Calvary Baptist Church Float Takes First Place

Winning first place prize of $100 in the float competition in this year's annual Christmas parade was Calvary Baptist Church; second place of $50 went to the Business and Professional Women's Club and third place prize of $25 was won by the second grade of Kelley Elementary.

Other floats in the parade represented Payne Chapel, kindergarten and first grade, with Mrs. Claus, and the Kiwanis Club.

Mrs. Claus, Gloria Erwin, won $15 as "Best Dressed Individual."

Brant and Tera Baker, son and daughter of Mr. and Mrs. Terry Baker, were awarded $5 each as "Best Dressed Boy and Girl."

Holiday music, floats, Christmas goodies and appearances by Mr. and Mrs. Claus were only part of the holiday festivities which occurred in Colorado City Saturday.

The annual Christmas parade, sponsored by the Colorado City Area Chamber of Commerce, included everything from marching bands to visits from Santa and Mrs. Claus.

Colorado High School and Middle School Bands filled the air with strains of familiar seasonal melodies.

Also participating in the festivities were Shriners from Big Spring.

During the afternoon, Friendly Park was the scene of much holiday activity.

Christmas candy treats were given to excited children by Opti-Ms members and Chamber of Commerce Ambassadors.

The Opti-Ms also sold Christmas favors and goodies during the afternoon at a booth in Friendly Park.

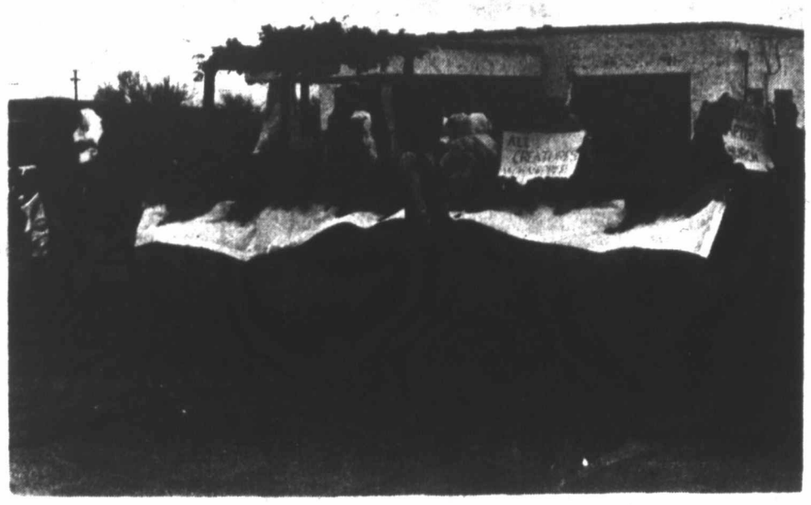

Following the parade, the crowd was entertained by carolers in the park.

Included in activities for the day was a chili supper sponsored by the Lions Club in the Civic Center.

Colorado City Area Chamber of Commerce Merchants held the first drawing for C-City Dollars valuing $100.

Magnesium Plant Stops Operations

American Magnesium, located in Snyder, which employs a number of Mitchell County residents, is in the process of closing its production.

President of American Magnesium, Roger Wheeler of Tulsa, Okla., stated the reason for the production stoppage, "This action has been taken due to unseasonably heavy rains which occurred for an extended period in September this year, causing severe damage to the brine storage facilities."

Wheeler also stated, "We have attempted to continue operations in spite of these difficulties, but such operations have not been successful."

At one time, American Magnesium had been seeking financing for a plant expansion project in order to make the economic base of the company more profitable, it was noted.

Local Resident Dies Of Gunshot Wounds

A life long resident of Mitchell County was killed and another man received stab wounds during an apparent argument at a farmhouse about 17 miles west of Snyder Tuesday.

Forrest Smith, 62, of 908 East 14th, received numerous wounds in the shoulder, stomach and other areas of the body when he was apparently shot repeatedly with a shotgun, according to official reports.

A.B. Owens, of Borden County, was admitted to Cogdell Memorial Hospital in Snyder with apparent stab wounds.

The incident reportedly took place outside Owen's rural home.

