## Wells Named New Compact Commissioner

Governor Preston Smith has appointed Deskins Wells to be Interstate Compact Commissioner for the Red River, effective immediately, for a two year term.

Mr. Wells is being appointed to replace William R. Elliott of Sherman, whose term has expired.

On making the appointment, Governor Smith said:

"There is no better way for our citizens to have decision-making roles as to how our state government operates than through private citizen appointments to state boards and commissions. Texas is fortunate that such citizens as Deskins Wells will take the responsibility of serving as a commissioner.

"This is personal government and this state has been, and always will be, in the best hands while such citizens accept these appointments. Both the states concerned citizens and Deskins Wells are to be congratulated on this mutually beneficial alliance."

Mr. Wells duties as Interstate Compact Commissioner will be:

- To negotiate agreements with each of the affected states respecting the use, control and disposition of the waters of Red River and its tributaries.

- To meet and confer with the Compact Commissioners of the other affected states.

- To make necessary investigation and procure necessary data for proper performance of duties.

the Buffalo Wallow District. To date, 15 head of beef calves, 8 hogs and one sheep have been donated to the Adobe Walls Boy Scout Council by people like Scott.

In some cases, the donors specified that the donation go directly to the operation of Scout Camp M.K. Brown near Mobeetie, but for the most part, they are giving it, as did Scott, to the council so the Scouting program can be carried out in the district and community.

Any person wishing more information on this method of making a donation to Scouting can contact Mr. Hiatt.

MRS. JIM LOWE

## Mrs. Lowe Ends 41 Years of Teaching

When Mrs. Jim Lowe -- then Evelyn McMinn -- began teaching at Lillie School, she had in mind the intermediate grades. However, her school board felt that because she lived in the community and all the children knew her, it would be better if she had the little ones. After all, she had been a pupil there only a few years earlier.

This began a 41-year teaching career which except for a year or two, was in those primary grades and all of it in the Quail School System, or in two of the schools that consolidated into Quail. That career ended Saturday, May 20, as she attended her last teacher's work day at the school, discarded materials she believes her successor will not need, put away the books and closed the door.

A few days earlier, teachers and students and mothers gave her a surprise going-away party, with a 41st anniversary cake and many gifts.

She will return to Quail often, however, for she and her husband are an active, vital part of the Quail community that centers around the school.

Her first principal in the four-teacher Lillie School was Dick Cagle. The other teachers were Mrs. Cagle and Arthur Wells. Her first three principals, she recalls, became Baptist preachers: Rev. Cagle, Tom Bolton and the late C.E. Meredith. Another principal was Frank Bullington.

Mrs. Lowe lives so completely in the present and future, she has to pause a moment when

she recalls the past. Many of her students in the earlier years, were relatives. "I've taught cousins, sisters, brothers and sisters-in-law, nieces, and my own daughter," she says. This posed some small problems, as the tiny sister-in-law who refused to tell the class her name.

"I don't have to tell you my name, you already know it," the child insisted to her teacher.

Help came in many forms. As one small boy of the holy terror type was getting ready for school, many in the community felt sorry for the young teacher. But he came and for a whole

Both men were employed by McMillian Trucking, on the US Highway 83-62 widening project, and were living in Childress.

Mr. Oates permanent address was Dallas, while Mr. Lollar was from Lubbock.

## 1971 Cotton Crop Total 15,387 Bales

Collingsworth County's 1971 cotton crop amounted to 15,387 bales, according to the Bureau of the Census at Washington.

In spite of early-season predictions, this is approximately 25 per cent more than was ginned in 1970, which totaled 11,814 bales.

The report for other area counties, part with larger cotton acreage allotments than Collingsworth includes:

County	1971	1970
Childress	21,230	14,605
Donley	7,289	4,755
Hall	53,044	27,804
Wheeler	4,081	3,697

## Guard Has Earliest Period of Training

Men of Wellington's National Guard Detachment will leave for the annual two weeks summer camp Saturday, May 27, the earliest the unit has gone to North Fort Hood. They are due to return June 10.

