LYNN COUNTY—THE HEART OF THE SOUTH PLAINS —THE HOME OF KING COTTON

VOLUME XX

TAHOKA, LYNN COUNTY, TEXAS THURSDAY, AUGUST 14, 1924

NUMBER 50

725,332 Votes Cast In Election

**Mrs. Ferguson Leads Lynch Davidson by 5,216 Votes
In Final Count**

DALLAS, Aug. 11.—Mrs. Miriam A. Ferguson of Temple Texas, first woman gubernatorial candidate was assigned a place in the second Democratic primary August 23, with Felix D. Robertson of Dallas as her opponent, when the official tabulation of the returns from the July 26 primary was completed here late today by the State Democratic executive committee Mrs. Ferguson's plurality over Lynch Davidson of Houston was 5,216 votes.

The vote was canvassed at the end of a strenuous day on the part of the committee members when lawyers, tradesmen and others became clerks for the day.

The tabulation did not differ materially from the recent total vote announced by the Texas Election Bureau, and the slate for the second primary already announced was sustained. The vote disclosed that S. M. N. Marrs, unopposed candidate for superintendent of public instruction held the largest vote with a total of 725,332.

The committee before adjourning authorized Frank C. Davis of San Antonio, the chairman, who presided today, to appoint a special committee of five to arrange for the temporary organization of the state convention to be held in Austin in September Compensation of \$3,000 for Joe Hale of Waco, the secretary for his work for the committee during the past two years was authorized.

The official vote in the July 26 primary as canvassed and approved by the committee follows:

United States Senator: Sheppard 440,511; Davis 159,663; Maddox 80,070.

Governor: Robertson 193,508; Ferguson 146,424; L. Davidson 141,208; Whit Davidson 125,011; Barton 29,217; Burkett 21,720; Collins 24,846; Pope 17,136; Dixon 4,035.

Lieut. Governor: Miller 235,667; Edwards 231,074; McCall 115,837; Malone 72,894.

Attorney General: Moody 315,107; Ward 124,927; Wall 105,036; Melson 96,979.

Treasurer: C. V. Terrell, 719,567. Comptroller: S. H. Terrell 180,030. Baker 125,944; Bell 115,235; Moulden 98,874; A. J. Smith 75,258; Don F. Smith 59,068.

Superintendent of public instruction: Marrs 725,332.

Commissioner of Agriculture: Geo. B. Terrell 358,849; Sparkman 275,904.

Commissioner of the general land office: Robison 321,001; Sargent 143,932; Binkley 115,768.

Railroad commissioner, 6 year term: G more 283,498; Weaver 187,624; Mason 147,833.

Four year term: Lon A. Smith 243,989; Nabors 188,172; Speer 103,363; West 92,585. Two year term, Splawn 704,374.

Chief justice of the supreme court Cureton 269,705; Wear 203,548; Buck 185,271.

Associate justice of the court of criminal appeals: Lattimore 75,123.

**FIRE TRUCK CALLED TO
REDWINE HOME TUESDAY**

The fire truck was called to the F. E. Redwine home in the northwest part of town last Tuesday afternoon when a fire broke out in one of the bed rooms of that home. No serious damage was done to the home. The fire started from an electric iron, and damage was done to a mattress and a dresser in the room.

A large crowd was in town for a week day, and the sounding of the alarm caused considerable excitement for the time.

**BOVELL AND WEAVER
BUILDING IS FINISHED**

The building owned by T. J. Bovell and Frank Weaver, which has been remodeled and added to is almost completed. The building is one of the best looking of its kind in the town.

The Lynn County Insurance Agency and Stricklin's Barber Shop will occupy the addition and the Tahoka Service Station will remain in its same place as formerly.

OKLAHOMA MAN HOLDING MEETING AT REDWINE

Rev. W. S. Evans, of Oklahoma City, assisted by the pastor, Rev. J. W. Braswell, of Lamesa is holding a Baptist meeting at the Baptist church at Redwine. The meeting started last Saturday night. The length of the meeting has not yet been decided upon. Excellent services are being reported.

House Burns In New Home Community

The farm home of Mr. J. B. Lewis in the New Home community, northwest of town, was burned last Friday morning. The origin of the fire is not known. The home was insured for \$1,500, however the insurance did not come anywhere near to covering the loss.

The fire was detected by Mrs. Lewis soon after it started, and a daughter was sent to the field after Mr. Lewis who was plowing. Before he could get to the house the fire was beyond control. The fire started between the walls. Mr. Lewis expects to replace the house with a nice stucco home.

WILDCATS HAVE GOOD SCHEDULE COMING SEASON

ABILENE, Aug. 12.—Abilene Christian College is now a member of the Texas Inter-Collegiate Athletic Association and her teams next year will compete with teams from other members of the Association. A strong schedule has been worked out, and the new Wildcat mentor, A. B. Morris, expects some likely looking material to show up early this season from among the incoming former high school stars as well as from some of the old-timers on the football squad.

The past year will long be remembered by friends of the college as the greatest in the history of Abilene Christian College football. Beginning with a crushing defeat over the Meridian College team at the West Texas Fair on September 27th, by a score of 35 to 0, and piling victory on victory through the season, the only defeat came in the last game of the season with John Tarleton. Last year's team played Texas Military College, Wayland College, Clarendon College, and the University of Dallas.

The following schedule has been arranged for the coming season; with two dates yet to be filled:

Sept. 25—Clarendon College, Abilene.

Oct. 3 or 10—Texas Military College at Abilene.

Oct. 17—North Texas Agricultural College at Abilene.

Oct. 24—East Texas Normal College at Commerce.

Nov. 3—Canyon Normal at Plainview.

Nov. 21—Trinity University at Waxahachie.

Nov. 27—Daniel Baker College at Abilene.

**433 STUDENTS ENROLL
FOR SUMMER TERM**

ABILENE, Aug. 12.—A total of 433 students enrolled in what is considered the most successful summer session ever held at Simmons College during this summer. The summer school will come to a close on August 19. Examinations will begin on Saturday, August 16, and will continue through the following two school days, Monday and Tuesday.

Approximately 380 of the students enrolled during the summer were in the college department. About 25 boys were enrolled for courses at Simmons this summer the great majority of the summer students being girls.

**CLUBS TO HOLD FOOD SALE
TO DEFRAY EXPENSES**

The Boys' and Girls Clubs expect to defray the expenses of their representatives to the Dallas Fair this fall by holding a food sale on the one west side of the square Saturday, August 23rd.

The boys and girls of the club who do the best year's work will win a free trip to the annual encampment of Texas clubs which is held at the Fair. Two girls and three or four boys will be entitled to go to Dallas.

