Big Three Report Agreement On Far Eastern Questions

WASHINGTON—(P)—The Big Three Western foreign ministers reported Saturday after a final meeting that they were "in accord" on Far Eastern questions.

Secretary of State Acheson, British Foreign Secretary Bevin and French Foreign Minister Schuman met for an hour and a half at the State Department to discuss Far Eastern matters.

A communiqué issued after their talks said "The ministers found that their views on existing situations and the methods by which they might be met were in accord."

Jury Deadlock Brings Mistrial

SILVER CITY, N. M.—(P)—Twenty hours of deliberation by the jury Saturday failed to produce a verdict and the Apodaca removal case was ordered a mistrial.

Barring further legal rulings, this means the state's effort to remove A. L. (Happy) Apodaca as Dona Ana County sheriff must be tried again. Time and place for another trial have not been announced.

Apodaca was accused June 24 by a special Dona Ana grand jury on a number of civil counts and his removal was recommended. He was suspended a week later by the state comptroller.

The grand jury also indicted him on criminal charges of rape of a female minor and contributing to her delinquency. No date for the criminal trial has been set.

A Proclamation

WHEREAS, the citizens of Midland wish to join the celebration of National Dog Week;

WHEREAS, it has been said that "Dog is Man's Best Friend";

NOW, THEREFORE, I, William B. Neely, Mayor of the City of Midland, Texas, do hereby proclaim the week of September 18 to September 24 to be "National Dog Week" in Midland.

(Signed)
William B. Neely, Mayor

Atlantic Pact Allies Set Up Defense Panel

WASHINGTON—(P)—Twelve determined Western nations shouldered their mutual military responsibilities Saturday under the Atlantic Pact. Reports of mounting Russian armed might painted in a somber background for their decisions.

The foreign ministers of the Atlantic Alliance countries, meeting for the first time as a council, ordered immediate steps taken to draft "unified defense plans" for the entire North Atlantic area.

The United States was assigned a central and dominant role.

Even while the ministers were meeting, two committees of the United States Senate reported formally that Russia has more than 5,000,000 men under arms and appears to be carrying out a "deliberate" policy of adding to its military strength.

The Foreign Relations and Armed Services Committees of the Senate, which have been meeting jointly on the Administration's proposed \$1,314,000,000 foreign arms aid bill, gave that appraisal of Soviet power in recommending passage of the measure.

Like Clockwork

Both the treaty move and the arms bill were part of the strategy to discourage any Russian aggressive ambitions.

The Senate begins debate on the arms bill, probably Monday. The talk is expected to last several days, as a good many senators want to press amendments to the bill.

In contrast, Saturday's meeting of the foreign ministers went like clockwork.

In a smooth running, 60-minute session, the council chose Secretary of State Dean Acheson as its first chairman, created a cabinet-level Defense Committee, set up half a dozen top-ranking military planning groups, and decided on Washington as alliance headquarters.

Out of the complex committee structure, a three-power "standing group" of the Central Military Committee emerged as potentially the

Polio Drive Workers Collect \$4,014 Here

In five days work, campaign workers for a Polio Epidemic Emergency Drive in Midland collected \$4,014.55, according to a report Saturday by Harvey Herd, chairman of the campaign.

"We aren't through yet," Herd said. "Contributions still are coming in from all parts of the city."

The campaign was hampered in its beginning by bad weather. However, determined workers contributed extra hours of time and effort to make the drive a success.

Contributions still may be made at the Chamber of Commerce or by mail to "POLIO" in care of the Midland Post Office.

The emergency campaign through the nation was necessary when the National Foundation for Infantile Paralysis reached the bottom of its money barrel in an unprecedented fight this year against epidemic polio.

Midland reported nine cases this year.

Joan Edwards Fund Now Totals \$4,109

The Joan Edwards Recovery Fund gained \$20 during the week ended Saturday to climb to \$4,109.77. The fund entered last week with \$4,089.77.

E. L. Swain contributed \$1 Saturday. Other contributions during last week included: Midland OES, \$10, anonymous \$4 and A. B. Cole, Sr., \$5.

Meanwhile, the unconscious girl's father, M. J. Edwards of Rankin, reports her condition improved and that she is able to eat small portions.

Here is the standing of the fund, started by generous West Texans, with latest contributors listed:

Previously reported \$4,109.77
E. L. Swain 1.00
Total \$4,109.77

Texas Employment Takes Sharp Upturn

AUSTIN—(P)—Employment conditions show "a healthy economy upsurge" in this state, the Texas Employment Commission said Saturday.

The TEC announced that unemployment rolls have dropped sharply during the last 30 days.

At the same time, farm employment skyrocketed to reach the highest peak since the start of the TEC's farm worker placement program.

Tava Wilcox and Una Elliott announced the opening of American Dresden Shop, 1201 W. College Avenue, Monday, September 19. Figurines, Art Supplies, Visitors Welcome—(Adv.)

Pilots Die In Mid-Air Plane Crash

IRVING, TEXAS—(P)—An F-51 National Guard fighter plane crashed broadside into a Navy torpedo bomber in the air near here Saturday, killing both pilots.

The Navy plane, a TBM Avenger, was flying formation with two other Avengers at 2,000 feet. The National Guard plane plowed into the Avenger's rear fuselage, chewing up the plane from the rear cockpit back. Both are single engine planes.

The National Guard pilot was James Lewis Turner, Jr., 27, of Irving. The Navy man was Lt. (jg) Leroy Bates of Pasadena, Texas.

An eye-witness, Air Force Reserve Capt. E. D. Weber of Irving, said the F-51 turned into the formation of Avengers, hitting the right wing man. Weber said the left wing plane in the formation saw the F-51 coming and dropped down several hundred feet. The National Guard craft smashed into the Navy bomber at a 90-degree angle.

Jumped—Too Late

Weber said he saw a parachute trail from the damaged Avenger when it was just above tree-top level. But the chute never blossomed open. The pilot apparently had leaped too late.

His body was found beside the crashed plane. The F-51 crashed in a cow pasture about 50 feet from Highway 183. It exploded and burned. The pilot never got out of the cockpit.

Pieces of the chewed-up Avenger were scattered over the flat countryside for a quarter of a mile.

Weber, a veteran pilot who has logged 2,300 hours in the air, said apparently the vision of the F-51 pilot was blocked by the wings of his plane as he turned toward the formation.

More Cool Weather Headed For Texas

By The Associated Press

Texas temperatures were back to normal Saturday for mid-September after a four-day cool spell—but more tangy weather was on the way.

The forecast said cool temperatures would start edging into the state along its northern border late Sunday or early Monday.

The state's highest temperature Saturday was 101 degrees at Laredo. It was 100 at Alice, Guadalupe Pass and Dalhart tied for the low maximum with 83 degrees. Elsewhere, readings were in the nineties.

Survivors Of Crashed B-36

Thankful to be alive are surviving crew members of an ill-fated B-36 bomber which crashed on its take-off from Carswell Air Force Base at Fort Worth, killing five airmen. From left to right: Maj. Roy B. Hubbard, pilot; First Lt. Richard L. English, Maj. John H. Keene, T/Sgt. Harry Holloway, Jr., Sgt. James H. Bradshaw, S/Sgt. Quentin E. Freed, T/Sgt. James Shumate and S/Sgt. Jack B. Allen.

Whispered Name Of Mrs. Simpson Silrs British Court Again

LONDON—(P)—The name "Mrs. Simpson" was whispered around the royal court Saturday like a breath from the prewar past.

This time it was Mrs. Romaine Simpson, lovely New York divorcee. She was reported engaged to David Michael, marquis of Milford Haven, a great grandson of Queen Victoria.

Mrs. Simpson is 27. The marquis, one of Princess Margaret's favorite dates this year, is 30. He is a night club enthusiast, who also has gone out both here and in the United States with Sharmar Douglas, daughter of U. S. Ambassador Lewis Douglas.

Another of Victoria's grandsons—now the Duke of Windsor—gave up the throne in 1936 so he could marry another Mrs. Simpson. That was Wallis Warfield Simpson, Baltimore divorcee.

Marquis Dodges Issue

The Church of England frowns on remarriage of divorced persons. The Duchess of Windsor has yet to be received by the royal family.

The London Daily Mail got in touch with Milford Haven just before he pulled down the shutter.

The Mail said the marquis declined to affirm or deny the engagement report, but he did disclose that he and Mrs. Simpson have had their picture taken together by Baron Nairum, a court photographer.

Nairum's secretary refused to give out any of the photographs, but said they will be passed around, "when it becomes official."

Mrs. Simpson, a curvaceous and smartly dressed brunette, came to London from Paris a few days ago. She is the daughter of the late Vincent Dahlgren Pierce of Washington, D. C. Her marriage to William Simpson of Locust Valley, N. Y., in 1946 ended in a Reno divorce two years later.

Coal Strike Looms As Near Certainty

PITTSBURGH—(P)—The crisis in American industry suddenly switched from basic metal to basic fuel Saturday. A nationwide walkout in the coal fields this week is a virtual certainty.

Most of the nation's 480,000 miners appeared ready to quit due to suspension of pension and other benefit payments.

Work stoppage already was under way in the West. Some United Mine Workers locals in the East and Midwest voted against reporting over the far flung coal fields—both bituminous and anthracite.

"There'll be damned few miners in the pits Monday," one union official said.

There was no word on this from UMW Chief John L. Lewis, who sent a telegram suspending payments under UMW's controversial welfare fund.

Fighting by telegram between the CIO United Steelworkers and the steel industry quieted with government intervention in an effort to stave off a countrywide strike of a million workers September 25.

Steel Talks Scheduled

Management and the union will sit down with mediation officials in Washington Monday to discuss the pension and insurance war which has snagged contract negotiations. This brightens hopes for a peaceful settlement.

The threatened walkout in coal pits Monday, "one union official said."

Sheriff's Possemen Of Five West Texas Counties Meet Here

Saturday was "Sheriff's Posse Day" in Midland—more than 100 mounted possemen from five West Texas counties assembling here in the first and most colorful gathering of its kind in the Permian Basin Empire.

A parade through downtown Midland early Saturday afternoon launched a series of entertainment events which concluded with a barbecue at 6 p.m. at the Midland Fair Grounds. The procession, led by the Midland High School Band, under the direction of Jerry Hoffman, was viewed by hundreds of persons who lined the streets along the parade route. Two members of the Police Department furnished a motorcycle escort.

The Midland County Sheriff's Posse, of which L. M. Freels is captain, was host to the visiting members of posse units of Upton, Pecos, Reeves and Martin Counties. The possemen from the neighboring counties transported their horses here in stock trucks.

Rodeo Events

Following the parade the horsemen went to the fair grounds where they participated in various rodeo events, including calf roping, barrel races, pony races and flag races. An exhibition galloped horse show also was held. Walton Poage of Rankin won the jackpot calf roping and Ed Ray Branch, also of Rankin, took barrel race honors.

Chamber of Commerce Manager Delbert Downing was at the sound system microphone at the rodeo grounds.

Possemen at Lubbock and Big Spring sent word they were unable to attend the area gathering.

Officials of the Midland posse termed the meeting an entertainment and get-acquainted event.

Veep Helps Open Dallas TV Station

DALLAS—(P)—Vice President Alben W. Barkley arrived here Saturday to help open a new television station.

The vice president landed shortly after 5 p.m. on an American Airlines flight. The new station, KBTB, was opened officially at 8 p.m.

Barkley will leave Dallas by plane at 10:40 a.m. Sunday for San Francisco where he will attend a meeting of top Democrats.

Author Ignores Her Own Advice

KANSAS CITY—(P)—The woman who wrote a popular book "How To Be Happy While Single" was married Saturday.

Jean Van Every, the author, became the bride of John Markle, II, of Meriden, Conn. She still is wearing a body cast as a result of back injuries suffered in a fall at her parents' home here August 1.

90 Missing; 117 Bodies Recovered

TORONTO, ONT.—(P)—Almost 200 shipboard holiday-makers, most of them Americans, died in a racing night-time fire that swept flames and panic through the Canadian pleasure cruiser Noronic in a few scant minutes early Saturday.

Awakened by screams and smoke, more than 400 others scrambled or jumped to safety through the flames that turned the 36-year-old Great Lakes queen into a blackened sunken hulk at her dock here.

Two Confess Plot To Kill Red Leaders

BUDAPEST, HUNGARY—(P)—Plans for a night of terror in which Hungarian and Yugoslav plotters were to kill key Communists and seize the government were related by two treason trial defendants here Saturday.

Lazar Brankov, 37-year-old counselor of the Yugoslav Embassy in Budapest, testified officials of Premier Marshal Tito's regime decided last October that peaceful methods were not enough to convert Hungary into a Yugoslav satellite and "other methods should be used."

These other methods, he said, included the dispatch of "two experts in political murder" to Budapest to shadow the Communist chiefs and kill them when the revolt signal was given.

The little plane—a modified Beechcraft Bonanza—carried two Italian aviators who took off from the Azores at 4:13 a.m. (CST) Friday. They hoped to land at New York City's La Guardia Field—2,000 miles away—early Saturday.

The plane was piloted by John M. Brondello and Camillo Barigello. They had aboard sufficient fuel to keep their craft aloft through 10 a.m. Saturday, under normal flying conditions.

The intensive aerial search began early Saturday, some 10 hours after the missing fliers made their last radio report to the Civil Aeronautics Administration control tower here.

At that time, the Italian airmen fixed their position at about 940 miles northeast of New York and 180 miles south of Newfoundland. They were flying in a drizzling rain.

Crane Man Injured In Rig Accident

CRANE—E. R. Arent, an employee of an oil well servicing firm, suffered a serious leg injury in an accident on a rig near here early Saturday.

He was treated at a Crane hospital then rushed to a Dallas hospital via plane.

Arent was injured when a swab line became kinked and a part of the swabbing apparatus struck him.

Italians Missing In Trans-Atlantic Hop

NEW YORK—(P)—A small, single-engine plane was missing Saturday night on a planned non-stop flight from the Azores to New York.

American and Canadian search planes fanned out over the Atlantic in a widespread hunt for the plane.

The little plane—a modified Beechcraft Bonanza—carried two Italian aviators who took off from the Azores at 4:13 a.m. (CST) Friday. They hoped to land at New York City's La Guardia Field—2,000 miles away—early Saturday.

Two Latin Americans Found Shot At Pecos

PECOS—A 25-year-old Latin American and his wife, who is about the same age, died violent deaths here Friday night in what officers believe to have been a murder and suicide.

Officers estimated the shooting occurred sometime after 6 p.m.

The man's parents were here at about that time and returned to Bartow with six of the couple's children, leaving a 10-month-old baby with them.

Several hours later, children in the neighborhood heard the baby crying, investigated and found the man and his wife dead. The woman had been shot eight times. One bullet had entered her right temple.

The man was Victor Rodriguez, Jr., and the woman was his wife, Francisca. The child was not hurt.

Flames Spread Rapidly

Mildred Briggs of Detroit, a survivor, said the flames spread as if in a match box.

"The fire just welled up along the corridors and spread faster than any fire I've ever seen," she said.

Many passengers thought the first cries of alarm were from parties having a good time.

But as first and smoke gushed, the passageways filled with stampeding people.

"There was a mob of men and women surging back and forth," said another survivor, Alberta Agla of Detroit. "Men were pushing women around and many were knocked to the floor. The screaming filled the air. There was so much panic that I don't know how these people found a way to safety. I slid down a rope."

Scared Trapped In Bunks

Many rushed out in their night clothes. One man got ashore naked. Henry Maurer of Mentor, Ohio, said he and his wife, Emma, were sound asleep when someone pounded the door. When they reached the outside rail his wife started down a rope ladder, "but it became horribly twisted from so many trying to get on it. She got tangled and trapped. I swung down on a rope to her side and got her free and we both managed to get to the dock."

Despite the confusion, hundreds got to safety by jumping to the

Animal Shelter Sets Open House

Midlanders are invited and urged by the SPCA to visit the well-kept animal shelter at 1702 East Wall Street Sunday, opening day of National Dog Week, which continues through Saturday. An extensive improvement program at the shelter was accomplished as a major project of the SPCA unit.

Midland SPCA Unit Sponsors Dog Week Observance Here

Open house Sunday at the modern and well-kept Midland Animal Shelter, 1702 East Wall Street, will launch the observance here of National Dog Week, which continues through Saturday. The observance is sponsored by the Midland chapter of the Society for the Prevention of Cruelty to Animals. A number of special events are planned during the week, officials said.

The Midland SPCA chapter was organized in 1947, with scores of worthwhile projects having been accomplished since that time.

Present officers are William W. Wainwright, Jr., president; Don DeVito, vice president; Mrs. Lee Flood, secretary; and Mrs. Alden Donnelly, treasurer. The organization has hundreds of members in the city and county.

The improving of the animal shelter was the number one project of the chapter last year. A total of \$1,118.01 was spent in operating the SPCA here in 1948.

The Midland County Library, the Junior SPCA and several youth organizations are cooperating in the observance of National Dog Week, which was proclaimed by Mayor William B. Neely.

The Junior SPCA will sponsor the showing of special animal motion picture films next Saturday morning as a special feature.

Cisco Farmer Dies Of Crash Injuries

CISCO.—(AP)—John Robert Snoddy, 75, pioneer Cisco farmer injured Thursday in a car collision, died Saturday.

Mrs. Snoddy, 71, whose right leg was broken, is recovering. The Snoddys' car collided with one driven by George McGee, 21, their neighbor, as the Snoddys were turning on to the highway from their home seven miles south of here. Highway patrolmen said the accident was unavoidable.

No Refunds Due On Odessa Tax Sales, Says State Ruling

AUSTIN.—(AP)—Purchasers of lots at tax foreclosure sales in Odessa who paid more than necessary to satisfy the court judgments are not entitled to recover the excess funds, the attorney general held Saturday.

Such excess funds do not belong to the purchaser but the original owner against whom the judgment was rendered, wrote Assistant Attorney General L. P. Lollar. The original owner has three years from the date of sale in which to reclaim the property.

If the original owner does not claim and receive the excess funds, the money is subject to being turned over to the state.

County Attorney W. O. Shafer of Odessa, Ector County, requested the opinion. He said parties who purchased town lots at the sheriff's sales under tax foreclosure judgments were contemplating suits against the state, Ector County, Ector County Independent School District, and the City of Odessa—some of the parties to the foreclosure suits.

The purchasers, said Shafer, hoped to recover from the district clerk the amounts they paid in excess of the taxes involved.

Well Completions Stay Ahead of 1948

AUSTIN.—(AP)—Oil and gas well completions in Texas continue to run ahead of last year.

Oil well completions so far total 6,320 compared with 5,280 to date last year. The figures for gas wells were 529 and 509 respectively. Wildcats drilled so far this year total 335 compared with 223 in the same months of 1948.

CRUISES WINTER SCHEDULES

We are reservation agents for the Cunard White Star Line cruises of the R.M.S. Caronia from New York, January 12, 1950, to South America, Africa and Mediterranean ports. Total time 49 days. Holy Year Tours, the best at the lowest rates. Several sailings this Fall and Winter. Write for folder. Audience with the Pope, guaranteed.

We also make reservations for the M. V. Britannia from New York, January 23 to all important ports in the Mediterranean Sea including East and West Coast. Total time 44 days.

We have no service charges. Please call or write for folder. HASKETT TRAVEL SERVICE, 211 N. St. Paul, Dallas 1, Texas. Dallas Adelaide Club Building. This firm independent—not connected with any department store, bank, hotel or railroad. Dial C-3311 of K-1000.

End Of A War-Maker

(Photo by NEA-Acme Staff Correspondent Gerhard P. Seising) Hitler's biggest long-range gun—used during the siege of Sevastopol in 1943—is dismantled on a railway track near Eschenbach, Germany. The 200-millimeter barrel, 100 feet long and weighing 136 tons, is being cut into four-foot chunks of metal. The modern Big Bertha was sold to a dismantling firm in Bavaria.

Europe Is Holding Out Many Enticements To Attract Autumn And Winter Visitors

NEW YORK.—(NEA)—In its bid for dollars, Europe is casting provocative glances at the middle-class American tourist. With such lures as "package" tours, elimination of visas and customs exemption increases, the Old World hopes to entice many thousands of Americans abroad during the usually slack Fall and Winter seasons.

Sixteen European countries—Austria, Belgium, Britain, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Sweden, Switzerland and Turkey—have joined forces in an all-out campaign for the purpose. Striking arm of the alliance is the European Travel Commission, which has set up offices in New York.

The commission headed by Sweden's Birger Nordholm, points out that the "off seasons" are time for travel.

"The traveler who goes to Europe in the Fall and Winter sees the country in its normal stride," Nordholm says. "Cultural, social and educational activities are in full swing. Institutions of learning and art are open, whereas some may be closed in the Summer. And, because accommodations are less crowded, the traveler can live in closer contact with the people of the countries he visits and enjoy European life and culture under conditions, normal unhampered by crowds."

Special arrangements are being made by the commission to provide

Veteran Acquitted In Dallas Slaying

DALLAS.—(AP)—Martin Davila Salazar, 31-year-old Purple Heart war veteran and father of two, was acquitted Saturday of murder charges.

Salazar was charged in the 1947 robbery-slaying of Thomas Gentry Taylor, 60, of McKinney, in a Dallas alley. Umberto Remirez Valtierra, 22, had been convicted and sentenced to die on similar charges. Valtierra testified that Salazar held Taylor while he beat him. Salazar denied this.

Shot To Death In Dispute Over Catsup

HOUSTON.—(AP)—A cafe owner has been charged with murder following an argument over catsup not being free with chili.

Police said T. J. Farrington, 19, was shot to death after he had been advised he could get catsup free with fish but not with chili.

Charged with murder before Justice of the Peace Tom Maes was Sam Grimes, 49, owner of Sam's Place Cafe.

On a postman's uniform a red silk star means 15 years of service.

Vaudeville's Back In California And Nostalgia Is Hip-Deep

By ERSKINE JOHNSON NEA Staff Correspondent

HOLLYWOOD — Vaudeville just returned to the land of the movies. I guess that makes vaudeville's comeback official. It's now flourishing from New York to Los Angeles.

Some people credit Ken Murray with bringing vaudeville back to movieland in his long-running show, "Blackouts." But Ken's acts were the same, week after week, and the show was on a one-a-day basis.

The Orpheum was the home of vaudeville in Southern California during its golden era but movies and popcorn took over the Orpheum just like they took over all the other vaudeville houses of America.

But now vaudeville is back at the Orpheum—and the nostalgia is hip deep.

There will be a weekly change of eight vaudeville acts plus a first-run movie. The movie will be there because Hollywood hasn't given up yet.

A good many Hollywood stars passed through the wings of the Orpheum stage on their way to greater stardom.

Frank Sinatra sang there as one-quarter of the "Hoboken Quartet" in one of the much-maligned Major Bowes amateur units.

There was a singer named Frances Gumm who became Judy Garland and Edgar Bergen with a dummy that then had no name and Jack Benny with a fiddle before he learned "Love in Bloom" and Bill Demarest who did nip-ups and a cello solo at the same time. Maybe Bill could do better trying to catch a marlin swordfish if he'd serenaded me with his cello.

One For The Stetson

And there was the late Tom Mix at every opening night. Mix always bought two seats—one for himself and one for his giant Stetson. Andy Hervey, who was the Orpheum's press agent at the time remembers:

"Nobody ever heard the hat laugh, but it always came along anyway."

Andy also remembers that the great Sara Bernhardt always insisted on paying off the entire cast of her act before each performance and that Eddie Leonard never sang "Ida" until the audience insisted to the extent he thought they should.

They say television is responsible for vaudeville's comeback. Maybe so. Television, at the moment, is vaudeville. Maybe they'll have to rename vaudeville as live television.

Sherrill C. Corwin is the man behind the return of vaudeville to the land of the movies. He's the general manager of the Orpheum and has been for 13 years. Actually he's been nursing vaudeville along, with an occasional four-a-day, for the last 13 years.

But now he's doing it up right, reminiscent of the old Orpheum's glastier era when Lillian Russell, the Four Cohans, Modjeska and Richard Mansfield shared the bill.

Like all of vaudeville's old-timers, Corwin likes to remember when. The story he likes to remember best is this one:

There's an old unwritten law in vaudeville that whoever first rehearses a number establishes priority to its use in any given show.

One day a singer named Hazel Dawn was headlining the Orpheum show and rehearsing a number, "Beseme Mucho."

Later in the day, the drummer in the Orpheum's pit orchestra, who also did an occasional vocal, went to Corwin's office and announced that he had been in earlier that morning and rehearsed "Beseme Mucho."

He claimed the right to prevent Hazel from singing the number in the show.

"It's impossible," said Corwin. "Tradition or no tradition, law or no law, Miss Dawn is the star of this show and if she wants to sing 'Beseme Mucho,' or anything else, it's hers and no drummer is going to stop her."

The spunky little drummer said: "Mr. Corwin, I can sing that song just as well as she can, or better, and if I don't get to sing it, I quit."

Corwin said: "Okay, you quit."

The drummer said: "I quit."

Corwin said: "Start walking."

The drummer started walking.

U. S. Oilmen To Use Converted Warships As Middle East Bases

ORANGE.—(AP)—An oil company and two drilling firms announced Saturday they soon will begin exploring an unproven oil lease in the Middle East, using converted warships as bases.

The American Independent Oil Company made the announcement jointly with Kerr-McGee Oil Industries of Oklahoma City and the Browning Drilling Company of Long Beach, Calif.

The work will be done in a neutral zone between the Sheldom of Kuwait and Saudi Arabia.

The warships will be used as floating bases for well crews operating as far as 20 miles inland, the announcement said.

The first of the ships, a former LST renamed Aminol, was accepted Saturday afternoon at an Orange shipyard, where it was converted.

Loading of the Aminol with supplies began Saturday. It will leave early this week on a 12,500-mile voyage to the Persian Gulf.

and he didn't stop walking until he walked into the hearts of America with a famous recording of "Beseme Mucho." The drummer's name, of course, was Andy Russell.

RITZ THE FAMILY THEATRE

GOP Needs Bigger Issue

They're probably saying of President Truman that he's the "same old Harry," loyal to his cronies no matter what. For the President has refused to dismiss his military aide, Maj. Gen. Harry Vaughan, despite persistent attacks against the general as a dispenser of influence in hallowed White House circles.

The truth is, Truman could hardly be expected to fire Vaughan for the activities so far disclosed by Senate investigators. No scandal and no crime—big or small—has been unearthed. Measured against the huge blot made on the Harding regime by the Teapot Dome affair, Vaughan's doings seem of pinhead size.

The same kind of thing goes on wherever there is power to be wielded and friendships that can be used for the bartering of favors. It's a pattern familiar in state legislatures, county courthouses, city halls, business offices, factories, union halls.

But that very fact is what makes Vaughan's maneuvers so deplorable. His offense is in bringing to the White House the atmosphere of petty ward politics which thrives on the doling out of favors. Behind the dignified facade of the mansion that symbolizes America's highest traditions, Vaughan has set himself up in business as a cheap fixer entertaining petitions of aid from courthouse hangers-on.

Who would have imagined that the White House ever would serve as a nerve center for piddling little deals involving trips abroad for perfume oils, race-track construction problems, new cars for friends of friends, sugar for a molasses company, and the like?

Yet, knowing what we now know about Vaughan's operations, the only surprise is that his White House Service Bureau does not have a division devoted to distributing fruit baskets among the poor at Christmas time—in the best city ward fashion.

What the general has done is actually as much an offense against national standards of taste as against standards of moral conduct. He has made the White House look like the Washington branch of Tammany Hall.

If Truman cannot recognize this, he thereby defines his own standards of taste and makes clear that his concept of the dignity of his presidential office is not a lofty one. But he is not conniving in criminality or genuine scandal.

The fuss some Republican senators are making over Vaughan suggests they believe they have their hands on an earth-shaking affair that could blow the Democrats to pieces in 1950 and 1952.

Perhaps we ought to refresh their memories. After the terrible Teapot Dome disclosures—several hundred times worse than anything thus far turned up in the "five percent" inquiry—the Republican Party responsible for the unsavory mess was voted back into power for another four years by an overwhelming landslide.

If the Republicans expect to bowl Truman over in the coming elections, they'll have to find something more lethal than a sackful of peanuts to throw at him.

It's strange how the lists of things hubby is going to do over the weekend last all Summer.

On Your Mark, Get Set ...

DREW PEARSON ON THE WASHINGTON MERRY-GO-ROUND

(Copyright, 1949, By The Bell Syndicate, Inc.)
Drew Pearson says: Senate leaders decide to bring up civil rights for debate; Jonathan Daniels becomes diplomat-maker; British monetary talks merely scratched surface.

WASHINGTON — The Senate Democratic Policy Committee, meeting behind closed doors the other day, calmly mapped a program which may keep it going until Thanksgiving, and may even include civil rights.

It was Vice President Barkley who injected this dynamite-laden subject. "We got to bring up civil rights," he pleaded earnestly.

Surprisingly, Georgia's Senator Dick Russell, spokesman for the Southern Democrats, piped up: "We might as well bring it up now and get it over with."

Alabama's Senator Lister Hill agreed, although both made it clear they would oppose civil rights with all their lungpower.

This brought on a discussion about parliamentary procedure. Since the big fight will be over fair employment practices, it was suggested that this should be reported out of committee and put on the Senate calendar ahead of the anti-lynch and anti-poll tax bills.

The latter two are not so vigorously opposed by Southern senators. In the end, no final agreement was reached whether to bring up this fight or save it until Spring.

Barkley Offered Honeycomb Cottage
Sentiment was also strong to force out the displaced persons bill, which Nevada's multi-headed Senator Pat McCarran has been blocking. He Jorty Leader Scott Lucas warned that McCarran would filibuster against it, but predicted the filibuster could be broken in a week.

Positive action, however, was taken on the next three issues to be debated on the Senate floor—army pay, a farm program, and salary increases for government officials.

Senator William Fulbright of Arkansas made a special plea to bring up his bill to repeal the tax on but was voted down after Russell and Hill, who also favor the repeal, suggested January also be a better time.

That finished the serious business, but not the monkey business. Vice President Barkley couldn't get away without some kidding about his St. Louis romance. Fulbright even offered him a honeymoon cottage which a constituent was willing to sell.

"No," smiled Barkley good-naturedly. "I lived in a house long enough."

Powerful North Carolina Editor
Down in North Carolina, the man who really counts with the Truman administration is Jonathan Daniels, son of the famed secretary of the Navy in Wilson's cabinet.

Jonathan is now editor of the Raleigh News and Observer, and when various other North Carolinians deserted the Truman bandwagon, Jonathan not only stuck with Truman but traveled the Truman train and helped write some of the most effective speeches. Later, Jonathan declined the job of secretary of Navy, but as illustrated by a recent off-the-record incident, he continues to rate high at the White House.

George P. Shaw, American ambassador to Nicaragua, was having trouble with other career diplomats, who demanded his transfer, and he needed political support to keep his post in Nicaragua. Finally a friendly high official at the State Department advised him:

"Don't you know anyone at the White House who could help?"

Shaw thought a minute, finally replied: "I know Jonathan Daniels down in North Carolina."

"Then call him," Shaw was advised.

However, Daniels was equal to the occasion. In the end he got jobs for both his friends. Waynick was made ambassador to Nicaragua, while Shaw was made ambassador to El Salvador.

Dodging Britain's Basic Problem
It's the off-the-record opinion of experts who assailed in the British-American monetary talks that Cripps and Snyder only scratched the surface.

A big publicity splash resulted from the press conference, but this was largely for political consumption back in Britain, and actually the British are just about as badly off as they were before.

Foreign Minister Bevin toyed with the only long-range proposals which might eventually solve British illiquid economic union between England, the U. S. A. and Canada. Bevin's ideas were vague as to how such an economic alliance could be carried out, but some of the experts felt that in the long run such a union would be cheaper than constantly bailing Britain out.

However, what the conference failed to grapple with were these two basic facts:

1. Britain's natural market for manufactured goods is the less industrialized agricultural areas behind the iron curtain—Russia, Poland, Rumania, Hungary, Bulgaria. As long as Britain is barred from getting Soviet wheat in exchange for manufactured goods, she has got to have some compensation from the West.

2. There can be no sound prosperity in Western Europe unless tariff barriers are broken down between France, Italy, England, Belgium, plus the others in order to create one big trading area under a United States of Europe.

The basic reason for American prosperity is our tremendous and diversified domestic market with the interchange of goods between the industrial Northeast and the agricultural South and West.

Michigan had to depend on only Michigan as a market for its automobiles, for instance, there would be no auto industry in Detroit.

If Pittsburgh could sell its steel only in Pennsylvania, there would be no steel industry worth walking across the street to look at.

Yet, Luxembourg, considerably smaller than Pennsylvania, tries to support its own steel industry; while Italy, not much bigger than Michigan, tries to support several automobile factories.

Until these stifling, artificial tariff barriers are broken down and Western Europe can operate as one economic unit, we will be called upon continually to bail out our neighbors.

That is what the British monetary talks left completely unsolved, and also why the Marshall Plan faces probable failure.

Capital News Capsules
It's a strange twist of fate that a book upholding Justice Murphy and Rutledge in their Yamashita dissents should now be published just after they have passed away. The book, written by Capt. A. Reel, one of the defense lawyers, gives hitherto confidential messages from General MacArthur, and in the eyes of many it will support Justices Murphy and Rutledge in their opinion that the conviction of General Yamashita had "no place in our system of justice, civil or military."

General MacArthur's telegrams, now published by Captain Reel, urged "haste" in trying the case. Justice Murphy, later caustically criticized "it is haste. What the 'case of General Yamashita' really amounts to is a tribute to two courageous justices of the Supreme Court—after they are gone."

CIO Chief Phil Murray recently called a secret meeting of his top strategy board. Upon entering the room he noticed that all of the left-wing CIO representatives were

Questions and Answers

Q—Where is the latest "oil boom"?
A—In Canada's prairie province of Alberta.

Q—How much is gold worth?
A—In 1934, the government pegged the price of gold at \$35 an ounce. There now is agitation (mostly from abroad) to raise it to \$55 an ounce.

Q—How much corn will the U. S. produce this year?
A—Preliminary estimates put the crop at 3,380,000,000 bushels.

Q—What is the National Security Council?

A—A unit of the new National Defense Department, charged with planning broad policy. It consists of the President and vice president, secretaries of Defense and of State, the chairman of the National Resources Board and other department heads, as requested.

Q—When did World War II start?

A—When Hitler's troops invaded Poland, Sept. 1, 1939.

Merchants Reminded Of Special Courses

Henry Murphey, chairman of the Retailers Committee of the Midland Chamber of Commerce, urges merchants to take advantage of two courses to be conducted here this week by the Extension Division of the University of Texas.

The courses are sponsored by the Chamber of Commerce and the Distributive Education division of the high school system. Classes will be held nightly in the new high school library.

A course in merchandise display will be offered from 7 p. m. to 8 p. m. with a second course in card lettering scheduled from 8 p. m. to 10 p. m. nightly.

Instructor will be W. G. Bohannon, display and advertising specialist of the university.

Courses will be completed Friday night. First classes are scheduled Monday night.

Allergy To Husband Wins Annulment For Los Angeles Woman

LOS ANGELES —(P)—Love conquers all but allergy.

In the tragic story of Mrs. Joyce G. Holdridge, 27, who had to give up the husband she loved because, actually, she was allergic to him.

Her two-year marriage to Nolan H. Holdridge, 26, a San Francisco watchmaker, was annulled.

In granting the annulment, Superior Judge Ray Brockman said: "Courts may be forced to recognize what medical science has discovered—that such allergies as Mrs. Holdridge complains of are a fact and not a caprice."

Mrs. Holdridge showed no sign of her allergy in court.

Her husband had remained 400 miles away in San Francisco.

Scout Officials Hold Meeting At Midland

Officials of the Buffalo Trail Council, Boy Scouts of America, met in Midland at the council headquarters Saturday, according to P. V. Thorson, Scout executive. Plans were discussed for the Fall and Winter program.

A winter camp is to be held during the Christmas holidays at the Boy Scout Ranch and at Lake Sweetwater.

Officials attending the meeting were: Henry Norris of Sweetwater, assistant Scout executive; E. E. Mullins of Snyder, field executive; Jimmy Hale of Big Spring, field executive; S. G. Painter of Odessa, field executive, and Thorson.

McKenney on Bridge

By WILLIAM E. MCKENNEY
America's Card Authority
Written for NEA Service

For today's lesson hand on bidding, I have selected a hand from The Bridge World Magazine, in which East had a bidding problem. While the South, West and North hands were not shown, the bidding was given as shown here. East's problem was—what should he bid over North's six spades?

The answer was that East should bid seven diamonds, so the North or South bid seven spades. West would open a diamond and defeat the contract. Naturally West was expected to take the contract back to seven hearts.

As soon as this answer was published, The Bridge World received a storm of protests. A Chicago player, along with many others, argued that the correct bid on

the part of East should be seven clubs. Now when the opponents go to seven spades, East can double and this double would ask his partner to find a lead other than a normal one.

This Chicago player went on to explain that the Gold Book, Reese on Play and Goren all state that the double of a slam contract asks for an unusual lead. Of course, that is the meaning of the convention, but I quite agree with The Bridge World that when East comes into the bidding at the seven level, and then doubles seven spades, he is not asking his partner to go fishing around in the brook for some fantastic lead.

There is no question but that the seven diamond bid was made with the definite purpose of defeating seven spades. It also implied that East had good support for hearts.

The Lightner convention has been adopted by a great many of the great players. It does say, "Partner, when I double a slam, I want you to make an unusual opening." It goes further and specifically says, "Do not lead a suit which we have bid." But again I agree with The Bridge World while the convention asks you not to lead the suits bid by the defending partnership, this only applies to suits regularly, normally or honestly bid by the partnership.

Two other projects involve about a million acres in the Souris River valley in North Dakota and 750,000 acres of Jean Pierre lands in South Dakota. Bureau of Reclamation has announced plans to develop irrigation projects in both.

Switch Might Be Costly
Cost of irrigation has been estimated at from \$10 to \$14 a year per acre. In years when crops aren't so good, the farmers there could use more water. With irrigation, they might go in for vegetable and other "wet" farming crops. But several farm experts have said it would take several generations to make this switch, and in the meantime there is no particular market for their crops.

Bureau of Reclamation argues that with U. S. population increasing and with America's overworked farm soil being worn out, more new land must be developed. Also, Department of Interior maintains that spending the government's money on individual farms through soil

EAU CLAIRE, WIS. —(P)—Ray Tafel, 36 had only time for a frantic cry before the collapsing sand walls of a nine-foot hole he was digging buried him Saturday. That outcry—and his family—saved his life.

Tafel's wife, Effie, 36, phoned police and then rushed to the hole and began clawing through the sand. A foot from the surface she reached her husband's head. Effie kept her hand over her husband's face and the eight Tafel children kept a fearful vigil at the hole until police and firemen arrived. Tafel was freed within 30 minutes.

★ WASHINGTON COLUMN ★

Three-Way Fight Is Developing Over Land And Water Controls

By PETER EDSON
NEA Washington Correspondent

WASHINGTON—A new feud between Departments of Agriculture and Interior is developing over control of land and water resources in the Missouri valley. This was originally a scrap between Army Engineers and Interior. They compromised through development of the so-called Pick-Sloan plan. Now it's a three-way fight, Agriculture having introduced a number of arguments the other two hadn't thought of.

Last May at Rapid City, S. D., Secretary of Agriculture Charles S. D. Brannan announced a new 30-year, \$5,500,000 program for development of farming in the Missouri valley. It was to be financed in part by government conservation payments, the rest by private expenditures by the farmers themselves, on 350,000 acres.

In oversimplified form, the plan included encouragement in the building of farm ponds and water holes for range livestock. These reservoirs were intended to hold back water flow in small streams or stop erosion. By so doing, it was aimed to prevent not only the silting up of streams, but a resulting increase in electric power development at Missouri basin dams.

