Jr. Hog Men Battle It Out In Great Show

Return of Achievement day among 4-H club and FFA youth of Floyd county, who have hog fattening projects was marked Saturday by an outstanding swine show and sale at the rodeo association barn in Floydada, when $207.50 in premiums was distributed among a score of youthful farmers and their sales of fat barrows was cushioned by purchases running $350.15 above the market for the day.

For the young farmers it was a demonstration of their determination to carry through in spite of the over-burden of harvest demands and for the business men of the community it was a demonstration of appreciation of efforts of their youthful neighbors.

Harvest Demands Are Heavy

Number of entries in the show was lower by several head than would have been true had harvest demands not been so great. As it was nearly 50 head of swine were shown and 34 head of barrows went through the sales ring under the salesmanship of Col. W. H. Seale.

Bobby Hambright, son of Mr. and Mrs. W. M. Hambright, of Lakeview, exhibited the grand champion of the show, a Duroc Jersey, in stiff competition with two of his brothers and a score of other aspiring young fellows. Raymond King, county agent of Castro county, who is outstanding as a judge of live stock conditioning and type, praised the junior live stock men for the good work they had done. Principal problem that plagued the youth was the fact that their animals grew out larger than their timing had called for and some of the fine looking specimens sold at over-weight prices when they went into the auction ring.

In the auction sale which followed the show the First National Bank of Floydada paid a price of 33 cents per pound for the grand champion barrow. All other animals were bid up to 20 cents or more by buyers at the sale.

Cow-Sow-Hen Gilts

On display for the day, too, were the cow-sow-hen gilts shown by youthful owners who obtained their animals last spring through the

Floydada Rotary club felt it did itself proud Wednesday noon when it paid tribute to the unselfish ser-

DR. GEORGE V. SMITH

vice over a period of forty years done the community by Dr. George V. Smith. It was a pat on the back for one of the area's most unselfish servants, and there was a considerable bit of fuss and feathers, imported speech-making, pointing with pride, and gift-presentation to round, out the event.

The speech-maker was Dr. P. D. O'Brien, pastor of the First Baptist Church of Big Spring, a former Floydada pastor and neighbor of the honoree, and the presentation was made by S. W. Ross, secretary of the Rotary club, a neighbor and friend of Dr. Smith for 40 years. The gift was a big chair and ottoman to match, concerning which some wag remarked dryly, doc won't have much time to use it.

Special guests for the day were Mrs. Smith, wife of the honoree, Mrs. Guy Ginn, his daugnter, Mr. and Mrs. A. P. Barker, sr., of Lockney, Mr. and Mrs. Geo. A. Lider, of Amarillo, and David Rasco, of the editorial staff of the Amarillo News

Judge Alton B. Chapman, chairman of the program committee of the club, had charge of the day's program.

Paraphrasing a sentence from the Acts of the Apostles, the speaker said of Dr. Smith, "He served his own generation by the will of God," and carrying the logic through he declared Dr. Smith is a great man. "Dr. George has invested his life in the good of humanity. Not only has he given many life but also he has given them by example a motive for living."

Dr. O'Brien was accompanied to Floydada by Mrs. O'Brien and the couple were busy during their stay renewing old friendships and acquaintances.

Dr. Smith, who began medical practice in Floydada in 1909, is really the typical modest practitioner whose list of visitations numbers into the many thousands, and continues to be. The doctor has seen much of life and is given little to demonstration. Friends detected at his brief acceptance of the gift and honor done him by the club, a moist eye and almost a bit of blubbering when he said: "I wouldn't have had the nerve to face it if I had known what you were fixing to do. I haven't done any more than many another one, but I do appreciate your thoughtfulness and hope I have done some good."

"Service above self," the club's motto, was the subject for the day. The program committee found Dr. Smith the ideal subject with which to illustrate what the phrase means, Judge Chapman declared.

Harold M. LaFont, of Plainview, will be the representative of 120th Legislative district to succeed I. B. Holt, resigned, it was indicated yesterday morning by incomplete but apparently conclusive returns from eight counties comprising the district.

In Hale, LaFont's home county, he had a big majority over both opponents and he was leading in early returns in Lamb, Bailey, Castro and Swisher.

Deen had a strong lead in Floyd county and in Briscoe, while Jennings ran well ahead in Parmer.

LaFont is a former Hale county judge, was once president of the state county judge's and commissioners' association, and had served the 64th Judicial district as district attorney.

Tuesday night's figures in this race:

County	LaFont	Deen	Jennings

Boulter Leads For State Board

E. H. Boulter, of Lubbock, a former deputy state school superintendent, had a lead over J. M. Rankin, of Crosby county, in early returns for member of the State School board from the 19th congressional district of 25 counties, based on early Wednesday reports. Floyd county gave Rankin a substantial majority in this race.

Thumbs Down on Amendments

Floyd county voters made it plain they want none of the 10 proposed constitutional amendments on which they voted Tuesday, returns of the first 14 boxes reporting, plainly indicate.

Majorities against the ..... ments in this county ranged from 1½ to 1 to 4 to 1, and this trend is likely to be accentuated when the final tabulation is complete.

Retail Business Will Slow Down Armistice Day

Majority of Floydada retail business establishments will be closed Friday in observance of Armistice Day.

A survey made by the Hesperian office revealed that some of the business houses will be closed all day and some only in the afternoon.

The gins and elevators will continue to operate Friday. It is probable most implement stores will do business as usual.

The American Legion will sponsor a dance Armistice night in the American Legion hall.

In connection with November 11th festivities a formation of 18 B-25s from the Reese Air Force base at Lubbock, will fly over town at approximately 10:22 a. m.

The bank, the post office, offices in the court house and at least a portion of the offices in the agricultural building will be closed observing the Armistice holiday, as will the newspaper office.

Some of the local retail establishments indicate doubt as to the wisdom of closing retail places during the extremely rushing harvest period but indicate they are bowing to the desire of the majority to give employes a break in the daily grind. The day was named early in the year as one of four holidays that would be observed, following a survey made by the retail committee of the Chamber of Commerce.

