

Interest Growing In Misspelled Word Contests

The response to the misspelled word contest being sponsored by the Courier for the past two weeks exceeded even the fondest expectations of the Courier staff. Scores of entries have proven the genuine interest and enthusiasm being manifested by the readers.

The winner of the \$2 cash award for the first week, April 2, was Miss Doris Holmes, Route B, Lamesa. Mrs. Z. T. Davis, Lamesa, was declared winner of last week's contest. To all the others who brought or sent in lists, the Courier extends thanks and appreciation for the interest displayed. Remember the contest is only half over and everyone has another opportunity to win.

So far there has not been a list entered that was 100% correct. Everyone is eligible to enter the contest, you are not required to be a subscriber and all members of the family may enter. Read the ads carefully and bring or send your entry to the Courier office as early as possible as they are numbered as they come in and the first person sending in the list nearest correct will win the \$2.00 cash prize.

Sen. G. H. Nelson To Address McCarty Educational Meeting

The McCarty Community Agricultural Committee is sponsoring a series of educational meetings. These meetings will be entertaining as well as educational and are for every one interested in farmers problems and their welfare. These meetings are designed to be beneficial to both men and ladies.

We would wonder how many farmers and their wives know anything about the competition of oleomargarine with the butter or cream market. How does that effect you and myself as farmers? Does the tariff play any part in my farming business? What is a tariff? Why do we have such tariff?

These should be interesting questions for every farmer and farmer's wife in the county. Nelson will answer them.

The time of the next meeting and the ones on the program will be announced at the meeting, as well as the subjects for the speakers.

To those who would like to be at the meeting but have small children and hesitate to be present on account of the children, the smaller children will be under play supervision by some of the adults. So do not stay away from the meeting on that account.

This will also be an opportune time for candidates to meet their friends. This is not a meeting to raise funds for the school or community. You will not be expected to buy anything at this meeting. As the meeting is one for educational purposes, as well as entertaining.

The program:
Sing song (10 minutes), everyone invited to sing.
Numbers by chorals.
Farmers Must Do Their Part—Carson Echols.
Margarine vs. Butter—Mrs. J. L. Morris.
Main Address—Senator G. H. Nelson, of Tahoka.

Plans For Sing- Song Progressing

Plans for the Centennial sing-song to be held in Lamesa on the courthouse lawn April 24th are forging rapidly ahead.

It is anticipated that fifteen hundred rural school children will take part in the singing of Texas Centennial songs. Some thousand or twelve hundred Lamesa children will join the rural children in one large mass chorus.

A parade of the children around the square will be staged immediately before the sing-song. The teachers of each school will have charge of the arrangement of their groups, and each school will carry its banner.

A rural school exhibit will be held in connection with the sing-song. The exhibits will be on display for two days, April 24 and 25. Special banner awards are being offered by the Lamesa Chamber of Commerce for the three best exhibits in each of two classes of schools. The awards will be on display in the windows of Taylor-McCall Drug company next week. Exhibits will be judged by out-of-town judges during the morning of the first day and the awards will be made to the winning schools immediately after the sing-song.

Rural children will bring their lunches and meet at the city park at 12 o'clock for the noon hour.

Sing-songs are being held all over the state in observance of the Texas Centennial. A district sing-song will be staged in Lubbock May 1. Dawson County has been asked to contribute a large quota of singers to the district meet.

The sing-song in Dallas, June 13, will be the culminating event of the Centennial music program that has been sponsored by the State Department of Education in the rural schools this year. It is hoped that Dawson County will be well represented at the state meet in June.

S. offices in Texas, one in each county, and they are operated by the government for the purpose of making private placements, securing jobs and promotions for those desiring them and also aiding employers, if they will help call the N. R. S. office when they need help. The service is absolutely free to the public and the supervisors of the office want it clearly understood that this employment bureau is not in any way connected with the relief program. It operates absolutely independent of the Relief office and is eager to be of service to anyone in need of a job. FARM NOTES

More on New Farm Program

The question on who gets the money for planting and working the soil building crops. Such payment shall be made to the eligible producer who the county committee determines under instructions issued by the secretary has incurred the expense in 1936 with respect to the soil building crop or practices; where two or more producers are determined by the county committee to have incurred the expense in 1936 with respect to the soil building crop or practices, the soil building payment shall be divided equally between them. In other words, according to the above regulation, the tenant who furnishes the seed and cultivates the crop will receive the crop provided he incurs the expense of the soil building practice.

Will I be permitted to plant two rows of peas and collect the soil building payment?

