P. McCarver also of New York.

OPPOSES AID IN WAY OF FOOD

SECRETARY HYDE

HYDE OPPOSES DROUTH AREA FOOD AID

AGRICULTURE CHIEF IN REPORT, SAYS NEED NOT JUSTIFIED

(By Associated Press)
WASHINGTON, Dec. 9.—Outright condemnation of government loans to farmers of drouth states, was made last night by Secretary Hyde, the Senate, containing a group of Democrats who yesterday openly opposed the pledge of their leaders for cooperation with the "with food" in the drouth areas, said Hyde, "than there would be in furnishing food to any other section of the United States, or to any other class of our people who may be in distress. I believe this attitude will be supported by the substantial farmers of the country."

This effort on behalf of the \$25,000,000 administration set limit on loans to farmers of drouth states, was made last night by Secretary Hyde, the Senate, containing a group of Democrats who yesterday openly opposed the pledge of their leaders for cooperation with the "with food" in the drouth areas, said Hyde, "than there would be in furnishing food to any other section of the United States, or to any other class of our people who may be in distress. Stamford Oil Scout Ends His Own Life
STAMFORD, Dec. 9. (AP)—Floyd Halbert, 36, formerly employed as a scout for an oil company operating out of San Angelo, was found dead this morning in the home of his parents here, Mr. and Mrs. H. C. Halbert.

Halbert had spent the past month in Stamford. This morning his father heard a shot from the young man's room, and, rushing in, found his son shot and killed himself instantly. An old-style army rifle lay beside the body.

An inquest was ordered. Halbert was shot and injured near Justiceburg several years ago when a posse, in which was farmer Delmar county Sheriff Schuyler Marshall, fired on his car, mistaking him for a bank robber. Halbert was not seriously hurt.

Big Spring Veteran Takes His Own Life
BIG SPRING, Dec. 9. (AP)—W. E. Gilliam, 80, Confederate veteran, was found shot to death at the home of a daughter, with whom he made his home, yesterday. The coroner returned a verdict of suicide.

Emergency Unemployment Bill To House

EARLY ACTION IS EXPECTED BY SOLONS

HOOVER REQUEST GIVEN CUT; TOTAL OF BILL IS 110 MILLIONS

WASHINGTON, Dec. 9.—Speeding to act on relief legislation, the House received from its appropriations committee today the Unemployment Emergency Construction bill providing \$110,000,000 for highway aid and river and harbor improvements.

The sum of \$80,000,000 was stipulated for advance to states for highway construction, so they might go on with building despite inability to meet federal aid obligations. The fund will be returnable over a period of five years, where the states cannot meet federal funds on a 50-50 basis.

Flood Work Included
River and Harbor work was allowed \$22,500,000; flood control on the Mississippi and its tributaries \$3,000,000; roads and trails for national forests \$3,000,000, and roads and trails in national parks \$1,500,000.

The committee reduced President Hoover's request of \$150,000,000 lump sum to be allocated him by \$40,000,000 and required that definite allotments be made for use of the \$110,000,000.

However, the bill contains a clause providing for the interchangeability of the appropriations so that in event more funds be expedited to utilize more funds upon one character of work than another, the president will have authority to make such transfers as will provide greatest opportunities for furnishing employment.

Report Required
Another provision requires a report to Congress at the beginning of the next regular session, showing how the funds have been expended.

Highway aid allotments included the following:
Kansas \$2,192,301; Missouri \$2,526,822; New Mexico \$1,303,283; Oklahoma \$1,529,251; Texas \$3,988,080; Alabama \$1,698,645; Arkansas \$1,388,157; Florida \$1,586,438; Georgia \$2,077,896; Kentucky \$1,504,715; Louisiana \$1,147,927; Mississippi \$1,434,738; North Carolina \$1,225,775; South Carolina \$1,114,634; Tennessee \$1,741,892; Virginia \$1,505,502; West Virginia \$873,394.

Funds for roads and trails in forests would include: Arizona and New Mexico \$650,000.

In finally approving the bill, the appropriations committee amended it to permit the funds to be used as late as next September 1, instead (Turn to Page 3, Column 7, Please)

Ruth Nichols Hops Off On Speed Trip
LOS ANGELES, Dec. 9. (AP)—In an attempt to smash both the men's and women's records for flying time in a west to east transcontinental flight, Ruth Nichols, Rye, N. Y., aviatrix who established a new women's east-west mark last week, took off from New York from United airport here at 7 a. m. (P. S. T.) today.

Governor Roosevelt Aids Cripple

New York's Chief, Remembering Own Plight, Extends Helping Hand To Young Girl

(By NEA Service)
MEMPHIS, Tenn., Dec. 9.—Juanita Cawthon, 19, may walk again and enjoy all that life promised when she was a healthy carefree high school girl—because Governor Franklin D. Roosevelt, of New York, knows what it is to be afflicted with infantile paralysis. She does not know Juanita—has never seen her—it is largely because of his co-operation and sympathy that she will be able to enter the sanitarium he founded at Warr Springs, Ga. This is the place where the governor was treated several years ago with such beneficial results that he can now walk merely with the aid of leg braces.

Even life in a wheel chair can't keep Juanita Cawthon from smiling—that's why Memphis knows her as "The Sunshine Girl." She is shown here packing for her trip.

daughter to health. It was after his futile efforts that Governor Roosevelt heard about the case of Juanita, getting ready to graduate from high school, was stricken suddenly with infantile paralysis 18 months ago. She has never walked since. But, despite her affliction, she has become known in Memphis as the "sunshine girl" because of her ever-cheerful disposition, despite the fearful prospect of being a life-long cripple.

"I'm just so thrilled over going to Warr Springs and the hope it offers that I don't know what to do," she says. "Oh, everybody has been so wonderful to me—people who don't even know me. Why, just look here."

Gets a Check
She held up a special delivery letter from Mrs. Robert James Campbell, Brownsville, N. Y. It contained a check for \$100 and the news that a box of pretty clothes was on the way.

CAMPAIGN FOR CHEST OPENS TOMORROW

WORKERS SET TO TAKE FIELD; WOMEN TO LEND A HAND

Approximately two hundred workers in the second annual drive for funds of the Lubbock Community Chest will breakfast together tomorrow morning at 7:30 o'clock, following which they will deploy into various sections of the city and the three-day drive for \$27,500 will be on.

The breakfast will be held in the ballroom of the Hilton hotel and all workers in the campaign are invited and urged to be present to start the drive.

Last Sessions Held
Two final meetings are being held today as last minute instructions are made and given. The women's division are in meeting this afternoon at the Hilton hotel and the men's division will meet at 7:30 tonight.

Mrs. R. A. Mills is women's colonel and W. A. McLeod is colonel of the men's brigade.

Only one change has been announced in personnel of the campaign organization this week, the appointment of Bob Bussey to replace Tom A. White as a captain in the men's division. Mr. White will be out of the city during the period of the drive which will continue from Wednesday through Friday.

To Meet With Clubs
Two report meetings have been scheduled, one on Wednesday and another on Thursday. The first will be made when campaign members meet with the Lubbock Rotary club at the Hilton hotel at noon Wednesday. The second will be a joint meeting.

NIGHTSTICKS AND UNIFORMS TO BE LAID ASIDE AS POLICE OF LUBBOCK FROLIC; SECOND ANNUAL BALL COMES TONIGHT

Lubbock policemen will turn from the roles of coppers to night and be seen in the garb of every day human beings when doors to the Uptown Dance Palace swing open upon the second annual policemen's ball. The dance is scheduled to start at 8:30 and possibly will continue until the small hours of the morning.

Music for the dance will be furnished by the Buffalo Rhythm Stompers, negro orchestra of Lubbock. No formal program has been arranged for the affair though it is understood that Mayor Clements, City Manager Miller and others will make brief talks.

Proceeds of tonight's affair will go toward the purchase of uniforms for members of the local police department. Tickets may be bought today from any policeman on the streets or by calling at the city hall.

Committee in charge of the affair is composed of Jess Levens, business manager; Baxter Honey, refreshments; C. E. Luce, publicity; M. N. Davidson, financial secretary.

Rock Island To Start New Line

Actual construction of the 113-mile Fort Worth and Denver rail line from Childress to Pampa will be started within the next three weeks.

This announcement was made here today by F. E. Williamson, of Chicago, president of the Burlington lines, in an exclusive interview with an Amarillo Globe-News correspondent. Mr. Williamson is in Lubbock attending the Texas and Pacific hearing.

Agreement Is Near
Permission to build the line was given recently by the Interstate Commerce commission, contingent upon the agreement with the Rock Island for a joint track arrangement between Wellington and Shamrock. Williamson said that construction will start at the Childress end and that Burlington officials are confident that, at the same time a joint track agreement will have been made.

The Rock Island proposes to build from Shamrock, southeast through Wellington to a point south of Quanah, and the Shamrock and Wellington section of the two lines will parallel each other.

The survey has been completed and material already shipped to Childress, Mr. Williamson said. The line, which will cost about \$4,000,000, will be completed early next fall.

First Month of Airport Operations Shows Slight Profit to City; Plans on Foot to Increase Business Here

Revealing a profit of \$21.85 for the first full month of operation since completion of the new hangar and employment of a full time manager, report for November business at the Lubbock municipal airport was made public today by city officials.

Total revenue of the port was \$281.58 for the thirty day period while all expenses were \$259.73. Revenue was derived from the sale of oil and gasoline, storage space for visiting ships and lander. Expenses included deductions for manager's services; lights, water and telephone.

