Rains Soak County Lake C-City Rising

Water Flowing To Lake

At the bridge on Interstate 20 west of Colorado City, Morgan Creek had rapidly running water, Tuesday, after heavy rains in this area. Impounded by Texas Electric Service Co. to make Lake Colorado City, Morgan Creek at this bridge site has been dry for a number of months. Still running Wednesday, the creek for which Morgan Creek Power Plant is named had dumped 3 feet of water from its watershed into the thirsty lake.

Saturday Workshop For Farmers Here

Saturday morning at 8:30, on the Texas and Pacific Railroad parking lot here, County Agent Bobby Lemons will direct a herbicide calibration workshop.

Lemons issued an invitation, Wednesday afternoon, to all farmers to attend the workshop.

The county agent will work with rigs to teach the exact science of herbicide use behind the planter to control weeds in cotton or feed fields, he announced.

Heavy rains started drenching all areas of Mitchell County Saturday, again early Sunday afternoon, and were still falling intermittently Wednesday.

First countywide soaking in nearly three years, the Sunday through Wednesday morning rains totaled more than 3 inches over all the county and up to 4 inches in some sections.

The general picture for agriculture brightened considerably with moisture for fields and pastures and with water for stock tanks in the area.

Best news to sportsmen here came from Lake Colorado City. The lake is on the rise and had risen 2.95 feet by 8 a. m. Wednesday, said Morgan Creek Power Plant. That brought the lake level to 2,061.15 feet, still some 9 feet below its peak.

Lake Colorado City, in need of water from its watershed for two years, was still rising slowly at mid-morning Wednesday, said Mrs. Billy Cooper of Morgan Creek Power Plant.

Colorado City's official rain gauge showed a total of 2.97 in the downtown area with .28 Saturday, .25 Sunday, 1.45 Monday, .92 Tuesday, and .07 early Wednesday.

Lorraine's official measurement was 2.85 but surrounding farms, including the Arthur Shepherd farm measured 3 inches and more, said Royce Belights of Lorraine.

Westbrook's four-day total was tops in the county with 4.80 inches of precipitation.

Carr Community, five miles northwest of Westbrook had twister-like winds early Tuesday along with a 2.60 rainfall.

Force of the wind uprooted trees, broke fruit tree limbs, knocked over utility poles and blew down sheds.

Wind damage was suffered at Carr farms of Ben Ellett, Tom Morfison, Elmo Daniels, and Keith Williamson. At the Williamson farm a large cotton trailer was overturned by the wind.

Linden Solomon farm in the Cuthbert area, 22 miles northwest of Colorado City, lost about half a new load of feed at 7 a. m. Tuesday. A tornadic wind spun the specially built sheet iron trailer around, slammed it over spilling the feed sacks, then set the trailer back upright on its wheels.

Twenty 50 lb. sacks of feed were tossed over a wide area and about half the feed was lost, said Mrs. Solomon Wednesday. The wind also tore big limbs from 10-year-old fruit trees and moved a 16-foot stock trailer, leaving it standing sideways yards from where Solomon had parked it.

Torrential rain accompanied the wind at the Solomon home. It could not be measured because the wind blew the family's rain gauge away.

Rain was not partial to any direction. Buford farm of the Hubert Feasters measured 3.75 in the four-day precipitation. The G. L. Howell farm, route 2, had a total of 3 inches. The Hubert Howell farm received 3.50 inches.

Wright Hock at Randerbrook Spade Ranch measured 3.10 inches of rain, no hail, and no wind damage. The ranch also caught some much-needed stock water, said Hock, and the rain "is great for the fanges."

Cooper's Cove, west side of Lake Colorado City measured a total of 3.97 inches but Morgan Creek Power Plant received slightly less than that amount Mrs. Cooper reported.

Morgan Creek, which feeds Lake Colorado City, had running water in its channel for the first time in many months at the bridge site west of Colorado City.

Lake Champion, southeast of Colorado City, has risen only one half a foot to bring its

level to 2,051.60 Wednesday morning said Mrs. Cooper.

Average yearly rainfall for Mitchell County is 19.64 inches. Total rainfall for 1968 was only 17.41 inches. In 1967 not quite 15 inches of rain fell in the county.

To date, 1969 has brought 7.11 inches with .08 in January, 1.12 in February, 1.29 in March, 1.74 in April, and 2.97 up to Wednesday morning, May 7, said Virgil Eaton, who records the weather in Colorado City.

