

LITTLEFIELD POULTRY SHOW WILL OPEN FRIDAY WITH GREAT NUMBERS OF ENTRIES

WE THINK

What do you think

BY M. B. D.

THE LOW DOWN ON THE SITCH-ER-ATION—

What this bankety, blank country needs is fewer fights and more prayers.

HOT STOVE LEAGUE—

The "hot stove league" is in session.

Littlefield baseball fans, among them J. B. Ellis and Jimmy Brittain, are discussing the forming of a baseball league for this section.

It is suggested that the league consist of six or seven teams.

Littlefield has the reputation of playing extra good baseball, and has developed a number of men who have made good on prominent teams.

We are not going to say what we think about the suggestion, because we know more about horses and dogs than we know concerning baseball.

But we will suggest that a baseball league be given consideration by "them what knows."

ISN'T IT THE TRUTH

If you talk about your troubles And tell them o'er and o'er, The world will think you like them And proceed to give you more.

ECONOMICAL—

O'Flaherty—Now, you've been fighting again. You've lost your two front teeth.
Son—No, I ain't Pop; I got 'em in my pocket.

PEAKING OF PETS—

Speaking of odd house pets, here's one in a local home that takes the cookie—no, I'm not going to tell you the home either.

The pet is an absolutely nude turkey, and there's a reason for the bird having no feathers.

A certain bride in town was given a fine turkey for Christmas; and she didn't have the heart to chop its head off, so she secured a little chloroform, administered it, the turk flopped over, and she proceeded to pick the bird.

Before cleaning it thoroughly, she decided to go across to a neighbor, where she remained for a few moments. On her return home, Miss Stark had recovered and was strutting around the kitchen grandly, and equally chivally and immodestly.

The bride couldn't think of killing the turk, so now she has a unique pet, and is wondering how long it takes a turkey to grow another set of feathers.

Jess Mitchell, editor of the Mulehoe Journal, reprinted the above article in his newspaper, and made this comment:

Paul Dodge, sole owner and yernase editor of the News, has the reputation of being the most truthful liar that state. There is no doubt but that story is just as true as any found in the almanac, congressional record or books of recognized inspiration.

OUR COMMENT—IT'S A DARN GOOD STORY; AND WHY WORRY TO WHETHER IT'S THE TRUTH, THE WHOLE TRUTH AND NOTHING BUT THE TRUTH.

SUBSCRIBERS—

DUGGAN RESIGNS AS PRESIDENT OF SCHOOL BOARD

Had Held Office for Almost Twenty Years

Senator Arthur P. Duggan, who has been president of the Littlefield school board for almost 20 years, has resigned from that office and from the board.

In his letter of resignation, Mr. Duggan states that the "attorney general has today held that no one can be a member of the legislature of the State of Texas and a school trustee at the same time."

The following letter was received by the board from Mr. Duggan: "Board of Trustees, 'Littlefield Independent School District, Littlefield, Texas.

"Gentlemen: "As soon as I was elected to the State Senate, I requested that my resignation as a trustee of the Littlefield School Board be accepted. A large number of my friends insisted that I remain on the Board for the time being and I reluctantly consented to do so.

"The Attorney General has today held that no one can be a member of the Legislature of the State of Texas and a school trustee at the same time. So I herewith tender my resignation as a school trustee, asking its immediate acceptance by you.

"Having worked with the School Board so pleasantly for nearly twenty years, I naturally sever this relation with much regret. I wish for the School Board this year the most successful session in its history.

"Notwithstanding I am no longer a member of the Board, I am still interested in its welfare and will work as hard as a private citizen as I did as a school trustee.

"Sincerely yours, "ARTHUR P. DUGGAN."

SUDAN BOYS WIN COUNTY CAGE TOURNAMENT; GIRLS TEAMS TO MEET HERE THIS WEEK-END

MUCH INTEREST MANIFESTED IN GIRLS TOURNEY

WINNERS TO TRY FOR DISTRICT HONORS IN LUBBOCK

Basketball fans of Littlefield and vicinity have witnessed many interesting girls' games to date of the present season, but none of these will equal the contests to be held in the local gymnasium this week end when girls' teams from almost every school in the county meet to determine the county championship.

On Friday and Saturday, January 27 and 28 a complete elimination tournament of all girls teams in Lamb county will be conducted by Lamb county coaches under the direction of Miss Thelma Killough, coach of the L. H. S. Kitties.