CHILDREN OF JOHN CEPHUS FORTENBERRY DO THE HONORS

John Cephus (Uncle Ceph) Fortenberry was honored on his 90th birthday Sunday, October 30 at his home in the Cedar Hill community. Mr. Fortenberry was surprised with many nice gifts and a lovely dinner including a cake with 90 candles.

"Uncle Ceph" was born at Smithville, Arkansas, Lawrence County October 30, 1859. He has been a resident of Floyd county for the past fifty-nine years, now living only three miles west of where he first lived when he arrived from Cook county by covered wagon.

Sunday was spent in visiting and hymn singing, led by Rev. Fred Fortenberry, Mrs. Charles Higgins and Mrs. Mae Taylor, accompanied on the accordian by his grand-dauhgter, Patsy Fortenberry. Moving pictures were taken of the honoree, and all present during the afternoon by Donald Fortenberry.

The children that could be present at this time were Mae Taylor, Pete Kelley, Tom Fortenberry, all of Lockney; Jack and Hugh Fortenberry of Adrian, Texas.

Armistice Day Game Tomorrow Against Chiefs

Injury ridden Floydada Whirlwinds, entertain the Crosbyton Chiefs at Wester field tomorrow (Friday) afternoon at 2:30.

The first day game for the 'Winds the Crosbyton game was scheduled so as not to interfere with other Armistice day celebrations, and too, the day is a holiday and should not interfere with business, also taking advantage of a hoped-for warming sun.

The Chiefs are one of the best conditioned teams in the district with few injuries in contrast to the Whirlwinds.

Most of the Whirlwind "A" squad will be in condition to start, with the exception of Reese Grubbs who underwent a knee operation last week and will be out the remainder of the season, and whose services will be severly missed at right tackle position.

Floydada has a hard time conditioning themselves due to injuries and will be underdogs on condition alone, as well as for the injuries.

Scouts Drive Results Are Disappointing

The Boy Scout drive got underway last Friday, November 4. Campaign workers met at the Hotel Coffee shop for their breakfast and final arrangements for the drive were made.

Jimmy Willson, who is chairman of the finance campaign, said late Wednesday afternoon the county had fallen short of the lowest quota as only $661 has been donated as yet. He also states that the workers have not had enough cooperation from the people, which is very disappointing as big plans have been made for the Scout troops. The committees will try to finish the drive this week, so if anyone has any donations, please send them in immediately, he urges.

The money that is being collected will be used for administration of the scouting program, service to sponsoring institutions, training for volunteer leaders, camping and activities, advancement and awards, extension of the program to rural communities and expansion in our own community, trained professional leadership, office service and records, postage, printing and supplies.

Soil District Announces Junior Grass Judging Contest Dec. 2

Cecil Purcell, chairman of the Floyd County Soil Conservation district board, reports that the district will sponsor a grass judging contest open to FFA boys and 4-H club members residing in this district. It will be held Friday, December 2. The District will give cash awards to the winning teams. A team will consist of three members.

Grass judging contests are being held over the state at various fairs and stock shows. Most people would be surprised if they were told that there are around one hundred different grasses growing in Floyd county. Specimens of forty of the more common grasses will be used for this contrast. Boys will be given a score card and will have forty-five seconds to identify and check the characteristic of each plant. Scoring will be by points. If the boy fails to identify the plant, no credit will be given for other characteristics of that specimen.

Characteristics of a plant include several factors. The grazing value will be checked as good, fair or poor. The season of best use, as cool season or warm season, will be noted. Whether the plant is an annual or perennial is another characteristic. Climax plants are best, while invading plants are those not native to site.

Meeting of Master Masons on Tuesday Night at Lockney

Master Masons of the area are being given a special invitation to meet with the Lockney Lodge A. F. & A. M., Tuesday night of next week.

B. J. Wofford, senior warden of the lodge, who made the announcement, said that Judge G. C. Tubbs will address the Masonic gathering.

The meeting will begin at 7:30 o'clock.

Harvest Costs Must Go Down Claim Growers

Cotton growers of the high plains in the past week have become increasingly restive under harvesting prices and reports of meetings in Floyd and several other counties the first of the week indicate that the cotton pullers are going to have to come down from prices in effect or the growers will quickly unlimber their mechanical harvesters.

Expenses and deductions are so great the cotton men say they are not going to go along on the present basis any longer. What they will actually do about it will be known this week-end when present indications point to the matter of harvesting prices coming to a head.

Two meetings this week in the Lockney irrigation belt have been matched by similar meetings in Lubbock, Lamesa, Littlefield and numerous other heavy producing centers.

Cotton pulling has been standing at $2 for pulling, and $2.25 under contract for pulling and delivering to the gin. Instances that run both higher and lower than these figures are extant, but this has been the price in the majority of fields the past two weeks.

Gins Continue Busy

Floyd county agriculture agent Bob Gibson, reports that from the beginning of the cotton season in the county, through Monday, a total of 11,695 bales of cotton have been ginned by the fifteen gins of the county.

Agent Gibson also reports he thinks there is an average of 25 bales of cotton standing in the yards of each gin waiting to be ginned.

Ideal Weather Big Help

Ideal weather for nearly two weeks has favored the movement of the cotton crop. No moisture had fallen in the period to Wednesday night and temperatures have been mild. Thermometer highs have ranged from 70 degrees to 82 degrees, and the lows have run from 39 to 46 degrees.

Cottonseed Buying Program

The cottonseed purchase program of the Commodity Credit corporation, started last week through the county PMA office, had begun to function much more smoothly this week, when permission was given to gins to pay the $46.50 support price to farmers and collect from PMA on gin ticket weights. The change cut the amount of detail work enormously for both gin and PMA workers.

Wednesday upward of 500 tons of cottonseed had been bought by CCC since the program began 10 days ago.

