STROKE VICTIM

ALBERT C. RITCHIE

HEART ATTACK IS FATAL TO N. H. PAYNE

LEADER IN CO-OP MOVE IN TERRITORY DIES SUDDENLY TODAY

N. H. Payne, 47, field representative of the Northwest Texas Cotton Growers association and a resident of Lubbock since 1926, died at his home, 2428 Twenty-first street, at 3:30 o'clock this morning of a heart attack.

He had been ill for about ten days, but his death was unexpected.

Settled In Comanche

Born in Delta, Ala., Sept. 16, 1888, Mr. Payne came to Texas with his parents, Mr. and Mrs. J. B. Payne, when he was three years old. They settled in Comanche county, where he grew to manhood and where he became an active farmer. He was married to Miss Elizabeth Smith, June 1, 1909. She survives, with two sons, Hollis and Victor, and two daughters, Mrs. Curtis Young, and Miss Mary Jane Payne, all of Lubbock.

His aged mother, Mrs. J. B. Payne, a brother Bart Payne and a sister, Mrs. W. L. Tatum, all of Comanche, also survive.

Leader In Cooperatives

Mr. Payne became interested in the cooperative marketing program many years ago. He was considered among the outstanding leaders in that movement in not only Texas but the south, and was held in high esteem by high government officials of the marketing work of the U. S. department of agriculture, as well as the American Cotton Cooperative association.

Becoming a field representative of the old Texas Farm bureau in 1922, he was connected with that organization until about 1930. He came to Lubbock in 1926, after having served at Comanche as field man. When the Texas Cotton Cooperative association was formed he was named field representative here, in 1930, becoming district manager in 1932. When the Northwest Texas Cotton Growers association was formed in 1934 he became its general manager and later, when the local group was merged into the

Successful Raids By Blacks Reported

ADDIS ABABA, Feb. 24. (AP)—Ethiopian troops penetrated the northern Italian line of communication between Makale and Aduwa, a government communique said today, and killed hundreds of Italian and native Eritrean soldiers.

Other reliable reports said Ras Kassa, Ethiopian chieftain campaigning against the right wing of the advancing Fascist forces, attacked the Italians near the sacred city of Aksum with 800 of the invaders being killed.

DOUGLAS, Ariz., Feb. 24 (AP)—Hugo J. Cooper, 20, of Mineral Wells, Texas, was killed north of here yesterday when his automobile plunged off the highway.

And To Think Arbuckle Coffee Has Come To This

NEW YORK, Feb. 24 (AP)—Mrs. Claire Eugenia Smith, the multi-millionaire widow of a coffee magnate, weighed the amatory suits of two noblemen—Russian Prince Alexis Droutsky and French Marquis De Villermont—and the Daily News said today the marquis won.

The vivacious marquise-to-be entertained her two suitors and a group of friends at a night club party last night, the paper said, and the marquis, an importer of perfumes, proclaimed himself the winner. Mrs. Smith inherited an estimated $6,000,000 from the late William Van Rensselaer Smith of the Arbuckle Coffee Co.

Said the Marquis De Villermont: "We haven't set a date yet for the wedding. I want to surprise my friends abroad. I am going to Europe next week and when I return we will be married."

DEMO LEADER IS VICTIM OF STROKE

FORCEFUL FIGURE DIES IN APARTMENT; WAS IN 60TH YEAR

(By The Associated Press)

BALTIMORE, Feb. 24.—Former Gov. Albert C. Ritchie, vigorous advocate of states' rights and a pioneer in the movement that led to prohibition repeal, died suddenly at his apartment here early today. He was in his 60th year.

A stroke apparently caused the death of the noted Marylander, a contender for the Democratic presidential nomination at the 1932 convention in Chicago. The end came about 1:45 a. m., less than two hours after he was stricken.

Ended Speculation

Death ended speculation over the possibility of his taking a leading role in opposition to renomination of President Roosevelt at this year's Democratic convention in Philadelphia. His outspoken criticism that Roosevelt New Deal policies tended to circumvent the constitution and engulf states' rights stamped him as an outstanding figure among intra-party foes of the administration.

He was looking forward to making a fight "within the party," in his own words, to force the national administration to "go back to the platform of 1932." He had planned, intimate friends disclosed, to make this fight at the convention and considered a speaking tour to urge a return to the platform of four years ago, which he helped to write.

Spoke On Constitution

His last public utterance was on the constitution. Addressing a church meeting across the street from his home a few hours before his death, he had sharply criticized centralization of government at

ALL-DAY SESSION BEING HELD AT TECH; TALK SEED PROBLEMS

Leading grain sorghum breeders of this section and others met with members of the State Seed and Plant board and members of the division of agriculture, Texas Tech, for an all-day session starting this morning. Sessions were held in one of the rooms in the division of agriculture, with luncheon at 1 o'clock, to be followed by an afternoon session.

Matters pertaining to state certification of grain sorghums were to be discussed, as well as production of registered seed.

Dean Opens Meeting

Dean A. H. Leidigh of the division of agriculture opened the meeting and explained the day's program.

R. V. Miller, Austin, field inspector for the board, read a paper discussing the growth of seed certification in Texas and giving a status of the work as of 1935. He traced the work from the passage

Tom Green Man Is Found Fatally Shot

SAN ANGELO, Feb. 24. (AP)—T. F. (Bud) Garrett, 49, was found slumped in a chair dead at the Sam Estes home ten miles southeast of here this morning. The top of his head had been blown away by a shotgun charge.

Hugh Jackson, justice of the peace, returned a verdict of suicide. Garrett, a truck farmer in Lake View near here, leaves a widow and three children.

MAJ.-GENERAL HAGOOD IS TOLD TO "AWAIT ORDERS" AT HOME

(By The Associated Press)

WASHINGTON, Feb. 24 — Major General Johnson Hagood was summarily relieved from his command of the 8th corps area at San Antonio today and ordered by President Roosevelt's direction to proceed to his home and "await orders."

Hagood in recent testimony before a house appropriations subcommittee suggested that congress take advantage of what he termed "WPA stage money" and use it to improve housing at army posts.

Issued Feb. 21

The order relieving him of command at Fort Sam Houston, Tex., headquarters of the Eighth Corps area, was issued on Feb. 21 but not made public until today.

No explanation of his removal was forthcoming immediately in war department quarters.

In his testimony on the war department appropriation bill, Hagood urged that $150,000,000 be used for army housing.

"At the present time," he said, "there is a vast flow of silver—I won't say gold—spreading out all over the country like mud.

"It will soon dry up without anything permanent to show for it. I shall not be accused of profanity when I say, 'for God's sake, put some

MEXICANS HELD IN RAPE CASE

Two young Lubbock Mexicans were held in City jail this morning pending filing of rape and attempt to rape charges against them as a result of an attack on a white mother and her daughter here Saturday night.

The suspects were arrested Sunday by Sam W. Fort, police identifications officer, and Bill Mabray and Lewis Kittrell, patrolmen.

The attack allegedly occurred in western Little Juarez, Mexican quarter, about 8 o'clock. The two Mexicans, who were identified by the victims, accosted the women, threatened them with rocks, attacked the 36-year-old mother and attempted to attack the 15-year-old girl, police said.

The girl received treatment at Lubbock sanitarium, but was dismissed Sunday. The woman suffered bruises.

The women said the Mexicans held them prisoners for about 30 minutes. The case was reported to police about 9:30 o'clock.

Several Mexicans were arrested Saturday night and Sunday, but all save the two suspects have been released. Burton S. Burks, assistant district attorney, took statements in the case.

One suspect is 21 years old, the other 23.

THAW CAUSING SHARP RISES IN RIVERS

FOUR ARE DROWNED IN CALIFORNIA; ANNUAL TOLL IS FEARED

(By The Associated Press)

CHICAGO, Feb. 24. — Floods threatened to take their annual toll of lives and property damage in at least 12 states today.

Four persons drowned in California where streams inundated thousands of acres. Two more were missing on a government navigation light tender's houseboat which disappeared from the mouth of the Green river in Indiana. They were George Pete and his wife.

The flood-threatened states included California, Idaho, Iowa, Nebraska, South Dakota, Missouri, Illinois, Indiana, Ohio, Kentucky, Michigan and Pennsylvania.

Families Are Moving

Red Cross officials, the coast guard and other governmental agencies assisted thousands of families in threatened lowlands to move their livestock and personal belongings to safer territory.

A sharp rise in temperatures over a wide area yesterday from northern Minnesota to New York and in the south from California to Alabama added to the flood dangers. Forecaster C. A. Donnel of Chicago said today would be even warmer with a possibility that the mercury might reach 50 degrees here.

The only subzero temperature in the nation yesterday was -2 at

JAPAN STUDIES SOVIET PLAN

INCIDENTS ON BORDER CAUSE CONFERENCE OF OFFICIALS

BY JOHN LLOYD

Associated Press Foreign Staff

MOSCOW, Feb. 24. (AP)—A Soviet suggestion that immediate steps be taken to halt incidents on the borders of Manchoukuo and Outer Mongolia confronted Japan today with a virtual Russo-Mongolian joint stand against any Japanese-Manchoukuoan aggression.

Vice-Commissar for Foreign Affairs B. S. Stomoniakoff proposed to Japanese Ambassador Tamekichi Ota, in a weekend conference, that a mixed commission be appointed to study means for preventing the clashes on the Manchoukuoan-Mongolian frontiers.

While the Japanese ambassador consulted the Tokyo government by wire concerning the suggestion, neutral observers gave special attention to Stomoniakoff's assertion that Soviet relations with Outer Mongolia have been "unalterably friendly."

They interpreted this as an open indication that Moscow would not tolerate any invasion of the far eastern buffer state, delivering an advance answer to any question as to whether Russia would intervene in the event of an attack on Mongolia.

Drama Students To Pay Visit To Wrestling Match

Technique of local wrestlers may find its way into Shakespearean plays.

The quickness and coordination of movement of wrestlers will be studied by a speech class of approximately 30 students of Texas Technological college Wednesday night at a local match. The students will be accompanied by the head of the speech department, Miss Ruth Pirtle.

Besides the grace in movement students might gain from observation of wrestlers, they also obtain knowledge in actual wrestling technique which might be needed in many plays, Miss Pirtle said.

The class, which is studying a beginners' dramatic course, is to meet tonight, 7-9 o'clock in Hilton hotel ballroom to study fencing, a knowledge of which also is needed for acting in many plays, Miss Pirtle said. Dr. Leroy T. Patton, head of the geology department, will instruct them in fencing.

OFFICIAL TEXAS CENTENNIAL MARCH IS TO BE SELECTED HERE, MARCH 3

The official Texas centennial march will be selected in Lubbock the night of Tuesday, March 3, on basis of rendition by the Texas Technological college band of marches which are being submitted by composers, D. O. Wiley, band director, said this morning.

Ellis Hall, director of the Amarillo Academy of Music, designated the Texas Tech band to play the manuscripts submitted.

The Texas Federation of Women's clubs is in charge of the selection. Members of the Texas Band Teachers association probably will judge, although personnel of the committee to make the selection will not be known before the contests, Wiley said.

Eight or nine manuscripts have been received by Wiley. Deadline for submission of marches will be Feb. 25. Manuscripts which do not provide for complete orchestration must be returned, Wiley said.

Approximately 80 students will play in the band. Wiley said this morning it possibly will be arranged for the public to attend. Rendition

HEIR TO ONE OF WORLD'S GREATEST FORTUNES IS BORN IN LONDON TODAY

(By The Associated Press)

LONDON, Feb. 24—An heir to one of the world's great fortunes was born today to Countess Barbara Hutton Haugwitz-Reventlow, granddaughter of F. W. Woolworth, the 5-and-10 cent store founder.

