Four-Year Extension Of Draft Gets House Committee Okay

Nationalist Bombers Hit Target Again

By SPENCER MOOSA

TAIPEH, Formosa (AP)—Nationalist bombers and outpost island artillery pounded Chinese Communist land targets and shipping yesterday and last night along a 350-mile oceanic front from Formosa Strait northward into the East China Sea.

There were no reports of Communist action.

While Chiang Kai-shek's airmen and gunners carried on the furious civil war, the whole issue of a Nationalist pullout from the menaced Tachen Islands 200 miles north of Formosa appeared to be hanging in the balance today because of U.S. reluctance to give clear-cut guarantees for the protection of the offshore islands of Quemoy and Matsu.

Official reports said Nationalist bombers damaged two vessels last night near Yikiangshan, fallen island eight miles north of the Tachens.

And the all-but-dormant Quemoy-Amoy area, across the strait from Formosa, stirred to life yesterday with Nationalist shelling of Communist shipping and island targets on Amoy and, Tateng.

The defense ministry said Nationalist gunners fired more than 40 shells, destroyed two Communist trucks and an artillery position and damaged a wooden vessel.

Gen. Earle E. Partridge, top U.S. air commander in the Far East, flew to Formosa with his Tokyo headquarters today. He went immediately to a Nationalist air base to the south where the U.S. 18th Sabrejet fighter-bomber wing is stationed.

Partridge scheduled an afternoon conference with Chiang.

The Tachen situation seemed to be at stalemate.

There were indications that if the United States fails to guarantee Matsu and Quemoy, the Nationalists would press for reconsideration of the whole Tachens issue.

The Nationalists, according to sources who should know what is happening behind the scenes, would prefer to make a fight-or-die stand for the Tachens.

The same sources gave the impression that the United States had agreed to assurances about Quemoy and Matsu but then had backed down.

An increasing number of people here were beginning to think that Washington was not bringing the situation to a head because of possible moves elsewhere to persuade the Chinese Reds to let a pullout from the Tachens go unchallenged.

An understanding on this point would avoid the risk of a clash between the Reds and the U.S. 7th fleet.

REFUGEE SPRAYED

A Nationalist sailor sprays DDT powder on a young boy on his arrival at Keelung, Formosa. He was one of 538 civilians evacuated from the Communist threatened Tachen Islands by a Nationalist Chinese troop ship. Most of the refugees are dependents of soldiers who remain on the Tachens apparently expecting to fight, although American guns and planes are standing by to cover their withdrawal, if it is ordered.

Final Count On Poll Taxes

The total number of poll taxes paid and exemption certificates obtained for the current fiscal voting year has been definitely determined at 3,950, according to Geral Greene, chief deputy assessor-collector.

Of this total, 3,230 were poll taxes, and 720 were exemption certificates. The number of known exemptions does not reflect the true number of persons qualified to vote by poll tax exemption in the county since those exempt by over age who reside outside the city limits are not required to have certificates.

The total of known qualified voters falls short by 1,075 the number of a year earlier, which was 5,025. That number was in view of the coming election year, however.

The poll tax paying period begins annually on Oct. 1 and cases with the deadline of midnight Jan. 31. By months, the office issued the following numbers of tax receipts and exemption certificates during the recent period:

October 724 polls and 330 exemptions, November 180 polls and 65 exemptions, December 229 polls and 55 exemptions, and January 2,097 polls and 270 exemptions.

Labor Bill To Reach Senate

By MAC ROY RASOR

AUSTIN (AP)—A labor control bill proponents claim is aimed at stamping out strike situations such as harrassed Port Arthur the past year headed back to the Senate floor today with committee approval.

The Senate Labor Committee voted the bill out last night at a public hearing over protests of organized labor.

By Sen. George Parkhouse, the bill would prohibit strikes and picketing for organizational purposes by any labor organization that does not represent a majority of the employes involved.

There were also developments on two other proposed labor control measures. One that would increase the number of counties where suits could be brought against strike and picket actions was sent to subcommittee for a week.

Atty. Gen. John Ben Shepperd released a requested opinion on another, holding it constitutional provided its scope is diminished.

The Senate Labor Committee had asked the opinion earlier this week on the Parkhouse Bill to prevent interference with common carrier employes taking shipments to and from struck plants.

Shepperd said that measure would be valid if peaceful picketing is deleted from the list of acts declared unlawful in inducing employes of railway or motor carriers not to cross picket lines. Inclusion of peaceful picketing had been one of the major objections of organized labor to the bill.

The Parkhouse Bill, against picketing by unions without majority representation, was the first labor control bill this session to win committee approval. It apparently is an answer to Gov. Allan Shivers' request for legislation to prevent strikes similar to those at Port Arthur.

In attempts to win union recognition for employes, picketing was carried on more than a year.

A long line of Port Arthur employers appeared before the committee last night while spokesmen urged passage of the bill if it will prevent their experiences being repeated in other Texas cities.

Labor spokesmen told the committee the bill's real purpose is to halt all labor unions from further organizational activities in Texas.

Sen. Jep Fuller, Port Arthur, inquired if the bill would stop picketing by persons other than those employed by the establishment concerned.

He was told by the bill's proponents that it would not.

Reds Free Son Of American

VIENNA, Austria (AP)—Communist Hungary released an American woman's 18-year-old deaf-mute son from behind the Iron Curtain today after long years of petitions by the mother.

In a tearful reunion in Vienna after five years apart, Mrs. William Brooks, of Washington, D.C., and Great Neck, N.Y., declared: "This is the happiest day of my life."

Mrs. Brooks had been petitioning the Communists to let her have her Hungarian-born son Peter Predic since soon after she left him in Budapest in 1949. A former Hungarian actress, she had escaped from Communism and left the boy—a childhood victim of mastoiditis—with friends.

After immigrating to Canada and then to the United States, she married William Brooks, an engineer attached to the Sperry Corp. on Long Island and now assigned in Europe for two years. It was her second marriage.

Mrs. Brooks said she believed the Communists finally freed her son only because he was unfit for military service.

The youth arrived at Vienna's West Station aboard the Arlberg-Orient express. As he stepped from the train, pale and wan, he saw his waiting mother and fell into her arms. Unable to express his emotions in any other way, he kissed the tears on her face.

A short time later, mother and son left for Paris to join her husband—Peter's new father.

Voluptua's Car Abandoned On Ocean Hi-way

LOS ANGELES (AP)—The sporty convertible of Voluptua, sultry 6-foot blonde fired two days ago from a television program because she was too sexy, was found abandoned early today on a highway bordering the Pacific Ocean.

Detectives were attempting to locate the Brooklyn showgirl, who appeared in negligee before TV audiences.

In the car, registered to Gloria Pall, Voluptua's real name, were three newspapers carrying accounts of her ouster and two scrapbooks, detectives said. There were no signs of a struggle. The car was parked on the highway. Its keys were gone.

"We don't believe it's a suicide," said Det. Lt. Clifford Shannon. "In virtually all suicide cases, clothing is found on the beach. And no clothing was found there."

Police checked an address on the 1954 registration certificate but got no response.

Station KABC-TV said it was dropping Voluptua for commercial reasons. However, there were reports that her sensuous introductions to old movies were in bad taste.

But she had little reason to feel depressed about losing her job. Yesterday she was hired for a part in another TV show.

DROPPED FROM SHOW

Voluptua, a 6-foot blonde showgirl from Brooklyn who has been appearing on television in poses similar to this for several weeks, has been dropped by her station, KABC-TV, "for commercial reasons." Some observers said the station had been deluged by calls from irate viewers who considered her satire on love and glamour as "too sexy." The slinky actress, whose real name is Gloria Pall, played to the camera from a harem-like boudoir as she introduced old movies on the station.

French Chief Facing Grave Test In Vote

PARIS (AP)—Premier Pierre Mendes-France's government was in grave danger tonight.

Radical Socialist Rene Mayer told Mendes-France, a fellow party member, that he would vote against him in the present debate on the Premier's North African policy.

Mayer's decision probably means the crumbling of Mendes-France's majority in the National Assembly and the downfall of his government.

Mayer spoke to a hushed Assembly at the start of the second day of debate on the North African question. He was applauded frequently by what appeared to be more than half of the approximately 350 deputies present. Joining in the applause seemed to be many followers of Gen. Charles de Gaulle, who also has supported Mendes-France in the past.

Mayer, in the dramatic conclusion of his hour-long speech, addressed the Premier directly and said "In the past you have often asked for a renewal of confidence. In this case I cannot renew mine."

The Premier was expected to call for a confidence vote sometime before midnight, requiring him to resign if he loses. The vote should come early Saturday.

The government was accused yesterday both of going too far and not going far enough in offering greater self-government to the North Africans.

Several Communist deputies charged the government had done too little. But other speakers, chiefly from the extreme right, insisted trouble in Algeria had been fomented only after the government showed weakness in France's protectorate of Tunisia, where negotiations for local self-government have dragged on for months.

Federal Jury Calls Matusow

NEW YORK (AP)—A federal grand jury has subpoenaed ex-Communist Harvey Matusow, apparently to explain his repudiation of testimony he gave as a prosecution witness at the trial of 13 second-string Communist leaders on conspiracy charges.

Federal Judge Edward J. Dimmock, who presided at the 1952 trial, yesterday turned down a request by counsel for the 13 Reds that he kill the grand jury subpoena which called for Matusow's appearance tomorrow.

Instead, the judge set next Monday for Matusow's grand jury appearance. He also asked that briefs be submitted tomorrow on the motion to quash the subpoena.

Champion Bulls Picked At Stock Show Today

FORT WORTH (AP)—Grand champion bulls in one beef cattle division and two dairy competitions were named today at the Southwestern Exposition and Fat Stock Show.

Grand champion Shorthorn bull was Kamar Champion Upright, shown by Scofield and Miller of Austin and De Leon.

Reserve champion was Leveldale Caesar, shown by Mathers Brothers of Mason City, Ill.

In dairy cattle judging, grand champion Guernsey bull was Cooper's Inmarlevi, shown by Tom Cooper of Ardmore, Okla.

Grand champion Holstein bull was Oostie Standout, owned by Joe C. Carrington of Austin.

Freezing Drizzle Falls In Panhandle

By The Associated Press

Highways in the northern Texas Panhandle were coated with ice Thursday as a Pacific cold front brought freezing drizzle to the northwestern part of the state.

The State Highway Department at Austin said ice has made driving hazardous in these areas:

All highways north of the Canadian River in the Panhandle were reported covered with ice. To the south, roads between Tulia and Plainview also were icy.

The front is expected to bring freezing rain or snow as deep as the upper part of South Texas by Friday morning.

At mid-morning, the front extended from northwestern Oklahoma southwest across the Panhandle and into the Big Bend country of West Texas.

The temperature at Dalhart had risen only a degree from its overnight low of 24. Freezing drizzle fell on both Dalhart and Amarillo.

Light rain was reported at Wichita Falls, Lubbock, Childress, Laredo and Longview. Occasional showers are expected over all of the state except the far west.

The weather bureau said the front probably will reach East Texas by daybreak Friday.

Behind the front skies are expected to clear.

Forecasts call for 18 to 28-degree lows in the Texas Panhandle, South Plains and upper Red River Valley area Thursday night or early Friday.

The only measurable precipitation in the past 24 hours was .19 inch at Laredo and .02 at Dalhart.

Overnight temperature extremes ranged from Dalhart's 24 degrees to 68 at Brownsville.

Other minimum temperatures included:

Amarillo 28, Lubbock 32, Texarkana 38, El Paso 42, Dallas 46, Lufkin and Abilene 48, Beaumont and Odessa 51, Houston 57, Austin 60, San Antonio 63, and Laredo 65.

By The Associated Press

A flow of arctic air extended over broad areas of the nation today from the Mississippi Valley to the Atlantic Coast with the most severe cold in the northeastern section.

New York City and other Eastern cities reported the coldest weather of the season, with temperatures at zero in the Metropolitan area. An unofficial low of -38 was reported in the village of Beekmantown, in northeastern New York.

New York City, hit yesterday by winter's heaviest fall of snow, 3.7 inches, was numbed by the first zero temperatures in seven years. It was a new low for Feb. 3 and the coldest day since Jan. 31, 1948, when the mercury also dropped to zero.

It was 1 above in Newark, N.J., a new low for the date; Boston was a little colder with -1.

It was -23 in Newport, Vt. and -20 in Burlington and Montpelier, Vt. New York state reported these sub-zero marks: Watertown -25; Massena -22; Albany -18; Glens Falls -15; Poughkeepsie and Binghampton -18; Utica -15, Syracuse -11, and Elmira -10.

Snow fell over wide areas of the East yesterday, with falls reported from eastern Kentucky to southern New England. The fresh snow measured up to 5 inches in some areas. Temperatures stayed below zero all day yesterday in sections of New England and New York state.

Today's freezing line extended southward to the northern Gulf states. But the Gulf coast escaped the blast of icy air and early morning readings ranged from the 50s to near 70.

The only precipitation in the cold belt today were snow flurries near the Great Lakes region.

Temperatures moderated over the Great Plains and Rocky Mountains, which reported considerable cloudiness and light snow and freezing drizzle.

WEATHER

NORTH CENTRAL TEXAS: Cloudy with occasional rain Thursday, changing to freezing rain or snow in extreme northwest portion Thursday night. Colder west portion with lowest 26-36 in west portion Thursday. Friday, cloudy and colder with some freezing rain or snow in northwest portion in the morning.

WEST TEXAS: Cloudy turning colder except in east portion of Panhandle and South Plains and east of Pecos Valley Thursday afternoon. Freezing rain or snow in Panhandle and South Plains and occasional rain east of Pecos Valley late Thursday. Lowest 18-28 in Panhandle and South Plains and 28-38 elsewhere Thursday night. Friday, clearing and cold.

EAST TEXAS: Cloudy and occasional rain late Thursday and early Friday. Some freezing rain likely in extreme north Friday. A little warmer Thursday. Colder Friday. Moderate to fresh southeasterly winds on the coast, shifting to fresh northerly Friday.

Officers Hunt For Explosives Cache

HOUSTON, Tex. (AP)—Texas Rangers and Houston police continued a search today for an explosives cache from which an ex-convict says the nitroglycerine bomb which killed Helen Harris Weaver was made.

Mrs. Weaver, 51, a wealthy San Angelo, Tex., ranchwoman, was blasted to death Jan. 19 when she stepped on the starter of her husband's automobile.

Police Chief Jack Heard said last night, "We now know who set the bomb" that killed Mrs. Weaver. He said Andrew H. Nelson, 45-year-old ex-convict, told officers that he instructed a man on how to rig the nitro bomb.

Heard said Nelson declared this man went to San Angelo the night before Mrs. Weaver was killed, rigged the bomb in Weaver's automobile and was back in Houston by the time the explosive was detonated.

A former son-in-law of Mrs Weaver's—Harry L. Washburn, 38, of Houston—is under a murder charge in her death and held in the Tom Green County jail at San Angelo. He says he was in Houston when the bomb went off.

Shortly after Heard's announcement last night, police and Texas Rangers took Nelson on a wide tour of the area between Houston and Rosenberg in search of the spot he says he and the man hid explosives and bomb-making material. Heard said if wire and caps were found they would be compared with material found in the wrecked Weaver automobile.

Officers said Nelson, under a burglary charge, was first linked with the Weaver case by tips supplied Detective H. K. Thompson and Heard.

Officers said Nelson was identified in Rosenberg by Allen Titel, 26-year-old clerk, as the man who bought a quantity of explosives and detonation material.

Police Capt. Cecil Priest said Titel also identified from a photograph the man whom Nelson said accompanied him when he bought the bomb material. The second man, Titel told officers, helped load the explosives in a 1952 Ford.

Washburn was charged after two men told police he gave them money, guns and a car last March and told them to kill Harry E. Weaver, the slain ranchwoman's husband.

The pair quoted Washburn as saying, "I'll do it myself, then," after they refused to carry out the plan.

Auto Tags Moving

By noon today, the county tax office had registered 235 vehicles for 1955 since the new license plates became available Tuesday morning.

Those registered were 15 trailers, 14 farm trucks, 15 commercial trucks, 190 passenger cars, and a motor scooter.

Norther Brings Wind

A windy norther which blew into Snyder last night got the temperature down to only 39 degrees. By 7:30 this morning, the mercury had risen to 46 degrees. Yesterday's maximum reading was 66 degrees.

