...Savings Stamp and Bond Week Nov. 3-11

You Can Own a Share in America!

If your flag falls you lose your freedom! You can preserve that freedom TODAY by buying Defense Savings Bonds and Stamps. Stamps are sold in denominations of 10 cents, 25 cents, 50 cents, $1 and $5, with suitable albums for mounting. For example, on the purchase of a 25-cent stamp, you will be given an album on which you may mount 75 of these stamps. When filled the album will have a total value of $18.75, representing the purchase price of a Savings Bond that will appreciate in ten years to $25. Lend Uncle Sam a dime and keep Old Glory waving. Own a share in America!

National Girl Scout Week Closes Sunday Morning with Church Services

Halloween Posters Receive Recognition

Hallowe'en posters have been made in the lower grades to be used as advertisement for the Nee-wollah Frolic. These posters were placed in windows of the business houses.

Those whos posters received special recognition were Norma Flowers and Verlin Hartman of 5A. Grace Payne and Marvin Smith of 5B, and Preston Jines, Dorthy Jean Shrader, and Bill Stephenson of 6B.

Leaders and Scouts are working together to celebrate Girl Scout Week, October 26-November 1, honoring Juliette Low, founder of Girl Scouting in this country. Demonstration and relationship between Girl Scouting and National Defense is the aim of the Seven Service Days of Girl Scout Week.

These days have been designated as Monday, Homemaking Day; Tuesday, Arts and Crafts Day; Wednesday, Out-of-Doors Day; Thursday, International Friendship Day; Friday, Citizenship Day; Saturday, Health and Safety Day; Sunday, Church Day.

The local troops will attend the Christian church in a body on Sunday, November 2, at 11 a. m. The pastor, Rev. W. H. Farmer, will conduct an appropriate observance of the day.

The Girl Scout organization renders a valuable service to the youth of the community through the development of skills, democratic ideas, good citizenship and character and service in worthy enterprises.

Captain of the three troops comprising the Perryton area is Mrs Ellis Kelly. Leader and assistants

Merchants Asked Display Red Cross

Mrs. G. L. Kengle, roll call chairman of the Ochiltree Chapter of American Red Cross, is asking every merchant in Perryton to assist in the coming Roll Call by using available window space for a Red Cross display. The Red Cross is called on daily to assist in the military camps by making home contacts for men in the service as well as the horde of workers busy making garments and knitting for the war production program. All this work is made possible by the funds procured by roll call. Each individual, man, woman and child, can do his part by becoming a member. R. O. Dieball is chairman of the window display program and will be glad to assist you in planning your display. He has a supply of Red Cross posters and stickers that can be used effectively. Please try to have your windows decorated by Saturday, Novemberr 8.

Girl Scouts to Christian Church

Rev. G. S. Farmer, pastor of the First Christian Church, announces that the Girl Scouts will be special guests at the regular eleven o'clock Sunday morning services.

The Scouts will attend in a body. They will receive special attention, their activity program presented and the sermon will carry an inspirational message to them.

Scouts having uniforms are requested to wear them to the service.

Parents and friends of the Girl Scouts are extended a cordial invitation to be present at this service.

Perryton American Legion to Sponsor All-Day Armistice Program; Free 'Feed' for Public

Arrangements for an all-day program in Perryton on Armistice Day, Tuesday, November 11, with a free "feed" to the public at the noon hour, were made at a meeting of the executive committee of the Pierce Johnson Post, Sunday afternoon.

The Legion will join with the farmers of Ochiltree, Lipscomb and Hansford counties in doing honor to a fellow citizen, Curtis O. Roach, who has recently been elected as state president of the Texas Division Farmers Educational and Cooperative Union of America.

Plans as announced by Legion Commander M. W. Truax call for a patriotic program in the school auditorium starting at 10:30 Armistice morning; a free dinner at noon hour; with the program honoring Mr. Roach and an address by a nationally known speaker immediately after noon. The speaker will be furnished by the Farmers Union.

Commander Traux has appointed the following committees to handle details of the Armistice Day activities.

Program: C. Wedgeworth, chairman, Glenn Truax and Van W. Stewart.

Bombing: R. B. Orrill, chairman; A. R. Hoghland, E. B. Gyger and W. H. Lackey.

Food: H. C. Graham, chairman; Sibley Jines, E. W. Thomas, W. M. Boston, M. H. Boehning, J. W. Herrell, O. R. Truax and H. I. Hudson.

Reception: M. W. Truax, chairman; C. B. Rogers, Judge Jack Allen, B. H. Peckenpaugh, H. Hargrove, Virgil Olmstead, Robt. Lawrence, H. B. Urban, R. A. Flowers, Ray Skinner, John Luthi, O. A. Schuster, Fred Tarbox, D. O. Murray, J. G. Schultz, Chas. Imke, C. E. Presnall, W. M. McCarter, A. L. Beckwith, Bill Miller, H. E. Shotwell, Tom Denman and J. H. Nail.

Color Bearers: F. L. Garrett and E. B. Gyger.

Perryton Dollar Days Friday and Saturday

Dollar Days are here again this week end ... Friday and Saturday, Oct. 31 and Nov. 1 are bargain days in Perryton ... the "save" days for wise and thrifty shoppers of the Perryton area. People of this part of the Southwest look forward to the first of the month bargains in Perryton stores. With ever-mounting prices, the saving of a few cents here and a few cents there, contributes much to keeping down the cost of living. Perryton merchants, instead of promoting trades days with drawings, free entertainment and what-have-you are giving this money to all their customers in lower prices on merchandise.

First Aid Course Open To Public

The Ochiltree Chapter, The American Red Cross, is again offering the public training in First Aid. W. L. Werneburg, duly certified Red Cross instructor, is teaching the Standard and Advanced Courses.

Classes started Tuesday, October 28, and will be held each Tuesday and Thursday evenings at 7:30 o'clock at the City Hall. The Standard course requires 20 hours, and the Advance Course 10 hours making 30 hours study for both courses.

The Red Cross First Aid Textbook is the basis of study. These books will be available to all persons enrolling in the course. Upon the satisfactory completion of the course a certificate is issued.

This instruction is free, and is offered to men or women desiring First Aid training. Enroll tonight, Thursday, October 30.

This training is required of all state highway employees and Mr. Werneburg states that about 20 highway men are enrolled. They are from Gruver, Darrouzett, Spearman and Perryton. Utility employees and members of fire departments of Perryton and surrounding towns have been invited to enroll.

Fire Prevention Poster Winners

As an observence of National Fire Prevention Week, each grade in the Perryton Schools made posters or wrote themes on the subject.

The following winners were announced for the poster contest: Kathleen Brillhart, Senior High Carmen Keith, Junior High School, Jerry Mullins, first division of the Elementary School, and Bettye Hale, second division of the Elementary School.

These winners will be sent to the state contest in the spring.

First Frost . . . More Rain . . . Muddy Roads

Ochiltree county pulled down it's "No Frost Yet" sign Tuesday morning when early risers saw the first light frost of the year, not a killer-diller but a frost just the same. And the rains came and are still coming ... not so heavy as two weeks ago but still raining. The gauge at the Soil Conservation Service Camp registered 1.57 inches during the past week as follows: Oct. 23, .78; Oct. 25, .36; Oct. 30, .34. This brings the total on the SCS chart to 6.18 inches for October ... and as the Herald is being printed, the clouds are heavy with every indication of more moisture. Unpaved highways are muddy ... the going is tough in places ... Commissioners still in office ... no guarantee as to what pre-election winter rains and snows might do.

JUST HERE and THERE

Friday night is Hallowe'en, a night that to some means license to go forth and destroy property. As patriotic boys and girls, men and women, let's make this Hallowe'en one of conservation instead of wanton and deliberate destruction. Let's have lots of fun but let's have it decently.

There's enough wreck nd ruin in this world today without Perryton adding to the carnage. We offer the following editorial from the Fort Worth Star Telegram which seems to size up the 1941 Hallowe'en just about right

"The existence of a National defense emergency should restrain everyone from vandalism and rowdyism on Hallowe'en this year.

"When material shortages and the priorities plan are causing unemployment and the closing of a few business concerns, there should not be any needless destruction of property under the guise of fun-making. Nor can the

Rotary Ladies Night Nov. 6

Marking the close of a two weks attendance contest that has been resulting in almost 100 per cent attendance a every wekly meeting, the Rotarians of the Perryton Rotary Club will have their Rotary Anns as guests at a ladies night party on the evening of Thursday, Nov. 6.

The piece de resistance at the dinner will be roast pig, the same "shoat" that has shuttled back and forth between the two sides in the membership contest. Garland Redfern now has the pig in his possession for the final finish out feed.

The program last Thursday was in charge of Glenn Truax who presented two all-girl trios from the senior high school. Brother A. C. Williams, former pastor of the Perryton Church of Christ, now conducting a revival meeting, gave an inspiring talk on the Rotary wheel.

Open House at Wilson Flower Shop November 2

Mr. and Mrs. G. R. Wilson, owners of the Wilson Flower Shop and Greenhouse are holding open house for the general public Sunday afternoon, November 2, from two to five o'clock.

Visitors will be escorted through the flower shop and greenhouse and details of the growth and culture of flowers, plants and shrubs explained by trained attendants.

To those not familiar with greenhouse s and to those who love beautiful blooming flowers, an escorted tour through a modern plant such as Wilson's will be a revelation and a joy.

Goal Set at 600 Members for 1942; Territory and Workers Announced by the Chairman

Solicitors and workers for the twenty-fifth Roll Call of the American Red Cross, will open the membership drive for the Ochiltree County Chapter on Wednesday, November 12, according to Mrs. G. L. Kengle, roll call chairman. It is the intention of the chairman for all workers to begin work on the morning of the twelfth and have a report to her if possible by Saturday.

Because of the present critical condition of the nation and the war conditions in foreign lands, every Red Cross Chapter has been asked to double the membership if possible. The minimum quota for this Chapter is 600. This goal cannot be reached without the full cooperation of the every adult and every child.

Headquarters will be maintained in the Red Cross room, and all workers are asked by Mrs. Kengle to call there for supplies on the afternoon of November 6 between the hours of 2 to 5 o'clock, if possible. The territory assigned each worker is as follows:

Business District

Brillhart Ave.: Main street east, South side, Glenn McGibbon. Main street east, north side, Frank Boyle.

Brillhart Ave. from Main street west: Equity building, Aldon Bell; all others, J. H. Woodward and Harry Nail.

Bryan's Food Store, south to

Nee-Wollah Frolics at Schoolhouse

A beautiful throne and crown are waiting to be occupied by the Nee-wollah Frolic Queen. Who the queen will be, nobody knows as yet, but each grade in the Perryton Schools is working hard to elect their candidate. Wednesday the candidates stood as follows: Charlene Dull, first grade, first; Betty Lou Buchanan, eighth grade, second; Marcena Frantz, thenth grade, third; Mary Lou Rupprecht, ninth grade, fourth; Barbra Pletcher, seventh grade, fifth; Marcelia Frittz, eleventh grade, sixth; and Ruth Bond, twelth grade, seventh.

Many activities such as cake walks, plays, programs, and volley ball games have been sponsored by the different grades to take in money for their candidate.

The P.T.A. will serve chicken dinner and sandwitches before the carnival, starting at five o'clock for teachers and six for others who wish to purchase meals in the cafeteria. Proceeds from the dinner will go into a P.T.A. fund.

See No. 3, Back Page

County PTA Meets Friday

Mrs. E. W. Thomas, president, will have charge of the first meeting of the Ochiltree County Council of Parents and Teachers which will be held Friday afternoon, October 31. The Perryton PTA Unit will be hosts at the high school auditorium.

The program will consist of the following arrangement: The Lord's Prayer in unison; song by assembly; business; reading, Winona Allen; "The PTA at Work," Mrs. K. H. Crisp, president of the Perryton Parent Teacher; piano solo, Mrs. Ray Veale; "New Trends in Education," Superintendent C. Wedgeworth.

A social hour will be enjoyed after the program.

Boyer & Archer Moving Law Offices

Max W. Boyer and Dan E. Archer, comprising the law firm of Boyer & Archer, will be at home in new office quarters in the LaMaster building, 311 South Main Street on Saturday, November 1. This is the room occupied for many years by the Key Electric Co. and more recently by the Perryton Cleaners upholstery department.

The offices of this firm are now located in the Ideal Food Store building. The new quarters are arranged so as to give private offices for both Mr. Boyer and Mr. Archer and a commodious reception room. The entire rear part of the building will be used for a large library and conference room.

Contract Let Highway 117

AUSTIN, Oct. 29 — Low bids on 19 improvement projects totaled $1,823,630, the highway department announced today.

The offers, along with others totaling $1,659,226, received yesterday, were referred to the highway commission for study.

Normally work orders are issued within 15 to 30 days after bid submissions if the commission awards contracts.

Low bidders on projects, by counties, included:

Ochiltree and Lipscomb, 20.2 miles grading, flexible base and base preservative on state 117 from 2 miles northeast of Perryton to the Lipscomb County line and from 3 miles east of Darrouzett to 5 miles east of Follett, Ochiltree County job; J. E. & Harry Barnhill, Turkey, $133,804; Lipscomb County job, J. E. & Harry Barnhill, Turkey, 85,279.

Panther-Ranger Game Postponed

On account of muddy field, rain and almost sure bad weather the Follett-Perryton football game scheduled for tonight has been postponed until Nov. 20, 2:30 p. m. The Junior High contest scheduled for this afternoon is also called off but no date for the game has been set.

Darnell Is Free

No longer will state-imposed restrictions hamper Linda Darnell's freedom of movement on film lots. She celebrates her 18th birthday by cutting her birthday cake and snipping apron-strings of a welfare worker who looked after her on the set.

County Completing Organization of an Aircraft Warning Service with 15 Observation Posts

Ochiltree County prepares for war! With the organization of an Aircraft Warning Service and appointment of 15 Aircraft observers, citizens of this county are becoming more conscious of the part that America is going to play in this war.

As part of the national defense program, each county in the United States is establishing airplane warning service stations. Every precaution is being taken for civilian protection in case of attack on our nation.

The County Judge is designated as County Defense Coordinator. He, together with the County Commissioners, appoints the members of the local Aircraft Warning Service Council. County Judge Dave Shanks announces that fifteen locations for observation stations have been selected in Ochiltree County. Each station or post has a Chief Observer, who names his assistants and helpers for that area.

In the selection of sites for these observation posts the following factors are considered: 1, altitude or visibility; 2, accessibility of telephone facilities; 3, accessibility of the post to the volunteers who will man it. All personnel are volunteers and serve without pay.

Chief Observers

Name, code numbers and chief observers for Airplane Warning Service stations in Ochiltree County, as released by Judge Shanks, are as follows:

Northwest part of county, Code 87-Kent-98, A. R. Hoghland.

City of Perryton, Code 88-Kent-66, R. B. Orrill.

