Heavy Rains Continue In Debra's Wake

SNYDER SPOTLIGHT

By WACIL McNAIR

Snyder experienced a busy midsummer week, and among the busier people were those associated with the kid baseball programs here.

Little Leaguers were everywhere as the area playoffs were launched here Thursday, and for every player there apparently were dozens of adults on hand for the games. After the first night of the playoffs, local Little League officials hastily arranged for more bleachers to accommodate the crowds at the diamond in Towle Memorial Park.

• • •

The rainy spell, which eased its grip during the past week, caused heavy damage to a Farm-to-Market road north of Fluvanna. The pavement was undermined, making it necessary to close the road to traffic while a crew from the district highway office in Abilene worked on repairs.

• • •

Two Fluvanna youths came back from the state Future Farmers of America convention in Austin with their Lone Star Farmer degrees. This is the highest award in the state available to a Future Farmer. Jeff Martin and Ronnie Beaver, both members of the Fluvanna chapter, earned the degrees.

• • •

Persons who receive surplus commodities through the county welfare office here had an opportunity to learn how to prepare tasty table dishes from the foods now being distributed. Miss Ruby Butts, county home demonstration agent, conducted a special demonstration at the welfare office, in cooperation with Mrs. Marionnette Baze, county welfare office director. Object of the demonstrations is to enable recipients to realize as much benefit as possible from the surplus commodities.

• • •

The county equalization board session was a formal affair here this year. Usually, such sessions are highly informal, although there are specific regulations for conducting them. County Judge J. Ray Martin, as presiding officer of the commissioners court, also presides when the court sits as an equalization board. He organized the proceedings according to the book. One tax representative of a firm who attended said he had been sitting in on equalization board hearings for 30 years in various counties, and this was the first time he had seen one follow regulations to the letter.

Couple Hunts For Treasure

SAN ANTONIO (AP)—The kitchen is gone and the bedroom is Sagging, but Mr. and Mrs. Aniceto Alvarez say they don't mind giving up their home in exchange for buried treasure.

Alvarez, 84, and a 64-year-old friend, Jose Olivarez, are digging under the house in search of a treasure Alvarez says was promised to him by a woman dressed in white and an Indian in a vision.

Mrs. Alvarez says she has had the same vision.

The men have dug a hole 8 feet wide, 6 feet long and 4 feet deep under the three-room house. So far it has taken in the kitchen and extended 2 feet under the bedroom.

24 Crewmen Stay On Rig

HOUSTON (AP) — Some 24 crewmen on the Zapata Off - Shore C. drilling rig off High Island rode out hurricane Debra while a work boat with a crew of seven stood by.

No damages or injuries were reported after the rig was battered by 72 mile-an-hour wind and seas running from 18 to 20 feet high. The Zapata crew halted operations at 4:30 p. m. Friday.

"We seemed to catch only the backside of the hurricane," a company spokesman said.

Continental Oil Co.'s offshore operations also appeared to have missed the brunt of the storm. It did not evacuate any of its workers, who reported 10 - foot waves.

Nixon, Krush Talk Of Ike, Peace At Dinner

MOSCOW (AP) — Vice President Richard M. Nixon and Premier Nikita Khrushchev met at a U.S. Embassy dinner Saturday night and talked of peace and President Eisenhower.

Toasting the American President's health, Khrushchev told Nixon: "I, like all my colleagues, like your president.

"We like his sincerity, his gentlemanship, which is quite up to the mark."

The atmosphere at the dinner, the fifth meeting between Nixon and Khrushchev in less than three days, was described as "one of cordiality throughout." Newsmen were barred from the dinner but the exchange of toasts and other details were reported later by American spokesmen.

There was no word whether Nixon and Khrushchev discussed at the dinner the vice president's surprise decision to fly to Poland for a two-day good-will visit after his Soviet tour ends.

Khrushchev told the dinner guests the Soviet Union has never had a disagreement with Eisenhower and recalled that the U.S. President worked with the Soviets during World War II.

Nixon, in toasting the health of Soviet President Klementi Voroshilov, who did not attend the dinner, compared Khrushchev and Eisenhower in these words: "Mr. Khrushchev and Mr. Eisenhower are alike in one respect. They are men who had humble beginnings and came to the top.

"The Prime Minister was once a miner. The President of the United States worked his way through school, and among the jobs he had was the back-breaking job of carrying ice."

The vice president added, however, that in citing these similarities "I do not overlook the fact we have major problems between us."

The atmosphere at the dinner contrasted with the two days of Soviet criticism of Nixon since his arrival here Thursday, to open the American national exhibit.

But the vice president's friendship mission had shifted into high gear earlier Saturday. He was loudly applauded by 5,000 Russians when he arrived for a handshaking tour of the Soviet agricultural and industrial exhibition.

Nixon easily turned aside the heckling of one lone Russian. He traded friendship toasts with Agriculture Minister Vladimir Matskevich.

The vice president answered the Soviet minister's grumbling about Captive Nations Week, observed in the United States for nations dominated by communism. This is the issue that got Nixon's mission off to a shaky start.

In a busy day, Nixon had called on First Deputy Premiers Frol R. Kozlov and Anastas I. Mikoyan.

Nixon also announced he will begin a two-day visit to Poland Aug. 2. This decision was reached in part because the Soviet Union refused to let him end his 11-day tour by flying out over eastern Siberia. That region is studded with secret installations, air fields and naval bases.

Despite his public differences with Khrushchev, which were getting a general airing in the Soviet press, there was no show of public resentment when Nixon turned up at the Soviet exhibition. This show has been set up as a rival attraction to the U.S. exhibition Nixon formally opened Friday.

The crowds in the grounds saw Nixon and his party draw up in a U.S. Embassy limousine, and at once broke into vigorous applause. Nixon got out and began his hand-shaking.

MEETING IN MOSCOW—Vice President Nixon and Russian Premier Nikita S. Krushchev have a smile and a firm handshake for each other as they met in the Kremlin in Moscow. After a short visit the two left for a joint inspection of the U. S. exhibition Nixon will officially open. (AP Wirephoto via radio from Moscow)

Medication Error Fatal To Babies

SAN ANTONO (AP) — An error in medication claimed the lives of two tiny premature babies at Robert B. Green Hospital here, William B. Forster, administrator, said Saturday.

The lives of four other babies given the same medication in their milk were saved by prompt action when nurses in the pediatroc ward noticed the babies turning blue and called doctors, Forster said.

All six of the premature babies had been given sodium nitrite by mistake — a medication normally given to heart patients, Forster said. The medication causes a condition that prevents the hemoglobin in the blood from picking up oxygen from the person's lungs, he said.

Forster said the babies should have been given Vitamin C (ascorbic acid) tablets.

The sodium nitrite tablets were taken from a bottle which should have contained the Vitamin C tablets, Forster said. The hospital administrator said the bottle which contained the sodium nitrite tablets had been filled with the tablets somewhere in the hospital.

Dead after being given sodium nitrite tablets was a baby boy born to Mrs. Alzada Havard, and a baby boy born to Mrs. Concha Ramos.

Both the babies had been at Robert B. Green hospital for about two weeks.

Given the same tablets but saved by prompt action were twin girls born to Mrs. Jose Riojas; a baby boy born to Mrs. Fred Campbell, and a baby girl born to Mrs. Raul Martinez.

Forster said he had not been able to find out where the error occurred but presumed the Vitamin C bottle was filled by mistake with the sodium nitrite tablets. The bottle was refilled at the hospital, he said.

The sodium nitrite tables and the Vitiamin C tablets are the same color and look alike.

"An expert who knows the difference would have noticed the difference in the tablets," Forster said.

Long Tells 'Bad Jokes' To Truman

INDEPENDENCE, Mo. (AP) — Said the governor of Louisiana: "Good morning, sir. You look damn well."

Said the former President to the governor: "Good morning, governor. Come on in."

With that, Gov. Earl K. Long and Harry S. Truman went into the latter's office for a private chat Saturday.

All he did was tell Truman "a lot of bad jokes," the governor told newsmen afterward.

"He didn't tell me any, but he acted like he hadn't heard mine," Long said.

Asked if he thought Vice President Richard M. Nixon was holding his own against Soviet Premier Nikita Khrushchev in Moscow, Long laughed in reply: "I've been too busy trying to keep out of jail to follow all that."

Truman left immediately after the meeting without comment.

Touching on segregation, the governor said, "I'm for segregation one billion per cent. All you got to do is look at Louisiana. The colored people there are the happiest people in the world."

He said he "really and truly didn't want to run" for a fourth term as governor but, he added, "I'm in harness and not ready to retire."

Long said he planned to leave Sunday for Hot Springs, Ark.

Boy's Body Found In Abandoned Ice Box

FORT WORTH (AP) — Searchers found the body of Donald Thompson, 7, in an abandoned icebox behind a repair shop in North Fort Worth Saturday.

Police said the boy's parents reported last seeing him about noon Friday.

Mrs. Alma Jean Dunlap, who lives in the vicinity, told officers she saw several boys playing around the repair shop.

Legion Kills 2 Resolutions

SAN ANTONIO (AP)—One of two resolutions apparently aimed against school integration was killed in committee at the American Legion Department of Texas convention here Saturday, while the other was passed by the delegates.

The resolution rejected by the committee was summarized as "recommending that each state and their political subdivisions have the exclusive authority to determine admission and administration of state and local supported schools."

Some proponents of the resolution denied that it was aimed at integration, and said it was designed as a general protest against government interference in educational policies.

British Send Up 1st Flying Saucer

DOVER, England (AP) — Britain's first flying saucer, officially called the SRN1, skimmed smoothly from Calais to Dover Saturday looking like an intruder from space fiction amid the workaday shipping of the English Channel.

It was the Hovercraft's first channel crossing. By unplanned coincidence, it made the journey exactly 50 years to the day after Louis Bleriot's historic first flight across the 23 storied miles.

The Hovercraft made the crossing in two hours, three minutes, flying a foot above the waves on its own self-made air cushion.

Inside Dover Harbor, it fluttered off the sea and over the beach to land without fuss amid a welcoming chorus of ship's sirens.

Christopher Cockerell, the hovercraft inventor, emerged from inside its open-sided cabin, wiped the salt spray from his sparse gray hair and said: "It was not as elegant as perhaps one would wish — she threw up a lot of spray and gave us a thorough soaking. But the crossing fully confirmed my belief that the hovercraft has a real future in practical transport."

The hovercraft looks exactly like the flying saucer of 1,000 space novels. It is an oval disc, 30 by 20 feet, surmounted by a squat, broad funnel. The funnel houses a fan of hand carved mahogany driven by a 450-horsepower piston engine.

The fan blows air down through two rings of slots on the underside. More air from the same fan is blasted through four ducts at the sides of the disc to move it and steer it.

Forward of the funnel is the two-seat cabin in which test pilot Peter Lamb and Cockerell made the trip. A third man traveled on the disc itself as human ballast, moving around to help keep trim.

The saucer has the simplest of controls. By Lamb's right hand was a joy stick controling direction with a twist grip at the top for the engine throttle. By his left hand was another stick to control the saucer's balance by varying the downward pressure underneath it.

It lifts off the water or land when the engine is reviving fast enough to build up the necessary air pressure beneath. Top speed on the crossing was 38 knots maintained only for just over a mile.

Wm. B. Cox Dies Saturday

William Brown Cox, 86, a longtime resident of Scurry County, died at about 4:30 a.m. yesterday at the home of a grandson, Van Meador, 10 miles south of Snyder.

Mr. Cox was born Jan. 7, 1873, in Johnsville. He was married to Mary Smith in July, 1893. She died in 1951. They moved to Scurry County from Erath County in 1922, and he farmed in the Dunn community until his retirement in 1940. He was a member of the Twenty-fifth Street Church of Christ.

Time of funeral has not yet been set, pending arrival of a son from California. The funeral will be held at the Dunn Church of Christ, with a nephew, Sterling Bills of Stephenville, officiating. Burial will be in the Dunn Cemetery under direction of Bolger Funeral Home.

Survivors include eight daughters, Mrs. O. D. Garrard of San Angelo, Mrs. Ray Amos of Angleton, Mrs. M. C. Nichols of Stephenville, Mrs. Ed Bunch of Dexter, N. M., Mrs. Lee Bunch of Snyder, Mrs. Joe Hurly of Stephenville, Mrs. G. E. Meador of Stephenville and Mrs. Lewis Holdren of Loving, N. M.; three sons, Curtis Cox of Snyder, Edward Cox of Snyder and Everett Cox of Tulare, Cal.; one sister, Mrs. Ellen Davis of Uvalde; 28 grandchildren, numerous great-grandchildren and a number of great-great-grandchildren.

Democrats Planning Fund-Raising Events

AUSTIN (AP) — A statewide series of Democratic fund - raising dinners beginning at McAllen Sept. 19 was announced Saturday.

State Executive Committee Chairman J. E. Connally of Abilene also called a meeting of the committee for McAllen on the dinner date.

WEATHER

SNYDER TEMPERATURES: High Friday, 99 degrees; low, 66 degrees; reading at 7:30 a.m. Saturday, 68 degrees.

North Central, Northwest, Southwest Texas: Partly cloudy Sunday and Monday with scattered thunderstorms.

East Texas: Locally heavy rain north Sunday, otherwise partly cloudy with scattered thundershowers Sunday and Monday. Warmer north Monday.

South Central Texas: Partly cloudy Sunday and Monday with scattered thundershowers mainly north.

Loss Pegged In Millions

GALVESTON (AP)— Continuing downpours, on the heels of rains up to 15 inches, raised a specter of floods Saturday night in the wake of hurricane Debra.

Losses estimated placed damage in the millions from the tropical blow, which started breaking up late in the day after smacking into the Texas coast with winds as high as 105 m.p.h.

Forecasters warned against further heavy rains and squalls spreading northward into East Texas and extreme western Louisiana. A Weather Bureau advisory said local amounts of 10 to 15 inches were likely tonight and tomorrow.

"All interests in that area should watch for possible flood warnings from local Weather Bureau offices," the advisory cautioned.

Debra, little more than a day and a half old, lost hurricane force by midafternoon. Contradicting earlier predictions she would wane fast after hitting the mainland, the season's fourth tropical storm nevertheless maintained winds of hurricane strength for nearly 100 miles inland.

The heaviest rain — 15 inches measured by a farm gauge — fell in Brazoria County, just west of Galveston.

At Orange, in the center of a multi-million-dollar industrial complex near the southeast corner of Texas, more than 10 inches of rain flooded streets and low areas.

Houston, immediately north of Galveston, received 7.85 inches in two days.

Steady rains fell throughout the southeast quarter of Texas. Showers spread northward in the state past Waco, more than 200 miles from the Gulf of Mexico.

At nightfall the Weather Bureau reported light rainfall was general over Southeast Texas, and nearly every section of the state had received at least a few scattered showers.

Heavier amounts in the 24 hours ending at 6 p.m. were Houston 4.55 inches, Galveston 3.44, Beaumont 2.62, Kilgore 1.95 and Lufkin 1.78. Measurements at all other reporting stations were no more than one-fourth inch except at Tyler, which received .36.

As Debra ran out of steam, the Weather Bureau predicted winds and tides along the upper Texas coast would diminish gradually tonight. It still warned small craft to remain in port along the upper Texas and Western Louisiana coasts until the seas calmed.

A 4 p. m. advisory placed the hurricane's disintegrating center about 40 miles north -northeast of Houston. Top winds had dropped to no more than 40 to 60 m.p.h.

Coast Guardsmen and sheriff's officers in Brazoria County sought seven persons reported missing in the storm - swept area.

They said there had been no further word from four members of a Sweeney, Tex., family since they left Chocolate Bayou, in Brazoria County, for Galveston Island in a cabin cruiser Thursday. In the party were Mr. and Mrs. Dale Loyacano, their son Ray and his wife.

Another search as in progress at Green's Lake, south of Hitchcock, for two Houston men identified only by the surnames of Ellender and Wheeler. Officers said the two were last seen aboard an outboard rig early yesterday.

Also reported missing was a man identified as Arthur Gillam, home town undetermined, from a fishing camp on Chocolate Bayou.

There was no word of any deaths in the storm. A fishing boat captain was injured at Freeport when 15-foot waves smashed his craft against a rock jetty.

First reported as a tropical disturbance in the Gulf of Mexico Friday morning, Debra became a full-fledge hurricane in a few hours.

The center of the hurricane struck the Texas coast between Freeport and Galveston early Saturday. In addition to the 105 miles an hour wind at Brazoria, winds of 100 miles were clocked between Galveston and Freeport.

At Texas City one business building was demolished and 19 others damaged, as were a number of residence. The fishing dike and a number of fishing camps also were damaged. Power and phone lines were knocked out and streets and buildings flooded by the heavy rain.

One Texas City man, Eddie Hendricks, was reported missing. He was last seen getting out of his car that was marooned by deep flood waters.

Rations May Be 'Fired'

SAN ANTONIO (AP)—Spacemen may get a special type of rations while in orbit.

Southwest Research Institute chemists here are working on a special ration capsule that would be "fired" into the mouth of the astronaut whenever he punches a chow button.

One of the problems forcing chemists to lean toward the capsule is weightless space—where liquids won't pour and solids won't fall.

A spaceman who was issued the ordinary World War II type of ration might not even be able to brew himself a cup of lemonade or coffee because he couldn't pour the water in his cup.

The space rations would line up so the space man could simply open his mouth, press a button and presto:

His dinner would "blast off" right into his mouth.

Television Serves As An Incubator

DALLAS (AP) — A television set, with an assist from a 1-year-old boy, gave birth to a baby pigeon today.

The TV acted as an incubator and Robert Krosschell supplied the nervous anxiety.

Robert found the egg in an alley behind his home eight days ago. He decided to hatch it by wrapping the egg and putting it atop the TV set.

Yesterday the egg started showing signs of cracking and today a tiny pigeon crawled out.

"We're going to name it Uncle Al," Robert said. "Because the Uncle Al show was on this morning when it was born."

Britain Urging Allies To Join Russians At Summit

By ARTHUR GAVSHON

GENEVA (AP) — Britain was authoritatively reported Saturday night to be urging her allies to agree quickly to join the Soviet Union in early summit talks.

The view of Britain's Selwyn Lloyd is understood to be that the Big Four already have moved near enough toward a Berlin truce to justify the calling of a top level conference.

But his American, French and West German colleagues at the foreign ministers' conference do not see eye to eye with him. As a result all will press ahead with more slow, grim, hard bargaining with Andrei Gromyko of the Soviet Union in the next few days.

Some highly placed Western informants said that not only does the United States not go along with Lloyd's proposed new strategy at this time, but it has no intention of agreeing to such a deal in order to get a summit conference.

U.S. Secretary of State Christian A. Herter is reported determined to obtain from the Russians a firm agreement to protect the allied position in Berlin and access to it until Germany is unified or some change is agreed on by all the Big Four powers.

Lloyd's position became known as the two-month-old conference here faced a week of crucial decisions. It is clear the negotiators must make up their minds in a matter of days whether to set the time, place and work-program for a summit meeting or to suggest some other form of continuing negotiations.

This weekend Lloyd is back in London conferring with Prime Minister Harold Macmillan, who thought up the idea of a long series of East-West summit conferences stretching over the years ahead. Both take the position now that "the sooner the summit the better."

With this Geneva conference approaching its climax it would surprise nobody if Macmillan picked up the telephone and told President Eisenhower what Lloyd presumably is saying to his partners here.

Gloomier, more suspicious of Red intentions, Christian A. Herter and French and West German Foreign Ministers Maurice Couve de Murville and Heinrich von Brentano do not share the confidence of the British.

They are thinking along other lines, although the events of the next few days could swing them around to Lloyd's way of thinking. As of now Herter, for instance, is believed toying with the idea of a long recess in the negotiations unless the Soviet soften terms for a truce.

Castro Enemy Captured As Cubans Start Celebration

By WILLIAM L. RYAN

HAVANA (AP)—The capture of one of Fidel Castro's most wanted enemies was announced Saturday night as thousands of young Cuban farmers, waving banners and brandishing sharp sugarcane knives roamed this capital. They were in a mood for a celebration — or trouble.

Police said Rafael del Pino, leader of the "White Rose" organization, who has been operating from Miami, Fla., was wounded and captured 20 miles east of here while apparently trying to fly a group of Cubans out of the country.

The "White Rose" leader apparently flew a chartered single-engined plane from Florida and landed on a paved highway for a dawn rendezvous with his associates here.

Heavily armed police, led by Chief Efigenio Amijeiras, machinegunned the plane as it landed, setting it afire and wounding the pilot. A carload of would-be passengers escaped after exchanging shots with the police. Police said they dragged Del Pino from the plane and that he was in a grave condition—with burns—in a military hospital.

Earlier police announced the arrest of four other White Rose members and the seizure of documents and ammunition of the 26th of July movement which overthrew the dictatorship of Fulgencio Batista last January.

Del Pino, 32, complained on May 30 he had been attacked at Miami Beach by a gang that he called "Fidel Castro Police."

He was charged in 1951 by U.S. authorities with trying to smuggle arms to anti-Batista forces, but now opposes Castro's regime which he charges is influenced by Communists. He recently flew over Cuba to drop anti-Castro leaflets. He became a U. S. citizen 12 years ago while serving in the U.S. armed forces.

Despite the gay bunting and flags that were everywhere there was an unmistakable undertone of dangerous tension. Fears that anti-Castro elements might create an incident and loose terror in the streets obviously were behind precautionary moves by the government.

The sale of alcoholic drink has been banned until 6 a.m. Monday.

Authorities have been quietly rounding up suspected "counter-revolutionaries." There are unconfirmed reports that as many as 1,500 may be behind bars.

OIL ROUNDUP

Oil Execs Study New Gulf Program

By MAX B. SKELTON

HOUSTON (AP)—The new nonpartisan political program adopted by Gulf Oil Corp. is being studied by oil executives.

Unique features of the program include possible leaves of absence for employes elected to public office.

Details remain to be worked out. But a Gulf spokesman said an employe desiring to run for Congress probably would receive the equivalent of a normal military leave. Full status with the company would be restored once the employe has completed his tenure in public office.

Executives of other companies say such an arrangement would be unusual, particularly for a nationwide corporation.

Gulf operates in 38 states. It plans to carry its political campaign into each area of operation, regardless of size. The program will insist that all Gulf employes involved work with local political leaders and elected representatives.

Emphasis will be at the local level. But a registered lobbyist will head a Washington office. Dossiers will be prepared on all congressmen from states in which Gulf has an interest. The dossiers will include voting records and "everything that will assist Gulf's people in obtaining a more complete understanding of their elected representatives."

Gulf announced last September it would take an increasingly active interest in practical politics and encourage all its employes to do so. Details of the program were distributed last week to employes and stockholders.

The program outline was accompanied by a letter signed by Archie D. Gray, senior vice president.

It was Gray who announced the plans last September with a statement aimed, primarily, at the political strength of organized labor.

At that time Gray said similar enabled labor leaders to achieve dominance over Congress.

He added:

"If our free competitive institutions are to be preserved from destruction by the unholy combination of predatory gangsterism and crackpot socialism that is thriving and expanding under labor's congressional benevolence then business has no choice. It must do likewise, or throw in the towel."

Gray said the September statement caused hundreds of executives of other companies to propose various kinds of cooperative action.

"In deciding to go it alone, at least in the initial stages, Gulf's management does not wish to be understood as rejecting these many offers of friendly helpfulness," he said. "Rather, it must be understood as the simple, but all too frequently overlooked, realization that in our political system any political program can be effective only to the degree it reaches down to the roots of all our politics—to the people who vote and who urge others to do likewise."

Gray said industry generally, and the oil industry in particular, has been a victim of creeping governmental encroachment. He said industry has been subjected to increasing attack while increasingly being denied a fair hearing.

Sharon Ridge Draws 3 Sites

R. B. Stallworth Jr., et al, of Midland staked three locations in the Sharon Ridge Field in Scurry County.

No. 1-B Hardee was staked four miles southeast of Ira, 330 feet from the south and west lines of the northeast quarter in Section 99, Block 97, H&TC Survey.

No. 2 Hardee is to be drilled 330 feet from the south and east lines of the southwest quarter in northeast quarter of Section 99.

Both are slated for 1,800 feet with rotary.

Other project is No. 1-C I. B. Wade, five miles west of Ira and slated for 3,300 feet with rotary.

Drillsite is 330 feet from the north and east lines of the northwest 20 acres of the southeast quarter of Section 141, Block 97, H&TC Survey.

Southeast Garza Wildcat Set

In southeastern Garza County, Anderson-Prichard Oil Corp., Oklahoma City, has staked its No. 1—F Connell Estate as a proposed 8,500 foot rotary venture to test the Ellenburger.

Located 12½ miles southeast of Post, it is three miles north-northeast of the Rocker "A" (multipay) production, three-quarters of a mile north-north-east of a 3,265 foot duster, 1.75 miles southeast of a 3,150 foot dry hole and 1.75 miles west of an 8,290 foot failure.

It will be drilled 660 feet from south and 1,980 feet from east lines of Section 4, Block 5, GH&H survey.

219 New Oil Wells Are Completed

AUSTIN (AP) — The Railroad Commission reported Saturday 219 oil and 38 gas wells were brought in during the last seven drilling days.

It upped the state's totals to 6,643 oil and 1,125 gas wells for the year. This compared to 7,456 and 1,349 completions at this time last year. There were 122 dry holes.

In unproven territory, 13 oil and one gas well was completed. This upped the 1959 totals to 256 and 38 compared to 236 and 46 last year. Seventy - four attempts proved dry.

The commission said the total average calendar day oil allowable showed an increase of 9,954 barrels daily at 2,719,027.

Men Praised For Bravery

FREEPORT, Tex. (AP) — Two Freeport men drew praise Saturday for braving high waves in 20-foot motor boat and evacuating about 30 residents trapped in the path of Hurricane Debra.

W. J. Binyon, owner of a fishing development, said:

"That was one of the bravest things I've ever seen, the boat was just like a splinter being tossed about in the canal."

Calvin Markwardt, a member of a boat club's rescue squad, and a sporting goods store owner Fred Rumey, made the three 22-mile trips across the intercoastal canal to the San Luis Island Gulf Shore development.

"Most of the people argued against coming out, and only a few did come," Markwardt said of his first trip. Debra was not listed as a hurricane at that time.

On his second trip, the youth said, "I found many of the people scared and stunned at the way the storm had developed so fast." About 15 evacuees crammed into his small craft that time.

About nightfall Friday the two made their third trip when "roofing was peeling off all the houses" and brought back the remaining refugees.

The development contains a number of summer cottages.

Nixon's Trip Is Diplomatic Test

WASHINGTON (AP) — Vice President Richard M. Nixon's surprise trip to Poland offers a test of the highest order in U.S. cold war diplomacy.

It will be the first visit by a high U.S. official to a "captive" Communist country.

The visit will follow hard on the heels of a week's tour by Soviet Premier Nikita Khrushchev in the neighboring Red satellite. It will be made at the expiration of the U.S.-declared "Captive Nations Week" which so aroused Khrushchev's fire.

White House press secretary James C. Hagerty announced Nixon would stop off at Warsaw Aug. 2 at the invitation of Alexander Zawadzki, chairman of the Council of States of the Polish People's Republic. Hagerty said the trip will give occasion for "an exchange of views between the vice president and leading political personalities" in Poland.

Nixon plans to spend a day in the Polish capital, another in a Polish coastal city. He anticipates talks with Communist party chief Wladyslaw Gomulka and meetings with rank-and-file citizens as well.

Vice Adm. Hyman G. Rickover and Dr. Milton S. Eisenhower, the President's brother, will accompany Nixon. They have been with the vice president on his 11-day Soviet jaunt which ends Aug. 2. Rickover, who played a leading role in development of the U.S. atomic submarine, was born in a village near Warsaw.

Poland in recent years has stood as a special target the Washington moves to loosen ties of satellite countries with the Kremlin and keep alive the hope of the people for freedom.

Texans, Mexicans Meet In Dallas

DALLAS (AP) — Leading officials of Mexico and Texas got together Saturday in a demonstration of what they agreed was daily growth of understanding.

The visitors, probably the largest group of Mexico's ranking leaders ever gathered here, said they hoped the trip would improve across-the-border economic relations.

"Dallas' importance in Mexican trade is indicated by the fact that your city is the first visited by our officials," said one spokesman.

A highlight of their two-day stay was a dinner tonight with civic leaders from Dallas and officials from throughout the state, including Gov. Daniel.

Principal speaker was Robert C. Hill, U.S. ambassador to Mexico.

At a press conference earlier, a group of the visitors answered newsmen's questions on Mexico's industries, educational, and cultural features plus a few less tangible items.

It was brought out that American tourists spend some $500,000,000 each year in Mexico, making up a deficiency in the balance of trade since Mexico imports more from the United States than this country buys in Mexico.

The conference developed these other points.

Mexico's agricultural interests include the exporting of large amounts of cotton as well as wheat and corn. Its booming cultural facilities include a Mexico college where about 10,000 Americans are now enrolled as well as the famous University of Mexico.

A network of television stations is spreading across the country with 19 channels available to the Mexican people. Romulo O'Farrill Jr., vice president of Telesistema Mexicana (which operates 17 stations), was sympathetic with the American people—his countrymen have their westerns too, he said.