Bill Is Due On Floor Next Week

WASHINGTON (AP)—The House Armed Services Committee today approved 32-0 a bill extending the draft for four more years. The House is expected to consider it next week.

The committee voted for two changes in the present law but kept intact basic requirements that all young men of 18½ years are subject to induction for two years active service followed by six years obligation for reserve duty.

Under the committee-approved changes:

1. Any young man joining the National Guard before he is 18½ and serving continuously until age 26 could not be drafted. The law passed in 1951 now makes him liable for the draft until he is 35 years old.

2. Anyone who served after Sept. 16, 1940 for six months or more in the Army, Navy, Air Force, Marines or Coast Guard, or 24 months in the Public Health Service, would not be liable for induction except in event of a declaration of war or a national emergency declared by Congress.

John R. Blandford, committee counsel, said the purpose of the second amendment is to make sure that young men who serve in the armed forces but are discharged with less than two years service will not be called for a second tour in peacetime.

Blandford said that at one time there were about 144,000 servicemen serving their second tour of duty.

A Pentagon spokesman said the Defense Department did not actually oppose the changes but would prefer some different amendments more in conformity with a planned reorganization of the reserves which will be presented later to Congress.

Chairman Vinson (D-Ga) suggested that the Pentagon "revise its views" on the pending reserve bill to conform to these amendments.

Vinson said he expected that Rep. Burr T. Harrison (D-Va) might propose an amendment on the House floor to clarify one phase of agricultural deferments but the chairman said otherwise he expected no changes in the bill as approved by the Committee.

An Armed Services subcommittee will consider later a separate measure by Rep. Hinshaw (R-Calif) to grant exemptions to young men with promise of scientific and technical careers. Vinson said this will not be offered as an amendment to the main draft law.

Testifying before the committee yesterday, Dr. Ralph W. Chaney, a University of California scientist, urged an exemption for youngsters who give promise of proficiency in science.

Chaney said in that connection that atomic laboratories are "having casualties" from radiation.

He declined to give any precise details in talking later with newsmen, but made the statement yesterday to the House Armed Services Committee in support of his plea that Congress exempt promising young scientists from the military draft.

Atomic scientists are serving under hazards "as great as those of the battlefields," he said.

Five Firms In Fluvanna Burglarized

Five business houses were burglarized in Fluvanna last night, including one which was also burglarized sometime Saturday night.

Only a few small items were taken in most of the burglaries, and pennies were left undisturbed in all of them.

Probably the most serious of all offenses was the burglary of the post office, where the front door was pryed open with a metal bar, but only $2.90 in cash was taken. No money order blanks or stamps were reported missing.

The Fluvanna Mercantile, which was also burglarized Saturday night or early Sunday morning, reported losing a pistol holster in last night's burglary. The pistol the holster once belonged with was stolen in a burglary several years ago. The only other thing missing was some cheese, believed to have been eaten during the offense.

In the Saturday night burglary, six cases of coffee, 35 cartons of cigarettes, and possibly a few pairs of leather gloves were taken.

The Fred Winters service station reported nothing missing. A silver dollar was taken from the Bill Mull service station, where burglars left $2 in pennies. Three cans of beer were found in the driveway near the front door, presumably left by the burglars. Only a piece of pie was missing from the cafe of Panch McDonald.

The burglaries are being investigated by E. E. Norris, deputy sheriff.

Chou Rejects U.N. Offer

LONDON (AP)—Premier Chou En-lai said today Communist China would attend a United Nations debate on the Formosa situation only if Nationalist China was ousted from the Security Council in her favor.

Chou rejected the U.N. invitation sent Jan. 31 asking his country to send a delegation to debate a New Zealand resolution calling for a cease-fire in the Formosa area.

A Peiping radio broadcast quoted Chou as saying:

"The government of the People's Republic of China holds that only for the purpose of discussing the resolution of the Soviet Union and only when the representatives of Chiang Kai-shek's clique have been driven out from the Security Council and the representative of the People's Republic of China attends in the name of China can the People's Republic of China agree to send a representative to take part in the discussions of the Security Council."

The Russian resolution before the Council accused the United States of aggression in Formosa Strait.

Shepperd Says He Didn't See Letter Before Last Dec. 28

By BO BYERS

AUSTIN (AP)—Atty. Gen. John Ben Shepperd underwent intensive questioning last night by Sen. Jimmy Phillips concerning Shepperd's share of the responsibility for administering the veterans land program.

Phillips, as a member of the Senate investigating committee probing irregularities in the 100 million dollar veterans land program, hammered Shepperd with questions on three major points:

1. Was Shepperd informed as early as October, 1953, that profiteering in "block deals" might be going on under the program.

Shepperd said he knew of only two block transactions before last Dec. 22 and neither of those went through.

2. Does Shepperd think any of the three board members—the governor, attorney general and land commissioner—can divest himself of responsibility for the admnistration of the land program?

"He can divest himself of the duty of running the program, and that has been the policy since the start (1949)," said Shepperd, adding that he thinks the board must set policy but can delegate administrative responsibilty to one board member.

3. Has Shepperd sought preferential treatment on some land transactions, such as requesting that an application be expedited or given special consideration?

Sheppard said he couldn't answer that question without checking the records, that he might have forwarded requests of some applicants as a matter of routine, but that he does not request any action be expedited.

In connection with the question of whether Shepperd might have been advised of possible mis-use of the program in 1953, the year he became attorney general, Phillips made public a letter he said was directed to the attorney general's office on Oct. 22, 1953.

The letter, written over the signature of then County Attorney G. Curtis Jackson Jr., of Crystal City, Zavala County, suggested profiteering in land deals needed investigation and prosecution.

Shepperd, who was called by the committee for questioning under oath at Phillips' request, swore he never saw the letter until a copy of it was produced at a hearing of the committee last Dec. 28.

"It is my testimony that I did not see that letter until Dec. 28 last year," the attorney general said in reply to persistent questioning on that point by Phillips.

"I think it should also be noted," said Shepperd, "that Mr. G. Curtis Jackson has been involved himself in some of these deals."

Jackson is one of five men named as defendants in two suits filed yesterday in 53rd District Court by Shepperd to recover approximately half a million dollars paid by the Veterans Land Board on two land transactions in South Texas.

One of the suits is against J. Paul Little, H. R. Stallings, and Jackson, all of Crystal City, seeking repayment of more than $150,000 and voiding of contracts of 24 veterans who purchased land from them under the veterans program.

The other suit asks repayment of some $350,000 by L. V. Ruffin and B. R. Sheffield of Brady and rescinding of contracts of 54 veterans who purchased from them.

Shepperd, whom Phillips interrogated for some three hours 20 minutes last night, will appear before the committee for further questioning at 8 a.m. Monday.

While the Senate panel is in recess for the weekend, a newly created House investigating committee will launch its efforts to get "the whole truth" about how the veterans land program has been administered.

Vertical Takeoff Aircraft Unveiled

NIAGARA FALLS, N.Y. (AP)—The Bell Aircraft Corp. today unveiled a jet-powered vertical takeoff and landing aircraft its executive feels could revolutionize military aviation as well as some forms of the air transport industry.

Lawrence D. Bell, founder and president of the company, said he felt the plane was "the most significant single development in aircraft flight since the Wright brothers' first airplane."

The plane, long a subject of speculation in the aircraft industry, was designed and built by Bell engineers at a cost of more than half a million dollars. It is powered by two jet engines mounted on an axle at each side of the body. The engines can be turned from a vertical position for takeoffs and landings to a horizontal position for level flight.

In addition, the craft is equipped with a compressed air system that ejects air streams at the wing tips and tail, thus giving the pilot control of the plane during landings and takeoffs. Bell engineers said that as far as they knew, this was the first practical application of such controls called "reaction controls."

During level flight, standard aircraft controls will be used.

The plane, successfully flown more than 20 times by Bell test pilot David W. Howe, is a queer-looking contraption but an obvious top-wing monoplane. It has no wheels — it doesn't need them. And it has a glider body with an open cockpit. It is 21 feet long and has a wing span of 26 feet.

The jet engines have not actually been rotated in flight. But the test program calls for such testing in a matter of weeks. Howe has maneuvered the plane in the air by means of the compressed air control system. He has used the jet engines to take off and land and to keep the plane in the air.

The obvious military value is that such a plane can operate in the field without runways like a helicopter. But unlike a helicopter, its speed is not limited to less than 200 miles an hour.

The principle, according to Bell engineers, can be applied to a combat jet fighter that exceeds the speed of sound.

AREA OIL ROUNDUP

Rotary Wildcat Set In Stonewall

Rowan & Hope of San Antonio have staked location for a 6,500-foot rotary wildcat 14 miles north of Aspermont in north Stonewall County.

The test will be drilled as the No. 1 Dan Hill, and will be 467 feet from south and 660 feet from east lines of the southwest quarter of 181-D-H&TC. It is a mile northwest of an indicated five-eighth mile northwest extension to the Bertha-Bend conglomerate field.

The location is also a mile and a half northwest of Texas Pacific No. 1 Winter, a bend conglomerate discovery, and a mile northwest of Rowan & Hope No. 1 Ed Hahn. The No. 1 Hahn is an indicated confirmation to a discovery.

SCURRY LOCATION

Thompson & Powell and Derrick Drilling Co. No. 1-B J. B. York is to be drilled in the Kelley-Snyder field about a quarter of a mile west of Snyder.

An application filed with the Railroad Commission gives the location 1,969 feet from north and 3,167 feet from west lines of 180-3-H&GN, and on a 78-acre lease. Rotary tools are to be used to drill to 6,800 feet. No date for the beginning of operations is given.

FINDS OIL SHOWS

Ellenburger oil was unloaded on a drillstem test at Union Oil Co. of California and Great Western Drilling Co. No. 1 C. B. Johnson, southeast Fisher County wildcat.

The test covered the interval from 5,874-899 feet with the tool open an hour. When the drillpipe was pulled, it unloaded 3,414 feet of oil. Recovery below the circulating sub was 50 feet of mud-cut oil and 250 feet of sulphur water. Operators were running casing at last report. Total depth is 5,899 feet.

The No. 1 Johnson is a mile north of Eskota and in 23-20-T&P.

WILDCAT FAILURES

Lennert Erickson and others have plugged and abandoned as a failure their No. 1 Darden, a wildcat one and a quarter miles southeast of Rotan in Fisher County.

The No. 1 Darden was drilled to 6,101 feet before being plugged. It was in 14-2-H&TC.

Warren Petroleum No. 1 Maude E. Pressler, formerly J. R. Hughes No. 1 Pressler, a southeast Nolan County venture, was temporarily abandoned on total depth of 6,070 feet. It was drilled four miles north of Hylton and in the southeast quarter of 185-64-H&TC.

COKE COUNTY

Hall & Stewart and Robert S. Brennand, Jr., No. 1 Mrs. J. B. McCutcheon, east Coke County wildcat, six miles east and slightly north of Robert Lee, found a slight show of oil and gas in a drillstem test from 4,897-923 feet.

The tool was open one and a half hours. Recovery was 390 feet of oil and gas-cut drilling mud and 600 feet of salty sulphur water. Flowing pressure was 200 pounds. Shutin bottomhole pressure after 15 minutes was 1,800 pounds.

The well, contracted to 5,000 feet, is now taking electric logs. It is six miles east and one and three-quarter miles south of the opener of the Munn-Canyon sand field in 421-1A-H&TC.

DRILLING REPORT

Magnolia Petroleum No. 1 Jesse York, East Borden wildcat, is at total depth of 4,890 feet in lime and preparing to drillstem test.

Sun Oil No. 1 Hudnall in east Scurry County is drilling in shale and sand below 6,566 feet.

Officers Quiz Model Again

NEW YORK (AP)—Estelle Gardner, 26, brunette model who was a guest in financier Serge Rubinstein's 5th Avenue mansion a few hours before he was slain, has been questioned for a third time in police efforts to solve the mystery murder.

She was questioned last night after cab driver Abe Lewis told police he had picked up a woman fare near the Rubinstein home shortly before 2 a.m. last Thursday. This is the time the model said she left the millionaire playboy after having a goodnight drink with him.

But Lewis could not identify Miss Gardner as his fare.

Between 2 a.m. and 8:30 a.m., when Rubinstein's panaka - clad body was found in his bedroom by the family butler, the murderer or murderers gained access to the locked and barred house and gagged, trussed and strangled the 46-year-old World War II draft dodger.

Stanley T. Stanley, a broker friend, yesterday denied he had furnished police with a list of 10 of the slain's man's business foes for possible questioning.

Police say they have checked through about three quarters of 1,000 names appearing in half a dozen address books kept by Rubinstein.

Fourth Jail Escapee Caught At Plainview

PLAINVIEW, Tex. (AP)—Capture of 49-year-old R. S. Hemphill in this Texas Panhandle city yesterday completed the roundup of four men who fled the Delta, Colo., jail Monday.

Hemphill, a native of Grayford, Tex., and a former Plainview resident, was arrested by two deputy sheriffs shortly after he walked out of a house and got into a stolen pickup truck.

Deputy John Shropshire said he and another deputy quickly curbed the truck and Hemphill, unarmed, stepped out and surrendered.

Aunt Charged In Boy's Death

OKLAHOMA CITY (AP)—Lloyd George Stanley Jr., 5, cruelly burned and beaten, died early today and murder charges were filed against an aunt who admitted the beating.

The boy was hospitalized nine days ago. He lapsed into a coma yesterday.

His estranged parents, reunited by the tragedy, were at his bedside when death came at 2:30 a.m.

County Atty. Raymond Burger said murder charges were filed against the aunt, Mrs. Virginia Thompson, 29, and her husband, Lawrence, 32. He said the husband took no active part in the beating but was charged because he failed to come to the boy's aid.

Burger said the beating of young Lloyd, and his 3-year-old brother, James Edward, was the most brutal crime of his prosecution career and announced he would seek the death penalty for Mrs. Thompson when she comes to trial.

James Edward remains in a hospital here. He is expected to recover but doctors said he would probably require plastic surgery.

The parents, Mr. and Mrs. Lloyd George Stanley Sr., said Mrs. Thompson begged permission to care for the boys and a daughter when the Stanleys became estranged late last year.

Reds Tell Of Potential For A-Projects

By WARREN ROGERS JR.

WASHINGTON (AP) — The Russians, rather coy about taking part in President Eisenhower's atoms-for-peace plan, are giving free rein to their imaginations about what it could mean.

For instance, a recent broadcast from Moscow monitored in Washington talks about moving mountains, reversing rivers, even melting the polar icecap.

The broadcast was based on an article by an engineer, Andrei Markin, who said Soviet scientists have taken steps in peaceful uses of atomic energy to "make it possible to rectify many defects of nature."

The article suggests that only the Communist approach will work in using atomic energy on an international scale. He says of his projects that "under capitalism they cannot be turned to practical account."

Then he says "plans exist"—without saying where—"to irrigate deserts such as the Sahara, to construct a huge hydroelectric power station in the Straits of Gibraltar, and so forth."

Markin goes on:

"An even bigger scheme would be the construction of a power dam in the Bering Straits. There is also a plan to create a whole complex of projects with a view to directing the warm currents of the Pacific into the Arctic Ocean in order to raise the temperature of the areas behind the Arctic Circle."

Capt. H. E. Finnegan, who is chief of the Tides and Currents Division of the U.S. Coast Guard and Geodetic Survey, was skeptical about melting the polar ice cap.

"What happens in the rebound when the icecap's pressure eases off?" he asked.

He produced a Weather Bureau estimate that if all the world's icecaps and glaciers melted, the sea level would rise perhaps 150 feet. That would flood San Francisco and New york, as well as Sevastapol and Vladivostok—and all other ports everywhere.

Soviet engineer Markin did not ignore his own country. Atomic explosions might blast away the canyon called Turgay Gate and "the way will be opened for the rivers of Siberia to flow southward to Central Asia and Kazakhstan," he said, adding:

"The Arab steppe will become a flowering garden of bountiful fields."

BIRTHS

Mr. and Mrs. Bill Watson, 1914 Coleman, are the parents of a daughter weighing seven pounds, four and a quarter ounces, born in Cogdell Memorial Hospital at 9:43 a.m. today.