EDITORIALS

Aside from the fact that the cotton raiser gets $3.50 per ton from the taxpayer and the cottonseed meal buyer, the most nearly charitable thing that can be said for the Commodity Credit corporation's program of buying cottonseed is that it is wasteful and expensive. Big Government and Big Business disagreeing Big Government has decided to carry its point at whatever expense. Or so it appears to one on the sideline. What we think is that Commodity Credit corporation thinks cottonseed ought to be bringing $49.50 at the oil mill, and the oil mill thinks not so. Result is the piling out on the ground plan that was inaugurated last week here and elsewhere. What a whopper of a beating the mills may have taken during the last half of last year's ginning season we do not know. Seed they bought on the $105 market they sold on the $35 market, so far as the refined oil is concerned. Cake and meal from cottonseed are being made to bear a considerable burden financially because oil from cottonseed is now having to compete in a cheap and glutted market. The farmer who was getting $105 for his cottonseed last year was going to get $35 this year had the mills had their way -- and they did for the early part of the crop. Now its $46.50 at the gin, after the congress and the CCC got through working on the situation. But that doesn't excuse the cottonseed out on the ground taking the weather, we think. Somebody ought to be ashamed. We do not know who but it lies between the big men in the cottonseed oil business and the big men in the Commodity Credit corporation. It will be interesting to learn who the whipping boy will turn out to be.

—O—

Cotton oil mills haven't let out any squawks to the cotton producer but they are said to have taken a terrific beating last year. We mean financially. They'd like to make the years even themselves up. They are trying to hold the price of seed down somewhat and the price of cottonseed meal and cake up to balance the budget. Cake and meal buyers are hollering, the government is putting on the squeeze. It would be interesting to be in the oil mill business for the next year or so.

—O—

Meanwhile the men who are getting the breaks and able to make a good showing to the public are those who use a lot of fats in their manufacturing processes. We think quickly of the soap makers, the salad compounders and the sellers of shortening compounds. First break for the bakers in many years, too, is that softening in the market for fats and oils . They are big users. Small bakeries, hard pushed by the big boys who operate area-wide and pour it on, get a wee bit of help from cheaper fats.

Farwell To Spitoons:

Agriculture Department reported last week the U. S. made less chewing tobacco last year than in any year since 1900. —Pathfinder.

One of the things that pictures human nature in one of its most common manifestations is the way that organized labor is crowding now for more and more advantages, more pay or better walfare or working conditions. In contrast with a descending market for raw commodities, the working man deduces that the way to keep his pay check high is to crowd his particular form of industry for a "bigger share" of the wealth of that industry. He hires, or his business agent does it for him, men whose jobs it is to "prove" that the industry can stand it and not raise prices. That the working man may be pricing himself out of the market and in fact back into the streets again where he was a few years ago does not occur to him. He visualizes the big shots as getting theirs. He desires the same good things for himself and his family. Worthy enough, of course. But one's aim sometimes misses the issue, which some morning may turn out to be when will the factory open up again? This is the thing that to us points to "statism" or the welfare state, as we now read about. The government will attempt to make the dream be true whether it is true or not. The power to tax will be invoked, as will the power to tell business how it must carry on. When the end is reached there will be one and only one to pay the bill. He is the taxpayer. When he can't pay the government takes over. Then the welfare state begins its role of running business, as in England. And, by the way, what happens in England usually forecasts what will happen in the USA.

—O—

How raw products can come down and do come down in price, presaging a bit harder sledding always for the man who tills the soil, is illustrated in the report of last week's Junior Hog show in Floydada. Recall what the "floor" price was a year ago for the swine the boys sold? It was $22.35 per 100 pounds on foot. Last week it was $17.25. The "floor" represented the hard, down to earth market for pork meat on the hoof. If meat on the market has not reflected this lower price probable reason is it is involved in wages and taxes and shorter hours and higher freight rates, which we are told must be had by the toiler in the wage market. We have no quarrel with the working man to be sure. The question is which working man we'll side with, the captalist who works for himself or the capitalist who works for the other man. Both are insisting the government ought to do something about it, are they not?

—O—

Always cook pork at a low temperature and until well done. A pink color indicates the pork is not done.

Leaving Floydada the Stansell's traveled straight to Lewisburg, Tennessee, where both the Messers Stansell attended a horse show and sale of Tennessee walking horses.

When the party left Tennessee, they toured Alabama, Mississippi and Louisana. They spent some time in New Orleans, Louisana, sight seeing.

Co. Agt. Warns Cotton Grade Is Important

The recent killing frost will cause all mature cotton to open very quickly and cotton harvest is in complete swing now stated Robert H. Gibson, County Agent.

Mechanical harvest of cotton will be greatly aided by the frost in that it will cause all growth to stop and hasten maturity of the grown boles he said.

Producers should be careful and not begin using the mechanical harvesters too quickly in order to keep the grade as high as possible. The grade is much more of a price determining factor than staple length and every effort should be made to keep the grade as good as possible.

Gibson said two of the things that would help keep the grade up were not to use the mechanical harvester until all bolls are open or dry, and not pack the cotton in the trailer or truck.

Cotton ginnings in Floyd county are well on the way toward an expected record year. Considerable more cotton could have been ginned but there is a great shortage of early pullers.

Floydada Jaycees Called to Attend Directors Meeting

John W. Kimble, president of the Floydada Junior Chamber of Commerce, James D. Wester, state director, attended the annual state board of directors meeting Saturday in Lubbock. The keynote luncheon marked the beginning of activities with the main address given by Clifford D. Cooper, president of the United States Junior Chamber of Commerce.

Dr. J. W. Marshall, president of Wayland college, was guest speaker at the general assembly Saturday afternoon.

Evening activities included an elaborate smorgasbord dinner and dance.

A breakfast and business session concluded the two day meeting Sunday morning. Headquarters for the meeting was in the Hilton hotel.

Kizziar Rites Held at Altus, Oklahoma

Mr. and Mrs. R. C. Henry of Floydada went to Altus, Oklahoma, where they attended the funeral rites of M. L. Kizziar of Dallas. Mr. Kizziar had been ill sometime with leukemia. He died Saturday October 29.

Mr. Kizziar lived in Floydada many years ago and was manager of the A. G. McAdams Lumber company.

He is survived by two children, Mrs. H. G. Daily of Dallas, former resident of Floydada, and Quinby Kizziar.

After attending the funeral, the Henrys went to Houston to visit with W. J. Burke who is quite ill there. Mr. Burke is a former grain dealer of Floyd county, having headquarters at the present Farmer's elevator.