Friday Deadline For Cotton Vote

Last day for casting a ballot on the transfer of upland cotton allotments outside the county for 1970 is Friday (tomorrow).

Edward B. Roach, vice chairman of the Agricultural Stabilization and Conservation Mitchell County Committee, is urging all cotton producers to take part in the decision by voting on the question.

Ballots were mailed early in May to all known cotton pro-

ducers and the referendum got underway May 5.

Ballots may be mailed or delivered in person to the ASCS county office, but they must reach there by Friday, May 9, or be postmarked by midnight on that date, said Roach.

The vote will decide only the question of whether a farmer in this county can sell or lease his cotton allotment during 1970. See DEADLINE Page 2

C.L. White Rites Held At Dunn

Funeral for Charlie L. White, 54, was conducted in Dunn Methodist Church Monday at 2 p. m. by the Rev. Jimmy Law, pastor of Calvary Baptist Church, assisted by the Rev. Billy Wilkins, pastor of First United Methodist Church, Colorado City.

Mr. White died about 4:15 Saturday afternoon of an apparent heart attack while working at his China Grove farm.

He was a farmer, a veteran of World War II, and a longtime member of the Dunn Baptist Church where he had taught a Sunday School class for the past 18 years.

Born in China Grove community Feb. 14, 1915, he had lived in China Grove all his life. His marriage to the former Johnny McFarland took place in Colorado City Dec. 24, 1935.

Survivors are his wife of the home, his mother Mrs. E. L. Peterson of Snyder; one son, Dickie White of Colorado City; one daughter Mrs. Mary Watson of Colorado City; and one grandchild.

Burial was in the Dunn cemetery with Kiker & Son Funeral Home in charge.

After breakfast, Friday, the Wolf musicians party will spend the day at Six Flags, from 9 a. m. until 10 p. m.

Saturday will be the big contest day with the Colorado High School student band to arise at 5:30 a. m., breakfast (in uniform) at 6 a. m. and leave for the Golden Palace at Six Flags at 7 a. m.

Warmup time is 7:30 in the Golden Palace with the Wolf Band concert for the National contest to be played at 8:30 a. m.

Band members will leave for

home at 10 a. m., and arrive in Colorado City at 4 p. m. Saturday.

Nowell Son Dies Victim Of Crash

Herschel Floyd Nowell, aged 23, was killed in a one-car crash near Crowell early Sunday.

Employed by Hudson-Sparks Dirt Contractors of Colorado City, he had been working in Paducah. With several friends he was returning to Paducah after attending a rodeo at Vernon when the vehicle left the highway and was wrecked.

A young woman companion also lost her life in the crash.

Survivors are his parents, Mr. and Mrs. Willie Nowell of Colorado City; three sisters, Mrs. Darrell Shurtliff of Colorado City, Mrs. Don Barnett of St. Louis, Mo., and Mrs. Jerry Alexander of Midland; seven brothers, C. B. and Larry Nowell, both of Maud, Okla., Clifton of Garland, Jimmy of Brownsville, Jerry of Midwest City, Okla., Wayne Nowell and Don Nowell, both of Colorado City.

Lorraine Girl Wins 1st

Becky Hudgins Champion

Becky Hudgins, Lorraine High School sophomore, bested all high school typists in Class B University Interscholastic League competition Saturday during State Contests at Austin.

Typing winner in both district and region, Becky won at Austin with an outstanding score of 153.96 percent. Her district record this year was 144 percent, and her regional score was 154 percent.

Only two typing students in the entire UIL statewide typewriting contests surpassed

Becky's score at Austin. They were both from Class AAAA high schools and their scores were 161 percent and 157 percent. The figures make the Lorraine Class B High School girl third in Texas in the overall UIL champion ratings.

Becky is daughter of Mr. and Mrs. Roscoe Hudgins. Her typing teacher is Mrs. Ray (Iris) Preston.

Accompanying Becky to Austin Friday morning were Mr. and Mrs. Preston and another Lorraine sophomore typing student, Diana Baumann.

Diana, daughter of Mr. and Mrs. A. Baumann, was an alternate typist who placed third in regional UIL contests with a score of 149.

Diana missed a chance at the state title by 15 minutes when the second place regional typist arrived at the last minute to take part in the competition.

Becky's copy as contestant was perfect, proving she typed 53.96 words per minute for a five minute period, without error.