District Attorney Pete Green reportedly stated the two men had apparently been involved in an argument.

The shooting is under investigation by Borden County Sheriff Norman Sneed and Texas Ranger W.D. Vickers.

Playhouse Elections Scheduled

Colorado City Playhouse, Inc., will hold a general membership meeting today (Thursday) at 7 p.m. in the playhouse.

All members are urged to attend this meeting and take part in the election of officers for the coming year, Playhouse President Marsha Moore said.

Also elected during the meeting will be one new board member.

Outgoing board member is George Womack.

Loraine Board Meets

Loraine School Board of Trustees extended the contract of Superintendent of Schools Glenn Sanders until June 30, 1982 in Monday's regular scheduled meeting.

Teacher evaluations were also discussed by school officials in the meeting.

It was decided to remodel the old concession stand in the gym into a storage space.

Other items discussed on the agenda were the roof problems on the Vocational Building and putting storm windows on the Band Director's house. No decisions were made on either topic.

High School Teachers Address School Board

"I quarrel with educators who try to get students to learn too much too quickly," English Teacher David Woods told Colorado Independent School District Board of Trustees Monday.

In an hour and one half session, four high school English teachers discussed problems and progress at the high school level.

English teachers Chrystene Hall, Kathlyn Arthur, Kathryn Wilson and Woods, all agreed that most students are apathetic, below grade level in reading and, in general, not challenged enough.

Woods expressed the opinion that the five year coordination plan recently developed within the Colorado City School System would be of great value.

He also expressed the opinion, as did the others, that too many subjects are being taught at the lower grade level and not enough time is left for the basic courses.

To meet state requirements, seven required subjects are taught in the fourth grade and eight in the fifth grade.

Recently, board members changed the passing grade from 60 to 70. Board member Mac Morris asked the teachers what effect this change would have.

Mrs. Hall told the board she anticipates 34 per cent failure.

"Are we asking too much of these kids?" Board Member Billy Bruce Bridgford asked.

Ms. Wilson replied that some students were trying harder. Ms. Hall noted some of the students don't believe they will be failed and are still putting out only minimal effort.

All four of the teachers agreed the increase would be good for the system and students in the long run.

They encouraged the board to continue their "Get Tough Policy."

Board members expressed a desire to have a required reading course included at the eighth grade level the

Council Approves Airport Hangers

Action was taken on several items of business during the regular monthly meeting of the Colorado City Council Tuesday.

The council voted unanimously to accept the lease, as presented by City Manager Brenda Tarter, between the city and Kindercare.

The present lease expired Dec. 1.

Mrs. Tarter explained the lease terms were the same as the last lease signed in 1975.

Lease terms state Mitchell County Day Care Center will make monthly payments of $700, pay for utilities, furnish liability insurance and provide the city with a copy of the policy.

Council members unamiously voted to reappoint L.L. Thomas and Robert Chambers to two year terms to the Colorado City Housing Authority.

Mrs. Tarter presented a request from J.O. Dockrey of the Civil Air Patrol, that the patrol be allowed to use space at the airport on which to build its own hangar.

The council voted, with Mrs. Tarter's recommendation, to allow the Civil Air Patrol the space at no charge.

Architect Plans Jail Extensions

Mitchell County Jail is still out of compliance, Chief Deputy Mike Stutts reported to Commissioners Court Monday.

A fourth jailer must be hired immediately in order to comply with State Jail Standards Commission regulations, Stutts said.

This is a "Life Safety" regulation and no variance will be granted by the commission on this point, Stutts emphasized.

In his report to commissioners, Stutts said the state representative from the commission made an inspection of the jail facilities Friday and several items were still out of compliance.

A variance on these items would probably be granted, Stutts said.

However, Stutts noted, no variance would be granted on the employment of a fourth jailer, to insure 24 hour surveilance.

The jailers must be on the second floor for the entire eight hour shift, with the exception of a 10 minute period each hour in which the lower cells (juvenile and women's detention cells) may be inspected, Stutts said.

The booking process must also be relocated to the second floor, rather than where it is currently, on the first floor.

Birth

Mr. and Mrs. Craig L. Sengstock of Fullerton, Calif., has announced the birth of their son, Chad Hunter, born Dec. 4 in Fullerton. He weighed 7 lbs., ¼ oz.

