LOCAL COMMITTEE TO WASHINGTON

MORE DENIALS ARE FILED IN COTTON PROBE

TEXAS AND GEORGIA GIN FIRMS DENY CLAYTON AIDE

WASHINGTON, Mar. 29.—Another batch of telegraphic denials reached the senate cotton slump investigating committee today, officials of the Valley Gin company, San Benito, Texas, and Williamson Inman company of Atlanta, Ga., offering to testify under oath that they have not now and never have had any connection with Anderson Clayton and Company of Houston.

Representative Rankin of Mississippi, who is sitting in with the senate subcommittee, raised the issue today as to whether the reclassifying of cotton stored in New York by committee representatives were being properly done. He had a telegram from Lewis C. Cason of New York, alleging that its three department of agriculture cotton experts making the test were doing so in secret.

There is so much secrecy about this that it intensifies my suspicions. Rankin asked the Mississippi member declared that the reclassifying of cotton samples done in the committee were by the trio of government experts a week or two ago was "the most colossal farce I ever witnessed."

I have submitted those samples to other cotton men and every one of them pronounced it buzz-fuzz except these three government men.

MAEDGEN, VAUGHAN, VICKERS OF FEDERAL BUILDING GROUP, WILL CONFER WITH OFFICIALS

Planning to lend their assistance to Congressman Marvin Jones in compiling practical information bearing upon the subject, the Board of City Development's committee on a federal building, will leave tonight for the nation's capital at Washington. The committee is composed of C. E. Maedgen, president of the Lubbock National bank, chairman; Postmaster John L. Vaughan and Attorney J. E. Vickers. Advices from B. C. D. Headquarters this afternoon were to the effect that the men may have to spend ten days or two weeks on the mission.

The departure of the committee comes as a result of telegraphic advices received here Wednesday evening from United States Congressman Marvin Jones to the effect that both the postoffice and treasury departments of the federal government had requested the bureau of the budget to approve the recommendation for a federal building here. The wire received from Congressman Jones, who, Saturday, in Amarillo, read as follows: "Treasury and postoffice Departments have today requested Bureau of Budget to approve recommendation for appropriation for public building at Lubbock. (Signed) Marvin Jones."

Mrs. J. I. Kendrick Amarillo, Coming

Mrs. J. I. Kendrick of Amarillo, president of the eighth district Parent-Teacher association, is to be in Lubbock Saturday, according to word received by Mrs. E. W. Camp, president of the local P.-T. A. committee.

Although Mrs. Kendrick is coming here particularly to confer with local P.-T. A. executives concerning the program for the district convention to be conducted here April 10-12, she is to remain over Sunday and Monday and attend the International Relations conference to be in session at the Technological college.

She probably will be a house guest of Mr. and Mrs. J. E. Griggs and family, 1606 Broadway.

Mrs. Norman Leader Of Club Lesson

Meeting in the home of Mrs. T. B. Duggan with Mrs. Duggan and Mrs. H. A. Davidson as hostesses, Wednesday Needle club members spent a pleasant afternoon together yesterday. Mrs. R. Rushing was a new member.

After an hour of needlework sandwiches, pickles, ice cream and cake were served to Mesdames C. J. Wagner, E. L. Klett, S. C. Johnson, H. B. Hilburn, W. B. Atkins, T. W. Thomas, F. M. Maddox, L. C. Mills, A. W. McKee, R. Rushing, E. L. Robertson, and E. A. Anderson.

Harmony, The Spring Song Of Accessories

The harmony of spring accessories: Milady here wears a Chanel necklace of triangular crystals and a bracelet of amethysts, rhinestones and black enamel set liberally in silver. Of black chiffon, gold lace and tiny flowers in pastel shades is the large evening handkerchief of black chiffon she is admiring. Inset, a swirling marcasite kerchief pin of rhinestone with a jade center.

NEW YORK, March 28.—Spring is the season when little things hold the stage—all through the realm of nature.

Now the fashion world follows nature. The little things in a costume are even more important this spring. Accessories are in many instances, the focal point of a costume.

This year accessories need more care in their selection than last year. Just because clothes are becoming dressier, a woman must exercise more restraint in the indispensable extras she buys to go with them. Too ornate a taste in accessories will ruin the most beautiful ensemble.

Be Sure They Harmonize

Accessories for daytime are getting away from the "sets" idea of last summer when bag, purse, scarf, bracelets, shoes and so on all were as identical in pattern and color as possible. It is smarter now to harmonize things rather than to have them all just alike. Of course the catch in that is to make sure everything does harmonize.

Necklaces in rather short, single strand lengths are the vogue this minute. Crystal holds enviable prominence—facets it featuring in every cut and setting.

I show today a Chanel import that is lovely for evening wear—fashioned of triangular cut crystals and of a new length, just a little more than a choker.

Bracelets now grow individual. The well dressed woman prefers a single wide bracelet to many slender ones.

I show today one of the new

bracelets. Amethysts and rhinestones are delicately set in a floral pattern in gracious silver—with black enamel traceries here and there to enhance the laciness of the ornament. Four jeweled flowers stand out around the bracelet as witnesses to modern skill in jewelry.

For sports the newest bracelet is of leather—links of colored leather. Quite colorful and neat. And they emphasize anew the differentiation this season makes between sports and ballroom apparel.

Shown in the picture today is the latest mouche—a huge evening handkerchief of black chiffon, gold lace and tiny flowers in pastel shades. The size is the first astonishing thing about evening handkerchiefs. They are big as a man's handkerchief, or even bigger. But for daintiness and colorful beauty they remind one of clouds lit by sunlight. They come in the loveliest shades.

A Natural Jump

To jump from handkerchiefs to kerchiefs is a natural thing. Kerchiefs this season repeat the geometric patterns of last year, only more subtly as to color and line. Or they come flowered, daintily springlike, in the small flowers that bloom thereon. The plain kerchief, however, gains vogue. A tone deeper or lighter than the suit—an ombre shading of colors that catches all the tones of a dress or even a striking note of vivid color with a white frock—these are the characteristics of kerchiefs this season.

The new thing about kerchiefs is that they are not loved for themselves alone, now. Rather, a vivid

Citizens Asked To Hold Rotary Meet

"Hold that spare room in readiness!" That was the warning issued here today by W. A. Myrick Jr., chairman of the Lubbock Rotary club's committee on hotels and lodging places and who expects from 700 to 1,000 visitors here on April 19 and 20 for the annual conference of Rotary clubs of the 41st District.

According to Mr. Myrick accommodations of hotels here will be greatly overtaxed, despite the fact that many of the visitors will have their quarters in the special trains which will bring them to the city. By next week the committee will know whether the homes of the city will be needed to take care of the overflow and if they are needed the request for them will be broadcast.