30 Citizens Stand Up In Austin For I-27 Route

Thirty citizens from four counties officially placed their bid before Texas Highway Commission for extension of Interstate 27 from Lubbock via Slaton, Post, Snyder, Colorado City and Robert Lee.

The presentation of the brief and accompanying governmental civil resolutions was 10:1 on the commission's docket Monday morning at 9 o'clock in the Texas Highway Department building across the street from the Capitol.

It was a friendly, lively atmosphere for the delegation with Charles C. Thompson, chief spokesman for the dele-

gation, engaging Commissioners Herb Petry of Carizozo Springs, Dewitt Greer of Austin and Garrett Morris of Fort Worth in humorously penetrating repartee supporting the Slaton-Post-Snyder-Colorado City - Robert Lee route.

"Our compliments to your concise, thoroughly organized and effective presentation," said Commission Chairman Greer, who assured the delegation its request would receive "continued attention of the State Highway Department."

"It is a workmanship pre-

sentation, all in one package," he added.

All key cities along the route appeared in support of the extension except Slaton. However, resolution by Slaton Chamber of Commerce and Board of City Development was in the written brief submitted to the commission.

Other resolutions were from Colorado City City Council, Mitchell County Commissioners Court and Colorado City Chamber of Commerce board of directors; Post City Council, Chamber of Commerce, Industrial Foundation and Garza County Commissioners Court;

Snyder City Council and Chamber of Commerce board of directors; and Robert Lee Board of Community Development and Coke County Commissioners Court.

Pat Bullock, head of State Board of Pardons and Paroles, sent his support for the Interstate 27 extension via Commission Chairman Greer with regrets he was recuperating from surgery and unable to attend the hearing in person.

The Colorado City area request goes into competition with an earlier bid by Big Spring and Lamesa for the

interstate freeway to be constructed through those areas.

Thompson, and the supporting written brief, emphasized that the Slaton - Post - Snyder - Colorado City - Robert Lee route is at least six miles shorter than the Big Spring route.

The Colorado City banker and attorney brought one of several laughs from the rapidly filling hearing room by pointing out that the latest official Texas Highway Department map, had added four miles to the previously recorded distance from Colorado City to Snyder.

Interlocking with Interstate 20 and additional interstate routes in the South Texas and Gulf Coast areas, increasing highway traffic that will crowd U. S. Highway 84 and State Highway 208 (current highways connecting Lubbock, Slaton, Post, Snyder, C-City, Robert Lee), rapidly increasing tourist and recreation traffic to Colorado City's two lakes and the new, huge reservoir at Robert Lee as well as Lake J. B. Thomas near Snyder, the defense aligned magnesium plant being constructed near Snyder were other high points in the brief supporting the routing.

City for the dedication ceremonies for opening of Interstate 20 at Colorado City's north city limits several years ago, quizzed Thompson how the citizens thought about the new interstate proposal.

"Some of them when I was out there thought we had buried Colorado City that day," the commissioners spoke, "and I want to know what they think now."

"Oh, yes," replied Thompson, "we had some of that but you see our delegation here today, I believe it speaks for our community... they want more interstate."

"And we are moving along with industrial and business development along Interstate 20."

"We are also one of the few towns in the West Texas area," Thompson added, "which has shown a steady, although small, population growth."

Earlier, Joe Bell, who introduced the delegation to the commission, emphasized that Colorado City always had been in the forefront of interstate highway system development.

to someone who would use it in another county of this State for a specified period of time. In no case can transfers be made outside the State. The referendum applies only to the 1970 crop year, and a two-thirds affirmative vote will permit such transfers for 1970.

Farmers are cautioned by Roach to follow all instructions in marking their ballots. The certification on the back of the envelope sent to producers must be signed on the producer's mark witnessed as evidence that the ballot was marked by the

producer personally without undue influence by any person. Ballots are kept secret, although the counting of the ballots is public.

Public counting of the ballots will take place Wednesday, May 14 at 8:00 a. m. in the ASCS county office. "Because the transfer of cotton allotments is so important to growers, it is hoped that a large percentage of the county's cotton producers will cast their ballots. Any cotton producer in the county who has not received a ballot by mail is urged to immediately get in touch with the ASCS county office," Roach said Wednesday.

CONVERSATION CORNER

MONTH of May is no slouch when it comes to special events.