North of Farnsworth, Code 88-Kent-15, Emil Hearne.

Waka, Code 87-Kent-81, Ray Burger.

Huntoon area, Code 89-Kent-19, Carl Hurter.

Lone Tree community, Code 89-Kent-24, Paul Pletcher.

East of old Ochiltree, Code 88-Kent-92, Billy Hinson.

South of Lord, 3 or 4 milse, Code 88-Kent-33, Leonard Wright.

Alfalfa area on Wolf Creek, Code 89-Lucy-18, Lawrence Ellzey.

Notla, Code 89-Lucy-14, Wm. Good.

About 21 miles south of Perryton, Code 88-Lucy-54, Raymond Byers.

Cedar Bluff, Code 88-Lucy-24, C. S. McGarraugh.

Blodgett, Code 87-Lucy-86, W. M. Deck.

Black community, Code 88-Lucy-18, Ray Skinner.

About 14 miles southwest, Code 88-Lucy-48, V. W. Richardson.

Oct. 31 is Last Day Delinquent Tax Savings

Tomorrow, Friday, October 31, is the last day for remission of all penalties and interest on delinquent state and county taxes for years prior to 1940.

Sheriff J. S. Talley reports that many have taken advantage of the penalty and interest remission made possible by action of the last legislature.

This remission does not apply to 1940 taxes and after Oct. 31 the penalty and interest will go back on all delinquent taxes the same as heretofore.

The adoption of the remission plan was optional with political sub-divisions other than state and county units. The Perryton school and city officials did not use the plan.

Bowling Blossoms Into Nation's Favorite Indoor Sport for All

BY ART BRONSON

WHEN Joe calls up his Josephine these nights and asks how about a movie and a soda afterward, Josephine may say, "How about bowling instead?"

Bowling, formerly a man's sport, is America's favorite pastime for young and old, male and female, expert and dub.

Estimates place 11,000,000 as the number of bowling fans in the country with thousands of others who occasionally slip up to the alleys for an evening's entertainment and recreation.

Bowling is no suddenly developed or discovered sport. Records have been unearthed which trace the game, or at least the rudiments of it, to the twelfth century. Sir Francis Drake, the great English sea-captain, was playing at bowls when the Spanish Armada was sighted off the coast.

• • •

SIR FRANCIS was not to be disturbed. He said, "There's time to win this game and thrash the Spaniards, too." The admiral did both.

Bowling was introduced into America in 1626 by Dutch settlers when America consisted of a couple of forts and a charter. For 300 years the game attained increasing popularity until now it is almost one of the social graces.

In 1895 the American Bowling Congress was organized and since 1901 the A. B. C. has sponsored a yearly tournament as a climax to the bowling season. It is to bowling what the National Open is to golf and the world series is to baseball.

Most of the nation's kegmen and kegwomen are scattered through the middle west. Chicago is accorded the title of the premier bowling city, with Detroit, Milwaukee and Cleveland ranking next in line.

Bowling is America's most popular sport—for good reason. Lovely Ann Tucker, Cleveland, O., adds to the beauty of the game.

FACTS and figures: More than 300 million dollars are spent annually in bowling fees. More than 500 million have been spent in the past 50 years in the construction of alleys alone. There are more than 160,000 alleys in the country, each costing about $3000 to build, in 20,000 bowling establishments.

Some bowlers can put as much English on a mineralite ball as Bob Feller can on a baseball. The world's trick shot artist, Andy Varipapa, makes the ball behave like a jitterbug.

Rangers Drop Conference Game to White Deer, 12-6

The Perryton Rangers were defeated by the White Deer Bucks by a score of 6-12 on the latters field Friday, Oct. 24. Few fans braved the muddy weather and heavy fog to see the combat. Besides the field being water soaked, the fog was so thick at times that it was difficult to see clearly across the field.

Reimer kicked off for the Rangers, starting the mud battle that was a fight to the finish. The ball went hap-hazardly across the field being downed on the Buck's 45 yd. line. The over anxious Bucks received a 5 yd. penalty for off side on the first play. Morris, 125 lb. half back for White Deer, picked up 5 yds. The Bucks received another penalty for too long in the huddle. Still lacking several yards, the Bucks punted the ball to the 7 yd. line where Schroeder picked it up and returned 8 yds. With the ball in posession of the Rangers, they lost no time in getting the ball out of the danger zone. Reimer gained 9 yds. on the first two plays. Mullins picked up enough for the first down. Two incomplete passes and a short gain by Reimer forced Perryton to punt. It was partially blocked but went to the 40 yd. line where Reimer caught the ball for the Rangers. As this was illegal the Rangers received a 15 yd. penalty, the ball going to the Bucks. Milton took the ball and placed the ball in good scoring distance. Plays with Urbanczyk and Morris advanced to the Rangers 2 yd. line. Urbanzyk plunged over for White Deer. Scoring White Deer, 6; Perryton, 0.

Horuigan kicked off for the Bucks, Williams returning 18 yds. to the Rangers 34 yd. line. Mullins and Reimer gained 15 yds. on the following plays for another first down. An incomplete pass and fruitless line bucks forced the Rangers to punt. Allen booted the ball down to the 10 yd. line where it was returned 19 yds. by the Bucks. With perfect timing, the White Deer team pulled a double reverse with Morris carrying the ball 71 yds. for a touch down! Bucks, 12; Rangers, 0.

The Rangers received the kickoff and were moving down the field when a fumble gave the ball to the Bucks on the Rangers 40 yd. line. Failing to make headway White Deer punted, the ball going out of bounds on the 11 yd. line. On the following play, with excellent blocking and broken field running, Mullins raced 89 yds. for a touch down for the Rangers, making the score 6-12.

McWilliams kicked off for the Rangers and Franks received the ball and returned 14 yds. Later the White Deer team fumbled and the ball was recovered by the Rangers. Plowing to the 30 yd. line, the Rangers completed a long pass sending McClung over the goal for a touch down, only to be called back to receive a 5 yd. off side penalty. Later Turner attempted a pass that was intercepted by the Bucks. The Rangers soon gained possession of the slippery ball by recovering a fumble. The first half ended with the Rangers in possession of the ball on their own 41 yd. line.

Morris kicked off for the White McWilliams was under the ball and Deer team starting the second half, returned it 13 yds. Failing to gain, the Rangers punted, the Bucks receiving on their 40 yd. line. The Perryton team held tight and the Bucks were forced to punt, the ball being downed on the 12 yd. line. The Rangers punted out of the danger zone, the ball going only a short distance. Due to the Rangers pushing the Bucks back and a 15 yd. penalty for clipping, the White Deer team was forced to punt. Schroeder returning 9 yds. After receiving another 15 yd. penalty, the Rangers' punted. The Bucks immediately punted, the ball going out of bounds on their 47 yd. line. The Rangers made a long drive getting within the opponents 10 yd. line, but failing to go over for the pay dirt.

The game ended the Bucks in possession of the ball on their own 43 yd. line. The final score, 12-6.

TICKLERS . . . . . By Bob Moyer

'Is that how the two pants suit originated?"

• The Library Corner

Children's Book Week is November 2 to November 8. This year the theme is "Forward with Books."

An ability to read is the most priceless heritage a child can receive. It will pay dividends that will increase through the years. Many an adult has missed the knowledge and pleasure to be gained through in reading is lost when the reader reading because he has actually not learned to read. Much of the profit is concerned with the mechanics of reading—is struggling along word by word.

Let every parent, in observance of Children's Book Week, check whether his child has been taught or is being taught to really read. It is never too late for remedial work. A recent issue of American Magazine shows an adult how to increase his reading capacity.

One day during the week should be designated as Public Library Day. Take the child down and let him become acquainted with the library. He will find books for every age and interest.

Children love the story of "Little Black Sambo" and the Uncle Remus stories. They know they didn't "sure enough" happen but they are delighted with the imagery. As they grow older they will find books about real people more interesting and these they can get in the library.

Reading should be for pleasure, for information, for inspiration. Through books a child can broaden his experience and understanding of the world. His horizons stretch on and on. Give your child an opportunity to go "Forward with Books".—Mrs. Clifford Beck.

Expert student lawyers at the University of Texas, "staff members" of the school's free Legal Aid Clinic, supplied attorney's council to 37 clients during the five months the clinic was in operation. The agency is designed to give legal advice to indigent Texans who cannot afford attorney's fees.

The University of Texas has trained 700 skilled engineers for defense industries during the last year, in short courses "ordered" by the U. S. Office of Education. Of this number 96 per cent have already found employment to use their newly acquired skill.

University of Texas geologists predict a peat industry for Texas from recent extensive finds of the soft, spongy coal-like substance throughout Texas. German imports of pete to this country in 1939 alone totaled over $1,000,000, they said.

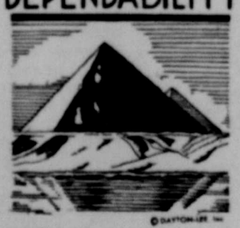

They wouldn't be a match for the steel-clad super-dreadnaughts plying the seven seas today, but in the fight for Texas freedom and the period of the Republic of Texas they gave a worthy account of themselves—the 13 vessels of war which once flew the Lone Star flag, according to University of Texas Library records.

This Week's Birthdays

Week of Nov. 1 to 8

William Cullen Bryant was born on Nov. 3, 1794. Daniel Boone was born on Nov. 2, 1734.

● Balko

(Too late for last week)

Mr. and Mrs. Ralph Wood and children of near Booker, are visiting with their parents, Mr. and Mrs. W. O. Wood and Mr. and Mrs. Mac Morris of this community.

The W.M.S. met with Mrs. Mary Naylor Thursday for work day. They tacked a quilt and quilted on the younths quilt.

Mr. and Mrs. Enterline of Beaver visited their daughter and family Sunday. They were all present for the morning church services.

Some wheat sowing is still in progress but most everyone has finished and are busy cutting and shocking feed.

Mrs. Nannie Hughley had dinner and spent the afternoon Sunday with Mr. and Mrs. J. W. Cayler.

Rachel Reiswig spent the week-end with home folks.

Mrs. W. C. Naylor is in Lubbock this week staying with her daughter and taking care of the new grandson.

Mr. and Mrs. Floyd Pugh and children were Sunday afternoon visitors in the Overstreet home.

Mrs. Marie McGlamery and Franklin were Perryton visitors Wednesday.

The district W.M.S. was held Tuesday in Texhoma. Mrs. Dodd of Goodwell is district president.

Dr. Thurston and Dr. Elliott of Texhoma, Mr. and Mrs. L. V. Noe, Thelma and Paul and Mr. and Mrs. John Osterbuhr and Jean called in the Cayler home Sunday afternoon.

Mr. Overbrook's mother who has been staying here with the family, will return to her home next week.

A teacher and officers training course will be held at the church this week. Rev. John Evans, pastor of the Beaver, Porgan churches will conduct the classes each night.

—Mrs. J. W. Cayler, reporter.

Here's How Uncle Sam's Two-Ocean Navy Grows

East coast shipyards are busily launching new vessels to speed Uncle Sam's two-ocean Navy. Seventh and newest aircraft carrier, the Hornet (top), puts into Norfolk Navy Yard for commissioning after a short trip from Newport News, Va. The U. S. S. Haddock, newest Navy submarine (bottom right), was launched a few days ago at Portsmouth, N. H. The Knight (bottom left), is one of twin destroyers added to the fleet recently at Charlestown Navy Yard, near Boston, Mass.

Truck and Bus Census in Texas For Nat'l Defense

AUSTIN, October 6 —An inventory of all trucks, busses and heavy truck trailers in Texas is underway for the United States War Department as a part of the national defense program.

The Texas truck and bus census, actively begun this week, is being compiled through joint efforts of the U. S. Public Roads Administration, the Works Projects Administration, and the Texas Highway department. It is designed to give the War Department and defense agencies the first nationwide inventory of all such vehicles that would be available in case of any defense emergency.

Making the inventory is a huge task, Texas being one of the States with the largest number of such vehicles. It is estimated that approximately 303,000 trucks, truck trailers, and busses are in Texas, and about 5 million throughout the entire nation.

Questionnaires were mailed October 6 to the owners of every truck, bus or large trailer shown on state license records in the registration division of the Texas Highway Department here.

Owners are urged to promptly fill out the blanks and return them at once in order to make the census fully effective. If anyone desires assistance in making out his questionnaire, his County Agent will help him. The questionnaires need no postage as franked return envelopes accompany them. The information requested is a brief report on each truck or trailer's condition and capacity. Trailers with less than 3,000 pounds capacity, sedan delivery trucks, other light commercial vehicles, and station wagons are exempt.

The work of making the census in Texas is under the district supervision of the Public Roads Administration, with headquarters in the Texas Highway Department building here. A force of some 200 Work Project Administration workers in the state are engaged in the task.

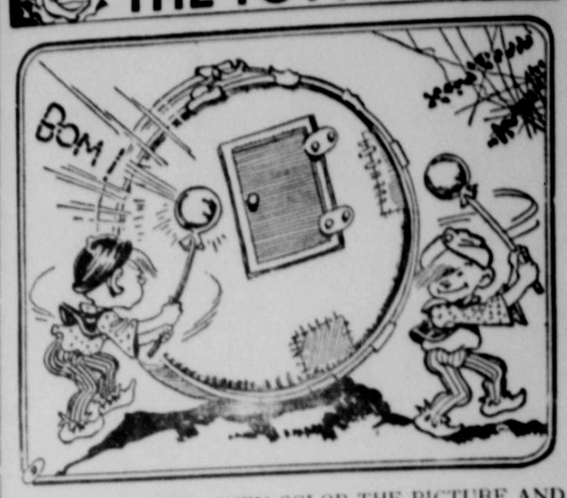

"In the event of any extreme defense emergency, one of the major problems will be the coordination of the transportation facilities of the United States," officials of the Public Roads Administration here said.

"At present no detailed information about trucks and busses isc available, although central authorities at Washington have complete data on railroads, airlines, airplanes, and water shipping. Yet motor vehicles have become a most significant part of our national transportation system," the officials pointed out.

"The War Department has recognized the problems that would be present in such emergencies and is making every effort to avoid a repetition of the error made by England when she awoke, after the war was raging, to the role that trucks and busses can play in a transportation crisis," they added.

The inventory will also be very helpful in connection with any rental or leasing of such vehicles to supplement Army equipment that might become necessary.

Adventures of THE TOTTIES

READ THE STORY, THEN COLOR THE PICTURE AND PASTE IN YOUR SCRAPBOOK)

The servants of the Thunder Man
Laughed loudly as the Totties ran,
Seated upon their shoulders wide,
Swaying a bit from side to side.

"A stunt like this I've never tried.
This is such fun," old Rattle cried.
"Let's all engage in a swift race.
We'll see which one will set the pace.

"We'll race to yonder tree and then
Turn 'round and run back here again."
"I'll be the starter," Duncy cried.
"Now, first of all, stand side-by-side."