All of the 32 men in the unit, commanded by Lt. Frank H. Worsham of McLean, will participate.

Platoon Sergeant Robert Valiant said they will have two full weeks of Army training tests on the battalion level.

The Second Battalion, of which Wellington's Detachment 1 of the Support Company is a part, will attack for the first week, then will be on the defense the last, with much moving up and down over the rough Ft. Hood country.

Umpiring these games will be Army personnel, rather than

National Guard observers as in the past. This is because of the more advanced state of the guardsmen training, Sgt. Valiant explained.

Men in this platoon will simulate firing the 4.2 inch mortars.

More than 10,000 men will be at North Ft. Hood during the two weeks, including a mobile armed cavalry unit from Louisiana and auxiliary units from Texas.

Platoon Sergeant Don Settle and Sgt. Kenny Brown, squad leader, will leave Thursday with equipment. The remainder of the battalion will go Saturday morning.

Housekeeping chores, such as pitching tents and cleaning the grounds, will be finished Sunday and the tests begin Monday morning.

## Veterans Good Financial Risks

Veterans are good financial risks, according to Jack Coker, Director of the Waco Veterans Administration Regional Office, in noting the way veterans have repaid their GI Bill home loans.

Coker pointed out that Texas veterans have repaid \$1,804,500,000 of the more than \$5,349,000,000 in VA guaranteed home loans granted in the state since World War II GI Bill was enacted.

According to VA records, total GI Bill home loans in Texas through March 1972, numbered 496,000. Of this figure nearly half have been marked paid-in-full.

Nationally more than 50 per cent of the nearly eight million GI loans made, amounting to over 87 billion dollars in value, have been repaid.

Veterans of World War II and Korea who served more than 90 days and Vietnam veterans and servicemen who have served at least 181 days are eligible for GI home loans. Also eligible are widows of veterans who died as a result of service-connected disabilities and wives of men missing in action or held prisoners of war.

Classmates elected him Sophomore vice president; and Junior Class Favorite. He was in the one act plays last year.

Bill names skiing and riding bulls as his hobbies.

### DALE THOMAS

Vice-president of the senior class is Dale Thomas, who like many of his classmates, has attended Wellington schools the entire 12 years.

Next year he plans to attend a technical school.

For several years he has been a regular employee of City Grocery, where he has won the admiration of a great many adults of the community.

Teddy attended Booker T. Washington School through the fifth grade, then transferred to Wellington Junior High, continuing into Wellington High School.

He attends First Baptist Church.

## Collingsworth County FARM NEWS

By Don Reeves  
County Agricultural Agent

### CROP REPORTS

During the last half of May, some 22,000 Texas farmers will receive a crop acreage questionnaire from Charles E. Caudill, Agricultural Statistician for the Texas Crop and Livestock Reporting Service, Austin, Texas.

This information will be the basis for determining the planted acreage for the State of Texas and for each county. There are 254 counties in Texas, and reports are needed from many farmers so that each county will be well represented. Accurate

estimates are of great importance to farmers in planning production and marketings and in providing an unbiased picture of Texas agriculture.

The Texas Legislature has provided a program of estimates for each county. Texas covers such a wide area that State totals alone do not provide adequate information on Texas' most basic industry -- agriculture. This is a cooperative effort of USDA's Statistical Reporting Service and the Texas Department of Agriculture.

cause of his ability, he was chosen for All-Region Band.

Out of school, Dickie has been active in the Rolling Plains C.B. Radio Club.

He names band and mathematics as his favorite studies, and, naturally, electronics are his hobby.

He does not indicate if he will attend college, but he does plan to enter law enforcement work.

### JOHNNY HOLTON

When the Future Farmers Chapter has any activities in which horses are involved, you may be sure Johnny Holton is one of the leaders.