The boy was born in the great regency period house overlooking Hyde Park which his father, Count Court Haugwitz-Reventlow of Denmark, took over several months ago.

It was reported that a "special agent" was on guard in the big residence to see that "no unauthorized person enters the house and to guard against possible kidnapers."

Three physicians attended the countess, and the secretary of one of them said both mother and child were in good condition.

A nursery already has been constructed in the top floor of the house and it was reported that "special precautions had been taken to guard against germs in this play quarters."

The baby was born at 10:30 a. m. He weighed 7 1-2 pounds.

The countess was married to Count Haugwitz-Reventlow May 14, 1935, following her divorce from

"LYING" LAID TO MILLARD WHITED

LUMBERJACK IS SAID TO HAVE FALSIFIED HIS TESTIMONY

(By The Associated Press)

TRENTON, N. J., Feb. 24.—Governor Harold G. Hoffman today accused Millard Whited, Sourland mountain lumberjack and one of the state's chief witnesses against Bruno Richard Hauptmann, with "lying," a charge which might be the basis of perjury action against him.

The governor, who questioned Whited at length Saturday, said the "printed and written record shows that he was lying."

Placed Bruno Near Estate

Whited was one of the two witnesses who placed Hauptmann near the Lindbergh estate at Hopewell about the time of the kidnaping, March 1, 1932.

The Sourland logger was the only witness New Jersey called at Hauptmann's extradition hearing in New York to place the Bronx carpenter near the scene of the crime. Whited swore he saw Hauptmann prowling around the Lindbergh grounds on two occasions late in February, 1932. He repeated this testimony at the Flemington trial.

Attack Credibility

The defense, both at the extradition hearing and at the trial, produced witnesses who attacked Whited's credibility. Whited held to his identification, and Saturday told Governor Hoffman that he had described the prowler to Col. Charles A. Lindbergh the day after the kidnaping.

"In view of the fact that there seems to be a studied effort to sup-

FARM BILL IN CONFERENCE

MARVIN JONES NAMED COMMITTEE MEMBER ON LEGISLATION

(By The Associated Press)

WASHINGTON, Feb. 24 — The house agreed quickly today to a conference with the senate on the new $500,000,000 farm bill.

Speaker Byrns named these members of the agriculture committee as conferees: Chairman Jones (D-Texas). Representatives Pulmer (D-S C) Doxey (D-Miss), Hope (R-Kan), and Kinzer (R-Pa).

Delay Would Thwart Plan

It was said that any considerable delay would thwart the desire of administration leaders to get the soil conservation-farm subsidy bill working before the spring planting season gets fully under way.

(The legislation, though passed by senate and house in somewhat different form, provides in general for federal subsidies to farmers for taking land out of commercial crop production and devoting it to soil-building or other "economic" purposes. For the first two years the subsidies would be passed direct to farmers, except that if states cooperated, they could handle the distribution. After two years, the subsidies would be paid only in cooperating states.)

AGRICULTURE ASKS FOR $161,863,147 FOR 1937 FISCAL YEAR

(By The Associated Press)

WASHINGTON, Feb. 24 — A $161,863,147 agriculture department appropriation bill for the 1937 fiscal year was laid before the house today as the new $500,000,000 soil conservation farm program headed for conference on house and senate differences.

Although, from the viewpoint of actual new money appropriated, the supply bill was $28,525,857 under budget estimates, there were reappropriations of unexpended balances totaling $18,000,000. The measure was, at the same time, $21,635,563 above current appropriations, not counting reappropriations.

Allows Same Amount

In addition, the bill allowed $4,000,000 for the Farm Credit administration — the same as this year.

Following the policy laid down in the war department supply measure, the appropriations committee refused to allow $1,000,000 requested in the budget for the shelter-belt program of tree planting down the great plains belt.

Projects Disallowed

In the war bill, $29,000,000 for carrying on the Passamaquoddy tidewater dam and other projects started under emergency funds, as was the shelter-belt, was disallowed on grounds those works had not

Storage Space Is Project For Clubs

A clothes storage space and adequate clothing for the entire family project is under way this month in the Lubbock county home demonstration clubs.

Four hundred and four women of the county are making inventory of and repairing all clothing on hand, regardless of how old, Miss Norfleet Grimes, county agent, said Friday. Each person has been provided with clothing budget blanks for her entire family which she is to fill out during the demonstration.

There is a blank for each member of the family with suggestions for cash expenditures for a year, based upon extension service average figures for needs of the individual.

Budget Explained

According to this plan, an adult woman's clothing budget is based upon an average expenditure of $21.75 a year. Thirty-nine per cent or $8.65 should be spent for outer clothing; 15 per cent for underclothing; 31 per cent for footwear; nine per cent for headwear and 4 per cent for accessories and cosmetics.

The budget for an adult man is based upon an average expenditure of $24.50 a year. Fifty-four per cent or $13.39 sould be spent for outer clothing; nine per cent for underclothing; 21 per cent for footwear; four per cent for headwear, and five per cent for accessories.

Similar clothing plans are laid out for a 16-year-old boy, 14-year-old girl and three-year-old child.

Miss Grimes in her lectures suggests that 15 per cent of all expenses should be used for clothing. Each woman is requested to ask of herself: "Do I give my family enough in return for the proportion of income that I spend?".

The agent teaches that planning and recording expenditures is necessary from an educational standpoint in that it teaches self control, senses of justice, willingness to share and ability to carry responsibilities. This training, she says, should be affected in the form of confidential discussions at home.

The habit of buying, according to her lectures, is influenced by advertising, fashion trends and passing fads. Realizing this, the club women are cautioned to guard against carelessness in buying.

GREEK'S OFFER IS ACCEPTED

PART PAYMENT IN CASH OF WAR DEBTS TO BE MADE TO U. S.

(By The Associated Press)

WASHINGTON, Feb. 24—A great offer of actual cash in part payment of war debts—the first from a defaulting European debtor nation in more than two years—has been accepted by the United States.

Authoritative sources said the state department has sent a note to Demetrolos Sicilianos, the Greek minister, expressing willingness to credit any payments made to Greece's account if they are "without prejudice to the contractural rights of the United States."

Finland Has Paid

Finland has met its debt installments promptly and in full, but other European nations which owe the United States $12,437,837,030.33 have defaulted on all recent payments.

Greece, in an offer made to the state department through Sicilianos, and transmitted to the treasury for study before action was taken, agreed to pay 35 per cent of the coupon value of payments due May 10 and Nov. 10. This would amount to $76,272 of the $217,920 due on each date.

Plan To Extend Scout Activities

Plans for extending activities of an Eagle Scout club at Lubbock Saturday night were perfected at a dinner conducted at Tree Top Inn.

W. H. (Ike) Crenshaw was named chairman of a committee to formulate by-laws and a constitution for later reference to the group, ascertain restrictions governing Eagle Scouts enrolled in Texas Technological college, and to set up program and goal.

Others on the committee are LaVergne Manire, John Kilgore, Malcolm Brenneman, Sam Henry, jr., Edward L. Reed, jr., John Marr, Davis Vaughan, George W. Dupree, jr., and Curry Eaves.

Nineteen attended, said Earl M. McClure, council executive.

Additional Bills Are Not Reported

LAMESA, Feb. 24 (Special) — A 106th district court grand jury which earlier in the week had returned nine indictments, four of them for cattle theft, was recessed Friday for the week-end without voting additional cattle theft bills, said Judge Gordon B. McGuire Saturday.

Several indictments had been returned against three men at Tahoka and at Brownfield, two of whom had been arrested, including Oscar Sumner, Lubbock ranchman.

Several other indictments had been expected.

Brownfield and T-Bar ranches had reported loss of approximately 56 head of cattle.

Texas abounds in caves and many of the largest are open for public inspection during Centennial year.

Foreign demand for American soaps and toilet preparations has increased considerably in the last year, tooth paste being the best known American toilet requisite in foreign markets.

SEVEN STATIONS READY TO AID MOTORISTS; 4,000 SIGN UP

Plenty of drivers licenses — some 20,000—remain to be issued in Lubbock county by the deadline date, March 31, Hurley Carpenter, county tax official, said today.

The steady stream of applicants, which crowded the county tax assessor-collector's office for the first few of the eight days the licenses have been issued, slowed down to a trickle by Saturday, when a check-up at that office, and at 7 substations established in the city and county, indicated slightly more than 4,000 licenses had been obtained.

Eight License Stations

Licenses may be secured on proper application at the following places: City hall, Hilton and Lubbock hotels, South Plains American Automobile association office, Hemphill-Wells, and Kuykendall Chevrolet company, all in Lubbock; and at Slaton and Idalou City halls in addition to the tax office in county courthouse.

Blanks may be obtained by one member of a family or an agent of a business firm to act for others, but each application must carry the signature of the individual applicant in ink. Carpenter said. Place for the signature is on the back of the application. Where the applicant is under 18 years of age, signature of parents or legal guardian is required. The minimum age is 14.

SCHOOL BUILDING CONTRACT IS LET

Contract for the erection of a $120,000 grade school building and combination gymnasium-auditorium was let to J. B. Maxey, Lubbock contractor, by the board of trustees of the Olton Independent school district late Friday, it was learned today.

Mr. Maxey already has the contract for the foundation work and it would have been completed the past week had not bad weather delayed it, Mr. Maxey said.

The structure will be built in the form of the letter "T" with the building being 234 feet by 145 feet. The combination auditorium and gymnasium will be about 85 by 65 feet.

Two stories high, the building will be to brick construction. Work order is expected within two weeks, Mr Maxey said. Voelcker and Dixon, Wichita Falls, are the architects. The structure is being financed by aid of PWA funds.

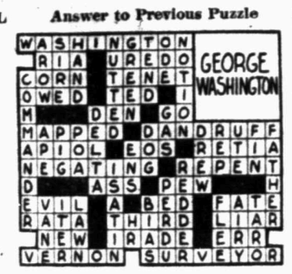

Professor Reginald George Stapledon, director of the Welsh plant breeding station, has announced the station had produced a new strain of grass.

Book Dedication To Be Made To Wilson

This year's La Ventana, yearbook at Texas Technological college, will be dedicated to Roscoe Wilson, late director of the college, said Bruce Zorns, editor.

The book formerly was to be dedicated to alumni.

Zorns said Saturday he will attempt to obtain photographs of all faculty members for the yearbook. Thirty-six faculty members have had pictures made. The editor urged that others be photographed.

REMNANTS OF ONCE-POWERFUL TRIBE OF INDIANS RENEWING FANTASTIC PACT

(By The Associated Press)

NOGALES, Ariz., Feb. 24—Remnants of the once-powerful Seri Indians, dancing in barbaric hysteric about the scalp of a white man, have renewed their fantastic pact of tribal suicide.

In the dance of the moon the copper-skinned natives nightly race along the beach and through the desolate wastelands of Tibouron island, off the shore of Lower California and re-enact stirring scenes of the days when the tribe numbered thousands.

Sworn Tribe Shall Die

Now, numbering less than a hundred, the Seris, discourage by disease and poverty, have sworn that the tribe shall die.

In the weird dance they don their deerskin armor, pick up long unused bows and arrows and dance about a pole from which dangles a human scalp.

Their "curse on the hated white man" completed, the Indians gather about their venerable chief, Juan Tomas, and take an oath to remain childless—ringing down the curtain on one of the most barbarous tribes in North American history.

