Chinese Envoy Says Reds Are Against Peace

UNITED NATIONS, N. Y., Nov. 13 (AP)—Nationalist China's Foreign Minister George K. C. Yeh charged today that "Stalin and his Communist stooges do not really want a truce" in Korea and called on the U. N. to declare Communism a threat to the world's peace and security.

Making his country's major policy address to the U. N.'s 60-nation General Assembly, Yeh said the Chinese Reds have suffered such huge casualties that the Peiping government does not dare to face its people "empty-handed."

Although it is commonly assumed that only the question of sending home prisoners is holding up a truce, Yeh declared, the fundamental problem is that the Reds do not want a truce unless it will "solidify and strengthen the ranks of world Communism."

Yeh pointed out that some delegations have sought to solve the repatriation problem through transfer of prisoners to the care of neutral countries. But, he said, this might turn out to be only a delayed manner of forcibly sending home those Communist prisoners who have said they don't want to go.

The Communists, Yeh said, could be expected to put "direct and indirect pressure" on the prisoners once they were temporarily in their neutral refuges.

Yeh also lashed world Communism for infiltrating and taking advantage of national freedom movements throughout the world.

He recalled that China had struggled for years to free itself from colonialism and expressed his country's sympathy for similar movements in other areas. But, he warned, those countries should be on their guard lest the Reds use their nationalist movements "to pursue their own nefarious designs."

Wildcat Staked In Howard For Clear Fork Pay

Robinson Drilling Co. of Colorado City has spotted location for a wildcat in Northeast Howard County.

It is the No. 1 Herman Gartner, 330 feet from south and 2,310 feet from west lines of section 67-20-LaVaca Navigation survey, three miles northeast of Vincent.

Rotary tools will be moved in at once to drill to 5,000 feet to test the Clear Fork pay.

FISHER LOCATION

Rowen & Hope of San Antonio has staked the No. 1 T. G. Elliott as a Fisher County wildcat three and one-fourth miles southwest of Roby. It is 330 feet from south and 660 feet from west lines of the northeast quarter of tract 23-306-El Paso County School Land survey

Operations will begin in the near future to drill to 6,800 feet with rotary tools to test the Ellenburger.

KENT WILDCAT

General American No. 1 Atkins, Kent County wildcat, flowed to pits to clean for an unreported length of time Wednesday. During most of that time the flow through a three - fourths inch choke averaged 10 barrels of fluid per hour. There was a shakeout of 15 to 30 per cent water.

Just before the well was shutin, shakeout settled to two per cent water and 15 per cent basic sediment. The well is now shutin while operator is hooking up tank batteries to test and complete as some sort of discovery.

HOWARD COUNTY

Pan American and Seaboard No. 1 Pauline Hamlin, Northwest Howard wildcat, is circulating while waiting on orders. It had a drill-steam test at 8,247-273 feet with tool open 45 minutes. Gas surfaced in 40 minutes, and recovery was 120 feet gas cut salty drilling mud and 30 feet muddy salt water with no shows of oil. It may run pipe and make a production test on shows already found in the reef.

Two new field locations have been staked in the Coronet 2900 field of Northeast Howard. Basin Oil Co. of Big Spring will drill to 3,000 feet with its No. 1 Chester L. Jones. It is 330 feet from north and 990 feet from west lines of the northwest quarter of section 10-26-H&TC, two miles east of Vincent. It will use combination tools. Cosden Oil Corp. has staked the No. 1-E Jones 330 feet from west and south lines of the north half of the southeast quarter of section 59-20-LaVaca Navigation survey. It will begin at once to drill to 3,000 feet to the Permian lime.

STONEWALL COUNTY

T. F. Hunter of Wichita Falls has located a wildcat in Stonewall County as the No. 1 Mary B. Lopez, 660 feet from south and west lines of section 201-D-H&TC, four and one-half miles west of the Lake Aspermont field. It will drill to 7,000 feet to test the Ellenburger beginning at once.

South African Racial Law Is Called Illegal

BLOEMFONTEIN, South Africa, (AP)—South Africa's Appeal Court today unanimously branded Prime Minister Daniel F. Malan's High Court of Parliament as illegal. The court's action posed new threats of grave civil strife for the race-torn country.

The five judges—their country's highest court until creation of the parliamentary tribunal—dismissed the government's appeal against the Supreme (lower) Courts ruling that Parliament acted unconstitutionally in setting itself up as the highest court to rule on constitutional questions.

Parliament, in which Malan's Nationalists have a small majority, took that action after the courts struck down a key law in the premier's "White supremacy" program.

The Appeal Court's action left Malan two possible courses of action:

1—He could defy the verdict and call on the High Court of Parliament to rule itself a legal body.

2—He could expect the verdict and call an early general election in which he would seek a large enough majority to re-enact his disputed race laws within the framework of the Constitution.

The nation already is torn by recurring bloodshed and violence and a Negro civil disobedience campaign against restrictive laws.

Snyder Soldier Is Wounded

Pfc. Floyd L. Niedecken of Snyder has been wounded in Korea, according to a letter from him received yesterday by his sister, Mrs. Alfred Vernon, 2705 Avenue H.

Mrs. Vernon said her brother suffered only slight wounding by enemy shrapnel while figthing on Triangle Hill near Kumhwa. Niedecken said in his letter, dated Nov. 4, that he was back in duty with his company of combat engineers. He was wounded Oct. 20.

No official notice has been received from the war department by either Mrs. Vernon or their parents, Mr. and Mrs. H. G. Niedecken, 509 Nineteenth Street, she said.

Niedecken entered the service a little over a year ago, was at Fort Sill eight or nine months, and has been overseas about four months. He is with the 13th Engineering Combat Battalion.

The 21-year-old soldier was born and reared in Snyder.

SHOT WHILE AT PLAY

His face grimmacing with pain, 11-year-old George Garcia lies in the arms of his uncle, Leo Ruybal, 20, in Denver, Colo., after he was accidently shot in the shoulder while playing with another boy. Police said the boys were handling an old shotgun and it discharged unexpectedly. The Garcia boy was reported in dangerous condition. This dramatic photo was made by Dean Conger of the Denver Post.

Eisenhower To Say Little To President

AUGUSTA, Ga. (AP)—President-elect Dwight D. Eisenhower reportedly will steer clear of any policy commitments to President Truman when they confer at the White House.

Eisenhower associates who asked not to be named said his role at the conference will be mainly that of a listener, although they emphasized that he agrees with the President that the session will amount to a demonstration of American unity.

The White House announced yesterday that the Eisenhower-Truman meeting has been set for 2 p.m. (EST) Tuesday.

In proposing the meeting last week, the President said it would help achieve an orderly transition from the old administration to the new. He mentioned a need for discussion of world problems.

Eisenhower replied that he shared Truman's belief "that we may present to the world an American unity in basic issues."