This tournament will consist of the most tense games of the season and more important games than any previous season. Arrangements have been made for a district girls basketball tournament to be held in Lubbock within the next two weeks. Win-

MUST PAY TAXES BY TUESDAY TO AVOID PENALTY

City and School Taxes Are Coming in Very Slow

Taxpayers have only until Tuesday, January 31, to pay their taxes if they wish to avoid penalty and interest. This applies to both current and back taxes.

City taxes are coming in very slowly. City Secretary W. G. Street estimating that the total amount received to date being only about half of the amount which was received at this time last year.

J. S. Hilliard, secretary of the Littlefield Independent School District, reports that school district taxes are coming in very slowly.

County Tax Collector Clift Griffin says that state and county taxes are "coming in pretty fair considering conditions."

Hilliard Issues Statement

Mr. Hilliard issued the following statement relative to school taxes: "You only have until next Tuesday, January 31, 1933, to pay your school taxes without penalty, interest and costs. Unless they are paid by that date they will become delinquent and penalty, interest and costs will have to be added.

"I would, therefore, urge you to pay before that date and save that additional cost; especially those of you who have delinquent taxes for back years. Take for instance the 1931 taxes, if they are not paid by the first, a penalty of 10 per cent will be added and then the whole amount will draw 6 per cent interest from the date they first became delinquent a year ago, or if they were 1930 taxes

JACK SULLIVAN IS CONVICTED OF OLTON ROBBERY

Punishment Is Set at 20 Years; New Trial Sought

Jack Sullivan Wednesday was convicted for the armed robbery of the Olton State Bank last summer by a jury in Sixty-fourth district court, Plainview, and his punishment was set at 20 years.

Defense attorneys began preparation of a motion for a new trial and pending its outcome, sentence was deferred and Sullivan will be held in the state county jail.

Testimony was started Tuesday in the trial of Jack Sullivan, charged with robbing the Olton State Bank on July 15, 1932. Sullivan is being tried in the 64th district court at Plainview.

The trial was first called last month in Olton, but after a plea of not guilty by the defendant the case was transferred. The Olton bank was robbed of \$3,850.54.

Sullivan was captured last September 13 after a shooting affray with officers at Mountain Air, N. M., after he and a woman companion, Miss Mary Cuban, were both wounded. He was taken to the Lubbock county jail and escaped from the hospital ward November 17, but was later recaptured by officers at Vernon and brought to Plainview to await trial.

Sullivan is being represented by Durwood Bradley, former district attorney of the 72nd and 99th district courts, who is assisted by James A. Gowdy of Olton.

Miss Roxy Moore Walters of Abilene, is visiting her parents, Mr. and Mrs. Oscar Walters.

OUT OF COUNTY BREEDERS TO ENTER BIRDS

Entries Are Expected To Exceed Last Year's Total

Interest is high in the Littlefield Poultry Show among breeders in this section, according to a statement made by R. A. Box. The show will be held in the building formerly occupied by the Bumpass Laundry January 27 and 28.

Entries are expected not only from breeders immediately around Littlefield, but several from Levelland, Amherst, Sudan, and surrounding towns will be shown.

Last year entries totaled nearly 300 birds. It is expected they will run higher in this show. Coop facilities have been arranged to take care of 500 birds.

All exhibitors are urged to bring in their entries early Friday morning. Judging will be done Friday.

TRADES DAY TO BE HELD HERE MONDAY, FEB. 6

AUCTION WILL BE HELD EVERY SATURDAY

An auction sale will be conducted every Saturday on the premises of the Texas Utilities office, and all farmers of Littlefield and trade territory are invited to bring all articles they wish to sell, or trade and spend the day in Littlefield.

These auctions will be conducted by Col. J. W. Horn, and I. S. Jameson, who have many years of experience in this line of business, and they urge that the farmers bring anything and everything they wish to dispose of, whether it be a piece of household furniture, farm implement, livestock, or whatever it may be.

A trades day has also been announced for Monday, February 6, when an auction sale will be held by Col. Horn and I. S. Jameson. This will be followed by horsing, which will take place in the north part of town. Horses from Amherst, Plainview, Lubbock and many other cities will take part in the day's events.

It is planned to make this a monthly affair, conducting a Trades Day in Littlefield each first Monday.