The dance persists, said Gordon Gordon, Tucson, Ariz., newspaperman who has just returned from Tibouron island, despite the fact "the Seris today are a kindly and hospitable people."

Man Is Burned To Death In Accident

SHREVEPORT, La., Feb. 24 (AP)—One Shreveporter was burned to death and three others escaped with minor injuries when the sedan in which they were riding overturned and caught fire after striking a bridge on the Marshall highway about two miles west of Greenwood Greenwood Saturday.

Tony Fulco, about 22, of Shreveport was burned to death in the automobile despite the frantic efforts of his three companions to remove him from the blazing machine. The three with Fulco, all of whom were burned about the hands and legs, were H. U. Phillips, the driver; G. E. Cashman and R. W. Smith, all of Shreveport.

REGIONAL CAGE PLAY IS ON THIS WEEK

SMALL TOWNS WINNERS IN DISTRICT TITLE COMPETITION

(By The Associated Press)

DALLAS, Feb. 24—Small-town basketball teams predominated today among the 32 high school aggregations competing in regional tournaments this week-end.

Friona's 29 to 21 win from Amarillo, Forsan's 18 to 16 victory over Abilene, and Nocona's 29 to 14 defeat of Wichita Falls were striking examples of the basketball prowess developed in smaller centers.

To Be Trimmed To 8

Regional matches Friday and Saturday will trim down the number of contenders for state championship honors to eight teams and they will fight it out a week later in the State Interscholastic tournament at Austin.

Pairings for the regional games:

Region 1—at Canyon: Friona vs. Pampa, Abernathy vs Carey.

Region 2—at Abilene: Forsan vs O'Brien, Crews vs Milburn.

Region 3—at Denton: Nocona vs Denton, Dallas Tech vs Waco.

Region 4—at Longview: Gober vs Hughes Springs, Kilgore vs Cushing.

Region 5—at Huntsville: Bryan vs Colmesneil, Jeff Davis (Houston) vs French.

Region 6—at San Marcos: Del Rio vs Brackenridge (San Antonio), Austin vs La Grange.

Region 7—at Kingsville: Victoria vs Taft, Laredo vs Laferia.

Region 8—at Alpine: El Paso vs Fort Stockton, Brown vs Fort Davis.

Denton High school, winner of the 1935 state championship, is ranked among the teams likely to be running strong for this year's title. Denton came through the district play-offs with a 17 to 9 victory over Springtown at Fort Worth Saturday.

Roy B. Henderson, executive secretary of the University of Texas Interscholastic league, said approximately 1,500 teams competed this year.

"YOUNGER MEN" ARE SOUGHT

NEW GRID COACHES AT WISCONSIN, CORNELL AFTER SHAKE-UPS

BY ALAN GOULD
Associated Press Sports Editor

NEW YORK, Feb. 24 (AP)—The football destinies at two of our better known insititutions of learning, Cornell and Wisconsin, seem likely to be entrusted to youthful head coaches for 1936, following upheavals at both places.

As a consequence of the resignation of Gil Dobie at Ithaca, N. Y., under pressure, and the subsequent dismissal of Dr. Clarence (Pats) Spears at Madison, Wis., sentiment has developed at each seat of learning for "a younger man, not unknown by any means but one whose reputation is on the make."

Seems Popular Trend

The quotation is from a Milwaukee sports editor, sensing the popular trend among Wisconsin adherents, but it applies equally to the present feeling among many Cornellians. Wisconsin may find the man it wants already in the Badger ranks but Cornell plans a fresh start with a head coach selected from the best available "outside" talent.

Cornell's athletic director, James Lynah, so far has given no indication as to who Dobie's successor will be. It is understood more than 85 coaches from all parts of the country have filed applications. Of these at least two dozen still are under more or less serious consideration.

Red Grange Suggested

Prominent among the younger coaches reliably reported to have been suggested for the Cornell job are Harold (Red) Grange, the former Illinois All-America back who has rounded out ten seasons as a player and coach with the Chicago Bears; Dan Jessee, a product of Pacific university (Oregon) who has had marked success as head coach at Trinity (Conn.), Don Peden, former Illinois athlete who has developed successful teams at Ohio university; Ray Nusspeck, another former all-around Illinois athlete, now head coach at Illinois college; Herb Kopf, one-time Washington and Jefferson star who is Lou Little's first assistant at Columbia; and Early Martineau, backfield aide at Princeton.

Former Zuppke Pupils

It is noteworthy that three of these six, all with exceptional background, are ex-pupils of Prof. Bob Zuppke, the well known landscape artist at the University of Illinois.

BERL HUFFMAN brought his Matadors home from the Border conference basketball fastnesses of Arizona and West Texas yesterday, the whole crew too tickled over their surprising accomplishments to be very tired.

They'll be turned loose today, however, for a blow before resuming the practice pace Tuesday. It'll be a tough pace, because the Hardin-Simmons university Cowboys will be here.

Basketball for Lubbock ends this week. The Westerners disbanded Friday after their first round defeat in the district tournament. The Matadors will be through after Friday night's game with the Cowboys.

Coach Frank Kimbrough and his towering Cowboys, who swept a series with Tech at Abilene, already are on the Plains. They were guests of Hilton hotel last night. They proceed to Canyon today for a two-game series tonight and Tuesday night with the West Texas Buffs, coming back here Thursday for the Tech "serious."

Huffman and Kimbrough met on friendly terms last night, played the whole basketball season over again and conceded each other two victories here Thursday and Friday nights. To hear them tell it, each has the poorest team that ever went out for basketball.

The Tech coach forgot himself a time or two, wagged his head with "Lordy, but those boys played some great basketball on this trip." Everybody, no doubt, is happy over Tech's good road trip, but nobody is happier than Huffman. Berl was feeling so badly over his prospects when he left that for two pins he'd have chucked the whole business. He was taking it more seriously than anybody else. Nobody expected the team to do much good against the hot Arizona clubs, made up from veterans almost entirely. After three glittering prospects petered out as the second term of school opened. Berl began to feel pretty badly.

Then on the eve of departure for the most important games of all, long Curly Wilkinson became ill and couldn't make the trip. Huffman and the boys were pretty low indeed.

They must have still felt low when they got to Socorro for the first game of the trip, a non-conference fray. They got knocked off, and hope faded. They went on to Flagstaff anyway to meet the front place Arizona Teachers. They weren't supposed to beat Flagstaff even with all cylinders going. What did they do? Merely knocked the Flagstaff hopes into a cocked hat by sweeping the series.

The Matadors and Huffman had but one kick on th ewhole trip. That was what they termed—well, we won't repeat what they termed it, but it had to do with officiating. They played the second game at Flagstaff, or the last quarter of it, with four men, the other four having been ejected after using their personal fouls all up. But they won anyway, went on to Tempe and played the state college there, splitting a series with the then third place team. At Tucson they split with the University, which at the time was in first place. Tech won the first game, knocking the Wildcats off the perch, but the score was reversed the next night and Arizona went back on top again where they are now.

At El Paso the dope held good, and Tech won the series, making it six out of eight for the trip. The Texas School of Mines is having its worst athletic year. Its basketball team hasn't won a game yet. In the first game at El Paso, the Matadors ran into some more whistle-tooting officials, and finished the game with three men on the Tech side.

Huffman explains it this way: "The boys just realized they were on the spot, or something, and they cut loose. The harder the opposition played, the harder our boys played, and they went to town. You never saw such hustle."

Speaking of officials—our neighboring states to the immediate west never have been advertised by visiting teams as the home of great officials—Huffman said that at one place the referee was the county attorney. The Tech coach didn't criticize the attorney's knowledge of law and rules, but he did say that the man was candidate in a coming election.

As for the mysterious case of "Williams and the Missing Wallet," Dean Bo explains, "I had it, but it got away." The graduate manager and caretaker of the cash who broke into print from Tempe with a Joe Jacobs specialty act, "we wuz robbed," says the $700 in checks and $30 in cash was in his wallet in his coat one evening, and the next day it wasn't.

Tech's athletic department must have a reputation for being well fixed financially. There was that that Oklahoma City episode, you know.

SO IT COMES the final week of basketball, presenting an opportunity for fans to expose their gratitude to the Tech team, to give it a farewell party in appreciation of its efforts. Make your plans to see the games Thursday and Friday nights. Hardin-Simmons is the favorite, no doubt, but you never can tell about a basketball game, especially when the Matadors are playing.

ROGERS VICTOR IN HOUSTON TOURNEY

SAN ANTONIO'S ARMY FLIER-GOLFER WINS FROM ED WHITE

BY FELIX R. McKNIGHT
Associated Press Sports Writer

HOUSTON, Feb. 24. (AP)—Lieut. Ken Rogers, who a year ago missed qualifying for the championship flight by seven strokes, flew back home today with the Houston Country Club championship—his first major title.

The San Antonio army flier, a comparative novice at the game, gave a courageous exhibition to beat Ed White of Bonham, national intercollegiate champion and Walker cup team candidate, one up on the 37th hole.

Smashes Jinx

Often termed the "champion runner-up" because of numerous failures in tournament finals around the San Antonio section, Rogers smashed the jinx yesterday, but only after a thrilling finish.

Four down at the end of the morning 18 holes, Rogers climaxed a steady comeback with a miraculous shot on the final hole, an 80-yard niblick pitch that landed on the green and dribbled to within an inch of the hole for a perfect birdie three. Even then victory wasn't certain, for White stroked a 12-foot putt that halted on the brink of the cup.

Game Suddenly Collapses

Two under par for the tournament, including the qualifying round, when he started the final match over the par 36-35—71 layout, Rogers' game suddenly collapsed and he toured the 18 holes in 79 shots to be left almost hopelessly out of the running at lunch time.

A win at the nineteenth hole heartened the 29-year-old flier and he hurried through the first five holes of the afternoon round in two under par to square the match.

Through the 27 holes the match was even and Rogers went one up at the 28th with a brilliant birdie two by dropping an 18-foot putt. He clung to a two-hole lead through the 32nd but White, taking daring chances, squared the match with wins at the 33rd and 34th.

Makes Great Shot

One of the greatest golf shots in the tournament's twenty-two years history came on the 35th hole. White, far down the middle of the long par five hole, blasted a one iron shot 230 yards that fell over a deep trap and on the green, rolled straight for the pin and stopped two feet away for an eagle three.

The intercollegiate champion could not protect his lead, however, and sent a slicing tee shot deep into a bayou at the home hole. Rogers again came back and shot a drive down the middle, placed a second shot in the frog hair by the green, rolled up a cinch par and squared the match.

White's defeat at the hands of Rogers, a demon on the greens, was not expected to hamper his chances for Walker cup recognition, for he bumped into something too hot to handle in the closing round.

Medal scores were high for the match, due mostly to Rogers' poor morning round and numerous chances taken by both players that failed and tacked on strokes.

Rogers had 79-75 while White tallied 75-78.

SHREVEPORT GIRL IS WOMEN'S WINNER

HOUSTON, Feb. 24. (AP)—Edna Saenger, 18-year-old Shreveport, La., miss, today held the championship of the first annual Houston Country club women's tournament after a close victory over Mrs. E. R. Hury of San Antonio.

Miss Saenger, down all the way to Mrs. Hury, came through gallantly at the finish to win, one up on the 20th hole.

The San Antonio star coasted through the first nine holes with a two up lead after shooting a 41 to Miss Saenger's 44. Miss Saenger then took advantage of Mrs. Hury's frequent three putt greens on the last nine to square the match on the seventeenth hole.