Mrs. Stengstock is the former Sue Bell, daughter of Mr. and Mrs. W.A. Bell of Westbrook. Paternal grandparents are Mr. and Mrs. R.V. Stengstock of Fullerton.

Also welcoming the new addition is two-year-old brother, Jay Adam.

L.B. Elliotts Host Christmas Party

The Poetry Chapter of the Poetry Society of Texas met Friday at 6:30 p.m. in the home of L.B. Elliott for a salad supper and Christmas party.

Mrs. Elisabeth Gary gave the invocation. In the candlelighted service with Christmas decor throughout the home, Christmas was brought to mind.

A nativity scene made by the Elliotts' daughter, Shirley, was the center of attention. It was spotlighted and used instead of the Christmas tree.

A short business session followed the meal. The January meeting will be in the Elliotts' home on the fourth Thursday. The yearbook committee gave plans for the upcoming year.

Christmas poems were read by members present. Also displayed in the Elliotts' home was a quilt made by their grandchildren in honor of their 60th wedding anniversary.

The host showed slides of the recent snow scenes and some scenes of the lake when it overflowed recently.

Another item concerning the airport was a request by pilots for a phone horn to be placed at the airport at the pilots' or the city's expense.

Councilman Munoz stated, since the budget for the northwest airport has been exceeded, the pilots should have the horn at the pilots' expense.

Council members agreed and voted unanimously to grant permission for the phone horn at pilots' expense.

Reappointment of the Colorado City Museum Board was tabled until January.

Mrs. Tarter requested a decision on repairing the traffic light at the intersection of Elm Street and Second Street.

The council voted to give Woody and Buddy Crabtree authorization to purchase and install a used Crose-Hines mechanical device from Big Spring.

Cost of the device is $500 which is approximately a $700 savings over a new one.

City Manager Tarter defined turbidity and stated all state requirements had been met and the city was in compliance with all Texas Department of Health regulations regarding water.

The annual Christmas party for city employees, spouses or guests, and retired city employees is scheduled for Dec. 18 at 7 p.m. in the Civic Center.

Councilman Ray Dillard, in his monthly report, requested specific dates be set to make necessary repairs in the water system.

Dillard also stated, in his position as hospital administrator, his dealings with the Colorado City Police Department had been very satisfactory.

"I appreciate the cooperation that I have gotten from the police and the job they are doing," Dillard said.

Councilwoman Nina Crout noted all possibilities and avenues should be checked in order to settle the problem faced by the city concerning a sanitary landfill.

One option Mrs. Crout mentioned was the possibility of recycling garbage as is being done in Dallas.

It was suggested the city manager get information on recycling for possible council consideration.

Agreeing with Ray Dillard, Councilman Munoz requested definite dates for improvements to be made in the water system.

Munoz suggested the possibility of contracting water system work in order to get the job done now.

Mayor Elmer Martin read a letter from the Texas Department of Health which gives the city an extension until March 1, 1981 to find a landfill site.

The letter stated the extension was granted because the city is diligently searching for a site.

The extension was granted on the continuance of this effort.

Final item of business was the announcement that Jim Baum, Jr., has been employed as part-time dog catcher.

Police Chief Bob Bailey stated, since Baum had started work, dog related problem calls had decreased 25 per cent.

loaders, with a trade-in value of $40,000, leaving a difference of $125,000.

Delivery is anticipated on two of the new loaders within the week, according to Commissioner Paul Hunter. The third loader is expected to be delivered after the first of the year.

Three persons appeared and addressed the court during a public hearing held in conjunction with the regular court meeting in regard to amendment of existing regulations on county lakes. They were Glenn Hemphill, S.T. Hollis and Earl Richardson.

The regulation will be amended to state that containers which have contained pesticides, herbicides, or any other type of chemicals which may be toxic, corrosive or flammable, may not be placed in lake waters.

County Judge Bill Carter read a letter from the Texas Parks and Wildlife Department in which it was stated, the department was in full support of the county's effort to eliminate contaminated barrels and trotline floats from being used in lake waters.

