THE DUBLIN PROGRESS.

VOLUME XIV | DUBLIN, ERATH COUNTY, TEXAS, FRIDAY, AUGUST 16, 1901. | NUMBER 13.

OVER THE COUNTRY.

ALEXANDER.

Regular Correspondence.

August 14th.—On the night of the 12th inst. the long drought was broken at this place, there being about a four inch rain fall. All creeks and branches were swollen to their full capacity, their banks being hardly deep enough and wide enough to carry away the excess of water. It came too late, however, to do cotton much good as it was blooming right in the top already.

We gladly welcomed our first bale of cotton last Saturday, the 10th inst. Pat Thompson bought it on the seed, paying 2½ cents per pound for it.

Squire Mayes and family left this morning to visit relatives and friends in Bell county.

Rev. Morrison of the Christian church closed his meeting here Sunday night without any converts.

Foster Shcuttler and Newton wagon at Maloney's.

See the Samson Windmills. — Stovall & Thompson. 2-tf

High Patent flour at $1.50 a hundred cash at Higginbotham Bros. 7-tf

COMANCHE.

Special to the Visitor.

August 14th.—Sheriff Jay arrested "Uncle" Dan Farmer of this line last Sunday on a charge of seduction and placed him in jail.

The little child of Mr. and Mrs. J. C. Huse drank some lye last Friday evening and while it was thought that it would die, but soon revived, and this writing is fast improving.

Two children of Milt Odell, living near Gustine, have the small pox, contracted while the family were on a visit to relatives in Johnson county. They are both getting along nicely.

The county and city officials are making an attempt to stop the promiscuous shooting of six shooters in town, which has become a nuisance.

The $1 rate on photos is good until further notice.—Thompson. 10-tf

Come to City Paint Shop for painting and papering. Estimates cheerfully furnished.

Dr. S. C. Morgan, the dentist. Work guaranteed. Office over Maloney & Co's. 23-tf

Have your horse shod at W. A. Hogan's shop, near Red Wagon yard. Satisfaction guaranteed. 4t

HIGHLAND.

Special Correspondence.

August 12th.—We are proud to say that the farmers of this community will quit looking so long-faced in future, as we were blessed with a good rain this evening.

Mr. Cooper will be ready to gin cotton in a few days. He has his gin in good order for ginning.

Mr. Bradley will begin work on his new house this week.

Miss France Christian is able to be out on crutches once more.

Miss Nettie Beecher visited Mrs. Ingle last Sunday.

Mr. W. Hamilton visited DeLeon last week.

Mr. Garrison has been attending the holiness meeting at Lingleville for the past few days. He reports much good as being accomplished.

The Misses Mattie Garrison and Beckie Aykendall visited Mr. Dee Strong Sunday. As the young man has been sick for the past few days he enjoyed the company of the young ladies very much.

Only fifteen more days that you can get a $1.50 photo at Baxleys for 50 cents. 9-tf

Dr. J. J. Mulloy, practice limited to the diseases of the eye, ear, nose and throat. Office over the drug store, Dublin, Texas.

Best Prescription for Malaria, Chills and Fever, is a bottle of Grove's Tasteless Chill Tonic. It is simply iron and quinine in a tasteless form. No cure—no pay. Price 50c.

POINT LOOKOUT.

Special Correspondence.

August 8th.—Wife and self attended the annual camp meeting at Green's creek Sunday and heard a good sermon by Preacher Elder Boon. The crowd missed me of the throng at the camp on the 7th, 8th and 9th. Elder Boon is a very forcible speaker.

The hot, dry weather is damaging the cotton crop very fast. Cotton is opening fast and unless a good rain falls soon the cotton, like corn crop, will be cut short.

Mr. Robert Pack from near Pigeon, visited this scribe and took in the re-union.

Mr. Buck Arnold, a well-to-do farmer and old comrade of the lost cause, visited this scribe and took in the re-union. We desire to say something more about this gallant soldier in our next week's items.

We attended the re-union two days and noticed the displays of Dublin's business men, which was grand, and showed that the town was full of enterprising men and women. We are glad to live near Dublin.

The meeting at Union is in full blast. We hope it will do much good before it closes.

Mr. Heard and family who have been visiting the family of Mr. Pennington for the past two weeks, returned to their home near Coryell Sunday. His son and family from near Lumpkin, Comanche county, returned home Saturday after a three days' visit.

Mr. Enniss Johnson from near Oak Dale, visited his sister, Mrs. Maud Stephens, last week and attended the re-union.

Fountain Johnson and family are among the campers at the Green's creek camp meeting.

No sickness to report.

From the present outlook we will be able to report two or three weddings soon.

LATER.—Since writing the above we have enjoyed the heaviest rain of the year; a three hours' downpour.

Guns at Maloney's.

COW CREEK.

Regular Correspondence.

August 13th.—A good rain fell here last night.

Cotton is opening but little, as most of the crops here are late.

The protracted meeting here closed on the 5th. It was a good meeting, resulting in several conversions and nine additions to the church.

Grandma Leverett is spending the week attending the protracted meeting at Bunyan and visiting relatives.

Mrs. Owens and children are away for a few days to see her mother and other relatives near Victor.

Your scribe and sisters, Mrs. Stephens, Mr. Lucy and Rev. J. T. Owens attended quarterly conference at Green's creek last Saturday.

Messrs. Webb and Harris, and their families, visited relatives in Comanche county last week.

Miss Mary Crawford visited friends at DeLeon Saturday and Sunday.

Mr. Carraway had visitors Sunday.

Mr. Walter Harris of Comanche county, visited at Mr. Kirk's Sunday.

Mr. W. H. Lucy spent the evening pleasantly on last Sunday at Mr. Sharp's.

Bro. Owens is visiting his son, Jimmie, and attending the camp-meeting near Duffau.

Mr. and Mrs. L. W. Miller of near Stephenville, were among friends here Thursday and Friday of last week.

H. C. Alexander and Miss Lizzie Shelby were married on the evening of the 3d inst., Rev. J. T. Owens officiating.

Prof. Cole of DeLeon was in our community last Friday.

Mr. Tom Kirkland has a new wind mill in running order.

Mr. Kirk has sold his farm here and will move to Huchinson county.

Thompson is making cabinet size photos for $1 per dozen that you will not be ashamed of. 10-tf

Bring your buggies to the City Paint Shop. Made to look like new. Over Bowden Furniture Co.

C. D. Davis, horse-shoer, is located at W. A. Hogan's blacksmith shop. I am here to stay, give me a trial. 10-4t

Plantation Sarsaparilla 50c.

Is composed of sarsaparilla, yellow dock, stillingia, poke root and iodide of potash, and cures all impurities of the blood. Has cured thousands and will cure you. One million bottles sold annually is sufficient to convince any one of its worth. Manufactured by the Van Vleet-Mansfield Drug Co. For sale by F. E. Shugart & Co.

THENY.

Regular Correspondence.

August 14th.—Well, after a three months drouth, we have had a very good season.

Nearly everybody is planting fall gardens.

Cotton is opening fast, two bales having already been ginned at this place. The first bale was ginned last Friday. It was raised by K. M. VanZandt and sold at DeLeon for 7½ cents, with $11.25 premium. The second bale was raised on S. S. Davis' place by J. M. Sturdivant.

Cotton will average about one-fourth of a bale to the acre.

Mrs. W. A. Bird will leave Thursday for Alabama. The Doctor will follow some time this fall. We dislike to give these good people up, but feel that our loss will be some one else's gain.

J. R. Ross sold out to S. H. N. Rackley and will leave next Monday for the west. Consideration $4,200 cash.

J. B. Watson has his new house about completed.

Henry Carpenter and J. F. Stokley will buy cotton here this fall.

Prof. W. J. Clay of Dublin was here on business Wednesday.

Quite a crowd of Theny people attended the re-union last week.

You Know What You Are Taking.

When you take Grove's Tasteless Chill Tonic because the formula is plainly printed on every bottle showing that it is simply Iron and Quinine in tasteless form. No Cure No Pay. 50c.

To Save Her Child

From frightful disfigurment Mrs. Nannie Galleger of La Grange, Ga., applied Bucklen's Arnica Salve to great sores on her head and face, and writes its quick cure exceeded all her hopes. It works wonders in sores, bruises, skin eruptions, cuts, burns, scalds and piles. 25 cts. Cure guaranteed by Overton Drug Co.

Anniversary.

The Woman's Christian Temperance Union of Dublin will celebrate the tenth anniversary of its organization Sunday, August 18th, at the M. E. Church at 4 p. m.

An interesting program, consisting of music, reading, a brief summary of the work done in Dublin, short talks by the different pastors of the city and those friendly to the cause will be given.

It is hoped that the citizens of Dublin will cheer these faithful women by their presence and hearty co-operation. Give them a full house.

YOUR LAST CHANCE! OUR LAST CALL!

6 Days More at Mistrot's

All Remnants, all odd lots and odds and ends from our stock to be disposed of. All summer goods left on hand to be sacrificed. GALVANIZED STEEL WIND MILL.

It is not like any other wind mill. It is better. No other wind mill has the wonderful double gear—meaning strength and double wear. No other has the long adjustable boxes which can be replaced without removing any part of the mill and which effectually do away with all torsion and overhanging strain. No other mill ever sprung so quickly into favor or is so highly endorsed by those who uses them. No other mill has a tank made which shows the same strength and ability and high efficiency. It stands the most severe storms without a crib or buckle. It stays sold and because of superiority sells others in the same ... Made in sizes from 6 to 20 ft. in diameter. Clearly unequaled for the farm, stock, residence, village water supply, etc. Write at once for catalogue and terms to

WORKMEN DROWNED.

Are Caught by Fire in a Crib Two Miles in the Lake.

OVER TEN ARE DEAD

The Men Were Forced to Jump into the Water or Return to the Tunnel to Suffocate—Some Had Narrow Escapes.

Cleveland, Aug. 15.—Fire yesterday morning destroyed the temporary water works crib two miles out in the lake, resulting in the death of at least 10 men, while two others are probably fatally injured.

In addition to a large number of the workmen who were in the crib, several others were at work in the tunnel leading from it 200 feet below the bottom of the lake. As the air, which was pumped from the crib to supply the men working in the tunnel, was cut off as a result of its destruction, it was at first supposed these men all perished. Subsequently, however, nine of the men in the tunnel were rescued after heroic work upon the part of their fellow workmen. It is said two men are still in the tunnel, but those rescued say one of these is dead.

Three gangs of tunnel workmen who live in the crib, were caught like rats in a trap, and either had to jump into the lake and possibly drown, or else go back into the tunnel to a probable death by suffocation. They were forced to jump in the lake to escape death from fire. Nine were drowned or burned to death and others very badly burned, some slightly.

Result of the Fire.

Cleveland, Aug. 15.—Five men were burned to death, four were drowned, one and possibly four were suffocated and several injured as the result of the fire which destroyed the temporary waterworks crib two miles off the Cleveland harbor early Wednesday.

Damage at Coal Creek.

Chattanooga, Aug. 15.—A special dispatch from Coal Creek, Tenn., states that the creek there is two feet higher than ever known before. Half the town is inundated and the people are being forced to move to high ground. Seven bridges and trestles on the Southern railway near Coal Creek have been washed away. Six houses were washed away near Coal Creek.

Rice Fields Damaged.

New Orleans, Aug. 15.—Many rice fields along the lower coast are under water and orange lands will be damaged. There is probably loss of life, but no definite reports have reached here.

Along the Mississippi gulf coast wind and water are high but no damage yet reported.

Damage from High Water.

Middlesboro, Ky., Aug. 15.—Damage amounting to thousands of dollars has been done in this section especially to the valley farms. It has been raining for several days and there are no signs of abatement. A large portion of this valley is inundated. A suburb of this city is under water, but the damage is slight.

Stonega, Va., was visited by a waterspout which compelled three-fourths of the inhabitants to flee for their lives.

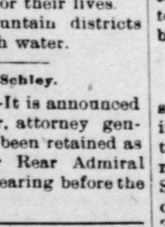

Reports from all mountain districts show damage from high water.

Will Defend Schley.

Baltimore, Aug. 15.—It is announced here that Isidor Raynor, attorney general for Maryland, has been retained as one of the attorneys for Rear Admiral Schley in his coming hearing before the court of inquiry.

No External Symptoms.

The blood may be in bad condition, yet with no external signs, no skin eruption or sores to indicate it. The symptoms in such cases being a variable appetite, poor digestion, an indescribable weakness and nervousness, loss of flesh and a general run-down condition of the system—clearly showing the blood has lost its nutritive qualities, has become thin and watery. It is in just such cases that S. S. S. has done some of its quickest and most effective work by building up the blood and supplying the elements lacking to make it strong and vigorous.

"My wife used several bottles of S. S. S. as a blood purifier and to tone up a weak and emaciated system, with very marked effect by way of improvement. "We regard it a great tonic and blood purifier."—J. F. DUFF, Princeton, Mo.

SSS is the greatest of all tonics, and you will find the appetite improves at once, strength returns, and nervousness vanishes as new rich pure blood once more circulates through all parts of the system.

S. S. S. is the only purely vegetable blood purifier known. It contains no minerals whatever. Send for our free book on blood and skin diseases and write our physicians for any information or advice wanted. No charge for medical advice.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

ABOUT A STAND OFF.

Strikers Make Some Gains and the Steel Trust Start More Mills.

Pittsburg, Aug. 15.—There were victories on both sides of the great steel strike Wednesday, but they furnish no direct line on the ultimate result of the conflict. The strikers succeeded in finally forcing the National Tube company at McKeesport, probably the largest individual plant in the United States Steel Corporation, to finally close down. On the other hand, the Steel Corporation reopened the big Painter mill and has also resumed operations with non-union men at the Crescent plant of the American Tin Plate company at Cleveland. Two mills were started at the Painter plant, although one of them broke down during the day. According to a statement of an official the Crescent plant is moving. They make the fifth and sixth plants which the Steel Corporation has succeeded in starting with non-union men, the others being Wellsville, Hyde Park, Clarks mill and Lindsay and McCutcheons mill.

The strikers are fully in control at McKeesport, Wheeling, Newcastle, Bellaire, Mingo Junction and show some strength here.

Pittsburg, Aug. 14.—In round numbers the strike order by President Shaffer has been obeyed by 20,000 men and the total number men who struck or were rendered idle by all three orders now placed at 65,000. Manufacturers continue to hold their ground at Chicago, Joliet, Bayview, Youngstown, Columbus, Kiskismentas Valley and all of the Carnegie plants, except the lower Union mill in Pittsburg. In the latter the strikers have made some gains but the general result there is still in doubt. Steel managers also count the refusal of furnace men of the Mahoning and Shenandoah valleys to strike a victory

The trusts succeeded today in reopening two mills at the Painter plant in Pittsburg and in forcing the opening of the Crescent tin plate plant at Cleveland, O.

The strikers scored heavily at McKesport when nearly 3000 men and boys, employed by the National Tube company joined forces with the strikers and tied the plant up. They claim to have further extended their organization among the men of the Carnegie mills in this city and say before the end of the week they will have the works stopped.

They also expect to completely close down everything in the Wheeling district and assert the last man will go out after a massmeeting to be addressed by President Shaffer.

The strikers are completely in control at Bellaire and Mingo Junction. Good order still rules.

President Shaffer is engaged in pushing a scheme for financial aid, and it is said the strikers are getting liberal contributions. No plan of individual relief for the men on a strike has yet been announced. Apparently no action has been taken with respect to the western lodges that refuse to strike.