Mrs. Hury hit a beautiful recovery shot on the first extra hole for a par four that kept her in the match but Miss Saenger dropped a seven-footer for the title on the second extra hole. Mrs. Hury's 15-foot putt brushed the side of the hole and stopped a foot away.

WALLENDER AND GRUNEISEN COUNTED ON TO BRING UNIVERSITY OF TEXAS THROUGH IN RETAINING TRACK TITLE

(By The Associated Press)

AUSTIN, Feb. 24—University of Texas hopes to retain the Southwest conference track title and maintain its position in national cinder path circles are pinned to the flying feet of Harvey "Chink" Wallender, the "Texas Typhoon," and his colleague, "Tiny" Gruneisen.

Coach Clyde Littlefield believes Wallender is the fastest runner the south has produced in years while Gruneisen is only a few steps behind.

Equals Record

In the 1935 Texas Relays Wallender unofficially equalled the world record of 9.4 seconds in the 100-yard dash. He is the co-holder of the Southwest conference record at 9.6 and of the 220-yard dash record at 20.5 seconds.

Gruneisen also broke the 100-yard conference record in the 1935 meet but was a few feet behind the flying Wallender.

Set New Records

The co-stars were members of the Texas team that established the conference record in the 440-yard relay at 41.8 seconds and set new records at the Kansas relays in the mile and 440-yard relays and a new Drake relay record in the 880 last year.

The Texas relay team, with Wallender as anchor man, at the Kansas meet negotiated the 440 in 41.5 seconds and the mile relay, with Wallender again running the anchor position, in 3:16.1. The Texas record in the 800 at the Drake relays was 1:26.2.

Wallender and Gruneisen also run on the half mile relay team.

The Longhorn mainstay is compactly built and of medium height, has a pleasant bearing and is a favorite with the track fans. His one weakness is that he gets excited when the competition grows tough. He is unusually fast getting away with the gun.

Littlefield is looking to Rice institute and the Texas Aggies to furnish the heaviest competition in the conference schedule.

RETAINS NATIONAL TITLE

MINNEAPOLIS, Feb. 23 (AP)—Sam Atcheson, Memphis, Tenn., retained his National Y. M. C. A. handball singles title by defeating Joe Platak, Chicago, 7-21, 21-11, 21-12 in tournament finals Saturday.

HOGS HAVE TO DOWN STEERS FOR TITLE

LONGHORNS FORCED TO WIN SERIES TO TAKE CHAMPIONSHIP

(By The Associated Press)

The University of Arkansas, which practically held a monopoly on Southwest conference basketball championships until a few years ago, earnestly hoped Monday it could turn a two-trick decision over the University of Texas this week and move into the throne room again.

The Razorbacks, forced last year to share the title with Rice Institute and Southern Methodist university, need but one victory in the two-game series on their home court Friday and Saturday to clinch the honors.

Steers Must Win Both

The Steers, hot on the heels of the tall boys from the Ozarks, must sweep both contests and take what should be an easy win over Texas A. & M. next week to claim the championship.

The Razorbacks are highly favored and the loss to Texas of Jack Taylor, captain and ace basket-maker, only adds to their chances.

Texas might do well to take a glance back at the Rice Owls, only one game behind the Steers. If the Longhorns drop two to the Razorbacks, the Owls may slip by them.

Others Far Behind

The other teams seem far enough back in the standings to cause little if any surprise during the remaining two weeks of play.

The series with Texas winds up the season play for the Arkansas five. Baylor meets Texas Christian at Fort Worth Tuesday to wind up the season. A. & M. plays Rice at

An ALL-ELECTRIC Home

SAY those words over again. "An all-electric home." Do you see yourself sitting down to breakfast with your husband, instead of dashing back and forth from stove to table, with nothing to do but turn on the current that makes the toast and coffee while the eggs are being done "just so"? Or enjoying the luxury of lying abed until the electric thermostat brings the heat up? Or paying bills on which you know there is no waste?

If you do; if the picture thrills you but the prospects look dim, remember this: an all-electric home is a reality within your reach, an economy worth investigating, an easy-to-finance investment that should be made now, before prices rise.

A couple of bridge players were discussing their friends.

"Bess", remarked the first, "is going to marry that doctor she's been running around with".

"Humph", said the second. "He must be an x-ray specialist or he couldn't see anything in her!"

WELL, The Plainsman raffled off his two Centennial advertising plates at a buck apiece, as offered in this column Friday.

Bill Watson, of South Plains Coaches, called up and took 'em both, right after the paper hit the street, so other callers were politely told "thanks, but you're too late".

In announcing the raffle, money to go to Mrs. Milam's orphans for stick candy, or sumpn', The Plainsman said we'd all see if there were any sports in Lubbock who'd pay a buck apiece for the plates.

There are, as Bill's early action and the other phone calls indicate—and West Texas has gotten something out of the Centennial anyway, even if it's only a couple of bucks worth of stick candy for orphans!

Note To The Littlefield CCC Camp: Postmarked from Enid, Feb. 19, came an announcement: "Norma Jane, born Feb. 19, to Dr. and Mrs. Eugene Gilmer Wolff, at Enid General Hospital".

You boys ought to have a welcome for Doc when he gets back, but don't make it too good. Remember, the new kid is a girl and doesn't rate as much as a boy!

* * *

THE Plainsman didn't choose this week's recipient of "flowers to the living" just to get a popular reaction but if he had he couldn't have made a selection calculated to please more people.

We offer the "flowers" to this man, because:

His unfailing good humor is known all over this western country, particularly among cattle and stock men.

His untiring efforts on behalf of the Panhandle-South Plains fair and the Plains Quality Meat show have helped lift these institutions from the ruck of mediocrity to the point of merit which they now enjoy.

Although he differs, politically, from 90 percent of his friends and neighbors, his appointment to a responsible position under a Democratic administration meets with general approval.

His character is such that he makes friends easily and holds them to such an extent that it is doubtful if there is a more personally popular man in all the "short grass" country.

He is always enthusiastically behind any sort of a public project which he feels will make this, his adopted home section, a better place in which to live and work.

Friends in need have found him always to be a friend, indeed, even though it may cost him.

His bluff, good nature, his ready smile, his strong handclasp and his understanding ways make it a pleasure to be around him, and for these reasons, together with the fact that he always has been a good, solid, substantial citizen, The Plainsman this week offers "flowers to the living" to

IRWIN E. "DOC" BARR

who did well by the South Plains as well as by himself when he picked this country to settle in and raise a family!

SPONSORS of Admiral Richard E. Byrd's recent visit here were informed that the Admiral would shake no hands, sign no autographs, attend no teas, etc., while in Lubbock, since that was against his rules.

Commenting on the fact, The Plainsman said the Admiral was within his rights and defended him from some criticism which was going the rounds.

The Admiral read the remarks and from Wichita Falls, on February 21, he penned this column:

"I am greatly appreciative of the very tolerant attitude assumed in your column, explaining my inability to attend social functions.

"I would, however, like to correct some information given, perhaps, to my auspicies in Lubbock by lecture managers' advance agents: that I would refuse to shake hands and sign autographs. As a matter of fact, I never refuse to shake hands, or never decline to give autographs, unless the crowd is so large that it makes it impossible. I have signed many thousands of autographs since this tour started and have shaken the hand of everyone I have come in contact with, who desired it. What I find impossible to do, is wait after a lecture, to sign autographs.

"With kindest regards and many thanks for your co-operation and hospitality, I am, sincerily,

"R. E. Byrd."

Apparently, the Admiral is a good guy in addition to being a great American.

* * *

Well, folks, it looks like The Plainsman is going to have to put the comic strip, Benny, back in the paper.

Ever since we told Benny's friends to call up and ask for him back there has been a constant stream of phone calls and letters boosting the dumb little fellow with the long black coat.

If more come in in the next few days, Benny will be back with us next Monday. If you want him, better call in and tell the young lady at the switchboard "I'm voting for Benny".

That Man on Avenue Q says a good political speaker is a man who can work his audience up to a pitch of enthusiasm without saying anything.

Speed's all right but the people who came out here in covered wagons seem to have accomplished just as much good as those who came in automobiles.

THE Townsend plan orator had been giving his listeners the works for something like an hour. Apparently nearing his close, he said.

"Before I'm through, my friends, let me repeat the immortal words of Webster!"—

"Gee whiz, Miranda", said a man in the crowd to his wife, "let's get out o' here. He's about to start on the dictionary!"

Old-Timers Still Lured To Screen; Many Former Experts Of Heart-Throbs Return To Acting Even In Minor Parts

BY PAUL HARRISON
Journal Hollywood Correspondent

HOLLYWOOD, Feb. 24.—And what—h-e-i-g-h-h-o!—has happened to the stars of other days?

Well, an actress went into the makeup department at Universal to be retouched for her tiny part as a hard-bitten old biddy in "Show Boat," and the makeup chief said, "Hello, Flora!"

Flora Finch looked closely at him, then exclaimed: "John Gorman!" They had a do-you-remember-when reunion.

Miss Finch has done well enough since the days that she and John Bunny played together in two-reel comedies for Vitagraph in 1912. About once a year she comes out of retirement to do a small role for sentiment's sake.

Gorman is one of the oldest-timers in the business. As far back as 1906 he was one of the voices in the first talkies—stood behind the screen and read lines while the images were flickering. Later he played leads for D. W. Griffith, then went into the makeup business.

• • •

From Hits To Bits

Paul Panzer, whose stage experience included "Floradora," became a prominent movie heavy in the Pearl White serials—"Perils of Pauline," remember? Now he plays bits for Warners.

Leo White is a contract actor for Warners, but he also was a leading comedian before the rise of Chaplin. He and Wallace Beery were teamed by Essanay in 1912 in a series of Swedish nursemaid comedies; Beery was the nursemaid and White a French count. He later worked with Chaplin.

You haven't heard much of Jacqueline Saunders lately, but she was a star of the years of 1917-23. In fact, "Jackie" owned the home in which James Cagney now lives. She's another veteran on the Warner list, and has a daughter who works for the same studio. That's Jacqueline, Jr., a trim little dancer of 18.

• • •

Still Attached To Films

Theda Bara is in Hollywood, but retired into quiet domesticity—the wife of Director Charles Brabin, who directed most of her films. Anna Q. Nilson went from acting to the screen agency business.

Betty Blythe, once "The Queen of Sheba," isn't such a veteran in years, but devotes most of her time to ranching in the San Fernando valley. Now and then she comes out of seclusion for a small part; "Anna Karenina" was one; "Petrified Forest" the latest.

Tully Marshall is almost 72 now, but spry, nomadic, and content. He played on the stage 45 years, entered the movies in 1916, appeared in "Intolerance," "The Covered Wagon," and scores of others. He came back for a bit in "Tale of Two Cities," and lived in an automobile trailer parked across the street from the M-G-M studios while the picture was in preparation.

One morning they went to get him for some retakes, and Marshall and his caravan were gone. The picture was held up two weeks until they found him, happily touring in Arizona.

• • •

Next Reunion

Paramount is about to release "The Preview Murder Mystery"—if it retains that title—in which an assortment of veterans appear. They include Rod LaRocque, Conway Tearle, Ian Keith, Jack Mulhall, Bryant Washburn, Reginald Denny, Franklin Parnum, and Philo McCullough.

Pola Negri is still starring—in a European picture called "Mazurka." And the aforementioned Pearl White is living comfortably in Paris.

Buster Keaton, after a divorce and long illness, is coming back to the camera. Educational has signed him for six comedies to be made in New York. He leaves for the east Easter week.