Hemphill, owner of Mitchell County Utilities, asked how to go about reporting persons in violation of the regulations.

Judge Carter answered it would be necessary to report the violation to the game warden who, in turn, would file charges or issue a warning.

In the event the violation is not corrected, Carter noted, a report would be made to the Texas Department of Health and formal charges would be filed.

Commissioner Johnny Shackelford asked the three men if, in their opinion, the county had gone far enough with the amendment.

Hemphill and Hollis said they would like to see sewerage regulations established around the lakes. They both reported several instances of raw sewage being dumped into the lakes.

Richardson reported he had seen no violations in his area.

Carter explained a set of regulations has been prepared and presented to the city for approval.

A joint meeting, open to the public, will be held after the first of the year to study the proposed regulations, he said.

Hemphill said he had heard of a possible federal grant to construct a new sewerage system.

Carter said he was aware of the availability of grant money and the possibility of applying for such funding is currently under consideration.

County Attorney Pat Barber appeared before the court and requested his offices be relocated to the space now occupied by the district attorney.

Barber said he believes the district attorney will be operating out of the Sweetwater office most of the time after the first of the year.

He said he needs the additional space and, because of his seniority, believes he should be allowed to occupy the offices.

District Attorney-elect Rusty Carroll said he was not vacating the office and new Assistant DA Lonnie Markley would be working out of the office. He noted business would be conducted as usual from the Mitchell County office.

Commissioners voted to deny the request and tabled any further decision until new office space is available after the county jail is remodeled.

At that time, Commissioner Hunter said there will probably be a lot of offices relocated.

Tax Assessor-Collector C.C. (Mike) Burt requested two new calculators and recommended a contract be signed between Western Data Service Company and the county.

Western Data would prepare the annual tax roll print out, along with numerous other items at a savings to the county in time and money, Burt said.

Commissioners agreed to consider the company.

Burt reported only 47.8 per cent of taxes have been collected to date, as compared to 72 per cent at this time last year.

Several items of annual business were considered during the session.

Bertie Kidd was reappointed as Veterans' Service Officer for two years.

Mitchell County Deputy Reserve program was renewed for one year.

Mitchell County Health Officer Kenneth Cowan was reappointed for two years and county and state bonds were renewed on Burt.

Commissioners voted to leave insurance coverage on the Ag Barn (Senior Citizens' Building) in Loraine at its current level.

Commissioner Shackelford was reappointed as representative to the Mitchell County Ambulance Service for one year.

Rev. Roy Byrd submitted a letter of resignation from the Library Board because he moved to Arizona Dec. 1.

Education Loans Are Available

The Texas Medical Association (TMA) will provide more than $100,000 in loans to Texas medical students during 1980.

Loans from TMA are receiving increased interest since recount cutbacks in federal programs have made money less available to students enrolled in Texas medical schools.

Students interested in applying for TMA loans to help them continue their schooling can contact the financial aid director of any Texas medical school.

All of the funds provide loans at a very low interest, with no payment required until after recipient's medical education is completed.

Bertie Kidd Makes VA Check Announcement

According to Bertie Kidd, service officer for Mitchell County, a number of persons receiving Veterans' Administration disability and death benefits will soon be faced with overpayment notices for 1980. Many of these overpayments will occur because the individual failed to notify the VA of an increase in his or her income during the year.

Veterans in receipt of nonservice - connected disability pension and widows and children receiving death pensions, are paid benefits in their annual income remains within certain limits. Veterans, widows and children receiving VA benefits under the new pension all which went into effect Jan. 1, 1979 must report immediately any change in their income.

Failure to do so may result in an overpayment in benefits, as any adjustment required must be made on the first day of the month following the change. If they wait until the end of the year to report income increased, the VA must make the necessary payment adjustment retroactive, thus creating an overpayment for each month involved.

In most instances, the VA benefits are reduced dollar for dollar under the new pension law. Those under the old pension law are receiving the frozen rate of VA benefits to which they were entitled on Dec. 31, 1981. Those needing help to complete the report should contact the local Veterans' Service Office. The office will be closed Dec. 22 through Dec. 26 and if needed during that week, phone 728-2017.