He shortly gave the word, and gee,
It was a thrilling sight to see.
"Hang on," yelled Scouty, with a grin,
"'Cause if you do, we're going to win."

Brave Coppy kept up quite a pace
And, finally, he won the race.
Soon Rumble said, "We've had our fun.
Now, back into the trees we'll run

"The Thunder Man's at home elsewhere by,
In this big drum up in the sky.
Now hold your ears while we bound,
It's going to make an [illegible]"

Dairy Production Hits All Time High in Texas

AUSTIN, TEXAS, Oct. 28 — September dairy production in Texas this year reached all time highs for that month, a report from the University of Texas Bereau of Business Research indicated.

American cheese production for September was 48.7 percent above the corresponding month last year, according to the report of Dr. Fred A. Buechel, director of the Bureau.

Creamery butter output was 113 per cent above the same month

Now is the Time To Landscape

COLLEGE STATION, — The present is a suitable time to make a landscape plan which may be carried out during this year's planting season. Sadie Hatfield, specialist in landscape gardening of the Texas Extension Service says that it generally is considered safe to transplant shrubs and trees after the first frost and until the next growing season begins. The planning and planting of the home landscape is an activity in which the whole family can participate and enjoy.

To develop a landscape plan successfully some knowledge is necessary for making it, and thought and attention to it are required. Miss Hatfield suggests a preliminary visit by the family to some well landscaped homes to observe and use some of the desireable features such as convenient arrangement of walks and drives, placing of shade trees to keep out the sun, screening of the work area from public view, and outdoor living rooms or play areas. It is a good idea, too, for the family to make a trip or two to a nursery and nearby woods to study shrubs and trees which might be used in the landscape.

Each family should know the names of at least five shade trees, five evergreen shrubs, five decisuous shrubs, and five fruit trees which they would like to use in their homestead beautification. More or fewer plants than these may be used, but it is desireable to at least know those mentioned. Miss Hatfield believes it will be helpful to read aloud and discuss in the family circle some bulletins on landscaping. These may be obtained from the offices of the county extension agents or by writing to the Extension Service of A and M College.

Production of armor, guns and projectile facilities for the Navy has increased more than eightfold, according to announcement from the Navy Department recently. The cost —$236,7659000.

Creamery Installs New Modern Churn

A new Crano Rolless Churn of most modern design has just been installed in the Blue Bonnet Creamery, increasing the capacity of the plant to 16,000 lbs. of butter per week. The installation of this churn makes this institution comparable to the best found anywhere.

The churn has a capacity of 350 gallons of cream when half filled, producing 1200 pounds of butter. With its new and unique construction, the churn produces butter of absolute uniform composition, better grain, less shrinkage, and better keeping qualities.

The Blue Bonnet Creamery is producing a premium quality butter for the Los Angeles market where it is sold on Federal Government grade and inspection.

The management of the Blue Bonnet will be very glad to have their patrons or anyone interested, stop in when in Perryton, and see this modern piece of equipment in operation at the plant. Visitors are always welcome.

Battleships in the Navy are named after states, cruisers after cities, aircraft carriers after historic vessels or naval battles, and destroyers after heroic officers and enlisted men of the Navy and marine corps, former Secretaries of the Navy, members of Congress and prominent inventors.

"Trench Mouth" is Very Contageous

"The soft tissues of the mouth require as careful watching as the teeth, to keep them in a healthy condition," according to Dr. Geo. W. Cox, State Health Officer.

"One of the more common diseases to which these soft tissues are subject is the germ disease known as 'Vincent's infection' also called 'trench mouth' from the fact that it was very prevalent among soldiers in crowded camps and trenches during the World War. These two names are given to the disease when it affects the gums and supporting structures of the teeth; sometimes it affects the throat and tonsils, in which case it is called 'Vincent's angina'.

"One peculiarity of the germ that cause 'trench mouth' and Vincent's angina' is that they may live and thrive in the absence of oxygen. They enter the mouth and become fixed between the teeth, under the gum margin and beneath the margins of the fillings and Crowns. They grow in and about decayed teeth. They are more likely to be active and cause the disease to develope in mouths that are not kept clean and not well cared for than in clean, healthy mouths.

"The infection may be picked up through the use of common drinking cups, dishes or cooking utensils that have not been thoroughly cleaned, through drinking from insanitary fountains and in other ways. It can be spread to others, just as colds are, through coughing and sneezing.

"The disease is highly contagious and spreads very easily from person to person. It is characterized by bleeding and sore gums, and finally by ulcers in the soft tissues. In acute form the disease is painful and causes great discomfort. In extreme cases the infection may spread through the entire system with very serious results.

"Of course, not all bleeding or sore gums or bad breath are due to 'trench mouth', but at the first indication of such symptoms - no matter what the cause — a doctor or dentist should be consulted promptly and his advise and instructions should be followed with the utmost care. Those who develop the disease must also take every precaution to keep from passing the infection on to others."

The Navy Department has announced that during the first half of August six vessels were launched and eighteen new keels laid.

Texas Traffic Toll Increasing

AUSTIN. — Texas automobile drivers may set a record this year — a record for killing more people than they've ever killed before.

State Police Director, Homer Garrison raised this possibility today after studying the trend of "an alarming increase" in the state's traffic toll for the first nine months of 1941.

"Each month has shown a steady increase in the number of deaths over last year," Garrison observed. "In August the increase amounted to 11 per cent. The amount for September is not yet completed, and will not be for another 10 days, but already there is an increase over September of last year. The complete total for nine months is likely to show an overall gain of as much as 1s per cent.

"Mathematically, this rate of progress would result at the year's end in an increase of 20 per cent. That would mean 2,100 deaths, or approximately 50 more than the 2,043 deaths which set an all-time record in bloody 1937."

With 100 new Patrolemen and Drivers License Examiners due to graduate from training school late this month, Garrison saw a ray of hope. "With diligent enforcement supplemented by the efforts of these new men during two of the worst winter months," he said, "it may be possible to reverse the death trend and stay even with, or perhaps a triffle under, the 1937 record."

The pay of enlisted personnel in the United States Navy ranges from $21 for recruits to $157.50 per month for some chief petty officers.

FARM AND RANCH NEWS

ing Back Grass

County ranchman, right, tells Howard of the State AAA Committee, that the AAA's range conservation program has done more for his ranch than he ever had before.

* * * *

"More grass than we've ever had before" is the way B. A. Keathley, Glassclock County ranchman, describes his rangeland since it has been coutour furrowed under the AAA's range conservation program.

When the 80-year-old ranchman gets to talking about the value of contour furrowing, his eyes light up and he points to the green grass which is growing on land which in previous years was "just plain naked." With his hands he will point out the curve of the furrows by the extra greenness in the grass.

"Why, the water used to rush off this land as soon as it fell," the ranchman, who complains that his sons have made him stop riding horseback, declares. "On rainy days, the water would be stirrup-deep in the lowlands, while the uplands hadn' kept any water at all. But it's not that way any longer. Now the furrows hold the water and put it to work. Just look at the grass."

Keathley claims there is six times sa much grass on the land today as there was before the AAA inaugurated the ranch program, but others discount his statement by half — that is, that there is only three times as much.

"I never bought anything in my life more worth the money than the furrows." the rachman, who uses all of his range-building allowance and then digs into his pocket to do more work, said.

First aid has been prominent on programs for most 4-H Club girls' encampments this year.

HOME DEMONSTRATION CLUB NEWS

Get Your Money's Worth When You Buy Canned Goods

With food prices soaring from week to week, families who can't produce and conserve most of their food at home need more than ever to get full value for their money when they buy canned foods.

Since there are thousands of brands available in retail stores neither the homemaker nor the retailer can be sure of the quality each brand is supposed to represent. That's were the Department of Agriculture's Agricultural Marketing service has come to the rescue. Regardless of the brand name, the quality classes for canned fruits and vegetables established by the Department of Agriculture provide a reliable means of indentifying quality. Only products packed in plants under the "continuous inspection" of the Agricultural Marketing Service can be labled as a "U. S. grade."

Here are four grades, guideposts to consumers:

Grade A (Fancy) — Only the finest canned fruits and vegetables are in this grade. They are carefully selected as to size, color, degree of maturity and freedom from blemishes.

Grade B (Choice) — Products in Grade B are excellent quality but not so carefully selected or so tender and succulent as those in Grade A.

Grade C (Standard) — Products in Grade C are of good quality but not uniform in color, size and maturity as B.

Below Grade C — Some canned fruits and vegetables which fail to meet the requirements of Grade C in certain respects may be wholesome, nutritious and acceptable in flavor. If labeled to meet regulations under the Federal Food, Drug and Cosmetic Act they may be sold on the retail market.

In using these canned foods in the home all have their places. Grade A fruits and vegetables are used for salads and desserts where perfection in color, size and shape is important. Grade B foods are suitable for ordinary table use. Grade C vegetables might be creamed, or covered with a sauce since appearance is not so important. Grade C fruits might be used in puddings, frozen desserts, and cobblers. Below C grade foods might be used in stews and soups where flavor and appearance would be partially hidden by seasonings and method of preparation. Needless to say Grade A vegetables covered with a cream sauce would in many cases be a case of careless planning. Grade B or C vegetables have much the same flavor and texture, and the perfection of color and size of the Grade A food would be covered up in the preparation.

Green pasturage, which is succulent and high in protein is better for dairy cows because it will produce more milk than will any other kind of roughage.

Helpful Neighbors To Meet In Taylor Home

Mrs. Rece Taylor will be the hostess for the postponed meeting of the Helpful Neighbor club in her home in the New Hope community, Wednesday afternoon, November 5, two o'clock.

The meeting was scheduled for October 22 but had to be put off because of the muddy roads. Red Cross work will be done.

● Ochiltree Club

The Ochiltree Home Demonstration club met Friday, October 24, in the home of Mrs. A. L. Carter Jr. for the first all day meeting of the season. The members made curtains for the hostess before the club meeting.

The regular program on "Understanding the Adolescent" was postponed until the second meeting in November. Mrs. J. S. Slaughter gave an interesting report on her trip to Beaumont. Officers elected for the year were: Mrs. Dell Wilson, president; Mrs. Chas. McCartney, vice president; Mrs. Robert Thurman, secretary treasurer; Mrs. A. L. Carter Jr., council delegate; and Mrs. L. T. Wright, reporter.

Present for the meeting were Mesdames Claude Grouch, Kirt Williams, Edd Terhune, L. T. Wright, Robert Thurman, Chas McCartney, Dell Wilson, J. S. Slaughter and the hostess. — Reporter.

Ochiltree H. D. Club Will Meet November 7

The Ochiltree Home Demonstration club will meet in the home of Mrs. James Blasingame on Friday, November 7, for all day meeting. The lesson will be on "Living Room Achievement."

Visitors are welcome.

● Missouri Ave. Club

"This is very solemn occasion," was said repeatedly amid much laughter, at the regular meeting of the Missouri Avenue Home Demonstration Club, Friday afternoon, October 24, in the W. L. Lovett home.

For the recreation period, everyone stood up, forming a circle. Then each one, in turn, went to the center of the circle and bowed very low three times, saying each time. "This is a very solem occasion." She must not smile or laugh. The others tried to make her laugh. It proved a hilarious game.

During the business meeting, the following officers were elected for the next year: Mrs. Albert Ackley, president; Mrs. Earl McGarraugh, vice president; Mrs. C. O. Roach, secretary-treasurer; Mrs. Fred Huston, council delegate.

Mrs. Ivan Lovett was a guest. Members present were: Mesdames Earl McGarraugh, Fred Huston, J. H. Kershaw, W. R. Zenor, E. W. Witt, D. D. Shanks, Albert Ackley, C. O. Roach, J. S. Saughter, H. J. Wilson and the hostess, Mrs. W. L. Lovett. — Mrs. Albert Ackley, reporter.

● Notla Club

The Notla Home Demonstration club met in the home of Mrs. L. F. Waggoner on Tuesday, October 28, two o'clock.

The members answered roll call by telling how they had improved their living rooms. Some had redecorated and furnished with new furniture; others had made hooked rugs, slip covers, new drapes and various crocheted gadgets. Each member had made some improvement.

Miss Elizabeth Huffhines gave an interesting demonstration on hanging pictures.

During the business meeting the following new officers were elected: Mrs. W. E. Tandy, president; Mrs. Calvert Norris, vice president; Mrs. Earl Schwalk, secretary treasurer; Mrs. Erroll Flathers, council delegate; Mrs. Glenn Blackwell, reporter; and Mrs. W. M. Good, year book.

Visitors present for the afternoon were Mrs. Jay Moore, Mrs. F. L. Hamilton and Mrs. J. D. Wright Jr. and daughter, Nancy of Dallas. Members were Mesdames W. E. Tandy, W. C. Cotner, W. M. Good, Erroll Flathers, the hostess and the county demonstrator.

● East of Boyd

The weather is much cooler this morning. Almost every day last week was clowdy and heavy rains fell several days. Farmers report some feed rotting in the shocks.

Glen Schollenbarger, who is in Camp Roberts, Calif., writes home that he likes it there.

Mr. and Mrs. John Winter called at the Aldeen Rogers home and also at the Lee Schollenbarger home Sunday.

Mr. and Mrs. Aleen Dodgers and son Royce were guests Tuesday at a birthday dinner in the home of Mr. and Mrs. J. A. Rodgers near Turpin. The dinner was in honor of Aldeen Rodgers and his nephew Dee Rodgers, whose birthdays were on October 21.

Layle Nolder was ill part of last week with a bad cold.

Ben Kennedy and John Winter were transacting business in Perryton Saturday. —Mrs. Aldeen Rodgers, reporter.

Ochiltree County Farmers Are Urged to Attend Important Farm Program Meeting

Every farmer in Ochiltree county is urged to attend the special farm program meeting to be held in the district courtroom in Perryton Saturday, Nov. 1, 2 p. m. Audie Conley, chairman of the County Committee, will preside at this meeting at which the special farm program for wind erosion will be explained and discussed.

The farmers of the county will again be given the opportunity of voting as ta whether or not they voting as to whether or not they ial program which has been used by the counties to the west for the past two years. It will be recalled that the farmers voted on the question a year ago and by practically a unanimous vote decided to retain the regular program.

Since the regular program for 1942 has been rather radically changed, the special program appears to offer several advantages, as follows:

1. Sweet sorghums may be planted on the 20 per cent conserving acreage and used for hay or pasture but not for silage, while under the regular program, sweet sorghums or cane is counted as soil depleting acreage along with barley oats etc., unless left on the land or harvested in narrow strips.

2. Under the special program it will be practical for every farmer to earn his maximum soil building payment, while under the regular, comparatively few farmers will be able to earn the maximum soil building allowance for their farms.

3. It is claimed by the counties under which the plan has been operating that it is simpler to understand and operate.

Greeting Cards at Herald office!

