

On The BEAM

By J. W. King, Sr.

It is only a short time to the date set for our community fair.

One lady, in commenting on a previous "on the beam" which we stressed cooperation of all in making the fair a success, remarked: "I think everybody will cooperate fully. All they need to know is what to do."

I have thought all along that everybody would cooperate by working to arrange for the exhibits as well as to bring in the exhibits if they knew what is expected of them. The Lions Club, sponsors of the fair, has put off too long the appointment of committees for various phases of the fair. It should have been decided months ago whether or not to have a fair and if the decision was far it to get the committees to working long enough in advance of the fair date to get everything done that needs to be done. When we wait until the very last to do things there is always something left undone.

Really we ought to begin to plan now for the fair next year. We will have one of course.

School Budget Hearing Thursday Night At School

The Doctor Wants To Know

Dr. Bruce Johnson, who raised considerable money to be used to build a swimming pool a few years ago, says that \$361.75 remains of the fund.

Since there are plans being made now to build a new dressing room at the football field and convert the present dressing room into rest rooms for men and women who attend the football games, he would like to know "if those who contributed to the swimming pool fund will permit the money to be used on the dressing room project".

The doctor said he had contacted a number of the contributors but had been unable to contact all of them. All of those he had contacted are willing for the funds to be transferred to the new project he said but he would like to hear from all contributors, large or small, before the transfer is made. First Bale Of Cotton Ginned Saturday Nearly Month Later Than Usual

The first bale of 1937 cotton was brought to Loraine last Saturday by Joe Garcia who farms the A. D. Palmer place, nearly a month later than the usual time for the first bale.

The bale was ginned by the Coop Gin Association from 1780 pounds of seed cotton. The bale weighed 440 pounds.

A premium of \$108.50 was paid to Garcia by Loraine merchants. The premium included the ginning of one bale free at each of the gins.

The lateness of the first bale is a result of late planting and the fact that cotton is much better this year than in years when the rainfall is lighter.

Farmers are beginning to buy sacks and it is expected that harvest of the crop will be in full swing by the middle of October.

During the half century seven million cars have been built and nearly six and one-half million of that number were Pontiacs, which were introduced in 1926. In 1931 the firm's name was changed to Pontiac Motor Division when the Oakland car was discontinued.

Not Much Bull

Nocona, Texas.—S omewhere around Ringgold there is a bull wagging nothing behind him. He was one of the losers in a bull-car accident.

Highway Patrol reported Alfred B. Clayton Jr. of Dallas had \$150 damage done to his car in the encounter, but neither he nor the bull suffered bodily damage. The bull did, however, lose his tail in the mishap. That's very little bull.

Horsing Around Fatal

San Antonio, Texas.—A horse lost in an encounter with an automobile.

It happened like this: Mr. and Mrs. W. H. Kohler were driving on Palo Alto Road about 5:30 a. m. when they saw a horse galloping toward them.

Mrs. Kohler, who was driving, slowed down, but the horse hit the car and straddled the hood. The impact drove the horse's head through the windshield.

The horse died, and Kohler's dentures were damaged, but neither he nor his wife was injured.

Useful Theft

Houston, Texas.—Thieves may find themselves outfitted in what they stole from Mrs. Leone Hurlburt.

Mrs. Hurlburt dumped a package into her car and went off to continue shopping. The package was gone when she returned.

Appropriately enough, the package contained ten yards of black and white prison stripe material. "If they catch the thief, he can wear it," Mrs. Hurlburt said.

One for the Books

Baytown, Texas.—A man in a foul temper was hauled into jail in his "birthday suit." Deputy Sheriff J. G. Bickerstaff said he found the man wandering around, without his clothes, on Highway 73.

He seemed to be more mad than drunk, Bickerstaff said, but he never could discover the reason for his anger, nor where his clothes were. As a result he was charged with drunkenness and given a cell to hide in.

"It's one for the books," Bickerstaff said, "and it went into mine!"

Another Victim

Fort Worth, Texas.— Police were called to a Southside intersection where an elderly man was annoying motorists by stopping them and asking for cigarettes.

The car given the call radioed

headquarters: "I've talked to this man before, after receiving complaints. What can I do? He's 85 years old . . . and he mooched me for two cigarettes before I could get away."

THANKS

I would like to thank everyone who was so kind to me during the time I was sick; for the many cards; for those who brought tractors to plow and those who poisoned my cotton. For every deed of kindness shown I appreciate it to the bottom of my heart. Thanks a million.

HONORED ON BIRTHDAY

Mrs. R. H. Phillips and daughters Misses Loneta and Revel Phillips, complimented Mr. Phillips with a fish fry and party Friday night, September 13, on his 66th birthday.

After the supper, the group took part in an old fashioned sing song during the evening.

Those enjoying the occasion with the honoree and hosts were Mrs. Ida Sanderson of Chickasha, Oklahoma, Mr. and Mrs. Nolan Barmore and B. W. Dorn of Colorado City, Mr. and Mrs. T. J. Riden of Sweetwater, and Mr. and Mrs. Dan Butler.