The son of Mr. and Mrs. John Holton, he was born in Wellington March 9, 1954, and he has attended only the Wellington schools.

Active in FFA four years, he also was on the junior chapter conducting team and quiz team. He also was junior class secretary and for two years has been a teacher's aide, as well as a member of the Future Teachers of America.

Johnny has served on the WHS Student Council and was a member of the Skyrocket Youth Conference. He played

In the event a power failure disrupts the heating system in your home:

• An electric pump circulates the water in a hot-water system. Turn off the pump, open the flow valve on the water line and the warm water will circulate.

• If you have a fireplace or a gas stove, use these for sources of heat, closing off other rooms and keeping the family in the one warm room.

## Questions People Ask About the Catholic Church

Q. Is there an official Catholic Church flag?

A. Not really. Our most beloved flag is the cross. But there is a Papal or Vatican flag, which is displayed in most large Catholic Churches. It consists of gold and white halves, with the Papal crest in the middle; the crossed keys, symbolizing the "power of the keys" given to St. Peter, the first Pope, by Jesus, Our Lord and Founder. This is surmounted by the Papal Tiara, or Crown.

Q. If a boy came to your church with his hair growing down over his shoulders, would you object?

A. Definitely not. All I am interested in are people's souls, not their bodies. When people come to Mass, I don't care what they look like, as long as they are respectful, and try to do their best to worship God reverently, seriously, and with love. Long hair on a boy looks fine, if it's clean and well-combed. Jesus wore his hair shoulder-length all the time.

## Spring in Paris Delights Student, But Wellington Looks Even Better

Sandra McGill is one of 15 students of Dallas Fashion Merchandizing College who returned on May 18 from a three-weeks seminar in Paris, that mecca of all who are concerned with what a woman wears.

Back in Wellington this week, she tells of a showing at the Christian Dior House and how the Palace of Versailles looked the day after Queen Elizabeth's visit. But on the other hand, she is relishing the cleanliness of Texas towns and a good meal of Mexican food.

The girls lived in a private hon with dorm parents, Sandra said. They were taken to showings of the famous fashion designers, to their boutiques and showrooms.

Fall fashions were presented at Dior's. The room was rich in much gold decoration, but smaller than one might expect.

"They don't invite that many people, Sandra said. Only 5 or 6 models were used, all exceedingly slender.

"Their legs weren't larger than that," she shapely Sandra indicating a small circle with her thumb and forefinger.

The smock look is newest at Dior's, even for fur coats, she reported. Skirts stop just above the knee.

"There were lots of beaded materials and chiffon for evening, long and fitted with halter tops, said the fashion student.

For daytime wear, cottons were predominant, especially seerucker.

The girls went to the Palace of Versailles, the day after Queen Elizabeth of England had visited. Flowers of great beauty still filled the halls.

Many of the palace furnishings were sold after the French Revolution, and even now, the pieces are reappearing at auctions, to be bought by those with a sense of history and returned to their original home, said Sandra.

"I loved the Eiffel Tower," she declared. "I never thought it was so big and we got to go to the top." There were other visits, to the famous flea market, where all of the merchandise is not old, and to the Cathedral of Notre Dame. One week end found them in Lucerne, Switzerland, where Sandra bought a watch.

But there was a little bit of Wellington in Paris on the Saturday that Nancy Cudd Samuels, (daughter of the Wayne Cudds)

picked her up to see how an American lives in the French capital. Mrs. Samuels and her husband, Sam, who is with Zerox, Corp., have been there since January 1. With their baby daughter Beth carried everywhere on a backpack, as French babies are, they visited a shopping center that was more like those in the U.S. than any other Sandra had seen. At lunch, they sat down to some welcomed sloppy joes.

On the whole, she enjoyed the French food, although the meat is served rarer than it generally is on Wellington tables.