MARYE and MOM Their Letters

BY RUTH DEWEY GROVES

Marye Dear:
Reading your husband's mail is not consistent with the preachings of up-to-date wives. Now that I blame you for reading the letter you found in Alan's pocket—I believe nine wives out of ten would have done the same, modern or old-fashioned. But your one-sidedness does amuse me in view of your live-and-let-live declarations of the past. I'm sure you would say that no one has a right to open another person's letters. Reading them is equivalent to opening them, my dear. You can't accuse Alan of snooping any more than yourself.

Edwiser, if these startling discoveries on your and Alan's part serve to make you put the boy out of your life, you may be glad at least that the letter was written. I take it for granted there was nothing very alarming in it since you did not care to make a "crisis" of it as you say.

For even though you are handicapped by Alan's knowledge of Billy's intentions to you, I'm sure you would have given scant consideration to keeping the peace if you'd found anything in his correspondence to really arouse your jealousy.

You needn't try to hoodwink me, Marye. You know Alan has as much right to complain of Billy as you have to object to his feminine friends. Your ultimatum in your young friend about the presents surely proves that this reasoning is correct whether you realize it or not. You wish to uphold your right to consume Alan's conduct, yet you know you cannot do this unless your own slate is immaculately clean. I do hope you realize this, my dear, and that you are not sincere in pretending that you warned Billy in the interests of peace merely for Florence's sake. It would be too bad indeed if you were deceiving yourself about your motive, for it is a motive that needs looking into.

You cannot go on doing things that are taboo for Alan unless you are willing to give up the privilege of objecting to occurrences that displease you. Be honest, dear. Admit that what's sauce for the goose is sauce for the gander. You know that you're refusing Mr. Bartlett's presents simply because you don't want to give Alan the upper hand. I'm sorry you discouraged the young man for reasons other than that it was the proper thing to do, but I hope you really mean to drop him now, even though it is for a reason I do not commend.

With all my love,
MOM.

FAMOUS TRIBE OF SPITBALL ACES FAST BECOMING EXTINCT MANAGERIAL AXE FALLS HEAVILY IN TEXAS LEAGUE

SHOCKER ENDS HIS CAREER TO LEAVE BUT SIX

ONCE GREAT GALAXY DWINDLING RAPIDLY FOLLOWING BAN

(By The Associated Press)
NEW YORK, Mar. 29.—Another famous tribe, the spit ball pitchers of baseball, is rapidly becoming extinct.
Now that Urban Shocker has made up his mind to moisten bank notes in his St. Louis radio shop in preference to witting the old school, the ranks of this once great galaxy of hurlers has dwindled to a mere half dozen.
Only eight years ago the major leagues decided by concurrent action to ban freak deliveries and agreed that seventeen bonafide spit ball pitchers then performing in the big circuits would be the only ones exempt.

National Has Eight
Of that number, the National had eight, namely, Bill Doak, shuffling Phil Douglas, Dennis Fillgrim, Ray Fisher, Marvin Goodwin, Burleigh Grimes, Clarence Mitchell and Dick Rudolph. Today, only Doak of the Robins, Mitchell of the Phillies and Grimes of the Pirates, survive.

With the passing of Shocker of the Yankees, three of the most ball hitters in the American League. When the rule was passed in 1920, there were A. W. Ayers, Ray Caldwell, Stanley Coveleskie, Urban Faber, H. B. Leonard, Jack Quinn, Allan Russell, Shocker and Allan Sothoron.

Three Active Lists
Coveleskie, now battling for a regular berth with the Yankees, Faber of the White Sox and Quinn of the Athletics remain on the American League active list. Sothoron, formerly with the Browns, is a coach with the Cardinals.

The ancient Polish heaver, Coveleskie, has turned in two good performances during the southern training grind and seems assured of some sort of a contract with the world champions.

Quinn Entering 25th Year
Jack Quinn, the Methuselah of baseball, is entering his 25th year on the diamond. Now 43 years old, Quinn began tossing his puzzling splitter with the old Yankees. It is an odd twist of fate that Quinn in his early major league days had his poorest luck against Connie Mack's Athletics of whom he is at present a member.

Mitchell, Doak, Grimes and Faber seem to be ready for at least another season but 1929 may bring further reductions in the fast thinning line of these moundmen who acquired their skill in the days when chewing tobacco was an art in itself.

HUNTER HEADS LOCAL CLUB IN BASEBALL RACE

BROWNLOW IS NAMED MANAGER AND NOW ASSEMBLING TEAM

Completion of the organization of the Lubbock baseball association in the West Texas Baseball League was made last evening as over a score of the shareholders convened at the Lubbock Chamber of Commerce rooms for the election of directors, who will operate and put a ball club on the field this season. The officers named in the election were: S. D. Hunter, president; Dr. V. V. Clark, vice-president; Harry Meyer, secretary-treasurer; and Alexander D. Grant and Boyd Adcock, directors.

Official entry of the Lubbock ball club into the newly created West Texas loop will be made Sunday afternoon by S. D. Hunter, president, when he will present Lubbock's check for \$12,000 as guarantee of the club's part of the contract in the league.

Brownlow Named Manager
Immediately after the selection of officers for the local entry the directors went into executive session and after taking into consideration various applications for manager of the Hubbers, which included such veterans as Cecil Combs, Tex McDonald, John King, E. N. Munson, Bill Whitaker, Tony LaSalle, and Bennie Brownlow, the board named Bennie Brownlow as the Hubber manager and immediately instructed him to get busy securing ball players and have them on hand for spring training which will likely begin April 2.

Brownlow comes to Lubbock highly recommended by veteran stars of Texas League baseball and he had years of experience in the diamond performances. His first professional baseball dates back to 1911 when he joined the Gainesville club of the T-O League and was sold to Austin, then of the Texas loop, the latter part of 1913, when he remained until 1914, when he was sold to Dallas. In Dallas Bennie played through 1915 and 1916, taking over the management of the Steers in the latter session of 1916. He was to have managed the Steers in 1927 but Joe Gardner disposed of the club selling out to Ham Patterson who managed the Steers and Brownlow was automatically released as manager but remained

Looking Over The A's In Training Camp

WARNING ISSUED FISHERMEN WITH SEASON NEARING

With the approach of warm spring days and "fishin' time," over-anxious sportsmen must watch the variety of fish they catch. S. O. Durst, deputy district game warden, said today. Season on all game fish in the state is closed until May 1, he said.

Bass and croppie are the only two species found in this section, he said, and fishermen catching these fish should immediately throw them back in the streams until after May 1.

The Lubbock county park is to be restocked with the game fish during the coming fall, it was learned. Application to the state game, fish and oyster commission for a number of bass and croppie for the lake has been filed, Mr. Durst said.

Iowa scientists say they can broadcast the sound of nerve currents. We'd like to hear the nerve current of some of these favorite sons.

with Dallas through the season.