American, Indian To Head Conference

By WILLIAM N. OATIS

UNITED NATIONS, N. Y. (AP)—An American and an Indian will be top men at the first world scientific conference of atoms-for-peace in Geneva next August. The U.N.-sponsored parley will disclose scientists' estimates of the prospects for nuclear power in the next 25 to 50 years.

The American, Walter Gordon Whitman, 59, of Concord, Mass., will be the secretary general, in charge of arrangements. He is a pioneer researcher in aircraft propulsion for the U. S. Atomic Energy Commission, member of the AEC's General Advisory Committee and director of the Defense Department's research board.

Homi Jehangir Bhabha, 45, of Bombay, chairman of India's Atomic Energy Commission and secretary of its Department of Atomic Energy, will be conference president, empowered to rule out political discussion.

U. N. Secretary General Dag Hammarskjold announced their appointments last night in letters inviting 84 countries—10 of them Communist—to send five official delegates each to the congress.

He enclosed an agenda and rules for the "International Conference on the Peaceful Uses of Atomic Energy," to start Aug. 8 in the old League of Nations Palace and last 12 working days.

The rules, formulated by a seven-nation advisory committee of scientists which met here Jan. 17-28, specify that the conference is for exchange of information only. One provision reads: "No proposals requiring adoption by voting shall be submitted or entertained by the conference."

The committee also agreed that the conference proceedings will be published.

To guard against the propaganda exchanges which have impeded so many postwar international conferences, the rules also provide that reports will be "presented only from the scientific and technical points of view" and that the President "may call a speaker to order if his remarks are not relevant."

Hammarskjold also sent with the invitations an announcement that the Soviet Union plans to report to the conference on "the U.S.S.R.'s first atomic power plant for industrial purposes and methods of developing atomic power." The Russians say they began operating such a plant, generating 5,000 kilowatts of electricity, last summer.

The United States already is producing electricity at two small experimental plants, one at the AEC's reactor testing station in Idaho and the other at Oak Ridge, Tenn.

The U. N. General Assembly called for the conference in a resolution adopted unanimously last Dec. 4 as the outgrowth of President Eisenhower's "atoms - for - peace" speech a year earlier.

HOSPITAL NOTES

The following admissions and dismissals at the two Snyder hospitals are only those whose names have been released by the hospitals.

BATTENFIELD-JONES

Admissions: Irley H. Jones, Clairemont route; Chester L. Sole, route 1; Mrs. Edna Campbell, Hermleigh; Guy E. Miller, 2800 Twenty-fifth Street; Mrs. Sybil Jones, 704 Twenty-seventh Street; Melba Eubank, Snyder; Mrs. Carl Ashley, Snyder.

Dismissals: Mrs. Clarence Watkins, 1603 Avenue R; Carl Smith, route 2; E. V. McDaniel, Midland.

COGDELL MEMORIAL

Admissions: Mrs. Bill Watson, 1914 Coleman; Mrs. Garland Smith, Snyder; Mrs. Carmeta Baird, Snyder.

Dismissals: Michael Edwards, Snyder; Mrs. Dewey Everett, Snyder.

Two Men Fined Here On Pleas Of Guilty

Two men arrested last night were assessed fines this morning when they pleaded guilty to misdemeanor charges in county and justice courts.

Jesse Otis Bunch, 30, Rig Motel, was assessed a fine of $50 plus court cost of $23.50 and a mandatory three-day jail sentence when he pleaded guilty to a charge of driving while intoxicated. His Colorado driver's license was forfeited by automatic process of law to be sent to the department of safety for forwarding to Colorado for suspension there.

With Bunch when arrested by E. E. (Buddy) Norris, deputy sheriff, was Hugh Horton, 32, Rig Motel, who pleaded guilty in justice court to a charge of being intoxicated in an automobile. He was assessed a fine of $38, including cost.

Burns Prove Fatal To Woman In Dallas

DALLAS (AP)—Dorothy Husky, 39-year-old nursing companion, died of burns late last night about 16 hours after she was found in a vacant lot with her clothing smouldering.

Fire Investigator L. G. Beasley said the woman told him she drenched her clothing with inflammable fluid, then set herself afire after going to the vacant lot. She did not explain her actions.

She was burned over much of her body.

She moved here recently from Calera, Okla. Funeral arrangements are pending.

Turks Going Ahead With Defense Pact

By RICHARD EHRMAN

ROME (AP)—Turkish Prime Minister Adnan Menderes declared today his government will go ahead with its mutual defense alliance with Iraq despite the opposition of other Arab League countries.

Leaving for home after four days of talks with Italian officials, Menderes said other Arab nations were still welcome to join the Iraq-Turkish alliance, but "we don't care about the attitude of other Arab countries, nor do we care about their reaction."

Lebanon's government announced last night that Iraq Premier Nuri Said had agreed to meet Egyptian Premier Gamal Abdel Nasser in Beirut in an effort to smooth the split in the Arab League caused by Nuri's agreement with Menderes. But in Cairo, Nasser, after a meeting of the Egyptian Cabinet, said no decision had been made on whether he would meet Nuri and the Cabinet had approved Egypt's withdrawal from the Arab League if Iraq, a league member, signs the treaty with non-Arab Turkey.

Lebanese Premier Sami Solh and leaders of three other Arab nations are now in Baghdad trying to iron out the squabble. Egypt charges the proposed pact is a threat to the neutral position she contends the league should maintain in the East-West cold war.

(Some observers feel that Egypt also fears that outside alliances might threaten her position as acknowledged leader of the Arab bloc.

Egypt contends that the Arab nations should pin their defenses on their league's collective assistance pact signed in 1950. Iraq says that since that treaty has never been implemented, she needs Turkey's strong military forces to help her guard against possible Soviet aggression.)

In their talks with the Italian leaders, Menderes and Turkish Foreign Minister Fuat Koprulu discussed the possibilities of Turkey's joining the projected Western European Union and Italy's inclusion in the Balkan "Little Three" alliance of Turkey, Greece and Yugoslavia.

Both Menderes and Italian Foreign Minister Gaetano Martino made plain at an airfield press conference today that further talks would have to be held before either step in strengthening the Western defense chain could be taken.

Menderes said Yugoslavia and Greece would have to be consulted about Italy's joining them. Greece, Italy and Turkey are already members of the North Atlantic Alliance, but an Italian-Yugoslav link may be difficult to achieve because of their long dispute over Trieste.

Foundation Helps Area Polio Cases

The Infantile Paralysis Foundation has spent an amount equal to about 133 per cent of last year's March of Dimes contributions here for treatment of 1954 polio patients in the Scurry-Borden chapter area.

This was part of the information presented to members of the Snyder Kiwanis Club Wednesday by Bob English of the foundation.

English said treatment for polio patients will continue through the foundation as long as it is needed. He said it costs $16.50 per day for a patient to be treated in the polio center at Hendrick Memorial Hospital in Abilene, $17.50 per day at Gonzales Warm Springs, and $19.50 per day at the new respirator unit in Houston.

This year the foundation plans to spend $9 million for the new Salk vaccine, which will be made available to first and second grade school pupils through public health facilities, English said. Although field tests on the vaccine have not been finally evaluated, all tests in laboratories indicate that it is effective, he said. Drug manufacturers are due to produce an amount equal to the foundation's purchase for the regular market this year.

English was introduced by Forrest Beavers, chairman of the Scurry-Borden chapter of the Infantile Paralysis Foundation.

A motion picture film, featuring Helen Hayes and showing equipment in several polio treatment centers, was projected.

Jay Tate, chairman of the Kiwanis Club's boys and girls committee, was in charge of the program.

"Old Ironsides," the first steam locomotive built by Matthias Baldwin, cost $3,500. A modern three-unit diesel electric locomotive todays costs about $500,000.

Suspect In Forgery Says He Is Juvenile

Carey Byrd of Lamesa, charged here by felony complaint with forgery of a $15 check which was cashed recently at Inadale, was returned here last night from Greenville by Bill Love, chief deputy sheriff.

Love said Byrd told him and other officers he was only 16 years old, however, which would place him in the legal category of being a juvenile. The sheriff's department was trying this morning to verify his age to determine whether he was a juvenile or an adult at the time the offense is alleged to have occurred.

A 16-hear-old Lamesa girl was still being held in jail in connection with the case. She is reported to have signed a statement saying she cashed the check for Byrd.

New Type Dogtags Put In Use By City

New dogtags shaped like a dog house are now being issued by the city of Snyder for 1955 city dog registrations, E. D. Allen, city dog officer, said.

The new tags are only for city registration of dogs, and the vaccination tags formerly used will continue to be used. Vaccination of a dog is necessary before it can be registered.

Old vaccinations are good with the new tags until the expiration of the vaccine period.

UPSIDE DOWN CHERRY BRAN BREAD

Helps For Homemakers

Send your questions to "Helps for Homemakers," Snyder Daily News, or call 3-5486.

Cherry Bran Bread is no ordinary quick bread. It's chuck-full of red maraschino cherries, whole bran and pecans. But, its delicious caramel-like cherry nut upside down topping makes it a truly distinctive bread.

A mixture of cherries, nuts, butter and brown sugar is spread in the bottom of the baking pan and covered with cherry bran batter. When the bread is baked, it is turned from the pan and cooled upside down so the cherry-nut mixture becomes a tempting topping.

To prevent quick breads from cracking on the top, try this trick of food experts. Be careful not to overmix the batter and cover the loaf with an inverted bread pan or cover with aluminum foil. At the end of 20 minutes of baking, remove pan or foil and continue baking.

CHERRY BRAN BREAD

2½ cups sifted all-purpose flour
3 teaspoons baking powder
¾ cups sugar
½ teaspoon salt
1 egg, beaten
1¼ cups milk
2 tablespoons melted butter or margarine
1 cup whole bran
½ cup chopped maraschino cherries
¼ cup chopped nuts

Sift together flour, baking powder, sugar and salt. Combine egg and milk and stir into dry ingredients. Add melted butter, whole bran, cherries and nuts and mix until well blended. Pour into a prepared pan and bake in moderate (350 degrees) oven for one hour or more. Remove at once from pan onto rack. Cool before slicing.

CHERRY BRAN BREAD TOPPING

1 tablespoon butter or margarine
¼ cup light brown sugar
½ cup maraschino cherries
¼ cup chopped nuts

Melt butter in bottom of loaf pan and sprinkle brown sugar, cherries and nuts evenly over bottom of pan. Let stand while mixing the bread.

NEWS FROM UNION

By MRS. J. B. ADAMS

Mr. and Mrs. Jack Shinn of Hobbs, N.M., were weekend visitors of her parents, Mr. and Mrs. Everett Clarkson.

The Rev. Harvey Carrell of Wink visited Thursday with Mr. and Mrs. Parish McPherson.

The Methodist Youth Fellowship group from the First Methodist Church in Colorado City visited the Union Methodist Church Sunday night and presented a play, "The Lost Church."

Mrs. Starley Lennamon was called to Texarkana last weekend by the death of her grandfather.

Weekend visitors of Mrs. J. B. Adams were Mr. and Mrs. O. R. Adams and Joe Bayless of Rankin, Mr. and Mrs. E. M. Boles, Joe Carl and Donna of Lamesa and Mr. and Mrs. Lester Neimeyer and Tihiti of Lamesa.

Mr. and Mrs. Jake James and Mrs. Verna Hicks of Snyder visited in the Everett Clarkson home Saturday night.

The women of this community met Tuesday in the Baptist church to sew for the Adrian Sanders family. Mrs. Sanders has been in the hospital for a week where she underwent surgery.

Mr. and Mrs. Alvin Brock of Snyder visited Mr. and Mrs. Paris McPherson Sunday.

Sorority To Hold Valentine Party

Mrs. Roy Wood was honored with a surprise pink and blue shower at a regular meeting of Iota Psi chapter of Epsilon Sigma Alpha sorority Tuesday night with Mrs. Charles R. Baker, 121 Browning, hostess.

During a business session, chapter by-laws were read by Mrs. Glenn Cox and voted on by members. A report of the March of Dimes meeting held Tuesday night was given by Mrs. Jim Burt and Mrs. Rufus Hart, chapter representatives at the meeting.

Plans were made for a Valentine party to be held February 15 at the Hilander.

Refreshments were served to 19 members and five guests, Mrs. E. E. Folk and Mrs. Sylvia Herring of Snyder and Mrs. G. E. Allison, Mrs. Charles Diggs and Mrs. G. S. Hilliard of Sweetwater. The Sweetwater guests are members of the Beta Omega chapter of ESA in Sweetwater.

Dior's New 'V' Shocking To British

LONDON (AP)—It wasn't the way Christian Dior crushed the bosom in most of his new gowns that upset the British but the way he virtually unveiled it in a few others.

British newspapers, reporting on Dior's spring showing, in Paris yesterday, agreed that things were kept flat in most of the models. But the critics were scandalized over what the normally austere London Times called the "release from imprisonment" afforded by some of the evening dresses.

The prevailing opinion was that these would never get by in Britain.

"They are cut daringly low," reported the Manchester Guardian, "either in a deep V, or with a high, stiffened, square decolette that pushes the breasts into two provocative half moons."

Some of the models, the Guardian added, "have the air-grace, the begotten, not made, look of Botticelli's Venus."

The Daily Sketch said some of the gowns "virtually bare the breast. They are deeply scooped out, something like those Nell Gwynne (mistress of Britain's 17th century King Charles II) used to wear.

"Often at today's show one blushed for the models with a bare half inch to spare between themselves and the shocked audience. ... Sometimes the bust is pushed up so high, and the neckline scooped out to such a deep U, that an inch would measure the loss of modesty."

After surveying the Dior V, a News Chronicle critic reported: "I can think of no woman who would wear it in public except to win an extremely large bet."

WOMEN'S CALENDAR

THURSDAY

Friendly Fellows Club, 7:30 p.m., with Mr. and Mrs. Giles Bowers, 2506 Thirty-first Street.

Girl Scout Planning Board, meeting, 5 p.m., at the Little House.

St. Elizabeth's Altar Society, meeting, 8 p.m., at the church.

FRIDAY

Snyder Book Review Club, night meeting, 7:30 p.m., in fellowship hall of the First Methodist Church. Mrs. George W. Weiss of Brownfield, guest speaker.

East Elementary Girl Scout Neighborhood, meeting, 9:30 a.m., with Mrs. M. P. Herring, 3107 Fortieth Street.

Ladies' Day, duplicate bridge, 9:30 a.m., with Mrs. Ophelia Blackard, hostess, at the Country Club.

El Feliz Club, meeting, 3 p.m., with Mrs. J. E. LeMond, 2908 Thirty-seventh Street.

Benefit Party Is Held

More than 100 persons attended a benefit pie supper and bingo party held Tuesday night in the recreation hall of the Sunray Gasoline Plant. Proceeds from the benefit are to be donated to the March of Dimes drive.

WHAT'S GOING ON

Mr. and Mrs. Renal B. Rosson, 1412 Thirty-first Street, attended the Fort Worth Fat Stock Show last weekend.

Mrs. John Abercrombie, 1601 Twenty-seventh Street, and Mrs. Loyce D. McCravey, 2401 Fortieth Street, are spending today in Big Spring.

Visitors in the home of Mr. and Mrs. W. R. Milton, 1603 Twenty-seventh Street, over the weekend were their daughter and son-in-law, Mr. and Mrs. Roger Williams of El Paso, who were en route to Fort Knox, Ky., Mrs. Milton's sister and brother-in-law, Mr. and Mrs. Levi Lack of Anson, and Mr. and Mrs. Milton's son, Neal Milton of Dallas.

Colleen Soles, daughter of Mr. and Mrs. Adam Soles, is home from T.C.U. for a short visit.

Mr. and Mrs. Buddy Martin and daughter, Beverly, of Big Spring visited last weekend in the home of Mr. Martin's parents, Mr. and Mrs. A. C. Martin, 3211 Avenue U.

Mr. and Mrs. V. V. McGrew, 3602 Avenue V, honored their son and daughter-in-law, Mr. and Mrs. Vern McGrew of Austin, at an open house Saturday evening in their home. Guests also were introduced to the couple's five and one-half months old twin sons, Bill and John. The Vern McGrews left Monday to return to Austin where Mr. McGrew is attending law school at the University of Texas.

Mr. and Mrs. Fred Overman and sons and Mr. and Mrs. A. C. Weaver and Roger attended the Stock Show and Rodeo Tuesday in Fort Worth. They also visited Mrs. Overman's sister, Helen Nixon, who is attending school there.