En route home, Sandra visited two days with an uncle, Mr. and Mrs. Gene Baird and family at Valhalla, a suburb of New York City. After her visit with her parents, Mr. and Mrs. Sam McGill and her sister Jan, Sandra is to return to her studies next week.

## Hughs Serves Area Firemen As He Did Those at Home

Another Wellington man stepped into a position of major importance to the Panhandle this week end as Buster Hughs was elected to the presidency of the Panhandle Fireman's Association at the annual meeting.

He is one of the group of dedicated men who have made the Wellington Volunteer Fire Department a model of excellence. He belongs to a larger group responsible for that same excellence on a regional basis.

Firefighting is a highly skilled, trained profession, whether it is paid or on a volunteer basis, as are many of the 70 departments under Mr. Hughs jurisdiction. Part of his work will be related to keeping new methods and skills that go into the work.

Former Wellington Fire Chief Buster Hughs comes to his new office admirably schooled in the techniques of firefighting, and the concept of service which it renders. He will be a valuable man on the Panhandle level, just as he has been at home. All of us in Collingsworth County should be happy to congratulate him on the recognition he has received.

### Going Price \$1.85

One way community residents can make an extra buck is catch jackrabbits and sell them to a man in Italy for \$1.85 each.

According to a news release, wild jackrabbits are being captured alive in organized hunts near Twin Falls, Ida., and then airlifted to Italy.

Nero Battistuzzi, 45, a short, stocky Italian, flew to Twin Falls from his home in Genoa to launch the global "bunny hop."

He is paying Idaho farmers \$1.85 for each rabbit delivered to a warehouse he rented in this city of 22,000.

Battistuzzi hopes to fly as many as 80,000 of the fleet-footed, flop-eared animals to Rome.

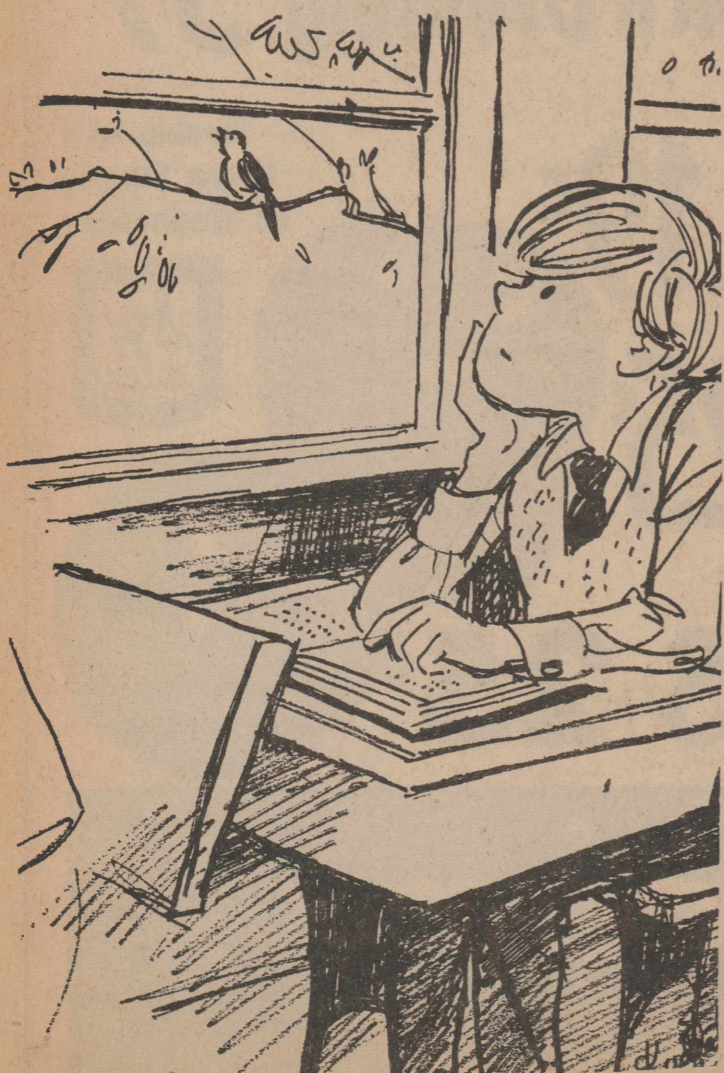

In Italy, jackrabbits are a rare delicacy prized as the piece de resistance of the fanciest banquet. Italian hunters also prize them as game.