United States consumption of napthalene, a product best known to the public in the form of moth balls, has increased rapidly in recent years due to the ever-widening use of this product in industry.

FDR GETS AN UNEXPECTED "BREAK"

Selection of Alfred E. Smith to head Tammany's delegation to the Democratic national convention at Philadelphia and the aroused activities of the Tiger will bind President Roosevelt with hooks of steel to the hearts of Democrats who cannot, even by holding their noses, lie in the same bed with the New York political machine.

Southern Democrats can't stomach Tammany hall. They never could, and, Glory Be, they never will.

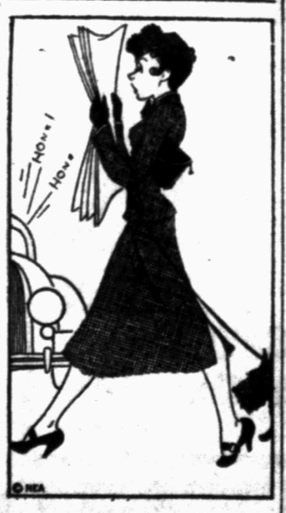

Other Democrats in other parts of the country feel the same way, although not so strongly, so we doubt that a "Tammany walk," even if led by personable Mr. Smith, will be embraced with any great degree of alacrity outsile of New York, New Jersey and Massachusetts.

Mr. Smith would have been playing better politics had he steered clear—officially, of course—of Tammany and the Tiger would have been showing more sense to keep away from Mr. Smith.

No wonder Rooseveltians in Washington are smiling instead of shaking in their boots at the new turn of events in New York.

They got a "break" they weren't looking for!

Dutcher's News And Views OF WASHINGTON

(Copyright, 1936 NEA Service, Inc.)

BY RODNEY DUTCHER
Journal Washington Correspondent

WASHINGTON, Feb. 24.—In a world in which the statistician and accountant are looming larger every day, it is marvelous that so little is known about certain very important things.

For instance, every legislative effort to cope with relief and reemployment must hang on one bit of information. How many unemployed are there?

And the answer, with all the elaborate statistics that come flooding out of statistics machines daily, is simply this: Nobody knows.

The American Federation of Labor and the National Industrial Conference zoard make periodic estimates, usually agreeing within a couple of million. But they can be little better than intelligent guesses. Nobody knows.

That is why a census of unemployment has been periodically proposed, perhaps as a national WPA project. Hugh Johnson had a pet plan to use voting booths in every precinct in the country as registering-places for the unemployed, just as they were used during the war for draft registry.

• • •

Bad Election Year Task

But you may be sure that nothing will be done this year toward an accurate national listing and census of the unemployed. Bad election year business.

Some day, however, an increasing number of government officials feel that it must be done, on the principle that before you can accurately determine where you're going, you must first know where you're at."

Another example of this vagueness of knowledge of elementary data came up in debate on new alien laws in the senate. It was Senator Reynolds of North Carolina who pointed out that nobody knows how many aliens there are in the country, let along how many of them are here illegally.

For instance, the commissioner of immigration estimates that the number of aliens illegally in the country is less than 100,000. But one New York City official estimates there are 300,000 in his city alone.

The near-impossibility of preventing the illegal entry of aliens is shown by the fact that 40,000,000 people cross the land borders of the country every year. That includes commuters, tourists, and the like, but in so great a shoal it would be unusual if there were not some strange fish.

Makes People Think

It would be inaccurate to say that the adverse supreme court decisions raised the public clamor of protest that inner New Dealers hoped it would. Spontaneous public clamor was strangely absent.

But plenty of thoughtful people are thinking, both ways, which is at least an improvement over the former tendency to consider the court blindly as something somehow superhuman. More than 40 proposals are pending in congress to modify in some way the powers of the court.

There is almost no chance of modification in this session of congress. After the November elections, perhaps, but not now.

Hence, frantic efforts must be made to frame the new AAA substitute in terms that may be made to agree with the present court's interpretation of the constitution.

• • •

New Way Over Hurdle

The idea, of course, is to promulgate the law as a soil conservation measure. Soil conservation has been a legitimate objective of the national government for years.

Then you operate the soil conservation program in such way as to accomplish about the same things which the old AAA was accomplishing—that is, balancing crops with consumption.

A new twist was added to this effort to make the new AAA court-proof by Senator Logan of Kentucky. He added to the purpose of the bill "protection of rivers and harbors against the effects of soil erosion."

The point is that states, be they never so touchy about their rights, have never objected to the federal government coming in and spending millions in dredging out their harbors and rivers.

So, the senators figure that if one of the objects they say they're working toward in the new farm legislation is to improve rivers and harbors, that might help to get over the supreme court hurdle.

HIGH COURAGE

by Jeanne Bowman.

SYNOPSIS: With dramatic suddenness Ansel Kellogg, Anne Farnsworth's oldest and best friend, bursts into the midst of her trial for the murder of her foster uncle, Lee Farnsworth, and takes complete charge of her defense. Anne's freedom and good name depend on the outcome of the trial. Even her fortune hangs on the same peg. Now Judge Kellogg is proving by the former Farnsworth butler that Anne did not have the weapon which killed Farnsworth in her possession at the time of the shooting.

• • •

Chapter 40
BOMBSHELL

"When did you last seen this revolver?" Kellogg went on.

"The day after Miss Anne left, sir," said Jones. "We were that worried over her going away by herself, that we got to thinking would she do away with herself, having been treated so bad. I went upstairs and looked for the revolver, the only firearm in the house. It was still there."

"Did you at any time touch it, disturb it, take it away, send it to Miss Farnsworth, or to your knowledge did any of the other servants send it to her?"

"No sir we did not. We didn't know where to reach her had we ever thought of it."

"That will be all."

The next witness was a Mrs. J. C. Irving, whom Anne identified as the woman at the service station located near the foot of the Clatsop Ridge grade. She told of seeing Anne, on the night of March tenth. She said she had been a "talkative ninny," telling the young lady about the spot on the ridge where the Farnsworth car had gone over the cliff, and that not until a young man had told her who the girl was, had she realized she had been talking to Anne Farnsworth.

"That will be all," droned Ansel Kellogg. "Call John Neuman."

John Neuman. Anne's heart seemed to stand still. John Neuman. Then he was here. How had the judge found him? Or had he found the judge?

He strode into the court room, sat down. He looked at Anne, smiled at her, and in the love and kindness of that smile she found her whole world righted. How handsome and clean-cut he looked, how different from Rob Crocker. No lines of selfishness no—but the judge was questioning him.

• • •

"Yes, I know Anne Farnsworth," he declared, and enumerated the times he had met her prior to the night on Clatsop ridge.

"Are you in a position to say whether or not she has returned to Portland since that time?"

"I know she has not and can call any number of witnesses to prove this."

He then corroborated Anne's testimony concerning her reason for being at the fishtrap the night of the murder, concluding with an explanation of her landing at the far end of town.

"I knew Miss Farnsworth had never been treated fairly by the remaining members of her family and I knew that should she be found near the scene of the shooting, she would be involved. Therefore, I told the Sorki boys to take her somewhere along the beach and let her make her way back into town from there."

"Your honor, and gentlemen of the jury," said Ansel Kellogg at the conclusion of John's testimony, "I have attempted to prove through these witnesses that the gun which fired the shot that killed Lee Farnsworth was never in the possession of the defendant.

"I will now prove that it has been in the custody of another person. I will call Jake Sampson."

There was a commotion at the door, then two deputies appeared, a small man between them. He was forced to his place on the stand and sworn in.

"Your name," snapped Kellogg.

"J-J-ake, J-Jake Sampson," answered the man, his gaze seeking the ceiling as if there was someone in the courtroom he did not wish to see.

"Your occupation?"

"Gunsmith."

"Have you a store, if so what do you sell?"

"Everything to do with shooting, shells, guns, cartridges, good stock." He was boasting now, becoming confident he wouldn't be hurt. "Then I clean guns and—"

"Ever see this before?"

Judge Kellogg thrust exhibit A towards him.

"Betcha life I have. I sold that to Luke way back in 1919. It's a peach—"

"Just a minute Mr. Sampson, we're not questioning your wares. Have you seen it recently?"

Jake Sampson wet his lips nervously. "Y-yes" he stammered.

"When?"

"Evening of August 3rd a man brought it in to be cleaned and oiled. He called back for it and I sold him some cartridges for it. Thirty-two automatic."

"Is that man in this court room?" asked Kellogg.

• • •

There was a moment of tense silence than, "Yes", the voice came faintly, "over there." He pointed towards the group at the district attorney's table. Seated there was Rob Crocker and Tom Farley.

Anne sat frozen, incredulous. Intent upon her own innocence, she had only vaguely wondered who had been guilty. Her illness, which had cast an opaque screen over the events of that night, was partly responsible for this. Now she stared as Sampson pointed a grimy finger at the two men.

"Stand up please," ordered Kellogg.

Crocker stood up, thin lipped, angry, defiant.

"That's him," the man declared.

"You're excused Sampson," said Kellogg, "unless the district attorney wants you."

Anne glanced at the district attorney. He wore a baffled look, and shook his head, at which sign Sampson scurried from the room.

"I will now call Charlie White Deer."

The squat figure of a chinook was brought in. The man, visibly frightened, shrank from the quick gaze of eyes from every part of the courtroom.

"White Deer," began Kellogg kindly, "where were you on the night of August 3rd."

"At i i i clean"cst

"At . . . at bootleg fish trap."

"Were you alone?"

"Yes."

"Did you see the defendant; see this young lady?" He pointed to Anne. The answer was "yes."

"Did you see her fire a shot at Lee Farnsworth, the man who was killed?"

Surprisingly, there was no objection from the district attorney. He was listening avidly.

"No," said the Indian emphatically.

"Could you have seen her do it? I mean where was your boat in relation to hers?"

The trial reaches a dramatic climax, tomorrow.

THE PLAINSMAN GETS SOME MAIL

READER WANTS MORATORIUM ON DRIVES!

Dear Plainsman: "Drives to the right of 'em; drives to the left of 'em; Theirs not to reason why, theirs but to GIVE, or die; Noble John Citizen."

After reading last Fridays "column", we are of the opinion that The Plainsman was in a caustic humor toward the Centennial.

We also think that the same attitude applied to the continual and ever-blooming charity drives in Lubbock.

No sane, thinking, person will deny the need for charity, nor the good work accomplished by a charity-minded community. Charity should, and does, have its place in the scheme of things as they are.

We have been mixed up in several of the drives, and therefore feel more or less free to offer a thought on the subject.

As a whole, we seem to be around the well-known "corner", but a lot of really nice people have not entirely recovered from the depression. And I know that some of them have given to charity until it hurts.

Work; medicine; cold water and a lot of other things are very good in the proper quantities; but dangerous in the excess.

Lets have a 60-day truce on "drives", and give the noble John Citizen a rest.

It's your newspaper, why don't you start it.

John Burnitt,
Lubbock.

MEETING HELD THURSDAY

Because of the fact that some of the members were to be in the district basketball tournament at Lubbock Friday, Shallowater F. F. A. chapter moved its regular meeting up to Thursday, at Shallowater. R. D. Evans presided.

Short talks were made by several boys. The question of the boys taking orders for state certified cottonseed was discussed. It was decided to buy seed through the Consumers seed club, Corpus Christi. Seed will cost $2 a bushel, the boys retaining 25 cents as their share, for the local treasury.

NOT A CANDIDATE

PARIS, Feb. 24 (AP) — The News quoted State Senator Tom Deberry of Bogota, representing the eighth senatorial district, as saying today he would not be a candidate for re-election. He has served eight years.