Program Held On Scurry Pioneers

A program on pioneer personalities was presented by Mrs. H. L. Wren at a meeting of the Woman's Culture Club Tuesday afternoon. She spoke on the lives of two of Scurry county's earliest settlers, J. Wright Mooar and William Henry (Pete) Snyder for whom the town was named.

She told of Mr. Mooar's life as a buffalo hunter and trader during his early years in the West. In 1883, he settled on a ranch northwest of Snyder which he kept until his death in 1940.

Pete Snyder, born in 1837 of Dutch descent in Pennsylvania, came to Texas in 1872 to engage in the buying and selling of cattle, according to Mrs. Wren. In 1878, he established a trading post on the banks of Deep Creek which was the beginning of the town of Snyder, she stated.

Following the program, each of the 15 members present related an incident of interest that occurred in her earliest days in Snyder.

Mrs. A. C. Martin was hostess in her home, 3211 Avenue U.

Daughter Is Born To Former Snyder Couple

Mr. and Mrs. R. A. Hardee, route 1, received a cablegram Monday from Maracaibo, Venezuela, telling of the arrival of a granddaughter born January 30 to Mr. and Mrs. Calvin Galyen. The baby was named Gayla Dell. Mrs. Galyen is the Hardee's daughter.

The Hardee's have another daughter and son-in-law, Mr. and Mrs. Ray Neighercutt, who are also residing in Venezuela. Both couples are former residents of Snyder.

APPLIQUE INCLUDED

Flattering, flare-skirted, scoop-necked cap-sleeved style is proportioned to fit and flatter the shorter, fuller figure. Shirred-neck version included.

No. 3062 is cut in sizes 12½, 14½, 16½, 18½, 20½, 22½, 24½. Size 16½: Scoop-necked style, 4½ yds. 35-in. Applique included.

Send 30c for PATTERN with Name, Address, Style Number and Size. Address PATTERN BUREAU, Snyder Daily News, Box 42, Old Chelsea Station, New York 11, N.Y.

Patterns ready to-fill orders immediately. For special handling of order via first class mail include an extra five cents per pattern.

Concert Slated At Sweetwater

Earl Wild will present a piano concert to Sweetwater Civic Music Association members at 8 o'clock Friday night in the Sweetwater Municipal Auditorium. Snyder Civic Music Association members may attend by presenting their membership cards at the entrance of the auditorium.

Mr. Wild is nationally known for his piano concerts on stage, radio and television. He has been guest soloist under Toscanini and with New York Philharmonic, Boston and Washington Symphonies.

Mrs. Jordan Hosts 20th Century Club

Mrs. J. E. LeMond gave a travelogue on Santa Fe, N.M., at a Twentieth Century Club meeting Tuesday afternoon. Mrs. Bryan Jordan, 3604 Avenue U, was hostess.

A salad plate and spiced tea were served to eight members and three guests, Mrs. Ethel Eiland, Mrs. H. O. Beard and Mrs. John Hamblen.

Frankie Laine's Popularity Even Baffles His Mother

By BOB THOMAS

HOLLYWOOD (AP)—Frankie Laine departs today for Australia, where he'll probably add another chapter to his amazing success.

Laine has long baffled the experts. Even his own mother wouldn't term him handsome. He has a figure that resembles a barrel. He half sings, half shouts his songs in a voice that seems to some of his critics more suited for calling hogs. When he performs, he waves his arms like an aggravated windmill.

Yet he manages to draw a comfy half-million dollars a year and charm enthusiastic followers from Down Under to Scotland. How does he do it? I have always claimed that he is one of the last of the minstrels. He seems to be cut from the Al Jolson tradition of songster. Though he lacks vocal finesse, he more than makes up for it with enthusiasm and a superb lyric sense.

And sincerity. He can put his heart into weird pieces like "Mule Train" and "Wild Goose" and make you believe them.

I chatted with Frankie before his Australia hop. He was finishing up another of his Columbia musicals, "Bring Your Smile Along."

Frankie (born Frank Paul Lovecchio) discussed his contract with Columbia Records, which is one of the most envied in the business. He gets paid at least $50,000 a year for 10 years, and his accrued royalties continue five years after that. He makes a minimum of 16 sides per year, plus an album. One of the stipulations of the deal is that he must go out and perform before the public at least 26 weeks a year.

"The company knows the value of keeping your name alive with the public," he said. "It's all right with me. One TV show is counted as a week's work, so I can do a few guest shots, a couple of Las Vegas dates and some other night club and theater engagements and I'll have had it for the year."

His success in the record field has been phenomenal. Bing Crosby has sold more records in his long career. But no singer—not even young Eddie Fisher—has sold so many platters in such a short span. Laine has been a record star only since 1947, but his discs have been estimated at 25 million.

NEWS FROM HERMLEIGH

By MRS. JESS SPYKES

Mrs. S. A. Sifford was returned home Saturday from Young's Medical Center at Sweetwater where she was hospitalized following a recent fall. Her condition is reported to be improved.

Mrs. T. E. Shelburn visited last week with her sons and daughter and their families, Leslie Shelburn, Delma Shelburn, and Mrs. Cecil Sellers in Hamlin.

The W.M.U. of the Hermleigh Central Baptist Church celebrated the seventy-fifth anniversary of the organization Monday. Women of the Methodist Church were invited. Refreshments were served to 15 guests.

Harold Henderson, son of Mr. and Mrs. Ben Henderson, and Douglas Vineyard, son of Bishop Vineyard, received their discharges last week at Fort Hood.

Mr. and Mrs. O. I. Griffin, route 1, are to move to their home in Colorado City and their son and family, Mr. and Mrs. Wayne Griffin are to move to Hermleigh.

Mrs. John Perry of Sweetwater visited over the weekend in the home of her daughter, Mrs. Raymond May.

R. A. Boys of the Hermleigh Central Baptist Church were entertained at a chili supper given by the Brotherhood of the church last Saturday night.

Train Trip Planned By Brownie Troop

A trip by train to Sweetwater was planned at a meeting of Brownie Troop 32 Monday afternoon at the Little House. Date of the trip was set for Saturday.

The troop will join other troops of the West Elementary Girl Scout Neighborhood in observance of national "thinking day" February 22.

Hostesses at the meeting were Mrs. John Boren and her daughter, Jane. Troop leader is Mrs. H. F. Clark, Jr.

Winners At Bridge Are Announced

Mrs. J. P. Morris, hostess for the Wednesday Contract Club yesterday afternoon, won high score prize during the afternoon.

Second went to Mrs. G. C. Robinson, a guest. Bingo prize was won by Mrs. Bill Ellis. Mrs. Harold Parsons, 3825 Highland Drive, will be hostess next Wednesday.

Drilling Reaches New High As 137 Applications Are Filed

West Texas drilling reached a new high during the third week of 1955 as 137 applications to drill were filed in 31 counties in Railroad Commission Districts 7-C and 8. Twenty-one of the applications were for wildcats.

This is nine more applications than for the week ending July 19, 1954, which held last year's weekly record with a total of 128 applications.

The number compares to 79 tests, including 13 wildcats, staked the preceding week.

Totals for the year now are 259 field tests and 45 wildcats, a grand total of 304 tests for oil and a weekly average of 101.

Seven counties in District 7-C shared 31 applications to drill, including nine wildcats, while District 8 counties numbered 24, with 106 tests, including 12 wildcats staked.

District 7-C wildcats were: Tom Green, four; Coke and Runnels, two each; and Schleicher, one.

District 7-C field tests were: Reagan 10; Crockett 5; Coke, 4; Upton, 2; and Runnels 1.

District 8 wildcats were: Borden and Dawson, two each; Crane, Garza, Kent, Pecos, Reeves, Scurry, Terry, and Yoakum, one each.

District 8 field tests were: Andrews, 18; Crane, 10; Howard, 9; Midland, 8; Mitchell and Ward, 7 each; Scurry and Winkler, 5 each; Ector and Yoakum, 4 each; Garza, 3; Borden, Gaines and Sterling, 2 each; Crane, Glasscock, Hockley, Kent, King, Lubbock, Pecos and Terry, 1 each.

Happy Is The Day When Backache Goes Away . . . .

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

If You're Needing Tall Team, Try Using Elevator Shoes

By ED WILKS
The Associated Press

There was something new, something old and something blue in college basketball last night.

What Los Angeles State tried (unsuccessfully against Utah) — elevator shoes — was new. So was the game between Boston College and Tufts at Boston Garden. It was played under professional rules.

What Hank Iba's Oklahoma Aggies did to St.Louis' Billikens at Gallagher Hall in Stillwater, Okla., was old. The Aggies won, 67-54. And Eddie Hickey, bossman of the Bills, was blue. He hasn't won at Stillwater since 1943.

Coach Sax Elliott sent his Los Angeles State lads against the taller Utes with a boost in their boots. Glenn Abney, for instance, showed up with six-inch soles that nudged him above the seven-foot mark.

But Utah, ranked fifth in this week's Associated Press poll, rose to the occasion and whacked the Diablos 77-38 for their 15th success in 17 games.

Boston College upset Tufts 63-54 in the pro go at Boston. Both teams got a little rattled in the first half trying to avoid the 24-second violation (the pros have to take a shot within that time limit after gaining possession), but they calmed down in the second 20 minutes.

Only clear-cut decision after the experiment: Garden officials said the game, paired with a St. Anselm's-Bridgeport game played under orthodox college rules, made it the fastest college double-header ever played in the Arena. St. Anselm's whipped Bridgeport 81-58.

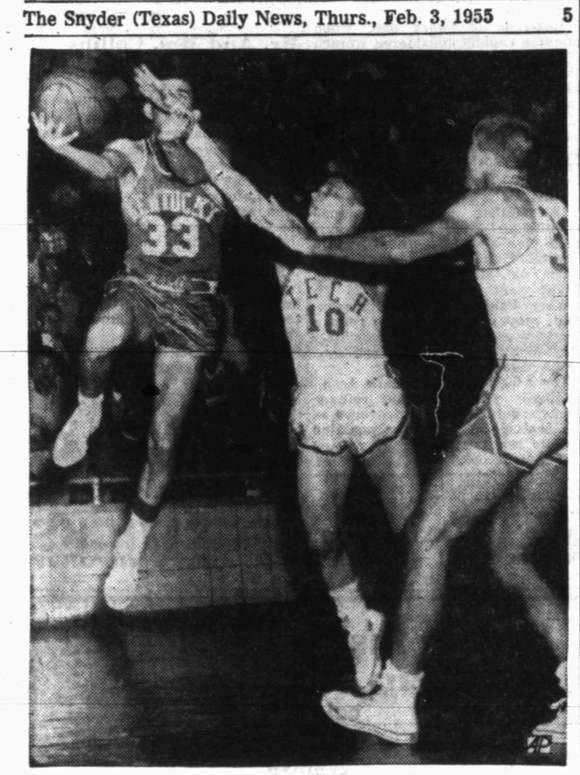

Only two other ranked teams were at work, and both won easily against lesser competition. LaSalle No. 3, rocked Georgetown 85-58 with All America Tom Gola hitting 12 of 17 field goal shots for a 34-point total. Duquesne, No. 4, ran over Westminster (Pa.) 70-56.

Texas Christian and Texas A&M also had something "new" — four Southwest Conference free throw records as TCU strengthened its league lead 92-62. The records came about when Dick O'Neal of TCU sank 22 foul shots, the two teams staged 102 free throw attempts and made 70 and TCU bagged 40 of them.

Wake Forest beat Virginia 96-90 in the Atlantic Coast Conference despite 32 points by Buzz Wilkinson No. 3 scorer in the nation. Columbia stayed close to the Ivy League's co-leaders, Penn and Cornell, as 5-9 Chet Forte scored 34 points in a 79-51 victory over Brown.

In the Southern Conference, Furman — the nation's team scoring leader — was held to a mere 60-58 victory over Virginia Tech, the lowest Furman total since the 1951-52 season.

SPORTS

GOOD GUARD WORK

Linville Puckett (33), Kentucky guard, gets a taste of the good guarding here that Georgia Tech used in Atlanta, Ga., to upset Kentucky for the second time in a thrilling 65-59 game. Joe Helms (10), Tech guard, is throwing the block as Dick Lenholt (30), Tech forward, helps. Kentucky, ranked No. 1 nationally in the Associated Press poll, has lost only twice all season—both times to Tech.

ABOVE THE BLEACHERS

By DALE WALTON

Lacy Turner, who spent several years teaching school at Fluvanna and ranching near here, is already moving up on the coaching staff at Odessa.

Turner was formerly one of the top-ranked Texas coaches. Many years ago he had a Wink team which was beating all opponents, including Odessa.

Last fall Turner left this county to get back into the coaching game after several years' inactivity. He said at that time that he had aspirations for a good coaching job but decided he should start back at the bottom and get the feel of the thing again.

So Turner went to Odessa and became an elementary coach, doubling as a scout for the high school grid team. In a coaching shakeup at Odessa during the last few days, Turner was moved from Sam Houston Elementary up to the high school staff.

* * *

If the Plainview Bulldogs are hitting Friday night anything like they did this week against Lubbock, the Snyder Tigers are going to have their hands full.

During the last half of their 71-60 win over the Westerners, the Bulldogs hit 14 of 22 field goal shots, which is 63.6 per cent. Any team hitting 40 per cent in any game is figured to be faring well.

Other District 3A-1 teams did pretty well this week too, such as Levelland, which took Tahoka 74-48, and Vernon, which downed Burkburnett 53-42.

* * *

Schools which are members of the University Interscholastic League in Texas will vote in April on several proposed basketball rules.

Included is one which would prohibit a team or boy from playing more than two inter-school basketball games in one day. Another is one prohibiting coaches or players from participating in basketball all-star games other than the one played for the Texas High School Coaches Association each year. This is similar to a rule already in force for football.

A third rule would prohibit any school of Class A size or larger from having inter-school basketball games, workouts, or scrimmages before Nov. 1 or after the last day of the girls' state championship tournament. In Class B, the same rule would apply, except the earliest date would be Oct. 15.

Another rule involves track substitutions. The proposal is to allow substitutes to be made in semi-finals or finals of relays provided the substitute is already qualified in another event in the same meet.

Red Sanders Has Praise For Football

SAN ANTONIO (AP)—A speech by UCLA Football Coach Henry (Red) Sanders and awards for coaches and players of the Trinity University football team highlighted last night's appreciation banquet for the 1954 Tigers.

Sanders, named Coach of the Year by the American Football Coaches Assn., praised collegiate football as having so few faults that it should be placed well down the list of items needing correction.

"Let these people (opponents of college football) do something about stamping out Communism, sex perversion, juvenile delinquency and the narcotics trade and then get around to the evils of football."

Sanders lauded W. A. (Dutch) McElreath, head coach of the Tigers who played under Sanders at Vanderbilt.

McElreath received awards as Texas College Coach of the year and Southwest College Coach of the year. Gifts were also presented to Line Coach Winlon Knowles and Backfield Coach Wilson Waites.

Alvin Beal, Trinity quarterback named Little All-American, received a certificate from Associated Press Sports Editor Harold V. Ratliff and a trophy as the Amateur Athlete of the Year from the San Antonio Junior Chamber of Commerce.

All-Texas College certificates went to Beal, Joe Duke Cook, Guard Bobby Beal and Fullback Dalton Klaus.

Champions Meet In Women's Tourney

HOLLYWOOD, Fla. (AP)—National Amateur Golf Champion Barbara Romack and 1951 national titlist Dot Kirby met Joann Prentice and Pat Cirino today in the opening round of the Women's International Four-Ball Golf Tournament.

Vonnie Colby and her partner, Mrs. Cookie Swift Berger, are the defending champions.

Other first round pairings:

Poly Riley, Fort Worth, and Bee McWane vs. Helen McDougall and Joanne Goodwin.

The richest trotting race in history was the 1953 Hambletonian for 3-year old trotters. The purse was $117,117.

GG Heavy Breaks Bones In His Hands

DALLAS (AP)—Donnie Fleeman, hard - hitting Midlothian, Tex., heavyweight, has been replaced by Austin College footballer Gene Babb on the Dallas regional Golden Gloves team, it was announced yesterday.

Broken bones in both hands will prevent Fleeman from participating in the state meet at Fort Worth. He beat Babb on a split decision in the heavyweight finals here.