Asked if unsettled conditions in other Latin American countries have affected Mexico's economy, a representative of the Mexican Bankers Assn. said on the contrary, "it's given us a good name."

"We do not have the political problems that some of our neighbors have, added Ladislao Lopez Negrete. "There is no worry on that side."

Humble Plans Big Building

HOUSTON (AP)—Humble Oil & Refining Co. announced plans Saturday for construction of a 44-story office building in downtown Houston at a cost of about 32 million dollars.

The building would be Houston's largest structure. The present Gulf Building has 34 floors.

Morgan Davis, Humble president, said plans are being worked out for ownership of the building by a Humble trust and for occupancy by the company under a lease arrangement.

Humble expects to use more than half of the building to consolidate all of its home office operations under one roof, Morgan said.

Three Perish In Bus Crash

RICHMOND, Va. (AP) — A southbound Greyhound bus, careening out of control, after a sideswipe collision with a truck, met a northbound auto headon Saturday on U.S. 1, 25 miles north of Richmond.

Three persons in the car died. Twenty-one bus passengers were injured, none seriously. A dozen of the injured were transported to Richmond hospitals by rescue squads. The rest were treated in Ashland, 12 miles north of Richmond.

The dead, in a late model car with Florida plates, were not immediately identified.

The entire front half of the car was mashed beneath the front of the double-decked bus, bound from Detroit to Norfolk with a full load of 43 passengers. The bus was driven by Robert W. Wartham, 54, of suburban Henrico County.

A large solar funace is operated by the United States Army at Natick, Mass.

Scout Taken From Pass

BOULDER, Colo. (AP)—A rescue party took five hours to bring an Explorer Scout down from a 13,000-foot mountain pass Friday night after the youth was burned severely by a lightning bolt.

The rescuers reached 16-year-old William MacDonald of Denver about 6 p.m., and using a special one-wheel stretcher made the torturous return trip with the injured youth.

MacDonald was one of 16 Explorer Scouts on a mountain hike when a summer storm struck. A lightning bolt knocked him unconscious and burned him on the head, right shoulder and back.

He was reported in good condition Saturday at Boulder Community Hospital.

Communists In Uruguay Increase

MONTEVIDEO, Uruguay (AP) — Latin America's Communist parties had a total of 230,000 registered members at the end of last year, an increase of 7 per cent over 1957, the economic review Letter Commentary estimates. The English - language weekly said 38 new Communist or fellow-traveling newspapers or magazines appeared in Latin America, boosting the total to 316.

Welder Plunges To Death On Cliff

PACIFICA, Calif. (AP) — A Oakland welder stepped back Saturday to take a picture of his bride of six months and fell 520 feet to his death down a coastal cliff known as Devil's Slide.

Earth at the edge of the cliff gave way and Van Terrel, 26, plunged over an 80-degree drop. His body hit a rocky ledge before the Pacific's surf.

Mrs. Terrell was led from the scene in hysterical condition.

Minneapolis has been famous for its flour mills for 70 years.

Senate Could Solve Problem

By DAVE CHEAVENS

AUSTIN (AP)—If the State Senate wants to it can unravel the Texas tax tangle in short order next week. It probably doesn't want to, yet.

Some of the old knots that baffled solution in previous efforts to balance the budget with a big-enough revenue measure remain in the bill approved this week by the House.

The major question remains: will the Senate accept any form of natural gas pipeline tax?

The House wrote a token pipeline into its bill with conservative members agreeing and liberals objecting that it was not enough. But they finalled voted together in an action that showed real evidence of a spirit of compromise.

Will the same spirit hold in the Senate?

Up to this point the senators have balked at any sort of pipeline tax. A majority objects to the House bill provisions easing up on sulphur taxes and on a gasoline tax rebate for city buses. It almost certainly will go along with the House on the numerous sales tax items approved in the measure voted Friday.

House Speaker Waggoner Carr made a statewide appeal for compromise as the special session ended its second week.

Carr, who has been an open foe of a natural gas pipeline tax, voted with the House majority when it gave 102-38 final passage to the revenue bill variously estimated at being worth 168 to 180 million dollars for the two-year fiscal period.

The House recessed until Tuesday. Its part of the new effort to solve the crisis was disposed of for the time.

The Senate returns Monday and and the tax measure will be waiting. If some unexpected, immediate meeting of the minds takes place, it could join the House to passing the bill by a two-thirds majority to give it quick effect.

The House two-thirds vote was actually an effort to show that while its membership is not that close together on many specific items in the bill, it could join in hurrying up the process. Included was the hope that the Senate would, also.

Instead, the Senate is expected to make some changes in the bill. For one thing, it will make sure there is enough money in it. Then the measure will go to a conference committee again for another round of negotiation.

That adds up to considerable progress but no short-cuts, no speed-up. The third called session ends Aug. 15. That leaves three weeks for the interests opposing any natural gas tax at all to continue fighting the House proposition.

As it stands now, the natural gas pipeline tax is regarded solely as an effort to give the principle another run in court. Texas' previous effort to tax exported gas was knocked down legally. Opponents of this type of tax, including the major oil and gas interests, would like for that to stand without any testing of a law designed to avoid the legal pitfalls of the invalidated measure.

Even with a token gas tax, it is becoming more obvious than ever that the trend toward sales taxing in Texas is picking up speed. Any revenue bill that emerges from this Legislature will be mostly a sales tax even though it escapes the label of "general" sales tax.

Negro Beaten To Death By Quintet

DETROIT (AP) — Police said five white men beat a 32-year-old Negro to death today in a street fight following a minor traffic incident.

Doctors said the victim, Clyde W. Hardman, of suburban Inkster, suffered a broken neck. An autopsy was scheduled to determine the exact cause of death. Police said Hardman might have been run over by a car after the beating.

Inkster detective James O. Lawson said three men have been picked up for questioning in the attack and two others are sought.

Police said Hardman, his cousin, Theadus Darden, 25, and Willie Carpenter, 20, had narrowly missed hitting another car which stopped suddenly in front of them.

Darden, who was driving, said the other car containing five white men followed and cut him off when he tried to make a U turn.

Police said the five men jumped out and beat the three Negroes with tire irons, a blackjack and beer bottles. Darden tried to drive away but ran into a utility pole when one of the assailants hurled a cement block through the windshield.

Darden fled on foot to summon help and returned to find his two companions on the ground and the five men driving off.

Hardman, who was born in Preston, Ark., was a construction worker and lived with his cousin. His parents still live in Preston.

Police traced a car answering the description of that driven by the assailants to Allen Geraux, 21, of Nankin Township. He was one of those held for questioning along with two 18-year-old youths, Sherman Robert Foster of Inkster and William J. Fisher, Dearborn Township.

Newsmen See New Plant

LUBBOCK (AP)—Visiting newspaper men were given a preview Saturday of the Lubbock Avalanche and Journal's new plant.

Sunday it will be open to the general public.

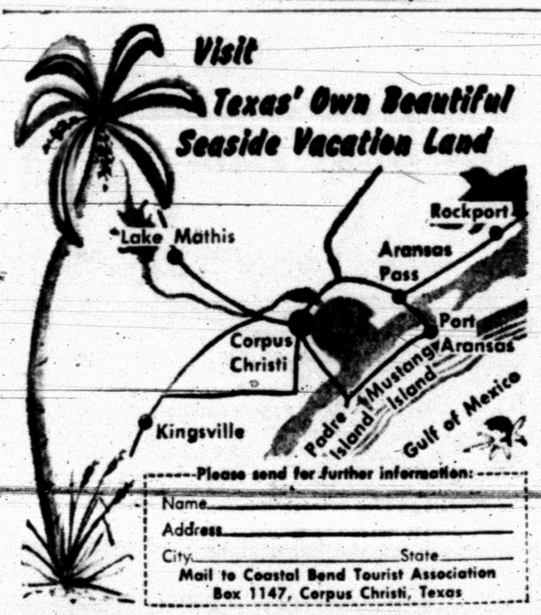

The occasion is being celebrated with publication Sunday of a special "progress and anniversary" edition, marking Lubbock's 50th anniversary as an incorporated city as well as the newspaper's growth.

The mosning Avalanche and the evening Journal, of which Parker F. Prouty is president, moved into the modern three-story plant last month.

The plant occupies a block and has more than 81,000 square feet of space. It also has adjacent railroad trackage and warehouse facilities.

Charles A. Guy is editor and publisher of the two newspapers. They have a daily circulation of more than 67,000.

The special edition of 200 pages will tell the exciting story of the settlement and growth of Lubbock and the South Plains. Special sections will describe the Avalanche-Journal's new plant.

Chicago Man Loses His Life's Savings

CHICAGO (AP)—A 78-year-old city employe told police Saturday he lost a wallet containing $35,000, his entire life savings, three days ago.

Leroy Hunter, a sidewalk inspector, said he lost the money Wednesday while working on the South Side and searched for it for three days to no avail.

Hunter said he always carried his savings, accumulated since 1932, because he doesn't trust banks.

Ike Gets In Golf

GETTYSBURG, Pa. (AP) — President Eisenhower and an old friend, George E. Allen, played 18 holes of golf Saturday under hazy skies.

The president came to his farm from Washington Friday and he and Allen played an 18-hole round late in the day.

Troops Stay In Berlin, Says Herter

BERLIN (AP) — Secretary of State Christian A. Herter declared Saturday Western troops are indispensable to West Berlin freedom and will remain here. He also declared the West never will accept any Soviet deadline for a settlement of the Berlin problem in the foreign ministers negotiations in Geneva.

Herter flew here for a visit during a day off in the Geneva conference and dedicated a street named for his predecessor, the late John Foster Dulles. The visit was aimed at bucking up the [illegible] of West Berlin's 2½ million citizens, who have begun to worry about what is going to happen in the Geneva negotiations that have been dragging on for eight weeks.

In a ceremony of signing the golden visitors' book at West Berlin City Hall Herter said: "I know that the people of West Berlin regard our troops, and those of France and the United Kingdom, as defenders of their freedom. I know that the presence of these troops, which will be preserved, is indispensable to the continuance of that freedom."

Declaring that Western rights in Berlin cannot be terminated by action of the Soviet Union alone, Herter added that "we have not accepted and will not accept any deadline on them."

Nixon-Krush Film Released

NEW YORK (AP)—The video tape recording of the sizzling exchange between Vice President Richard M. Nixon and Soviet Premier Nikita Khrushchev was released Saturday night.

A snarl of confusion that reached halfway around the world and apparently involved State Department efforts not to offend the Russians had first threatened to delay indefinitely the first American showing.

Just exactly how it was all straightened out was not clear even yet, but the three major networks promptly scheduled the dramatic face-to-face wrangle on their 11 p.m. news shows. NBC will also show the tape in color Sunday at 6 p.m. EST.

They called wire services to announce they had received a go-ahead.

The video tape recording arrived here by plane Saturday morning and was scheduled to have been shown at various times Saturday and Sunday by the ABC, CBS and NBC television networks.

But before they could get on the air with it, they began to encounter an exasperating and puzzling series of circumstances.

First came word from the State Department that American showing of the 16-minute color recording was to be held up until a copy could be made and sent to Moscow for simultaneous transmission over Soviet TV. That would require at least a day or two.

Then began a rash of telephone calls to Washington and Moscow to ascertain who issued the order and what prompted it. The results led to even further consternation.

At first, the networks got the idea that Nixon himself was the originator and that the delay stemmed from an agreement with Khrushchev.

Then the networks got through to Nixon and his aides, who expressed surprise over the situation. A CBS correspondent with Nixon informed his office here that the vice president disclaimed responsibility for the order.

Slow Speed Washing In The Jet Age

In this modern high speed age of jets, rockets, missiles, sports cars, and even electronic cooking, slow speed washing is all the rage. According to the experts girdles, lingerie, lacy synthetics, most drip-dry garments and even wool can be home laundered with the slow speed wash cycles on new automatic washes.

Slow speed washers are those that have two washing speeds; normal for the bulk of family laundry and slow speed that gives a gentler action for special articles which formerly required inefficient and long drawn-out hand washing. A choice of regular or slow spin speeds is also available.

On some brands, "normal" or "slow" wash cycles may be selected by setting a dial. On others, wash speed is pre-set and automatically determined by the wash cycle selected, depending upon the type of load being washed. The slower or gentle speed cycle is usually called "fine fabric", "short" or "modern".

Here's how to launder some of the fine things formerly taboo to the automatic washer.

GIRDLES. Girdles Can be washed in automatic washers. In fact, frequent laundering is essential to prolong the life of rubberized garments. The ease of automatic equipment insures maximum use. To wash girdle, close zipper and if there are garters, place in a pillow case. Fill washer with warm water, use plenty of detergent, and wash for about three minutes. Rinse and spin dry as with other loads. When dryer-drying, leave girdle in the pillow case if one is used and tumble until just dry on low heat setting.

WASHABLE WOOLENS. Since research has found modern fabric washer cycles satisfactory for washing many woolens, more garments of this class will be on the market this fall. New, permanently-set pleats will add to the desirability of washing more woolens. Don't be afraid to launder winter blankets in you washer and automatic clother dryer, whether they're all wool, part wool, dynel, or orlon. They may be dried in the automatic clothes dryer too. Just remember to pre-heat two or three heavy towels in the dryer, then add one blanket only and tumble until nearly dry, DO NOT DRY COMPLETELY IN THE DRYER. Press the binding with a steam iron. You'll be delighted with the freshly-fluffed softness of blankets after dryer-tumbling.

MR. AND MRS. ROBERT E. HAGINS

(photo by Craft Studio)

Shirley Ann Payne Becomes Bride Of Robert E. Hagins

with 3 col pix Mr. and Mrs. Robert Hagins jdy

In a candlelight ceremony at the Greenhill Baptist Church on July 18, at 8 p.m. Shirley Ann Payne and Robert Ezell Hagins exchanged wedding vows.

Parents of the couple are Mr. Rufus D. Payne, 3804 Muriel Drive and Mrs. Hazel Hagins, 2108 Fortieth Street.

The double ring rites were performed by the Rev. Bill McCrary. The church was decorated with arrangements of white gladioli and branched candelabra holding with tapers.

Given in marriage by her father, the bride wore a white lace gown over taffeta, fashioned with a Sweetheart neckline, long sleeves that came to points over the hand and a pleated panel in the bouffant skirt. Her finger-tip length veil fell from a pearl and rhinestone tiara. She wore white satin shoes.

The bridal bouquet was a colonial arrangement of red roses atop a white Bible.

Matron of honor was Mrs. Bill Hicks. Bridesmaids were Dorothy Payne, sister of the bride and Sammie Hagins.

Hal Holliday of New Mexico served as best man. Ushers were Ronald Neighbors and Fred Reynolds. Groomsmen were Jack Beal and Bob Bomar.

Mrs. James Jones ang "Because," and "The Lord's Prayer," accompanied by Dannie Ogden, organist who played the traditional wedding music.

Following the ceremony, the reception was held in fellowship hall. The refreshment table was centered with the bridesmaids bouquets with crystal and silver appointments.

Rosa Franks presided at the four-tiered wedding cake, topped with a miniature bride and groom assisted by Mrs. Ronnie Winkles.

For a two weeks wedding trip to Colorado and Wyoming the bride wore a black and white sheath dress with scooped neckline and white accessories.

The couple will live at 2108 Fortieth Street. Mrs. Hagins is a graduate of Snyder High School and presently employed with Wilson Motors.

Mr. Hagins graduated from Snyder High School and is employed with McCullough Tool Co. here.

Out-of-town guests were Mrs. H. C. Smyers and Mrs. Walter Dickie of Kermit.

NEWS FROM KNAPP

By MRS. BEN WEATHERS

Ben Weathers returned to the hospital in Big Spring Thursday for further treatment in regard to a recent operation he had undergone.

Virgil Mott, music and educational director of the First Baptist Church, Snyder, finished teaching a training union study course at the Knapp Baptist Church Thursday. The church will have regular training union.

Mr. and Mrs. Roy Warren of Colorado City were recent guests of Mr. and Mrs. Ben Weathers.

Mr. and Mrs. James Edward Weathers and Sherry Lynn of Hamilton, Mr. and Mrs. Alfred Weathers, Jr. and son Dickie of Amarillo, Mrs. Cora Weathers, and Mrs. Essie Orms of Snyder have been recent visitors in the Ben Weathers' home.

Mrs. D. L. Bowles and Mary Alice have returned from a three weeks visit with relatives and friends at Parody, La. Mrs. Bowles' sister, Mrs. Mae Kesnel of Louisiana returned to Borden County for a visit.

Mr. and Mrs. Hubert von Roeder have been visiting with the von Roeder friends and relatives of Borden and Scurry county.

Miss Doris Steadman returned Thursday from visiting with Alpine relatives.

Winnell Tucker of near Meadows, spent the week visiting with her grandparents, Mr. and Mrs. J. E. Sorrells.

Dorothy Bowles of Lubbock was a weekend visitor of her parents the D. L. Bowles', Mary Alice and Mrs. Kesnel.

Don Gressham returned to Lubbock entering Texas Tech last Tuesday.

NEWS FROM FLUVANNA

By MRS. SID MILLER

Mr. and Mrs. W. C. Kerley of Hermleigh visited Sunday with Mr. and Mrs. A. L. Odom.

Mr. and Mrs. B. M. Turner of Seattle, Wash. are visiting his parents, Mr. and Mrs. Guy Turner Sr. and other relatives and friends.

Those visiting recently in the home of Mr. and Mrs. Ray Fulford were Nerine and Barbara Kinsey of Gatesville, Martha Ann and John Kinsey of Robert Lee, and Mr. and Mrs. Ray Walton and Mike of Fort Worth.

Mr. and Mrs. Billy Cade and Lovita of Jayton visited over the weekend with Mr. and Mrs. J. R. Jones and boys. Lovita is spending the week here with her grandmother, Mrs. Jones.

Nelda Jo Warren is visiting this week with her cousin Prissy Perry in Odessa.

Bobby Dian Warren is spending this week in New Port with Eddy Creek.

Mr. and Mrs. Jack Nesbitt and amily of Wichita, Kansas, visited Mr. and Mrs. Joe Belew recently.

Mrs. Mary May is visiting from Florence, Ala. with Mr. and Mrs. Joe Belew.

Mrs. Ralph Lindsey, Johnny and Margaret and Mrs. Cecil Latham, Glenn and Joyce of Ira, visited Wednesday with Mr. and Mrs. A. M. Lindsey.

Mr. Alvin Cauble of Vincent, Tex. visited Mr. and Mrs. Bob Jennings recently.

Those visiting Mr. and Mrs. Neil Holder Sunday were, Mr. and Mrs. Jackie Holder and Kent, Mr. and Mrs. Royce Holder and Jeff, and Nancy Hardin, all of Snyder and Boyce Holder of Sweetwater.

Mr. and Mrs. J. N. Holder of Merkel and Mrs. Charles Lauw and children of Sweetwater, visited Tuesday night with Mr. and Mrs. M. A. Gleghorn and family.

Cream Cake

INGREDIENTS: 2 cups sifted cake flour, 2 teaspoons double-acting baking powder, ¼ teaspoon salt, 2 large eggs, 1 cup sugar, 1 teaspoon vanilla extract, 1 cup heavy cream.

METHOD: Sift together the flour, baking powder and salt. With rotary beater (hand or electric) beat eggs, sugar and vanilla until thick and almost white in color. Add sifted dry ingredients, in about 4 additions, alternately with cream, beating well after each addition. Turn into well-greased baking pan 13 by 9 by 1¾ inches. Bake in moderate (350 degrees oven) 30 minutes or until cake tester inserted in center comes out clean. Loosen edges with spatula; turn out on wire rack; turn right side up; cool before cutting. Serve in slices or squares to accompany strawberries and heavy cream (plain or whipped). Makes 8 to 12 servings.

Snyderites Return From Southern Tour

Mr. and Mrs. Ellis G. Butler and daughter, Inez, 1700 Twenty-eighth Street, and Miss Karen Roberson, have returned from an early July tour of the states of Louisiana and Mississippi.

While in Mississippi, Mr. Butler was presented with a book titled "Liberty & Amite County Sesqui-Centennial", which featured his family history and home place, one of the late Gail Gorden residence which is a Butler inheritance.

In Louisiana they visited many places of interest. One outstanding was "Afton Villa" a French gathic chateau, constructed in 1790, it has 40 rooms. Each carried a story of its own of gracious living and entertainment from the moss draped branches of the huge oaks by the drive to the spacious well kept gardens beyond.

Silt was pumped from Lake Michigan's bottom to lay a 15-foot base over thousands of acres on which are now located many of the major steel mills in Gary, Ind.

Tri-Community H-D Holds Meeting Wednesday

The Tri Community Home Demonstration Club met Wednesday at 2:45 o'clock at their club house. Mrs. Lowell Bearden, president, presided. Roll call was answered by "How I met my husband."

A committee was appointed to plan an ice cream supper for members and their husbands in August.

Mrs. Guy Stoker read a letter concerning the National Home Demonstration club meeting which will be held in Oregon. Miss Sue Herring gave an interesting report on 4-H club work. She told of the varied activities and goals that a 4-H girl may achieve. In conclusion she showed her 4-H record work book. Sue belongs to the Fluvanna 4-H Club.

Mrs. B. M. DeLoach was hostess. The club will be recessed until September.

Lindsey Reunion Held Sunday

FLUVANNA (Spl.) —The Lindsey family reunion was held Sunday in the home of Mr. and Mrs. A. M. Lindsey with all their children in attendance.

They were: Mr. and Mrs. Ralph Lindsey, Lee Roy, Jimmy, Johnny and Margaret of Ira; Mr. and Mrs. Jesse Lindsey and Billy, and Mrs. Vivian Heath, Neva and James of Snyder; Mrs. L. B. McDonald, Bangs; Mr. and Mrs. Alvin Louis McDonald, Devona, Beverly and Patty of Moses Lake, Wash.;

Mr. and Mrs. Buddy McCorkle of Brownwood; M-Sgt. and Mrs. John H. Roddy of Wichita Falls; Mr. and Mrs. Sid Miller, Dorothy, Barbara and Robert, and Elbert Lindsey of Fluvanna.

Hair Fashion Forecast For Fall And Winter, 1959-60

Your hair style this fall and winter will emphasize the American Girl Look, according to the Official Hair Fashion Committee of the National Hairdressers and Cosmetologists Association, the hair fashion authority of the beauty profession.

The new hair fashion that will give you this look is the American Caprice Coiffure, a style in time with the new fashions in clothing, millinery, furs and accessories, all of which are directed toward intensifying the femininity of today's women.

The American Caprice is pure romantic fancy . . . but completely under control for easy manageability, remarkable adaptability and an utterly feminine effect.

One of its most distinctive features is the full front the full back silhouette, both of which are designed into a triangular or heart shaped outline. The triangle rises from a point at the chin for the front silhouette, and from a point at the nape for the triangular effect at the back.

Undefined waves of cloudlike lightness rise at the sides, swirling romantically outwards and up from the hairline, melting into a crown of brushed control.

The nape line is softly fitted, moving up into gradually increasing fullness at the crown. At the front hairline, the hair moves gently back into a soft lift of light and billowing waves, again undefined, but soft, airy and almost transluscent.

All of the soft and airy lightness, the greater emphasis on more undefined waves, and the free and easy movement are controlled with individually prescribed professional permanent waving.

The triangle silhouette must be tempered for each person, announce the authorities of the National Hairdressers and Cosmetologists Association. It can be turned up into an extremely triangulated effect with flowing wings or widely arched crescents at the sides, or it can be softly modulated at the corners for a gently fashioned effect. In either case, it is frankly feminine, and disarmingly capricious.

Hair length at the sides is ear tip length of two inches, rapidly tapering out to approximately four inches. Treatment at the ears results in a peek-a-boo effect. Hair at the nape tapers rapidly from a half inch to approximately four inches at the crown. Beginning at the forehead with a well-tapered two and a half inches, the hair extends to four inches at the crown.

The hair fashion palette of fall and winter wardrobes — neutral tones of blacks and grays, and beige and browns — calls for greater emphasis on hair coloring to intensify the personality.

Nevertheless, all beautiful women this fall and winter will not be blonde, though this continues a popular color. Brown hair will excite many with truly American hues of rose brown, tawny blond to goldeh brown, and comet colors in brown hair. Important note is that all brown hair must be highlighted and glowing, full of moonbeams or multi-color mahogany northern lights.

Special care must be given to make certain that your hair glows with a brilliant lustre and gleam of health. Post-summer hair conditioning with professional beauty care will help you correct the ravages of summer's sun, wind and water.

Make-up, Fall 1959, will relieve you of the pale look, without adding a blatant effect. Desired effect is a natural appearance, an alert look of the American woman coming into her own. Stronger lip shades will be used, such as coral and strong pinks. More eye make-up will also be used, and false eye lashes will continue strong. But none are to give an over made-up look. Consult your NHCA cosmetologist for your proper selection of colors and cosmetics.

LIBRARY NOTES

The Bible has been a prolific source of subject material for the modern novelist, and the numerous books at the Scurry County Library based on Bibical history are in constant demand, according to the library staff. Old Testament stories, with all their color and drama, vie favorable with the tender stories found in the New Testament as the basis for recent Biblical historical novels.

One of the most recent Biblical novels is Laurene Chinn's "The Unanointed," which is the story of King David and the men and women surrounding him. David, according to the novel, had a magnetic personality and those who came in contact with him loved and served him steadfastly. Joab gave up the lovely Reba to David, and unsefishly devoted himself to helping David unite the Israelite tribes and become the King of Israel. "The Unanointed" is an exceptionally good novel, full of drama, romance, and human interest and is a remarkable picture of one of the most fabulous periods in Bible history.

Another recent novel is "Dear and Glorious Physician", by Taylor Caldwell. The author gives a moving and convincing picture of St. Luke, who was obsessed first, last, and always by the vital urge to be a physician. The star which heralded the birth of Jesus lighted Luke's was as the personlity of the Christ led him to make one of the dearest contributions to Biblical literature—the Gospel according to St. Luke.

Author Frank Slaughter has been a prolific writer of Biblical fiction as well as fictionized medicine. He has combined both most expertly in a recently-published novel. "The Thorn of Arimathea." The hero is Quinyus Volusianus, a physician and Roman Centurion, whose life is linked closely with Joseph and his ward, Veronica. Other recent Biblical novels by Slaughter include "The Galileans" "Song of Ruth," "Road to Bithynia," and "The Scarlet Cord" His latest book "The Crown and the Cross" is on the best seller list.

Sholem Asch also has written a number of novels with Biblical themes, including "The Nazarene" "Moses," "Mary," "The Prophet," and "The Apostle."

Other novels based on Bible history are "The Silver Chalace," by Thomas B. Costain; "The Big Fisherman" and "The Robe" by Lloyd C. Douglas; "And Walk in Love", by Henrietta Henkle; "Mary of Nazareth" and "The Promise," by Esther Kellner; "Joseph and His Brothers," by Thomas Mann; "Exodus," by Leon Uris; "Ben Hur," by Lewis Wallace; "David the King," by Gladys Schmitt; and "Ester" by Norah Lofts.

Nelson Eddy, noted stage and screen singer was a newspaperman before turning to singing.

Hearty Tuna

INGREDIENTS: 1 can 6½ ounces) chunk-style tuna, ½ cup finely diced celery, ¼ cup mayonnaise, ½ teaspoon lemon juice, 2 tablespoons minced sweet pickles, minced shallot or onion, salt, pepper, 10 slices whole-wheat bread, butter, salad greens (if desired).

METHOD: Turn tuna (including oil) into a small mixing bowl; add celery, mayonnaise, lemon juice, pickles and shallot, salt and pepper to taste. (There will be about 1¼ cups of the spread packed down). Using ¼ cup of the mixture for each, make sandwiches of the spread and the buttered bread; add salad greens to sandwiches if used. Cut each sandwich into 4 triangles. Makes 5 hearty sandwiches.

Beauty Tips from ME to YOU
BY Ima Hampton

Today hair coloring is accepted as another kind of make-up. One of the most important. Now we can change our hair to suit our personality or costume. A bronzer tint can be sprayed on, for a festive evening and brushed out in the morning for everyday living.

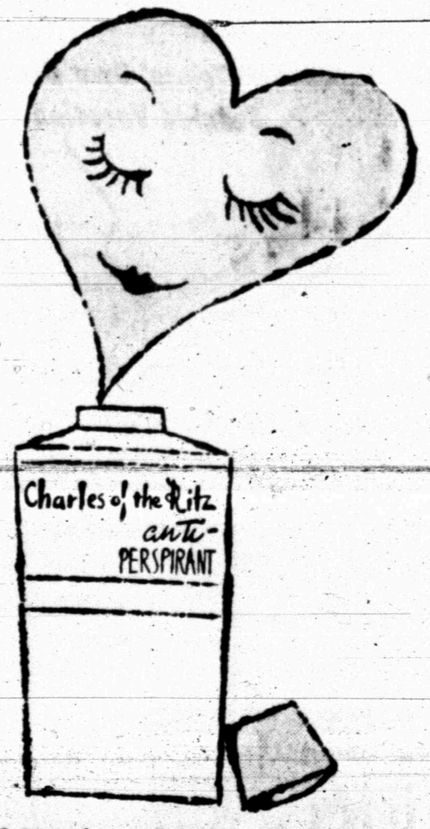

For the fading, older woman who does not care to go grey there are many rinses that range from pewter to platinum, or smoke grey to mauve blue. These can be so flattering that greying hair becomes an asset.

