvement which begins between SH 361 and US 181 will be constructed as a freeway, which will complete the proposed freeway facility from Portland through Gregory. The remainder of the proposed route improvement will be a 4 lane divided highway to the Copano Bay Causeway with grade separations at the major intersections. The width of additional right of way required for construction varies from 80 feet, where the proposed improvement parallels existing SH 35, to a maximum of 400 feet where the route is on a new location. A few relocations of residences and businesses will be necessary.

Environmental studies will be discussed and maps showing the proposed corridor route and other information will be displayed at the public hearing. This information will be available for copying and public inspection and is also now available at the Resident Engineer's office at Padre Island and Greenwood Drive, Corpus Christi, Texas. It is also available for inspection and copying at the office of the County Judge in Sinton and Rockport and at the City Hall in Gregory, Rockport and Aransas Pass.

Tentative schedules for right of way acquisition and construction will be discussed.

All interested citizens are invited to attend this public hearing. Written statements and other exhibits may be submitted to the Resident or District Engineer's Office, but must be received not later than 10 days after the public hearing. c51

CPL EMBLEM HISTORY — A new streamlined Central Power and Light Company emblem for the seventies, (center) is flanked by emblems which have symbolized over a half-century of dependable service for South Texas. The 1926 emblem (upper left), shows the five services of CPL in the early twenties. In 1929, the emblem (upper right), was simplified after the company eliminated gas and street railway service. The 1939 emblem, (lower left), is a further simplification of the traditional pentagon. In 1961 a colorful transition emblem emerged for the sixties, which stressed the letters C-P-L and spelled out the company name. In 1972 CPL's new identity will be featured in all company advertising and company identification.

Fix-It Tip

If a table or floor lamp fails, examine the wall plug. Jiggle it and see if it is loose in the outlet or if the light blinks on and off. Take it out and examine it to see that the wires are fastened securely. Make certain one of the wires isn't broken or the insulation frayed. If the plug is at all suspect, replace it. Cut off the wire a couple inches above the plug so you can work with a fresh end. Make fresh, clean, bare ends if the plug has screw terminals. Or use the kind in which you insert the wire and pull the plug cover down over the prongs, causing metal burrs to penetrate the insulation.