LONG GOES ON STAND; TELLS ROAD PLANS

DEATH OF ATTORNEY'S FATHER RESULTS IN EARLY DELAY

BY HARRELL E. LEE
Associated Press Writer
The second day's session of the Interstate Commerce commission hearing on the application of the Texas and Pacific-Northern railroad to build 333 miles of line in West Texas started slowly with W. T. Long, superintendent of transportation of the Texas & Pacific, on the stand most of the morning.

The opening of the session was delayed by information of the death in Charleston, W. Va., of the father of John A. Donnelly, who was here to represent the towns along the route of the proposed line in support of the application. Donnelly left for Amarillo and will return to the case by plane.

Long's testimony in the main concerned schedules to be put in effect by the Texas & Pacific Northern. Attorneys for the roads opposing the application, the Fort Worth & Denver, the Rock Island and the Santa Fe, alternately graded the speed of the schedules proposed and sought to show the impossibility of maintaining them.

On Stand Last Night
Long had been on the stand some three hours last night and had been submitted to considerable cross examination then.

The witness said the T & P-N planned to maintain a 13-hour through freight schedule from Big Spring to Vega, 232 miles, and to run a passenger train from Big Spring to Amarillo at an average speed of more than 37 miles an hour.

Long insisted those schedules could be maintained, even though opposing counsel brought out they were faster than some trains on the T & P main line. The witness explained train interference would be less on the new subsidiary. He pointed out that one train from Baird to Fort Worth now averaged 22 miles an hour although it had 23 stops.

Barwise Testifies
J. H. Barwise of Fort Worth, attorney for the Fort Worth & Denver, stated that outside of the wheat harvest season the traffic in this territory would not be sufficient to justify more than one night train a day each way. He said the through trains would have

Color Contrasts Are Used to Brighten Fall Frocks

Left, canton crepe frock in two shades of blue; center, black canton crepe dress with Eton jacket and trimming of floral print; right, brown check costume with brown fox trim.

By LUCY CLAIRE
Fashion Writer for Central Press
TWO-TONED or two-color frocks are enjoying popularity as the season advances into winter. One of the leading combinations is black with turquoise, which being a newer note, is becoming almost as popular as the black and white contrast. More of the brighter colors are used on the dark fabric frock, as black, brown, dark green, than on the less somber-toned frocks, where lighter touches supply the contrast. It is said that even the larger women are partial to dark frocks with yokes of the lighter or brighter color.

Printed silks in large floral designs play no mean part in achieving in this contrast vogue. An illustration is seen in the frock sketched at the center. The frock is of black canton crepe posed over a jumper of printed crepe in a bright floral design. It is accompanied with a little Eton jacket with three-quarter sleeves, and a lining of the printed crepe. Black accessories in mat kid shoes and a black felt hat complete the costume.

Two Shades of Blue
Two contrasting shades of blue are shown in the canton crepe frock at the left. This reverses the order of the lighter tone on the dark frock in that here the vest of dark blue corduroy, while the frock is several tones lighter in a grayed blue. The shoes and hat here match the color of the vest.

In the costume at the right the contrast is in the accessories and the fur trim of the scarf. It is of brown tweed in a checked pattern, which makes it almost a beige, and features brown accessories in kid shoes and felt hat, and in the brown fox trim. The cape scarf is one of the new developments of the cape, which has been its day. Though it is not exactly out, we do not see it so much on the newer models now being presented in fact, many of the girls are having the capes removed from last season's tweed coats and suits and made into berets. Here is an idea not only for the tweed cape, but for that tweed skirt that came to the knees a year ago and is now unwearable. Just have it made into a beret of two.

Only club members were in attendance. These were Misses Leona Allen, Mary Meador, Mabry Edens, Johnnie Gilkerson, Lulu Mae Craven, Blanche Bacon, Gertrude Daniel, Alice and Hazel Armstrong, Dorothy Lomax, Blanche Bean and Margaret McNabb.

SEES A RECORD

LAMESA, Dec. 9. (Special)—R. E. Echols, Dawson county farmer, believes he has a record on herd of cattle; not only one to boast of, but which is proving highly profitable to him. During the past eighteen months, out of 23 calves from his herd, all have been heifers but one. With a continuation of this brand of "luck" and the fact that he has plenty of feed and good winter pasture, made possible by the splendid fall rains, Echols has no fear for the future of the dairy industry, for himself.

VISITING DAY SET

LAMESA, Dec. 9. (Special)—Thursday has been adopted as visiting day for parents and friends at the Lamesa Grammar school. This movement is sponsored by the room mothers and the parent teachers association, and is planned for the benefit of parents who are not acquainted with the teachers, and with the work the children are doing. A committee of room mothers as hostesses, will be present to direct visitors to different rooms and sections of the school.

Reports Are Heard On Year's Work At Final Meeting Of WMS For This Year

The final general meeting of the First Methodist Women's Missionary society for this year was conducted Monday afternoon at the church and was devoted to a devotional and business session.

Reports were made by circle chairmen and officers for the year of 1930, the society was re-distributed into circles and a social hour followed in the church parlors, during which officers for 1931 stood in a receiving line and refreshments were served.

There was an attendance of 85 at this meeting.

Mrs. Sims Leader
Mrs. H. W. Sims was leader of a "Harvest Day" program and talks were made by Mrs. C. A. Bickley and Rev. J. O. Haymes. Mrs. Sims gave a reading and H. G. Thompson, accompanied at the piano by Carroll Thompson, played a violin solo. Miss Marie Price played a piano solo.

Reports during the afternoon showed that the society had met a local budget for \$1,000 and that \$402.24 had been paid out on a connectional pledge.

Dues in the society for the year amounted to \$372.75. Reports were made of 5,457 visits to the sick and strangers and of 1,641 garments that have been given to the needy.

Buffet Supper Is Served Collegians

Several collegians of Texas Tech were hosts with a buffet supper at the Lubbock Country club Sunday evening to their friends. Afterwards an informal smoker was enjoyed and several piano selections were played by Johnny Cook.

Dr. and Mrs. C. M. Ballenger were special guests during the evening. Other guests included Bill Youle, Theron Howard, Dick Hoffman, Walter Storr, Archie Fardus, J. R. Lane, Billy Lane, Robert Bavel, Bob O'Hair, Jack Tippen, Earl Paxon, Kenneth Leftwich, Robert Mazy and J. A. Anthony.

Club members who attended were Adolphus Smith, Virgil Roland, Bill Collins, Wayne Castleberry, Dick Carter, Bob Taylor, Bill Sewell, James Dallas, Red Waller, James Whiteside, Murray Ballenger, Gordon Dickinson, Johnny Cook, Weaver Medlin, Tommy Watson, Bruce Parks, Trent Campbell and the sponsor, Lonnie Langston.

Party Is Postponed Until January

Announcement has been made of the postponement of a party which was to have been attended by members of the Stephens Memorial Bible class of the First Presbyterian until some time in January. The social hour was formerly scheduled for this month.

Girls Plan To Have Party Saturday

Nattapew Camp Five girls are to attend a party Saturday evening in the home of their guardian, Miss Myrtle Spurlock, according to an announcement made Monday afternoon.

Program Headed By Pageant Here

A pageant on "Life's Dedication" was presented at a meeting of the First Presbyterian auxiliary Monday afternoon at the church. Mrs. H. F. Godeke, in charge of the program, directed the presentation.

The devotional lesson was given by Mrs. J. H. Hanna.

At the close of the afternoon an offering was taken for ministerial relief. There were 75 women present.

Study Group Changes Meeting Hour

The Readers' group of the A. A. U. W. is to meet Friday evening at 7 o'clock instead of at 7:30 o'clock, the hour formerly set, according to an announcement made Monday afternoon.

Mrs. O. K. Peters is to be hostess in her home at 903 College avenue and Mrs. J. H. Howze is co-hostess.

Lectures Here

MRS. VIOLA DAWSON

A mother-daughter lecture on morals will be delivered at the Lubbock High school auditorium Wednesday afternoon at 3:15 o'clock by Mrs. Viola Dawson, a representative of Rest Cottage at Ft. Point. This lecture is sponsored by the City Parent-Teacher council, with the co-operation of public school authorities. Girls 12 years of age and over and their mothers are asked to attend the lecture.

Mrs. C. P. Carlock Is Program Leader

Mrs. C. P. Carlock was in charge of a program given by the Mary Helm auxiliary Monday afternoon at the First Methodist church.

The devotional lesson was led by Mrs. C. G. Stinson, and Mrs. Will Morgan gave a talk on mission work in Mexico. Mrs. J. R. Jamison talked on a topic in the "Voice" magazine.

The annual Christmas party for the auxiliary has been announced for next Monday afternoon at 3 o'clock in the church parlors.

DRYS PREPARE FOR BATTLE

WILL FIGHT TO FINAL DITCH FOR PRO-LAW, BACKERS SAY

BY JOHN F. CHESTER

WASHINGTON, Dec. 9 (AP)—A demand for creation of an all-embracing federation of dry forces, directed from the church, to protect prohibition in the 1932 campaigns, was laid today before the National Temperance council. At another dry meeting the question of a prohibition referendum was revived.

Oliver Stewart, president of the Flying Squadron foundation, called for a dry mobilization pointed toward the next Presidential election. He hit out at the lack of "militant leadership" in the prohibition ranks, contending "the church, as such, has no place in a contest for the election of a President," and even suggested supplanting some dry organizations.