Answer: Yes. The base used in the new program will be the base and yield under the old A. A. A. on both cotton and corn. The least amount that can be reduced and quality is 20 per cent of the entire acres of soil depleting crops, which include cotton, milo, hegari, kaffir, sweet sorghums, millet, wheat, oats, barley, when harvested for grain.

The crops for soil building that will apply to West Texas are any legumes, sudan grass when left on the land or turned under green, wheat, oats, barley, or any other crop turned under green for the purpose of building up the land. Sudan grass may be pastured. The rate of pay for planting the soil building or soil holding crops will be one dollar per acre in addition to the payment for taking the crops out of production.

The rate of payment for taking cotton out of production will be five cents per pound. The rate for taking grain sorghums and other soil depleting crops out of production has not yet been determined. However you will be paid for leaving out 15 per cent of the crops from production. You will be allowed to take out of production 20 per cent of the entire soil depleting base. You may leave it all out of your cotton base acres provided the total acres left out of production is equal to 20 per cent of the entire soil depleting base.

4-H Clubs Organized
Clubs were organized in Mullins, Mt. Olive, Sparenberg, Shumake and Five Mile during the past week. Mr. V. G. Young assistant agent, and the agent met with these boys from the communities represented above and club work was organized for this year. Boys are using for their demonstrations, pigs, baby beef calves, crops of cotton, grain sorghums, such as maize, hegari, also watermelons, dairy calves and chickens.

In case a boy is using as a demonstration a crop, with the exception of watermelons, he will be required to have as many as five acres of crop. In the case of pigs or livestock, at least one animal. The boys who take poultry will be required to take at least 25 pullets or they may use for

demonstration capons of which each boy should have at least forty.
1935 Cotton Contracts

Several men have inquired lately if they will receive payments in cases that landowners refused to sign with such tenants. These tenants who are involved should come in at an early date and we will submit such contracts with the tenants affidavit that owners refused to sign contracts with them, and try to get the money for them in case they did not have more cotton than such contracts would have permitted.

Please attend to this as soon as possible for you to do so.

Last Thursday morning at 8 o'clock Miss Rhoda Lou Clark became the bride of Hugh Lott in a very impressive ceremony read by Rev. E. F. Cole, Baptist minister, in the W. E. Anderson home on South Austin street.

The bride was attired in a suit of maize with British tan accessories, and carrying a bouquet of corn flowers and daisies. Preceding the ceremony, Mrs. A. G. Barnard sang "I Love You Truly" playing her own piano accompaniment. Mrs. Barnard also played the wedding march. Miss Vanabel Clark, sister of the bride, was maid of honor. Immediately after the ceremony the couple left for a short wedding trip to Fort Worth where they attended the races at Arlington Downs. They are at home at 907 South Third street. They have a host of friends who wish for them much happiness.

Some More Livability Reports On Our Chicks

Some Tell Us They Just Won't Die Unless They Step On Them.

Mr. and Mrs. C. F. Cox, 200 chicks 3 weeks old, loss only 2;
Mr. Trav Corley, 500 chicks, 3 weeks old, loss only 5;
Mr. and Mrs. Z. T. McMullins, 280 chicks, 4 wks old, loss only 3;
Mrs. Sam Delmont, 500 chicks, 4 weeks old, loss 13;

Mr. and Mrs. W. A. Cook, 500 chicks, 3 weeks old, loss only 5;
Mr. and Mrs. A. O. Read, 500 chicks, 1 week old, no loss.

WHY THIS HIGH LIVABILITY?

WHY ARE BARRON'S CHICKS SO EASY TO RAISE?