Our Beauticians are attending styling lessons in Lubbock Sunday on the fall and winter trend—American Caprice. Our patrons will always be up on the latest trends at our salon.

Wonder why you sometimes don't look as radiant as others? Remember that the most important elements in beauty coloring are time and light. Plan ample time for careful make-up and place the mirror near a bright window or a high voltage light. It will pay off later.

BECKY JONES is pictured above on the right, on the putting course with Linda Brown of Rotan. The girls report a wonderful time at camp this year.

Snyder Girl Trying Hand At Golf

HUNT, Tex. — Becky Jones, daughter of Dr. and Mrs. Wilton N. Jones, 2808 Thirty-fifth Street, is attending the second term of Heart O' the Hills Camp for junior girls. The camp is located 16 miles west of Kerrville in the Guadalupe River country.

Activities offered at the camp include arts and crafts, archery, land sports, golf, swimming and diving, canoeing, fishing, dramatics, twirling, horseback riding, dance, campcraft, roller skating, journalism and photography.

The camp is directed by Mrs. Kitty Magee of Denton and is owned and managed by Mr. and Mrs. Kenneth Jones.

Poppy Crescents

INGREDIENTS: 1 envelope active dry yeast, ¼ cup warm (105 to 115 degrees) water, 1 cup scalded milk, 1-3 cup sugar, ½ cup shortening, ¼ teaspoon salt, 3 eggs, 4 to 4½ cups sifted flour, 1½ cups quick-cooking rolled oats, Poppy Seed Filling.

METHOD: Soften yeast in warm water. Pour scalded milk over sugar, shortening and salt; stir occasionally to melt shortening; cool to lukewarm. Beat in eggs and 2 cups of the flour; add softened yeast and oats. Stir in enough more flour to make a soft dough. Turn out on a lightly floured board or prepared pastry canvas; knead until satiny—about 10 minutes. Round dough into a ball; place in greased bowl; brush lightly with extra melted shortening. Cover and let rise in warm place until double in size, about 1½ hours. Punch dough down; turn out on lightly floured surface. Cover and let rest 10 minutes. Divide dough into 3 parts. Roll one part to form a 12-inch circle. Spread with one-third of the filling. Cut into 16 equal wedges. Tightly roll each wedge from outer edge towards center of circle. Place on greased cookie sheets a couple of inches apart and curve. Repeat with remaining dough. Let rise in warm place until almost double in size, about 45 minutes. Brush with slightly beaten egg white—a little may be saved from the egg in dough. Bake in hot (400 degrees) oven until golden brown—about 10 minutes.

POPPY SEED FILLING: Mix together 1 cup poppy seeds, 1-3 cup water, ¼ teaspoon cinnamon, grated rind of 1 orange.

Cuthbert Postmaster Retires After 32 Years Of Service

CUTHBERT (Spl.) — About 80 friends of Julia Gunn, soon to be retired as postmaster at Cuthbert, assembled at Fairview Monday evening for an appreciation gift social.

Hostesses for the event were Mmes. C. C. Berry, Rex Klepper, Cecil Erwin, W. W. Hester, Joe Thompson of Ira, Lewis Dunn, L. A. Browne, Will Berry, C. P. Wiggins, R. E. McMillan of Colorado City, Elmo Dunn, Myrtie Dunn, J. C. Womack and Harold Hester.

Mrs. Hester registered the following guests: Mr. and Mrs. Perry Mathis, Nancy Mathis and Mrs. C. O. Trantham all of Big Spring; Mrs. Will Berry, Will C. Berry, Mr. and Mrs. Lee Strain, Miss Linda Preston, Neta Erwin, Cecil Erwin, B. L. Autry, W. W. Hester, Mrs. O. W. Halladay; Mrs. G. W. Madison, Linden and LaJuana Solomon, Mr. and Mrs. Joe Thompson, Ira; Lewis Dunn, Mr. and Mrs. Jack Dunn, Mrs. E. M. Fisher, Colorado City; Mrs. Lon Strain, Mrs. C. P. Wiggins, C. P. Wiggins, Kay Wiggins, Mr. and Mrs. Ernest Uzzle, Miss Vonita Cawthorn of Colorado City; Mr. and Mrs. Drue Cathorn, Glenda Cawthorn, Velma Sheppard Loraine; Mr. and Mrs. L. A. Strain Jr. and boys, Mr. and Mrs. A. P. Morris and sons, Mr. and Mrs. Shelton Ward, Mr. and Mrs. Bennie Black, Christine and Elmo Dunn, Mrs. Raymond Uzzle, Ramona, Kevin and Lucretia Ann; Mrs. J. C. Womack, Mrs. Willard Thurman and Mr. and Mrs. D. M. Womack, Colorado City; Mrs. Myrtie Dunn, Jim Hodnett, Vincent, Phoebe Jo Lewis, Mr. and Mrs. Ralph Payne, Dublin, Mr. and Mrs. Earl Hays.

Mrs. Gunn has been postmaster at Cuthbert almost 32 years and has spent about 52 years of her life in the Cuthbert community. She will be retired July 31, then move immediately to Big Spring.

Mitchell-Scurry WMU To Meet Thursday

The quarterly meeting of the Women's Missionary Union of Mitchell - Scurry Baptist Assn. will be held Thursday in the Oak Street Baptist Church in Colorado City.

The services will begin at 10 a.m. and Lawrence Chu of Hong Kong, a foreign student at Wayland Baptist College, will be principal speaker at 11:30 a.m.

A luncheon will be held during the noon hour.

Asparagus

INGREDIENTS: 2 pounds asparagus, ¾ cup boiling water, ¼ teaspoon salt, ¼ cup butter, ½ cup freshly-grated Parmesan cheese (not packed down).

METHOD: Break tough ends from asparagus. With swivel-blade vegetable peeler, remove fibrous outer covering up to buds; wash in cold water; drain. Cook asparagus in 10-inch skillet with boiling water and salt, covered, just until tender-crisp 7 to 10 minutes. Meanwhile brown butter; pour over drained hot asparagus; sprinkle with cheese. (Use a rotary-type grater for the cheese, if available, so it will be fluffy.) Makes 6 servings.

Women Fire Spotters Are Reliable

ALBANY, N. Y. (AP) — "When there is a bad fire, it seems to still the air. And the loneliness creeps in,' the middle-aged widow says.

As she stands in her lofty perch atop Sugar Hill in Schuyler County northwest of Elmira, N. Y., Mrs. Lorna Dewitt watches for forest fires as do three other women in other parts of New York State.

The four, among New York's 108 fire-spotters, have been keeping vigil for a total of 45 years.

The veteran is Mrs. Helen Ellett 45, who has watched near Troy for 12 years. Mrs. Sophia Anderson, 60, has been on duty southeast of Syracuse for 10 years. Mrs. Leona Borst, 53, has watched west of Albany for nine years, and Mrs. Dewitt for four years.

"They are real experts at scanning the horizons for fires," says Solon J. Hyde, head of the New York State Conservation Department's Bureau of Forest Fire Control. "They are very reliable."

When the trees are green, the grass lush and fire danger low, the women occupy themselves with planting trees, reading, fixing screens, cutting brush, mending the family clothing, painting, watching creatures of the forest or tending the recreation sites the state has built at many towers.

Mrs. Anderson has spent up to 18 consective days on the job in or beside her 90 foot tower.

"No one relieves me," she says. "I just go on duty until a rainy day, then I call in and get the day off."

To Mrs. Ellett, "All fires are exciting, and not to be taken lightly."

Hyde discourages assignment of women to isolated towers, even though there is a cabin at the foot of each observatory. Watchers who earn $61 a week, are not required to live at their posts but many do during very dry spells. They work about seven months a year.

Few cabins have electricity. All have telephones to spread word of danger.

Mrs. Ellett's home is 5 ½ miles from her tower. When spring and fall mud discourage motor travel, she mounts a horse for the trip.

"But the ones where the wardens call the tower and ask for all the help they can get are especially exciting," she says. "I call the stores and other places and ask them to tell the men who are there of the fires, and call the wardens and rangers to get all help available and take them to the fires."

CREDIT—CASH—LAY-AWAY!

THIS NEW $2 million livestock coliseum now under construction on the state fair grounds in Dallas will be complete in time for the 1959 State Fair of Texas in October. It will be the scene of a series of horse shows during the fair. It will seat 7,108 persons.

State Fair Is To Feature New $2 Million Coliseum

The big new feature of the 1959 State Fair of Texas, Oct. 9-25, will be the mammoth $2,000,000 Livestock Coliseum and related facilities that will go into use for the first time during the fair this fall.

Under construction on the fairgrounds for over a year, the huge steel-and-concrete structure is one of the finest and most modern facilities of its type in the nation.

The Coliseum occupies the site where the old fairgrounds Grandstand and Picnic Pavilion were formerly located, between the Cotton Bowl stadium and the main parking lot.

The new Coliseum will be dedicated at ceremonies on the first Saturday night of the fair, Oct. 10. During the fair, it will be the scene of the first annual State Fair of Texas Horse Show, a series of competitive events for most of the light horse breeds in the country which will offer premiums totaling $34,840.

The State Fair Coliseum will have seating for 7,108 in permanent and box seats, with all seats having an unobstructed view of arena action. Seating capacity can be increased to 11,000 through use of arena space during center focus events such as boxing.

Observation facilities for judges and officials and for press, radio and TV personnel also are provided.

Adjacent to the Coliseum is a horse building with 304 stalls of the most modern type, wash racks and tack rooms. There is a large exercise space next to the building.

The size and design of the new State Fair Coliseum make it one of the country's most admirable settings for major horse shows and rodeos. The Coliseum's advanced acoustical treatment, its loud speaker system, dressing-room facilities, accessibility of the arena floor and the versatile lighting system equip it for a wide variety of functions.

AGRICULTURE

Farm Sales Double By Land Contract

COLLEGE STATION — Sales of farmland financed by land contract, a device which bypasses credit institutions as a party to the sale, have about doubled since 1946, says A. B. Wooten, extension economist.

The buyer deals directly with the seller in land contract transactions. No mortage is written, and the buyer does not take title to the property until his installment payments add up to a substnatial portion of the selling price, the economist says. Land contracts are one of the several credit devices currently helping to meet the demand for land during a period of rising prices. Rising prices usually tend to discourage those buyers lacking either sufficient cash or the credit to obtain conventional mortgage.

In the year ending March 1 1958, sellers financed 43 per cent of all farmland sales, says Wooten. The total was about the same as the combined loans for farmland purchased by credit institutions, including Federal Land Banks, during the period.

A land contract has attractions for both buyers and sellers, says Wooten. The buyer is able to get control of a farm, usually for a small down payment, leaving him free to invest his capital in farm stock and equipment. The seller, on the other hand, gains a tax advantage by selling through a land contract as the total income tax on his capital gain when spread over a number of years, may be considerably less than the tax on large sum received in a single year. To qualify for this advantage, he said, the seller must limit the down payment to 30 per cent or less of the selling price.

Some sellers, too, prefer land contracts because they furnish a steady income. Otherwise, sellers would be faced with the problem of reinvesting a lump sum profitably. And finally, in case of payment default, repossession under a land contract is much simpler and faster than under mortgages, he said.

Buyers assume a risk when buying with a land contract because their equity may be jeopardized if the contract is inflexible. In some states, a buyer can lose his total equity for default of a single payment. The risk has not been too important, up to now, because land values have continued to rise and farm income has been stable enough for most buyers to meet their installment obligations, adds Wooten.

Melon Field Treated For Big Output

COLLEGE STATION — An 80 acre field of watermelons in Brooks County sprayed four times with Dithane D—14 and zinc sulfate and dusted once with Zineb dust, produced over one million pounds of melons, an average of 12,500 pounds per acre, according to Harlan E. Smith, extension plant pathologist.

Last spring Smith visited Brooks County and told a group of growers that they could expect greater yields from a watermelon disease control program. The results this year demonstrated such a program's value.

The melon crop on unsprayed fields nearby averaged only 8000 pounds per acre. Smith said a second field which was dusted only with Zineb had less green foliage on vines than the sprayed field and the last cutting had been made a few days earlier. In the unsprayed fields, said Smith, the foliage was nearly destroyed and the ground looked bare except for weeds.

In one 160 acre planting of Charleston Grays, where the farmer had followed a well planned spray program, there was little evidence of leaf spots or virus diseases. The foliage was still in good condition 90 to 95 per cent, and the fifth cutting of high quality melons was being made at the time of inspection.

This grower used a high pressure sprayer with 500-600 pounds pressure, a 25-foot boom and a 400 gallon trailer mounted tank with tractor power take-off. He used Zineb spray (D-14 plus zinc sulfate) and an insecticide at 6-7 day intervals, wetting both bottom and upper leaf surfaces. Alternate spray applications were made by reversing the direction the spray rig traveled, Smith said.

This good grower had accomplished the following: he planted pimple-free seed, or seed nearly free of the pimple virus; by controlling insects he prevented the spread of the pimple virus, or had accomplished this by isolation better appearing, sweeter melon with fewer culls which sold for a ¼ cent per pound premium above local market price; and volume of marketable melons was increased by having less culls, especially in the last cuttings. There were no culls because of pimples, and size and quality were maintained in the late cuttings because of good foliage conditions.

Poultrymen Set Meeting In Dallas

COLLEGE STATION — The 36th annual meeting of the Texas Poultry improvement Association will be held in Dallas, August 18-20 at the Baker Hotel: Ben Wormeli, extension poultry husbandman, says the program has been planned to give those attending information needed to keep the Texas poultry industry moving forward.

President W. H. Schwedler, National Turkey Federation, Portland, Oregon, will discuss "Makeing Turkey Opportunities Today and in the Future" on the opening session of the meeting. Opening the Wednesday morning session, General Manager M. J. Framberger, American Dairy Association Chicago, Illinois, will give the poultry man a "Blueprint for Sales Success" and Thursday morning President Ray E. Parmenter, American Poultry and Hatchery Federation, Franklin, Massachusetts, will speak on "Factories . . . Industrial vs. Poultry."

Studies Made On Curly Mesquite

COLLEGE STATION—Since curly mesquite supplies much of the forage produced on the Edwards Plateau, studies were conducted during 1949-51 on the Sonora Substation by the Texas Agricultural Experiment Station relative to rates of utilization, chemical composition, productivity and longevity of this grass.

The studies were carried out by L. B. Merrill, associate in range management at the Sonora Substation and Dr. Vernon A. Young, head of the Range and Forestry Department at Texas A & M College. Copies of the publication MP—331 are available from the Agricultural Information Office, College Station, Texas.

Curly mesquite and other species of the short grasses have increased on the Plateau while the more productive bunch grasses have decreased. This, said the authors, was due to little or no attention given to the degree of utilization which sould be applied to desirable range plants to obtain sustained forage yields or to maintain a proper ecologial balance.

The dominant grass over large areas of the Plateau is curly mesquite, occupying 50 to 90 per cent of the basal ground cover and furnishing a major source of livestock forage.

Three sites were set up on different soil phases where curly mesquite was the predominant grass. Plots one by two feet in size were established on each site to determine the effect of clipping frequencies and heights on the grass. The plots were clipped at intervals of two weeks, four weeks twice yearly and once yearly at heights of ground level, one inch, two inches, and three inches for each frequency. Three replicate plots were established for each treatment, making a total of 48 plots on each site, the authors said.

Clipping at ground level twice yearly produced the maximum vegetative yields for all treatments, but the rather heavy reduction in vegetative yields for 1950 indicated that there might eventually be a loss of producing ability over a period of years.

Clipping at a height of one twice yearly produced the second highest forage yields. These yields might be expected to be maintained on a sustained basis, the authors added.

Prevailing Wage On Cotton Hoeing

Prevailing wage for cotton hoeing in Scurry County now stands at 65 cents per hour.

This rate, effective July 22, was announced by the Texas Employment Commission.

Buses are now used by pilgrims to the holy city of Mecca. Heretofore, camels were used.

Texas Farmers Need Sun For Crops

COLLEGE STATION, Tex (AP)—Texas farmers, with ample moisture and high hopes, need plenty of sunshine for cultivation, crop growth and harvest, the Texas Agricultural Extension Service reported Saturday.

Conditions are generally ideal after continuing July showers have provided moisture in practically every section of the state, said director John E. Hutchison of the Extension Service. Only in South Central Texas, and a few scattered counties, is rain needed.

Harvesters continue to move north from the Lower Rio Grande Valley, where cotton harvest is in full swing. The grain sorghum harvest also moved north from the Coastal Bend. Joe Rothe said at Weslaco that prospects for both crops are excellent.

Ranges appear to be far above normal throughout the state for this period of the year, and livestock is in good to excellent shape.

James Simmons said at Vernon that Baylor County has the best grass since 1950. Roy Huckabee at San Angelo said July rains have improved the pasture and stockwater situation in that area tremendously.

In the South Plains, where local hail still plagues some farms, W. H. Jones said at Lubbock that favorable weather generally has improved the crop situation greatly. He added that crops in the Gaines-Scurry-Mitchell section are the best in years.

Cotton insects are reported in most every section. They range from light to heavy in Central Texas said R. G. Burwell at Stephenville, but many farmers are applying insecticides. Ray Siegmund reported at Fort Stockton that cotton insect damage is light as all cotton, alfalfa, grain sorghum and vegetables make excellent growth along with ranges after additional moisture.

There's heavy bollweevil and bollworm infestation in South Central Texas Joe M. Glover of Gonzales said.

Wet soil has hampered field work in parts of the Panhandle said W. W. Grisham at Amarillo. It will be of much benefit to growing crops. Ranges are in good shape.

Potato harvest is under way in Deaf Smith, Parmer and Castro counties in the Panhandle, and watermelons, peas, tomatoes and cucumbers in Northeast Texas are still moving to market in big volume. John Surovik said rains that fell in Northeast Texas are helping the cotton, corn and grain sorghum.

Hay baling continues generally throughout the state, even though showers delayed some activity. Walter Scott said at Nacogdoches that deep East Texas farmers and cattlemen already are assured of an above average corn any hay crop, and general conditions are above normal.

Rice growth along the coast is reported good and some early fields are heading Silver Whitsett said at Rosenburg.

Ted Martin at Denton summed up the situation for much of the state when he said, "the general agricultural conditions in North Texas are the best in years. Some sections receive too much rain for some crops. Pastures, ranges and livestock are in excellent condition. Some cotton insect damage is costing farmers whose fields are untreated. Many farmers want sunshine for good cotton growth."

Use Of Big Feed Crop To Be Aired

COLLEGE STATION — Feeding cattle to utilize Texas' abundant feed crop will get much emphasis at the annual Beef Cattle Short Course scheduled at Texas A. and M. College, Aug. 10-12.

In addition will be the popular steer carcass contest where those attending the short course grade live animals, and after slaughter and chilling, grade the carcasses. Presentations by some of the nation's outstanding beef cattle research men and ranchers, said Chairman John K. Riggs of Texas A. and M.'s Department of Animal Husbandry, will be program features.

The use of ultrasonics to estimate muscle development and fatness in live animals will be demonstrated by Dr. J. R. Stouffer of Cornell University. A carcass approach to beef cattle development will be discussed by Kenneth R. Fulk, executive-secretary of the American Shorthorn Association, and H. H. Stonaker, head of Colorado State University's Department of Animal Husbandry, will discuss size as a factor influencing productivity of beef cattle.

Hog Prices To Be Lower This Winter

COLLEGE STATION — In view of prospective supplies, prices of hogs in the winter of 1959 and early 1960 can be expected to be lower than a year earlier, said John G. McHaney, extension economist and T. D. Tanksley, Jr., extension animal husbandman. Production, they say, started upward last year, and may continue upward this fall and well into 1960. For this reason there is little room for optimism for hog prices in 1960.

According to the June Pig Crop Report released by the Agricultural Marketing Service, the 1959 spring pig crop totaled nearly 60 million head. This is 12 per cent more than was produced in the spring of 1958 and is the largest spring pig crop since 1951, said McHaney and Tanksley. This means that we are going to have more hogs on the market in the fall of 1959. If producers' fall farrowing intentions materialize, the 1959 fall pig crop will also be large and will probably be exceeded only by the fall pig crop of 1943.

On June 15, 1958, the farmers of Texas received an average price of $20.70 per 100 pounds compared to $15.30 on June 15, 1959. This year prices are expected to remain considerably below for last year.

This outlook information does not warrant the dispersing of commercial breeding herds as has been done in the past by many Texas producers facing similar price situations, they stated. But, it does mean that Texas hog production program for the possibility of improving the efficiency of their operation. The inefficient hog producer will be the one hardest hit as prices decline.

Producers should consider these points, say the specialists: Make sure that they can either produce or obtain the needed grain at reasonable prices, in view of the price outlook; sell market hogs at lighter weights (around 200 pounds as soon as they reach market top) cull down to the most productive sows and gilts. (But retain sufficient numbers to make most efficient use of equipment and labor) consider selling heavy sows and keep young gilts; and hog producers should examine their feeding program to be certain that the largest possible number of pigs per litter are being raised and the most efficient feed lot gains.

Wheat Use Is Being Broadened

COLLEGE STATION — Seeking to broaden markets for wheat, the USDA has modified wheat flour into products having potential uses as thickening agents, adhesives and coatings and sizes for paper and textile manufacture.

The USDA's Agricultural Research Service has demonstrated that chemically modified flour mixes readily with water to form a free-flowing paste a property desirable for such industrial processes as the continuous machine-coating of paper.

Thus far, chemists at the ARS Northern Utilization Research and Development Division, Peoria, Ill., have investigated only two of a series of wheat flour modifications.

One team of scientists reacted wheat flour with ethylene oxide to produce "hudroxyethylated flours." Another team employed propylene oxide as the reactant to make "hydroxpropylated flour."

The modified flours are similar to each other, and differ from ordinary wheat flours in that they mix more rapidly with water to form pastes, and in that these pastes have less tendency to thicken and gel, thus flow more freely. They can also be stored satisfactorily at a moisture content of 5 per cent or less.

"JUST CALL ME IF YOU WANT THE WANT-ADS TO HELP YOU..."

SELLING, BUYING, TRADING, RENTING... A LOW COST WANT-AD MEANS FASTER RESULTS, BETTER BUYS FOR YOU!

It's a fact — and we've thousands of readers and users to prove it—that our classified ads are your key to action and profits! Whether you're buying or selling... offering or hunting ... you'll find it's always open season for bargains when you use our want ad section!

Want ads pack a powerful sales message into a little space! They're the town's biggest market place, a paradise for bargain hunters! Want ads are as "newsy" as the front page and rate high in reader response! So whether you're looking for a house or a hotel, a pressure cooker or a piano, check our want ads first!

You can raise extra cash with services to offer or something to sell—in the want ads! Yes, want ads are more efficient, more effective, more economical, penny for penny—your best sales buy! Call us today for profits tomorrow!

Demos Set Ambitious Stretch Drive Slate

By JACK BELL

WASHINGTON (AP) — Democratic leaders have put labor, housing, highway and civil rights legislation on the program for a stretch drive that could keep Congress running until Labor Day.

Also, with a satisfactory compromise can be worked out, Senate Democratic Leader Lyndon B. Johnson of Texas and Speaker of the House Sam Rayburn (D-Tex) probably will agree to passage of a bill lifting the interest ceiling on long term government bonds.

But the two party leaders are satisfied to let the Eisenhower administration stew in the juice of the President's vetoes of wheat and tobacco bills.

If there is any wheat legislation —and Senate Republican Leader Everett M. Dirksen of Illinois said he thinks there may be—the impetus for it will have to come from President Eisenhower or Secretary of Agriculture Ezra Taft Benson.

What the House does with a labor antiracketeering bill, which the Senate previously has passed, may have a great deal to do with the length of the congressional session.

The Democratic leaders are agreed that some action must be taken on housing. Democrats on a Senate banking subcommittee are now holding hearings in an effort to discredit Eisenhower's veto of a housing measure he called extravagant and inflationary.

If the response is judged sufficient, an effort may be made to override the veto. This requires two-thirds approval of those voting in House and Senate. If support for the President's position seems solid, a bob-tailed housing bill may result.

A compromise measure to continue the interstate highway program, perhaps at a slower than anticipated pace, appears to be in the making. Eisenhower probably will get only part of the 1½ cents a gallon gasoline tax increase he requested to help pay for the road-building.

Action on civil rights legislation still is up in the air in both houses. Johnson has been plugging for the Senate Judiciary Committee to clear a bill but Southern Democrats apparently intend to stall there until they see what the House does.

Debra Compared To Mother-In-Law

KEMAH, Tex. (AP) — "They named her right. My mother-in-law is named Debra. She's a lot of wind and just all wet most of the time."

The mechanic at a service station here wouldn't give his name. It was early morning and the knee-deep water floated half-gallon oil containers as it swirled in and out.

National guardsmen stood by, awaiting orders but none came. Few evacuees were at this little seacoast town, 34 miles southeast of Houston.

Kemah felt much of Hurricane Debra's punch. She ripped shingles from roofs, shredded leaves, cracked tree limbs, uprooted trees, knocked out electric power and telephones.

"I don't like it at all," said Linda Morrow, 11.

Her stringy and wet blonde hair covered her sleepless eyes.

"We left Baycliff at 10 last night," her father, John Morrow, said. "We were vacationing." He said they planned to return to their home at Crockett.

Asst. Fire Chief J. A. Foster of Kemah said no major damage occurred. "Just regular wind and water troubles."

Throughout Debra's path, the story seemed the same.

At League City, a big live oak split and crashed 10 feet from E. G. Mueller's home.

At Pearland, H. L. Dawkins kept his service station operating. Across the street, there was no power for competitors. A single engine plane was swept into a ditch.

Many farm-to-market roads were closed by high water. So were state highways and important roads such as one leading to Houston's municipal airport.

Gusts of wind with falling rain made driving hazardous. But it provided these laughs through various advertising signs—all submerged in water:

A new development area —"Home for finer living."

A cleaning plant's boast—"We do excellent dry cleaning."

A contractor—"We build swimming pools."

"Waterfront lots for sale."

Scouts Start Torch Relays

MEXICO CITY (AP) — Mexican boy scouts in relays Saturday started carrying the symbolic torch of the third Pan-American Games northward toward the border.

They will turn the electronic device over to United States scouts at Laredo, Tex., Aug. 4. The U.S. scouts in turn will carry it to Soldier Field in Chicago where it will burn during the Games, Aug. 27-Sept. 7.

The Mexican phase of the relay will include 570 scouts from troops along the central highway route via Queretaro, San Luis, Potosi, Saltillo and Monterrey.

Each boy will carry the torch 1,000 meters at the scout pace — 25 meters running, 25 walking.

The torch, which burns with a blueish light and gives off sparks, weighs about five pounds.

Nab Suspect In Slaying

HOUSTON (AP) — The FBI announced Saturday the arrest in Chihuahua City, Mexico, of one of six men charged in the $75,000 burglary of a Houston automobile firm last month.

Agent H. O. Hawkins said Joe Holt had been turned over to United States authorities in El Paso.

Others accused are Wickford L. Massey, 38, former sales manager of the firm; Billie Joe Pentecuff, 35, and Elzie R. Wright, 25, company salesmen, and Luther Murff, 58, Dallas.

Charges against a sixth man, Benjamin F. Easterling, 41, also of Dallas, were dropped after Easterling was killed in Shreveport, La., during an attempted burglary.

Chief Rabbi Dies

JERUSALEM (AP)—Dr. Isaac Halevy Hertzog, 71, chief rabbi of Israel, died this morning after a long illness. Hertzog's son, Jacob, is not minister and charge d-affaires at the Israel Embassy in Washington.

The woodpecker's pecking is believed an effort to attract female birds.

Biggest Test Stand Slated

AZUSA, Calif. (AP) — The free world's biggest rocket test stand —an eight-story tower capable of holding a cluster of rockets generating six million pounds of thrust—will be built at Edwards Air Force base starting late this year.

Aerojet-General Corp. Saturday announced it had been given a contract to design the structure.

Initial plans call for a test stand that can handle two 1½ million pound thrust liquid-rocket engines, now under development for the National Aeronautics and Space Administration. Later the stand will be expanded to support four of these engines.

The concrete and steel stand, perched on the side of a rocky cliff at the desert test center 100 miles north of Los Angeles, will have a 60-foot square opening for the rockets' exhaust.

Chisox Clip Birds In 17

CHICAGO (AP) — Harry (Suitcase) Simpson's pinch single in the 17th inning sent home the winning run and gave the Chicago White Sox a 3-2 triumph over Baltimore Saturday.

The victory, the 23rd one-run decision captured by Chicago, enabled the White Sox to maintain their one-half game American League lead over Cleveland.

Back-to-back singles by Jim Landis and Sherm Lollar started the 17th-inning uprising. Al Smith was given an intentional pass and reliever Billy Loes, third Baltimore pitcher, got Jim Rivera to bounce into a force play at the plate. Simpson, batting for Bubba Phillips, then lined a single to right center to end the marathon.