Couple Wed 50 Years Ago in Floyd Renew Vows In Ceremony

A half century ago wedding vows were exchanged and 50 years later on the same date the vows were repeated as friends and relatives of the couple gathered to commemorate the golden wedding anniversary of one of Floyd County's oldest pioneer couples, Mr. and Mrs. John Fawver. Mr. and Mrs. Fawver were maried on November 7, 1899 by the county judge of Floyd county, Arthur B. Duncan.

The children arranged the second wedding unknown to their parents. Rev. R. N. Huckabee, pastor of the First Methodist church of, which Mr. and Mrs. Fawver are members, officiating as the couple again repeated the age-old marriage pledge. The ceremony was solemnized at 6 o'clock Monday evening following a day of congratulations to the Fawvers for the 50 years of happiness and well wishes for the years to come. The three tiered wedding cake topped by a wedding bell was served after the vows were exchanged.

Corley, John A. jr., and J. M. Fawver, all of Floydada. The couple also have 10 grandchildren and two great grandchildren.

Let campus winds howl and frost lace your window—these flannelette dorm fashions will warm you like an Alma Mater sing. Be Sure To Attend Church Regularly

AMERICANISM and **CHRISTIANITY** or **COMMUNISM** and **ATHEISM**...which do you want? The inescapable challenge facing the Christian world today is COMMUNISM. COMMUNISM is OFFICIALLY ATHEIST. To destroy the American principle of FREEDOM of WORSHIP is the declared intention of this ANTI-AMERICANISM.

ABOUT twenty years ago the Comintern declared: "The ultimate aim of the Communist International is to replace world capitalist economy by a world system of Communism....It will bury forever all mysticism, religion, and superstition." That anti-God declaration has never been challenged. In fact, it has strengthened its atheist principles to a point that has rarely been seen before in history. The Truth is, Communism cannot live with Christianity, because it is a religion unto itself, as much so as it is a system of politics and economics.

COMMUNISTS declare theirs is simply the "scientific" application of the teachings of history. They also say theirs is not only a "scientific" system but is the ONLY SYSTEM. Communists say Christianity is superstition. They refer to Christianity as something especially designed to capture the masses for exploitation by capitalist masters. Communists say "DOWN WITH THE CROSS WHICH IS THE SYMBOL OF FAITH FOR THE CHRISTIAN WORLD."...Therefore, Communism and Christianity become the two great rival Faiths of the Twentieth Century.

CHRISTIANITY believes one thing about the nature of man and his destiny, the nature of morality, the basis of ethics, and the nature of the Universe; COMMUNISM believes the exact opposite. CHRISTIANITY believes in the INDIVIDUAL and in the RIGHTS OF MAN. COMMUNISM believes the individual is the wholly owned SLAVE OF THE STATE.

THIS atheistic, materialistic, conspiracy threatens to engulf the whole world. Unless it is stopped our liberties, political, civil and religious rights, will go the way of the unfortunate nations which have already been crushed to earth behind the iron curtain of Moscow. If you believe in God and the Bible of the Lord God Almighty, won't you help hold high the CROSS. It is being threatened by Communist enemies. For the sake of all that is dear to you...attend your church and support her good work.

Whirlwinds Eke Out One-Point Win Over Tulia

Mantaining their position in conference play, Floydada Whirlwinds defeated Tulia Hornets Friday night 7-6, first game of the season that Floydada has won by virtue of extra point try.

Playing virtually an even game in the first period, Floydada made their only score in the second period when Bill Smith intercepted a Hornet pass on the Floydada 45-yard line and carried to the Tulia 28, before being pulled down. Eight plays later, Bob Finley circled left end from 17 yards out, cut back to pick up blockers, then crossed standing.

Aubrey Guthrie, center, kicked the extra point, White holding.

Third period was played on even terms, ending with a Tulia punt being fumbled by Smith on the Floydada 15 yard line and recovered on the Floydada 10 by the Hornets.

Fourth period started with the Hornets on the Floydada 10 yard line, first down and ten. Floydada line, playing heads up ball part of the time, held and Floydada took over on their own four yard line on downs. Finley punted out to the Floydada 45, where Griffith took the punt and returned to the Floydada 29 yard line. Eight plays later, Hutson, full back, plunged over the Floydada goal line from 2 yards out. Simmons failed to make the necessary two yards for the extra point.

For the remainder of the game, Floydada was stopped cold in their attempts at running, showing a definite lack of interference.

Unlike in past games, the Floydada line played ragged defensive ball part of the time. However at times they dug in and threw the Hornets for consecutive losses.

Floydada backs had fumbleitis again and kept themselves on the defensive for the most part. However, with the changes due to injuries, the team was not accustomed to playing together. Some of the backs had been running the "T" and many were lined up in unfamiliar positions for the night.

The 'Winds used more players last Friday night than in any game previous. Besides the starters for the night, others turning in good performances were Don McGuire, Bob Finley, Bill Smith, Adrin Helms, and Arlen White in back slots; Johnny Lloyd at guard; Buster Mooney at end; and Carol Fulton at center.

Appeal on Suit by Copelands Goes Up on Law Point

Appeal will be taken from a verdict of the trial court here last week in the suit of H. A. Copeland and others against the estate of the late deceased W. M. Massie, it was said last week-end by John B. Stapleton, one of the attorneys for the plaintiff.

The verdict rendered on a point of law by District Judge Alton B. Chapman, was based on an exception to pleadings of the plaintiffs by Bain & Bain, attorneys representing the Massies.

H. A. Copeland, jr., 14-year-old son of Mr. and Mrs. H. A. Copeland, was drowned in a caliche pit in southwest Floydada on July 10, 1948. The block of land on which the pit is loctated is the property of the estate of W. M. Massie. The suit was filed on behalf, of the youth's parents alleging responsibility on the part of the owners of the land.

Exception to this pleading was based on the fact that the boy was a normal youth of 14 years. The judge held for the defendants on this point and rendered a judgment for the Massie estate. The case goes to the Seventh Court of Civil Appeals.

The Copelands are asking for $15,000 damage.

Associated with Stapleton representing the plantiffs in L. D. Ratliff of Spur. Associated with Bain & Bain are Martin & Martin of Wichita Falls, and Lucian Morehead of Plainivew.