Frick Gives Critics, Fans Varied Ideas

By GAYLE TALBOT

NEW YORK (AP)—For the first time we can recall since he took office, Commissioner Ford Frick received a bad local press for the speech he delivered at the annual banquet of the New York chapter of the Baseball Writers' Assn. here Sunday night.

His listeners got the impression that he believed there was some sort of devious underground plot afoot to discredit the great summer sport and spread the thought that it is in danger of falling apart. He denied vehemently that the game is ailing and announced that a special week has been set aside in March to make the country baseball conscious, something like National Apple Week.

Critics of the commissioner's address pleaded ignorance, first, of any plot to undermine the public's confidence in the game. They thought, also, that in painting a glowing picture of baseball's past, present and future he left out something about the current precarious condition of the minor leagues, including triple-A.

Finally, the somewhat affronted scribes suggested that anyone who tries to celebrate baseball week next month in this climate might get himself frozen to home plate. It could be that the prior commissioner, A. B. (Happy) Chandler, had the right idea when he stuck to his simple and unassailable platform of loving baseball.

Jackie Robinson's disclosure that he makes a practice of riding Milwaukee's Ed Mathews because the Braves' slugger "gets hot under the collar" and loses his effectiveness at the plate has caused Milwaukee writers to rush to their score books.

Last season, they found, Mathews belted Brooklyn pitchers for 18 hits, including four doubles and eight home runs, and knocked in 18 runs. Off that, they figure that if big Ed could arrange for someone to fluster him in each of the six other rival cities of the league his problems would be solved.

Top Teams Risk Places

A team tied for first place and one tied for third will go into games tonight against cellar teams in the city basketball league.

The first game, starting at 6:45, will put Brooks Oil Well Service, one of the first place teams with a 2-0 record, against Sunray, which has a record of 0-1. The third place team, Hermleigh, will go into its game with a 1-1 record against the 0-1 of Gail.

The Brooks team has so far downed Hermleigh 55-31 and Chuck Wagon 63-32. Bobby Shipley and Bobby Zetzman are scoring leaders for the team.

Sunray lost its only game to D & H Super Market 50-37. Larry Hooker is leader of that team.

Ray Isaacs, Joe Galyean, and Jack Medford pace the Hermleigh team, which has lost to Brooks 55-31 and won over Chuck Wagon 58-53.

Gail, in its only game so far, lost to National Guard 49-23. Gene Adams leads that team.

Trinity Back Signs Cardinal Contract

SAN ANTONIO (AP)—Bob Sweet, Trinity backfield star who led the tigers in scoring last season, announced last night he has signed a professional football contract with the Chicago Cardinals.

Sweet topped scorers with 31 points and led the rushers with an average of 7.4 yards per carry.

Miler Talks Plans For Pan-Am Games

NEW YORK (AP) — Wes Santee wants to make a "hit and run" affair of his 1,500-meter race in the Pan-American Games at Mexico City next month.

"If I'm chosen for the American team—and I'll be shocked if I'm not—I'll ask to be allowed to fly down the night before the trials and again the night before the main race and then get right out again," the Kansas miler said.

"Because of the altitude—it's around 7,500 feet above sea level, I think—I wouldn't want to do any preliminary training there."

America's premier miler, whose time of 3:42.8 was certifed this week as the world record for the 1,500 meters, is in New York to continue his assault on the indoor mile mark. He set the record with 4:03.8 last Saturday in Boston and will try to lower it in the Millrose Games Saturday at Madison Square Garden.

"Olympic officials have asked me about the prospect of doubling up in Mexico," he said. "I told them no. I said I would run only in the 1,500 meters."

Santee, who has done a 4:00.6 mile outdoors and predicts he'll lower the present mark of 3:58 held by John Landy, said in order to make his best showing at Mexico City he wanted to arrange a schedule so he'd be there just for the day of the race.

"The games start March 12 and the 1,500-meter trials are Thursday, Feb. 17. I plan to run in Milwaukee March 12, fly to someplace in Texas on Sunday and stay there until Wednesday night when I'll go to Mexico City."

"Then after the trials I'd like to go someplace like Acapulco, which is sea level and about an hour away and wait until the final race Saturday."

Texan Leads Yacht Race

MIAMI, Fla. (AP)—The 21 sleek sailing yachts, whose race from Miami to Nassau was slowed down to a sedate cruise by too little wind, neared the finish line at the entrance to Nassau Harbor today.

The Big Valiant, an 80-foot yawl owned by William Carl of Corpus Christi, Tex., was reported leading the pack but closely pressed by the Ticonderoga, a 73-foot ketch owned by John Hertz Jr. and raced out of Miami.

The Hoot Mon, 39-foot yawl owned by three men and raced from Miami, was fourth.

The Hoot Mon, defending champion in the Southern Ocean Racing Conference, is one of the prime favorites to win the 184-mile race.

The Valiant, as scratch boat, must concede time to every other craft and gives up 8 hours, 39 minutes and 30 seconds to the Hoot Mon.

The actual order of finish among the yachts means little, because of the time allowances.

This race, which began Tuesday at noon, has been one of the slowest in the history of the event.

153 Start Phoenix Open

PHOENIX, Ariz. (AP) —A bulky field of 153 golfers fire the opening round today in the $15,000 Phoenix Open Tournament with the weather as big a factor as any of them.

A couple days ago with warm sunny skies, the golfers burned up the Arizona Country Club course. Then yesterday a chill wind blew out the fires and the hottest round was John Barnum's 3-under-par 67 in the pro-amateur preliminary. More wind was forecast today.

The temperatures in the mid 50s also bothered Ed Furgol, who won this event and the United States Open in 1954 despite a crippled left arm. Furgol has been nursing ailments in his right arm this winter, but said before going on the course that it felt better. He admitted after a 72 that the arm still was giving him trouble.

Only eight of the approximately 100 professionals taking part in yesterday's play posted scores under par for the 6,684-yard course.

Johnny Palmer, of Charlotte, N. C., declared that if winds persisted he'd be happy to post a final score of 275. Johnny thrilled the onlookers, and himself, with a hole in one on the 130-yard 15th hole of the pro-am. It was, he says, the first ace of his 23-year career.

Frogs Make New Records In Southwest

By JOE BENHAM
The Associated Press

Texas Christian and its brilliant sophomore center, Dick O'Neal, looked like a good bet Thursday to have the Southwest Conference basketball records pretty well rewritten when the season ends March 1.

Wednesday night they put four new free throw records into the conference book with their 92-62 victory over sagging Texas A&M.

The triumph strengthened TCU's hold on first place, running the Frog standing to 5-1 in conference play, ahead of SMU's 4-2 mark.

Thursday night's play won't change things much. Texas, wallowing in last place with 14 straight losses, plays host to Texas Tech at Austin in a nonconference game.

O'Neal, gangling, 6-foot-7 TCU pivotman, broke his own conference record with 22 free throws against A&M. TCU set another conference mark with 40 charity tosses in 61 attempts.

Allie Reynolds Is Quitting Baseball

OKLAHOMA CITY (AP) Allie Reynolds, 37, says he has pitched his last major league baseball game. The decision to retire after 12 years in the big time comes as a result of a back injury and his doctor's advice.

In eight years with the New York Yankees, the big right-hander established himself as one of baseball's all-time pitching greats. His lifetime record is 184 victories and 104 defeats. Reynolds, always the "money" hurler, won seven World Series games for the Yanks and dropped only two.

In 1953, he suffered a severe back injury when the Yankee bus crashed into an underpass in Philadelphia. He was out of action for six weeks and the injury has been botheresome ever since.

His doctor recently warned him against aggravating the injury and said major surgery might be required if his career continued. That's when Reynolds decided to quit. He announced his retirement last night.

"Some may think you approach something like this with a detached attitude," he commented. "But when you get around to it, the old, close ties are awfully hard to cut. From a standpoint of years I had lots of good pitching left. There's nothing wrong with the arm. I can throw as hard as ever.

"But you look at it a lot of different ways. I can't risk permanent injury at my age. I never had any intention of keeping on as anything less than a whole ballplayer and certainly I'd never do anything to hurt the Yankees' chances."

In Glendale, Calif., Casey Stengel, Yankee manager, didn't know that Reynolds was quitting. "If it's true I can only say that he'll be mighty hard to replace," he said.

In 1951, the Super Chief — so-called because of his blazing fast ball and his Indian heritage — hurled two no-hitters, against the Cleveland Indians and the Boston Red Sox.

Reynolds came up to the majors with Cleveland late in 1942 and stayed with them through 1946. The Yanks landed him in a deal for Joe Gordon and he broke into a New York uniform in 1947 with 19 wins. He never dropped below the 13-win mark. Last year, when he was mostly in the bullpen, he won 13 and lost 4.

Bovina Has Texas' High Scorers

BOVINA, Tex. (AP)—Until they hear differently, basketball fans in this West Texas cattle town plan to claim Texas schoolboy basketball's highest-scoring team.

The Mustangs, a Dist. 3-B entry, have topped 100 points in games twice this season, the last time by a 126-40 score.

What's more, they're likely to cause that kind of trouble for several seasons. Only three men of the 10-man traveling squad are seniors.

The 126-40 score came at the expense of Adrian Tuesday night. Bovina jumped ahead 41-10 in the first period, ran it to 77-17 by halftime and 94-23 at the end of three quarters.

Two weeks ago they trimmed Lazbuddie 107-45.

They can't claim the record for a single game score officially, since Texas Interscholastic League standards cover only state tournament games.

But such veteran sports observers as Putt Powell of the Amarillo News say they think it's probably a record. Powell quotes Amarillo's 116 points against Price College several seasons back as what was believed to be the old record.

Mustang Coach Clovis Ratliff is hard-picked to name the top players on the team, commenting that he's got 10 boys of just about equal ability.

Old Men's Tourney In Quarter-finals

HARLINGEN (AP) — Defending champion David (Spec) Goldman, Dallas, faces San Antonio's Claude Estrada today in the top match of the quarterfinals of the Life Begins at 40 Golf Tournament.

Goldman, who fired one-over-par golf yesterday in downing Dr. Fred Englerth of Harlingen 6 and 5, is favored to repeat in the tourney for men 40 or older.

R. A. (Mutt) Mitchell of Los Alamos, N.M., meets W. H. Engloe, Arlington, and W. L. Reipen—Missouri State Amateur champ from St. Joseph—plays San Angelo's Red Covington in other key matches.

Mitchell and Reipen are rated just behind Goldman among the 221 golfers competing in the winter meet.

Mitchell defeated Walter Brill, Dallas, 1-up and Reipen defeated J. B. Gordon, Rome, Ga., by the same score in yesterday's play.

Orioles Set Goal For First Division

By PAUL RICHARDS
Manager, Baltimore Orioles
Written for The Associated Press

WAXAHACHIE, Tex. (AP) — Our goal for 1955 is to finish in the first division. I think we can do it for the simple reason that we have a much improved club over last year.

We are improved in both offense and defense. The Orioles finished seventh last year because of lack of base hits. The pitching was fine but you've got to get runs to win. We didn't get enough.

We've made a lot of changes this year. That's bound to help us greatly. We may get help from unexpected quarters but on the surface, the key new acquisitions, I believe, are four men. They are outfielder Gene Woodling, catcher Hal Smith, third baseman Billy Cox and first baseman Gus Triandos. Of course, we also expect help from such fellows as Harry Byrd and Jim McDonald.

If three of these fellows come through, I feel sure we'll finish in the first division. You can be certain of one thing. Everybody will get an equal opportunity to win a regular job. Another thing, I'll use every available man in order to win games.

The trades we made have given us what I consider real depth. By platooning lefthanded hitters against righthanded pitchers and vice versa, we'll be getting the very best out of our bench. At the moment we expect to platoon Triandos and Ed Waitkus at first base, Cox and Bobby Young at second, Gil Coan and Hoot Evers in right field and Cal Abrams and Chuck Diering in center.

We should be able to come up with a workable third base-shortstop combination out of the bench which includes Bob Kennedy, Witty Quintana, Kal Segrist, Vern Stephens, Fred Marsh and the switch-hitting Willie Miranda. Cox, of course, could be available for third base if he isn't used at second.

Reds Faring Poorly In Latin-America

By BRUCE HENDERSON

DALLAS (AP)—Dr. Milton Eisenhower says Communism hasn't a chance in Latin America as long as its people "can achieve their just economic aspirations."

How the United States is helping along this line is expected to take up much of a speech tonight by Dr. Eisenhower, adviser to his brother, the President, on Latin America.

The talk has been billed as a major review of U.S. policy in Latin America. President Eisenhower himself announced at a news conference Jan. 12 Milton would make the speech here to the Dallas Council on World Affairs.

In 1953 Milton, president of Pennsylvania State University, toured South America. He recommended to the President stable and consistent trade policies, stockpiling strategic commodities to keep prices up to producing nations, substantial public and private capital loans, expanded technical help and revised tax laws to encourage U.S. investment overseas.

Dr. Eisenhower was asked at a news conference after his arrival yesterday whether he was satisfied with the way his proposals have been received. He said, "I am most assuredly pleased with the progress we've made in the last year and a half."

An example of this progress, he said, is the President's recommendation for an International Finance Corp.—a supplement to the World Bank which would lend to private enterprisers rather than governments.

"Productivity in Latin America is now increasing at a rate of 2.5 per cent per person, the highest rate in the world," he said. "Those nations are getting 80 per cent more in buying power from raw commodity sales than before the war. We now have 6 billion dollars in private money invested in Latin America and 1½ billion in government money."

He said Latin America has the Communist problem "under control."

"So long as the people of Latin America can achieve their just economic aspirations, Communism won't have a chance," he added.

Dr. Eisenhower said that despite recent turbulence in Central America this hemisphere's record of settling disputes peacefully "is a model for the world." U.S.-Latin American relations, he said, "are the best in the history of our country."

The traditional games of children throw light on the habits and customs of yesterday because in both savage and civilized societies, youngsters imitate the activities of their elders.

January Moisture Has Increase Here

Precipitation in Snyder during January amounted to .46 of an inch, which was .16 of an inch more than that of January a year earlier and also exceeded the amount for each January since 1949.

The January total, however, was .16 of an inch short of the 43-year January average of 1912 through 1954, both inclusive. This shortage caused a slight drop in setting a new January average of 44 years which is .614 of an inch.

Last month's total was almost seven times the amount of rainfall Snyder received during December, which was .07 of an inch. November's total was .55, and October's was .64. The last January to exceed that of last month in precipitation here was that of 1949 when the total was 2.30 inches, one of the heaviest in history. That was a good cotton crop year, too.

The 1949 January total was been exceeded by only one other January since 1911, and that was in 1939, when the total was 2.42. Since 1949, the January totals have been .40 in 1950, .14 in 1951, .12 in 1952, .15 in 1953, .30 in 1954, and .46 in 1955.

Last month's moisture came on the fifth, when .14 inch of rain fell, and on the ninth and 10th, when a six-inch snow brought an official reading of .32.

The amount of moisture received in January seems to foretell little or nothing of the total amount to be received during the year. Some of the rainiest years have had little January rain. The annual average rainfall here since 1911 is 20 inches, but 29 inches fell during 1914 after the January total was only .22. The heaviest total for a year was 44 inches during 1941, when the January total was .91, and the totals for 1915 and 1923 were 30 and 28½ inches following their January total of .22 and .40.

January rainfall does mean a great deal toward crop success, however, as all farmers know. Winter preciptation penetrates the earth to greater depths, preparing it for proper working and for sustaining the crops to be raised later. Some of the best farming years have been those following heavy winter rains, even though the total ranfall of those years has often been only slightly above average.

The 43-year average for this month is .74 of an inch. The last February total was only .03 of an inch, however, and no February has met this average since 1948 when the total was 1.98.

Maj. Nugent Pictured As Unwilling Dupe

FT. SILL, Okla. (AP)—Maj. Ambrose H. Nugent, at his general court-martial on charges of collaboration with his captors in Korea, was pictured as an unwilling dupe for North Korean propaganda efforts.

That surprise testimony came yesterday from a 43-year old ranking officer who was with Nugent for 10 months in a prison camp. Lt. Col. John J. Dunn, Rome, N.Y., told the nine-colonel court Nugent was pin-pointed by the Communists for a role in a peace demonstration in August, 1950.

