NUMBER 52.

LETTER FROM AN OLD COTTON MAN

The following letter was received by the editor of this paper from J. E. Etter of the Hardesty, Oklahoma, community. We have known Mr. Etter for a number of years. He came to this country from the cotton belt of Texas, and has had many years experience in the cotton raising business. He has persuaded a number of his neighbors to plant a small acreage of cotton this year. They are as follows: F. O. Etter, 20 acres; Steve Evans, 20 acres; Bud Lowe and Sons, 20 acres; Joe Thompson, 15 acres; D. Etter, 20 acres; a total of 115 acres. Mr. Etter says that there are a number he hasn't seen and that he will send in their acreage later. This time cotton man has the following to say on the cotton situation in this country:

"Has cotton come to stay? As you know me personally you know that I am what is called a middle aged man and that I was raised in Montague county, Texas. In the years from 1880 to 1902, I worked in the harvest fields in Wichita and Wilbarger counties and there cotton was not considered a profitable crop. If you mentioned cotton the reply was, we will never raise cotton here, but in a few years cotton came to stay and cotton is the main crop. And a few years later cotton pushed on west. In 1913 the last cotton west on Fort Worth & Denver was between Colorado and Washburn. I lived in Hart County until 1917 and now they are raising cotton profitable there at the present time. When I left there I never heard cotton mentioned, but cotton is coming here and will come to stay.

With the modern machinery we have now, cotton will be one of the most profitable crops on the plains. Of course, cotton will open late in a climate, which will be a blessing instead of a hindrance, on account of doing away with the first picking and will make it convenient to pull or gather the crop at one time over. Of course, there are arguments against cotton, such as dry weather and the wind and some are of the opinion it is a failure just on general principles. But cotton has come this time and it will fill a gap felt in bridging over these dry years.

Of course wheat is considered the crop of the panhandle, but let us all get together and raise a little cotton, raise some wheat and feed a few milk cows, raise some pigs and have our own meat, and the hen and a small garden watered from the windmill, and above all wear a smile, even if you don't have much else to wear. By means, plant some cotton.

I am sending you a list of my neighbors that are subscribing to your list, and you may get a gin.

(Signed) J. G. Etter.

EGUENE BARNETT BACK IN CITY BAKERY

Mr. and Mrs. Eugene Barnett of Liberal, Kansas are again in charge of the City Bakery, having taken the same the fore part of the week. The former owners Mrs. J. F. Gregg and son, have departed for their former home at Wichita, Kansas. Mr. Barnett is an excellent baker and we are glad to see him once more the manager of this business.

Clyde Russell was up from Amarillo the latter part of last week looking after business interest in this county. Clyde is now in the real estate business at Amarillo and is making a specialty of cotton lands. He sold a number of farms in this county during the past few weeks.

Ben Peckenpaugh was seriously injured on Tuesday morning of this week when he was thrown from a car which was being driven at a high rate of speed in a coyote chase. He landed on his head and suffered a slight concussion, being unconscious for several hours.

Hansford County has filed suit against the State Highway department to secure an injunction against the payment of the motor license money.

Zack Westbrook was in from his trip south of town last Saturday.

THE OIL SITUATION

E. C. Warfal of Eldorado, Kansas was here last week looking over the local oil situation. Mr. Warfal is ready at any time to ship a drilling outfit in here to commence operations on the block southwest of this city. But he will not commence operations until the block is filled. Practically all resident land owners have leased their land but a number of non-resident land owners have not paid any attention to the letters sent them requesting them to lease their land. To us this looks like bull-headed contrariness. It is a case of all to gain and nothing to lose. The bit will never start down until the block is completed so. Mr. Non-Resident, why hold back. The people who live here are the ones who are trying to put this deal over. If they strike oil your land will be valuable so why not lend a helping hand, especially when it is a case of nothing out of your pocket. The speculating non-resident land holder is the greatest drawback that this country has at present. A number of our non-resident land holders have improved their places for tenants thus advancing the country. That type of land holders is an asset but a great majority of them are just setting back on their haunches letting the other fellow develop the country thus multiplying the value of their property.

MRS. G. W. TAYLOR

Mrs. G. W. Taylor, wife of Judge G. W. Taylor of this city died at the home of her daughter in Kansas City on the 17th of last month and was buried in that city on the 19th. Mrs. Taylor was visiting in Kansas City at the time of her death. The deceased was born in Missouri almost 69 years ago. She came to Texas in an early day and was raised in Denton County moving to Beaver County with her husband in 1894. They have been residents of this city for the past four years. She was the mother of nine children, all of who are living. The Herald extends their sincere and heartfelt sympathy to Mr. Taylor and the surviving children in this sad hour.