Brownlow Is War Vet
Brownlow served twelve months in France with the 60th Regimental Engineers during 1918-1919 and after he came back to the states resumed his former profession and signed with the Spudders, of Wichita Falls in 1920, which was the first year last year's Texas League champions entered into the Texas loop. Wichita Falls traded Bennie to Galveston for Dennis Brownlow but he remained with the Gulfers for only a short time as he was sold to Bloomington, Ill., of the Three-I loop.

Since 1922 Brownlow has been managing ball clubs over Eastern Texas. He successfully handled the Greenville entry of the East Texas loop during 1922, 1923, and 1924. In 1925 he took charge of the Austin club of the Texas Association, finishing at fourth place. At Longview, in the East Texas League, Bennie led his warriors to a pennant in 1926 and last season started with Longview and finished with Corsicana.

Released At Paris
This season Brownlow first signed with Paris, of the Lone Star loop, but was released by J. R. Gill, president of the Paris club upon Brownlow's own request.

Bennie plays the keystone position and while he is 37 years old is still able to cover plenty of territory in the diamond position and is still hitting the agate squarely on the nose. Bennie was highly recommended to the directors as a great hander of rookie ball players and since the West Texas loop has a nine-rookie player rule his employment with the local entry is considered an asset to Lubbock at this stage of the season.

Business Is Order
Not a minute is laying idle with the directors of the club and they are putting in plenty of time getting ready for the spring training. Quarters for the ball players is being attended to by Dr. V. V. Clark, Homer Grant and Bennie Brownlow and they will make their report to the directors at an early date.

The directors will meet today noon and contract for the Merrill park and immediate rehabilitation work on the park will start. The directors plan to rework the grand stand and possibly add more bleachers in the park. A club house will be constructed under the stands and shower baths established so that everything may be had right at the park for spring work.

Rookies over this section of the country are coming in personally to make arrangements with the local club and contracts are being hurried out by Bennie to prospective players over the state to be signed.

Baseball Assured For Hale Center

HALE CENTER, March 29.—(Special)—Under the management of Pete Wilson, a veteran professional performer, a fast independent baseball team will be placed in the field to represent Hale Center this year.

President S. D. Hunter of the newly created Lubbock club of the West Texas league, has promised the locals an exhibition game or two before the start of the loop season. Hale Center's first out was Sunday, and the team defeated the Abernathy entry, 5 to 3.

Just one more pennant, pleads Connie Mack like he has done in past seasons as he watches his Philadelphia Athletics in training at Fort Myers, Fla. Although he knows the New York Yankees are favored to repeat, Connie Mack is hopeful of showing the experts that they're all wet this year. Here is Mack, left, looking over some of his new stars and one old star at Fort Myers. Joe Bush, in pitching pose, Ossie Orwoll, the versatile one from the American Association in batting pose, and Tris Speaker, lower circle, three additions of the winter, and Ty Cobb, upper inset, are four men upon whom great faith is placed this season. You see, Speaker and Cobb will patrol the outer garden and Bush may get a regular turn on the mound. Orwoll's part in the chase had not been decided upon, but he is expected to be used either as a reserve outfielder or as a pitcher. Perhaps from these stars will come the punch Mack missed last year.

EXHIBITION REVERSES CONTINUE TO TELL TALES OF WOE

(By Associated Press)
DALLAS, Mar. 29.—The lot of the rookie in Texas League training camps is an unenviable one. To his long hours of conditioning has been added apprehension of the managerial axe which is rapidly cutting away surplus material.

Three more rookies have left the Ft. Worth Cats. They are Charles Crenshaw and Eddie Wohlwender, infielders, and Jim Stewart, pitcher.

Bears Release Three
The San Antonio Bears have been reduced in numbers by three as the result of releases of four rookies and the acquisition of one pitcher.

Hughy Walker, Lloyd Cross, and Johnny Laird, pitchers, and Roy Dixon, infielder, were made free agents, and Tink Riviere, once a mainstay of the Dallas hurling staff, was obtained from St. Paul.

Announcement was made at Houston of the release of William Kring, pitcher, and the voluntary retirement of William Clarke, hurler. Clarke was handicapped by a sore arm from the start of the training season, and never could get into working form.

Exhibition Reverses
Continued reverses in exhibition games accompanied the general rookie casualties yesterday, as Waco lost to Minneapolis, 7 to 3; Wichita Falls to Oklahoma City, 17 to 8, and Shreveport to the Chicago White Sox, 11 to 6. Only Houston was victorious. The Bulls defeated the House of David nine, 5 to 4.

**NEW TWIST SEEN
IN REAL ESTATE
BUSINESS SOON**

(By The Associated Press.)
HOUSTON, Mar. 29.—A new twist is about to be given to the real estate business.
Real estate brokers, who are members of the National Association of Real Estate Boards, will demand that clients reduce their instructions to writing as a protection against misunderstandings, uncertainties and possible unforeseen legal complications in real estate transactions, covering both sales and rental agency contracts.
A move for a standardized form of such contracts was begun by the association at its national meeting here in January. They are now ready to be issued, a statement from headquarters of the association received here said.
Standard Forms Seen
Proposed standard forms covering the application for a mortgage loan, the statement also said, the making of an appraisal for a mortgage loan, submission of the loan, progress reports and disbursement reports are being prepared by a special committee of the mortgage and finance divisions of the association.
"As standard forms come into use in the real estate business," it continued, "it is expected by the association that they will do much to eliminate misunderstandings of both the broker and his client, and to clear the way for real estate transactions."