Settlement Rumors Again Out.

Pittsburg, Aug. 14.—Rumors of a settlement of the steel strike is again being revived, but confirmation of them from any source is impossible, It is related circumstantially that the Amalgamated association knows it cannot win; that the United States Steel Corporation fears the loss of both skilled men and orders to independent mills that they are close to terms, which will be satisfactory to both.

Refused to Reconsider.

Chicago, Aug. 15.—There will be no strike of the emyloyes at the steel mills in South Chicago. This point was settled Wednesday night when the men refused to reconsider the action taken Saturday night. After they had declined to reconsider Assistant Secretary Tighe, who came to Chicago with the intention of securing a reversion of the action of Saturday night if possible, declared that he revoked the charters of both lodges of the Amalgamated association of the South Chicago mills and declared the men outside the organization. The men greeted his announcement with laughter and cheers. Only a small number were present.

Look For a Long Fight.

Pittsburg, Aug. 15.—The steel manufacturers say it looks like a long fight between the men and the trust. The strikers are attempting to close more mills, while the trusts will make endeavors to reopen. There has been an advance in prices due to the strike.

Roosevelt Addressed Veterans.

Hutchinson, Kan., Aug. 15.—Vice President Roosevelt, en route from Colorado, stopped here for a short time Wednesday and from the rear platform of the train he addressed several thousand veterans attending the state Grand Army of the Republic reunion. Mr Roosevelt spoke for 15 minutes and aroused the crowd to great enthusiasm He thanked the old soldiers in the name of the American people for the present valor and sacrifice and referring briefly to civic life, warned them not to envy the life of ease. "You old soldiers," he said, "don't envy those who lived lives of ease from '61 to '65. You do not regret the work you did then, do you?" A chorus of "No" came from the veterans.

Another Fire at Chipley.

Pensacola, Fla., Aug. 15.—Fire at Chipley destroyed property valued at $125,000. The fire was of incendiary origin. This is the third fire that has visited that town within the past 60 days. The citizens offer a large reward for the apprehension of the incendiaries. There is considerable excitement.

ANOTHER LAND SALE.

Montana to Sell 5,000,000 Acres to the Highest Bidders.

Helena, Mont., Aug. 15.—The state of Montana will shortly have a land sale that will eclipse the recent government affair in Oklahoma where about 2,000,000 acres were disposed of to home seekers. About 3,000,000 acres distributed throughout every county in the state will be auctioned off by Land Registrar Long. This course was decided on at a meeting of the state board of commissioners.

A state law prohibits the sale of any lands at less than $10 per acre and where Registrar Long fails to receive bids of at least that, he will only lease the lands to the highest bidder. The board decided that purchases by any one person shall be limited to 160 acres agricultural or 640 acres grazing land.

Fires at Lufkin.

Nacogdoches, Tex., Aug. 15.—Lufkin, the county seat of Angelina county had two fires Tuesday night. In the first the business part of the town was nearly all destroyed; in the second two big frame two-story business houses with contents were destroyed, including the bank, a livery stable, Crutchfield's millinery store, store of Hodges, Will Singleton, Johnson's drug store and two saloons. Origin and insurance not known.

Will Be Tried Immediately.

Denison, Tex., Aug. 15.—The trial of the men under arrest and in Atoka jail, charged with holding up and robbing the Missouri, Kansas and Texas passenger train No. 3 at Caney tank Tuesday, has been set for next Tuesday.

Cotton Belt Train Wrecked.

Corsicana, Tex., Aug.—A westbound Cotton Belt freight train was wrecked Wednesday in Chambers creek bottom, six miles east of here. Eleven cars left the rails. Conductor Cannon received a broken rib.

Hale Chosen President.

Salt Lake, Aug. 15.—General Irving Hale of Colorado has been chosen president of the Society of the Army of the Philippines. Council Bluffs secured next year's convention.

Shingle Mill Destroyed.

Beaumont, Teq., Aug. 15.—The Carroll shingle mill, located on the banks of the river about three miles below the city, was destroyed by fire Wednesday. Loss $4000.

Convicts Killed by Lightning.

Houston, Aug. 15.—At Ford's convict camp about 10 miles from this city, two negro convicts were killed by lightning and several others shocked.

NEWS IN BRIEF.

Of the 632,486 native born persons of scholastic age in Mississippi only 253,732 are white.

Sir William Laird, the iron master, died at Glasgow, Scotland.

Dominico Morelli, the great Italian painter, died at Naples.

Commander Fred M. Wise of the United States navy died in a hospital at Yokohama, Japan.

Max Opitz, a banker, was arrested at Berlin charged with heavy defalcation.

James Sanderson and his wife were murdered at Heathville, Ills. No clew to perpetrators.

Judge Thomas H. Brown of the Texas supreme court announces positively that he will not be a candidate for the governorship.

William Alexander was drowned in Swan lake, near New Decatur, Ala.

The receipts of new cotton at Houston, Tex., now average more than 100 bales daily, which indicates an early marketing of the crop.

Bill Ledbetter and Ed Harr; accused of firing upon a party of United States marshals and murdering Marshal Price and Posseman Corder, have been arrested in Tennessee.

The work of appraising the lands of the Chickasaw and Choctaw lands has been completed.

Thomas Gibbins, of St. Louis, died at Bloomington, Ills., from injuries received by being struck oy an Alton train.

The government estimates the shortage of the corn crop in the middle western states will be 600,000,000 bushels.

Governor Yates of Illinois has asked the state dental board to resign.

Edmund Z. Brodowski, United States consul at Solenger, Germany, is dead.

While shooting at a target at Santa Fe, N. M., Juanita Rael, 20 years old, accidentally killed an 8-year-old boy.

William Delaney was drowned while fishing at St. Joseph, Mo.

Desperate effort was made in Travis county, Texas, by a mob to lynch a negro arrested for assaulting Mrs. Tharlquest.

Citizens of Joplin, Mo., have declared war on Sunday saloons.

While Carl Norfleet was strolling in a meadow near Butler, Mo., he was shot and seriously wounded by a farmer who supposed he had invaded his peach orchard.

William Campbell, engineer, and Brakeman McGraw were killed in a wreck near Owen Sound, Ont.

Frank Smallwood while carelessly handling a pistol at Hannibal, Mo., seriously wounded his wife.

Mrs. May McGuire suicided at Topeka, Kas., by shooting herself.

Highwaymen shot to death Adolph Morray near St. Joseph, Mo., because he refused to give up his money.

Edward H. Trerise, a well known mining man, is dead at his home in Helena, Mont., aged 70 years.

William Adamson was fatally injured at Brazil, Ind., by being struck by a car on the interurban line.

THE REPORT IS READY

Investigation of State Funds in the First National Finished.

ALL CASH COUNTED.

This Committee Will also Report to the House—The Sessions of the House and Senate Are Without Any Special Interest.

Austin, Aug. 15.—The committee on investigation of the deposits of state money in the First National bank of Austin has completed its report. The committee confines the report to the presentation of the testimony, oral or documentary, that it has taken, but made no recommendation as to what the house shall do.

The standing committee on counting the cash and checking the accounts of the state treasurer has also completed its work.

In the senate Senator Beaty introduced a bill apportioning the state in senatorial districts.

Senator Theodore Harris presented a petition from the Albert Sidney Johnston chapter, United Confederate Veterans of San Antonio, asking for an appropriation for the enlargement of the Confederate Home.

Senator Sebastian had read a letter written by Mac Stewart in Chihuahua prison, thanking the senate for the passage of a resolution petitioning for his pardon.

Judge Cravens, secretary to the governor, delivered the message of the governor relative to the need of additional appropriations for the epileptic colony at Abilene.

In the house a message was read from the governor relative to the state epileptic asylum was read and referred.

Senate concurrent resolution authorizing the state to enter into a 10-year contract with the San Antonio Waterworks company for an adequate supply of pure water for the Southwestern insane asylum, was laid before the house.

After considerable discussion the resolution was adopted, then reconsidered and the reconsideration tabled.

Convict Contracts.

Austin, Aug. 14.—The state penitentiary board has fixed the price on first class convict labor at $20 and second-class at $17 per month. All of the old contracts were renewed. It was stated that if the railroads did not make satisfactory arrangements with the superintendent and financial agent as to the employment of the convicts, that they would be withdrawn and worked on the farm.

Pelted Preacher With Eggs.

Paris, Tex., Aug. 15.—Two or three nights ago while a Christian preacher who lives in Delta county, was returning from an arbor where he was holding meeting at Dike, he was rotten-egged. He was in a buggy, accompanied by his wife when attacked. The preacher's wife's bonnet was ruined and one or two of the eggs struck the baby. The horse became unmanageable and a serious runaway was narrowly averted. The attack on the minister is not believed to have been made on account of the doctrine he preached, but on account of alleged harsh language and hard words used in his sermons.

Terrible Accident.

Floresville, Tex., Aug. 16.—A 10-year-old son of John Prophet was badly, if not fatally, hurt near here. A well was being bored and the casing became fastened. Men were at work trying to pull the casing out. The boy was looking into the well. The casing split and came from the well as if it were shot out of a cannon, striking the boy on the forehead splitting his head open, exposing the brain and caving in one side of the skull. Dr. Watkins straightened the skull, sewed up the skin over the wound in the forehead and the boy appears to be doing well.

Charged With Poisoning.

Tyler, Tex., Aug. 15.—Some ago five children died very suddenly in the eastern part of Smith county. The deaths were under suspicious circumstances and an investigation was begun. As a result the sheriff has arrested Jeff Van, Martha Carter and Liza Griffin, who are charged with poisoning the children with strychine, and they were placed in jail in this city. All parties are negroes.

Child Scalded to Death.

Denison, Tex., Aug. 15.—At Marlow, I. T., the little child of Ed Putty's was scalded to death. The child was put in its high chair at the table and was near the teapot. While the backs of the parents were turned it caught hold of the teapot and turned it over, the hot tea scalding it so severly that it died shortly after.

Tragedy at Granbury.

Granbury, Tex., Aug. 15.—A. Kraukaur, a commercial traveler for Weatherford hardware house, was shot and mortally wounded here. The shooting took place in John S. Cooper's grocery store. Dr. J. R. Lancaster has surrendered to officers and was released on $500 bond.

Strike in San Antonio.

San Antonio, Aug. 15.—All the laborers working for the Parker-Washington company on the street improvements are on a strike, demanding semi-monthly instead of monthly paydays. Three hundred men are involved.

STORM ON THE GULF.

The Wind Is Blowing 48 Miles an Hour at New Orleans.

New Orleans, Aug. 15.—Reports on the weather bureau announce that the storm predicted at the mouth of the river is developing strength and hard winds are blowing on the coast. Water in the Mississippi river has been backed up and at Fort St. Phillip very much higher than for several days. Much land is covered in that vicinity. The river at New Orleans has risen two feet and in all ferry pontoons had to be raised.

The wind is blowing 48 miles an hour at Port Eads with rough water in the gulf. The wire to Port Eads has been blown down.

The storm is reported to be moving northward. The weather bureau expects a continuation of the high northeast winds here during the next 24 hours.

The Tennessee Rising.

Knoxville, Aug. 15.—The Tennessee river here is 12 feet above low water mark and rising at the rate of 6 inches per hour. The weather observer at Fulton says it will reach at least 30 feet. He says heavy rains are reported all over east Tennessee. The flood has penetrated the commissaries of several of the coal companies at Coal Creek and Jellico districts and invaded a number of houses at Coal Creek.

SOME CHECKS WORTHLESS

If the Amount Is Drawn Out Before Payment There Is No Crime.

New York, Aug. 15.—Justice O'German in a decision holds that the delivery of a check on a bank does not constitute an assignment of the funds in the bank of the drawer of the check, and that a person withdrawing the amount of his credit in the bank by a second check prior to the payment of the first check does not commit larceny.

The case was that of Dr. Adam H. Straub, who was arrested on a charge of grand larceny in proceedings growing out of the Northern Pacific corner and instituted against him by the firm of Schalke, Ward & Wagner, brokers. He was held by a magistrate to await the action of the grand jury, but appealed to the supreme court on a writ of habeas corpus, and was discharged from custody.

KRUG DELIVERED.

Turned Over to Mexican Authorities on an Embezzlement Charge.

El Paso, Tex., Aug. 15.—John Krug, the American, ordered surrendered to Mexico to answer the charge of embezzling $100,000 from the Wells Fargo company at Eascalon, Mex., has been delivered to the Mexican authorities at Juarez.

The Mexcian officials met the United States marshal at the center of the Rio Grande bridge, where they signed a receipt for the prisoner. He was taken to Jiminez and will be tried there.

The extradition proceedings was the hardest fought on record since the new treaty was signed.

Another Injunction Against Union.

New York, Aug. 15.—Supreme Justice O'German has granted the application of Finkelstein & Magget, clothing makers, for an injunction restraining the United Garment Workers of America, Henry White, their general secretary; the Jacket Makers' union, their officers and all their members, from interfering by intimidation or force with the employes of the plaintiffs, or persons desirous of getting work from them or permitting its member to do.

Rewarded the Employes.

Colorado Springs, Aug. 15.—The fact has just come to light that General W. J. Palmer of this city, when he sold his interest in the Rio Grande Western railroad for $6,000,000 three months ago, made a distribution of 10,000 shares of the stock of the company among the employes of the road, amounting to more than $1,000,000. Every employe, even the humblest, was remembered. Vice President Dodge received more than $100,000 worth of the stock.

For a Shorter Line.

London, Aug. 15.—The house of lords took an unusual step with the object of passing on second reading the bill granting special powers to build a pier and other works at Berehaven in Bantry bay, Ireland, in connection with the proposed fast steamship line from Berehaven to the United States, by which it is hoped the voyage can be accomplished in 4½ days. The bill had already passed the house of commons.

Union Jack Mutilated.

Valetta, Island of Malta, Aug. 15.—Discontent here is arising from the language question and other grievances are growing more acute. Sunday a Union Jack was torn to pieces in the street by a large body of demonstrators. This was followed by disfiguring Queen Victoria's jubilee statue Tuesday night. The marble was deluged with damaging acid. Perpetrators of the outrage have not been discovered.

Another Strike Impending.

Fall River, Mass., Aug. 15.—The labor strike over the cut down in wages in the Print cloth mills of Fall River is impending. Already the unions have voiced their intention to refuse the cut-down proposed by the manufacturers, declaring they will hunger and even starve before they will except the new schedule.

Cheered Lipton's Departure.

London, Aug. 15.—Sir Thomas Lipton left for the United States Wednesday leaving a cheering crowd of acquaintances and well wishers who had assembled at the station to bid him farewell.

UNCLE SAM'S BIG TASK.

How the Havana Drydock Will Be Towed to Manila.

THE COURSE LIES THROUGH SUEZ CANAL

Long and Tough Trip Is Expected In the Indian Ocean For Gigantic Structure Recently Purchased From Spain—Convoy to Include a Complete Machine Shop to Keep Dock In Repair.

The United States government will soon begin the most stupendous task in towing that was ever undertaken, according to a Washington dispatch to the St. Louis Republic. It will try to tow the enormous floating drydock recently purchased from the Spanish government and which has been in Havana harbor since before the Spanish war to the Philippine Islands for the purpose of docking American naval vessels in Asiatic waters.