The Chapel Youth Built—Ten years old November 1, the Little Chapel-in-the-Woods at Texas State College for Women has been the scene of 691 weddings, a number of baptisms, and weekly interdenominational worship services. Built primarily as a place of individual prayer and meditation, the Chapel is constructed of native limestone. Art work, including the stained glass windows, was done by more than 500 TSCW students. From its plain Celtic cross to its multi-colored stained glass windows, the Chapel is not only of the twentieth century but of the Texas landscape. It was the first true stone masonry building of any moment to be built in Texas since 1870.

Feeding Cattle Grubs Costly

There is no profit in feeding cattle grubs and they can be very effectively controled, says Robert H. Gibson, Floyd county agent.

The losses caused by cattle grubs are borne by the livestock producer and only livestocks can raise them, adds Gibson.

He recommends the use of power sprayer—with a pressure of 200 to 400 pounds. Lower pressures decrease the effectiveness of the treatment. Spray the animals in a chute and hold the nozzle no farther than four inches from the backs of the animals. It is best to use a full gallon of spray on each animal and from 10 to 15 seconds are required for the application if you want to get best results.

The spray material should consist of 7½ pounds of 5 per cent rotenone dust for each 100 gallons of water, mix it thoroughly. This is the cheapest and most effective treatment you can use, he says.

Make the first grub application as soon as the grubs appear and repeat the treatment at three week intervals as long as needed. Usually not more than three or four says grubs are beginning to make their appearance now and control measures should be used if the grub are to be controlled.

He says if you'll use this spraying program now, you may not have to spray the same animals again for grubs. A good control job should increase your cattle weight gains about 20 per cent and also the value of the hide and animal when it goes to market. The dairyman with a grub free herd can expect a good increase in milk production.

Persons having a few herd of cattle, one to ten, this included club boys, can do a thorough job of elimenating grubs with a dust containing 5% rotenone. Apply the dust freely to the back of the animal and rub it into the hair with finger tip or a stiff brush. This dust can be obtained in small quantities from all drug stores and the cost is very small, Gibson said.

Any additional information on how to control grubs in cattle can be obtained from your local county agent upon request.

Sequence of Events Keeps Family Tree Aquiver in Comedy

Members of the speech department of Floydada High school under the direction of Mrs. I. T. Graves, will present a three act comedy, "We Shook The Family Tree" next Thursday night, November 17. Time for the play has been set at 8 o'clock and the place is the High school auditorium.

Taken from the popular book by Hildegarde Dolson, the play never has a dull moment. The action is rapid, the roles are engaging and the lines are often uproarious according to Mrs. Graves. Adventures and escapades keep the family tree aquiver.

It is the whole family story with an amusing feeling for the less important but more light-hearted things in life.

The cast and more details of the play are given in The Hesperette.

We wish to take this opportunity of expressing our thanks to our many friends and neighbors for the pretty cards and letters and lovely flowers sent me while I, Mrs. J. M. Harrison, was in the Scott and White clinic at Temple. May God bless everyone of you.

Mr. and Mrs. J. M. Harrison

Mr. and Mrs. R. P. Walker and family left Monday for Albuquerque, New Mexico, to make their home. The Walkers have made Floydada their home the past two years.

Mr. and Mrs. R. C. Henry, who returned the latter part of last week from Houston where they visited W. J. Burke in St. Joseph's infirmary and with Mrs. Burke at the Burke home 5003 South Main street.

Mr. Burke was seriously hurt when he was struck by an automobile at Palm and Fannin streets, Houston, busy corner, at 6:30 o'clock on October 24. The driver of the car said he did not see Mr. Burke until it was too late to avoid hitting him. The accident occurred during heavy rainfall.

Mr. Burke's injuries include a badly crushed right lower leg, a bad gash in the forehead, an injury in the back of the head, three broken ribs, and bruises and contusions all over his body. He was picked up against the curb after being rolled several feet apparently, said R. C. Henry here this week. Following shock treatment he was taken to St. Joseph's and is being treated there.

Mr. Burke is 73 years of age. He has been manager of a large court, the Southmore, for several years.

Make Protest Discontinuance Oue Passenger

Only protests to discontinuance of passenger, mail and express service on the Quanah route at the hearing in Paducah Wednesday of last week were filed by citizens of Paducah and Roaring Springs and representatives of the three railway operating unions.

Roy Jones, Cottle county attorney, and H. L. Stallings, Cottle county judge, spoke opposing the reduced service as did Neil Purvis, superintendent of schools at Roaring Springs. The latter pointed to the fact that Roaring Springs would be left without any public transportation and the Cottle county men urged the railway should bear with the community until it is large enough to support the railway's service. Jones is one of the company's large volume customers.

The railway operators' unions represented as opposing the reduced service are the Brotherhood of Railway Trainmen, the Brotherhood of Locomotive Firemen and Engineers, and the brotherhood of Railway Mail clerks.

The hearing was conducted by C. F. Petit for the State Railroad commission. Heavy net loss in the last fiscal year in providing the passenger, express and mail train was given as the reason for desire to abandon the service by the railway company's attorney, Judge G. E. Hamilton.

Floydada was among the towns which did not protest the abandonment of the train.

Mrs. Mary Lee Dillard visited last week in Amarillo with Mr. and Mrs. Flake Dillard and son.

in an occasional precinct, but the overwhelming majority in the final tab of the unofficial figures at The Hesperian office Tuesday night, was strictly against.

Proposal Number 6, which would have set up a state-wide system for retirement and disability pensions for appointive county officials and employes, seemed to be the most unpopular of the number. Majority against it may be as high as 5 to 1.

Proposal Number 9 intended to provide a more humane method of handling lunacy cases, ran the best in this county on early returns. Even in this instance, however, the defeat was by a major per centage.

Slightly more than 600 county votes were tabulated at The Hesperian office Tuesday night before the staff called it a day. Total when complete returns are in this mid-week are expected to run less than 1,000 in all.

Reports yesterday morning from over the state were inconclusive though eight of the 10 proposed amendments appear to have failed of carrying, dispatches said.

fidence the team can win the game if they play ball, however. He states, "Crosbyton has a good bunch of boys and we will have to work hard to win."