STAY AT HOME FIGHT SEEN IN NATIONAL RACE

ONLY TWO ARE SEEKING NOMINATION FOR THE PRESIDENCY

(By Associated Press.)
WASHINGTON, Mar. 29.—In contrast with many past presidential years, the 1928 campaign for national convention delegates from the standpoint of candidates has the earmarks of a stay-at-home affair.
Of all the presidential possibilities only two—Reed of Missouri and Willis of Ohio—have taken in the stump. Watson of Indiana is awaiting an opportunity to get back home to look after his political fences, but there is no sign from the others that they will take to the road to press their candidacies before the June convention.
Reed is Very Active
Like campaigners of former days, Senator Reed has set out to carry his fight for the democratic nomination into at least half the states of the union. Already he has covered more than 6,000 miles on a trip to the Pacific coast, and he now is on a swing through ten more southern and midwestern states.
Since he found out that Secretary Hoover would oppose him in the Ohio presidential primaries, Senator Willis has been spending his week ends making speeches in his home state.
Senator Watson, in Indiana, also has Hoover as an opponent in the primaries. He delivered one address in Indianapolis immediately after the commerce secretary filed as a candidate, but since then has been held here by congressional duties. Watson plans to spend a month campaigning, probably starting off about April 7 with a speech in Winchester, his home.
Hoover Still Silent
Hoover has announced that he will make no pre-convention speeches, and while some thought has been given to the advisability of having him go into Ohio and Indiana, because of the recognized importance of those states to his candidacy and the fight he faces there, nothing has developed to indicate he will change his mind.
Of other avowed presidential candidates, Governor Smith of New York, who figures in every calculation of what may happen at Houston, is attending to his business in Albany; Walsh of Montana, who is out in the open for the democratic nomination, and Curtis of Kansas, republican, are looking after their senatorial duties here; Lowden, one of the republican possibilities, is on his Illinois farm.
All have said they will not campaign, and as for others—"favorite sons" and receptive candidates—none is facing a pre-convention fight requiring speech making.
Situation Differs Now
The situation is far different from that in the spring of 1920 when both the presidential nomination races were wide open, as they are this year, and many candidates were in the field. Then, at least a dozen aspirants had Washington campaign headquarters. Today only the Reed and Hoover forces have opened their here, and Reed's is the only one with a recognized publicity man.
There is an unmistakable effort by all hands to hold down expenditures, campaign fund disclosures of recent years being a factor. Senator Reed, who had much to do with uncovering the Illinois and Pennsylvania senatorial campaign scandals, has cautioned his lieutenants to keep within bounds, and as a result emphasis is being laid on campaign contributions of one dollar each.
Lowden's managers have announced that the former Illinois governor won't spend a cent in his effort to get the republican nomination.

GERMAN FLIERS STILL AWAITING BETTER WEATHER

BALDORNEL AIRDOM, Dublin, Mar. 29.—The Junkers monoplane Bremen, lashed to the earth with ropes and its wheels blocked by empty gasoline cans, rocked in an Irish gale today instead of soaring across the Atlantic.
Weather conditions here were almost as bad as those reported from the middle of the Atlantic and the American coast. Baron Ehrenfried Gunther von Huenefeld, backer of the trans-Atlantic flight, hoped to get off at dawn. His pilots, Captain Herman Koehl and Arthur Spindler, were against any attempt to take off and the Irish Free State airforce authorities said it would be suicide to attempt a start under such conditions with even worse prospects as the flight progressed. The flight was then postponed until tomorrow morning at the earliest.
Irish weather experts believe that the Atlantic weather is likely to delay the flight for several days at least unless Baron Von Huenefeld insist on starting.

**21 Jersey Cattle
Are Enroute Here**

That Lubbock county farmers are relying upon the future of the dairy industry in the county is emphasized in the announcement made yesterday by D. F. Eaton, county agent, that 21 head of registered Jersey cattle were being brought to Lubbock from the Taft Jersey farm at Taft to farms in the county. C. E. Merrill of Shallowater, is returning with the cattle. He and Mr. Eaton recently went to the south Texas district, visiting the King farm and the Lassiter herd at Falfurrias before making their purchases at the Taft farm.
The price of the stock ranges from \$100 to \$300 per head, Mr. Eaton said today. Twelve calves, from 6 to 12 months old, 7 cows and 2 bulls comprise the shipment here.
Judge Lindsey got \$4500 for taking the affirmative in a debate about companionate marriage, in New York the other night. Josephine Haldeman-Julius, companionately married, recently signed a vaudeville contract calling for \$600 a week. Great thing, this companionate marriage.

GOOD BUSINESS JUDGMENT KEPT DURING BIG FIRE

(Special to The Journal) SEAGRAVES, Galveston County, Tex., Mar. 28.—At least one young man kept his business judgment while the flames were roaring in Seagraves' disastrous fire of Monday afternoon and, like the boy who ate peanuts on the burning deck was for a few important minutes utterly oblivious to the destruction going on about him.

That young man was Claude Shattuck of the grocery firm of O. H. Seagraves and Son. While the blistering heat and smoke rolled from the burning business buildings he happened to remember that there was only one vacant building in the retail section which would survive the onslaught of the flames. He decided since he had seen his own building go up in smoke, that the vacant building would serve his purposes until a new one could be erected on the old location.

Thought For Today

It is not good that the man should
 be alone.—Gen. 2:18

When musing on companions
 gone, we doubly feel ourselves
 alone.—Sir Walter Scott

The New Forces

The "unrestrained sensationalism"
 of the "yellow press" is sapping
 the intellectual vitality of the American
 people and is developing in the big
 cities an ignorant, prejudiced type
 similar to the backwoods poor white.
 says M. K. Wiseman, eastern novelist.

Mr. Wiseman explains that sensa-
 tionalism is a "substitute for a sub-
 stitute for thought, reading and sound
 information," and that the life of
 its readers is a life in which the
 emotions are substituted for intel-
 lectual activity.

This criticism is not especially new.
 The same thing has been said of the
 radio and the movies. The radio, we
 hear, has debauched musical taste,
 the movies have replaced sound
 intellectual fare with sex thrillers.

All of this is rather depressing.
 But, fortunately, it is hardly true.
 It would have some foundation if
 the bulk of the citizenry had been
 accustomed to "thought reading
 and sound information," if the radio
 and the movies had replaced the best
 in music and the most thoughtful,
 significant drama. But that is not
 the case.

"Yellow journalism," so-called, be-
 gan in the late 90's. The readers
 it gained were not weaned away
 from sober, conservative, dignified
 news by people who before had
 read nothing at all. Meager and
 colored as the news of the "yellow
 press" might be, it was at least just
 that much more than its readers
 had been getting before.

Newspapers, in the last quarter century,
 have reached down to a new stratum
 of the population; have given
 reading matter to people who did
 not read at all.

It is the same with the radio.
 Confess thousands of people who
 never heard music worthy of the
 name before, at all. The music that
 comes over the air is sometimes
 banal and cheap, but it is not
 displacing anything. It is something
 new to many radio fans.

The movies, too, are in the same
 class. The amount of really worth-
 while drama they have displaced
 could be measured on a new scale.
 How many times have you failed
 in your examinations? The dean
 asked.

"Tomorrow," returned the student,
 "will make the third time."

The Bill Thompson, Chicago's vic-
 erious mayor, has decided to com-
 bat his city's crime wave by star-
 ling parades. His plan might bear
 the fruit if the parade were com-
 posed of gangsters enroute to prison.

Unless these in charge of ar-
 rangements miss their guess
 there will be more visiting Rotar-
 ians and their ladies in Lub-
 bock than there will be accom-
 modations in the local hotels
 and for that reason, the commit-
 tee on hotels and lodging
 places is asking private citizens
 to open their homes for the con-
 venience of the city's guests.
 Walter Myrick, jr., in charge of
 the committee, feels certain,
 even at this early date that
 several hundred tourists in resi-
 dence are going to be necessary
 if Lubbock takes care of the
 situation.

