Up Over Last Year At Both County Banks

Bank Deposits Show Increase

Third quarter deposits at City National Bank in Colorado City have increased by more than a million dollars each year for the past two years.

According to the bank report for October 15, deposits were $15,824,811.82 at the bank. Last year's deposits for the third quarter report were $14,666,953.80¢ and the third quarter report for 1972 amounted to $13,103,843.21.

Loans have also increased for the past three years for the third quarter report: $6,545,745.20, 1974: $5,517,706.42, 1973 and $5,087,453.87, 1972.

Deposits and loans at Loraine's First State Bank have also increased for the third quarter report:

--1974, $2,759,383.12.
--1973, $2,421,325.50.
--1972, $2,310,160.82.

Loans for the same period at First State Bank show the following:

--1974, $1,647,039.22.
--1973, $1,068,234.72.
--1972, $895,436.13.

Compared to the last call period for the second quarter this year deposits have decreased slightly in both banks. City National Bank reported deposits of $16,114,959.08 for the second quarter and First State Bank reported $3,272,449.44 for the second quarter. But comparison of the third quarters for the past three years shows increase, one of the best indications that the local economy is prosperous.

School Board OKs Contracts

The school board for Colorado Independent School District met in a special session Monday night to let contracts for science and homemaking equipment and for auditorium seating for the new high school.

They had opened bids last week but decided to postpone making a decision until a further study could determine which bids met specifications and which equipment would last the longest.

During Monday's nights special meeting, they awarded contract for the science and homemaking equipment to Indeco Sales of Lubbock. Indeco's bid was contracted at $49,098.90 and meets the specifications calling for plastic laminated surfaces on cabinets and students tables.

Other bids for the equipment as read when opened at the previous meeting are as follows:

Hoover Brothers, $55,903.

Foremost Equipment Co., $57,000.

Winning the bid for 600 fully padded auditorium seats with cast iron standards was the bid by Hoover Brothers of Temple, bidding $32,299.

Other bids submitted, but not all meeting specifications, were as follows:

Massey Seating Co., $32,050.

Ideal, $28,830.

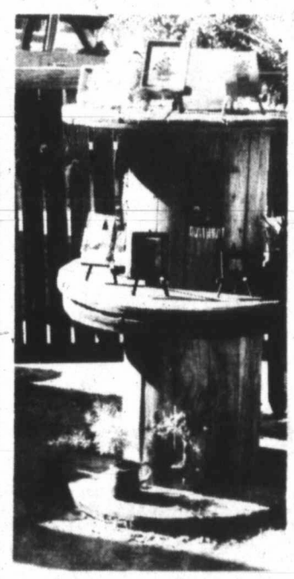

Indeco Sales, $32,820.

Joe Toombs Co., $25,134; alternate bid of $29,016.

Central Distributing Co., $28,350.

Superintendent of Colorado City schools, Lloyd McKee, said that the letting of bids for the equipment and seating was the only item of business on the agenda.

Council Discusses Water, Sewer Lines

The city council of Colorado City met in special session Tuesday night for its monthly workshop meeting, discussing a number of city problems.

Items discussed included landscaping at the new civic center, need for work on city streets and need for opening and flushing fire hydrants.

Only four members of the council were present, Mayor Pro-Tem J. Lee Jones Jr., Jody Neff, Rick Perkin and Larry Hamner. City Manager J. A. Sadler Jr., was working at the city's water filtration plant and was unable to attend the meeting.

Items discussed by the council included the possibility of raising prices on building permits and prices of lots at the cemetery.

Jones mentioned the fact that he was in favor of only pumping out septic tanks of persons who did not have a sewer line close to their home. He said anyone who has a septic tank and also has a sewer line nearby should not qualify for the service since they have a sewer line available but have not gone to the trouble of running a line from their house to the line.

The council earlier this month agreed to offer the service of pumping out septic tanks to residents without sewer line facilities and charging a rate in line with sewer line rates. Jones said Tuesday night he was in favor of contracting the job out to a firm so the city would not tie up capital in a truck and equipment that would only be used part of the time.