BLUE MOUND GOES OVER THE TOP

First consolidated Superior Model School in the Panhandle of Oklahoma. Miss Lysle, Assistant Rural School Supervisor of the State of Oklahoma was in Beaver County the past week inspecting schools. She reached Blue Mound the 23rd, inspected the school and classed it as a "Superior Model School," the highest class any school may attain. Blue Mound started the year with about 500 points on the score card, and the inspection score for the school was 1310 points.

Miss Lysle made an interesting talk commending the community on their progress and suggesting a few more improvements for the school; though she had been here only a short time she learned that a superior Model School does satisfy the people of Blue Mound, when other things are to be done to improve and beautify their school and grounds. Miss Lysle says she long hoped to find a school like Blue Mound, a consolidated and a Model School combined, a school that attains the high standard Blue Mound has reached by community cooperation, a school that makes its progress by the ungrudging work of its patrons, children and teachers, one that does things in spite of difficulties, rather than because of wealth and favorable conditions, a school that does not have usual opportunities but one that makes unusual efforts.

Blue Mound Community has some people who believe in doing things, and we congratulate them on their accomplishments.

TWITCHELL NEWS

Herbert Brillhart made a business trip to Liberal, Kansas, Saturday.

There are several children in this locality that are having the chicken-pox.

Jonnie Parten from Greensburg, Kansas, is working for J. O. Carter. Mr. Jackson and Mr. Anderson from Huntoon vicinity were in this neighborhood Saturday looking for spring wheat for seed.

Geo. Barnett hauled barley to the Twitchell elevator this week.

Ray Batman and J. A. McWilliams are stacking feed for R. L. Teurman.

Mr. and Mrs. J. O. Carter and Mr. and Mrs. Robinette called on Chas. Newlin and family Monday night.

Mr. and Mrs. Herbert Brillhart were shopping in Perryton Monday.

Dean Newlin spent the day Sunday with Vivan Bruner.

J. A. McWilliams was in Perryton Monday.

Mrs. Walter Stallings and children called on Mrs. E. O. Bruner Sunday evening.

G. C. Brillhart returned last Thursday from Kansas City where he took several car loads of cattle.

B. J. Walker was hauling barley from the Ira Teurman farm in Beaver County, Oklahoma, last week.

M. H. Crum was hauling seed oats Monday he bought of Jack Swain.

Mrs. Watt Gilliam died at her home in Spearman the fore part of this week and was buried at the Ochiltree cemetery. She lived in the southwest part of this county for a number of years.

Mrs. Elsie M. Stagner and Mr. L. V. Noe of Blue Mound were married here on Thursday of last week by Rev. J. Ray Hollen.

G. W. Taylor is visiting at the home of his brother, W. F. Talor who lives in the southeast part of this county.

B. F. Tepe, general manager of the White House Lumber Co., was up from Canadian the fore part of this week.

THE GIN PROPOSITION

Allen M. Wilbanks, Jr., M. R. Coffee and W. W. McLarty made a trip to Wheeler last Saturday to interview a Mr. Watson, who is figuring on building a gin here this spring. There will also be a man up from Sayre, Oklahoma this week to look over the gin proposition here. There is no question now but what that we will have at least one gin here and may be two to handle this years cotton crop. From all indications, we confidently believe that there will be at least 10,000 acres of cotton planted in this trade territory. One thing that we do not want to happen to us is to have some old fashioned out-of-date junk pile unloaded on us for a gin. Dalhart is having an experience like that now. The good people of that town contracted and paid for a gin to be erected at that place last summer and now they have found that about all they have is a gin building the machinery being practically useless. According to the Dalhart Texan of last week, only a few bales have been ginned and from all indications the majority of Dalhart's crop will have to be shipped or hauled to other points for ginning. Let's see that this does not happen to us here in Perryton. We have plenty of old time gin and cotton men who are at the head of the cotton movement and we feel sure they will not permit an inferior gin to come in here.

UNION SCHOOL NEWS

Many of the pupils of the primary room have been absent the past week on account of illness.

Dalton Patison is back in school after two weeks absence on account of illness.

The pupils of the primary room are spending a few minutes each day planning and furnishing a modern home. The boys are doing most of the carpenter work, while the girls are making curtains, rugs and etc.