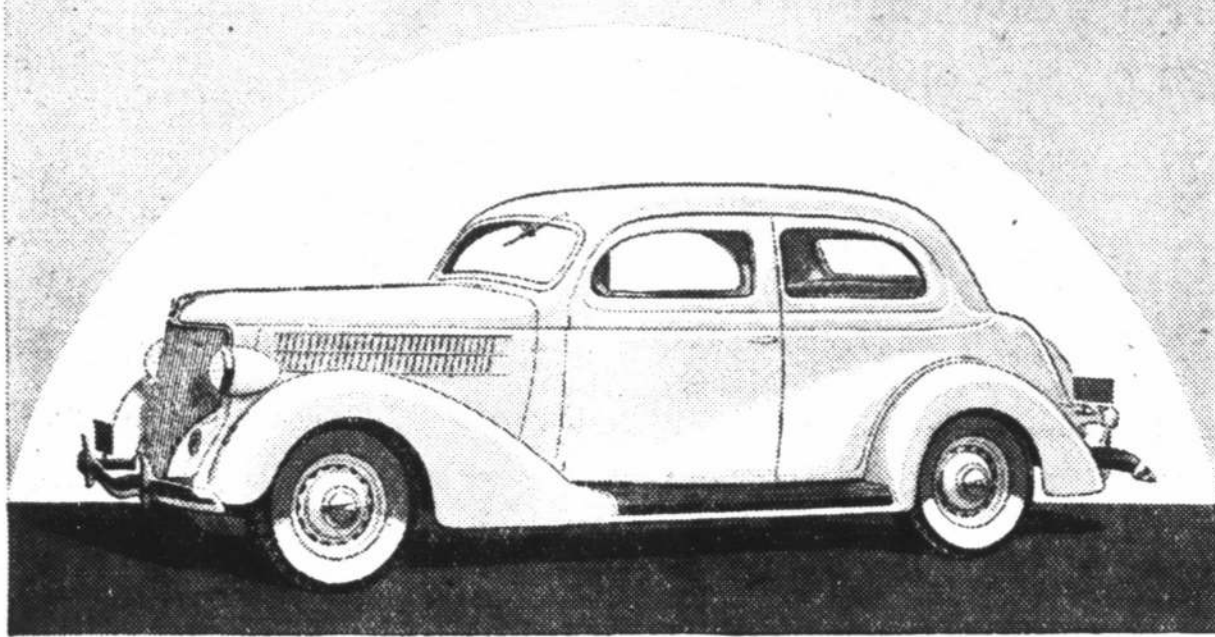

There are many things that go into the making of a strong, vigorous, healthy chick. It starts at the source—the mother flock. All our chicks are produced from Blood-Tested Flocks; The flocks are fed on a correctly balanced Laying Mash high in Vitamin A and D. This puts the vitality into the egg to produce a strong husky chick, they are correctly hatched under the most sanitary condition known to the science of artificial incubation, under just the right temperature, humidity and ventilation. Every chick must get out of the shell under its own strength (we never help a single chick out of the shell) a shucked chick is not worth toting home. Then these chicks are all fed on Barron's Eureka Brand Chick Starter, that is built of pure, wholesome ingredients, containing every thing that a chick needs, for health, vigor, vitality and quick growth.

Get Your Chicks from Barron and Feed them Barron's Eureka Brand Starter and Growing Mash and You Will Have No Trouble Raising Chicks.

Ford - FOR ECONOMY

"The Ford V-8 uses less fuel and oil for the power it gives than any other car we have ever made

AND ITS UP-KEEP COST IS THE LOWEST"

ENTHUSIASTIC sales talk often begins and ends with gasoline mileage. Some salesmen would like you to believe it is the whole story of automobile economy. But drivers ought to know better. For, the fact is, it's way down the list.

The big items of car economy are low first cost, low up-keep cost and low depreciation. Savings here can make a great deal of difference in cost per mile. Gasoline mileage is more of a talking point than an economy factor.

Check up and you will find that the difference between 17 and 19 miles a

gallon is less than \$10 for a whole year's average driving (8400 miles at 18 cents a gallon). Here are the big items that make the Ford the most economical car:

- More value for every dollar you pay.
- Lower cost for repairs and service.
- Long life. Slow depreciation.

Quality means economy and the 1936 Ford V-8 gives you more real quality than any other low-price car. No other car under \$1645 has a V-8 engine. No other low-price car has Center-Poise Riding, safe, sure mechanical brakes and Safety Glass all around at no extra cost.

\$25 A MONTH WITH USUAL LOW DOWN-PAYMENT, BUYS ANY NEW FORD V-8 CAR ON NEW UCC 1/2% PER MONTH FINANCE PLANS

"HERE'S TRUE ECONOMY"

Says the Cosden Traffic Cop

Whether you believe it or not, a high anti-knock gasoline is the MOST ECONOMICAL fuel you can use in your car or truck.

True, the first cost may be a few cents more... BUT... when you consider the wear and tear on your cylinders... slow pick-up... carbonized spark-plugs... loss of power and miles per gallon... an anti-knock gas will really SAVE YOU MONEY.

And the PEER of anti-knock gasolines... the gasoline that is refined to 70 OCTANE rating without the use of any adulterants or artificial stimulants is

COSDEN HIGHER OCTANE GASOLINE

Watch for the Cosden Traffic Cop and the **COSDEN HIGHER OCTANE** sign... drive in and fill up the tank today and you'll really experience "true economy" in motor fuel.

The Cosden Traffic Cop sez:

Watch railroad crossings carefully—remember, any time may be train time and the right-of-way belongs to the train—DON'T TRY TO BEAT THE TRAIN TO THE CROSSING—you can lose this sort of a race only once.