The Federal Power Commission endorses it, if it will reduce siltation at power dams. Army Engineers are understood to have opposed it because, by holding water on the land instead of allowing it to flow into main channels, navigation on the Missouri from Sioux City to St. Louis may be interrupted. Interior Secretary J. A. Krug blasts the Brannan proposal and in effect advises the Department of Agriculture to stay out of what has been considered Bureau of Reclamation's exclusive business for so these many years.

Brannan's Pet Project
Building of farm ponds has been a pet project of Secretary Brannan's. When he was farm security administrator, he developed a water facilities program for FSA borrowers. When he became assistant secretary he extended the program through soil conservation service. As secretary, he is trying to extend it to the whole Missouri basin.

What really seems to have riled Interior, however, is that Brannan proposed to make new studies of irrigation. Department of Agriculture economists, looking at the national farm interest, it may have seemed a little silly to put water on dry land and move people in on that land when there was no particular need for their crops in that area.

Two or three specific examples are being cited. At Garrison Dam on the upper Missouri, Army Engineers now want to operate at high water level, to provide more water for down-stream navigation. A high water level would flood many acres of fertile land. North Dakota farmers are opposed to that.

Two other projects involve about a million acres in the Souris River valley in North Dakota and 750,000 acres of Jean Pierre lands in South Dakota. Bureau of Reclamation has announced plans to develop irrigation projects in both.

Switch Might Be Costly
Cost of irrigation has been estimated at from \$10 to \$14 a year per acre. In years when crops aren't so good, the farmers there could use more water. With irrigation, they might go in for vegetable and other "wet" farming crops. But several farm experts have said it would take several generations to make this switch, and in the meantime there is no particular market for their crops.

Bureau of Reclamation argues that with U. S. population increasing and with America's overworked farm soil being worn out, more new land must be developed. Also, Department of Interior maintains that spending the government's money on individual farms through soil

EAU CLAIRE, WIS. —(P)—Ray Tafel, 36 had only time for a frantic cry before the collapsing sand walls of a nine-foot hole he was digging buried him Saturday. That outcry—and his family—saved his life.

Tafel's wife, Effie, 36, phoned police and then rushed to the hole and began clawing through the sand. A foot from the surface she reached her husband's head. Effie kept her hand over her husband's face and the eight Tafel children kept a fearful vigil at the hole until police and firemen arrived. Tafel was freed within 30 minutes.

'World's Largest' Airliner Takes To Air

The giant, 130-ton airliner "Brabazon 1," said to be the "largest civil land-based plane in the world," makes its first test flight over Charlton, England. The eight-engine plane was developed at a cost of \$48,000,000. Officials said its 30-minute test flight was completely successful.

Atlanta Judge Jerks Tears In Justifying Attempted Murder

By BEM PRICE

ATLANTA—(AP)—The judge wept. He had just admitted shooting at a former friend.

Many of the women in the courtroom found it sad, too, and brushed away tears.

Then the trial of Fulton County Civil Court Judge Robert Carpenter on a charge of attempted murder recessed until Monday morning.

Back of the trial lies the wreckage of a home, the end of a friendship and a daughter's rejection of her mother for a stepfather.

There is another woman, Mrs. Estelle Manful, who has been described as a close friend of the judge, but who cannot be found.

And on the sidelines as vitally interested spectators are the wife and three children of Attorney John Lockwood.

Unsworn Statement

The state charges that Carpenter on the night of July 27 chased Lockwood four blocks and tried to shoot him to death. Lockwood, an ex-Philadelphia lawyer, was wounded in the face and lost 70 per cent vision in one eye.

"If ever a man was justified," said the judge to the jury, "I believe I was."

By his own description the judge is an indulgent father and husband, but the victim of a dark plot by Lockwood to steal his wife and his money and his good name.

The judge declared Friday in an unsworn statement, permitted under Georgia law, that he was the victim of a double-cross in love and business.

As for Lockwood, he painted a picture of himself as attorney and friend of Mrs. Carpenter who had come to rescue her from the philanderings, drinking and gambling of the judge.

The defense placed Lockwood in Mrs. Carpenter's bedroom twice, once in a Florida tourist camp and once at her apartment.

The testimony about the apartment visit came from Carpenter's 20-year-old step-daughter, Barbara. She said her mother, with "too much to drink," asked to be left alone with Lockwood—and was.

Miss Carpenter also said her home was broken up by Lockwood's association with her mother.

Reserve Pilot Jumps To Safety From Navy Fighter

PORT WORTH—(AP)—A Naval Reserve pilot bailed out of his Grumman Helicopter fighter plane 24 miles north of Fort Worth Saturday night and telephoned his commanding officer at Grand Prairie Naval Air Station that he was unhurt.

He is Lt. (jg) Richard D. Raymond, 27, of Dallas, a Chance-Vought employe at Grand Prairie.

Raymond notified the Grand Prairie station tower at 7:38 p.m. that his motor had conked out and he was bailing out of his ship at 4,000 feet altitude.

The reservist, who was on a routine training flight, parachuted to the ground on the farm of T. E. Martin of Justin. He estimated that his P-51 Helicopter crashed and burned about three miles from the town.

"My engine started acting up east of Eagle Mountain Lake," Raymond told a Star-Telegram reporter by phone minutes after he had landed.

"I tried to get altitude but couldn't and finally the motor conked out so I radioed my tower I was hitting the silk."

Raymond was a Navy night fighter pilot during World War II.

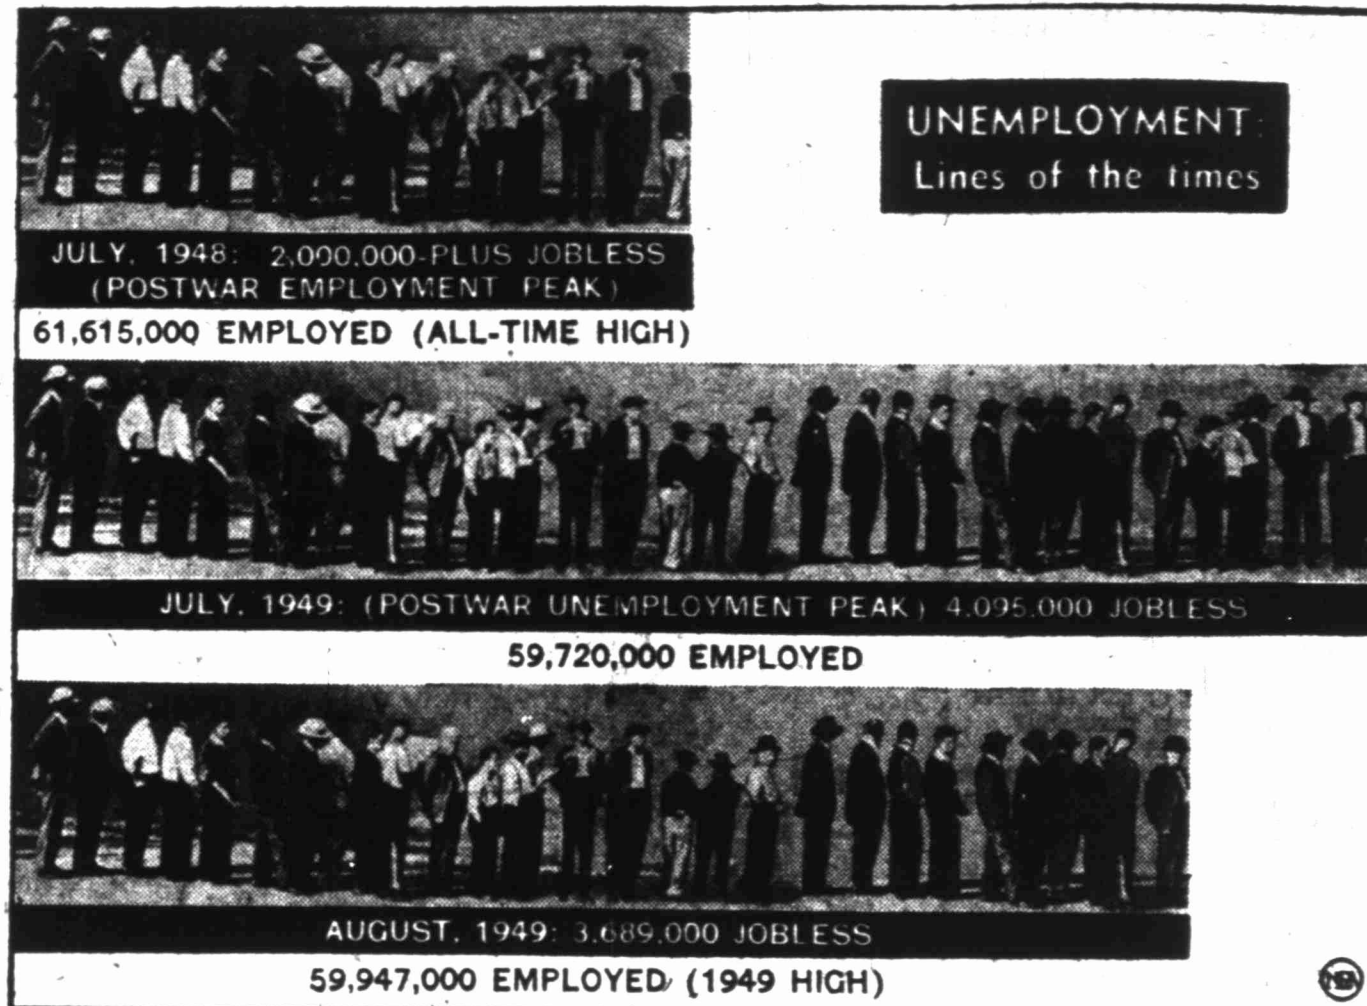

Floating anchored weatherdromes are suggested by the U. S. Coast Guard to be used instead of vessels as weather stations, now can be Atlantic and other waters. Economy is the objective.

Plays At Ranchland Hill

Mrs. Gloria Strom Esell, prominent Midland lady golfer, can be seen frequently touring the nine-hole Ranchland Hill Country Club course. She enjoys the battle new and different hazards at Ranchland give her.

Jobless Lines Grow Shorter

The chart above shows how unemployment lines shortened during August after reaching a postwar peak of 4,095,000 in July, 1949. Latest reports from the U. S. Commerce Department showed unemployment in August dropped to its lowest point since last May, and that the number of job-holders in August was higher than at any other time this year. Economists say there will always be some unemployment. For example, during July, 1948, when civilian employment reached a record of 61,615,000, unemployment was above 2,000,000.

Professor Convicted Of Assault To Kill In Attack On Nurse

COLUMBIA, S. C.—(AP)—Russell B. Maxey was convicted Saturday night of trying to murder the nurse who scorned his love. He could be sentenced to life in prison.

The meek-looking little professor heard the verdict with the same stoic calm he maintained all week.

A jury that was out less than an hour found him guilty of burglary with intent to commit murder and of assault with intent to kill in the savage pistol-whipping of Ann B. Pierce.

Sentence will be passed this week. It could be as little as five years, or as much as life, despite the jury's recommendation of mercy.

Miss Pierce had left the courthouse where Maxey's sensational trial attracted capacity crowds through its four-day run. Maxey's wife and her two sisters were there when the jury announced its decision.

Mrs. Maxey hid her face in her hands.

The defense had pictured Maxey and Miss Pierce as spitting lovers.

The state says he tried to kill the buxom nurse who posed nude for his camera.

Didn't Want To Hurt Her

Under cross-examination, Maxey repeatedly said "In the eyes of God we were living as man and wife."

And he maintained, he was "ready and willing to marry her" right up until August 3 when, the state charges, he beat her head almost to a pulp with a pistol.

Describing what he said was his fight with Miss Pierce, Maxey said it started when "she slapped my face."

Taylor asked him why he didn't use a knife he had said was in his pocket.

"I didn't want to hurt her," was the bland answer.

Previously, a doctor testified he took 72 stitches in Miss Pierce's face, and that about that many were taken in her scalp, after the pistol whipping she suffered.

Acetylene, long known to chemists for its wide versatility, but little used because of its explosiveness under pressure, now can be exploited with safety as the result of a new technique.

Fish, Birds, Trees, Turtles Point To Long, Hard Winter, Says Brazos Sage

WACO—(AP)—It's going to be an early, long and frigid winter, the sage said.

The prediction comes from W. C. (Doggie) Watson, sage of the Brazos.

Doggie doesn't need any of these new-fangled instruments or charts. He bases his prediction on observation of nature and nature's children—the animals, fish, insects, birds and plants which grow around his home on the Brazos.

Here is his annual prediction:

"The fish have stayed in deep water all summer, the birds have built thicker nests and the trees have thicker bark this year than in any recent year."

"The turtle is the best weather prophet. You watch where they build their nests and you can pretty near determine the weather. This year they have scooped out their nests in deep water. As a usual thing they will build close to the bank in shallow water but they know it is going to freeze in this shallow water, so to deep water they have gone."

Doggie, who got his nickname training coon and possum dogs, says the animals and fish and plants are notified ahead of time what kind of winter to prepare for.

"S O S" has no literal meaning, but was chosen as a distress signal because of its ease in transmitting.

It takes from 50 to 100 years to produce a tree large enough for lumber.

Roof Overhang Shades Windows of Cape Cod Home

An interesting combination of modern and traditional architecture is seen in this attractive Cape Cod dwelling. A foot-wide overhanging eave across the front of the clapboard and brick house provides shelter for the center entrance and shades the 7' x 7' living-room window and the smaller one in the front bedroom. The architect gave particular attention to light and ventilation. The living-room window has an immovable center section 4' x 7' flanked by 18" double-hung windows which can be opened for ventilation. Two standard-sized double-hung windows at the corner of the rear bedroom help cross-ventilate the house. Still more light and air are admitted by the casement window group in the dinette.

The same thoughtful planning for comfort and maximum livability is found throughout the 24' x 34' house. Full-thick mineral wool insulation in walls and ceiling makes the house cool in summer and reduces the initial cost of the oil-fired, automatically-humidified warm-air heating system. With the mineral wool insulation, fuel costs will be lowered about one-third. Free traffic flow results from locating a hall behind the stairway leading to the expansion attic. All rooms except the dinette open off this hall. Kitchen and dinette are separated by a 3-foot-high semi-partition with center passageway. A trellis above the partition extends to the ceiling and provides a place to display flowers or climbing vines.

The living-room, 13½ feet square, has five bookshelves recessed into one wall. An 8-foot storage closet with two doors for easy access is provided in the master bedroom. Two future rooms can be added inexpensively in the unfinished attic because the builder extended the warm air heat ducts into the attic at time of construction. Roof rafters are joined by 8 collar-bams to give the house more strength and serve as a base for future ceiling finish.

Parmley Will Head Junior High Council

Wayne Parmley was elected president of the student council of John M. Cowden Junior High School in an election held Friday. Parmley was chosen from a field of five candidates.

Stewart Chancellor was elected vice president and Jackie Matthews was named secretary-treasurer.

Other results of the student election are as follows: Sherry Page, editor-in-chief; Carol Ann Pitting, associate editor; Pili Pryor and Janna Murray, eighth year cheer leaders; Wanda Murray, seventh year cheer leader; Freda Black, sixth year cheer leader; Betty Patton, eighth year majorette; Retta Hazlip, seventh year majorette; and Glenda Adkins, sixth year majorette.

Other Selections
A total of 124 students were chosen for the pep squad. Thirty-six home reporters were selected for the news staff. The student council, with elected officers and elected home room representatives, has a total of 30 members.

Sponsors are Miss Mary Clift and Mrs. Eugenia Wilson.

Designs Change In Today's New Homes

Today's new homes have five things in common with those of a generation ago—four walls and a roof. But there the similarity ends.

The new homes on exhibition during National Home Week focused attention upon many ways in which the modern family's demand for living comforts and good design are being met by builders. They are indeed a far cry from the houses of a generation ago.

In today's homes, the kitchen especially is better designed for working comfort. The living and dining room usually are combined, and the heating often is located on the ground floor, instead of in the basement. A patio replaces the porch, and picture windows bring the outdoors indoors.

Greatest Improvements
Perhaps the greatest improvements of all have been in the bathroom. Rare indeed was a shower in the homes of 30 years ago. Today, 90 per cent of all new homes have either a shower over the tub or a tiled shower stall, a survey of the nation's clay tile contractors reveals.

In the early 1920's practically all bathrooms were white. Today, blue, pink, peach and green are the favorite colors in bathrooms.

The tub on legs almost has disappeared during this generation, and bathroom fixtures, once available only in white, today come in attractive pastels to match the tile shades used for bathroom walls and floors.

No wonder the modern home fits the pattern of modern living!

Governor To Speak At Tech Exes Event

LUBBOCK—Gov. Allan Shivers has accepted an invitation to speak at the annual ex-students luncheon which will precede the Texas Tech-A&M football game in San Antonio September 24.

Tom Pettit, president of the San Antonio Chapter of the Tech Ex-Students' Association, said the luncheon will be held in the St. Anthony Hotel at noon the day of the game. Tickets are priced at \$2.50 and all reservations must be made in advance.

Pilot Presumed Dead In Jet Fighter Crash

MOSES LAKE, WASH. —(AP)—An F-84 jet fighter plane crashed near here Saturday on a routine training flight.

The pilot of the Hamilton Field, Calif., based plane was presumed dead. His name was withheld pending notification of next of kin.

The plane, from the 78th Fighter group, was one of 20 taking part in maneuvers here.

Fall From Ladder Causes Broken Arm

Glyde Adams, 1101 North Colorado Street, received a broken arm Friday afternoon when he fell from a ladder at 112 South Main Street.

Adams, an electrician, was putting up fixtures when he fell from the ladder, fracturing his right arm. He was treated at Western Clinic-Hospital.

AEC CHECKS REPORTS OF URANIUM IN IDAHO
WASHINGTON — (AP)—Atomic Energy Commission officials said Saturday they have reports indicating uranium possibilities in the Sunshine Mining Company mine at Coeur D'Alene, Idaho.

Investigation is under way, these officials said.

At the Boston Tea Party 342 chests of tea were cut open and emptied into Boston Harbor.

Building Permits Up To \$3,594,324 With \$53,850 During Week

Midland building permits for the week ended Saturday amounted to \$3,594,324 to bring the 1946 mark to \$3,594,324.

Buck Carr was issued two permits for two frame residences, each \$8,000, total \$16,000, at 1609 and 1611 North Marienfeld Street. Size of each will be 24 by 32 feet.

A. P. Callahan received a permit for \$12,000 to build a brick residence at 1900 West Ohio Street. Size will be 44 by 75 feet.

Douglas Nix took a \$10,000 permit to build a frame residence at 1600 North Edwards Street. Size will be 26 by 66 feet.

Other Permits Listed
A permit for a \$7,000 frame residence at 2900 Roosevelt Street was issued to M. L. Marshall. Size will be 32 by 40 feet.

Other permits of the week included: Jack Needham, \$3,000, move frame structure to 1507 South Big Spring Street, size 24 by 28 feet; Allen Whitley, \$2,500, alterations to frame residence at 205 North Lamesa Road, 12 by 9 feet; Agnes Fitzsimmons, \$2,500, frame servants quarters at 1201 West Wall Street, 20 by 26 feet; J. R. Farmer, \$800, frame servants quarters at 604 North Weatherford Street, 16 by 22 feet; Dionicio Reynosa, \$250, frame structure at 901 North Mineola Street, 10 by 18 feet.

TONSILS REMOVED
Louie Raines underwent a tonsillectomy Saturday at Western Clinic-Hospital.

Now Is Time To Prepare Home For Winter Comfort

Steps taken now to winterize the home will pay off substantially when cold weather comes, in greater comfort, better health and actual money savings, it was stated by the Construction Research Bureau, New York clearing house for building information.

The heating plant should be inspected and adjusted by a good heating contractor.

Insulation Saves Money
If the home is not insulated at least one-third of the fuel bill can be saved by having the walls blown full of mineral wool before cold weather arrives, and the area between roof and living quarters also insulated with this non-combustible material. If the attic is unfinished, full-thick batts or blankets of mineral wool can be placed between ceiling joists or roof rafters; inaccessible spaces are filled by blowing loose, undulated mineral wool into them. The average house can be insulated in less than two days without muss or inconvenience. In addition to fuel savings, a properly insulated house reduces the danger of colds caused by drafts.

Weatherstripping of windows and doors and caulking all cracks in the exterior siding will add greatly to winter comfort and save approximately one-eighth of the fuel.

RETIRED GENERAL DIES
CORONADO, CALIF.—(AP)—Brig. Gen. Charles Keller, 81, U. S. A. Ret., of Winnetka, Ill., deputy chief engineer of the AEF in World War I, died Friday.

Demand For Colors In House Painting Shows Big Increase

If you decide to get away from the conventional white and paint the outside of your house in colors this fall you may not be too far out of line, according to a survey just completed by William M. Stuart, Chicago paint manufacturer.

The Chicagoan who pioneered in expanding the number of available paint colors far above the 1,000 mark and is one of the most active advocates of more color in decoration, said dealers all over the nation are reporting demand for a wider variety of colors in exterior paints.

Sixty per cent of the 63 retail paint dealers answering the survey questionnaire reported there is a "demand for wide varieties of color for exterior use." Several noted that "buyers, in discussing future plans, indicated the demand for colors in outside paints will be even heavier during the coming year."

Use of peach, light yellow-greens and other pastels instead of the conventional white, has grown in popularity on the West Coast and the trend seems to be spreading eastward, the dealer survey revealed.

More and more home owners are accenting their exterior decoration with deep tones for trim. In California, especially, many people use red and yellow on the doors as the historic symbol of hospitality, warmth and friendship.

Stuart also predicted that an increasing number of America's long neglected homes finally will get new coats of paint this fall. Many persons are painting their

Picket Fence Is Simple To Erect

Here are some tips on building a picket fence: First, divide the distance into equal parts for post sites; eight feet is a good distance; posts should not be spaced farther than 10 feet.

Rent a posthole digger and make holes three feet deep and no larger in diameter than the digger. Use 4x4 posts and creosote the end which goes into the ground.

Put stakes beyond each end of the fence run and stretch a tight cord between them. Set the posts against this cord to keep the fence straight; and use a level to keep them vertical. Put some creosote in the bottom of the hole and fill in the dirt a little at a time, tamping it hard.

Top and bottom horizontal rails should be 2x4's, given a prime coat of paint before nailing or bolting them to the posts.

Space pickets their own width apart, using a picket as a guide.

WASHINGTON OIL —

Oil Men May Feel Effect Of Britain's Effort To Earn, Save More Dollars

By JOSEPH HUTTLINGER

WASHINGTON — The American oil man both at home and abroad may feel sad and angry over Britain's newest and current effort to earn more dollars and spend fewer.

In the top level talks this week, British officials came reluctant to talk oil, partly because they have plans they'd like to keep under wraps for the time being.

But as U. S. officials insisted on exploring the British oil activities in the Middle East, and the current tough problems of American companies there, which help spur imports into this country, a pattern became clear.

The British are asking, initially, to spend less for oil than blueprint originally with American officials for Marshall Plan foreign aid oil.

The immediate result of a move in this direction would be to leave some Middle East oil without a market. No one has said yet it would mean more oil losses for the U. S., but it is one thing in the minds of everyone connected with the British dollar crisis talks.

In its first 15 months, the foreign aid plan accounted for sales of about 600,000 barrels of oil daily to European countries, about the level of imports now.

Prime Dollar Earner

When the U. S. insisted on talking oil, which is one of Britain's prime dollar-earners, or dollar-savers, Victor Butler, chief of the petroleum section of the British Ministry of Fuel and Power, and Sir Henry Wilson Smith, high official of Britain's Treasury, both officials view from London to Washington this week.

More than a little informed thinking about the conference, which is continuing, is that a high point promises to be discussions that British sterling policies are threatening to force American oil companies abroad to form British subsidiaries.

The chief problem is that Britain refuses to allow conversion of sterling earnings into dollars, which is the only kind of currency of value to a company that must pay taxes, royalties, payrolls in sound dollars.

The fact is the subject should receive attention is indication that importing oil companies are in a plight, no less than domestic producers, in their efforts to find dollar markets for their production.

Suggestions dealing with formation of British subsidiaries by American companies in the Middle East have been the subject of several conferences recently among high government officials. A proposal of the California Oil Company, a Bahama corporation, along these lines was studied recently.

Basic Thought

The basic thought behind this considered move of several American companies to go in more heavily for British subsidiaries is this: As British companies they can sell for sterling, and have an easier time turning sterling into dollars for certain necessary uses. Further, there is a possibility, if not an assurance, that they will be able to meet pay-

rolls, taxes and certain cost items with sterling.

Asked if the California-Texas Oil Company was thinking of creating a British subsidiary, an official of the company told this correspondent that it was.

"Unless a solution to the sterling-dollar problem is found, there are two alternatives. One is to get out of business," and the other to become a British company," He expressed confidence a solution would be found.

Of the plight of foreign companies, Robert H. S. Eakens, the State Department's petroleum chief, explained:

"The main problem of United States companies abroad is that more and more countries are not willing to pay dollars for oil. This lets the companies out completely, for even if they were willing to accept sterling, they could not, for they are not allowed to under British exchange restrictions."

He went no further, but Russell B. States, counsel of the Independent Petroleum Association of America, took the next step.

"It looks like it's leading to more oil imports. What they are saying, no one will or can buy it abroad, so we must bring it to the United States. There's a fallacy in that kind of thinking."

This is some of the background on the oil conference with the British.

Further Imports

In related matter, this correspondent discovered that it is now the policy of Paul Hoffman, head of the Economic Cooperation Administration, to encourage further oil imports to the United States, if that appears to be the way to a healthy world trading system. He has suggested this privately. He may say it publicly. He has even said it might be better for the United States to import more, and save domestic oil for use in time of emergency.

It must be remembered that the current outstanding problem in British foreign aid minds as regards oil is the threat of overexpansion of European oil producing and refining capacity.

The possibility that drilling derricks and refineries now being built or completed may expand in the near future, as silent, shut down testimony to the folly of the foreign aid program is being liked of freely.

With this in mind, a high ECA official says that the brakes must be put on the present European plans in oil. "Expansion of European oil facilities is justified only to the extent that the output from such facilities can be sold without the use of discriminatory trade or currency practices."

Krug's Resignation

A new flurry of rumors that Secretary of the Interior Krug is about to resign is breaking out. Two facts are given as evidence: Krug arranged to have his trusted assistant, Carl Skinner, Director of Interior Information, named Governor of Guam recently. This is seen as a sign he wants to take care of his aides before leaving. Further, persons wonder what Krug would do in a government without Skinner.

Second, at a synthetic oil ceremony at Rice, Colo., September 20, Secretary Krug was not the main speaker, the first such synthetic celebration he has not honored by being top guest. Instead, James Boyd, director of the Bureau of Mines, will make the chief address. Krug may go to Rice and say a few words, however.

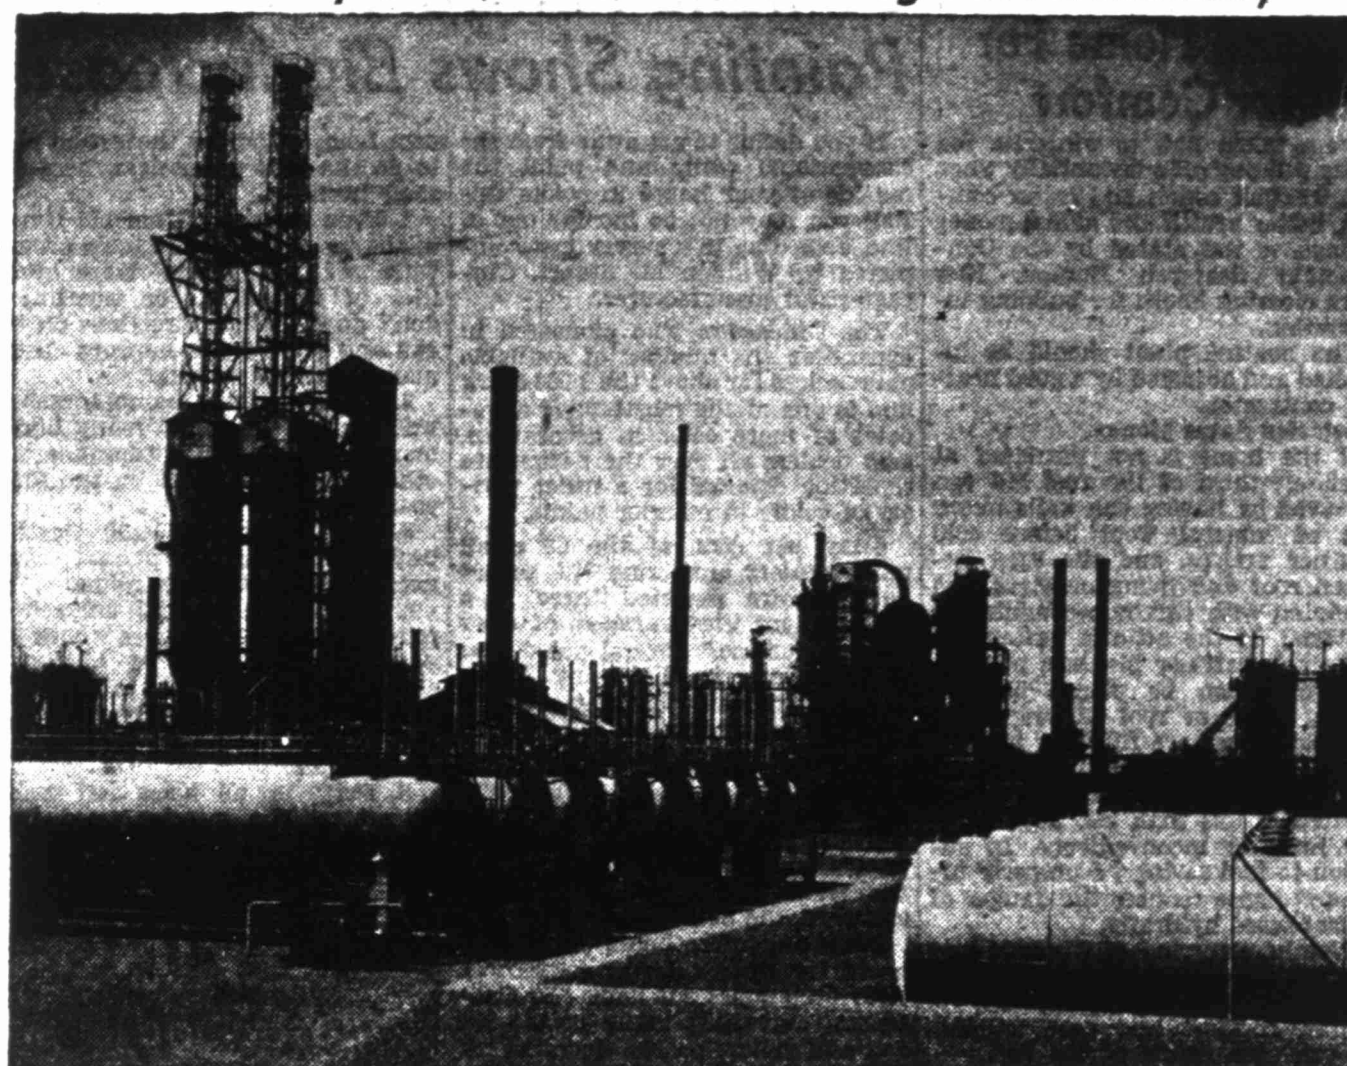

Tot Receives Slight Injuries In Accident

Charles Smith, three, son of Mr. and Mrs. R. O. Smith, 905 North Whitaker Street, received a slight scalp wound and bruises when struck by an auto Friday afternoon.

The child ran from in front of a parked car near his home into the path of a moving auto, which passed over the child's body.

He was given emergency treatment at Western Clinic-Hospital and released.

CSOC Completes Modernization Program At Refinery

Cities Service Oil Company is completing at its East Chicago, Ind., refinery a modernization and expansion program at an approximate cost of \$20 million. The program includes a new delayed coking unit, a "cat" cracker, right, minor processing units and auxiliary projects. An open house and plant tour was held recently for Cities Service dealers and distributors served by this plant and for Chicago area employees of the company.

Graduate Fellowship For Texas A&M Is Set Up By Magnolia

The establishment of a graduate fellowship at Texas A&M College has been announced by J. L. Latimer, president of Magnolia Petroleum Corporation.

The fellowship is the fifth to be established in the Southwest, others being at the University of Texas, Rice Institute, Louisiana State University and the University of Oklahoma.

First recipient of the A&M fellowship is Charles D. Holland, who has been a graduate assistant in the Chemical Engineering Department at Texas A&M for the last year and a half. Prior to that time he was graduated from North Carolina State College and served as a lieutenant on a destroyer in the Pacific Theater during World War II.

Is In Chemical Engineering

The A&M fellowship is in the field of chemical engineering while the award at the University of Texas is in physical chemistry, at Rice in physics, LSU in geology, and the University of Oklahoma in chemical engineering.

The fellowship program initiated two years ago by Socony-Vacuum Oil Company and its affiliates, Magnolia and General Petroleum Corporation, includes the expenditure of some \$40,000 each year to support 20 graduate research fellowships established at various universities throughout the country. Recipients of these fellowships are selected from university students who have completed at least one year of graduate work. They receive the major portion of the \$2,000 annual grant and are free to study subjects not connected with the petroleum industry. Also there are no restrictions placed on the publication of the results of their research and there is no obligation regarding future employment with any of the affiliated organizations.

Schools Enrollment Mark Reaches 3,895

An increase of 99 over last week in the total enrollment figure for Midland's schools was reported Saturday by Supt. Frank Monroe. The figure now stands at 3,895, as compared to 3,796 a week ago. Here are the enrollment figures by schools:

High school	713
Junior High	906
North Elementary	570
South Elementary	681
West Elementary	497
Terminal	133
Latin American	161
Carver	324
Total	3,895

Three Persons Die In Crash Near Borger

BORGER —(AP)— Three persons were killed and three injured Friday in a two-car collision 15 miles west of here at Fritch, Texas.

Killed were Mrs. Wilson, 33, LeFors, Texas; her sister-in-law, Mrs. C. W. Cannon, 31, Fritch, and the latter's son, Lloyd Cannon, five. Three small children of the two women were cut badly.

SHIVERS RETURNS HOME FROM VISIT TO MEXICO

SAN ANTONIO —(AP)— Gov. Allan Shivers returned to Texas Friday night after paying Mexico a three-day good will visit.

He stopped here briefly enroute to Austin.

Friday he reviewed Mexican Independence Day celebrations in Mexico City as the guest of Mexican President Miguel Aleman.

GRANDFATHER DIES

Jimmy Hammett of Midland recently was notified of the death of his grandfather, Judge Aubrey R. Hammett, at Moberly, Mo. Jimmy is the son of Mr. and Mrs. Joseph W. Williams of Midland.

Another Devonian Producer Is Seen For Knowles Area

HOBBES, N. M.—The second producer from the Devonian in the Knowles area of Central-East Lea County has been developed at Amerasia Petroleum Corporation No. 1 Rose.

That venture, a stepout to the same company's No. 1 Hamilton, discovery of the Knowles field and 1,980 feet from north and west lines of section 35-18-38, had a recovery of 8,230 feet of clean, 45.1-gravity oil during a four-hour drillstem test in the Devonian at 12,580-597 feet.

Gas showed at the surface in three hours and 35 minutes. The gas volume was not gauged or estimated.

Recovery was the 3,000-foot water blanket, 8,230 feet of oil, and 90 feet of fresh water.

No formation water was shown.

The project is to run casing and complete from the pay section already penetrated.

In the same region Amerasia No. 1 Eaves, 660 feet from south and 1,980 feet from west lines of section 35-18-38, and also projected to the Devonian, had reached 11,068 feet in lime and shale, and was drilling deeper.

McAlester Fuel Company No. 1-A Denton, discovery of the flowing production from the Devonian in East-Central Lea County, is to be completed and put on production shortly.

The development is 12 miles north and east of Lovington and is 10 miles northwest of the Jones Ranch field in Northwest Gaines County, Texas, the nearest proven area for Devonian production.

No. 1-A Denton topped the Devonian at 11,257 feet. Elevation is 3,799 feet. It is at the center of the southwest quarter of the southeast quarter of section 11-15-37.

The horizon at 11,257-417 feet flowed 484 barrels of 44.5 gravity oil in one hour, through a five-eighths inch bottom hole choke, during a drillstem test of that interval. Considerable gas was also developed.

It drilled on down from 11,417 feet to a bottom of 11,467 feet. The section below 11,417 feet was not drilled tested. However, samples between 11,417 feet and 11,467 feet showed signs of oil and gas.

Is To Set Casing

A string of casing is to be set on bottom and the discovery will be completed through perforations.

The production was from open hole in the Ellenburger between 9,410 feet and the plugged back bottom at 9,530 feet. A string of 7-inch casing is cemented at 9,410 feet. The open hole had been treated with a total of 22,000 gallons of acid, in three stages.

This exploration drilled to a bottom of 12,065 feet in the Ellenburger. That horizon made only water and the project plugged back to 9,530 feet for completion.

It is 660 feet from south and east lines of section 11-26-37.

The Atlantic Refining Company No. 1 Dickinson, three-quarters of a mile southeast of the McAlester discovery from the Devonian at its No. 1-A Denton, had reached 6,788 feet in lime and shale and was drilling ahead. It is contracted to 11,500 feet to explore into the Devonian. Amerasia Drills Ahead

It is in Central-East Lea County,

Pegasus Area Is To Be In Oil Spotlight During Week

The Pegasus area of Central-North Upson County and Central-South Midland County will be much in the spotlight during the week.

Republic Natural Gas Company No. 1 Powell, wildcat two miles southeast of the discovery well of the Pegasus field, had set a string of 7-inch casing at 12,945 feet, over total depth of 12,976 feet, in the Ellenburger.

The cement plug will be drilled out about the middle of the week and the venture will be drilled deeper.

Top of the Ellenburger was picked at 12,980 feet. That makes it 452 feet low to the top of the Ellenburger in Magnolia Petroleum Company No. 1-A TXL, the Pegasus opener.

However, interested observers think the No. 1 Powell will find around 300 feet of Ellenburger section before it enters the water in the formation.

Shows Oil Fluorescence

The 15 feet of the zone so far penetrated showed good oil fluorescence and appeared to be fracturing. It drilled relatively soft.

This prospect is 660 feet from north and west lines of section 44, block 40, TP survey, T-4-S. It has shown possibilities of yielding commercial petroleum from the Devonian also from the Fusselman section of the Silurian.

In the Midland County side of the Pegasus area, Magnolia No. 2-30 Glass, a long northeast stepout to the discovery well of the field, and 1,980 feet from west and 660 feet from south lines of section 30, block 40, TP survey, T-4-S, had progressed below 12,566 feet in Simpson lime and shale, and was drilling deeper.

Das To Enter Ellenburger

This venture is due to enter the Ellenburger within the next day or so. It has shown for production from the Pennsylvanian, the Devonian and also had good indications in the Fusselman.

Informed sources say it should make an oil well in the Ellenburger. If it does it will be the first Ellenburger producer in Midland County.

Magnolia No. 1-36 Glass, south-west flanker to the Pegasus field, and 1,980 feet from north and 660 feet from east lines of section 36, block 41, TP survey, T-4-S, had progressed below 12,102 feet in Fusselman lime and shale, and was boring ahead.

It is due to run a drillstem test in the current formation shortly.

Other Projects Deeper

It has also shown for production from the Pennsylvanian and has flowed from the Devonian, to make it the first exploration in the region to make that good a showing from that horizon.

Magnolia No. 1-B TXL, south outcrop to the Pegasus discovery and 660 feet from north and west lines of the southwest quarter of section 31, block 40, TP survey, T-4-S, had reached 6,467 feet in lime and shale and was digging deeper.