The distance to be traveled is nearly 10,000 miles, and a fair estimate of the time required for the trip would be 100 days. The route over which the dock will be towed leads first to the Canary Islands, a distance of 3,100 miles, and thence to Gibraltar, 700 miles farther on. Through the Mediterranean sea to Port Said, at the entrance to the Suez canal, is 1,920 miles, and to Aden an additional 1,310 miles. Colombo is the next point on the route, 2,130 miles away, and to Singapore, the last stop before reaching Manila, is 1,270 miles. The last run, from Singapore to Manila, will be 1,386 miles, making an aggregate total of 11,816 nautical miles.

To drag this ponderous steel structure will require the combined efforts of four towing ships, and it is probable that two colliers and two ocean going tugs will be used. The most elaborate and up to date towing appliances known will be required to prevent the fouling of cables and the possible injury of the big dock. Cables of manila 12 inches in circumference will be used and will be fastened to the dock by bridles made of powerful chains.

From the towing ships the lines will be run to the new towing engine, which provides for the taking up of slack lines caused by the ship or tow falling in the seas. Without this apparatus as great a feat as the one proposed would be an impossibility, as there is no cable made of sufficient strength to withstand the strain of so great a weight in rough weather, and even should the cable resist the violent jerking caused by the waves it is more than likely that no anchorage on the vessel would be strong enough to hold the cable.

The reason for this determination on the part of the government to send the dock to Manila is the difficulty encountered at present in securing docking facilities for overhauling our naval vessels in the Philippines. The only docks available are those in Japan and at Hongkong, and as we now have a large number of warships and transports in the east, each of which requires docking at least once in eight months, there have been times when the docks were not to be had. To build a new dock at Cavite or Manila would be a matter of three years, and in that time the dockage fees alone would amount to nearly enough to pay for a new structure.

It is in the Indian ocean that the greatest difficulty will be encountered, for there the voyagers are sure to meet with the ever present storms, and those who understand the conditions prevailing in that sea say that nothing but great good luck will carry the giant hulk through it. The passing of the Suez canal will also offer considerable difficulty, and the canal will be practically closed to traffic while the dock is passing through, for the simple reason that the dock is nearly as wide as the canal.

Should for any reason the Suez route have to be abandoned, the course would lead around the Cape of Good Hope, where the turbulent seas will add doubly to the peril of the voyage. Strong as the dock is, it is like a chip of wood when the sea is mad, and there have been times when nothing but a solid block could have withstood the churnings of the waves.

Provided with a good, broad bottom and of immense displacement, there are nevertheless waves big enough to topple it over, and even should this not happen the continual pounding of the seas might start an opening in one of the many joints. If the hole was of any considerable size, the tremendous capacity of the dock's pumps would not suffice to keep it afloat, and once it started toward the bottom Uncle Sam would have to continue docking at Hongkong.

When this mass of steel starts for the Philippines, the convoy that accompanies it will be a floating machine shop, ready at a moment's notice to repair damages both to the tow and the towers. Extra cables without number will be carried, and should one of the boats break down en route the repairs will be made without stopping. Before leaving Havana the dock will be thoroughly overhauled, and it is estimated that $150,000 will be required for the work.

A New Use For Petroleum.

New uses are constantly being found for petroleum. The park commissioners in San Francisco have been using it to sprinkle their park roads. It lays the dust effectually and permanently and when put on hot combines with other road material to form a cement, says E. S. Martin in Harper's Weekly. The same use is made of it in some parts of the south, where, as in California, new discoveries of oil wells have made petroleum abundant and extremely cheap in price.

A Truthful Man.

Guest—You advertised (whack) that there were no (slap) mosquitoes here. Do you consider, sir (whack), that statement true?

Proprietor—Yes, sir. I wrote that circular last January.—Life.

Summer Compliments.

Elephant—What an elegant throat you have for a cool drink!

Giraffe—Yes, it is grand; but, say, I wish I had a skin with a nice, breezy fit, like yours.—Chicago Record-Herald.

GALVANIZED STEEL WIND MILL.

It is not like any other wind mill made. It is better. No other wind mill has the wonderful double gear—meaning double strength and double wear. No other mill has the long adjustable boxes which may be replaced without removing any part of the mill and which effectually do away with all torsion and overhanging strain. No other mill ever sprung so quickly into public favor or is so highly endorsed by every man who uses them. No other mill has ever been made which shows the same strength, durability and high efficiency. It stands the most severe storms without a crimp, twist or buckle. It stays sold and because of its superiority sells others in the same locality. Made in sizes from 6 to 20 ft. in diameter. Clearly unequaled for the farm, suburban residence, village water supply, irrigation, etc. Write at once for catalogue and special terms to

STRONG NAVY NEEDED.

Naval Officer Claims National Sovereignty Depends on It.

QUESTION OF STRENGTH IN SHIPS.

We Must Give Up Monroe Doctrine or Increase the Navy, Says Commander J. B. Murdock—Protection of the Interoceanic Canal a Question Solely of Naval Power.

"Our navy will probably be strong enough in 1905 to enable the foreign policy of our government to be carried into effect, but not in 1908 unless further increased. It seems as though the country were confronted with two alternatives. One is to give up the Monroe doctrine and all plans for controlling an interoceanic canal, the other to increase our armored fleet at a minimum rate of four vessels annually, with proportional increase of personnel."

Commander J. B. Murdock of the navy thus closes an article on America's need of fighting ships, which is published in the current number of the Proceedings of the Naval Institute. The article is of importance because Commander Murdock makes it plain that the nation which he personally believes the United States will next fight is Germany, says the Washington correspondent of the New York Herald.

The theater of future warfare between the great powers, he says, will be the entire world. Military campaigns will be carried on, but except on the continent of Europe, where large populations are in close contact, it will be impossible to assemble and operate the large armies characterizing the warfare of the last century. Commander Murdock asserts that the United States should drop the old idea that the sea separates us from other powers. He declares it brings us into contact with them. This international highway, while nominally free to all, is in reality reserved to the strongest, and the question of strength is purely naval.

"The events of the last decade," Commander Murdock goes on, "have made the United States a world power in spite of itself. Our navy, which formerly had only to protect our coasts from naval attack, is now charged with the vastly more difficult task of keeping open the communication between isolated areas of American territory. As the battle of Manila decided the destiny of the Philippines and that of Santiago made the loss of Cuba and Porto Rico a certainty to Spain, so a like reverse to our navy in a future war might cause a transfer of any of our outlying possessions to some other power. In such cases military strength is but weakness and the navy becomes the real support of national sovereignty."

Commander Murdock emphasizes the important place the Monroe doctrine holds in America's foreign policy. He quotes the London Spectator's declaration that the German emperor wants a fleet in order that when he puts his South American policy into operation he will not be made ridiculous by an order from Washington, and that he believes that when he occupies the Rio Grande do Sul the Americans will waive the Monroe doctrine if his fleet is equal to or stronger than theirs. Touching the interoceanic canal, Commander Murdock says there is unquestionably a widespread conviction that the United States has a greater interest in the canal than any other nation and should therefore "control" it.

Commander Murdock believes the United States has fought its last fight with Great Britain. The United States is, however, liable to have trouble from one reason or another with almost any of the powers and must consider war as a possible result. It is therefore important that we should have not numerical but fighting strength. He opposes the installation of six inch in place of the eight inch guns on the new battleships, and he calls the armored cruisers of the Maryland class and the protected cruisers of the St. Louis class defective in fighting strength. However useful battle cruisers may be, they cannot rank in actual warfare higher than battleships of the second class, and there must be enough battleships built to meet our requirements for a powerful navy.

The German scheme of construction is an admirable one. Unless Germany is to gain supremacy on the ocean, other nations, the United States included, must build steadily. An average yearly increase of two battleships and one battle cruiser to the navy will preserve America's relative standing, while two battleships and two battle cruisers or three battleships and one battle cruiser laid down each year will keep her ahead in fighting strength.

"If we do not build," Commander Murdock says, "we must, of course, accept any consequences that our naval inferiority may bring upon us."

Chinese and Cigarettes.

The Chinese have conceived a passion for civilization in the shape of cigarettes. These are now imported largely, special favor being shown to American cigarettes because the packets usually contain portraits of fascinating ladies. These are exhibited for sale at shops where the merchandise consists chiefly of articles of religious worship.

Emperor of England's Earth.

Il Corriere di Napoli, the most important paper of south Italy, commenting upon Mr. Chamberlain's proposal of a new title for the king, has put forward what it thinks to be the most comprehensive and shortest title possible. Its suggestion is "Orbis Britannici Imperator."

TEXAS NEWS.

Fell Off His Engine.

Hillsboro, Tex., Aug. 13.—When the excursion train returning from Waco reached the south yards depot, the fireman, named French, was missing. He was found lying by the track in the yards about 100 yards below the depot, badly stunned. He was unable to get up and was taken to the depot and sent on to Denison. His explanation was that in making a step backward for coal he made a misstep and fell off. His injuries are not considered serious.

Four Policemen Arrested.

Houston, Aug. 13.—Something of a surpris was occasioned here by affidaviss being made out against Police officers Henry Lee, J. C. James, William Higgins and Oscar Roubine, charging them with the killing of the late J. T. Vaughan. Officer Weiss of the police force was shot and killed just before J. T. Vaughan was. The affidavits were sworn to by Dr. Vaughan, a brother of deceased.

Mexicans Turned Back.

Laredo, Tex., Aug. 13.—A large crowd of Mexican laborers en route to the cotton fields of Texas were turned back to Mexico here by Immigration Inspector Broshanan. This action will probably stop thousands of laborers from Mexico who are seeking the rice, cotton and cane fields of Texas for employment.

Wreck on the Santa Fe.

Temple, Tex., Aug. 13.—The Santa Fe train on the San Angelo branch arrived here six hours late, owing to a wreck one and one-half miles west of Miles station, in which the tank and baggage car were derailed and the baggage car considerably damaged. No one was hurt.

Cotton Cloth from Itasca.

Itasca, Tex., Aug. 13.—The Itasca cotton mill made its first shipment of cloth Monday. The consignment consisted of 25 bales, each bale containing about 1500 yards of cloth, and was sold and shipped to a bleacher in New Jersey.

Bank of Childress Fails.

Childress, Tex., Aug. 13.—The Bank of Childress, owned by U. S. Weddington, failed here Monday. Assets and liabilities unknown, but it is thought it will pay 100 cents on the dollar.

Toes Cut Off by Bicycle.

Laredo, Tex., Aug. 13.—A Mexican boy while riding a bicycle barefooted, had two of his toes of the right foot cut off by being caught between the sprocket wheel and chain.

Poison in the Milk.

San Antonio, Aug. 13.—Three children of E McCrea were poisoned by drinking milk and narrowly escaped death. It has not been determined what kind of poison was in the milk.

Sent the Market Up.

New York, Aug. 13.—Bullish government crop reports on wheat and corn aroused the speculative bull interest in grain again Monday and sent prices up to the highest figures this season—64 cents for September corn and 78 cents for wheat—representing 2 cents advance over Saturday's regular close. In each market the trading excitement reached its height during the first 10 minutes, when brokers were fairly overwhelmed with buying orders from country points.

Each Kills the Other.

Greenville, N. C., Aug. 13.—A double murder is reported near Gardners Cross Roads in this county. William Gardner and Mack Dixon, both white, quarreled over some small matter. Gardner drew a pistol and shot three balls in Dixon's abdomen. Then Dixon knocked Gardner down, took the pistol from him and shot the two remaining balls into Gardner's body. Both men died.

New Chwang Russian Territory.

London, Aug. 15.—A special dispatch from Shanghai says the Russians at New Chwang have proclaimed the czar's suzerainty over that district, have abrogated the Chinese laws and prohibited natives from referring their disputes to the arbitration of American or British merchants and missionaries. All disputes must be referred to Russians for settlement.

Stage Held Up.

Glens Falls, N. Y., Aug. 15.—News has been received here that the Blue Mountain stage was held up by a masked robber at North river. The robber shot one of the horses and robbed a passenger of $20. Mail and express was plundered.

May Be Asked to Explain.

Washington, Aug. 15.—Arthur Vansitart, British consul at New Orleans, may be called upon for an explanation of an alleged interview in which everything is American is denounced.

Two Hundred Miles an Hour.

New York, Aug. 15.—The promoter of the American Elevated Railroad company will announce his plans in a few days. The company will run trains capable of a speed of 200 miles an hour.

Commandant Pretorius Dead.

Jagersfontein, Aug. 14.—Commandant Pretorius, who was recently shot through the eyes, is dead.

Popular Pewter.

The popularity of pewter is extraordinary, says The Lady's Pictorial. Every bride is clamoring for it when asked what she would like for a present, and secondhand shops are being ransacked for specimens. At a wedding the other day no less than 50 pewter offerings were made, some of which had been unearthed in Germany and were absolutely beautiful.

Edward VII and His Servants.

King Edward of England has ordered that the lower servants shall have in future not only joint for dinner, but also on alternate days a first course of fish or soup.

John Tarleton College.

STEPHENVILLE, TEXAS.

Third Session Begins September 21, 1901, with Enlarged Buildings and Increased Facilities.

TUITION.

First Term (Four Months).....$12.00.
Second Term (Five Months).....$15.00.

Fifty Scholarships (free tuition and books) given to the most meritorious students of the Public Schools of Erath County. Also Edgar L. Marston Scholarships for the benefit of Thurber students.

SCHLEY COURT MEMBER.

Career of Rear Admiral Henry L. Howison.

Rear Admiral Henry L. Howison, who has been selected to fill the vacancy in the Schley court of inquiry, like Admiral Dewey, his colleague, served under Admiral Farragut in the civil war and was present at the battle of Mobile Bay, says the New York Evening Sun. He was then a lieutenant. Admiral Howison is a native of the District of Columbia and was appointed to the navy from Indiana on Sept. 26, 1854. On leaving the Naval academy in 1858 he was assigned to the Mediterranean squadron. He afterward saw service with the gulf squadron and in Chesapeake bay. At the outbreak of the civil war he had attained the rank of master. He was present at the surrender of Fort Sumter by General Anderson in April, 1861. In the same month Howison was promoted to lieutenant and sent on special

ADMIRAL HENRY L. HOWISON.

duty at Cloud's Mills, Va., with howitzer and crew, skirmishing with Stuart's cavalry. Subsequently and until September, 1861, Lieutenant Howison was on cruising duty aboard the sloop Pocahontas in the Potomac river.

He took part in the capture of Port Royal, in which battle Rear Admiral A. E. K. Benham, another member of the Schley court, then a lieutenant, was also engaged. Howison was in the engagement with the Confederate rams off Charleston in 1862, and in 1863 he took part in the bombardment of Forts Moultrie, Sumter and Wagner. In August, 1864, he became commander of the Bienville, and it was as captain of this vessel that he took part in the capture of the forts at Mobile. After the war he was on ordnance duty in the Washington navy yard.

From 1875 to 1878 he was head of the department of seamanship at the Naval academy; from 1878 to 1881 he was inspector of ordnance at the Washington navy yard, and in 1881 he became a member of the first advisory board of the navy. From 1888 to 1890, having meanwhile been promoted to captain, he was president of the steel inspection board of the navy department, with duties at Washington, and on the expiration of this assignment he was attached to the lighthouse board. In 1893 he was made captain commandant of the Mare Island navy yard. He was commissioned a rear admiral on Nov. 22, 1898, and was retired on Oct. 10, 1899. His home is in Yonkers, N. Y.

CUFFS AS POSTAL CARDS.

A Novel Plan of Sending Laundry Bills Through the Mail.