The fourth and fifth grades of Union are hard at work again since vacation days are over. We have started out this week with only one absence and hope the good attendance will continue.

We would like very much if more of the patrons would come and visit to see for themselves what we are doing. Never feel satisfied by just taking the opinion of someone else but find out for yourself.

The Union Basket Ball teams went to Camerick, Friday January 26th. The games led with the first team boys. Boy teams were matched well in size and it would have been hard to guess on the outcome of the game. At the tip off the Ball went to Camerick boys and Hale scored a goal. Then followed a succession of goals for Camerick despite the heroic efforts of Union's guards. Both teams played good clean basket ball. Coach Fields of Camerick refereed. Buford Seago starring for Union and Hale for Camerick. Game ended 42-2 in favor of Camerick. After the defeat of Union boys, the girls first team, "Union Tornadoes," took the battle field determined to revenge the defeat of Union boys. Vinita Collins, Elsie Garner and Ruth Price as forwards, and Hazel and Jennetta Brown and Bertha Garner as guards. At the tip off Vinita scored a goal for Union and more followed in its wake. The Tornadoes lived up to their name and game ended with a score 37-2 in favor of Union. Vinita Collins starring for Union, with Ruth Price a close second. Then the Second Team boys took the field with a little more pep. This game was a rough and tumble all the way through, but Union boys were overcome in the end and score was 18 to 3 in Camerick's favor.

ATTENTION! Friday afternoon, February 1st, Camerick returns the game on our home court. Come and boost for the teams, and help win the games. "Let's go."

Mr. and Mrs. L. H. Anderson and son, Ernest, were among the shoppers here last Wednesday.

Mr. and Mrs. E. O. Bruner of Twitchell were among the many farmers trading here last Tuesday.

Ollie and Leonard Morris of the Twitchell community were Perryton visitors last Tuesday.

The Herald \$1.50 a year in advance.

HERE AFTER MAYFIELD-PEDDY BALLOTS

R. H. Gaston and Judge John T. Selman of Dallas and E. C. Cantrell of Amarillo were here on Monday of this week to get the ballots cast in the 1922 general election for the various state and county offices. The above gentlemen were here on orders of the United States Senate to get these ballots on account of the contest which has developed over the seating of Earle B. Mayfield as United States Senator from the State of Texas. This contest as we look at it is not a party affair but a Klan and anti-Klan fight. Well we voted for Mayfield and believe that he will win out in the contest but at that we are not so darned strong for Mayfield as we are against the Peddy-Ferguson-Nigger-Mexican combination.

HUNTOON BOY HONORED

Walter Morris of Huntoon has a right to be proud of the honor which is his by right of winning third place in the Capper Pig Club contest for 1923. As a winner in this contest he will receive a check from Arthur Capper for \$12.00. He also will receive the silver trophy cup which is given to the boy showing the highest actual net profit. Walter has done no more than any other young man in this community could do, if he would only apply himself. The Pig Club work among the younger folks is growing every day and it will be one of the means by which the old as well as the young generation will see the wisdom of good pure-bred stock.

CARD OF THANKS

I wish to take this means of expressing my heartfelt thanks and appreciation to those who endeared themselves to me by their kind words and helpful deeds during the last illness of my dear beloved wife.

N. C. PLETCHER

The wrestling match at the courthouse on Tuesday night went off in good shape under the management of I. L. Cagleston. A good crowd was present and all reported that they got a good show for their money. The main event was between Charles Deabender of Guymon and Joe Ackerman, the first and third falls going to the former in 24 and 8 minutes. Ackerman won the second fall in 11 minutes. Kid Wallace and Ralph Rupprecht wrestled to a ten minute draw in the preliminary.

Word has been received that Mr. and Mrs. Paul F. Stewart who left her in their car for California on Sunday, January 20th, arrived in San Diego on last Sunday.

INTERSCHOLASTIC LEAGUE RULES IN DECLAMATION

A Sub-Junior Division

The declamation for Senior Girls and for Junior and Senior Boys shall consist of prose selections lying in the general field of Americanism or Good Citizenship. This requirement may be fulfilled by a selection dealing with, (1) fundamental qualities or virtues necessary for good citizenship, (2) a story or exposition of noted events or characters that have contributed to the making of America, (3) patriotic selections, (4) discussion of a present day public question or issue. Poetic quotations may be included in a prose selection provided the selection, as a whole, contains more prose than poetry. A declamation must not be more than five minutes in delivery. These contests are to train pupils as public speakers and not as dramatic readers or mere speakers.