Phillips Petroleum Company No. 1-BB, north flanker to the Pegasus field, and 1,980 feet from north and 660 feet from east lines of section 17, block 42, PP survey, which makes it 12 1/2 miles southeast of Seminole.

The tool was open four hours. Recovery was 5,440 feet of salt water. The venture is to drill deeper. It is contracted to 9,000 feet to try to find and explore the Ellenburger.

Top of the Canyon lime has not been officially reported. However, it is understood that the test reported above covers the section of that formation which has been penetrated up to now.

The exploration is 667 feet from north and 653 feet from east lines of section 117, block 97, H&TC survey.

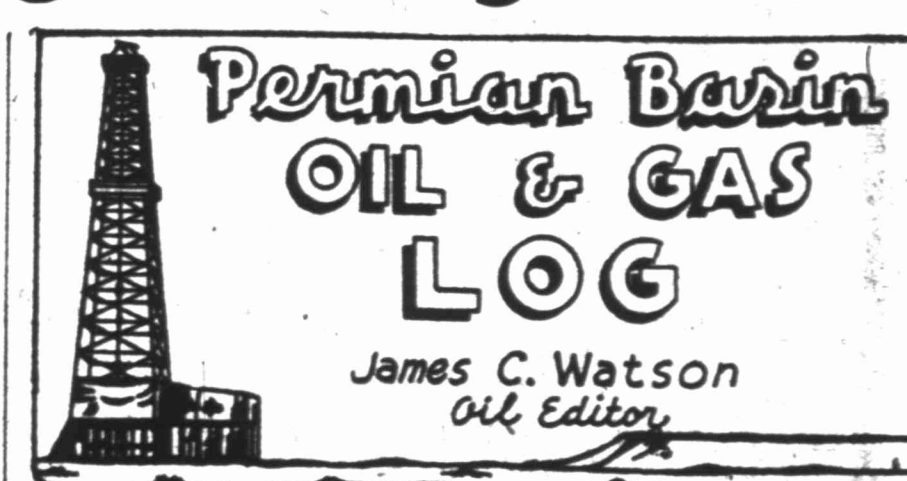

N-C Scurry Project Is High To Extender

Castleman & O'Neil of Midland, J. R. Hunter of San Antonio, and Walter Duncan of Oklahoma City, No. 1 Huckabee, east flanker to the recently completed one and one-half mile southeast extension to the North Snyder field, in North-Central Scurry County, had penetrated below 6,510 feet in the Canyon lime, and was boring deeper.

This venture entered the Canyon reef 6,160 feet, on an elevation of 2,434 feet. That made it 820 feet high to the W. A. Moncrief, Sr. Bob Hope, Bing Crosby and Paul Teas No. 1 Huckabee, the southeast extender to the field.

It is reported to have flowed between 10 and 20 barrels of drilling mud and oil for several hours recently, when the total depth was at 6,170 feet. The flow was killed with heavy mud and operators are continuing to make hole.

The exploration is 467 feet from

estate. Tentative location is 660 feet from north and east lines of section 19, block 5, H&GN survey.

May Get Support

That makes it two miles southeast of the town of Polar and approximately three miles southeast of the Polar field, where some small production was developed a few years ago from the Ellenburger.

Drilling & Exploration is reported to have proposed to drill such a wildcat, if the other oil companies with leases in the region would assist in financing the project.

It has been learned that some companies have already agreed to support the venture and others have the matter under consideration.

C-S Gaines Venture Is Swabbing To Pits

The Texas Company No. 1 E. D. Harris, wildcat three miles east of the Clear Fork discovery on the southeast side of the Flanagan field in Central-South Gaines County, swabbed perforations at 5,977-5,955 feet and recovered 182 barrels of acid oil and acid residue, after that zone had been treated with 1,000 gallons of acid.

Swabbing into pits is continuing to clean the pay and make the prospect show new oil from the Gloyfeta of the middle Permian.

This project developed salt water in the Clear Fork and was plugged back to its present total depth. It drilled to 1,520 feet and recovered the salt water.

Drill site of the venture is 660 feet from north and east lines of section 17, block 42, PP survey, which makes it 12 1/2 miles southeast of Seminole.

Canyon Makes Only Water For Amerasia

Amerasia Petroleum Corporation No. 1 Canning, Southeast Borden County wildcat, five miles west of the Sharon Ridge-Canyon field of Southwest Scurry County, showed only water in a drillstem test in the top of the Canyon reef lime at 7,065-7,105 feet.

The tool was open four hours. Recovery was 5,440 feet of salt water. The venture is to drill deeper. It is contracted to 9,000 feet to try to find and explore the Ellenburger.

Top of the Canyon lime has not been officially reported. However, it is understood that the test reported above covers the section of that formation which has been penetrated up to now.

The exploration is 667 feet from north and 653 feet from east lines of section 117, block 97, H&TC survey.

Dickens Wildcat To 8,500 Feet Set To Be Drilled By Union

Union Oil Company of California is to start operations at once on an 8,500-foot wildcat to test into the Ellenburger in Southwest Dickens County, five and one-half miles southeast of Spur.

The prospect will be Union No. 1 W. J. Elliott, Jr. It is located 1,990 feet from north and 2,052 feet from east lines of section 177, block 1, H&GN survey.

Union owns a block of more than 10,000 acres of leases in that region. The wildcat is near the center of the spread.

Dallas Firm Spots Kent Prospector Near Polar Field

Drilling of a wildcat to 7,200 feet to explore into the Canyon reef lime of the Pennsylvanian, in Southwest Kent County has been proposed by Drilling & Exploration Company, Inc., according to informed but unofficial sources.

The project, it started, would probably be carried as Drilling & Exploration No. 1 W. E. Connell

Diamond-M Producer Fined By Hiawatha

Hiawatha Oil & Gas Company, No. 6 L. M. Wilson has been fined from the Canyon lime in the Diamond M field of Southwest Scurry County.

The new well made an initial daily production of 431.62 barrels of 44.8-gravity oil, flowing through a 5 3/4-inch tubing choke. There was no formation water. Gas-oil ratio of the new petroleum was 1,271-1.

Production was through perforations in the 7-inch oil string between 6,612-6,670 feet. Total depth of the project was 6,672 feet.

This new source of oil is 330 feet from east and 660 feet from south lines of the lease in section 183, block 97, H&TC survey.

Barnsdall Completes North Snyder Well

Barnsdall Oil Company has completed two new producers from the Canyon lime on the southwest side of the North Snyder field of North-Central Scurry County.

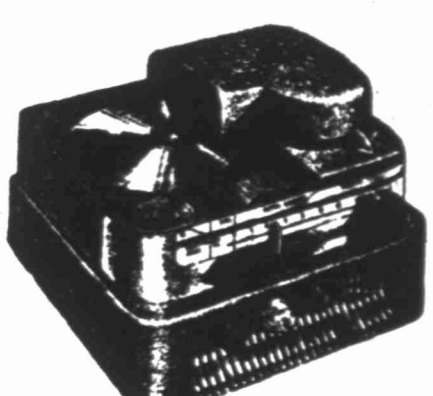

The company's No. 4 A. L. Wren, 467 feet from north and 287.6 feet from west lines of the lease in section 20, block 1, J. P. Smith survey, was completed for a daily potential of 958 barrels of 42.8-gravity oil, flowing natural through a 22 3/4-inch tubing choke. Gas-oil ratio of the oil was 982-1. It also made two tenths per cent water.

The production was from open hole between the five and one-half inch oil string cemented at 6,800 feet and the total depth at 6,896 feet.

Barnsdall also completed its No. 1 (Continued On Page Seven)

Carmco Service, Inc. was recently organized to provide the Permian Basin of West Texas and New Mexico with a complete gas-lift and gas measurement service. Officers of the new firm are, from left to right: Roy A. Minear, secretary-treasurer; E. A. Wahlstrom, president; J. P. (Bum) Gibbins, vice president; and John B. Richards, general manager.

Pegasus Is To Be—

(Continued From Page Six)
A. L. Wren as a natural flowing well from the Canyon lime.
It rated a calculated 24-hour potential of 908 barrels of oil, flowing through a 32 1/4-in. choke. Gravity of the oil was 42.6 and the gas-oil ratio was 850-1. It made five-tenths per cent water.
Production was from open hole section between the 7-inch oil string set at 6,770 feet and the total depth at 6,906 feet.
The new well is 467 feet from west and south lines of the lease in section 20, block 1, J. P. Smith survey.

Pure Schedules New Scurry Explorations

The Pure Oil Company has staked location on the south side of the North Snyder field of North-Central Scurry County for its No. 4 W. H. Adams.
It is slated to drill to 7,000 feet with rotary tools to test the Canyon lime.
The drill site will be 660 feet from north and 665 feet from west lines of the southeast quarter of section 383, block 97, H&O survey, and six miles north of Snyder. Drilling is to get under way soon.

North Snyder Offset Planned By Lockhart

L. M. Lockhart of Corpus Christi, has filed application with the Railroad Commission of Texas requesting a permit to drill an exploration in the unproven area south of the nearest production on the south side of the North Snyder field in North-Central Scurry County.
The venture is to be his No. 2 B. M. McHaney, and will be located 467 feet from south and west lines of the east 160 acres of the north 240 acres in section 177, block 3, H&O survey. That makes it four miles north of Snyder.
Contracted depth of the project is 6,600 feet, to explore the Canyon reef. Drilling will be with rotary tools.

NE Upton Wildcat Is Now Testing Devonian

Humble Oil & Refining Company No. 1 Pembroke, Northeast Upton County wildcat, is now testing the Devonian. The well is located 660 feet from north and 2,247 feet from east lines of block X, C. C. DeWitt survey, was on a total depth of 12,059 feet in line and chert and was taking a drillstem test.
So far this venture has not reported having logged any possibilities of production. It is understood to be in the Devonian at the present time.
Humble No. 1 Oswald, another Northeast Upton prospect, and located between the Benedum field and the same company's No. 1 Pembroke, had reached 10,261 feet in line and shale, and was boring ahead.
On Northwest Side
It is 2,640 feet from south and 660 feet from east lines of section 12, block B, OCS&RGNG survey.
Humble No. 1 Parrott, on the northwest side of the Benedum field, and 660 feet from south and east lines of section 3, block Y, EL&RR survey, was making hole below 11,259 feet in Pennsylvania limestone and shale.
This venture is a one-half mile north of a Pennsylvania discovery on the northwest side of the Benedum field.

Midland Prospector Recovers Lost Pipe

York & Harper, Inc., No. 1-A TXL, Central Midland County wildcat, to 13,000 feet to test the Ellenburger, was coming out with a string of twisted off drill pipe.
The venture is bottomed at 10,090 feet in line and shale after the tools are pulled out and the hole conditioned, drilling will be resumed.
This project is 12 1/2 miles south of the city of Midland, 690 feet from north and 660 feet from east lines of section 12, block B, OCS&RGNG survey.

Magnolia Gives Nine WT-NM Employees Awards For Service

Nine of Magnolia Petroleum Company's West Texas and New Mexico drilling department employees were presented service awards at a banquet held at the Scharbauer Hotel in Midland Thursday night.
The awards were made by R. D. Myers of Midland, drilling superintendent of the West Texas-New Mexico division.
Thirty-year service awards were presented to James C. Parks of Seminole and Ernest Brewer of Big Spring.
Twenty-year service awards went to John T. Capps, John Freidiger, and John D. Hughes of Monahans; Aaron B. Martin of Hobbs; N. M. Joe Simmons of Portales; N. M. Thomas M. Mills of Seminole; and Walter Eubank of Kermit.
Others honored
Also honored at the dinner were Marvin L. Spencer of Odessa, Israel E. Stallons of Portales, N. M., and John W. Wallace of Seminole, who had collectively received 20-year service awards.
Tool foremen present were W. W. Maley of Portales, N. M.; Clarence Platt of Monahans; Emmett J. Preston of Levelland; Marion W. Norris of J. M. C. E. Hope of Odessa; A. Diamond of J. M. C. E. Hope of Odessa; and P. L. Moore of Odessa.
Company personnel attending from the Dallas headquarters were E. D. Downing, general superintendent; O. S. Cozby of the industrial relations department; and C. B. Swanner of the safety department.
Those attending from the Midland division office were R. D. Myers, division drilling superintendent; R. L. Burke, division chief clerk; and F. W. Schall, drilling engineer.

RNGC Fishing Out Junk At Upton Test

Republic Natural Gas Company No. 1 American Republics Corporation, three miles south of the initial producer in the Pegasus field in Central-North Upton County, and 660 feet from north and west lines of section 6, block 40, TP survey, T-5-S, was bottomed at 7,118 feet in Permian lime and shale, and was washing over and cutting off stuck drill pipe.
It is expected that the junk will all be removed from the hole in a few days, and then drilling ahead will be resumed.
This venture is slated to dig to 13,000 feet to test the Ellenburger.

Stanotex Tries To Set Plug In Mitchell

Standard Oil Company of Texas is having trouble getting a cement plug to set on its No. 1 Dunn, Northwest Mitchell County wildcat, five miles east of Vincent.
This venture has logged some possibilities of production in the Canyon lime above 7,580 feet, and three efforts to get a plug to hold at the bottom of that zone have failed.
The fourth batch of cement had been set between 7,685 feet and 7,800 feet. If it holds securely another stage of cement probably will be put in up to about 7,580 feet.
After the plug back job is completed, the company will conduct production tests in the Canyon zone.
This venture drilled to a total depth of 8,325 feet in the Ellenburger. That zone made water, and had no shows of oil or gas.
The Canyon zone above 7,580 feet is the only formation in the wildcat which has indicated possibilities of production. The project is 1,980 feet from south and 660 feet from west lines of section 64, block 20, Lavaca Navigation survey.

Calnon Named Sales Chief For Cummins

J. T. Calnon has been appointed sales manager of Cummins Sales & Service, Inc., which has its general offices in Fort Worth.
Until recently he had been the company's district service manager at Odessa where he helped open the company's new repair shop there.
Calnon also worked as district service manager at the company's Houston and Wichita Falls service points.

Livestock Roundup

PORT WORTH.—Livestock prices compared week ago: All grown cattle 50 and more higher, calves generally steady, spots lower, butcher hogs averaged about steady, sows and pigs 50 higher, lambs yearling wethers 50 and more lower, aged sheep 50 higher, feeder lambs strong to \$1.00 higher. Sales included slaughter steers and yearlings 14-24, beef cows 14-18, mostly 16.00 down, canners and cutters 10-14, sausage bulls 13-18, slaughter calves 12-24, stocker yearlings 15-21, stocker calves 16-24, stocker cows 14-18.
Sows 18.50, feeder pigs 18.00. Spring lambs mostly 20-22.50, most slaughter yearling wethers 15-17, feeder lambs 15-21, feeder yearlings 15-17.50, yearling ewes to 16.00.
It is possible to seat five people at a table in 120 different combinations.

Midlander To Get Achievement Medal At Colorado School

GOLDEN, COLO. — Lester S. Grant of Midland, Texas, received the degree of Engineer of Mines from the Colorado School of Mines in 1939. He is included in the group of 31 graduates of the Colorado School of Mines who will receive the Distinguished Achievement Medal at the convocation in the observance of the seventy-fifth anniversary of the founding of the school Thursday, September 29.
The awards are made in recognition of a completed course of study in mineral engineering and related fields.
Professor of mining from 1919 to 1927 and director of the faculty of the Colorado School of Mines from 1927 to 1929, Grant retired in 1949 as vice president, manager, and consultant of the McElroy Ranch Company and director and vice president of the Franco-Wyoming Oil Company. In his earlier years he was active as engineer, superintendent, and manager of mines in Colorado, California and Peru.
The three-day anniversary observance will feature on the opening day addresses by Secretary of the Interior, Harold I. Bell, and Carey Cronis, president of Beloit College. The following days will be devoted to conferences on the theme "Mineral Resources in World Affairs," at which outstanding authorities will be heard.

Barnsdall Engineer To Be Top Speaker At IPAA Gathering

W. L. Horner, chief engineer, Barnsdall Oil Company, Tulsa, will be a featured speaker at IPAA's 20th Anniversary Meeting in Fort Worth October 3-4. Horner is a recognized authority in the fields of secondary oil recovery and pressure maintenance.
National chairman of the topical committee on production technology, API, in 1947-48, and listed in Who's Who in Engineering, he has contributed numerous papers to API, AIME, SEG and various technical journals. He was district chairman for the Mid-Continent District, API, in 1948, and a member of various industry and professional committees in AIME, AAPG, AGU, AOS, and the secondary recovery division of the Interstate Oil Compact Commission.
Born in Pennsylvania in 1908, he received degrees in petroleum engineering and geology from the University of Pittsburgh. His summers, while attending college there, were spent in field work on pipe line and geophysical field work.
He received training as a student engineer at the Standard Oil Company of New Jersey in 1928-29, and served as production research engineer for the Humble Oil and Refining Company, Houston, from 1929 to 1932. From 1933-36, he worked in Bradford and Nowata, Oklahoma as assistant to the chief petroleum engineer, Forest Oil Company, specializing in water flooding and reservoir research. As director and vice president of Core Laboratories, Inc., from 1936-42, he developed methods, later patented, for core analysis, and supervised all field operations of that concern.
He joined Barnsdall in 1943, specializing in petroleum reservoir analysis, utilization and pressure maintenance of all types in numerous pools, and especially in those adaptable to water and gas injection.
His paper, which will be illustrated by slides, is titled "Increased Oil Recovery by Means of Water Injection Pressure Maintenance."

API Issues Second Edition of Book On Secondary Recovery

The second edition of "Secondary Recovery of Oil in the United States," will be ready for distribution soon by the secondary recovery committee of the American Petroleum Institute.
The book will contain 55 chapters. It gives full complete information about the work being done in various sections of the United States on secondary recovery programs.
The reports have been prepared by men who are outstanding in the secondary recovery phase of the petroleum industry and they give the most comprehensive information on the subject so far collected and published.
The book will also contain a complete bibliography of all other reports and publications on secondary recovery which have been issued.
Orders for the book may be placed with Tom M. Curtis at the Standard Oil & Gas Company production department, or with L. F. Peterson, independent oil operator both in Midland.

Large Group From Permian Basin Will Go To AAODC Meet

A large delegation of drilling contractors, oil company representatives, and supply and service men from the Permian Basin will attend the ninth annual meeting of the American Association of Oil-Well Drilling Contractors in Dallas Monday through Wednesday.
An attendance of more than 1,000 persons is expected for the session. An interesting program will be presented including addresses on a number of the immediate problems of the drilling industry and also of the petroleum development business in general.
One bottle of tea from the Boston Tea Party is still in the Massachusetts Historical Society Rooms.

Research Shows Crude Fuels Are Cheaper Than Synthetic

TULSA, OKLA. — Officials of Stanolind Oil and Gas Company stated Saturday that liquid fuels from coal or oil shale cannot now compete economically with the fuels derived from crude petroleum.
This conclusion is the result of extensive technical and economic studies of synthetic fuels plants and is reported in a paper authored by George Roberts, Jr., manager of Stanolind Oil and Gas Company's research laboratory, and Paul R. Schultz, manager of Stanolind's economics department. Their studies present an up-to-date evaluation of the important raw materials, oil shale and coal, as potential replacements for crude petroleum.
Their comparisons, based on plant designs considered to be technically feasible today, show that manufacturing costs of producing a gallon of gasoline from oil shale or bituminous coal would be approximately 80 per cent higher than that made from crude oil.
Gasoline from sub-bituminous coal would cost about 125 per cent more than gasoline from crude. Bituminous coal would be about 150 per cent more expensive. The cost of mining, manufacturing, and transportation. They added, however, that future research could be expected to lower these costs considerably.
According to the Stanolind writers, several process improvements in coal synthesis now under investigation are believed to have an even chance of success. If these improvements are realized, the cost of making a gallon of gasoline from bituminous coal could be lowered to a level only 5 to 6 cents a gallon above present costs of gasoline from petroleum.
Schultz and Roberts emphasized that even though these reductions would not overcome present prohibitive costs of manufacture, further research might make synthetic fuels more nearly competitive.
Stanolind Oil and Gas has been actively engaged in synthetic fuels research for several years and more recently scores of chemists and engineers have worked full time on this problem.

Denver Office For Muldrow Is To Open

Offices for Muldrow Aerial Surveys, Inc., are to be opened in Denver, Colo., in order to better accommodate the needs of Rocky Mountain oil operators.
George K. Elderkin who has been manager of the firm for the past two years will manage the Denver office.
The firm plans to continue its present mapping program which includes unmapped portions of the Rocky Mountain area, as well as other specific mapping needs. James C. Atkinson will be in charge of the Midland office and may be contacted at his office for consulting purposes.

TEXAS OIL ROUNDUP— It'll No Doubt Be Long Time Before Shale Gas Is Available At Station

By MAX B. SKELTON
HOUSTON.—(P)—How long will it be before the average motorist can drive to a service station for a tank of shale gas? Most men believe the answer is so far in the future the present generation should not give it a worry.
J. S. Bureau of Mines officials, however, this week are to demonstrate the progress being made in shale oil experiments at the Rifle, Colo., laboratory.
One of their big problems at Rifle has been to determine whether or not shale oil can be converted into gasoline without placing a strain on the consumer's pocketbook.
Olimen say it is financially impractical to manufacture such a gasoline, that its final cost will be prohibitive when compared with current prices. Besides, they argue, there will be sufficient petroleum to meet demand for years and years to come.
Boyd Guthrie, supervising engineer at Rifle, last week said extraction of oil from shale has been accomplished — on an economically sound basis.
He estimated a barrel of crude shale oil can be produced at a cost of \$2.25 to \$2.50, compared to a current crude petroleum production cost of approximately \$2.50.
Must Go Long Way
But crude oil—whether shale or petroleum—has to go a long way before it reaches an automobile tank. A trip to the refinery is essential.
It is at this point that olimen predict the cost of shale gasoline will jump considerably.
Two research engineers for Stanolind Oil and Gas Company have been evaluating the raw materials of oil shale and coal as possible replacement for crude petroleum.
They advised the industry that, on the basis of the most feasible methods known today, production costs of a gallon of gas from oil shale or bituminous coal will be approximately 80 per cent higher than for crude petroleum.
They indicated much further research probably will be necessary before synthetic fuels can become competitive with petroleum.
Anything Bureau of Mines officials might reveal on refining of shale oil and its cost undoubtedly will receive close attention from the oil industry.
To Include Processing
One of the phases of the Tuesday demonstration at Rifle is to include the processing of crude shale oil into gasoline, diesel fuel, furnace oil and heavy industrial fuel oils, and gas.
A Texas petroleum engineer recently urged that the bureau add oil mining to its experimental program.
Paul D. Torrey, Houston, chairman of the secondary recovery committee of the Interstate Oil Compact Commission, believes such a study would be a "proper venture" for the federal government.
He admits United States attempts at oil mining so far have not been successful. He believes, however, that as a companion project to the shale experiments an oil mining project might create a great deal of interest and receive very general approval from the oil industry.
Torrey is convinced there are vast amounts of petroleum which escape normal drilling methods but which could be recovered through mining.

Bulldog 'B' Team Wins 31-6

Lynn, Adams, Black Spark Purple To First Victory

The Midland B Bulldogs loosed a savage ground attack on the Brownfield B Cubs at Memorial Stadium Saturday night and swept to a one-sided 31 to 6 victory. Larry Lynn and Little Jimmy Adams sparked the Bulldogs with slashing gains while Harold Hensley kept the Cubs busy with his aerials.

Midland scored in every quarter—twice in the fourth—and held the visitors to a standstill most of the time. Lynn set up the first Midland touchdown after a fumble had been recovered on the Brownfield 30. He took a pitch-out from Dan Black and raced to the one-yard line. Black hit the middle for the score. The conversion try was no good.

Lynn intercepted a Brownfield forward and raced 20 yards untouched for the second TD early in the second quarter. The point kick by Glen Baker was no good. The center of the Bulldog line—Al Scoggin, Guy Vanderpool, Bill Lavery, and Baker—plugged the holes on the Brownfield T formation until the half. Ends W. H. Black, James Weathered and Leo Hatfield played a whale of a defensive game.

Midland opened the third quarter with another fast touchdown. Dan Black snatched a Brownfield pass

out of the air and sprinted 35 yards to make the score 18-0 Midland. The conversion failed. Cubes Score: Brownfield made its only counter in the third period. Fullback James McNeill hit End Allen with a 15-yard pass and Allen went 60 yards to pay dirt. The conversion failed. Larry Lynn, playing a great defensive game, struck back for the Bulldogs by intercepting his second pass of the night and barreling down the sideline 70 yards for the score.

The try for point failed again. Hensley To Weathered: Brownfield couldn't get going at all in the final period as their ground game failed and their pass-

Villanova Rolls Over A&M 35-0

COLLEGE STATION—(AP)—Iron-fisted Villanova slashed a 35-0 defeat on Texas A&M Saturday night—the worst licking an Aggie football team has suffered in 18 years.

The great Wildcat line hammered the Cadets unmercifully and the driving Villanova backs made mince meat of the Aggie guards and tackles.

A&M fumbled to set up three of the touchdowns, interfered with a pass on another and an Aggie back deflected a pass to help Villanova to the fifth score.

But it was a combination of Aggie mistakes and a fine football team from Pennsylvania that ground A&M into its most one-sided defeat since 1931 when Arkansas strangled the Aggies 44-0.

Villanova, with big Ralph Pasquariello, Joe Rogers and Peter d'Alonzo pounding the Aggie middle and skirting the ends against stubborn but futile resistance, whipped A&M to the complete satisfaction of a crowd of 29,000 that sat in stifling heat.

The score by periods: Villanova 7 14 14 0—35 Texas A&M 0 0 0 0—0

Indians Nip Dusters 4-3

6—THE REPORTER-TELEGRAM, MIDLAND, TEXAS, SEPT. 18, 1949

The Midland Indians and the Vernon Dusters take a day off Sunday from their Longhorn League playoff series. They will return to action in Vernon Monday and Tuesday nights. Ralph Blair is due to hurl against Lloyd Trip in the Monday night tilt.

VERNON—The Midland Indians bunched their hits in the eighth inning here Saturday night to nudge the Vernon Dusters 4-3 in the third of a four-out-of-seven Longhorn League playoff series. The win sent the Indians ahead 2-1 in the pennant battle.

Midland opened the scoring in the fourth with a single run on consecutive singles by Kenny Jones, Lou Dawson and Kenny Peacock.

Vernon came back with one in the last half of the frame to knot the score.

Dusters Move Ahead

In the sixth, Lou Ehlinger opened with a single and Claude Horton followed by hitting the Indians for his wild streak. The Indian fork-batter walked three Dusters in a row to force in a run and send Vernon ahead.

Vernon scored again in the seventh to take the lead 3 and 1. The Indians fought back. They wouldn't stay down.

In the eighth, Warren Sitter opened with a double. Julian Pressley singled him home. Kenny Jones doubled Pressley around. Kenny Peacock doubled to plate Jones with the winning run. Carl Carter went to the showers and Darwin Chisico came on to put out the fire. The damage was done, however.

Like A King

Horton ruled the Dusters like a king from there on out.

The win assures that the series will return to Midland unless the Indians win all three at Vernon.

The box score:

Midland A B R H O A
Hughes, ss 4 0 0 3 2

Big Spring Steers Tounce Cisco 20-6

CISCO—The win-hungry Big Spring Steers used a weight advantage to wear down a lighter Cisco team here Friday night and score a 20-6 victory.

A hard ground game and nice passing put the Steers over. The tilt was played on a wet field.

Woman Injured Here In Fall From Horse

Mrs. James White was admitted to Western Clinic Hospital Saturday night for emergency treatment after she fell from a horse.

The accident occurred near the east limits of the city. Extent of her injuries would not be known until X-rays were taken, hospital attendants said.

Hook Davis Paces Cowboys To Victory

ABILENE—(AP)—Wilton (Hook) Davis paced 62 yards for a third quarter touchdown here Saturday which provided a 13-7 win for Hardin-Simmons University over North Texas State.

Outside of Davis, and his understudy, Harold Taylor, the Cowboys and Eagles played mostly even.

The Denton team featured quarterbacks Ned McNeill, Frank Smith and Lloyd Lowe who flitted through the heavier H-SU defenders for a touchdown early in the second period and threatened twice in the last half.

Indians Belt Sens To Keep Hopes Alive

WASHINGTON—(AP)—The Cleveland Indians kept their faint pennant hopes alive Saturday by beating Mickey Harris and Joe Haynes for 16 hits and an 8 to 3 victory over Washington.

The score: R. H. E. Cleveland 102 002 130—8 16 2. Washington 210 000 000—3 8 2. Beardsley, Hegan; Harris, Haynes and Evans.

Bishop Of London To Visit In Dallas

DALLAS—(AP)—The bishop of London, who directed one of the world's most spectacular revivals in England recently, will come here Sunday on a cross-country tour.

He is the Rt. Rev. and the Rt. Hon. J. W. C. Wand, 64, who sits in the British Parliament's House of Lords by virtue of his Church of England office.

Advertise or be forgotten.

Wink's Wildcats Claw Denver City

WINK—The Wink High Wildcats clawed in old time fashion Saturday night to draw the blood of the Denver City Mustangs 45 to 6 in a 5-A encounter here.

It was wham, wham and wham as Pat Drumm and Bud Rollins rammed offensively for the Cats.

Frankie Sanders of Wink was injured in the game but later reports indicated his leg was not broken, as feared.

White Sox Outscore Philadelphia A's 8-5

PHILADELPHIA—(AP)—Extra-base hits helped the Chicago White Sox take an 8 to 5 victory over Philadelphia Saturday.

The score: R. H. E. Chicago 202 031 000—8 10 0. Philadelphia 1102 000 011—5 9 1. Haeffner, Pieretti and Malone; Scheib, Harris, Shantz and Guerra.

Woman Veteran Of Jap Prison Camp To Leave Leprosarium

CARVILLE, LA.—(AP)—Maj. and Mrs. Hans Hornbostel plan to drive through the gates of the leprosy hospital here Sunday for the last time.

Mrs. Hornbostel came here on June 2, 1946, to be treated for Hansen's disease (leprosy), probably contracted in the Santo Tomas Prison Camp near Manila, where the Japanese kept her for three years.

The pleas of her husband—himself a graduate of the Cabanatuan Prison Camp and a survivor of the Bataan Death March—to live with her in the hospital focused international attention on the case.

They bought a small cottage on the grounds of the U. S. Marine Hospital—the national leprosy hospital. The major spent all the hours permitted with his wife and lived in a room he rented several miles from the hospital.

Remarkable Improvement

Mrs. Hornbostel has a discharge, the major said, after "remarkable" improvement. They plan to drive to Belmont, N. Y., on Long Island.

Mrs. Hornbostel will take additional treatment, he said, and eventually they will move to Los Catos, Calif.

"Hansen's disease is not all it's cracked up to be," said Major Hornbostel, on the eve of their departure. "We've got to stop this segregation of patients. There is no segregation in England, France or Germany, and none in several states of the union. There is a lot of popular misunderstanding about the communicability of the malady."

Members of the white race have more hair on their heads than any other race.

HANK AVERY ARCHITECT on

The Ranchland Hill Golf and Country Club

The AVERY-STANFORD COMPANY Midland, Texas

SPORTSLANTS

BY SHORTY SHELBOURNE

Lou Dawson, Midland Indian outfielder, has become a favorite of the fans here since he has developed into a home run slugger.

Lou Dawson, a rookie, has hit more homers in the last three weeks than he did all season before.

The last two he connected for here brought him a rain of greenbacks from the fans.

He collected \$100 for one last week and almost that much again Friday night.

It's good to know he'll be back with the Indians next season if nothing happens.

The Pennant Fund has grown a little more in the last few days and now is nearing the halfway mark of \$800.

Houston Hill gave a \$20 bill Friday to boost it up and Pay Coll dropped in a check for \$5.

Money received when the hat was passed Friday night helped a lot, even though the total was shorter than before.

We still need \$0 fans who will give \$10 each to put the fund over the top.

When the Indians return from Vernon (we hope), let's have it here waiting for them.

The San Angelo Optimist Club again is sponsoring a benefit football game between two service teams.

The tilt will be played in San Angelo October 21, bringing together the Randolph Field Ramblers and the Memphis Navy Hellcats.

Proceeds from the game will be used in maintenance of the Boys' Hobby Shop and Boys' Ranch.

Game time will be 8 p.m. at Bobcat Stadium.

When and if the Midland Indians bring the playoff series back to In-

dian Park, it'll be a new start for fans at the box office.

New type tickets will be sold and everyone will get a chance at them.

Seats and boxes are sold for two games only during the playoffs.

The three games at Vernon will be split with the teams resting Sunday.

The last two tilts will be played Monday and Tuesday nights.

(When we keep saying "if it goes that far" we aren't selling the Indians short. We're just staying within the possibilities.)

Bob Huntley says he can't draw a big enough crowd on Sunday.

HALF SLANTS—Lindy Berry, the TCU flash, got his high school football training under Coach Tugboat Jones, MHS mentor.

The 1947 SMU team is the only undefeated eleven ever coached by Matty Bell. Five of his teams have lost only one game.

—Fresh from discovering they couldn't buy a Texas League pennant—have recalled eight players from leagues of lower classification. They include Bob Upton and Glen Selbo from Lamess.

—Newell Kane and Reed Quinn, candidates for fullback at Texas U., all are former all-stars.

—The Army this season is pointing to Gil Stephenson as another Doc Blanchard.

—Empire Thomas, the Longhorn League's wrestler-umpire, picks Hal Jackson of San Angelo as the league's best first baseman.

—He links Warren Slier is the best glove man but doesn't measure up to Jackson with the stick.

—The San Angelo Optimist Club again is sponsoring a benefit football game between two service teams.

The tilt will be played in San Angelo October 21, bringing together the Randolph Field Ramblers and the Memphis Navy Hellcats.

Proceeds from the game will be used in maintenance of the Boys' Hobby Shop and Boys' Ranch.

Game time will be 8 p.m. at Bobcat Stadium.

When and if the Midland Indians bring the playoff series back to In-

Michigan Might

Bidding for their third consecutive all-conquering season, the Wolverines will attack with, left to right, Leo Kocesi, Tom Peterson, Bill Bartlett and Chuck Ortmann. The center is Bob Ertan.

TCU Frogs Nip Kansas In Opener

LAWRENCE, KAN. —(P)—Lindy Berry's spotty but timely passing and a methodical ground attack rolled the Texas Christian University Horned Frogs to a 28-0 victory over the Kansas Jayhawks in a season football opener for both teams Saturday.

Some 32,000 fans, a record opening home attendance for Kansas football, sat under overcast skies and watched Berry, 175-pounder from Wichita Falls, engineer the Frogs to a 21-0 halftime lead.

Frog Captain Berry scored TCU's first and last touchdowns.

He was over from the five yard line after eight minutes of play and ran back an intercepted pass forty-four yards in the final period.

In between Berry's touchdowns TCU scored with rookie quarterback Don Wilde going 25-yards and sophomore fullback John Morton cracking over from the one-foot line. Both came in the second quarter.

Berry Completes Nine After each touchdown, squatty Homer "The Toe" Ludiker place-kicked squarely between the bars.

Berry finished his day's work with nine completions in 19 passing attempts for 129 yards.

Only once did the Jayhawks get in scoring territory. That threat wilted on the 23 after a double penalty had nullified a Kansas touchdown.

Dick Gilman, one of the nation's leaders in touchdown passes a year ago, had one ruled completed to Halfback Bud French over the TCU goal line when interference was ruled, but a Jayhawk was caught offside on the play.

TCU also had a clear cut victory in the statistical chart. The Frogs made 20 first downs to 8, outpassed the Jayhawks 184 yards to 90, and had a ground advantage of 219 yards to 113.

Golden Cranes Top Fort Stockton 14-0

PORT STOCKTON—Crane High School's Golden Cranes pushed across two touchdowns in the first half here Friday night to whip the Fort Stockton Panthers 14 to 0 in a District 5-A game.

Both Crane counters were set up with gains through the air and on the ground.

John Clark hit the middle for the first score on the two yard line.

Richard Lightfoot went off tackle from the three for the other.

Clark Lee Pressley kicked both points.

The two teams battled on even terms in the second half with neither threatening.

Dusters Win 4-3

By SHORTY SHELBOURNE

The Vernon Dusters pushed across a run in the top of the ninth inning at Indian Park Friday night to edge the Midland Indians 4-3 and even the Longhorn League playoff series at one-all.

Darwin Chrisco and Midland's Leon Hayes hooked up in a pitchers' duel all the way. Chrisco was just a little more effective.

Hayes received fine support from Centerfielder Gus Pena and Shortstop Stan Hughes.

Lou Dawson was the big gun in the Midland hitting attack. He collected a two-run homer and a single in four trips to the plate to drive in all three Indian runs.

Dusters Lead

Vernon pitched together two singles and a sacrifice to score one run in the first inning.

They counted another one in the sixth on two singles and an error.

Dawson's homer over the far-away right-centerfield wall with Kenny Jones on base tied the score in Midland's sixth.

Two more errors and a single gave Vernon another run in the seventh.

But the Indians fought back hard. Kenny Jones doubled with one out in the eighth and moved to third on a wild pitch. Dawson's long fly to right scored him with the tying run again.

Was He Safe Or Not?

The winning runner was questionable. Harry Scherting was questioned by the umpire. Cotton McCasky singled to move him to second. Bob Huntley hit a sizzler just to the right of second base. Bob Rose also had one ruled completed to Halfback Bud French over the TCU goal line when interference was ruled, but a Jayhawk was caught offside on the play.

TCU also had a clear cut victory in the statistical chart. The Frogs made 20 first downs to 8, outpassed the Jayhawks 184 yards to 90, and had a ground advantage of 219 yards to 113.

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, SEPT. 18, 1949-9

Longhorns Stomp Red Raiders 43-0

AUSTIN—(P)—The University of Texas Longhorns stomped Texas Tech's Red Raiders 43-0 before 28,000 football fans in Memorial Stadium Saturday.

Though the decision may not be indicative of the Longhorns' power against Southwest Conference foes which it will start taking on four weeks hence, it did show

two things: Texas has plenty of speed, and its passing should be better than last year.

The Longhorns opened their 1949 season by scoring one touchdown in each of the first two quarters, and two in both the third and fourth periods. In the last two periods the Longhorns were using a number of third and fourth stringers.

Tech's deepest penetration was the Texas 20-yard line late in the second quarter, and the Raiders were thrown back to the 30 as that period ended.

Steele Score Quickly

Fullback Lewis Levine of Harlingen, starting for Texas in place of Ray Borneman, broke the scoring ice with a seven-yard cross buck at left tackle four minutes and 10 seconds deep in the first quarter.

It was the climax of a 47-yard drive which took only five plays—all running. Right Half Randall Clay kicked the first of his three successful conversions.

The Stuver fumbled as he attempted to punt from Tech's 20-yard line on the last play of the period. On the first play of the second quarter, Substitute Right Half Bubba Shands blasted through the middle for Texas. He fumbled, but Left End Ben Procter fell on the ball for the tally.

Calvin Stevenson, Tech left half, was trapped behind his goal line when he received a bad snap from center and could not get off a punt. Substitute Center Joe Arnold dropped him to get credit for a two-point safety.

Quarterback Paul Campbell, splitting time with Starter Bobby Coy Lee, got the passing range in the third period. He hit Procter for 32, Clay for 13, and then fired a payoff pitch to Sophomore Byron Townsend, substitute left half. Townsend caught the ball on the 15, shook a tackle, and pounded across the double stripe standing up. The play went for 28 yards.

A Tech fumble on its 27 set up the next Longhorn score. Borneman finally blasting through right tackle from the four, Tech blocked June Davis' try for point.