"B. C." Relieves Your Headache In 3 Minutes

Realizing that no one drug can relieve all headaches, as they come from so many causes, a registered pharmacist has developed a combination of several ingredients, so blended and proportioned as to relieve almost any headache in a few minutes. You can get this formula wherever drugs are sold under the name "B. C." 10c and 25c packages, and when you have one of those violent, nerve-racking headaches, from inorganic causes, "B. C." will give you soothing relief in three minutes. "B. C." should also be used for the relief of muscular aches and pains, common colds and neuralgia, reducing fever and for quieting a distressed nervous system without opiates, narcotics or such habit-forming drugs. Cotton Market

NEW YORK REPORT

NEW YORK, Feb. 24. (AP)—Cotton futures opened barely steady, 2 to 10 points decline on lower Liverpool cables and under active March liquidation. Mch 11.19, May 10.75; Jly 10.43, Oct 10.12; Dec. 10.14; Jan 10.19.

The decline extended to 11.17 for March and 10.10 for Oct. During the early trading, making net losses of about 5 to 12 points on the general list with near months relatively easy.

The volume of business tapered off somewhat toward the end of the first half hour, but the market at 10:30 was holding within 2 or 3 points of the lowest.

After early selling tapered off, the market became less active and showed a generally steady tone.

Spot houses were reported buyers of March, May and July, but there was only a moderate volume of business and much of it was in the form of March liquidation and switching into later months.

At mid-day March was around 11.24 and Oct. 10.14, or within 3 to 5 points of last Friday's close.

Tomorrow will be the first March notice day in the local market.

NEW ORLEANS REPORT

NEW ORLEANS, Feb. 24 (AP) — Cotton opened barely steady today 5 to 12 points down from Friday's close. Liverpool came in worse than due and first trades here reflected the easier cables.

The first notice day on March brought further liquidation and that month opened at 11.10 and showed a decline of 12 points below the previous close.

May was off 9 points at 10.69 and July 7 points at 10.40, a decline of 5 points was shown in the later months.

The market turned dull soon after the opening in advance of the Mardi Gras holiday here tomorrow.

With a scarcity of notices and some short covering March sold up to 11.16 around noon, or 6 points below the previous close.

Other months showed similar recovery with continued unfavorable weather over the belt and the reported heavy volume of goods sales last week which lent support.

May gained 4 points over the opening figures and held at 10.73 around noon. July sold up to 10.44 while the later months held around their initial levels.

Grain Market

CHICAGO REPORT

CHICAGO, Feb. 24 (AP)—Reflecting strength of the Liverpool market, wheat tended upward early today. Furthermore, likelihood of another cold wave following the present thaw suggested possible domestic crop damage over wide areas.

Opening 3-8 to 5-8 up, May 99 1-4 to 99 3-8, wheat then held near to this range. Corn started 1-4 off to 1-8 up, May 60 3-4 to 60 7-8, and afterward sagged all around.

Stock Market

WALL STREET REPORT

NEW YORK, Feb. 24 (AP)—Light but effective selling today depressed most stock market groups.

A few railway equipment and specialty issues managed to buck the trend, and the utilities, with the exception of Consolidated Gas and North American which lost a point or so, were fairly steady.

At the same time losers of fractions to 2 or more, as the session approached the fourth hour, included U. S. Steel, Bethlehem, Youngstown Sheet & Tube, Chrysler, General Motors, Packard, Great Northern Preferred, N. Y. Central, Southern Pacific, Johns-Manville, Westinghouse, Du Pont, U. S. Smelting, Kennecott and Anaconda.

Baldwin Preferred got up 3 points, and improvement was shown by Baldwin Common, Westinghouse Air Brake, Yellow Truck, American Locomotive, Celanese, Industrial Rayon and Schenley.

GOV. TALMADGE

Harrison said:

"It appears from trustworthy information that the comptroller general of Georgia, William B. Harrison, grossly neglects his duties and is guilty of conduct plainly violative of his duties and demeans himself in office to the hazard of the public funds and credit of the state."

The order placed C. B. Careeker, chief clerk of the department of agriculture when Talmadge was agricultural commissioner, in the office of comptroller general.

He is now in the state auditors department.

Commissioner R. L. Travis, of C. L. Travis, and of Mrs. W. R. Richards, all of Ralls. The young man, a bank employe, was survived also by his father, Oliver Travis, sr., Odessa.

Pallbearers will be Raymond Ralls, Mack McColvar, Wyman Sowell and Wilmoth Watkins of Ralls and Ed Simmons and Herbert Burkholder of Lubbock.

DOG FINDS BODY

WINTHROP, Mass., Feb. 24. (AP) —A mongrel dog found the body of Jackie Reardon, 8, crushed beneath half a ton of ice in the harbor, about 100 yards from his home today. The boy disappeared yesterday. Police said they believed he fell while playing on the ice, became wedged between two floating cakes of ice and drowned.

RITCHIE DIES

(Continued From Page One)

Washington as opposed to constitutional tenets.

Ritchie, overshadowing political figure in Maryland for 15 years—until his defeat in 1934 for a fifth term as governor—was alone in his apartment when he became ill.

Summoned Secretary

Sensing the seriousness of his condition, he hurriedly summoned his personal secretary, Mrs. Elizabeth W. Smith, from her home about midnight. Mrs. Smith found him seated, helpless and in a semi-conscious condition in a chair, near the telephone.

After several unsuccessful attempts to reach nearby physicians, she located Dr. Cecil Bagley, who, with Dr. Richard Coblentz hurried to the former governor's apartment. They found Ritchie lying on the floor of his study, where he apparently had fallen while his secretary was summoning aid.

Failed To Rally

He was unconscious. Dr. Bagley administered artificial respiration and ordered oxygen tanks from the fire department. Eight tanks of oxygen were administered, but Ritchie failed to rally.

News of his death spread rapidly and expressions of grief and tribute were widespread, coming from national leaders in all sections of the country.

Ritchie, always a strong personality and outspoken in his convictions, ascended to nation-wide notice in 1922 by his blunt opposition to prohibition—a stand that then was unpopular in many sections, especially the south, Democratic stronghold. Playing the 18th amendment as a destroyer of states' rights, he boldly set forth his position whenever called upon to speak upon the heated issue.

The house centipede is not poisonous. Only the large tropical centipedes are venomous.

"Yellow Sheet" Issued—"Yellow sheet number two" was distributed this morning at Texas Technological college, the second mimeographed circular published in opposition to an "Alamo club" said to exist on the campus for political purposes. A former sheet announced "The Alamo club lives on". The second sheet is composed principally of answer to a Toreador, student newspaper, story designated in the circular as a "front page editorial". "Do you want to see a roster of the Alamo club? Watch for yellow sheet number three", the circular promises. It was alleged: "These papers are neither written nor sponsored by any candidate in the present campaign." Editor and business manager of the Torador and La Ventana, yearbook, will be elected Friday.

June In February Is Prevailing Here

June in February today prevailed in Lubbock for the third successive day.

The mercury at noon stood at 72 degrees and had advanced to 77 degrees at 1 o'clock.

South Plains residents who had been wearing their heaviest coats (and in many instances long-handled underwear), were surprised Saturday when the mercury struck 80 degrees — warmest weather of the year.

The same mark was reached again Sunday afternoon, after a minimum of 35 during the early hours of the day. Today's minimum was 46 degrees.

Sand and dust swirled across Lubbock from the west again. Reports indicated that the "dust bowl" area was suffering of a "black blizzard."

Sumner Is Released On Bail In Lynn

TAHOKA, Feb. 24.—(Special)—O. W. Sumner, Lubbock rancher who has property in Lynn county, today was at liberty in bail posted Sunday following Sumner's indictment for cattle theft.

Two complaints in this county charge Sumner with cattle theft and one with disposing of mortgaged property. Sumner also posted bond in four theft cases in Terry county.

District Attorney Truett Smith said a 106th district court grand jury possibly would return additional indictments late today.

Bond in two swindling cases against Sumner in county court in Lubbock was set by Judge E. L. Pitts this morning. Each bond was fixed at $250.

LAMESA OFFICIAL RESIGNS

LAMESA, Feb. 24 (Special)—Jimmie Cotton, city secretary, has resigned. He and a sister, Mrs. Carrie Neil, have purchased the interest of T. C. Cotton in the Cotton Motor company. His successor has not been named.

It's Harrison, Not Harris, Candidate For County Office!

A headline in Sunday's Avalanche-Journal erroneously read "Harris To Seek Post In County", when it it should have read "Harrison To Seek Post In County".

The candidate referred to was H. N. Harrison, of Idalou, candidate for the county commission, precinct 3.

He is a well known farmer of his section.

DANGER OF FIRE IS STRESSED HERE

With stiff winds carrying millions of sand particles, danger of static electricity fires was stressed today by Lubbock firemen.

About 40,000 bundles of feed, valued at $1,000 or more, were burned on the Maple Wilson farm about 3 1-2 miles southeast of Lubbock late this morning.

Firemen, who were called about 11 o'clock, found the flames out of control. The feed stacks ran east and west. The fire was whipped by a strong west wind. Firemen who made the trip were Chief W. E. Twitty, E. L. Price, and John Nugent.

Stacked feed was destroyed by fire on a farm 8 miles northwest of Lubbock early today. Cause of that blaze also was listed as static electricity, Chief Twitty said.

He warned especially against placing of wires on feed stacks without grounding the wires. Ungrounded wires become charged with static electricity, and the resulting sparks likely will set fire to the dry feed.

No damage resulted from a fire in a lunch stand at 1402 Avenue C, where the blaze was caused by an oil stove.

The alarm was turned in about 12:30 o'clock. The fire was out when trucks from No. 1 station arrived.

THREAT OF FLOODS

(Continued From Page One)

Havre, Mont.

Many cities stored explosives to break ice jams, but Captain H. B. Loper, U. S. Army engineer in the Nebraska district, said it was impossible to break up huge floes with dynamite.

A 70-mile gorge in the Ohio river began to break gradually last night near Uniontown, Ky. Charles W. Carr, Red Cross official, said the breakup alleviated immediate fear for families in the lowlands but that he would continue efforts to induce residents to move to higher ground.

A giant gorge in the upper Ohio valley near Beaver, Pa., held and valley dwellers hoped that moderating temperatures would permit the ice to move out without damage. Greater concern was felt in the Allegheny river valley, where the ice was frozen for a distance of 253 miles without a sign of breaking up.

"DUSTER" SWEEPS SOUTHWEST TERRITORY

PUEBLO, Colo., Feb. 24 (AP)—Crop-destroying dust storms which last year spread havoc on the prairie farms once more are sweeping the top soil of the southwest into stifling blizzards of dirt.

The worst "duster" in 13 years swirled about Pueblo yesterday afternoon, cutting visibility to arm's length and paralyzing activity in this city of 50,000.

The same storm had its outer fringes in Texas, Oklahoma and Kansas, the "dust bowl" of last year's blows, and even sent clouds of dust above sections of Nebraska and Wyoming.

The first clouds rolled in on Pueblo about noon and became so dense that by nightfall objects could not be seen at a distance of four feet. Motorists sat in parked cars with headlights burning.

In Texas and Oklahoma yesterday's storm was not so severe as one two weeks ago that centered over the Panhandle regions of those two states. However, visibility for a time was reduced to three city blocks at Guymon, Okla. The clouds billowed high in the sky above Amarillo, Texas.