The 17th inning affair matched the longest game in the majors this year. That was also between Chicago and Baltimore with the Sox winning on a homer by Earl Torgeson.

The Sox blew five different scoring chances in the extra innings after Lollar had tied up the game with a leadoff homer off starter Billy O'Dell in the ninth inning. They left nine runners from the 10th inning on and had two on and only one out in the ninth after Lollar had blasted his 13th homer but couldn't push anybody across.

The victory was the fourth straight for the Sox while Baltimore suffered its fifth defeat in a row to give the Orioles their biggest losing string of the season.

Turk Lown, who came on in the 12th inning, gained credit for his seventh triumph against two losses. Loes was shackled with his third loss in seven decisions.

WELCOME TO THE CLUB—Elijah (Pumpsie) Green, first Negro ever to play for the Boston Red Sox, is given a welcoming pat on the back by Manager Billy Jurges as he joined the team in Chicago after being brought up from the Minneapolis farm team. The Red Sox received protests from groups charging discrimination when Green was assigned to the farm club at the start of the season. (AP Wirephoto)

Jittery Yankees Decision Detroit

DETROIT (AP) — Yogi Berra walloped a two-run home run in the ninth inning that gave the jittery New York Yankees a 9-8 decision over the Detroit Tigers Saturday in a frantic baseball contest witnessed by 26,530.

Mickey Mantle, who could not get the ball past the pitcher's mound in four previous at bats, set the stage for Berra's climatic smash by beating out a bouncer to third base by an eyelash.

Berra then cracked one of R.G. Smith's deliveries into the upper right field seats for his 12th home run.

By winning, the Yankees boosted their margin over the fifth place Detroiters to two games.

They stumbled and fumbled around for more than three hours in this wild exhibition before gaining the decision. The Yankees handed the Tigers five unearned runs and committed five errors, three of them by third baseman Hector Lopez. A two-out bobble by Lopez gave Detroit two runs in the seventh and another two-out fumble let in an eight inning run.

Lopez also threw away Coot Veal's bounder leading off in the ninth, but the Detroit shortstop was out trying to reach second base. On that play, Veal crashed into first baseman Bill Skowron, who was making his first appearance in the New York lineup since July 11.

Skowron, who has been out with an ailing back, suffered a bone dislocation in his left wrist. He was taken to a hospital for X-rays.

McLish Gets 8th In Row As Tribe Wins

CLEVELAND (AP) — Cal McLish chalked up his eighth straight victory Saturday, an easy 8-1 decision over the Washington Senators as the Cleveland Indians won their third straight. Jim Piersall led a 13-hit attack with three hits, including a three-run homer.

McLish became the winningest pitcher in the American League (13-3) by limiting the Senators to seven hits. He lost his bid for a shutout when Jim Lemon cracked his 32nd home run in the seventh inning.

Piersall, subbing in center field for the team's leading hitter, Tito Francona, who suffered a pulled muscle two days ago, responded with a single, double and home run. Minnie Minoso had three singles and Vic Power extended his hitting streak through 11 games with a fourth-inning double.

The Indians tagged Bill Fischer, the starting Washington hurler, for five runs in the first four innings and sent him to his fifth defeat in 13 decisions.

Lemon's home run in the seventh, a shot into the left field stands, produced Washington's lone run.

Final Tribute Paid Tatum

CHAPEL HILL, N. C. (AP)—The football world and this small university town paid final tribute Saturday to Jim Tatum, one of the giants among college coaches.

More than 300 persons, many of them fellow coaches, crowded into the Chapel Hill Methodist Church for funeral services for the University of North Carolina football mentor, who died of a virus infection Thursday night.

The Chapel Hill community, still shocked over the 46-year-old Tatum's sudden death, shut down all business operations during the half-hour services.

Tatum was eulogized by The Rev. Charles Hubbard as "a great man who taught us the real meaning of his well known statement: 'Winning is not the most important thing; it is the only thing.'"

The minister, speaking over a public address system, added:

"He played it, and he played it fairly."

Dejected Casey Remembers When Things Were Better

By DAVE DILES
Associated Press Sports Writer

DETROIT (AP)—"I remember the way we used to win those ball games . . . a little something happens here, a little something there, and then—wham. We'd just close the door and that was it."

But, says Casey Stengel, the New York Yankees aren't winning them that way these days. That's why they are having trouble staying in the American League first division.

"This club has been too bad for me to think about a pennant," said the grizzled manager. "I've got to think about winning a ball game. I do hope however, that I'll be able to start worrying about a pennant before long."

It is strange to see the Yankees, proud winners of nine flags in the last decade, struggling to stay within striking distance. At the moment, Stengel will settle for just that, staying close enough to the top so he can make a run for it later.

"I don't think we can make a run right now," he explained. "You see, I got four regular guys out with injuries right now. When I get them back and we're healthy again, I should hope the Yankees won't be dead. They've counted us out already, I know, but I think there's still time for them so-called experts to be very wrong."

Gil McDougald, Bob Turley, Tony Kubek and Bill Skowron all are sidelined. McDougald and Turley should be ready for action soon but the status of Kubek and Skowron, still is unknown.

"Now that's no alibi," Stengel cautioned. "Other clubs have had their share of injuries, too. Most of our trouble is bad baseball. We've been slow running and slow fielding."

Shoemaker Brings Sword Dancer In

By JOHN CHANDLER

OCEANPORT, N.J. (AP) — Sword Dancer sliced through what seems an almost impossible wall of horses at the top of the stretch Saturday, and under a masterful ride by Willie Shoemaker pulled away for victory in the $113,750 Monmouth Handicap at Monmouth Park.

No sooner had the numbers gone up on the board, than jockey Howard Grant astride the second horse, Amerigo, claimed foul against Sword Dancer.

The claim, however, was not allowed after a study of the movies. Sword Dancer finished two lengths ahead of Amerigo. It was another 1½ lengths back to Talent Show.

Sword Dancer, owned by the Brookmeade Stable of Isabel Dodge Sloane, is a leading contender for the 3-year-old championship. He won the classic Belmont Stakes after finishing second in the Kentucky Derby and Preakness.

This was the second time Sword Dancer had gone out of his division to challenge the older handicap horses. He beat them in the $100,000 Metropolitan Handicap at Belmont May 3, in which Talent Show, owned by Ada L. Rice, Chicago, was third.

Amerigo is owned by Mrs. Tilyou Christopher and was beaten by a nose by Hillsdale several weeks ago in the $100,000 Californian at Hollywood Park.

Shoemaker hustled Sword Dancer under the wire in 2:05 flat on a track made slow by the week's heavy rains.

Talent Show was 2½ lengths in front of Babu at the finish, while training along in order were Nickel Boy, Air Pilot, Plion, Oh Johnny, One-Eyed King, and Portersville.

The crowd of 31,962 bet Sword Dancer heavily, and he paid $3.20, $2.60 and $2.20. Amerigo returned $6.40 and $2.20, and the Talent Show-Air Pilot entry was $2.20.

Johannson, Promoter Disagree

GOTEBERG, Sweden (AP) — There appeared Saturday to a marked difference of opinion between world heavyweight champion Ingemar Johansson and promoter Bill Rosensohn concerning the site and date of a return title match between Johansson and Floyd Patterson.

Rosensohn says Sept. 22 is a logical date and Yankee Stadium in New York City the logical site.

Johansson said he hoped the bout would be set back until the spring of 1960, and said he realized if his request was granted the site probably would be Los Angeles for climatic reasons.

"The tax people are my bogey," the champion told the Stockholm Expressen.

"But I have another reason for asking that the bout be delayed. I have heard people from both California and Florida say they think the time is not ripe as early as September for a return match. They feel that public interest cannot be turned up again so soon."

Johansson left on an exhibition tour in southern Sweden Saturday about the time Rosensohn arrived in Goteborg, indicating the two would not get together until Monday at least to discuss the proposed bout.

Johansson won the world title by knocking out Patterson in a sensational three-round bout in New York's Yankee Stadium on June 26.

Italy Takes Lead In Davis Cup Play

MILAN, Italy (AP)—Italy won both singles today and took a 2-0 lead over Spain in the rain-interrupted European Zone Davis Cup final. The Italians are the European Zone defending champions.

The Italians are favored to go into the interzone final with the North America Zone champion, probably Australia, at Philadelphia, Aug. 7-9.

Phillies Win Despite 15 Strikeouts

CINCINNATI (AP) — Fifteen Philadelphia Phils went down on strikes Saturday but they still came up with the timely hitting, including three important doubles, that brought them a 6-3 victory over the Cincinnati Reds.

Joe Nuxhall, the Reds' starting hurler, struck out 11 in six innings but allowed five of the Phil runs before he bowed out for a pinch hitter in the sixth.

Don Cardwell, the winning hurler, allowed only four hits through seven innings. He was relieved by Ray Semproch after being hit with a pitched ball. Cardwell's chores were made easier by two double plays.

Willie Jones, a former Phil, hit into both of them, making it four in two games.

Rube Gomez finally bailes Semproch out of trouble in the ninth.

Nuxhall struck out two Phils in each the first and third but they got two runs in each inning.

Johnny Powers' pinch hit home run was Cincinnati's only run off Cardwell but the Reds got two in the eighth off Semproch. Jerry Lynch's single drove them in after two singles and a walk had filled the bases.

200-Meter Breast Stroke Record Set

WAALWIJK, Netherlands (AP)—Anita Lonsbrough of England bettered the world 200-meter breast stroke record for women Saturday by one second when she was timed in 2:50.3. The recognized record, set by Holland's Ada Den Haan in August, 1957, is 2:51.3.

GPL Stars Nip C-City

Snyder's Graduate Pony League all-stars, who will enter playoffs Wednesday, took a 3-1 victory Friday night here in a practice game with the Colorado City Teenagers.

The Teenage League is for boys 16 through 18 years old, slightly older than the Graduate Pony Leaguers, who are up to 16.

The Snyder GPL all-stars were to go to Sweetwater last night for a practice game with Teenagers there.

In the Friday night game, Joe Reaves and Amon Weaver, managed and assistant for the all-stars, used three pitchers, with Freddie Miller going three innings and Charles Gladson and John Weaver hurling two apiece. Combined they gave up two hits.

Snyder got only one hit off Colorado City, that a single by Larry Patterson.

Snyder Nationals Win Area LL Crown, 5-4

The Snyder National Little League all-stars had to get out of trouble several times but edged out the Snyder National all-stars 5-4 in two extra innings Saturday night to take the area Little League championship and advance into the district tournament.

Snyder, which won the first half of the area tourney, the entire tournament, will also be site for the first round game involving the Snyder area champ. The game will be played next Thursday night in Towle Park, according to Ed Patton of Rotan, district Little League director.

Snyder's opponent in that game will be the Merkel all-star team, which last night downed the Colorado River all-stars 12-3 in the Area 3 tourney at Merkel. In the other bracket of the tourney, the Abilene Lone Star and Dixie League all-stars will meet. The district championship game will be played Friday night, with site to be determined.

A sacrifice fly by Roy Kiser, shortstop who had gone into the game for the Nationals in the eighth inning, brought in the winning run of the game. Kenny Gay had singled, followed by another single by Jerry Owens and J. N. Wall walked to load the bases. Owens was caught trying to get to third base to retire the side right after Kiser's sacrifice.

The Nationals scored first and got ahead 3-0, but the American tied it 3-3 in the fourth, and each team scored a run in the fifth. The score remained 4-4 at the end of the sixth and seventh.

First blood was drawn in the game when John Flynn, National centerfielder, hit a homer over the left field fence with one on base in the third.

The first American run came in by error, the second walked in when the bases were loaded, the third on Leslie Brown's single in the fourth.

The National's fifth inning run was doubled home by Kenny Gay, and the American run was singled home by Richard Bennett.

Winner Jerry Owens went all eight innings. While he walked 10, he allowed only four hits and struck out 12. Robert Foree went seven innings but began to tire and allowed two hits in the top of the eighth, which resulted in the American's undoing. He was relieved by James Featherston.

About 800 fans watched the game, which ended the season for the American League. The American had run over Colorado City Thursday night 11-3, while the National beat Rotan that night 7-5 in first round games of the area tourney.

On Friday night, Rotan beat Colorado City 8-1 in a consolation game.

SCORES FIRST RUN—Jay Williamson, shortstop for the Snyder National Little League, scored the first run of the tight-ball game last night which the National League won over the Snyder-American Little League 5-4, for area LL championship. Richard Smedley, the American first baseman, was unsuccessful in catching Williamson off base. Williamson later score on a homerun by John Flynn, center fielder, hit after two were out in the third inning. (Lee Watson photograph)

Coaching School Expects Record

FORT WORTH (AP)—The annual Texas High School Coaching School, largest clinic of its type in the world, promises to set a new record here Aug. 2-7.

L. W. McConachie, executive vice president of the Texas High School Coaches Assn., said Saturday pre-registration was over 200 over the corresponding period of last year when the school in Houston drew an all time high enrollment of 2,820.

As of Saturday, 1,202 coaches from 12 states, Cuba and Mexico signed up.

The week long clinic will be climaxed by the annual basketball and football games between top schoolboy athletes in the state.

The football instructors will be Paul Dietzel of LSU, Abe Martin of TCU, Tonto Coleman of Georgia Tech and Jim Myers of Texas A. & M. Basketball instructors will be Bob Cousey, star of the pro champion Boston Celtics, and Bobby Rogers of Texas A & M. Jack Patterson of Baylor will lecture on track. Trainers for the clinic are Don Bennett of Houston Spring Branch, Elmer Brown of TCU, and Jackie Copeland of Odessa.

Darrell Tully and Red Emmons of Spring Branch will coach the north grid squads. South coaches are Elwood Turner and Billy Willingham.

Basketball coaches will be Amos Turner of Grand Prairie for the north and Ford King of Big Sandy for the south.

Two Southwest Conference coaching staffs have enrolled in the clinic en masse. Texas A & M coaches joined the association as allied members Saturday. The Baylor staff had joined earlier in the week. This year for the first time the association is allowing college coaches to join as allied members.

Bucs Blanked As Burdette Gets No. 13

MILWAUKEE (AP) — Fidgety Lew Burdette tossed a four-hit masterpiece for his 13th victory Saturday as the Milwaukee Braves strengthened their hold on third place by blanking the Pittsburgh Pirates 3-0.

Burdette, who had lost five of his last six outings, was in complete command, allowing only one runner to reach third base. It was the second four-hit shutout for the Braves over the Pirates within 24 hours, Juan Pizarro turning the trick Friday night.

Hank Aaron, the National League batting leader, made his major league debut as a third baseman, filling for the injured Eddie Mathews. Hank collected two hits in three official times at bat but was the cause of great alarm for a split second in the sixth inning. Aaron was hit on the back of the head by a fast ball thrown by Vernon Law and dropped to the ground. However, he was saved from serious injury by his plastic helmet and hopped to his feet unhurt.

Law, now 11-6, gave up only five hits before retiring for a pinch-hitter in the eighth. One of the three runs off him was unearned as a result of his own throwing error.

Wall Holds Strong Lead

DUNEDIN, Fla. (AP)—Art Wall Jr. goes into next week's PGA championship with a strong lead over other touring professionals in money winnings.

The 35-year-old shotmaker from Pocono Manor, Pa., could all but clinch player of the year honors with a good performance in the 72-hole event at the Minneapolis (Minn.) Golf Club.

Wall has pocketed $45,730.94 in prize money since Jan. 1.

PGA figures list Gene Littler of Singing Hills, Calif., second in money winnings with $26,661. Then come Arnold Palmer, Latrobe, Pa., last year's leader in this category, with $23,920.

JC Zone Will Use High School Rules

BRENHAM, Tex. (AP)—Zone 2 of the Texas Junior College Conference will use high school football rules during the 1959 season.

Athletic Director Leroy Dreyer of Blinn College of Brenham said officials of the five conference schools voted unanimously to employ the same game regulations as those of the Texas Interscholastic League.

Olmeda Upset By Vermaak In Tourney

HAVERFORD, Pa. (AP)—Ian Vermaak of South Africa scored a major surprise Saturday by upsetting top-seeded Alex Olmedo, Wimbledon titleholder from Los Angeles, 6-2, 6-4, 6-2, in reaching the final round of the 607th Pennsylvania Lawn Tennis Championships.

A capacity crowd of 2,500 at the other place in the final round in defense of his title by winning from Ramanathan Krishnan, of India 2-6, 6-4, 6-2, 6-1.

MacKay, a member of the 1958 U.S. Davis Cup team, will play Vermaak, a member of the South African Davis Cup team, for the title Sunday afternoon.

The loss for Olmedo was his second setback since his listless performance in losing to Abe Segal of South Africa in the quarterfinals of the U.S. Clay Court Championships last week in River Forest, Ill.

The red-haired Vermaak outclassed Olmedo all the way. He was sure in his pacements from deep court and brought off effective volleying too.

Krishnan, placing his shots well down the line, won the first set with a run of six straight games after MacKay led 2-0. The Indian continued to hold an edge in the second until 4-3, after which he was held to two points as MacKay bore down.

In the women's singles, Sandra Reynolds and Renne Schuurman, both of South Africa, created the first all foreign final by coming from behind to defeat two California opponents. They also will play for the title Sunday.

Lewis To St. Joseph

VICTORIA (AP) — Jim Lewis, assistant football coach at San Antonio Edgewood, Saturday was named head coach at St. Joseph High School of Victoria. Lewis, 26, replaces Pat Bailey, who accepted the head coaching position at Central Catholic of San Antonio.

Giants Shackled By Art Ceccarelli

SAN FRANCISCO (AP) — Southpaw Art Ceccarelli beat the San Francisco Giants Saturday 5-3 and won his fourth straight for the Chicago Cubs since being called up from Fort Worth three weeks ago.

The loss stopped a three-game winning streak for the National League leaders, who won 6-5 Friday night in 10-innings.

The Giant lead was cut to two games, with second-place Los Angeles playing St. Louis in a night contest.

Ceccarelli set down the Giants with three hits until pinch hitter Hank Sauer poled his first home run of the year over the left centerfield fence in the eighth. Jackie Brandt and Jim Davenport followed with sharp singles and Brandt scored the Giants' last run on Willie Mays' pinch hit sacrifice fly to right.

Eddie Bressoud had homered over left field fence in the third for the first Giant hit off the stocky Ceccarelli who retired the first seven batters in order.

Stu Miller was tagged for 11 hits in 8 innings before retiring for a pinch hitter. He lost his fifth game against four victories.

World Mark Bettered In Swim Meet

OSAKA, Japan (AP)—One world record was bettered and two American marks were surpassed as the American squad took an 18-17 lead over Japan at the end of the first day of their swimming competition Saturday.

Frank McKinney of Indianapolis, bettered the world mark in winning the 200-meter backstroke in 2 minutes, 17.8 seconds. He set the old mark of 2:17.9 in the American championships at Los Altos earlier this month.

Alan Somers, also of Indianapolis, defeated Australian Murray Rose, and Japan's Tsuyoshi Yamanaka in winning the gruelling 1,500-meter race in 17:44.4. In finishing third behind Rose and Yamanaka in a meet earlier in the week in Tokyo, Somers was timed in 17:48.9, an American record. Rose won at Tokyo in 17:46.5.

The American 400-meter medley relay team of McKinney, Frederick Munsch of New York, Michael Troy of Indianapolis and Joseph Alkire of San Diego, Calif., bettered the American record with a time of 4:12.6. The listed American record is 4:16.7 made by a U.S. national team in Osaka in 1955.

Endine Wins In Delaware

STANTON, Del. (AP)—Endine, winner of only one race this year, carried the silks of the Christiana Stable to an unprecedented second straight victory Saturday in the richest race in the world for fillies and mares.

The crowd of 24,020 paid little attention to Endine, who ran as an entry with Mooring Stable's Tempted. But the Christiana-Mooring entry went off as co-favorite, with J. Graham Brown's Bornastar, mainly on the past performance of Tempted, easy winner here last week of the New Castle Handicap.

Ned W. Brent's 30-1 shot, Polamby, was a driving second. Bornastar, 1958 mare handicap champion, was fourth in the 1¼ mile test for fillies and mares.

Endine, ridden by jockey Paul J. Bailey, won by half a length in 2:03 3-5 and earned $108,312 for Mr. and Mrs. Harry Lunger of Wilmington, Del., owned of the Christiana Stable. The 5-year-old Chestnut mare returned $8.50, $5.00 and $6.40.

Polamby returned $19.00 and $11.20 to those who chanced the longshot, while Tempted, paid $6.40 for the show. Polamby earned $26,000 for the runnerup spot, while Tempted picked up $13,000.

Brown, Garvin In Colo. Springs Finals

COLORADO SPRINGS, Colo. (AP)—Fred Brown of Los Angeles and Buzz Garvin of Denver shot their way Saturday into the finals of the Colorado Springs Invitational Golf Tournament.

The 36-hold final will be played Sunday.

Brown clobbered Dick Spangler of Lincoln, Neb., 11 and 10, in one semifinal.

Garvin eliminated Ed Hopkins of Abilene, Tex., the tourney medalist, 2 up, in the other.

Aussies Nip Canadians

MONTREAL (AP) — Neale Fraser, Australia's most experienced tennis player, forgot about his throbbing appendix Saturday and combined with Roy Emerson to defeat Canada 6-3, 6-3, 6-1 in the decisive doubles of the North American zone Davis Cup semi-finals.

The victory qualified Australia to meet Cuba here next weekend in the zone finals. That winner will advance to the interzone final against the European zone champion at Philadelphia Aug. 7-9.

The Canadian pair of Don Fontana and Bob Bedard was on the defensive throughout and scored only one service break in the entire match, that against Emerson in the third set.

Capt. Harry Hopman of the Australians was able to start his Wimbledon doubles champions when Fraser reported that his appendix wasn't troubling him Saturday.

TV Networks Plan Far Ahead Of Time

NEW YORK (AP)—When most of us were packing the first picnic baskets of the season, the McGuire Sisters, bundled in furs under hot lights, were busy making a Christmas commercial.

Long before favorite sons dared make noises like candidates, the three major television networks were planning their coverage of the 1960 political conventions and subsequent presidential campaigns.

Right now, before the networks have confided to us viewers all the goodies their 1959-60 season holds, the creators of television programs are working on the 1961 and even 1962 menus.

What will we be looking at 18 months or more hence?

Richard Dorso, former Hollywood actor's agent and now director of new program development for Ziv Television Programs, predicts that, basically, it won't be much different from what we'll be looking at next season—only better: Westerns, adventure, suspense, drama, variety and so on.

Sources for new ideas for TV shows, Dorso confesses, come from a wide variety of sources—newspaper items, magazine articles, even casual conversations. They also come, as every viewer must know, from successful shows—as witness the flood of copycat Westerns and now crime adventure shows with music.

And ideas also are borrowed from big mouths who tell what their companies are planning in the future—which is the reason Dorso is as close-mouthed as Greta Garbo about his current planning. Just about the only show idea he will discuss is one called "Challenge," scheduled to bow onto NBC in September — but so long off the drawing board he's practically forgotten it.

"I'll tell you one place that show ideas never come from," he adds. "From amateurs. Invariably the people who tell you they have a great idea turn up somethat that's already been done or is absolutely unpractical to do."

Valley Has Prosperity

HOUSTON (AP)—The Houston Chronicle said Saturday unprecedented prosperity is sweeping the Lower Rio Grande Valley.

A survey indicates current cotton, citrus, vegetable and grain crops will have a cash value of $124,180,000.

The survey by A. B. Hendry, the Chronicle's Valley correspondent, gave this breakdown:

Cotton crop of 480,000 bales with a value of $81,600,000.

Vegetables and citrus canning output, $12,000,000 to $13,000,000.

Citrus crop, $25,000,000.

Record milo grain crop of 6,000,000 bushels, $5,580,000.

Hendry said the bumper citrus crop results from thousands of new trees coming into production the first time since disastrous freezes of 1949 and 1951.

Market For Broilers Off

AUSTIN (AP)— The State Department of Agriculture said Saturday Texas commercial broiler markets opened generally weaker price-wise than at last week's close.

The 1-cent weekend decline in South Texas held unchanged throughout the trade week, while East Texas weakened fractionally up to mid-trade when slight price recovery began.

At the close South Texas undertone was fully steady, while the undertone in East Texas continued slightly unsettled.

Movement of broilers in South Texas was normal with supplies fully adequate. In East Texas, movement was about normal through mid-trade, to heavy in late trade for the improved demand.

Carolyn Jones Adds Glamor

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP) —Everyone talks about putting some glamor back into Hollywood, but Carolyn Jones is doing something about it.

The actress and her producer-husband, Aaron Spelling, have just moved into an all-white $200,000 hilltop home that harks back to the way movie stars lived when they really lived.

"Glamor is a basic element of this town, and anybody who tells you different is crazy," she says boldly. "I think one of the reasons that the movie industry has had so much trouble is because the sense of glamor has been lost.

"The trouble is that glamor costs money. The ones who can afford it — the established stars who have made their pile — don't want to live glamorously any more.

"The young kids who could put some glamor in the town don't have the money to afford it. And too many of them think blue jeans are better than gold lame."

No blue jean kid is Carolyn. I could tell that by a visit to her new home on an Encino hilltop overlooking the broad sweep of the San Fernando Valley. It was one of the hottest days of the year, yet the house looked white and cool, like a vanilla ice cream cake.

Inside, it's all white, too. How come?

"Which is more expensive to keep clean—a white suit or a dark suit?" she asked. "A white suit, of course. White is more glamorous because it is more expensive to maintain."

She took me on a tour through the place, which is still largely unfurnished. The den and dining rooms have white terazzo floors, the living room a lush white carpet. Carolyn is especially proud of the green Italian marble fireplace with suspended chimney.

Other features: door handles of American jade; a swimming pool shaped, according to a friend, like a mummy box; a pergola where the Spellings can play chess and gaze down at the teeming valley. Her pride is the spacious bathroom with a 4-by-5 sunken tub. It even has radiant heating.

Both Carolyn and Spelling are in the beginning of what appear to be highly promising screen careers. She admitted that some might deem them foolish to put so much money into a house.

"But we both believe that the only way we like to invest is in our own talents," she reasoned. "So why not live the way we want to live now, instead of waiting until we're too old to enjoy it?"

Mathias To Try Acting After All

HOLLYWOOD (AP)—Bob Mathias is going to try for an acting career after all.

Six months ago, the Olympic great gave up after waiting for Hollywood to use him as an actor. He took a job with a big construction firm and began a course that would train him in all phases of building.

Now he's costarring with Keenan Wynn in a television series called The Troubleshooters. Oddly enough, it's about a pair of adventuring construction workers. But though the series is backed by United Artists and sold to a cigarette firm, Bob is cooly holding on to his nonacting job. He's on leave from the firm.

Cool is the word for Mathias. That's the way he trained for and won the decathalon at London (1948) and Helsinki (1952). And that's how he has approached this business of being an actor.

"It'll either happen or it won't," he philosophizes.

Bob never had any great yen to be an actor. After graduating from Stanford, he was approached with an idea for a TV series.

"But I had only six months before I was to go into the Marine Corps," he said. "That wasn't enough time to get a series going. So instead, we formed a company and made a feature, 'The Bob Mathias Story,' with my wife and I playing ourselves."

The film was a creditable job, if no great moneymaker. Ward Bond had played in it and he brought Bob to the attention of his great pal John Wayne. When the athlete got out of the service in 1956, Wayne signed him to an exclusive contract.

But Wayne's company wasn't making movies. For a year and a half, Bob played in only one film, "China Doll." Most actors would flip their lids over such inactivity. Not Bob.

"Why should I have complained?" he said. "I was collecting a good salary, and I was allowed to do outside things."

Student Dead In Shooting

LAFAYETTE, Ind. (AP)—A retired Navy admiral's son was shot to death Friday night in the apartment of another Purdue University student, who would explain the shooting only as "a terrible accident."

Police found James F. Strain, 26, La Porte, Ind., son of retired Rear Adm. Charles L. Strain, dead from a .38 caliber bullet wound in his right chest. The youth's body was in the garage apartment of Prentice G. Von Conrad, 31, Houston, Tex., near the campus.

Von Conrad, who has been studying for a doctor's degree in psychology, was held by West Lafayette police for questioning. Prosecutor George Hanna said he expects to file a murder charge Monday.

Hanna said the two men were acquaintances, but Von Conrad wouldn't give any explanation of the shooting.

Both Strain and his father have been studying mathematics at Purdue. The son was a candidate for a bachelor's degree next Friday. Adm. Strain has been on the campus about a year, enrolled in a retired officers' course for training mathematics teachers.

The victim's mother lives in Arlington, Va.

GREETING:

You are commanded to appear by filing a written answer to the plaintiff's petition at or before 10 o'clock A.M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 7th day of September, A. D., 1959, at or before 10 o'clock A.M., before the Honorable District Court of Scurry County, at the Court House in Snyder, Texas.