Texas' last two scores came on a 20-yard right end sweep by Sophomore Bobby Dillon and a brilliant 53-yard off-tackle dash by Sophomore Carl (Red) Mayes, who followed good blocking.

Pennsylvanian Wins

ARDMORE, PA. —(P)—Mrs. Mark A. Porter of Manos, Pa., won the 49th Women's National golf championship Saturday by defeating Dorothy Kieley of Long Beach, Calif., 3 and 2 in the 36-hole final at the Merion Golf Club.

U. S. Pro Golfers Rally In Singles To Capture Ryder Cup

GANTON, ENGLAND—(P)—America's professional golfers crushed Britain's best club swingers in six out of eight singles matches Saturday to come from behind and win the treasured Ryder Cup and break the spirits off 12,000 British spectators.

The one-sided trouncing of the home stars, who had surprised everyone by winning three of Friday's four Scotch foursomes, made the final score 7 to 5 for the Americans, who have held the international trophy since 1935.

Lloyd Mangrum, the slim, mustached star, made the triumph official when, in the final match of the day, he defeated the British match play champion, Fred Daly 4 and 3.

How They Finished

The other North Americans finished this way:

E. J. (Dutch) Harrison buried Max Faulkner, 9 and 7, after having built up a seven-hole lead at lunchtime.

Sammy Snead trounced little Charlie Ward 6 and 5.

Bulky Clayton Heafner recovered from a one down deficit at noon to defeat Dick Burton, former British Open king 3 and 2.

Chick Harbert trimmed Sam King—the only Briton who won a match in the cup series at Portland, Ore., two years—4 and 3.

Jimmy Demaret trounced Art Lees 7 and 6 after having unloaded a 68 on his morning round to take a five up lead.

The only Americans to lose were Bob Hamilton and Johnny Palmer. Hamilton dropped a 6 and 4 decision to Dai Rees, a stubby little Welshman, and Palmer was squeezed out 2 and 1 by Jimmy Adams, a Scotsman.

Miss Request Wins Beldame Handicap

NEW YORK—(P)—Miss Request, flying the silks of Mrs. Ben F. Whitaker of Dallas, put on a thrilling stretch drive Saturday to win the \$72,000 Beldame Handicap at Aqueduct.

With the large field of 18 fillies and mares contesting the rich mile and one-eighth classic, Arnold Hanger's Harmonica was disqualified from second money of \$10,000 and John C. Clark's Plunder was moved into the place spot. Harmonica was moved out of the money for crowding as the field went into the first turn.

The disqualification also moved up C. V. Whitney's Mother into third place. Mother and Harmonica were two of the five horses grouped in the betting "field."

New York City was the first capital of the United States.

Stanton Buffaloes Score 19-0 Victory

STANTON—The Stanton Buffaloes opened their 1949 football season with a 19-0 victory over the Monahans 'B' Lobos here Friday night.

The Buffs scored twice on the ground and once through the air. Earl and Gerald Koonce, twin backs, sparked the ground game. Each scored one TD. The other counter came on a pass from Earl Koonce to Neil Stovall.

Whistle Lindsay plunged for the only extra point.

Stanton will play Monahans, N. M., here next Friday night.

Junior High Uses Two-Platoon System

ELKINS, W. VA. —(P)—Like the largest colleges, Little Elkins Central Junior High School has its "two-platoon" system for football.

The school purchased 80 uniforms, expecting them to be sufficient. But 90 boys turned out.

Coch Reginald Woodward solved the problem by letting one "platoon" wear the uniforms one day, and the other "platoon" the next.

TEXAS ELECTRIC SERVICE COMPANY

\$6 PREFERRED STOCK DIVIDEND

The regular quarterly dividend of \$1.50 per share on \$6 preferred stock outstanding was declared by the Board of Directors Sept. 11, payable Oct. 1, 1949, to stockholders of record at the close of business Sept. 24, 1949.

Braves, Voiselle Trip Redbirds 4-2
ST. LOUIS—(P)—Bill Voiselle had full control of the situation except for a homer and double by Ron Northey as the Boston Braves took the St. Louis Cardinals into camp 4 to 2 Saturday. The defeat left the Redbirds two and a half games ahead of the Brooklyn Dodgers, who also lost.
The score: R.H.E.
Boston 030 000 100-4 5 0
St. Louis 010 000 010-2 9 0
Voiselle and Grubbs; Brantley, Wilks, Staley and Garagiola.
San Angelo Bobcats Rout Austin 26 to 7
SAN ANGELO—The San Angelo Bobcats mixed an air and ground attack well here Friday night to whip the Austin High (El Paso) Panthers 26 to 7.
It was Austin's second straight defeat.

Ranchland Hill Club From The Air

This aerial photo shows the entire layout of the first nine holes of the new Ranchland Hill Country Club north of Midland. The course is one of the finest in West Texas. Five holes are dog-legged and four are partially straight. Number six has a water hazard. Golfers are enjoying the new course much more due to the variety of hazards it affords.

Ranchland Country Club Golf Course Is Finest In Area

If the entire area had been searched thoroughly, they couldn't have found a more ideal spot for a country club than the one upon which new Ranchland Hill is situated. That's the opinion of present club members and out-of-city golfers who have played and toured the first nine holes of the golf course.

Visiting professionals to the man have expressed the opinion Ranchland Hill will have the finest 18-hole course in West Texas when the last nine are completed.

The membership drive now underway is designed to obtain a sufficient number of new members to afford construction of the last nine holes. Initial membership fees from the drive will go to a fund for completing the golf course.

The present nine-hole layout lies in a picturesque area. It is beautiful to look at and fine to play.

Par 70 Course
The total yardage over the course reaches 3,020. Par is 70.

Greens, tees and fairways are in excellent condition despite the short time the club has been organized. Bent grass greens are well covered and the turf in the fairways is tops.

Five dog-legged holes give the course added toughness and increases the challenge to linksmen. The number six hole must be reached by going over or around a water hazard. Traps are located at opportune places.

The roughs on the course are just that. Slicers and hookers find themselves in plenty of trouble when they get off the fairways.

The longest hole on the course is number five. It is 492 yards. Number seven is the shortest—a scant 180 yards.

The golf course is equipped with an elaborate sprinkler system for watering the greens and fairways. A private water supply affords plenty of moisture to keep the turf in good shape at all times.

Most of the golf course can be seen from the clubhouse which is well situated atop a slight hill.

The club golf shop carries a complete stock of equipment and necessities for golfers.

Walter Thompson, cooperator of the club, serves as pro. H. L. Winkler, the other partner, is a noted professional golfer.

Golfing instructions for beginners and to correct faults can be arranged. The golfing end of the club is well

Big Spring Broncs Shade Colts 2 to 1

BIG SPRING—Ray Vasquez singled to score Manager Pat Stacey in the 11th inning here. Friday night and give the Broncs a 2-1 victory over San Angelo's Colts. It was the first Longhorn League playoff tilt between the teams.
The score:
R H E
San Angelo000 000 001—1 4 4
Big Spring000 000 001—2 6 8
Shelton and Harshaney; Garcia and Valdez.

10—THE REPORTER-TELEGRAM, MIDLAND, TEXAS, SEPT. 18, 1949

McCamey Boosters Club Organized

MCCAMEY—A Badger Booster Club was organized at a recent meeting here which was attended by more than 100. Football players and coaches were honored at the event.
Mike Brumbelow of Midland, former TCU grid star, was the featured speaker.
C. W. Brown, president of the McCamey Lions Club, was master of ceremonies. Supt. Howard Stoker introduced Brumbelow.
Members of the high school band gave musical selections. Ann Hawkins did several vocal numbers, accompanied by Janet Pauley at the piano.
A movie of the SMU-Oregon Cotton Bowl game of 1949 was shown.

Rick Spinks Leads Kermit To Victory

KERMIT—Rick Spinks, Kermit's candidate for all-state honors, led the Yellowjackets to a rousing 26-7 win over the McCamey Badgers in a District 5-A tilt here Friday night.
Spinks scored three Kermit touchdowns and slashed the Badger line for long gains all night.
Jim Carr, Kermit fullback, hit the middle for the other Yellowjacket TD. Billy Woods made two conversions.
McCamey's lone touchdown came on an 18-yard pass from F. Stokes to J. Kemp in the third quarter. Stokes converted.
Kermit led in first downs 17 to nine.

Pecos Eagles Stop Andrews Mustangs

PECOS—The mighty Pecos Eagles took advantage of several Andrews miscues here Friday night and swept to a 26-13 victory in their first conference game.
Halfback Jerry Fairley, one of the fastest men in District 5-A, raced 25 yards around end in the second quarter to score the Eagles' first TD. George Christian failed to convert.
Andrews fought back hard. After a drive in which quarterback G. I. Madison mixed his plays well, Jack Smith powered his way over from the 12-yard line. Madison converted to give Andrews a 7-6 lead at the half.
Andrews fumbled.
On the kickoff opening the third quarter, Andrews fumbled on its own 10-yard line and Pecos recovered. Two plays later Christian hit the middle for the score. He also kicked the point.
Andrews fumbled the kickoff again following Pecos' touchdown and the Eagles recovered on the Mustang 42. It took just eight plays to score. Christian went over again. The point was no good.
Fullback Floyd raced 26 yards for Andrews' final counter in the third period. Madison missed on the point.
A 12-yard pass, Billy Curd to Fairley was good for Pecos' final touchdown and Christian kicked the point.
Penman is the name of a food the Indians made of jerked buffalo meat, serviceberries, and suet.

TODAY YOU ARE CORDIALLY INVITED TO INSPECT THE RANCHLAND HILL COUNTRY CLUB

Announcing THE COMPLETION OF RANCHLAND HILL CLUB HOUSE AND FIRST NINE

EXPANSION IS NOW PLANNED TO UNDERTAKE IMMEDIATE CONSTRUCTION OF THE BACK NINE TO COMPLETE A FIRST CLASS 18 HOLE COURSE

Memberships Now Available—

For a membership in the club, contact one of the above 260 members to endorse your application and mail to:

ALAN B. LEEPER, Secretary, Drawer 1391, Midland, Texas.

Membership now costs \$250.00 (including 20% tax). Dues now are set at \$6.00 per month (including 20% tax). The membership fee will be \$250.00 plus tax after the membership reaches 350.

Drive out North Big Spring Street to sign indicating route East to clubhouse.

Sports

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, SEPT. 18, 1949—11

Ranchland To Launch Drive For Members

The Ranchland Hill Country Club will be thrown open to the general public Sunday when open house is held to launch an intense membership drive. The membership campaign will be conducted through the club's present 260 members.

Midlanders are urged by President Donk Roberts and Co-Operators H. L. Winkler and Walter Thompson to drive out to Ranchland Hill during the open house Sunday and give it a thorough inspection.

The drive is being launched to raise money through membership fees to finance the construction of the second nine holes of a proposed 18-hole golf course. The first nine holes have been opened to golfers. Members who join the club now will receive the added benefits of the 18-hole course.

Progress Made
The club is growing fast in every respect and the larger the membership gets, the more progress will be made, officials said.

The directors recently adopted a junior membership plan for unmarried sons and daughters of the club members. Under the plan, boys and girls between 18 and 25 years of age may join with no admission fee. They will pay regular monthly dues only.

The club was organized with the view of providing recreation and wholesome entertainment for the entire family of members. Picnic grounds are to be constructed and

it is possible a swimming pool will be added later.

The golf course and clubhouse are in constant use by both men and women golfers.

Club Organization

The club is jointly operated by L. H. Winkler and Walter Thompson. Ranchland Hill members are guaranteed full use of the facilities for 10 years and have an option to buy the club if it ever goes up for sale. Initial fees paid by members give them all privileges in the club.

The club government is set up on the same order as civic clubs.

D. G. (Donk) Roberts is president. Other officers are J. P. Carson, Jr., vice president; Alan B. Leeper, secretary, and Henry Orson, treasurer.

The board of directors includes the four officers and Gayle Crawford, E. M. Watkins, H. C. Avery, Bennie T. Estes, Leland Huffman, Joe C. McQueen and H. L. Straughan, Jr.

West Texas Kennel Club's Dog Show Is Scheduled Thursday

ODESSA—Entries for the West Texas Dog Show to be held at the Ector County Building here Thursday rolled in nicely shortly before 11 a. m. More than 400 of the nation's finest dogs are entered.

This year's show will be dominated by Boxers. English Bulls also are entered in number.

Variety Of Breeds
Some 47 different breeds will be exhibited, giving the show more variety than ever before.

A Colorado breeder is bringing a string of seven Great Danes. A San Antonio breeder will enter a group of Saint Bernards.

The outstanding feature of the show will be a special pageant with 12 women handlers showing foreign breeds. Handlers will be dressed in costumes native to the country of the dogs.

The show will open at 9 a. m. and will end at 9:30 p. m.

J. H. Johnson of Denver, Colo., and Criss Shuttleworth of North Hollywood, Calif., will do the judging.

The show is sponsored by the West Texas Kennel Club. Carl Wewat of Midland is president of the club.

Abilene Eagles Down Big City Champions

ABILENE—The Abilene Eagles defeated the 1948 City Conference Champion Arlington Heights Yellowjackets 27-12 here Friday night. A powerful ground attack by the Eagles paid off.

Arlington went scoreless for three quarters before it mustered the power to push over two touchdowns. Abilene scored in the first, second and fourth periods.

Kenny Jones-Rookie Of The Year

Longhorn League President Hal Sayles gets nothing but smiles from Kenny Jones, left, and Harold Webb, center, as he presents Jones the Rookie of the Year trophy in ceremonies at Indian Park. The award went to Jones, popular Midland Indian catcher, when he won a poll conducted by sports writers and sports announcers throughout the league. Manager Webb handed Jones a nice check to go with the rookie award.

Odessa Bronchos Rap Sweetwater 20 to 6

ODESSA—The Odessa Bronchos rebounded from a whipping by Port Arthur last week, Friday night defeated the Sweetwater Mustangs 20-6 here.

Dawson Hughes climaxed a 75-

yard Broncho drive by going over for the first touchdown in the opening period.

Odessa recovered a Sweetwater fumble on the Mustang 37 on the return kickoff and scored six plays

later. Tommy Salmon made the TD. Hughes converted.

Sweetwater staged a 62-yard drive in the third period for its six points. Odessa took the ensuing kickoff and marched to the final score in five plays. Hughes converted again.

Billy Hooper's passing—16 out of 29 completed—was the brightest part of the Sweetwater offense.

Bulldogs Continue Hard Workouts For Austin Tilt

The Midland Bulldogs move into their drills at Memorial Stadium Monday with nothing but "Beat Austin High" on their slate. The boys will be schooled on passing and ground game this week just as they were last week and the setting up of a better defense will come in for plenty of work.

The way things look now, L. C. Thomas, Jack Burris, Luther Mooney and Cecil Stephens will be doing most of the ball carrying against Austin High Friday night. Burris and Ralph Brooks probably will split the passing chores.

Coach Tugboat Jones has issued several new plays and modified some of the others. The entire ball club has looked sharper while running them in workouts.

Blocking, Tackling Better
Blocking and tackling were better in workouts Thursday and Friday but just to make sure, the Bulldogs will drill on both more this week.

Austin High's expected offensive plays will be studied and defenses will get pointers on rushing the passer and blocking holes through which the quick opening T formation usually explodes.

The Bulldog pass defense will be much better against Austin High. It was over this defense Yaleta scored most of its points in the opening game.

Few Changes Expected

There is little chance the line will be shifted any for Friday night's home opener. Bob Woods and Al Baze have the tackle spots well in hand. Stan Coker and John Steinberger will back them up.

Dalton Byerley and Jackie Mobley still look great at guards. Pete English and Jerry Culp can spell them when needed.

Two sets of ends—both showing fine improvement—give the Bulldogs depth there. Harrie Smith and Duane Bush work together and Bob Evans and Graham Mackey are partners. However, any combination of the four may be used.

Jimmy O'Neal is the first string center and a good defensive man at linebacker. Bob Burks is more than capable there also.

The backfield probably will change frequently in the tilt.

Coaches say with the progress made last week and with that expected this week, the Bulldogs should be ready.

Indians in the United States were given citizenship on June 2, 1921.

Bulldog Boosters To See Grid Film

The Midland Bulldog Booster Club will see a movie of the Midland-Yaleta football game at the regular weekly meeting in the Junior High School auditorium at 8 p. m. Tuesday.

Last week's meeting was postponed due to conflict with several other activities.

Members of the coaching staff will discuss the Yaleta game following the showing of the film.

All Booster Club members are urged to attend.

BECHTOL RETURNS

J. D. Bechtol, director of the Texas Employment Office in Midland, recently returned from Amarillo, where he underwent treatment at a veteran's hospital.

TO COLLEGE

Miss Norma Jean Hubbard, daughter of Mr. and Mrs. O. J. Hubbard of Midland, will leave Monday for Columbia, Mo., where she will enroll in Christian College as a senior student.

Quality is the Architect of Custom Excellence . . .

Individual measurements and painstaking tailoring by needle craftsmen assure you of a perfectly fitting garment.

An exclusive selection of fine imported and domestic fabrics in woollens and worsteds to choose from will make your wardrobe distinctive and impressive.

Comfort Extraordinary!

Flexible, cushioned ease in the "Baron 64"

You actually walk on compressed air, for there's a layer of Airfilm material—sealed air cells—beneath the insole. This layer cushions every step—keeps insole even, providing relief for callused feet. The handsome, glove-like upper of supple calfskin has a seamless forepart. Come in—try on the smart "Baron 64".

Dirt, Squirt and Quirt

— FARM, DAIRY AND RANCH NEWS —

Ranchers are smiling and farmers are frowning as a result of last week's prolonged wet spell which drenched farm and ranch lands throughout this section. The moisture, although not heavy, was fairly general over the Midland territory, benefitting greatly the range lands but delaying the picking of the bumper cotton crop.

It was one of the longest wet spells for September on record here, but the sun came out bright Friday and pickers and pullers likely will be in the fields in great numbers this week.

Ranchers say the rainfall will bring new grass and strengthen the old, more or less assuring excellent winter conditions in this vicinity.

The cotton, according to some farm owners, was not particularly damaged by the moisture, the plants being high enough and strong enough to keep the cotton off the ground. But the harvesting was delayed a full week, and the pickers and pullers went without pay last week.

Members of the Midland County Sheriff's Posse, who were hosts to other West Texas possemen at a gathering here Saturday will participate in the big parade opening the annual Martin County Fair at Stanton Friday afternoon.

The sale of the old Winfield Scott Ranch near Fort Worth by Wyatt C. Hedrick, prominent Texas architect who owns extensive business properties in Midland, was announced this weekend in Fort Worth. George W. Sealing and Sons, long-time Fort Worth residents, purchased the Hedrick ranch, the largest single tract of land in the Fort Worth area.

The price reportedly was in excess of \$800,000. Although not officially announced, the deal was said to cover the entire property of more than 12,000 acres.

Hedrick paid \$600,000 for the ranch in 1948. He operated the ranch for two years under lease before buying it. The ranch is partly in Tarrant, Johnson and Parker Counties, and formerly was known as the Scotland Ranch.

Carl Smith, who formerly owned and operated a stock farm in Midland County, is here from Hopkins County visiting relatives and friends. Carl moved to Northeast Texas six or seven years ago. He said farm and ranch conditions in Hopkins and adjacent counties are excellent.

Stanley Frank, publisher of the West Texas Livestock Weekly at San Angelo, was a Midland visitor Friday night and Saturday. Stan, a former conductor of this column while serving as farm and ranch editor of The Reporter-Telegram, was enroute back to Angelo after touring the Clovis, N. M., country. He reports heavy rainfall all the way to Clovis. Range conditions in West Texas and New Mexico are the best in years, he stated.

Underground water so pure it is used in automobile batteries as a substitute for distilled water is West Texas' newest boast.

The pure and highly potable water was discovered early this year in a huge underground reservoir beneath U. S. Highway 90 in the valley between the Van Horn and Davis Mountains some 20 miles south of Van Horn.

Wells were driven and the water now is being used to irrigate a rich valley land, with an initial cotton crop averaging from one and one-half to two bales of premium staple cotton indicated for this fall. This same water fresh from the pumps, is used in the batteries of the farm machinery.

Cotton on this development, known as the Van Horn Irrigated Farms, is the first ever grown in Culberson County, which is the only remaining county in Texas which had not yet produced a bale of cotton.

George Glass, Jr., of Midland, one of the nation's top junior skeet shooters, is attending New Mexico Military Institute at Roswell. His dad says the New Mexico school does not go in for young George's favorite sport, but he is expected to keep blasting away in sports over the country. It is our guess that George, Jr., soon will have skeet shooting established as a major sport at NMMI.

The McCamey Chamber of Commerce has launched a campaign to raise \$6,000 to finance the fencing of right-of-way on the proposed road to the Pecos County farming district eight miles south of McCamey. McCamey funds also will be used to pay for construction of that portion of the road in Crockett County.

Arrangements for right-of-way across the Homer Tippet Ranch were completed last week at a conference between Tippet and members of the Commissioners Courts of Upton, Crockett and Pecos Counties at Rankin.

City and Chamber of Commerce officials of McCamey also attended the session, as did 16 men who operate farms in the area.

An agreement also was reached by Tippet and the Pecos County Commissioners concerning right-of-way in that county to connect the road leading to McCamey to the cotton gin located in the central part of the farm district.

Midland County has been invited to have an agricultural exhibit at the 32nd Annual Panhandle South Plains Fair to be held at Lubbock, September 26-October 1. The invitation was received by County Agent Charles Green. Leaders say the Lubbock Fair this year will be the largest in history.

Thirty farmlands located along the Pecos River last week got long-needed moisture, according to C. J. (Andy) Anderson, manager of the Red Bluff Water Power Control District.

Rains on the huge lake and on Delaware Creek and Black River brought several feet of water to the lake.

Charles Champion, Midland County PMA supervisor, announced Saturday that farmers will be paid 25 cents per acre for letting sorghum grain stalks stand.

To be eligible for the payment, the stalks must be at least 10 inches high, not grazed and left on the land until Jan. 1, 1950.

The idea behind the program is prevention of land erosion by the wind.

Farmers interested in the program should contact the PMA office, located on the second floor of the Midland County Courthouse and make application soon.

A meeting of the Midland County ACA Committee will be held in the PMA office here Tuesday to discuss the federal cotton program and cottonseed price support.

Hubert Martin of Odessa, who resigned during the Summer as Midland County agent to become agricultural agent of Ector, Crane and Andrews Counties, was a Midland visitor a few days ago. Martin said he is getting established in his new position and is making progress in his farm-ranch program in each of the three counties.

A thousand women are expected to attend the annual meeting of the Texas Home Demonstration Association at Mineral Wells, Wednesday through Friday. The three-day meeting is planned around the theme "Today's Home Builds Tomorrow's World."

Mrs. R. L. Campbell, Wildorado, president of the association, will preside over the general sessions, and other members of the board of directors will conduct workshops on the association's plan of work—results in the counties, and recommendations for the new year's program.

H. M. Fitzhugh, agricultural agent down Garden City way, reports some Glasscock County lambs are being delivered but that the big movement will come about October 1. Sheepmen in some instances are said to be holding for better prices.

Catalogues and premium lists for the Fall Fair and Festival, to be held at Pecos, September 29-October 1, have been mailed to interested persons.

A number of interesting educational exhibits will be presented this year, among them being an exhibit of monies of the world furnished by the Chase National Bank of New York City and sponsored by the Security State Bank of Pecos. The State Department of Public Safety will have its exhibit on traffic safety education on display. There will be fireworks at the fair each night.

The big parade will be presented at 10 a. m. Saturday, October 1. The first section of the Kid's Rodeo will be started at 2 p. m., with second section slated the following afternoon.

The farmer's share of the consumer's food dollar dropped to 48 cents in June, 1949, according to official reports. This is the first time in seven years that the farmer's share has gone below 49 cents. A year ago farmers received 52 cents. The record high was 55 cents in January, 1948.

The trend still is downward, the report continues, resulting from two main causes: lower retail prices and stabilized marketing costs.

The record low margin received by farmers was in 1932 when their share was 32 cents, according to a bulletin issued by the Production and Marketing Administration.

Important changes affecting cotton are provided in the amendment to the Agriculture Adjustment Act of 1938, approved by the President on August 29, according to information received here from E. F. Vance, chairman of the State Production and Marketing Administration Committee.

Major provisions of the new amendment are:

Marketing quotas must be proclaimed by October 15 where the total supply merely exceeds the normal supply (instead of by more than seven percent, as under the old law). The national acreage allotment in 1950 may not be less than 21,000,000 acres, but after that the allotment may be adjusted to produce a national quota as low as

the smaller of 10,000,000 bales or 1,000,000 bales less than the previous year's domestic consumption, plus exports.

Under the old law, the allotment could not fall below about 27,000,000 acres, because of minimum county and farm allotments. The only diversion from cotton acreage recognized under the new law is cotton reduction because of increased plantings of war crops during 1945, 1946 and 1947.

Acreage Trends

The new legislation also provides for adjustment for trends in acreage, for basing allotments on yearly averages, and for increasing acreage reserved for states and setting up reserves for counties. It makes no provision to take care of unused county allotments, and gives the Secretary of Agriculture authority to put long-staple cotton under quotas whenever the total supply will exceed the normal supply by more than eight per cent.

It also redefines a farm marketing quota to be the actual production of the acreage planted to cotton on the farm less the farm marketing excess, and change the penalty rate on excess marketing to 50 per cent of the cotton parity price as of June 15.

Generally, the farm marketing excess will be the amount by which the total production of the farm exceeds the normal production of the farm's acreage allotment.

WTCC Issues Wool Industry Report

ABILENE—West Texas is in an especially favorable spot to acquire a large part of the wool textile industry expansion and decentralization, according to a survey of the wool and mohair potentialities of the area just issued by the West Texas Chamber of Commerce.

"This region is one of the greatest wool and mohair producing areas of the world," the survey pointed out.

"Although decentralization in wool manufacturing has been slow, mill owners have become nervous and it appears the industry will move from the northeastern states."

Changing conditions, manufacturing costs and taxes are given as three of the basic reasons why the industry expects to come nearer the source of supply. Texas produces 25 per cent of all wool and 90 per cent of the mohair produced in the United States.

This survey has been completed by the research committee of the Texas Technological College at Lubbock, under the sponsorship of the WTCC-Santa Fe committee.

The report is companion to one issued a year ago covering the cotton textile manufacturing potentialities of the area.

"The economy of a region is supported by livestock raising and agriculture in the early stages of development," the survey says. "In the beginning these usually will more than support the population. However, after the population has increased beyond a certain figure, a purely agricultural economy will not support it to the best advantage."

"Wool is an important resource to any section where it is produced. This is especially true in West Texas."

The report then gives the history of the textile industry in the United States, tracing it to the few woolen mills which have moved to Texas in recent years. It also points to the development of the clothing manufacture with garment factories in more than a dozen West Texas communities.

Bodies Of Three Victims Remain In Giant Bomber's Hull

PORT WORTH—(AP)—Bodies of three of the five men who died when a B-36 plunged into Lake Worth remained Saturday night in the submerged hull of the giant bomber.

M. R. Best of Arlington, Navy-trained diver who has worked two days among the jagged wreckage 25 feet or more under water, came ashore late Saturday with his hands cut and bleeding.

"I'll have to rest and try it again in the morning," he told Lt. Col. Marvin Hammack, who is directing the salvage work.

Best said Dave Overbrook, also trained in diving, will go down with him Sunday to try to free the bodies of the airmen who were trapped in the ship's crash on a takeoff from Carswell Air Force Base Thursday night.

T/Sgt. William G. Seymour of Fort Worth died in the Carswell Air Force Base Hospital shortly after the crash, the first fatal accident involving a B-36.

Friday the body of Maj. Joseph L. Lemming, Jr., of Dayton, Ohio, was brought to the surface.

Still in the plane are the bodies of Capt. Harold Kernode, 30, spare pilot, of Hampton-Sydney, Va.; Lt. Herman S. Styles, Jr., Lynch, Ky.; and M/Sgt. John G. Stanko, Appleton, Pa.

Contracts Let For Two College Buildings

AUSTIN—(AP)—University of Texas regents Saturday awarded a contract for construction of two new buildings on the campus of Texas Western College at El Paso.

Dutch Hohn Directs LCRA's Soil Conservation Program

By TRAXEL STEVENS

AUSTIN—(AP)—Wasting valuable topsoil in the face of a rising population is like burning the candle at both ends.

That's the principal of which Caesar (Dutch) Hohn, ex-farmer, teacher, insurance salesman and administrator, directs the lower Colorado River Authority's unique soil conservation demonstration program.

The program was started two years ago by the LCRA's 10-county Central Texas area.

The biggest accomplishment of the program, Hohn figures, is its awakening of community interest in saving topsoil which annually, like the ships, goes down to sea.

He explains that on a two per cent slope, with a 35-inch annual rainfall, 20 times as much plant food will wash out of the soil in one year as the plants will take up.

"That's criminal," he said.

The trouble is that many farmers don't know what help is available to them from the government, or they don't know how to use to best advantage what they get, he believes.

No Free Work

That's where the LCRA program comes in. It does no actual technical work. It does nothing free of charge.

"What we do is try to make it possible for the Federal farm agencies in the field to do a better job by furnishing them the facilities they need for what they are trying to teach the farmers," Hohn said.

As an example, the AAA has been furnishing fertilizer to farmers for years. On numerous occasions, Hohn said, he has found the fertilizer getting hard in the farmer's shed, the sacks rotting.

The reason: No machinery available for distributing it.

So among the \$138,484 worth of machinery bought for the LCRA program were 30 commercial fertilizer distributors.

Last year the distributors were used on 783 farms. They put out 5,820,770 pounds of fertilizer on 23,320 acres.

That is a small percentage of the land on the 21,314 farms in the area, but Hohn pointed out that it is not their intention to furnish enough equipment to help every farmer do all his farm work. The teaching and demonstration idea is uppermost.

The conservation program is administered in each county by a county council, elected by all the farmers who care to vote. The council sets up a committee and custodians to handle the machinery in strategic sections of the county. One reason the LCRA is interested in soil conservation is because the legislature directed it to be when the agency was created.

Hohn insists on keeping that interest more than incidental. Saying that soil is a job which must be done, he said. Success will mean a saving of millions of dollars to the nation's farm economy, he believes, through more tillable land and greater production.

Those Dirty Tales About Pigs Found To Be Untrue

AP Newsfeatures

RALEIGH, N. C.—Mr. Farmer, don't believe those dirty stories about your pigs.

Mud-slinging rumors to the contrary, your pigs are by nature the cleanest—and the smartest animals on your farm.

Our four-footed friends in certain intelligence tests have outsmarted even chimpanzees, brightest members of the ape family.

Pigs can be housebroken easily, and can be trained to hunt as well as dogs.

What's more, scientists test baby foods on baby pigs! The latter have a digestive system more nearly like that of humans than any other common animal.

This is just a sampling of the many true facts about pigs, a breed of patient creatures that has been relegated by man to a life of mud and ignorance.

Author by Raisers

The dirty stories about pigs have been authored by the hog raisers themselves. Uninformed and misguided, they have made the picture of a clean and gentlemanly pig a rare sight indeed.

Let an expert explain—Dr. H. A. Stewart, head of animal breeding and swine research at North Carolina State College here in Raleigh.

"Pigs have become associated with filth only because we don't give them a chance to get away from it," explained Dr. Stewart. "With the temperature hovering around 95 degrees on hot Summer day, pigs just naturally scoot for the nearest waterhole. Since these often-times aren't provided, the normally clean-conscious pigs swallow filth and collapse into the closest mud wallow."

Pigs don't have sweat glands like humans, he said. Instead, they have a layer of fat under the skin. For this reason, pigs can cool their bodies only by radiation and evaporation of moisture. Because of the fat layer, hogs like the temperature in the low 80's of humans, of course, prefer the high 80's or low 70's.

Emily Post would be needed to teach some pigs real table manners, but any farmer can make respectable eaters out of his pigs.

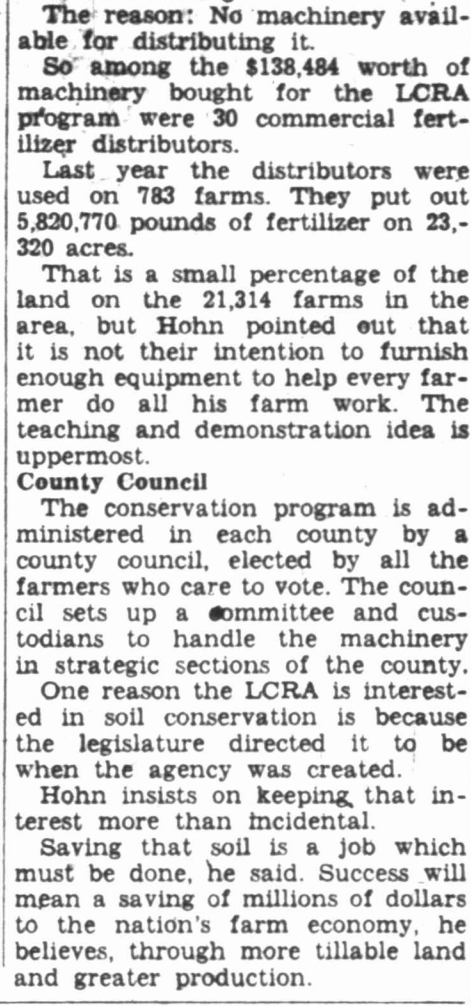

Pigs Not Gluttonous

Pigs don't have gluttonous appetites. Too many farmers fail to feed their pigs enough, not realizing that these animals require plenty of food because they grow proportionally faster than any other common animal. A sort of psychological trick is created in pigs by this action, giving them the impression that there isn't going to be enough to go around. That is why they dive for the feed trough when the crop comes around.

When self-feeders are provided and less competition is present, pigs never show a ravenous appetite.

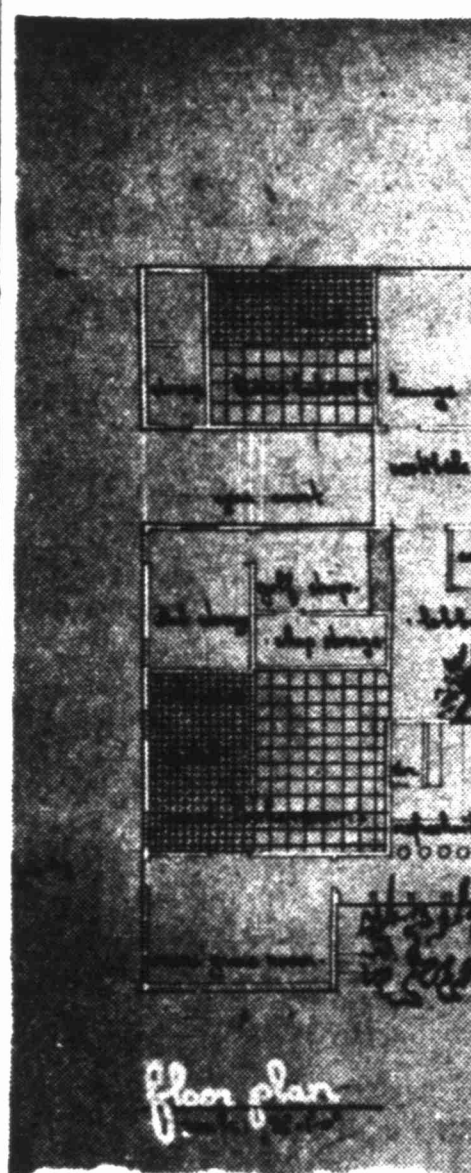

Ranchland Hill Country Club Officials

Ranchland Hill Country Club officials discuss the golf course with Graham Ross, Dallas professional, at extreme right. Ross toured the course on opening day last month and was highly pleased with it. Left to right are Donk Roberts, club president, H. L. Winkler and Walter Thompson, co-operators of the club, and Ross.

Ranchland Hill Country Club House

The floor plan of the clubhouse at the new Ranchland Hill Country Club, north of Midland, shows the strictly modern and elaborate design of the building's spacious and well-planned interior. The house contains a large lounge, golf shop, men's and women's locker rooms, game room, bar and covered terrace. The attractive furnishings harmonize perfectly with the surroundings. The club Sunday is launching an intensive drive for new members, and citizens are invited to visit the new clubhouse and golf course.

Tall, Tough Texan No Match For Aged Liquor Store Clerk

LONG BEACH, CALIF.—(AP)—An elderly liquor store clerk made it rough for a tall and husky young Texan who wanted a good steak dinner.

Police said Murray James Killion, 18, of Goose Creek, Texas, and a companion tried Friday to hold up James Hughes, 64, the clerk.

Hughes seized Killion and tossed him over his shoulder. Killion's gun discharged, shattering the Texan's left thigh. The other man fled.

Killion, who said he and his companion planned the robbery to buy "a good steak dinner," was booked on suspicion of armed robbery.

NOMINATION APPROVED

WASHINGTON—(AP)—Nomination of George R. Pace as postmaster at Winters, Texas, has been approved by the Senate.

A cubic foot of gold weighs about 1,200 pounds.

Vegetarians Note

Pretty Betty Sorenson is "Princess of Vegetables" in the Court of Agriculture at the Los Angeles County Fair, Pomona, Calif. Here, Princess Betty relaxes among some of her subjects—part of the \$277,000,000 worth of crops produced in Los Angeles County this year.

Pretty Betty Sorenson is "Princess of Vegetables" in the Court of Agriculture at the Los Angeles County Fair, Pomona, Calif. Here, Princess Betty relaxes among some of her subjects—part of the \$277,000,000 worth of crops produced in Los Angeles County this year.

New Ranchland Hill Country Club Boasts Fine Clubhouse

The Ranchland Hill Country Club, which opened August 27, is launching an intensive campaign to interest more Midlanders in affiliating with the new club which boasts a fine golf course, an elaborate clubhouse and which offers many attractions for women. The clubhouse lounge is open for bridge and dancing each night and special dances are held Saturday nights.

The dances are for members and guests and the closing hour is 1 a. m. Closing hours other nights are 9 p. m. on Monday and 11 p. m. Tuesday through Friday and Sunday.

The clubhouse, modern in design and decoration, contains a lounge, golf shop, men's and women's locker rooms, game room, bar and covered terrace. Walls are plaster and the floors, except in the bar, locker rooms and terrace, are hardwood.

Attractive Furnishings

The largest room in the building is the lounge, which has matching walls and venetian blinds of light green. It is furnished in Davis oak and has a large divan, a love seat and several chairs as well as two large lamp tables and several smaller, octagon-shaped ones. The lamps are modern in design, with black bases. Black, gray, red and chartreuse were used in decorating this room.

The walls and blinds of the bar are the same color as those in the lounge. The bar itself is redwood with a red plastic top trimmed in chrome. The floor is flagstone.

Covered Terrace

Eggshell is used for the walls and blinds of the card room and the card tables and the chairs are red and black. The covered terrace has walls and ceiling of redwood and the floor is green block cement.

The club plans to add a kitchen, dining room, ladies' card room and lounge, a ballroom and a swimming pool later.

Fighter Pilot Dies In West Texas Crash

SAN ANGELO—(AP)—A California Air National Guard pilot found dead Friday in the wreckage of his fighter plane was identified Saturday as First Lt. Wilbur L. Floyd, 26, Alameda, Calif.

The P-51 fighter, missing since Thursday night on a flight from Barksdale Air Force Base at Shreveport, La., to Biggs Air Force Base at El Paso, was found on a lonely ranch 35 miles northwest of here.

SUGGESTS SURPLUS BUILDINGS FOR HOSPITALS

AUSTIN—(AP)—Use of surplus government buildings to help provide for state hospital needs was suggested Saturday by Gov. Allan Shivers.

If fireproof buildings are available, he said, they might be utilized and thus to some degree relieve the need for new funds.