KONJOLA ENDS RHEUMATISM

Kidney and Bowel Trouble Also Yield to Amazing Power of New Method

MR. JACK J. FISHER

"I suffered frightfully from rheumatism for eighteen years," said Mr. Jack J. Fisher, well-known cook, residing at 300 Fahay street, Fort Worth. "The pains were mostly in my lower limbs but my entire body was affected. I was handicapped in my work because of the misery of this ailment. Constipation finally became an added misery. I tried many remedies over a period of years but got no results until I tried Konjola."

"I began to improve in health from the very first bottle of this medicine, and constipation has not bothered me since I began the treatment. My kidneys have been strengthened and although the pains of rheumatism seemed worse for a time, they gradually disappeared and today there is not a trace of this ailment."

Konjola should be taken over a six to eight week period in the average case.

Konjola is sold in Lubbock, Texas, at Bowen's drug store, and by all the best druggists in all towns throughout this entire section.—Adv.

EVANSTON, Ill., Dec. 9 (AP)—A red light was gleaming against motorist George Johnson, police said, when he drew up to an intersection last night.

"Look out," he called loudly and clearly "Look out ahead!" Another car was in the way. It stayed there but Johnson decided to give the driver another chance.

"I'm coming," he warned, and he did, colliding with a car owned and operated by the Evanston Police department. It is almost unnecessary to add that George was arrested.

QUARTET OF RUM CHARGES LODGED

Four charges of liquor law violations were filed in the court of Justice of the Peace G. R. Scott Monday afternoon. Charges of liquor possession were filed against H. M. Harrell and Buck Walker and charges of liquor sale against Whit Latta and Bertie Brooks.

Harrell was charged last Saturday before United States Commissioner Victor H. Lindsey with liquor sale. Appearing before Judge Scott yesterday, Harrell waived preliminary hearing and his bond was fixed at \$1,500.

The other prisoners were arrested Saturday following a series of raids conducted by county and city officers.

BISHOP MANNING MUST APPEAR IN COURT WHEN LINDSEY'S TRIAL IS CALLED; NEW YORK CLERGY THROWN IN UPROAR

NEW YORK, Dec. 9 (AP)—Bishop William T. Manning is required to appear in court next Friday when Ben B. Lindsey will be tried on a charge of disorderly conduct.

In the rectory of the cathedral where Lindsey was set upon and ejected because he interrupted the prelate's prayer, Bishop Manning was served yesterday with a subpoena in behalf of the defense.

The Rev. Eliot White of Grace church, who is chairman of the speakers' committee for the New York's Churchmen's league, has made an affidavit in which he attests that Bishop Manning "demanded" Lindsey's engagement before the league last week be cancelled.

Bishop Manning said in his sermon Sunday that he merely "requested" the change. He then proceeded to criticize a group of clergymen who had sponsored Lindsey's address.

The Bishop announced he would be unable to re-dedicate St. Bartholomew's church today because of a severe cold.

The Right Rev. Charles K. Gilbert, suffragan bishop, will replace him.

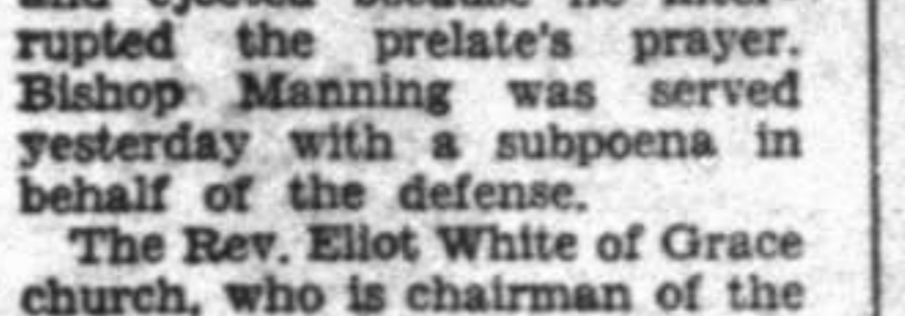

St. Bartholomew's rector is the Rev. Dr. Robert Norwood, who recently joined ten other clergymen in a protest against the Bishop's declaration that the Episcopal church is "fundamentally and definitely Catholic."

The New York World says that Dr. Norwood was one of a score of rectors who met yesterday at the Union League club to determine their stand on Bishop Manning's reference Sunday to the "little group of clergymen who have been doing whatever lay in their power to make difficulties for the Bishop and to place him in publicly embarrassing situations."

And so it is with your motor . . . 40% to 60% of all motor wear occurs in the first few minutes after starting, because ordinary oils drain away in idle periods.

But CONOCO Germ-Processed oil is always on guard duty, never drains away, penetrates metal surfaces, reduces starting wear.

A step on the starter always takes ordinary oils unawares, and it is then that most damage occurs in your motor. By draining away during idle periods, ordinary oils "let down their guard" and

let your motor in for severe punishment at a time when protection is vitally needed.

On the other hand, Germ-Processed oil always has its guard up. It's film penetrates and clings to every working part while the motor is idle.

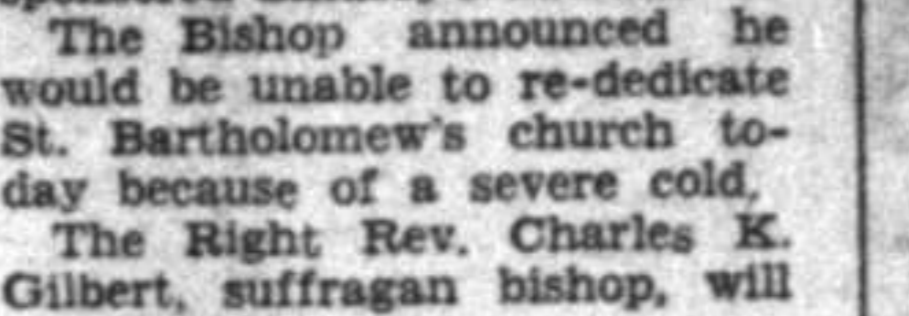

The first motor revolution finds ready lubrication guarding every clearance. The 40% to 60% of wear which might have taken place before you ever shift a gear is substantially reduced.

Thousands of motorists have found that this improved motor oil prolongs motor life and gives better all-round performance. You can find CONOCO Germ-Processed Motor Oil wherever you see the CONOCO Red Triangle.

Are MOTOR BUS Companies REGULATED?

YES

They are under the constant supervision and control of the Motor Transportation Division of the Texas Railroad Commission with headquarters in the State Capitol at Austin.

Four inspectors travel over the State continually checking up on motor bus operators and reporting violations of the law to the proper authorities, who prosecute these cases like any other offense.

Special permits must be obtained by bus companies before they can legally operate; insurance must be provided by the company and other requirements designed to promote the convenience and security of the traveling public are required of all legal operators.

THE PLAINSMAN

Says: That Girl on Broadway says it's hard on a girl who can't buy many clothes. Even Chicago's gangsters are dressed to kill.

DOESN'T Lubbock look nice and Christmassy, with the lights on at night and the yard decorations dotting the residence section? It won't be many years now until Christmas decorations all over the city will be general, rather than unusual, as they have been heretofore. And that will be fine. There's nothing that adds to the Christmas feeling—makes it really snap in the air—like decorations.

The Plainsman particularly wishes to compliment Mr. and Mrs. Louis Howard, who reside on West 19th street facing the Tech campus, upon the decorations they have up. Unless this column is badly mistaken—even more badly mistaken than A. B. Davis always claims it is when it disagrees with the Chamber of Commerce—the Howard decorations are the most outstanding in Lubbock residential decorating history.

Before the Yuletide rolls around there will be dozens of lighted homes and outside Christmas trees. Lubbock will be happier, jollier for it. It doesn't cost a lot of money to spruce up a bit for the holidays and it certainly is worth the price.

That Man on Avenue Q says he's so hecked that when he had lockjaw he didn't find it out for three months.

Stool Pigeons

THE West Texas Chamber of Commerce has won its first skirmish in the battle to have West Texas shown in proper light in the geographies which are used not only in the Lone Star state but also in many other states. One geographer, publisher of one of the three works used in Texas schools, is going to have his Texas sections rewritten immediately, without any more fuss about it. Others, you may be sure, will fall in line.

Doctor Paul W. Horn's acceptance of the task of revamping the geographies gave an added impetus to the campaign and is bound to lend weight to it. The Lubbock educator is a national figure in his profession and the sooner he is officially commissioned by the State Board of Education the better off Texas will be in this important regard.

Just because a nurse maid drags \$30 a month for rocking the baby to sleep is no reason why she should be accused of taking hush money.

BETWEEN four and five thousand words a day are tumbling over the news wires from Lubbock as the ICC hearing on the T&P-Northern's proposed construction rocks along. Four visiting correspondents are keeping their typewriter clicking as Texas from top to bottom, keeps tab on what's going on in "The ICC Hearing City of America."

T. E. Johnson, managing editor of the Amarillo Globe-News has forsaken his private office to assume the role of reporter as he often does on development stories affecting the Panhandle, where he has labored as a newspaperman for many years. Sam Atchison, of the Dallas News, and Byron Utecht, of the Ft. Worth Star-Telegram, are veterans of the daily grind. If all the dots and dashes end of their copy were laid end to end there's no telling how many times they'd circle the globe. And in Harrell E. Lee, of Dallas, representing the Associated Press, the new type of reporter is typified. Suave, smooth and youthful, nattily attired and with jaunty air, Mr. Lee is reporting the hearing for 78 Texas newspapers—day and night.