Farm Income Continues to Soar Above All Time Records in Texas

AUSTIN, TEXAS, Oct. 28 — Texas agricultural income zoomed 20 per cent during September above the total for the corresponding month a year ago, according to Dr. Fred A. Buechel, director of the University of Texas Bereau of Business Research.

On the basis of reports from all sections of the state, farm income for September, 1941, totaled $100,609,000, as compared with $76,698,000, a year ago.

For the first nine months of this year, income was $330,512,000 an increase of 25 percent over the corresponding period of 1940, when the total was $264,906,000.

"With the exception of September, 1937, the year of the record cotton crop in Texas, this is the best September showing for more than a decade," Dr. Buechel declared. "Part of the improvement, however, resulted from the fact that cotton ginning in Central and Southern Texas counties were delayed, thus causing more than the normal percentage of the annual production of cotton in these areas to be ginned in September.

"Cash income from livestock and livestock products is being well maintained and is sharply above that of September, 1940, from these sources, a result almost entirely of the rise in price level over a year ago, since marketing remained virtually unchanged in comparison with September last year.

"Important exceptions were dairy and poultry products, the output of which was sharply above that of a year ago.

"Present indications point definitely to further substantial gains in farm cash income from livestock and livestock products during the coming months," his report concludes.

Wheat Production Same as in 1940

Final figures on the wheat production for 1941 have been compiled by the county office and show a total production of 2,474,000 bushels. This is almost exactly the same amount that was produced in 1940. Sixteen percent of the sown wheat was abandoned and never harvested. Most of the abandonment was caused by rust and wet weather.

Two Day Farm Meeting Opens Amarillo Today

A two day meeting is scheduled to be held in Amarillo Thursday and Friday of this week for the purpose of discussing details of the 1942 Farm Program. The second day of the meeting will be devoted to discussion of the Food for Defense Program.

Those attending the two day sessions from this county are Audie Conley, G. B. Mears and C. O. Roach, members of the county committee, Mrs. Viola Miller, county administrative officer, Mrs. Pauline Schroeder, AAA clerk, and E. W. Thomas, county agent.

Friday's session will be attended by F. B. Sumpter, Ford Hampker and Scott Amend, members of the County USDA Defense committee, and Miss Elizabeth Huffhines, county home demonstration agent.

Live Stock Minerals

Many questions are being asked by farmers and stockmen in regard to minerals for livestock. The Sonora Station of the Texas Experiment Station found a mixture of two parts of bone meal and one part salt very satisfactory for all classes of livestock. However, many stockmen have found a mixture of one part bone meal, one part ground limestone and two parts of salt to be satisfactory and considerably cheaper in cost than the mixture used by the Experiment Station.

Friendly Neighbors Will Meet Wednesday

The Friendly Neighbors club will meet Wednesday, November 5, for an all day meeting in the home of Mrs. Ecton Lawrence, 320 SW Second street.

Members are asked to come early prepared to sew for the Red Cross.

Yesterday's tomorrow is tomorrow's yesterday—today.

GIRL SCOUT NEWS

The Kitten Patrol met Thursday afternoon in the school building. The patrol was divided into two groups for a contest to see which group could finish first and second class badges. The loosers will treat the winners.

In observance of National Girl Scout Week, all scouts will attend the Christian Church in a body, Sunday morning, November 2.

The Bluebird Patrol has divided into two groups and are working on second class activities. Tommy Jean Weldon is captain of the Sunshiners and Jeanine Seymour is captain of the Early Birds.

During the meeting Tuesday, Miss Virginia Vaughan and Miss Edith Newman, leaders, took both teams to the Home Ec rooms where they supervised work on covers for second class note books.

The Early Birds were in the lead this week but Sunshiners say that they can't stay ahead because it's every one's contest. Those present were: Marie Pease, Jeanine Seymour, Laverne Patterson, Annabelle Daniels, Patsy Adams, Eleanor Witt, Arline Reed, Carol Lawerence, Retta Powell, Peggy Jean Lovett, Dora Mae Baker, Tommy Jean Weldon, Barbara June Smith, Patsy Henry, Mildred Boren and Jane Perry.

The Puppy Patrol of the Perryton Scouts was organized Tuesday afternoon with Miss Faye Pinkley the leader. The girls were divided into two groups: Every Ready with Barbra Mae Buckley the leader and the Diamond with Gwen Lee Vestal leader.

Others in the patrol are Texas Cunningham, Laura Ruth Hall, Norma Jo Boyd, Camilla Kelley, Wanda Stucker, Claudine Carmichael, Joan Gunter, Joan LaFever, Rozelle Vaughan, Belva Dull, Lois Cook, Edith Oidley and Betty Jean Willis.

Henry Elected Head Of Teachers Ass'n

S. N. Henry was elected president of the Perryton-Ochiltree Unit of Texas State Teachers Association in a meeting October 13. This unit is a part of the work carried on by the State Organization, and all teachers in the Perryton Schools are members.

Other officers elected for the 1941-1942 were Miss Virginia Vaughan, first vice president; Miss Katherine Winkler, second vice president; Miss Mary Jane Hall, secretary, and Mrs. O. E. Burk, treasurer. The executive committee will meet in the near future and make plans for the coming year.

● Hospital Notes

Rosella Dorine Gurley, Waka, was a medical patient over the weekend.

Charles Tregellas of the Gray community entered the hospital Thursday. He has complication following an attack of influenza but is some better at present.

Dana Lollioment had her tonsils removed Saturday.

Roland Tidball was a patient Tuesday and Wednesday.

Miss Lilia, daughter of Mr. and Mrs. Geo. Jackson underwent an appendectory Tuesday. Her condition is satisfactory.

Mr. and Mrs. Li. C. Ingle and daughter, Jeannine, came in Monday from Gallup, New Mexico, and visited overnight in the home of her sister, Mrs. Ray Weir. The Ingles are moving to Follett where he will be connected with the bank.

● Coming School Events

THANKSGIVING —Holidays Nov. 20-21.

Methodist Elect Officers Sunday

The adjourned session of the Fourth Quarterly Conference of the Perryton Methodist Church is called to meet at the church Sunday afternoon at 2:30 o'clock. At this meeting additional officers of the local church will be elected.

Reports of the treasurer and others will be made and all work for the current conference year will be completed. By special authorization of the district superintendent, the pastor, Rev. William E. Fisher will preside during the meeting.

The pastor will preach at both services Sunday, November 2. At the morning hour, he will administer the sacrament of the Lord's supper. "This will be the last sacramental service of the conference year," said Rev. Fisher, "and it is the desire of the pastor and the official board that all families of the church be present at this service."

The pastor's sermon subject for Sunday morning will be, "The Scarlet Thread," and at night, "Try God". The robed choir will give an anthem at both services.

Cafky's Beaver Sale is a Leader In Southwest

With a record of over $5,000,000 worth of live stock going through his sale ring in seven years, Geo. Cafky, Beaver, Oklahoma banker, has built the Beaver Live Stock Sale from an obscure run-off-the-mill community sale into one of the largest in the Southwest.

For a year or so after starting the Beaver sale was held at the Beaver county fair grounds. Now the Beaver Livestock sale is housed in its own plant with ample feed and loading pens and an enclosed sale ring seating over 1,000 people. Sales are held each Wednesday.

Mr. Cafky was a Perryton visitor Tuesday and while here announced that 1,500 head of stock will go on the auction block at his sale next Wednesday, Nov. 5. He stated that the sale is enjoying its biggest success this year and that the present outlook is for total volume of $1,000,000 in 1941. September volume was $150,000 and October sales to date total $200,000.

Red Cross Room Notes

Mrs. J. F. Cox, production chairman of the Ochiltree County Chapter of the American Red Cross, received an urgent request from headquarters this past week for an early shipment of all hospital bedshirts and convalescent robes. England has sent her supply to Russia and all available garments are needed in England.

This Chapter has a quota of 48 bedshirts and 15 convalescent robes, which were to be completed by the first of the year. Work is being rushed on these garments and all that are ready will be shipped by November 10. They are all cut and ready to be sewed. Will you help make it one hundred per cent?

Workers

Ladies calling at the room for supplies or remaining for work the past week include:

THURSDAY— Miss Bette Bryan, Mrs. Henry Richardson, Mrs. B. B. Lee, Mrs. J. O. Young.

FRIDAY—Miss Bette Bryan, Mrs. Omar Truax, Mrs. Bill Youngblood, Mrs. R. C. Allen, Mrs. F. M. McGee, Mrs. G. W. Acker, Mrs. Roy Hoghland, Miss Nellie Wingren.

TUESDAY— Miss Bette Bryan, Mrs. J. F. Cox, Mrs. Roy Hoghland, Mrs. D. A. Caldwell, Mrs. Frank Keith, Mrs. Delta Davis, Mrs. A. J. Kelly, Mrs. H. A. Finch, Mrs. R. T. Correll, Mrs. Ray Nelson, Mrs. Charley Kent, Mrs. G. L. Kengle, Mrs. Bill Barker, Jackie Adams, Mrs. H. I. Hudson, Mrs. Geo. Clennan, Mrs. D. A. Caldwell, Mrs. Jack Allen, Mrs. Edna Pearson.

WEDNESDAY— Mrs. J. F. Cox, Miss Bette Bryan, Mrs. Henry Richardson, Mrs. Frank Hamilton, Mrs. H. I. Hudson, Jackie Adams, Mrs. Lake Patton, Nelda Ruth and Ruby Ann Patton, Mrs. A. L. Carter Sr., Mrs. F. M. McGee, Mrs. John Bolin, Mrs. B. B. Lee, Mrs. M. F. Hethcock, Mrs. Dora Keim. Members of the Friendly Neighbor and the Helpful Neighbor clubs spent their work time Wednesday on Red Cross work.

Duck and Goose Season Opens Sunday 7:00 A. M.

The open season on wild ducks and geese starts at sunrise (7:09 o'clock) Sunday morning, Nov. 2.

The daily shooting hours are from sunrise to 4 P. M.

There have been some changes made by the federal government in the laws in this 60-day open season which ends on Dec. 31.

Chief among the changes in the rules:

The use of cattle, horses, mules or any other kind of livestock as blinds in any manner whatsoever.

Removed the limit of three which prevailed last year on canvasbacks and ruddy ducks.

Transferred the state of New Mexico to the southern zone which is the same district Texas is in.

Bag Limits

Ducks—ten a day, or 20 in possession, the same as last year. However one wood duck may be included this year. Three buffleheads or three redheads or three of these species together may be in the daily bag, and six among the ducks possessed. Canvasbacks and ruddy ducks, formerly grouped with the redheads and buffleheads, were restored to the list of species with the 10-bag and 20-possession limits.

Geese and brandt (except Ross's geese, which may not be hunted)—three a day, or six in possession. In addition, hunters may take three blue geese a day, and they may have six blue geese in possession, in addition to the general six-goose limit. The original three or six may also include or consist entirely or blue geese, and it is thus possible for a hunter to take six blue geese a day or have 12 in possession, if he takes or possesses no other kinds of geese.

Rails and gillinues (except sora and coot)—15 in the aggregate of all kinds; sora, 15; coot, 25; woodcock, four; mourning and white winged doves, 12 in the aggregate of all kinds.

Possession limits on sora, coot, rails, gallinues, are the same as the daily bag limits, but hunters may have eight woodcock, or two days' bag in possession.

Hunting Methods

Permitted — Shotgun not larger than No. 10 guage, fired from the shoulder; bow and arrow; dog; blind or floating device other than sinkbox.

Prohibited: Automobile; aircraft, sinkbox (battery); powerboat, sailboat, or any device towed by powerboat or sailboat; rifle; automatic-loading or hand-operated repeating shotgun OF MORE THAN THREE-SHELL capacity in the magazine and firing chamber combined; live duck or goose decoys; the hunting of waterfowl by means, aid, or use of cattle, horses, mules (as blinds or in enabling the hunter to approach the birds), or the hunting of waterfowl by means, and or use, directly or indirectly, of corn, wheat, oats or other grain or product thereof, salt, or any kind of feed whatsoever, placed, deposited, distributed scattered or otherwise put out.

Nazarene Church Postpones Revival

The revival servtees scheduled to begin in the Nazarine Church on Friday, October 31, have been postponed until a later date, according to the pastor, Rev. W. E. Bond.

The graveling of the street in front of the church and other repair have been so delayed by the continued rains, that it seems advisable by the congregation to change the time of the revival services. The exact date will be announced later.

Attend OES Grand Chapter, Amarillo

Mrs. P. E. Sebastian, worthy matron of the Perryton O. E. S. Chapter, Mrs. J. W. Chase and Mrs. M. L. Brillhart went to Amarillo Monday to be in attendance of the Grand Chapter of the Eastern Star of Texas which convenes from Sunday through Friday.

Mrs. R. T. Bowen, Mrs. Audie Conley and Mr. and Mrs. J. N. Conley attended part of the sessions.

Roachs Help Launch "Food For Freedom"

Mr. and Mrs. Curtis O. Roach, Ochiltre county farm couple prominent in state agricultural affairs, were called to College Station Monday for the launching of the statewide educational program that will put the Texas "Food for Freedom" campaign over.

Mrs. Roach is state treasurer of the Texas Home Demonstration Club Association and Mr. Roach is state ppresident of the Farmers' Union. Both were at Texas A. & M. in an official capacity.

Ways and means for Texas farmers to comply with the department of agriculture request for more production were discussed and plans laid for a successful program. Increases asked of Texas include a four per cent increase in dairy products; 10 per cent increase in egg production; cattle for marketing and farm slaughter must go up 12 per cent and a six per cent increase in sheep and lambs to be accomplished by saving more of the lamb crop; a 17 per cent increase in the spring pig crop; and a 13 per cent hike in farm garden products. No increase in production of wheat and cotton as there is a too large surplus of these basic crops already.

United States farmers will be asked to raise food for domestic comsumption and in addition enouch to feed 10,000,000 people of the Democracies battling Hitler's aggressors. As Texas now produces 10 per cent of the farm products of the nation, it means that Texas farms will be called on to raise food for a million more mouths.

THAT FULL, CHOKED FEELING after eating and drinking usually comes with acid indigestion and heartburn. Have ADLA Tablets handy, they contain Bismuth and Carbonates for quick relief. Your druggist has them.

SANFORD DRUG CO.

Vets Of 90th Division to Meet at Tulsa

There are many former members of the world-war 90th Division in and around Perryton who will welcome the announcement that this year's big annual reunion of the 90th Division Association will be held in Tulsa, Okla., on Friday-Saturday-Sunday, November 7-8-9. Convention headquarters have been established at the Mayo Hotel.

The 1941 President is Dr. C. P. Harth, 305 Palace Building, Tulsa. Executive Secretary is W. R. Marlin of Pawnee, Okla.

Veterans of the 90th who live in Tulsa are extending an invitation to all former 90th Division men to attend this year's reunion and they are already at work on a program which they are certain all the old boys who saw action in 1917-1918 will greatly enjoy.