Well starched cuffs as correspondence cards is one of the latest fads, says the New York Times. A 2 cent stamp is placed on one side of the cuff, and this side is properly addressed. The message is written on the reverse side. As the required postage is on this rather novel card of course the postal authorities see that it is properly delivered.

Some of the cuff messages, however, are not sent as novelties. They are sent in grim seriousness. One of the most recent of this character was the message sent by a laundress to a customer. It contained the dates and amounts of the various bills for washing his linen which he had neglected to pay.

All sorts and conditions of cuffs are used. The brilliantly colored cuff of a fancy shirt may come in the same bag with a white cuff. The neatly laundered cuff and the one that has been doing duty at both ends are side by side. The new cuff bought for the occasion and the cuff whose frayed edges have been trimmed by shears can also be found in the mail.

New Wireless Telegraph Trials.

Improved wireless telegraphy is to be tried between Boston and Danvers, where an electrical and telegraph school has bought a farm of sufficient area for running electric cars in connection with a course of instruction for motormen, says the New York Tribune. A station in South Boston where experiments with wireless telegraphy have been made in the past is no longer used for that purpose, and the instruments will be transferred to Danvers. A relay system for intercepting a wireless telegraph message and sending it forward with more force has been invented by Edgar S. Gray, the principal of the school, and it was tried in Vermont a short while ago. Wells River and Groton were the terminal points between which messages were sent, and the relay station was established at Ryegate, which is about seven miles from Wells River. This relay consists of two kites. One receives the message and the other charges it with more force and sends it on.

DUBLIN, TEXAS, FRIDAY, AUG. 16, 1901.

The eighth annual meeting of the County Clerks Association of Texas has been called to meet at San Antonio August 21st and 22d.

There are at the present time one hundred and fifty-seven boys [illegible] state reformatory, of which [illegible] even are white and eighty-[illegible]ck.

[illegible]town of Wills Point is to [illegible] water works system at a c[illegible] of $35,000, the contract for which has already been let to Houston parties.

The St. Louis and San Francisco railroad company filed a mortgage in Van Buren, Ark., recently that required $43,000 in revenue stamps. The mortgage is for $85,000,000 and is payable in fifty years.

Instead of depositing all the state funds in the treasury, the state treasurer of Texas deposited nearly $400,000 in the First National there. The bank has been closed and the state is out the money.

David Nation, husband of Mrs. Carrie Nation, the Kansas "joint smasher," has entered suit for divorce, alleging that his wife held him up to public ridicule, neglected her family duties and abandoned his home.

Over $32,000 of buried treasure was unearthed in a swamp near Birmingham, Alabama, one day last week, by parties who for some time had been hunting for it. They claim that there is $50,000 more at some other point in the same swamp, all of which was buried by the noted Copeland gang of outlaws.

The legislature is having a deal of trouble in regard to re-districting the state into new congressional districts. Every county in Texas is opposed to being attached to a district which includes any of the larger cities, which, as a matter of course, will dominate the district in which they are placed. Erath can very well get along without Fort Worth, yet it is not likely we will do it.

Officials of Hood county made it mighty warm for the skin game men during the re-union at Granbury. The officials of Erath county gave them free rope at Dublin last week and what they did to the "sucker" was a plenty.—Comanche visitor.

The above item from the Visitor leaves the erroneous impression that the gamblers who attempted to take in the Erath and Comanche Ex-Confederate re-union at Dublin last week were left to their own sweet will. This is an error, for every one of them were arrested and the fines and costs in the cases foot up something like $500, besides they were immediately stopped.

SENSIBLE TO QUIT.

Coffee Agrees with Some People, but not with All.

"Coffee has caused my son-in-law to have nausea and pain in the stomach and bowels.

"In my own case I am unable to drink coffee without having distress afterwards, and my son eleven years old, has had dyspepsia, caused by drinking coffee.

"We all abandoned the use of coffee some months ago and have been using the Postum Food Coffee since.

"Each and every one of us have been entirely cured of our troubles and we are naturally great friends of Postum. I have tried several different ways of making it, but there's no way so good as to follow directions properly; then we have a delicious drink." Mrs. A. E. Moublo, 331 Lynn St., Malden, Mass.

The populists of Williamson county held a mammoth encampment at Georgetown August 2d and 3d, which is quoted in the press as a great success in point of attendance and enthusiasm. A large number of speakers were present, among them National Chairman Jo A. Parker of Louisville, Ky. During the encampment a meeting of the state executive committee was held, and Milton Park of Dallas was elected state chairman to serve until the next state meeting. Delegates were also elected to the Kansas City conference, which is called to meet September 17th, 18th and 19th, and provision was made that every Texas populist who should be present at that meeting would be seated as a delegate. A meeting of the Reform Press Association was also called to occur at the same time. A plan of organization was perfected by which the state chairman was authorized to appoint a state organizer and call upon every district chairman to assist in re-organizing each county in his district, and where such district chairman failed to do this, the state organizer will go and re-organize and said organizer will keep fifty per cent of all collections for expenses.

Dying, Horace Greeley exclaimed: "Fame is a vapor, popularity is an incident, riches take wings, those who cheer to-day will curse to-morrow, only one thing endures—character." These mighty words bid all remember that life's one task is the making of manhood. Our world is a college, events are teachers, happiness is the graduating point, character the diploma of God to every true man. The forces that increase happiness are many, including money, friends, position; but one thing alone is indispensible to success—personal worth and manhood. He who stands forth with real weight of goodness can neither be feeble in life, nor forgotten in death. Society admires its scholar, but reveres and loves its hero where intellect is clothed with goodness. For character is not of the intellect but of the disposition. Its qualities strike through and color the mind and heart, even as summer strikes the matured fruit through with juicy ripeness.

Slidell Courier: The populists of the state are holding a grand "wake" at Georgetown this week. This is likely the last convulsive shudder preceding complete dissolution.

Replying to the above the Dallas News says: The populists have been with us for a long time, under one name or another. It is highly probable that they will be with us till the "wake" is held on the republic. The ideas they represent do not die. They were here in the beginning, and they will be here in the end. As long as the ideas endure so long there will be some party, name immaterial, advocating these ideas. While the News does not agree with the populists in matters of doctrine, it is but fair to admit that they have done more to make the people think for themselves and declare their freedom and independence openly than both the older parties have done. They have taught many a voter to break away from his joss.

Drowned in San Saba River.

Word over the frontier telephone was received at Lometa last Sunday that a Mr. Lindsey, from DeLeon, Texas, was drowned in San Saba river, near the mouth of Brady creek. Mr. Lindsey was out with a party fishing and hunting. They all went in bathing in the San Saba river. Mr. Lindsey could not swim, but with a chunk of wood ventured out into deep water, lost his hold and was drowned.

All sorts of reports were extant last week to the effect that several people had been killed and a number of others hurt at the re-union in Dublin. We are glad to note that this is a mistake; that no one was killed, and no one seriously hurt, and, in fact, the large number of people who were here were unusually quiet and good humored and there was practically no trouble during the entire re-union.

In Memoriam.

To Dublin Lodge No. 313 I. O. O. F.

We, your committee appointed to adopt resolutions upon the death of our beloved brother, Joseph Campbell McCommons, which occurred Saturday night, August 3d, 1901, beg leave to report as follows:

In the death of Brother McCommons the lodge has lost a faithful and consistent member, a noble and generous heart who was always anxious to relieve suffering and assist the destitute, a citizen whose good works and virtuous example can not well be spared, and his wife and family a tender and loving husband and father.

We bow in humble submission to the decree of our allwise and allseeing Father in this sad taking away of our brother, and beseech the tender blessings of He who tempers the wind to the shorn lamb to deal kindly with the widow and orphans and assist them to bear with fortitude this heavy loss from their household.

That a copy of these resolutions be inscribed upon a page of the minutes of the lodge, that one be furnished to the family of the deceased, and that same be published in the Dublin papers and in the Texas Odd Fellow.

Respectfully submitted.

Committee { M. D. GALLAGHER, J. S. SIMMONS, J. S. DALEY.

Astounded the Editor.

Editor S. A. Brown of Bennetsville, South Carolina, was once immensely surprised. "Through long suffering from dyspepsia," he writes, "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach, but she tried Electric Bitters which helped her at once, and, after using four bottles, she is entirely well, can eat anything. It's a grand tonic, and its gentle laxative qualities are splendid for torpid liver." For indigestion, loss of appetite, stomach and liver troubles it's a positive, guaranteed cure. Only 50 cents at Overton Drug Co.

A local co-operative association of citizens of Chappell Hill, Texas, and the farmers thereabout, have established a creamery and cheese factory there, which began work last Monday. This is one of the most profitable industries, considing the amount of money necessary to operate it, and the farmers and stock raisers for miles about are greatly benefited by its location. Judge Lee Young of Stephenville, not long since made an effort to get the people of Dublin and surrounding country interested in establishing such an enterprise and proposed to take considerable stock himself, but his efforts, though well directed were, unfortunately, not successful.

Railroad Excursions.

For Pan-American Exposition at Buffalo the Rio Grande railroad will sell round trip tickets at $51.95 for thirty day limit or $43 for fifteen day limit.

Want to be put of at Buffalo? For rates and particulars about the Pan-American Exposition call on any "Katy" agent or address W. G. Crush, general passenger agent, Dallas, Texas. 49tf.

For Pan-American Exposition at Buffalo, Texas Central railroad offers round trip at one fare plus $1 on June 1st to October 31st. limited to return in eighteen days, For thirty-three days limit one and one-third fare. 4-tf

Revival Services

Will begin at the Methodist church Sunday morning, August 18th, led by the pastor. All who are interested in the cause of Christ are cordially invited to assist in this great work. The other pastors have consented to co-operate, and we desire the active assistance of all Christian people. It is especially desired that every member of the Methodist church shall be present Sunday morning for the first service. Subject of sermon: "Gidron's Three Hundred," Let all the people come up to the help of the Lord.—H. A. Boaz, Pastor.

What a Tale It Tells.

If that mirror of yours shows a wretched, sallow complexion, a jaundiced look, moth patches and blotches on the skin, it's liver trouble; but Dr. King's New Life Pills regulate the liver, purify the blood, give clear skin, rosy cheeks, rich complexion. Only 25 cts. at Overton Drug Co.

Tragedy at Granbury.

A. Kraukaur, a traveling man of Greenville, who is in the employ of a Weatherford hardware house, was shot at Granbury last Wednesday by Dr. J. R Lancaster. At first it was thought the wound, which was in the shoulder, would be fatal, but later reports indicate that he may recover. Kraukaur has a wife and two children at Greenville and for the last few weeks has been paying attention to a close female relative of Dr. Lancaster, which fact is said to be responsible for the shooting. Dr. Lancaster was placed under a $500 bond.

Ballard's Snow Liniment gives instant relief in cases of bleeding, burns, bruises, scalds, cuts, etc. Price 25 and 50 cts.—Clay Drug Co. *

For Sale.—A good store or business house constructed of lumber, must be moved from present location. For information apply to Progress.

Messrs. John Lee and Sam Ewalt will open a new meat market in the building next door to Prim Bros. bottling works. They expect to open next Monday.

A free and easy expectoration is produced by a few doses of Ballards Horehound Syrup, in all cases of hoarseness, sore throat, or difficulty in breathing. Price 25 and 50 cts.—Clay Drug Co. *

Chief of Police Deaton, who is also ex-officio road overseer within the city limits, is warning out the hands this week to work the streets in first ward, beginning next Monday morning.

Notice.

The report circulated that I do no country practice is false. I practice for all who pay for my services, both in town and country.

R. A. MILLER, M. D.

A fine line of samples for 1902 calendars is on hand at the Progress office. The prices are very cheap and the line an elegant one. Call and see the samples and get first choice.

For job printing of any and all description see the Progress and you make no mistake. The price will be right and the work right. Mail orders for any and all sorts of printing are solicited.

The vendor of seeds began doing a thriving business early Tuesday morning, the fine rain throughout the night before having furnished the ground with a good season for fall crops. Turnips and millet were especial favorites.

La Creole Hair Restorer.

La Creole restores those gray hairs to their youthful color and vigor. Cures dandruff without gumming. Stops the hair from falling out and produces ease and comfort. $1.00 a bottle. Manufactured by the Van Vleet-Mansfield Drug Co. For sale by F. E. Shugart & Co.

For Sale.—I have control of the N. H. Black farm on Flat Creek, containing 461 acres, 225 acres in cultivation, price $11 per acre. One third cash, balance in one, two and three years. Rent goes with land.—Ira Millican, Lubbock, Texas. 8-tf

Don't neglect the warnings of nature. If your appetite is poor, breath bad, tongue coated, you will be sick unless you take steps to put your system in good condition. Prickly Ash Bitters is the remedy you need. It cleanses the entire system.

Where the digestion is good and the general powers of the system in a healthy state, worms can find no habitation in the human body. White's Cream Vermifuge not only destroys every worm, but corrects all derangements of the digestive organs. Price 25 cts.—Clay Drug Co. *

One of Stephenville's leading young men wrote to a young lady at Dublin this week implying very strongly that he desired a great share of her time during the reunion. Her reply was an invitation to her wedding.—Stephenville Empire.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness, caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

J. F. CHENEY & CO., Toledo, Ohio
Sold by druggists, 75c
Hall's Family Pills are the best.

A stray canine, afflicted with a bad case of mange, created quite a furor in north Dublin Tuesday. A number of people who noticed the dog's peculiar antics at once pronounced the animal mad and reported it to the chief of police, who promptly added it to the list of has beens.

Teething

Then the baby is most likely nervous, and fretful, and doesn't gain in weight.

Scott's Emulsion

is the best food and medicine for teething babies. They gain from the start.

The price of cotton on the Dublin market yesterday ranged from 7c to 7¼c a pound.

The Texas State Grange will meet at Dublin next Tuesday, Wednesday and Thursday, August 20th, 21st and 22nd.

Wanted.—A first-class housekeeper. Apply at Thompson's Photograph Gallery. 9-tf

Guaranteed price on wind mills, pipes, pumps, etc.—Stegall & Thompson.

The Dallas News of last week did not contain a line so far as anyone has been able to find, relative to the re-union in Dublin last week, notwithstanding it was one of the largest gatherings ever assembled in Texas.

An obstreperous team ran away with Leonard Hickey of Stephenville last Sunday night, near that place, as he was returning from Dublin. He was thrown from the buggy and one arm broken, besides being otherwise bruised.

It is said that an effort is being made to get a new postmaster appointed at Granbury. The present incumbent is a loyal republican and the time for which he was appointed is not out. Our informant gave no reason for the attempt at a change.

A twelve year old Mexican boy had two toes of his right foot cut off at Laredo last week while riding a bicycle barefooted. His toes were caught between the sprocket wheel and chain. The report says this is the third accident of the the kind which has happened in that city this year.

Sheriff R. T. Hume of Erath county last Monday notified the sheriff of Dallas county that he obtained possession of a horse which was stolen there, and had made one arrest in connection with the theft. A deputy has probably arrived from Dallas by this time to take charge of the prisoner and the animal.

No one knows the unbearable torture, the peculiar and agonizing pain, caused by piles, unless they have suffered from them. Many believe them incurable. This is a mistake. Proper treatment will cure them. Tabler's Buckeye Pile ointment is an infalliable cure. Price 50 cts. in bottles, tubes 75 cts.—Clay Drug Co. *

First Bales of 1901 Cotton.

The first bale of new cotton for Hico arrived there last week and was sold for eight cents a pound, besides a premium of about $25.