J. B. Nance, the Land Man, has returned from Plainview and Amarillo.

Big Still Found; Arrest Is Made

**H. Jolley Is Arrested and Put In
County Jail; Officers Take 14
Quarts Of Whiskey**

H. Jolley, farmer, is in the Lynn County Jail with four bills against him for bootlegging corn whiskey as a result of his having dealt with the forbidden intoxicant too freely.

The arrest of Jolley was made at his home several miles south of Tahoka late last Monday night by Sheriff S. W. Sanford and Deputy Sheriff [Marshall Simpson]. Fourteen quarts of whiskey was also taken. Jolley was immediately brought to town and placed in jail and four bills were filed against him.

On Tuesday morning the search for the still was resumed, and upon prizing up the floor of Mr. Jolley's residence there was found a cellar in which was the mash barrels and other vessels used in mixing the mash. Not being yet fully satisfied, Messrs. Sanford and Simpson went back Wednesday and after several hours of searching Mr. Simpson decided to take a look under a tenant house on the place, which showed no signs of having any in-let under it, but prizing up the steps he found a nice cellar under it also. This cellar contained the still, coil, and a few other things instrumental in the making of the valuable "corn".

Officers had suspected the accused for some time prior to his arrest but only were waiting for a good opportunity to procure sufficient evidence on which to act.

Jolley will likely be tried during the present term of court.

PLAINS GINNERS WILL MEET AUG. 16 AT LUBBOCK

LUBBOCK, Aug. 8.—The South Plains Ginner's Association will hold its regular annual meeting in Lubbock the 16th of this month and advance reports indicate an attendance of more than 100 ginnermen, as against less than 25 three years ago.

Twenty-five new ginnermen were completed in this territory last year and as many new ginnermen are reported to be under construction over the territory at this time. Several communities are asking for ginnermen for the coming fall.

From 86 bales in 1903, all of which was hauled an average of 89 miles to gin, to 153,000 bales in 1923 is a far cry, but is only indicative of what is to come, according to the cotton experts who have studied the Plains country.

"Within ten years more cotton will be grown within 100 miles of Lubbock, Texas, than is grown in all Texas," was Dr. Hunter's estimate of conditions as found here during a visit two years ago. His prediction has started toward realization with an increase of over 70 per cent in bales ginned last year over the previous year. A like increase is certain this year unless some unforeseen calamity develops.

The ginnermen will be entertained by the cotton oil mill, compress, cotton exchange and gin men of the city.

YOUNG PEOPLE ENJOY PICNIC AT SANDHILL

On Monday evening a large crowd of the younger set enjoyed an outing and picnic at the sandhill just northeast of town, in honor of Misses Mildred and Juanita Adair, of Breckenridge. They were chaperoned by Mesdames H. C. Crie and Witt. A most enjoyable time is reported.

GLEE CLUB COMING

The Orphanage Glee Club from the Methodist Home at Waco is expected to be here on Wednesday, September 3rd, and will render a program at the Methodist Church. The Glee Club is composed of twenty-five people.

OPENS FILLING STATION

The new brick drive-in filling station on the northeast corner of the square, which H. B. Howell has just had built, opened for business for the first time last Saturday. The station is one of the most modern to be found anywhere in this section. I. S. Stewart is the manager of the new station.

School Ready For Fall Term

**Eighteen Instructors Will Constitute
Teaching Force For
Year 1924-25**

The faculty for the coming school year of the Tahoka public schools has been completed and repairs on the building have been made preparatory to the opening of school. According to Superintendent H. P. Caveness, school will probably open on September 8th, however the date has not been definitely decided upon. Heretofore, the opening date has been on the first Monday in September, but this year it will probably be put off a week.

A faculty of eighteen trained men and women will be ready to take charge of the school. The faculty is probably one of the strongest the Tahoka schools have ever had, and there seems to be no reason why the school should not enjoy its most successful session, although many rooms will be crowded due to the increase in number of students.

The remodeling of the roof on the high school building and the addition to the South Ward school has been completed, and both buildings are practically ready for occupancy. Repairs are being made at the present time on the windows, the blackboards, etc.

BUFFALOES WILL HAVE GYMNASIUM TO COST \$10,000

CANYON, Aug. 12.—The West Texas State Teachers College is to have a new \$18,000 gymnasium so constructed that it will accommodate large crowds for the basketball games played here each winter. The athletic council met here this afternoon and decided to build a gymnasium building 104 by 90 feet to cost approximately \$18,000. The building will be erected just south of the old grandstand.

The Buffaloes won the basketball championship of the T. I. A. A. last season and expect to be strong contenders in the race this winter. A gymnasium has been one of the needs of the local school and the new building will be ready for use by December 25.

The athletic council is composed of D. A. Shirley, R. A. Terrell, T. B. McCarter, S. D. Burton and Dr. J. A. Hill.

PARKE N. DALTON WINS BY MORE THAN 2500

Parke N. Dalton won in the District Attorney's race by more than 2500 votes, according to the returns received here. Some of the small boxes have not yet been heard from but the returns indicate that his majority will be something like 2500.

Mr. Dalton is a worthy young man and we predict that there will be greater things in store for him as the years go by.

—Crosbyton Review

SULLIVAN REMODELS OLD BUILDING

The old Serve-U-Garage, recently purchased by A. M. Sullivan, has been converted into a drive-in filling station and other remodeling work done. The new manager has changed the name of the garage to the Sullivan Auto Supply Company.

HAVING GOOD MEETING

According to reports, Rev. J. T. Howell, pastor of the Methodist Church is having a good meeting in the Dixie community. Bro. Howell has been having good crowds, and much interest is being shown. In all probability the meeting will close next Sunday night.

TO HOLD CONFERENCE

The Fourth Quarterly Conference will be held at the Methodist Church in Tahoka on Sunday, August 24. The conference will be held following the eleven o'clock service. It is desired that all the members of the Church be present at this Conference.

Clifford Dixon, manager of the C. L. Dixon Insurance Agency in Tahoka, has sold his residence on east Lockwood st., consideration \$1800.00. It is understood Mr. Dixon will erect a modern home elsewhere in the city.

SHOWERS FALL OVER COUNTY LAST SATURDAY NIGHT

Several good showers of rain fell in various sections of the county last Saturday afternoon and night. The Brownfield country got rains both Friday and Saturday nights. One inch of rain fell in the Grassland community Saturday night and for some distance this way. Also a heavy rain fell east of O'Donnell Saturday afternoon.

Local Merchants Married Tuesday

D. W. Gagnat and Mrs. Viola McCormack Squires, both of the McCormack Hardware Company of Tahoka, were quietly married by Judge I. P. Metcalf last Tuesday night at about 10:00 o'clock. The ceremony took place at Judge Metcalf's home.

Mrs. Gagnat is a daughter of Mrs. H. M. McCormack of this city, and was practically reared here. For some time she has been manager of the McCormack Hardware Store. She is very well known in Tahoka and over the country.