Over the week-end, the President-elect's headquarters put out a statement which said in effect that any pre-inauguration conferences with Truman administration officials would in no way bind the President-elect as to Republican policy.

The statement was intended to make it clear, the general's associates said, that any policy decisions before inauguration day—Jan. 20—would be the responsibility of the out-going administration.

Eisenhower reportedly feels strongly that it would be a mistake for him to deal in any other way at Tuesday's meeting—in either the international or the domestic fields.

Eisenhower, meanwhile, is seeking a cross section of Republican leaders' views on the Korean War situation in advance of his trip to the war zone.

That is one of the major purpose of a series of conferences the general will hold, starting with a session at his vacation retreat here tomorrow with Gov. Thomas E. Dewey of New York.

Humidity High But No Rain

By The Associated Press

Light southerly winds from the Gulf of Mexico increased the amount of moisture in the air over dry, drought-stricken Texas Thursday and brought renewed hopes of rain.

All that was needed, the Weather Bureau said, was a slow-moving cold front from the north—then, presto, precipitation for seared pastures and suffering crops.

But the weather spokesmen warned:

"Too soon to predict anything now. Maybe we can tell by tonight."

Meanwhile, all of Texas except the western section continued to warm up slightly Thursday and there was increasing cloudiness over North Central Texas.

Humidities were slowly increasing in the east, north central and south central areas while West Texas stayed partly cloudy.

Highest temperatures in the state Wednesday ranged from Galveston's low 63-degree maximum to 78 at Childress. Most sections had comfortable afternoon temperatures between 65 and 75 degrees.

Strong winds whipped through West Texas and the Panhandle. Abilene reported a 27 mile an hour wind, with gusts up to 34; San Angelo gusts up to 29 and Amarillo gusts up to 25 miles an hour at mid-morning.

Price Daniel May Be Left Out Of Caucus

WASHINGTON (AP) — Sen. Humphrey (D-Minn) said today Democratic senators should welcome Sen. Wayne Morse of Oregon into their party caucus if he wants to come.

Morse, turning against President-elect Dwight D. Eisenhower during the presidential campaign, quit the Republican party to support Gov. Adlai E. Stevenson of Illinois, the Democratic nominee, and declared himself an independent.

Whether Republican senators will take reprisals against Morse in the new Senate convening Jan. 3, possibly depriving him of his present choice committee assignments, is uncertain. Morse now holds places on the Armed Services and Labor Committees.

Humphrey, a leader of the "New Deal-Fair Deal" wing of the Democratic party, told a reporter the Democrats should throw open the door to Morse.

On the other hand, Humphrey said that Democratic senators who "turn their backs on the national party ticket also ought to receive their reward"—in less preferential treatment.

The matter of reprisals against Democrats who "supported the opposition" should be considered in connection with committee assignments, Humphrey said, at the caucus of Democratic senators early next year.

In a separate interview, Sen. Hunt (D-Wyo), said anyone who used the Democratic party to get nominated and then support the Republicans "doesn't belong in the Democratic caucus."

Neither Hunt nor Humphrey called any names.

Senator-elect Price Daniel of Texas, a Democrat who had Republican endorsement, campaigned openly for Eisenhower, Sen. Harry F. Byrd, Virginia Democratic leader, stopped short of urging Eisenhower's election but he disavowed the Stevenson-Sparkman ticket.

In Nevada Sen. Pat McCarran, another veteran Democrat, worked for the re-election of Republican Sen. George Malone and also exchanged barbed remarks with Stevenson.

Indians Work On Peace Plan

NEW DELHI, India (AP)—Authoritative Indian sources said today that the Indian government is working out a new Korean truce proposal providing for the screening of prisoners by neutral nations and voluntary repatriation of the POWs.

The question of prisoner repatriation is the sole issue holding up the recessed Korean armistice talks at Panmunjom.

Under the new Indian plan as reported here, the United Nations would agree in principle that all prisoners should be sent home in keeping with the Communist interpetation of the spirit of the Geneva Convention, but Red China and North Korea in turn would agree that no prisoner actually would be sent home unless the screening showed he wanted to go.

Actress Misses Everything In Effort To Marry, Start Trip

SAN JOSE, Calif. (AP) — Actress Joan Fontaine's third marriage began like something right out of a slapstick movie script — a lost trousseau, a misplaced wedding license, a missed train, a missed plane and many madly dashing taxicabs and private cars.

Early misadventures postponed the wedding two hours; later ones delayed the wedding trip 24 hours. But as in all good scripts, every one is happy.

It went like this:

The blonde, 35-year-old actress and Collier Young, handsome, 44-year-old film producer, planned to marry quietly at nearby Saratoga.

But when they arrived yesterday from Hollywood they learned their baggage had missed their plane.

In the luggage was Miss Fontaine's wedding outfit, all her going-away clothes, Young's suits—and the marriage license.

The luggage was placed aboard two other northbound planes.

Taxicabs rushed it from San Francisco airport 40 miles to Saratoga.

The delayed marriage was witnessed by the bride's mother and stepfather and her adopted daughter, Martita Pareja, 7, who was flown from school at Paris.

The newlyweds raced 60 miles by car to Oakland to board the streamliner, City of San Fransico, for Chicago. But the train, held 10 minutes for them, had gone.

United Air Lines then gave them space on a plane for Reno, where they could board the train.

A 20 mile dash by car to San Francisco Airport brought more bad news:

The plane had left. The airline had expected them to board it at Oakland Airport.

With that, Mr. and Mrs. Young gave up — over night. They made reservations to board a plane tonight for Chicago.

Miss Fontaine, formerly was wed to actor Brian Aherne and later to producer William Dozier. Young once was married to actress Ida Lupino.

Unverified Charge Of Gas Warfare Made By South Korean Officers

CENTRAL FRONT, Korea, Friday, Nov. 14, (AP) — South Korean troops, driven from Sniper Ridge early today, charged that Chinese Communist artillery fired gas shells into their positions.

The report was without further confirmation.

Members of a ROK company on the drive were quoted by a Korean division headquarters as saying that after the shells landed they could not breath.

American officers with the South Koreans began an immediate investigation. They emphasized that there was no confirmation and that the report should be treated with extreme caution.

They pointed out there had been numerous past instances in the Korean War in which phosphorous or smoke shells, or even fumes from high explosive shells, have been mistaken for gas by soldiers.

A special team of U. S. chemical warfare officers was ordered to the front within an hour to make a technical investigation.

Survivors of the ridge action were being rushed to a medical center for examination and questioning.

One of the men of the company hit was examined by a doctor who reported the soldier was definitely ill. The doctor said it was possible the illness might have been caused by fumes from old ammunition.

SEOUL, Friday, Nov. 14 (AP)—Screaming Chinese infantrymen early today threw the Allies from Pinpoint Hill on Sniper Ridge in a furious night battle at close quarters.