Federal Credit For Farmers is Approved

Stamped with the final approval of house and senate, a bill carrying \$90,000,000 in federal credit for the farmer was dispatched Tuesday night to the White House.

Only a flourish of President Hoover's pen remained to make it a law and sponsors of the legislation freely predicted the signature would be forthcoming.

Hailed by its friends as providing the only adequate source of credit for thousands of purse-pinched farmers, the bill would authorize the secretary of agriculture to lend a total of \$90,000,000 for use in producing 1933 crops. As security the government would take a first lien on the crop.

A similar measure was passed last year and the new bill simply reapropriates for 1933 a part of the same funds, made available originally out of the Reconstruction corporation treasury.

Under the measure passed, the secretary of agriculture may require a borrower to cut his production by as much as 30 per cent. The secretary is not compelled to make this requirement, however.

While congress was making this definite contribution to farm relief, the wheels of legislation ground slowly on other and bigger proposals designed to give the agriculturist better prices for what he produces and to ease the debt and mortgage worries.

Representatives of the leading farm organizations were present Wednesday for the opening hearing on the domestic allotment price-boosting bill passed by the house. They are pushing the measure.

LOCALS TAKE SECOND PLACE IN MEET AT OLTON

TOURNAMENT IS HELD FRIDAY AND SATURDAY

In one of the fastest games of the season coach Tucker's cagemen emerged from the finals with second place honors suffering defeat only at the hands of the Sudan Hornets in the Lamb County basketball tournament which was held at Olton last Friday and Saturday.

Coach Tucker is well pleased with the work of his men during this season. Although they did not get the highest honors, there is much to be taken into consideration in rating the team's work this season. At the beginning of the season the quintet consisted of only one letter man. In the course of the season the new material has been shaped into a smooth and fast working machine which was only to be beaten by a team closing a five months basketball session.

The Sudan Hornets who won first place were a team of well rounded players with experience and an extensive practice season.

NORTH-SOUTH HIGHWAY ASSOCIATION TO MEET WITH HIGHWAY DEPARTMENT, CHAMBER OF COMMERCE REPORTS

The first gathering of the Littlefield Chamber of Commerce under the new schedule of meetings was held at City Hall Tuesday night with Dr. Ira E. Woods, pres., presiding. There was a very satisfactory attendance.

Under the new schedule there will be two meetings of the chamber each month, a luncheon gathering at the Presbyterian church and a night meeting at the city hall.

The next meeting of the booster organization will be a luncheon gathering Tuesday, February 14.

A night meeting is scheduled for Tuesday, February 28.

Several important announcements were made at this week's meeting.

Highway Projects

A meeting will be held in Lubbock this Friday afternoon for the purpose of forming a good roads association to serve this section of West Texas. Dr. Woods and J. W. Hale, secretary-manager of the Littlefield Chamber of Commerce, and other local citizens will attend.

The North-South Highway association will meet with the Highway department at Austin, February 9, and seek to obtain the final designation for the proposed north-south highway from Dimmitt to Lamesa. Littlefield would be served by the proposed road. The road has been designated as far south as Dimmitt, and it is hoped that a designation of the route from Dimmitt to Lamesa will be obtained as a result of the coming meeting with the Highway department. A large delegation representing all affected cities is expected to be in Austin for the meeting with the Highway department.

Mr. and Mrs. J. H. Ware and Mrs. Phillips attended market in Lubbock Sunday.

WEST TEXAS COTTON

The December ginning reports compiled by Federal Crop Reporting Board show that the 46 counties of West Texas in which cotton is now being grown and ginned to that date 1,343,394 bales, or one-third the total ginnings for the State. The 46 counties are but 25 per cent of the total number of cotton growing counties in the State. These are further figures to substantiate the theory that King Cotton is moving his throne steadily westward. The prediction may freely be made that a few years will see cotton-growing West Texas producing more than half the State's crop. The new high lands of this region afford advantages in cotton growing that are not shared and never can be shared by the older regions of the cotton belt. The pressure of low prices must increase the trend of production westward. Inevitably West Texas will become the capital of the cotton empire.

A distinguished agricultural economist some months ago announced his conclusion, after a study of movement of crop centers, that the highlands of the Panhandle—extending the term to include roughly the territory once held as part of the Republic of Texas in the northwest—must inevitably become the wheat center of the United States, because of the same advantages which affect cotton production in the southern portion of this same region. A firmly-based agricultural prosperity is in store for West Texas.—Fort Worth Star-Telegram.