Said plaintiff's petition was filed on the 24th day of July, 1959. The file number of said suit being No. 7724. The names of the parties in said suit are: R. L. Hairston as Plaintiff, and C. H. Mercer, W. R. Carroll, N. D. Gorer, A. E. Moore, Loy Edmonson, F. L. Denison, Sam Arnett, T. H. Huffman, N. A. Vaughter, A. L. Cock, Trustee for P. Terry and Ernest Terry, and his successors in trust, if any; P. Terry, Ernest Terry, and all of the unknown heirs, administrators, devisees, and legal representatives of any and all the defendants above who may be dead, as Defendants.

The nature of said suit being substantially as follows, to wit: It is a trespass to try title suit, suing for the title and damages to the property described below and seeking title under the ten (10) and twenty-five (25) year statutes of limitation.

All of Lot No. 1, block No. 2 of the Cloyce Sub-division to the Town of Snyder, Scurry County, Texas. SAVE and EXCEPT that part of said Lot No. 1 deeded to the RS&P RR Co. by Warranty Deed dated December 12, 1908, recorded in Volume 26, on Page 405, Deed Records of Scurry County, Texas, for right-of-way;

All of Lot No. 2 of Block 2 of the Cloyce Sub-division to the Town of Snyder, Scurry County, Texas. SAVE and EXCEPT that part of said Lot No. 2 deeded to the RS&P RR Co by Warranty Deed dated December 12, 1908, recorded in Volume 26, on Page 405, Deed Records of Scurry County, Texas, for right-of-way;

All of Lot No. 4, Block No. 2 of the Cloyce Sub-Division to the Town of Snyder, Scurry County, Texas;

All of Lot No. 9 in Block No. 2 of the Cloyce Sub-Division to the Town of Snyder, Scurry County, Texas;

All of Lot No. 10 in Block No. 2 of the Cloyce Sub-Division to the Town of Snyder, Scurry County, Texas.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

Issued this the 24th day of July, A.D. 1959.

Given under my hand and seal of said Court, at office in Snyder, Texas, this the 24th day of July, A. D., 1959.

AMUSEMENT

Beat Boring TV By Studying Surveys

NEW YORK (AP) — The men who live by television have figured out a way to beat a boring summer schedule: they spend their time reading the results of surveys telling them what you and I are looking at, and why.

A new flood of surveys seems to have been unleashed within the industry, and one or two are of more than passing interest to the living room viewer.

For instance, NBC is circulating a survey report which shows that most of us think that our television set is the most important thing in our homes, more important than the refrigerator, the stove, the washer-dryer and much, much more important than the beds.

This same survey disclosed, too, that 55.2 per cent of us viewers are completely or mostly satisfied with television. This compares with 49.9 per cent who are satisfied with 1959 automobiles; 40.6 per cent, with popular music, and 10.3 per cent, with the cost of living. Presumably the study was made before the onset of TV's hot weather doldrums.

Another survey suggests, that women have the upper hand in turning the channel selector dial.

This survey says women take the initiative in choosing half-hour dramas, network specials and — their favorite — hour-long dramas. They like adventure, mystery and crime shows almost as much as the man of the family; Westerns, a lot less than the menfolks or the children, and it's only one woman in 20 who insists on dialing in a sports spectacle.

Odds and Ends: Ed Murrow's replacement for Person to Person is expected to be settled any minute now.

Joyce Jordan, who does the commercials on "The Price is Right," "The Verdict is Yours" and other shows, wears glasses—off-camera and on. She says that they make her spiel more believable—that other women don't respond to gorgeous, slim, young, perfect and thus remote females, whereas a pair of specs breaks the ice and establishes an identity.

Maybe NBC thinks it's got a fall season winner with a Fibber McGee and Molly television series, but old Fibber fans are not likely to accept Bob Sweeny and Cathy Lewis in place of Marion and Jim Jordan who created the delightful characters.

HE FOUND HER WANDERING IN PARK—Policeman Jack Blakeslee talks with Jacqueline Gay Hart, missing Short Hills, N. J., socialite he found in a Lakefront Park in Chicago, Ill. The girl, 21-year-old daughter of Ralph Hart, Colgate-Palmolive Co., vice president, is covered with blanket in Central Police headquarters because she was in near-shock state when found. She said she had been abducted from Newark, N. J., airport parking lot, blindfolded, and kept in a locked bathroom, someplace, then taken into a car and dumped out near the park, but later admitted the story was a hoax. (AP Wirephoto)

Kidnap Hoax Is Verified By FBI

By WILLIAM J. CONWAY

CHICAGO (AP) — Blonde Gay Hart, 21, started home to New Jersey Saturday as the FBI disclosed it had verified that her story of being kidnaped was a hoax. She came to Chicago alone by bus under emotional tension over her impending wedding, the FBI said.

Richard D. Auerbach, FBI chief in Chicago, told newsmen that the young woman rented a hotel room in Chicago and listened to news reports about her possible kidnaping.

He said that after attending five movies Thursday, "in a panic, and not quite realizing what she was doing, and being all confused, she took a cab out into the park.

"She walked for a while and then hailed the first police car she saw."

Then followed her story of a cross-country terror ride as the prisoner of two kidnapers, which she later recanted.

The FBI man said details of the situation were turned over to the U.S. attorney's office for possible prosecution.

But, Mitchell S. Rieger, chief assistant U.S. attorney, declined to prosecute her for giving false information about a kidnaping "in view of her current and previous general mental and physical condition."

Miss Hart was shepherded out of the 15th-floor hotel suite where she had rested under a physician's care. Her fiance, 25-year-old Stanley Gaines, walked her to a freight elevator with his arm around her waist. He told newsmen, "We're going to be married."

At the freight elevator, Gay's father, Ralph Hart, and two burly hotel detectives scuffled with the reporters, preventing them from boarding the cage. Hart, his daughter and Gaines left the hotel.

The Hart party posed for photographers at O'Hare Airport shortly before leaving on a Capital Airlines flight to Newark.

Miss Hart disappeared from Newark Tuesday night after seeing Gaines off on a flight to Pittsburgh. She turned up in Chicago early Friday morning, and told police and federal agents the hoax story of two harrowing days as the victim of two kidnapers.

Books On Display In Glass Cases

NEW YORK (AP)—Books on display at the Soviet exhibition here have been encased in glass on the ground that excessive thumbing through them by visitors is wearing them out.

This developed at about the time the Soviets in Moscow obtained the removal from the U.S. exhibition there of books containing ideas unpalatable to them.

There was no indication that U.S. officials had requested removal of any books from the Soviet exhibit.

A spokesman for the Soviet exhibition said the books shown here were not intended for reading by visitors but simply were displayed as samples of what the Soviets are producing.

Miami, Fla. was explored in 1567, but little effort was made for a permanent settlement until 1836.

Officials Fearful Of More Strikes

By NORMAN WALKER

WASHINGTON (AP) — Government officials are worried that aluminum and copper industry strikes may soon develop as a companion to the 11-day steel strike — shutting down virtually all U.S. metal production.

Walkouts in aluminum or copper, or both, might cause President Eisenhower to reconsider invoking the Taft-Hartley law's national emergency provisions leading to court injunctions to suspend the strikes.

So far Eisenhower has steered clear of utilizing the law's 80-day strike-stopping powers. The White House apparently feels such a respite would merely postpone the labor-management showdown that must eventually and inevitably be faced. The chances is the same problems likely would exist after the 80 days ran out.

It is not lack of metal for defense and civilian industry that worries officials. There are on hand comfortable supplies of aluminum and copper, as there are of steel.

It is the collateral effect on the nation's economy that has officials most concerned. Already an estimated 78,000 workers in railroads, coal and allied industries have been idled by the steel strike. Without a steel labor setin prospect, the layoffs will grow.

If the approximately 120,000 aluminum and copper workers go out on strike, joining the 500,000 aluminum and copper workers go out on strike, joining the 500,000 already-idled steelworkers, the job displacement figure could mushroom quickly to a million or more.

This would have its effects on purchasing power and dent the over-all national prosperity.

Aluminum industry contracts run out next Friday midnight. Several unions including the steelworkers, already on strike against steel producers, are threatening a walkout. Union settlement proposals have been rejected in New York negotiations.

Major copper industry contracts expired June 30. The Mine, Mill and Smelter Workers Union, an independent, has been continuing work on a day-to-day basis.

Grain Market Mostly Dull

By GIL MAYO
AP Business News Writer

CHICAGO (AP) — Soybean futures held almost all the attention in an otherwise dull grain business this week on the Board of Trade.

Except for one fast, decisive setback on Thursday they have been the most bullish commodity on the board since corn futures advanced about 20 cents a bushel in a sustained four-weeks climb early last spring.

When the break came in soybean prices, they had run up gains of about 12 cents a bushel in spots in eight trading days. The steep slide, however, knocked off about four cents where the gains were the broadest.

The selling was ascribed more to simple profit taking than anything else although it followed closely reports of good fairly general rainfall over most of the principal producing areas.

All grain dealings were slow and without any significant influences anytime during the week. Price changes were narrow.

At the end of the week, wheat was unchanged to 1¾ cents a bushel higher than a week ago, September $1.89⅝-¾; corn 1 cent higher to ⅞ lower, September higher, September new type contract 68-67⅞; rye unchanged to ½ lower, September $1.29-28⅞; soybeans ⅜-1¾ higher, September $2.19⅝-⅞.

Alexander Graham Bell, inventor of the telephone, also was interested in aviation. He called it "mechanical flight."

Jaycees Hear Rev. Blamey

The Rev. John Blamey, British minister who has spent the past five weeks in Snyder filling the pulpit at the First Methodist Church on an exchange program, spoke at the Friday luncheon of the Jaycees.

In his talk, Rev. Blamey complimented the Jaycees on their work in religious affairs. The club recently received a national award for its religious activities work last year.

The minister made several comparisons of the U. S. and England, including comparable slang terms used.

Rev. Blamey is in the First Methodist pulpit for the last Sunday today before returning to his home at Ipswich, England. He was introduced at the Jaycee meeting by the Rev. Ralph Odom, pastor of the Union Methodist Church and secretary of the Snyder Ministerial Alliance.

Most main highways in Algeria, Tunisia and Morocco in Africa are bordered by eucalyptus and other lovely trees. These are protected from wood cutters by law.

Japanese Model Wins Miss Universe Title

By GARBER DAVIDSON

LONG BEACH, Calif. (AP)—A willowy Japanese fashion model—first to give the Orient the Miss Universe title—Saturday began her reign "floating on a cloud and living a dream."

"I had to pinch myself to be sure it was not a dream," 22-year-old Akiko Kojima, Tokyo beamed upon awakening after her wildly acclaimed midnight selection.

She had snatched a few hours sleep with her four-foot Miss Universe trophy at the foot of her bed.

The 5-foot 6-inch beauty, with 37-23-38 measurements, cried "Oh, my gosh" when she was announced the winner among the five finalists.

"I am, oh, so very happy," she said, tears shining in her eyes as 4,200 spectators rose, and cheered.

Miss Kojima narrowly edged out Miss Norway, Jorunn Kristiansen, 18, for the title, which means $10,000 in cash prizes, other awards and a year of touring the world.

Miss United States, Terry Lynn Huntingdon, 19, was third; Miss England, Pamela Anne Searle, 21, fourth, and Miss Brazil, Vera Ribeiro, 19, fifth.

Miss Kojima awakened on her first day as Miss Universe to find a crowd of reporters and photographers at her hotel room door. Her reaction to winning?

"Mainly disbelief," she said through an interpreter.

"When it came down to five finalists, I eliminated myself and considered it a toss-up among the others."

Dressed in a delicate white negligee and smoking a cigarette, Miss Kojima answered questions while her hairdresser worked on her shimmering dark hair.

Miss Kojima disclosed that she has received movie offers.

"I plan to make tests next week at Warner Bros. and 20th Century-Fox," she said.

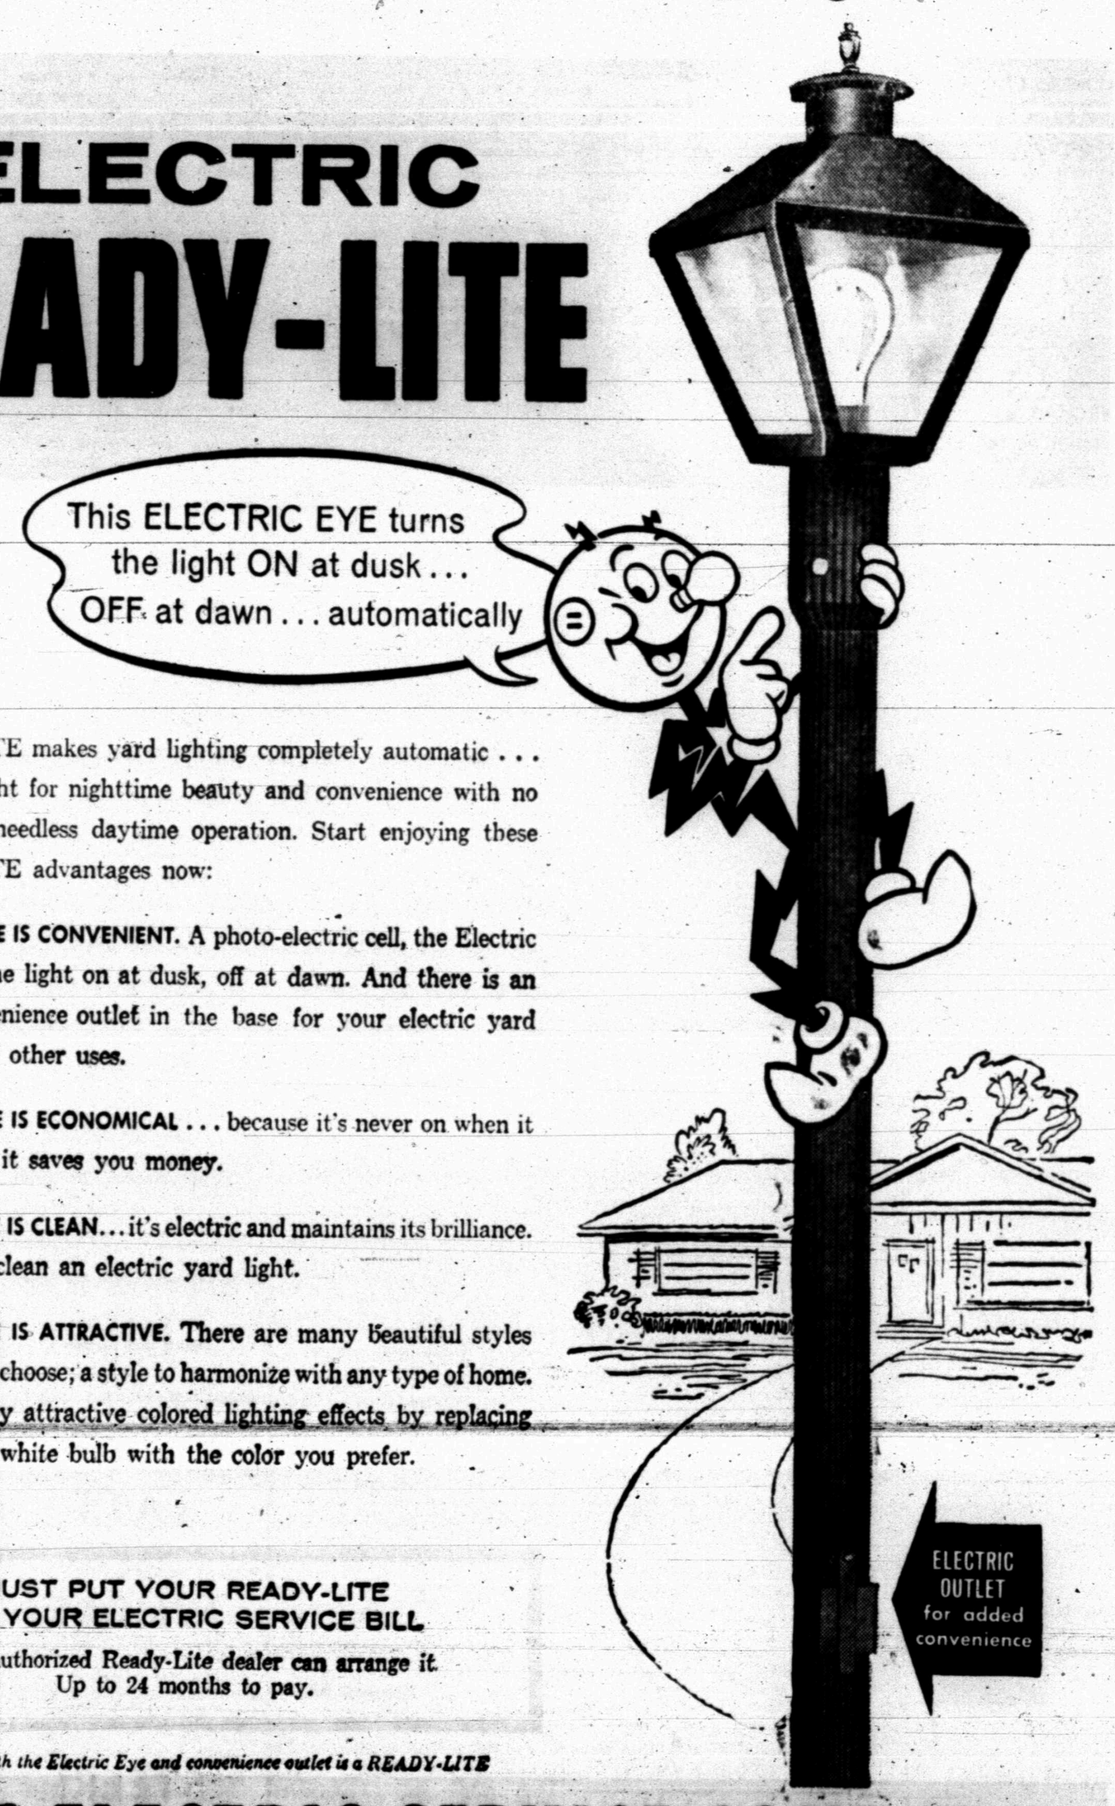

"I would like to make a movie or two if I am asked, and then return to Japan for a visit."

But she said she would like to make the United States her home eventually, marry and raise a family. She said her true ambition is to be "a lovely wife."

SNYDER DRUG—The modern Snyder Drug No. 2 is owned and operated by Mr. and Mrs. S. E. Patterson. It is located on Thirty-seventh Street and Avenue S. The store was opened in September of 1957. Lee Watson photograph.

Snyder Drug No. 2 Fulfills Dreams

A dream that came true for Mr. and Mrs. S. E. Patterson is the successful Snyder Drug No. 2 located at Thirty-seventh Street on the Big Spring Highway.

The store was opened in September of 1957, and at that time was the realization of their dream of many years.

The store was the result of many years of dreaming, planning and preparation — and plain hard work, Patterson said.

And it is something of a dream come true for everyone who goes in it. If you like everything and everyone in a drug store could dream of, and then things that are not usually found in drug stores.

In addition to the modern and complete prescription department, where prescriptions can be quickly and efficiently filled in the accurate and meticulous manner, the store is a dream store.

Prescriptions are kept on file in both Snyder Drug No. 1, located in the west side of the square, a downtown location, and at No. 2, and can be filled at either store, Patterson said.

The modern fixtures in the store are kept stocked with attractive new merchandise and the store operators, S. E. and T. J. Patterson, have ample supplies for this period of the year's back-to-school shopping which will be in full demand in the coming few weeks.

Patterson, a graduate of the drug business, got his first job in a drug store 38 years ago, and has been a registered pharmacist for 36 years. He said it means the two years he has spent operating his own stores have been the best years of his life. He and Mrs. Patterson have lived in Snyder since 1945.

Police Say Five Confess Slayings

TAPACHULA, Mex. (AP) — Police said Saturday five men have confessed they killed an elderly farmer, his young wife and their four children in robbing of their lands with machetes.

The slayings occurred Sunday. Police said farmer Alberto Chavez sold a hog that day for 200 pesos ($23). The money was not in his pocket when the body was found.

They started looking for someone spending more money than usual and arrested the farmer's nephew Salvador Mota. In Mota's confession, they said, and named brothers Mariano, Wales, Juan and Hilario Hernandez as accomplices.

It was Benjamin Franklin who said: "If you would know the value of money go try to borrow some."

Expressions Of Eye Vary

DALLAS (AP)—Throughout the centuries, poets, writers and singers have credited a woman's eyes with expressing her every emotion. But a local eye specialist says it just isn't necessarily so.

"Love into another's eyes and you can make them reflect the most amazing hue, said Dr. Irving L. Jensen, a local eye specialist.

A woman's eyes, when dealing directly at a man, may become limpid and the pupils may grow large. But a man will swear that she's shown a yearning for him, he says. Rather, she probably is near-sighted.

Expressions of the eye to be interpreted for any meaning, are usually taken with facial expressions, he says.

A little word of advice for men from Dr. Jensen:

Wife, Six Children Captives 21 Years

[illegible] (AP)—[illegible] confirmed a wife and six children who had not been heard from in eight years since their small home on [illegible] was destroyed by fire.

Police said the family had been held captive by [illegible] during [illegible] the latter said.

The children are [illegible] Lucille, 21, Gene Lee, 19, and a married daughter, Mrs. [illegible] Ethel Mae and Irene Thigpen.

Retail Sales Still Gaining In Texas

AUSTIN (AP)—Retail sales in Texas continue to show a 7 per cent increase over last year, the Bureau of Business Research said Saturday.

The University of Texas Bureau reported sales for the first six months totaled $6,482,000,000. June sales were 3 per cent ahead of June 1959, but dropped 3 per cent from May's record $1,200,000,000 for the month.

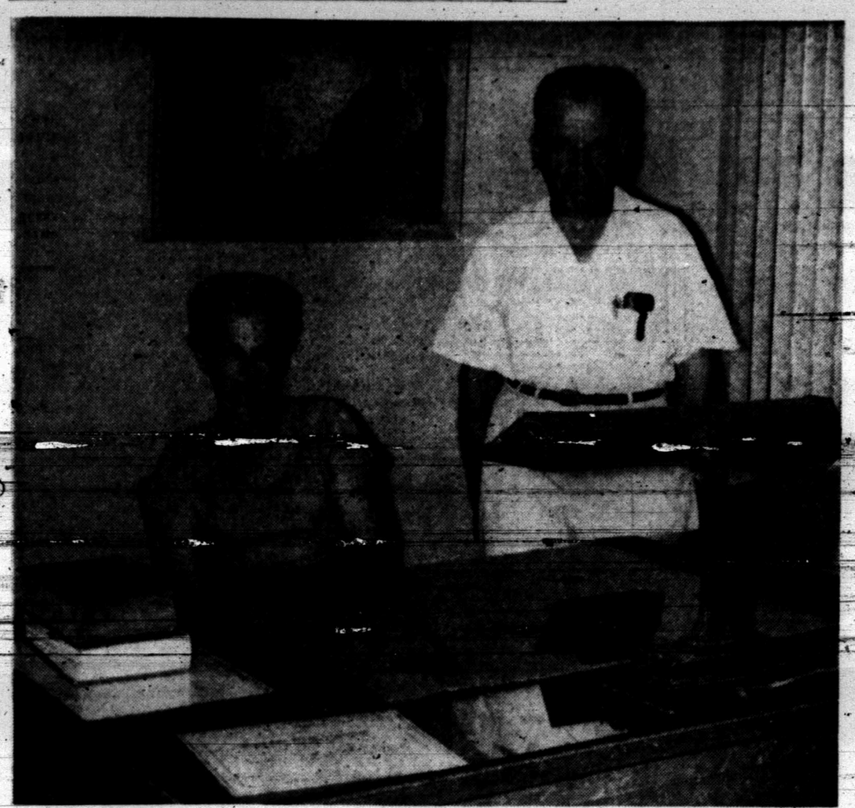

[illegible] gain comes mostly in the state's [illegible] counties, the bureau said. Sales in the 10 metropolitan areas showed a 5 per cent increase.

The [illegible] area [illegible] per cent, [illegible] per cent, [illegible] per cent, [illegible] per cent, [illegible] per cent, [illegible] per cent, [illegible] per cent, [illegible] per cent, [illegible] per cent, [illegible] per cent.

PIONEERS OF THE BIG SPRING HIGHWAY—Mr. and Mrs. Si S. Steinberg, pictured above in their office of Highland Park Realty Co. which they operate, are the pioneers of the Big Spring Highway business area having purchased land and built two buildings in 1950 to begin the ball rolling in the fast growing business area. (Lee Watson photograph).

Steinbergs First To Start Development On BS Highway

The pioneers of the Big Spring Highway businesd development, Mr. and Mrs. Si S. Steinberg, are still among the leading business persons on the highway.

Sometimes jokingly called the "Mayor of the Big Spring Highway," Seinberg has earned the title by hard work at development of the area.

"When we came here early in 1950, there wasn't another business on the highway," Steinberg said. And that was exactly the case. There wasn't a business on the highway south of Deep Creek—in fact there wasn't even a Big Spring Highway then— just a caliche road that ran out into the country from the crossing of Deep Creek.

"However, the highway has been one of the fastest growing business sections anywhere in West Texas since then," Steinberg said.

Today there are about 70 business firms south of Deep Creek on the highway, and vast residential areas surround the highway on both sides.

Mr. and Mrs. Steinberg came here early in 1950 and purchased 100 feet of land on the road, then returned to Missouri where they sold their home and other business interests and began the return trip to Snyder on Easter Sunday of that year.

Their first business venture on the highway was Highland Park Cleaners and a grocery building leased to two partners that year. About the same time the late Jack Terry built a Texaco Service Station at Thirty-seventh Street on the highway, and Gordon's Drive In restaurant, now Starr's Drive In, was built.

"That was the beginning of a fast-growing business area," Steinberg said.

Later Steinberg purchased more land on the highway and built another building for Highland Park Cleaners, and the orginal cleaners and grocery building were enlarged and unified into a larger supermarket building.

Steinberg also purchased land on the east side of the highway from the late Dr. and Mrs. J. O. Broaddus, who had dreamed of some day establishing a clinic on the site.

"In keeping with the dream of Dr. Broaddus, we did the next thing to putting a clinic out here—we built a drug store and a dentist office building," Steinberg said.

The drug store building is occupied by Burgess Pharmacy, and the dentist office is occupied by Dr. Pat W. Brecheen.

Although it sounds easy enough, Steinberg's contribution to the development of the Big Spring Highway business section has not all been smooth sailing.

"We didn't even have any sewer, water or gas lines to this area and it wasn't in the city limits when we started building our first building," he said.

He immediately began circulating a petition to the city to annex the area, and apperared before the city council twice in getting the area annexed. He also paid for the original sewer, water and gas lines run to the area from the Noble Heights area so that those utilities would be available.

Housing was one of Snyder's chief problems when Steinberg built his first building, and he and Mrs. Steinberg lived in a trailer house at the rear of their building for the first year and a half they were here. Even when they moved to their present home in Towle Place, their easiest way to and from their house was across a field behind their store up a trail that is now an alley through the business and residential area.

"Many persons told us when we started our first building that we were really sticking our necks out, and that we would have a hard time making a go of it way out here in the country," Steinberg said.

"My only regret has been that I didn't have enough money to buy more land out here then," he said.

Theater One Of First On BS Highway

The Canyon Theater on the Big Spring Highway was one of the early business ventures in the area having been opened in May of 1950.

It is one of the Isley chain of independent theaters.

The drive-in opens the box office at 7:30 o'clock each night and the shows start at 8:30. A large concession stand in the theater serves hot dogs, barbecue, candies, cold drinks, ice cream and snow cones.

A popular part of the theater is the ramp house which will seat about 300 persons, is heated and air conditioned and is popular both in the summer and winter.

The manager, Oscar Haney, came to Snyder from Fort Worth and Dallas where he had managed two different theaters. His residence before coming here was in Fort Worth.

Other employes in the theater include Ruby Starnes, Mrs. Dave Houston and Edwin Isbell, concession operators, Floretta Crabtree, box office cashier, Tommy Stephens, gate boy, Cecil Chauncey, lot man and caretaker, Frank Beene, projection operator, Virginia Stephens and Mary Chauncey, relief girls.

Ex-Minister Injured

MEXICO CITY (AP)— Narciso Bassols, former Treasury Minister and once Ambassador to Russia, was critically injured Friday when he fell off his bicycle.

Bassols, 58, was taking a daily ride in Chapultepec Park.

Chief exports of Iran are petroleum, opium and lambskins.

Merritt Shop Veteran Firm

Merritt's Blacksmith & Welding Shop moved to its location on the Big Spring Highway in 1956, but is one of Snyder's oldest businesses having been started in 1902.

The nearly half-century of service to persons of the Snyder area has made the shop one of the most popular firms of its type.

Homer Merritt, who originated the ousiness is still an active member of the firm.

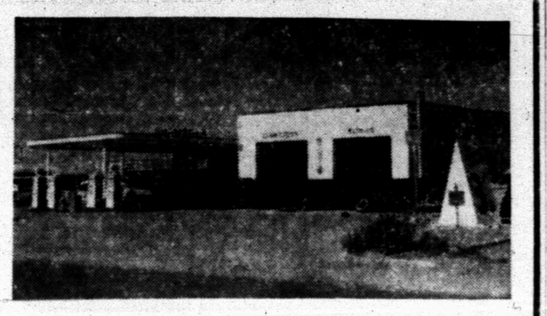

One of the key members of the firm is Wayne Merritt, who offers a complete blacksmithing and welding service.