Picked at random from the May Calendar of Events, property of the Record advertising desk, are these... only part of the list... May 1, Law Day... May 1-8 American Camping Week... May 1-21 Clean-up Month... 1-31 National Radio Month.

There just naturally has to be an overlapping of events since, after all, even the month of May has only 31 days.

So May 1-31 is supposed to be celebrated as National Tavern Month, too. It's just got to mean tavern as in hotel, inn, motel, motor inn and not the kind in the old song that goes "There is a tavern in the town - And there my true love sits him down" and so on.

STARTING May 4 and running until Saturday, this nation has been supposed to be celebrating Be Kind to Animals Week.

May 4-10 is also National Good Will Week. People who have to be reminded to be kind to animals and to remember good will one week out of 52 weeks a year will not profit from either special week very much.

National Music Week ends Sunday. How many songs with the word "music" in the lyrics have you remembered to sing or play this week?

How about "Music In The Air... The Sound of Music... Say It With Music?"

JUST found out that May 9-16 is Foot Health Week and intend to sit that one out in favor of Let's Go Fishing Week which starts May 10 and lasts through May 17.

Everybody knows that we are to observe Memorial Day May 30.

But did you know that the month of May is Texas Senior Citizens' Week by proclamation of Governor Preston Smith?

BEST two days in May, on the personal calendar, are May 8, my Mother's 88th birthday... and Mother's Day which comes up Sunday, of course!

Had the pleasure, sitting under the hair dryer, of scanning some little short definitions written by third grade children assigned the subject "Mother is..."

That's the game which started with the "Happiness is" theme from Peanuts, beloved comic strip drawn by Charles Schulz.

The children's school papers were delightful, ranging from "Mother is who hears your prayers" to "Mother is the one who cooks and makes you eat it."

"MOTHER IS..."

Well, how would you play it? How would you say it?

Mother is... beautiful. Mother is a lover of beauty in all its purest forms... poetry, sunrise, sunset, stars, and spring rain, babies and flowers and such.

Mother is... understanding. She knows you better, probably, than you know your own self.

Mother is tenderness... tenderness in her hands, her eyes, her voice, her letters.

Mother is a comforting spirit when the heart hangs low... Mother is wisdom. Mother is faith. Mother is love when human love is needed most.

Sergeant In Thailand

Sergeant Daniel W. Saladin, son of Mrs. Virginia M. Saladin of 505 E. Sixth St., Rolla, Mo., is a member of an Air Force Communications Service unit in Southeast Asia that has earned the Air Force Outstanding Unit Award for the third time.

Sergeant Saladin is a communications equipment repairman with the 1974th Communications Group at Ubon Royal Thai AFB, Thailand, that was cited for outstanding communications support to combat units in Thailand from July 1967 to June 1968.

His wife, Mary, is the daughter of Thomas Lewis of Vira Street, Colorado City.

Henderson Buys Beefmaster Cattle

Jimmy Henderson of Colorado City recently purchased eight heifers and four registered Beefmaster cattle from Mr. and Mrs. W. H. Herring-Beefmaster Ranch at George West.

Henderson has also contracted for all the Herring-Beefmaster heifers for 1969.

Mrs. Herring, the former Willie Grace Palmer of Spade Community, and her husband operate the 5,000 ranch at George West, stocked with 5,000 head of cattle.

Mother is generosity - not only with such as she has of worldly goods, but also with the treasures of her mind, her philosophy, and her great memory for the written word in books.

"MOTHER IS..."

Mother is witty conversation. Mother is appreciation for good food and the quiet hours with good company.

Mother is the affectionate grandmother to my children and "Great-Grandmother" to my children's children.

Mother is strength. Mother is dignity.

Mother is, still is, a bit of feminine vanity capable of admiring openly and out loud her new blue suit or new hairdo or new summer sweater.

Mother is the faint scent of her favorite cologne, too.

Mother is a Christian. She is also a Baptist (Southern Baptist) and a Democrat.

Mother is a person, first, last, and always.

Mother is a lady.

Mother is... why, Mother is Mother!

YOUR own Mother and your "Mother is" description of your own mother would not necessarily be like mine.

That's because mothers in general are each one a mother in particular... and every one has her own, endearing qualifications for the title.

But whoever your mother is... wherever she may be... your life has been blessed because of her. She gave you the blessing of life. And even if that were all she ever gave, it's still the most marvelous gift a woman can give, the blessing of life!