BREAK-IN REPORTED

A storage house at the site of Memorial Hospital here was broken into Friday night, according to police report. The total loss had not been determined late Saturday.

Advertise or be forgotten.

SPOT NEWS

TALK IS CHEAP!

—but what really counts are the results! We could talk to you all day about our lightning-fast, scientific dry cleaning service—but until you send your soiled and creased clothes to us and see what fine results we produce... our talk is to no avail.

Although he was outweighed more than 100 to one, the praying mantis about killed his enemy, the bat, with one well-placed bite to the throat. Many spectators watched the life and death struggle on a downtown street in Columbus, Ohio.

Ship Fire—

(Continued From Page One)

dock, sliding down ropes or leaping into the water.

Peter Sage of Hull, Quebec, said about 100 reached safety by crawling onto the Cayuga—another Canada Steamship Lines vessel which was tied up close to the wharf—until the Cayuga also caught fire and had to be pulled away.

But scores were trapped in the bunkers, especially some of those late to waken and in the corridors or lounges.

Eighteen fire engines and two fireboats went to the scene at the foot of Bay Street. It was five hours before the flames were quenched. In the smoke and steam the firemen began with blow torches, shovels and pikepoles the task of finding the victims and bringing them out.

Burned, Broken Bodies

Burned and broken bodies were wrapped in tarpaulins and carried out.

The ship, with her name almost at pier level, went down at the stern, then settled by the bow. Her bridge and other parts of the wooden superstructure of her two upper decks were gone. Her forward masts were standing.

Some passengers said they heard no alarm sounded. Others said the ship's fire bell was rung continuously.

The ship's master, Capt. William Taylor of Sarnia, Ontario, at first manned a hose and then raced along the ship, smashing in doors and windows to awaken the passengers. He leaped over the bow as flames closed in on him.

The only Great Lakes ship in which more lives were lost was in 1847, when the steamship Phoenix burned in Lake Michigan with 247 dead.

Key Republicans Await Signal On Court Nomination

WASHINGTON (AP)—Key Republicans hadn't made up their minds Saturday whether to fight President Truman's appointment of Judge Sherman Minton to the supreme court.

Senator Wherry of Nebraska, the GOP floor leader, told a reporter it will be up to Senator Jenner of Indiana to signal whether party members pitch in to oppose a former Indiana Senator who took a leading part in President Roosevelt's ill-starred effort to revamp the Supreme Court in 1937.

Jenner told a reporter he hasn't decided whether he will fight Minton, who served as senator from 1935 until 1940, when he was defeated for reelection.

Wherry said that since Jenner is a member of Judiciary committee and Minton is from the same State, other Republicans are looking to Jenner for directions on the appointment.

In any event, Democrats remained confident they can win approval of the nomination, to fill the vacancy created by the death of Justice Wiley Rutledge.

Yugoslavs Reported Spreading Communist Propaganda In U. S. A.

WASHINGTON (AP)—Testimony that "official representatives" of Yugoslavia have aided directly Communist propaganda efforts here was made public Saturday night by a Senate Judiciary subcommittee.

The witness was Dr. Slobodan M. Draskovich, a refugee from Tito's Communist regime in Yugoslavia. Now living in New York City, he formerly was an economics professor at the University of Belgrade.

The committee, holding hearings on a bill to raise new barriers against the "direct help" to Communist propaganda in America.

Dr. Draskovich told the committee representatives from Yugoslavia "did not respect" the rule that they were supposed not to meddle in internal politics or make Communist propaganda.

They have taken part in many Communist-led "celebrations" organized among Slavic groups, he said, and their speeches there were of "direct help" to Communist propaganda in America.

Two Confess—

(Continued From Page One)

Palfy made public confessions before the court, speaking with the same clarity Rajk displayed Friday. Brankov pleaded "partly guilty," Palfy said "guilty."

The paunchy general, 40, testified he had maneuvered Hungarian army affairs in an effort to support the plot. He said he hoped the revolt would lead to creation of a "Western type capitalist Democracy."

Supporting the government's charges that Britain and the United States were involved, Brankov said all the secret information obtained by Yugoslavians from Hungarian agents was turned over to the U. S. Legation here and leading Yugoslavians also exchanged information with their British counterparts.

Farmer Tells Tale Of Robbery, Beating By Masked, Armed Men

DENTON (AP)—Farmer W. A. Fouts told officers masked, armed men invaded his home Friday night, bound him, his wife and son, and made off with \$220.

The home is five miles east of Lewisville. The 1-year-old Fouts said there were four or five men. He said he was pistol-whipped across the face, his hands were stomped on, and he was prodded in the stomach with an ice pick.

While this was happening his 60-year-old wife and son, Thomas Clinton, 38, were helpless, bound hand and foot, their eyes covered with adhesive tape.

Sheriff W. Ones Hodges said Saturday clues to the robbery were slender: that the robbers were careful to conceal their identity. Texas Ranger Lewis Rigler said the case resembled six or seven other unsolved robberies he is working on.

After ransacking the frame farm house, said Fouts, one of the men gave Mrs. Fouts a knife and told her to cut the bonds after giving them time to get away. She freed herself and her husband and son. The three drove to Lewisville, where Fouts called the Denton sheriff's department.

Call From Outside

Fouts said this happened: As he and his wife sat at home about 8 p.m., they heard a man call from outside. The man said a car had broken down, and asked for help.

Fouts started to the door. But a masked man burst through it, stuck a gun in his ribs, and told him it was a holdup. The man told Fouts and his wife to face the wall. Then other masked men came into the room.

Two of them were binding Mrs. Fouts with adhesive tape when the son stepped into the front room from his own room. The masked men also bound his feet and hands, taped his eyes, and threw him across a bed.

Intruder Opens Safe

Mrs. Fouts was told to sit or lie down on the floor.

Fouts said the only man he saw plainly was a tall, thin man, the first to come in. That man did most of the talking. He asked Fouts where the safe was and directed the men to the son's room, where the safe was in a corner.

The farmer was told to open the safe. He said he was so nervous he kept missing the combination. Another man started to pound open the safe with a sledgehammer. But they got the combination from Fouts and the thin man opened it, taking the \$220.

The man didn't seem satisfied and asked Fouts where there was more money. They started beating, stomping and jabbing him. When he wouldn't talk they bound him and left him with his wife and son while they ransacked the house.

Atlantic Pact—

(Continued From Page One)

most powerful single agency for overall defense planning. It will be composed of top military men of the United States, Britain and France.

To Meet October 5

The Defense Committee, of which Secretary of Defense Louis Johnson will be the American member, will meet here October 5 to establish the military planning groups which the council authorized Saturday.

The principal Military Committee is to be made up of the chiefs of staff of the Atlantic powers, the "standing group" and five "regional planning groups."

The regional planning groups will work out joint defense plans for (1) Northern Europe, (2) Western Europe, (3) Southern Europe and the Western Mediterranean, (4) North America and (5) the North Atlantic Ocean area.

In each case the group will be composed of members of the Atlantic area having primary responsibility for regional defense, such as Canada and the United States have in North America. In addition other interested nations may take an active part in the defense planning.

The official communiqué disclosed that the United States will take a hand in all the regions.

Coal Strike—

(Continued From Page One)

is an indirect result of the industry-union contract lapse which idled the diggers earlier this year.

Lewis agreed then to allow his men to continue producing coal pending settlement of a wrangle over unspecified demands by the union.

Some coal firms refused to continue paying the 20-cent-a-ton royalty into the UMW's welfare fund because of the contract termination. This, the trustees of the fund said, caused a serious depletion in its finances.

The trustees, led by Lewis, voted Friday to suspend pensions and other fund-financed benefits.

HOUSES FOR SALE

75 HOUSES FOR SALE

65,000 Acres

45,000 acres rich farm land, volcanic ash, the kind that produces an average of over 400 bushels potatoes per acre. Big crop of wheat, oats, barley, and the best summer vegetable country in the U. S. for such things as cabbage, broccoli, cauliflower, carrots, lettuce and potatoes. Great stock farming country. The land not in cultivation and under irrigation is the same kind this is. Sells from \$200 to \$400 per acre, if you can find any to buy. The reason this land is cheap is that just recently it was discovered it is all underlaid with shallow water. Price \$15.00 per acre. I can secure you a loan of at least \$750 per acre. By putting a few wells on this particular tract you can pump from 2,000 to 4,500 gallons a minute, based on the size of pump, well and engine. 1,000 gallons a minute will irrigate a quarter section successfully. 45,000 acres of this land can be sold in quarter or half section tracts by spending not to exceed \$50.00 per acre to put in cultivation and under irrigation and the necessary leveling. If somebody will buy this land for me under a division of profits, I can make him at least \$1,500,000 within two years, above 6%, I am the man who helped put south-west and west Texas on the map. I am promoting capital to build a modern town near this land. Has a railroad through it for over 10 miles; all-weather road for 10 to 12 miles north and south, and several all-weather roads in various parts. Near the center of this tract there is a well which produces 4,500 gallons a minute. Very best quality water. This is located in a fisherman's and hunter's paradise. One of the best summer climates in the U. S. Winters are cold, but dry cold; very little wind. I like the climate better than any part of the north-central states or even the Panhandle of Texas. I have sold millions of dollars worth of land to satisfied customers. I am the man who put Nueces County, Corpus Christi and Bishop on the map on a large scale. This is the best colonial property I have ever had. I will be glad to pay anyone's expenses to look at this land. If not as good as I say, with 10% down, I will refund your money. Call or wire me at Capitol Hotel, Amarillo. Or if you get this land, you will have to hurry.

Tea Reveals Engagement

Beverly Layman

Beverly Layman To Wed David Holster

Close friends of Beverly Layman and David Holster were invited to a tea Saturday afternoon in the home of Mrs. Owen Cochran, 521 West Wall Street, to hear the announcement of their engagement and plans for the wedding in Drumwright, Okla., on November 19.

Miss Layman is the daughter of Mr. and Mrs. E. L. Layman of Drumwright and Holster is the son of Mrs. Roland A. Gray, 600 North A Street. The couple will live in Midland after the marriage.

Guests at the tea were greeted by Mrs. Cochran, Miss Layman and Mrs. Gray. Mrs. Russell Holster poured tea and Anne Tolbert served cake at a table covered in an imported drawn-cloth.

At one end of the table was the silver tea service; at the other, a cake laced in gold with the announcement, "Beverly and David."

November 19," inscribed on the top. Gold and bronze chrysanthemums circled the cake, and yellow tapers in crystal holders lighted the table.

Miss Layman wore a corsage of large bronze chrysanthemums, and house party members had corsages of pom-pom mums.

Guests included Bobbie Jean Perry, Rosemary Bohl, Joyce Crawford, Barbara Huyck, Marguerite Watkins, Mary K. McDade, Ruby Millard, Lila Stewart, Louise Cox, Mrs. Dick Cowden, Mrs. E. E. Lindeblad, Mrs. L. C. Lindblad, Mrs. R. R. Estes, Mrs. Evelyn McJear, Mrs. J. B. Koenig, Mrs. Charles Patterson, Mrs. C. R. Beal, Mrs. J. W. Skrabanek, Mrs. John Moffet, Mrs. D. R. Watson, Mrs. O. W. Wink, Mrs. John Fred Mitchell, Mrs. Paul Filson, Mrs. Henry Butler, Mrs. Jack Walton, Mrs. Joe Norman, Mrs. Frank Smith and Mrs. J. P. Marchioni.

Coffee Will Open Program For Modern Study Club Wednesday

"Looking Ahead" will be the program subject when the Modern Study Club opens a new year Wednesday morning, Mrs. F. R. Schenck, starting the second year of her term as president, will present objectives for the club year and Mrs. R. E. Morgan will outline briefly the course of study.

Mrs. Morgan is chairman of the yearbook committee which planned the study course on the theme, "Thoughts for Our Times," and prepared the yearbook which are just off the press. Mrs. C. C. Keith and Mrs. Ed Shaky are members of her committee.

Mrs. W. C. Cartwright and Mrs. Keith will be hostesses for the opening coffee Wednesday in Mrs. Cartwright's home.

The year's program, which will be launched at this meeting, will be presented with an eye to variety as well as subject matter for interest. Guest speakers and group discussions will vary the pattern of talks by members. The outline follows:

October 5—Subject, "The Rights of Others." A forum discussion of the International Declaration of Human Rights" will be presented by

Mrs. J. W. Carroll, Mrs. Carl Westlund, Mrs. Shaky and Mrs. Ken-neth Slough. Mrs. Al Boring will be hostess.

October 19—"The Making of History." Mrs. Earl A. Johnson will review the book, "A Little Democracy Is a Dangerous Thing," by Charles W. Ferguson. Mrs. W. S. Nelson will be leader and Mrs. Morgan hostess.

November 2—"Let Freedom Ring." Mrs. Lamar Hunt, Mrs. Nelson, Mrs. G. C. Hughes and Mrs. Keith will take part in a symposium on "New Threats to American Freedom."

Mrs. Harrie A. Smith will be hostess. To Entertain Woman's Club.

The club will entertain the Midland Woman's Club on November 10, with a program observing American Art Week. Mrs. L. E. Dudley of Athens, fine arts chairman for the Texas Federation of Women's Clubs, will be the speaker.

Members of the Civic Music Club will assist on the program, and Mrs. Smith will read poems.

November 16—"What Others Say." Mrs. Morgan will be leader and her mother, Mrs. Judd A. Detterick of Lee Cruces, N. M., president of the New Mexico Federation of Women's Clubs, will be guest.

Birthday Party Is Given Small Guest

A small visitor in Midland, Cynthia LaRue Boyd, was honored with a birthday party Saturday afternoon at the home of her grandparents, Mr. and Mrs. Clyde Stapleton, 1107 West College Street.

She and her mother, Mrs. Robert W. Boyd, are visiting here enroute from their home in Sacramento, Calif., to join her father, Captain Boyd, at Tyndall Air Force Base in Florida. The birthday was Cynthia's second.

Mrs. Boyd and Doris LaRue Stapleton assisted Mrs. Stapleton in entertaining the party guests on the lawn. Snapshots and movies of the group were taken as they played games and were served refreshments including a birthday cake in the shape of a rabbit.

Pencils in the shape of golf clubs and pads of colored paper were given the children to draw pictures, and favors were balloons and alphabet candy.

Present were Betty Jo and Tommy Moseley, Brooks and Bill Baker, Gary Dee Howard, Wayne, Donna Lee and Linda Gayle Dickerson, and their mothers, Mrs. J. H. Moseley, Mrs. M. S. Dickerson, Mrs. Glyn Howard and Mrs. R. R. Baker.

Tava Wilcox and Una Elliott announce the opening of American Dresden Shop, 1201 W. College Avenue, Monday, September 18. Figurines, Art Supplies, Visitors, Welcome.

Alpine Dahlia Trail Date Is October 7

The Dahlia Trail, held yearly in Alpine, is scheduled this year on October 7. Mrs. C. P. Yaden has announced. Usually held on the last Friday in September, this year's show has been changed to the first Friday in October. Hours are 11 a.m. to 5 p.m.

The Dahlia Trail is sponsored by the Garden Club of Alpine, which invites garden club members and other residents of neighboring cities to visit the display of blooms each Fall. The announcement was sent to the Midland Garden Club.

JONATHAN WALKER HAS PARTY ON BIRTHDAY

Jonathan Walker, son of Dr. and Mrs. H. Glenn Walker, was honored on his tenth birthday Friday with a party in his home, 104 South E Street. Guests were David Leggett, Charlie Rudd, Mike and Walter Dunagan, Gregor Smith, Wesley Hawkins and David Walker.

MRS. HODGE TO SPEAK

Mrs. J. Howard Hodge will go to Lamesa Tuesday to be the speaker to the Senior Delphian Society in the Women's Club of that city. Mrs. Hodge is a board member of the Texas Federation of Women's Clubs and the unopposed candidate for the presidency of the federation.

AAUW Opens Season

The Midland Chapter of the American Association of University Women got off to a "rip-roarin'" start with a ranch style coffee as its Fall Round-Up of new and old members Saturday morning in the back yard of Mrs. H. S. Forgeron's home, 901 Culbert Street.

Benches of boards supported by nail kegs were used for chairs and wood-burned signs pointed the way to registration and refreshment tables. Entering the back yard, guests were "signed up" and then taken across the yard to get "roped-in" at the table where they paid their dues and signed up for the various interest groups.

Coffee was cooked over an open wood fire and served from a large metal pot. Cakes, doughnuts and sandwiches were on a plank table and an old-fashioned dinner bell hanging on the tree behind the table was rung to call the guests to be served.

Name Tags Used So that they might get better acquainted, guests were given name tags with their name and school on them to wear during the party. They were also given booklets explaining the various interest groups of the AAUW.

Greeting guests as they entered were Mrs. L. C. Thomas, acting president, and Mrs. C. L. Davenport. Mrs. Carl Branson printed the name tags and Mrs. Brandon Rea signed up the guests. Mrs. H. E. Davis, Jr., was in charge of the "round-up" and Mrs. Ray Selfert served the coffee and Mrs. Lee B. Park the cakes and sandwiches.

Committees Listed

Mrs. R. F. Carroll is chairman of the social committee and assisting her were Mrs. Park and Mrs. Branson. Mrs. Lloyd Mills was in charge of the hospitality group, and was helped by Mrs. J. V. Hardwick, Mrs. D. W. St. Clair and Mrs. Lambert. Mrs. E. R. Powell was in charge of decorations, assisted by Mrs. Selfert and Mrs. Branson. Mrs. J. W. Carroll was in charge of publicity and she and Marilyn Murray assisted Mrs. Selfert, chairman of the membership committee.

Mrs. W. P. Von Oshinski was in charge of telephoning and was assisted by many new and old members as were others in charge of committees for the party.

The interest-group booklets were made by Mrs. Robert Clark, Mrs. Leslie Brown and Mrs. Branson. Mrs. Mills was in charge of making the name tags.

Study Groups Offered

Study groups offered by the AAUW this year are creative arts, including ceramics, painting and a craft group, all under the direction of Mrs. Robert Clark.

Mrs. Mills was in charge of making the name tags.

Sets October Wedding Date

Mary Jean Webb

Couple To Marry This Fall

Mr. and Mrs. George H. Webb of Dimmitt are announcing the engagement of their daughter, Mary Jean, of Midland, to H. Floyd Copeland of Gainesville, son of Mr. and Mrs. J. D. Copeland of Austin.

The wedding date will be October 29, and the ceremony will be read in the First Methodist Church of Dimmitt by the Rev. Horace Brooks, pastor.

Mrs. A. J. Kemp will be the matron of honor, Anna B. Ellis of San Angelo and Reena Hudson of Odessa the bridesmaids.

Serving as best man will be Robert L. McWhorter of Midland, and the ushers will be James A. Thompson of Royalty and R. Frank Davis of Austin.

A reception in the home of the bride's parents will be held immediately after the ceremony for the families and intimate friends of the couple. A house party of 11, including Mrs. Allan Webb, sister-in-law of the bride, and Mrs. Fred Boehnke, sister of the bridegroom, will assist.

Wedding Trip

The couple plans a honeymoon trip to Monterrey, Mexico, and then will be at home in Gainesville.

Miss Webb has been employed by the Standard Oil Company of Texas in its Midland office for the last 18 months. She was a 1946 graduate of Texas Technological College, where she was selected for two years to be listed in "Who's Who in American Colleges and Universities."

Copeland is a petroleum engineer with the Standard of Texas Company in Gainesville. He received his degree from Texas A&M College in 1948, after serving as a captain of infantry in four years of Army service that included duty in the Pacific area.

Oppenheimer Book Review Set Tuesday

A novel about Bristol, England and the Gold Coast of Africa, "Twilight on the Floods," will be the subject of a review by Evelyn Oppenheimer Tuesday at 10 a.m. in the Tower Theater.

Sponsored by the Midland Women's Club, the review is its chief money-making project of the year. Tickets are being sold through member clubs and at The Book Stall.

"Twilight on the Floods" was written by Marguerite Steen and is a sequel to her 1941 novel, "The

Evelyn Oppenheimer

Sun Is My Undoing." It picks up the Flood family where the previous novel left off and carries them through the 1890's into the 20th century.

Settings in Africa

The principal character is Johnny Flood, grandson of Matt Flood, hero of "Sun," who visits the African Gold Coast and suddenly realizes the cruelty with which his forefathers treated the natives.

Married In Big Spring Church

Mrs. Billy Dan Henshaw

Miss Hill Becomes Mrs. Billy Henshaw

A Midland couple married in Big Spring Saturday evening will be at home at 204 West Hamby Street after a short wedding trip. The bride is the former Nettie Carolyn Hill, daughter of Mr. and Mrs. Reuben Hill of Big Spring, and the bridegroom is Billy Dan Henshaw.

The candlelight ceremony was solemnized in the East Fourth Street Baptist Church at Big Spring with the Rev. J. S. Parks officiating. Mr. Hill gave his daughter in marriage.

She was dressed in a street-length frock of ice blue satin with a fitted bodice, bracelet sleeves and skirt with fullness concentrated at the back. Tiny buttons down the front and on the sleeves trimmed the dress, and she wore a necklace of bronze pearls, a gift of the bridegroom.

Carries Prayer Book

The prayer book she carried was showered with brown caraymus orchids and streamers of white satin ribbon tied in lovers' knots. Her headpiece was a halo of bronze Peruvian lilies.

Her maid of honor, Olene Leonard of Big Spring, wore a dress of pale pink satin with full skirt and fitted bodice with plunging neckline, fastened with self-covered buttons. Her costume accessories were brown.

Bridesmaids were Tommy Ann Hill of Big Spring, aunt of the bride, and Gaila Joyce Lilley of Dimmitt, her cousin. Miss Hill's dress was of grey and Miss Lilley's of aqua satin, both with high collar, bracelet sleeves and skirt with bustle effect.

All the attendants carried colonial bouquets of bronze and yellow China mums.

Billie Doris McClain of Midland

Minuet Club's First Fall Dance Held In American Legion Hall

The Minuet Dance Club opened its season Friday night with a dance in the American Legion Hall. The oldest dance club in Midland, the Minuet has five dances each year.

Autumn flowers were used for decorations and Jack Free and his orchestra furnished the music.

Guests of the group were Mr. and Mrs. R. S. Fields of San Angelo, Mr. and Mrs. A. J. St. of Odessa, Mr. and Mrs. R. E. Stripling and Mr. and Mrs. James Pittman.

Members attending were Mr. and Mrs. George Abell, Mr. and Mrs. Frank Aldrich, Mr. and Mrs. W. Anderson, Mr. and Mrs. R. S. Anderson, Mr. and Mrs. Louis Bartha, Mr. and Mrs. Leo Brady, Mr. and Mrs. Joe Cannon, Mr. and Mrs. Fred Cassidy, Mr. and Mrs. Reese Cleveland, Mr. and Mrs. John Cornwall, Mr. and Mrs. Charles Davis, Mr. and Mrs. R. S. Dewey, Mr. and Mrs. R. I. Dickey, Mr. and Mrs. Ralph Fitting, Mr. and Mrs. John M. Fitzgerald, Mr. and Mrs. Tom Fowler, Mr. and Mrs. Bob Franklin, Mr. and Mrs. Clem E. George.

Mr. and Mrs. Franklin Gifford, Mr. and Mrs. Dick Gile, Mr. and Mrs. Oliver Hag, Mr. and Mrs. R. W. Hammon, Mr. and Mrs. W. H. Hardie, Mr. and Mrs. H. S. Harris, Jr., Mr. and Mrs. W. D. Henderson, Mr. and Mrs. Harvey Herd, Mr. and Mrs. J. M. Hewley, Mr. and Mrs. John M. Hills, Mr. and Mrs. H. C. Hood, Mr. and Mrs. Thornton Howard, Mr. and Mrs. R. L. Hughton, Mr. and Mrs. W. T. Hoy, Mr. and Mrs. H. E. Kaderli, Mr. and Mrs. P. J. Lea, Mr. and Mrs. Alan B. Leeper, Mr. and Mrs. Allan Morassani.

Mr. and Mrs. F. H. McGuigan, Mr. and Mrs. William B. Neely, Mr. and Mrs. W. F. Pennebaker, Mr. and Mrs. L. F. Peterson, Mr. and Mrs. W. H. Pomeroy, Mr. and Mrs. W. H. Pryor, Mr. and Mrs. George D. Putnam, Mr. and Mrs. John Redfern, Mr. and Mrs. Roy Rhodes, Mr. and Mrs. Earl S. Ridge, Mr. and Mrs. V. W. Rogers, Mr. and Mrs. W. T. Schneider, Mr. and Mrs. Eval H. Stone, Mr. and Mrs. W. W. Sundert, Mr. and Mrs. Lane Taylor, Jr.

Gift Tea Is Bridal Courtesy

A gift tea Saturday afternoon was the latest in the party series complimenting Margaret Mims before her marriage next Sunday to Felton Dale Henry of Ballinger. Mrs. O. W. Stice and her daughter, Mrs. H. K. Fair, and Mrs. E. V. Gumm and daughter, Jima, Lov Gumm, were hostesses in the Stice home.

Flowers in bronze and gold tones Miss Mims' choice for her wedding colors, decorated the rooms. The dining table, set against a window, was covered in white satin with gold net overlay. A swag of the net around the top of the table was caught at the corners with rosettes of the material, each centered with a bronze pom-pom mum.

Yellow roses and bronze marigolds made the centerpiece, with three yellow candles on either side. Marigolds in a bronze container on the mantel, bronze pom-pom mums on the coffee table, and other bouquets of the flowers carried the colors through the house.

Many Friends

Miss Mims, wearing a full-skirted jacket dress of blue and silver brocade and a corsage of yellow roses received guests with her mother, Mrs. Percy Mims, and Mrs. Stice. Mrs. Gumm and Miss Gumm. Mrs. Fair was at the guest book where approximately a hundred callers registered.

Mrs. Calvin G. Campbell of Odessa and Mrs. Roy Dahl took turns pouring tea. Mrs. Robert Dry of Odessa and Mrs. P. D. Pederson of North Cowden were in the house party also. Corsages for house party members were of bronze marigolds.

Miss Mims and Mr. Henry are to be married in the First Baptist Church at 5 p.m. next Sunday with the Rev. Fred Henshaw officiating. The bride's brother, James Mims will give her in marriage.

Miss Gumm is to be the maid of honor and Mrs. James Mims the matron of honor. O. B. Freeman of Sweetwater will be best man. Ushers will be the bridegroom's brother, B. C. Henry of Sweetwater, and Gene Hays. Mrs. Joe Mims, organist, will play the wedding music.

Mrs. Marshall recently has moved to Midland from Dallas. Her husband is vice president and general counsel for the Western Company.

Tea To Present New Resident

Invitations have been sent out by Mrs. H. E. Chiles, Jr., Mrs. A. P. Haslip and Mrs. F. J. Feckel for a tea next Friday afternoon in Mrs. Chiles' home, 1212 West Outburst Street, to introduce Mrs. Herbert Marshall.

Mrs. Marshall recently has moved to Midland from Dallas. Her husband is vice president and general counsel for the Western Company.

Asbury WSCS Will Mark Anniversary

The Woman's Society of Christian Service of the Asbury Methodist Church will celebrate its third anniversary with its annual birthday dinner at 1 p.m. Monday in the home of Mrs. C. S. Wyatt, 800 South Westford.

This dinner is an annual event with the group and all members of the church cordially invited to attend.

RETURN FROM CALIFORNIA

Mr. and Mrs. S. H. Gwyn have returned home after a three-month vacation in California. They spent most of the time in Los Angeles visiting their son, W. W. Gwyn, and his family. They also went to San Francisco, Yosemite National Park and spent a month in the San Bernardino Mountains. On their way home they stopped at White Sands National Monument, New Mexico.

Initial Brightens Popular T-Shirts

By ALICIA HART
NEA Staff Writer

The teen-ager's craze to put her initials on everything from caps to socks can be turned loose on any old T-shirt to brighten its outlook for fall.

Even T-shirts cut down from her dad's or brother's can be turned into

This girl adds a new accessory to school suits by adding bright initials to an old cotton T-shirt to snapper-looking tops for school skirts if bright monograms, bought across a trimming store counter, are tucked to the neckline. Nicknames or class numerals may be ticked on the same way.

T-shirts, which are a boon to a girl because they're easily laundered and don't have to be ironed, are as fashionable as they are practical.

Cotton or woolen T-shirts owe their popularity as tops for school skirts this fall to plaids, stripes and solid color tweeds and corduroys.

Another trick a school girl can swing to make a T-shirt or sweater to wear—is to hoist suspenders of striped washable ribbon over each shoulder. These ribbons make smart-up between T-shirts and corduroy or tweed striped "suspenders" matches the color of the skirt.

Here's still another tip for the practical-minded miss: Faded T-shirts can be redyed at home in a simple washbasin operation. Pick for the tinting a new fall color—sage green, camel's hair, orange-red or whatever color blends best with a white plaid skirt.

Career Girls Combine Housework, Exercise

By BETTY CLARKE
AP Newsfeatures Beauty Editor

Career girls who must manage home and family as well as their job usually have little time for exercise. One enterprising young housewife, Amie Strickland, who combines being "Girl Friday" on "Call the Police" radio program with taking care of a growing son and a household, found that exercise must be employed with daily home chores, if she wished to keep her figure lithe and trim.

She makes a game of housework, while rubbing down stair molding, dusting or carpet sweeping. Occasionally she lays aside her mop, lies on the floor and does a bicycle peddle exercise with feet high up in the air. Good for melting pounds off hips and thighs she says.

Try it and see.

Guests In McCamey Home Are Honored

MCCAMEY—Mrs. W. R. McCamey and her son, Mr. W. R. McCamey, Jr., were the hosts for a party given at the McCamey home last night. The party was given in honor of the McCamey family. The party was given in honor of the McCamey family. The party was given in honor of the McCamey family.

Feminine Roles Lead Comedy Scenes Of "My Sister Eileen"

Leading roles in "My Sister Eileen," the comedy which will open Wednesday for a five-day run by the Midland Community Theater, will be played by Dorothy Smith and Billie Love as Ruth and Eileen Sherwood, sisters from Ohio who seek their fortunes in New York.

Ruth, the practical sister, finds herself involved in troubles of her own as she works to become a writer, and also in the experiences of young, blonde and beautiful Eileen, who attracts men of all sorts and ages, including five admirers of the Brazilian navy.

Miss Love, Midland High School senior, has appeared in a number of high school plays but not in previous Community Theater productions. She is the daughter of Mr. and Mrs. W. A. Love, 204 South Main Street, and lived in Oklahoma City and Waco before moving to Midland, collecting records of dead artists is her hobby.

Mrs. Smith's role is the one played by Rosalind Russell in the movie version of "My Sister Eileen." The actress, wife of a Midland lawyer and mother of a four-year-old daughter, has been here in the 1947 Community Theater play, "Guest in the House."

WAC Recruiting Sergeant To Visit Midland Wednesday

Sgt. Evelyn Burrows, WAC and WAF representative from the U. S. Army and U. S. Air Force, will be in Midland Wednesday to interview young women for enlistment in the WAC and WAF.

Parade which the women of yesterday could only dream about become the opportunities of today and the career of tomorrow in the U. S. Army and U. S. Air Force.

A congressional law has opened to women positions of prestige, skill and responsibility in the permanent establishments of these two great services, Sergeant Burrows said.

This means that young women with aptitudes and promise now can make a career of the Regular Army and Air Force, using the best of their abilities in hundreds of types of important jobs.

The young women of the Midland area are invited to contact Sergeant Burrows at the U. S. Army and U. S. Air Force Recruiting Station in the Midland County Courthouse.

May 4, 1907 was the date of the first permanent English settlement in North America.

Farewell Party For John Gantts Given

MCCAMEY—Mr. and Mrs. John Gantt, who are moving to their ranch home twelve miles north of Rankin, were honored Thursday morning with a coffee by Mrs. Fred Gibson in her home.

Gantt is deputy sheriff of Upton County and Mrs. Gantt is a member of the Home Demonstration Club and is superintendent of the Nursery Group of the Methodist Church.

Mr. and Mrs. Gantt were given a coffee table.

Guests were Mrs. H. R. Maxey, Mrs. F. E. Reimers, Mrs. J. L. West, Mrs. R. E. Collins, Mrs. Bill Ramsey, Mr. C. L. Arnold, Mrs. Roy W. Johnson, Mrs. Mollie Yates, Mrs. Cahal Clinton, Mrs. Hal Cooper, Mrs. C. J. Mann, Mrs. J. L. Plumlee, Mrs. H. W. Adams, Mrs. George Brown, Mr. and Mrs. Tom Trimble and Mr. and Mrs. M. F. Dicus.

SHOPPING 'ROUND TOWN .. with BARBARA

Paint Up Your Old Car!

No matter the body job—large or small, PRINGLE BODY SHOP will get out all the bumps and humps and return a perfect job! They'll also do a mirror-like paint job. It will put greater dollar value on your car—and you'll have the pride of possessing a car that looks like new. They have an A-1 group of used cars to show you, also. You'll find some amazing values in late models, including Pontiacs, Mercurys and Plymouths.

Order Pre-Mixed Concrete—

Building or modernizing, call PANNEL BROTHERS, telephone 1787, and have your concrete pre-mixed and delivered right to the building site. This eliminates the mess of mixing concrete on the job. When you order your concrete mixed by a scientific process, you know it is correctly mixed. For building a garage floor, sidewalk, outdoor living room, or a complete new building, Pannel Brothers, 501 South Pecos, will deliver any quantity of pre-mixed concrete. Make your home look spic and span and up goes your property value. You can do it yourself this easy way.

Winterize Your Car—

Check trouble before it checks you. Beat blow-outs by getting rid of those smooth tires. MACK'S CHEVRON SERVICE STATION, Colorado and West Wall, has a complete line of Atlas tires and batteries. A new battery will assure you of a quick take-off when the weather is bad. Give your motor its second wind with a new battery or have the old one recharged. If your wheels shimmy or seem to go in their own way, wheel alignment specialists will put your car's wheels on the right track.

Make It A Party—

If you look at life with laded eye, try bowling tonight at PLAMOR PALACE. Your friends will be glad you thought of it and they'll enjoy it as much as you. Plamor's is the best anywhere. Their equipment is the most modern. There are always plenty of cold drinks at Plamor's refreshment bar. The environment is pleasant. Take your friends there for an evening of fun and exhilarating exercise.

The First Name In Cleaners—

The Hoover Cleaner is preferred to 1 because it gets the deep-down dirt and prolongs the life of your rugs. It picks up lint, threads and dog hair. Your whole house looks brighter because colors stay fresher. You'll like the exclusive Hoover cleaning principle—it beats, as it sweeps, as it cleans. Light, easy-to-use when you use your Hoover with the cleaner. See your Hoover representative, MR. RAY STANLEY, at Midland Hardware, telephone 2900.

"The Haymaker"—

When you meet a number of new "personality" around town, you'll understand why they know that the new shorter hair styles give the girls a complete new personality—a more youthful look. Four-Way hair styling by the AMERICAN BEAUTY SHOP leaves no tags, strings or ragged ends. "The Haymaker" is a new hair style by measured principles of the Four-Way hair cut. Vernon Isbell of The Hair Fashion Council of America, will be at The American Beauty Shop Monday to instruct the operators in latest hair fashions.

Exclusive Interior Decorating—

Designers and builders of distinctive furniture, TOWN AND COUNTRY INTERIORS, recently opened at 106 North Garfield, specializes in executive suites and home furnishings. There are complete drapery departments where fabrics are designed and printed. Wallpaper is designed also, according to your desires. Rugs are carved and designed to suit your decor. Town and Country Interiors is a complete interior decorating service which designs and upholsters furniture to your order.

Beauty Basics—

Start now building beauty for the months and years to come. Dorothy Gray Beauty Aids, featured at DUNLAP'S, are available in preparation for every age and skin type. Beauty grains for thorough cleansing are recommended for blackheads and conspicuous pores. Both boys and girls are advised to use Dorothy Gray's Beauty Grains. There is also Hygienic Paste and Hygienic Lotion for a radiant skin and refreshing stimulation. For more mature skin, Dorothy Gray's rich cleansing creams and night oils for lubrication to keep the skin supple, ward off fine lines and give you a softer, brighter complexion.

Distinctive Complements—

A bright new shade can renew that favorite lamp and add a refreshing note of color to your room. PHILLIPS ELECTRIC COMPANY has a tremendous assortment of lamp shades in every type and color to suit your decorative scheme. These include Mica shades for a distinctive complement for your furnishings. Adolphus finishing touch. Other shades are swirl type, pig ear ruffled and tailored.

Use The Lay-Away Plan—

It's smart but simple strategy to buy on the lay-away plan. So home on credit. The store is filled with fine fabrics of meticulous finish and beautiful design are featured at FRANKLIN'S. Miss Joy Howard, new manager, graciously invites you to visit the store and see the fine new Autumn merchandise in a complete lay-away plan and make your selections now while there is a complete stock to choose from. Shop this convenient way so you'll have the things when you need them.

Distinguished Leather Goods—

Your school notebook is a part of your daily equipment and goes to class each day of the school year. Therefore, you'll want a notebook that's sturdy, attractive and individual. Select a hand-tooled leather notebook from FRIDAY'S BOOT SHOP—one that is designed with a Western motif and you'll be proud of its appearance for all your school years. Place your order now for your custom made cowboy boots. Custom made boots from Friday's are distinguished by expert workmanship. Belts are also made to order with your name. Boots for "little buckaroos" are stocked in children's sizes.

For Winter Protection—

The enamel on your car is its only protection against winter. Let MACKAY MOTOR COMPANY, 200 South Lorraine, straighten, weld and repair any defects and apply a new coat of paint, then you're sure winter's hardships won't show on your car. Small damages, neglected, can develop into big jobs, cutting down the value of your car. Take it to Mackay Motor Company for a complete overhauling of the chassis. Call 900.

Rent A Car—

How would you like to take a trip at your own convenience—drive a car for a day or a week-end? You can rent a car from THE AEROMOTIVE SERVICE, Garden City Highway, telephone 3694, for as little as \$10.00 per day. For weekend trips the rate is \$16 per mile. Take a weekend trip to Fort Worth for only \$36.00 with gas and oil furnished. This solves your transportation problem and you travel at your own leisure.

To Charm Your Appetite—

Steak dinner or plate lunch, kitchen magicians at RODEO-TEL CAFE are cooking up something completely delectable to charm your appetite. They specialize in sizzling steaks cooked to order and their menu is crammed full of good things to eat. While you dine at Rodeo-Tel Cafe, let skilled mechanics at RODEO-TEL SERVICE STATION give your car a complete servicing. Individual attention is given every repair job, to put your car in first class running condition.

Be Sure Of Quality—

When you invest in automobile paint, you want to be sure it won't peel or "blister." For paint that can take the ravages of weather and come out smiling, choose Sherwin-Williams Paint, featured at MID-WEST GLASS AND PAINT COMPANY, 515 South Main Street. You can obtain this automobile paint already mixed, in any color you desire. There is lacquer or regular paint. Sherwin-Williams Auto Paints are used by body shops for a factory approved finish.

News For Camera Fans—

Impressively designed—brilliantly engineered, the new Revere "16" Movie Camera, featured at CAMERON'S, 1506 West Wall, is more dynamic, loading plus many unique Revere features. In Revere "16" you'll find: an ingenious built in, micromatic, telescopic view-finder adjustable for 1" and 3" lenses. Revere Cameras are available in any price range from \$22.50 up. With these cameras, a wider field is opened to the home movie enthusiast. They are available from "16" to "96" which gives you "theatre quality" home movies.

Special Dry Skin Treatment—

If you have a "problem skin," let Mrs. McInnis at PALACE DRUG help you with selection of proper cosmetics. She will aid you in selecting correct shades of powder and lipstick for Fall make-up. For a limited time she is featuring a special on DuBarry Dermo-Cos, for extremely dry skin. This rich emollient combats fine lines caused by dryness. Take advantage of this special offer and get a \$2.00 size for \$1.00.