Not only does the shop offer all types of welding and repair service, but makes many products from metal such as barbecue pits, trash can holders, and wrought iron products.

Protest Accepted

MEXICO CITY (AP)— The small Sinarquista party criticized former president Lazaro Cardenas Friday for accepting an invitation to attend Cuba's July 26th celebration.

The party said this is further indication Cardenas is "Pro-Soviet."

Art Dress Shop Is New Business

One of the newest businesses of the Big Spring Highway area is the Art Dress Shop, located in the 3500 block in Snyder Shopping Center.

The new shop was opened this week, with its grand opening held Thursday, Friday and yesterday.

Owners of the shop are Mrs. B. J. Weaver and Homer Bishop. They are assisted in operation of the shop by Mrs. Jo Smith and Mrs. Cecil Osborne.

A complete line of medium-priced, yet high quality dresses and wearing apparel for women and girls are handled at the Art Dress Shop.

In addition to the dress lines, the shop features sweaters, skirts, lingerie, foundation garments, and accessories.

Goss Offers Used Autos

The T. C. Goss Used Car lot has been one of the Big Spring Highway's leading businesses for several years.

Goss opened his automobile business with a Hudson dealership here in 1946, but went to dealing strictly in used cars about a year later. He had operated a used car dealership in Abilene prior to moving to Snyder.

Also during his business years Goss built the drive in restaurant building now occupied by Starr's Drive In Restaurant, and was an inactive partner in operation of the restaurant for several years.

Goss handles a variety of used cars and offers a complete automobile financing service to his customers.

The U. S. Navy Yard at Kittery, Maine, is a major United States submarine construction and repair port.

LIEB'S SUPER MARKET—Some of the members of the staff of Lieb's Super Market in the 3700 block of the Big Spring Highway are pictured above. From left are L. A. Scott, butcher; Alfred Lieb, owner; Bob Lieb, his son, and Mrs. Burnadene Maxwell, checker. (Lee Watson photograph)

Lieb Is Pioneer On BS Highway

A man with 30 years of experience in the food industry is Alfred S. Lieb, owner of Lieb's Super Market on the Big Spring highway.

Lieb, one of the "pioneers of businessmen on the Big Spring highway, has been in the retail grocery business in Snyder since 1950, having first entered the business with a partner and later purchasing his partner's interest in the H & I's Cash Grocery in 1952.

Lieb's business at that time was located a few doors south, but in 1955 he constructed a new building where his store is now located. The building has 3,520 feet of floor space and plenty of parking space.

Lieb's first experience in the food industry was in the wholesale line. He began as a warehouseman for H. O. Wooten Wholesale Grocery Co. in Stamford in 1929 and was later moved to Spur and then Sweetwater by the firm. He then moved to Snyder to become manager of the Wooten branch, a position he held four years before resigning to enter the retail grocery business.

Lieb's store has continued to expand since he moved to the new building. In addition to the regular line of staple and fancy groceries the firm has a complete drug department and complete line of toys.

Lieb is also Snyder franchise dealer for Cactus Paints at the L & S Paint Store, which is adjacent to the grocery building.

The grocery specializes in barbecue cooked fresh daily.

Employes of the store include L. A. Scott, day butcher; Mrs. Jean Sharp and Mrs. Bernadine Maxwell, checkers; Harley Smith, night butcher; Mrs. Harley Smith, night checker; Charles Lieb, Robert Lieb, Dickie Simpson and Lewis Herndon, sackers.

Cars, Loans Offered By Skeet Jones

Skeet Jones Used Cars and Loans is a complete business within itself located at 4010 Big Spring highway.

Both sales and financing of used cars are handled by the firm in one time-saving transaction at the firm, Jones said.

"We can usually save a customer considerable time on a car trade by offering all the services of sales and financing ourselves," Jones added.

Jones, a native of Scurry County, was in the meat market and locker plant business here for several years prior to going into the used car and loan business.

In addition to financing of used cars sold on his lot, Jones also offers financing on the purchase or refinancing of other cars.

His stock of used cars includes a wide variety of makes and models appealing to a wide range of customers.

One of the aspects of Jones Used Car sales that appeals to many customers is the financing of older model cars on which bank or finance company financing is difficult to obtain, and in many cases impossible to get.

Wilson Is Working To Preserve Competition

HOUSTON (AP) — Atty. Gen. Will Wilson says he considers it his patriotic duty to preserve economic competition by using the state's anti-trust laws.

"The free enterprise system depends on competition," Wilson said in two addresses in suburban Pasadena.

Wilson said the inevitable companion of big business mergers is centralization of labor unions.

He referred to his anti-trust lawsuit charging a group of Houston area electrical contractors worked with unionists to allocate major jobs to selected contractors on a complimentary bid basis.

Touch Of Texas Found In Moscow

EL CAMPO, (AP) — Visitors to the American exhibition at Moscow's Sokolniki Park will find a touch of Texas.

Ivan will view copies of the El Camp Leader - News, selected by the State Department for display because it regularly carried language lessons in English, Czech and Russian.

The lesson appear in an eight-page tabloid section of the weekly newspaper. The section actually is a continuation of the newspaper Svoboda, which means "liberty."

Svoboda claims to be the oldest Czech newspaper in the South. It was established in 1885.

Except for the back page, it is printed in the Czech language—even the advertisements.

The Leader - News launched the series last April under the direction of Dr. Joe Malik, executive secretary of the department of Slavonic language of the University of Texas. It says "response has been phenomenal."

El Campo's radio station KULP augments the newspaper language sessions with weekly 30 - minute radio talks by Dr. Malik.

About 30 per cent of the residents are Czech descendents, 15 per cent German, 10 per cent Latin American and 5 to 10 per cent Danish and Swedish.

School Supt. George Thigpen said he plans to utilize the newspaper and radio tapes as regular projects in the fourth, fifth and sixth grades in El Campo schools.

Hobby Grows Into Business

A hobby which grew into a business on the Big Spring Highway was that of Mrs. G. W. Hicks, owner of the Yarn Shop at Avenue S and Thirtieth Street.

Mrs. Hicks began about eight years ago her hobby of knitting and crocheting, but as she became more proficient and more residents began to work with her to get tips on the work, it grew into a business in about a year.

Mrs. Hicks set her business up in a room of her home which faced the busy highway, and since that time customers have gone to her for materials and instructions on the handwork.

In her shop, she has numerous models from which customers can make selections for items to make themselves. The models are not sold, but she handles the best types of imported and American yarns for her customers, as well as needles, accessories and complete instructions, all which is needed to complete a garmet. She gives tips and instructions until the garments are finished.

The Yarn Shop handles Christmas items, knitting goods, needlepoint pictures and chair covers and other goods needed for fine handwork.

Her husband is owner of Hicks Heating & Air Conditioning.

In 400 years about 2,200 vessels have been wrecked near Cape Hatteras, N. C., reports the National Geographic Society.

Pennsylvania's greatest income is from coal and steel industries, but more than half the land area of the state is in farms.

Toyland Is In Modern Quarters

Thousands of toys of all descriptions are available at Snyder's only specialty toy shop.

It is Toyland, one of the newer businesses on the Big Spring Highway.

Located in the modern Highland Shopping Center, the firm gained more parking space and a more modern building when it moved there in April. The building has about 2,000 square feet of floor space.

Owner of the firm is H. D. (Jake) Harmon. Harmon managed the store when it was opened by Billy Wayne Thompson four years ago and he purchased the business two years ago. It was at the time located at 2411 Twenty-fifth Street.

Stocking an endless list of toys for all ages, the firm has many types of guns, which is the most popular of the boys' toys, and dolls, most popular for girls. It also has all types of games, rolling toys, table games and many others, keeping up with all the latest types coming onto the market.

Popular as a place for Christmas buying, the firm is already beginning lay - aways for Christmas.

Harmon is a native Snyderite who completed schooling here and was employed by the Roscoe, Snyder & Pacific Railway after returning from the Navy.

Working in the store are Harmon, his wife, and his mother, Mrs. L. M. Harmon.

The store is open from 8 a.m. to 6 p.m. weekdays and stays open until 6:30 p.m. on Saturdays.

Johnston Burgers Popular In Snyder

Hamburgers are one of America's favorite foods, and Johnston's Jumbo Burgers are tops for most Snyderites.

Johnston's Jumbo Burger is a family operated business located at 4008 Big Spring Highway and is owned and operated by Red and Pearl Johnston, who moved to Snyder from Andrews in September of 1958.

They had lived here during the oil boom when he ran an oil drilling rig.

Johnston's Jumbo Burger is open from 9 o'clock each morning until 9 o'clock each evening.

"We attempt to make the hamburgers in Snyder, and always put everything the customer wishes on our burgers," Johnston said.

In addition to the jumbo burgers, the firm prepares a full line of other popular sandwiches, one of the most popular of which is the chili dog.

Each customer for curb service at Johnston's Jumbo Burger is assured of getting just exactly what he orders because the curb service is self service. However, customers who wish are served at the counter inside the building.

One of our most popular services is the take-home service we offer on all orders, Johnston said. A telephone call to HI-3-4791 a few minutes before eating time will assure that the order is ready to go when the customer comes by for it, Johnston said.

Hoffa Plans Libel Suit

WASHINGTON (AP)—A spokesman for James R. Hoffa says the Teamster Union president plans libel action against Robert F. Kennedy for remarks the Senate rackets committee counsel made about Hoffa on television.

Kennedy made several charges against Hoffa Wednesday night when he appeared on the NBC Jack Paar show.

The spokesman said Hoffa had instructed his attorney to prepare libel action against the network, Paar and others who sponsored or were associated with the show.

Kennedy said he would welcome the suit "so that the matter of whether Mr. Hoffa has betrayed the union membership can be proven in a court of law."

First Yule Card

DALLAS, Tex. (AP)—The dead letter section of the Dallas post office got its first christmas card of the year Friday—and with only 153 shopping days left. The card, written in an illegible hand that looked like that of a child, had no return address.

Donnie's In Modern Shop

Customers of Donnie's Beauty Service, 1909 Fortieth Street, just west of the Big Spring Highway, find the answers to their beauty needs in a picasant and friendly atmosphere.

Owned by Mrs. Donnie Chorn, Donnie's is one of the modern new businesses in the fast growing Big Spring Highway business section of Snyder.

Like most of the businesses in the area Donnie's is featured by ample parking space and no parking meters, is in new, completely air conditioned building and has the most modern equipment possible.

New dryers, chairs in the near future to make the shop as modern as Mrs. Chorn said.

Stylists in the shop in addition to Mrs. Chorn are Mable Covey and Stella Graves. Mrs. Walter Dever is receptionist.

Terry Motors Among First On BS Hwy.

Among the first of businesses on the Big Spring highway was Terry Motor Co., 3703 Avenue S.

At first dealing in car sales, the firm was converted into an independent gasoline service station when Lee Stone became owner seven years ago.

Stone actively manages the station, with Luther Corbell as afternoon manager.

A civic leader here, Stone is a member of the school board and was formerly commander of the Snyder National Guard unit.

Specializing in gasoline, the station sells regular for 25.9 cents. It also deals in sales of Tires and Texan Batteries.

Hours of the station are 7 a.m. to 10 p.m.

New York is 3,714 miles from Gibraltar.

ROE'S APPLIANCE STORE—Mr. and Mrs. M. H. Roe are owners of the Modern Roe's Appliance Store located on Fortieth Street and the Big Spring Highway in the Highland Shopping Center. All types of appliances are specialized in by the store. (Lee Watson photograph)

Dixie Station To Open On Monday

One of West Texas most modern service stations, the new El Paso — Dixie Service Station at Forty-second Street on the Big Spring highway will be opened for business here tomorrow.

H. P. Wellborn, distributor for El Paso-Dixie products said the new station will offer several innovations in the service station field.

One of the outstanding features of the station will be the blender pump which permits each individual customer to blend regular and ethyl gasoline in the exact proportion which gives his car peak performance and the minimum cost.

Wellborn said the blender pump offers nine different blends of gasoline to assure any desired mixture.

"The blender permits the customer to mix regular gasoline which sells for 28.9 cents per gallon with Ethyl gasoline selling for 32.9 cents per gallon in the proportion which gives peak performance, but allows savings of up to several cents per gallon.

The modernistic station has seven of the newest mail-box type pumps with vacuum cleaner for cleaning cars at each pump island.

A complete line of picnic and camping supplies including ice cubes, baskets and accessories.

Operator of the new station will be named soon, Wellborn said.

Wellborn has just recently been named the El Paso-Dixie products distributor here.

In addition to the new station at Forty-second Street, he operates the El Paso-Dixie station at the Cogdell Memorial Hospital entrance on the Big Spring Highway, and provides products for the El Paso-Dixie service station on Twenty-fifth Street, and one in Hermleigh. The Twenty-fifth Street station is operated by Bill Breedlove, and the Hermleigh station is operated by Bobby Bruce.

Wellborn Oil Co. is also distributor for El Paso-Dixie products for Post, Spur, Jayton, Roby Rotan and Anson.

The national average pay of school teachers in the United States is $4,325 annually.

NEW EL PASO STATION—The new El Paso-Dixie Service Station at Forty-second Street and the Big Spring Highway will be opened tomorrow, H. P. Wellborn, distributor for El Paso-Dixie products here said. The new station features mail-box type pumps with a vaccum for cleaning car interiors at each pump island. The station has one blender pump enabling the customer to get a personal blend of regular and premium gasoline to assure peak performances—and minimum cost—for his car. (Lee Watson photograph)

Cafe Has New Owners

The Hickory House Barbecue Resfaurant located at 3910 Big Spring Highway is now under the new ownership and management of Carl and Helen Barrett, experienced restauranteurs.

Mr. and Mrs. Barrett owned and operated a restaurant for 18 years in Missouri prior to coming to Snyder several years ago.

During their time here they have operated a restaurant in the Beacon Lodge, he has cooked for the two and one half years at another Snyder restaurant, and Mrs. Barrett has been associated with operation of another.

He has had 25 years experience in the field, and she has had 15 years experience.

Assisting the couple in operation of the restaurant are their son Steve Barrett and Charles A. (Chuck) Jones.

The restaurant is opened each morning at 6 o'clock and closes at 10 o'clock each night.

The specialty of the Hickory House is barbecue of all kinds including, chicken, beef, pork and sausages, but a full menu of steaks, chicken, sea foods, and breakfasts is also provided.

One of the most popular aspects of the Hickory House is take-home orders.

"We can prepare any of the food we serve to be taken home, or taken out for parties," Mrs. Barrett said.

She added that barbecue, beans and potato salads are particularly popular take-home items.

The London Police Force was organized by Sir Robert Peel in 1829.

Roe's Expands In Shopping Center

An older Snyder business which modernized when it moved into the new Highlands Shopping Center on the Big Spring Highway is Roe's Appliance Store.

Roe's, which provided a more convenient location and more adequate parking with its move to the shopping center in the spring, also has a new and modern store.

Mr. and Mrs. M. H. Roe, owner, o. the firm, have been in the appliance business here more than 18 years. The move this year was the firm's third major expansion.

Open from 8 a.m. to 6 p.m. weekdays, the firm remains open until 7 p.m. Saturdays. Employes include the Roes, Donald Mansfield, television service man; Ed Blocker, appliance service man; Mrs. Pearl Firestone, bookkeeper; A. C. Floyd, Jr., sales; and Jerry Roe, service and installations.

Roe's features full coverage on Philco, Kelvinator and General Electric lines of larger appliances, including electric ranges, washers, driers, freezers, refrigerators and refrigerated air conditioners.

With Zenith and Philco lines of televisions, Roe's has a special of a free hookup on SCAT for each new TV sold. The firm is currently holding a close-out sale on 1959 model TVs. A big supply of 1960 model TV's is arriving, and Roe's can now offer a 17-inch table model TV with space command for control from the chair. The store also has the new 17-inch slim classic model, which can be moved about the house easily.

Also underway at Roe's is a special summer clearance sale on freezers and refrigerators, with exceptionally low prices.

Roe's handles a large assortment of radios and small appliances, including the Farberware stainless steel, Sunbeam, GE and Presto.

Juvenile wheel goods and a full line of garden tools and equipment, including Worcester, Huffy and Olympic power mowers are also specialties.

Mexico Petroleum Workers Get Boost

MEXICO CITY (AP)—Mexico's 25,000 petroleum workers are getting a ten per cent wage boost.

The government-owned monopoly, PEMEX, agreed recently to a new contract with the union which would provide an additional outlay of 110 million pesos annually for the workers. Pemex left to the union how it would be distributed.

Modern Salon Is Largest

The Modern Beauty Salon, 1903 Fortieth Street, is Snyder's largest beauty salon.

Owned by Mr. and Mrs. Joe Hampton, it is operated by Mrs. Hampton and several other outstanding hair stylists and beauty operators.

The shop was represented last weekend at a hair styling meeting by the owner and Mrs. Billie Mattson, one of the stylists at the Modern. They were instructed in the "American Caprice," the newest creation in the hair styling field.

Mr. and Mrs. Hampton have also recently opened Jessie's Beauty College on Avenue S north of the square here.

The Modern Beauty Salon was originally located on the south side of the Snyder square, but moved in January of 1958 to the present location so that ample parking space, a larger shop and more complete facilities could be offered to patrons of the shop.

The Modern uses a Japanese modern theme in the interior decor, with color scheme of pink and walnut with gold lighting fixtures.

All operators of the shop attend regular advanced training classes so that they may provide the very latest styles for their patrons.

SNYDER FURITURE CO.—One of the fastest growing firms on the Big Spring Highway is Snyder Furniture Co., pictured above. It is owned and operated by Mr. and Mrs. J. W. Pruett. (Lee Watson photograph)

Snyder Furniture Grows Up Rapidly

A rapidly growing business in the fast growing Big Spring Highway business area is Snyder Furniture Co., owned and operated by Mr. and Mrs. J. W. Pruett.

Snyder Furniture, located at 4300 Big Spring Highway, was started about five years ago with an humble beginning, but has been constantly enlarged as it served more and more people.

Pruett said that the store has been remodeled and added onto several times as more room for display and storage was necessary.

"We handle quality merchandise in the store, but because of a big volume we are able to sell furniture to our retail customers at wholesale or near wholesale prices," he added.

Everything for any home can be found in the store from kitchen appliances to living, bed and dining room furnishings.

"The customer can choose exactly the colors of upholstry, the woods and finishes needed to give the home its most attractive decor," Pruett said.

The store offers its customers an easy payment plan so that an entire household of furniture, or just one piece at a time any be purchased without straining the family budget, Pruett said.

Hicks Firm 10 Years Old

Snyder's exclusive dealer on York refrigerated air conditioners, heating units and ice machines is Hicks Air Conditioning & Heating, 1812 Thirtieth Street, just off the Big Spring Highway.

G. W. Hicks, owner of the firm, established it here in 1949 in its present location after moving here from Odessa, where he sold a similar business. He has been in this field about 20 years.

Big feature at Hicks' firm now is the York icemaker, with types to make either cube or flake ice. Hicks handles both sales and rentals on the machines, and numerous Snyder businesses have them. Hicks has more than 30 of the machines on rentals alone. The machines range from those which will produce 300 to 8,000 pounds

He is exclusive dealer for this district on York products and does service on all types of ice makers, as well as sales and service on heating and air conditioning units, including all makes of evaporative coolers. The firm has done this work in many homes and business houses in Snyder and this area.

The firm also does all kinds of sheet metal work and handles, in addition to the heating and air conditioning units and coolers, all kinds of replacement parts for the equipment.

The office of the firm is now a 50 by 70 building built by Hicks five years ago to house the expanding business. It is open from 8 a.m. to 5 p.m. six days weekly, and Hicks is on 24-hour call.

Key employes include Troy Price and I. W. Moore, sheet metal workers. Hicks oversees all service and installations personally.

Brothers Run Drug Store

Burgess Pharmacy, located at Fortieth Street and the Big Spring Highway, offers a complete prescription pharmacy service to the Snyder Area.

It is owned and operated by Roy and Rayburn Burgess, both registered druggists, who moved here from Quitaque, Tex., in December of 1956 to open the new store here.

They had operated a similar store in Quitaque.

In addition to the professional pharmacy service offered by the Burgess brothers, the store has a full line of every-day drug items, baby needs, sick room supplies and a complete cosmetics and photography department.

A drive-in window on the north side of the pharmacy building permits pickup of prescriptions or shopping for most items from the car— eliminating the need for the customer to do elaborate dressing before going to the drug store.

Roller Rink Popular Here

Popular as a recreation spot in Snyder is the Rock-A-Way Roller Skating Rink, located in the 4300 block of the Big Spring Highway.

The rink, owned by J. M. (Doc) Davis and Howard Gracey, was established here in the spring and has since had large crowds of both youths and adults.

The rink is housed in a large circus-type tent, with the sides rolled up when the rink is in use to allow cool breezes in. It is open many afternoons and is open at nights until 11 o'clock six nights a week.

Skating shoes in all sizes from tots to adults are provided, or skaters can use their own if they have regulation type wheels.

Umberson's Is Unique Store

One of the most unique businesses in the Big Spring Highway business area is Umberson's, a store that deals in almost everything for the home except appliances.

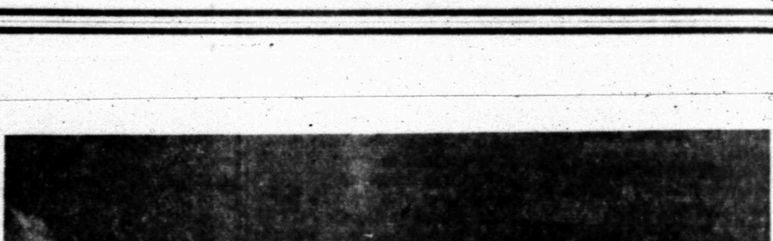

Owned by Mr. and Mrs. Sonne Umberson, the store has a wide variety of unusual home furnishings and decorative items — many of which are imported.

"We have selected furnishings and decorative items which are unusual, and which are not regularly found in the smaller towns," Mrs. Umberson said.

One of the unique features of Umberson's is the fact that all displays are in rooms of the large converted residences in surroundings similar to the ones in which they will appear in the home of the purchaser.

By utilizing the house for the display, Mrs. Umberson believes that customers have a better idea of how the furnishings will fit into their home before purchased than would be possible if the display were all in a single large area.

Good Food—Fast Service

DOUG McGLAUN GULF SERVICE — Doug McGlaun, operator of another station here for 10 years, now operates the Doug McGlaun Gulf Service Station, above, located at Thirty-seventh Street and the Big Spring Highway. McGlaun invites all his many friends to visit him at the new location. (Lee Watason photograph)

D. McGlaun Takes Over Gulf Station

A long-time popular service station operator is now back in business on the Big Spring highway.

He is Doug McGlaun, who now owns and operates Doug McGlaun's Gulf Station located at Thirty-seventh Street and the Big Spring Highway — one of the busiest intersections in West Texas.

McGlaun operated the Bud Miller Service station on the Lamesa Highway here for 10 years, and following sale of that business worked as a tire and appliance salesman for Mixon Tire & Supply Co. here.

Assisting McGlaun in operation of the station now are Charles Gladson and Buster Ward.

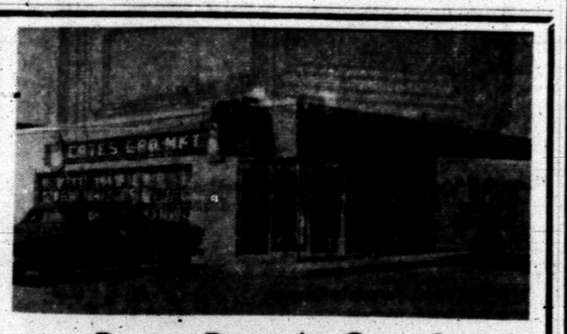

"We offer expert lubrication, washing, and all regular service station services, a complete line of Gulf tires, batteries and assessories, and other automotive need," McGlaun said.

McGlaun's Gulf Station is open from 6:30 o'clock each morning until 10 o'clock each night.

A free pickup and delivery service is offered by the firm to wash and lubrication customers.

"We can pickup a customer's car when he goes to work in the morning or after noon, and have it back to him by the time he needs it the next time," McGlaun said.

He added that this service also eliminates the worry of overparking which plagues persons employed in the downtown area.

MODERN FINA STATION—One of the two modern Fina Service Stations on the Big Spring Highway is the Fina Super Station at Thirty-sixth Street above. It is owned and operated by Jimmy Moates and Cecil Stephens. The other Fina station is the Southside Fina at Fortieth Street, operated by Bob May and Jimmy May. (Lee Watson photograph)

2 Fina Stations Now Serve Area

Two service stations opened in recent months on the Big Spring Highway to serve Snyder motorists are the Fina Super Service, at the corner of the highway and Thirty-fifth Street, and the Southside Fina, at the corner of the highway and Fortieth Street.

The stations handle Fina gasolines, as well as a number of other products, including all brands of oil, Goodyear tires and tubes, Auto-Lite batteries, AC filters and plugs, and other auto accessories.

The Fina Super Service, a completely new station opened in May, is operated by Jimmy Moates and Cecil Stephens, both men with several years of experience in service station operation.

The super service now has a special on wash and grease and vacuum for $3. Wash and grease man is Howard Smith, well-known among car owners for his work in Snyder during the past eight years.

Hours at the super service are 6 a.m. to 11 p.m.

The Southside Fina is operated by a brother team, Bob May and Jimmy May.

Bob May, who recently completed schooling at Hardin-Simmons University, Abilene, had previous service station experience throughout his college time. Jimmy May is a high school student.

That station offers gas and oils, tire repair, oil changes, filter changes, accessories, tires and batteries, as does the super service.

The Southside Fina is open daily from 5 a.m. to 1 a.m.

Both stations are served by Snyder Oil Co., Fina distributorship operated by A. K. (Smitty) Smith.

Morris Has Humble Sta.

The Bill Morris Humble Service Station was opened in April 1957, and has been owned and operated by Bill Morris since.

Morris, and his employes have made the station one of the most popular service stations in Snyder through personal service and the best attention possible to their customer's cars.

The complete line of high quality Humble products are offered by the station.

Gun Service Is Offered

The House of Guns is just exactly what the name implies — a house offering complete sales and service on guns.

Bill Anderson, owner and operator, has operated the shop for the past three months.

A complete line of hunting rifles, shot guns, and small arms of all types are stocked by the firm, and a complete repair service is offered on all types of firearms and sporting guns, Anderson said.

The firm also sells fishing tackle, hunting supplies and equipment of all types, and fish baits including live minnows.

Prior to moving to Snyder, Anderson lived in Anson and operated a similar business in Abilene.

Partners Operate Home Town Motors

Two men who have worked together since 1950 have been partners in ownership of Home Town Motor Sales Co., 3704 Big Spring Highway, since the spring of 1957.

They are C. W. (Pinky) Ferguson and Sam Stephens, who both have had a number of years experience in the automobile business.

Opening Home Town Motors in April, 1957, they have maintained it as a lot specializing in clean, late-model cars. There is usually a total of 20 to 25 cars on the lot.

Cars purchased by the firm are washed, greased and polished and get thorough servicing, as well as a checkup for possible mechanical defects, before they are sold. Employed to help keep the merchandise clean is Art Cervantes.

Ferguson is former owner of the Ford dealership here and was associated with Ford agencies for seven years. He was a member of the sales department of Wade Pipkin Motor Co. here from 1950 to 1954, when he went to Hobart, Okla., and was Ford dealer. He returned here at the beginning of 1955 and purchased the Ford dealership, operating it as Snyder Sales Co. until 1957, when the two ended their partnership.

Prior to that time Ferguson, a native of Vernon, was employed for several years with Technical Oil Tool Co. (TOTCO), working in Abilene, Odessa, Snyder and other West Texas cities.

Stephens has been connected with the automobile business more than 15 years, part of the time in parts and service and part in sales.

He was with the service department of Poteau Motor Co., Ford dealership at Poteau, Okla., for three years, then came here in 950. With the Wade Pipkin firm e was in parts and service four ears and was in the sales depar-nent of Snyder Sales Co. until the wo became partners.

Music Holt Specialty

The only business in Snyder which deals exclusively in records, music items record players and radios is located on the Big Spring Highway.

It is Holt Music Co., owned by Terry Holt. Established three years ago in its present location, it deals in a complete stock of the latest single records and albums, the popular stereophonic record players, and such smaller items as sheet music, record player needles, carrying cases, children's records and others.

Stereophonic record players, including the latest in styles, are headed by the well - known Hoffman, while Holt Music also handles several other nationally-advertised brand names in record players and radios, such as the Zephyr, Voice of Music, RCA Victor and Dictograph. Portables, table models and consoles are available in record players or combinations.

Holt has been a Snyder resident since 1950, spending his first five years here operating his record machine route. That route is now operated by one of his employes, Bill Deavers. Clerk in the store is Lou Ann Dawson.

Texan Is Named

CHICAGO (AP) — Mrs. Lillian B. Hope of Longview was named Friday to a two-year term to the board of directors of Pilot International, a professional and business women's service group.

