Date for the Loraine Community Fair has been set this year for September 27-28, with Thursday, the 26th to bring in exhibits in order to have them in place for judging on Friday the 27th.

If you are interested in your community you ought to be interested in helping to make the fair the best ever by bringing in exhibits of everything you have and volunteering your services in helping to arrange exhibits and other things that need to be done all during the fair. As usual the sponsors have procrastinated until the hour is late to make adequate arrangements for the fair but there is yet time if all will pitch in and help.

This year there will be rides and a small carnival to help with the entertainment and also to help with the expenses of the fair. The kids can enjoy the rides while the older folk discuss the exhibits and have a good time in general. A carnival adds much to the fair atmosphere and in selecting one to come here, care was taken to get the cleanest one possible. I don't think you will find much that is objectionable in the one that is coming here.

The fair each year gives the community an opportunity to see men and women of the community who are public spirited in action. Let's all be public-spirited and help to make our fair the best ever.

450 POUNDS in 150 days!!

There was a time when Texas, the largest beef producing state in the nation, had to ship cattle elsewhere for finishing. But not any more. Feed lots dot the rural areas of Texas to feed Texas cattle. With scientific blending of feeds, these lots put incredible percentages of weight gain on cattle. Much of the work is done electrically. Some lots are almost completely automatic. Cooperative electricity loads the bins, grinds and mixes the feed and often sends it to the eating troughs with belts, pulleys and screws. The member-owned LONE WOLF ELECTRIC COOPERATIVE by furnishing a low-cost dependable supply of electric power has made such installations commercially feasible. This is just one of the many ways the LONE WOLF ELECTRIC COOPERATIVE is Helping Texas Grow.