Announcing The New 1950 Studebaker!

America expects the unexpected from Studebaker—and it's here—the "new look" in cars! Dynamically new in form and substance, it's a truly inspired 1950 Studebaker. Its styling is more distinctive than the "new look" that Studebaker originated three years ago. This is a complete line of completely new 1950 Studebaker cars—paced by a sensationally advanced Studebaker Champion in the low price field. Stop in at BROADWAY MOTORS, 125 West Missouri, and see it. It's new in its appeal, new in drive appeal. The breath-taking 1950 Studebaker is starting another buying wave.

The Gift That Flatters—

If you really mean business, send her a gorgeous corsage created especially for her by BUDDY'S FLOWERS, 1506 West Wall. You can get lovely cut flowers any time at Buddy's. They create bouquets from the finest stocks. Buddy's Flowers is your "loc" F.T.D. Florist with the Winged Victory emblem on the window that signifies satisfaction guaranteed. You can send flowers by wire to any place a few hours and your personal message accompanies them.

Dine In Radiance—

Set your table with Imperial Cape Cod, hand crafted table crystal. It shows the gleam of sunlight or the gleam of candlelight. On your table after day, use Cape Cod Crystal, designed by master craftsmen for pleasant, happy American living. Cape Cod is a sturdy crystal made for appeal and use. The more you use it, the more you like it. It is inexpensively priced, in open stock at MIDLAND HARDWARE GIFT DEPARTMENT.

Plastron Storage Bags—

Protect your clothes and blankets with Plastron garment bags, now available at MIDLAND HARDWARE GIFT DEPARTMENT. In lovely colors to dress up your closet, Plastron garment bags are equipped with zipper fasteners and are dust, moisture and moth proof. Get Plastron bags in quilted or plain, in average or jumbo sizes. Plastron is available in bridge table covers also, in quilted patterns and lovely colors. Hurry and get your supply of garment bags while they last.

The All-New Gas Space Heater—

Check the many exclusive features of Radiant Heaters at WESTERN APPLIANCE, Inc., before you decide on the heater for your home. Radiant has aluminumized steel chassis to add a sparkling note of beauty to your rooms. They will not become discolored and will stay bright and easy to clean. Radiant employs the three basic fundam. (1) convection (2) radiation (3) conduction. The glass frame provides convection, radiation is obtained from the incandescence of the ceramic radiants and conduction by conducting heat from the burner and radiants.

A Tip To Housewives—

Almost noon! How time flies—when you're shopping. You can save the day by stopping at MORRIS SYSTEM and purchasing a whole meal already cooked by the cooked foods department. Assorted vegetables, meats and desserts are piping hot and chock full of nourishment. So, when the family comes clamoring home at lunch time, you'll be all ready for them. You can choose from deliciously prepared roasts, barbecues, chicken, meat loaf and stew. Vegetables are cooked just the way you like them and there's a fruit cobbler to top off a perfect meal.

Rugs, Furniture Cleaned At Home—

You value your upholstered furniture and your carpets. To prolong their life and beauty, keep them free of dirt. It's simple. Just call 1980 and have COLLIER'S RUG CLEANING COMPANY clean your rugs and furniture right in your home. They will also do right your furniture and rugs with their famous Berioth moth proofing service. Their work is guaranteed and they use only standard chemicals. Colors are safe with this cleaning method.

Change The Washday Tune—

Every conscientious housewife wants her laundry done right. So, there's no better way than doing it yourself with a modern machine and plenty of soft, hot water. Take your wash to RANET'S LAUNDRY, 600 East New York, where you can have all these conveniences. When you do your wash your own way you know it is clean. For a cents, rent a machine and do all your laundry in an hour. Don't let soiled clothes and linens accumulate when you can keep them meticulously clean and white this easy way. Take advantage of the wet wash and rough-dry service offered by the laundry, also. They will pick-up and deliver. Call 578.

'No Place For A Duke' Is Title Of New Paul Moss Book

Paul Moss of Odessa, prominent West Texas lawyer, rancher and oil man and judge of the 70th Judicial District, is the author of "No Place for a Duke" published this month by Mathis, Van-Nort & Company, Dallas.

Judge Moss long has been active in civic affairs of this section and is well known in Midland and throughout the Southwest.

In "No Place for a Duke," Judge Moss writes cleverly about characters he knew in his youth spent in Clay County, N. C. The novel tells the story of a land-owning farmer, his family and friends and their lives in a secluded part of America at the turn of the century.

Judge Moss attended law school at Valparaiso University and was admitted to the bar in Indiana in 1912.

Judge Paul Moss

1912. Following the cry of "Go West, Young Man," he came to West Texas in 1926 and settled in Odessa. He has been active in its growth and civic improvement ever since.

Judge Moss was Odessa's first city attorney and served in that post until 1934. He served as president of the school board and was chairman of the Better Housing Commission and the Ector County Centennial Commission. He is a member of the Texas Bar Association, American Bar Association, Authors League of America, and a director of the Independent Petroleum Association of America. He is a past president of the Rotary Club of Odessa and is president of the Southwestern Broadcasting Company. He is an active Boy Scout worker.

Judge Moss' previously published novels include "Shadow of the Pothole" and "The Rock Was Free".

Farewell Party Is Given Crane Family

CRANE—The outdoor living room of the M. E. Noble home in the Gulf Camp was the setting for a covered dish supper recently, when the members of the First Christian Church honored Mrs. Floyd Welch and her daughter, Jocelyn, who are leaving soon to make their home in Big Spring.

A gift was presented the honorees from the members of the church.

Present were Mr. and Mrs. James Bryan and daughters, Mr. and Mrs. M. C. Shingleton, Mr. and Mrs. C. H. Dannelley and sons, Mr. and Mrs. Fred Cox, Mr. and Mrs. R. A. Carter and children, Mr. and Mrs. D. L. Weiser and children, Mr. and Mrs. J. F. Kendrick and children, Mr. and Mrs. Charley Haynes, Mr. and Mrs. Sam Edwards, Mr. and Mrs. L. E. Noland and children, Mr. and Mrs. Lee Turner and Leanne, Mrs. Bill Edwards and daughters, Mrs. H. A. Williams and sons, Mrs. W. T. Edwards, Mrs. C. E. Shirley and Charles, and E. E. Wasson.

Pecos Garden Club Previews Program

PECOS — The Merry Home and Garden Club held its first meeting of the year Monday afternoon in the home of the president, Mrs. C. J. Lee.

Mrs. V. M. Campbell had charge of the program, which included a beginners list of perennials for West Texas. A preview of the year's work was given in a round table discussion.

Plans for the flower division at the Fall Fair and Festival were also discussed.

Present were Mrs. M. E. Clark, Mrs. George W. Adams, Mrs. N. F. Chapman, Mrs. W. F. Howard, Mrs. Joe T. Rounsaville, Mrs. J. P. Stubbelfield, Mrs. H. P. Davis, Mrs. Oram Green, Mrs. C. O. Finley, Mrs. C. V. Campbell and Mrs. A. G. Van Horn.

Rankin P-TA Holds First Meet Of Year

RANKIN—"Team Work for Today's Child" is the theme for the year's programs of the Rankin P-TA. The theme was introduced at the first meeting of the association recently.

The subject was displayed on a large poster, from which the chairman of the program committee, Mrs. R. L. Johnson, outlined the monthly programs by the picture method.

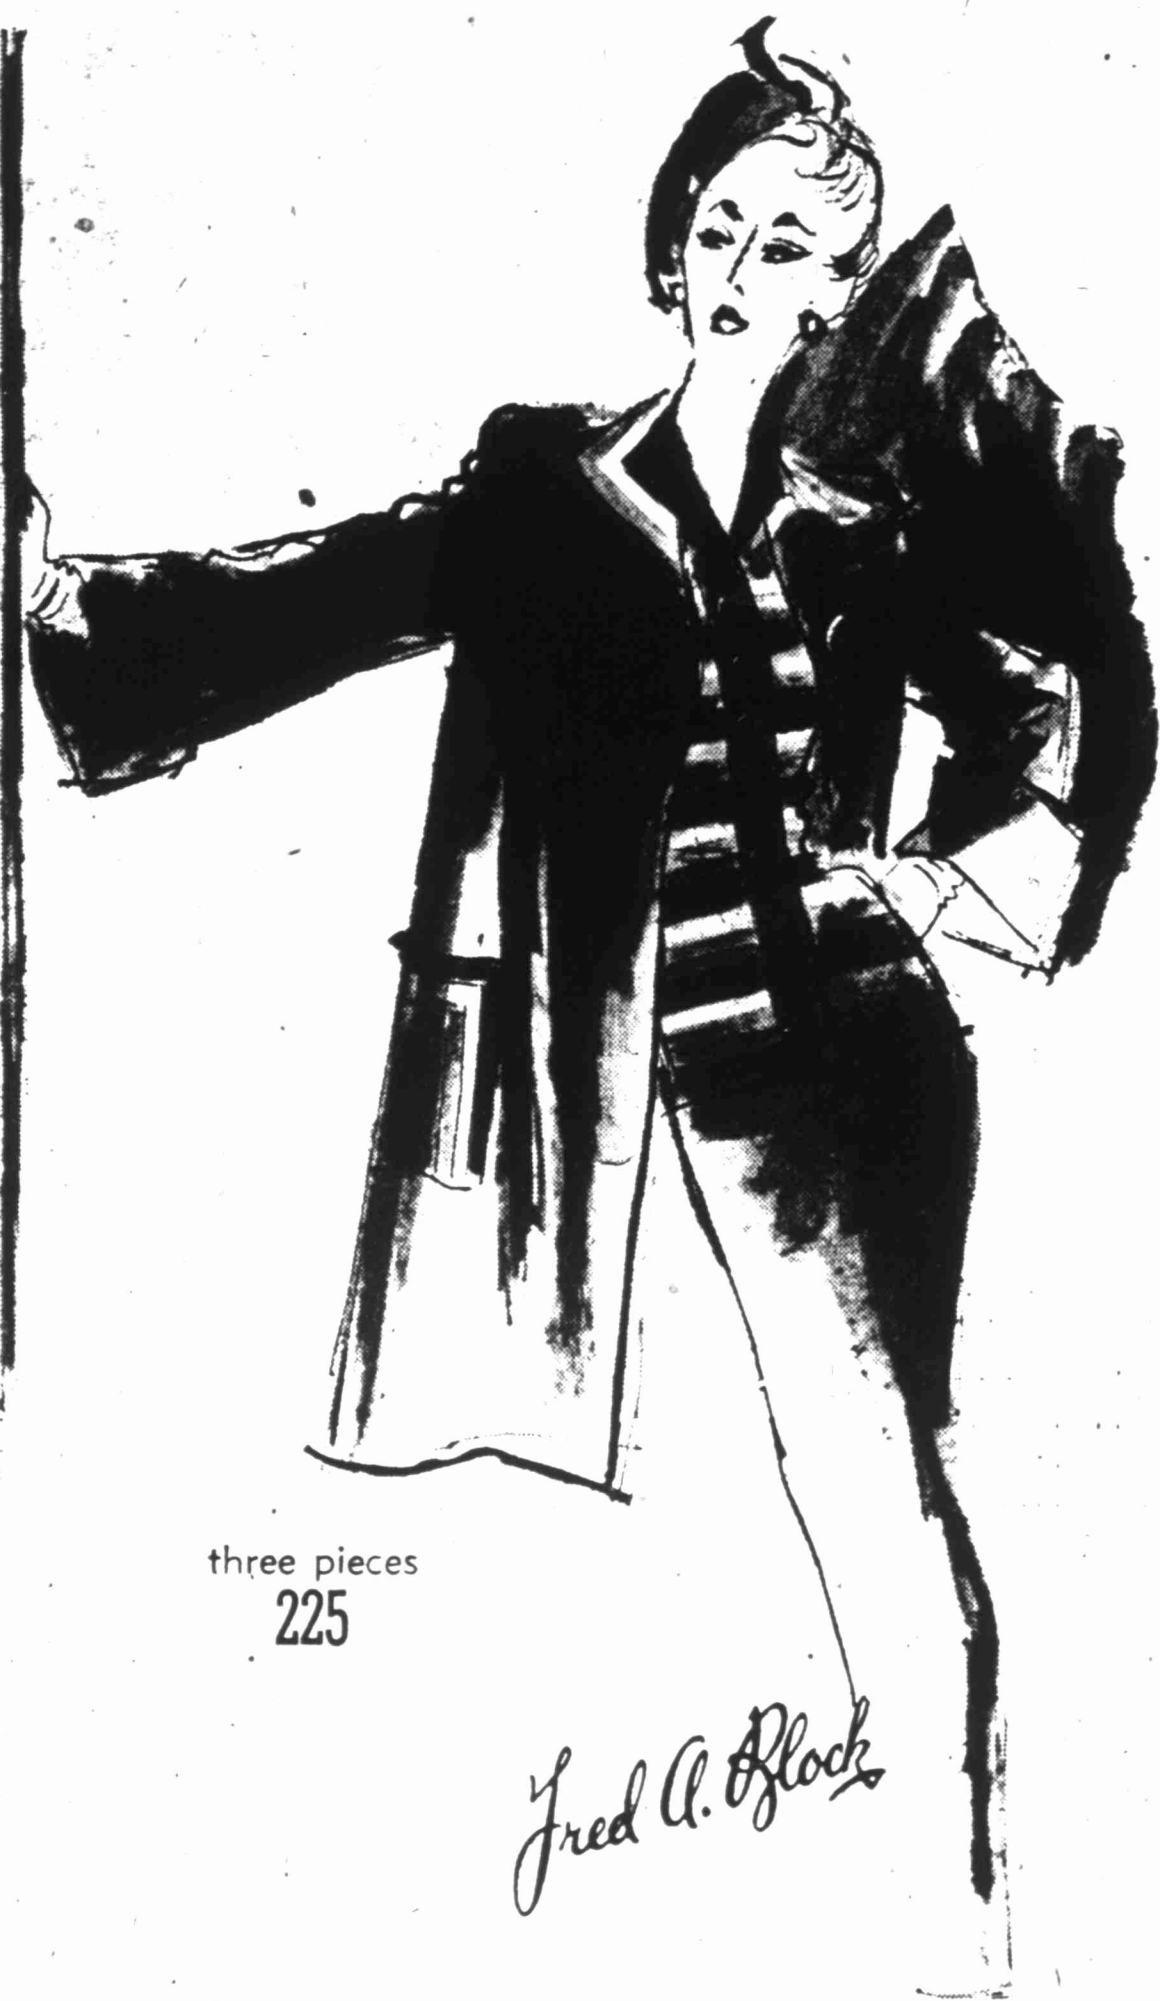

The Rev. Don Cochran led the group in singing "The Eyes of Texas," with Mrs. C. E. Ivy at the piano. Beverly Blount sang "Lavender Blue," with Mrs. Ivy accompanying.

Women Wash And Get Washed In London

AP Newsfeatures LONDON—Busy housewives can get their weekly wash and their hair done at the same time.

A hairdresser here has offered to launder nine pounds of clothing and linen in his electric washer while customers relax for three hours to have a permanent wave.

M. P. Jacovides, the proprietor, said he found housewives didn't have the time to spare for a hairdo between cooking, washing and queuing at the shops.

Golf Course Decoration Used For Association Luncheon

A golf course in miniature was laid out on the tables where the Ladies Golf Association luncheon was served in the Midland Country Club Friday.

An exhibition of trick golf shots by Bob King was an entertainment feature for members and their guests, who also saw one of the monthly style shows presented by the French Heels Club. Autumn fashions from the Myrna-Lynn Shop were modeled by Edith Wempe, Elizabeth Williams, Mrs. Frank M. Jackson, Mrs. James C. Clary, Mrs. W. Gibson Payne and Mrs. Bob West.

Miss Williams, French Heels Club president, and Betty Kimbrough directed the show, one of a series showing costumes from various Midland stores. Mrs. Wright Cowden and Mrs. Bob White were luncheon hostesses.

Out-of-City Guests
Guests at the luncheon from other cities were Mrs. Dan Keys of Fort Worth, Mrs. Bill Childers of Odessa, Mrs. Arthur E. Miller of Chillicothe, Mo., Mrs. J. Tucker of Hutchinson, Kan., Mrs. Orville Hannum of Washington, D. C., Mrs. Guy Hannum of San Antonio and Mrs. Clifford of Tulsa.

Other guests were Mrs. H. L. Beckmann, Mrs. J. D. Dillard, Mrs. R. W. Allen, Mrs. J. Nicholson, Mrs. Hugh B. Gilmore, Mrs. Ralph Evans, Mrs. Gene Goff, Mrs. Euell Stone, Mrs. Bob Payne, Mrs. L. R. Cobb, Mrs. Lief Olson, Mrs. Payton Anderson, Mrs. Smilo Mallison.

Mrs. C. H. Rudd, Mrs. John Dublin, Mrs. George Glass, Mrs. Lloyd Edwards, Mrs. Henry Shaw, Mrs. John Skinner, Mrs. Russell Conkling, Mrs. George Putnam, Mrs.

Walter Duesse, Mrs. Robert Bonnell, Mrs. Lamar Eschberger, Mrs. L. G. Byerley, Mrs. John House, Alice Marks.

Mrs. Lloyd French, Ruth Hussey, Polly Hamm, Aline Roach, Adelaide Jones, Mrs. O. J. Hubbard, Mrs. Ed Alstrin, Mrs. Barney Greathouse, Mrs. O. J. Colwick, Mrs. H. C. Hood, Mrs. John Cornwall, Mrs. Tom Ingram, Mrs. Bill Remy, Mrs. John Healey, Mrs. Gordon Gray, Mrs. N. A. Lancaster, Mrs. W. A. Hoyer, Mrs. H. P. Hubbard, Mrs. R. S. Dewey, Mrs. M. Ellison Muldrow and Mrs. G. C. Hughes.

Members at the luncheon were Mrs. N. B. Garner, Mrs. M. R. Hayes, Mrs. Frank Downey, Mrs. Edwin Stephens, Mrs. Fred Kotysa, Mrs. Ida Fay Cowden, Mrs. J. Earl Wilson, Mrs. A. Knickerbocker, Mrs. Joe Sauer, Mrs. John Parker, Mrs. Alton Brown, Mrs. C. W. Crawley, Mrs. Tex Carleton, Mrs. Mike Brumbelew.

Mrs. John Coulter, Jr., Mrs. Pat Ashby, Mrs. John Perkins, Mrs. George Shelton, Mrs. J. C. Radliff, Mrs. Don Oliver, Mrs. Louis Thomas, Mrs. Bob Franklin, Mrs. Hal Peck, Mrs. Roy Proctor, Mrs. Roy Parks, Mrs. Robert Turpin, Mrs. Jack Bliss, Mrs. J. J. Travis, Mrs. C. W. Chancellor.

Mrs. W. H. Black, Mrs. John F. Younger, Mrs. W. D. Anderson, Mrs. Bert Goodman, Mrs. Frank Johnson, Mrs. Charles Davis, Mrs. G. E. Mershon, Mrs. Walt Goodman, Mrs. Lewis Ayres, Mrs. Harold Brasher, Mrs. A. N. Griffith, Mrs. Ralph Cooley, Mrs. Bill Barker, Mrs. Joe O'Neill, Mrs. Percy Bridgewater, Mrs. Vaughan Maley, Mrs. F. L. McFarland, Mrs. Lamar Lunt and Mrs. W. P. German.

Style Show—

(Continued From Page One)
Program in small communities and rural areas.

This year, as before, Midland merchants are furnishing the clothes for the show. They are Dunlap's, J. C. Penney Company, Haynes', Fashion Salon, Myrna Lynn Shop, Franklin's, Colbert's, Virtue's, Grammer-Murphy, Boney, Hughes Jewelry, Appleton's, Jewel Box, Vosatko Jewelry and Kruger Jewelry.

An artist-and-models theme will be used, with Mrs. Lloyd Zellner and Lee Ida Pinkston enacting the artists. Models will be Mrs. A. R. Ayles, Reta Beights, Barbara Brannen, Betty Cooke, Mrs. W. S. Kotch, Jr., Mrs. Jack Stackpole, Jackie Pounds, Dell Steele, Mrs. J. W. Thomas, Jr., Sara Johnson, Billie Walker, Mrs. J. W. Skrabanek, Clyde Parnell, Mrs. C. M. Pederson, Mrs. George Woody, Mrs. Charles Patterson, Mrs. Randy Rubin, Mrs. A. A. Jones and Betty Cook.

Mrs. Noel Cason is the chairman of models and also will model. Carolyn Cates is general chairman for the show. Mrs. Bryan Denson and Mrs. Ayles are co-chairmen. Frances Morton is in charge of publicity, Mrs. Rubin of concessions, and Mrs. W. G. Keeler is contacts chairman.

Decorations will be under the direction of Mrs. Stackpole and Mrs. Zellner arranged for the housing of the show. Mrs. Mims is arranging the music and entertainment and Myra McReynolds is program chairman.

Other Chairmen
Properties are in charge of Elizabeth Knox; stage arrangements are under the supervision of Mrs. Jack Doran, and Lee Ida Pinkston is head of the tables and chairs committee. Mrs. Ralph Guyer is in charge of the theme and script and Mrs. R. H. Prizzell, Jr., is handling tickets and ushers.

Carrying out the artists and models theme, Palette-shaped placards will give information about each model's costume. A commentator will not be used since the models will walk through the ballroom and mezzanine.

Here's How It's Done

Postmaster General Jesse Donaldson shows little Gail St. Clair, seven-year-old polio victim, how the Post Office Department in Washington is helping in an emergency drive for funds to fight the disease. The record number of polio cases has depleted the March of Dimes fund, making a special money campaign necessary. Contributions may be mailed to "POLIO," care of any U. S. Post Office.

Safety Program In North P-TA Is Subject For First Meeting

The Safety Campaign for the North Elementary School, sponsored by the North Elementary Parent-Teacher Association, has become a working organization. Under the direction of Mrs. H. L. Straughan, Jr., and with the co-operation of Police Chief Jack Ellington, Principal W. D. Ladd and Mayor William B. Neely, there is now a police patrol on Pecos Street near the school from 8 until 9 a.m. and 11:30 a.m. until 12:15 p.m.

With the increased enrollment of the school, the P-TA members felt that a patrol was necessary for the safety of the children as well as the convenience of the parents. Although the group has had no formal meeting, members have been working on this project.

Mrs. Straughan, 510 West Ohio

+Kermit News+

KERMIT—Sgt. and Mrs. Alfred Brown and children, LaHondo Joyce, six, and Buster, 15-months old, are to leave soon for New York where they will sail around October 1 for Germany. The Browns are scheduled to live in Germany three years.

Mrs. C. Casey will be host Monday night for members of the Mary Etheredge and Eudaley Circles. She will be assisted by Mrs. M. L. Moody in serving an Indian supper. Mrs. Raymond Rucker will describe the annual dances held by Indians in Gallup, N. M.

A delegation from the Kermit First Methodist Church will be in Fort Sumner, N. M., Tuesday and Wednesday, attending a two-day conference of the Clovis Methodist District. Going from Kermit will be the pastor, the Rev. Charles Walker, John Moore, E. E. Lam, W. T. Varnell, Mrs. Clyde Barton, William E. Pool, and Atkin Cook.

Cpl. Thomas Spinks, who has been stationed at Ladd Air Base in Fairbanks, Alaska, is home for a 30-day furlough with his parents, Mr. and Mrs. Tom Spinks.

Mr. and Mrs. W. L. Etheredge, accompanied by their son, Rickey, left this weekend to visit their daughter, Mrs. Bill Irvin of Colorado City. They will continue their month's vacation with hunting and fishing near Denison and a trip to Louisiana.

Air Force Tightens Entry Requirements

The already selective Air Force is tightening its requirements this week, limiting those it will accept for aviation cadet pilot and navigator training.

Effective Oct. 1, 1949, applications for training, cadet pilot, pilot or navigator, will not be accepted from individuals who are married and individuals who cannot present evidence of having successfully completed two or more years of college education. The educational minimum examination no longer will be used.

The requirements change will not affect students scheduled for the remaining classes of this calendar year, or those applying for aviation cadet training before Oct. 1, 1949. Young men between the age of 20 and 28 1/2 years, who are high school graduates and are married, interested in a worthwhile career as a pilot or navigator, must apply before Oct. 1, 1949.

RESEARCH PROJECT SET
NASHVILLE—(AP)—A nutrition research project has been approved to be carried out at Tennessee Agricultural and Industrial College here on funds allotted under the Research and Marketing Act. It is the first such project to be approved for a negro college. Approval is a direct outgrowth of work by Dr. J. R. Otis, Alabama colored extension leader, who was appointed last year by Secretary of Agriculture Brannan to survey research personnel and facilities of negro colleges and to determine how they might be utilized under RMA. Selected negro children will be studied in this project, which is part of a nationwide program to determine the nutritional status and food intake of various population groups.

America-Described As Gum-Chewing, Sexy Land By Red Novelist

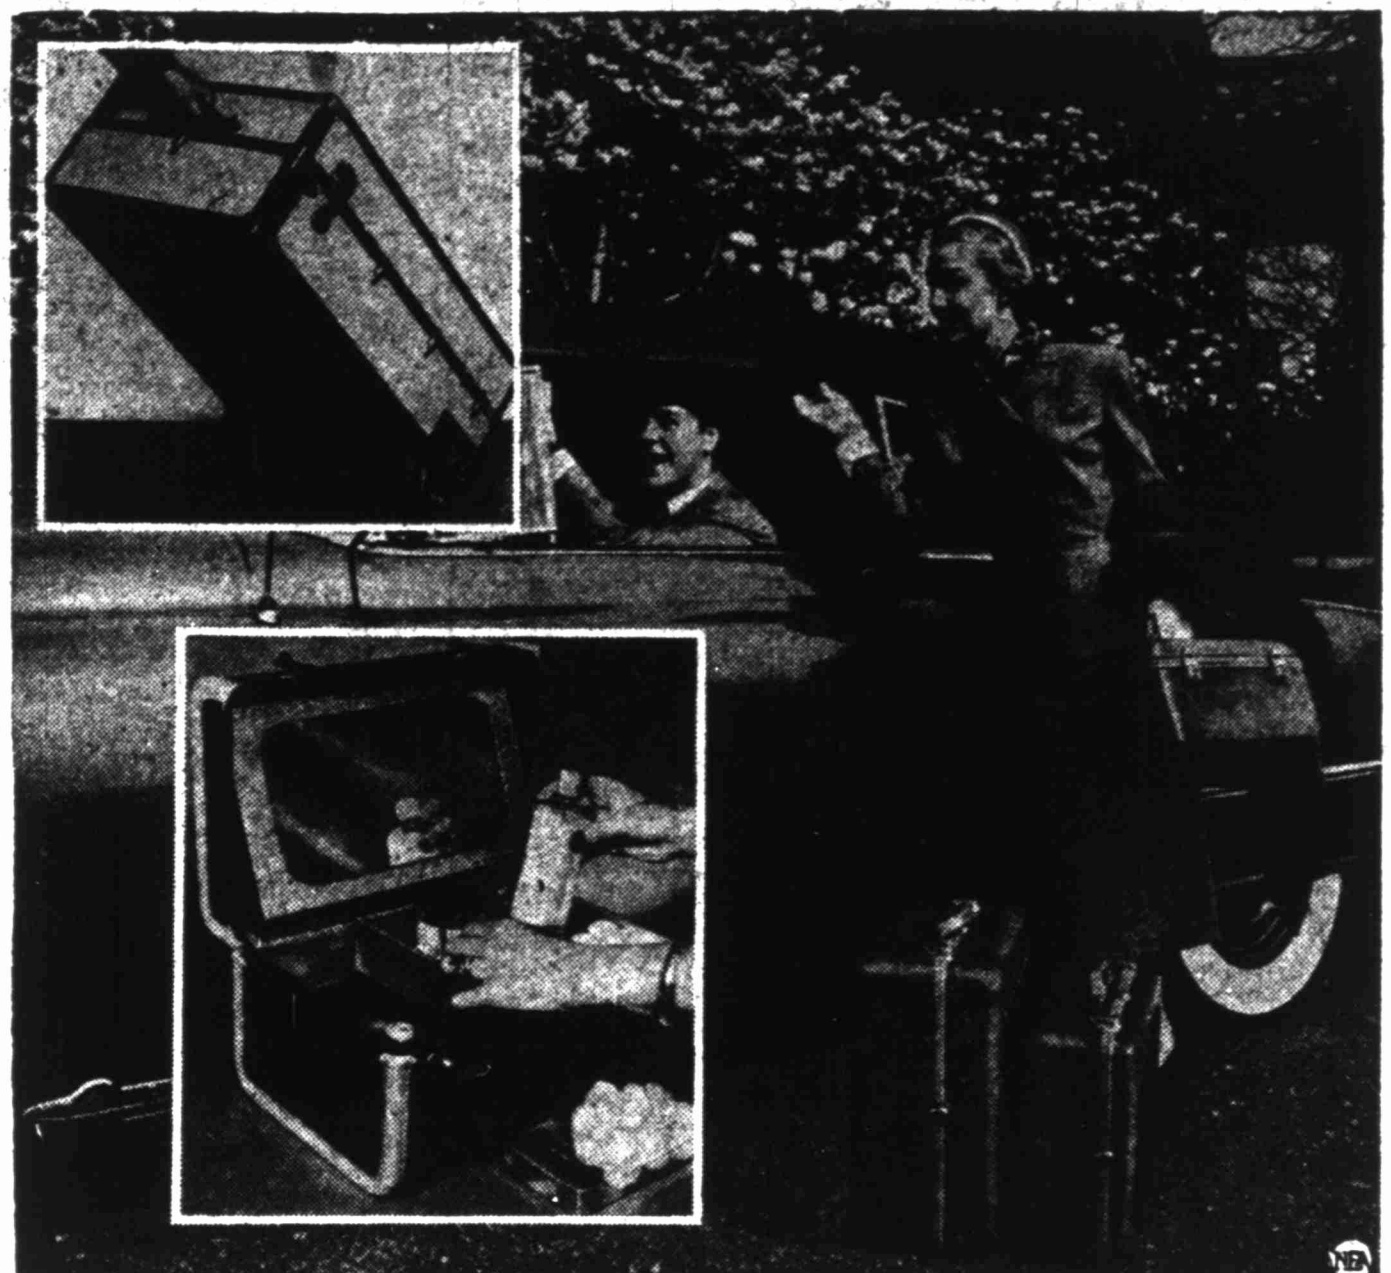

BUCHAREST, ROMANIA—(AP)—America is a land of gum-chewing and sex in automobiles, where the B-36 is the dove of peace and the atom bomb is the olive branch, Ilya Ehrenburg, Russian publicist and novelist, declares.

Writing in the Cominform Journal, Ehrenburg, who has made several trips to the United States, gave this picture of life there:

"Vulgarity and arrogance, robots and chewing gum, sex in an automobile, a negro soaked in gasoline, supermen who crush skulls, frame-up of Communists, hypocrisy and savagery, greed, falsehood and fear. They have a dove of peace—the B-36—and the olive branch—the atom bomb."

"I don't know of any other country in the world where individuality is so crushed and obliterated as in the United States."

Tote New Luggage To Campus

Fall luggage for the college girl to tote back to school incorporates brand new ideas: So that she can roll her own, a trunk (upper left) carries its own retractable wheels in the base. An automatic tilt-mirror makes the cosmetic case (lower left) a workable make-up box enroute. The worst baggage room treatment won't bruise the three-piece luggage set of the girl (right). The moulded glass fiber construction is dent proof and practically indestructible.

By MARJORIE SCILKEN
NEA Staff Writer

The girl going back to school can swing luggage of moulded glass fiber that's almost indestructible or roll her suitcase through the travel crush on its own two wheels. These and other inventive designs in luggage make their debut in time for the school girl and other travelers to take off this fall with fewer fears for the fate of their new suitcases.

Moulded plastic glass fiber, which won't tag of indestructibility during the war, makes matched luggage sets: hat box and three cases of graduated sizes. Finished in antique tan or black, these cases are not only smart but are resistant to scuffing, scratching and denting.

Plastic fiber glass is also rot and mildew-proof and able to withstand all extremes of climate.

In the "roll-your-own" department are trunks and large portable cases which are treated to a pair of retractable wheels at one end. These lock into position for mobility. A large suitcase-on-wheels has two tiny fold-away arms that open out so that smaller pieces can hitch a ride.

The lady traveler who has had to crane, stretch or turn acrobat in order to see herself in her traveling mirror will welcome the easel device in an overnight bag that tilts her looking-glass to suit her convenience. The mirror automatically slips back under the lid when the train case snaps shut. The

bag itself sports a variety of colors and finishes ranging from rawhide to tweedy canvas. An inside cosmetic case is lined with taffeta.

The fall outlook of luggage is also brightened considerably by color. Ensembles of leather cases, and plastic-coated cases go into as many high-fashion shades as the clothes to which they can be matched.

An amateur painter will get a professionally clean paint-job if he spreads petroleum jelly on all door-knobs, hinges and door-stops before painting. When the painting in that area is finished a soft cloth will take the stray paint off the petroleum-coated knobs and hinges.

Worry, Ulcers Unknown To Diamond Digging Black Boys

By HAL BOYLE
NEW YORK—(AP)—Men who buy and sell diamonds may get ulcers—but the lads who dig them don't.

The gems are whacked out of the good earth of Africa by black-hued native boys.

"Cancer is extremely rare among them, and ulcers are absolutely unknown," said Mrs. Gladys Babson, Hannaford, who has made a career lecturing on diamonds.

Mrs. Hannaford returned recently from a trip through the glittering mines of the dark continent. She is one of the first women to inspect the coastal diamond fields north of the Orange River in Southwest Africa.

Rumors have spread around the world that these fields are so fabulously rich that a man can slip ashore at night from a motor boat, scoop up a gallon of rough diamonds—and speed away a millionaire.

Owners even are reported to have hired camel patrols to guard the beach at night against nocturnal raiders.

Mrs. Hannaford says this all is utterly ridiculous.

"They couldn't have a camel patrol because camels get rheumatism that close to the sea," she said. Windswept Desolation.

"The fields are rich, but the native diggers would feel lucky if they collected a gallon of diamonds in a year. And it's an expensive operation requiring much equipment. The diamonds are found inland in a layer twenty to thirty feet under the sand covering a prehistoric beach."

Operations center near Orange Mouth, a village of 500 Europeans and 1,600 natives. It is 200 miles to the nearest railroad, and the desolate area is so windswept that gardens near the river must be surrounded with walls to keep the vegetables from being blown out of the ground.

One mine has a compound in which dwell 1,700 native boys, some of whom hike 300 miles for their jobs. They get from \$1 to \$2.50 a day, plus living quarters, and a bonus ranging up to \$300 for each diamond they find.

They aren't allowed to bring into the compound anything that can't be searched easily. One boy insisted on bringing in a flashy new bicycle, even though warned he wouldn't be

Training Session Continues Sunday

A pay training session by the Midland ORC unit which got underway Saturday will continue through Sunday, with Major John Ross of Florcy in charge.

The session is being held at Midland Airport and consists of "Operation Flintlock," which is a ship-to-shore movement of troops.

Training films of combat bulletins and combat releases also are being shown.

Boones Return To Ranch Home After Marriage

Mr. and Mrs. Barry Kenton Boone have returned to a home on the Boone Ranch southeast of Midland after a trip that followed their marriage in Las Cruces, N. M., on September 13. Mrs. Boone is the former Rita Joan McDonald. She is the daughter of Mr. and Mrs. D. W. McDonald of 805 West Storey Street, and Boone's parents are Mr. and Mrs. K. S. Boone, 311 North F Street.

George W. Knox of Midland was one of the witnesses for the simple wedding ceremony. The couple visited in El Paso and in New Mexico cities before they returned to Midland.

Both are graduates of Midland High School. The bride attended Hardin-Simmons University at Abilene, and Boone was a student at Sul Ross College in Alpine.

Paris, France was in the hands of the English nation from 1430 to 1436.

Fair Weather Friend!

She's fond of the sun, the wind, the outdoor life! But note her complexion. Not a sign of "outdoor" skin—the rough, flaky, baked-out skin that makes many women look old beyond their years. She guards against these surface signs of age with Endocrine Hormone Cream. Not just a cosmetic camouflage, Endocrine works beneath the surface, actually helps to improve the skin and keep it smooth, firm, youthful-looking. Thirty-day supply, \$3.50 plus tax at

New H-SU Veep

W. T. Walton, assistant to the president and dean of students, has been appointed vice president of Hardin-Simmons University, President Rupert N. Richardson announced. Walton is a member of the Bible and Education Departments at H-SU, and has been assistant to the president since 1941. A graduate of H-SU, he attended the University of Texas Law School, received a degree from the Yale Divinity School, and has done graduate study at the University of Texas.

WTCC Photographic Contest Is Underway

ABILENE—Somewhere in West Texas someone has made an outstanding photograph which is sought by the West Texas Chamber of Commerce for publicity purposes. The organization has announced the first annual All-West Texas photographic contest, in connection with the Museum of Fine Arts.

The contest is open to both professionals and amateurs. The prizes will be \$45. Graphic cameras in both classes, for pictures made in West Texas during 1949. The contest will close September 30, and judging will be by members of the WTCC staff.

The contest is being conducted with the corporation of the local Chambers of Commerce in 132 counties of West Texas and entry blanks are available from local managers.

Annual Meeting Of Permian Basin Girl Scouts Is Scheduled

Announcement of the annual meeting of the Permian Basin Area Girl Scouts has been received by Mrs. R. E. Morgan, president of the Midland Girl Scout Association, from the office of Mrs. J. E. Starley, executive director, in Pecos.

The meeting will be held in McCamey September 27. It is the beginning of a fiscal year for the area, and reports will be made by local associations as well as by area chairmen and officers. Girl Scouts of McCamey will serve a barbecue supper in the City Park before the meeting starts at 7:30 p.m. in the Girl Scout Little House.

Board Members

C. E. Bissell of Midland is second vice president of the area board, and Mrs. J. A. Seales is area field director. Oscar Maples of Kermit is the area president and will be in charge of the meeting.

Other Midland members of the board who will report are Mr. and Mrs. J. J. Black, Mrs. Black, 1949 director of the area Girl Scout Camp at Mitre Peak, will tell of its Summer session, and Black will make recommendations for extension of camp facilities.

A budget for the year is to be adopted and standing committee chairmen will be elected.

Committee Will Discuss Plans For New Scouts

Ed Neinst, chairman of the Buffalo Trail Council's Organization and Extension Committee, has called a special meeting of his committee Thursday at Midland.

Neinst stated the purpose of the meeting will be to further develop plans for the organization of new Scout troops, Cub packs and Explorer units in the Council's 17 counties.

Also to be considered are plans for a recruiting campaign to fill up existing units with special emphasis on the new age entrance level. Since September 1, boys may become Cubs at eight year of age, Scouts at 11 and Explorers at 14.

The members of the Council Organization and Extension Committee are: Ed Neinst, chairman; Sam Coker, Colorado City; Dave Posey, Rotan; Don S. Bright, Odessa; Forrest Beavers, Snyder; G. L. McGuire, Kermit; O. W. Tarter, Sweetwater; Zack Dameron, Pecos; C. E. Motley, Monahans; Burl Haynie, Big Spring; and Joe R. Snell, Midland.

Crane News

CRANE—Mr. and Mrs. Harry Leaman left recently to fly to St. Louis where they will spend a week. They plan to continue to Chicago for two weeks and conclude their trip in New York City, where they will visit relatives.

Mrs. Bruce Ashburn, a medical patient, was transferred to the Lubbock Memorial Hospital.