The first bale of new cotton to be sold in Stephenville was brought in there last week by John Heakey, who sold it at 7¼ cents a pound.

Granbury paid eight cents for her first bale of cotton last week and gave a premium of twenty dollars.

The best test to put a pair of pants to is to put them on over busy legs, all kinds of legs, and if they stand the test of public approval they must be good. The Buckskin Breeches don't sell upon what we think they would do under favorable conditions, but upon what they have done under hard wear. The seams are right, wear right, buttons right, and we guarantee them to be the best working pants that money will buy.

Wm. Hardin of Hico, Texas, an old veteran of the confederacy and an early settler in the pioneer days of Texas was here last week attending the re-union and having a good time generally with his old comrades in arms. His history if extended into length would make a good subject for an interesting romance. He was born in Hackney, London, at an early age was apprenticed to a butcher and kept at that business until seventeen years of age. Later he sailed for America and landed in Galveston soon after the first locomotive arrived in Texas. Soon after his arrival Lincoln was elected president, and all are acquainted, through dear experience or history, with the stirring times that took place shortly after the inauguration of Lincoln. He joined his fortunes with the south early in the struggle, enlisting with the Davis Guards and serving faithfully to the end of the conflict. After the war he went west among the hostile Indians on the frontier, and during this period was the most memorable of his life. At one time he and two companions were attacked by fifteen Cheyenne Indians and he was seriously wounded in the breast with an arrow, an ugly scar of which he will carry to his grave. His two companions were killed, and though badly wounded and weak from loss of blood, he killed the Indian chief and stood the redskins off with his rifle for several hours and was finally rescued by the noted scout, Wild Bill, and his party. He still has the arrow that pierced his breast and this souvenir of a life and death struggle could not be purchased at any price. In 1872 he returned to Texas and was married at Lampasas, and has since resided in the state. He is a great lover of the re-unions of the old soldiers and proposes, if he lives, to help see at the next re union in Dublin that the old soldiers have a meeting separate and apart from the entertainments, so that those who wish to talk over old times can get together and do so and turn their attention to the entertainments when they like. The Confederate Veteran, a newspaper published at Nashville, recently had a lengthy write-up of Mr. Hardin.

Dublin has been swelled to nearly twice her normal size this week by the immense crowds of visitors attending the re-union in session there 7th, 8th and 9th. Dublin is one of the most enterprising and hospitable towns in Texas when it comes to entertaining strangers within her gates A splendid program, replete with interesting and amusing entertainments for each day and evening was prepared and is being carried out without a ripple. One of the most pleasant features of the occasion was the trades display yesterday and today. Each business house got up his representation without letting the others know anything about what he was to have, each vieing with the other to have the most unique display. The result was a most creditable and attractive panorama of Dublin's business houses was presented to the crowds of delighted onlookers. There were speeches galore by eminent men and from the ranks. Open air concerts each day and night, side shows on every corner, and every other attraction to catch the dimes. —Pecan Valley News.

The so-called Ex-Confederate re-union at Dublin has passed into history and it is said by those who attended that it was the largest attended meeting ever held by the association, and that it was the most corrupt and badly managed of them all. In fact it was more of a re-union of gamblers, skin-game men and prostitutes than anything else. The dust was almost unbearable and no attempt was made to sprinkle the grounds or streets, but the people were forced to drink in the dust to their full capacity. There was nothing about the thing but the hack fare from the grounds to town and this was very dearly paid for with the aforesaid dirt. We have talked with a great number of old soldiers and they all favor pulling away from Dublin and holding their own re-union, as they are tired of being used as a cat's paw to pull the chestnuts from the fire. To say that the re-union was tough is putting it mildly.—Comanche Visitor.

Representative Palmer of Erath county last Monday introduced a resolution asking all district clerks throughout the state to furnish the chief clerk of the house with a statement showing the number of cases placed on the docket in his district court in the last three years, the number disposed of and how, and the number now on the docket, together with a statement from the district judge of the number of weeks of court held in his district. The resolution was laid on the table subject to call.

Personal Mention.

Mrs. Peyton Parker is visiting in Fort Worth.

Arthur Howard of Dallas spent Sunday in the city.

Dave McAllister of Thurber was in Dublin Monday.

S. H. Prim made a business trip to Stephenville yesterday.

The genial Bill Murphy was over from Stephenville Monday.

Miss Ida Gentry of Hamilton has been visiting Miss Helen Day.

Dr. Mayes Miller and W. T. Hunt spent last Tuesday at Hico.

Dave Collier left last Sunday for a ten days' visit to relatives in Haskell.

The Progress editor and lady, and Jim Jr., spent last Monday in Stephenville.

E. J. Tidwell and lady visited the re-union of ex-confederates at Morgan Wednesday.

Lawyer J. C. George of Stephenville passed through Monday en route to San Angelo.

Ex-Sheriff Thornton of Comanche county, came over yesterday morning on business.

Walter Ray of Cleburne left Wednesday, after spending a week with his parents here.

Mrs. John Lewis is visiting this week with the family of Mr. Lewis' parents on Green's creek.

Miss White of Bonham, who has been visiting the family of "Nick" Smith, left for home Tuesday.

G. W. Andruss returned Wednesday from a trip to Stamford, where he has a drug business.

J. H. Latham left yesterday for the St. Louis markets, to buy a fall stock for the Latham Co.

District Clerk Joe K. Terrett of Stephenville, was here yesterday en route home from a trip to Gorman.

Miss Luella Mason left last evening for the St. Louis millinery markets. She goes in the interest of Maloney & Co.

Misses Edna and Alma Connell of Fort Worth, who had been visiting friends here for ten days, left for home Saturday.

Prof. G. G. Foust returned a few days ago from a visit on pleasure and business at his old home in the hills of North Carolina.

Capt. G. W. Jenks of Stephenville was a pleasant caller at the Progress office last week, while here attending the re-union.

T. S. Maben and family returned last week from a two months' visit with relatives and friends at points in Alabama.

Miss Birdie Cunningham of Comanche, who has been visiting with friends here and at Stamford, returned home the first of this week.

Mayor R. B. Spencer left Monday for a trip to Oklahoma, prospecting with a view to putting in a new lumber yard at some point there.

Mr. and Mrs. Massie, and Miss Ellen Spate of Waco, who have been visiting the family of Capt. W. R. Shaw, left for home yesterday.

Miss Willie Davies returned Wednesday from Itasca, Hill county, where she has been teaching school for some time and visiting relatives.

Misses Lizzie and Vera Russell, who have been visiting with their sister, Mrs. S. H. Prim, left last Saturday for their home at Sulphur Springs.

Henry Estes leaves to-day for Dublin, where he has accepted a position in the wholesale grocery house of Waples-Platter Co.—Granbury Democrat.

Mrs. G. H. Morrison is visiting her parents in Haskell, where she went to attend the wedding of her brother, Tom Pinkerton, which recently occurred at that place,

The Granbury Graphic-Truth notes Ralph Bowden, Herbert Wells of that place, and Mrs. Matthews and her daughter, Miss Laura, of Glen Rose, visiting the re-union here last week.

Miss Millie Phillips passed through Dublin Monday en route for Stephenville, where she will spend a week with Miss Effie Frank. Miss Millie will teach the coming school term in Sonora.

Miss Willie Grey, milliner for T. J. Jordon, left Tuesday night for St. Louis to study the fashions in millinery for the coming season. She expects to visit Chicago for the same purpose before returning to Dublin.

Mrs. C. F. Butte of Sherman, and her infant son, Felix, came in Tuesday to visit with her mother, Mrs. S. C. Lattimore. They were accompanied by Mrs. Lattimore, who had been visiting her for some weeks.

Lawyer Dan T. Fry of Dublin, who is being solicited to shy his castor into the ring for the democratic nomination for county attorney next year, was over at Stephenville Monday on business and incidentally to see about it.

W. T. Hunt and lady of Waxahachie, have removed to Dublin to remain permanently. Mr. Hunt has for several years made this his headquarters during the cotton season, but we are glad to note that he has now decided to make Dublin his permanent home.

T. O. Moore, Uncle Ab Loftis and Misses Sue and Ellen Moore went over to Dublin Tuesday to attend the re-union. * * * Uncle George Cunningham and J. H. Hallford of Newburg, were here Tuesday. They went over to the re-union at Dublin Wednesday.—Comanche Chief.

R. B. Moore returned Wednesday from a trip to Oklahoma, where he went with the intention of investing in the new town of Lawton. Mr. Moore says the price of lots there is out of all reason and on that account he did not invest. The last two business lots of twenty-five foot front each that he saw sold, brought a cash price of $5,200.

Among the Strawn people who attended the Dublin re-union was Prof. and Mrs. J. E. Brooks and Mr. and Mrs. Dan Hutson. * * * Prof. J. E. Brooks left Tuesday for Thurber to accompany the Parnell Orchestra to Dublin, where they went to furnish music for the social functions given by the Shamrock club during the re-union.—Straw News.

Tom Brown, formerly of this section, but now of near Dublin, was here this week. * * * L. A. and W. W. Walling attended the re-union at Dublin this week. * * * D. C. Wornell, of Union Bluff, passed through Whitney Wednesday morning en route to Dublin to attend the ex-Confederate re-union and to advertise the Hill county re-union on the 14th and 15th.—Whitney Messenger.

J. Wm. Fair our appreciated correspondent at Lowell, writes us from Graybill, Collin county, under date of last Wednesday, and says that he is on a business and pleasure trip there, expecting to be absent several weeks and to send him the Progress at that place until further orders, advising that M. M. Hilliard will write from Lowell to the Progress in his absence. He says crops are good in Collin county and corn will make forty bushels to the acre and cotton an average of a half a bale.

Farm For Sale.—Forty-eight acres, eight miles southeast of Dublin near Purves, well improved. Will sell on easy terms. Apply to G. W. Conner, Purves, Texas. 12-3t

Blotches and excresences, which so often annoy people, are simply efforts of nature to throw off impediments to the proper performance of her duties. Herbine will aid and assist nature in her work, and insure a skin soft and beautiful, entirely free from all imperfections. Price 50 cts.—Clay Drug Co. *

The Baptist membership of Valley Grove community, two and a half miles south of Stephenville, have appointed a committee to raise funds for the building of a new church to cost in the neighborhood of $800. The committee went to work Monday morning and Tuesday had about $600 of the amount subscribed.

Farm For Sale.—150 acres of which 125 acres are in cultivation, balance good timber. Good rock house of six large rooms, good barn and other out buildings, two rent houses, three acres of orchard, good wells and cistern, all located six miles north of Dublin, school house, mill, gin and postoffice within one-fourth mile of house. Price $3,500. This is less than cost of improvements. Terms to suit purchaser. Apply to J. A. Bondurant, Dublin. 12-tf

In every county in central and west Texas the long continued drought has been broken by heavy rains during the past ten days. The downpour of last Monday evening was general, except in a few instances, and in these it was not particularly needed. The rain at Dublin was the heaviest that has occurred in eight months and parties who measured it say it was a six inch average.

This paper would be glad to mention those who attended the re-union at Dublin, but there were too many for us. Reports from the re-union say it was a success in the program and attendance, there being perhaps twice as many in attendance as at any previous re-union. The second day especially was a hummer, and those that went over from Comanche that day say that they regretted having done so. They complained of the dust and heat, of a lack of water and provisions. Dublin was evidently not expecting such enormous crowds or she would have made more and better preparations. Commander T. O. Moore presided at the sessions. Mayor Spencer delivered the address of welcome. The ceremony of crowning Miss Abbe Wiley as queen of the occasion was said to be most beautiful.—Comanche Chief.

Medicated salt for cattle at Maloney's.

See the Samson Windmills.—Stegall & Thompson. 2-tf

High Patent flour at $1.50 a hundred cash at Higginbotham Bros. 7-tf

The annual meeting of the Texas State Grange will shortly occur in Dublin. Arrangement should be made at once to properly receive the visitors and furnish them a proper place for meeting.

A prohibition election has been asked for in Johnson county, to take place not later than the last day of September. An election has already been called to occur in Kaufman county the last day of this month.

Tom Bays, Esq., of this city, with several others from various parts of Texas who are heirs of one Thos. McGallon, are making the preliminary preparations for entering suit at Beaumont for a league of land located in the oil belt there and upon which there is now a flowing well. There are eight of the legal heirs and the parties who are now holding the land are doing so under a deed from but two of the eight, the other six, among whom is Mr. Bays, never having signed the deed and until recently knowing nothing of the existence of the property in their family. Mr. Bays is a grand-son of the original owner, and of course under the circumstances likely has a good claim for an equal part of the entire property.

Herbine is well adapted to the cure of fevers of all kinds, because it thoroughly cleanses the stomach and bowels of all bilious humors, and expels all impure secretions of the body. Price 50 cts.—Clay Drug Co. *

See that stronger than the strongest (Samson) wind mill made. —Stegall & Thompson. 2-tf

We can save you from $50 to $100 on any high grade piano. See us.—J. L. Hall Music Co.

See Dr. Sniders ad. He gives the best dental work—guaranteed.

The Glen Rose Herald of last week gave a statement of the cotton crop in Somervell county, as indicated by personal reports from several farmers on their individual crops. These farmers report their crops indicating a production of from one bale to two acres, to one bale to ten acres, the average being one bale to five acres. The Herald says that Somervell county last year raised 5,600 bales of cotton and deduces from the reports stated that the crop this year will figure less than two thousand bales.

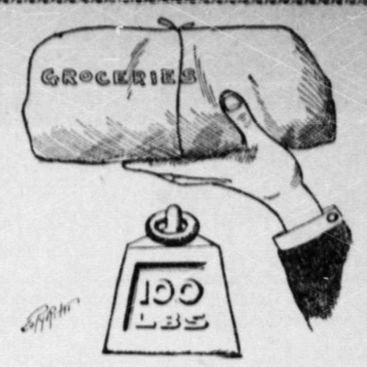

READY COOKED FOOD.

mous Around the Camp Fire.

ople going into camp should rget to take along a goodly ly of Grape-Nuts, the ready-d food. This can be eaten nd does not require any prep-on by the cook, or the food e made into a variety of de-ful dishes, such as puddings, etc.

e of the favorite methods by timers is to drop three or heaping teaspoonsfuls of e-Nuts into a cup of coffee. Grape-Nuts add a peculiar delicious flavor to the coffee gives one a more piquant ar-of food than even the famous nuts and coffee of old New and.

ople who cannot digest coffee id not forget that Postum Food e, if properly made, furnishes y delicious beverage, either or cold, closely approaching flavor of the mild and delicious es of Java.

Groceries

Full

Weight,

not under, is what you get by dealing with us. That kind of business pleases people and pays us. We are not in a hurry to get rich, but are content with quick sales and small profits. The fact that we have been in business for many years, and have customers now who traded with us when we started proves that we do what is right in selling groceries.

THIS SEASON'S CANNED GOODS

are being received by us daily. It will be wise for you to examine them.

Buying from headquarters is the secret of our low prices. We cannot attempt to describe all the Groceries in our stock. Come and see.

After June 15th, and until September 1st, our store will close at 7:30 p. m.

HARRIS GROCER CO.

FRUIT JARS!

You cannot afford to buy them without first giving us a call. We have all sizes and a price on them that will certainly interest you.

We Offer Special Inducements

This month on our line of Crockeryware, Graniteware Queensware and Tinware. Large stock to select from.