Mr. and Mrs. Otis Muns visited in the homes of her sisters, Mr. and Mrs. A. A. Beatty in Coleman, and Mr. and Mrs. Harry Smith in Dallas during the week end.

"LET'S BRIDLE OUR TONGUE"

(See James 1-26)

By L. W. Banta

Of all the troubles to which we
 are heir the tongue is the most
 unruly.
 Some tied in the middle and loose
 at both ends, and rattling
 unduly.
 Old Jones is a fraud, old Smith
 a big liar, old Blodgett is a
 sight to be seen.
 He should not be allowed to mix
 with the crowd, he's so ever-
 lastingly mean.

This all may be true, but Big
 Boy do you abstain from every
 sin?
 If you don't it is true that not
 even you have a right with your
 tongue to but in.
 For we are all sinners, though
 we think we are winners of
 prizes for chastity true.
 But every foul word 'bout your
 neighbor is heard and charged
 directly to you.

Where do you get paid for what
 you have said about your
 neighbor across the way.
 Your vile epithet might turn on
 you yet and hit you a deadener
 some day.
 I've heard it said, "speak well of
 the dead or of others who are
 not present"

Kind words always pay, you'll
 find it that way, ill words are
 sometimes unpleasant.
 Then why not be wise like some
 other guys, and quit your
 ugly talking.
 You may ride high 'way up in
 the sky, but your neighbor
 may be walking
 Then pity the man if you possibly
 can, he's probably had lots of
 trouble
 That's kept him down quite flat
 on the ground, ill luck will
 sometimes come double.

Then if you can't say a kind
 word today 'bout those who
 are not present.
 Speak not at all for your chat
 may fall on ears as very un-
 pleasant
 Then again I will say, if you are
 today speaking of old or young
 And can't speak kindly go but-
 ton your lips and bridle that
 unruly tongue.

Questions and Answers

Q. I was told that the War Or-
 phans education program allows
 up to \$110 a month for handi-
 capped young people who need
 special restorative training. Some-
 times this training is expensive.
 Is there any way the allowance
 could be increased?

A. Yes. If special restorative
 training costs more than \$35 a
 month, VA may step up its
 monthly allowance accordingly.
 However, these excess payments
 would cause a reduction in the
 length of time a War Orphan
 student could train.

Q. I have been totally and per-
 manently disabled for more than
 half a year, and I just applied
 for a waiver of premiums on my
 GI insurance policy. Will the
 waiver become effective retro-
 actively, to the date I first be-
 came totally disabled?

A. No. The waiver will become
 effective six months after your
 total disability commenced.
 Q. I have to sell my house and
 move to another climate that
 will be more beneficial to my
 health. I understand that under
 these conditions I may get my
 GI home loan rights restored.
 What kind of evidence does VA
 require to approve restoration?

A. VA will want a statement
 from a reputable physician con-
 firming that the change in cli-
 mate is essential to your health.

Q. I think I am taking the
 wrong course of training under
 the Korean GI Bill. Before mak-
 ing my one and only change of
 course, could I receive VA's vo-
 cational counseling to help me
 get on the right track?

A. Yes. In filling out the appli-
 cation for a change of course,
 indicate on the form that you
 want vocational counseling. An
 appointment will be scheduled
 for you.

Texas Mesquite-Curse or Cure?

One of the most astounding developments to come of agricultural research in recent years has been the discovery that common Texas mesquite wood can be made useful as an edible roughage for cattle.

During the past two decades, Texas farmers and ranchers have been fighting a common enemy in the die-hard mesquite which has spread in abundant growth from the Rio Grande Valley northward.

In an effort to reclaim the countless acres of grassland all but lost to dense undergrowth of mesquite brush, a number of eradication measures have been applied, varying from oil treatment to mechanical uprooting.

Then, just a few years ago, someone got the idea of grinding some tender mesquite into meal and analyzing the product chemically to determine its food value. The analysis showed that mesquite meal had a higher protein, fiber and calcium content than cottonseed hulls. Another essential nutrient not present in many dry roughages, Vitamin A, was also found in the mesquite meal. Fat and carbohydrate content was slightly lower than in usual roughages.

In subsequent feeding tests at the Spur, Texas, Agricultural Experiment Station, the mesquite meal was mixed with other concentrates plus the important addition of molasses which served to give the feed moisture, sweetness, and a more desirable odor. In every instance, cattle suffered no ill effects, but gained weight in similar ratio to cattle fed on other roughages.

This does not mean that all other meals and roughages should be thrown out in favor of mesquite. In every instance, cattle fed on mesquite meal not only suffered no ill effects, but gained weight in similar ratio to cattle fed on other roughages.

In the trial feeding periods, it was found that branches and stems with slick bark provided better feed than larger, dryer tree parts. Also, freshly-ground wood proved more palatable than dry wood and fresh supplies were ground weekly.

In order to prepare mesquite meal as a cattle roughage, a wood chipping machine costing about \$1,200 delivered in Texas, a heavy-duty hammer mill, and a molasses mixer are needed.