Those uninitiated, who are wont to believe that the visiting newspaperman on assignment has a merry time being wined and dined, should follow either one of the four visiting correspondents as they pursue their stories, separating the wheat from the chaff, from early morning, through afternoon and late evening—on through until near midnight. They'd find all that glitters might be fool's gold.

Sorry For Mother

ADVENTUROUS young boys are bound to get some anxious mothers every now and then. Young boys are that way. Consider the plight of the mother of that Cleveland lad who ran away from home recently. A youngster wound up in Chicago. He went bodily to Al Capone's house and asked for help. His brother took him in, ended him—and then called the mother in Cleveland to tell her he was!

Imagine being a mother, missing son over whom you've worried for a couple of days because he hasn't come home. To learn that he is visiting home of Al Capone! Can you wonder that the lady frantically called the Chicago police? Or her husband hopped the next train to Chicago to bring the boy back?

William Green Holds Doubtful Distinction Of Being A Man Who Said The Wrong Thing, Rodney Dutcher Reports

BY RODNEY DUTCHER, NEA Service Writer

WASHINGTON, Dec. 9.—President William Green of the American Federation of Labor probably will hold for some time the distinction of being the man here who caused himself the most embarrassment by saying the wrong thing at the wrong time.

Just a few simple words from Mr. Green as he left the White House had the various effects of damaging the prestige of the American Federation of Labor, boosting sections of union labor outside the federation, strengthening the hand of President Hoover as he told Mr. Green where to get off and cinching the appointment of William N. Doak as secretary of labor despite the opposition of Mr. Green.

Mr. Green probably shouldn't get full credit for the Doak appointment simply because he told the world that Hoover must appoint an A. F. of L. man and not Doak. There is very good reason to believe that Hoover had intended to appoint Doak all along.

The fact seems to be that Hoover wanted the labor leaders to present a list of candidates which would include Doak, so that he could select Doak as "labor's choice." When Green openly declared against Doak, however, the president was able to take advantage of that in a spectacular manner and achieve his original purpose.

Doak, the legislative representative of the railroad trainmen's brotherhood, had no strong support from organized labor, even within the brotherhoods beside his own. Aggressive labor leaders always looked askance at his close associations with Senator Jim Watson and other very conservative Republicans as well as his vigorous political activities.

When most of the labor movement went for LaFollette in 1924, Doak stood loyally by his good friend Calvin Coolidge. When most labor leaders were for Al Smith in 1928, Doak became head of the Republican National Committee's labor bureau.

Even among the other three brotherhoods there had been a comparatively general feeling that Doak didn't represent labor aggressively and was too friendly with the "enemy." He had risen in the trainmen's brotherhood under the conservative President William Lee, who was widely regarded as being "too close" to the railroad executives.

Doak's personal attitude, it should be said, is that labor can get more out of capitalists and congressional Republicans by co-operation and persuasion than through constant warfare. Few persons expected, anyway, that anyone but a very conservative union labor man—preferably a good Republican politician—would be chosen for the labor post. And the Doak appointment is much less offensive to progressive labor groups than would have been that of Vice President Matthew Wolf of the federation or President John L. Lewis of the second oldest American labor union—the first being the Typographical Union—and was born in 1883. The conductors, firemen and trainmen were fighting their own battles before the federation was organized. The engineers' brotherhood is the second oldest American labor union—and was born in 1868. The conductors, firemen and trainmen had founded the other brotherhoods by 1183 and the federation was born in 1868.

Diet and Health

By LOGAN CLENDENING, M.D., Author of "THE HUMAN BODY"

DR. CLENDENING'S VIEWS CONFIRMED BY AUTHORITY FROM WHOM HE QUOTES

COMPLAINTS come to the effect that my articles do not furnish enough short cuts to dietary success. I do not say that a certain kind of diet is the right one and every other kind is the wrong one. It is comforting, therefore, to find some of my ideas confirmed by eminent dietitians.

Dr. Robert Hutchinson, of the London hospital, is recently reported to have said: "Vegetarianism is harmful when taken together in any combination." "In recent years we have witnessed the propaganda for whole wheat bread. Its advocates attribute many of the ills of mankind to milling the grain which removes the bran. They assert that white bread is thus deprived of important vitamin constituents, ignoring the fact that these elements are supplied when white bread is made with milk, or eaten with butter, and in other constituents of the diet. The necessity for roughage in the form of bran has likewise been overstated. Bran is indigestible and irritating. As a constituent of the diet it is not necessary for the well or ideal for the sick. The cellulose of cooked vegetables has much more to recommend it."

Remember, these are not my words, but the sober opinion of a conservative physician writing a paper not for popular consumption but to be read by doctors in a medical journal.

WEST TEXAS: Cloudy and unsettled tonight and Wednesday, probably occasional rains in south portion.

EAST TEXAS: Mostly cloudy tonight and Wednesday, probably local rains in west portion and near west coast; somewhat warmer tonight. Light to moderate northerly to easterly winds on the coast.

LOUISIANA: Fair, somewhat warmer tonight; Wednesday increasing cloudiness, warmer in east portion. Light variable winds on the coast, mostly northerly.

ARKANSAS: Fair tonight; Wednesday increasing cloudiness.

OKLAHOMA: Increasing cloudiness tonight and Wednesday.

HOOPER Lost Nothing

Politically, Hoover has probably lost nothing by the public rebuke to Green, although he is hardly likely to have gained anything except a certain amount of admiration for such unaccustomed presidential boldness. The A. F. of L. with its alleged 3,000,000 members, is nowhere nearly as active politically as the four railroad brotherhoods, with their 350,000.

The brotherhoods spend money and energy best of all in every election on behalf of labor's friends in Congress. They make a more active, effective showing in many respects, year in and year out, than the federation.

Along with the Amalgamated Clothing Workers—which has some 200,000 members—the brotherhoods group is one of the two big labor organizations outside of the A. F. of L. Railroad workers were fighting their own battles before the federation was organized. The engineers' brotherhood is the second oldest American labor union—and was born in 1863. The conductors, firemen and trainmen had founded the other brotherhoods by 1183 and the federation was born in 1868.

To keep alive the Christmas spirit, any mis'll toe the mark.

In New York With Swan Gilbert Swan

NEW YORK, Dec. 9.—From his perch on stilts, a good six feet above the heads of the Manhattan crowd, Fred Wilson has come to occupy a unique position in the city's life.

Year upon year he has swung his long, awkward sticks down the highways of the mid-town belt. Year upon year the back of his coat or the front of his vest has carried some message aimed to catch the eyes of the mob.

One day the sign advises you to eat at Tony's lunch counter; another day it tells you where to have your shoes repaired, your clothes pressed and your watch fixed. Wilson has carried the messages of the theaters, the shooting galleries and the pigmy golf courses. It's been all one to him.

And swinging thus, the stilt stroller has become a figure as well known as any the sidewalks of New York have produced. He has swung through middle age and toward his sixties. He has found it a good meal ticket and a simple way for a one-time acrobat to solve the problem of advancing years. He has come to see the city as a surging mass of heads and legs and bodies through which he must weave his way without being tripped. He has been the official, unchallenged stilt king of the big town.

But just now there is competition. There is a second stilt walker hark back to the name of Glenn Phillips and he'll hand you a business card bearing the name of "Daddy Long-Legs."

Although but 31, Glenn is also resting on old acrobatic laurels. For he was a gent who leaped from the bridge, who went over the cliff on the rope and who jumped from the airplane in a parachute.

He was the gent who leaped from the bridge, who went over the cliff on the rope and who jumped from the airplane in a parachute. There was a time, he will remind you, when he mounted an elevated track in mid-Manhattan and leaped to the top of a passing car. Later the movie folk told him casually that he had been called in after the first "stunt" man had broken his back trying to do the Ruth Roland days. But he was a movie stunt man in the days when movie stunt men were stunt men! What's become of these harmless days of conversational films?