Hagood said he was "not familiar with the various pockets in which Uncle Sam keeps his money" but understood that "there is budget money, which is very hard to get; there is PWA money which is not so hard to get; and then there is a vast quantity of WPA money which is very easy to get for trifling projects but almost impossible to get for anything worth while."

The general said he called WPA funds "stage money" because "you can pass it around but you can not get anything out of it in the end."

Harder To Get Pencil

"It is harder for me to get 5 cents to buy a lead pencil than to get a thousand dollars to teach hobbies to CCC boys," he testified. "Under WPA I can get $200 to build a gravel walk to the garden house but I can not get $10 to repair a 'busted' steam pipe."

A native of Orangeburg, S. C., Hagood, who holds one of the most distinguished service records in the army, has been in command of the Eighth Corps area since Oct. 4, 1935.

He holds the American Distinguished Service medal, the French Legion of Honor and the order of the Crown of Italy, all awarded him for his services during the World war, in which for a while he commanded the 7th regiment of the first expeditionary brigade of the coast artillery corps.

He lacks a little more than 1 year of having reached the statutory retirement age of 64.

FILMS SHOW TOP ROW INTERFERED

LOS ANGGELES, Feb. 24 (AP)—Motion pictures showed today that Top Row, winner of $104,600 in the Santa Anita handicap, interfered with Time Supply, Rosemont, Azucar and Whopper, his contenders in the furious stretch drive for the richest prize of the American turf.

The little horse, claimed for $3,500 two years ago by A. A. Baroni, won the classic Saturday by a half a length margin over Time Supply. Rosemont finished another half a length behind in third place, while the same distance back was Azucar, winner of the $100,000 handicap in 1935.

Jockey Tommy Luther on Time Supply claimed a foul, but the stewards threw it out, possibly because there was so much bumping around from the very start.

The movies showed that Top Row moved over in front of the field after rounding the last turn, and in so doing bumped Time Supply, Whopper, Azucar and Rosemont, or sent one bumping against the other.

A few strides further on, Top Row lugged in on Time Supply.

FIVE ARE TREATED AFTER ACCIDENTS

As a result of separate automobile accidents in this vicinity Sunday five persons were treated in hospitals here, two remaining for observation today.

Suffering of a comminuted fracture of the right thigh, Edwin Richards, 17, of Anton was most seriously injured. He was in West Texas hospital. Richards is a son of H. G. Richards, editor of the Anton News. The young man and three others were hurt when an automobile in which they were riding struck sand and overturned. Two other occupants of the machine were uninjured.

Identical injuries—fractured left collar bones and bruises on the same side of the head—were suffered by 16-year-old twins, Mary and Virginia McGowen, daughters of J. E. McGowen of Anton. They were dismissed after treatment at the hospital.

Juanita Miller, 14, also of Anton was treated in Lubbock sanitarium for bruises.

In another mishap, Mrs. J. C. Blocker of Tulia suffered a fractured collar bone in a mishap between Tulia and Amarillo. She was received at Lubbock sanitarium about 7:45 p. m.

APPROPRIATIONS

(Continued From Page One)

been approved previously by congress.

The principal provision for using unspent balances, which otherwise would revert to the treasury, was $17,500,000 for elimination of diseased cattle work — the amount requested in the budget.

Chiefly accounting for the measure's total increase over this year's funds was inclusion of the soil conservation service for the first time as a regular item under the agriculture department. The committee cut the $27,500,000 budget estimate to $22,469,265.

It is under this law that the substitute AAA program is being set up.

After a fight, the committee overrode the budget and wrote in an authorization for making $125,000,000 of road contracts in the 1937 fiscal year pursuant to the Hayden-Cartwright act. The budget had recommended that this authorization be postponed a year. For federal-aid roads outright, the bill carried the $80,000,000 recommended by the budget, and $7,062,600 for forest roads and trails — a $917,400 cut under the budget for the latter work.

A number of out-of-town agricultural workers are expected here for the services.

Elders And Deacons Are Named Sunday

A group of six elders and six deacons, to serve for three years each beginning April 1, 1936, were named Sunday at a congregational meeting of the First Presbyterian church. Meeting was held following the morning service and Dean James M. Gordon was selected moderator and L. C. Ellis, clerk.

S. T. Cummings, W. T. Hester, Dr. Bradford Knapp, A. H Leidigh and J. W. Wilson were reelected and J. W. Betts named to take the place of T. H. Ellis on the board of deacons. C. C. Bruner, H. A. Davidson, George W. Dupree, R. D. Moxley and Clarence Symes were reelected deacons and V. L. Doughtie was named in place of J. J. Clements.

A nominating committee, S. C. Wilson, chairman; N. H. Wright and Dr. C. C. Schmidt made a report on nominations, which was adopted unanimously.

MISSIONARY HERE TO GIVE LECTURES

Rev. Joe Henderson, missionary for the Church of the Four-Square Gospel back after a five year stay among natives in the Belgian Congo, Africa, will give illustrated lectures here tonight and tomorrow night at the local church, 1010 Avenue Q. Rev. Floyd Dawson, pastor, announced this morning.

Mr. Henderson's program will begin at 7:30 o'clock on both evenings.

The missionary, whose home is in Los Angeles, is spending this year in lecture work and in translating the four great books of the Gospel into the language of the 100,000 members of the Basala Mpusa tribe, many of whom still cling to cannibalism. His lecture tonight, and the 75 slides he will show, will bear upon the customs and daily life of the natives.

HAUPTMANN CASE

(Continued From Page One)

press from the public certain important information concerning the Hauptmann case and my interest in it from the standpoint of seeing that final and complete justice is done in the matter," the governor said. "I wish to make this further statement in connection with Millard Whited:

Records Show

"I did not question this man upon whose identification Hauptmann was brought back from the Bronx to stand trial in New Jersey because I thought he was not telling the truth, but because the printed and written record shows that he was lying.

"On April 26th, 1932, he gave to the state police a signed statement in which he said that he had never seen any cars or suspicious persons in the woods nor in the vicinity of the Lindbergh home. His next signed statement is dated October 6th, 1934, when after having been repeatedly shown photographs of Hauptmann by Corporal Wolf of the state police, and having been promised payment and a part of the reward, he went to the Bronx county jail and identified Hauptmann as a man he had seen twice in the vicinity of the Lindbergh home prior to March 1st, 1932."

Has Both Statements

The governor said he had both signed statements in his possession. On Saturday he issued photostatic copies of the April 26, 1932, statement.

"The 'alibi boys' may try to laugh this off but if these records and the wide discrepancy in the testimony given by Whited at the Flemington trial are not significant," he said, "then I do not know just what is important in this case."

Purposely Lied

Prosecutor Anthony M. Hauck, jr., of Hunterdon county, who was present when Whited was questioned Saturday, explained that Whited had purposely lied to the two detectives who questioned him in 1932 because he did not know them and his suspicious nature moved him to tell untruths.

There was apparently no written record of Whited's report to Lindbergh but Hauck said he and other prosecution officials had been apprised of Whited's statement to Lindbergh long before the trial. He said there was no necessity of calling Colonel Lindbergh back from England to confirm the statement.

Plans Another Visit

A report that Governor Hoffman plans to make another death house visit to Hauptmann and possibly reprieve him at the last minute spurred prosecution officials into renewed action today.

Attorney General David T. Wilentz, who headed the prosecution staff at the Flemington trial, planned to leave Miami, Fla., where he has been vacationing, for Trenton today.

To Call Conference

On his arrival he will call a conference to his staff to prepare answers to the governor's doubts that the kidnap-slaying was a one-man job.

The governor's second death house visit, prosecution sources heard, would take place shortly before the day set for the execution. The governor, these sources said, would talk to Hauptmann, tell him, as Samuel S. Leibowitz, New York attorney, told him last week, that his case is hopeless, and that all legal resources have been exhausted.

Then, if Hauptmann fails to change his claim of innocence, the reports said, the governor would leave him alone, but would return shortly before the scheduled hour of execution.

With Hauptmann by that time believing that death in the electric chair was only a few minutes away, the chance of a confession might be increased. But under those circumstances, if Hauptmann still clung to his story, the governor would be in a position to reprieve him again.

Eden Cheered Giving England's Attitude

LONDON, Feb. 24. (AP)—The house of commons cheered Anthony Eden, foreign secretary, today when he assured its members that Great Britain's attitude toward the Italo-Ethiopian war was based solely on its duties as a member of the League of Nations.

The British policy, said the young statesman, "has been inspired by no selfish or ulterior motives but solely by the consideration of the duties incumbent upon the government as a member of the League of Nations and a wholehearted supporter of the doctrine of collective security."

COUNTY HOME IS PROBED

COURT OF INQUIRY IN HOME'S MANAGEMENT IS BEING HELD

A court of inquiry into the management of Lubbock County Old Folks home was begun in county court this morning before commissioners and Judge E. L. Pitts. Complaints had been registered on mistreatment at the home.

Six witnesses, residents and former residents of the home and visitors, were called for statements during the morning session of the court, which adjourned at 12 o'clock. The hearing was started at 10:30 o'clock.

Levens Assisting

County Attorney Jess Levens was assisting the court in obtaining the testimony, being recorded for consideration of the commissioners who are acting as a jury.

About 20 persons were sworn in as testifiers.

Taking the stand during the morning were E. M. Ware, J. H. Edgar, Mrs. L. D. Jarvis, who have lived in the home; and Mrs. W. L. Brady, Rev. Mrs. R. M. Walker and Mrs. C. W. Wilson, who have visited in the home.

Five Reside There

Mr. and Mrs. W. S. McDonald, caretakers since the home was established nearly four years ago, were present. Five aged persons now reside there.

Preceding the inquiry, county commissioners in their semi-monthly meeting appointed a jury of view, deemed necessary in obtaining a 100 foot right-of-way on a new road to Slide from highway 9 west. The present 40-foot right-of-way along the road is insufficient to meet requirements of the state highway department in constructing an all-weather route, which will be turned over to the county for maintenance.

W. M. Ross, Henry Mahoney and Douglas Pounds were selected for the jury.

A transfer of $5,000 from the general to officers' salary fund was voted by the commissioners to meet the payroll for February.

A. & M. Dean Speaks

Cotton, corn, wheat, alfalfa, oats and grain sorghums are now under state certification, with Irish potatoes, broom corn, onions and tomatoes projected. The latter are just being started.

Dean F. E. Humbert, College Station, chairman of the board, also spoke, discussing breeding of wheat, corn, cotton and other seeds. He told of experimental work by the state experiment station and its sub-stations throughout the state.

The Lubbock station has done more work with development of grain sorghums than any other station, he said.

Other speakers on the day's program were to include: Dr. A. W. Young, Prof. C. V. Russell and Prof. O. B. Howell, division of agriculture faculty; Don L. Jones, Lubbock experiment sub-station superintendent; John Seiglinger, Woodward, Okla., U. S. dry land experiment station agronomist and H. M. Balner, Amarillo, Santa Fe agricultural agent.

Mrs. Neal To Be Buried In Memphis

Burial services will be held in Memphis, Tenn., Tuesday for Mrs. E. C. Neal, 53, of near Wolfforth, who died of pneumonia Saturday morning at a clinic in Lubbock. She had resided on route 5, Wolfforth for the past six years.

Funeral services here were read at 2:30 o'clock Sunday afternoon at Broadway Church of Christ with Elder John T. Smith officiating. Her body was shipped to Memphis, Tenn., by Sanders Funeral home.

Survivors are her husband, reported seriously ill of pneumonia at his home; two sons, Clarence and Earl, at home; and two daughters, Mrs. T. F. Gegan and Mrs. James Anderson, of Memphis, Tenn.