All Ninetieth veterans are asked to "pass the word down the line" to every 90th man you meet . . . . tell him about all the fun he will have by attending the Annual 90th Reunion in Tulsa on November 7-8-9.

Former members will re-live days spent in training at Camp Travis, near San Antonio, Texas, experiences in the St. Mihiel and Meuse-Argonne drives, and those months spent in the Army of Occupation. History has recorded the fine work done by the Ninetienth, claimed jointly by Oklahoma and Texas.

All that is needed by a former 90th man to have the time of his life at this 1941 Reunion is a membership card costing but a dollar bill. So, right now is a good time to slip a dollar bill into an envelope with your name and former organization, plus present address . . . . and mail it to President, 90th Division Association, 305 Palace Bldg., Tulsa, Oklahoma.

Dalhart Seeks Person Coining Term "Dust Bowl"

DALHART, Texas, October 27 — If you know who used the term "Dust Bowl" in print, or used the term and was quoted in print prior to the afternoon of April 25, 1935, there's $50 spot cash waiting for you.

The Dalhart Texan two weeks ago offered $50 for information leading to the positive identification of the person who coined the term, dust bowl.

The Texan also offers to pay the coiner's round-trip fare to Dalhart, to take him on a tour of the old dust bowl area where new records in crop, grass and fat cattle are being established, and then honor him with a banquet in Dalhart.

Newspapers of this five-state territory have joined in the search and

If Your Car Could Talk — Would It Say,

"I'M OK for WINTER DRIVING"

Motor Tune-Up

When we advise a motor tune-up, perhaps you think that tuning up a motor is just a few minor things that do not amount to much. A motor that is not in tip top shape is very costly to operate. It is hard to start, working a great hardship on your battery. It does not have the smooth performance and the quick get-away it should have. Bring your car in for that tune-up. There is a very slight charge.

Lubrication

These cold mornings call for new lubrication in the working parts of your car. Old worn grease should be removed from front to back and be replaced with new winter lubricant.

Brakes

Rainy, foggy weather calls for some quick stopping. Let us see to it that your brakes are in the best of condition. We have the latest type equipment to service them with.

Body and Fender Service

Along with our up-to-date repair department we have a body and fender shop and trained men to give you the very best of service. There is no job too large or small for us to handle.

Klever Kraft Klub Met Tindle Home

Mrs. Gerald Tindle was the charming hostess Wednesday afternoon when she entertained the Klever Kraft Klub for a social afternoon.

During the afternoon, tasty refreshments were served to Mrs. Ford Hamker, Mrs. Ellis Kelly, Mrs. Bill Trayler, Mrs. Herman Morgan, Mrs. Alton Witt, Mrs. Frank Teague and a guest, Mrs. T. V. Slack.

Chi Sigma Phi Has Dinner and Bridge

Mrs. Steiner Mason entertained the Chi Sigma Phi club for seven o'clock dinner in the Hotel Perryton Thursday evening.

Bridge followed the menu with high score prize going to Mrs. Henry Richardson and second high to Mrs. Max Boyer. Others playing were Mrs. Fred West, Mrs. C. B. Rogers, Mrs. Cecil Dodd, Mrs. LaRue Norris, Mrs. G. W. Acker and Mrs. Mason.

Farnsworth Bridge Met in Smith Home

Mrs. Merton Smith entertained her bridge club for a lovely party in her Farnsworth home Thursday afternoon.

At the close of the games a delicious refreshment plate was served to Mrs. John Luthi, Mrs. Ray Chase, Mrs. Dean Conner, Mrs. Herman Hargrove, Mrs. Ben Peckenpaugh, Mrs. E. J. Copeland, Mrs. O. C. Rogers and Mrs. Smith.

High score award was won by Mrs. Luthi and second high by Mrs. Peckenpaugh.

Newly Weds Are Surprised With Lovely Shower

Mr. and Mrs. John Holland, who are living at the Murphy apartments were honored with a miscellaneous shower in the home of Mr. and Mrs. H. C. Sanford, Monday night. Miss Nelda Rose Wright, R. O. Dieball and Joe Steele arranged the party which was a happy surprise for the honorees.

Forty guests were present for the occasion and others sent gifts. Mrs. Sanford served a tasty refreshment plate during the evening.

Seventh Birthday Honored Thursday

Billy Jeanne Suitor was the charming little hostess Thursday afternoon for a party honoring her seventh birthday anniversary, in the home of her parents, Mr. and Mrs. Lonnie Suitor.

After an hour of merry games and Halloween stories told by Mrs. Ryan, Mrs. Suitor served refreshments to Yvonne Rupprecht, Maresa Sue Pittman, Ronnie Witt, Rodney Symons, Billy Dean Seymour, Linda Riley, Donna Carrol Reitz, Mary Lou Shrader, Marilyn Richardson, Janet Ranson, Mack Suitor, the honoree and Mrs. Odell Ryan.

Party Celebrates Joint Birthdays

Mrs. Tom Waugh and Mrs. Louis Bryan were cohostesses for a lovely party Thursday afternoon in the Bryan home. It was the eighth birthday anniversary of both Joan Bryan and Janette Waugh and the mothers invited a number of their little friends to help them celebrate the happy occasion.

Halloween decoration were very prominent and favors and games carried out the spirit. Ice cream and birthday cake were served.

The guests present were Mary Lou Reid, Ann Wedgeworth, Nancy Dodd, Norma Jo Boyd, Shirley Gale Littleton, Texie Cunningham, Shirley Keim, Betty Lawrence, Marilyn Richardson, Patsy Miller, Elaine Graves, Patsy O'Dell, Roma Faye Hawk, Faye Marie Beck, Camille Kelley, Colleen Schell, Betty Holdeman, Beverly Hale, Maxine Penman, Charlene and Belva Dull, Sandra Singler, Donita Gunter, Merle Hulsey, and the honorees teachers, Mrs. Oland Woodall and Miss Nellie Wingren.

Methodist Ladies Have Weekly Meet

The Woman's Society of Christian Service met Thursday afternoon in the Methodist Church for the weekly prayer program.

The meeting was called to order by Mrs. Clifford Beck, who directed the following program: prayer, leader; song, "Come Thou Almighty King"; "Imperative Need of Medical Care," Mrs. Jack Allen; "O' Master Let Me Walk With Thee", played as silent meditation; reading, Mrs. E. E. Perkins; "Brewster Hospital and Christian Service," Mrs. J. W. Chase; prayer, Mrs. W. R. Fisher; "Avenues of Christian Service," Mrs. J. H. Neufeld; silent prayer for deaconesses; "When Our Deaconess Retired," Mrs. W. E. McMillen; responsive reading; song "Break Thou the Bread of Life,"; "Under "Undergriding Christian Literature", the Mosaic Law", Mrs. C. F. Jones; Mrs. Max Boyer; free will offering; closing prayer.

Others present include Mrs. Glen Shrader, Mrs. C. B. Rogers, Mrs. Chas. Garrett, Mrs. M. L. Brillhart, Mrs. D. C. Wilson, Mrs. Jas. F. Bray, Mrs. W. C. Herndon and Miss Nellie Perry.

Dinner Guests in McGibbon Home

Mrs. Glen McGibbon ond Miss Minnie Ethyl Wainscott entertained with dinner Thursday evening for the teachers of little Miss Marianna McGibbon.

Plates were laid for Mr. and Mrs. C. C. Baker, Mr. and Mrs. Kendall Kelly, Mr. and Mrs. O. W. Dunkle, Mr. and Mrs. Glen Truax, C. Wedgeworth, Hadley Reeves, Miss Mary Louise Yoe, Miss Faye Pinkley, Miss Virginia Vaugan, Miss Wainscott, Mr. and Mrs. McGibbon and Marianna.

Townsend Ladies Met on Tuesday

The Towsend ladies spent a very pleasant day Tuesday in the country home of Mr. and Mrs. O. E. Carter.

The meeting was called to order by Mrs. E. O. Bruner, president, and prayer given by Mrs. Witt. Work was done on a quilt for the hostess. The club decided to quilt a quilt for Mrs. Lewis, also to meet one day each month to work for the Red Cross.

Those present to enjoy the day and the noon meal were Mr. and Mrs. H. C. Dodson, Mr. and Mrs. E. O. Bruner, Mr. and Mrs. E. W. Witt, Ray Scott, Mesdames H. J. Wilson, Ida Smith, P. A. Anderson, S. E. Goucher, J. M. Bull, C. E. Cline, Mr. and Mrs. Carl Carter and children and the host and hostess.

day, November 11, in the home

The next meeting will be Tuesof Mr. and Mrs. H. C. Dodson. The members are asked to bring either sandwiches, cake or pie.

Baptist WMU Held Circle Meetings

Thursday was Bible Study for the Baptist Missionary and the group met in Circles for the study.

The Lance Circle met in the church with Mrs. J. R. Thomas as hostess. Mrs. L. L. Lance, leader, opened the meeting and conducted the business. Mrs. Thomas led the Bible discussion which was on the book of Genesis.

Dainty refreshments were served by the hotsesss to Mesdames T. P. McLain, A. C. Emberson, L. L. Lance, Clyde Cofer, Wm. Ollenbarger, A. S. Brillhart, J. S. Slaughter, F. M. McGee, R. H. Holland, I. R. Buchanan and Cheter Cooper.

The Burton Circle was entertained by Mrs. Herman Morgan in her home. Mrs. G. M. Parker was leader for the study. Delicious refreshments were served by the hostess to Mesdames Parker, G. D. Holt, Paul Bowen, Mark Burton, W. B. Reid, Tom Evans, A. J. Kelly, Earl Miller and Don Shockley.

Mrs. E. M. Doggett was hostess for the Shotwell Circle in her home, 919 SW Sixth street. The Bible lesson was brought by Mrs. Stanly D. Key.

Others enjoying the meeting were Mesdames J. M. Grigsby, J. O. Wooten, A. M. Horan, S. R. McClung, H. E. Shotwell, Chester Williams, Virgil Castle, Oscar Flowers, J. C. Ebersole, L. T. Tucker and T. W. Johnson.

Parent-Teacher To Serve Chicken Dinner at Carnival

The regular meeting of the Parent Teacher organization was held Monday evening in the school auditorium with Mrs. K. H. Crisp, president in charge.

Plans were made and committees appointed to work out the PTA part of the Nee-Wollah carnival. The Unit will have charge of the Cafeteria and will serve a 40c chicken dinner at six o'clock. Hamburgers, pie and coffee will be served at all hours.

As the last week in November is Children's National Book Week, parents are asked to donate a book to the school library. Mrs. Otis Burk, librarian, will see that your book is placed in the proper division. Mrs. E. W. Thomas was elected delegate to the State Parent Teachers Congress, which convenes in Austin November 4 to 6.

The program consisted of the following numbers by the school choir directed by Glenn Truax: "Star Spangled Banner," and concert arrangements of "Row, Row, Row Your Boat", "Are You Sleeping Brother John", "Abide With Me" and "Hail! Perryton Rangers"; and an address "Happiness Through Working Together" by Hadley Reeve assisted by Miss Mary Louise Yoe and students from the sixth grade, who gave an art demonstration. Slides of pictures from their regular classroom work were used to show the value of art in school.

Special guests present from Spearman were Mr. and Mrs. M. W. Graves, Mr. and Mrs. B. P. Hill, Betty Jean and Jo Mac and Mrs. F. J. Daley, Elaine and Barbara Jean. Mr. Graves, school principal and president of the PTA, brought greeting from the Spearman and an invitation to visit their association. Betty Jean and Barbara Jean, accompanied by Mrs. Daley at the piano, sang, "A Melody of Love" and "Flag Day March."

The room vote was won by the first grade. The birthday fund netted $1.81. The Perryton Association will be hostess to the meeting of the county council on Friday afternoon.

Mehl-Speakman Wedding Sunday

Mr. and Mrs. Fred S. Mehl announced the marriage of their daughter, Miss Carrie Mehl, to Mr. Theadore Speakman, son of Mrs. Fred Speakman, of Tyrone Okla., The ceremony taking place in the home of the bride's parents at Boyd, Okla., Sunday, October 26, at high noon with Reverend Unruh performing the ceremony.

The following guests were present Mr and Mrs. Fred S. Mehl of Boyd, Okla., Mrs. Fred Speakman, Miss Jasephine and Mr. Hershel Speakman, Mr. and Mrs. Myrl Bowers and family, Mr. and Mrs. Olin Cline, Miss Lahoma Cayton of Tyrone, Okla., Miss Lydia Mehl, Miss Pat Rutledge of Guymon, Okla., Mr. Warren Speakman, Mr. and Mrs. Otto J. Mehl, Mr. and Mrs. Fred J. Mehl of Wichita, Miss Doris Thiede of Liberal, Mr. and Mrs. Jake Neufeld of Perryton, Texas., Mr. and Mrs. Pete Bartel, Mr. and Mrs. Alex Wahl, Mr. and Mrs. Ed Wahl, all of Balko, Okla., Miss Gertrude Finch, Mr. Estes Firestone, Northrup, Mr. Warren Harwell, all of Goodwell, Okla., and Reverend and Mrs. Ervin Unruh of Beaver, Okla. Southwest Daily Times, Liberal.

Halloween Theme Bridge Luncheon

Mrs. Glen McGibbon and Mrs. Jack Todd entertained with an attractive bridge luncheon in the McGibbon home Wednesday afternoon.

The house was gaily decorated in Halloween symbols and fall flowers. Tiny pumpkins were used as plate favors and the menu, bridge appointments and prizes were in keeping with the Halloween. Mrs. Shearer was high, Mrs. Sims, second high and Mrs. Jines received the traveling award.

The guest list included Mesdmes F. B. Sumpter, Claud Allen, J. H. Brashears, George Phillbrick, Dean McCutcheon, Ralph Arnold, C. L. Craig, Glenn Truax, Leroy Hartman, W. B. LaMaster, H. C. Brillhart, R. T. Correll, Virgil Castle, Carl Ellis, Jack Allen, Manse Wood, Roy Orrill, Sibley Jines, Charles Garrett, Oscar Flowers, H. E. Shotwell, Otis Shearer, W. L. Herndon, Tom Frittz, E. W. LeMaster, H. J. Boisdorf, Roy Bell, D. D. Shanks, A. C. Witt, W. B. Reid, H. C. Sanford, C. B. Rogers, Crawford Sims, H. M. Sanford and Scott Amend.

Miss Beulah Scott visited relatives and friends in Fort Worth last week end.

LETTERS FROM OUR READERS

THE HERALD WILL PRINT COMMUNICATIONS THAT ARE ACCEPTABLE TO IT. THEY MUST BE FREE OF LIBEL AND PERSONAL ABUSE. SHORT ONES WILL BE GIVEN PREFERENCE. AUTHOR'S NAMES MUST BE SIGNED TO MANUSCRIPT AND THEIR ADDRESSES MUST BE GIVEN. ONLY ORIGINAL COMMUNICATIONS ADDRESSED TO THE HERALD WILL BE PRINTED; OPEN LETTERS OR LETTERS OTHERWISE ADDRESSED TO VARIOUS PERSONS IN PUBLIC LIFE ARE NOT ACCEPTABLE.