In the Junior Girl division selections from standard poetry shall be delivered of not more than five minutes in length. The selections chosen must not be in the nature of dramatic readings, must be in good English, and must not be in dialect or require impersonation. The purpose of this contest is to add to the mental enrichment of the pupils by the memorizing of standard poetry and to enable them to give a sincere, intelligent, and effective oral interpretation of the same to an audience.

Provisions have been made in the country for a Sub-Junior Girl and Sub-Junior Boy division in declamation. The rules governing the selections for the junior boys and the junior girls' contests, will be used in the Sub-Junior contests.

In the county contests there shall be a boy and a girl for each division—senior girl, senior boy, junior girl, junior boy, and in both the high school and the rural school divisions, who will go on to the district meet at Canyon, and to the state contest, which meets the first Friday and Saturday in May at Austin.

A few days ago Miss Lillie Jackson received a letter from Mrs. Mabel Dunn of Delta, Colorado stating that they were all enjoying good health and liked that country fine but had quit farming there for good. They raised 350 sacks of irish potatoes and were offered \$36.00 for their entire crop. Now I want to know why our "taters" cost us so much here when we can drive in a little better than one day where we can buy them at such a price. Mrs. Dunn formerly, Miss Mabel Kettell was born and raised in Ochiltree County and has many friends here.

FARMERS TAXED MORE THAN INCOME JUSTIFIES

At the last session of the Texas Legislature an attempt was made by several legislators to revise the existing taxation system in the interest of the farmers, who are undoubtedly bearing more than their share of the tax burden. In this connection, the National Conference Board of New York, which has made a study of taxation problems, has compiled data showing that in 1922 American farmers paid in all forms of taxes a total of \$1,437,000,000 or 20 per cent of all taxes collected by federal, state and local governments. In 1913, 10.7 per cent of the farmer's income went for taxes, while only 4.1 per cent of the income of the remainder of the community was used for this purpose.

But since 1913, farmers in certain of the states, particularly several of those in the Middle West, have "gotten wise" to this gross inequality, and have been successful in putting through measures which base taxes more on the income from property and less on property valuation. As a result of this agitation for a fairer taxation basis, the ratio between taxes and income in 1922 was 16.6 per cent for farmers, while that for the remainder of the community was 11.9 per cent. This indicates that taxes went up for every one, but the per cent increases was greater in the case of the city man than the farmer.

However, the farmer is even now paying more than his share of taxes considered from the standpoint of income. Especially is this true in Texas, and it is hoped that before the next legislature convenes, the farmers of Texas will awaken to the fact, and insist, not on higher taxes, but a revision of the system which will apportion the burden among the different classes according to their ability to bear it.—The Progressive Farmer.

On the last day of each month a clerk of the Treasury Department goes to the White House with a check for \$6,250 payable to the President of the United States. In addition to the President's regular salary he has an allowance for White House expenses, and he may use as much as \$25,000 a year for traveling expenses. There are great demands however, on a President's income; only a few Presidents are thought to have saved any money during their terms of office. For one thing, although the Treasury pays the President \$75,000 a year as salary, it takes back \$25,500 of it as an income tax.—Youth's Companion.

**ATTENTION ---
--- MR. LAND OWNER**

I have made arrangements to take care of a limited number of improvements for the land owner who wants to rent his land to a cotton farmer. There are thousands of acres of land in this section that should be cut up in small tracts with a cotton farmer on each tract. Put a few small improvements on these tracts and you can rent them at once. One and two years time can be arranged for the payment of the necessary materials. One year's rent money from a cotton crop will pay for the improvements. For further particulars see me at The Farmers & Stockmens State Bank.

TWELVE JOBS TO DO NOW

Another new year is now on us,
consequently we wish to call atten-
tion to twelve "going-to-do-some-
time" jobs that most of us keep prom-
ising ourselves to do, and know we
ought to do—and yet first one new
year and then another finds undone:

1. Make a will.
2. Take out some life insurance.
3. Have a medical examination.
4. Arrange to take the winter short course for farmers at your agricultural college or high school.
5. Have the children examined for eye, ear, nose, and throat defects, and their teeth put in good condition.
6. Start a bank account.
7. Take out some fire insurance.
8. Provide raincoats, and overcoats or cloaks for every member of the family.
9. Make wood and water more convenient for the good wife.
10. Arrange to have purebred sires for all farm animals in 1924.
11. Build sanitary privies and an implement shed.
12. Make up with any neighbor with whom you have been "at outs," arbitrating anything you can't agree about.