The Matty Matejowskys Are Home After California Trip

Mr. and Mrs. Matty Matejowsky returned recently from a, what they called, very enjoyable trip to California where they visited their daughter, Kay and her husband, the Deatons, and two grandchildren at Garden Grove.

They were only a five minute drive from Disneyland which they said they visited and enjoyed very much. They toured Knotts Berry Farm, attended church of Dr. Schullers (heard on TV). This million dollar structure has just been completed and is constructed mostly of glass and is fabulous, stated Mrs. Matejowsky. It seats 8,000 people.

They spent four days at San Diego on Mission Bay with five families of friends for Thanksgiving, toured Sea World, World Zoo and Old Town of San Diego and many other educational centers.

The Texans report no smog, lots of smoke from fires and cold at night from winds from the Pacific Ocean, but said they were happy to return to "good ole Loraine, Tx."

*GRADE, From Page 1

beginning of the next school year.

Superintendent of Schools Charlie Uselton told board members he anticipates changes in state laws in the coming year.

He said several of the required courses will probably be dropped at the lower grade level.

In other business, board members voted to sign an agreement with Colorado City Classroom Teachers' Association, making it the exclusive representative of all certified instructional personnel of the district.

The Colorado ISD has 111 certified personnel for the 1980-81 school year. Of this number, 98 are instructional personnel and are members of CTA.

Board approval was given to filing a delinquent tax suit on certain property owners in CISD.

Board members heard a report that per cent of attendance is remaining high with the average at 97.4 for high school; 96.46 for middle school; 96.18 in Hutchinson Elementary School and 95.17 for Kelley Elementary School.

Uselton reported on recent meetings he attended and said he anticipates numerous changes in government programs and benefits.

He said some changes are already apparent in nutritional program benefits.

The funding has decreased, he said.

*JAIL, From Page 1

Because of the cost of revamping the existing jail to meet current jail standards, commissioners voted to employ Architect Don Hampton of Welch and Hampton Architects, Inc., of Sweetwater, to prepare plans for extending the existing facilities and bring the jail up to standards.

Hampton appeared before the court and reported the cost of construction on a new jail facility would be about $65 per square foot and, in order to house an average of 25 persons, (the figure established earlier as the normal occupancy of the Mitchell County Jail), 6,000 square feet of building would be required. He estimated the cost at about $450,000.

Hampton said the jail now contains about 3,980 square feet.

He also reported that he had been informed that the Texas Department of Corrections may only accept as many prisoners as they have room for in the future, leaving the others in county jails. He noted penitentiary prisoners are sleeping on cots and pads in some instances currently.

Hampton will formulate plans for remodeling the existing jail and report back to the court.

Commissioners decided not to vote on the employment of an additional jailer at this time.

District Forms Mailed

Farmers, ranchers and other area residents will be receiving forms from the Mitchell County Tax Appraisal District by the first of the year or soon afer.

Tax Assessor-Collector C.C. (Mike) Burt stated forms consist of homestead exemption, open space land applications for agricultural use and veteran applications.

Burt also noted the appraisal district has hired a full-time clerk.

Miss Marivel Quinos of Mitchell County is presently working in the local offices of Southwest Appraisal Company with inventory and readying the proper forms for mailing.

Now it's more important to conserve.

Our biggest contract for low cost natural gas expires at the end of this year. As a result, the gas we use to generate your electricity will cost more from then on. And that means your electric bill will increase.

To help hold down the cost of electricity, we're building plants that use cheaper fuels like lignite and uranium. You can help hold down your electric bill by conserving.

Our free TIPS booklet is full of conservation ideas. To get yours, call Texas Electric or ask for it on the comments section of your electric bill.

Public Notice

PUBLIC NOTICE

During the month of October, 1980, the City of Colorado City supplied water that exceeded the Texas Department of Health's "Drinking Water Standards," which were promulgated as required by the "Safe Drinking Water Act," Public law 93-523 (US), for turbidity.

The presence of excessive turbidity or cloudiness in drinking water may interfere with the effectiveness of disinfection of the water.

In October, during the time of the heavy rains filling Lake Colorado City, our turbidity did exceed the requirement level.

The problem has been corrected and we are in compliance with the regulations.