THE PLAINSMAN

Says:
 That Girl on Broadway says the
 reason the actor of some men's love
 cools so soon after the wedding con-
 cealment is because they have always
 been taught not to pay any atten-
 tion to married women.

Next week has been set aside
 as "clean-up week" for Lubbock
 and the Plainsman hopes that at
 the close of clean-up week Lub-
 bock presents such a spot and
 open appearance that one of our
 own women, returning from a
 trip to other climes won't
 know the old home town when
 he elicits from Old John Sams,
 her father.

All recent meetings of the Lub-
 bock Rotary club the subject of
 cleaning up and beautifying the city
 received the lion's share of the
 program's discussion. The Plain-
 sman is sorry that it was not possi-
 ble for every man, woman and child
 in this city to have heard the re-
 marks on the subject as they were
 made at that meeting by Edgar Im-
 mon and City Manager Gus Mc-
 Cleary.

Three weeks from today 700
 to 1000 visiting Texas Rotar-
 ians, many of them with their
 wives, will be in Lubbock for the
 annual conference of the 41st
 district. If Lubbock have their
 way about it, according to Edgar Im-
 mon, the city will be cleaned up
 and its appearance generally
 improved first for the benefit of
 the visiting Rotarians and Rotar-
 ians and next for the benefit of the
 people who live here all the
 time.

There has been quite a bit of com-
 plaint of late that the alleys, espe-
 cially in the retail and whole-
 sale district, have not been properly
 cleaned. City Manager Gus Mc-
 Cleary hit the nail on the head when
 he said that no matter how hard the
 city tries to keep the alleys in pre-
 sentable condition they cannot ac-
 complish their labors without the
 aid of the entire citizenship.

Now The Plainsman isn't try-
 ing to take a crack at anyone
 in particular—but at all of us in
 general for the slovenly way we
 disregard the alleys that paral-
 lel the rear of our business
 buildings. The alleys that on
 two sides border the Avalanche
 Journal building are just as bad
 as any other alleys in the city—
 and might be worse, for all that
 The Plainsman knows. But that
 doesn't make it right and The
 Plainsman is going to do his
 best to see that these alleys are
 given more and better attention.

Let's all of us shoulder our pro-
 portion of cleaning up Lubbock
 and then keeping it clean—not only
 for the coming convention of Rotar-
 ians but for the good of our own
 peace of mind.

That Man on Avenue Q says a
 bad driver is a man who turns the
 wheels of his car when the highway
 turns—but only by coincidence.

Dr. J. M. Gordon, the affable dean
 of the school of liberal arts of Texas
 Tech, is a man of many duties and
 responsibilities. One of his duties is
 the supervision of the Dean's office
 which is to confer with various
 and sundry students concerning
 their college work.

It seems that Dr. Gordon was
 conferring with one of his young
 charges whose college work lacked
 considerable of being what it should
 be.

"How many times have you failed
 in your examinations?" the dean
 asked.

"Tomorrow," returned the student,
 "will make the third time."

The Bill Thompson, Chicago's vic-
 erious mayor, has decided to com-
 bat his city's crime wave by star-
 ling parades. His plan might bear
 the fruit if the parade were com-
 posed of gangsters enroute to prison.

Unless these in charge of ar-
 rangements miss their guess
 there will be more visiting Rotar-
 ians and their ladies in Lub-
 bock than there will be accom-
 modations in the local hotels
 and for that reason, the commit-
 tee on hotels and lodging
 places is asking private citizens
 to open their homes for the con-
 venience of the city's guests.
 Walter Myrick, jr., in charge of
 the committee, feels certain,
 even at this early date that
 several hundred tourists in resi-
 dence are going to be necessary
 if Lubbock takes care of the
 situation.

If you have a room to place at
 the disposal of a committee, be
 prepared to hear a call issued for
 it within the next week. Keep your
 eye on the papers and if the request
 is made, do your bit for Lubbock by
 getting in touch with the committee
 and offering your room. This confer-
 ence must be handled in such a
 manner as to reflect praise to our
 city.

Election By Popular Vote Really Is Only An Affair Of The Politicians, Rodney Dutcher Writes From Capital

BY RODNEY DUTCHER
 NEA Service Writer
 WASHINGTON, March 29.—Politicians are interested in politics, and the people generally seem willing to let them take care of it. The fact that politicians are thus left in charge of the national welfare means that no vital problems are to be disposed of unless large organized groups persuade the politicians that it is politically dangerous to dodge them. It also means that no man may be nominated and elected president merely because he is the popular choice.

All this has been especially dem-
 onstrated in years divisible by four
 and its truth is again evident in
 1928. Congress, apparently afraid to
 do anything in the face of elections,
 doesn't. And those who once be-
 lieved that the primary system
 would result in popular rule must
 confess again that the primaries
 generally can be controlled by pol-
 iticians, despite some notable ex-
 ceptions which may justify their ex-
 istence.

Take first the pre-convention
 Republican campaign. It is the best
 example of the prostitution of the
 primary because the Democrats are
 more accustomed to factional dis-
 cord and because their leading can-
 didates are in some instances fight-
 ing one another for the same dele-
 gates. The outstanding Republican
 candidates are not to be found
 fighting each other for primary de-
 legates in one of the 17 states which
 have the presidential primary.

The largest presidential primary
 state is Pennsylvania, with 10,000-
 000 inhabitants and a mob of 79
 delegates. Not a single candidate for
 nomination filed his petition before
 the closing date and Boss Vare and
 the Bosses Mellon are sending an
 untruncated delegation to Kansas
 City. The bosses will decide for the
 great mass of Republicans in this
 great Republican state just whom
 they want to be president. They told
 the candidates to keep out of the
 primaries and they kept.

The same thing has happened in
 Massachusetts.