Elements of two Chinese Red battalions, possibly 1,000 men, overran the central front height for the 14th time in a month of battle, field dispatches said. They struck behind heavy artillery fire.

South Korean defenders once more were pushed south to lower heights on shell-torn Sniper Ridge. Heavy fighting still was in progress there.

AP War Correspondent John Randolph, on the central front, said the Reds hit allied positions on Pinpoint Hill with 500 to 750 men at 11:10 p.m.

Five hours earlier Allied artillery routed about 750 Reds advancing on sniper from the east.

Pinpoint is the Allies' northernmost stronghold on Sniper.

United Nations officers said the Thursday night attack obviously was a Communist attempt to drive South Korean infantrymen from Pinpoint for the 14th time in the 31-day battle for the Kumhwa ridges.

CUE FROM GRANDPOP

Two-year-old Renske Quax, of Haarlem, Holland, ponders a billard problem with the aid of a chair. The youngster, a chip off the old cue rack, is said to have inherited his interest in the pastime from his grandfather, a devotee of the game.

Real News Blackout Planned For Eisenhower's Korea Trip

SEOUL, Nov. 13 (AP)—The Eighth Army's public information officer today predicted a news blackout during President - Elect Dwight Eisenhower's visit—and said:

"If a blackout is ordered, it's really going to be one!"

Lt. Col. R. P. Rosengren said a final decision had not been made, but it was probable the world would get no news of Eisenhower's trip until after he had left this war-torn nation.

Date of Eisenhower's arrival is a closely guarded secret.

Rosengren is completing these elaborate and detailed plans to handle the 300 correspondents he expects to cover the visit:

When Eisenhower arrives in Korea, his plane will taxi to a grandstand 60 feet long and 18 feet deep. Correspondents will be on the grandstand. Photographers will be nearest the door of the aircraft in order to get photos of the president-elect stepping out.

After official greetings, Rosengren will invite Eisenhower to say anything he wishes to the correspondents.

Planes and helicopters will carry at least 25 reporters, photographers and radio men with Eisenhower on his tour around Korea. Each of the major U. S. press services will have a reporter and still photographer on this special airlift. Places also will be reserved for movie or television men.

Correspondents themselves will choose the others to total 25. Pooler arrangements will be made for correspondents and photographers who do not get in the air lift.

There will be no rules against correspondents being at places where the president-elect will land and probably there will be many at each stop.

Rosengren is setting up a big press room for correspondents in the compound of Eighth Army headquarters here.

Should there be no blackout after Eisenhower lands safely in Korea, army censors, telephones and teletype machines will get the news to the world as swiftly as possible.

Crash Probably Kills Eleven

SHELTON, Wash., Nov. 13 (AP)—A Navy four-engine Privateer plane crashed on an Olympic Peninsula hillside last night, probably killing all 11 men aboard.

Through the rainy night, flares were dropped and spotlights stabbed downward as planes attempted to locate the wreckage for ground searchers.

Don Ragan, a dairy farmer living in the Skokomish Valley area, reported having seen a large plane flying low and a "big flash when she hit."

Ragan said the plane's gas tanks apparently exploded—"I don't see how anyone could have lived." He estimated the distance as at least a mile and a half from his farm.

Warmer Weather Here

The high temperature yesterday was 74 degrees, according to Mrs. D. P. Strayhorn, official weather observer. Last night's low reading was 35 degrees, but the mercury had risen to 46 degrees by 7:30 o'clock this morning, she said.

Midland Man Killed

MIDLAND, Nov. 13 (AP) — Glen Rogers, 28, construction company employee, was shot and killed here last night during a quarrel with a fellow employee in a trailer camp.

Police Lt. Dick Hemingway said the other man, 27, admitted in a statement that he had shot Rogers and said Rogers had threatened to hit him over the head with a whisky bottle.

Truman Offered Job

GARLAND, Nov. 13 (AP)—Resistol Hats, Inc., has offered President Truman a job as field representative when he finishes his term of office, a company spokesman said today.

Robert Roth said the offer to the president was made by Harry Rolnick, the company president.

Roth said that he did not know what salary the president had been offered.

WEATHER

WEST TEXAS: Partly cloudy Thursday, Thursday night and Friday. No important temperature changes.

EAST TEXAS and SOUTH CENTRAL TEXAS: Fair and warmer Thursday and Thursday night. Friday increasing cloudiness and mild. Increasing humidity. Moderate southerly winds becoming fresh Friday.

NORTH CENTRAL TEXAS: Fair and a little warmer Thursday and Thursday night. Friday partly cloudy and mild. Increasing humidity. Fresh southerly winds.

Ike Supposed To Confer With State Department About Iran

WASHINGTON (AP)—State Department officials are expected to confer with President-elect Eisenhower or his representatives next week on a new formula for solving the Iranian problem.

It is understood also that the new approach is a subject for discussion between secretary of State Acheson and Britsh Foreign Sec- New York.

The central idea of the formula seems designed to get Iranian oil flowing out and money for it flowing in again at the earliest possible moment—without final settlement of the dispute between Iran and Britain over nationalization of Iran's oil industry.

State Department authorities feel that the longer the present impasse continues—and various Iranian agencies like the army and civil service go unpaid—the greater becomes the danger of a collapse of civil authority and the rise of Communist power in this strategic Middle Eastern land.

In the past these authorities have worked on the theory that a legal settlement of the Anglo-Iranian dispute, critical since Iran seized British-owned oil properties there last year, should logically precede or be a part of any settlement reviving the oil industry under Iranian control. But the new approach would relegate legal settlement to a lesser priority.

Eisenhower will have a chance to hear about this plan when he meets with President Truman—at 2 p.m. (EST) next Tuesday, according to the White House—to prepare for an orderly change of administrations. Eisenhower has designated Sen Lodge (R-Mass.) as his State Department liaison man.

Despite appeals from Prime Minister Churchill of Great Britain and President Truman, Iranian Premier Mossadegh has failed to agree to any settlement formula thus far put forward. Mossadegh last month broke relations with the British government.

Informants do not appear highly optimistic about the new proposition.

For the proposal to succeed, the British would have to agree to let oil begin moving out of Iran to world markets again without having final agreement on the amount of compensation Iran should pay for the nationalized properties.

It is understood, United States authorities are thinking about the problem of getting agreement of oil companies to cooperate in (1) opening up and operating oil production facilities under Iranian government control, (2) making arragements for transporting the oil which requires about 3 tankers a day, and (3) handling the ultimate sales.

Opposition To Unitization Of Scurry Reef Pool Voiced Today

AUSTIN, Nov. 13 (AP)—Sharp opposition to the largest oil unitization program ever proposed in Texas was voiced at a Texas Railroad Commission hearing today.

Most of the three-hour morning session was devoted to explanation of the application of Magnolia Petroleum Co. and Sunray Oil Corp. for unitization of 47,438 acres in the Canyon Reef Pool, of the Kelly-Snyder and Diamond "M" fields in Scurry County.