THE LATEST CURE-ALL

We suppose it is entirely natural, when things are going badly, for people to want to change everything. Whenever we have any serious economic troubles there is always a crop of new schemes to set everything right again. These schemes usually involve a complete change in the form of our government and our system of banking, credits and money.

Just now the new scheme that is getting a lot of attention is one called "technocracy." The idea seems to be that there is so much technical energy available and the technical people know so much about how to use it, that we ought to turn the government over to engineers and let them run the country. We understand that everybody would have to do a little work under technocracy, a matter of perhaps three or four hours a day once in a while. But everybody would have plenty of time to go fishing, or attend the movies, and plenty of money with which to enjoy his leisure, if what the technocrats say turned out to be true.

One part of the scheme is to use kilowatt hours instead of gold, or money. Money is to be based on units of energy produced or consumed. This strikes as a pretty good idea in some respects, but we know some men who would start a business and they were only paid in proportion to the energy they spent on their jobs.

Thus, we haven't the slightest idea that the people of the United States, or any important part of them, are ready to scrap the system of government and the economic-industrial system under which we have got along pretty well. We all know the present social structure has its faults, and that our governmental machine creaks at times, but we are always pretty earnest and usually pretty prompt about patching the leaks and mending the cracks as fast as we discover them. And, we have a notion the old machine will run along pretty well for a few hundred years yet. It doesn't do any harm, however, as we see it, for people to talk about better systems and why we ought to have them. The best ones we know anything about have perfection as their aim, even if they never reach it.

EIGHT YEARS AGO IN LITTLEFIELD

(Excerpts from Lamb Co. Leader)

A contract was let last week whereby the Texas Utilities company becomes the owner of the Littlefield Light & Power company, and will take possession of same February 1.

A. R. Singer of Roosevelt, Okla. has purchased from L. R. Crockett the Hiway service station and has assumed the management of same.

Plans and specifications for the proposed municipal waterworks system for Littlefield has been prepared by the Gantt-Baker company, engineers, of Oklahoma City, and are now in the hands of the local City Commissioners for their approval.

Wednesday evening of last week Rev. Silas Dixon, pastor of the Methodist church, answered a rap on the front door, and upon reply found a blushing young couple seeking the vows of matrimony.

Sam Wright of Rule, Texas, was the groom, and Miss Jewel Bedford, living about six miles south of Little-

field, was the bride. They will reside at Rule.

Application has been made from the Sudan postoffice for another new route, this one to go to Bula. The growth of this settlement demands a route.

Tuesday afternoon W. H. Teeters received word that his grandfather, J. M. Teeters of Fort Worth, Ark., had passed away. The old gentleman was 84 years of age at his death, and well known by several people in this vicinity.

MAKES WOMEN LOSE FAT

Miss Ren M. Haines of Dayton, Ohio writes: "I weighed 180 pounds when I started to take Kruschen. I was so surprised as when I weighed myself the first week—I lost ten pounds. I just bought my third jar and am down to 145—am still taking them and never felt better in my life." (June 17, 1932.)

To take off fat—take one half spoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—one bottle that lasts weeks costs but a few cents—get at any drug store in America. If the first bottle fails to convince you that is the SAFE and harmless way to lose fat—your money gladly returned. Don't accept anything but Kruschen because you must reduce safely.

ROADS ASSOCIATION FOR THIS SECTION OF WEST TEXAS IS URGED

atson to Have Auction Sale January 31

A good roads association, to work in the interests of completing the roads program of this section of West Texas, will be proposed at a meeting which will be held in Lubbock Friday afternoon, January 27.

Letters directing attention to the meeting and urging a large attendance have been sent out by the Lubbock chamber of commerce.

The meeting will open at 1:30 and will be held in the ballroom of the Hotel Lubbock.

The Letter

The letter which is being sent out by the Lubbock booster groups reads as follows:

"Dear Sir: "Is the highway program of your county complete?"

"Do you want to see the designated highways in your county completed?"

"Do you know that if any more of the gasoline tax is diverted that it will be a long time before your highways are completed?"

"Do you know that if any more of the gasoline tax is diverted that Texas will lose millions of dollars of federal aid? Do you know that if any more of the gasoline tax is diverted that thousands upon thousands of men will be put out of employment?"