There are very few farms on which one or more of these dozen jobs do not need attention—simply because we just keep putting them off. If we are really ever going to do them, why not get them done now—now before another new year comes to mock us and our procrastination?—The Progressive Farmer.

Mrs. C. R. Nelson and daughter little Virginia Ray, left Wednesday, to visit in the country home of her parents, Mr. and Mrs. P. H. Sebastian.

Mrs. H. T. Garrett, mother of W. L. Garrett, was in Perryton the fore part of the week for medical treatment.

Mrs. Albert Hills is visiting at the home of Mrs. Ben Jackson and family on Wolf Creek this week.

E. G. Fenno of the east part of the county was shopping here on Tuesday of this week.

A SENSE OF HUMOR

The man who has a sense of humor, and with it can contaminate his fellows, is a priceless jewel. We had the fur-lined shaving mug to the editor of the Bremond Press. He gave us our best Christmas laugh, with the following, "News That's Never Printed."

Thinking them to be mushrooms, Mrs. Caroline Bamberg and her children picked and ate a quantity of fungi in Forest Park yesterday afternoon. They were mushrooms.

James MacReady, ninety-four years old, who for years had lived upon two bananas a day in a squalid little room, died last evening without leaving a tin box filled with government bonds.

Bobby Rocello, four years old, fell asleep yesterday morning on the rear fire escape of the flat on Siegel St. He awoke after two hours, much refreshed.

A small gray kitten, chased by a dog, scrambled to the top of a tall tree on Main Street today and got down again without difficulty. No crowd collected.

Half a dozen boys, playing scout in a clump of woods near East Hickory, did not find the slightest evidence of a murder.

Seven years ago this month, Bill Blue, a young man of the poor-but-honest type, helped a tottering old man to cross the crowded street. This morning Blue received a letter from Tarts & Trammel, attorneys, and on opening it, discovered that it was a handsomely engraved notice of the firm's removal to a new set of offices—Southwestern Machinery.

H. B. Dewey, who is engaged in the farm loan business in Amarillo, was thru here Monday on his way to Beaver, Oklahoma to look after some business interests.

W. L. Garrett, who has been here buying broom corn for the Association, left Thursday for Goodwell, Oklahoma, to spend a few days.

Mrs. Joe Montgomery has been very ill with pneumonia for the past ten days but is now reported on the road to recovery.

Mrs. Sam Lilly, who has been quite sick with inflammatory rheumatism, is considerable better at this writing.

DIAMONDS AND PEARLS

Haven't you heard people say that they were just like nature made them—that nature never intended them to be anything else?

Consider for a moment the diamond and the pearl. The pearl remains as nature made it. It is the one precious stone that doesn't have to be changed in order to attain its greatest value. Like the sea, from which it comes it cannot be changed.

Then look at the diamond. To the untrained eye it looks like a pebble. It has to be changed before it can achieve greatness.

The people of the world may be classed as pearls and diamonds. The pearls are the geniuses; the ones who come with unusual natural endowments to enable them to achieve greatness without apparent effort. Some have marvelous brains; some, fine dispositions; some, great personalities; some, beautiful spirits.

The diamonds—and they are in the majority—and the people who have the basic materials for greatness, but must be subjected to the cutting process of diligent application before they can shine forth in resplendent glory. If the diamond refuses to subject itself to the cutting process, it goes on to the end just an ordinary, soapy-looking pebble.

The unrefined diamond may have the finest quality in the world, but it is the refinement that makes it valuable; that creates the demand for its services; that enables it to enjoy security in the high places.

The refining process is work—the hardest sort of work, but only the worthwhile things in life can be attained via the highway of work. That is, unless you are a pearl—which is doubtful.

The person who has a bad disposition may fail because he concludes that nature made him that way, and therefore he cannot be changed. Piffle and tommyrot. The man who bows to the slavery of a fault, and in the bowing falls, has no one to blame but himself. The same holds true with all the other millstones that carry men to destruction. A little time, a little application, and a lot of determination—and behold the splendor of the diamond!

Mrs. Jim Hood and son, A. J., of Liberal, Kansas, were in Perryton the fore part of last week, having brought W. G. Taylor down after his return from Kansas City, where he was called on account of the illness and death of his wife.

Miss Anna Barlow of Perryton was a guest at the home of her sister, Mrs. George Dietrich, near Lone Tree Friday night and Saturday.

Little Ellen Heusten has been very sick with the tonsillitis, but she is much better at this writing.

Atty. R. T. Correll was looking after legal business in Spearman Saturday.