(Editor's Note: The Herald is just in receipt of letters from three Ochiltree County young men in the U. S. Army. Excerpts are taken from the letter of Morris M. Payne, written to the Herald bunch. Prior to his enlistment, Payne was a member of the Herald staff for several years. E. W. (Buck) Garrison, who recently completed maneuvers in Louisiana, writes from North Carolina, where he is again doing duty in maneuvers. The third letter is from Henry Regier, who wrote home folks from Springfield, Mo.)

Schofield Barracks, T. H.
October 4, 1941

Dear Herald Bunch:

Well, here's that man again! Greetings and salutations from the beautiful isles of the Pacific. Ha. I am liking the army better and better every day. Especially since I am out of recruit drill and have been assigned and know what I am going to do.

It was my very good fortune to draw the best job in the outfit, that of clerk for the Commanding Officer of the whole Detachment "shebang". I have a desk, typewriter, orderly room, etc. No K. P. or any other type of fatigue duty. There is even a rookie to clean the office. Never saw anything like it!

When I have been in the army four months I will be eligible for ratings and higher pay. They are in the bag for guys on the technical staff, the rest of the office bunch tell me. That suits me. I have been working a week in my job now and go to work at 7:00 a. m. and off at 3 p. m. daily with the exception of Wednesdays, Saturdays and Sundays, when I have the entire afternoon free.

Two of my pals and I went over to Waiwaiki last night and visited à place that looked like stage property for "Aloma of the South Seas". Had a lot of fun!

I received the paper yesterday and immediately pounced on it and devoured it word for word. Also passed it around to the office bunch. You should have heard the compliments paid it. I threw out my chest and told them that I used to be "Chief Flunky" on the sheet. After the war I'm going back into newspaper work as I still consider myself a member of the profession. Right now I'm resting. A lot of fun, too.

Thanks a million for sending me the paper. I like to keep track of what my erstwhile cronies are doing.

My $30.00 a month pay will begin when four months expire. Some finance, huh? This experience is worth a fortune, however. Even though I hate to spend three years of my life in the army at this stage of the game.

We get mail as a pastime here and eagerly await the arrival of the daily Clipper and all mail boats.

I can't seem to get used to this weather. It is warm all the time and the most beautiful flowers bloom in profusion everywhere. The earth is of volcanic origin and is as red as the hills of Oklahoma. Pineapples grow everywhere in the fields, but if a soldier is caught taking one he is charged $50 each. Sugar cane sells for $10.00 a joint if you are caught. They aren't very good anyway. I ate one.

I must close. So long. Pardon the length of this letter, I seem to have been carried away with the idea.

Sincerely yours,
"Bat"
Pvt. Morris M. Payne,

Schofield Barracks,
Honolulu, Hawaii.

October 17, 1941

Hello Everybody:

Well, here I am in the "Show Me" state. Mighty nice place. Its not so cold here. However its been raining since we got here.

Guess I better start with the trip. We left Camp Grand, Wednesday morning at 7:30. Got to Chicago 'round 9:30 and arrived at St. Louis at 5:30 p. m. We missed the train there so we had to lay over until 11:57 p. m. when we pulled out for Springfield. Reached here at 6:00 a. m. Thursday.

We're not doing anything yet. Nobody gets sick here, I guess. This is a new outfit. Everybody is well satisfied—seemingly. They sure treat us nice here. And another thing no K. P.s. And we don't have to stand reveille or retreat. And another thing we don't have to have a pass to go to town.

This post is on the notheast edge of town. It only costs five cents to go to town. I took a squint at the map and it appears I'm only 500 miles from home. I might pay you a visit one of these week ends. 'Course, I'll have to wait until pay day.

Last night, a bunch of us went to town to see the 'lectric lights. It was our first night here, so we thought we'd see what we could see. Nice drag—about 50,000 POP. Pretty girls, too.

Guess I better sign off. It's about dinner time. Be sure to write.

Pvt. Henry Regier,
Bldg. 28 O'Reilley Gen. Hospital.
Springfield, Mo.

With the First Army near Rockingham, N. C.
Sunday, October 19, 1941

Dear Mr. Stewart:

Well, this is one of those quiet Sundays in the army, so here comes a short letter. The last time I wrote I thought that my maneuver days were growing short, but when we got thru with two months manuevers in Louisiana, I found that I was only at the half-way mark.

When we got back to Fort Sam Houston there was an order waiting for us, calling for twenty-five radio cars, complete with drivers and operators, to assist in the first army manuevers, just beginning here in North and South Carolina. I got caught on the detail.

I arrived in Fort Sam one day, and at four-thirty the next morning we were on our way over here. Just had time to take a bath and get part of a night's sleep in a "bed." You know, Mr. Stewart, these things called beds are more or less a luxury. They could hardly be classed as necessity. At least that's the slant that your uncle Sam's army takes on the subject.

We had a very nice time over and made pretty good time, averaging around four hundred miles per day. That is good for a convoy of cars. Altogether there were around 40 vehicles. We had a kitchen truck and some gas and maintenance trucks for the quartermaster corps with us, but they turned back after the last meal of the trip was over. There were three of us to each car, so we kept changing around on the driving and were able to put in long days without getting tired.

Most towns of any size that we passed thru furnished us a police escort thru their city limits, so we hardly slowed down thru the cities. Mr. Stewart, you can't imagine the thrill that a guy gets when he can "rear back" and run lights of every color—unless you've been there. And at that—it is a good clean, wholesome sport, because the civilians can use a little practice clearing the way for army vehicles, as they might have to do some time in case of an emergency.

The weather here has been ideal every day since we landed, but from accounts that I read in the local papers I guess they are needing rain in these parts very badly. It hasn't rained since we got here but until I read the papers I didn't know whether it was supposed to rain at this time of year or not. So you see the Panhandle isn't the only place that have drouths.

My duties here are quite different from any I've had in the army so far. In fact, they are new to everyone. Here they formed us into what they call a Provisional Aircraft Warning Co. In other words, if it proves out that we are efficient, etc., no doubt the army will adopt the idea and organize permanent companies of this type. As far as I know, this is the first time that this particular type of warning service has been tried. The unit is highly mobile and the work is interesting. So for my part the time passes very quickly.

This is a tobacco country, although they raise other crops such as peas, flax, sweet potatoes, cotton etc. And by the way there are acres and acres of peach trees, but the peaches are all gone. I wonder if they don't make it a point to get rid of the peaches before they bring 300,000 "dog faces" into the country? I'd like to help pull a "blitzkreig" in about a 40-acre patch of peaches at the right time of the year.

Down in Louisiana a few "dog faces" "blitzed" a watermelon patch one night. Well, the farmer went to the Colonel about it but the Colonel was unable to find out who was in the party. So he assessed the entire regiment 12 cents per man and held it out of our pay. The melons were worth it though!

These Carolinians are the true old type who believe in hospitality and they don't fail to exercise it. I went into the little town of Hamlet, N. C., last night, and no one was ever treated any nicer than we were. They gave a free dance especially for soldiers and all picture shows were half price to us.

Then about the nicest thing—was the nice looking girls stationed on almost every corner to direct soldiers about town and give them any other information they desired. They had little make-shift booths on all main corners marked, "Information to Soldiers," and, I never realized before that our army was so 'dumb'. Those booths were ganged with 'dog faces' seeking information. They just couldn't find their way around a town no larger than that.

I haven't had a Herald in a long time now. I've been moving about too fast of late. My mail hasn't caugnt up with me yet. I sure do miss the paper too. I'm always glad to get it. I don't know what there is about it, but when one is among strangers and gets the home town paper, it's really good just to see some one's name that you know, in print.

Well, my friend, it's getting very close to the time when the bugler will blow 'chow call'. That bugler knows lots of little tunes, but I think the prettiest one is 'chow'. It's so much prettier than 'revillee' So I'll sign off now and get all set for that guy to play my favorite tune.

Sincerely,
Pvt. E. W. (Buck) Garrison

Christian Science

"Everlasting punishment" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, November 2.

The Golden Text is: "Righteousness exalteth a nation: but sin is a reproach to any people" (Proverbs 14:34).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Verily I say unto you, Except ye be converted, and become as little children, ye shall not enter into the kingdom of heaven" (Matthew 18:3).

The Lesson- Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Mortals move onward towards good and evil as time guides on. If mortals are not progressive, past failures will be repeated until all wrong work is effaced or restified. If at present satisfied with wrong-doing, we must learn to oathe it. If at present content with idleness, we must become dissatisfied with it. Remember that mankind must sooner or later, either by suffering or by Science, be convinced of the error that is to be overcome" (page 240).

SUNDAY SCHOOL LESSON

Peace Rewards Honest Living

The International Uniform Sunday School Lesson for Nov. 2.
Text: Galatians 6:7, 8; I John 1:5-2:6.

• • •

AS I read of criminals who are apprehended, at the end of their ill-gotten financial resources, and, broken in health, present a sorry figure, that verse in the Bible from the early history of Israel comes to my mind: "Be sure your sin will find you out," and the equally strong pronouncement, "The wages of sin is death."

Here in our lesson Paul, writing to the Galatians, puts the whole thing clearly. There is much in life that seems to contradict these declarations concerning the results of sin and evildoing. Paul warned the early Christians not to be deceived, that God is not mocked, that whatever men sow they reap.

It is true that we live in a world where the innocent suffer with the guilty. Jesus never promised His disciples a calm or easy way. He did promise them rest and peace. It is this that constitutes the difference between those who suffer for righteousness' sake, or as innocent victims of the wrongdoing of others, or from some innocent cause, and those who suffer because of their evildoings.

How different is the way of the righteous, and how well this way is expressed in the contrast between darkness and light, which John has given us in his first Epistle. The way of darkness is the way of lying and destruction, but the way of light is the way of cleanness and honor and good fellowship.

Attend Bar Ass'n

Salary Is Carried Over By Forfeit

At the regular weekly election of the Community Service Club, Saturday afternoon, two salaries were forfeited as those elected for president had not paid the ten cent dues.

The first election was for $50. The ballot went to Glaze Shelburne, who failed to qualify. At a second ballot with a salary of $25 the name of G. O. Trayler, small son of Mr. and Mrs. Bill Trayler, was selected.

Salaries are carried over for Saturday, November 1, election and will be $75 and $25. The service club is sponsored by the American Legion Post and all proceeds are used for charity purposes.

Neither the flag of the United States nor that of any other nation should be used as drapery, according to U. S. Government Regulations. When the United States flag is hung vertically, the union, or field of stars, should be either to the north or the east.

The Eighth Naval District comprises the states of Alabama, Arkansas, Louisiana, Mississippi, Oklahoma, Tennessee, Texas and that section of Florida west of the Appalachicola River.

Homeless Ex-Soldier Leaves Gift To Friendly Red Cross Chapter

A legacy of $1,561—a mute thank you from a lonely, homeless ex-soldier who passed through Dallas eleven years ago and hasn't been heard of here since—came to the Dallas County Red Cross Sunday.

Without family or friends, the transient World War veteran, it was learned, had made the local chapter the beneficiary of his government bonus in appreciation of kindness extended to him by the office staff in 1929. Although he could have cashed the bonus and used the money himself at any time in the last few years, he died last month in a charity hospital on the West Coast and was buried in a pauper's grave, according to informatio sent to the chapter from Washington.

Suprised by the unexpected gift, the chapter could not even remember the man until the files of eleven years ago were searched and a record found of his visit here in December, 1929.

The man had appeared at the chapter office, dirty, unshaven, broke, hungry and ill according to the old files. Since his wife, child and sister had been killed in an automobile accident the year before, he had become a tramp, roaming aimlessly about the country. The chapter gave him meals and lodging for ten days, money for a shave, pressing his clothes and other incidental expenses. Since he was not eligible for medical treatment from the United States veterans Administration, the Red cross gave him a physical examination and sent him to Baylor Clinic, paying for necessary medicines, and when he told the chapter he wanted to go to confession, was directed to a local priest.

After ten days he had recuperated sufficiently to get a job selling hosiery on commission and he lingered on here for a few weeks, taking medical treatment and visiting the office frequently for friendly chats. Then suddenly he disappeared and was not seen or heard of here again.

Sunday the report came from Washington that, at some time in the intervening years, he had made the local chapter beneficiary of his adjusted service certificate. In memory of kindness to him long ago. He had died and been buried under an alias, but fingerprints taken before his burial had been traced in the War Department to find his survivors, and their only record was of the bonus legacy to the Dallas County Red Cross.

The money will be put into the chapter's home service fund to help other ex-service men like him, chapter officials said. — Dallas News.

Churchill Spirit

Queenie, champion English bulldog, wears a gob's hat, a couple of medals and a determined expression in her canine impersonation of the "Churchill spirit."

When opportunity knocks, don't let it knock you down.

Texas May Grow The Cork Oak

COLLEGE STATION. — Texas may be chosen as the proving ground to test the feasibility of growing cork oak in the United States.

According to information, the U. S. Department of Agriculture Forest Service is planning a small expirment program during the coming year on the planting and cultivation of the species, provided the necessary supply of acorns can be obtained.

It is said that the climate of parts of Texas is very similar to that of the mountainous portions of Spain, Portugal and north Africa, the natural habitat of the cork oak. The bark is the portion of the tree processed for commercial cork products.

Although no cork producing trees grow in Texas now, C. W. Simmons, farm forecaster of the A. and M. College Extension Service, says that in view of the similarity of climate, together with altitudes and wide choice of soils there seems to be no biological reason why it should not be grown successfully in sections of Texas.

Several species of the oak are grown in the state and Simmons is of the opinion that east central Texas, especially the upper end of the live oak areas, might be best suited for propagation of cork oaks in the event the U. S. D. A. Forest Service extends its proposed experiment to Texas.

The United States has been importing about $10,000,000 worth of cork yearly from the Mediterranean area. Growing storage to meet defense requirements has raised the question about the possibility of growing a backlog of the material in this country.

Mr. and Mrs. Ralph Headlee and daughter returned Monday from a three weeks vacation in Oregon.

Lyndon Balzer, in training at Camp Bowie is home on a weeks furlough.

• Lake View Tattler

News is short this week due to the rains.

Monday morning I called at Lake View school and had hardly stopped when it began to rain. Monday night it started raining again and by Wednesday morning, the lake near our house had surrounded the house. The water was six inches deep under the house! The old cat and her kittens took to the porch roof. I threw them bread and meat on the roof for their breakfast. While prancing around, one of the kittens fell off into the water. On Sunday, the water was receding and I walked around the lake, crossing it on the road grade.

We have had no mail since Monday. The Perryton route A carrier comes to our corner half mile east. He has not missed bringing the Sims' mail this week. And it is 33 miles to Perryton and only 17 to Spearman.