But the explanatory testimony was still far from completion when attorneys for W. A. Moncrief of Fort Worth and Superior Oil Co. attacked the unitization plan. They struck both at the purpose of the proposed program, as they saw it, and at the terms of participation.

They particularly critized the formula used to determine the participation of each tract in the program.

The formula—explained by M. Darwin Kirk of Tulsa, vice-president and general attorney of Sunray—calls for tract participation based 75 per cent on the gross acre feet of Canyon Reef above the water table proportion of the total acre footage in the unit, and 25 per cent on the number of wells in proportion to the total wells in the unit.

Gillis Johnson, attorney for Moncrief, indicated through cross-examination Moncrief's strong objection to the formula which would change the amount of oil individual operators are now getting under the railroad commission's proporation formula based 50 per cent on acreage and 50 per cent on number of wells.

Two More Men File Here For City Offices; 2 Places Open

A candidate for mayor of Snyder and another candidate for a city council post filed their applications with the city secretary yesterday and this morning.

Harry T. Holbrook, 51, owner of Sunset Courts on the Lamesa Highway in West Snyder is the candidate for mayor, and Malven K. Stevenson, 32, one of the owners of Sunbeam Cash Food Market on Twenty - fifth Street in East Snyder filed as a candidate for place No. 5 on the city council.

These applications leave only two places on the council for which there are no candidates. They are places No. 3 and No. 4.

Successful candidates in places No. 1, No. 3, and No. 5 in the special city election Dec. 16 will serve until the next general city election, and winners of places Nos. 2, 4, and 6, will serve until the second general city election.

Deadline for filing is Saturday. The city hall closes at noon that day.

Candidates who filed yesterday for the three council posts are: Eugene E. Harper, for place No. 1; C. N. von Roeder, for place No. 3, and James W. Phillips, for place No. 6. No contests have been created by candidates who have filed so far.

Holbrook said he reluctantly filed for the position after about 15 Snyder businessmen called on him and asked him to run for mayor.

The motelman is chairman of the publicity committee of the Scurry County Chamber of Commerce, a director of the West Texas Chamber of Commerce, vice president of the U. S. Highway 180 Association, chairman of the Scurry County March of Dimes for 1953, a member of the Church of Christ and the Lions Club, and is a former member of the 15-man commission which wrote the city charter for Snyder adopted by voters by a two-to-one vote here Oct. 21.

Holbrook said, "I have no political aspirations whatsoever, but I am interested in seeing Snyder progress, and I believe that everybody should get behind the town and get it started to growing."

The court owner came to Snyder Sept. 1, 1950 and purchased the Sunset Courts after having operated a hotel in Cleburn for 22 years.

He is married and has one married daughter, Mrs. Baxter Lawson, who lives in Cleburn. He said he has never held or sought public office before.

Stevenson, is a member of the citizens committee on juvenile work and youth development, a member of the commission which wrote the city charter, director of the Scurry County Chamber of Commerce, chairman of the board of Elders of the First Christain Church, former president of the Snyder Rotary Club, and is a nephew of George Mahon of Colorado City, Representative for this district in the U. S. Congress.

He is also a graduate of Texas Christian University, Fort Worth, and a veteran of World War II. He was discharged from the Air Forces with the rank of Lieutenant Colonel.

BUSINESS MIRROR

Retail Merchants Looking Forward To Biggest Xmas

NEW YORK, Nov 13 (AP)—Merchants are betting that Santa Claus will be good to them this year.

Stores whose December sales totals can make or break the year's results are expecting this Yuletide to surpass last year by five to 20 per cent.

Retail liquor stores are an exception. They glumly anticipate a drop in that kind of cheer this year, blaming high taxes for cutting down sales.

And some stores, of course, aren't interested. Hardware or drug sales, for instance, are about the same in December as any other month. And grocery sales totals aren't influenced much either.

But the stores that cater to the great annual splurge of gift giving count on doing well next month.

SOME RUSHING SEASON

Most chain stores already report sales surging ahead of last year. The mail order houses are predicting a record Christmas business. Christmas card salesmen say this season will be a record one for the postman. Toy makers predict record sales.

In many places, department stores are rushing the season, starting to promote Christmas goods while the feathers are still on the Thanksgiving turkey.

December is the big dollar month for such retailers as those who run jewelry stores, variety chains, liquor stores, department stores, clothing chains, electric appliance and radio-TV outlets.

A preview of merchants' hopes is offered today by a firm that helps these merchants finance their business, including carrying their charge and installment credit accounts—Standard Factors Corp. of New York, Chicago and Los Angeles.

DECEMBER BIG MONTH

If December were just any other month out of the 12, its sale volume should be 8½ per cent of the year's total.

However, jewelry stores do one-fourth of their annual dollar volume in December. Variety chains do one-fifth in the final month. Department stores and retail liquor shops expect 15 per cent of their sales in December. Clothing chains count on 13 per cent, and home appliance and radio-TV dealers do 12 per cent.

A bad December, therefore, can be a heart-breaker.

Standard factors says that clients in these various fields report a marked increase in time-buying, with credit sales up an average of 20 per cent this year.

It says sales volume started increasing some time ago, with the major increase reported by stores which were pushing charge account and installment business.

Most optimistic are radio-TV merchants. They predict sales this December will be 20 per cent above a year ago. One reason is television's current invasion of new parts of the country. Another is that last year was a most unhappy Christmas in the industry.

SALES INCREASE SEEN

Variety chains—where the Christmas shopper usually spends considerable less than $5—count on next month's being at least 10 per cent better than last year.

Jewelers seem confident of about 10 per cent gains this year. Many have taken to stocking many other items for the Christmas trade, such as luggage and radios.

Clothing shops and apparel chains are more cagey. They set no figures, just say they expect to do better than last year.

Electric appliance dealers put their anticipated increase at five per cent over last year, but still five per cent under 1950 sales at Christmastime.

City May Put In Light At Intersection

No definite word from the state highway department yet indicates whether it will install a traffic light at the corner of Thirty-seventh Street and Avenue S; which is also a state highway.

The highway department has been asked by the city to install a light there, and the department is making a survey of traffic at the intersection. Some state highway department officials, however, are of the opinion that the city could install the light.

The city council recently referred the matter to the state department, informing those who presented the council a petition for the signal that the city did not have jurisdiction over the matter since it involved a highway.

W. W. Park, city attorney, said his opinion of the law was that a city could install a traffic control light on any highway within the city, provided the city first obtained an agreement with the department to do so. Then installation of the signal must meet the department's specifications.

Shortly after the recent petition was presented to the council, a three-car collision occured at the intersection, but personal injuries were minor.

3 Youths Die In Car Wreck

LONGVIEW, Nov. 13 (AP)—Three youths, dazed when their car skidded and hit another vehicle, burned to death near here last night after one fought off rescue attempts.