Sam Burkhart of the Grand Valley, neighborhood in Texas County, Oklahoma, was trading here Monday.

BLUE MOUND SCHOOL NEWS

We are beginning to have a few spring days. The farmers are beginning to talk about planting spring crops.

To say we put over a "Model School" is to put it mildly. We were classed as a "Superior Model School," scoring 1310 points. To say we are proud of this accomplishment is, also, to only half express it.

Road work is to begin this week. We are proud to see road work begin, and under the supervision of Mr. Ferguson our new road overseer, we feel sure that we will have some good roads, as Mr. Ferguson understands this business, and believes in doing things. The road work is to start at the school house. We believe that the roads leading to school should receive first attention.

Mrs. Simpkins entertained her room Sunday. There were about 25 children present at dinner. They spent the afternoon in play, and went home happy. Miss Payne, Mr. and Mrs. Nelson were also present in the afternoon.

We had an Indian show at the school house Friday and Saturday nights, which was well attended, and pronounced good by those who attended.

Ice is melting—"Poor Skates."

The Model School Inspector visited Blue Mound School January 23rd, and judged the school, and pronounced us as a Superior Model School scoring thirteen hundred and ten points. We not only intend to have a model school but intend to score highest in class work, and "make the best."

Miss Lida Anderson accompanied

by Miss Lina Organ went to Beaver City last Thursday to take the teachers' examination.

John Sherill left for Alva last week on business. It seems that he is having some pretty cold weather to be gone in a car.

Miss Lilly Huguley spent Tuesday night with Alberta and Virginia Duncan.

Miss Thelma Klement, who with her sister, has been staying at the home of Andy Morris, has missed school the last week, on account of a bad cold. But she is somewhat better now.

Mr. Nelson's thresher has been putting in good time threshing for the farmers, who are anxious to get their feed off their minds.

Lambert Noe and Mrs. Elsie Stagner were united in the holy bonds of wedlock Thursday, January, 24th, at Perryton, Texas. Rev. Hollen spoke the words that bound them together for a long and happy journey.

Rex and Gladys Clark spent Sunday with Mayron and Lina Organ.

Mr. and Mrs. Marty and Mr. and Mrs. Herbert from Beaver City spent Sunday with Mr. and Mrs. J. R. Lee, also Mr. and Mrs. Will Starks, and all seemed to enjoy the day.

Max Clark was a caller at the home of J. R. Lee Sunday evening.

Every one is expecting to have a nice time at the pie-supper and program which is to be at the school house Friday night, February 1st.

A large crowd was out to Sunday school at Blue Mound Sunday morning.

The school is progressing nicely on the second half of the year's work.

TIPS FOR TAXPAYERS

No. 5

In the making of his 1923 income-tax return the business man, professional man, and farmer may deduct from gross income all items properly attributable to business expenses. In the case of a storekeeper they include amounts spent for rent of his place of business, advertising, premiums for insurance against fire or other losses the cost of water, light, and heat used in his place of business, drayage and freight bills, the cost of repairs and maintenance to delivery wagons and trucks, and a reasonable allowance for salaries of employees. A professional man, lawyer, doctor, or dentist may deduct the cost of supplies used in his profession, expenses paid in the operation and repair of an automobile used in making professional calls, dues to professional, subscriptions to professional journals, office rent, cost of light, heat, and water used in his office, and the hire of office assistants. The farmer may deduct amounts paid in the production and harvesting of his crops cost of seed and fertilizer used, cost of minor repairs to farm buildings (other than the dwelling), and cost of small tools used up in the course of a year or two.

No. 6.

In computing his income for the year 1923 a taxpayer may deduct from gross income all losses, incurred not only in his business, trade or profession, but in any "transaction entered into for profit" not compensated for by insurance or otherwise.

To be allowed, losses not incurred in trade or business must conform closely to the wording of the statute. For example, a loss incurred in the sale of a taxpayer's home, which at the time of purchase was bought without intention of resale, is not deductible because it was not a transaction entered into for profit.

Losses sustained in the operation of a farm as a business venture are deductible. If sustained in the operation of a farm operated merely for the pleasure or convenience of the taxpayer, such losses are not deductible.

LONE TREE SCHOOL ITEMS

The basketball games, which were played between Perryton and Lone Tree, on the latter court, was a victory for Perryton. The score for the girls game was 6 to 14. The score for the boys was 16 to 19, in favor of Perryton. The Perryton players are good players, as well as good sports. Though we were defeated we have not given up.