Mr. Gagnat has also been connected with the same hardware company, as well as having other business interests in the town. He began his work with the store about a year ago when he first came here. Though he has been here only a short time, he is likewise well known.

The couple left Tahoka immediately for a ten day's honeymoon trip, after which they will return here to make their home.

The News and the many friends in this section wish for the couple all the happiness and prosperity possible.

YOUNG METHODIST LADIES ORGANIZE WORKERS CLUB

The young ladies of the Methodist Church organized a Workers Club last Wednesday afternoon, August 6, at the Church building. Mrs. C. H. Cain called the meeting and put the plans before the women. The purpose of the club will be to work for the benefit of the Church and of the women of Tahoka.

A round-table discussion was held and each woman told of the good work she thought the organization could do. Twelve ladies were present at this first meeting. Officers were to have been elected at the meeting yesterday, which was held at 4 o'clock.

All the young ladies of the Church are requested to come to the next meeting of the Club and to bring another young lady with her.—One Present.

THOMPSON MAKES SALES

A land sale was consummated between a Mr. Bates of Clyde, Callahan county, and Buck Briley this week by the Thompson Land Company whereby Mr. Bates becomes the owner of 320 acres of land nine miles south of Tahoka. The consideration was \$14,400. Mr. Bates will make his home in Tahoka.

Thompson also sold 354 acres of land at Littlefield to Vest and Bass of Malone, Hill County, and 195 acres at Littlefield to L. F. Ferguson of Austin at a consideration of \$7,410.

NAZARENES HOLDING MEET- ING NEAR SOUTH WARD

A protracted meeting is being held by the local Nazarenes in a tabernacle one mile north of South Ward school house. "Happy Doctor" Givins and his wife are conducting the meeting. The meeting started last Friday night and will continue until Sunday night and possibly longer. Large crowds have been attending the services, and much interest is being manifested.

DAVIS-HAMBLIN

Miss Dorothy Davis, of Tahoka, was united in marriage to Mr. Aulton Hamblin, of Palmer, Texas, at the Methodist parsonage last Thursday afternoon, August 7th, Rev. J. T. Howell. The young couple left immediately after the ceremony for Palmer, where they will make their home.

Mrs. Hamblin is the daughter of Mr. and Mrs. O. B. Davis, who formerly lived at Palmer, where the romance began.

District Court Opened Monday

**Crowley Murder Case Brought Here
For Trial; Court Recessed
Until Wednesday**

District Judge Clark M. Mullican opened the Summer term of District Court Monday morning. The grand jury was empaneled and the cases docketed, and Tuesday afternoon the Judge declared a recess until Tuesday morning of next week, when the criminal docket will be taken up.

The case which will probably attract more interest than any other is the Crowley case which was transferred here from Terry county last week. The case will come to trial Wednesday morning of next week. Crowley is charged with the murder of Alex Hawk at Brownfield on last election day, July 27. The killing was brought about by an election argument.

The Grand Jury is in session this week, with District Attorney Gordon B. McGuire meeting with the jurors.

The following is the docket for this term of court:

Civil Docket

N. C. Hardin et al. vs. A. F. Davies, title and possession.

C. C. Slaughter Co. vs. D. T. Rogers, injunction.

B. R. Tate vs. Ira P. DeLoach, suit on contract.

Alice E. Tidwell vs. B. H. Robinson et al., suit on note and damages.

S. H. Windham et al. vs. William H. Bregg et al., damages.

City of Tahoka vs. P. G. Adams, foreclosure of lien.

City of Tahoka vs. J. H. Pettitt et al.

Clara Ridge vs. John Ridge, divorce.

Ethel Stowe vs. Luther Stowe, divorce.

H. C. Smith vs. W. P. Hamlett et al., damages.

Hazel Alley Mason vs. F. W. Allison, divorce.

Harry V. Stonehill vs. J. I. Bartley and A. C. Brant, try title and for damages.

Marion Moyers vs. A. H. Moyers, individually and as guardian of the estate of Velma Mae Moyers, a minor, and Marie Moyers.

M. L. Henry vs. Geo. Henry et al., title and possession.

Ex parte application of J. D. Fairley for removal of disabilities.

Ex parte application of Thelma Waldrip for removal of disabilities.

Criminal Docket

State of Texas vs. Tom Medlin, theft of cattle.

State of Texas vs. Milt Good, Pete Kyle, Allen Holder.

State of Texas vs. Jack Grimes, false swearing.

State of Texas vs. Clyde Rtaliff, felony theft.

State of Texas vs. Clyde Denton, assault to murder.

State of Texas vs. Henry Reed, theft of cattle.

State of Texas vs. Milton Thornhill, assault to murder.

State of Texas vs. Frank Eubanks, gaming.

State of Texas vs. Leonard Bell, charged with murder.

State of Texas vs. Charley Logan, sale of liquor.

LEVELLAND POSTMASTER JAILED AT AMARILLO

AMARILLO, Aug. 9.—B. E. Gunn, 27, postmaster at Levelland, Hockley county, was arranged before United States Commissioner Rollie Scales yesterday afternoon on a charge of misappropriation of postal funds, and after waiving preliminary hearing his bond was set at \$5,000.

Gunn was placed in the Potter county jail until such time as bond can be arranged or him.

Officers state that several thousand dollars are involved in the alleged misappropriation, and that Gunn had made a complete confession.

Gunn is married and has two children. He has been postmaster at Levelland for sometime.

The case will probably come to trial at the fall term of Federal court as Gunn has been bound over to await the action of that Federal grand jury.

TEN MILLIONTH FORD
COMPLETES ITS TRIP

Ford car No. 10,000,000 completed its trans-continental journey July 29th, at one o'clock when it arrived at the Western terminal of the Lincoln Highway, according to a telegram just received by the Ford Motor Company from Frank Kulick, former racing driver, who piloted the car across the continent.

The arrival in San Francisco was auspicious. The car accompanied by a large number of motor cars, bedecked with California's choicest flowers was driven to the City Hall where Mayor James Rolph received a letter from Mayor John Hylan of New York, in the presence of an enthusiastic crowd. It was then driven to the end of the Lincoln Highway where a final greeting was extended by James H. Houghlin, official representative of the Lincoln Highway Association on the West Coast.

This marked the completion of one of the most memorable demonstrations in automotive history.

The Ten-Millionth Ford was started westward across the nation's greatest highway on June 16th, not to prove performance but to commemorate an achievement, and throughout the journey demonstrations, bands and parades marked the progress for nearly every mile of the entire distance. Greetings were extended by officials of every state through which the car passed and all along the route sentiment was freely expressed that to Henry Ford belongs the greatest credit for having brought the benefits of the automobile within the reach of the largest number of people in all walks of life.