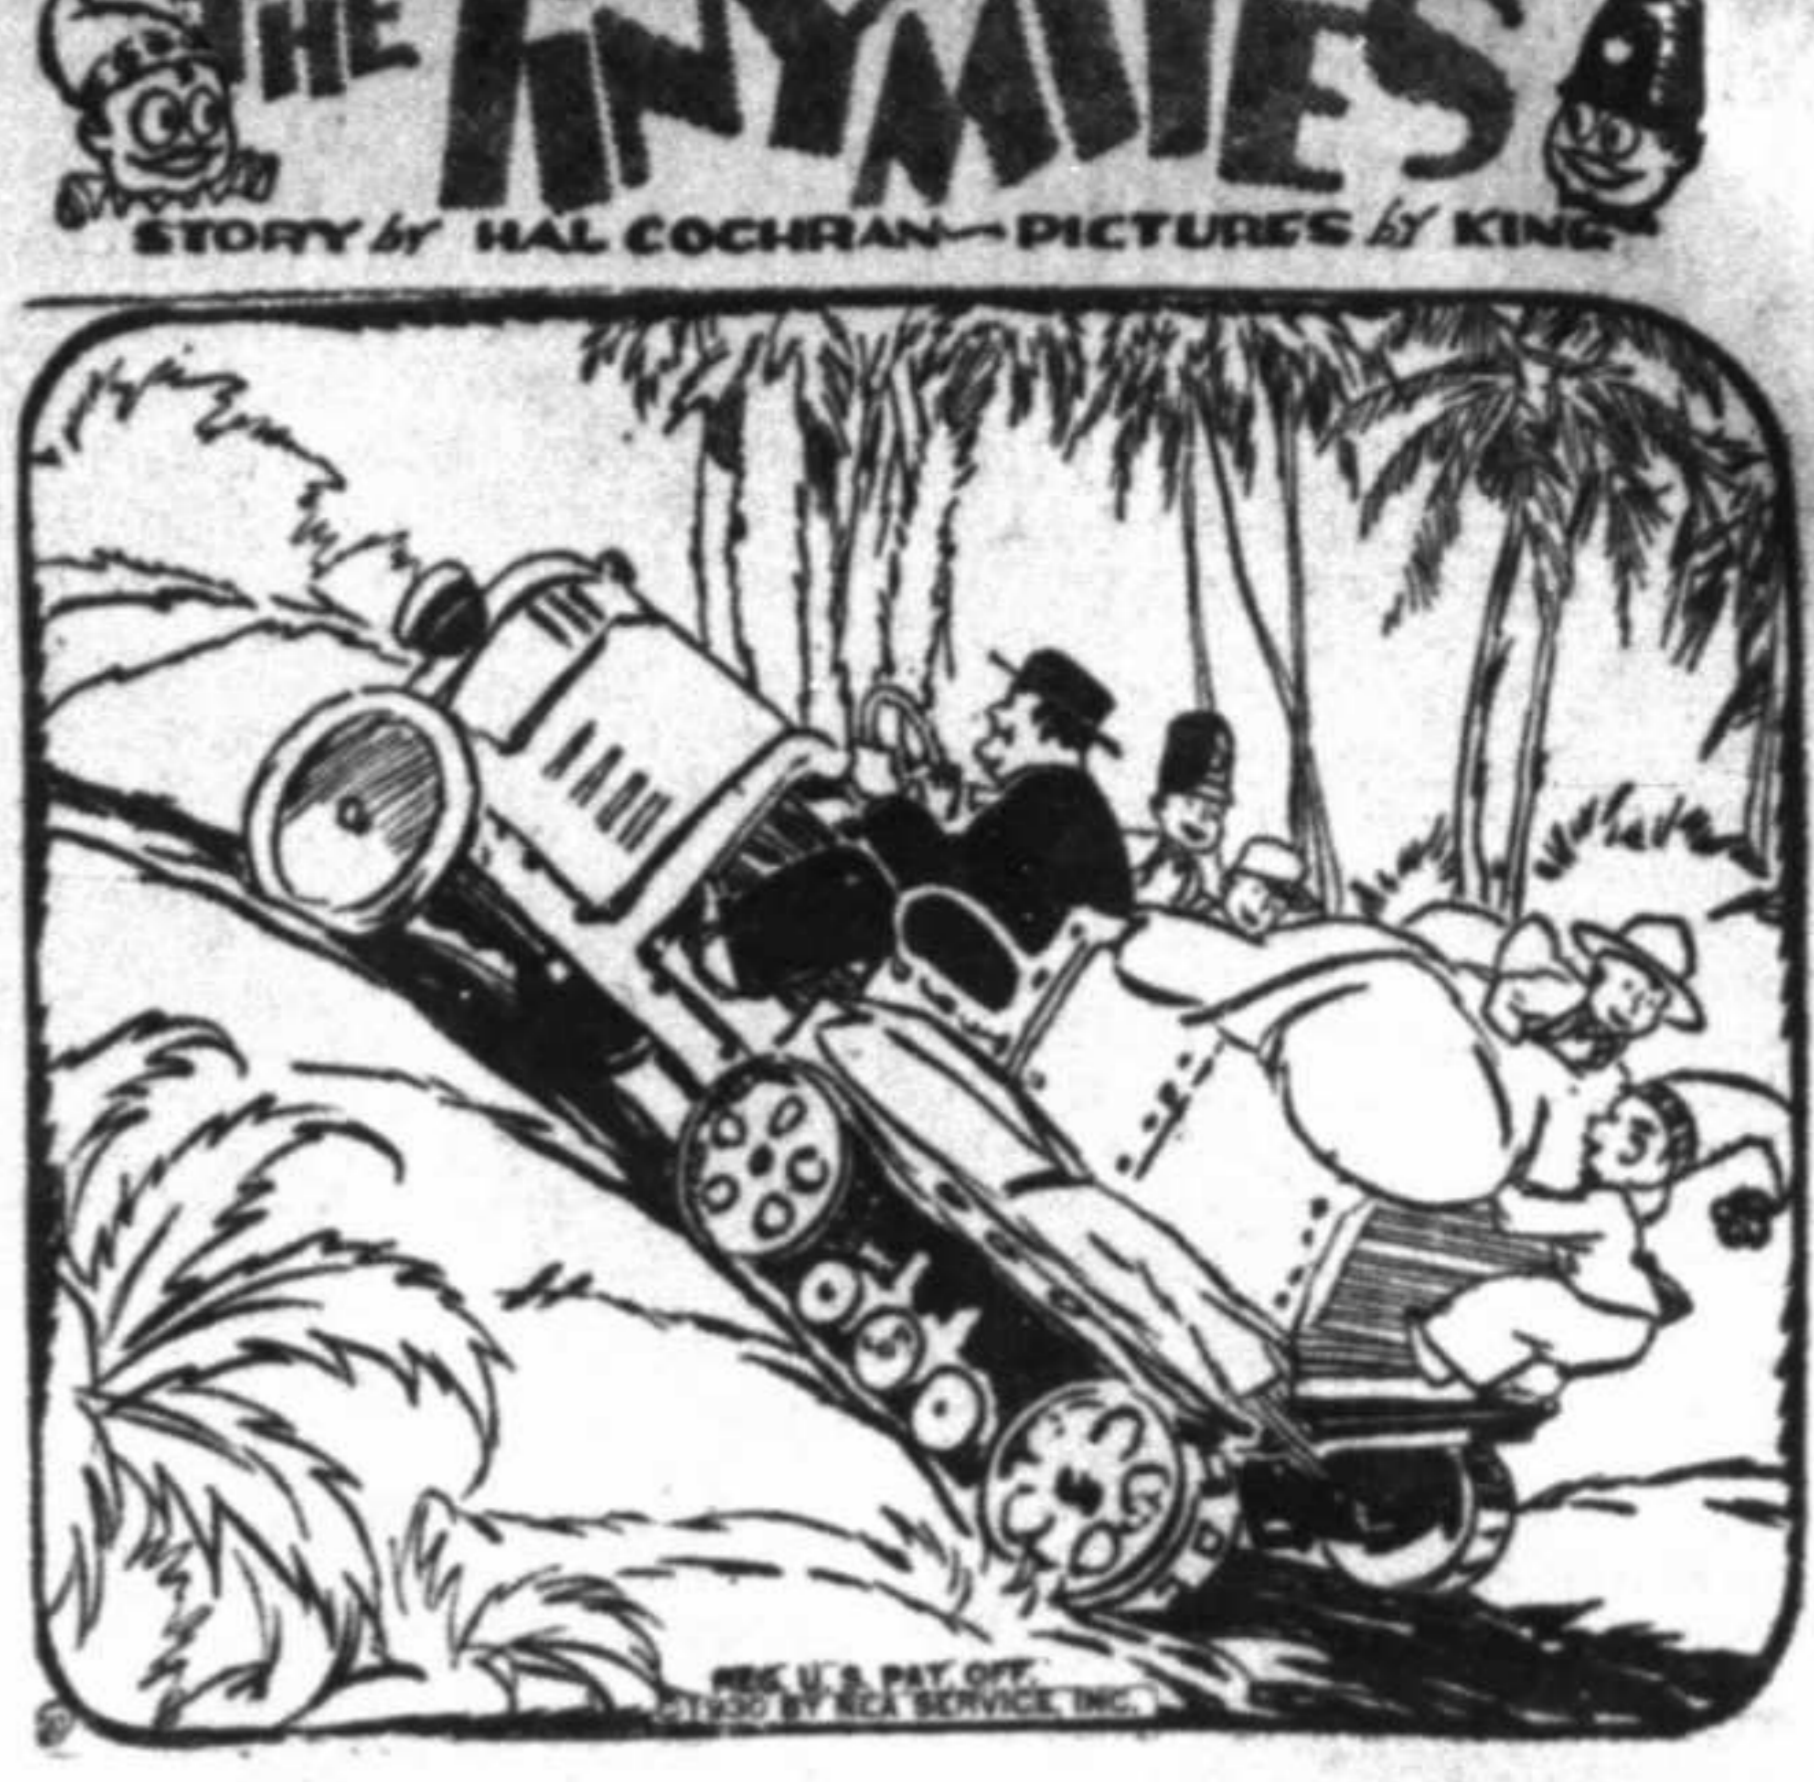

Phillips dates his youthful adventures in hand-walk back to the Ruth Roland days. But he grew up and began to consider the value of his arms and limbs and drifted back to Broadway. There he went about his acrobatic way until one day he encountered the veteran Wilson, who chanced to be swinging past. They fell into conversation and soon agreed that there was probably room for both of them—so there they are. They agree to choose opposite sides of the street wherever possible, but now and then some shrewd advertiser decides that two stilt walkers might attract more notice than one. Then they link arms and go strolling side by side. Parades have come to demand them. Just the other day I noticed them marching down the "avenue" at the head of a Christmas-tide pageant, dressed as politicians.

But all isn't simple in the stilt strolling trade. The strapping of legs and ankles interferes with the circulation and Wilson, at 36, finds it a bit hard to keep going at times. Three to four hours in the air is about all a man can stand. But he attracts more notice than one. Then they link arms and go strolling side by side. Parades have come to demand them. Just the other day I noticed them marching down the "avenue" at the head of a Christmas-tide pageant, dressed as politicians.