In Idaho, jackrabbits are a menace to farmers.

Millions of the wild bunnies devour entire fields of grain each year -- chomp away at hundreds of huge haystacks causing them to topple.

## Spring Fever

By Bill Boykin

AUSTIN, Tex. -- State agencies received a recent warning to renew efforts to recruit minority group and women employees "before they are confronted with ultimatums and deadlines" from Washington and federal courts.

The agencies were reminded by the Governor's Committee on Human Relations staff that jurisdiction of the Equal Opportunity Commission has been extended to cover local and state governments.

EEOC will be giving "very critical examinations" to state employment practices, Committee on Human Relations Director James R. Ray wrote the agencies and departments.

Federal law goes farther than the state statute making it unlawful to discriminate against a person because of race, religion, color or national origin. The U.S. law also bars discrimination on the basis of sex.

Each state agency, advised Ray, will have to submit a detailed action plan to prove non-discrimination.

"In other words, you will not be able to prove non-discrimination without a federally-approved plan for recruitment of minorities and women for all levels of employment in your agency or department," the state units of government were told.

"Historically, the main concern of (EEOC) has been with numbers of quotas, and claims of recruitment difficulties have been summarily rejected as valid excuses," the Human Relations Committee staff maintained.

"Significant steps" were applauded within the state government during recent years to achieve equal employment opportunities.

However, department heads were placed on notice they must be sure each house "is in order and can stand the test (of non-discrimination) in federal court."

AG OPINIONS -- County taxing bodies do not have authority to levy a fee on a mixed-beverage late-hours permit and a caterer's permit for the first three years of a permit, Atty. Gen. Crawford Martin held.

In other recent opinions, Martin concluded:  
\* Creation of a salary grievance committee for public employees in each county is constitutional.

\* The county tax assessor-collector is generally immune from liability on claims of third parties where title is issued in good faith and within the scope of his official authority under the certificate of title act.

\* A Midland County domestic relations court judge is entitled to the same salary as that paid the 142nd district court judge.

## CROSSROADS REPORT

Dear Editor:

A federal bureau has ordered that 1975 autos must pollute the air 90 percent less than 1970 models, even if the car makers don't know how to build cars that clean.

If this works, the possibilities are unlimited. Like issuing a federal commandment to doctors to start curing 90 percent of the people with cancer by 1980 or so.

And then it would be real nice if the federalia would put out an order that by, say, 1984, all cars must run on 90 percent less gas, and all governments must operate on 90 percent less taxes.

# Deck's DIDACTICS

—by Deskins Wells

THIS FRIDAY marks the completion of high school work for 42 graduates of Wellington High School. I admire these splendid young people just as I do those of other schools I know. They are so clean looking, fresh and strong, so full of vitality and charm that your heart naturally goes out to them.

THESE youngsters are taller than their parents and they are smarter than their elders were at that age. There are obvious reasons why this is true. The facilities for acquiring knowledge are so much greater than they were twenty years ago. Besides there is so much more to learn. Man has not only gone to the moon in the past ten years, he has made similar advances in other fields.

I HAVE no specific advice to give these youngsters. It is my belief that time and events and their own intelligence will take care of that. All I want to do is wish them progress, contentment and a measure of happiness.