The dead are Ray Nell Newsome, 19; Melvin Dearman, 19; and Herbert Edward (Jack) Murrell, 20, all of Gilmer.

J. W. Scott of Gladewater, said he ran to the car soon after the crash and tried to pull one of the boys out. He said the youth kicked out and knocked him to the ground.

"Just as I was getting up the gas tank exploded," Scott said, "and nobody could help them any more."

Other motorists who stopped at the crash site said all three youths apparently were dazed. One was thrown outside the automobile and partly under the front end.

Deputy Sheriff Charles Steele of Upshur County said the driver of the car apparently lost control as he topped the hill on U. S. Highway 271, three miles south of Gladewater.

Steele said the machine skidded and crashed rear-end-first into a car occupied by Mr .and Mrs. B. W. Gary of Gladewater. The Garys were injured but not seriously.

Ohio's mines produce more coal than all of India, third largest Asiatic coal country.

Lawyers Nip Divorce Mills

EL PASO, Nov. 13 (AP)—A grievances committee for Dist. 16-A, the State Bar Association, adopted a resolution yesterday hitting at lawyers who help in obtaining quickie divorces in Juarez, Mexico.

In the resolution, signed by R. E. Cunningham as chairman and Frank H. Butler, secretary, the grievance committee said:

"It is the opinion of this committee that lawyers should not aid or assist or be a party to or share in any fee, directly or indirectly, in the securing of foreign divorces."

Complaints have been received by the committee from other bar associations and from members of the armed forces over securing of such divorces by U. S. citizens.

The committee also struck out at indirect advertising used to attract citizens to the border to obtain foreign divorces.

"It is the opinion (of the committee) that every use of a written or printed card, circular, letter, book, pamphlet, advertisement or notice of any kind, giving or offering to give information concerning divorces of where or how, or through whom a divorce may be secured in a foreign country is contrary to the ethics of the profession."

Copies of the committee's action are being mailed to every member of the State Bar of Texas in the 16-A district.

The El Paso Bar Association has frowned on Juarez divorces and has refused to make recommendations when inquiries are received asking the name of a lawyer to help with a Juarez divorce.

LISTENS AS RED IS QUESTIONED

Ana Rosenburg, assistant secretary of defense, wears a U. S. Second Division patch and carries a Russian burp gun as she listens to an unidentified Republic of Korean officer question a captured Chinese Red in Korea. Behind them is Lt. Gen. Rauben E. Jenkins, United Nations advisor to the ROK army. At right is Gen. James A. Van Fleet, Eight Army Commander.

Rabid Animals In Alberta Are Great Precautions To Be Taken

FORT VERMILION, Alta. (AP)—Strange tales of unusual antics by normally-shy wild animals are coming from homesteads and settlements in this area 600 miles north of Edmonton as Alberta Province battles its first epidemic of rabies.

Canadian officials have brought the outbreak among domestic animals under control and a program has been mapped out to eliminate the disease, a highly-infectious one that causes madness and death, among foxes and timber wolves.

Many cases of mad foxes and timber wolves have been reported and at least one case of a wolf attacking humans has been substantiated although there are no reports of anyone having been bitten.

Mrs. L. Gray, of Little Red River, reported that by late August a change was noticed in the character of foxes. They were no longer shy and timid but walked boldly near cabins and settlements. Soon several dogs were bitten and died of rabies.

First signs of rabies were seen among foxes at Fort Chipewyan and Fort Fitzgerald in the northeastern corner of Alberta. From there it spread up the Peace River to Wood Buffalo Park and westward to the Fort Vermilion area, a sparsely-settled farming region.

More than 37 farms were quarantined and almost 1,300 dogs vaccinated. Four men were put under observation after handling or skinning infected animals and a quarantine was placed on all of Alberta lying north of the 57th Parallel forbidding the export of dogs which might carry the disease.

The three worst centers in the epidemic area were High Level, Fort Vermilion and Moose Lake. At High Level two mad foxes were killed with clubs in the settlement's clearing when they attempted to attack humans.

A frightening brush with a mad timber wolf was experienced by Mr. and Mrs. Steve Kowal who farm west of Fort Vermilion. This beast, after biting 12 hogs and a cow, attacked the Kowal home.

A few miles away another wolf attacked a farmer working on a tractor in the field. The animal chewed tractor tires before disappearing.

Almost all farmers in the Fort Vermilion region, Alberta's northernmost homesteaded area, carry rifles in the fields. Many children are not allowed to ride horseback or walk to school alone.

One seventh of the population of the United Kingdom is composed of children and young people attending schools.

Baby Surgery Called Safest Of All Types

LOS ANGELES (AP)—A six-pound baby has a better chance on the operation table than his 40-year-old father.

That comes from one of the nation's leading baby surgeons, Dr. Orvar Swenson of Boston.

"A baby is a brand new mechanism," Dr. Swenson said yesterday, pooh-poohing the idea that infant surgery is dangerous. "The parts are all in fine working order. The heart is strong. The tolerance to anesthetic is excellent. And babies heal remarkably well.

"Wouldn't you rather work on a brand new car than try and repair an old wornout jalopy?" he asked pediatricians and reporters at a meeting at Los Angeles Children's Hospital.

College Professor Determined To Save Women Wasted Motion

WASHINGTON (AP) — A college professor served notice on the American housewife and the African Zulu today that he is determined to help them save themselves work.

Dr. John Immer, professor of industrial management at American University here, unfolded this as part of his international plan to dispense with lost motion and thereby increase productivity and lower costs in factories, mines, stores and farms.

"Taking the irk out of work," is what they call it in England.

"If the housewives get interested in work saving, their husbands haven't got a chance," Dr. Immer told a news conference.

"Give work saving five more years and there won't be even a savage Zulu who will escape the thing."

The professor, who is married, said women waste too much time doing simple things like carrying out the breakfast dishes a few cups and plates at a time. He envisioned a home of the future with a sort of crockery railroad running from the dining table to the sink. He did not explain what appeal such a device would have to folks who just eat in the kitchen.

At the very least, he suggested that homemakers acquire a wheeled tray "so they can apply the accepted industrial principle of unit loading."

Immer described work saving as developing better methods and doing work in an easier way. He said in England, where he took the idea last year, it was called "taking the irk out of work." Under his system, suggestions are invited from employes, with possible awards for work saving ideas. Close cooperation is sought between workers and their supervisors. Labor union officials are asked to take part.

Manufacturers are requested to stress work saving in their advertisements.

Immer said activities already are under way along those lines in the United States, England, Holland, France, South Africa, Germany, India and Finland. He expects a further boost for his program from "Work Saving Week" which is scheduled to start next Monday.

The professor won't be here for that celebration. He is leaving today on an expense-paid trip to England and the continent, to pep up the work savers there. The Mutual Security Agency is picking up the check.