Complete Line Fancy Groceries:

Gold Bond Hams,	Heinz Preserves,
Gold Bond Bacon,	Dodson-Brauns Catsup
Swift Breakfast Bacon	Durke's Salad Dressing
Georgia Cane Syrup,	Lea & Perrin's Sauce.
Heinz Pickles,	Big Line of Tobbaccos.

PICNIC GOODS.

French Sardines,	Chipped Beef,
American Sardines,	Corned Beef,
Sliced Ham,	Salmon Steak,
Veal Loaf,	Canded Fruit,
Sliced Bacon,	Uneeda Biscuit,

Dozier Crackers and Cakes.

H. MORRISON.

DOCTRINE OF MONROE

Germany and France Striving to Upset America's Stronghhold.

AFTER TWO ISLANDS

They Are the Cayo Romano and Cayo Cruz Off the Northern Coast of Cuba—They Belong to a Wealthy Spaniard.

New York, Aug. 13.—A dispatch to The Journal from Paris says:

Germany certainly, and probably France, are striving to upset the Monroe doctrine by trying to purchase Cayo Romano and Cayo Cruz, two of the island of the Greater Antilles, just off the northern coast of Cuba.

Both islands are very fruiiful. They are the property of Prudencio Ebanez y Vega, a rich Spaniard, living at Paris.

Neither country seeks to buy the islands directly. Germany seeks to gain control through a German syndicate, the chief of which is Baron Adolf Oppenheim, of Paris.

Gayo Romano, is the third largest Spanish island of the Antilles and both islands, bearing the nearest to the United States coasts, would give foreigners power through their commanding position.

French Jesuites who are compelled to leave France, are bidding for the islands. The French government prefers that the Jesuits get it than the German syndicate, because notwithstanding the practical expulsion of the former Frenchmen, their interests in the islands could be arranged in exchange for other conditions.

Ambassador Porter, though not in Paris, has cabled to the state department concerning the purchase. It is understood France is satisfied with Martinique and that Germany is working tooth and nail to get control of the islands.

The Blind Leading the Blind.

The Chinese government has granted the Italians the privilege of building a railroad upon Mongolian soil, yet there can be no question, says the Baltimore Herald, but that Italy itself needs considerable construction of this sort before starting to improve the orient.

"NERVE WASTE."

Is the title of a little book (now in its fourth edition) by H. C. Sawyer, the eminent San Francisco physician. It is endorsed by both religious and secular press of the country, strong papers like the Portland Pacific Baptist, Boston Congregationalist, San Francisco Occident, Christain Guardian, Peck's Sun, Cleveland Plaindealer, Baltimore Sun, Providence Journal, etc., etc. Public Opinion of Washington, D. C., says: "Nerve Waste as a title is so suggestive of quacks that even if the book had no other merit than its honesty it would nevertheless deserve mention for that," and adds: "There has probably never appeared on this subject as high-toned, unselfishly written book so nearly commensurate with the too apparent needs." The Occident says; "There are so many quacks and charlatans that many need just such sensible and practical information as Dr. Sawyer gives. We heartily commend his book." The Rochester Herald says: "It should be in the hands of every person who has trouble of this kind, for it is calculated to point the way to relief as unerringly as a physician who would charge many dollars could do."

Hundreds of thousands of men, young and old, are being bled by charlatans and quacks who prey upon their misfortunes, and what is worse they even sell each other the names and addresses of the unfortunates who, if they new more of themselves, would not be bled by the vampires that are growing rich off of them. This book will tell them all about themselves and what to do, and save them from the clutches of the worst class of heartless pretenders this country has yet produced. A sample chapter will be sent, in plain, sealed envelope, for two cents in stamps, that fully explains and carries an average case from beginning to end and gives the formulae for the prescriptions, only the standard drugs to be found in every drug store being used. The book is $1 (in stamps) by mail postpaid, and it is the hope that there will be sufficient sale to justify continuous advertising that will reach and put this book in the hands of every person needing it in the United States.

STIRRED UP A ROW.

House Adopts a Resolution Thanking New Yorkers, but Not Some Texans.

Austin, Aug. 13.—In the house Monday W. C. Rochelle was sworn in as representative from Bowie county in place of Judge Dillard, who resigned because he believed the legislature was in control of the corporations and the octopi.

Bill were introduced to redistrict the state into judical districts.

The standing committee of the house was called upon to check up the treasurer and count the cash in the treasury.

Little's resoulution thanking the New Yorkers for their visit to Texas and commending the reception committee, stirred up a row. Some members were opposed to indorsing Judge Clark, Kittrell, Chamberlain and others who had adversely criticised the laws of Texas. The resolutions were amended so that they would indorse and commend all members of the reception committee except those who criticised the state of Texas, its laws and its institutions.

A bill was introduced making Jefferson county a separate judicial district.

The house adjourned in respect to the memory of ex-Representative Lillard, deceased.

The senate was not in session.

SALOON BLOWN UP.

One Man Killed, a Woman Fatally Hurt and Others Injured.

Chicago, Aug. 13.—A dynamite bomb or a bottle of nitroglycerin, presumably the latter, was exploded in the rear of George Little's saloon on South Clark street late Sunday night, killing one person and injuring five others.

Vincenzo Alfino, aged 30, head almost blown off and one arm missing, was the only person killed.

Ruby Fox, cut about the head and body by glass, taken to hospital, may die.

George McConnel, coachman, injured about head and body, will recover.

Peter Diamond, cut about hands and arms.

Thomas Little, bartender, bruised.

Edward Black, bruised.

When the explosion accurred, a score or more of persons were in the saloon, but as far as known none besides those mentioned was injured. The rear part of the saloon was wrecked.

While a mystery surrounds the affair the police are inclined to believe that the man who was killed caused the explosion as he was jealous of McConnel's attentions to Ruby Fox.

Will Sell Its Lands.

New York, Aug. 13.—By the act of congress of 1893, 3,110,400 acres of land in the Indian Territary were conditionally ceded to the Missouri, Kansas and Texas railroad. This land has not yet fallen into the absolute possession of the railroad, but will change hands during the next few weeks. It is understood that the land will be offered for public sale immediately after and will be disposed of by the railroad exactly as was that in Kansas during the last few years.

Reduction of Manila Police.

Manila, Aug. 13.—Civil Governor Taft will reduce the police force of Manila by one half. At present there are 1300 policemen for the city whose population numbers only 250,000 souls. The governor considers it unnecessary to have over 600 policemen as they are not required for military purposes. Besides in the event of trouble the policemen of Manila would be unable to cope with the situation and the military forces would have to be called upon.

Looks Like a Racer.

New York, Aug 13.—The new American cup challenger Shamrock II, which lay at anchor off Sandy Hook lightship, Sunday night, has been towed up the bay to Tompkinsville, Staten Island. She will be taken at once to Erie basin, where she will be stripped and racing mast stepped. Her spars are ready and there will be no delay in getting her into racing trim. She looks like the fastest boat ever turned out in British waters.

Sales of Rice Lands.

Lake Charles, La., Aug. 13.—Three sales of Calcasieu rice lands were concluded here. A tract of 165 acres in the eastern part of the parish was sold to Moses A. Herbert of Findley, Ills., for $41 per acre. Another tract of 165 acre was sold to J. S. Gustin of Decatur, Ills. Another tract of 76 acres was sold to Dorl Braden. All these gentlemen will make Louisiana their home.

Steamer Halifax Beached.

Boston, Aug. 13.—The Plant line steamer Halifax. Captain Pye, from Charlottetown, Port Hawksbury and Halfax, N. S., struck a ledge off Minots light while coming into port in a thick fog. She freed herself, however, and was beached in a sinking condition. Tugs and lighters have gone from here for the passengers and baggage.

Turkey Yields to France.

Constantinople, Aug. 13.—As a result of the firm attitude adopted by the French ambassador, M. Constans, in an interview with the sultan Friday, the situation in relation to French claims is clearing. It is practically settled that the Quay company shall enjoy the rights under concession as demanded France.

Tragedy at a Church.

Austin, Aug. 13.—A bloody tragedy in which two boys 15 years old participated occurred Sunday at Pleasant Grove, four miles from Elgin. The boys are the sons of William Owens and George Carter. The boys met in front of the church while services were in progress and the Owens boy stabbed the Carter boy to death. Much excitement prevailed.

EXCLUDE FOREIGN GOODS.

Russia Will Not Permit Them in Public Works if Possible.

St. Petersburg, Aug. 13.—The determination of the government to prevent the use of foreign made goods in any public works come to light almost daily. The newspapers last week printed circulars from the minister of railways and the minister of education directing attention to orders from the finance ministry against the use of foreign railway materials and educational supplies. When the required articles cannot be had in Russia the higher authorities must be consulted before an order can be given to a foreign manufacturer or an importer.

Another instance is furnished by the decision to complete the naphtha pipe line from Baku to Batoum. It ends now in the mountains. When the first section was built it was desired to use Russian pumps, but it was found that no Russian concern could turn out the article needed. The order was thereupon, by special ukase of the emperor, given to an American house. The price was cut down pretty low on the ground, it is said, that the same company would naturally get the second section and that having models and drawings all ready the expense to it of making the additional pumps would be considerably lessened.

The American company is not accustomed to depend on promises and took the precaution to build pumps of unique design for this pipe line and to patent its plans and protect its models. It is now about to reap the reward of its foresight. The order has gone forth that none but Russian materials to be used. Invitations to bid for pumps were sent to none but Russion houses. However, as the pumps must match those now used, the successful bidder has had to come to the Americans and make terms for the use of their plans and drawings.

DIFFER WITH KOCH.

Dr. Brush Believes Cattle Give Tuberculosis to People.

New York, Aug. 13.—Dr. Edward Brush of Mount Vernon, N. Y., formerly professor of bovine pathology in the American Veterinay college, is especially interested in the theory advanced by Prof. Koch that the bovine tubercular are not of the same variety as the human and that there is no danger of contagion of the milk and meat to man. Dr. Brush said:

"I cannot agree with Dr. Koch in everything he says. I am of the opinion that tubercular conditions in men and in animals are identical after they are started. My occupations bring me in close contact with dairy cattle, and I have been compelled to devote my attention to the subject of tuberculosis afflicting dairy stock. One fact that strenghtens my belief that human baccilary tubercolosis all derived from the bovine species, is that where this animal does not exist, pulminory consumption is unknown.

"The Kirghish, on the steppes of Russia, who have no cows, have domesticated the horse, using its milk, meat and skin and a case of pulmonary tuberculosis has never been known among the tribe. The Esquimaux has no cows; neither has he pulmonary consumption and I think it can be laid down as a fact that where the dairy cow is unknown pulmonary consumption does not prevail. Let us treat this disease, especially among the cows, as leprosy was treated of old, and then we shall be saved from the painful necessity of treating the human race in like manner, for I am convinced that if we stamp out tuberculosis in the bovine race a few generations will eliminate it from the human family."

Protocol Agreed Upon.

Washington, Aug. 13.—The state department has received a cablegram from Mr. Rockhill at Pekin reporting the draft of the final protocol had been agreed upon. A tariff of 5 per cent ad valorem will be put in force two months after the signing of the final protocol excepting on goods shipped within 10 days after the signing and will continue until the conversion to the specific rates effected by the export commission. The Chinese free list will include rice, foreign cereals and flour, gold and silver bullion and coin. This inclusion of flour in the free list which is of much importance, particularly to Pacific coast shippers.

Found His Brother.

Atlantic City, Aug. 13.—Robert Wilson, a wealthy Texas oil operator, discovered at this summer resort his brother Henry, from whom he had separated 15 years before in Nashua, N. H., and of whom he had heard nothing during that long time. Mr. Wilson and his bride of two weeks were passing a booth when the strains of the music reached their ears. Mr. Wilson induced his bride and a friend to go in, and there found his brother and his wife. The recognition was mutual.

Will Represent Colombia.

Washington, Aug. 13.—Mr. Russell, the American charge d' affaires at Caracas, Venezuela, has been authorized by the state department to use the good offices as representative of Colombia in case the Colombian minister should withdraw from Venezula. This is in response to Mr. Russell's request for instructions.

Wessels Not Shot.

London, Aug. 13.—General Kitchener has cabled confirmation of the report of the release of Peace Envoy Andries Wessels, who was said to have been shot. Wessels was a prisoner in Gen. Colliers laager, near Kaalfontain, which the British recently captured.

LION COFFEE

A LUXURY WITHIN THE REACH OF ALL!

MAKE no mistake! See that my head is on every package of

LION COFFEE

you buy. It guarantees its purity. No coffee is

LION COFFEE

unless it is in a 1 pound sealed packet with the head of a lion on the front. Then you get pure coffee—the highest grade for the money.

Watch our next advertisement.

Why has **LION COFFEE** now become the leader of all package coffees? And why is it used by millions of homes the world over?

Because it cannot be sold under false pretenses. It is an absolutely pure coffee. No chemicals, no coating with glucose or other mixtures or chicory, which were ill in order to hide inferior qualities and defections.

Just try a package of **LION COFFEE** and you will understand the reason for its popularity.

In every package of **LION COFFEE** you will find a fully illustrated and descriptive list. No housekeeper, in fact, no woman, man, boy or girl will fail to find in the list some article which will contribute to their happiness, comfort and convenience, and which they may procure by simply cutting out a certain number of Lion Heads from the wrappers of our one pound packages (which is the only form in which this excellent coffee is sold).

WOOLSON SPICE CO., TOLEDO.

CEDRON FOR YELLOW FEVER

Assistant Surgeon Hodgson Believes He Has Found a Specific.

Acting Assistant Surgeon S. Hodgson of the marine hospital service believes he has discovered a valuable remedy to be used in yellow fever cases, says a Washington despatch to the New York Sun. Dr. Hodgson has been stationed at Progreso, Mexico, for two years and has made a thorough examination of yellow fever cases there.

In a letter to Surgeon General Wyman of the marine hospital service he calls attention to the fact that, while valuable work has been done in China in demonstrating beyond question that yellow fever can be and is transmitted by the mosquito, another insect, more pestiferous, which may be quite as active an agency in spreading this disease as the mosquito, has been entirely overlooked, namely, the cimex or bedbug.

"In the tropics," Dr. Hodgson says, "the bedbug is all pervading, and his stealthy movements are more liable to accomplish the desired end than the buzzing mosquito.

"Among the remedies used in Central and South America as an antidote for the stings of insects and bites of snakes the seed of the bean of cedron has been found to be a specific. A tincture is made from the grated or mashed seed, and it is also made into a fluid extract. I made a tincture from the bean and used it as an antidote for the stings of insects and the bite of a snake and found that the action was almost immediate and the relief complete. The antitoxic properties of this remedy were so great that I thought it might be of some benefit in yellow fever and had opportunities to try it in several cases of that disease, and from the results concluded it is as specific for yellow fever as quinine is for malaria."

Dr. Hodgson says that the cases he treated were in Costa Rica, when he was government physician at Jiminez, and, while he kept no notes of the cases, every one treated with the tincture of cedron recovered. He used the tincture by hypodermic injections of about 20 minims three times a day.

NEW LIGHT ON INSANITY.

Frank Howard Collier's Brain Unsettles Scientists.

That the peculiar insanity of the late Frank Howard Collier of Chicago resulted from a blow received on the head from supposedly political antagonists several years ago was practically decided the other day by several physicians, who removed his brain for the purpose of a careful examination.

The discovery is of special interest from the fact that it has been an accepted theory among medical men that the kind of insanity from which Collier suffered, technically known as circular insanity, never occurred except as a result of hereditary taint. If the conclusions reached after the first investigation prove correct, this theory will have to be abandoned.