Cleaning Shop Has Drive-In Service Here

A drive-in cleaning establishment which offers service at low rates is Lieb's Cleaners, Big Spring highway.

The firm, owned by Alfred S. Lieb, is managed by Mrs. M. M. Mapes. Others employed at the shop are Adam Rios, cleaner, and Mrs. Sally Lane, silk finisher and helper.

The drive-in, cash-and-carry firm does its cleaning and pressing work at regular rates of 75 cents for suits and dresses and 40 cents for pants, skirts and shirts.

Pre-school specials are scheduled for the near future.

The cleaning firm also does all kinds of mending, pocket installations, button work and other services.

Established three years ago as a partnership of Lieb and M. M. Mapes, the firm's name was changed to Lieb's Cleaners last Jan. 15 when Lieb purchased full ownership.

Sailors Miss Party; Army Takes Over

BUFFALO, N.Y. (AP) — The Navy missed the boat so the Army grabbed the beef, the buns and the girls. The local USO planned a special evening for sailors from the USS Macon, but high winds whipped mounting waves in Buffalo Harbor and the tars never made it to shore. GIs from a nearby base took over the 150 pounds of roast beef, 23 dozen rolls and 115 pretty hostesses.

Another party is planned for the sailors.

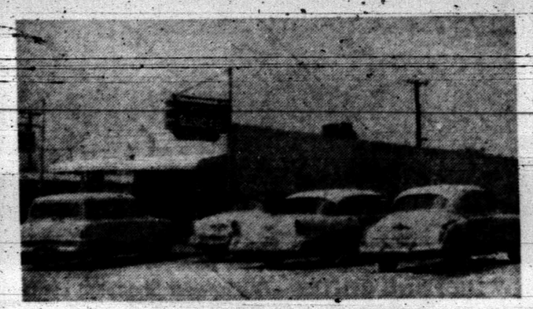

In area, Brazil is 15 times larger than France. Each has about 42 million inhabitants.

Refinery Manager Calls For Talks

TEXAS CITY (AP)—The American Oil Co. refinery manager, B. F. Babin, called on the union Thursday to set a date for resuming talks aimed at settling a strike.

Babin said the latest proposal by the union for resuming negotiations "includes conditions that appear to defeat the true spirit of collective bargaining."

Members of the Oil, Chemical and Atomic Workers Union Local 4-449 struck four weeks ago in a dispute over job classifications. Negotiations were broken off after 17 sessions.

NEW SHOPPING CENTER—The newest Shopping center on the Big Spring Highway is the Snyder Shopping Center, located in the 3500 block, the first two stores of which are pictured above. On the left is the Art Style Beauty Salon and on the right is the Art Dress Shop. Mantha Landfried is owner of the beauty salon and Mrs. B. J. Weaver and Homer Bishop own and operate the Art Dress Shop. (Lee Watson photograph)

Art Style Beauty Salon Is All New

One of Snyder's most modern beauty salons is the Art Style Beauty Salon, located just off the Big Spring highway in the Snyder Shopping Center.

Owned and operated by Mantha Landfried, the salon is in new quarters opened in April.

The large building provides spacious reception area, hair stylists' areas, dispensary and kitchen and includes new - type styling stations which feature Tri - Bar design, permitting privacy for stylists and patrons and double mirrors at each station. Two comb-out stations in the salon have triple mirrors.

A cosmetics bar is included in the reception area, and the salon has two manicuring stations completely equipped. They also include hair driers for convenience of customers who desire manicures while their hair is drying.

The salon also has a tint room with two tinting and hair coloring stations designed for complete privacy.

The salon is fully air conditioned and well - decorated. It is open from 8 a.m. to 7 p.m. five days weekly. It is closed on Saturdays and Sundays.

Recently added to the staff of stylists at the salon is Elliott World, the only male hair stylist in Snyder, who formerly operated Elliott's Beauty Salon here. World has been a stylist for five years.

Miss Landfried, before having her own building constructed for the more modern salon, operated the Art Style for almost nine years at 1005 Twenty-fifth Street.

She has operated her own shops since 1942, having one at Itasca before coming to Snyder.

She began her career in Dallas at Neilson Beauty College, one of the country's leading schools of beauty care, and since that time she has been active in keeping up with current trends and advance styles by attending sessions at Jessie Lee's and at Isbell's University. Two years ago she made a cosmetologist's tour of Europe, including attendance at a special hair styling festival in Paris.

Miss Landfried is also active in civic affairs here, having served on the Chamber of Commerce board, as a director of the Martha Ann Woman's Club, as an officer in the Snyder Beauticians Association and as a member of the Business & Professional Women's Club.

Stylists at the shop, other than Miss Landfried, are World, Viola Smith, Mary Wenetschlaeger, Mavis Kirkland and Ruth Poor. Cosmetician and manicurist is Aline Knight, and receptionist is Mrs. Opalee Weaver.

HP Cleaners Modernized

Recent modernization, in a new building, has helped keep Highland Park Cleaners, 3803 Big Spring Highway, in the forefront as a cleaning establishment in Snyder.

The firm, owned by Mr. and Mrs. Shelby Coker, was established here late in 1950 by S. S. Steinberg. Coker, who was employed by Steinberg for a time, purchased the firm last February.

Coker has been in the cleaning industry more than 25 years and managed a number of cleaning firms prior to entering his own business here.

The firm features a number of services, including quality cleaning and pressing, refrigerated storage for furs and woolens, hand cleaning of finer garments, free pickup and delivery service, with use of plastic protector bags, re-sizing and re-shaping of clothing with modern equipment, moth-proofing of clothing and blankets and many others.

In its new quarters the shop has plenty of parking space and night depository. The building is fireproof.

Hours of the shop are 8 a.m. to 6 p.m. six days a week.

Employes include the Cokers, Leon Ledford, cleaner and presser, who was with the firm when it started; Mrs. Orville Taylor, checker; and Vera Evans, presser.

Thompson Has Two Firms

Three well-known longtime Snyder residents are owners of Thompson's Cleaners, which has one of its two Snyder establishments at 1904 Thirty-seventh Street, just off the Big Spring Highway.

The owners are Ed W. Thompson and his two sons, Eldon Thompson and Billy Wayne Thompson, all three successful in more than one type business here but primarily in the cleaning business.

Thompson's Cleaners features cleaning, pressing, repair and alterations of clothing. Regular rates are $1 for suits and dresses and 50 cents for pants and shirts.

Mrs. Odétha Sanders operates the pickup station on Thirty-seventh Street, which is open from 7 a.m. to 6 p.m. six days a week.

The Thompsons opened their cleaning business here 10 years ago. Eldon Thompson had at that time five years of experience in the cleaning industry and Billy Wayne Thompson had three years. Their father had been a barber in Snyder for a number of years prior to that time.

Anti-Vice Drive Has A Handicap

MEXICO CITY (AP)— Police complained their anti-vice campaign is being thwarted because prostitutes have infiltrated nice neighborhoods "and we can't raid them."

Last year in a sweeping sudden move raid police closed down a red light district, which had operated for decades.

Now, said police, the prostitutes are operating in apartment houses in which "decent people also live."

Earning-Reports Nip Stock Slump

By SHEP CAMPBELL
AP Business News Writer

NEW YORK (AP)—A flock of healthy corporate earnings reports snapped the stock market out of its steel strike doldrums this week.

The rosy first-half profit picture of most companies apparently tempered investor anxiety about the economic backlash of a lengthy steel industry shutdown. The market had retreated last week with the onset of the steel strike.

Trading moved at a cautious pace, though volume quickened when prices pushed higher and dwindled during the declines.

The market began the week by lengthening the losses absorbed during the [illegible]

But prices recouped much of this lost ground with brisk rallies on Tuesday and Wednesday. The market then dug in to cement these gains on Thursday and Friday.

Over-all, The Associated Press average of 60 stocks stepped up $1.40 to $231.80. The Dow Jones industrial index, which hit a new closing peak of 664.63 after the mid-week recovery, added 6.59 on the week at 663.72.

Transactions totaled 14,785,280 shares, down from 15,557,890 last week.

Besides the round of sparkling corporate earnings, investor interest was ignited by such market stimulants as reports of recent records in the nation's output of goods and services, cost of living and personal income.

Both U.S. government and corporate bonds moved indecisively this week, ending with small gains and losses.

Trading totaled $26,019,500 par value on the New York Stock Exchange compared with $25,062,200 the previous week and $24,856,000 in 1958.

House Likely To Delay New GI Bill

WASHINGTON (AP) — The GI Bill for peacetime veterans passed Tuesday by the Senate may have to wait until next year for House consideration.

The chairman of the House Veterans Affairs Committee, Rep. Orlin Teague (D-Tex), said in an interview today that he opposes its passage now.

To get House approval, Teague said his committee would have to hold hearings on the legislation. He added: "I don't propose to hold hearings this year. I don't want to be a party to sending a GI Bill to the White House which is almost certain to be vetoed by the President."

Teague said the proposal should be held over until next year when he said political considerations will make a veto less likely. Next year is a presidential election year.

The GI Bill as passed by the Senate would provide two major benefits to men who entered military service after Jan. 31, 1955, or will be entering service before July 1, 1963. They are:

1. An education and training program similar to that provided Korean War veterans, except that the government allowances to help pay for the schooling in some cases would be made as interest free loans rather than as cash gifts.

2. A GI loan program similar to those for World War II and Korean veterans.

Teague said he opposes putting education allowances on a loan basis in place of outright gifts.

Hatfield Has Full Service

The Buck Hatfield Shamrock Service Station located at Fortieth Street and the Big Spring Highway offers a complete service station for the Snyder area.

Owned and operated by L. W. (Buck) Hatfield, the station has pump islands on the Big Spring Highway and Fortieth Street sides of the building, and a complete washing and greasing department.

The station also offers polishing and waxing service.

Hatfield said the station also carries a complete line of automobile necessities and accessories such as tires, batteries, tubes, fan belts, oil filters and other necessities.

Fast road service for cars and trucks which have flat tires or run out of gas is also offered.

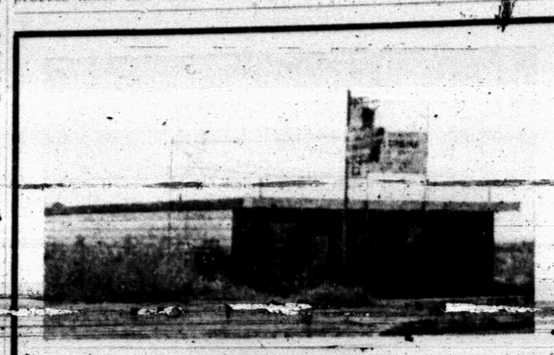

Here From Hamilton

Mrs. Katie Davis was brought from Hamilton to the home of a son, Alton Davis, 2506 Avenue B, by Bolger ambulance yesterday.

Meat Packing Plants Planned In Mexico

MEXICO CITY (AP)—The government plans to establish a meat packing industry and plants to process hides and other cattle by-products in Cananea in northern Sonora, it was reported yesterday.

The aim is to stimulate cattle production and industrialization on the former Greene cattle estate which has been expropriated and parceled out to small ranchers, the newspaper Novedades said.

D&H SUPER MARKET—The frist store to open in the new Highlands Village Shopping Center was the D & H Super Market above. It is located at Forty-second Street on the Big Spring Highway. A spacious parking area provides ample parking for the super market and other businesses now located in the center. (Lee Watson photograph)

D&H Has Largest Store In Snyder

One of West Texas largest and most modern super markets is the D & H Super Market located at Forty - second Street and the Big Spring Highway in Highlands Village Shopping Center.

Manager of the modern store is Clyde Godwin, who has been employed by D & H since 1946.

The new store was opened in the present location on May 1958.

It features many innovations in marketing of foods and household goods which make it not only one of West Texas largest, but most outstanding super markets.

It even has a private television room for children who accompany their parents to the store.

"One of the outstanding features of the store is the hand-level open-top display cases, making selection of all foods easy and quick for the customer," Godwin said.

In keeping with the modern eating habits, the D & H Super Market features an abundance of refrigerated display cases for everything from fresh meats to all types of frozen fresh foods, dairy products and produce, and heat-and-serve items.

The D & H Super Market chain in West Texas was started in 1923 by Joe Davis and Bill Humphries, owners of the store here.

Maquey Plant May Produce Hormones

MEXICO CITY (AP) — Hormones which form the base of cortisone can be produced from the now-wasted juices of the maguey plant, says the head of Industria Nacional Quimico Farmaceutica (INQF).

Antonio Armendariz, director of the government chemical industry, said in an interview with the newspaper Novedades a pilot plant will be established in Yucatan for production of the hormones.

El Paso, Tex., received its name from a nearby pass in the Rocky Mountains.

3 Firms In New Building

Three civic leaders are heads of three firms which operate from a new building at 1907 Fortieth Street, just off the Big Spring Highway.

They are Donald Ray Scott, J. L. (Broadway) Browning, and Howard Milburn. The firms are Scott & Scott Realty Co., Scott & Browning Building Co. and Midwest Insurance Agency.

Scott & Scott is one of the oldest realty firms in town. It "grew up" in the business. Formerly located downtown, the firm first moved to the Big Spring highway when the businesses constucted the building now used by Sweetwater Production Credit Association. Several months ago the three firms moved into their new quarters.

Scott & Browning Building Co. has been building homes in Snyder since 1950. At that time Scott and Browning formed a partnership to build and sell homes here after Browning had spent several years teaching in public schools. They have since built a number of housing additions here and are now developing the second section of the Highlands addition in the area around the new Stanfield Elementary School.

Midwest Insurance Agency is managed by Milburn and owned by the three men. It handles all types of insurance, including auto, bonds, fire and windstorm and liability.

McKinley Plumbing Firm Busy

The busiest of plumbers in Snyder includes Herbert McKinley, owner of McKinley Plumbing Co., Big Spring Highway.

McKinley Plumbing is a family business, operated by McKinley, his wife, and his 18-year-old son, David McKinley.

Coming to Snyder in April, 1950, from Gilmer, McKinley was busy as soon as he came here. At that time he was contracting installations on new housing additions and did installation work on all of Kirrell Heights No. 1, as well as much of Towle Place and other housing areas.

He has built the business basically on repair, however, and specializes in that line now, doing installation and repair for individual homeowners and businesses.

About two and one-half years ago McKinley moved the firm into new brick quarters on the Big Spring Highway and began to display his complete line of kitchen and bath plumbing fixtures and supplies. These include American Eagle glass water heaters, as well as other brands, and American Standard and all leading brands in bath and kitchen fixtures, as well as dispose-alls. Fixtures are available in any color desired.

The firm has one of the biggest stocks of faucets and faucet repair parts in this area.

Open five and one-half days a week, the firm's weekday hours are from 7:30 a.m. to 5:30 p.m.

A&W Firm Well Known

Featuring three nationally-known products, A & W root beer and orange and the newer Better Burger, is the A & W Drive-In on the Big Spring Highway.

The firm, owned by Mr. and Mrs Robert Fulton, was opened here by the Fultons three years ago as one of about 40,000 A & W Drive-Ins in the world.

The Better Burger, which started in Odessa, rapidly became nationally-known and was added by the A & W here about a year ago. The firm currently has a special of four Better Burgers, made with baby beef. The drive-in also handles all kinds of sandwiches, cold drinks and ice cream.

Open from 11 a.m. to 11 p.m. daily, the drive-in has four carhops and three inside helpers to serve customers.

Fulton, who moved here from Larned, Kan., has been in this business about eight years and had previously opened other A&W establishments.

Floyds Run Laundromat

The Westinghouse Laundromat located in the 3700 block of the Big Spring Highway offers a complete do-it-yourself laundry service for the Snyder area, and the machines do most of the work.

About the only work left for the customer to do in the weekly wash is loading the clothing into the machines, pouring the soap in and plugging in the coins to start the washing cycle.

The Laundromat is owned and operated by Mr. and Mrs. Ennis Floyd.

Open 24-hours per day, the Laundromat has large driers to dry the clothing after washing.

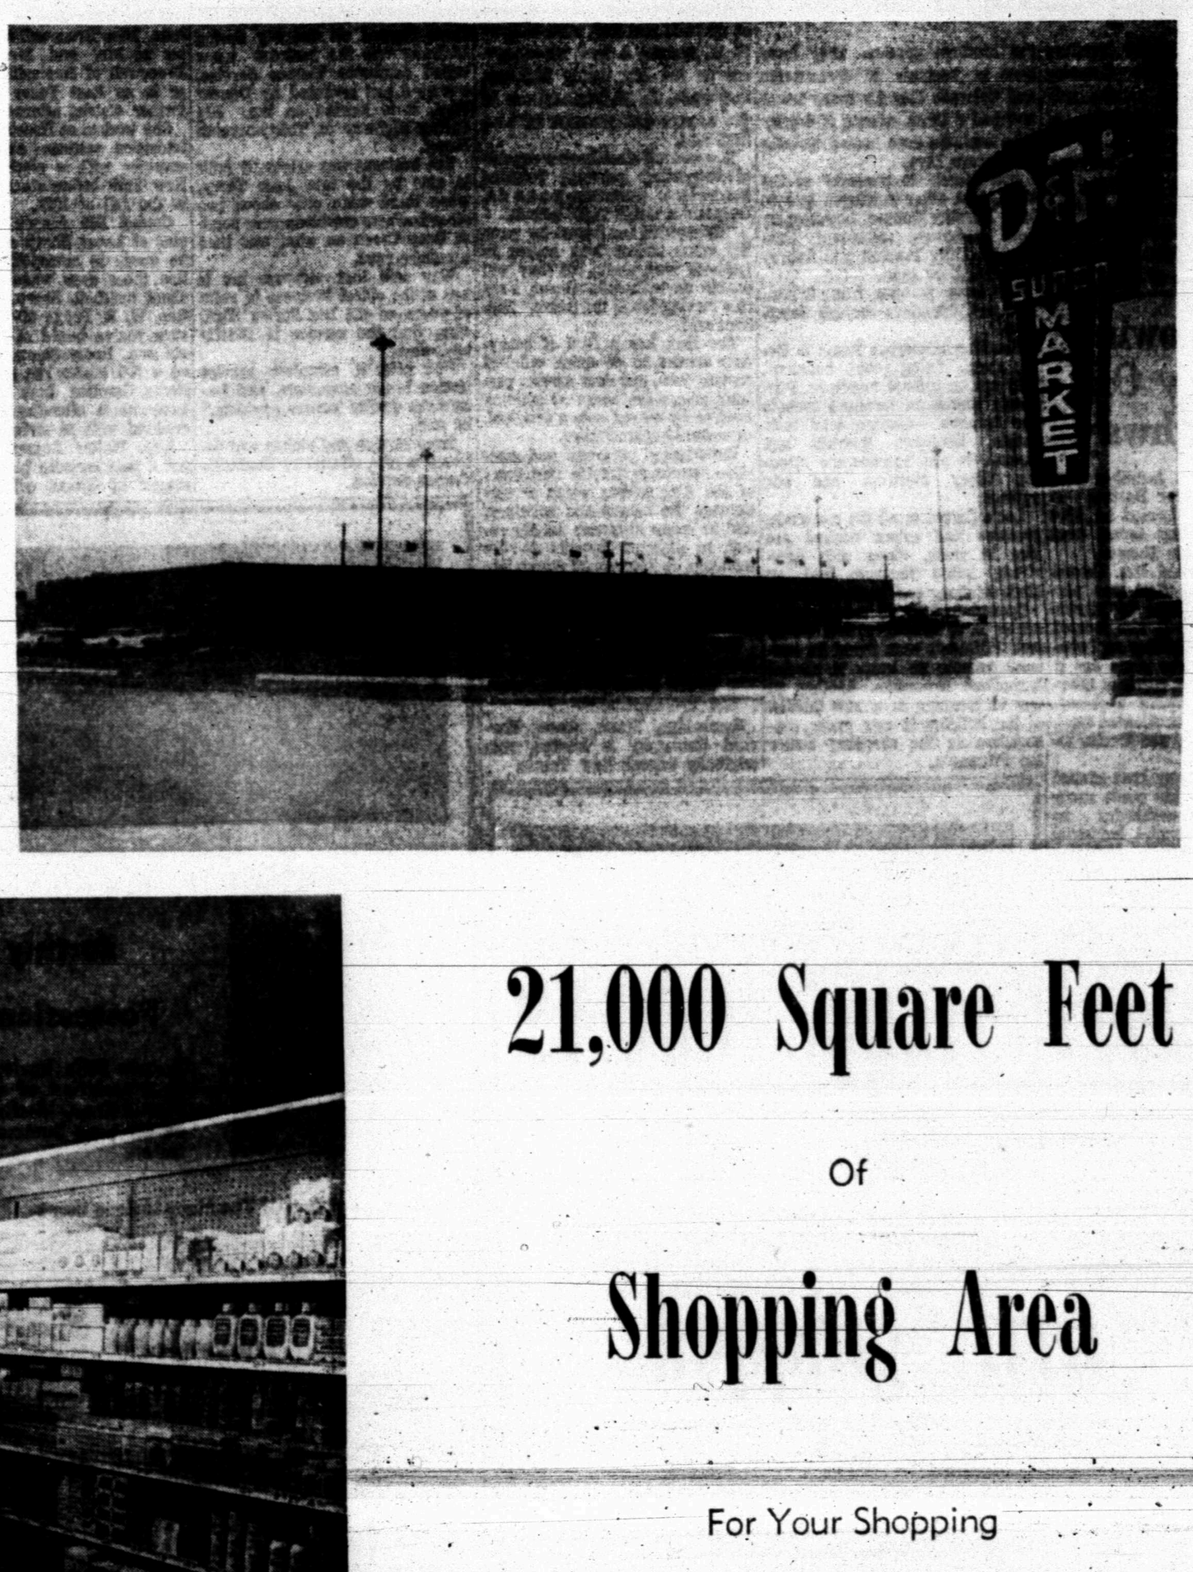

Hand Brake Ignored During Wild Ride

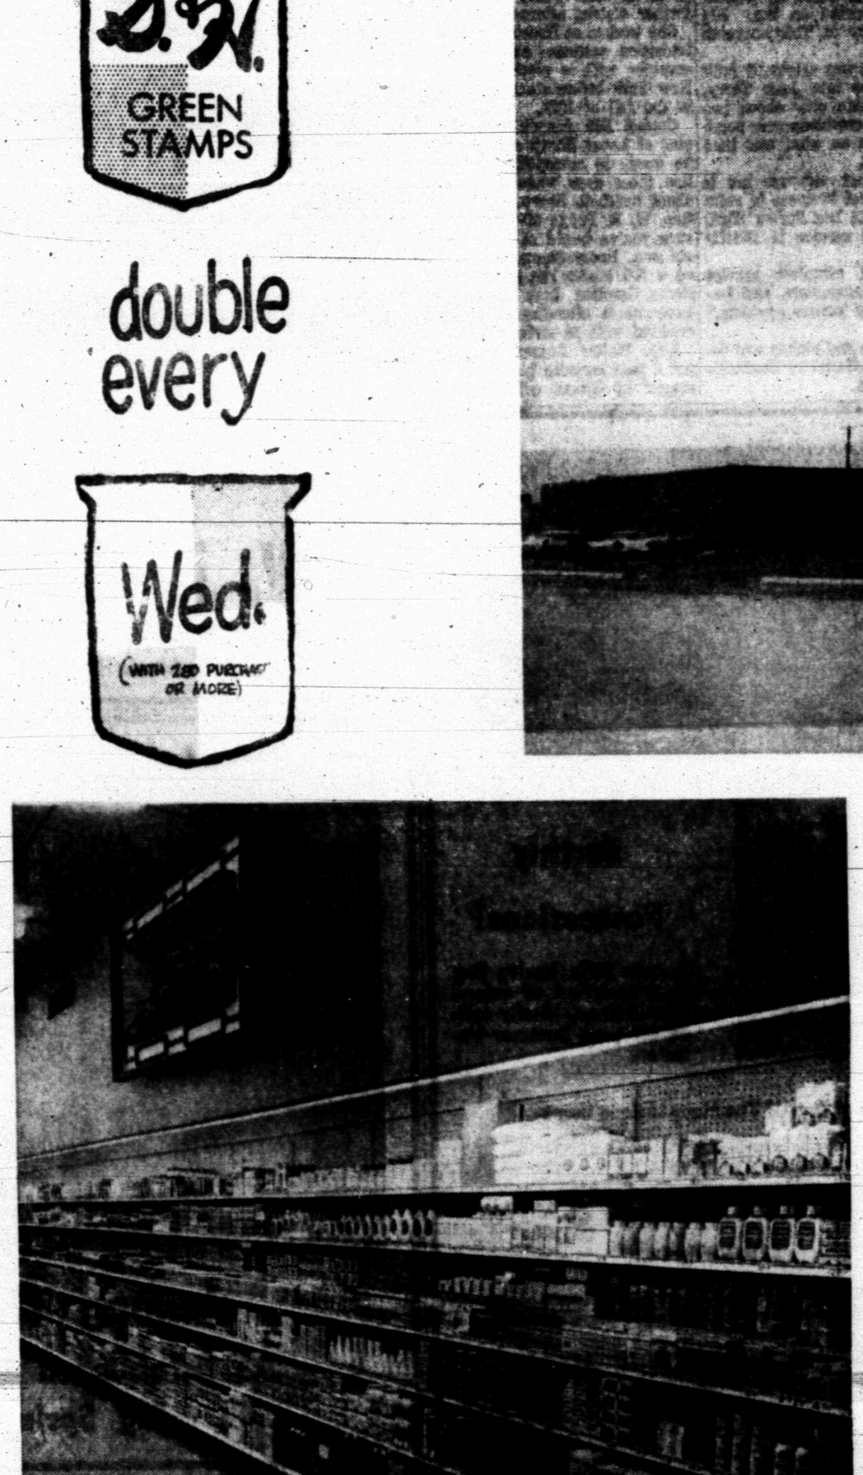

SAN FRANCISCO (AP) — William Gerrard's car started down Nob Hill. He hit the brake. No response.

He stuck out his leg and dragged his foot. After three blocks, his heel began to smoke. So the 25-year-old insurance agent bailed out, tearing his pants as he rolled over.

DAVIS & HUMPHRIES, OWNERS & OPERATORS

PITTMAN FLOOR COVERING AND FURNITURE CO. located in the Highland Village Shopping Center is pictured above. The portion at the left is an addition to the business which was only opened here recently. (Lee Watson photograph)

Pittman's Plans To Expand Store

One of Snyder's newer furniture stores is Pittman Floor Covering & Furniture, which carries only nationally-advertised brands of furniture and floor goods.

Pittman's is among the business es which recently opened in the new Highland Shopping Center on the Big Spring Highway.

Owned by Roy Pittman and Floy Pittman, it is one of three stores the brothers operate. They have been in business in Sweetwater and Colorado City for many years and had a large volume of Snyder area business even before opening their store here.

Bob Morris is manager of the store, and other employes include Mrs. Dorothy Bonner, bookkeeper; Cecil Osborne, salesman; Paul Stanley, Billy Preston and Aubrey Leonard, floor men.

The store is open from 8 a.m. to 6 p.m. Mondays through Saturdays.

Handling numerous items in living room, dining room, bedroom, den and occasional furniture, Pittman's brands in furniture include the Sprague - Carlton solid rock maple, Kroehler, Broyhill and Drexel. It also handles the Morning Glory mattress and box springs.

Lee's Carpet in all the materials, patterns and colors desired are also in stock, along with Armstrong inlaid linoleum and all kinds of floor and wall tiles.

Opened in May in the shopping center in a building 50 feet by 80 feet, Pittman's soon found its business volume so large it needed immediate expansion. Another 30 feet of frontage in a new portion of the building is now under construction in the shopping center for Pittman's.

Fast-Growing Industry On BS Highway

Among Snyder's fastest-growing industries is Snyder Heating & Air Conditioning, located on the Big Spring Highway across from the Canyon Drive-In Theater.

Owned by Mr. and Mrs. Vernon O. Rannefeld, the firm was purchased by them here in March, 1950. At that time it was located in half of a large building on Twenty-sixth Street. Three years ago it was moved to new spacious quarters on the Big Spring Highway, with the added room allowing more space for inventory and service facilities.

Working in a large area around Snyder, the firm has made many heating and air conditioning installations in residential, industrial and business buildings, including most of the homes built by Scott & Browning, Jearld Smith and Bob Parks and many other homes, as well as many churches, schools, banks, retail stores and others.

The firm is dealer here for Lennox heating and air conditioning equipment and the Carrier, which is primarily air conditioning. It has retail sales and services in heating and air conditioning equipment, installations, all kinds of sheet metal work, all types of service work on evaporative and refrigerated air conditioning and heating units and all replacement parts.

The Rannefelds came here from Abilene, where he had been a heating engineer for Lone Star aGs Co. since receiving his engineering degree from Texas Tech. Hours at the firm at this time of year are 8 a.m. to 5 p.m. on weekdays and until noon on Saturdays.

Employes include Earl Chapman, shop foreman; Ronald Bearden and Jimmy Rodgers, installations; Bob White, service; Bill McCright, Lynn Morrison and Rufus Carey, helpers and Pauline Scrivner, office.