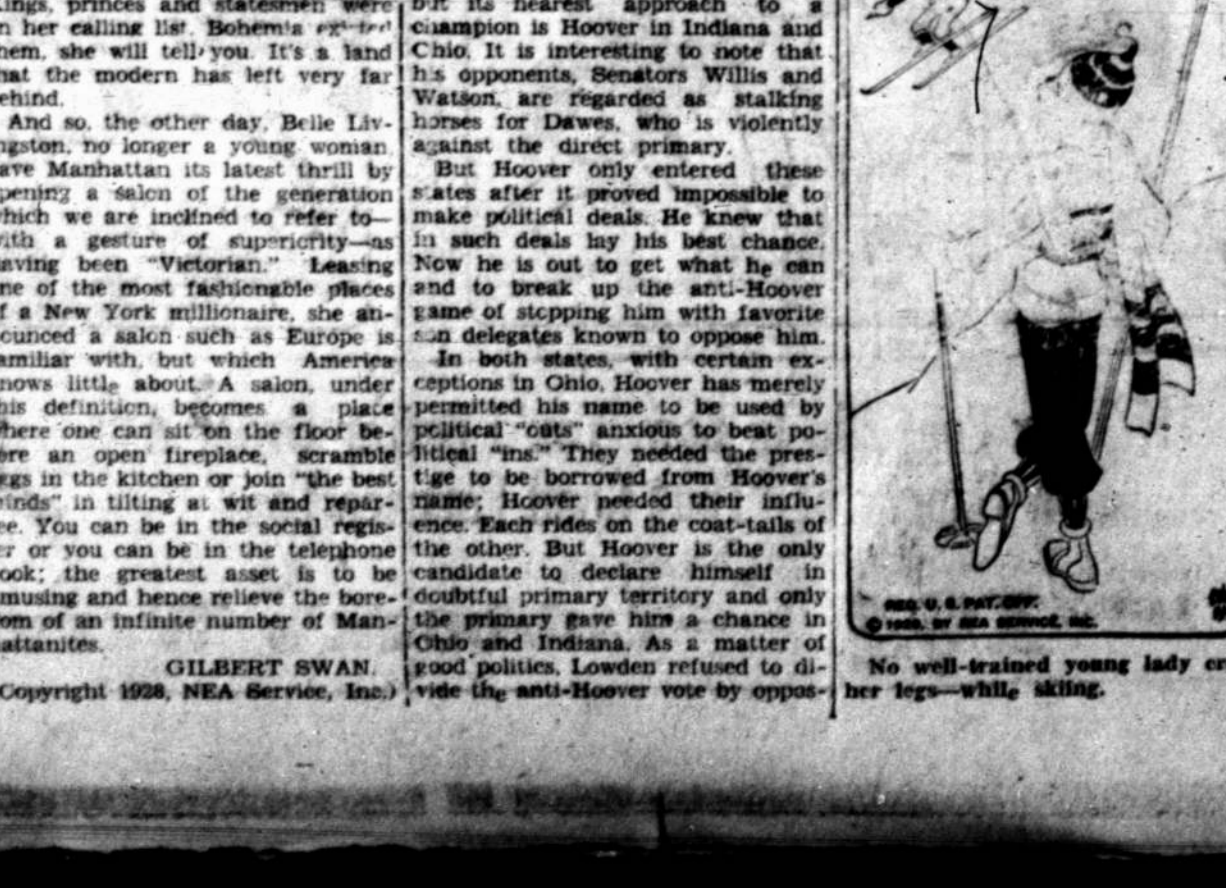

Only Lowden has en-
 tered himself—his state. A no-
 toriously corrupt Chicago machine
 hopes to deprive him of the dele-
 gates there by pretending a yearning
 for Coolidge. Pro-Lowden and
 anti-Lowden politicians will fight it
 out.

The primary certainly has no
 warm friends among the politicians,
 but its nearest approach to a
 champion is Hoover in Indiana and
 Ohio. It is interesting to note that
 his opponents, Senators Willis and
 Watson, are regarded as stalking
 horses for Dawes, who is violently
 against the direct primary.

But Hoover only entered these
 states after it proved impossible to
 make political deals. He knew that
 in such deals his best chance
 now he is out to get what he can
 and to break up the anti-Hoover
 game of stopping him with favorite
 anti-delegates known to oppose him.

In both states, with certain ex-
 ceptions in Ohio, Hoover has merely
 permitted his name to be used by
 political "cats" anxious to beat
 political "ins." They needed the
 prestige to be borrowed from Hoover's
 name; Hoover needed their influ-
 ence. Each rides on the coat-tails of
 the other. But Hoover is the only
 candidate to declare himself in
 doubtful primary territory and only
 the primary gave him a chance in
 Ohio and Indiana. As a matter of
 good politics, Lowden refused to
 divide the anti-Hoover vote by oppos-

CITY WITH A VISION
 Some weeks ago a few business
 men of Dallas decided it would be
 helpful to the city to prohibit its
 advantages to the world through the
 medium of an advertising cam-
 paign covering a period of three
 years. To that end they went out
 to raise \$150,000 to finance it. Did
 Dallas qualify? They did. The amount
 of \$300,000, just \$150,000 more than
 was requested. And subscriptions
 are still coming in.

This subscription is not for sup-
 port of the Chamber of Commerce,
 but to finance the current year's
 chamber is financed outside of the or-
 ganization, in addition to their reg-
 ular membership fees. Thoughtful
 citizens well of the advertising pro-
 cess to get in behind it and by put-
 ting over more firmly establish
 the beacon light of the city's great-
 ness.

The industrial spread of Dallas
 within the past few years has been
 short of marvelous. Likewise its
 commercial expansion has kept
 step with it. Not ahead of the pro-
 gress of the Southwest. It is not
 the result of chance or of good
 luck. It is due solely to the fact
 that the people of Dallas believe
 in their own and are willing and
 anxious to let the world know about
 it and aid in development. Citizens
 didn't stand back and wait for the
 Chamber of Commerce to do it. They
 recognized that the Chamber of
 Commerce could do nothing more
 than point the way—and when it
 did the people did the rest.

Denison is not going to attempt
 to duplicate the feat of Dallas—
 it stands back and waits for the
 Chamber of Commerce to do it. It
 is going to call on every business
 and every citizen to contribute to a
 cause that will mean as much to
 Denison, proportionately, as the im-
 mense fund raised in Dallas will be
 to that city. The Chamber of
 Commerce says it will need \$200,000
 to finance the current year's ac-
 tivities. It is a small sum con-
 sidering the vast benefits to be de-
 rived. It represents just about one
 dollar per capita. Sherman fixed
 the same amount for his chamber's
 work—and raised it. What are we
 going to do about it?

A city will rise no higher than
 the ideals of its citizens. It will
 never grow beyond the vision of
 those in control of its destiny.
 Neither can a city be built by criti-
 cism that is destructive rather than
 constructive. The road to civic de-
 velopment is paved with the con-
 structive efforts of those who covet
 it. Dallas is ambitious to be recog-
 nized as the metropolis of the
 Southwest; but her citizens are not
 permitting expression of the hope
 and desire to mark the boundary
 line of their endeavor. Sherman
 wants to be known as the first city
 in the Red river valley; but her
 citizens are not rubbing a magic
 lantern and waiting for some pow-
 erful genie to appear and do the
 trick over night. They are work-
 ing shoulder to shoulder and heart-
 ily in its class in the country. And
 we commend them for the ef-
 fort.

Will Denison meet the challenge?
 If it doesn't it will be the first time
 it ever failed to do so and wish.

 Denison nor its citizens. We will

It seems there also were a couple of other Republicans than President Coolidge who could keep silence.

Hoover ought to get more than twice as many primary delegates as Lowden.

Voices have been raised in the past for a national direct primary system, but politicians have opposed that and the voters have yet to organize any shirt-tail parades in its favor.