When Nugent objected, the witness testified, the Communists said, "you must take part because you are one of the oldest prisoners." Nugent was taken prisoner July 5, 1950, when the first American troops met the enemy in Korea.

Dunn testified that "if they wanted man to do something bad enough, they would get him. They tried to pick people that they could break down sooner than others."

Testimony of the peace meeting was drawn from Dunn by Col. Ferdinand T. Unger, president of the court, over the objection of Maj. Thomas Reese, chief prosecutor.

"I don't know who this witness belongs to—me, the defense or the court," Reese protested. Dunn told of pressures put on Nugent nine months prior to the peace meeting, used as the basis of three of the 13 army charges against Nugent.

Lt. Col. Donald L. Manes Jr., law officer, told Reese the witness had been "adopted" by the court in matters not brought out in questioning.

Nugent, a 44-year-old Merrill, Wis., career officer, faces life imprisonment if found guilty of the charges. He had stoutly denied the allegations.

"Old Ironsides," the famous, still preserved U.S.S. Constitution, had a sister ship launched in 1797 christened the U.S.S. United States. She was nicknamed "Old Wagon" because she was so slow and heavy.

If all the natural ice on earth were to melt, it would release enough water to raise sea level perhaps 100 feet, says the National Geographic Society.

Moslem Wives Start Survey

KARACHI, Pakistan (AP)—How many wives does your husband have? Does he let you help spend his income? Did you have any voice in choosing your husband?

These are some of the questions being asked of 5,000 Moslem wives by the All-Pakistan Women's Assn. It aims to set up a bill of rights for the country's women, after analyzing returns from its questionnaire.

The association was founded by Begum Liaquat Ali Khan, Pakistan's ambassador to Holland. She is the widow of the country's first Prime Minister.

Behind the questionnaire is a tradition. Moslem husbands have dominated their wives, keeping them at home and also pampering them. The pampering has contributed to the domineering, and vice versa.

Husbands of years ago, when nomadic raiders considered women a top prize, husbands tried to protect their wives by segregating them and making them stay home. The tradition of purdah — where a woman is secluded from the sight of all men except her husband — grew up. Wives began to wear veils. In public buildings, they sat behind perforated stone screens.

The father often determined whom a girl could marry. The husband was allowed four wives. He controlled their finances and decided on almost anything they might want to do.

When Pakistan became independent, moves were made to reform Moslem society and emancipate the woman. Many of the traditions broke down.

The All-Pakistan Women's Assn., originally started to aid refugee women, entered the controversy as the practice of polygamy persisted despite many attempts by women to stamp it out.

A 42-mile railroad in the Dominican Republic was financed by the Dutch, built by Belgians, has British bridges, U.S. rolling stock. Dominicans own it and Americans operate it.

Jury Panel Is Called For Service Monday

A panel of prospective jurors for district court has been called to begin service Monday morning.

Those selected are Lewis Blackard, Walter Bishop, Howard Sterling, J. H. Anderson, Grady Moore, Rea Falls, A. B. Cary, Mrs. Whit Farmer, Earl L. Edwards, J. G. Suiter, Mrs. Autrey Eubank, Harry Weston, J. B. Autry, Mrs. T. P. Allen, Othel F. Ellis, O. P. Tate, Ben F. Wilson, Mrs. Mildred Williams, Mrs. F. M. Whitmire, O. J. Webber, Mrs. Homer Whisnand, Mrs. W. J. Young, J. G. Stinson, Guy Stoker, Jim Norred, Mrs. Jimmie Boren, Mrs. Marshall Boyd, Alfred Beaver, Mrs. M. L. Wilson, J. U. Van Norman, Hugh Birdwell, Sam Martin, Mrs. J. L. Browning, E. A. Brooks, John H. Boren, Harold Wade, George Bowers, Hubert Clements, J. B. Early, T. A. Echols, R. H. Parker, and Leyton Hardrick.

Mr. And Mrs. Collins Moving To Houston

Mr. and Mrs. D. L. Collins are leaving today for Houston, where they will make their new home at 6803 Kingsway Drive.

Collins, general manager for Producers Tool & Supply Co. on the Lamesa highway here, has been associated with the firm for the last 23 years. He will continue to do specialty work for them in Houston.

R. D. Green has been named to replace Collins with Producers here. Mr. and Mrs. Green and their son, Rex Dale, moved here recently from Olney.

Gail FFA Boy Exhibits First Place Lamb In Fort Worth Stock Show

GAIL — Borden Reeder, 17 year old Gail FFA boy, was counted among the winners at the Southwestern Exposition and Fat Stock Show last weekend. Young Reeder, son of Sheriff and Mrs. Sid Reeder, exhibited his Shropshire junior fat lamb to first place in the junior medium wool class over some 200 other entries in the class. Reeder's lamb was in the judging for champion lamb of the junior show; however this honor went to Carolyn Branch, 4-H Club girl from Rankin on her 95 pound Southdown entry.

Buddy Drum, of the Snyder FFA chapter had lambs which placed 3rd and 4th in the class which Reeder's lamb won.

Herman Carter of San Angelo, was fat lamb judge. Carter will also judge the lambs at the Southwestern Livestock Show at El Paso next week.

Sale of the prize winning stock at Fort Worth will be Friday.

Income Taxes On Schedule

By FRANK O'BRIEN

WASHINGTON (AP) — There's an air of quiet satisfaction at revenue service headquarters for an unusual reason: a lot of people apparently have not caught on to one provision of the new tax law.

A number of taxpayers evidently think the income tax filing deadline is still March 15, as it was for 40 years. But the 1954 tax law moved the date to April 15, effective this year.

Since this change was widely publicized, the revenue service had glumly expected a dull January followed by a mounting crush of calls for help in making out returns during February, March and early April.

It just isn't developing that way. A headquarters telephone check of some major tax filing points today disclosed that business is as good this January as a year before—better in some places.

And a check of one long line of taxpayers waiting for advice in the Washington area disclosed that something like 80 to 90 per cent of the people in the line thought the income tax deadline was still March 15.

The revenue service is continuing last year's drive to give priority to returns calling for a refund.

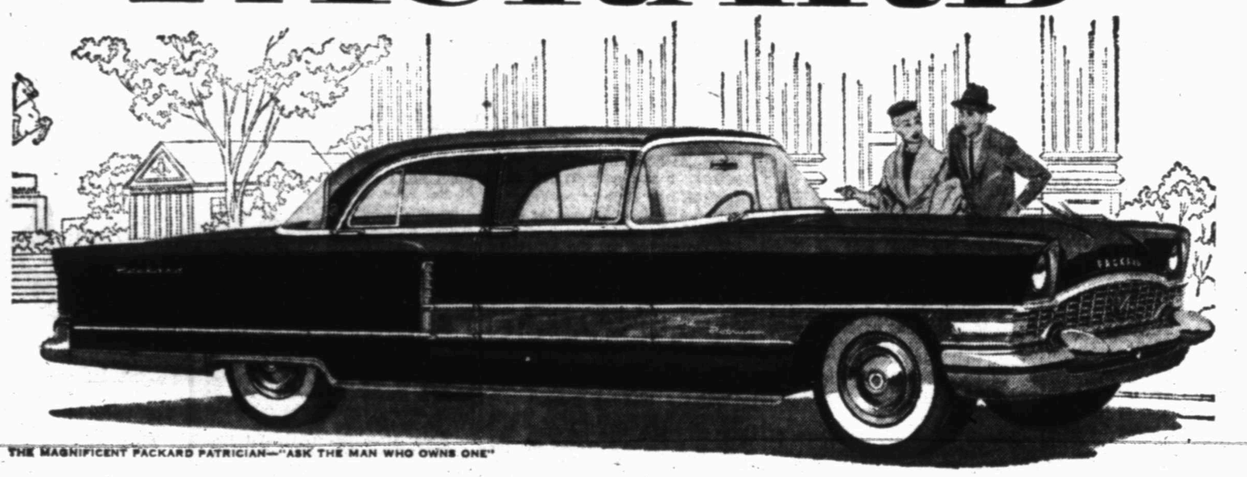

Also, last year's program of giving an especially close look at returns calling for big refunds is being repeated. Oofficials never have said where they drew the line between "big" and "small" refunds, but it was reported to have been at or near $200 last year, with all refund claims over that amount being set aside for special scrutiny. The line may have been dropped to around $150 this year, but officials would neither confirm nor deny this report.

Canada's herds of caribou are being cut down by wolves, hunters, disease and scarcity of forage faster than nature can replace the losses.

It's Here! The car all America has been waiting for

THE NEW PACKARD

THE MAGNIFICENT PACKARD PATRICIAN—"ASK THE MAN WHO OWNS ONE"

...with exclusive Torsion-Level Ride and the World's most powerful engine!

America's *new* choice in fine cars — the great *new* Packard—is the result of years of planning, designing and testing to build an individually distinctive automobile embodying more engineering advancements than any automotive achievement of our time. You will find it the most luxurious car in a long line of history-making Packards. The *new* Packard truly reflects your pride in the finest.

NEW TORSION-LEVEL RIDE automatically levels the load . . . smooths the road. Imagine not knowing or caring whether the road under you is rough and pitted or boulevard smooth! Incredible? Yes! And until you experience this new kind of ride, you can't begin to realize the importance of Packard's exclusive system of unitized torsion suspension that makes it possible.

Instead of using conventional coil or leaf springs to cushion the bumps, full-length torsion bars absorb road shocks automatically before they can reach you. Driving is easier, less fatiguing and much safer. And an ingenious power-controlled levelizer keeps the *new* Packard always on an even keel. Compare this *new* Packard with whichever car you think is the finest made in America today. You are invited to give both cars the same tests over the same terrain. Then decide which offers the most truly luxurious performance.

POWER-PACKED PACKARD V-8's . . . 260 AND 275 HORSEPOWER built by the master motor builders who pioneered the V-type engine. The most powerful engines in any production car today . . . 260 horsepower in the Patrician and the Four Hundred models, 275 in the Packard Caribbean . . . created for the most discriminating motorists in America.

NEW TWIN-ULTRAMATIC TRANSMISSION is actually two automatic transmissions in one—puts a choice of starts at your finger-tips . . . lightning getaway . . . ultra smoothness for traffic.

ADVANCED GRACEFUL STYLING of this new Packard is the most distinctive of all motor cars. Long low lines . . . massive grille . . . gracefully tailored rear deck . . . every detail of design bespeaks Packard distinction and good taste. Interiors are breath-taking . . . reflect the decorator-smart fashions of today's finest homes. We invite you to come in for a *Test Ride* in this *new* kind of fine car.

Now...more than ever before...nothing on earth rides like a Packard

We invite you to come in today . . . LET THE RIDE DECIDE

CHICKEN SAUCER PIES ARE GOOD EVEN WHEN COLD
. . . half for child, whole for husband

Adults Outnumber Children In The Lunch Box Brigade

How he arrived at this figure is a mystery, but a statistican, probably weary eyed, announced recently that fifty million lunch boxes are carried to school or work in this country every week day.

If he had been counting lunch boxes in Snyder, his statistics might have shown the majority of boxes, paper sacks, and pails going into offices rather than schoolrooms. The school cafeterias here reduce the number of lunches packed.

Economy at lunchtime is important to the working man and woman. Sometimes the food at near-by eating places is not liked or expensive or both. Eating out often means wasting precious time or eating in nervous haste. It is no wonder that new conveniences are coming along to aid the lunch box. On the market now are thermos containers with wide mouthed tops that will hold hearty noontime meals. Tiny salt and pepper shakers are perfect for the lunch box —to keep them from spilling cover the top with a small piece of transparent tape each day.

Today, with the advent of the freezer (or you can use the freezing tray compartment of your refrigerator) you can make sandwiches ahead of time, packing them right from the freezer into your lunchbox. They'll thaw in 3 to 3½ hours, just in time for lunch.

Here are a few general suggestions. Cold cuts make good sandwiches and so do many leftovers. Be sure to keep your refrigerator well supplied with a variety of greens, raw and cooked vegetables and plenty of non-squashy fruits.

For the thermos consider soups, homemade or from cans, and salads. Some hot and cold menu suggestions are salmon salad sandwich with cream of celery soup, baked beans and diced frankfurters wth Boston brown bread and sweet pickles; corned beef on pumpernickel bread with cole slaw; sliced roast on white bread with Waldorf salad or applesauce; and shrimp salad, onion soup, and bread sticks.

An example of imagination and efficiency is pictured in the typical modern lunch box. In preparing dinner the night before, this lunch box was kept in mind.

Suppose that the dinner menu was corned beef and cabbage, with apple pie for dessert. A small piece of the raw cabbage was put back into the refigerator. Then a single serving of the meat was passed through a grinder and fashioned into a corned beef hash muffin.

The cook made an allowance for slightly more pastry and fruit than was needed for the pie for dinner, enough more to make a little six-inch double crust pie. The leftover scraps of pastry were rolled into strips, sprinkled with cinnamon and sugar and baked at the same time as the muffin.

The next morning the muffin, the apple pie and the pastry strips were ready to be wrapped in tinfoil. To round out the meal a whole tomato, a piece of cheese, a buttered roll and a small plastic container of cole slaw made from the raw cabbage were added. A vacuum bottle of hot coffee completed the meal. There was enough coffee for lunch and the mid morning coffee break as well. That's what the pastry strips were for—a little something to nibble at coffee time.

CORNED BEEF HASH MUFFIN

2-3 cup ground corned beef
1-3 cup soft bread crumbs
1 tablespoon catsup or chili sauce
1 teaspoon grated onion

Combine all ingredients; pack into greased custard cup. Bake in moderate oven, 350 degrees F. 25 minutes or until firm. Chill. Makes 1 serving.

A few more general suggestions for lunch boxes — take the trouble to shop for just the right thickness and type of bread, and remember that rolls taste good every once in a while. After all, bread is two-thirds of your sandwich, so it is worth the effort to find the right kind. Be generous on the filling. Garnishes look appetizing and are nourishing. They can be ripe olives, pickle relish, cheese on toothpicks, radishes, stuffed celery, canned cranberry jelly, raw carrot curls, cauliflowerets, and pineapple chunks.

Fillings made with egg, fresh meat, poultry or fish are best made the day they are used. Anything made with mayonnaise should be prepared at the last possible moment. For those who like extra spreadings of mustard, mayonnaise, or catsup, put the additional supplies in tiny paper cups, or else the sandwiches will get too soggy.

When making sandwiches, line up the bread on a pastry board. Use slices that lie next to each other in the loaf so that they will match. Make all sandwiches of one variety at one time, using a spatula or flexible knife to spread the fillings on alternate slices of bread. Wrap sandwiches individually in waxed paper or sandwich bags so that they will keep fresh and tasty until they are eaten. To introduce a few extra vitamins, make some of the sandwiches with one slice of whole wheat and one slice of white.

As mentioned before rolls and buns are good variations for the sandwich. This recipe for homemade sandwich buns yields two dozen 4½-inch buns and could be made up over the week end to last throughout the week.

SANDWICH BUNS

2 packages yeast, compressed or dry
¼ cup lukewarm water
1 cup milk
¼ cup sugar
2 teaspoons salt
¼ cup shortening
2 eggs
4½ cups sifted flour

Soften yeast in lukewarm water. Scald milk. Add sugar, salt and shortening. Cool to lukewarm. Add two cups flour. Mix to smooth batter. Add eggs. Beat until blended. Add softened yeast. Mix well. Add remaining flour to make a soft dough. Turn out on lightly floured board and knead until smooth and satiny. Place in lightly greased bowl. Grease surface. Cover. Let rise until doubled (about 1½ hours). Punch down. Shape into number of buns desired by rolling into small balls and flattening to form sandwich buns. Place on greased baking sheets. Let rise until doubled (about 1 hour).

Form remaining dough into a smooth ball. Grease surface lightly. Cover and put into refrigerator. When wanted, remove dough from refrigerator and punch down. Mold at once or, if preferred, let dough stand in warm room for an hour before molding. Let rise until doubled. Bake in moderate oven (375 degrees F.) about 18 minutes.

These chicken saucer pies are perfect lunch box fare for they are just as good cold as they are hot. Half a six-inch pie is enough for a school child, but the man of the house probably would like a whole one in his lunch box.