Goldfine's Troubles Are Not Over Yet

WASHINGTON (AP) — A judge has suspended the jail sentence of Bernard Goldfine for contempt of Congress, but his federal troubles are not over.

A short time after the sentence was suspended here Friday, Goldfine learned that the U.S. Court of Appeals in Boston had upheld his jail sentence for contempt of court.

The suspended sentence involved the gift-giving Goldfine's appearance before the House Legislative Oversight subcommittee last year. The hearings eventually led to the resignation of Sherman Adams as assistant to President Eisenhower.

The sensationalism of the hearings was one factor that led U.S. Judge James W. Morris to suspend the sentence of Goldfine, who had pleaded no contest and asked the mercy of the court.

Judge Morris imposed the maximum sentence, a fine of $1,000 and a year in jail. Then, noting evidence that a former subcommittee investigator had eavesdropped on Goldfine in a Washington hotel, Judge Morris suspended both the fine and the jail term and placed Goldfine on two years probation.

Bigham Moves Big Buildings

Special "skids" for moving houses up to 95 feet long were built by W. K. Bigham & Sons, house movers on the Big Spring Highway, last week, G. W. Bigham, one of the owners and manager of the firm said.

The two all-steel beams capable of supporting buildings weighing hundreds of thousands pounds, themselves weigh 21,000 pounds.

"We needed the beams for moving some 90-foot long houses in Lubbock next week, but they will enable us to handle almost any size moving job in the future," Bigham said.

The firm has a fleet of heavy-duty trucks to do quick efficient moving jobs, and does moving projects where the house or building need to be moved only a few feet, or several hundred miles.

Experienced personnel and complete insurance provide customers of the firm moves which do not damage the houses and buildings, and in many instances actully result in physical benefits to the buildings in the expert foundation work done in the new location by the firm.

The first visit of a member of Britiain's royal family to Canada was in 1860 when the then Prince

Cambridge, Mass., where Harvard University is located, was originally named New Towne.

Texaco Sta. Up-To-Date

One of the first few business firms located on the Big Spring Highway was the business now called Southside Texaco Service, owned and operated by Denver Way. It is located on the Big Spring Highway at Thirty-seventh Street.

The business was originally built in 1950 by the late Jack Terry, when there were only about two other business establishments south of Deep Creek on what was then a caliche road.

Way said that although his is one of the oldest business in point of years on the Big Spring Highway, that the service is strictly up-to-date.

"We offer a complete service station to our customers, and feature the quality Texaco products," he said.

Road service and pickup and delivery is also offered by Southside Texaco Service.

Eight Texans Are Attending National Strategy Seminar

By TEX EASLEY
Associated Press Special Service

WASHINGTON, D — Eight Texans are among 200 reserve officers attending a two - week national strategy seminar at the Army War College on the grounds of Ft. McNair not far from the Capitol.

While the Defense Department is cooperating and crediting the men with active duty time, the seminar is sponsored by the Institute for American Strategy and the Reserve Officers Assn.

The purpose: to provide them with a better understanding of the global conflict between the free world and communists and to aid them in formulating plans to enhance free world security. Seminar director is Dr. Robert Strausz-Hupe of the University of Pennsylvania Foreign Policy Research Institute.

The Texans, some of whom were "billeted" at the Sheraton Park Hotel along Rock Creek Park included:

Maj. Gen. James Earl Rudder, army reserve, president of Texas A&M College; Capt. Thurman M. Gupton, naval reserve, Angleton judge; Cmdr. William L. Story, naval reserve, Dallas attorney; Maj. Frank Norton, air force reserve; Dallas lawyer; Capt. Robert J. Robinson, air force reserve, Dallas school teacher (Boude Storey Junior High); Col. James D. Scott, chief of staff, National Guard, Dallas; Capt. Billie Gene Hollowell, Air National guard, Grand Saline attorney; Col. Brudge E. Kyle, Air Force reserve, Beaumont investment broker.

AROUND THE CAPITAL:

A pretty brown - eyed Texas school 'marm, Byrda Lynn Bracewell, 24, is spending the summer working in the office of Rep. John Dowdy of Athens.

She'll return in September to her speech classes at Houston's Landrum Junior High, ready to dispense pointers on Congressional oratory as observed by her during lunch hour visits to the House and Senate.

A 1955 University of Texas graduate, Miss Bracewell is the daughter of Mr. and Mrs. Reginald Bracewell of Huntsville. Her father is an East Texas lawyer and former district attorney.

She worked at Houston radio and television stations and spent a summer with a stock theater in New York before starting to teach in the fall of 1957.

Capitol Hill friends and associates of Lacey Sharp of Waco find he wants to monopolize conversation these days when the talk is about baseball. Sharp, top aide to Rep. W. R. Poage (D-Tex), makes sure you've heard of his 16-year-old son, Rusty Sharp, who pitched a NO hit-No run game at the North Carolina boys summer camp he is attending. Rusty was credited with 14 strikeouts.

Rep. Walter Rogers of Pampa got a real surprise birthday party staged by Texas colleagues and secretarial staffers. They saluted him at a gathering in the old George Washington Inn, across the street from the House Office buildings. As a hotel, many members of Congress resided there, but the building is now occupied by the staffs of House subcommittees. Rogers was 51 on July 19.

When Rep. Paul Kilday of San Antonio and Mrs. Kilday recently entertained Texas friends at their home in northwest Washington, the Mexican food served in the basement recreation room outdrew turkey and ham served upstairs.

Julian Langston of Abilene, aide to the House Administration Committee which Rep. Omar Burleson (D-Tex) heads, commutes during the summer between Washington and a cottage on Cobb Island, 40 miles away, down the Potomac River. Langston, who sports a 30-foot cruiser, is winning local fame as a fisherman and boatman.

WEST TEXAS CARPET AND FURNITURE is pictured above. The modern new store located just west of the Big Spring Highway on Thirty-seventh Street features a wide range of carpeting and fine furniture. Owners are Jeff DeShazo and Johnny Robbins. (Lee Watson photograph)

New Store Offers Home Furnishings

West Texas Carpet and Furniture Co., located just west of the Big Spring Highway on Thirty-seventh Street is owned and operated by Jeff DeShazo and Johnny Robbins.

Although the store was opened only this year, it has rapidly expanded its lines of merchandise and quality carpeting, and now offers a complete service in both floor covering and home furnishings.

"We select all our home furnishings with the same attention to quality, and craftsmanship as we would if we were intending to use the furniture in our own homes," Robbins said.

At the present a special sale is being held to help make more display room in the store for a large new shipment of maple furniture which will arrive next week.

3 Barbers Are On Staff At Hillcrest

Mert Creswell, who has operated the Derrick Barber Shop on the Lamesa Highway until three weeks ago, has joined the staff of the Hillcrest Barber Shop in the Village Shopping Center on the Big Spring Highway.

Dub Edwards, owner, also moved to the shopping center location earlier this year from the Derrick Barber Shop.

The third barber in the shop is Hugh Fairly, who has been at the Hillcrest Barber Shop since it was opened.

"We offer all the regular barber shop services including haircuts, shaves, facial and scalp masage, and shoe shines," Edwards said.

Coleman's Grill Popular Spot

Among Snyder's best known cafe operators are Mr. and Mrs. G. C. Coleman, owners of Coleman's Grill, 1906 Thirty - seventh Street, just off the Big Spring Highway.

The grill, opened in January by the Colemans, who had operated Coleman's Cafe here four years and had been in the sporting goods business prior to that time, specializes in steaks, fried chicken, hamburgers, sandwiches and other foods.

Open from 6 a.m. to 10 p.m. daily, it is a favorite spot for the coffee hour. The cafe, with 1,600 square feet of floor space and a dining area which will seat 68 persons, has a large parking area in front.

Employes in the cafe, other than the Colemans, are Mrs. Ouida Nail, Mrs. Veda Minor, Estella Andrade and Eva Andrade.

Crown Beauty Salon Popular

The Crown Beauty Salon, located at the rear of the Highland Park Barber Shop building in the 3700 block of the Big Spring Highway, is a highly popular beauty salon here.

The shop is owned by Mrs. Pauline Johnston, and she is assisted by stylists Annie Teutschlander and Elizabeth Welsh.

Mrs. Johnston has a completely modern salon and offers the complete line of beauty services in addition to hair styling.

Spacious parking areas are provided both at the front and rear of the building.

Resembling an American stock exhange room, the Netherlands have markets where buyers bid for millions of flowers and potted plants.

Cate's Store Has Many Specialties

A firm which specializes in knowing its customers, as well as having a number of other specialties, is Cate's Grocery on the Big Spring highway.

Owned by Roy Cate, the store is located on the east side of the highway in a 37-by-70-foot building which was constructed in 1957 for the firm.

Among specialties of the store is the preparing of quarters and halves of beef, as well as other meats, for food freezers and lockers.

New at the store is sale of cube ice. The firm recently add a York ice cube maker which produces medium-sized cubes.

The store handles all types of groceries, meats, fresh vegetables and has fresh barbecue daily, including fryers, beef and sausage.

Cate is a long-time grocer, having begun working in a store at Sentinel, Okla., in 1929 and later managing an IGA store there in which he had been working. After managing the Sentinel store two years, he went to Borger as a butcher, and after four years he opened his own grocery store in 1942.

He operated the Borger store a number of years before moving to Snyder in 1950 and opening a grocery store on the Lubbock highway.

He moved to the store on the Big Spring highway in 1956, then locating on the west side of the highway, moving the next year to the east side.

Working in the store are Cate, his wife, his daughter, Louise Cate, and J. B. Duncan, butcher.

The store is open from 7 a.m. to 8:30 p.m. six days weekly. It is closed all day Sundays.

Panel Okays Bill To Rule Out Equal Time

WASHINGTON (AP) — The House Commerce Committee has approved a bill that would exempt radio-television newscasts from the equal time rule.

The rule provides that a station giving time to one political candidate on a program must give the same amount of time to all other candidates.

Canyon Electric Expands Facilities

A business which not only has operated in an improved location on the Big Spring Highway but has been electrical contractor for the building of many other businesses on that highway is Canyon Electric Co., 3902 Big Spring Highway.

Canyon Electric is owned by Dick Watson, who has been in the electric business in Snyder since 1950. Watson, who has been working in that type business since 1942, moved here almost 10 years ago to establish his own business after working at Odessa for Brown Electric Service.

The electric firm is well-known in Snyder for its residential, commercial, industrial and oilfield wiring and for its complete electric motor rewinding shop.

Watson has wired several hundred residences in Snyder, including those in Kittrell Heights No. 2, Noble Heights, Cullum addition and Park Place addition.

Many business and industrial buildings have also been wired by Canyon Electric. Included are many on just one highway here, the Big Spring Highway. Canyon Electric wired Snyder Heating & Air Conditioning, a part of Snyder Furniture Co., McKinley Plumbing, Hatfield Shamrock Service, Burgess Pharmacy, Cate's Grocery, Phil's Auto, its own building, Westinghouse Laundromat and the Masonic Lodge.

The firm has grown rapidly since its establishment here. Watson first opened the business at 312 Twenty - eighth Street, moving in 1952 from there to 1919 Twenty-sixth Street for more room to expand. He constructed a building on the Big Spring Highway and moved the business there in February, 1958. The new building has about 2,000 square feet of floor space.

Shortly after Watson established the business he added the electric motor service department, which has been constantly expanding. The shop does complete rewinding after motors have burned out, but it has also done much work in service and maintenance to prevent motor failure.

The firm maintains a full stock of electrical contractor equipment and fixtures, including repair parts and light fixtures.

In addition to these services the firm offers a service of advice on electrical problems, including overloading and other wiring needs, which is a growing service in line with the growing demand for electricity which is coming with increased use of electrical appliances. The average family now has four times the number of electrical appliances it used in 1930.

Employes of the firm are Watson, his wife, Peggy McBroom, oilfield and building electrician, and Jerry Green, electric motor.

The store is open from 8 a.m. to 5 p.m. daily, and the electricians are on call 24 hours a day for emergencies.

Phil's Auto Serves Area

Demand for fishing equipment and marine supplies has been growing for a number of years in Snyder, especially since Lake J. B. Thomas came into being, and the increasing demand was the reason for the opening of a Big Spring Highway store by Phil's Auto & Appliance Center more than a year ago.

The marine supply store is owned by Phil Burns, who has been in business in Snyder 15 years and is well - known as a civic leader and merchant.

Manager of the marine store is Eldon Grant, a native Scurry Countian who also operates from that store a television - radio repair shop. Grant has several years of experience in repair work.

The store features Evinrude motors from three and one-half to 50 horsepower, and Corsair and Arkansas Traveler boats in both metal and glass from 14 to 16 feet.

It also has Dilly boat trailers, as well as all trailer parts, including winches, tires, tubes and rollers. Another specialty of the store is service on boat motors, including tuneup and repair.

All fishing equipment and marine supplies are included in the store, which is open from 7 a.m. to 6 p.m. Mondays through Saturdays.

The United States Weather Bureau has been administered by the Department of Agriculture since 1891.

Long Distance Phone Rates Will Be Cut

WASHINGTON (AP) — Rates for some long distance phone calls will be cut soon under federal order. The annual reduction will total about 50 million dollars.

The Federal Communications Commission ordered the reduction Friday. It would apply to interstate phone calls over a distance of more than 300 miles.

American Telephone & Telegraph Co., which protested the order, said it expected to introduce the reductions in mid-September.

The amount of money a caller will save on a single phone call is not known. The company and its affiliates will have to file new rate schedules before that can be determined.

Frederick R. Kappel, president of AT&T, deplored the commission order.

"I believe this action ignores the long-range interests of the public," he said.

"Right now, we need to spend millions to make the quality of our service still better, add to the enlarge and strengthen the communications network for national facilities needed for growth, and defense," Kappel added.

OUR VIEW

Castro's Aims Are Foggy

This is July 26, anniversary of Fidel Castro's rebellion in Cuba and the date the successful revolutionary leader has announced that he will make a decision on whether to resume the post of prime minister.

A year of Castro, fighting and governing, does not present a bright picture. The Cuban who is revered by the masses in his country may be regarded as a much better fighter than administrator, although there are some who suspect that anyone with an ounce of leadership could have overthrown the Batista government.

Since Castro brought his revolution to a successful climax and assumed control of the government, his objectives have been rather foggy. Reports indicate that he has been utterly unable to grasp the full significance of his role. He appears to have won a victory on the battlefield without knowing what to do about it, now that the military action has ceased.

Such a state of indecision is made to order, of course, for the communists. This is a touchy subject when Castro is around, but nevertheless it is one which cannot be ignored.

As for Castro himself, he has disavowed an allegiance to the communists, but at the same time he has not passed up opportunities to lampoon the capitalistic system of free enterprise, particularly as it is practiced in the United States. Some of his ideas are not exactly incompatible with communist doctrine, and his purge of two high officials of his own government bring to mind cases in other unstable countries where communists are making strong bids for control.

It is unlikely that Cuba will grow in stature, unless positive steps are taken to chart a clearer course. Right now, Castro's objectives for his country are, to use a time worn expression, clear as mud.

Canal Pilot Set Cruiser's Record

ROCKPORT, (AP) —Capt. J. R. Stapler of Rockport is probably the only pilot who ever took a light cruiser through the Panama canal at high speed.

It was a long time ago, and stemmed from a difference between civilian and navy engine room signals.

"Instead of 'standard speed', which isn't an order used on merchant vessels, I gave 'Full ahead' which I was used to, forgetting that this meant exactly that," the captain related recently.

It was the first time that I had piloted a Navy Vessel through the Canal, and I didn't realize what had happened until the Richmond squatted and shook herself and the channel buoys began to go by so close together that they looked like fence pickets.

"Adm. Day was riding through the Canal with us, and I looked at him and Capt. Osterhus, and they were grinning like anything. I knew the admiral well, so I thought, 'What the heck, they've got to hang them before they hang me,' and they're not about to do that', so I let her ride.

"When we went around the first bend after we left the Gold Hill Cut I felt her slide sideways, but we had plenty of room so I didn't worry. There was a ship ahead and I blew to pass, but we were by it like an express train before the captain knew what happened, leaving it bobbing like a cork in our wake which was terrific, because we were making about 26 knots.

"I cut her down when we got close to Gatun Locks, but that wake outran us and slammed the lock gates. When the admiral left, he grinned and said: 'You want to be good now.'

"But all the same, I was writing letters for six months afterwards, explaining."

Capt. Stapler spent two years helping dig the "Big Ditch" before he went back to sea, earning something that a lot of people would like to have these days—exemption from paying income tax on a portion of his income.

"Congress gave a sort of bonus for that," Stapler said, "because of the yellow fever and malaria that took so many lives," and it says on the certificate that this bonus, which comes every month, can only be taken away from us by another act of Congress. We had to take it to court, but the courts held that if can't be taxed and it helps in these days."

At sea again, before World War I, he was a third mate on the old towboat Keechi, which used to operate along the Texas coast, hauling oil from Tuxpan and Tampico to the Port Arthur refineries. He had held a master's license for any tonnage vessel since 1919 and renews it religiously every year, although his sea going days are limited to fishing trips on Aransas Bay.

He became a Canal pilot about 1922 and stayed for nine years that time, conning all sorts of ships through the locks and channels of this great engineering work. One of his most prized possessions is the whistle he used to direct the movements of these ships.

Bardot's Sister Turns Down Role

HOLLYWOOD (AP) — Because the role and costume were too small, Brigitte Bardot's younger sister has turned down what would have been her first American film role.

A Universal studio spokesman said Mijanou Bardot cabled from Paris rejecting the role of a secretary to the devil, Mickey Rooney, in "The Private Lives of Adam and Eve."

The studio said she previously had accepted the part but changed her mind after reading the script.

Hitler's Air Ace On Our Side Now

By Helmuth Von Brauchitsch

AHLHORN, Germany (AP) — During World War II, Hitler's Third Reich credited a young, blond-haired Luftwaffe pilot with downing 352 Russian planes on the Eastern Front.

Today, the same pilot is commander of the first fighter wing of the new West German Luftwaffe. He is poised ready to fight the Russians again if the need arises, but this time on the side of the West.

Maj. Erich Hartmann, World War II's top air ace, is high in his praise of the United States, the planes she has supplied to the West German Air Force, and his American friends.

Only four years ago he was released from Soviet prison camps after spending 10 years in 12 different ones.

Hartmann has little to say about his own past or future careers.

At 37, he is concentrating on training young flighter pilots, and refers interviewers to "the fine young men in my wing you really should meet and write about."

His new command is stationed at Ahlhorn in northwest Germany. Its 42 F-86 Sabrejets fly at twice the speed of the piston — engined Messerschmitt 109s he fought the Russians with for three years.

He hopes to get even faster planes in the near future — United States Starfighters, which he believes are the best available today for the fledging West German Air Force.

Hartmann was born the son of a doctor in a small town near Stuttgart, and spent some of his early life in China where his father was attached to a hospital.

His mother, an active sports flier before the war, interested him in airplanes and by the time he joined the Luftwaffe in 1940 at the age of 18, he was an experienced glider pilot.

In three years he reached the rank of major while becoming Hitler's top air ace. Soviet antiaircraft fire forced him to land nine times — once behind Russian lines, but he always managed to return to his base unharmed.

When Germany surrendered, Hartmann was in command of a unit in Czechslovakia. He blew up his planes and surrendered to a United States tank unit. After two weeks in American hands, he was turned over to the Russians with 20,000 other Germans under an Allied agreement.

Sent to the Soviet Union, he was moved from prison camp to prison camp, and twice was sentenced to 25-year prision terms. The first, Hartmann says, was after he refused to join the air force of Communist East Germany. The formal charge was mass murder of Russian civilians.

The second sentence, he says, came after he refused to accept release and promise to work for the Communists in West Germany.

Hartmann finally was released in 1955 along with 38 other German POWs, after West German Chancellor Konrad Adenauer visited Moscow.

Once back in Germany, Hartmann considered studying to become a doctor as he had planned before the war. But air force friends persuaded him to go into uniform, and in August of 1956 he became a major in the new Luftwaffe.

His pretty brunette wife Ursula, whom he married in 1944, at first didn't like the idea. But after a while she gave in.

"As long as I see you standing around the garden," she says, "and looking after those planes."

Hartmann had a lot to learn. He took several refresher courses, including one from August to December of 1957 at Luke Air Force Base near Phoenix, Ariz. He made a number of friends on his American trip and still corresponds with them.

He lives quietly with his wife and their 2½-year-old daughter near the Ahlhorn base.

Stalin Shrine Site Much Quieter Now

GORI, U.S.S.R. (AP) — Once this was a great Russian shrine. It still draws tourists, but it is not the busy place of just a few years ago.

This is the birthplace of Joseph Stalin. In the years when Stalin's name was magic, a trip to Gori was an event on a par with a Moslem's journey to Mecca. The historic debunking of Stalin has cut the prestige of his birthplace.

The little house in which Stalin was born has a protecting roof structure over it, but is much the same in other respects as during Stalin's boyhood.

Near the old house is the large, handsome, expensively built museum that tells the story of Stalin's life, from his days in Gori until the winning of the revolution.

American visitors are impressed by the large number of photographs on display of Stalin as boy, youth and young man. For a country boy, he had his picture taken a rather large number of times.

The exhibits show Stalin as a seminary student, on the way to becoming a priest of the Orthodox church. They show him taking up communism, plotting revolt. They recount the many times he was arrested, thrown into prison, exiled to Siberia, escaped from Siberia, returned to Siberia.

With success achieved and the Bolshevists in charge, the story ends. "What about the rest of Stalin's life?" the guide is asked.

"Some more rooms are in preparation," was the reply.

"When they are ready, that part of the museum will be opened, too."

2 Convicted Of Murder

SAN DIEGO, Calif. (AP)—Wanda Brogdon and her lover Archie Merriam were convicted Thursday night of first-degree murder for strangling her two sons.

They face death in the gas chamber or life imprisonment.

The jury which convicted them starts deliberations today to determine the couple's punishment.

Merriam, 36, had testified that Mrs. Brogdon, 33, showed him how to strangle the boys. Mrs. Brogdon denied it.

They withdrew pleas of insanity and pleaded innocent of the slaying of David, 3, and Virgil Brogdon Jr., 5, the night of May 2-3 in the mountains east of here.

EVERYBODY'S GROCERY & MARKET—The interior of Everybody's Grocery & Market, located just south of the Deep Creek bridge on the Big Spring highway, is pictured above. The popular store is owned and operated by Mr. and Mrs. Rex Miller, and handles a complete line of staple and fancy groceries, meats, and fresh barbecues. (Lee Watson photograph)

Everybody's On BS Hwy. 10 Years

Everybody's Grocery & Market, located just south of the Deep Creek bridge on the Big Spring highway, is one of the popular business on the highway.

Owned by Rex Miller, the store specializes in good staple and fine foods, a complete market, and a catering service long popular throughout this area.

Miller moved to Snyder from Paris, Tex., about 15 years ago and operated a grocery store on the east side of the Snyder square for five years before moving to the present location. He has been in this location since March of 1950.

Assistant manager of the store is Howard Crenshaw, who has been associated with Miller since two weeks after Miller went in the grocery business here in 1945.

J. W. (Bill) Early is the manager of the meat market in Everybody's Grocery & Market.

Other members of the staff include Dickie Clemmer, Ronnie Eades, Freddy Miller and Mrs. Jo Ann Ham. The latter two are children of Mr. and Mrs. Miller.

Fresh hot barbecued meats are sold at the store from the store's own barbecue pit located near the store. Barbecue feeds for all size parties and gatherings are also catered to by Miller and employes of the store.

"We are proud to be a part of the rapidly growing Big Spring highway business section, and are always happy to have the opportunity to serve our many friends and customers in any way possible," Miller said.

Starr's Has Largest Drive-In Cafe

A growing West Texas restaurant chain operates Snyder's largest drive - in cafe and restaurant on the Big Spring Highway.

Starr's Drive - Ins operates its Starr's No. 8 in Snyder as one of a number of such businesses in West Texas. Others are at Sweetwater, Colorado City, Midland, Olessa, Brownfield and Lubbock.

The chain began when Kenneth L. Smith of Sweetwater purchased the original Mrs. Starr's at Sweetwater in 1951 and retained the name, later beginning expansion.

With similar menus in each of the restaurants, Starr's features service and good food, including complete lunches and dinners as well as short orders. Sea foods are on the menus, as well as steaks and other larger plates.

Manager of the local branch is Roy Smith, who came here when the chain purchased the Hilander Drive-In in November, 1957. He has been with the chain three years and in the cafe business 10 years.

Hours at the drive - in are from 5 a.m. to midnight daily.

Employes include C. V. Shirley, assistant manager; Alonzo Johnson, chef; J. T. McGowen and W. E. White, cooks; Mildred Nichols, Virginia Colvin, Edith Henry, Pepper Garner and Bessie Hendrix, waitresses; Wanda Bowlin, Martha Wells, Dorothy McFatridge and Betty Harrison, carhops; Bill Rogers, W. E. Christianson and Robert Barton, dishwashers.

Test Passed By Crowded Bikini Suit

SEATTLE (AP)—From top to bottom—40-26-39.

And all crowded into a teensy, weensy Bikini, yet!

At first glance you wouldn't think there was anything controversial about that. Now, would you?

At second glance — maybe. At third glance? Definitely "yes."

At least that was the opinion (it took several more glances) of four policemen on a Seattle beach Friday.

Darlene Smith, 21, who says she is an exotic dancer with the stage name Star Bright, poured herself into a Bikini and wandered waterward to test a recent ruling by the park board.

The board said recently it would leave to the police any decisions of what might be termed "indecent exposure" on public beaches.

Somebody called the cops.

(There were rumors the caller might have been Miss Smith's publicity agent. But that's beside the Bikini—uh—point.)

Four patrolmen pulled up. They stopped. They looked. They looked again.

Miss Smith waited—all 40-26-39 of her. She stretched out on a towel.

There was a sudden dash for a patrol car. A hasty conversation with headquarters followed.

A sergeant arrived on the scene. There was agreement. It was a nice Bikini.

"Whew," said the sergeant.

E. D. Floyd Operator Of Barber Shop

A native Snyderite is operator of the Highland Park Barber Shop, 3705 Big Spring Highway.

The shop, conveniently located in a shopping area with plenty of parking space, was the first on that highway.

Operator is Eddie Don Floyd, who was reared in Snyder and has been a barber two and one-half years.

Working with Floyd in the shop are two other well-known barbers, [illegible] Love, former owner of the shop, and Ennis Floyd. Shine boy is John Wharry.

The shop, in addition to the regular haircuts for the individual customer's needs, also specializes in the popular "flat-top" haircuts, as well as offering other barbering services, such as shampoos and shaves.

Hours at the shop are a.m. to 6 p.m. weekdays and 8 a.m. to 7 p.m. Saturdays. It is closed on Sundays and Mondays.

Variety Store Has Stock Of 10,000 Items

The first variety store located in a shopping center area in Snyder was the Highland Park 5 & 10, Big Spring Highway.

Owned by Mr. and Mrs. Herman C. McPherson, formerly of Big Spring, the store was opened a year ago. McPherson was for the four previous years a partner in the International Harvester dealership in Big Spring, selling his interest to come here. A Big Spring resident 26 years, he was for many years employed by Texas Electric Service Co.

Both Mr. and Mrs. McPherson are natives of Snyder and completed high school here. He is the son of the late A. M. McPherson, who was city judge for a number of years, and she was the daughter of the late R. E. Joyce, rancher. Mrs. McPherson and Mrs. Joyce still live in Snyder.

The store, 50 feet wide and 60 feet deep, is conveniently located with plenty of parking space. Its hours are 8 a.m. to 6:30 p.m. weekdays, and it remains open until 8 p.m. on Saturdays.

The store has some 10,000 items in stock in its 24 departments, including sewing goods and all materials and sewing notions, gift items, new toys, hardware, baby items and other home needs. With many Christmas gift items in stock, the store has already begun its Christmas lay-away plan.

Working in the store with Mr. and Mrs. McPherson is Mrs. A. J. Williams.

Overloaded Trucks Wait

HUNTSVILLE (AP)—The drivers of 15 big grain trucks sat and waited. Highway officers sat and waited.

That's the story of the overloaded grain trucks.

Patrolmen can only make arrests if the vehicles are in motion.

Eighteen of the truck-trailer units carrying grain from Oklahoma to Houston and Galveston ducked into a filling station just south of here Wednesday.

Constable T. C. Corner said they halted shortly after state patrolmen nabbed several other trucks carrying excessive loads.

Mack Reynolds said he and most of the others were from around Frederick, Oklahoma.

Reynolds said four empty trucks returning from Houston would take on part of the grain from the beleaguered vans.

"I have news for him—the law says they can't reload on other trucks unless those trucks have Texas licenses," Corner said.

Columnist Suffers Heart Attack

RANDOLPH, Vt. (AP)—Dorothy Thompson, 65, noted columnist, author and lecturer, is in Gifford Memorial Hospital after suffering a heart attack Thursday at her summer home in Barnard.

Dr. Elizabeth Berry said she spent a fairly comfortable night and that basically her condition is fairly good.