GIANT REWARD IS OFFERED IN CHICAGO "WAR"

GRIND BOMBING SINCE OCTOBER GETS QUICK OFFICIAL ACTION

(By The Associated Press)
CHICAGO, March 29.—Homes of Chicagoans were under guard today and a \$55,000 reward was on the heads of the persons who bombed the homes of United States Senators Deneen and Circuit Judge John A. Swanson Monday night. The reward, said to be the largest ever offered in a Chicago criminal case, was offered for arrest and conviction of the bombers.

State's Attorney Robert A. Crowe, who is Judge Swanson's opponent for the Republican nomination at state's attorney at the April 10 primaries, started the reward jackpot with the largest single offer—\$10,000. Police Commissioner Hughes posted \$5,000 from his contingent fund, and Mayor Thompson followed with a personal offer of \$5,000.

Nine Others Not Named
The nine others who said they would pay \$5,000 are either officeholders or leaders of the Thompson-Crowe wing of the Republican party which has a complete state, county and city ticket in the field against the Deneen group.

City, county, state and possibly national inquiry into the double bombings have been strongly hinted, but thus far the police and state's attorney's office have been the only active agencies seeking the bombers. The result of the police investigation was summarized last night by Commissioner Hughes' terse, "no developments."

The Deneen-Swanson bombings, like the four previous "political bombings" since January 26, have left the authorities virtually without clues. The motorcars used by the bombers were seen in both instances by persons passing by, but their stories have proved of but little value to investigators.

62nd Bombing Since October
Since October 11, last, there have been 62 bombings in Chicago. No convictions have resulted and few arrests. Various causes have been assigned, including politics, labor troubles and personal motives.

The 62nd bomb was exploded last

COLLEGE "GRIND" NOT SO DUMB IN OPINION OF REES

COLLEGE STATION, Mar. 29.—The college "grind" or "bookworm" is not so dumb about practical things.

Students at A. and M. here are telling each other just that after an address before the student body by R. I. Rees, New York vice president of the American Telephone and Telegraph company.

The Bell telephone system employs 8,000 college men, he said. Records of 3,000 of them from 61 colleges, he told the students, showed that those making up the first tenth in scholarship record had achieved distinctly better progress with the company than the remainder.

It has also been found, Mr. Rees said, that a college graduate requires only half as long to reach a specified level in executive proficiency as a non-college man.

Mr. Rees came to A. and M. to interview engineering students about positions after graduation.

STATE THEORY IN SLAYING IS HELD VERIFIED

NO POISON FOUND IN VISCERA OF GIRL IN PERRIN KILLING

(By Associated Press)
JACKSBORO, Mar. 29.—Failure to find a trace of poison in the chemical analysis of the viscera of seven-year-old Lura Mae Strickel of Perrin, substantiates the state's theory that the girl died as the result of acts of another person. County Attorney J. P. Simpson of Jacksboro stated Wednesday. Grand jury investigation of the girl's death a week ago began Wednesday while Robert N. Crowe, Jr., 22, Perrin barber, was being held on a murder charge.

Sheriff Reveals Report
Announcement that the chemical analysis, taken by the Terrell laboratories of Fort Worth, failed to show poison was made by Sheriff W. F. Middleton of Jack county. The examination was made by the state to substantiate its theory that the girl did not die from poison, self

POSTAL WORKER ANSWERS PLEAS OF STAMP "NUTS"

HOUSTON, Mar. 29 (P).—James D. Marrs, secretary to Postmaster Roy Nichols, thinks it is great stuff to work for every stamp nut in the world.

"In the daytime," he said, "I fool with this stuff and at night I think up trick cancellations."

The Houston postoffice, it seems, has been deluged with letters from stamp collectors in many parts of the world asking that their missives be forwarded from Houston on first flight air mail planes; that the stamps be cancelled with a rubber stamp marked "first flight" and arrangements made to return the letters to the sender.

He received one letter, he said, from London with a request to "please forward it to Mexico City."

CONNER TO SUCCEED YOUNGBLOOD IN WORK

COLLEGE STATION, Mar. 29 (P).—A. B. Conner, acting director of the Texas agriculture experiment station at A. and M. College here since July 1, 1926, has been named director of the station to succeed Dr. B. Youngblood, resigned. He will assume full supervision of the station May 1.

Mr. Conner first became associated with the service June 1, 1904, soon after he received his B. S. degree in agriculture from A. and M. Since July 1, 1926, when Dr. Youngblood was granted leave of absence to undertake cotton marketing research work with the federal department of agriculture, Conner has been acting head of the station.

Dr. Youngblood resigned so he might continue in federal agricultural work.

Lamesa Numbering Houses This Week

LAMESA, Mar. 29.—The houses in Lamesa are being numbered this week.

A survey shows that there are 966 houses in the city and 5,234 reside in the city limits.

Some time ago all the streets of the city were renamed and street markers were placed at all intersections. When the house numbering is complete free city mail delivery will be sought.

Each side insists the other responsible for the Monday explosion. Both Mayor Thompson and State's Attorney Crowe in statements said Deneen forces were throwing bombs at themselves in an effort to create sentiment favorable to Deneen candidates.

MAIN PURPOSE OF DRIVE FOR CLEAN-UP TOLD

PUBLIC HEALTH MOST IMPORTANT PHASE, ROLLO ASSERTS

"Clean-Up Week," as sponsored by the State Department of Health in co-operation with the city and county officials throughout the state, does not mean just the mere cleaning of those environmental factors which are unsightly to the eye or obnoxious to the nose, according to Dr. J. W. Rollo, city health officer. Such a measure as this would be best called, "Dress-Up Week," he says.

Public Health Stressed

"What we really mean by 'Clean-Up Week' is to rid your premises and public gathering places of those things favorable to the spread of contagious and infectious diseases," he says. "Every effort put forth during Clean-Up Week should be carried on with the prime purpose of public health in mind."

Campaign Opens Sunday

Sunday, April 1, is the opening day of the campaign and every pastor in the city is to make special mention of the work in his Sunday morning service. Monday is set aside as general clean-up day and efforts will be made that day to remove all "eye sores" from the city. Tuesday is milk and food day and the dairies will receive their inspection both by citizens and officials. Wednesday is School Health day and provided it can be arranged, every school child in the city will be given a physical examination before the close of the year. Thursday is General Health day and Friday is water and sewerage day.

Foul Play Feared In Oil Man's Case

SAN DIEGO, Cal., Mar. 28 (AP)—John T. Duncan, head of the Duncan Oil Drilling syndicate, is believed to have met with foul play or become a victim of amnesia somewhere between Dallas and Kansas City, his bride of four months has revealed here.