Glad Now For Big Reserve Of WheatOnHand

WASHINGTON, Nov. 13 (AP)—Government food officials are no longer fretting over a big reserve of wheat being stored under a federal price support program.

An Agriculture Department crop report yesterday drew a dark picture of next year's winter wheat prospects. Because of prolonged dry weather, the outlook for this and other fall-sown grains intended for harvest next year was said to be precarious in many areas.

Thus, unless there is a quick turn in weather conditions the reserve being built up from this year's second largest wheat crop in history would be needed to help meet food and other market demands next year.

Before the dry weather set in, some officials expressed concern lest farmers produce another big crop next year and make reserves burdensome and expensive for the government.

The department said large acreages of wheat have been planted in dust in the hope that fall rains would supply the necessary moisture for germination and growth. That moisture has not yet arrived and the time is drawing short. Furthermore, a considerable portion of the intended acreage has not been planted at all.

The department's semi-final report for the 1952 crop season said production is turning out to be the second largest on record, only 2.5 per cent below the top mark set in 1948. Prospects improved nearly one per cent during October, thanks to unusually favorable harvesting weathers.

HOSPITAL NOTES

Mrs. Dora Cunningham of 2403 Avenue N was admitted as a medical patient to the Battenfield Hospital.

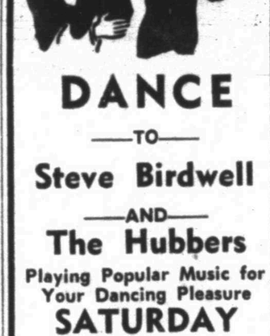

Dismissals were Mrs. Hollis Lee of 801 Twenty - seventh Street who was a medical patient; Mrs. Willie Martin of 2401 Avenue I, medical patient, and the infant of Mr. and Mrs. Don Williams of 310 Thirty-first Street.

Husbands! Wives! Want new Pep and Vim?

Thousands of couples are weak, worn-out, exhausted solely because body lacks iron. For new vim, vitality, try Ostrex Tonic Tablets. Supplies iron you, too, may need for pep; supplementary doses vitamin B1. Trial size costs little. OR SAVE MONEY—get regular $1.10 size only 98c. For still bigger savings see money-saving "Economy" size.

Ninety-two Oil Locations In 35 West Texas Counties Set

Drilling activity in West Texas picked up definitely during the last week, with applications to drill 92 tests for oil, including 17 wildcats, filed with Railroad Commission District 7-C and 8.

The number compares to 71 applications, including 13 wildcats, filed during the preceding week.

Total for the first 43 weeks in 1952 now stand at 3,248 field tests and 711 wildcats, a grand total of 3,959 tests for oil and a weekly average of 92.08.

Totals for the 43rd week in 1951 were 4,771 field tests and 852 wildcats, a grand total of 5,623 and a weekly average of 130.76.

Eight counties in District 7-C shared 26 applications, including eight wildcats, while 27 counties in District 8 filed 65 applications to drill, including nine wildcats.

District 7-C wildcats were: Crockett, two; and Coke, Runnels, Schleicher, Sutton, Tom Green, and Upton, one each.

District 7-C field tests were: Coke, six; Runnels, five; Upton, four; and Reagan, three.

District 8 wildcats were: Andrews, three; and Cochran, Gaines, Howard, King, Motley, and Ward, one each.

District 8 field tests were: Cochran, nine; Gaines, seven; Scurry, five; Howard, Midland, Pecos, Ward, and Yoakum, four each; Andrews and Ector, three each; and Borden, Dawson, Hockley, and Reeves, one each.

Hopes Of Reaching Hiss Parole Cast Today

LEWISBURG, Pa. (AP) — Dr. George G. Killinger, chairman of the U. S. Parole Board, continued interviews with parole applicants at the Northeastern Penitentiary but with little hope of reaching the case of Alger Hiss today.

Killinger said indications were that Hiss' case would not come up before late tomorrow. Hiss, serving a five-year sentence for perjury, is eligible for parole on Nov. 21, when one-third of his term will be up.

Hiss, former State Department employe, was 48 on Tuesday. He was convicted in 1950 on the basis of his testimony that he never gave government secrets to Whittaker Chambers, admitted one-time courier for a Communist spy ring.

John Wayne Says He Is All Through With His Studio

By BOB THOMAS

HOLLYWOOD (AP)—The long and successful association of John Wayne and Republic Studios has apparently hit the rocks.

Wayne, top man on the box office heap for the past two years, indicates that he has come to an impasse with his old friend and boss, Herbert J. Yates, head of Republic. If their falling out becomes permanent, it will mean the end of a picture-making partnership that goes back to the early days of Wayne's 20-year acting career.

The actor confirmed the rift on the set of "Alma Mater," which he is making for Warner Brothers.

"Yates will have to make me a darned good offer to get me to make another picture with him," Wayne said. "I'm fed up."

He added that his difficulties with Yates arose over the proposed filming of "The Alamo," a story of Texas' fight for independence. The picture was originally slated to be made under the banner of Wayne's own production company for Republic release.

"Yates said that I should give up my company and make the picture for Republic," said the actor. "He said I owed it to Republic. How do you like that? I don't owe Republic anything. I've made a lot of money for the studio. I brought (directors) Frank Borzage and John Ford to the studio. Also Jimmy Grant, who wrote 'Sands of Iwo Jima,' one of the biggest hits Republic ever had."

The location site is another sore point with Wayne. He claims that Yates told Texans that the film would be shot in their state.

"But it would have cost a million dollars more to shoot it in Texas, instead of Latin America," said Wayne. "So when plans were changed, the Texans got up in arms. Yates sent me down there to square things, which I did. Then I found a Panama location myself."

The rift follows a familiar pattern. Yates also had breakups with Gene Autry and Roy Rogers, who were successively his top cowboy stars.

"But there's a difference," Wayne commented. "Yates built Autry and Rogers into stars. He didn't make me a star."

Asked for a rebuttal, Yates cited the "great mental strain and personal problems Duke (Wayne) has had during the past year." He continued:

"Duke was employed at Republic on May 11, 1935, when the going in our industry was rough... I have always found Duke a gentleman, a friend, always willing to cooperate, and he has beyond any doubt been helpful in establishing the success of Republic, the same as many hundreds of our employes have also been helpful.

"At no time have I, as president of Republic, attempted to take any credit for Duke's success; however, what Republic has spent in publicizing and establishing his name throughout the world must have been a contributing factor to his success. Republic has gambled millions of dollars on the pictures Duke appeared in, and the boxoffice quality of these pictures must also have been a major factor in influencing those who rated him the No. 1 star of our industry...

"If Duke has decided to leave Republic, although his contract with Republic calls for three additional pictures, I and all of his old friends at Republic wish him continued success and prosperity."

CHRISTMAS SURPRISE!