"Don't you believe that in union there is strength? Don't you believe that a large number of West Texas counties working together with you would be a big help in getting your highway program completed?"

"If your county highway program is not complete—if you want it completed—if you want to keep the gasoline tax fund for the only purpose for which it is right to collect it—if you want the co-operation of other counties in this section to work with you in completing your highway program—we cordially invite and sincerely urge you to attend a meeting in Lubbock next Friday afternoon, January 27, 1933, at 1:30 o'clock in the ballroom of the Hotel Lubbock.

"We urge also that you bring a goodly number of other citizens of your county, who are interested in these matters, with you.

"What is everybody's business is nobody's business. If you do not attend to this, we do not know who will.

"We want to present a plan of forming a good roads association in this section to work for this section of West Texas in completing its road program.

"Lubbock county's program is virtually complete, therefore, we have no selfish motives in calling the meeting.

"It will be up to you and representatives from other counties to decide what shall be done after you get here.

"We certainly trust you will be here Friday afternoon with a goodly number of other citizens from your section.

"Sincerely yours,

"Lubbock Chamber of Commerce,
"Per: A. B. Davis,
"Manager."

Play Sponsored by Epworth League Draw Large Attendance

A capacity house of drama-lovers and theatre-goers of Littlefield expressed their sincere and enthusiastic approval with tremendous applause and compliments to F. Myrick Russell and the cast for their presentation of "The Ghost Bird" at the high school auditorium last Friday night. The unusually great approval was evidenced in the fact that a second performance was given last night to a comparatively large crowd because of popular request.

The production, was indeed, above the average; never before have local patrons been entertained with such delightful and complete characterizations as those of the amateur performers who appeared in "The Ghost Bird," in the two performances. Striking evidences of careful and capable direction throughout the play made clear the fact that the director, F. Myrick Russell, is one worthy of praise in his work as a professional play director.

Addie Mae Hemphill, who is president of the Epworth League, the sponsoring organization of the Methodist church, states that the League feels that it has been fortunate in bringing this finer piece of entertainment to the citizens of Littlefield and vicinity.

The play had for its locale a lonesome country residence where several murders and many mysterious events attributed to the "Vulture" had transpired.

Mr. Russell as Philip Graham played the difficult part of the "Vulture." Miss Lucille Hall and Tilden Wright who have several times before been recognized as excellent amateur performers, increased their popularity when they, respectively, handled the parts of Andalusia Anderson, a most intelligent and non-gossiping maid, and Will Belmont, the leading ladies' unfortunate brother.

Morris Morgan, "Lindy," flew to greater heights when he appeared as Carl Thomas in "The Ghost Bird." Genevieve Hemphill proved to possess some clever talent in playing the part of Catherine Belmont, the leading lady.

Earl Hobbs as Jenkins, the hard-boiled detective, Wyvon Mason, Katy Claxton alias the French Maid, and "Sparky" Sparkman, the chief of New York detectives, handled very difficult roles in commendable fashion.

Miss Lillian Hopping, as Mrs. Dore, the owner of the mystery house, possessed much dignity and dramatic poise, indicative of her uncommon ability.

In Gilmer "Cotton" Eagan the audience discovered a good "blues" tonic as he did the comical part of Tobias Tolliver.

"Air Mail" To Be Shown At Palace Sunday and Monday

The stage and motion pictures are two entire different media of expression and should not be compared, in the opinion of Ralph Bellamy, 28-year-old veteran of the footlights who recently came to Hollywood and made ten pictures in his first year.

Bellamy believes it is unfair to speak of them both in the same breath. Having spent twelve years of his young life on the stage, he should be qualified to speak with some weight on the subject.

"The stage and pictures differ essentially because of the personal contact with the audience in the one and the lack of it in the other," says Bellamy. "This is where the sharp line must be drawn, and this is why it is impossible to speak of them as approaching the same thing. If a play was presented on a stage before a camera, the result would indeed be a strange thing—unattractive, meaningless, dead. The personal contact is lacking. The camera makes up for this in an entirely different manner by means of cutting to closeups and other effects—but the entertainment vehicle is a bird of an entirely different feather."

"To my mind the ideal motion picture is one where action and scenes provide the essentials of the story with dialogue reduced to a minimum. In this way the motion picture is a thing completely apart, unique, well within its province, and an artistic creation if presented right. When the screen attempts to blend with the stage, the result is a hybrid which is neither fish nor fowl, and which cannot approach perfection."