Burdened with the responsibility of upholding Ford tradition which has come to mean reliable transportation at the lowest possible cost Ford Car No. 10,000,000, one of approximately 7200 standard cars produced in a single day, performed in characteristic Ford fashion. The entire distance of a little less than 4,000 miles was covered with but one minor adjustment and with absolutely no mechanical difficulty of any nature. Although many hundreds of miles of road particularly through the western states and across the Rocky Mountains are of dirt and gravel formation it is note worthy that this, the lowest priced car built average approximately 110 miles a day for the entire six weeks and was on schedule to the minute in every town visited.

The trans-continental trip of the Ten-Millionth Car has formerly ended but interest remains so keen that the car is now being routed up the Pacific Coast to Portland and Seattle from which point it will be shipped by boat back to San Francisco and then driven over-land to Los Angeles and probably back across the country to Detroit over a Southern route.

Lum Haney of the Tahoka Drug Company has been away from his work the past several days and is seeing the sights in El Paso, Juarez, and the mountains of New Mexico.

POULTRY CULLING

This is the time of year to cull your flocks and begin feeding them for winter eggs. Practically every farm in Lynn County has any where from 25 to 200 hens on it. How many of these hens are paying their way? Do you keep chickens or do they keep you? Think it over.

Mr. Robertson and I would like to give a little time to culling if the people are interested. We wish to cull at least one flock in every community in Lynn county. Will you assist us in making out a schedule for these demonstration in order that all might get the benefit of this work? See or get in touch with us at once as our time is limited in this work.

The following communities have asked for culling demonstrations and these are to be held on the regular club meeting days next month if possible: O'Donnell, Draw, Redwine, Wilson, Morgan, Gordon, and one or two others. Let us know if any one in your community wants a culling demonstration in this month or next.

Yours sincerely,
Mille M. Halsey
County Home Dem. Agent

When the Ark Sailed

Long ago March 17 was known as the anniversary of the date on which Noah and his family entered the ark.

Many hundreds of years ago, before there were theaters in England plays used to be given in front of the churches by the priests who acted out Bible stories. When March 17 came around a very funny play about Noah and his wife was performed. Mrs. Noah was a woman of a hot temper who thought her husband was quite losing his mind by building an ark. She refused flatly to live in it, even when the rain began to fall in torrents. The quarrel between Noah and his wife lasted until the water got so high that the shrieking woman had to jump in the ark at the end to save herself from drowning.

Fell for Three Stories

"Now it's just like I was a-tellin' ye," said a grizzled old Irishman to a group of workmen. "Once when my gang was helpin' put up a skyscraper I fell fer three stories an' it didn't hurt me nary a bit."

Here the stranger who had paused to listen remonstrated. "But how could a person fall for three stories and not be hurt?" he sternly inquired.

"Well," replied the veteran, a twinkle creeping into his eye, "you've already fallen for one, an' I guess fallin' fer two more won't hurt ye."—Everybody's Magazine.

Compromise

There was a rich uncle who wanted the baby named Violet. Aunt Panay had money, too, and intimated that she would not be displeased to have a namesake. Mother wanted to name the child Lily.

It looked a deadlock. But wise old grandpa came forward with a suggestion that practically accommodated everybody. They named the baby Blossom.

Instrument Measures Crops

A measuring instrument for attaching to an automobile by which the linear measurement of fields in various crops bordering on highways can be easily and quickly made has been devised by the United States Department of Agriculture. Successful experiments have been made with the instrument, which will be used in a number of states during the current year.

Fifteen-Ton Meteorite Stolen.

Making away with a red-hot stove has always been thought to be the high-water mark of thievery, but a case even more remarkable is on record where a man made away with a fallen meteorite, or shooting star. This mass of iron weighed more than fifteen tons, and was discovered by a man strolling on woodland near his home. Working at night, he and his fifteen-year-old son managed to unearth the meteorite, load it on a specially constructed stoneboat, and with what lawyers might term the aid and connivance of an ancient horse, to drag it home with the expectation of selling it. But the person on whose land it had fallen, finally learning of what was going on, brought suit and recovered his celestial wail. It may now be seen in the American Museum of Natural History in New York, where it is known as the Willamette meteorite.

Ice Explosions.

A scientist attached to one of the government bureaus, while gathering, with an assistant, certain data on the upper Missouri river in South Dakota, reported a curious phenomenon that sometimes occurs in that region.

It was in December. About noon one day there came to the scientist's ears a heavy report, audible for miles, that led him to remark that a blow-out must have occurred on the river. On returning to the place where he had crossed in the morning he found an irregular hole, covering a space 100 feet square, in the solid ice, which averaged 26 inches in thickness.

The theory is that such blow-outs result from imprisoned air gradually accumulating in a favorable spot, where it is subjected to tremendous pressure by the force of the river current.

Right, Anyhow

There was a worthy public official who had a goodly fund of common sense, but no great amount of book learning. He had never had a chance to acquire the same. Being called upon to address a class gathering, he spoke repeatedly of the university alumnus.

"What does he mean?" whispered one of the audience.

"He means the alumnus." "Well, he knows they are good metal, anyhow."

Interesting Items From O'Donnell

**Help Neighbor Who Loses Home;
Injured in Car Wreck; Bakery
to Open**

(From O'Donnell Index)
The people of Lynn and Dawson counties are the salt of the earth. When their neighbor, G. W. Williams lost his home by fire last week a collection was taken up in O'Donnell by J. E. Roberts which resulted in \$97.00 being given in cash and \$2.65 in groceries. Lamesa citizens gave \$32 cash and a sack of flour and people living in Mr. Williams immediate neighborhood gave about \$36. While the amount given was not great, yet it showed that they were ready to back up their sympathy with more than words.

Frost & Bailey sold 200 acre farm east of town this week to W. S. Venable of Bardwell, at \$40 per acre. Mr. Venable was here the first of the week and looked the place over and had started on his return home and the more he saw of other counties, the better he liked this, and wired back to Frost & Bailey to draw a contract and send him for signing.

Ernest Cooper and Wesley Marr had a narrow escape from serious injury Tuesday night when their car turned turtle. The boys were considerably shaken both mentally and physically and are wondering just how it all happened. The car lost the right front wheel and a shoe off the rear and the top was crushed to the bottom.

Ben Doyle of St. Louis, arrived here last week and at once saw the town's needs for a bakery and purchased the Wimberly & Pugh building on the west side of the square and went to work arranging it to receive the equipment which has already arrived.

M. C. Hamilton came in from his farm Wednesday to make preparations for the construction of a residence on his lots southeast of the square. He stated that a fine rain fell on his south farm Monday evening that was worth \$2,000 to him.

The protracted meeting at the Church of Christ closed Sunday night, there being a total of sixty-two additions to the church during the meeting. Rev. Kercheville left Monday for Roscoe where he will begin a ten days' meeting.

After having spent a few days the guest of his cousin, Sam Singleton, Dan Singleton left for his home at Tahoka Tuesday. He was accompanied by Sam, who will be his guest for several days.