Miss Sandra Garrett, daughter of Mr. and Mrs. T. V. Garrett, recently underwent an emergency appendectomy.

Mrs. R. S. Bell recently underwent a tonsillectomy.

A son was born to Mr. and Mrs. W. L. Thomas, September 9. He weighed six pounds, 11 ounces.

Mrs. J. M. Johnson recently was admitted as a medical patient.

James Hurst of Rankin was brought to the Crane hospital following an accident near his home. Hurst sustained a broken arm in a fall from a tree.

Admitted to the hospital recently were J. H. Williams, Mrs. Walter Hoyer of McCamey and Patricia Joyce Sharp. Miss Sharp underwent a tonsillectomy.

Mrs. C. R. Latham of Odessa underwent major surgery recently. She is the daughter of Mr. and Mrs. Pringle of Gulf Camp.

HELEN CRABB ENROLLS AT GRINNELL COLLEGE
GRINNELL, IOWA—Helen Crabb of 1001 West Missouri Street, Midland, Texas, has been accepted as a new student at Grinnell College, and is scheduled to arrive on the campus for classes which will begin Wednesday.

Miss Crabb will be a transfer student with advanced standing. Approximately 360 freshmen and transfer students will participate in the pre-opening schedule which includes a testing program, orientation classes, campus tours, social functions sponsored by student organizations, a president's reception, and formal dance.

She is the daughter of Mr. and Mrs. Roscoe Crabb of Midland.

Rites Set Sunday For J. W. Edmonds

KERMIT—James Walter Edmonds of Crane, 31, died Friday in the Winkler County Memorial Hospital. Funeral services are scheduled at 2 p.m. Sunday in Kermit.

Edmonds had been in ill health for some time and became critically ill a few days before death.

An oil company employee in Crane, he is well known in West Texas circles. Edmonds was a native of Oklahoma and moved to Kermit in 1939.

While serving as a sergeant in the Army Air Forces during the war, Edmonds was stationed at both the Big Spring and Midland Army Air Fields.

Survivors include: wife, former Miss Lena Stokes of Kermit; a son, Walter Lyndon Edmonds of Crane; his mother, Mrs. W. W. Edmonds of Ontario, Calif.; and three sisters, Mrs. Arthur Estup of Ontario, Calif., Mrs. Alfred Rowe and H. B. Cox of Compton, Calif.

Children's Story Hour will be at 10:30 a.m. in the Children's Room of the Midland County Library.

Beta Sigma Phi Style Show will be in the Scharbauer Hotel.

Miss Hill Becomes Bride—

(Continued From Page One)

and Shirley Jo Riddle of Big Spring, who lighted the candles, wore dresses fashioned like those of the bridesmaids. Miss McCain's of grey and Miss Riddle's of aqua satin. Their flowers were wristlets of bronze feathered mums.

Jack Kidwell served as best man, and Earl Ward and Berton Cane of Midland were groomsmen. Ushers were Duane Leonard and Charles Grasset of Big Spring.

Before the ceremony, Mrs. H. M. Jarratt, pianist, played a medley of love songs and accompanied Barbara Lytle, who sang "O Promise Me," "DeKoven," and "Because." D'Hardelet. The pianist played the wedding marches and during the ceremony "Intermezzo," Provoost.

Reception Is Held
At a reception in the church parlor after the wedding, the couple was assisted by their parents and members of the wedding party in receiving guests. The bride's mother wore a navy suit with matching accessories and Mrs. Hilda Henshaw was dressed in a wine suit with black accessories. Both wore corsages of marigolds.

In the house party were Mrs. J. B. Riddle of Big Spring and Mrs. Harvey Cooper of Sonora, aunts of the bride, and Mrs. A. W. Page.

VISITING PARENTS
Lt. and Mrs. B. W. Sevier and children, Ben Wyly and Cynthia Frances, are visiting their parents, Mr. and Mrs. D. R. Carter and Mr. and Mrs. G. J. Sevier. Mrs. Sevier is the former Mary Frances Carter. Sevier, who is in the United States Navy Air Force, is being transferred from Corpus Christi Naval Air Base to the Naval Air Station in San Diego, Calif.

RHEUMATISM AND ARTHRITIS OFTEN LEAD TO CRIPPLING DEFORMITY

Free Book That Explains The Causes and Describes Proven Specialized Treatment Sent on Request

Excelsior Springs, Mo., Sept. 17—So successful has a specialized system proven for treating rheumatism and arthritis that an amazing new book will be sent free to any reader of this paper who will write for it. For those who suffer with aches, pains, stiff or sore joints, nervous-

Early Stage Destroyed Joint

ness, over acidity, systemic toxemia, colitis or other rheumatic symptoms, this book entitled, "Rheumatism," fully explains why drugs and medicines give only temporary relief and fail to remove the causes of the trouble.

The Ball Clinic, Excelsior Springs, Missouri, has perfected a specialized system of treatment for rheumatism and arthritis, combined with the world famous mineral waters and baths. This system of treatment, which has proven successful for over thirty years, is fully described in a book that tells how it may be possible for you to find freedom from rheumatism.

You incur no obligation in sending for this instructive book. It may be the means of saving you years of untold misery. For writing promptly, the Clinic will send their newly enlarged book entitled, "Rheumatism." Address your letter to The Ball Clinic, Dept. 2345, Excelsior Springs, Missouri, but be sure to write today.

Pyracantha Yearbook Outlines Study Course To Start Tuesday

Brightly berried, a pyracantha twig in natural colors is pictured on the cover of the Pyracantha Garden Clubs 1948-50 yearbook. The club started its season with a lawn party earlier this month, and will have its first regular program Tuesday.

The meeting will be in Mrs. Brutus Hanks' home, with Mrs. C. E. Oberholzer as speaker on "Fall Horticulture." A plant and seed exchange will be conducted under direction of that committee. Mrs. H. W. Mathews, Mrs. Lawrence B. Berry and Mrs. Jack Doran.

Mrs. R. H. Frizell, Jr., Mrs. Harry Murray, Mrs. Ray Lockett and Mrs. Willard Bumpass formed the yearbook committee, and the program was arranged by Mrs. C. E. Oberholzer, Mrs. Ray Cox, Mrs. Stuart Sisley, Mrs. Coe Mills and Mrs. Joe C. Smith.

Beautification Project
The yearbook gives the club's project for the year, "Sponsoring beautification of alleys," and indicates that the Pyracantha Club will cooperate with other garden clubs of Midland in sponsoring the annual Fall Flower Show and bringing an authoritative speaker on gardening to Midland for a program of the Midland Woman's Club next Spring.

After the September meetings, the year's program is outlined as follows:

October 4, Mrs. H. W. Mathews hosts. Topic: "Sponsoring Beautification of Alleys," presented by Mrs. R. F. Duffield.

October 18, Mrs. H. W. Mathews hosts. Topic: "Plants Grown From Cuttings," presented by Mrs. R. F. Duffield.

Christmas Programs
November 1, Mrs. Willard Bumpass hosts. Topic: "Reconditioning Beds," discussed by Mrs. Harry Russell.

November 15, Mrs. Oberholzer hosts. Talk on "Christmas Decorations" by Mrs. Mills and on "Ornamental Shrubs" by Mrs. Mathews.

December 6, Mrs. Frank W. Reeves will be hostess for a Christmas party with an exchange of garden gifts.

January 3, Mrs. Duffield hosts. Talk on "Growing Different Types of Ivy" by Mrs. Sisley and on "Plants for the House" by Mrs. E. Cox.

January 17, Mrs. Sisley hosts. The county agent will be the guest speaker on "Preparation of Cold Frames."

Study of Diseases
February 7, Mrs. E. A. Wahlstrom hosts. Topic: "Plant Diseases in Texas and Their Control," by Mrs. Frizell.

February 21, Mrs. E. P. Cowden hosts. Topic: "Effective Composting," Mrs. E. V. Mitchell.

March 7, Mrs. Barney Grafa hosts. Mrs. Bob Hill will discuss "Plants That Grow in the Shade."

March 21, Mrs. Roy Lockett hosts. Mrs. Walter Cowden will be

the speaker on "Flowers to Brag About—Glads and Dahlias."

April 4, Mrs. Mills hosts. Topic: "The Daisy's Tale," by Mrs. Bumpass.

April 18, Mrs. C. M. Chase hosts. Talk on "Iris Culture" by Mrs. Jack Doran.

Pilgrimage At End
The year will end on May 1 with the installation of club officers and a pilgrimage to the gardens of Mrs. Chase, Mrs. Mathews, Mrs. Grafa and Mrs. Reeves.

Mrs. Walter Cowden is president of the club, which is starting its second year. It was formed in the Fall of 1948 and named for the shrub which is the city flower of Midland.

Other officers are Mrs. Chase and Mrs. Oberholzer, vice presidents. Mrs. Duffield, recording secretary; Mrs. W. T. Graham, corresponding secretary; Mrs. Hanks, treasurer; Mrs. Doran, historian; Mrs. Reeves, parliamentarian and reporter. Mrs. Lockett is the representative to the Woman's Club.

Standing committees include: Entertainment—Mrs. Mitchell, Mrs. Hanks, Mrs. Stollenberg and Mrs. Chase.

Telephone—Mrs. E. P. Wheelodon, Maedele Roberts, Mrs. Bill Holly and Mrs. Lawrence B. Berry.

Civic—Mrs. Frank Whitaker and Mrs. Harry Russell.

Membership—Mrs. Chase, Mrs. Duffield and Mrs. W. H. Dunn.

Pilgrimage—Mrs. Grafa, Mrs. Wahlstrom and Mrs. R. C. Spivey.

Project—Mrs. Graham, Mrs. David, Mrs. Clifford Matthews and Mrs. Russell.

Kermit CC Buys Right-Of-Way For Dollarhide Road

KERMIT—One of the major obstacles in Winkler County's long-sought road into the Dollarhide Oil Field, in extreme southwest Andrews County, was passed when the Kermit Chamber of Commerce assumed title to two and one-half miles of right-of-way in Andrews County, officials of the organization announced. The right-of-way was purchased with funds, totaling \$3,750, which were raised by Kermit merchants and individuals.

Oil companies operating in the Dollarhide have stated they will finance construction of the Andrews section of the road. Montgomery & Knight, local contractors, are to build the two and one-half miles and will be paid by the oil companies.

Delay in getting the road completed has been caused by two factors: first, Winkler County can not spend tax funds for road construction in another county; and second, private property can not be condemned for right-of-way for a dead-end road.

At present work is underway on the south end of the road. Asphalt is being poured in a four-mile section of the proposed road, branching off the Kermit-Andrews highway and going north to the Sid Richardson Gasoline plant and the El Paso Natural Gas Company plant.

Midland Observes National Dog Week

Midland entered the observance of National Dog Week Sunday. Raymond J. Hanfield, executive secretary of National Dog Week headquarters in New York, appointed William W. Walmsley, 1700 West Kentucky Street, chairman of the Midland observance.

This year marks the twenty-second consecutive observance in the nation of National Dog Week. It is sponsored by the National Dog Welfare Guild, Inc., a non-profit movement to make the dog more valuable to his owner and more acceptable to the non-owner. General chairman of this year's observance is Arthur Godfrey, radio personality and a well-known fancier.

"Building Character"
This year's theme, "Building Character Together," dramatizes the bond between children and dogs and the heartwarming, almost indescribable devotion they have for one another. The theme is emblazoned on the 1948 poster depicting a happy, winsome baby with his pet dog companion. This year, the Boy and Girl Scout and Camp Fire Girls organizations are participating in the observance on a country-wide basis, as part of their program of responsibility for character-building and citizenship training, as expressed in the Scout Laws and Camp Fire Girl Honor Pledges.

The seven point objectives of National dog week include: 1. A good home for every dog; 2. Elimination of stray dogs from the streets; 3. Better informed dog owners; 4. Teach consideration for dogs and all animals; 5. Emphasize the dogs use as a companion, helper and home protector; 6. Secure fair laws for dogs and their owners; 7. Teach respect for the rights of non dog owners.

MRS. EPLEY HONORED AT SHOWER IN CRANE
CRANE—Mrs. John Epley was honored at a pink and blue tea recently with Mrs. R. H. Modisett, Mrs. Ned West, Mrs. Jack Chaffin and Barbara Mason as hostesses.

Doing Fine—Going To School

Pollo is keeping Don (Speck) DeVore away from his classmates in Midland schools but he is going to school just the same. Speck is in school at the Gonzales Warm Springs Foundation, where he is being treated for the after-effects of polio. The befuddled youngster endeared himself to Midlanders while selling newspapers for The Reporter-Telegram. He has received many kindnesses from his friends of Midland since being stricken. Speck is shown here on his crutches as he goes to school. Latest report: "doing fine." That, all Midland is glad to know.

Book Review—

Wrote For Children
After this she began devoting most of her time to writing and has produced a number of children's plays. Her three books between "Sun" and "Twilight" are "Shelter" (1942), "William Nicholson, A Biography" (1942) and "Bell Timson" (1946). Miss Steen now lives in Berks, England.

Well-known throughout the Southwest, Miss Oppenheimer was born in Dallas and received her

bachelor of Philosophy degree from the University of Chicago where she became a member of Phi Beta Kappa. After several years as a literary critic and feature writer on Chicago newspapers she returned to Dallas and began her career as a lecturer. At present, she is giving a regular series of reviews for Sanger Brothers in Dallas in addition to her tour schedule. She comes to Midland through courtesy of the Dallas firm.

Police Training School To Open Monday In Midland, Sponsored By Department And FBI

A police training school, sponsored by the Midland Police Department with the cooperation of the Federal Bureau of Investigation, will open at 3 p. m. Monday in the city courtroom.

The classes will continue through September 30.

All sessions will be held from 2 to 4 p. m. No classes will be held on Saturday or Sunday.

The complete program is as follows:

September 19—Roll call, Chief of Police Jack Ellington; opening remarks and introductions of mayor and city councilmen, H. A. Thomas, city manager; address, Mayor

William B. Neely, Jr.; Police Court, D. K. Brown, special agent in charge, FBI, El Paso, and Public Relations, Delbert Downing, manager, Chamber of Commerce.

September 20—Laws of Arrest, William Kerr, Midland attorney.

September 21—Juvenile Problems, Special Agent D. W. Walters, FBI, Denver.

September 22—Observation and Patroling, Capt. Bob Drennan, Police Department, El Paso, and Interviews and the Taking of Investigative Notes, Drennan.

September 23—The Taking of Fingerprints, Special Agent Roy C. Dahl, El Paso.

September 24—Accident Investigation Procedures and Hit and Run Accident Investigations, Special Agent Luther Coulter, FBI, San Antonio.

September 25—Accident Report Writing, Preparation of Reports, Summary and Discussion, Special Agent Coulter.

September 26—Collection and Preservation of Physical Evidence, Special Agent Walters.

September 27—Plaster Casts, Special Agent Walters.

September 28—Practical Crime Scene Searches, Special Agent Walters.

MIDLANDERS ABROAD—Swiss Chalets, English Church Were European Trip High Spots

By FRANCES HAGAMAN

If you can't talk to them, you can use sign language, and a smile always works, Mrs. Don Sivalls said when asked if she had any difficulty in making herself understood during her recent trip to Europe.

Mrs. Sivalls, her daughter, Mary Martha, 311 West Louisiana Street, and her brother, Joe Earnest of Colorado City, left the last of May from New York City on the Holland-America ship Nieuw Amsterdam and returned the last of July on the French liner, Ile de France.

During their two months in Europe they visited nine countries and saw everything from motor boats on Venice's Grand Canal to window boxes of red geraniums in the windows of Swiss chalets.

"One reason that it was so nice for us," Mrs. Sivalls said, "is that my brother has been there twice before and knew all the language with which we came in contact."

Earnest is still in Europe. Saw Some Poverty

"Of course, we saw poverty," Mrs. Sivalls said, "but we were not trying to make a flying tour of Europe and come back solving its economic problems."

She added that there are still many reminders of the war but that except for the high food prices, the found costs very reasonable. The hotel prices were not high, she said.

"The tourist gets some things most average natives don't have, but we found no resentment toward us in any country," she said. "The people were lovely everywhere and appeared very glad to have us visit their countries."

"In the nine countries that we visited," Mrs. Sivalls added, "we found the American dollar and the Swiss franc the soundest money we could have and in some places the franc was a better medium of exchange than the dollar."

Like House Party

"I kept thinking I would run into somebody we knew, but the only familiar persons we saw were the group we met on the boat going over and a girl that Mary Martha had known ten years ago in camp. The people we met going over on the boat were like old friends as our paths crossed all over Europe."

The boat trip itself was wonderful, Mrs. Sivalls added. "It was just like one big house party with tea and dinner dances, a tennis court, a swimming pool and always something to do."

Going over, they docked at Southampton and took the boat train to London, where they stayed several days. From there, they went by car through the Shakespeare country, around the English Lakes and through Oxford to Edinburgh, Scotland, and back to London through York and Cambridge.

"The most interesting thing that we saw in London," Mrs. Sivalls said, "was the church and communion service that we attended in Westminster Abbey. Outside of that we saw just the usual thing—the palaces, towers and changing of the guards."

She added that there is still block after block of rubble and stone and rubbish left from the bombing of World War II years.

Visited Riviera

From London, they flew to Amsterdam, spent a weekend there and then took a train to Brussels, Belgium, and on to Paris. After spending a few days in Paris, they flew to the French Riviera.

"It was wonderful," Mrs. Sivalls said. "I could hardly get Mary Martha away. We saw movie stars and all sorts of interesting people while we were there."

On the Riviera, they visited Caen, Nice and Monte Carlo, then flew to Rome. They were in Rome four days, including the Fourth of July when they went to a cocktail party in the home of American Ambassador and Mrs. Dunn given for the American colony in Rome and several other guests.

From Rome they went to Sorrento where their train was met by horse-drawn carriages and on to Salerno over the Amalfi Drive. After visiting Pompei, they took a boat to the Isle of Capri where they saw the

Blue Grotto and other famous sights and then returned to Naples.

"Of all of Italy," Mrs. Sivalls said, "Naples is the most badly bombed."

Motorboats in Venice

Going on to Florence, they spent three days there and then went to Lido and on to Venice, which is, she said, "just like the postcards. The hotel we stayed in was an old Moorish castle and the singing gondoliers still row the gondolas around the canals. Now, however," she added, "there are motorboats on the Grand Canal and they disturb the picturesqueness of the city. The gondoliers are trying to have them outlawed."

From Venice, they flew to Luzerne, Switzerland. Mrs. Sivalls said, "Switzerland was my favorite of all. It is the cleanest and most beautiful place I ever saw."

She went on to say that the chalets are very beautiful and that almost every window there is a window box of red geraniums.

"Even the train stations have window boxes," she said.

Boat Trip Rhine

While in Switzerland, they went into Germany and took a boat up the Rhine to Shaffhausen, Switzerland, a city, bombed by mistake by the United States during the war.

"America has paid for the damage," Mrs. Sivalls said, "and the people told us that those who were not bombed out were jealous of those who were because they now have new houses."

From Switzerland, they flew to Paris, where they stayed until the return to New York on the maiden voyage of the Ile de France. They spent a few days there and stopped in Ohio and in St. Louis before returning to Midland.

Asked if she wanted to go back, Mrs. Sivalls said, "Yes, I want to go back and when I do I want to spend more time in Switzerland."

Angelo Publisher Is Author Of Book Of Bible Narratives

By WILLIAM C. BARNARD

SAN ANGELO—Bible stories are as thrilling as the daily newspaper, and Bible characters are real, vital people. The Great Book is ageless—and its narratives are beautiful.

From his youth, Houston Hart, San Angelo editor and publisher, had so believed.

He was a Bible reader, but laid no claim to Bible scholarship. Young people told him: "There is so much of the Bible, it's hard to find anything."

Hart had a challenging idea. "I took a Bible and a pencil," he says. "I marked some of the great stories. And I wondered how many of the millions of Bibles really are read."

In effect, Hart edited out "the begats," genealogy and other extraneous material not germane to the stories or the philosophy of the Bible.

From this slender beginning in an editor's home has come what the Oxford University Press says is a modern masterpiece. And the Oxford Press has been making beautiful books for 500 years.

The volume, "In Our Image" which goes to the public late in September is a strikingly illustrated book of great Bible narratives. The publishing project involves an outlay of \$250,000, including the 32 color plates made in England at a cost of \$8,000.

Kent Cooper, in a foreword, calls the idea for the book a stroke of genius.

Achievement Day In McCamey HD Clubs Set For October 2

McCAMEY—Achievement Day for McCamey Home Demonstration Clubs will be October 2 and plans for the day were made at a recent meeting of the clubs.

Achievement Day hostesses will be Mrs. N. C. House, Mrs. Ida Holt, Mrs. Skeins, Mrs. T. L. Fuller, Mrs. J. R. O'Callaghan, Mrs. F. J. Hogg and Mrs. J. Fleming.

Committees are: Baking exhibits, Mrs. Walter Harris, Myrna Holman and Lois Brown; exhibits, Mrs. F. G. Reimers, Mrs. J. T. Thomas, Mrs. F. Staff, Mrs. Grizzell, Mrs. Burnett, Mrs. Anderson, Mrs. C. K. West and Mrs. H. R. Maxcoy; club contacts, Mrs. J. T. Hayes, Mrs. J. R. Sumrall and Mrs. William Wolf; and publicity, Mrs. J. L. West, Mrs. Fred Gibson and Mrs. J. T. Gibbs.

Mrs. Wolf and Mrs. West were chosen as delegates to the state convention in Mineral Wells September 21 to 23, with Mrs. Fuller and Mrs. O'Callaghan as alternates. Mrs. Gibson, District Six vice president, also will attend.

Massachusetts is the only state governed under its original constitution.

Whether you wish a marker or a family monument we invite you to visit our memorial display. We have many lovely designs in both monuments and individual grave markers to choose from.

American Banking In Action—!

THE MORE WE PRODUCE THE MORE WE CAN SHARE

Everybody benefits under our American way of life. We produce twice as much today as we did in 1910. And income per household has jumped from under \$2400 to about \$4000 (in dollars of similar purchasing power). But it takes labor, plus management, plus bank credit, to get these results. By pulling together under our free enterprise system—workers, businessmen and bankers can make production hit a new peak.

"THE SHOP FOR YOUR CHILD!"

109 North Mainfield Midland, Texas

New Flower Shop Will Open Sunday

Quincy Belles-Flowers, a new Midland business at 305 West Illinois Street, is holding its formal opening Sunday.

Citizens are invited to visit the flower shop at their convenience before or after church attendance.

There will be special floral arrangements. Guests will be shown throughout the ultra-modern shop. Co-owners and operators of the shop are Mrs. Quincy Belle Snow and her daughter, Mrs. Quincy Belle Fenstermaker. Both received floral training in the Colorado School of Floral Design in Denver. The shop handles all kinds of flower cuts and takes special orders for customers. In addition, the customer may procure most varieties of potted plants.

Delivery service on any order is offered. "We wish to serve in the best way possible," the operators said. Special floral arrangements for parties and other occasions is featured by Quincy Belle-Flowers.

Armstrong County, S. D., has but of inhabitants "fewer than any other county in the United States."

Girl Scout Leaders School Will Open

Women who have volunteered as leaders of assistant leaders of Girl Scout troops, and those who will devote some time this year to assist with the Girl Scout program, are invited to the first session at 9:30 a.m. Monday of a group leadership course.

The meeting will be in the Children's Room of the Midland County Library with Mrs. I. A. Searies, area field director, in charge. Two-hour classes will continue through Friday, those on Tuesday and succeeding days in the Parson House of the Trinity Episcopal Church.

The training course is planned primarily to aid new troop leaders, who are being recruited this month in a campaign of the Midland Girl Scout Association. Mrs. Vernon Bottoms, organization chairman, reports that a number have volunteered but others are needed.

As a part of the campaign, posters have been placed in downtown store windows, and full displays have been arranged in the windows of the Midland Hardware and Furniture Company and Dunlap's. Mrs. Fred H. Speers and Mrs. Charles Horton have been in charge of this task, and the posters were made by Peggy Head and Jane Seakey.

Mrs. Searies has announced a tentative schedule for the training course, starting with registration Monday morning. The first hour each day will be spent in discussion of the leader's place in the Girl Scout program, and for the second hour the group will divide so that leaders of Brownie troops and those for intermediate troops may work on items of special interest.

Discussion the first morning will be on the questions, "What is Girl Scouting? Why does a girl wish to become a Girl Scout? What is the leader's job? The Girl Scout flag ceremony will be taught."

In the work groups, the Brownie leaders will hear the "Brownie Story" and start work on a program to illustrate it. Intermediate leaders will start work for two awards, the hostess and friendship badges, in a program to teach them how to lead their troop in work for awards. These two work programs will continue through the week.

To Learn Songs, Games. The subjects for Tuesday, to be discussed after a game is learned, include: Structural picture of Scouting, the troop committee, the program field, progression in the ranks and troop government—the girls' part in running the troop. An action song will be learned Wednesday morning, when the study period will be devoted to records which must be kept by a troop leader. Mrs. J. C. Rinker will assist the Brownie leaders in their work session to plan programs and Mrs. Searies will give the same assistance to intermediate troop leaders.

Discussion of outdoor meetings will follow songs Thursday morning, and in the work session Mrs. Rinker will help Brownie leaders plan the first meetings of their troops.

On Friday, each group will demonstrate the result of its study, and there will be an evaluation of the training course, including a discussion by Mrs. Rinker of future training plans and a welcome from Mrs. R. E. Morgan, association president, to the new leaders. She will introduce members of the association board, who will all be invited for the program and refreshments.

TO TEXAS WESTERN. Charles Ruckman, son of Mr. and Mrs. Charles Ruckman, left late in the week for El Paso where he enrolled as a student in Texas Western College.

Coffee Will Open—

(Continued From Page One)

Chubs, will be the speaker to report on the "Bread-Tribune Forum." December 7 — "Religion and Inspiration." The program will be dedicated to the memory of Mrs. Ivan Hood, a member who died last year. Mrs. Ernest Hedwell will be the speaker. Mrs. Lunt will hostess, and Mrs. Slough the program leader.

Christmas Party. December 21 — Mrs. C. L. Sherwood will review Vera Blinn's book, "Entertaining Lady," at a Christmas party with Mrs. Schenck and Mrs. Nelson as hostesses. Mrs. Carroll will direct the program.

January 4 — An art exhibit from the Texas Fine Arts Association will be presented and Neil Shaw, trustee speaker. Mrs. Westlund will be hostess and Mrs. Smith the leader. January 18 — "As Others See Us." Mrs. John Casselman will be hostess and a panel discussion, "Do You Know Your Neighbor?" will be presented by Mrs. Slough, Mrs. Shalely, Mrs. Smith and Mrs. Schenck. February 1 — Officers will be elected at the annual business meeting, with Mrs. Slough as hostess.

February 15 — Federation Day will be observed at a luncheon, with Mrs. Joseph Best of Wink, president of Eighth District federated clubs, as speaker.

March 1 — Texas Day will be observed with a review of "Shrine of Liberty—The Alamo," Bill Gable, by Mrs. Morgan, and a discussion of "Good Neighbor Relations With Mexico" by Mrs. Casselman. Mrs. Carroll will be hostess.

April 4 — "Bonnet Brunch" is planned, the proceeds to be contributed to the Midland Woman's Club building fund.

April 5 — "What Makes You Think?" Mrs. Lunt will be leader of a program including "Analysis of Propaganda," by the leader; "Russia's War of Words," by Mrs. Hughes, and "Telling the American Side of the Story," by Mrs. Sherwood. Mrs. Johnson will be the hostess.

April 18 — "Thoughts of Yesterday." Mrs. C. H. Shepard will discuss "Your People" and Mrs. Boring, "Names of the Land." Mrs. Johnson is to be leader and Mrs. Sherwood hostess.

May 3 — "Footnotes to History." Mrs. Hughes will be hostess. Mrs. Shepard leader, and Mrs. Westlund the speaker on "Medicine on the March."

May 17 — Group discussion of "Our Heritage of Beauty—The National Parks," will be led by Mrs. Keith. Mrs. Shepard will be hostess for this final meeting of the season.

+ Pecos News +

PECOS—Classes have become organized at the Barstow school for the present school term, according to C. W. Wright, school superintendent. Officers of the Senior Class include: Roy Gene Long, vice president, and Ricky Green, secretary-treasurer. Officials of the other classes include: Junior — Novelyn Taylor, president; Dick Hayes, vice president, and Kitty Hayes, secretary-treasurer. Sophomore — Jimmy Collins, president; M. A. H. and Leah Halliday, Freshman — Bill Cummings, Jackie Hayes and Lee Burkholder.

Work of replacing water mains on streets to be paved, and the laying of new water lines to the water tower in the southwest part of the city, as well as to new housing areas in the south and southwest sectors of the city, will begin in the near future, Mayor Stafford announced.

Elm Construction Company of Amarillo was awarded contract for the work by the city council in session August 19 on a bid of \$17,388.76. Material contract was let to Viking Supply Company of Dallas.

is expected to get underway just as soon as possible following a public hearing which is scheduled at City Hall September 23. The program is expected to cost \$188,215 with the property owners to pay \$18,215 of that amount and the city to pay \$170,000. Persons having objections to the program or desiring changes in it will be heard at the hearing. The work will be done by Brown & Root Construction Company, the same company that paved many blocks in the city a little over a year ago. In fact, the same contract the city had with the company at that time has been extended. Cost per foot varies with the width of the street. Lowest per front foot for curb, gutter and paving is \$2,324.00, while the highest is \$4,944.00.

Federal Court. With more than 100 live cases—mostly compensation and damage suits—on the docket, Fall term of Federal district court for the Western District of Texas, will get underway here Monday. Judge Ewing Thompson of El Paso, former congressman for this district, will preside over the court. Its jurisdiction extends over a dozen far-West Texas counties.

Crane TSTA Chapter Elects Officers And Names Committees

CRANE — Paul Patterson was elected second vice president of the local chapter of the Texas State Teachers' Association at a recent meeting. He selected Floyce Underhill, E. N. Sonnenberg and Brady Thomas to serve as a committee, with him, to draw up a constitution and by-laws for the group. Joan Hogan, Elise Waller, Betty Harrison, E. N. Sonnenberg, Brady Nix, George Chisum, Beryl Erickson and Edna Cougher were named by G. A. Carroll, president, as social chairmen for the social hours of this year's meetings.

Brady Nix, high school principal, spoke on the aims and accomplishments of the National Educators' Association. Joel Williamson gave a report on the recent progress of the Texas Association and Virgil Keyes reported on the Reading Conference held in Alpine in August.

Mr. and Mrs. Carroll and Mrs. Susie Kvatt were in charge of the social period after the business session.

High School Art Courses

To anyone appreciating artistic talent it's well worth a visit to Midland High School to see the displays in the new art department.

Miss Inez Parker, after teaching at South Western Institute of Technology in Oklahoma, came to MHS to head the department and supervise art in other Midland city schools. Miss Parker attended Texas University and Texas Technological College and received her BA degree from West Texas State College. Her MA degree was issued by Colorado State College of Education.

Since art has never been offered in the senior high school before only the first year course will be available. Next year, second and third year art will be taught. Any high school student may choose this elective if they wish to do so.

Various Fields
Art pupils will engage in various fields of work this year such as: oil painting, water coloring, ink work, fashion designing, lettering, textile painting, finger painting, crayola drawing, cartooning and ceramics—pottery and figurine making. Individual help will be given those who wish to specialize in any of these subjects.

During the Spring a variety of contests, including those of the National Scholastic Magazine, Pepsi Cola Bottling Company and the Ingersoll Watch Company. These contests are offered students who wish to enter work in the different fields of art. Prizes ranging from \$5 to \$500 are given as awards.

Students See Don Ameche

A group of Midland High School students met Movie Star Don Ameche while on a picnic at Cloverdale Park Labor Day.

On arriving at the park they noticed Ameche attending a picnic with another group. All were thrilled when introduced to him.

The students were impressed by the star's appearance, all agreed he looked just like they expected a movie star to look.

Joan Ragan, who was with the group, said: "He has one of the nicest voices I've ever heard."

Ronnie Estel said he was flattered when Ameche asked him how his class was broken up. He thinks "Mr. Ameche is a neat character."

Others in the group were Margie Carter, Max Schaefer, Jack Schaefer, Barbara Whitson, Peggy Whitson, David Weaver, Earl Chapman and Ronnie McFadden.

MHS

By DENZIL ANN KEMP

"Remember the Day" Has Been Chosen for the Junior Class Play. Chic Rouse, Dan Dickinson, Jimmy Chaucer Have Leading Roles. "Or, DeTemple Speaks to Gathering on San Francisco Conference." "Gold Jacket" Perform at First Football Game.

Do these headlines look vaguely familiar to you? If so it is probably because you saw them last September 19 in the first edition of the 48th Bulldog. School was under way in the little three story building on Texas Street, and the following facts were included in your Bulldog: "Senior Rings Arrive." "Work on the Catoctel Started." "Neil Adams, Dan Dickinson, Goss Yeager and Miss Boyd hard at work." "Drill Squad is Helped by Jerry Roberts, MHS-ex." And of course many other activities.

This was the time when Ronnie Estel, Buddy Stovall and other "cops" would have been just one of the crowd. Corky Moss had just graduated from crutches to cane as a result of a serious knee injury. And Alton Olson was suffering from broken knees and ankles sustained in an automobile accident.

And if you Bulldogs were excited when you left for Ysleta you may sympathize with Dee Bivens, Bill Little, Buster Buckingham, Jimmy Deavenport, Don Deel and many others of the 48 Bulldogs when they left for Austin High in El Paso. We are sure Coach Milam felt very much like "Tugboat" Jones did on Friday morning.

You saw the following names among the new students: Kathleen Lewis, Howard Ishar, Ronnie Estel, Joyce Forehand, Carol Glahn, Neil McDuffy, "Mike" Brunner, Marjorie Forrest, Peggy Greathouse, George James, Wanda Wise, Patsy Wood, Bobby Atkins, and Jimmy Lock. Do you remember how new and strange it was? Also among new names was Miss Reeves, a teacher whom by now most of us know. Of the nine new teachers last year she alone "stuck it out" and is still with us.

One of the greatest things of educational interest last year was Miss Harris' brand new debate and extemporaneous class. This year everyone is raving about the art course. The enrollment of 660 was the largest in the history of MHS but this year we can boast 720.

There was a grand total of 30 active clubs organized. This year we will probably have more! By these comparisons it is evident that this is going to be one of the biggest years of MHS's life and the enthusiasm of the students, faculty and parents continues to be as great as it is now, we are sure that it also will be one of the best.

Students Contribute To Polio Campaign

In cooperation with the Emergency Polio Drive in Midland, Midland High students contributed a total of \$52.02.

The contributions were collected Thursday.

Harvard University, founded in 1636, is the oldest college in the United States.

THE BULLDOG

Written By The Journalism Class Of Midland High School

Whadda You Know—Third Graders In Senior High School

By CAROL GLAHN

No, they're not freshmen! Those 11 knee-high students you've seen settling their way through the halls of MHS are third-graders. That's right, eight-year-olds in high school.

Despite a \$1,450,000 building program, the Midland public schools still can't accommodate all of the school-age population. As a result, the third grade classes from the provided North Elementary School are attending school in our building.

Quite proud of their quick promotion, all of the children agree that North Ward was nearly as much fun. Quoting the words of one pint-sized quarterback: "Who wouldn't rather play on a football field than on swings and slides?"

Speaking of football, the Bulldogs of 58 should be a bit of a team. All 34 of the "hunky" 60-pound boys are raring to go for a touchdown whenever Coach Jones gives the word.

Future Yell-Leaders
Even the little girls have that old "Pig-ent" Bulldog spirit. After witnessing the pep rally the other morning, several of them announced their intentions of being cheerleaders "so they could yell for the boys." Yes, they're interested in the boys even at that early age.

Although lacking in years, one third grader has seen much more of the old world than most of the high schoolers. Little Arch White, whose father is in the armed forces, lived in Austria for three years. He finds MHS much different from the private Austrian school he attended last year, but he likes it a lot, especially his teacher.

Midland High would like to welcome these to our school. They say their classrooms are beautiful. The only problem is that the blackboards, mounted at a high school level, are quite a stretch for the small fry.

Thanks
The student body of Midland High School would like to take this opportunity to extend our thanks for the new buildings. We realize and sincerely appreciate all the work which was done by the school board, taxpayers, the contractors, designers workmen and all of the many people, who made it possible. Yes, we give you, building, and equipment of which we can be proud.

Musical Notes

MHS has a new A Cappella and Choral Club director. He is Mr. R. C. Michener, who claims Ohio as his home although he came to Midland from Terrell, Texas.

During the first week of school Director Michener heard 50 A Cappella Choir and 43 Choral Club members try out for placements. The results in A Cappella were: 17 sopranos, 14 altos, eight tenors and 11 basses with Rosalind Leggett as piano accompanist.

The Choral Club has been divided into three parts using 13 sopranos (Mr. Michener is not superstitious), 14 second sopranos and 18 altos. Diana Daugherty accompanies the Choral Club.

He hopes to make A Cappella more interesting by using many various types of music. This was evident the first week as the choir practiced a Christmas hymn, a negro spiritual, and a group of romantic songs.

A girls' triple trio has been organized from the A Cappella group. The girls are very enthusiastic and you will undoubtedly hear more about them throughout the year.

Mr. Michener has made it known that his two choral groups will be open for engagements all year. Both choirs already are discussing plans for this year's Spring Music Festival.

DE Club Holds 'Get Acquainted Picnic'

The Midland High School DE Club, under the direction of Miss Ruth Donnell, held a "get acquainted picnic" at Cloverdale Park Friday evening.

Club officers will be chosen this week. There are 23 members in the DE Club for the 1949-50 school year, most of whom already are employed in Midland.

Members must be juniors or seniors and at least 14 years of age. This year, DE students are employed by various department and variety stores and oil companies.

Band Aides Will Meet Thursday

The Band Aides will begin activities for the new school year with a meeting Thursday in the new band hall. Meeting time is 7:30 p.m.

Regular meetings will be the second and fourth of each month.

Interested parents of band students are eligible for membership. All parents of band students and other persons interested in the betterment of the band are invited to the meeting Thursday night and to join the organization.

Membership fee is one dollar.

Looking Ahead

MONDAY: Pep assembly and choice clubs during activity period. TUESDAY: Pep meeting at 6:45 a.m. in front of school.

WEDNESDAY: Home room program. THURSDAY: Club meetings during activity period.

FRIDAY: Pep meeting at 6:45 a.m. in front of school.

Athlete Feats—

By DAN DICKINSON

Midland High School has played Austin High of El Paso in football annually since 1940. Midland leads the series five to four.

Midland	Austin
7	14 (1940)
12	12 (1941)
26	6 (1942)
26	6 (1943)
26	12 (1944)
26	24 (1945)
21	12 (1946)
6	6 (1947)
26	28 (1948)

Several Midland High football exes are playing in various colleges around the nation. A few of them are: Bill Richards, SMU; Denny Goode, HSU; Don Deel, HSU; Larry Buckingham, Wyoming University; Barney Hightower and Jim Edwards, Austin College; Lloyd Henderson, Oklahoma University; and Fredman.

Richard Patton is a fine example of Midland spirit. He was a 1948 football letterman but was ineligible for football his senior year so he turned up as one of our cheerleaders. Richard now has a quarter of an inch beard, which he isn't going to shave until Midland wins its first game.

Midland's new gymnasium will be one of the largest in West Texas. It has three full-size courts. The gym has dressing rooms for visiting teams, both boys and girls, as well as for our teams and PE classes. There will be an electric timer and score board. There are offices for coaches and PE instructors. Best of all, the seating is "telescopic" and some 1800 spectators can be seated. The gym will be ready in approximately three weeks.