The basket ball players played two games with Huntoon Friday on their court. The Lone Tree boys were defeated by a score of 8 to 13. The Huntoon girls were defeated by a score of 0 to 2.

There was a large crowd at Sunday School, about fifty being present. All of you come back next Sunday as there will be Sunday School at 11:00 a. m. and Bible study in the afternoon. Also bring your dinner.

May Wagner, Esther, John, Noah and Harvey spent Sunday evening at the Hurter home near Huntoon.

Fay Taliaferro spent Saturday night and Sunday with Ruby Hall near Perryton.

Mr. Wagner's are thrashing this week. We hope they will get through soon so Mort can start back to school.

Lucile Holderman, Roy Christopher and LeRoy Hartman were Sunday dinner guests at the Garrison home.

Friday, February 1st, will be next Literary meeting. Everybody is invited.

Eldon Garrison is wearing a grin from ear to ear this morning as the result of a passing grade of 78 in Algebra.

LOOKING OVER OUR IRRIGATION PROSPECTS

Irrigation of a vast area of Plains lands the roof of Texas— is probable as a result of investigations just concluded by C. S. Clark, member of the State Board of Water Engineers, and Dr. LeRoy Patton of the University of Texas, geological expert for the board. A preliminary inspection of the Canadian River valley revealed three possible dam sites north and northwest of Amarillo within a stretch of twenty miles. If data taken during this inspection bears out surface indications, a complete survey of these sites will be undertaken, with a view to determining the most advantageous. This survey, Mr. Clark said, will be undertaken in co-operation with the United States Geological Survey, within a short time.

The lands to be irrigated under this project would be the level uplands, rather than the river valley, which is narrow through this section, and the irrigated district itself would probably be forty or fifty miles below the dam, owing to the slight fall of the land. This would force the placing of canals up and away from the river, in order to obtain gravity flow, it was explained.

"Exact area of the district that would be subject to irrigation cannot be determined until surveys are made, but it would unquestionably be large, Mr. Clark said in speaking of the project. "The extent of it would depend solely upon the amount of water available, and since there are hundreds of thousands of acres to which this water could be diverted, the project is more likely to be put through than those in other localities, where only a certain definite area is susceptible to irrigation. But in the Panhandle, if residents of a certain section do not want this water, those of another certainly will.

"The only apparent obstacle to the buildings of a dam at a cost that would make the project feasible, is a layer of gypsum about sixty feet under the surface. This might force too large an expenditure for abutments. Other formations, however, especially a strata of dolomite and another of shale, overlying the gypsum, make it reasonable to believe that this disadvantage can be overcome at least two of the sites inspected."

Mr. Clark and Dr. Patton, with Banks Jones, city engineer of Amarillo, are now investigating a site near Tascosa, where a small irrigation project is already in successful operation. They will next inspect possible irrigation dam sites on the Red river near Memphis, Hall county, after which they plan to return here to make preliminary surveys along Palo Duro canyon, near Silvertown.

The Amarillo Board of City Development will be kept informed as to the steps taken by the Board of Water Engineers, and will participate actively in the work of forming irrigation districts when enough progress has been made to warrant that step.

Of Interest to Santa Fe Patrons

Have you compared after-the-war prices of what you buy and sell with those of a pre-war normal year—say, 1922 with 1915?

Santa Fe System Lines have made such a comparison, and you will be interested in the result:

The Santa Fe System sells transportation only, but buys steel, fuel, lumber and all kinds of building and construction material; and is a very large user of labor.

The Santa Fe System received in 1922, \$1.45 for hauling the same amount of freight the same distance that it received \$1.00 for in 1915, and \$1.60 for hauling a passenger the same distance it received \$1.00 for in 1915. Or, combining freight and passenger, it received \$1.50 for the same service it received \$1.00 for in 1915, the increase being 50 per cent.

The Santa Fe System paid \$2.11 for the same quantity of fuel that \$1.00 paid

for in 1915; \$1.77 for the same quantity of materials and supplies, other than fuel, that \$1.00 paid for in 1915; \$2.22 for the same number of hours of labor worked in 1922 as \$1.00 paid for in 1915. Aggregating all operating expenses, it paid in 1922, \$2.05 for the same number of hours worked and same quantity of materials and supplies as it paid \$1.00 for in 1915. It paid \$2.90 in taxes in 1922 for every \$1.00 paid in 1915.

Santa Fe System employes received an average annual compensation in 1922 of \$1.81 for every \$1.00 received in 1915, and the cost of living of such employes was \$1.62½ in 1922 for every \$1.00 in 1915.