The meeting at the First Baptist church was closed Sunday night by Rev. Corbin, who assisted the Rev. Henderson, in the preaching. Rev. Henderson, began a meeting at Mesquite Saturday night.

W. J. Lane and Mrs. Dollie Gates, both of Tahoka, were quietly married at the Baptist parsonage last Thursday afternoon. Rev. W. L. Henderson performing the ceremony.

S. H. Southall and O. F. Austin of Knox City, have located here to pursue their profession as electrical experts and are making their headquarters at J. P. Bowlin's store.

The protracted meeting at the Methodist church conducted by Rev. McMichin of Lubbock, closed Sunday night.

NOTICE

The Lynn County Boys' and Girls' Clubs will have a food sale on August 23rd, on the lot west of the Court House. Get your dinner, a sandwich, a bottle of "pop", or a cream cone at the Club stand.

TEN-MILLIONTH FORD HAS BEEN BUILT

The Ten-Millionth Ford is on the final stretch of its epoch making tour from coast to coast on the Lincoln Highway.

After a trip through snow banks at a 12,000 foot elevation in the mountains out of Lorainie, the car which signifies the new accomplishment in motor transportation rolled on across the remaining miles of Wyoming's broad stretches to Salt Lake City, where Secretary of State S. E. Crockett and Mayor Nelson extended an official welcome to Utah's capital. Later Frances Renaudt, vaudeville star, made her initial bow to a Salt Lake audience from the car which was introduced into her act, and was driven onto the stage at Pantages Theatre by Frank Kulick, old time driver of Ford racing cars, who is piloting the Ten-Millionth on its way to the coast.

With the exception of Salt Lake City, where the Secretary of State was on the job, the car has been welcomed by the Governor in every state capital through which it has passed. In Trenton Governor George Siltzer did the honors, while Governor N. E. Kendall of Iowa headed the committee of welcome at Des Moines, and Governor W. E. Ross of Wyoming at Cheyenne.

Among the many thousands of members of the great Ford family that have joined in the honor parades that have featured this historic trip, was an antiquated car with six cylinder model K motor, No. 539. This was at Omaha, and the old Ford product of 1906 vintage by perfect behavior and performance in the parade, seemed to scorn the passing years.

At Rawlins, Wyo., a unique feature of the welcome was the appearance in the parade of the original Deadwood stage coach, which was driven by cowboys in full regalia, guns, sombreros, chaps and all.

Farmers along the Lincoln Highway have turned out in great numbers to do homage, through the passing car, to Mr. Ford, who has given them transportation facilities and traction power unguessed and undreamed of but a few years ago. At one place the parade was joined by a number of farmers with a Fordson tractor coupled to a trailer loaded with heavy horses. In this emphatic manner the tillers of the soil told the world of the complete triumph of Ford traction units over horse flesh on the farm.

The tour, which celebrates a ten-millionth production of Ford Motor Company, is scheduled to end Tuesday, July 29th, when the Ten Millionth Ford enters San Francisco, where a big reception awaits it, and Frank Kulick delivers to the Mayor of the city a letter from the Mayor of New York, and then drives the celebrated car out to the end of the Lincoln Highway.

COUNTY SINGING CONVENTION MEETS FOURTH SUNDAY

All singing classes and lovers of good music will please take notice that the Lynn County Singing Convention will meet in Tahoka at 10 o'clock Sunday morning, August 24, being the fourth Sunday. There will be a business meeting at 8:30 on Saturday night.

Everybody please bring well-filled baskets Sunday morning, and let us have a great convention and a good time.

M. C. Richey, President
H. A. Patterson, Vice-Pres.

TO LYNN COUNTY VOTERS

I take this means of expressing to my friends my sincere thanks for their splendid support in the primary election held on July 26th, at which time I received a nice plurality of the votes, and I very deeply appreciate the loyalty of those who supported me in my race for the office of County Judge of this county at that time. A continuation of that support and the support of any who may have favored some other candidate in the first primary is earnestly solicited in the "run-off" primary to be held on August 23rd.

It is with pleasure that I am able to say that I have been able to conduct this campaign above an indulgence in personalities and without taking any part in the affairs of any other race than my own, and I feel assured that my more than twelve years residence in this county and the record I have made while here should be sufficient answer to against me of a personal nature at this late hour.

My purpose is that this campaign shall be continued upon the high plane of a true democrat seeking a democratic nomination upon my qualifications for the office to which I aspire.

Again thanking my friends for their support in the past primary and for all they do for me in the primary of August 23rd, I am,
Yours sincerely,
C. H. Cain

GIRLS LIKE DORM HOME INDICATION AT CANYON COLLEGE

CANYON, Aug. 12— Whether College girls enjoy dormitory life or not is a question which might be answered in a variety of ways. The experience of those in charge of Cousins Hall, one of the dormitories of the West Texas State Teachers College at Canyon, would indicate that many young women who live here find the place highly satisfactory school home. All of the rooms at this Hall had been reserved for the 1924-35 session before April 1, 1924. Of the young ladies who had

made reservations 60 had been residents of the hall before eight are sisters of girls who have made this their home, and 12 are new. Mrs. Marion Witt who has charge of the home, believes in giving the young women under her charge all of the privileges possible and in surrounding them with all the fun and gaiety which exists in any normal wholesome home.

EDWARDS THE RIGHT MAN FOR
LIEUTENANT GOVERNOR

Many people have become so in-
various county run-offs that
various other county run-offs that
they have taken little time for
thought as to whom they will vote
for in other races.

For Lieutenant-Governor the
News is wholeheartedly behind
Will C. Edwards of Den-
ton, and the writer recommends him
to the voters of Lynn county. "Big
Bill" is a big man in every sense of
the word. His one pledge is "to be
fair and just to every citizen, sec-
tion and legitimate interest in Texas
and to give to the affairs of the
Lieutenant-Governor's office the
very best that is in him." He is
not a member and never has been a
member of the Ku Klux Klan, as
has been charged by his opponent,
Barry Miller.

Edwards is seeking the office on-
ly for the honor and opportunity it
gives. In fact, he did not intend to
run for the office until after his
friends, the Texas press, had an-
nounced him as a candidate for the
office and had pointed out to him
the good that he could do in the
Lieutenant-Governor's chair. "Big
Bill" is always honest and sincere.
He has been a prohibitionist since
manhood, and has supported pro-
hibition both individually and edi-
torially. He has always been an ad-
vocate of woman suffrage. He
thinks Texas needs a better distri-
bution of its tax burden rather than
new taxes. He favors education
from top to bottom and was in-
strumental in getting through the
rural aid and emergency school ap-
propriation in the 38th Legislature.
As a citizen, as a member of the
Legislature, and as editor of the
Denton Record-Chronicle, Will C.
Edwards has always fought and
hard for the right and for the good.
"Pledged only to the service of the
whole people," he will continue to
put forth the best that is in him.
Vote for Will C. Edwards!