Children Available For Adoption Here

Would you care to adopt a boy or "borrow" a little girl? If so, won't you get in touch with Mrs. W. T. Milam at Opportunity Home, telephone 2107.

A 12-year-old boy and an eighteen-months-old boy are available for adoption.

Three girls, six-year-old twins and a 4-year-old, are the children of a working mother, who wishes to place them in homes during the rest of the winter, Mrs. Milam said.

She is anxious to get the children placed before the group moves to a new home this week.

OWENS RETURNS TO CROSBY RING

CROSBYTON, Feb. 24 (Special)—Marlin Owens, most popular boxer now active in these parts, returns to the Crosbyton arena tonight after a month's absence to fight a main event on the American Legion's card.

Owens, formerly of Wichita Falls, now of Anton, is to meet Sammy Matlock, well known scrapper from Breckenridge, who has battled some of the best in the state. Among his victories is a decision over the veteran Duke Trammel.

Son Smyers, the Lorenzo smasher, meets Frank Keothe, a newcomer from Anadarko, Oklahoma, in the 8-round semi-final match. Keothe is said to have a hammerlock on the lightweight championship of the Sooner state.

Jack Owens, younger brother of Marlin, fights The Lorenzo Kid in the 6-round preliminary.

His Army Broken By Italian Drive

The crushing advance of General Graziani's "Hell on Wheels" army, motorized battalions, which carried the invaders almost half way from Dolo to Ethiopia's capital, Addis Abba, was reported to have broken the backbone of the army of Ras Desta Demtu, left, Emperor Haile Selassie's son-in-law and southern commander. The map shows how two Italian columns are advancing from the south; one having reached Wadara after sweeping through Noghelli. Ras Desta Demtu's concentration point and the only place for which he had a real affection; and the other pushing westward along Kenya. Conquered territory remained a "No Man's Land" as trapped Ethiopians tried to fight their way back to their lines.

TEAL FUNERAL IS HELD ON SUNDAY

Funeral services for Thomas Jefferson Teal, 75, were held at Sanders Funeral chapel Sunday afternoon at 1:30 o'clock with Rev. R. C. Campbell, pastor of First Baptist church, officiating. Burial was in Lubbock cemetery.

Mr. Teal, of 1906 Fifteenth street, died of a six-months illness at 11 o'clock Saturday morning at his residence. He is survived by six sons: J. M. of Crowell, Will of Burkburnett and John, T., Roy and Loyd Teal of Lubbock.

BLACK-DRAUGHT

Next Time You Need a Laxative

For constipation, take a dose of Black-Draught as soon as you realize the condition you are in.

"If I am bilious, have headache or a cold, I take a dose of Black-Draught at night," writes Mrs. R. D. Thaxton, of Lexington, Ga. "If I have a bad feeling after meals, I take just a pinch of Black-Draught. It relieves me. I recommend it very highly—a good family medicine. I give my children Syrup of Black-Draught. I find both good."

Black-Draught paves the way for the relief of many such symptoms as those mentioned above, when constipation is at the bottom of the trouble.

Just try it! Follow the directions carefully and you'll probably learn why Black-Draught is so popular.

Raising Guineas Is Woman's Pastime

(By Staff Correspondent)

SEAGRAVES, Feb. 24—Raising guineas is a popular pastime for Mrs. L. E. Lohman, who resides near here and who has one of the few flocks in this section of the county.

Mrs. Lohman said she first began raising them when she and Mr. Lohman were ranching down in Schleicher county. She kept them for many years. "My ambition was to have a flock of 40 hens," she said. "We finally got up to about 85 birds one year, with 55 of trem hens. We leased the ranch and left them with the man. He put out some poisoned grain for prairie dogs and we lost all but about 25 that year."

Mrs. Lohman has about six or eight pullets from last year and two old roosters, besides some hens. They will begin laying soon, she said and lay all summer and until late in the fall.

"Pigmy" whales are larger than any mammal, except normal-sized whales. They reach a length of about 20 feet and are found in the seas off New Zealand, Australia, and South America.

SPURT IN HOME BUILDING LAST YEAR IS REPORTED; NEW PLAN IS OFFERED

(By The Associated Press)

WASHINGTON, Feb. 24 — A labor department report of a 170 per cent spurt in home building last year coincided with an announcement that the Housting administration was searching for construction methods through which low income groups could buy homes for $1,800.

New homes were provided for more than 75,000 families during 1935, the labor department said, adding that the number of all new buildings started last year was 28 per cent over 1934. The cost was 70.3 per cent higher.

"Cheaper Than Rent"

Stewart McDonald, the housing administrator, seeking to provide homes on which loan payments would be "cheaper than rent," said the FHA has been working on methods of cutting building costs for several months.

Plans are being drafted, he added, for homes costing around $1,800 containing two bedrooms, living room, bathroom and kitchen, together with heating and electric wiring systems.

Persons with incomes as low as $800 a year might buy such houses, through long-term amortized mortgages, the administrator said. He added the homes would be of frame construction and that first plans for them might be completed within two months.

Sales Increased During January

AUSTIN, Feb. 24 (AP)—The University of Texas bureau of business research reported today that January department sales were over those of a year ago.

Reports from 83 establishments showed an increase of 11.8 per cent over January, 1935. The drop from December, however, was 53 per cent compared with an average seasonal decline of 51.8 per cent.

Cities with increases greater than the state average were Waco, San Antonio, Lubbock, Galveston, Dallas, Corsicana, Beaumont and Austin.

Credit sales gained in ratio to net sales by two per cent and the ratio of collections to outstanding accounts by approximately the same amount.

WICHITA, DALLAS WIN IN BOWLING

DALLAS, Feb. 24 (AP)—A two-man team from Wichita Falls and a Dallas hook ball artist held the honors in Southwest bowling today.

M. Strother and L. Riesen of Wichita Falls hung up a new southwest tournament record of 1,324 as the twelfth annual Southwest Bowling championships ended here yesterday.

Strother shot 648 and Riesen 676.

John Sommers, Dallas star, took the all events title with 1,919. He tied for the singles championship with Bud Tierney, Kansas City, at 683; collected a 629 in the team event and got a 607 in the doubles.

He replaces B. Drees, Kansas City, last year champion.

The 1937 tournament was awarded Wichita, Kas.

POSSIBILITY OF REAL EXISTENCE OF HYPOTHETICAL "ETHER" IS ADVANCED

BY HOWARD W. BLAKESLEE
Associated Press Science Editor

NEW YORK, Feb. 24 (AP)—The possibility of real existence of the hypothetical "ether," an invisible medium filling all space, has been revived by some new mathematical calculations presented to the American Physical society.

W. B. Cartmell, of the University of Montreal, showed computations that the formula by which existence of "ether" has been ruled out may be in error.

Go Back To 1884

His calculations go back to the great experiment begun in 1884 by Michelson and Morley, which was taken by Einstein and most other scientists as proving there was no ether. These two measured the "ether drift."

Michelson and Morley set up an interferometer, a cross, at whose center a beam of light was split, so that half of it traveled at right angles to the other half out to ends of the cross bars. These split beams were reflected back. At the point where they reunited they should show "fringes" of color, if there was a difference in their velocity in one direction as compared with the other.

There Was A Difference

There was a difference. But it was far less than expected. So much less that the experiment was adjudged as showing no ether existed.

Dr. Dayton C. Miller, of the Case School of Applied Science, has been science's Doubting Thomas for 25 years, repeating this experiment to show that the tiny effect obtained was nevertheless real.

formed by supporters of William H. Murray when he was candidate for governor in 1928.

"They are thrifty people and good farmers, just the class of people Oklahoma needs and wants," the doctor said. "We would have no trouble, I believe, in locating the right amount and right type of land they want."

FIREMEN'S BALL TO BE TUESDAY

Milton Brown and his Musical Fr[illegible]nies, all eight of them, will be in Lubbock Tuesday night with a large number of the 30 instruments the group is accredited to have mastered, and will play for a Fireman's ball to begin at the Auditorium at 9 o'clock.

Approximately 300 tickets have been sold and persons from as far away as Clovis, Big Spring, Spur and Brownfield have made reservations, said Cecil Casey, assistant fire chief and chairman of an arrangements committee otherwise composed of Glen Smith and John Nugent.

The Brownies, daily heard over WBAP at Fort Worth, have become known as the "most traveled orchestra in Texas," playing from five to six dances a week and traveling as far away from the Tarrant city as Sweetwater, Wichita Falls, Waco, and Marshall.

The director has copyrighted several songs he has composed, songs familiar to radio listeners and will sing them here. His wife likely will be featured in torch numbers.

Firemen will have the Auditorium decorated by Ribble's, and proceeds will go to a benefit fund used for firemen to repair toys at Christmas for underprivileged children.

Mennonites Invited To Oklahoma Area

TULSA, Okla., Feb. 24 (AP)—An invitation for Mennonites in Mexico to consider Oklahoma in their search for a new home has been sent to the leader, Rev. Abram Dyck, Chihuahua, Mexico, h. Dr. T. W. Stallings, Tulsa physician.

"If you consider moving we will attempt to designate locations that will meet colonistic demands religiously, educationally and agriculturally," the message read.

Doctor Stallings signed his name as state commander of the Minute Men of Oklahoma, an organization

A FARMER WRITES AN "AD" ABOUT DOUBLE-MELLOW OLD GOLDS!

Scio, New York
November 16, 1935.

P. Lorillard Company, Inc.,
119 West 40th Street,
New York City, N.Y.

Gentlemen:

I am an old man who knows what he likes. A hill farmer is a stubborn cuss, and when he takes to cigarettes when he's well gone by 60 years, he has good reasons for wanting those cigarettes. And for some time now I haven't touched any smoking but OLD GOLDS.

My brother's son got me on cigarettes, but the ones he gave me seemed too quick-burning. One day our general storekeeper stood me one of those Double-Mellow OLD GOLDS, made of prize crop tobaccos. And I had my first cigarette that burnt as slow and cool as my pipe, and that didn't leave a man's tongue stinging and biting like that other cigarette brand.

I've bought Double-Mellow OLD GOLDS ever since, and every pack has been the same. I know, because I'm blind, and we without eyes learn to taste and feel better than you who see.

Yours truly,

Jerry Hurley

P.S. My 16 year old niece, Betty, has typed this for me, just as I told it to her. The snapshot was taken by Betty's father.

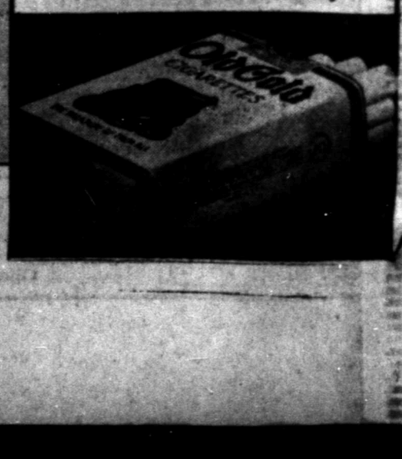

Snapshot of Jerry Hurley taken last Fall by his brother John. Jerry's farm is located on a mountainside, 8 miles from Wellsville, N.Y. (Post Office, Scio.)

DOUBLE-MONEY-BACK OFFER

as made to smokers since Oct. 6, 1935

TAKE a sporting chance on a pack of Double-Mellow Old Golds. Smoke ten of the cigarettes. If you don't say they're the finest you've ever tasted, mail the package wrapper and the remaining ten cigarettes to us, any time before May 1st, 1936, and we'll send you double the price you paid for the full package, plus postage.