The council also discussed the continuing deterioration of a water main under the Colorado River bridge on the Sterling City highway. The line now has some 80 to 100 clamps on it and something needs to be done about replacing it before winter, council members said.

Jones pointed out that the city council was told some eight years ago about the condition of the pipe and didn't do anything about it. At that time, the pipe could have been replaced for about $6,000, Jones noted. Now it will cost about $20,000 he added.

Many long standing problems are now at the point that something must be done, Jones said, and this council is going to get the blame for "40 years of mismanagement and lack of progressive planning."

4-H families and their guests will attend the annual Achievement Program and banquet Tuesday night at 7 in the Civic Center.

Three special Friends of 4-H awards will be made as well as the very special Gold Star Boy and Gold Star Girl awards to the foremost 4-H boy and girl in the county.

Guests will include city, county and school officials from Colorado City, Loraine and Westbrook.

The event is being sponsored by the Wolves Booster Club.

Challenge Issued To City's Civic Groups

Root Valley Fair Lodge residents have organized a WIN (Whip Inflation Now) committee to come up with inflation-whipping ideas and have issued a challenge to local civic groups to best them in formulating ideas that will help solve our problems with inflation.

President Ford, in a nationally televised speech, challenged Americans to come up with ideas that would help the country win the battle against inflation. The Lodge residents, showing their concern with problems facing the country, have organized their committee and are spending much time and effort in their discussion of inflation.

One idea they have already put into effect is saving paper to be re-cycled. They are working on others.

In their challenge, the WIN committee hopes to get the entire city and its civic organizations involved in the inflation battle just as they are and hope to get more and more ideas put forth to help win the inflation-fighting war.

Wolves Will Face Anson

Colorado City's Wolves will tangle with a strong Anson Tiger team Friday night in Wolf Stadium with both teams hoping to come out with a win in order to keep any hopes of a district championship alive.

The Wolves have won one and lost one while Anson has won one, tied one and lost one. The Wolves had the week off last Friday night in order to get ready for the last four games of the season.

Anson has a fast and experienced team, said Colorado Athletic Director Mike Farda who watched the Tigers down Stamford last week 61-6. Anson lost to Hamlin and was tied by Coahoma in other district games.

Anson has a good team, Farda noted, pointing out that most of the starters are seniors. In addition the Tigers have a junior, Johnny Booker, who is a speedster and knows how to run with the ball. Anson has an exceptional quarterback and a lot of speed throughout the squad.

The Wolves have had good workouts the past week and a half and emphasis has been put on working on problems that have shown up in earlier games.

Everyone showed a lot of spirit at our pep rally last Thursday. Elmer Ward and Tony Reyna from the student body put on a skit. Elmer was the Coahoma coach and Tony was his Bulldog. They walked into the gym and everyone booed them. The coach was asked what he was doing and he said he was going to beat the Wolves. He walked into the Wolf Den, and after a lot of growling he came back out with his shirt half torn off and without his Bulldog. The Jr. High students just wanted our Wolves to know that we're with them all the way!!

The cheerleaders, some of the twirlers, and a number of Jamborees followed the team to Coahoma. They, along with the parents and football boys who were not playing, yelled and kept up the spirit for the team.

PLEASE NOTE: For the next two weeks the Jr. High Pep Rally will be held at 1:45 p.m. due to the distance of the ballgames.

"Change Office Location," Says Bullock

Bob Bullock, Democratic nominee for Comptroller, said Monday that the Comptroller's office should conduct tax case hearings in its regional headquarters instead of requiring all tax contests to come to Austin.

"It is, in effect, denying many average taxpayers their day in court by making them foot the bill for an attorney and a trip to Austin," Bullock told supporters during a day long visit.

The Comptroller has regional offices in Lubbock, San Antonio, Dallas and Houston. Besides these cities and Austin, Bullock said, consideration should be given to conducting periodic hearings in El Paso and the Rio Grande Valley.