A section of the forehead several inches square was removed and the brain taken out. An examination showed that there was an exostosis, or bony growth, on the inner table of the skull, to which the membranes and frontal lobes of the brain adhered. The growth was an inch and a half long and an inch wide, and the points, which were sharp, protruded nearly a quarter of an inch.

The exostosis, which was not directly under the part of the skull where Collier had been struck, is believed to have been caused by the inflammation of the skull and brain around the wound.

The size of Collier's brain is remarkable and gave evidence of immense intellectual strength he once possessed. A post-mortem of the skull was trepanned, but the brain showed nothing. The brain, it was disclosed today, had been pushed to one side of where the wound is listed.

FILING OIL CLAIMS.

Excitement at Lawton Over Supposed Traces of Petroleum.

Fort Sill, O. T., Aug. 13.—Oil companies with fabulous sums announced for their capital stock are being organized hourly in the new town of Lawton, near here. Twenty or more "promoters" and "oil experts" have bottles of oil on display. No gushers have been brought in. The excitement is not confined to any particular list. Evidences of oil can be found in all directions, but what is known as the oil district is about 11 miles north of Lawton.

Oil locaters have plastered the entire country with mineral claims and an Ottumwa, Ia., company has 2000 thousand acres staked in one body. Another company claiming a capital of $250,000 has claimed a large tract 90 miles northeast of Lawton and a third company has been organized, on paper at least, and placed its capital stock at $1,000,000.

Sale of Town Lots.

Washington, Aug. 13.—A telegram received at the interior department gives a summary of the sale of town lots in the newly ceded portion of Oklahoma for the first days of the sale as follows:

At Anadarko, 397 lots at $13,430; Lawton, 279 lots at $64,970; Hobart, 274 lots at $42,180.

Acting Secretary Ryan said that the interior department had received an application for the use of troops to evict the squatters on Woods' homestead adjoining the town of Lawton, but that the department so far had taken no action upon the application.

TREASURE FOUND.

Frenchmen Find $32,000 in the Swamps of Mississippi.

Meridian, Miss., Aug. 13.—News has been received in the city of the finding of $32,000, mostly in Spanish gold, supposed buried in a chest about five miles from Portersville on the Mobile and Ohio railroad by Frenchmen who have had a chart of the burial place and have been searching for the treasure for some time. They located a spot in the swamp and found three ash trees that formed a natural triangle. This is a section of Succaronochee that once was the rendezvous of the famous and noted Copeland gang and it has been long known that he buried most of his ill-gotten wealth there. The searchers last Friday in locating what they believed to be the exact spot and upon close examination of one of the trees they found it marked as they were directed to look for. They dug down at this spot and found a pot of gold. It contained $32,070.

There is another sum of something over $50,000 buried in the Succarnochee swamp that has been searched for for many years, but it still awaits the lucky finder.

BULLION RECOVERED.

Smelter Company Regains Over $200,000 Stolen and Thrown in Bay.

San Francisco, Aug. 13.—It was stated at the office of the Selby Smelting company that a force of divers under the management of a detective agency had Monday taken $65,000 worth of gold from the spot where it was hidden by Winters, making nearly $200,000 already recovered. It is expected that the remainder of stolen treasure amounting to $80,000 will be recovered.

The fact that Winters has not been charged with any crime lends additional weight to the belief that he will be leniently dealt with by the officers of the law for confessing the crime and locating the spot where he secreted the bullion.

There promises to be a lively fight between the detectives over the reward money and the matter may eventually be taken into court for settlement.

Shot in a Boxcar.

Vinita, I. T., Aug. 13.—News has reached here that a shooting occurred in a boxcar Sunday night. One man was mortally wounded. Henry Todd is the name of the man shot. He and his brother, Jake Todd, had entered a boxcar for shelter from the rain and had fallen asleep when about midnight two strangers entered the car and commanded them to hold up their hands. They refused and Henry Todd was shot. The nightwatchman was on the scene a few minutes later and arrested three men. They have been taken to Muskogee.

Collision on the Choctaw.

South McAlester, I. T., Aug. 13.—At Harraha, the Choctaw, Oklahoma and Gulf passenger and freight trains met in head-end collision Both of the engines were badly wrecked. The engineers and firemen jumped in time to escape injury. One of the passengers had his collarbone broken.

NEWS IN BRIEF.

John Widmer, of St. Peter, Ind., disappeared a few hours before the time set for his marriage to Miss Ella Roth of Covington.

Grant Thorpe was killed by a train at Walsh, I. T.

THE TRUST ON TOP.

Strikers Not Making the Progress They Had Expected.

ARE DISAPPOINTED.

An Appeal Made by the Amalgamated Association for Aid—Another Clash Was Had With Mayor Black at McKeesport.

Pittsburg, Aug. 13.—The struggle for mastery between manufacturers and men in the steel industry is now fairly launched, and on the first show of strength, advantage is with the former. The general strike order issued by President Shaffer of the Amalgamated association has so far been obeyed by only about 14,000 men, according to the best figuhes obtainable. The first two preliminary calls were answered by about 45,000 men, so that the total number now is in the neighborhood of 50,000. The strikers made gains here today over the showing of last night, and their prospects for further accessions at both McKeesport and Wheeling during the week are very favorable.

The action of the Amalgamated men at Chicago, Joliet and Bay View in refusing to come out, and their failure to secure any recruits in the Carnegie group, throughout the Kiskiminetas valley and the big plants at Youngstown and Columbus have been markedly disappointing to them. They are keeping up the fight, however, in a spirited manner, and claim that they have strength in reserve which will surprise their opponents. The asser... that they have gained a foothold in the Carnegie mills in this city, and that at the time desired the men will come out. They are pressing their advantages at McKeesport and Wheeling, and their organizers are still at work in those two cities.

An appeal has been made to organized labor and to the public by the Amalgamated association for finances.

Official of the National Tube company and Mayor Black of McKeesport, clashed Monday over the question of protection for non-strikers and property. A large crowd of strikers assembled around the works early in morning and their pickets intercepted tube workers on their way to the mills. There was some excitement and the mill officers, claiming that their men were being threatened and in danger of violence, called on Mayor Black to clear the streets and protect them. The mayor said that he would only interefere to stop actual rioting and assault. Two appeals were made to him later, but he insisted that there was no danger of an outbreak.

Reports from Wheeling and Bellaire indicate that there may be trouble there. At the latter place an attempt is to be made to keep the plant in operation, and the mill officials say that if they, or the men who did not go out, are interfered with they will ask for state militia to protect them.

Strikers Make Gains.

Pittsburg, Aug. 12.—The strikers made gains today at McKeesport and Bellaire and regard the situation as more favorable to them than Sunday. At the former place they are out at the National rolling mills of the National Tube company. The men of the Boston rolling mill had already joined the strike. The tube works at McKeesport started as usual, but it is not clear how long they will keep going. McKeesport developed into a stronghold of the Amalgamated association and the strike leaders assert they are completely in control of the situation.

At Bellaire more men of the National Steel company cast their fortunes with the strikers and it is believed the plant will have to close down. It is admitted by the steel officials that the strikers had made material gains there and the mill will probably will be closed down temporarily.

The strikers claim they will completely tie up the Riverside and other plants in the Wheeling district. The Riverside Plate mill of the National Tube company was prepared for work this morning, but none of the men appeared when the time for starting came.

The troubles anticipated at Monessen did not come and the large plant of the American Tin Plate company there is in full operation. Both sides claim control.

The Farm mill at the Lindsay & McCutcheon plant, which was operated last week with a non-union crew made a wavering start early this morning and is in operation, although shorthanded.

The Republic Iron Works are tied up. Fires were started in anticipation of resumption, but are now banked.

The Painters mill closed on the first call is still smokeless. The steel people have planned its reopening for several days, but as far as outward appearances show have done nothing.

Men of the Elba or Frankston puddling and rolling mill have all joined the strikers and work is completely crippled.

All of the Carnegie properties and mills of the American Sheet Steel company at Vandergrift, Appollo, Leechburg, Hyde Park and Saltsburg are in operation and manufacturers assert there will not be the slightest trouble at any of them.

Report from all strike centers indicate perfect order prevails but it is believed here clashes are inevitable at more turbulent places when the attempt is made to put non-union men on where the strikers have quit work.

President Shaffer, Secretaries Williams and Tighe, Vice President Chappelle, National Trustee John Pierce and Ben Davis were at the strike headquarters. Shaffer was in his private office and refused to see any callers. Secretary Williams said: "We are in the fight until an honorable settlement can be reached. We are issuing a call to the general public for financial aid. It will go out today." Williams gave out copies of the call which set forth the causes of the strike and declared the steel corporation is making war on organized labor.

At noon today about 2000 strikers gathered around the plant of the National Tube company at McKeesport, and when the workmen came out for lunch good naturedly guyed them for working. The workmen seemed to take no offense and there was no disturbance or disorder.

Non-Union Machinists Attacked.

Chicago, Aug. 13.—Two non-union machinists on their way home from work, were attacked by a crowd of pickets supposed to be striking machinists, and one of them, Raiph Eddowes, brought here from Cincinnati, was badly beaten in a fierce running fight. The other, with the aid of the police, gained a place of safety within the high board inclosure surrounding the machine shops. This is the first violent demonstration against the importation of workmen to break the strike of the molders and machinists.

Union officials of the molders announce another firm has signed the union agreement.

Strike Declared Off

Kansas City, Aug. 13.—The machinists strike inaugurated 13 weeks ago was declared off Monday by the strikers and the men still out will return to work as soon as their employers will take them back.

Another Plant to Be Removed.

Youngstown, O. Aug. 13.—The official announcement is made here that the Youngstown plant of the American Can company would be dismantled and the machinery shipped to other plants of the concern. These works employ 75 hands.

Will Reduce Wages.

Fall River, Mass., Aug. 13.—The Fall River cotton manufacturers Monday at a meeting for the purpose of discussing the wage question unanimously voted to reduce wages to a basis of 17 cents for weaving, to take effect about Sept. 1. This is a reduction of about 14 per cent, the present price of weaning being 19.8 cents. The vote was unanimous with one exception, this man voting against the reduction only as to the question of amount. The reduction it is believed, will cause a strike.

Royal Employes Strike

Madrid, Aug. 13.—The general feeling of discontent prevailing here has reached the royal kitchen and the principal chef and five cooks at the king's palace have gone out on a strike.

Bad Man Killed.

State Line, Utah, Aug. 13.—James Hedges was killed in a street duel here by Jim Glendenning, a miner, who was afterwards arrested and placed in jail. Hedges for years has had the reputation of being a "bad man" and has killed three men in street encounters. Hedges and Glendenning got into a controversy as to their respective merits as revolver experts and as a result Hedges challenged him to fight. Hedges shot Glendenning through the arm before the latter was aware of his presence. Glendenning returned the fire and put two bullets through Hedges' heart within two inches of each other.

Girls Killed by Lightning.

Greenville, S. C., Aug. 13.—A terrific electrical storm has visited this section doing considerable damage in the mill village of the American Spinning company. A six room house was struck by lightning and Miss Victoria Levi and Miss Busbee were almost instantly killed. Clingham Ward was also struck but is still living although his condition is still serious. Four children of the Russell house who were occupants of the Russell family were also shocked into unconsciousness.

Desperate Effort to Escape.

Jamestown, St. Helena, Aug. 13.—Two Boer prisoners, Hollanders, made a desperate effort to escape Saturday evening. They swam to a fishing boat out in the harbor, captured her and set sail. All their clothing were lost and they were captured in a nude condition by the British war sloop Eagle. They were returned to the prison camp clothed in coffee sacks.

Four Persons Drowned.

Lexington, Va., Aug. 13.—Assistant Postmaster John G. Pole and his family, while attempting to cross a mountain stream about six miles from here, were swept down by the waters of a cloudburst and his wife and three daughters drowned. Mr. Poole and a daughter escaped.

Awarded the Contract.

Washington, Aug. 12.—The secretary of the treasury has awarded to John Bardon of Fort Worth, Tex., the contract for the superstructure of the public building at Abilene, Tex., at $79,313.

MINUTES

Of Erath and Comanche County Ex-Confederate Ass'n.

The thirteenth annual meeting of the Erath and Comanche County Ex-Confederate Association was held in the city of Dublin, Texas, August 7, 1901. Headquarters were established at the office of Capt. H. A. Smith. At 10 o'clock a. m., procession was formed on one of the principal streets of the city with Capt. Smith grand marshal of the day and followed by a grand and imposing parade by the representative business men of Dublin, marched to the grounds of the Dublin Park Association one half mile west of town, where under the sheltering roof of an immense tabernacle an address of welcome was delivered by Hon. R. B. Spencer, mayor of the city, who turned over the keys of the city to President T. O. Moore, who responded to the address of welcome (notwithstanding his feeble condition) in a neat and appropriate manner, after which the peerless Dublin Band rendered the tune "America" in a highly satisfactory manner.

Chaplain Boaz in a feeling and fervent manner invoked the blessing of Deity on the assembled multitude.

The next thing on the program was crowning the queen of the carnival. Dr. J. C. Wingo in a beautiful and impressive manner, introduced Miss Abbie Wiley, who amid great applause was crowned Queen of the Carnival, after which the association adjourned until 2 p. m.

2 p. m.—Met pursuant to adjournment and called to order by President T. O. Moore.

First in order was an address, eulogy on Stone Wall Jackson by Mr. E. D. Jennings, who in a masterly manner paid a glowing tribute to a great man, whose name will live as long as the memory of a lost cause shall find lodgment in the minds and recollection of American manhood. The speech was applauded liberally.

Comrade Dilliard, of Meridian, was introduced and in a supplementary recalled many pleasing memories of the great soldier chieftain. Comrade S. C. Buck made some feeling and pathetic remarks, exhibiting his "war jacket" as he denominated it and the old wool hat worn by him during the war, with a bullet hole in the front part and he also doffed his old hat and showed a scar in his upper forehead to correspond with the one in the hat.

Music by the band.

Judge Gordan Russell, of Tyler, was introduced by Dr. J. C. Wingo. Mr. Russell delivered one of the most eloquent speeches ever made to this association, in which he vividly portrayed many of the trials and hardships endured by the participants of the war between the states. He was greeted with great applause throughout his entire speech.

At the conclusion of his remarks a motion to have his speech printed in pamphlet form and presented to each old veteran as a souvenir was unanimously adopted, after which adjournment was had to 10 o'clock a. m. tomorrow morning.

SECOND DAY.

10 o'clock a. m.—Association met pursuant to adjournment. Called to order by President T. O. Moore. On motion calling ofmembership roll was dispensed with.

Minutes of last annual meeting read and approved.

Gen. J. T. Harris in his enfeebled condition, made a few touching and pathetic remarks, which were well received by the concourse assembled. Hon. Norman J. Kittrell, of Houston, was next introduced and made a very eloquent address. Mr. Kittrell recalled many incidents of the late war, and the causes leading up to and causing the great conflict, and paid a glowing tribute to the survivors of a lost cause and to those on both sides who laid down their lives for a cause they thought right. (Applause.) Adjourned until 2 o'clock p. m.

2 p. m.—Met pursuant to adjournment.

Judge, Frank, of Stephenville, was introduced and made the annual address to the association, in which he impressed the importance of keeping alive the association.