Freight rates and passenger fares cannot be reduced until taxes and the cost of operation are reduced.

Cost of operation cannot be substantially reduced until the price of labor and material is reduced. And the price of labor and material cannot be reduced until the cost of living is reduced.

THE STATE OF TEXAS,
To the Sheriff or any Constable of Ochiltree County—Greeting:
You are Hereby Commanded to summon Henry Marvin McLarty, John Gaston McLarty and the Unknown Heirs of Thomas Shelby McLarty and Madora Drucilla Winn McLarty, both deceased, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the Thirty-first Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said Thirty-first Judicial District to appear at the next regular term of the County Court of Ochiltree County, to be holden at the Court House thereof, in Perryton, Texas, on the Third Monday in February A. D. 1924, the same being the 18th day of February A. D. 1924, then and there to answer a petition filed in said Court on the 16th day of January A. D. 1924 in a suit, numbered on the docket of said Court No. 199, wherein Charles Efton McLarty is Plaintiff, and William Winn McLarty, John Gaston McLarty, George Thomas McLarty, Sarah Elizabeth Lovett, John Lovett, Emma Florence Glasgow, W. M. Glasgow, Henry Marvin McLarty and The Unknown Heirs of Thomas Shelby McLarty and Madora Drucilla Winn McLarty, both deceased, are defendants and said petition alleging that the plaintiff, Charles Efton McLarty, and the defendants, William Winn McLarty, John Gaston McLarty, George Thomas McLarty, Sarah Elizabeth Lovett, John Lovett, Emma Florence Glasgow and Henry Marvin McLarty, are the sole and only heirs at law of Thomas Shelby McLarty and Madora Drucilla Winn McLarty, both deceased. That the said Thomas Shelby McLarty and Madora Drucilla Winn McLarty were married in the State of Georgia in the year 1867. That the said Thomas Shelby McLarty died in Ochiltree County, Texas, on the 19th day of June, 1920, leaving a lawful will which was probated in Ochiltree County, Texas, by the terms of which his wife, Madora Drucilla Winn McLarty was the sole legatee. That the said Madora Drucilla Winn McLarty died in Ochiltree County, Texas, on the 11th day of April, 1923, leaving surviving her as sole and only heirs at law the above named plaintiff and defendants. That she died intestate leaving no lawful will, that no administration was ever had on her estate, and that none was necessary. That she died seized and possessed of the following described real estate situated in Ochiltree County, Texas, to-wit:

All of Section Number Nine Hundred Twenty-four (924) in Block forty-three (43). Certificate Number 47-6223, Original Grantee H. & T. C. Ry. Co., containing 664 acres of land.

Also, One and one Eleventh (1-11) acres of land out of the South Central part of Out Lot Number Thirty-three (33) in the city of Perryton, Texas.

That there were born to the said Thomas Shelby McLarty and Madora Drucilla Winn McLarty, eleven children, four of whom died prior to the death of either the said Thomas Shelby McLarty and Madora Drucilla Winn McLarty, without leaving sur-

living them any child or children, or the descendants of any such child or children.

That the interest of plaintiff in said above described real estate is an undivided One-seventh (1-7th) interest, and the interest of the defendants, William Winn McLarty, John Gaston McLarty, George Thomas McLarty, Elizabeth Lovett, Emma Florence Glasgow and Henry Marvin McLarty, and each of them, is an undivided One-seventh (1-7th) interest in said property. Plaintiff prays for judgment decreeing that he, together with the defendants last named, be decreed the sole and only heirs at law of the said Thomas Shelby McLarty and Madora Drucilla Winn McLarty, both deceased, and that the above described land be decreed to them together with the interest of each such defendant as above specified, for general and special relief, in law and in equity, and for citation etc.

Herein Fail Not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given Under my Hand and the Seal of said Court, at office in Perryton, Texas this, the 16th day of January A. D. 1924.

Good Printing

THE kind of printing that pays dividends is the kind you should have. Pale, muddy, poorly arranged printed matter is worse than none. The quality of your business is often judged by the quality of your stationery—inferior printing gives an impression of cheapness that is hard to overcome, while good printing carries with it a desirable suggestion of quality.

We produce only Quality Printing. Whether you want an inexpensive handbill or a letterhead in colors, if you order it from us you will be sure of getting good work. We have the equipment and the "know how" that enables us to get out really good printing—printing that impresses people with the good taste of its users. That is the only kind of printing that