Down in Reagan county the Tex-
as University owns many thousands
of acres of land and during the past
year oil has been discovered on part
of this land. As a result of this
discovery the University available
fund is being enriched by several
thousand dollars each month.
Should this new discovery of liquid
gold amount to millions of money
for the University, which is now
very probable, it means that in a
few years the Texas University will
own one of the most modern school
plants in the United States and
ought to then easily reach that
standard of a University as con-
templated by the makers of the State
Constitution back yonder in 1876
when they put into the Constitution
the following provision: "The Legis-
lature shall, as soon as practicable,
establish, organize and provide for
the maintenance, support and direc-
tion of a University of the first
class." —Panhandle Herald

The lure of the mountains is caus-
ing many Tahoka people, as well as
thousands of others, to load up their
cars or "Lizzies" with paraphernalia
"throw dull care away", and turn
their noses toward New Mexico or
Colorado. Every week for the past
few weeks several cars have left
here for the mountains or other
such points of interest; principally
the mountains, for the coolest place
is the most interesting. Nothing is
more refreshing to the tired man
who has worked all year than a trip
that will take him back to nature
for a few days. Fall will soon be
ushered in with a rush of business
Now is the time. Take a rest, run
away from your worries and away
from civilization by getting out into
the open for a few days.

Subscribe for the News

AMHERST

Amherst has just had her birth-
day party. It is said that there
were between fifteen and twenty
thousand people in attendance at the
celebration. And Amherst is only
a year old. When Dallas was
a year old there wasn't any
such goings on. Dallas doesn't
even celebrate birthdays now. When
Dallas was a year old nobody sup-
posed that it was of any conse-
quence to gather in the populace to
celebrate. And gathering in twenty
thousand people would have been
next to impossible in those days.
By such wide margins do the farm
pioneers of our time have advan-
ced over the pioneers of other days.
A year ago Amherst was a real
estate project not fully outlined.
Today it is a hustling, bustling town.
You may speak of mushrooms if you
want to. But mushrooms aren't
characteristic of Amherst. Amherst
is the answer of West Texas to the
boll weevil. Amherst is a standard
bearer of a new cotton country.
Virgin soil offers the productivity
which virginity impiles for a time at
least from cotton pests that have not
as yet ventured so far. It may be
that the lessons of soil depletion
elsewhere will enable farmers about
Amherst to farm their soil instead
of mining its wealth away through
one-crop folly and ignoring fertility
conservation. If it turns out that
way Amherst has a long and pros-
perous career ahead of it. If it
doesn't turn out so, Amherst will
flourish for a season of years and
then fall back in to the humdrum
round of the town whose consti-
tuents robbed their own land reck-
lessly and without need.

Amherst celebrates the passing of
the rancher, just as the rancher's
though without formality, the going
of the red man. Sturdy tillers of
the soil have begun already to bring
in the first fruits of a generous year.
The unfenced acres that longhorns
once roamed are cut up into farms
now. Some of those farms will be
"paid out" this fall with their in-
itial harvest. And yet it is no land
of Eldorado. There's plenty of hard
work between the luckiest man in all
the Amherst territory and afflu-
ence. There will be hard years
sandwiched in between the good
years, and some will come away
discouraged, even as their like have
come away from other farms before.
But the stayers will stay. Thanks
to the stayers of days gone by
Texas is what she is.

—The Dallas News

DID YOU EVER STOP TO THINK

By E. R. Waite, Secretary, Shawnee
Okla., Board of Commerce

THAT some cities are awake,
some asleep and some dead.

THAT if you want to know the
condition of a city that you may
chance to be in, don't ask the real-
estate men, because they will want
to sell you something before you
know whether or not the city is
worth staying in. Don't ask the
merchants, because there are many
kinds of merchants—you might

strike a dead one.

THAT the easiest way to find out
about the city is to get copies of its
newspapers and look at the advertis-
ing columns, they will tell you every-
thing you want to know.

THAT when you see that the mer-
chants, the real estate men, the man-
ufacturers, the small business, the
banks, the hotels, the professional
men and other enterprises are not
well represented in the advertising
columns, you need go no further for
that city is not healthy it is only an
electric-lighted graveyard. It is de-
ficient in everything that goes to
make a prosperous city.

THAT on the other hand if the
papers are full of advertising it in-
dicates that the city is progressive
and a worthwhile city.

WHAT YOU WANT IS A LIVE
CITY TO PROSPER IN—NOT A
DEAD ONE TO DIE IN.

HIGHLIGHTS IN THE CAREER
OF JOHN W. DAVIS

Is 51 years old, one of the ablest
lawyers in the United States, con-
sidered a man of intellectual
strength and courage of the Wood-
row Wilson type.

Born April 13, 1873, in Clarks-
burg, W. Va.

Graduated in law from the Wash-
ington and Lee University.

In 1897 began the practice of law
at Clarksburg.

Elected two terms as congress-
man from that district.

In 1913 appointed solicitor general
of the United States by Woodrow
Wilson.

In 1918 appointed by Woodrow
Wilson as ambassador to Great Brit-
ain.

Resigned in 1921 as ambassador to
resume the practice of law in order
to build up his fortune which he had
greatly depleted while serving the
government.

Married in 1899 to Julia T. Mc-
Donald, who died the following year.
Remarried in 1912 to Ellen G. Bas-
sell. —Exchange.

With many more such vigorous
and severe applications of the law
as have been made on the premises
of nine cabarets on Broadway, and
especially if such things are done
all over the country, there is likely
to be a marked diminution of con-
fidence on the part of those who are
so fond of saying that prohibition
cannot be enforced. The closing for
a year of buildings on Broadway for
which high rents have been paid is
a matter of the very keenest inter-
est to those owners of real estate
who hitherto laboriously have main-
tained a beautiful semblance of ig-
norance as to the sort of business

CHILDREN'S FATAL DISEASES

Worms and parasites in the intesti-
nes of children undermine health and so
weaken their vitality that they are unable
to resist the diseases so fatal to child life.
The safe course is to give a few doses of
White's Cream Vermicide. It destroys
and expels the worms without the slight-
est injury to the health or activity of the
child. Price 35c. Sold by

Severe Pains in Side

"I HAD had quite a bad
spell and sickness,"
writes Mrs. Emma
Patrick, of Caney, Ky.,
"and it was an effort for
me to go about my home.
I had a very severe pain
in my left side that almost
took my breath at times.
I lost my appetite. I grew
thin, pale and lifeless. I
fell off till I only weighed
about 115 pounds.