35 inch Rag Doll with Clothes

This 35-inch Rag doll with her own adorable wardrobe will delight any little girl on your gift list this Christmas. A delight for you too, because it takes minimum of sewing, fabric.

No. 218 is cut in one size. The doll takes 1¾ yds. 35-in. Her dress 1⅛ yds. 35-in., 3½ yds. ruffling panties, ¾ yd. 35-in.

Is there anything that can be done with left-over mashed potatoes? It seems there should be something to do with them. S. R.

You can make "potato sombreros" out of the potatoes. You need 2 cups cold mashed potatoes, 2 tablespoons flour, ¾ teaspoon salt, 2 eggs, 1 tablespoon milk, 1½ cups corn chips (measured after crushing) and 1 can chili.

To potatoes add flour, salt and 1 egg. Form into flat cakes. Dip in beaten egg, to which milk has been added, then into corn crumbs. Fry slowly in fat until browned on both sides. Top with spoonfuls of chili.

• • •

I have some light pink curtains which I'd like to dye in the washing machine. I wonder what color would be good to choose? E.N.

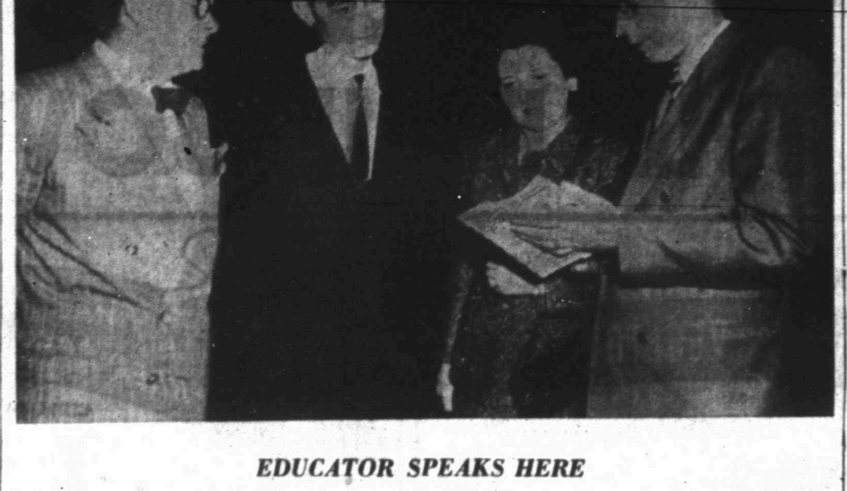

One dye company suggests the following colors as being good for covering pink: rose pink, scarlet purple, royal blue, dark brown and dark green.

• • •

It seems I read once how to remove tomato peelings easily. Could you tell me how this is done? M. L. K.

Scald the tomatoes, plunge them into cold water, then peel. The peeling should slide off.

Hong Kong has been the West's trade gateway to South China for about a century.

EDUCATOR SPEAKS HERE

Dean L. D. Haskew of the University of Texas chats with members of the school faculty and administration after speaking to the school staff yesterday on general education procedures. Left to right are: Herman Trigg, junior high school principal, Haskew, Mrs. Frank Wilson, principal's secretary at the West Elementary, and Frank Wilson, director of curriculum. Haskew visited the school here and advised the staff on means of improvement in the school system. His visit was in connection with American Education Week.

Mrs. Ely Leads Program On Mexico For Study Club

Mrs. W. J. Ely entertained members of the Twentieth Century Club at her home Tuesday and directed a program on Mexico.

Members answered roll by relating a Mexican custom.

Mrs. A. M. Ewing gave vignettes of her summer trip to Mexico. She described Monterrey and the jungle area around Valles. She told of the native crops, homes and dress and discussed the water system in Mexico, giving emphasis to the peoples. She also told of Mexico City's being built in the bed of a lake which explained the gradual sinking of buildings. Bull fights, floating gardens, the new university under construction and cathedrals were also discussed.

NATIONAL DRINK

Mrs Ben Weathers discussed the 1,800-mile borderline of Mexico. She told about the two reasons and told of lack of educational facilities. She told about pulque, the national drink of the country, and about the leisurely manner in which the natives live. She discussed sports of the country including cock fighting and horse racing and told of the national lottery.

Mrs. Ely described the castle of Chapultepec and told of the Emperor Maximilian's period of living there. She told of the museum and art exhibit housed in the castle. In conclusion she described fiestas in Taxco and in San Luis Potosi.

MEXICAN DECORATIONS

The home was decorated with souvenirs from Mexico. In front of the fireplace was a hand-woven basket in which fall flowers were arranged. A Mexican buffet was served from the table covered with a Mexican cloth and centered with an arrangement of chrysanthemums.

Three of the club's members, including Mrs. Waldo Montgomery, Mrs. H. J. Brice and Mrs. R. E. Gray, president, were in Austin to attend the Texas Federation of Women's Clubs convention.

PERSONALS

Mr. and Mrs. V. V. McGrew of Midland are at their home in Snyder, 3602 Avenue V.

Mrs. H. B. King of Syracuse, N. Y., is on an extended visit with her daughter, Mrs. Paul H. Spittle, 504 Twenty-eighth Street. She plans to be here through the holiday season.

Mr. and Mrs. Jim Tatom, 1010 Twenty - third Street, have had as guests their nephew, Guy Denham, and Mrs. Denham of Throckmorton, Tex.

Clyde Orms of Brussels, Belgium, visited this week in the home of his sister, Mrs. D. M. Jordan, Post Highway, and with other relatives.

Mr. and Mrs. Charles Sansberry are parents of a son born Sunday in Sweetwater Hospital. The father is employed by Lion Oil Co.

United Nations Program Given At Acacia Club

Miss Katherine Northcutt presented a program concerning the United Nations for Acacia Study Club members Tuesday.

Mrs. Clinton Patton was hostess at her home.

The guest speaker was introduced by Miss Alice Birdwell.

A refreshment plate was served 13 members and three guests who were Mrs. Jack Bowden, Mrs. Robert Wasson and Mrs. Edward Kennedy of Slidell, La.

Pink, Blue Shower Honors Mrs. Williams At Edelman Home

Mrs. Horace Edelman and Mrs. S. H. Griffin were hostesses Tuesday night at the Edelman home on the Lubbock highway for a pink and blue shower honoring Mrs. C. E. Williams.

Guests included Mrs. Elbert Jones, Mrs. Ernest Guinn, Mrs Troy Stephens, Mrs. H. D. Moreland, Mrs. James L. Woods, Mrs. Bennett of Midland and Norman Jean Edelman.

EVENTS OF THE WEEK

THURSDAY

West Elementary PTA, 7:30 p. m., school cafeteria.

North Elementary PTA, 7:30 p. m., school cafeteria.

Beta Sigma Phi Ritual of Jewels ceremony, 7:30 p.m., with Mrs. Bill Line, 2505 Avenue J.