Bob Finley will probably be in the line up on the offense at least, having recovered from his leg injury nearly completely as well as his shoulder injury, which will be almost well.

Full back Wayne Robertson is still a question and may or may not play depending on the condition of a knee injury sustained in practice last week.

Bill Smith has overcome his cold, and his back injury should give him no trouble so baring unforseen trouble, should be in the line up.

Dale Roberts, who is troubled with a foot injury, will probably be in the line up, assuming no complications.

The Crosbyton team, operating from a number of formations will be a tough offensive team and with their weight, will be hard to handle on blocking assignments. However, with hard conditioning and blocking and tackling drill this week, the Whirlwinds will definately be in the game, and with a few breaks will turn the tide.

EXTRA CURRICULAR COURSES

What are you going to school for? To get an education you say. Education in what? Education in English, in history, in algebra?

A high school education consists of not just one of these things but a portion of each plus many extra curricular subjects. Some of these are sportsmanship, friendliness, and cooperation.

You may have an A in English, but if you cheated to get it, you flunked out in sportsmanship. You may always know your lessons perfectly and have super grades, but if you are conceited and without friends—what good does it do you? You may think you are smart enough to handle everything by yourself, dismissing others with "No thanks, we don't need your help". It is not right or very smart either. Nor is it right for you to stand off and let a few others carry on all the discussing, planning, and work.

Someday you will be out on your own; you may be looking for a job. You come to a place where you need to know a certain rule in English, but you hadn't learned it; you had cheated. You are not able to get along with other employees. You haven't a friend to give you a reference. Needless to say, you don't get the job—all because you flunked some of the important courses in your education.

IT CHOPS AND SHREDS STALKS FOR CLEAN PLOWING

Everybody's talking about the famous Humboldt Stalk Cutter, which does such a wonderful job of chopping up and shredding corn, cotton, maize and other stalks. At the same time spreading them evenly in the field, all ready for REALLY PLOWING THEM UNDER, the kind of plowing which—

BUILDS UP SOIL—through nitrogen and other soil nourishment in stalk remnants.

HELPS CONTROL CORN BORER, BOLL WEEVIL, etc.—by enabling a thorough, clean job of plowing, thereby stopping reinfestation.

Investigate The HUMBOLDT CUTTER

Tractor-driven and power-takeoff-driven. Double blades (4 knives each) whirl 1,000 R.P.M., cut and mangle stalks into small bits. Blades supplied either with straight edge cutting knives or swinging hammers. Adjustable cutting height. GUARANTEED AGAINST FAULTY WORKMANSHIP AND MATERIAL.

A Free demonstration will be given without obligation.

Candid Camera

Have you seen a very good looking guy, 6 ft. 1 inch tall, blonde haired, with blue eyes, weighing 165 pounds, cruising down the halls of F. H. S., one who always wears a friendly smile for everyone? Yes, of course, you have and he is none other than the Soph's own class president for the year 1949, Hubert Ring.

Hubert plays end for the fighting Whirlwinds, and the two white numbers on his green jersey read "52".

Our candid camera was born in the town of Littlefield, Texas, in the year of 1934, on no other day than November 10. I think you can best tell the type of person he is by his likes and dislikes.

Hubert likes baseball, football, banana pudding, steak and gravy, reading, parties, Algebra, and staying up late.

Cheese, basketball, carrots, conceited people, muddy weather, tomato juice, studying, and missing passes are his dislikes.

Hubert's biggest weakness is, yes you guessed it——Women!

"Someday" is his favorite song. He says his worst habit is always trying to get out of work.

If Hubert had an extra hour during the day to do just what he wanted to do, he would eat, read, and listen to a baseball or football game on the radio.

His favorite school subjects are algebra and agriculture, and Hubert intends to become a successful stock raiser someday.

"Red River" is the best show he has ever seen, and as for the movie stars he likes best they are John Wayne, Jane Wyman and Gary Cooper.

Hubert says that he has had so many embarrassing moments that he can't remember the worst one.

He was most thrilled when the Sophomore class elected him as their president.

Hubert is crazy about the big nationwide sport, baseball. He also likes to play football and swim.

The girl of his dreams should have pretty blond hair, luscious blue eyes, be 5 ft. 5 inches tall, "curveous," with a nice personality and should definitely be a good cook. (Sweet dreams- -)

Hubert's perfect day would begin in his own private swimming pool about 8 o'clock in the morning. After a cold swim he'd eat a hearty breakfast of eggs, bacon, toast, and fruit juice. About 9:30 he'd go horse-back riding in the canyons and return in time for lunch consisting of iced tea and banana pudding. After steak, gravy, potatoes, hot biscuits, lunch he'd relax in a big chair to read and listen to a baseball game. There he'd remain till time to get ready for a big date with his ideal girl. He would pick her up about 7:30 and take her to a nightclub where they would dance till midnight. Of course, they'd have a heavenly time and about 1:00 Hubert would come home, eat a light snack, and go to bed.

Hubert, you're doing fine, keep up the good work and you will always be every one's friend. Good luck in years to come-----
You're tops! !

Mary Alice Plumlee Is Ag Sweetheart

Mary Alice Plumlee, daughter of Mr. and Mrs. W. C. Plumlee and senior in Floydada High school, was elected sweetheart of the Floydada Chapter of the Future Farmers of America in a contest which lasted two weeks and closed Friday, November 4.

Each of the three Ag. classes nominated a girl sweetheart of the chapter and votes were a cent a vote. The two other nominees were Billee Newberry and Joy McCravey.

The Aggies spent two days preparing the hog barns, setting up pens, and cleaning out the trash for the hog show which was held Saturday, November 5. The Future Farmers had several entries which did well in the show. Those showing were A. C. Pratt, Lawrence Stovall, Hubert Ring, Teddy Earl Assiter and Melvin Dunavant, who showed the champion Hampshire barrow.

The Aggies held a meeting in the Ag. room Tuesday evening. A large number were present.

DE QUACKER

Well, you ducklings, here is my column again this week. It will always be here and all one has to do is put gossip in my can in Mr. Baker's outer office for this column. Keep the good work up.