CHICKEN SAUCER PIES

1 package pie crust mix
1 egg white, slightly beaten
4 tablespoons butter or margarine
4 tablespoons flour
½ teaspoon salt
Few grains pepper
2 cups chicken bouillon or stock
2 tablespoons chopped chives
½ teaspoon Worcestershire sauce
Few drops tabasco sauce
3 cups finely diced cooked or canned chicken

Line individual pie pans with pastry; brush with egg white. Melt butter or margarine; blend in flour, salt and pepper. Add bouillon; stir over low heat until smooth and thickened. Add remaining ingredients. Fill pie pans. Brush inside of top crusts with egg white; cover pies; press edges together; prick with tines of fork. Bake in hot oven, 450 degrees F. 30 minutes. Yields 6 four-inch pies or 4 six-inch pies.

When considering salads for lunch boxes, be sure to prepare things that won't spoil. Potato salad, fruit salad, cole slaw, and vegetable salads are quite adaptable. If you use a fruit that discolors, such as apples, sprinkle lemon juice over the salad. Put salad dressings in separately.

The sandwich filling is where you achieve quite a bit of variety and nutrition. And, incidentally, use up leftovers. Make them double deckers for the man of the house, and for the children. Try to give them their favorites, so they will be sure to eat it all up.

PINEAPPLE-HAM FILLING

1 cup ground, cooked ham
¼ cup drained, crushed pineapple
1 tablespoon brown sugar
1 tablespoon mayonnaise or salad dressing
1 tablespoon horseradish
½ teaspoon Worcestershire sauce

Combine all ingredients. Yields enough filling for 5 sandwiches.

ROQUEFORT-PECAN FILLING

1 3-ounce package cream cheese
¼ cup crumbled Roquefort or blue cheese
2 tablespoons chopped pecans
2 tablespoons cream

Combine cream cheese and Roquefort cheese. Add pecans and blend together. Yields filling for 5 sandwiches.

PEANUT BUTTER-CHEESE PICCALILLI FILLING

1-3 cup peanut butter
1-3 cup cream cheese
2 tablespoons milk
3 tablespoons piccalilli
2 tablespoons chopped stuffed olive

Combine peanut butter, cream cheese and milk and mix well until blended. Add piccalilli and olives. Yields filling for 5 sandwiches.

CARROT - PEANUT SANDWICH FILLING

1½ cups grated raw carrots
½ cup finely chopped salted peanuts
¼ cup piccalilli
1-3 cup mayonnaise or salad dressing

Combine all ingredients. Yields filling for 8 sandwiches.

SALMON SALAD FILLING

1 cup flaked salmon
¼ teaspoon salt
½ cup finely chopped celery
¼ cup finely chopped green pepper
2 tablespoons lemon juice

Combine all ingredients. Yields filling for 8 sandwiches.

AVOCADO - COTTAGE CHEESE FILLING

¼ cup mashed avocado
½ cup cottage cheese
⅛ teaspoon salt
Dash celery salt
2 teaspoons lemon juice
½ teaspoon Worcestershire sauce

Combine all ingredients. Yields filling for 4 sandwiches.

CHEESE AND EGG FILLING

1 cup grated process American cheese
2 hard cooked eggs, chopped
¼ cup mayonnaise or salad dressing
½ teaspoon vinegar
2 teaspoons grated onion
½ teaspoon prepared mustard
⅛ teaspoon salt

Combine all ingredients. Yields filling for 6 sandwiches.

FRESH VEGETABLE SALAD FILLING

½ cup grated cabbage
¼ cup grated carrot
3 whole radishes, sliced
1 tablespoon sliced green onion
¼ cup finely chopped celery
2 tablespoons finely chopped green pepper
¼ cup chopped, peeled cucumber
1 teaspoon chopped parsley
3 tablespoons mayonnaise or salad dressing
½ teaspoon salt

Combine all ingredients. Yields filling for 5 sandwiches.

EGG AND NUT FILLING

2 hard cooked eggs, chopped
½ cup chopped stuffed olives
1-3 cup chopped walnuts
¼ cup mayonnaise or salad dressing
½ teaspoon minced onion
½ teaspoon prepared mustard

Combine all ingredients. Yields filling for 5 sandwiches.

The dessert in a lunch box is not incidental, but must share a big load of the nutrition and appetite fillers. To make it easier for the one who eats lunch on the run or at a desk, peel fruit, such as oranges and tangerines, and pack the segments in the box. Tiny pies can be baked in small containers that will fit into a lunch box. If you rely on the favorite stand-by, cookies, let them combine fruit and nuts and other nutritive foods.

COCONUT DATE KISSES

2 egg whites
Dash of salt
1 cup sugar
1½ cups shredded coconut
1 cup finely chopped dates

Beat egg whites with salt until foamy throughout; add sugar, 2 tablespoons at a time, beating after each addition until sugar is blended. Then continue beating until mixture will stand in peaks. Fold in coconut and chopped date mixture. Drop from teaspoon on greased baking sheet. Bake in slow oven (325 degrees F.) 20 minutes or until delicately browned. Makes 2½ dozen kisses.

HONEY GRAHAM BLONDIES

3 cups finely crushed graham crackers
1 egg, separated
1 cup chopped nut meats
1 14-ounce can condensed milk
1 tablespoon milk
¼ teaspoon salt
1 teaspoon vanilla
½ cup semi-sweet chocolate, grated

Roll graham crackers into very fine crumbs with rolling pin. Beat egg yolk until thick and lemon colored. Beat egg white stiff. In medium-sized bowl, combine cracker crumbs, egg yolk, nut meats, condensed milk, milk, salt, vanilla and grated chocolate. Fold in beaten egg white. Turn into greased 9 x 9 x 2 inch pan and bake at 350 degrees F. for 30 to 35 minutes or until lightly browned and firm to touch. Cut in 3 x 1½ inch strips. Makes 18 blondies.

GLAZED WALNUT BARS

1 cup sifted flour
¼ cup butter or margarine
2 eggs, slightly beaten
1½ cups firmly packed brown sugar
1 teaspoon vanilla
2 tablespoons flour
¼ teaspoon soda
½ teaspoon salt
1 cup chopped walnuts
½ cup shredded coconut
2-3 cups sifted confectioners sugar
1 or 2 tablespoons orange juice

Measure 1 cup sifted flour into mixing bowl. Cut in butter until mixture is the consistency of corn meal. Press firmly into bottom of 12 x 7 x 2 inch baking pan. Bake in moderate oven (350 degrees F.) about 10 minutes or until lightly browned.

Meanwhile mix eggs, brown sugar, and vanilla until well blended. Add 2 tablespoons flour, the soda and salt. Add nuts and coconut and mix well. Spread over baked layer. Return to oven and bake 20 minutes longer. Cool.

Combine confectioners' sugar and enough orange juice to make a glaze of spreading consistency. Spread over the baked mixture. When glaze has hardened, cut into rectangles. Makes 24 bars.

Conflicting African Policies Add To French Assembly Woe

By PRESTON GROVER

ALGIERS, French North Africa (AP)—The problems arising from a divided and almost immobile French National Assembly are complicated by a conflicting two-way policy for North Africa. At the same time that France is trying to graft Algeria onto herself, she is agreeing to early home rule for Tunisia and, later on, for Morroco.

If Tunisia gets home rule first, will the nationalists in Algeria sit quietly by?

Just to make France's problems more difficult, the Communist radio in Budapest and the pan-Arab radios in Cairo, Beirut and Karachi bombard North Africa with daily broadcasts inciting nationalist demonstrations and terrorism. Even Franco's radio in Spanish Morocco takes a daily kick.

Aside from petty party squabbles in the Assembly itself, the government is heavily influenced by hundreds of thousands of French colonists in North Africa. They live there. They are tough people. They have little sympathy with the nationalist yearnings for self-rule. They admit they have a privileged position and intend to keep it if they can.

They have brought high-quality farming to North Africa which the Arabs would not likely have produced. The increased yields from French farming provide much of the food for the increasing Arab population. And the more Arabs there are, the more they cry for a share of the land the French are farming.

It is a problem which calls for money, might and a clear policy. France is short of all three.

Many Arab eyes are turned toward America to help. Much American capital is ready to go into Morocco if it can be assured of stable conditions. Millions of dollars of foreign capital moved into Morocco right after the war and Casablanca boomed like a mining town. But the flow has almost stopped.

I met one American investor hoping to buy resort property in Agadir, on the south Atlantic coast of Morocco.

"It's the future Miami of Europe," he said, "if these charters wouldn't scare away all the tourists." He was pretty unhappy.

American military figures have a worried eye on the problem. America has important air bases, not only in French Africa but in nominally independent Lybia, farther east.

Those bases are also part of the daily Communist radio target.

"The Russians are afraid of those bases. They can't get at them directly, but they can endanger them by stirring up France and Morocco," That was the analysis of Abdel Hai el Kittani of Fez, often referred to as the "Moslem Pope of the West."

America is backing France in North Africa, hoping evidently against hope that she will make those decisions which will restore a happy and progressive climate in North Africa. But France is handcuffed by her own internal conflicts and animosities, especially in the Assembly.

In one big sense, France is in a better position than she was in Indochina. Indochina was far away. Africa is close. Moreover, there is no big unfriendly power close to Africa in the way that Communist China was close to North Indochina, to bring in arms and to train the rebel fighters. That is important.

But in other ways France is worse off. Her prestige went down with defeat in Indochina. Moreover, home rule or independence is going to African territory on all sides—in Uganda, Lybia, the Gold Coast, and in the Sudan.

As you wander through these three North African territories, so isolated from Paris and yet so heavily involved in its petty internal squabbles, you begin to sense the hopelessness felt by many Moslems, and by many French.

You see the naked and abandoned columns of ancient Roman cities and you begin to wonder if you aren't witnessing another "decline and fall of the Roman Empire."

It isn't that bad yet. It isn't as bad as was Indochina, but there are many of the same unsolved problems and contradictory situations, the same bewildered local populations waiting to see which way to jump. The time to act won't be there forever.

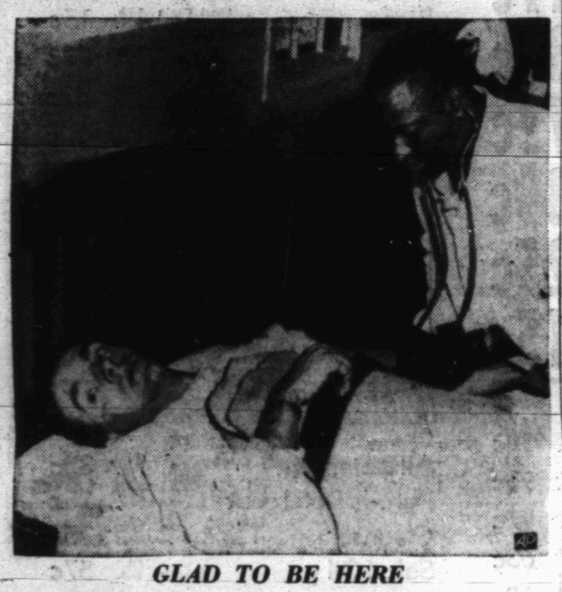

Fire Department Is Installing New Siren

A new fire alarm siren is being installed in southeast Snyder today to alert volunteer fire department employes when fires call for sounding of the general fire alarm.

The new siren will be located at a city water well pumphouse at Thirty-second Street and Avenue D. Boss Electric Co. is contractor for the installation, N. W. Autry, fire chief, said.

Of the 30 volunteer members of the fire department, 18 live in southeast Snyder.

Much of the time the volunteers in that part of town are unable to hear the general alarm located on the city hall, or the other auxiliary alarm located in southwest Snyder.

GLAD TO BE HERE

Glad even to be in a hospital bed, Pvt. Stanley Melczak, Pittsburgh, Pa., is examined by S-Sgt. Cleve Joiner, Montgomery, Ala. Melczak fell 1,000 feet when his parachute failed to open and he was to close to the ground to use his emergency chute. He landed on his back in 38 inches of snow and had no broken bones. He was taking part in Alaskan maneuvers north of Anchorage when the accident occurred.

IN FORT WORTH—IT'S THE WORTH

Thousands To See Princess

PORT OF SPAIN, Trinidad (AP)—Trinidad took a royal holiday today to watch Princess Margaret tour this capital city. Early birds staked out claims to sidewalk vantage points for her state drive, with thousands expected to jam the route.

The princess, who landed in Trinidad Tuesday to begin a month-long tour of the British West Indies, was given a preview last night of the islands' gala carnival later this month.

Almost 800 singers and dancers appeared in the hour performance that followed a big reception at Government House. Margaret tapped her feet to the rhythm of a Calypso song written and sung in her honor by Vernon Roberts, nicknamed "Mighty Panther."

The last guest Margaret greeted at the reception was James Byran, of Dillon, S.C., who came to Trinidad in 1941 as an American soldier and stayed. Byran, who is crippled, was sitting in a wheel chair. The crowd applauded as the princess first passed by, then turned and walked up to him.

Expedition To Climb Second Highest Peak

ORANGE, Calif. (AP)—An expedition will ascend the slopes of Lhotse, world's second highest unclimbed peak. An American mountain climber, Norman G. Dyhrenfurth, said yesterday he has been granted permission by Nepal to lead his expedition up the 27,890-foot mountain, neighbor of Mt. Everest in the Himalayas. He will assemble the group March 15 in Switzerland.

Aged Refugee Tells Of Red Bombings

By JIM BECKER

KEELUNG, Formosa (AP)—"Hon cha!" "Hon cha!" "Hon cha!"

The bent, white-whiskered old man squatted on a rolled up blanket, his head in his gnarled hands, and muttered, "Hon cha" over and over again in a tired voice.

"Hon cha" is "bombing" in the dialect of the Communist-threatened Tachen Islands.

The old man was one of 538 civilians evacuated from the bomb-pocked islands 200 miles north of here who landed in this picturesque harbor aboard a Nationalist Chinese troop ship today.

His name is Liu Yu. He was a storekeeper on the Tachens—two high cliffed rocky islands that house some 30,000 Nationalist soldiers and civilians.

The old man said the Communists have bombed the Tachens repeatedly in the last few days."

"They have bombed every place on the island," he said in a shaky treble voice. "It was terrible.

"They were bombing again when we left."

The old man slung his rolled blanket over his shoulder and was helped into a waiting American-built truck to be taken to a relief station.

Long lines of men, women and children from the Tachens filed down the gangplank of the American-built transport ship all morning. They carried a few pitiful belongings

Nationalist sailors sprayed each with DDT powder. Most were children. And 214 of the 538 aboard were dependents of soldiers who remain on the Tachens expecting to fight, although American warships and planes are standing by to cover their withdrawal if it is ordered.

The children were dressed in black, high-neck school uniforms. They looked like little penguins with the white DDT powder spilled down their fronts.

They were gay and smiling, but their elders were solemn. Many women carried babies in arms.

Lee Tsui, 30, a school teacher said: "We left because of the bombing and the Communists, but the soldiers who stayed behind are ready to fight."

TO MEN OVER 40

who feel all tired out, no vitality, can't eat or sleep well, bothered with aches and pains in arms, legs, back and shoulders and a general run-down condition, it will astonish you to know that many such symptoms of old age are caused by a deficiency of iron. So, if you are getting old before your time, try pleasant tonic

BIG 12 IRON TONIC

This Ad Worth 25c on $2.00 Bottle At HARRIS PHARMACY

Vivid Demonstration Of Hara-Kiri Given

TOKYO (AP)—Akira Ito, 12-year-old son of a Communist leader now in the underground, brandished a knife in his grammar school class today and boasted:

"I'll show you how to commit hara-kiri."

Ito stumbled. The knife pierced his stomach. He is in critical condition at a Tokyo hospital.

Robbery Suspect Gives Up $5 Of Own Money

WACO, Tex. (AP) — Bobby Jack Howard, 29, charged with robbing the Farmers State Bank at Meridian, Tex., of $3,800 Monday, is a little irked about one thing.

After his capture at the home of an uncle in a rugged central Texas area, officers recovered about $3,000 in cash from Howard's pockets.

Five dollars of it, Howard said sourly yesterday, belonged to him.

Shepperd's Stand Gains In Support

John Ben Shepherd, attorney general of Texas and a recent guest of Snyder, has pledged enthusiastic support of five bills now pending in the hopper of the state legislature, all of which concern the public's right to know the activities of its governments.

If these five bills had been in force, the attorney general says, the political turmoil would not have developed in Duval County, where, he says, it was worth a citizen's life to ask for an audit of county records and challenge an official's use of public funds.