The noise abatement committee which has just been appointed in Philadelphia probably will find the city considerably quieter when the world's championship changes hands.

Then there's the Chicago gunman who sprayed his mischievous son with bullets in the belief that to spare the "rod" is to spoil the child.

The best quality of hard red winter wheat, says the Department of Agriculture, is produced in the United States. Is this caliginous to make the Russian reds turn green with envy?

(READ THE STORY, THEN COLOR THE PICTURE)

Wee Scouty shouted out, "What luck! This is a caterpillar truck and I can climb most any place. Just like an army tank. Of course we're only starting now, but you'll soon see how it can plow. And when it comes to climbing, wait until we reach a bank."

They rode around the town awhile and folks who saw them had to smile. It really was a funny sight, the load of Tinymites. Some men in costumes very queer waved to the boys as they came near. Then Coppy said, "At night what are we going to do for lights?"

"We'll travel out across the land on roads we do not understand. I fear that we may lose our way." The Travel Man replied, "Why, this truck's fixed with lights all right. They'll brighten up our path at night. But I can buy some lanterns we can keep right by our side."

The truck was soon brought to a stop. It took about an hour to

shop, 'cause there were many things to buy. One Tinymite said "Gee, buy lots of food to take along. If we can eat naught will go wrong. Just think, when we are traveling, how hungry we will be."

At last their purchasing was done. Once more the truck began to run and as they passed out of the town, the Tinymites waved goodbye. Said Scouty, "I have taken Algiers! Let's give the town three rousing cheers." That's what they did. Then Clowdy cried, "I see a hill that's high."

"I'll bet we're going to climb it, too. We'll see what this big truck can do." And sure enough they reached the hill and started toward the top. The caterpillar truck worked great. It didn't even hesitate. "What did I tell you?" Scouty cried. "I knew it wouldn't stop."

(The Tinymites stop at an oasis in the next story.)

BENEVOLENCES IN THE CHEST PLAN

FURTHER EXPLANATION OF COMMUNITY CHEST

Editor's Note—This is the fourth in a series of articles about the Community Chest.

Some who considered the Community Chest as merely a charity dispensing agency have argued that the character building agencies, such as the Boy Scouts, Camp Fire Girls, Y. M. C. A. and Y. W. C. A., have no place in the chest.

Without them, the organization would not be a Community Chest, but would merely be a charities organization, because a Community Chest is the grouping of all welfare, philanthropic, benevolent and social service agencies in one community into one group for the common good of all agencies and for the community as well.

It is important that these agencies are included in the chest.

Prevention Beats Cure

Preventative phases of social work are more important than charity giving—even in an emergency.

Character building is an intangible process. It is impossible to tell what forces work upon the growing boy that cause one to get scuttling into the alley with a gun and the

Additional Prizes Offered At Slaton

SLATON, Dec. 8.—A total of \$150 in gold will be given away by Slaton merchants during the first annual Texas Panhandle-Plains Poultry Show here next Wednesday, Thursday and Friday, \$50 being given away each day, according to Mrs. Lee Green, secretary of the Slaton Retail Merchants association. This is in addition to and entirely separate from the regular poultry premiums.

Slaton Ginnings At 3,260 Bales So Far

SLATON, Dec. 9.—Slaton's cotton ginnings for this season have reached the total of 3,260 bales. Receipts last week were 127 bales, being slowed down by rains. Farmers are almost through gathering the cotton crop, they say, and ginneries believe the season's ginning total here will not exceed 3,500 bales. Gin receipts at Posey, Union and

Chest Drive

Starts Wed. Morning Dec. 10

The Goal Is \$25,750

Will Lubbock Measure Up!

In last Sunday's Avalanche-Journal we told you what the Community Chest actually is, and how it is operated. Also its practicality and purpose was discussed at length. Nine out of ten people don't know what the Community Chest is: We say again:

The Community Chest is not a charity dispensing organization—but designed wholly to bring together all existing welfare, philanthropic, benevolent, character building and social service agencies in the community for the purpose of solving their financial problem for one year, and in order that the Community Chest board may supervise the activities of these agencies as an assurance and guarantee to the public that they are conducting their work for the best interests of Lubbock as a whole.

We emphasize the purpose of the Community Chest as being: To bring together all the welfare, philanthropic, benevolent, character building and social service agencies that exist in the community, or that may be organized, into one big community wide, cooperative movement for the common good. The Chest fosters co-operation between the citizens of the community and the agencies (which include Y. M. C. A.—Y. W. C. A.—United Charities—Salvation Army—Boy Scouts—Campfire Girls) as well as to promote co-operation among the agencies themselves—and there lies its key to real public service.

Nearly 400 cities in the United States have tried out and are using this modern, business like and efficient method of financing and supervising their social welfare work.

Remember that the Community Chest campaign this year is being put on by local people who receive no pay for their services, not even getting their meals at the report meetings. The Community Chest has no paid supervisors or salaried officers, but the work is carried on by people who donate their time and energy to this work. Only one person receives pay for handling the necessary detail work of the Chest as it accrues each month and day.

The Community Chest saves the public money through replacing the expense of six campaigns with one. But far greater still, is the money saved the public and type of work each agency is doing for the community, and through careful analysis and study, giving that agency the right amount of funds with which to operate.

Sometime Wednesday, Thursday or Friday you will be called on by a Lubbock citizen to do your share. We respectfully ask that you give this great community problem your sincerest consideration, and that you give what is within your province.

SLATON TIGERS JOIN CLASS A ANNUAL CAGE MEET DROPPED

REVAMPING OF DISTRICT IS ANNOUNCED

ASS B KINGS TO BE INTRODUCED TO BIG TIME FOOTBALL

SLATON, Dec. 9.—(Special)—Slaton High school, king of the Conference B schools of Northwest Texas, became affiliated with Class A of District 1 last night when the school board met in executive session to consider the invitation extended them by Class A officials last Saturday night. It was voted that Slaton would be associated with the upper division of the district for a period of two years, and at the end of that time the association will be come permanent if conditions are favorable.

The district was split into two sections at the annual meeting of Class A officials in Amarillo last Saturday night. Slaton will be with Lubbock, Amarillo, Pampa, and Plainview in the upper or western section of the loop, with Childress, Quanah, Vernon, Electra and Wichita Falls in the lower or eastern division.

Round Robin Planned
A round robin schedule will be played in the two divisions and the winners will play on Thanksgiving day for the championship of the district.

Schedules for 1931 were made out at the Amarillo meeting, with Slaton being included and represented by Coach Paul Wright, although it was not known at the time that the Slaton school board would accept the invitation. A similar bid last year was turned down, according to Superintendent L. T. Green.

During the past six years, the Slaton Tigers have won four Class B grid championships, twice taking bi-district titles. This consistent record plus Slaton's growth and development as one of the larger towns of Northwest Texas, influenced the action of the District 1 executive committee. The Tigers have just finished a successful season, and last Friday defeated Dalhart for the bi-district championship. They will meet Olney High at Olney next Friday for the regional championship.

MAJOR LEAGUE MEET QUIET

TIME-WORN DRAFT IS ONLY EXCITING SPOT IN CONFERENCE

NEW YORK, Dec. 9.—Major League club owners spent the first day of the annual midwinter meetings in high-powered conversation. When all was said and done yesterday it took the time-worn draft question to provide the only excitement of the day.

The committee of nine appointed by the three Class AA non-draft leagues—American Association, International and Pacific coast leagues—announced they had been invited to confer on the draft question with a committee representing the National and American leagues tomorrow.

Quorum Missing
Efforts to hold an informal conference between the opposing groups yesterday failed when the major leagues could not gather a quorum. The majors have discontinued all business dealings with the five non-draft leagues, the three Class AA circuits and the Western and Three-Eye leagues until they accept the draft. This non-draft organizations are prepared to do but the rival groups have been unable to agree on terms. They may do so at tomorrow's conference or later in the week but baseball men generally were of the opinion that settlement of the dispute was only a question of time.

Of 19,000,000 acres in South Carolina, only about 6,000,000 are under cultivation.