What's this about Ray Nell and Carol Fulton. Where do Myrna and Connie come in, I wonder.

Seems as though Judy Moss likes Aubrey Guthrie. A little birdie told me she still loves him! ! I wonder what Pat will have to say about this? ? ?

What's this I hear about Bobbie and Joy and Don Hill? She seems to have his ring. Good luck, Bobbie.

Jean Friske sure enjoys third period study hall. Look who sits in front of her. What about this, Jean? ? ?

Darlene, Lee and Juanita sure did have fun at Wichita Falls. More cute boys, seems as though they go for soldiers. Could they be coming to see you all next week-end? ?

What's this I hear about Gerald Hall in third period study hall? ? He and Carolyn Kiker surely get along swell.

Sherwyn, what happened to Ted Saturday night? I saw your car running around later that night? ?

Looks like Wayne R. is losing out! Marlene R. is going steady with James Stock from Petersburg. He seems to be losing out! poor kid..... Ha.....

Say Floy, what did you do the other night when Don went with Katie? Did you step out on him, like he did you? ?

Veva Buske and Frank Capshaw in third period study hall, wow. Be careful Frank, Warren and the Ralls boys might get jealous. And Veva, I guess you know Arminta is baiting for him.

Eva Waller and Walter Anderson are at it now. My, that girl gets around. First it's Phillip S.—David W.—Fred Marble—Billy Shipley—Harvey Dale—and Jimmy Powell. But I guess Walter is best for her after all.

Trois and Buster were out early in the morning Monday night and Tuesday morning. Have a good time kids? ? Should have with all that time.

Bettye Laminack better slow down or she will have more than two girls on her trail. It is now Chris and Billee Newberry. Wonder why these two girls would like to talk to her? Could it be because she has been going with Jr. and Jerry lately? ? ?

Dean Stewart was having a wonderful time in Silverton Saturday night. Dean was that Billie Hand you were with? ? ?

From what I saw Monday night June Ware and Bert Grimes were having quite a nice time. Cute couple.

From what I hear, the kids at Carolyn's party sure did have a good time. Especially Beverly and Billy, brother! ! Good to see you together. Ain't love grand? ? ?

Say, Jane, who was your good-looking date Saturday night? I saw several girls watching him. Whoever he was, you better hang on.

Ray Nell and Connie sure did have a good time Monday night. Connie, have you completely forgotten June Ware? ? I don't think she has forgotten you. . . .

That's all folks.

Assembly Program

The assembly program November 4, 1949, was given by the band, pep squad and the Floydada business men.

Mr. Stovall, Mr. Reue, and Mr. J. C. Wester made pep talks. The school was led in a yell by Jimmy Willson, Jim Word and Gayle Mayo. We want to thank the business men for their interest and spirit. We appreciate their cooperation and support.

F. H. A. News

The race is now on for the F. H. A. pin-up boy and the courtesy king and queen. The F. H. A. girls are having a meeting with the F. F. A. boys Tuesday, November 8, to make plans for a Christmas party.

Minister: "My boy, do you attend a place of worship?"
Jerry: "I'm on my way to her house now."

'Winds Edge Out Hornets 7 to 6

Once beaten Floydada Whirlwinds just did get by a fighting but outclassed Tulia Hornet team Friday night at Wester Field by the small score of 7-6.

The Winds tallied first before the second period was over when Bob Finley powered his way over from the 17 yd. strip, and Guthrie added the finishing touches by placing it straight through the up rights with Arlen "Doak" White holding the ball.

Tulia stayed behind unti lthe middle of the last quarter when Wandie Hutson drove his way over with the set-up by Griffith, who ran it down to the 2 yd. line; Griffith tried to plunge the line but the extra point was no-good.

The game was evenly matched all the way as the score shows, with the Winds just a little better.

Beat Crosbyton!!!

Hints To Boys

The girls, too, have air castles. Boys, read the following article and don't let so many girls' air castles shatter. If you don't stand up to these hints, then get busy and try to improve.

Girls don't like boys who——
Are last minute dates;
Discuss other dates they have had;
Are always late;
Use poor English;
Never let them talk;
Try too hard to make an impression;
Haven't good character, but have a well reputation;
Aren't neat in clothes, hair, teeth, and nails;
Stand girls up;
Are a softy or sissy;
Spend money carelessly;
Are sarcastic;
Aren't themselves at all times;
Are afraid to look at you;
Won't confess frankly when they're broke;
Are always serious;
Aren't clean in mind, thought

Band News

The Whirlwind Band performed at the half of the Floydada-Tulia game. They lined up in reversed order, but the first lines came through the others, so that they were in regular positions.

They did a right flank and marched to the thirty-five yard line. Here a banjo was formed, and the band played "Ring, Ring the Banjo", while the twirlers did routines.

After coming out of the banjo into marching position, a left flank movement and counter march were made. From here, they marched to the center of the field, made a right corner, and faced the east grandstand. They formed a "T" for Tulia and played "Indiana State Band". Immediately following the "T" a counter march was made and they marched across to face the west stand, where they played "Steel King" while in the formation of an "F" for Floydada. The twirlers did different routines while the band formed these letters.

After coming out of the "F", the band did a counter march, a left turn, and marched off the field playing "The Thunderer."

Junior Doyles Find New Home Interesting

(Printed below is a letter from Mrs. Lonnia A. Doyle, jr., to her brothers-in-law, Bob and Don Doyle, of Portales, New Mexico.

The Doyle boys are former residents of Floydada. The Junior L. A. Doyles are Baptist missionaries in Recife, South America. Several of the interesting incidents happening in and around their town is given in the letter. Ed.note)

September 20, 1949
Recife, S. A.

Dear Boys,

I've been thinking about you today and Thelma Gayle even remembers "Bob and Don." She just calls sometimes and looks everywhere for you.

Thought I'd sit down awhile and tell you some of the things we've been seeing. The people carry heavy things on their heads. Yesterday I saw a man with a sewing machine. In Belen we saw a man with 6 big boxes on his head and he wasn't using his hands either. I haven't seen it, but they say several men carry pianos on their heads, and sing as they go so the pianos will stay in tune.