Mrs. H. J. Wilson came in Tuesday from St Joseph, Mo., where she spent several weeks visiting relatives. She plans on joining her sister, Mrs. L. M. Woodward at Canadian on November 7 and go to Mrs. Woodwards home in Santa Monica, Calif. to spend the winter.

Gene Lawrence returned to Wichita, Kans., Sunday after a ten day visit with home folks. Gene has just completed his course in the defense school and will go to work in the Stearman Aircraft.

CITATION BY PUBLICATION

THE STATE OF TEXAS TO: Earl Glasgow GREETING: You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 24th day of November, A. D., 1941, at or before 10 o'clock A. M., before the Honorable District Court of Ochiltree County, at the Court House in Perryton, Texas.

Said Plaintiff's petition was filed on the 11th day of October, 1941.

The file number of said suit being No. 661.

The names of the parties in said suit are: Louise Glasgow as plaintiff, and Earl Glasgow as Defendant.

The nature of said suit being substantially as follows, to wit:

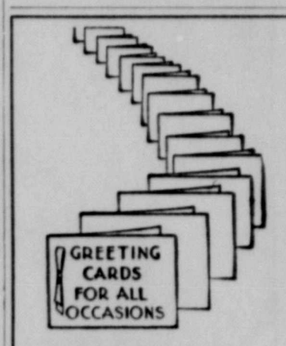

Suit for divorce by plaintiff in which plaintiff alleges that she and defendant were married 26th day of December, A. D. 1935, that they lived together until 21st day of September, A. D. 1941,when by reason of the cruel and harsh treatment of defendant toward plaintiff she was forced to separate from him since which time they have not lived together. That defendant used vile and profane language to plaintiff and leave without disclosing to plaintiff where he was going and be gone long lengths of time. That said marriage relation still exists and that such conduct on part of defendant is of such nature as to render their further living together insupportable. Plaintiff prays for judgement dissolving said marriage relation, for restoration of her maiden name, Louise Brillhart, and for such further relief as she may be entitled.

Issued this the 11th day of October, 1941.

Given under my hand and seal of said Court, at office in Perryton, Texas, this the 11th day of October A. D. 1941.

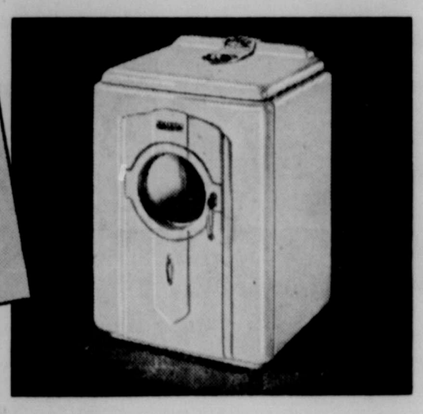

IRVIN R. BUCHANAN, Clerk
District Court, Ochiltree

Set a Gay Table for Fall Frolics

A little ingenuity, some wire, and some crepe paper combine to make an unusually attractive buffet supper table. Here are instructions that are easy to follow and that will make your frolic an exciting and happy event.

BY WINIFRED CLARK

FALL is the season for frolic. Everyone likes a gay, informal, colorful party. You'll have a glorious time setting up a buffet supper table in the season's cheerful fashion. Amuse yourself and your family by making favors and decorations for the affair.

To make the handles of the doughnut tray cut two No. 15 wires 30 inches long. Wrap each wire separately several times with a one-half-inch strip of black crepe. Fasten the ends of the wire to the underside of a paper plate with gummed paper tape.

Cut a pumpkin head and hat from orange mat stock. Cover the hat section with black crepe paper. Add hat band and bow of yellow crepe. Features are cut from black crepe paper and pasted in place.

For trouser legs, paste tubes of double thickness of jade green crepe paper around the wire handles. Wrap the wires about the trousers with yellow crepe cut one-half-inch wide across the grain. Paste pumpkin faces in place.

For the pumpkin of the pumpkin elves candleholders, cut a strip of orange crepe paper, across the grain, five inches wide and long enough to go twice around the candleholder base. Gather one long edge of the orange crepe around neck of candleholder. Tie in place with spool wire. Paste short ends together. Turn inside out and paste to underside of the cardboard base.

For the head of the elf, make a tube of double thickness of amber crepe paper about two inches deep and three inches in circumference. Stuff with cotton or crepe paper. Tie top and bottom with spool wire. Surplus crepe at top of head should be cut off. Leave crepe at other end for the neck.

For legs and arms, cut two pieces of No. 7 wire nine inches long. Wrap each separately with a one-half-inch strip of amber crepe. Bend wires at right angles three inches from end to form arms. Place surplus neck crepe between leg wires and tie all together with spool wire. Wrap body to desired thickness with the one-half-inch strip of amber crepe.

For the trousers of the costume make tiny tubes of orange crepe paper. Slash the bottom edge into points. Slip tubes over legs and fasten.

Your results will justify your efforts, and you'll have a beautifully decorated table inexpensively designed.

Iceland Well In Hand

Planes take American troops to Iceland's shores from transports which brought them to garrison the island. These men are members of a contingent recently added to the force already stationed at the outpost.

Recuperate Now From Vacations

"The American way of life is full of superlatives; we have the tallest sky-scrapers, the fastest trains, the greatest number of automobiles. We spend more per capita on vacations than any other nation. However, due to high speed, we usually crowd our summer vacations with such a high speed program that we fail to secure sufficient real physical relaxation," states Dr. Geo. Cox, State Health Officer.

"For most persons the exactions of office, of factory or of home for a 50-week stretch reflect themselves in the need for improving one's physical tone. However, to expect the majority of vacationists to change their habits regarding the diversions of a summer sojourn perhaps would be asking too much. The point is if one has burned up additional energies and perhaps called on his physical reserve to weather through the 'good-time' vacation, an excellent opportunity now exists to make amends by taking advantage of the stimulating autumn weather.

"In fact, the best season of the the past year's work now is here. year to recoup vitality lost through its possibilities to build up general health and bodily resistance to winter's onslought can not be over estimated.

"To recoup some of the vigor and abounding health which have been lost due to the strains and stresses of the past twelve months, the following program is suggested: 1. a brisk walk every day; city streets will do, if one is denied the open country; 2. seven to eight hours' sleep, depending upon one's personal requirements, in a properly ventilated room each night; occasional breakovers will not be serious drawbacks, but the habit should be established and maintained; 3. a cut-down on stimulants, if at present any are being used excessively; 4. a reasonable intake of nourishing food; 5. elimination of self-drugging of any type, relying solely upon the physician for medical treatment, if he considers it to be indicated; 6. proper daily elimination; 7. an attempt to keep worry, even in these troubious times, within bounds; and finally, to make use of the autumn week-ends by being in the open as much as possible.

"Putting autumn, as well as plain common sense, to work for your health in this manner, is an experiment which should be helpful as well as healthful to many."

Prisoners in Japan are allowed no bedding. They sleep on the hard floor.

Relief At Last For Your Cough

Poultry and Egg Shipment Show Increase Over 1940

AUSTIN, TEXAS, Oct. 28 — Shipments of poultry and eggs from Texas in September showed marked increase over totals for a year ago, according to a report of the University of Texas Bereau of Business Research.

This September's egg shipment totaled 546 carloads, compared with 127 in September for a year ago. Three carloads of turkeys were shipped this September as compared with none in 1940, and 19 carloads of chickens were shipped, an increase of five over the 1940 September shipment.

The annual appropriation for United States Naval aviation has increased from $25,000 in 1912 to $452,320,200 in 1941.

Discharged Selectees May Be Called For Active Duty With the U. S. Army

Enlisted men who were in the registration age brackets on October 16, 1940, or July 1, 1941, and who have not already registered under the Selective Training and Service Act must register when discharged from the military establishment, General J. Watt Page, State Director of Selective Service said today.

Although members of the regular military establishment are relieved from registration as long as they are in service, General Page said, they must register when they are released from the armed forces.

While the majority of such ex-service men probably are not liable for induction as selectees, the State Director pointed out that there are some men who are discharged from the Regular Army after completing one year of training and who, consequently, are liable for induction under the Selective Service law. The Selective Training and Service Act of 1940, as amended, General Page declared, relieves from liability for peacetime training and service under the Act only those Regulars who have satisfactorily served as an officer or enlisted man for at least three consecutive years in the Regular Army, Navy, Marine Corps or Coast Guard, or any enlisted man honorably discharged from the Regular Army or the Coast Guard within six months prior to the completion of his regular three-year period of enistment.

Those one-year ex-service Regulars who are liable for further military training may enlist in the National Guard of the States in which they will live or join the Enlisted Reserve Corps, General Page said.

Selectees who are relieved from active duty with the Army, General Page emphasized, are transferred to the reserve as provided by law will be classified by their local boards as being members of the military establishment. Although they are liable for additional service as selectees after completion of their period of training and relief from active duty, they may be called to active duty as members of the reserve, he said.

More than $1,500,000 has been grossed in 16 years by the Emily Post book of etiquette.

Spinach Has 'A'

Relative vitamin A content of spinach as against cabbage is demonstrated by Aubrey Corley, left and Ruthanne Barter. An ordinary teaspoon of spinich is richer in this vitamin than its giant counterpart heaped full of cabbage in the ratio of 80 units to 21,000. Giant spoon, the largest ever made, weighs 25 pounds, is over four feet long, has liquid capacity of a gallon.

To separate seeded raisins, wash under the cold water faucet and they will come apart easily.

CITATION BY PUBLICATION

THE STATE OF TEXAS: To the Sheriff or any Constable of Ochiltree County — Greetings: You are Hereby Commanded to summon the unknown heirs of Delila Jines, deceased, their heirs and legal representatives, by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if their be a newspaper published theirin, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Ochiltree County, to be holden at the Court House thereof, in Perryton, Texas, on the 2nd Monday in November A. D. 1941, the same being the 10th day of November A. D. 1941, then and there to answer a petition filed in said Court on the 28th day of August A. D. 1941, in a suit, numbered on the docket of said Court No. 651, wherein William M. McGee, Emma B. Tracy, Mary B. Driscoll, Elsie B. Noble and husband, Thomas H. Noble, and Henry R. Bennett, are Plaintiffs, and the unknown heirs of Delila Jines, deceased, their heirs and legal representatives, are Defendants, and a brief statement of plaintiff's cause of action, being as follows:

Suit of trespass to try title, alleging that plaintiffs January 1, 1941, were the owners, in fee simple, of the following described premises situated in the county of Ochiltree, state of Texas, and described as follows, to-wit:

All of the West one-half (W½) of Section No. 488, in Block No. 43 Original Grantee H. & T. C. Ry. Co. containing 320 acres of land, more or less, according to the survey thereof.

And on such day they were in possession, and afterwards on January 2, 1941, defendants unlawfully entered upon and dispossessed them of such premises, to the damage of plaintiffs in the sum of $10,000.00.

Further supplementing their suit of trespass to try title, plaintiffs plead the Five year Statute of Limitation as ground for recovery in their behalf and in bar of any right of defendants; also plead the Ten year Statute of Limitation of this state as a right of recovery and in bar of any right of defendants.

And further plaintiffs plead specially the Twenty-five year Statute of Limitation, alleging that they have held and had the peaceable continuous and adverse possession of the land above described for twenty-five years prior to the filing of this action under claim of title in good faith and under claim of other muniments of title, and that the same to them and those under whom title they have and hold, and which are of record in Ochiltree County, Texas, where the land is situated, showing title be vested them from and under the sovereignty of the state of Texas, which is asserted as a ground for recovery herein by plaintiffs and as to any right, title or interest the defendants, or any of them may have, and also asks that the cloud cast upon their title by the adverse claims of the defendants and each of them be removed; for cost of suit, and for relief in law or in equity to which

The American Hallowe'en Scene

Ranchers are Warned Against Dangers Of Increasing Beef Cattle Herds

AMARILLO, Texas, October 28.—Farmers and ranchers who increase their beef cattle herds during the next year not only are gambling against a recurrence of drouth and all its dangers, but also are taking chances of financial reverses, in the opinion of U. S. Department of Agriculture spokesmen here.

The 1942 agricultural program, designed to assure adequate food supplies for the peoples of the United States and of the nations fighting aggression, set a goal of 18 per cent increase in the slaughter of beef and not an increase in the number of cattle they point out.

"This situation is one in which soil conservation needs and National Defense needs are identical, and, in the opinion of many of the best authorities, are needs which stand to serve the best interests of the individual cattle producer," H. H. Finnell, regional Soil Conservation Service conservator states.

Several salient points that the livestock producer should remember at this time have been brought out by the Bureau of Agricultural Economics. Among these are:

A peak of more than seventy million head of cattle was reached in the United States in 1934. This number declined to sixty-six million in 1937, as a result of drouth, the lack of encouraging markets, and other factors. Since that time the increase has been rapid. The number now is back to seventy million with indications of an all-time high in 1942.

An attempt to increase the size of beef cattle herds on ranches of the Southern Great Plains will almost certainly result in a decrease in the number of cattle slaughtered for the coming year. This would be detrimental to the nation's defense effort and contrary to the goals set up in the "Food for Freedom" program. Economists state that an increase in breeding herds this year will not result in a similar increase in slaughter animals for four or five years.

The market demand for beef now is for domestic and army needs. There is little or no export market. The present demand is admittedly abnormal. Cured meats and lard are the meat products being shipped abroad, rather than beef, which has never been exported in quantity.

Prospects are for a big decrease in demand when the emergency passes, the duration of which is uncertain. Other kinds of stock, especially hogs, reach production earlier, and numbers are being expanded rapidly. This also denotes possible competition between meat animals for the domestic market after the war period ends.

The aftermath of the first World War still is with us, farm economists hold. Then, efforts were made to increase production of beef cattle. The western range was heavily stocked and, in many instances, has not yet fully recovered from the severe use of that period. The large numbers which were built up came on the market after the war. Many cattlemen were forced into bankruptcy between 1920 and 1924 because of glutted markets, low prices, and drouth.

Present high prices gave cattlemen an opportunity to cull their herds profitably. Through this method herds can be brought down to the point where every animal is almost certain to be a good producer.

The increase slaughter program while prices are high gives the cattle producer a chance to liquidate his debts and attain a position where he will be able to weather any reversal in price trends. Ranching no longer can be carried on successfully as "a shoestring operation." The heavy capital outlay required makes speculation hazardous. The man who takes advantage of this period of favorable prices to prepare for unfavorable periods not only will be able to stay in business longer, but also will be of greater service to his country.

Conservation of the soil pays dividends, USDA officials point out. There is ample evidence that rigid culling of all doubtful producers and reduchion of numbers to the point where there is an adequate supply of feed at all times is profitalbe. Reduction of herds at this time offers the further advantage of allowing the building up of range resources to a point where they will yield maximum production while being safeguarded against damage by erosion. All evidence indicates that such plans of production result in a considerable increase in yields per animal unit and usually give greater total pounds of animal products at the lowest possible cost.