Like the new country song that copies after the poem by Gertrude Stein with that "rose is a rose is a rose" refrain... A mother is a mother... is a mother.

First Baptists Plan Church Directory

Members of First Baptist Church are planning a Pictorial Church Directory.

Saturday, Sunday and Monday have been set as picture making days for families of the church.

Mrs. Robert Chambers, church secretary, Wednesday urged members to phone the church office for appointments or contact a member of the project's telephone committee.

Mrs. Henry Doss is general chairman for the directory.

Chairman for the telephone committee is Mrs. Glean Dunn.

Others on the committee are Mrs. Carlton Davis, Mrs. B. W. Tartt, Mrs. Glen Thomas, Mrs.

Paul Beeman, Mrs. W. A. Pattillo, Mrs. Frank Conard, Mrs. Eddie Piland, Mrs. John Billings, Mrs. J. A. Sadler Jr.

Mrs. Willis Taylor, Mrs. Wayne Shaw, Mrs. Katie Jackson, Mrs. E. L. Tiller.

Also, Mrs. Truman Bodine, Mrs. Delbert Crosthwait, Mrs. Bill Sorenson, Mrs. John Stansel, Mrs. Brice Webb, Mrs. Elmer Pickens and Mrs. Jimmy Brown.

WE'RE GOING TO DO IT LIKE YOU SAID!

Thanks For Telling Us How To Channel Our Cable TV...

We asked you, our Abel Cable TV viewers, which TV Channels you liked the best and you told us. And, Frontier Electronics is channeling your Cable TV just as you suggested.

KMID-TV (CHANNEL 2, MIDLAND) WILL BE THE REGULAR CHANNEL 2 SPOT ON YOUR CABLE TV DIAL. THE RECEPTION IS BETTER, YOU SAID, THAN KRBC-TV (CHANNEL 9, ABILENE), THE ALTERNATE CHOICE.

However, when weather conditions interfere with KMID-TV (Midland) reception on our Cable TV and reception is better from KRBC-TV (Abilene), then Abel Cable will switch to KRBC-TV. This will provide the best possible NBC television at all times for Cable TV viewers.

ALL OTHER CABLE TV CHANNELS WILL REMAIN THE SAME, BRINGING YOU THE VARIETY OF ABC, CBS, EDUCATIONAL PROGRAMMING IN ADDITION TO NBC.

Frontier Electronics expresses sincere thanks for you, our Cable TV viewers, for heeding our request and telling us your ideas for keeping our TV viewing the best possible. Thanks again for all your letters, phone calls and personal visits.

Public Speaking Winner

Woody Anderson, son of Mr. and Mrs. Warren Anderson, won first place in public speaking at the District 2 4-H Club senior contests held in Lubbock Saturday. He will take part in state finals to be staged at the Texas 4-H Annual Round-up in College Station next month.

Natural Resources First

Natural Resources (individual participation) first prize in District 2 senior contests for 4-H'ers went to Leslie Anderson. He is son of Mr. and Mrs. Warren Anderson, northeast of Colorado City, and one of 700 contestants who took part in various contests at Lubbock.

Community Improvement

Team of two Mitchell County 4-H Club members took top place in the community development contest for this 20-county district. Team members are Teresa Silvera and John Sweatt of Westbrook 4-H Club. The two will go to the 1969 4-H Roundup finals at College Station.

Freddie Fox Leads Indians To Kingsville

While the McMarry College track team lacks the depth to win a Lone Star Conference track title Friday and Saturday at Kingsville, it does feature Freddie Fox and Ricky Parris.

The two represent strong contenders in the long jump and pole vault. Fox, the Colorado City senior who is wrapping up a storied career, is the favorite in the long jump. Parris, the young freshman from Wylie who set a new school

record in his first collegiate meet, could place high in the LSC meet.

Fox, the LSC record holder at 25-6, has leaped 24-11 in his best effort this spring. Parris has cleared 14-6, setting the school mark.

Now coming on fast is sophomore Larry Lefevre of Rule. The slender quarter-miler ran a fine 48.2 at Alpine last Thursday. And that's the third fastest time clocked by a LSC 440-yard dashman.