Concern for "the people's right to know" and for the passage of the proposed bills was recently manifested in an editorial of the Plainview Evening Herald. The column stated that closed-door sessions of governmental bodies was not the policy in all Texas counties, but it also mentioned three counties in which indictments had been returned alleging misconduct of officials.

The editorial then added: "Just as dangerous as the possibility of crookedness in office, however, is the idea that exists in the minds of such public officials that the public should not know how its business is carried on."

The bills:

HB 12, to require publication of the proceedings of the commissioners courts.

HB 13, requiring publication of annual financial statements for school, road, soil conservation, and other districts.

HB 18, requiring immediate payment for the printing of citations in delinquent tax suits and proceedings for the sale of property to satisfy judgments in favor of governmental bodies.

HB 29, requiring publication of the full texts of city ordinances.

HB 148, making changes in the mandatory publications act to fix responsibility for causing publications to be made.

The bills not only prescribe what shall be done but also provide penalties for failure to do so. An official would be subject to forfeiture of salary and removal from office if he refused to carry out his duty of publishing records.

The proposals were drafted primarily for the protection of the public, its funds, and the general welfare of the taxpayers who support the public government. They are based on the belief that the public is entitled to know the activities of officials who are elected to public offices by the public, are paid salaries by the public, and who control public property, govern public domains, and spend public money.

Tax Increase Is Voted

MIDDLEBURY, Vt. (AP)—A hundred and fifty Middlebury voters turned out for the annual village meeting in subzero weather last night — and voted themselves a 16-cent tax increase. Middlebury's population is 4,780.

NEHRU WITH EDEN IN LONDON

India's premier, Jawaharlal Nuhru, left, attired in conventional western garb, talks to British Foreign Secretary Antony Eden at start of conference of British commonwealth prime ministers in London. In center are Nehru's sister, Mrs. Vijaya Lakshmi Pandit, who is high commissioner for India in London, and New Zealand Prime Minister Sidney G. Holland.

Formosa Resolution Serves Two Purposes For President

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — President Eisenhower killed two birds with one stone — at least temporarily — when he asked for, and got, congressional approval to defend Formosa and the Pescadores Islands as he thinks best.

The birds were (1) the demands of some Republicans, like Sen. Knowland (R-Calif), for stronger action against Red China and (2) the old question of the President's power to take action which might lead to war.

Persons familiar with the administration's thinking have been saying around Washington the President's request for the resolution has had a quieting effect on those Republicans who didn't consider him tough enough on the Reds.

Knowland, who has repeatedly called for a blockade of the China coast, supported the resolution. But if there is any real Republican unity on Formosa policy now, it will almost certainly dissolve if, for instance, Knowland thinks Eisenhower uses this resolution to make concessions to the Reds, instead of stiff-arming them.

The resolution, with language both broad and vague, sounds tough. Under it Eisenhower could order the bombing of Red China, even if it meant war, if he felt that was necessary to frustrate an attack on Formosa.

The resolution is clear on only one thing: that this country will specifically defend Formosa and the Pescadores. But that has already been the clearly stated American policy for five years under Presidents Truman and Eisenhower.

The resolution says Eisenhower can take action to defend other areas around Formosa, now held by Chiang Kai-shek. Or, since the resolution says nothing to the contrary, Eisenhower could let the Reds have those other areas without a fight from this country.

Eisenhower was quizzed closely at his news conference yesterday about his intentions on defending Chiang's islands near the China mainland. He declined to be any more specific than the resolution.

There has always been a constitutional question, going back to the Republic's beginning, about this:

The Constitution says only Congress can declare war. But can a president actually get the country into war, thus making the actual declaration by Congress only a recognition of an accomplished fact?

Presumably a president could, by some action of his, plunge the country into war. Congress has been a check on any president's warmaking inclinations.

The reason: Congress could refuse to back up a president with a declaration of war after he had started one. It's always been a thin line. The problem has become more acute in the atomic age when, to save the country, the President might have to act before Congress had time to approve.

In the case of Formosa, where war may or may not come, Eisenhower got an okay from Congress before he had to act. But this authority is limited to Formosa and expires when the Formosa problem is settled, if it's settled.

Rubbish Can Case Serious

DETROIT (AP) — For lack of an adequate rubbish can, Mrs. Shirley Ann Duckett, 24, was haled into a police station yesterday.

"They shot questions at me like it was the third degree," Mrs. Duckett protested. "Just like I'd committed some sort of a crime."

She said police fingerprinted her, asked her if her parents were born in the United States, if she or her husband ever had been arrested, requested her height and weight and made her sign her name.

Then they threatened to lock her up, she said, until her scheduled court appearance today. Her three young daughters accompanied her to headquarters in a police cruiser.

Police said Mrs. Duckett was warned last July to get an adequate rubbish can and to maintain her half of the alley in a sanitary manner. She was ticketed in November and the warrant was signed in January.

But the petite young wife of a salesman, just back from a long Miami vacation, said she bought a new rubbish can two months ago so threw the November ticket away.

"Besides," she added, "there's a woman down the street who doesn't even have a rubbish can."

American Women Get Appraisal By Princess

LOS ANGELES (AP) — Princess Irene Mdivani has come up with a succinct appraisal of American women.

The White Russian princess formerly headed the Paris house of Schiaparelli. She said yesterday: "The American woman drinks too much milk. She is too preoccupied with her bust measurement. She dresses unwisely to please herself rather than a man, and she worries too much about staying young. Otherwise, she's quite nice."

China Trains Infantrymen

By JIM BECKER

TAIPEH, Formosa (AP) — Motorcades of young Chinese Nationalist army draftees snake through the streets of this capital city daily on their way to rugged infantry training.

The automobiles bearing the young draftees—90 per cent of them native Formosans—are festooned with bright banners calling for a staunch defense of Formosa. The draftees pitch out crackling strings of firecrackers.

After their big sendoff, the men are loaded on trains and taken to Nationalist training camps, where their terms of service range from 3 to 10 months. Younger soldiers get the longer terms.

Draft age is 18 to 44 but the vast majority of draftees appear to be the minimum age.

The Nationalists say 100,000 men have been drafted for this service in the last five years. After their training is complete, the men are released but are kept in the army reserve.

Traning in many units is crisp and efficient. Chinese Army units are organized from battalion down almost exactly like American units, and are equipped with the same weapons and vehicles.

The troops wear the dull green fatigue uniforms of U.S. soldiers but the suits are altered to the high-neck Chinese style for both officers and men. Training is heavy on camouflage.

The training of many units is climaxed by a rough week in the field on night and day maneuvers.

Parliament In Russia Opens

MOSCOW (AP)—Russia's Supreme Soviet (Parliament) today opened its first session since last April.

Assembling as the Formosa crisis tightened world tensions and with Russia's campaign against West German rearmament at full steam, the deputies were expected to hear top Soviet leaders outline the nation's domestic and foreign policies.

One of the chief items set for discussion undoubtedly was the new call by the Soviet Communist party's powerful Central Committee for an all-out effort to raise the nation's farm production while further increasing heavy industry.

The order was issued as a decree, published yesterday by Moscow newspapers. In addition to demanding a drive to increase the output of grain, livestock, milk, wool, poultry and eggs, it said the party still "regards as its major duty a further increase of heavy industry, which forms a solid basis for the whole economy and for the indestructible defenses of our country."

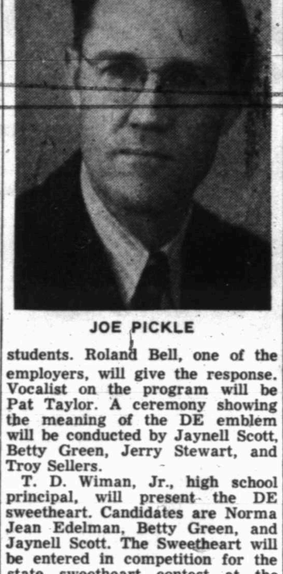

DE Students Set Banquet Tonight

Students who participate in the high school distributive education program here will gather with their employers and employers' wives at 7 o'clock tonight for the annual DE employer-employe banquet.

Joe Pickle, editor of the Big Spring Herald, will be main speaker for the dinner, which will be held in the high school cafeteria. He will be introduced by Wacil McNair. About 150 persons are expected, including members of the Snyder school board of trustees.

The banquet will have a "winter wonderland" theme, with a winter scene used as a backdrop at the speakers' table. The scene was painted by three DE students, Monty Blakely, Don Boone, and Robert Posey. Tables will also have winterized decorations.

After an invocation by Dr. Cecil Yarbrough, superintendent of schools here, Henry Beckett will give a welcome address for the students. Roland Bell, one of the employers, will give the response. Vocalist on the program will be Pat Taylor. A ceremony showing the meaning of the DE emblem will be conducted by Jaynell Scott, Betty Green, Jerry Stewart, and Troy Sellers.

JOE PICKLE

T. D. Wiman, Jr., high school principal, will present the DE sweetheart. Candidates are Norma Jean Edelman, Betty Green, and Jaynell Scott. The Sweetheart will be entered in competition for the state sweetheart contest at the state DE convention in Fort Worth March 3-5.

Billy Sellars will be master of ceremonies at the banquet. Organ music will be provided by Ralph Wesson. Don Boone, president of the school DE club, will adjourn the banquet by leading the DE creed.

DE students, who work part-time to learn various types of employment while attending school, number 29 here. Their co-ordinator, who instructs the students in class and works with employers, is Daniel Martin. The students raise money in various projects through the year to hold the annual banquet.

Out-of-town guests at the banquet will include several DE co-ordinators from other schools and will be Weldon N. McBayer of Lamesa, David C. Robinson of Odessa, Miss Mary Sears Herring of Big Spring, Miss Ruth Donnald of Midland, and Lovic Liston of Lubbock.

Force County To Take Aid

COLUMBUS, Ohio (AP) — Rebellious Harrison County, struggling four years to stay free of federal aid, has lost its fight.

The Ohio Supreme Court yesterday ruled the county must participate in a federal aid program for Ohio's totally and permanently disabled.

Harrison County's flat refusal of the money threatened to cost Ohio three million dollars a year in U.S. grants. Of the state's 88 counties, Harrison County alone remained aloof.

To officials of the coal-mining county one thing was clear—they demanded the privilege of taking care of their own. Harrison, with some 19,000 residents, is located in eastern Ohio.

County commissioners said they neither needed nor wanted the federal money. They said their handicapped were cared for under their poor relief program.

When prolonged negotiations failed, State Welfare Director Henry J. Robison turned to the state's high court. In a 5-2 decision, the court allowed Robison a writ of mandamus requiring the county to accept the federal funds. Attorneys said the amount would total about $400 a year.

In its decision, the court said:

"The board statutory authority of the (welfare) department to make rules and to require accounting and reports as to persons permanently and totally disabled in the county . . . cannot be questioned by the county."

Trial Is Postponed

HOUSTON (AP) — The second trial of former vice squad Capt. Foy Melton on charges of illegally concealing narcotics has been moved back to Feb. 14. Melton was first tried in Brownsville last November. It ended in a hung jury.

Weather Still Runs Without Man's Control

By HAL BOYLE

NEW YORK (AP)—The snow is falling outside my window, softening this harsh jungle town with its white feathers.

Each year I enjoy snowfalls more, because they arrive by the free will of heaven and wear no man's label.

Nature has been put in harness in so many ways by man that it still is pleasant to some of her wayward children to see the old girl kick up her heels and show she has a mind of her own.

Snowfalls and rain still have an emotional quality for mankind because they still have the freshness of surprise. They are awesome too, because they are still wild and free demonstrations of a massive power that yet lies beyond our ability to control.

But how long will this last?

"Everybody talks about the weather, but nobody does anything about it," said the Hartford Courant in 1890. No, Mark Twain didn't write it. His friend, Charles Warner, did.

The remark is no longer true. The trouble with the weather today is that too many people are trying to do something about it.

One of man's oldest dreams is the wish to control climate and the weather. It might be a fine thing to be able to make the Sahara Desert bloom, although you might get an argument from the people who live there and prefer to keep their desert untamed.

It would be a fine thing also to avert the disasters caused by hurricanes, hailstorms, tornadoes and floods.

But there is considerable doubt that if man had the ability to muscle the weather around as he choose it would prove an unalloyed boon.

Clerk Serious About Investments He Made

ST. LOUIS (AP) — Armin H. Schmidt, $60-a-week shipping clerk whose talk about investments and retirement was taken as a joke by fellow employes, left an estate worth more than $300,000.

A Probate Court inventory filed yesterday listed the estate's value at $60,251 but it included 10,085 shares of stock carried at only $1 a share. Some are worth more than $100 each.

Schmidt, 54, retired last August and died Nov. 21. Three fourths of the estate goes to his daughter with the remainder left in trust for his widow.

Some Farm Prices Higher Than 1953

WASHINGTON (AP) — An Agriculture Department report showed today that despite a general decline in farm product prices in 1954, returns farmers received for many commodities averaged higher than in 1953.

Farm prices as a whole averaged 5 per cent lower in 1954 than in 1953.

Two Texans Are On Cooperation Team

By TEX EASLEY

WASHINGTON (AP)—Two Texans are on teams the Defense Department sends out over the country to promote cooperation between the military and civilian segments of the economy.

They are Marine Col. Guy Kissinger of San Antonio and Air Force Col. Henry Smith Jr. of Muleshoe.

They are on the faculty of the Industrial College of the armed forces here. Senior military officers and key civilian government employes take 10-month courses there.

The six-man teams to which the Texans belong have been assigned to conduct National Resources Conferences in eight cities.

Austin is one of the 16 U.S. cities where a conference will be held, the only one in Texas. There, in a 10-day period starting May 16, one team of instructors will try to present a condensed version of the 10-month course given here.

Reserve Army, Navy, Air Force and Marine officers, who will be called into active duty for that period, will be reserved 170 seats. The rest of the 500 seats will be occupied by civilian leaders invited to attend.

Around the Capital:

One of the things first noticed by freshmen congressmen who have belonged to state legislatures where automatic voting devices are used is that the old name calling system is still in use here.

Rep. Jim Wright of Weatherford said this:

"When a record vote is required, bells ring in all the offices, elevators are reserved for members, and the subway under the park to the Capitol building is jammed with legislators scurrying for the House chamber to be tallied.

"This is the reason voting machines have never been installed in the U.S. Congress. The roll call takes twenty minutes, and this allows members time to come over from the office building and have their votes recorded."

On the House floor during President Eisenhower's State of the Union address was former Rep. John Lyle of Corpus Christi. He retired voluntarily to resume law practice in Texas. Lyle said he had come up primarily to see old friends and introduce his successor, Rep. John Bell of Cuero.

Seventh graders in the Avenue D Elementary School in Killeen collected $7 and sent it to Rep. Poage with the request he get them an American flag and have it flown over the Capitol for a day—not an unusual request. Poage complied.

Polio Victim, Mother Get College Degrees

CHICAGO (AP)—A mother and her 23-year-old son, a victim of polio for three years, were graduated yesterday from Loyola University.

Patrick O'Mara, sitting in a wheel chair, received his degree from the Very Rev. James T. Hussey, university president. O'Mara, his legs and one arm lifeless, completed his junior and senior work while bedridden.

His mother, Mrs. Nellie O'Mara, a high school mathematics teacher, was granted her master's degree in education. Present at the exercises was her husband Arthur, a high school principal.

Leftist Leader Takes Over In British Colony

KINGSTON, Jamica (AP)—A new government headed by Norman Washington Manley, leader of the leftist Peoples' National party held power in this British colony today.

Manley's appointment as chief minister — a foregone conclusion following the PNP's parliamentary election victory three weeks ago—was formally announced yesterday by Gov. Sir Hugh Foot before a joint session of the House of Representatives and the island's Legislative Council.

Manley told the House his chief goals were self - government for Jamica and a federation of the West Indies.

Hotel STEPHEN F. AUSTIN

Whether your visit to Texas' capital be business or pleasure, make Hotel Stephen F. Austin your headquarters. Football fans, tourists and businessmen alike prefer the Stephen F. Austin's modern air conditioned rooms, central location, and exceptional food. Radio and Television in guest rooms.

Carry a Universal Credit Card . . . it's convenient and safe. Write the National Hotel Company, P. O. Box 59, Galveston, Texas.