Highly favorable moisture conditions this year have resulted in excellent grass production on the range and almost record yields of feed in most areas of the Southern Great Plains. These ample feed supplies make it possible to increase production of the animal unit.

Recurrent drouth is an ever-present factor. While feed supplies are abundant at this time, the present numbers of livestock would prove disasterous to producers during a drouth period.

"All of these factors should be taken into consideration when the farmer or rancher is called upon to do his part in carrying out the "Food for Freedom", Finnell declares. "Through performance of this patriotic duty, the farmer or rancher not only stands to profit financially, but also will attain long-time benefits through better conservation of his soil."

Rev. A. C. Williams Is Speaker at School

Reverend A. C. Williams, Wichita, Kansas and a former pastor of the Perryton Church of Christ, was the guest speaker at a special called chapel for Navy Day, October 27.

Rev. Williams brought a very interesting message in keeping with Navy Day.

It was announced in chapel that the Perryton Schools were setting a goal of 100 percent ownership of National Defense Bonds or Stamps. National Schools Defense Week is Nov. 3-11.

Construction of USO Buildings Transferred from WPA to War Dept.

FORT SAM HOUSTON, Texas (Special) — Immediate construction of the first group of 25 recreational buildings for the United States Service Organizations has been ordered by Brig. General Brehon Somervell, Chief of Construction, Office of the Quartermaster General, U. S. A.

The action was taken as a result of the recent presidential order, transferring the erection of U. S. O. buildings from the Federal Works Administration to the Construction Division, Quartermaster Corps.

Upon receipt of the Presidential order, the nine Zone Constructing Quartermasters of the Construction Division were called to Washington for a special conference on the subject and on October 2, all necessary directives and instructions were dispatched by telegraph, air mail and messenger to the Zone Constructing Quartermaster in the field.

The construction of the buildings will be handled entirely through the various Zone offices. The total number of buildings to be constructed in the U. S. O. Program is in excess of two hundred and fifty. The War Department has already received from the Federal Works Administration a list of 51 locations for recreational buildings approved by the President. The first group of structures will be erected on 25 of these locations. Actual building will start as quickly as titles to the sites have been acquired, which is expected to be accomplished in the very near future.

Five types of structures are included in the U. S. O. Program, all of the same general design but varying in size.

Six such buildings will be erected in the Eighth Construction Zone which includes the states of Texas, Oklahoma, New Mexico, Arizona and Colorado. Their locations will be at Lawton, Okla., Corpus Christi, Texas; Brownwood, Texas, Orange, Texas; and two, one for white and one for colored troops, at Galveston, Texas. Colonel Edwin V. Dunstan, Constructing Quartermaster for the Eighth Construction Zone, with headquarters at Fort Sam Houston, Texas, will have direct supervision over the construction of these buildings.

Fifty-one locations have already been approved by the President and more will be announced at a later date. Additional sites, as approved by the President, will be furnished the War Department by the Federal Works Administration as they become available. All U. S. O. buildings will be erected on sites donated by the respective communities. Plans and specifications for the remaining types of buildings are scheduled to be ready within the next week. In some instances, more than one of these recreational buildings will be located in the same city.

The structures are intended to afford recreational and sports facilities adjacent to the training camps, particularly near military reservations located in more or less isolated sections.

The first request made by U. S. O. of the Construction Divison, allowing transfer of the construction program, was for the delivery of 1,000 canvas cots to U. S. O. officials in Louisville, Ky. This was effected through the cooperation of the Zone Constructing Quartermaster located. Within 24 hours, the cots were on their way from Chicago. Commanding Officer at the Quartermaster Depot in Chicago, and the in Zone 5, in which Louisville is

Mrs. Preston H. Dial is the chairman of the newly formed San Antonio Council of Pan-American Relations. Mrs. Dial conducts a large kindergarten school in San Antonio in which Mrs. Harry E. Cayler is an instructor. Little Miss Donna Marie Cayler attends the school.

Results prove that people read Herald want ads.

What's it got you haven't got in your present automobile?

HERE stands an automobile – *the* automobile, we believe, of 1942.

What's in it to lay claim on your attention? Well, among other things:

A valve-in-head engine – the same type of engine used in every modern airplane.

FIREBALL compression – specially contoured Domite pistons that wring more good out of every drop of gas.

Compound Carburetion† – a constant check and *double* check on gas usage to see that you get both power and range from the fuel you buy.

There are longer-lasting bearings, stouter connecting rods, broadrim wheels that steady the ride and deliver top tire mileage.

There's a torque-tube drive such as you find in America's fastest fighting planes, and soft, gentle all-coil springs that never need any mothering care.

There are ruggedness, dependability, frugal use of gas and oil, and as for *life* and *action* and *ability* – why not see for yourself?

In short – go try out this Buick and see why it is *the* automobile of 1942 – and your smartest buy considering the times.

No other car has ALL THIS FOR YOU IN '42
FIREBALL STRAIGHT-EIGHT VALVE-IN-HEAD ENGINE ★ COMPOUND CARBURETION (standard on most models) ★ OIL-CUSHIONED CRANKSHAFT PINS AND JOURNALS ★ STURDI-LITE CONNECTING RODS ★ STEPON PARKING BRAKE ★ BROADRIM WHEELS ★ FULLY ADJUSTABLE STEERING POST ★ BODY BY FISHER ★ WEATHERWARDEN VENTI-HEATER (accessory)

No. 5 Continued from Front Page

American people consistently take a stand against international lawlessness abroad when they themselves indulge in similar wrongdoing in this country. No holiday or festival ever carries with it the license to harm one's fellowman or damage his property.

"Parents must assume the obligation of restraining their children on Halloween night, and more mature celebrants must realize that their vandalism and rowdyism are wrongs compounded by hypocricy. After these disciplines are enforced, Halloween still offers vast enjoyment as a festival of innocent funmakers and pageantry, which are signs of the civilized state of a people. No American of any age should conduct himself as an outlaw or savage on Halloween this year"

A bouquet to the present and past city officials of neighbor Beaver after reading their wonderful financial condition that "stacks up" like our Ochiltree county statement. No we didn't say City of Perryton statement.

In 1930 when Beaver sold their electric and water plant, instead of spending all proceeds for "this and that" they purchased $60,000 worth of City of Hooker bonds. Since that time these bonds have returned to them more than $30,000 in interest payments and $15,000 on principal.

Just the other day, Beaver sold the remaining $45,000 worth of City of Hooker bonds for $47,014.25. They plan to invest $29,600 in Defense bonds that will in 12 years pay the city of Beaver $40,000. That's what we call planning for a pay-day in the future, not a pay-off.

As to indebtedness, Beaver has $33,500 in outstanding bonds. As to cash on hand they have $12,843.61 plus the $47,014.25 proceeds of the Hooker bond sale.

It is planned by the Hooker town board who by the way are H. H. Hubbart, H. A. Dunn, Ross Goodner and Ed Acton and who draw the magnificent sum of one dollar a month, to retire as many of the outstanding bonds as possible after the investment in Defense bonds.

The United States Civil Service Commission has announced on a nation-wide basis examination for Patrolmen on the Mexican border. The position pays $2,000 yearly and in under the Department of Justice. Examinations were announced recently for the Southwest states only but sufficient eligibles were not obtained. If interested file your application with Arvle Hale at the Perryton post office before Nov. 28.

When members of the Ochiltree county sheriff's office picked up a car that had been parked on a Perryton residential street for several days, their first thought was that it was "hot". However, investigation proved that the car belonged to a young man that wasn't supposed to own a car, hence the parking far from his place of abode.

Save your tin foil from cigarettes, chewing gum, tobaccos and other items! Notify any member of the Perryton Rotary Club and it will be called for and added to the offering for the Amarillo Preventorium. Mrs. Curtis Roach, who is chairman of the special Rotary committee for this worthwhile activity, recently delivered 40 lbs. of tin foil to the Preventorium.

We've never been too impressed with the foreign mission activity of United States churches when in every community there is so much need at home. We do not know how much money is sent out of Perryton each year for outside mission work but we do know that Perryton has two of the finest organizations on the face of this earth, the Boy Scouts and the Girl Scouts. And we also know that these two organizations are carried on by a small group of zealous men and women with practically no financial support from the community.

We wonder just how much of a Yellow Peril this United States would face today from Japan if millions of American dollars had not been spent in educating, modernizing and giving them a taste of our western civilization? Not much, we opine.

No. 2 Continued from Front Page

are: Mrs. W. H. Lance, senior patrol; Mrs. Claude Allen and Mrs. R. E. Bell, Texas patrol; Mrs. Alvin Koehn, Kitten patrol; Miss Edith Newman and Miss Virginia Vaughan, Bluebird patrol; Miss Faye Pinckley, Puppy patrol. Other leaders and assistants will be named later.

The Girl Scouts are sponsored by the Perryton Uuit of the American Legion Auxiliary. Administration of the troops is by the Leaders Association, members of which are the leaders of the patrols, headed by Mrs. Kelly, and a council consisting of five committee members from the American Legion Auxiliary and three mothers of girls from each of the three troops. These members are being chosen this week and will work together in conducting the financial and recreational activities of the girls.

Patrol meetings are held each Tuesday. General meetings are held monthly when all patrols meet for reports on activities and a recreational hour. The next general meeting will be held Tuesday, November 4, at 4 o'clock in the Legion Hall.

No. 4 Continued from Front Page

Wedgeworth, H. T. Cutter and Mrs. A. P. Spicer, members of the Ochiltree county stamp and bond committee; and Fred West and Mrs. Van W. Stewart, members of the 18th district commitee, will be presented.

$410 to School Children

Monday morning will mark the start of contests in the school which will distribute Savings Bonds and Stamps with a maturity value of $410 to school children of Ochiltree county. Details of the prizes were worked out at a conference called by Chairman Carl Ellis, for a luncheon meeting Wednesday noon. Present were Mr. Ellis, C. Wedgeworth, W. H. Lance, Max W. Boyer, Dave Shanks, H. C. Sanford, C. E. Woods and Van W. Stewart.

Prizes for first place winners in the contest will be $25 bonds, second place awards will be stamp albums with $10 worth of stamps with a maturity value of $13.33, and to the third place will go stamp albums with $5 worth of stamps with a maturity value of $6.66.

The contest and the awards and honors as follows are open to pupils of the Perryton schools:

Best editorial on "Buy Defense Saving Bonds and Stamps" of approximately 500 words, open to Senior High pupils: 1. $25 bond by Van W. Stewart; 2. $10 stamp by R. T. Shindler; 3. $5 stamps by W. H. Lackley.

Theme contest for Junior and Senior High pupils: 1. $25 bond by C. E. Woods; 2. $10 stamps by W. M. Boston; 3. $5 stamps by Men's Wear.

Original address, by Senior High pupils: 1. $25 bond by American Legion; 2. $10 stamps by Max W. Boyer; 3. $5 stamps by W. R. Cayler.

Original poem, by Senior High pupils: 1. $25 bond by Chamber of Commerce; 2. $10 stamps by Perryton Implement Co.; $5 stamps by W. W. Virtue Dry Goods Co.

Spelling contest, for Junior High pupils: 1. $25 bond by C. E. Woods; 2. $10 stamps by Community Public Service Co.; 3. $5 stamps by Plainview Hardware Co.

Arithmetic contest, for Junior High pupils: 1. $25 bond by Lions Club; 2. $10 stamps by W. C. Bryan; 3. $5 stamps by Perryton Equity.

Poster contest for 5th and 6th grades: $25 bond by Rotary Club; 2. $10 stamps by W. B. LaMaster; 3. $5 stamps by J. H. Brashears.

Original Home Room Project for 1st., 2nd, 3rd and 4th grades: 1. $25 bond by H. C. Sanford; 2. $10 stamps by Public Service Corporation; 3. $5 stamps by Perryton Equity.

$50 to Best Salesman

The contest that is expected to create the greatest number contestants is the prize of a $25 bond to the school boy or school girl in the county who makes the greatest total sales of bonds and stamps during the campaign. This contest is sponsored by Carl Ellis who is giving two $25 bonds, one to the highest boy and one to the highest girl. There are no second and third awards in this division and all school children in the county are eligible. The other contests are limited to pupils of the Perryton schools.

Contests Close November 11

All contests will be operated by the faculty of the school and complete details will be announced by the teachers. The contest winners and awards will be announced at the American Legion sponsored Armistice Day Program on the morning of Nov. 11.

Superintendent Wedgeworth reports that enthusiasm is running high in the schools. At faculty meeting Wednesday afternoon, 100 per cent sales were made to the faculty. The slogan for the school is "A Stamp Album or Bond for Every Child in the School". The record at the close of the campaign on Nov. 11 should be, "Every man woman and child in Ochiltree county the proud owner of stamps or bonds."

PLAINVIEW HARD...

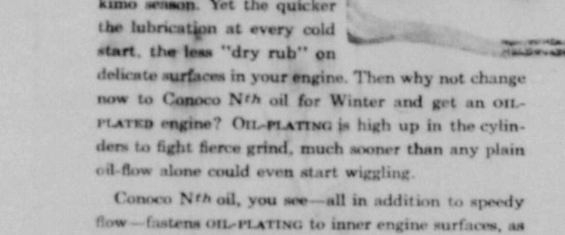

NOT MUCH CHANCE for you to go clocking different brands of motor oil to prove which one flows fastest in Eskimo season. Yet the quicker the lubrication at every cold start, the less "dry rub" on delicate surfaces in your engine. Then why not change now to Conoco Nth oil for Winter and get an OIL-PLATED engine? OIL-PLATING is high up in the cylinders to fight fierce grind, much sooner than any plain oil-flow alone could even start wiggling.

Conoco Nth oil, you see—all in addition to speedy flow—fastens OIL-PLATING to inner engine surfaces, as if by "magnetic attraction." This close-bonded OIL-PLATING is up to its topmost point before you even touch the starter—and that's "faster than fast," to aid you toward anti-friction starting.

Even up in Iceland, of course, any engine's normal firing is hotter than the Land of the Hottentots. Yet you don't want to "burn up the oil." And Conoco Nth proved it could last for more than twice the mileage averaged by the five other big-name oils in the impartial Death Valley Death-Test. When all five others were used up—engines ruined as each strict 5-quart fill gave out—the Conoco Nth oil that competed under identical conditions was still up at 2.7 quarts! Certified!

A known economy record . . . plus a known aid to safe prompt starting . . . when you change to Conoco Nth for Winter OIL-PLATING, at Your Mileage Merchant's Conoco station. Today. Continental Oil Company

GAVE TWICE THE ENGINE LIFE!

This oil that OIL-PLATES gave its engine *more than twice the life* averaged by the engines using the other oils in the Death-Test.

In these times use your car prudently. And use oil that's great for engine life—changing regularly as recommended.

Good starting—good lubrication against all needless wear—helps conserve gasoline, too.