USUAL PROSPECTS AT TEXAS PROMISE ANOTHER TENNIS TITLE TO STEERS

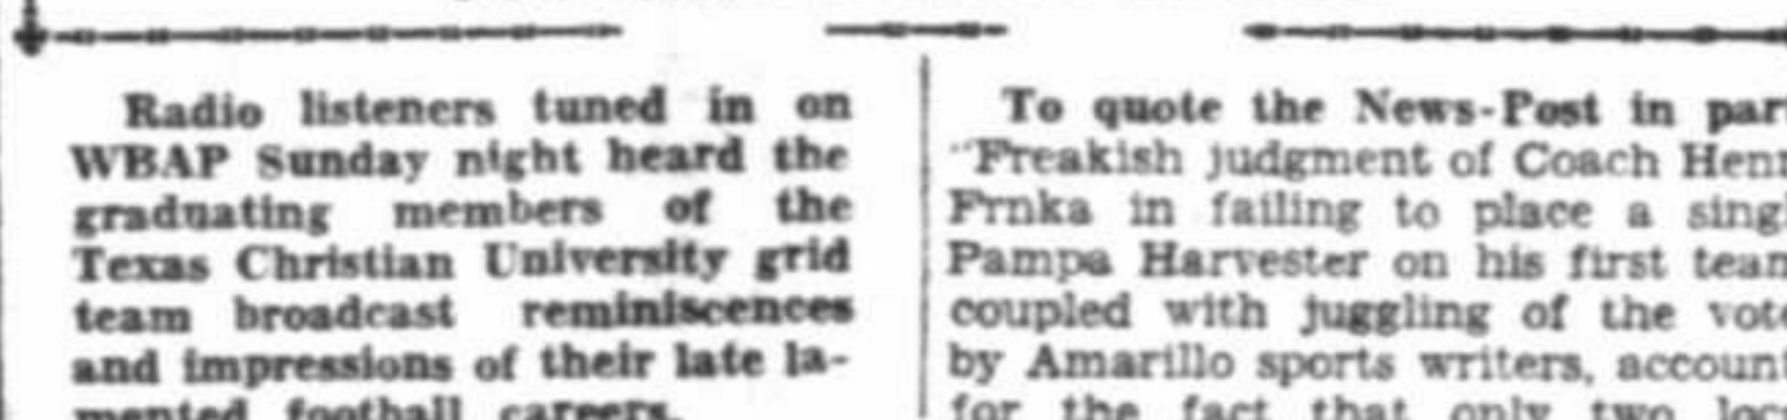

By NEA Service
AUSTIN, Dec. 9.—Tennis prospects at the University of Texas "are about as usual," according to Dr. D. A. Penick, bi-spectacled and bicycle-riding Greek professor and maker of tennis champions. And when they're that way, it appears that the Longhorn racquetballers are in for another triumphant conquest of southwest courts.

Foremost among the varsity candidates are Bruce Barnes, nationally prominent player; Captain Earl Taylor, vastly improved since the summer tournaments; Lucien La Coste and Warner McNair, lettermen. Earl Kamrath, freshman sensation last year and national ranking junior star, will be watched with interest as many believe he has a chance to displace Barnes as No. 1 player.

Several players developed by Dr. Penick have become famous in national and international competition. Among them were Wilmer Allison, Davis cup star, and Berkeley Bell, member of the Davis cup squad.

Dr. Penick has a chance to displace Barnes as No. 1 player.

Bruce Barnes

Radio listeners tuned in on WBAP Sunday night heard the graduating members of the Texas Christian University grid team broadcast reminiscences and impressions of their late-terminated football careers.

Cy Leland, one of the most famous athletes of T. C. U. and the Southwest Conference, a Lubbock lad who made good, had quite a lot to say and his answers to cur and-odd questions propounded to athletes on such occasions were interesting. Asked which sport he preferred now, at the close of a more or less successful football season, Cyrus informed radio world that he had changed his mind again and had a weakness toward track, which he believed came more natural to him than football.

A year ago Cy said he liked football the better, but "after a partially successful football year, I think I prefer the cinder path." In reply to the question as to why he did not step off as many 85- and 90-yard runs as he did last year, Leland said it was partially due to his being covered by opposing teams more closely and his larger use to the absence of Howard Grubbs in the Frog backfield. Howard, he said, made the long runs possible by wonderful interference and blocking.

Has anyone seen Coach Henry Frka? After reading Sunday's issue of the Pampa News-Post the Westerner mentor seemingly has disappeared. Attempts to reach him by telephone have failed. "Prejudice Seen in Grid Selections" is a bold-face heading to a lengthy story appearing in the Pampa paper which pertains to the Westerner skipper and his choice for all-District 1 gridiron heroes. As a result of the composite selection by coaches, officials and scribes of the section, Pampa High school runner up in the district race, places only two men on the mythical team, and the News-Post is demanding a recount of the votes and Coach Frka's ostracism from the valley of sainted men.

It seems that Coach Frka has been "unjust, prejudiced, mean, insulting, injurious, greedy and unscrupulous" in selecting his all-star aggregation, and that the Amarillo scribes "juggled the votes to suit themselves and bring glory to the Golden Sandstorm" at the polls. It is thought that Pampa supporters, not yet acquainted with the doings of Class A football, will petition President Hoover to appoint a commission to look into the sordid proceedings in District 1.

CHICAGO WILL NOT SPONSOR BIG EVENT

HIGH SCHOOL TOURNEY DISCONTINUED AFTER VOTE IS TAKEN

CHICAGO, Dec. 9.—The "big trip" to Chicago to strive for the National Intercollegiate basketball title has been made by high school teams for the last time. Coach Amos Alonzo Stagg last night announced that the University of Chicago had decided to discontinue the tournament which has been the blue ribbon event of high school basketball since 1917.

From every part of the country the prep stars made a colorful drive on Chicago for a week each March. Boys who had to walk miles to the railroad and teams which played and practiced outdoors came to the tournament, the last two renewals of which were won by the Athens, Tex., Hornets.

Suspension Threatened
The National Federation of High School Athletic associations and the North Central Conference of Colleges and Secondary schools, in the past few years have disapproved of national athletic events. The high school organization last winter voted to suspend any member institution attending such tournaments.

A committee appointed by the University of Chicago to learn the sentiment of high school principals sent out a questionnaire. Eighty-nine voted for discontinuance, 30 wished to have the tournament continued and 16 were undecided.

SOUTHERN CALIFORNIA AWAITS SELECTION OF ROCKNEMEN

LOS ANGELES, Dec. 9.—Southern California today began to wonder what kind of a football eleven Knute Rockne would bring out here on the Coliseum turf December 27 in the all-star game between Notre Dame stars and a West-South combination.

In addition to some members of the Notre Dame squad who overwhelmed the University of Southern California last Saturday, Rockne's immortals of other years will be seen in the Notre Dame lineup, word from the South Bend mentor indicated.

Ducats Selling Fast For Army And Navy Game

(By The Associated Press)
NEW YORK, Dec. 9.—Ticket sales for the benefit football game between the Army and Navy at the Yankee stadium Saturday had passed the \$600,000 mark today and it still was hoped receipts would reach or exceed \$1,000,000.

Grover Whalen, chairman of the committee sponsoring the contest to aid the unemployed, announced that 17,000 of the 80,000 tickets remained to be sold. He expressed confidence that they would be disposed of within the next two days.

Navy Win Help
Stimulating the sale more than any other factor was Navy's spectacular triumph over Pennsylvania at Philadelphia last Saturday. The Midshipmen revealed unsuspected power on the attack in that game and all predictions of an easy Army victory have been tossed overboard. Prospects now are for a closely contested game that may be decided by one "break."

Army has much the better record, losing only to Notre Dame by a one point margin and getting no better than tie with Yale. Navy, on the other hand, was trounced by Notre Dame, 26-2, and lost to Duke, Ohio State and Southern Methodist as well.

Middies Improve
But the Midshipmen have been coming fast and seemed to have reached the peak against Penn. The Quakers were baffled by the rugged Navy defense and Gagnon, Kern and Hurley gained ground almost at will through Penn's defenses. Army, on the other hand, pointed for the Notre Dame contest and then broke training for three days to keep from going stale.

Hoppe And Cochran Stand 'All Square'

CHICAGO, Dec. 9.—Willie Hoppe and Welker Cochran were all square today in their 182 ballline billiards match.

Hoppe won yesterday's opening block, 300 to 30, and had a high run of 196. Cochran took the night block, 300 to 125, to even things. The match will be decided on the basis of block victories, rather than total points. Four more blocks at 300 will be followed by six blocks of 181.

Ex-Westerners Are Working For Spur

Fair Park Field is again the scene of lively practice sessions as the Lubbock ex-high school Westerners drill for the benefit game here with Spur High school. The game proceeds of which will go toward relief of unemployment and charity, will be played at Tech field on Thursday of next week.

Two Named To Lead Westerner Quintet

Jesse Holmes and Jimmie Wright were elected co-captains of the Lubbock High school basketball team at a meeting of the squad last night. Holmes is the only returning letter man of the 1929-30 season, and Wright is playing his second year with the locals.

BURT SHOTTON PLEASSED WITH PHILLY REVAMPING; CAT RECRUIT MAY SHINE

PHILADELPHIA, Dec. 9.—(AP)—Burt Shotton, manager of the Philadelphia Nationals, said today he was pleased over recent deals that will send former Phillies to other clubs, and that he would not attend the National League meeting in New York as he had no more trades in mind. The 1931 Phillies will be practically rebuilt.

"All these deals should benefit the club," Shotton said, "particularly the trade that gave us Bartlett. I had been angling for him for some time. He can hit, he's fast and a fighter—true type of a man I want."

Mallon Looks Good
"As it looks now we will go along with Hurst and Sherlock at first base. Second is uncertain. I have great reports of Mallon, our Fort Worth recruit, but if he doesn't measure up we will have Barney Frberg for the keystone sack."

"Bartlett and Whitney are fixtures at short and third at present. Chuck Klein of course, will be in right field. I will have to give attention to center and left field, as both Koster and Lee are experimentals."

"My catching staff isn't the best in the league, but it might be worse. I would like to make changes but sometimes it is not possible for various reasons. You can't build a ball club in a year. I have confidence in my revamped pitching staff. Elliot should be a big help and Dudley should be a good gamble."

ENTER Gas Steam Heat

THE pot-bellied stove and openface cracker barrel in the community emporium are gone, discarded by progressive merchants. Today's stores are for commerce instead of conversation; hence the abolition of the Hot Stove Congress.

The modern method of store heating is the Clow Gasteam way. It is completely clean heating, saves a lot of valuable floor space, and makes a store warm and inviting on cold winter days.

Besides, Clow Gasteam increases the sales force's productive labor—enables every clerk to wait on customers 100% of the time, instead of on the heating plant.