Most of the working people around the seminary go barefooted. Nearly all the poor people do. Sunday at church I saw an old woman barefooted.

Going to town is like a fair. They sell everything on the corners, out in the street, or anywhere. It's just a sight.

Some lizards play around outside our windows. We are staying on the second floor and they run up and down and peep in (I nearly die). There's an old grandpa lizard that looks awful. But these are similar to those at home except these are larger.

Today they had a parrot down town telling fortunes of people. Mildred Cox, she is Mrs. Mein now, was telling us about a parrot they know of. When the family eats he will say "Just give me a little bit of everything." And when the family is in the back yard, he'll just call them and say things to make them come. But they know his tricks, so tried staying on in the yard. One day he called, "The pastor is coming." They all went in, so now when he wants them he says, "The pastor is coming". Pretty smart parrot, eh?

Brazil Land of Contrasts

We went to the beach the other day. They have such a pretty one here. A house is being built for missionaries for vacation time. It's right on the beach. We are to have off a month a year. On the way down we saw some beautiful houses, one I especially remember was shaped like a ship. But on our way back we saw mud huts, the most terrible places I have ever seen. Truly Brazil is a land of contrasts.

In Fortalezo we saw women washing in the river, but in Recife it is really modern. They wet the clothes, rub soap on them, let them dry on the grass in the sun, then they wet them again and wash them. They say the sun bleaches them and makes them white.

Oh! you'd like to have a monkey like the ones the Stanley boy has in Fortalezo. He has two and they are about the size of a squirrel. They are so cute. Hair grows out their eyes and makes little balls of fuzz. They chatter all the time. One of them insisted on sitting on my shoulder with his head under my hair.

This afternoon I looked out the window and saw four yellow canaries. They are here like sparrows are at home. The fruit trees are just beautiful—so big.

They Like Morning Glories

We went for a walk this morning and saw so many pretty pink houses. They make all colors of houses here in Brazil. One house had a beautiful yard, all kinds of pretty flowers and a tile fish pond but guess what they had growing in front of the house. Morning glories. Maybe they're sorta like orchids at home—scarce.

Last night we went to prayer meeting. Antonio, a servant girl downstairs, stayed with Thelma Gayle, who just loved her. I was so pleased with the way Thelma Gayle went to sleep while I was gone.

Did I tell you about the cold water showers? There's no hot water in Brazil—that is running hot water.

Down at the port this morning we saw the most beautiful palm trees. There were a dozen different kinds.

Oh, yes, I have learned to drink Brazilian coffee. Doesn't taste much different from that at home. Had corn and cocoanut milk the other day for breakfast.

Write us a long letter. Not sure when we will get to Campos. Oh, yes, we're paying $150 customs; $100 of that is on baby food which cost us $27. We're having trouble over Lonnie's guns. Guess they will keep them for awhile.

Love,
Janelle

PRIVILEGE TO GLORIFY GOD

"What? know ye not that your body is the temple of the Holy Ghost which is in you, which ye have of God and ye are not your own? For ye are bought with a price: Therefore glorify God in your body and in your spirit which are God's". (1 Corinthians 6: 19-20)

This scripture as well as many others, help us to realize that we should glorify God. We feel we should and we want to glorify Him in our body and in our spirit, but we do not feel that we have time to glorify Him. The day is all to short to accomplish what seems to be necessary for our physical and mental well being.

Since God wants us to be willing and obedient, He does not force us to love and serve Him and it is our privilege to listen to the still small voice and glorify Him in everything we do.

It is possible to glorify God in body and in spirit for 1 Corinthians 10:31 says "Whether therefore ye eat, or drink, or whatsoever ye do, do all to the glory of God".

Christ Story Will Be Told In Big Pageant

CANYON, Texas, Nov.—The Christ story beginning with Abraham and concluding with the birth of Christ will be presented each evening in Palo Duro Canyon State park, December 16, 17, 19, 20, 21, 22, and 23.

The mammoth pageant, using more than 800 Panhandle people, is the largest spectacle ever attempted by Geller productions, outstanding Hollywood producers of indoor and outdoor pageants. The event is sponsored by the Amarillo Ministerial alliance.

Staged in eight scenes, the story will be portrayed on the rim of Palo Duro canyon between El Coronado lodge and the State park gate.

The vast and sweeping canyon will be a cathedral-like backdrop for this event which has been titled "The Beginning of Glory — The Christ Story."

The production and story originated by John L. McCarty, South western Public Relations counsel, will for the first time present in outdoor pageant form the background Bible stories leading to the coming of Christ. Most such stories, including the famous Passion Play, deal almost exclusively with the life of Christ.

A year of Progress

Sunday marked a day of spiritual inspiration, good fellowship and true friendship among the members of the Lakeview Baptist church, as they celebrated a year of steady progress. Prior to November 6, 1948, we thought it next to impossible to have a full time church. We were running half time with a struggle. We had no training union, W. M. U.. One year ago, we called Rev. G. A. Rowell, then of Plainview and Wayland college, as our pastor. The Lord has blessed us abundantly. Through our pastor and his wife, and the untiring efforts of our members, we are now a fulltime church.

We confess that it wasn't easy going all of the time, and we've had to work hard, under difficulties and discouragements, so anything short of our best isn't enough.

We pride ourselves in saying we have one of the best branches of young people that God has ever permitted a church to have. They're always ready to do whatever the pastor calls on them to do, eagerly and joyfully. And as for cooperation and loyalty to each other and their leaders, they couldn't be beat.

We have a wide awake training union with almost the same enrollment as our Sunday school. Also have W. M. U. that is doing wonderful work.

We have had 35 additions to the church during the year. 22 of those joined by letter and 13 by baptism, on profession of faith.

We had an all day service Sunday with lunch in the basement of the church. Rev. Otho Rowell of Sunnyside brought the message in the morning at which time an inspiring song service was held. Our pastor filled the pulpit Sunday afternoon. He recalled his sermon of a year ago, as being on the subject, "The Blueprint of our Lives." Just before the song services Sunday afternoon, a linen shower was presented the pastor and Mrs. Rowell from the church, as a token of love and appreciation.