Cecil Stephens and Luther Mooney, Bulldog backs, who both were injured in the opening game with Ysleta, are taking part in workouts. They will be ready to play against Austin High next Friday night.

P-TA Plans Youth Program For MHS

"Teamwork for Today's Youth" is the theme of the program planned by the Parent Teachers Association of Midland for this year.

Mrs. C. L. Stalcup is P-TA president and Mrs. M. B. Arick, first vice president and program chairman. Mrs. R. E. Throckmorton acts as treasurer.

The four membership chairmen are: Mrs. Cal Boykin, senior chairman; Mrs. Sherwood O'Neal, junior chairman; Mrs. J. E. Beakey, sophomore chairman; and Mrs. Robert Payne, freshman chairman.

Remaining officers: Mrs. Harry Miller, publicity chairman; Mrs. W. Patterson, goal sheet chairman; Mrs. W. W. Studdert, city council chairman; Mrs. Clint Dunagan, publication chairman; Mrs. George Gibson, hospitality chairman; Mrs. Earl Chapman, Youth Center chairman; Mrs. McKinley, year book chairman; Mrs. Robert Wood, budget and project chairman; and Mrs. W. Anguish, historian.

The next meeting will be held September 27 at 7:30 p.m. in the new Senior High School cafeteria. The program will be opened by Mr. C. F. Mathews, who will introduce the teachers.

One of the planned activities of the P-TA is to have a party or carnival at Halloween.

Band Notes

The MHS Band moved into its new band hall Monday.

The hall has seven sound-proof practice rooms, a director's office, library, uniform room, instrument storage room, and repair room.

Band rehearsals got under way a week late this year. The hall was incomplete and they had no place to begin this year's work.

The formation for the Midland-Austin High game follows: The drill squad forms a football which is to be scattered as though kicked. While this is happening, the band forms the letters 49 WYN. As soon as this is completed, the drill squad makes a larger football around it.

Five of this year's band students, Joe Barnett, Ole Stalcup, Dow Scott, Tony Dunagan and Russell Fuller, attended a three-day state marching clinic at San Antonio August 29.

There are seventy-four members in the band. Eighteen of these are new students.

The uniform of the band has a new requirement. White shoes are the latest thing for neatness in appearance.

The Odessa Junior College extended invitations to marching bands including our MHS Band for the opening game of the college's football season.

All bands marched onto the field and played. The Star-Spangled Banner was played for the half-time activities.

The MHS Band also participated in a local downtown parade for the Sheriff's posse Saturday afternoon. The parade marked the first performance for the band this year.

Traditions New—How About You?

(An Editorial)
New high school, new equipment, and a chance for everyone to turn over a new leaf—not necessarily scholastically, but in your attitude toward fellow students and teachers.

For years, it practically has been a tradition for a person to leave his name on each and every desk as a reminder that "so and so" was here. It's different this year, we hope. New desks and equipment of every kind only add to the pride of a new building. Let's keep the building so that always we will have pride in our "Alma Mater."

Students Told In Assembly—"You Are MHS"

A split assembly was held Monday in the study hall. The Seniors and Freshmen met first in a 15-minute session followed by the Juniors and Sophomores. Principal Mathews and Dean Masburn spoke to the two groups on school spirit and cooperation.

"You are Midland High School," Mathews said to the students. He urged the students to support 100 percent everything which Midland High School undertakes.

Masburn's talk was on conduct in the new building and the new policy concerning tardies and absences. Students are asked to let their teachers know when they plan to be out of town and also bring permits from their parents. Pupils will be allowed three tardies and after that number a discussion will take place with Dean Masburn.

Gold Jackets Elect Officers For Year

The Gold Jackets recently elected officers for the new year by popular vote.

Adale Blackman was elected captain. Next year she automatically will become drum major.

Also elected were two lieutenants and eight sergeants. The lieutenants are: Wanda Baker and Maggie Murphy. Sergeants are: Chalk Murray, Faye Montgomery, Wanda Hanks, Barbara Burnham, Melodee Burris, Wileta Tekell, Maxine Hill and Nancy McKinley.

Miss Donnell is drum major and Margie Carter is head majorette. Other majorettes are Gwen Roberts, Dorothy DeWulf, Ann Wells, Wilma Green and Emily Hamilton.

Love's Lane

By BILLIE LOVE

This year we start off with a record enrollment of 822 students and 130 seniors.

Some of the remarks heard around school about our new "Plant of Learning" have been everything but encouraging.

For instance, DE sponsor is lost without the perfect timing of the buzz saws to lull her students to sleep.

Just as you come in the main entrance, one of our clever slogans is posted prominently: "Don't smoke, hob nob." Actually, people aren't snobbing, they are just in too much of a hurry to find their class to notice any other poor struggling character in the halls.

For instance, June Haslip passed the remark: "Gee, this sure is a neat school," as she walked into the chemistry lab.

Short Lunch Hour
The new, shortened lunch hour has brought a new problem, but mainly from John Steinberger, who flounders discusses the schedule with Miss Gordon, Senior English teacher.

To quote John, "nuts" end of quote.

From the Exes' visits, it has been hard to tell who's who, for instance: Alex Oates came in and sang bass two mornings in this A Cappella section. Joe Mabes lent his voice.

John Feely decided that this school was too much for him so he waved goodbye to Maggie Murphy. There was a tear in her eye.

As this goes to press some new personnel was moved into the cafeteria and from the looks of it, this week might possibly be the opening of the cafeteria.

Annual Staff Ready For Work To Begin

The annual staff will soon be working hard on the 1950 edition of the Catoctel, according to Louise Boyd, sponsor.

The staff, elected last year by the student body, is composed of Dan Dickinson, editor; Eugene Cooper, assistant editor; Bill Branch, business manager; John Klingner, snapshot editor; and Bill Reeves, art editor.

Each staff member has a period for Annual Work. The Catoctel this year will have more art work and be one of the best ever put out in Midland High School.

Girl Drum Majors For Band, Drill Team

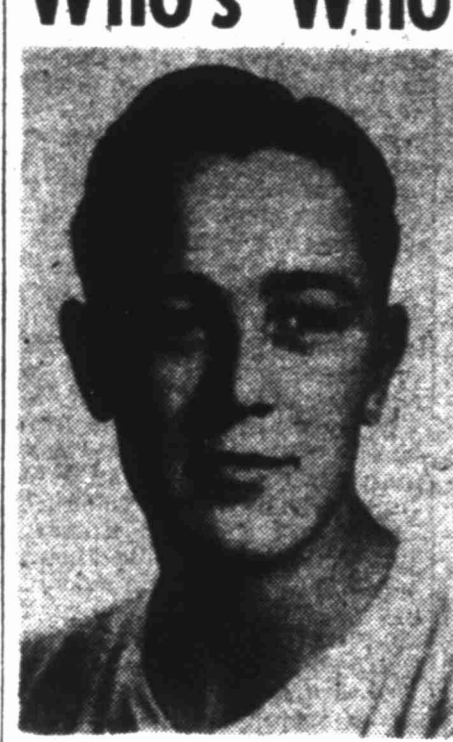

This year the band and the drill squad will both have girls for drum majors.

Tina Williams was elected last year as drum major for the Gold Jacket Band. She was named drum major for the band.

Beverly, a junior in MHS, plays the bassoon in the concert band. She has been in the band for three years. Tina served as captain of the Gold Jacket Band last year. She is a senior and this is her third year in the drill squad.

Beverly and Tina both attended the Drum Majors Clinic at Huntsville recently.

Who's Who

Preston Conner

On August 28, 1931, the state of Texas and the city of Corsicana had their total population increased by one fullback. His name is Robert Preston Conner.

This tall (six feet to be exact), brown-eyed, brown-haired Senior says his favorite hobby is wood-working and that Miss Gordon and Coach Atkins rank high on his "most admired person" list.

Bob, or Preston as he is sometimes called, is on the "A" team this year and when asked about the football team he said, "If we work and improve as we should, we should win some ball games."

Although he would not mention names, Bob says he prefers short, dark-haired girls with nice tans and pleasing personalities.

If you asked one of his pals for a description of Bob they probably would say: "Bob? Why he's a swell fellow." And that would be a good description.

A New Building And Confusion

Seniors, usually the most know-it-alls, were bewildered upon entering school September 6. Juniors and Sophomores were equally confused.

The new Midland High School building is the cause of this upset.

Expecting to find just another boring old high school, the students exclaimed at finding it to be interesting, although confusing.

There is no comparison between the science labs in the new building and the one in the old building. After all, look at all the fun we have swinging on the swivel chairs instead of sitting in the old straight desks. Ole Lie Stalcup says: "It's a whole lot better than the old one even though it is wet a lot of the time." Oh yes, there are faucets on the desks.

While passing the dramatics room, Virginia Breedlove was heard exclaiming: "It's something we've all wanted for a long time and to suddenly have it is wonderful." The young, secretary, Mary Nell, reports.

Room 117—Miss Parnelly, sponsor; Deanne Tabor, president; Martha Scharbauer, vice president; Tony Chapple, secretary-treasurer; Gloria Anguish, reporter; Peggy Reed, secretary; Mary Nell, reporter.

Room 119—Miss Parnelly, sponsor; Deanne Tabor, president; Martha Scharbauer, vice president; Tony Chapple, secretary-treasurer; Gloria Anguish, reporter; Peggy Reed, secretary; Mary Nell, reporter.

Room 121—Miss Parnelly, sponsor; Deanne Tabor, president; Martha Scharbauer, vice president; Tony Chapple, secretary-treasurer; Gloria Anguish, reporter; Peggy Reed, secretary; Mary Nell, reporter.

Room 123—Mr. Sligh, sponsor; Joe Barnett, president; Bob Peters, vice president; Beverly Keeling, secretary; June Haslip, reporter.

Room 216—Wanda Burnside, president; Kenneth Wright, vice president; Sue Johnson, secretary; Arnette, reporter.

Room 201—Mr. Beauchamp, sponsor; Ronnie Estel, president; Preston Conner, vice president; Donald Johnson, secretary-treasurer; Leeland Howard, reporter; Margie Carter, annual reporter; David Weaver, sergeant-at-arms.

Room 201—Mrs. Blair, sponsor; Jimmy Chaucer, president; Joann Ragan, vice president; Joanne Boykin, secretary; Max Schaefer, reporter; Wayne Richardson, sergeant-at-arms.

Room 206—Miss Gordon, sponsor; James Johnson, president; Sammy Koen, vice president; Helen Cartwright, secretary; Eddie Darnell, reporter.

Room 212—Roy Kinsley, president; Roddy Braun, secretary; Bobby Cast, reporter.

Police Patrol As Student Protection

Since Tuesday, September 6, there have been two patrol cars and two motorcycle policemen in the vicinity of Midland High School, as part of a safety plan for Midland students.

Captain O'Brien, Midland Police Department, emphasized the fact that parents and children will be requested to strictly abide by the traffic regulations laid down for the Midland school zones. The speed limit will be 15 miles per hour and no traffic signs have been posted near the schools. The crosswalks for pedestrians have been repainted.

Later on, Captain O'Brien said there would be a student safety patrol, which would be a "lot of help."

Parents of ALL school students are urged to drive next to the school curb for their children to get in or out of the car. This will avoid the danger of unnecessary crossing of the busy streets, thus risking the lives of their children.

'50 Senior Rings Arrive; Issued

The 1950 seniors now have definite proof they are seniors. Class rings were issued to the students Friday.

Any senior who is scratching his head out as to how the ring at a snags point—should not be blamed.

After all, another millions of his senior-year has been happily passed.

Auld Lang Syne

Out of 143 seniors of last year, 74 are attending colleges this fall. Texas Tech claimed more of our exes than any other school. Texas University and McMurray tied for second. The majority of the 49 for class will attend Texas colleges, universities or technical schools.

Here's where:
Texas Tech: Jimmy Conline, La Verne Estes, Thomas Friday, Duane Fritz, Arliss Ann Klebold, Jerry McDonald, Glenda Shoemaker, Jerry Webb, W. L. Thompson, Jimmy McGraw and Carolyn Schaeffer.
McMurray College: Joe Mabes, Iyla Kaye Mathews, Martin Meisner, Alex Oates, Peggy Whitson, Dorothy Wolfe and Joel Sims.
Texas University: Patsy Bray, Kenneth Nichols, Mo. Price and Charlie Wheat.

TCU: James Barber, Pat Benedict, Dick Downing, Mary Faye Ingram and Frank Robertson.
AOC: Melba Clarke, Lorella Hall, Eugene Heil and Velda Dee Figg.
Texas A&M: Ervin Baumann, Dan Branham, Billy Evans and Billy Seal.
Odessa Junior College: Russell Hucksby, Faye Manville and Clint Morgan.
North Texas State: Ronnie McFadden, Lynna Dell Moore and Enid T. Deel.

Hardin-Simmons: Donald Deel, Fred Harvey and John Murray.
Sul Ross: Raymond Doyle and Elvia Vaughn.
TSCW: Patsy Carrell and Nell Cole.
Baylor: Howard Bennett and Jo Ann Montgomery.
NTAC: P. D. Smith.
Southwest Texas State: Artis Lettewich.
Pasadena College: Nova Rogers and Ruth Streum.
Guilford College: Sarah Lew Link and Pat Pryor.
Christian College: Joan Wyche and Joy Garton.
Notre Dame: Leo Michael.
Wyoming University: Bill Little and Larry Buckingham.
Stanford University: Harry Lockamp.

Darlington College: Bill Secor.
Colorado University: Goss Yeager.
Anna Lee Brooks and Edwin Ware will attend Draughn's Business College in Lubbock. Joan Glass will take training at Memorial Hospital in Houston. Dick Monroe will attend Shanes Business College in Tulsa. Etta Ruth Murray will take training in the West Texas Hospital at Abilene.

Beauty, Culture, Efficient Service Offered By Library

One of the most attractive rooms in Midland High School is the new modern library. The library is open to all students during the school day. Miss Louise Boyd is head of this department and is assisted by volunteer pupils.

Four hundred new books have been ordered for the library and will be arriving soon. The library not only has new books but also subscribes to about 80 magazines and five newspapers. The newspapers are: "The New York Times," "The Midland Reporter-Telegram," "The Abilene Reporter-News," "The Fort Worth Star-Telegram" and "The Dallas Morning News."

Miss Boyd has requested pupils not to remove books from the shelves, but ask the assistants for help. These assistants are, at present, Maggie Murphy, Tina Williams, Rita Dunlap, Eddie Mae Hamlin, George Stump, Dorothy DeWulf, Shirley Jo Boyett, Shirley Pullian, and Jeanie Bunt.

Forty-Niners Club Set Host Schedule

Directors of the Forty-Niners Square Dance Club met for discussion of business Thursday night in the home of Mr. and Mrs. William Johnson.

They decided that the social chairman will appoint two couples to serve as hosts at each dance and to make up a program including guest callers or extra entertainment as they wish. Mr. and Mrs. Rex Galloup will be hosts for the next dance, in the Midland Officers Club next Thursday night.

Elected

Results of class elections Tuesday:
Senior Class — Tucker Johnson, president; Ole Stalcup, vice president; Helen Cartwright, secretary-treasurer; and Sammy Koen, sergeant-at-arms.

Junior Class — Jimmy O'Neal, president; Leon Chase, vice president.

Rayon Gabardine

How To Figure Your GI Insurance Dividend Slice

Veterans Administrator Carl Gray, left, and Harold W. Breining, assistant administrator for insurance, check over figures for proposed dividend payments on NSLI.

By DOUGLAS LARSEN
NEA Staff Correspondent

WASHINGTON—The fattest slice of GI insurance melon will go to veterans who were under 40 when they took up arms for Uncle Sam.

That's how the NSLI dividend works out in the first official calculations by the Veterans Administration. The top jackpot is \$528, and to qualify, all you have to do is belong to the exclusive veterans' group that:

Took out the full \$10,000 worth of NSLI in October.

The following table shows, at various ages, the monthly premium rate for National Service Life Insurance, the dividend scale, and the net premium, based on \$10,000 of NSLI:

Age at Issue	Dividend Scale	Prem. Rate	Net Prem.
15	\$0.55	\$0.63	\$0.08
16-17-18	.55	.64	.09
19-20-21	.55	.65	.10
22-23	.55	.66	.11
24-24	.55	.67	.12
26	.55	.68	.13
27-28	.55	.69	.14
29	.55	.70	.15
30	.55	.71	.16

97	.55	1.38	.83
98	.55	1.39	.84
99	.55	1.40	.85
100	.55	1.41	.86

Dividend scale: age 46, \$0.37; age 47, \$0.34; age 48, \$0.31; age 49, \$0.28; age 50, \$0.25; age 51, \$0.24; age 52, \$0.23; age 53, \$0.22; age 54, \$0.21; age 55 and over \$0.20.

November or December of 1940. Kept it in force through 1948. Were 40 or younger when you took it out.

Didn't miss any premium payments.

Even if you don't fit in that category, however, there will still be a nice slice of the \$2.8 billion special dividend which the Veterans Administration proposes to cut up among 16,000,000 GI policy holders starting in January.

To compute your share, you need only a few figures—the number of months you kept your policy in force, the face amount of the policy, and your age when you took it out. Then take a look at the table printed with this dispatch—and remember it doesn't make any difference whether you converted your policies or not.

Typical Example
Suppose, for example, you entered service in July, 1942, at the age of 40 or under, and signed up for the full \$10,000. Your premiums were paid by allotment from your service pay up to your discharge in October, 1945, at which time you dropped your insurance and made no further payments.

That means you had GI insurance in force for 40 months. Since you carried \$10,000 worth, you multiply the number of months by 10, making 400. Then you multiply that figure by the 55 cent dividend rate, as shown on the table. You'll find you're entitled to a \$220 dividend.

In computing the number of months your policy was in force, you must stop counting on the anniversary month in 1948 that you started your policy. For example, if you took out your policy in June, 1943, and have kept it in force to date, only count the months up to June, 1948. You will get dividends on

Typical Example
Suppose, for example, you entered service in July, 1942, at the age of 40 or under, and signed up for the full \$10,000. Your premiums were paid by allotment from your service pay up to your discharge in October, 1945, at which time you dropped your insurance and made no further payments.

That means you had GI insurance in force for 40 months. Since you carried \$10,000 worth, you multiply the number of months by 10, making 400. Then you multiply that figure by the 55 cent dividend rate, as shown on the table. You'll find you're entitled to a \$220 dividend.

In computing the number of months your policy was in force, you must stop counting on the anniversary month in 1948 that you started your policy. For example, if you took out your policy in June, 1943, and have kept it in force to date, only count the months up to June, 1948. You will get dividends on

November or December of 1940. Kept it in force through 1948. Were 40 or younger when you took it out.

Didn't miss any premium payments.

Even if you don't fit in that category, however, there will still be a nice slice of the \$2.8 billion special dividend which the Veterans Administration proposes to cut up among 16,000,000 GI policy holders starting in January.

To compute your share, you need only a few figures—the number of months you kept your policy in force, the face amount of the policy, and your age when you took it out. Then take a look at the table printed with this dispatch—and remember it doesn't make any difference whether you converted your policies or not.

Typical Example
Suppose, for example, you entered service in July, 1942, at the age of 40 or under, and signed up for the full \$10,000. Your premiums were paid by allotment from your service pay up to your discharge in October, 1945, at which time you dropped your insurance and made no further payments.

The Washington Merry-Go-Round

By Drew Pearson

(Copyright, 1949, By The Bell Syndicate, Inc.)
Drew Pearson says: U. S. submarines now can cross Atlantic without surfacing; Steel workers chafe at Murray's conservatism; Texan collects 30,000 books for Philippines.

WASHINGTON—In all the bitter row between the Army and Navy, the admirals have failed to let the public know about one naval activity for which they deserve great credit—submarines.

Perhaps this is because the cramped and grimy life of a submarine crew lacks gold braid and glamor. Also, there are no admirals commanding submarines; their place is on battleships. But at any rate, American submarines have made amazing progress, and undoubtedly will be the most important arm of the Navy in the future.

The end of the war saw German submarines with new breathing devices for underwater operation plus a rubber coat which prevented radar detection. If the war had lasted much longer, the new German subs would have wreaked havoc on American shipping.

Came V-E day and the Russians took over all Nazi submarine yards together with German scientists. Result: The Russian U-boat today is the most modern in the world.

However, the U. S. Navy, rushing to keep up with the Soviet, now has developed a new snorkel device permitting a sub to breathe underwater for days at a time. U. S. subs also are capable of the amazing underwater speed of 21 knots, though the cruising speed is only about eleven knots.

Not long ago an American U-boat actually crossed the Atlantic to England without once coming to the surface.

However, American experts, not happy with this progress, have learned that Russia has developed something better than the snorkel, namely a chemical which generates oxygen and thus feeds the engines without depending on the snorkel's supply extending to the surface. So the race for modernization of deadly undersea weapons continues.

Note—Top admirals were summoned to Washington from all over

the U. S. A. the other day for a secret conference to map a press campaign against further curtailment of the Navy. The admirals were worried over the bad press reaction to the B-36 smasher. However, they continued their smear tactics by featuring as an off-the-record speaker, Frank Hecht, president of the Navy League, who has been bitterly critical of Secretary of Defense Johnson. The meeting entirely neglected one of the finest and most essential jobs the Navy is doing—submarines.

Steel Workers Debate
The steel workers' acceptance of the fact-finding board's proposals in the steel strike wasn't nearly as harmonious as CIO Boss Phil Murray indicated to the press.

Murray correctly reported that the Steel Workers Wage Policy Committee had approved "unanimously" the board's findings. However, he neglected to say that some local steel union leaders kicked over the traces at a stormy three-hour meeting in Pittsburgh before a vote was taken.

The loudest protests were voiced by local union chiefs in Inland Steel Company plants, who pointed out that they previously had turned down an Inland offer approximately the 10-cents-an-hour increase for welfare and pension benefits recommended by the President's fact-finding board.

How, they asked Murray, could they now ask their members to accept something which they already had rejected as unsatisfactory? The local leaders implored Murray to hold out for at least part of the 12 1/2-cent-hourly straight wage boost originally demanded by the union.

The CIO chief replied that he still considered the 12 1/2-cent-hourly straight wage boost originally demanded by the union. The CIO chief replied that he still considered the 12 1/2-cent increase (in addition to the 10 cents for welfare and pension benefits) a just

demand. But, he argued that the steel workers probably couldn't get any more than the board's recommendation even if they staged a walkout. Furthermore, a strike would be inadvisable in view of the strong weight of public opinion behind the fact-finding board.

"Let's take what we can get and remain at work," advised the statesmanlike Murray. "I realize that our locals in some plants already are getting substantially what the board recommended in social security benefits and that others have been offered as much."

"Nevertheless, we are all together in this fight. If some locals have something the rest of our members do not have, let's even it up by accepting the board's proposal. We can come back for more later when the circumstances are favorable."

Friendship Books
H. A. Dunn of Austin, Texas, is a slim, slight, cheerful little man who works from about 5:30 a.m. each day as superintendent of the main building at the University of Texas.

Two years ago Dunn heard there was a need of books in the Philippines to replace the damage done to school libraries during the war. So on his own initiative he set out to do something about it. At the end of school semesters he talked students into donating their used textbooks to "the kids in the Philippines" instead of selling them to the second-hand bookstores.

Dunn kept boxes out in the hallways to receive the books, and working tirelessly with no help from others, he finally collected enough to ship to the Philippines the other day 30,000 books. Dunn's project was all his own; no sponsors, no organized drive, no money to help him—which makes him, in this country, a real servant of Brotherhood.

Capital News Capsules
Here is the inside reason on why President Truman suddenly agreed to let Congress appropriate \$15,000,000 for non-Communist China. Until 10 days ago, the President was dead set against giving a nickel to the Chinese. But recently he received a secret report from General MacArthur urging him to reconsider. MacArthur said it was possible to delay the Communist offensive indefinitely provided the United States would give aid di-

Martha Self 'Just Happened' To Start Work For C. Of C.

By FAYE SHELBOURNE

Accidents do happen and this one proved to be a blessing to the office of the Chamber of Commerce of Midland.

"It was just an accident that I started to work for the Chamber of Commerce in Lubbock," was the statement of Mrs. George L. (Martha) Self, office secretary of the Chamber of Commerce in Midland, when asked how she began chamber of commerce work.

She just happened to start to work for the Lubbock Chamber of Commerce when she applied for a temporary job to help out during the Panhandle-South Plains Fair in 1947. She intended to work only two months. However, she continued to work until she moved to Midland in January of this year, at which time she again was employed by a chamber of commerce.

Helps With Newcomer Problems
The dark haired, grey eyed, attractive secretary is the person whom many newcomers meet when they come to Midland seeking help on housing, eating places, shopping or other problems. She is the person who answers the many inquiries on the phone or in person about living conditions, population and other things which go with chamber of commerce inquiries.

But that is not all. She is the person who supplies the information for that person who wants to know how many blocks in a mile or what the name of that river in Colorado is.

It was just a few weeks ago that she was confronted with the complaint and question, "I've got sparrows—too many—what can I do to get rid of them?"

Persons seem to expect her to know or be able to find out everything. One woman called to ask for the name of a man to wash her windows. After a little while the same person called again to ask what the wages of a window washer should be.

"Why aren't there more flags up today?" (This was on Flag Day.) "Where can my son go to enlist in the Army?" These and many others are the usual or unusual questions which come across the desk of Mrs. Self.

While in the office a call came for a furnished house or apartment. Mrs. Self gave them the address, description and phone number of the only listing she had that fitted the needs of the caller.

"We try to help out in every way possible anything that is going on in town," Mrs. Self said. Several stacks of envelopes, addressed and stamped were on her desk ready to be mailed. These were invitations to the annual teacher's picnic.

"Actually, I do a little bit of everything," was the reply of Mrs. Self when asked what her duties were. She also does the stenographic work for Manager Delbert Downing and Assistant Manager DeWayne Davis.

Not only does she lead a busy life in the office of the Chamber of Commerce, but she has a full job in itself at home with her husband and six-year-old son, George. Asked if she found it rather difficult to do, she smiled and said, "Yes, and if everything doesn't work according to schedule, things become very difficult."

Mrs. George L. Self

possible anything that is going on in town," Mrs. Self said. Several stacks of envelopes, addressed and stamped were on her desk ready to be mailed. These were invitations to the annual teacher's picnic.

DADDY RINGTAIL

Daddy Ringtail And The Broken Window

Daddy Ringtail lives in a monkey house, right in the middle of the Great Forest. Uh-oh, because a window was broken.

"Tch! Tch! Tch!" said the Hufflepuff, the friendly wolf. He said it to show how sorry he was that he had done the breaking.

"Tch! Tch! Tch!" said Mother Ringtail. She said it to show that she too was sorry the window was broken.

They were standing there on the porch of the monkey house with the broken glass of the window all around them. "It was only an accident that I broke it, it was," said the Hufflepuff.

And so Mother Ringtail told him not to fret himself, because accidents do happen sometimes. The Hufflepuff chuckled to hear it. No sir, and no indeed. He wouldn't be fretting himself that he had broken the window of glass. Accidents

do indeed happen, and people aren't to blame for an accident, the Hufflepuff was thinking.

He began to sweep up the broken glass with a broom. "Crash!" There went another window where the Hufflepuff for an accident had poked the broom handle through it.

"Tch! Tch! Tch!" said the Hufflepuff. "That was another accident, it was."

Mother Ringtail told him not to fret himself, and again the Hufflepuff promised that he wouldn't. He began to sweep the glass some

more, even though Mother Ringtail had asked him please to give her the broom. The Hufflepuff was wanting to sweep up the glass he had broken, when—"Crash!" There the Hufflepuff's elbow had broken another part of the window for an accident. The Hufflepuff was turning around fast to see about it, when—"Crash!" His other elbow smashed through the only window that was left on that side of the house.

"Tch! Tch! Tch!" said the Hufflepuff. "I won't fret about this one either, because it was an accident just like the others."

And away went the Hufflepuff to the ground and on up the Elephant Path to find Mr. Pixit to do the fixing of the broken windows. The Hufflepuff whistled while he walked. He wasn't fretting at all. No sir. People aren't to blame for accidents.

But the trouble, you know, is that accidents are trouble just as much as trouble that isn't an accident. Happy not having them at your house. Happy day!

"Here comes mother—now I'll have to begin forward passing so I won't get tackled so much!"

TEXANS IN WASHINGTON—

Office Being Prepared For Tom Clark, First Texan On Highest Court

WASHINGTON—(AP)—Supreme Court Justice Tom Clark, the first Texan ever to sit on the nation's highest tribunal, will find a handsome three-room office suite ready for him when he gets back from a California vacation.

His staff has been getting things in order in the oak-paneled rooms formerly occupied by the late Justice Wiley B. Rutledge.

Clark's suite adjoins that of Chief Justice Fred Vinson and is almost directly and immediately behind the great high-ceilinged and beautiful white-marble court building.

Miss Alice O'Donnell, with Clark for years at the Justice Department, is still his secretary. She occupies the reception room in the center of the suite. On the left is the room of two law clerks. On the right are Clark's private quarters, equipped with a fireplace and private shower bathroom.

Three flags will stand on the floor to Clark's back as he sits at an enormous glass-topped desk. They are the American flag, the Texas flag and the flag of the Attorney General of the United States.

All cabinet members have a flag to denote their office and are allowed to take one with them when they leave the President's official family. They also take with them as their personal property the chair which they have used in their departmental headquarters. Clark had his chair sent to his Washington apartment.

Tailored For Occupant
Speaking of chairs, the black-leather ones in which the court formally sits are tailored to suit the occupant. Some have extraordinarily high backs. Each justice gets to have one that suits him personally.

Some justices in the past have complained that those with extremely high backs tend to make them stoop shouldered. So, one of the first things Clark has to do is try out the existing chairs for size.

Clark's chief law clerk will be Percy Don Williams, 26, who asked for leave of absence from the University of Texas law faculty to come to Washington.

Reared in Corsicana, Williams studied law at Harvard and taught at SMU at Dallas before going to the University of Texas staff. His mother, Mrs. P. D. Williams, lives in Dallas.

The other law clerk is Thomas Lawrence Tolson, formerly of Wisconsin. He served as an aide to Murphy and was retained by Clark.

Around The Capitol
An El Paso lawyer, Robert L. Holliday, wants to know why Mexican women can't enter this country to do house work just as male Mexicans are permitted on this side of the border as agricultural workers.

Writing Senator Connally (D-Texas), who turned the matter over to immigration officials for consideration, Holliday said:

"I have always been taught that the hand that rocks the cradle rules the world and I don't see why the department can't do something to make it easier in securing maids from Juarez."

While on the subject of Mexican laborers in this country:

Director Robert Goodwin of the Bureau of Employment Security says consideration is being given to establishing additional centers in Texas where farmers can recruit "wetbacks" who have entered the country illegally.

At the request of Ernest Williams of San Angelo, secretary of the Texas Sheep and Goat Raisers Association, and Manager M. D. Fanning of the San Angelo Chamber of Commerce, Connally took the matter up with federal officials. The Texans asked for a center at Del Rio or Eagle Pass.

"We are not presently able to make an absolute commitment," replied Goodwin, "because both the United States Employment Service and the Immigration and Naturalization Service will be fully occupied at Harlingen and El Paso for some time."

"After we have those two centers operating at daily totals which are consistent with demand, we will be able to look into feasibility of establishing at other points."

"We are entirely in sympathy with the idea of locating stations as close to supply and demand areas as possible."

"AB" Herman, the new \$20,000-a-year executive director of the Republican National Committee, once played professional baseball with the Wichita Falls team in the Texas League.

Hermann was administrative assistant to Senator Smith (R-NJ). After playing in minor leagues Hermann went to the Boston Braves in the National League.

Decal transfers on painted surfaces can be removed without damaging the paint surface if you do them with hot vinegar. Let the vinegar soak in a few minutes and the decals can then be wiped off.

Violators Handed By Remote Control

HERRIN, ILL. —(AP)—Overtime parking violators are handled by remote control by this Southern Illinois city.

If a motorist fails to pop his nickel in a parking meter or parks overtime, the mechanical cop automatically signals the violation. A patrolman posts a pink ticket on the derelict motorist's windshield. Its instructions save him the embarrassment of being haled into court. All he has to do is simply mail his fine—50 cents—to the city hall.

Officials have been frankly surprised at how much money comes in that way.

Farmer Breaks Up Hogs' Narcotics Ring

PLAINVIEW, NEB. —(AP)—William Bohl broke up a narcotics ring in his own feed lots last week.

When his hogs began to grow thin and wobble uncertainly about the feed lot, Bohl launched a one-man investigation. At the back of the feed lot he found the hogs jumping in the air to get at the last few leaves near the top of a lush stand of Marihuana plants.

After destroying the plants, Bohl said his hogs were "getting back to normal."

The American flag was first used at Couth's Bridge during the Revolutionary War.

Shirley May, Back Home, Says She'll Beat Channel In 1950

By SHIRLEY MAY FRANCE
(Copyright 1949 by NEA Service, Inc.)

NEW YORK —(P)— Now that I'm home—and I've had my temporary fill of French fried potatoes and milk shakes—I can't wait until I get back on the other side to beat that Channel next Summer.

I'm definitely planning to try again in 1950, and I'm also going to tell you about it through these stories in NEA Service. There's going to be one difference, however—next year's stories I hope will end with one that says, "Well, I did it!"

Looking back, I feel I made two mistakes that beat me. Those are mistakes we're going to eliminate next year.

The first mistake was that we went over too late in the season. I didn't have enough time to wait out the weather and pick out the best day. So next year, we're going over right after school lets out. Then we'll be able to wait patiently for THE day.

Picked Wrong Day
My second error was starting on the day I did. I knew it was a terrible day—newspapermen said it was the worst weather anybody ever started a Channel swim in. But let me tell you why I started, even though I knew the weather was awful.

You've got to understand my problem. I'd been over to France twice. I'd waited and waited for good weather, and then had to go back. I was getting impatient, and so was everybody else. Some newspapers and radio broadcasters were beginning to make cracks about me. But a Channel swimmer is just cutting his own throat if he starts on a bad day. And there had simply been no decent weather any day when I was at peak form.

Well, on the day that I finally went, I woke up about three in the morning. I went downstairs and had a steak for breakfast. Then I returned to my room and started greasing. I put on about 10 pounds of grease. You can imagine how excited I was at this point.

I walked along the beach to the starting point. There was grease in my hair and all over me, and we had about a quarter-mile to walk. Then we waited for my father, who was coming over from

Reunion: Shirley May France carries her four-year-old brother, Jackie, through LaGuardia Airport after arriving in New York.

England on the ferry with the latest weather reports.

Daddy Says "No"
There seemed to be millions and millions—hundreds, anyway—of people standing around. There were photographers snapping flash-bulbs. There were people wanting my autograph. It meant more waiting, and I'd been waiting for weeks. My dad finally came.

"Shirley," he said, "don't go. This is a bad day. I don't think you ought to risk it, but it's up to you."

I thought for a minute. Then I looked at all the people standing around. I remembered those cracks in the papers. So I decided, well, I'll do it. And I walked into the Channel.

You know the rest of the story. For the first five hours I battled waves six and seven feet high. The grease was all washed off me. And I was swept off my course.

Cold Wins Battle
It seemed like I was swimming in the same place for hours. Then things got better and the tide changed. The sun came out for about two hours and I made good progress. But it was all too late. Out the grease protection, the cold just crept through me. My hands were so cold I couldn't

move my fingers. They were so cold, in fact, that for two nights afterwards I had to have them taped into a fist. You know all that, and about my disappointment.

The nicest part of my whole trip to England, I think, was coming home. Oh, I liked England and what little I saw of France. But I certainly got a thrill out of coming back here.

The plane trip home was wonderful. The weather was fine, the plane ride was smooth—much smoother than the Channel—and the captain let me come into the cabin for a while, which was exciting.

While I was in England, I didn't have much chance for sight-seeing. I was in training most of the day, and it didn't leave much spare time. I did get to see Westminster Abbey, Big Ben and the famous Wax Museum. That was horrible—you'd think those wax statues were real!

French Fried Potatoes
A very nice part of my whole adventure was getting those steaks from NEA Service. They came every day and were wonderful. I had them twice a day—for lunch and tea, which is the English supper. But I think my mother could have cooked them better.

As soon as I got to England, after my swim, I chucked my training routine. I won't go back to my callisthenics and diet until about Christmas. My first day after training, I filled up on fried things—I had fried eggs and bacon for breakfast and fried fish and French fried potatoes for lunch. And I've been swizzling milk shakes since I got here, since they don't have them in England.

During my swim there were about 20 boats with me, as well as six or seven airplanes, some carrier pigeons and walkie-talkies. Coach Harry Boudakian thought all that commotion would upset me, so he had me fix my gaze on one spot on the boat. That helped, but I couldn't avoid thinking that all those people were there and all that ship and airplane activity was going on because of me. And it made me feel a little funny.

McCamey News

McCAMEY—The Rev. and Mrs. W. I. Lee, Mrs. Jack Ott, S. R. Braly, N. C. Hays and Preston Collis attended the State Sunday School Convention in San Antonio recently.

Bob Barger left for Long Beach, Calif., last week to visit his son, Jack Tilson and family. He plans to return this weekend.

Jess Wade, chairman of the National Emergency Polio Drive in Upton County, announced this week the date for the county-wide drive has been changed. The emergency drive will open Monday and continue through Sunday.

The public is invited to attend the Everyman's Bible Class, according to Tom Edwards, secretary. The class meets each Sunday in the Lions Club building.

PATIENT DISMISSED

Mrs. J. R. York was discharged Saturday from Western Clinic Hospital where she underwent major surgery recently.

Sitting Pretty

By ALICIA HART
NEA Staff Writer

Ever notice the graceful way an actress uses her legs when she sits down and crosses them?

One of the reasons why is because she is trained in the art of crossing her legs. If she crosses them above the knees, the graceful slant legs take comes from a trick of swinging them a little off center and holding legs together in a line that is almost parallel.

There are other tricks of sitting pretty which an actress is taught.

Legs crossed over the knees will look graceful if they are swung off-center and held almost parallel to each other.

She reaches for her skirt from the back of her hips and pulls the fullness to the front before she sits. This is graceful as well as practical. Her skirt doesn't crush when she sits.

An actress is also taught to back up to a chair and "feel" for it with her legs before she settles down. When a woman does that—whether the woman is Mrs. John Jones seeking a chair for a game of bridge or an actress displaying her grace to an audience—she takes no chances of missing her aim when she sits.

VISITING PARENTS

Mrs. H. B. Arnold, Jr., and son, of Chaw Field, S. C., are here visiting her parents, Mr. and Mrs. John P. Butler, 1603 West Holloway.

Hudson's the Success Story of the Year

and we're making it an even greater story with

Better Deals for You

In the seven months since the end of the car shortage, when people could pick and choose among makes of cars, New Hudson sales have jumped more

than 30 per cent over the same period last year! Already, more than 114,000 people have switched from cars of other makes to own the New Hudson!

HUDSON A LEADER IN RESALE VALUE!
National Automobile Dealers Association Official Used Car Guide books show "step-down" Hudsons commanding top prices in the nation's used car markets!

NEW HUDSON

ONLY CAR WITH THE STEP-DOWN DESIGN

NATURALLY, we want to add to Hudson's great success by making even more friends for this exciting car—right here in this community.

And that's what we're doing—with better deals for you!

So come in! Enjoy a Revelation Ride in the only car that brings you the most of the four important advantages motorists have always wanted—most—beauty, roominess, road-worthiness and all-round performance.

Get a good look at America's 4-Most Car—the car, for example, voted by millions, "Most beautiful!"

A low build is the basis for really modern beauty, and the New Hudson, thanks to "step-down" design, is the lowest built car of all—yet there's full road clearance.

When you come in, be sure to bring your car along! We really mean "BETTER DEALS FOR YOU!"

Right now, we're out to win still more friends in this area for the years-ahead New Hudson!