"Cardui was recom-
mended to me and by the
time I had taken one bot-
tle I saw it was what I
needed. I ate more and

rested better. I kept tak-
ing it and my skin and
flesh took on a more
healthy color. I felt
stronger and, as the nerv-
ousness left me, the pain
in my side was less severe.
After taking nine bottles,
I eat anything, go any-
where and feel fine. I
weigh 160 pounds and am
well. I feel that I owe it
all to having used Cardui."
Pain, in certain parts of
the body, is a sure indica-
tion of female compli-
cations. The treatment
needed is not the use of
narcotic drugs, but—

CARDUI
The Woman's Tonic

194

done on their premises. At the
clicking of a large padlock those
owners will develop a keen and ef-
fective attention to the conduct of
their tenants, and the latter prob-
ably will discover at once that no
longer can they break the law as
much as they please. —New York
Times.

MY PA

My pa ain't any millyunaire
But Gee! He's offul smart;
He ain't no carpenter, but he
Can fix a feller's cart.
He ain't no doctor, but you bet
My pa, he allus knows
Just what to do to fix a boy
Who's got a bloody nose.

My pa ain't President becuz
He says he never run,
But he could do so as well as
Any President has done.
A President may bent my pa
At pilin' up a vote,
But he can't beat him, I will bet,
At whittlin, out a boat.

My pa ain't rich, but that's becuz
He never tried to be;
He's no tectrician, but he fixed
A telephone for me.
My pa ain't never wrote a book,
But I know that he could,
Becuz the stories that he tells
To me are allus good.

My pa knows everything, I guess,
And you bet I don't care,
Coz he ain't President or rich
As any millyunaire;
Whenever things go wrong, my pa
Can make 'em right, you see,
An' though he ain't a President,
Pa's good enough for me.
—Anonymous.

G. M. Stewart and his father-
in-law, T. M. Dobbins of Roscoe, re-
turned Friday from New Mexico
mountains where they have been
spending their vacations. Mrs.
Dobbins visited her daughter here
while the men were away on the
trip.

Pepsinated Calomel Is
Better than the Old-
Time Sickening Kind

It is gentle, imported English
Calomel, combined with Pepsin and
other helpful ingredients. It is mild
but certain, causing no harshness or
unpleasantness and will absolutely
relieve indigestion, biliousness, bad
colds, constipation and sick headaches.
And best of all it does it at once—
quickly and pleasantly. Take one
small tablet at bed-time and you will
get up hungry and feeling fine. Rec-
ommended by

Wilson Merchant Building Brick

Mrs. Edwards Dies; Lutherans to Build Church; Methodist Revival a Big Success

(From the Wilson Pointer)
Arrangements have been made and bond given for the building of the new Cobb brick building. W. P. Nugent, who has contracted for the building was in town Monday planning for the water to be used in the construction work. This will be begun at once and is to be completed for the fall rush of business.

The Cobb building is to be located south of the Wilson State Bank and is to be the same size. Mr. Cobb will move his mercantile business into the first floor as soon as it is completed. The second floor will possibly be used for offices and lodges.

Sunday morning the meeting that has been in progress at the Methodist church was brought to a close after a session of two weeks. This meeting was a success and its effects are already being felt in the life of the community. There were 37 conversions and great number of reclamations of which it was hard to keep a count. 21 people joined the Methodist church and a large percent of the others will unite with some other church.

While here William Green gave two lots in Wilson to the Lutherans on which a church is to be built. These lots are located beyond the Richardson house from the business section of town. This is an ideal location and the members of the Lutheran church are delighted that Mr. Green has thus made it possible for them to have a church in Wilson within a few short months. Plans are being made to start work on the new church this fall and if crop conditions continue to look good these plans may be realized before Christmas.

Mrs. Augusta Edwards, mother of Mrs. E. L. Deaver passed away Monday morning about 7 o'clock after a long illness. Mrs. Edwards had been sick for a long time but a week ago was taken with a stroke of paralysis caused by her long sickness and after that time was entirely helpless.

Deceased would have been 74 years old in a few weeks had she lived. She lived a long and beautiful life and it is with great sorrow that we see her stay here come to a close.

The funeral services were held at the cemetery in Slaton where our dear friend was buried. Many friends and relatives from Wilson followed her to her last resting place.

J. F. Durham and family of Lampasas, arrived here last Saturday with their house hold goods, and are living on a farm eleven miles west of town. Mr. Durham's son has been working the farm this year. We are always glad to see new people moving into this country.

W. E. Sikes and family returned Monday from a visit to Plainview, Vernon, Wichita Falls, and Erath county. Mr. Sikes says the crops were fine as far down as Wichita Falls, but from there on the crops will be pretty short.

Misses Leota Knight and Leona Key returned home Tuesday from Plainview, where they spent several days as the guests of M. M. Boyd and family.

CULL YOUR FLOCK NOW FOR THE BEST LAYERS

(By W. R. Lacey)
Cull your flock now for the best layer. Why? Because you can get a better price for the culls now when they are fat than later. They are through with this season's laying and are fattening up.

Here are a few of the points to consider when culling:

Vigor—Only the vigorous bird is the layer. Did you ever see a lazy hen that was a good layer? The hens that are out first in the morning and on the roost last at night are among your best layers. "The early bird catches the worm" and also lays the eggs.

The vigorous hen has a bright eye, a clean cut head, and is always on the move. She hunts her food. The fat hens are your poorest layers. Did you ever see a dairy cow that was fat if she was a good milk-

er. On the average farm, except for the first dozen hens, which eat the scraps from the table, a hen must lay 75 eggs a year to pay for her keep. So get rid of your boarders.

Uniformity is another thing to keep in mind. Have them as uniform in size and color as you can. Get the little undersized hen.

Your oldest hen should be sold off.

Your oldest hen should be sold off; let's. The old hens have passed the day of their greatest usefulness. You may have a few old ones you know to be good layers. Keep them.

Cull out the early molter. Those that molt in July and August are your boarder hens. The good layer has been too busy laying eggs to molt early; they will molt in September and October.

Briefly, then, keep only the healthy, active hen that is always hunting feed. Keep the young rather than the old. Try to build up a uniform flock. Keep the hen, that is just now beginning to look ragged, for they are your late molters.

(Editor's Note: Mr. Lacey will write articles for publication in the Lynn County News from time to time that will be of much benefit to the farmers. Watch for these articles.)

Mr. Lacey will also be glad to help with the culling of flocks in this community, and those who desire his aid may get him at S. N. McDaniel's residence.)

Mr. and Mrs. S. N. McDaniel and Mr. and Mrs. Henry McDaniel left Sunday for the White Mountains in New Mexico, where they will spend ten or twelve days cooling off and enjoying the scenery.

George Hart, proprietor of the Hart Barber Shop, and his family left Sunday for New Mexico where they will spend a few days of recreation in the White Mountains.