Duncan, a world war veteran, according to Mrs. Duncan, dropped from sight on March 6 following a business trip to Jefferson, Texas. At that time he telegraphed her he was starting for California but planned to visit Dallas and Kansas City. When her husband failed to reach San Diego a few days later Mrs. Duncan started an investigation which showed he had stopped at a Dallas hotel and left there for Kansas City.

Pipe Bought For El Paso Project

NEW YORK, Mar. 29 (AP)—The Standard Oil company of California has bought 200 miles of 8-inch pipe, about 15,000 tons, from the National

pipe company for a line to El Paso, Texas, from Pecos county. Wall street dispatches say.

HOW TO FIGHT EXCESS FAT

There are hard ways, like starvation, but lower and lower employ them. There is a pleasant way, modern and scientific which combats excess fat. A vast number of people now use it. And the signs of people now seen everywhere are large, due to that.

That method is embodied in Marmol's prescription tablets. People have used them for 29 years—millions of boxes of them. And everybody, in almost every circle, sees the change. New beauty, new health, new vitality.

Each box of Marmol's contains the formula, also the scientific reasons for results. So users have no fear of harm. Learn the facts about Marmol's, because if the good it has done. Ask your drug dealer now—for a 71 box with the book then decide.

BROTHER OF MAN ACCUSED AIDS IN HUNTING SLAYER

WALKILL, N. Y., March 28.—Brother was pitted against brother in a police search today for the slayer of 19-year-old Marie Terwilliger.

The girl was shot and killed as she stepped from the doorway of her home yesterday and police were seeking as her slayer Harry T. McHugh, postmaster of this village, and elder brother of Jesse McHugh, the girl's reputed sweetheart.

His brother's friendship with Miss Terwilliger, of which he disapproved, was cited. Jesse joined in the search for his brother, but police believed Harry drowned himself in the flood waters of a creek that runs through the village.

TWO SLAIN IN CHICAGO ORGY

CHICAGO, Mar. 29.—A young printer was slain and a tailor was fatally wounded in two separate shootings which puzzled police today. In neither case did preliminary inquiry establish a motive.

Both crimes were deliberate. The printer, Jasper Montalbano, was just stepping from his automobile in front of his sister's home last night when one of two men who were in another machine fired four charges from a shotgun at close range.

Montalbano's mother and sister found his almost decapitated body on the sidewalk. So far as police could learn Montalbano was a hard working man with no gang connections.

A hour later two men approached Joseph Sakalauska, a tailor, and asked him why he didn't sell them alcohol. "You have the wrong person, I don't sell alcohol," Sakalauska told police he replied, whereupon the men opened fire with revolvers. He died later.

Printer and Tailor Latest Victims of Gunland Outbreak

ATHENS, Greece, Mar. 29 (AP)—Continuous rains have caused the Vardar river to overflow.

Large districts of Grecian Macedonia adjoining the Serbian frontier were flooded today. Property was greatly damaged. The inhabitants of some of the villages were rescued by boats.

Japanese warships embark for China. TOKYO, Mar. 29 (AP)—Eighty Japanese warships sailed today in four detachments for various ports of north and south China. It was stated that no special importance was attached to the sailing although the exodus was on an unusually large scale.

Rice Association Campaign Complete

JENNINGS, La., Mar. 29 (AP)—The National Rice association's contemplated national advertising campaign is now a certainty.

Rice millers from Texas, Louisiana and Arkansas meeting here yesterday made the tentative organization permanent and decided to contribute five cents a barrel of 162 pounds weight toward the fund which will be used in a national campaign to educate the public on the qualities of rice as a component part of the human menu.

Frank Godchaux of Abbeville, La., is president of the association. Three vice presidents, one from each state, will be chosen at the next meeting of the members here April 11.

The proceeds for the advertising campaign are expected to amount to several million dollars.

Alteration Sale

With The Biggest Bargains In The South Plains Merchandising History !!!!

It doesn't make any difference how low prices have been, the values offered in this great Alteration Sale are so far superior that only by actually giving us an opportunity to serve you, will you be thoroughly convinced that your money buys more here than any other place on the South Plains. We've altered the appearance of the entire store and will discontinue the sale of piece goods and our men's furnishings lines. Consequently in order to make room for the lines of women's apparel and shoes that will be carried we have placed prices on everything in the store that should bring thrifty shoppers from all over the South Plains, the values are so sensational and represent such savings. And right before Easter, when these reductions are in effect, is a most excellent time to buy Easter apparel. Don't miss this big sale, for your dollars have NEVER done the extra duty they will do here.

OPPORTUNITY KNOCKS
My client has two good homes for sale. One tolerably old, the other new. At the prices and terms they are bargains. They give you the opportunity of putting your rent money into your own nest. They are good properties well located. To build yourself you must start with several hundred dollars. This prevents many deserving families from ever owning their homes. You should be interested. If you are come up.

SNAPPY SHINE PARLOR
NEXT TO BARRIER BROS.

THE Shallowater school board will receive bids up to March 31, for construction of a teachersage. Plans are at Shallowater Lumber Yard. Rights reserved for the rejection of any bid.

DUPRE ANNUAL EASTER CAR-NIVAL BEGINS FRIDAY AFTERNOON. The first event will be the BIGGEST BABY BUGGY PARADE ever staged in Lubbock. The parade will make its way to the west side of the square to the Spikes building which is to be the scene of the Carnival.

A real fortune teller. A Wild, WILD ANIMAL CIRCUS, and a MIDGET MINISTREL WILL BE ATTRACTIONS FOR THE EVENING.

Some of the business men have asked for space for a display and if there are others who want to join us we will be glad to have their phone and arrange for a booth.

One of the features of Saturday will be the foods booth which will serve a tasty lunch and the committee in charge will appreciate it if the business people who rush out for a hurried bite on this busy day will remember that a very appetizing plate has been planned.

We are urging the cooperation of every Lubbock citizen to help us put this over big.

C. E. STONE COMPANY

BIG OPENING IN LUBBOCK

SATURDAY, MARCH 31st.

Formal Opening Friday Night, March 30th., from 7:30 to 10 p. m. **Music and FLOWERS**

Seventeen years ago Mr. C. E. Stone opened one small store at Wellington, Texas. In a short time he conceived the CHAIN STORE idea, for he realized that the big operators could under buy and therefore under sell the one store merchant. He also realized that credit was a menace to the country. So it was then that the seed was planted which was to thrive and grow into a CHAIN STORE organization with cash stores throughout this part of the country.

Today the C. E. STONE COMPANY not only operates a vast CHAIN OF RETAIL STORES, but maintains their own wholesale house and New York buying office, buying in large quantities for cash and direct from manufacturers enables them to far UNDER SELL COMPETITION.

So, the coming of this great institution to your city does not mean just another store, but a new epoch in merchandising. Come Saturday or any other day, expecting to find values of a most unusual nature and you will never be disappointed.