These three are real competitors; so don't be surprised if they all finish high at Kingsville. And Bradley (Robert)

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER ONE ON THE BALLOT (HJR3)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Sections 42, 46, and 48 of Article III, Sections 3a and 7 of Article VII, Section 12 of Article VIII, Section 3 of Article IX, Sections 1, 3, 4, 5, 6, 7, 8, and 9 of Article X, Section 10 of Article XI, Sections 3, 4, 5, and 7 of Article XII, Sections 1, 2, 3, 4, 5, 6, and 7 of Article XIII, Sections 2, 3, 4, 5, 6, 7, and 8 of Article XIV, Sections 3, 4, 7, 13, 29, 32, 34, 35, 36, 38, 42, 45, 46, 54, 55, 57, 58, and 60 of Article XVI, Constitution of the State of Texas, be repealed, it being specifically

understood that the repeal of these sections shall not in any way make any substantive change in our present constitution. Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in August, 1969, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment to repeal the obsolete, superfluous and unnecessary sections of the Constitution."

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER NINE ON THE BALLOT (HJR5)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 5, Article III, Constitution of the State of Texas, as amended, be amended to read as follows:

Section 5. The Legislature shall meet in regular session each year at such time as may be provided by law and at other times as convened by the Governor. When convened in odd-numbered years in regular session, the Legislature shall devote the first thirty days to the introduction of bills and resolutions, acting upon emergency appropriations, passing upon the confirmation of the recess appointees of the Governor and such emergency matters as may be submitted by the Governor in special messages to the Legislature; provided that during the succeeding thirty days of such session the various committees of each House shall hold hearings to consider all bills and resolutions and other matters then pending; and such emergency matters as may be submitted by the Governor during the following sixty days the Legislature shall act upon such bills and resolutions as

may be then pending and upon such emergency matters as may be submitted by the Governor in special messages to the Legislature; provided, however, either House may otherwise determine its order of business during this session by an affirmative vote of four-fifths of its membership. "Regular sessions in even-numbered years, commencing in 1972, shall not exceed sixty days and shall be limited to legislation on the subjects of providing funds for the support of functions and activities of the state government and emergency matters submitted by the Governor in messages to the Legislature. At each regular session, commencing in 1971, appropriations shall be made for the support of functions and activities of the state government for the next fiscal year."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on August 5, 1969, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment to provide for annual legislative sessions."

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER FOUR ON THE BALLOT (SJR6)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 2, Article VIII, Constitution of the State of Texas, be amended to read as follows: "Section 2. All occupation taxes shall be equal and uniform upon the same class of subjects within the limits of the authority levying the tax; but the legislature may, by general laws, exempt from taxation public property used for public purposes, all real and personal property owned by a nonprofit water supply corporation which is reasonably necessary for, and is used in, operation of the corporation in the acquisition, storage, transportation and sale of water as authorized as its sole legal purpose; actual places of (or) religious worship, also any property owned by a church or by a strictly religious society for the exclusive use as a dwelling place for the ministry of such church or religious society, and which yields no revenue whatever to

such church or religious society; provided that such exemption shall not extend to more property than is reasonably necessary for a dwelling place and in no event more than one acre of land; places of burial not held for private or corporate profit; all buildings used exclusively and owned by persons or associations of persons for school purposes and the necessary furniture of such schools and property used exclusively and reasonably necessary in conducting any association engaged in promoting the religious, educational and physical development of boys, girls, young men or young women operating under a state or national organization of like character; also the endowment funds of such institutions of learning and religion not used with a view to profit; and when the same are invested in bonds or mortgages, or in land or other property which has been acquired hereafter by such institutions under foreclosure sales made to satisfy or protect such

bonds or mortgages, that such exemption of such land and property shall continue only for two years after the purchase of the same at such sale by such institutions and no longer; and institutions of purely public charity; and all laws exempting property from taxation other than the property above mentioned shall be null and void."

Sec. 2. The foregoing Constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Monday in August, 1969, at which election all ballots shall have printed on them the following: "FOR the Constitutional amendment to exempt nonprofit water supply corporations from taxation;" and "AGAINST the Constitutional amendment to exempt nonprofit water supply corporations from taxation."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election, and this amendment shall be published in the manner and for the length of time required by the Constitution and laws of this state.