IT TAKES A HOOVER SWEEPER TO GO BELOW THE DUST LINE FOR THE DIRT YOU NEVER SEE!

The light surface dust on your floor coverings is something you can see. When it is gone, you think your rug is clean. Below this dust line, this surface layer of harmless dust, is filth you never see. Filth of the most dangerous character, grit that destroys your rugs. This is the dirt the ordinary sweeper fails to remove. It must be beaten out of the pockets, danced to the surface. Elizabeth Arden offers gifts of true beauty

Give beauty, in the form of a really practical gift from Elizabeth Arden. An attractive box containing Miss Arden's famous beauty-laden preparations...a jar of bath salts with a holiday air...an enchanting compact...fragrant imported soaps...any and all of these gifts will be joyfully welcomed by the woman who appreciates charm and distinction combined in a gift of true usefulness.

● **ELIZABETH ARDEN'S BEAUTY BOXES** are filled with the loveliness every woman longs for. You may have a luxurious leather traveling case, completely equipped. Another charmingly satisfactory small gift is a box of rose lacquered metal... just enough for a week-end. And, in between—special cases for making...for short visits, and long ones...each ingeniously filled with those preparations you are sure to need. \$3.50 to \$125

● **COMPACTS**...for loose powder in the preferred style. ARDENETTE—gold, flat, octagonal, and cleverly engine turned. \$3

● **DOUBLE-ARDENETTE**—The same glistening case, including a tiny compact of rouge and an unbreakable chromium mirror. \$4

● **BLACK and SILVER ARDENETTE**—the same case interpreted in enamel, black, silver and a touch of gray-blue. Single \$4, double \$5. Black and silver lipstick to match \$2.50.

● **POUDRE D'ILLUSSION**—Elizabeth Arden's famous powder...indescribably soft and fine...in a satin-lined box. Six shades. \$3

● **MAF FANCIÉ**, a marvelous day-time shade in a striking silver box. \$3

● **BATH SALTS**...rose, pine or nivalina, as you prefer. Invigorating crystals in transparent jars, with satin bows \$1.75, \$3, \$5

REVIEW OF FOREIGN NEWS OF WEEK

(By The Associated Press)

BY CHESTER L. SHAW
Associated Press Cable Editor

The upper house of the British parliament can vote no confidence all it pleases and the incumbent government just laughs, but when such a thing happens in France the ministry joins the ranks of the temporarily unemployed.

This was illustrated last week, with the British House of Lords approving an attack upon the Ramsay MacDonald government for its alleged failure to cooperate with the recent imperial conference. But Mr. MacDonald lost no sleep, for no British government has ever fallen in the House of Lords, which is largely a hereditary body containing few labor peers.

Different in France

But it was something else in France during the same week. There the Senate is an elective body, and a strong attack by Senator Rene Hery on the financial policies of Premier Andre Tardieu led to a government defeat. The opposition obtained only a eight vote margin, later revised to three but that was sufficient to cause a collective resignation of the Tardieu ministry. The ironical thing was that only a few days earlier the Chamber of Deputies, which usually places the ax upon the neck of a French cabinet, had given Tardieu a vote of confidence upon the same issue, which grew largely out of the failure of the Oustric bank. The Senate, incidentally, has turned out only four governments in the history of the third republic.

In any history of parliamentarism for the week, Germany should be given a large-sized page. Chancellor Heinrich Brüning repulsed all efforts to throw him out, although it is probable that the threat of a

semi-dictatorship aided him more than any Reichstag fondness for his program.

Have Labored Long

All summer long Chancellor Brüning and his ministers labored upon a financial program that would untangle German finances. It involved, among other things, rigid restriction of governmental expenditures and the slashing of state salaries.

But the Chancellor saw black clouds hovering over the Reichstag, heavy with Fascists and Communists following the fall elections, and he despaired of legislative success for his plan. He put it up to President Von Hindenburg, who decided that legislative debate should not delay so important a financial measure and forthwith signed decrees bringing the laws into effect.

Fear Is Felt

The Reichstag constitutionally could revoke these decrees and it could pass judgment on the Chancellor's fitness, but it hesitated to turn him out for fear that, as early in the summer, Herr Brüning would be empowered by the President to dissolve the Reichstag, call for new elections and conduct the government under a quasi-dictatorship in the meantime. This is possible under article 48 of the constitution.

Ely Says No Chance Of Road Bond Issue

PORT WORTH, Dec. 9.—W. R. Ely of Athlete, chairman of the State Highway commission, does not believe the next legislature will submit a constitutional amendment authorizing state issuance of highway bonds. Speaking at a banquet here last night, Mr. Ely said that in his opinion the house, which narrowly defeated submission in the last legislature, would approve it in this one, while the Senate would oppose it, reversing its position last year. Ely said he advocated a \$200,000,000 bond issue.

Business Block In Lufkin Is Burned

LUPKIN, Dec. 9.—Fire which started in the building of a motor company and spread with the explosion of gasoline tanks destroyed a business block here last night. Among the businesses burned were the Spain Motor company, the Lufkin Tire and Boot company and the John Sing Electric company. The motor company lost a number of automobiles.

RED BOMBS FOUND

PIRMASENS, Bavaria, Dec. 9.—Police announced discovery today of an alleged Communist arsenal containing a dozen large bombs and explosives for the manufacture of more bombs.

Twenty-four members of a Communist Anti-Fascist league have been arrested. Some of those arrested are said to have confessed that the bombs were to be used in a civil war aimed particularly at suppression of the Fascists.

heavy fire since the opening of their fall session, the French went down first. The German cabinet appears set for a time, and the British Labor government was assured last week of the continuance of Liberal support for a time. Since this party holds the balance of power, the MacDonald government would seem safe for a while.

Fog Is Perplexing

While the cables were crowded with political news during the week a perplexing fog crept down the Meuse valley in Belgium and caused the deaths of more than three score persons. Those who died choked as in a wave of poison gas, and the first theory was that stores of German war gas, buried around Liege, had become seeped and some of the fumes had drifted down the Meuse. There also was speculation that noxious fumes from industrial plants were responsible, but government investigation indicated that the fog was so heavy and icy that it killed persons with weak lungs or other respiratory organs. Lievestock also died, however, and the whole thing was considerable of a mystery.

Britain faced a coal strike during the week, with 85,000 Scottish miners walking out, but a temporary settlement was reached and the men went back to work pending further negotiation on hours and wages.

Moscow's famous trial, where for two weeks eight engineers confessed to a conspiracy with foreign interests against the Soviet regime, ended with five of the defendants being sentenced to death and the others receiving terms of 10 years' imprisonment.

FASCISTS IN GERMANY STAGE RIOTS AS 'ALL QUIET' FILM IS FEATURED

BERLIN, Dec. 8.—(AP)—Young Germany, grown from babyhood in the days since the World war, voiced its distaste for the American made movie, "All Quiet on the Western Front," in a riotous demonstration in fashionable sections of Berlin last night. Twenty-seven arrests were made.

Drawn by reports that Paul Goebbels, fascist member of the Reichstag, would stage another protest at showing of the film, thousands filled the movie house with paid admissions and massed about the outside.

Goebbels, who used white mice and stench bombs Friday night to bring temporary suspension of the film, addressed the crowd in a nearby plaza and started thousands of Fascist youths on a march down costly Kurfuerstendamm, the smartest shopping boulevard in Berlin.

Mounted police attempted to disperse the marchers, but heavy street traffic did more to diminish the activities of the mob. Police and opposing factions clashed on side streets but none was injured.

The main body of marchers finally was routed when the crowd overwhelmed ticket collectors and attempted to return to the theatre by subway. Police ordered the trains to pass through the station at which the crowd wanted to get off.

The principal effect of the demonstration seemed to be to crowd the theatres where the film was being shown, ticket scalpers reaping a big profit.

SEEK IDENTITY

PORT WORTH, Dec. 9.—(AP)—Officers were in receipt of information today from a Galveston woman which they hoped would lead to identification of a man killed in an automobile accident near Big Spring last Monday. The woman said the last heard of her husband in Colorado, Texas, Nov. 26, 1929, and her description of him tallied with that of the accident victim. The body was held at Stanton.

According to statistics gathered by Prof. E. M. East of Harvard University, about 100,000 persons die every day in the world.

As Brought Over Associated Press Wires Today

Changes Calling

HAMILTON, N. Y.—Leonard MacLusko, Colgate's mighty line bucker, the football season's greatest individual scorer, hopes to enter the diplomatic service after graduation. Last summer he trained for football by swinging a sledge hammer in road construction. Now he is learning the potboke of stenography as part of his preparation for diplomacy.

Il Duce Shows 'Em

ROME—Nothing like having a man who knows the game act as referee, Mussolini officiated at fencing matches among the officers of the Fascist militia.

MRS. HOOVER, FEARING ICE, PERMITS HER DRIVING PERMIT TO RUN OUT

WASHINGTON, Dec. 9.—(AP)—If Mrs. Hoover drives an automobile in Washington she is liable to be arrested. Her permit expired in October and she hasn't renewed it.

Mrs. Hoover, it was explained at the White House, likes driving in the summertime, but as for Washington's icy streets in winter, that is different. So she allowed her permit to expire until next spring when it will be renewed.

The first lady is a skillful driver and especially likes to drive the mountain roads around the President's Rapidan camp.

They Are Heard

NEW YORK—Comes a plea for the women who are fair, fit and forty. Speakers before the American Women's association set forth that women over 40 do not get the same chance for jobs as men of the same age do; that the earning ability of women increases up to 50; that many employers mistake vivacity for ability.