Subscribe for the News

TEXAS HAS THE BILLION DOLLAR HABIT

The Texas cotton crop, according to July estimates will be about 4,400,000 bales from 15,200,000 acres a slight increase in yield and acreage over 1923. The growers have the boll weevil under better control than they have had it for several years. There has been a considerable acreage decrease in the south and heavy increase in the northwest the cotton era there having been extended to the Colorado line. The boll weevil has not yet invaded the northwest.

The 25 major crops of Texas likely will cross the billion dollar value line this year for third time, giving the state the billion dollar habit. Cotton is the leading crop. Corn, the second crop, will yield 100,000,000 bushels, if nothing happens before maturing time. Other crops: Oats, 50,000,000 bushels; wheat, 29,000,000 bushels; grain sorghums, 42,000,000 bushels; watermelons, 10,000 cars; cantaloupes, 200,000 crates; peanuts, 90,000,000; sugar cane syrup, 2,500,000 gallons; peaches, 2,000,000 bushels; cabbage, 25,000 tons; hay, 2,500,000 tons; lettuce, 250,000 crates; Irish potatoes, 2,000,000 bushels; sweet potatoes, 7,000,000 bushels; rice, 700,000 bushels.

Livestock, including dairy and poultry products, on which no estimates have yet been made, will doubtless put Texas far beyond the billion dollar line.—The Earth.

M. L. (Shorty) Jamison, who underwent an operation for appendicitis in a Lubbock Sanitarium Friday is reported to be on the road to recovery. Mr. Jamison is an employee in the mechanical department of the Connolly Motor Company in Tahoka. His many friends will be glad to learn of his improved condition.

Harry Jones and J. A. Newman of Roscoe were in Tahoka Saturday and Sunday. They report crops in need of rain in that section.

Jim Tunnell and Luther Nixon and their families visited W. L. Tunnell and family last week-end. The visitors were from Rannels county.

Rev. J. F. Curry is holding a meeting at Levelland, in Hockley county, the meeting having begun last Saturday night.

FOR HOME AND STABLE

The extraordinary Borozone treatment for flesh wounds, cuts, sores, galls, burns and scalds is just as effective in the stable as in the home. Horse flesh heals with remarkable speed under its powerful influence. The treatment is the same for animals as for humans. First wash out infectious germs with liquid Borozone, and the Borozone Powder completes the healing process. Price (liquid) 30c, 60c and \$1.20. Powder 30c and 60c. Sold by

TAHOKA DRUG COMPANY

Strength of Plywood.
Plywood is wood of any variety that has been cut by a machine into thin layers and glued together in such a way that the grain of one layer runs at an angle to the grain of two adjacent layers. The strength of a plywood panel, in two planes, greatly exceeds that of steel. With the same wood, by combining cuts, it is even possible to get greater resistance to stress in all three planes than steel affords, although it is rarely necessary to go so far. Ordinary wood used for airplane construction is not required to withstand severe stress in more than two planes. What plywood means to airplane construction is well illustrated in the case of the Haviland machine. Before that method of using wood was invented the best airplane wing weighed 7.95 ounces and was capable of sustaining a load of only 19 pounds. Since then the plywood rib used on the Haviland machine weighs 5.12 ounces and will carry a load of 274 pounds.

Prevent Growth of Horn.
Preventing the growth of horns on cattle, says the United States Department of Agriculture, is much more satisfactory than cutting them off later, and is much less painful to the animal. The method of prevention is simple. As soon as the budding horns of the calf can be felt as small "buttons" they may be stopped by clipping off the hair over them and rubbing the spot with a moistened stick of caustic potash, which has been wrapped in paper to protect the hands from burning. The caustic must not be moistened enough so that it will run, for it will remove the hair and cause unnecessary irritation. A spot about the size of a dime directly over the "button" should be made raw by rubbing with the caustic stick. Calves must be protected from rain to keep the caustic from running over the face.

Composer's Comedy

The book of Richard Strauss' new comic opera, "Intermezzo," has been based by its librettist upon an incident in the composer's life.

One day Strauss was playing cards when he was advised of his wife's intention to sue for a divorce. He at once made inquiries and discovered that he was accused of being over-friendly with a pretty girl, who alleged to the lawyers that she had arranged to meet the composer in a cafe the next afternoon. Strauss denied the appointment, but turned up at the cafe, where he learned that a young musical conductor had been impersonating him.

Domestic harmony was restored, and Hermann Bahr, the librettist, utilized the story for the new opera—Cleveland Plain Dealer.

Farmers Using Geysers

Geysers are proving useful adjuncts to farming in Iceland. A well-known dye works in that country linked up its factory with water pipes direct from the hot springs, and after using the hot water in the color processes and for heating the factory and the workmen's homes, conducted it through underground pipes laid in fields, which as a result yielded three times as much produce as neighboring fields not so equipped. Although from time immemorial the Icelanders have been familiar with geysers, only recently have their industrial uses been seriously considered, and a project is on foot to supply Reykjavik with hot water for heating, bathing and washing purposes from one of the neighboring hot springs.

Inviting Crime

"Look here what I bought for that dog of Junior's," Mr. Burton announced, throwing a package on the table.

Mrs. Burton unwrapped it. "Why, George!" she exclaimed. "A dog collar of all things!"

"Yes, and I gave \$3.50 for it," Mr. Burton related.

"Three dollars and a half!" echoed Mrs. Burton. "What on earth? I don't understand! You've always said you had no use on earth for Junior's dog and you wish somebody would steal it!"

"Yes, that's just it," Mr. Burton agreed. "With that collar on it some one will be sure to steal it now!"

Mr. and Mrs. W. M. Harris are visiting relatives in Naples.

ECZEMA!

THIS isn't one of those fake free treatment offers you have seen so many times. We don't offer to give you something for nothing—but we do guarantee that you can try this wonderful treatment, entirely at our risk, and this guarantee is backed by your local druggist.

"HUNT'S GUARANTEED SKIN DISEASE REMEDIES" (Hunt's Salve and Soap) has been sold under absolute money back guarantee for more than thirty years. They are especially compounded for the treatment of Eczema, Itch, Ring Worm, Tetter, and other itching skin diseases.

Thousands of letters testify to their curative properties. M. Timberlin, a reputable dry goods dealer in Durant, Oklahoma, says: "I suffered with Eczema for ten years, and spent \$1,000.00 for doctors' treatments, without result. One box of Hunt's Cure entirely cured me."

Don't fail to give **HUNT'S GUARANTEED SKIN DISEASE REMEDIES** (Hunt's Salve and Soap) a trial. All druggists handle.

When Your Motor Balks

When your car balks, what is the matter with it?

One way to find out—generally "a thousand miles from nowhere"—is to climb out, lift up the hood and fumble around with the motor. Often, you discover some trouble that could have been avoided by bringing the car to our shop for an inspection before you started.

Wise drivers of motor cars always see that a thorough inspection is had before commencing a long trip.

Sullivan Auto Supply Co.