THE MAY rains have turned the grass and trees into various shades of green and turned the roadsides and pastures into lakes of brilliant colors. Drive any direction from Wellington and you will find the wild flowers in quality and quantity. The colors are red, yellow, blue and white mainly, with considerable purple and orange. They were beautiful last week and they may be next week; but right now is the time to get out and see them.

THANKS to those who offered congratulations and made inquiries about my appointment as Interstate Commissioner for Red River. The new duties will not affect my place of residence nor my occupation. I will continue to live here and publish The Leader. It will be the middle of July before I will officially attend a meeting. Actually I do not expect to be out of town half as much as I was during those years I was executive secretary of The Texas Press Association. It should not interfere with my work on the paper to any significant extent.

IN MY new duties, I will have the assistance of the Texas Water Rights Commission which was formerly the State Board of Water Engineers. It means I will have some home work to do this summer.

## Faith Baptist Vacation Bible School Planned

One of the first churches to start vacation Bible School for the summer is the Faith Baptist Church, which will begin Monday, May 29 and extend through Friday June 2.

Rev. Douglas Saxon, pastor, stated that beginning the crusade for the Bible School would be a parade at 10:00 a.m., Saturday morning the 27th from the church to the square then on the residential areas.

Vacation Bible School sessions will be from 6:30 p.m. to 9:00 p.m. each day. "Everyone is invited to attend parade and Bible School," said Rev. Saxon.

Safety records show one of every 12 boys who gets a motorcycle will be killed or seriously injured by the time he is 19.

## Aged Wellington Resident, Mrs. Humphreys, Dies

Mrs. Margaret Silverna Humphreys, a long-time Wellington resident, died in Collingsworth General Hospital at 2:15 a.m. Monday, May 22, after an extended period of ill health. She made her home with a daughter, Mrs. Mary Linville, at 1208 Graham Street.

She is survived by 186 direct descendants.

Born at Red Bay, Alabama, June 29, 1884, Mrs. Humphreys was 87 years of age, and before her marriage was Margaret Rowell. She and her husband, F.D. Humphreys, and their family moved from Hall County to Wellington in 1926. Mr. Humphreys died September 14, 1952.

She had been a Methodist since early in life.

Funeral services were conducted at First United Methodist Tuesday at 3:00 p.m. with the Rev. R.T. Dyess, pastor, officiating. Burial was in Memorial Gardens under the direction of Kelson Funeral Home.

Grandsons served as pall bearers.

Surviving Mrs. Humphreys are five daughters and two sons: Mrs. W.D. Hughes of Yreka, Calif.; Mrs. Anna Roberts of Durant, Oklahoma, Mrs. Mary Linville, Mrs. Dena Maury of Waco, Mrs. Florence Dodson of Memphis, Ike Humphreys and James Humphreys of Dallas; three brothers, Lum Rowell, Bill Rowell and Jim Rowell of McAlester, Oklahoma; two sisters, Mrs. Dovie Sorrells of McAlester, Oklahoma, and Mrs. Ada Grissom of Corinth, Miss.

There are 44 grandchildren, 93 great grandchildren; and 42 great great grandchildren.

## Wayne Martin Opens Seed Company Here

Wayne Martin has announced the opening of Martin Seed Company, located in the quonset building across the street from Gibson's at 1607 8th Street.

His son, Teddy Martin, will manage the business.

A full stock of grain and feed seeds will be carried, the owner said.

In the grain sorghum line, these will range from RS 610 considered the old stand-by for the Collingsworth area, to new varieties developed in areas similar to this.

One of the latter is the Weather Master line, developed at Scott City, Kansas, and bred especially for those areas with lower rainfall, Mr. Martin said.

Wayne Martin has had 7 years experience in the feed business and in addition to the new company here, he operates a seed business in Memphis.

He was with the Soil Conservation Service prior to moving here.

Teddy Martin, his older son, was an upperclassman in West Texas State University during the long term.