"In 'Air Mail,' the ideal type of vivid, colorful motion picture is presented. With spectacular scenes, rapid action, outdoor photography and employment of all the effects available only for the camera and with a simple, logical plot depending upon progression of the story rather than clever dialogue, the picture seems to me to point the way toward the advanced talking picture."

"Air Mail," which tells the adventurous story of the government mail fleet, is scheduled to be shown Sunday and Monday at the Palace Theatre with Pat O'Brien, Bellamy, Russell Hopton, Slim Summerville, Gloria Stuart and Lillian Bond in the featured roles. John Ford directed the spectacular film.

Feed Is Scarce Near Abernathy Says H. K. Wilson

H. G. Wilson, foreman of the W. G. Murray ranch, 7 miles west of Abernathy, was in Littlefield recently in an effort to secure headed feed to take care of the large number of sheep they are feeding on the Murray ranch.

Mr. Wilson stated to a Leader representative that he had just about bought all the feed to be had in his locality. He also stated that he had been paying \$4 per ton for headed maize, kafir, etc., delivered at the ranch, in spite of the fact that the average price is around \$2.50 per ton.

Mr. Wilson says that they are feeding 6,000 sheep at the Abernathy ranch and around 13,000 at Lubbock. These sheep were raised on the Yellow House ranch, some 15 miles from Littlefield.

Regulation of public utilities would be vested in the governing boards of cities and counties under a bill sponsored in the Texas legislature by Representative W. E. Pope of Corpus Christi. The cities and counties would be vested with authority to regulate the rates charged by gas, power, telephone and telegraph and sewage disposal utilities. The valuation of the utilities, on which the rates would be based, would be the value of the

property on which the utility paid taxes. The law would allow the utility a return of six per cent on its assessed tax valuation.

GOVERNOR WOULD LEVY SALES TAX AS NEW REVENUE**SUGGESTS THREE PER CENT TAX ON ALL SALES**

Governor Miriam A. Ferguson, in her first address to the legislature since her inauguration, suggested a sales tax on commercial purchases as a new source of revenue to relieve the taxpayers of the existing ad valorem levy on farms, ranches and homes.

In her address she revealed that she would levy a three per cent tax on all sales "with few exceptions."

Advocates Expense Slash
Other than the sales tax as a new source of revenue, Mrs. Ferguson advocated, in budget bills, reductions of approximately \$15,000,000 in appropriation for support of the government departments.

"For more than two years the people of the State of Texas, in line with the people of other states of the nation, have been cast hither and thither upon the angry waves of financial distress and destructive depression," Mrs. Ferguson said. "upon every hand we hear now, the wail of the orphan, the cry of distress, the murmur of discontent, and the protest of the unemployed."

Looks To Legislators
She told the legislators that the people looked to you as a star of hope that may bring, at least, some relief from oppressions too grievous to bear."

Mrs. Ferguson pointed out that the appropriation bills she proposed show a reduction over the biennium of 1932 and 1933 of \$8,494,405 for the fiscal year 1934, and \$6,612,319 for the fiscal year 1935, making a total reduction proposed of \$15,106,724 for the next biennium."

Moody's Home Hotel Is Open To Public

Work is almost completed on remodeling the former Luke's rooming house on north Phelps avenue, it was announced by Mr. and Mrs. H. F. Moody who recently took charge of the business. The hotel is being operated under the name of Moody's Home Hotel.

Each room is being repainted in a different color scheme of pink, orchid, orange, blue and various other colors. Many new furnishings are also being added to the bed rooms and lobby.

The new hotel is now open to the public. However, much redecorating work is still to be done.

Taxes—

(Continued From Page 1)

there would be two years interest added and so on, together with a small cost and etc., so you see that it is to your interest to take care of these old delinquent taxes.

"Then it is very necessary that you pay your school taxes so as to keep the schools going as they must have funds to properly operate."

Two special deputies for the issuing of automobile licenses have been appointed by Mr. Griffin. They are Otto Jones, Littlefield, and V. H. Hasting, Sudan. Amherst did not urge that a special deputy be appointed in view of the fact that Amherst is eight miles from both Littlefield and Sudan.

Miss Myrtle Marion Shaw, student at Tech, spent the week end at home.