Memorial committee made their annual report, from which we find that comrades N. E. Dabney, W. C. Fleming, J. G. Chanceller, J. P. Hutton, J. L. Durham, W. C. Williams, John F. Canfield and L. S. Redwine had laid down their arms, closed their eyes in death, and their spirits taken upwards to that clime where wars and rumors of wars are no more.

ELECTION OF OFFICERS.

The following officers were elected for the ensuing year: T. O. Moore, president; elected by acclamation. J. R. St.Clair, of Alexander, 1st vice-president; J. W. Porter, of DeLeon, 2nd vice-president; R. S. Rich, of DeLeon, secretary and treasury; J. G. Grow, Comanche, chaplain, after which Col. P. B. Hunt, of Dallas, commander of the post of the Grand Army of the Republic, was introduced by Capt. John Roch. Mr. Hunt made a good speech, filled throughout with fraternal feeling for his comrades who wore the gray.

Adjourned uutil 10 o'clock tomorrow.

THIKD DAY.

10 o'clock a. m.—Met pursuant adjournment. Called to order by president.

On motion a committee of three, viz: R. S. Rich, A. L. Murphy and A. F. Long, were appointed on resoultions:

MEMORIAL COMMITTEE.

R. T. Long, Dublin, chairman; W. C. Terry, DeLeon; Mc.D. Riel, Stephenville; J. D. St.Clair, Alexander; J. T. Tunnell, Comanche; H. G. Coker, Lingleville; A. C. Speed, Gustine; Booker Neal, Lamkin; T. F. Haley, Sipe Springs; W. J. Moore, Fleming and Col. Glenn, Bluff Dale. Each member was requested to report the name of any comrade who may be called from hence to the chairman during the year.

While the committee on resolutions was considering their report, Dr. J. C. Wingo was called for and responded with one of his able and characterist speeches, after which the committee on resolutions made their report which was read and adopted, which said report is in words and figures as follows:

To the president and comrades of the Erath and Comanche County Ex-Confederate Association. Your committee on resolutions beg to submit the following:

That whereas, In this our thirteenth annual association, a goodly uumber of us have been spared to meet as a band of brothers and comrades, and

Wherers, the city of Dublin has thrown open her gates and made us welcome to enter, and

Whereas, the citizens and business men have shown their appreciation of our presence by their untiring efforts to make us feel at ease by purchasing these spacious grounds and the erection of this splendid tabernacle (christening it Albert Sidney Johnson, in honor of our camp) under the sheltering roof of which we and the thousands of our friends and countrymen can be protected from the inclemency of the weather, therefore

Resolved, by this association, that we have accepted these proffered hospitalities by the good citizens of Dublin in the same kindly and appreciative spirit in which they were tendered us.

To the Dublin Band and to Mrs. Daniel and her charming bevy of young ladies, we desire to tender our sincere gratitude for sweet strains of patriotic music, and the rendition of an interesting program.

To the Hon. R. B. Spencer and his assistants, we feel thankful for ourselves and the great host of our countrymen, here assembled, for the preservation of life and property by promptly removing certain obnoxious elements from the ground. Vigilance in the enforcement of law is the safeguard of American citizenship.

But as an association, we are inclined to the opinion and so recommend that hereafter there be appointed from our association three or more men who shall act as marshals in connection with the city authorities for our special protection and the protection of those who from year to year assemble here to give us cheer in our declining years, realizing the fact that under the most favorable circumstances, we can not hope to meet but a few more years at most.

Resolved further, that for the perpetuation of the records of the association we must have a record book in which our proceedings shall be annually recorded in a fair and legible hand, and for this purpose we recommend and suggest that the members of the association and others interested be requested to contribute such sum as they feel able for the purposes above mentioned.

All of which we respectfully submit.

Committee. { R. S. Rich, R. T. Long, A. L. Murphy.

Being no further business, on motion the association adjourned.

T. O. Moore, President.
R. S. Rich, Secretary.

Trades Display.

The trades display of Dublin's business and professional institutions occurring on the first and second days were elaborate, dainty and very beautiful. They consisted of uncovered carriages profusely decorated, each with a different design of flowers, and driven by a young lady in costume suitable to the other decoration, and were accompanied by a footman, with each bearing a banner with the name of the business or professional institution represented. Each was a veritable mountain of their particular decorative flower and were magnificent pieces of handiwork, for which the young ladies representing the various institutions deserve especial credit.

Those represented were:

Mistot Bros. & Co., represented by Miss Julia Friend.

Hall Music Co. represented by Mrs. E. F. Hall, accompanied by little Ruby Hall.

Higginbotham Bros. represented by Miss Louise Higginbotham, accompanied by little Julia St. Clair.

The Dublin Progress, represented by Miss Ella Ray.

Maloney & Co., represented by Miss Lottie Maloney.

Brock & Bishop, represented by Miss Collie Perry, accompanied by little Amy Brock.

Utterback & Harris, represented by Miss Ellen Harris, assisted by little Royal Neel.

Overton Drug Co., represented by Miss Willie Board.

Brite's Variety Store, represented by Miss Lura Collier.

R. B. Spencer & Co., represented by Misses Anna Lou Boggess and Loutie Wood, assisted by little Kate Foust, Katherine and Hazel Spencer, Harry Lee Spencer and Charlie Green.

R. H. McCampbell & Son, represented by Miss Helen Day.

Rosamond's gin, represented by Miss Larona Rosamond.

Dublin Surgical Institute, represented by Miss Minnie O'Brien.

Latham Co. represented by Miss Madge Latham, assisted by Misses Alice, Ruth and Jenevieve Latham.

J. H. Wilder's Musie House, represented by Miss Hattie Moore, assisted by Miss Lily May Hogsett.

H. A. Smith & Co., represented by Miss Nina Higginbotham.

Dublin Cotton Yard, by Eugene Newton and Dod Brown.

Dublin Roller Mills, represented Miss Abbie Wiley, assisted by Miss Hortense Farmer.

None of these displays were made up particularly as an advertisement of the firms mentioned, but on the contrary were a spontaneous exhibition of home pride and each one, to say nothing of the whole, was an elegant display.

See the Samson Windmills.—Stegall & Thompson. 2-tf

Queensware and glassware at Maloney's.

Anchor and Hickory buggies at Maloney's.

Hardware and implements at Maloney's.

Paint and varnish at Maloney's.

Garland stoves and Ranges at Maloney's.

The district court for Hamilton county will convene next Monday.

Miss Ida Gentry of Odessa, Texas, spent several days here the past week visiting friends.

Hamilton received her first bale last Friday and paid 7.40 for it, besides a premium of $14.75.

If you want a good farm see J. A. Bondurant Dublin. 12-tf

The infant child of Mr. and Mrs. T. J. Farmer is reported slightly improved this morning. The child has been dangerously ill for some time.

Comanche received her first bale of new cotton last Friday. It was raised by E. C. Purdie of near Lamkin and sold for 7½ cents and a premium of $30.

Joseph Hoch, of the New Century restaurant, has purchased of J. E. Bishop the corner lot on Black Jack and Grafton streets, opposite Lafferty's marble yard. The sale was private, but we understand the price paid was $1300, and that Mr. Hoch is contemplating the erection of a fine hotel on the lot.

John H. Neel, senior member of the firm of Neel & Huchingson, proprietors of our esteemed contemporary, the Telephone, has disposed of his interest in that publication to Mr. Huchingson, who is now sole owner. Mr. Neel will at once remove to Iredell, where he will publish the Index.

E. L. Serface and lady of La Porte, came in the first of this week to make their residence here. Mr. Serface will assume the position of machine superintendent at the compress, which was recently made vacant by the acceptance by Mr. McCarter of a position at Waxahachie.

Each evening of the re-union last week the Shamrock club gave a magnificent ball which extended into the wee hours of the morning, and was enjoyed by visitors from all the near-by towns and from San Angelo, Sonora, Weatherford, Fort Worth, Waco and other points. The club rooms were tastily and profusely decorated throughout, the very finest of music was furnished by Prof. Parnell's celebrated orchestra of Thurber, and everything was arranged to make the occasion one of the most enjoyable ever given by the club. About fifty couples were in attendance each evening and the grand march led by Dr. Mayes Miller and Miss Russell at the beginning of the festivities for each evening was picturesque and elegant. The club is proud of the entertainment which all the visitors agree they received.

Bold Train Robbery.

The south bound Missouri, Kansas & Texas passenger train was held up and robbed by masked men at Caney Tank, a few miles from Denison, at about 1:30 Wednesday morning. Two men boarded the engine at the tank three miles from Caney and with drawn revolvers made the engineer stop at Caney, where they were joined by three others. While the two guarded the engineer and fireman, the other three forced open the express car, but secured only $1.60. They then went through the cars and robbed the passengers, securing about $2000 in all. Six men have since been arrested as suspects and will be tried at Atoka, I. T., next week.

Yesterday afternoon a horse recently purchased by Dr. R. A. Miller ran away with his son Mayes and Mrs. Kate Shelton, an aged lady of Proctor, severely bruising her. Mrs. Shelton had been under treatment at the sanitarium for cancer, was ready to be dismissed and was being taken to the home of her sister, Mrs. George, in west Dublin. The horse became scared at a baby carriage and whirled about, turning the buggy over and then ran. The lady's bruises are not thought to be serious.

The notorious case of Hayden vs. Cranfill, in the courts at Dallas, was yet unsettled Tuesday, the jury having at that time failed to come to a decision. Wednesday the jury was still far from a verdict, though striving to reach one since Friday last and at 6 p. m. the judge discharged them. This is the third time the case has been tried. Once there was a verdict ior the plaintiff, but it was reversed by the higher courts, the other two were mistrials.

Miss Willie Board of this place and Mr. George Moore of Weatherford were married last week at Stamford. Mr. Moore is a popular young jeweler of Weatherford, and the prize he secured was one of Dublin's most charming young ladies. Miss Tabitha Wilkerson was also married at the same time and place, but we have not learned the name of the lucky groom.

High Patent flour at $1.50 a hundred cash at Higginbotham Bros. 7-tf

If you want a good farm see J. A. Bondurant, Dublin. 12-tf

Sstop Cough and Works off the Cold.
Laxative Bromo-Quinine Tablets cure a cold in one day. No Cure, No Pay. Price 25 cents.

Lost-Found.

An especial low rate of one cent a word for first insersion and a half cent a word for each succeeding insertion without change given items under this head.

Strayed.—Pale red and white spotted cow, four years old, no marks or brands. Liberal reward for information or delivery to J. C. Barnes or Joe Higginbotham, Dublin. 4-tf

Beauty's Greatest Hardship.

"Oh!" gasped the beautiful woman as she fell back, clutching at her heart and permitting the telegram to flutter to the floor.

Her fashionable guests rushed forward, crying:

"What is it? Has your husband met with an accident?"

"No—no," she moaned; "it is from my son-in-law. I am a grandmother."—Chicago Record-Herald.

His Choice.

Willie Wontwurk—Ain't it great to lay here an watch dem guys cuttin hay?

Layaround Lucas—Yes. Dey's only wun t'ing erbout harvestin dat I'd do.

Willie Wontwurk—Wot's dat?

Layaround Lucas—Ride in ter de barn on de last load of hay at night.—Ohio State Journal.

The Intricacies of It.

"Why didn't you study the time table, and then you would not have missed your train?"

"That was the trouble. While I was trying to translate the time table the train pulled out."—Boston Journal.

TURF TOPICS.

Brunner's Our Lucky stepped a mile in 2:17¼, half in 1:06.

Dr. Shorb, 2:16¼, is the first performer of the year for McKinney, 2:11¼.

Lantana, 2:09¼ pacing, took a trotting record of 2:26½ at Nashua, N. H.

Star Pointer has a new 2:20 pacer in Schley Pointer, 2:18¼, at Titusville, Pa.

Democracy, 2:07¼, the great Chester (Pa.) pacer, has been raced six seasons.

John Hussey has driven the green Bow Bells trotter Prince Selma a mile in 2:12½.

Aline, 2:21¼, is a new performer for Online, 2:04, having won a race in three straight heats at Syracuse on June 25.

There is a green trotter from Kansas called Honesty, by Robert McGregor, in Philadelphia that can beat 2:20 by seconds.

Miss Mary E. Munson, secretary of the Pekin (Ills.) Trotting association, is the only woman secretary of a trotting association in the west.

The 2-year-old by Margrave, 2:15½, out of the dam of Phenol, 2:07¼, owned by John Jackson of Terre Haute, Ind., has paced a mile in 2:22 and a half in 1:06.

Elastic Pointer, brother to Star Pointer, who showed a trial of 2:09¾ last year and was one of the heaviest entered horses for 1901, has been thrown out of training.

HINTS ABOUT SEA BATHING

Avoid bathing within two hours after a meal.

Avoid bathing when the body is cooling after perspiration.

Avoid bathing when exhausted by fatigue or from any other cause.

Bathe when the body is warm, provided no time is lost in getting into the water.

The vigorous and strong may bathe early in the morning on an empty stomach.

Avoid remaining too long in the water. Leave it if there is the slightest feeling of chilliness.

Avoid chilling the body by sitting or standing undressed on the banks or in boats after having been in the water.

The young and those who are weak should bathe two or three hours after a meal. The best time for such is from two to three hours after breakfast.

Avoid bathing altogether in the open air if, after being a short time in the water, it causes a sense of chilliness, with numbness of the hands and feet.

Those who are subject to attacks of giddiness or faintness and those who suffer from palpitation and other sense of discomfort at the heart should not bathe without first consulting their medical adviser.

STAGE GLINTS.

Vernona Jarbeau is to revive "Mazeppa."

Charles Frohman now controls five London theaters.

Fanny Davenport, a niece of the late Fanny Davenport, has just made her stage debut.

Marie Wainwright has abandoned her plan to star in a revival of "The School For Scandal."

Bettina Girard is to be the principal performer in a forthcoming revival of "The Girl From Paris."

It is stated that Mascagni, Puccini and Leoncavallo have all secured libbrettos based on "Ben-Hur."

William H. Crane, it is expected, will devote all of the coming season to the dramatization of "David Harum."

Sienkiewicz, the noted Polish novelist and playwright, author of "Quo Vadis," is writing a new play for Mme. Modjeska, his countrywoman.

J. M. Barrie and his wife intend to visit America this fall and will reach Washington in time to see Maude Adams' appearance in his new play.

Adolph Zink, the lilliputian comedian, is spending the summer fishing on the Maine lakes. He recently sent a photograph showing two fish nearly as long as their captor.

ORCHARD AND GARDEN.

It is poor economy to set out trees, shrubs or plants and then leave them to take care of themselves.

Tomatoes trained to stakes give the sweetest fruit, remain in bearing longest, and there is less loss from rot.

It is a good plan after a hard windstorm to go over the young orchard and press the soil firmly around the trees.

While scraping the outer bark of trees is often beneficial, care should be taken not to injure the softer inner bark.

While there is no danger of growing too much fruit of good quality, it is comparatively easy to overstock with poor fruit.

White hellebore is a specific for the protection of currant bushes from the ravages of the currant worm. It can be applied in the dry powder.

Don't think it a waste of labor to give the orchard attention before it comes into bearing. During the years of growth the most care is needed.

PITH AND POINT.

Some people, when they work, don't do anything.

When a young man with money tells lies, the people call it "enthusiasm."

One sign of a meek man is his hat. It is always two or three sizes too large for him.

The people demand a man who dares do things, and after he does them they help hang him.

Go to bed early. In that way you shorten the hours in which you are found fault with.—Atchison Globe.