## Assembly of God Plans Five-Day Renewal Revival

A special night of singing and music is scheduled at First Assembly of God, 8th and Dalhart Streets, on Saturday, May 27, the Rev. John Hutson, pastor, has announced. It will begin at 7:30 p.m.

This is planned around the visit of a former pastor and his family, the Rev. and Mrs. James Jackson, Charlotte and Crissy, of Lubbock.

The public is invited to come, sing, or bring instruments for a night of fellowship, Rev. Hutson urged.

Rev. Jackson is now District Christ Ambassadors President for the Assemblies of God. This organization is for youth of the church 13 to 19 years of age.

James Calaway of Wheeler, area supervisor for the scabies control program, Texas Animal Health Commission, said here Tuesday that cattle can now go to the sale barn or slaughter house within the state without inspection before leaving their point of origin.

They will be examined at the sale barn, and should scabies be found, they will be sent on for dipping.

Mr. Calaway reminded that the quarantine is still in effect for counties in this part of Texas. B.J. Patterson and Eddie Smith are county inspectors.

More changes are due July 1, Mr. Calaway said, and he believes the quarantine will be enforced on those counties bordering Texas that are not now under the program.

There has been no scabies in Collingsworth this spring so far as is known.

Mr. Calaway said anyone with questions concerning scabies quarantine can call Mr. Patterson, Mr. Smith, or phone him at Wheeler, 826-3169.

He added that since scabies worms are moving north, if any one suspects a case, locally, one of the county inspectors or Mr. Calaway can be called and they will help any way they can.

His work covers Collingsworth, Wheeler, Hemphill, and Gray Counties.

After 5 years at Lillie, Evelyn McMinn Lowe taught a year at Salt Fork.

Consolidation by then was inevitable, but some in both communities fought it bitterly. "It will destroy the community to take away the school," they argued.

"They had to get facilities at Quail ready, and that is why the little schools stayed open as long as they did," says Mrs. Lowe. Carl Chaudoin was the first superintendent.

But the people of these communities were both lively and down to earth and it wasn't long until they all joined efforts for Quail School.

"The teachers from Quail went out into the communities to work with the people. Alice Strawn, the home economics teacher, and G.S. Dowell, who taught agriculture, would come over and teach adult education classes. And the people from Lillie -- and the other communities -- would go to Quail

## Mitchell Named Commander of Legion Post

Raymond Mitchell was elected Commander of Frank King Post, No. 249, American Legion in a called meeting Tuesday, May 9.

Elected to serve with Mr. Mitchell were Troy Gardner, vice commander; John Coleman, adjutant; Riley Dunson, finance officer; Raymond Horton, chaplain; and Trinidad Cantu, sergeant at arms.

Members also voted to discontinue holding dances for the time being.

In discussion, emphasis was put on the necessity of all members taking part in activities and in the goal to make the post one of the best in the Panhandle, Mr. Gardner reported. There are now 152 members, with meetings held on the first Thursday of each month.

and help out on programs. A group of adults from Lillie won first prize for a skit," she remembers.

"Then there were the ball games. Every seat would be filled and people standing along the walls. At first they would drive a bus out into the communities to bring the people in to the games. Everyone was so interested."

This was the era when Quail Quails won the State Basketball Championship.

Some people were moving from the community but there were still too many left for this to be of concern.

One year, Evelyn Lowe enrolled 55 children in the first grade. There were more than 500 enrolled in school. (This year she had three first-graders.

"I wasn't a very strict teacher, although the children may think differently. My daughter did," says Mrs. Lowe.

This year, her three first-grade students were Bobby Branum, Joe Chance and Nancy Guajardo. (Ruby Granados and David Del Bosque attended a short time.) The ten in the second grade were Johnny Blevins, Calvin Culppepper, Shane Farris, Patrick Guajardo, Robbie Guthrie, Linda Kennedy, Randy Langley, Pamela Sullivan, Kimberly Taylor and her twin brother, Timothy Taylor. Mary Sanchez was enrolled for a brief period.