Interest In Local Election Increases

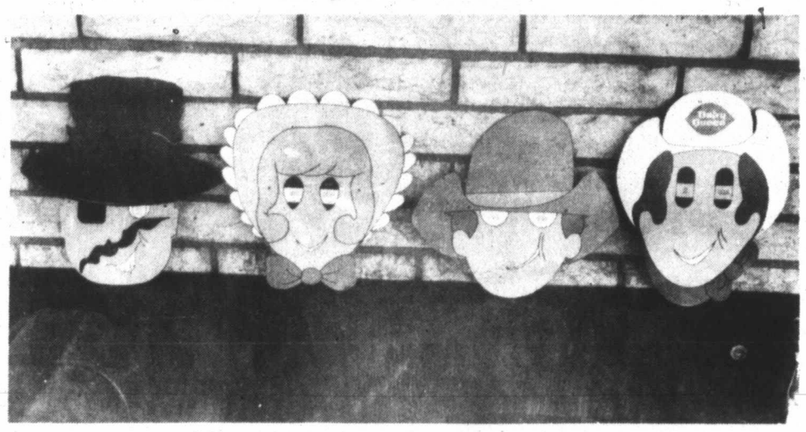

Adding interest to the local election will be the write-in campaign being waged by Caddo Matthews for the office of county school superintendent. He is opposing Olson Sweat, whose name is listed on the ballot for the office as he won the Democratic primary election for the spot.

Five candidates are running for governor: Dolph Briscoe, Jim Granberry, Ramsey Muniz, Sherry Smith and Sam McDonnell.

Interest is also centering on the Texas Senate race between Democrat Ray Farabee, a Wichita Falls attorney seeking office for the first time, and Mrs. Mary Kirchhoff, Republican party nominee who lives in Plainview and is a school teacher. Both candidates for the 30th district post have been to Colorado City, Loraine and Westbrook seeking support.

There are no resolutions or amendments on the ballot.

Cattle graze on reclaimed land near TESCO's lignite coal operation near Fairfield, Texas. The dragline used for recovering the lignite can be seen just over the hill.

Ten months ago this peaceful Texas pasture was a coal mine.

The lignite coal found here is being used to generate electricity for Texas Electric Service Company in our Big Brown plant near Fairfield, Texas.

Our main fuels are natural gas and oil, and they will continue to be for several years. But new supplies of these fuels are increasingly difficult to obtain.

Using lignite, and by the 1980's nuclear fuel, will help us reduce our dependence on natural gas and oil.

One advantage of using lignite is that it isn't being used extensively for any purpose other than the generation of electricity.

After removing coal from the land you see here, it was reclaimed — the soil was replaced, tilled, fertilized and a variety of grasses planted — to make its productivity equal to or better than before. Now it is used for raising crops or cattle.

At Texas Electric, we're continuing the orderly development of our power system so that you'll continue having the electricity you need.

And we're doing it with full concern for the environment.

Today's Football

Three Colorado City football teams travel to Anson for games there today.

Leading off the action will be the 7th grade vs. Anson game at 5 p.m.

Next game is at 6:30 between Colorado Junior High's 8th grade team and Anson.

B Team (Freshmen) play at 7:30 p.m.

The Junior Varsity has an open date this week, but will play Winters in Wolves Stadium October 31 at 7:30 p.m.

★ Wolves From Page 1

ayers are now beginning to come around and become able to carry out assignments and recognize defensive and offensive formations and plays by opponents, Farda noted.

The Wolves apparently are in good health for the game with the exception of Mike Brooks who suffered a knee injury against Stamford. Brooks probably will see limited action against Anson.

Rain Recorder

Dan Pfeuffer, operator of the city's sewage treatment plant on the southside, shows the way he reads and records any rainfall the city receives. A reading of the gauge is made every day at 4 p.m. Any amount of rainfall that is readable on the gauge is recorded and a report turned in to Texas Water Quality Board monthly. Pfeuffer also must record the number of gallons of sewage treated by the plant each day and report his readings to the state board. He estimated the plant treats about 335,000 gallons of sewage per day.