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER TWO ON THE BALLOT (HJR9)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto a new Section 49-d-1 to read as follows: "Section 49-d-1. (a) In addition to Texas Water Development Bonds heretofore authorized to be issued by Sections 49-c and 49-d of Article III of the Constitution, the Texas Water Development Board is hereby authorized to issue \$3,500,000,000 in aggregate principal amount of bonds. No part of such additional bonds shall be issued prior to approval thereof by the vote of two-thirds of the elected members of both houses of the Legislature. (b) The proceeds from the sale of such bonds shall be deposited in the Texas Water Development Fund. (c) The bonds herein authorized and all bonds authorized by such Sections 49-c and 49-d of Article III shall bear such interest and mature as the Texas Water Development Board shall prescribe subject to the limitations as may be imposed by the Legislature. (d) The Texas Water Development Fund shall be used for the purposes heretofore permitted by and subject to the limitations in said Sections 49-c and 49-d in addition thereto for the purposes of developing water resources and facilities for the State of Texas, both within the State and without the

State of Texas. Provided, however, that financial assistance may be made pursuant to the provisions of such Sections 49-c and 49-d subject only to the availability of funds and without regard to the provisions in Section 49-c that such financial assistance shall terminate after December 31, 1982. (e) Under such provisions as the Legislature may prescribe, the Texas Water Development Board may receive grants and, in addition, execute contracts with the United States or any of its agencies, other states of the United States, foreign governments and others, for the acquisition and development of such water resources and facilities for the State of Texas. Such contracts when executed may be secured by the general credit of the state, and if so secured shall constitute general obligations of the State of Texas in the same manner and with the same effect as Texas Water Development Bonds. If facilities are acquired for a term of years, such contracts shall contain provisions for renewal that will protect the state's investment. The aggregate principal amount of Texas Water Development Bonds authorized herein and in said Sections 49-c and 49-d shall be reduced by the aggregate of principal payments committed under such contracts constituting general obligations of the state. The provisions hereof shall not be construed to limit the authority of the Texas

Water Development Board to execute contracts or issue revenue bonds when such contracts or bonds are not secured by the general credit of the state.

(f) Texas Water Development Bonds and such contracts secured by the general credit of the state shall after approval by the Attorney General, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute general obligations of the State of Texas under the Constitution of Texas.

(g) Should the Legislature enact enabling laws in anticipation of the adoption of this amendment, such Acts shall not be void by reason of their anticipatory character."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on Tuesday, August 5, 1969, at which election all ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment broadening the powers of the Texas Water Development Board and the purposes of the Texas Water Development Fund; eliminating the interest limitations on Texas Water Development Bonds; raising the authorized amount of Texas Water Development Bonds by \$3,500,000,000; extending the maturity schedule on Texas Water Development Bonds; eliminating the procedures for curtailment and the curtailment date of financial assistance to be provided by the Texas Water Development Board."

The Texas Legislature, explains the county agent here, has provided a program of estimates for each county. Because Texas covers such a wide area, state totals alone do not provide adequate information on our most basic industry - hence, the need for county information. The program is a cooperative effort of the U. S. Department of Agriculture's Statistical Reporting Service and the Texas Department of Agriculture.

The county agent urges all farmers in the county who receive the questionnaire to fill it out correctly and return it as soon as possible to the Reporting Service.

Information derived from the replies will be the basis for official estimates of crop acreage for the State and for each Texas county," said Lemons.

"It is important that the information be exact because estimates determine crop yields to be set by the State," he said.

Gas Rate Hike Looms Ahead

Lone Star Gas Company has
filed with the Texas Railroad
Commission an application for
an increase in the intracompany
gate charge for residential,
commercial and distribution
unaccounted-for gas.

The company asked an in-
crease from the present gate
charge of 35.4 cents per
thousand cubic feet of gas to
44.8 cents per thousand cubic
feet.

When the Railroad Com-
mission establishes the new

intracompany gate charge,
specific computations will be
made for each Texas town.

In those towns where earnings
are deemed inadequate, indi-
vidual rate action will be pur-
sued with each town's ruling
body. This policy in the past
has resulted in higher gas rates
for individual town customers.

Texas Railroad Commission
sets the gate charge for Lone
Star Gas Company's transmis-
sion, said J. C. Wilkerson,
local manager.

Bishop Quarterman Plans 1971 Retirement

The Right Reverend George H. Quarterman, Bishop of the Episcopal Diocese of Northwest Texas, Friday night told delegates assembled in Plainview for the 11th annual council of the diocese that he will ask for 1970 election of a bishop coadjutor of the diocese at the business session of the council on Saturday.

Under the form of government of the Episcopal Church, a coadjutor is elected prior to the retirement of the diocesan bishop, taking office as bishop when the predecessor's retirement is effective. Bishop Quarterman announced it was his intention to retire on December 31, 1971. Under this proposal, the coadjutor will serve with Bishop Quarterman for about 1 1/2 years before becoming diocesan bishop.

Bishop Quarterman told the assembled council delegates in his opening address, "In December of 1971, I shall have completed 25 full and happy years as Bishop of the Church in this jurisdiction, and forty years in the priesthood.

"After considerable reflection and in consideration of the need for fluidity in leadership in the age in which we live, I have reached decision to plan for retirement. I assure you that I have no health problems at present and this decision is what I'm convinced is the right policy for the work and witness of the Church in Northwest Texas," he said.

It is expected that a special council to elect the coadjutor will be held in February of 1970 and that he will be consecrated in June of that year.

Bishop Quarterman was consecrated as Bishop of the Missionary District of North Texas December 3, 1946, after his election to this post by the House of Bishops of the Protestant Episcopal Church in the United States.

As the result of a successful endowment fund program carried out in the 1950's, the jurisdiction was changed from a missionary district, dependent upon the national church for some financial support, to a self-supporting diocese.

Bishop Quarterman was then installed as the first Bishop of the Diocese of Northwest Texas on October 31, 1958.

Born in Poughkeepsie, New York, August 12, 1906, he received his B. A. degree from St. Stephen's College in New York in 1928, graduated from General Theological Seminary in 1931 and was ordained priest that same year. He served as rector of St. Philip's Church, Ardmore, Oklahoma from 1931 to 1946, and was rector of St. Andrew's, Amarillo, from March of 1946 until his consecration as bishop in December of that year.

The Diocese of Northwest Texas is one of the largest jurisdictions of the Episcopal Church in the United States, so far as geographic area is concerned. It includes 80 north and west Texas counties and 77,000 square miles. The diocesan office and Bishop's residence and chapel are located in Amarillo.

All Saints Episcopal Church here is in the diocese.

FHA Loans Available Recreational Income

Farmers Home Administration can now make loans to farm and ranch owners or tenants for outdoor income-producing recreational enterprises according to John M. Russell, County Supervisor.

Loans to individuals can be made to convert all or a portion of their farms to recreational facilities. The recreational enterprise may supplement regular farm income or, in some cases, replace farm income by converting the entire farm to recreation, he noted.

Loans may be made for camping, picnicking, and hiking facilities, swimming, boating, skiing and fishing facilities, golf courses, riding stables or many other forms of outdoor recreation. Funds can be used to purchase necessary materials, supplies and animals, acquire and develop land and water resources, construct or improve modest essential buildings, and to purchase and install needed equipment and fixtures, Russell stated.

"Public recreational areas are increasing in number each year. However, the demand for such facilities still exceeds what is available. The purpose of this loan program is twofold in that it will provide more recreational areas and help farmers and ranchers to increase their income," said Russell.

Each loan will be scheduled

Mesquite Control Chemicals Favored

"With all the moisture we've had this spring, the situation is real favorable for mesquite control," says B. J. Ragsdale, Extension range specialist at Texas A&M University.

Mesquite is the most troublesome brush on some 56 million acres of rangeland in Texas. It invades abandoned cultivated fields rapidly when the area is not seeded and maintained in high-producing native grass. Ragsdale notes that it is also increasing in density at a rapid rate on areas already infested with the plant.

Until chemical control methods were developed, mesquite had to be controlled by mechanical methods which generally were costly and disturbed the native turf. Grass recovery usually is much slower on mechanically controlled areas than where mesquite is controlled with chemicals, he points out.

For control of the tree-type mesquite, all trees should be at least four feet tall or more, and four to six years old with dense foliage. The chemicals should be applied as a foliage

spray in the spring, 40 to 90 days after the first green growth appears at the bud. Ragsdale suggests mixing one-half pound of 2,4,5-T to one gallon of diesel oil and water to make four gallons of solution per acre.

For running-type mesquite or if weed control is necessary, the best mixture would be two-thirds pound of 2,4,5-T, with one gallon of diesel oil and water to make five gallons of solution per acre.

Ragsdale also emphasizes following the directions on the USDA approved labels on the containers. If this precaution is observed, there should be no danger from chemical residues, he advises.