Friendly Fellows Forty-two club 7:30 p.m., with Mrs. Ralph Odom, 1912 Twenty-ninth Street.

FRIDAY

Women's Golf Association, luncheon, preceded by duplicate bridge, 10 a.m.

Life In Germany Dicussed For Atheneum Club

Mrs. Tom Westbrook, a native of Germany, was guest speaker at the Atheneum Study Club Tuesday when Mrs. J. C. Barnett was hostess.

The speaker told of life in Germany before and after World War II. She was introduced by Mrs. James B. Johnson.

A dessert plate was served to 12 members.

West PTA Schedules 'Home Town' Program

"My Home Town" will be the theme of West Elementary Parent - Teacher Association's program at 7:30 o'clock tonight in the school cafeteria.

Sixth grade students are scheduled to take part on the program, with fifth graders presenting a study of birds.

Crop Hopes Up In 3 Sections

AUSTIN, Nov. 13 (AP)—Prospects for growing crops in East, North Central and Coastal Plains areas are improved from recent rains, the U. S. Department of Agriculture, said today.

But everywhere else in Texas the small amounts of moisture served only to raise hopes that were quickly shattered. Central, western and northwestern areas remained parched.

Dry range and pasture feed reserves were growing progressively shorter over most of the state. Winter weeds, clovers and fescue grass will start growing soon but will need much moisture to help relieve the critical feed situation.

In eastern and southeastern counties where substantial rain fell last week end, farmers will hurry to plant oats and winter legumes. Flax in South Texas will go into the ground to what the USDA called ideal conditions. Mid-September rains provided adequate soil moisture, and the new percipitation was plenty to germinate seeds in that area.

Commercial vegetable prospects in the lower Rio Grande Valley were helped by good rains. The quality of growing vegetables should be improved and planting resumed for later harvesting.

Mrs. Adlai M. Ewing, 2905 Avenue W, presided at the first anniversary program of the John Hudnall Chapter of the United States ters of 1812 in Abilene Monday. A Daughters of 1812 in Abilene Monday. A guest at the meeting was Mrs. Ruth Bryan Rohde, daughter of the late William Jennings Bryan, and former ambassador to Denmark.

Housework Easy Without Nagging Backache

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

Bowman Biscuit Company of Texas

Dallas Gives Up Franchise On Much Ballyhooed Pro Texans

DALLAS, Nov. 13 (AP)—Dallas was without professional football today just 11 months after it brought in a franchise with fanfare and ballyhoo that said the game couldn't miss in big, free-spending Texas.

The Dallas Texans, who lost seven games out of seven and almost a quarter of a million dollars, were orphaned yesterday when Dallas turned its franchise back to the National Football League. It will become a "road club," operated by the league, and will play no more games in Dallas.

Coupled with the announcement that the Texans were quitting with a little more than half the season completed was the statement that a bid would be made to buy the club back and resume operations next year.

AID TOO LATE

Financial aid was obtained but apparently it came too late. A group of moneyed men willing to take over the club and finance it on a three-year basis was found but, John Coyle, one of Texans trustees said, "interim financing" could not be obtained.

He explained that the Texans did not have the money to operate during three weeks or more that would be required to effect legal transfer of the club to its would-be new owners. There were some 40 bond-holders who hold, in effect, a mortgage on the franchise. That created legal technicalities.

Giles Miller, young Dallas textile operator who bought the New York Yanks franchise last winter and brought it here, said an effort was made to obtain sufficient capital to keep the club in Dallas but that while a small minority of the 16 owners were willing to make the funds available for the club to continue "we were unable to obtain necessary co-operation from any others.

LOSS RUNS HIGH

The losses were $100,000 paid for the club and more than $125,000 spent in operating it. The club drew an average of 13,000 per game and at least 24,000 is necessary to pay expenses.

The club will leave Friday for Detroit to play the next game on the schedule. Then it goes to Chicago to play the Bears Nov. 30. The Bears were supposed to have been the next home game on the Dallas schedule.

Collapse of the club came only a few hours after the trustees had revealed the new group willing to take it over and operate it for at least three seasons. This new group will make a bid for the club in December but, as John Coyle, one of the trustees said, will have to compete against other cities, "probably Baltimore, Buffalo or maybe Houston."

BIDDERS UNIDENTIFIED

Identity of the prospective new bidders was not revealed but Harlan Ray, one of the trustees, said there wouldn't be more than five, all willing to put up $100,000 apiece.

When Miller bought the Texans he assumed $200,000 for lease on Yankee Stadium in New York to be paid for at $25,000 a year. But he said none of this would be paid.

Coyle said that when the club was bought there was a feeling that it would be an immediate success, but there was a vast territory of over a million people who would take kindly to the game. But this didn't develop although Coyle thought it would have had the club been able to operate here longer. "Any business must get started," he added.

Prospects For Bowl Players Get Slimmer

NEW YORK (AP) — The football bowl pickings are getting slimmer and slimmer as the deadline nears for the selection of the representatives in the post season gridiron classics.

Another conference bowed out of the picture officially last night when the faculty committee of the Big Seven ruled to abide by the circuit's present rule which prohibits any post season competition.

That action put a quietus on reports that Oklahoma and possibly some other members of the conference would seek permission to play on New Year's Day. Once broken Oklahoma had been mentioned as a possible participant in the Sugar, Cotton and Orange Bowls.

As the situation now stands only the Rose Bowl is definitely set with the Pacific Coast Conference winner, probably Southern California or U.C.L.A., opposing the Big 10 champion.

The Cotton Bowl is sure of the Southwest Conference titleholder as the host team. Right now Texas is in line for that honor. Georgia Tech, powerhouse of the Southeastern League has accepted an invitation to play in the Sugar Bowl.

If Florida gets past Tennessee Saturday, then the Gators can look for an Orange Bowl bid. They have lost to Vanderbilt and Georgia Tech but only by a combined margin of 10 points. The Vols of Tennessee, with a 61 record, also have eyes on one of the major bowls.

Mississippi, another member of the Southeastern Conference, likewise is looking bowlward but the Rebels have a Saturday engagement with powerful Maryland. The the Southeastern Conference, likevery much to travel to the sunny climes on Jan. 1 but they are on probation for playing in the Sugar Bowl last New Year's Day and are not likely to risk additional punishment by the Southern Conference.

Even the pickings among the independents are not plentiful.

Without attempting to list them in order of possible preference the leading eligibles include Pittsburgh, Syracuse and Holy Cross and possibly Villanova — all Eastern outfits.

Pittsburgh has defeats by Oklahoma and West Virginia on the wrong side. Syracuse has dropped two, one to Bolling Field and the other to No. 1 ranked Michigan State. Holy Cross has lost only to Syracuse but has not played an impressive schedule. Villanova definitely was in running until smothered 42-6 last week by Tulsa.

Harris Pharmacy, and by all mem-

misphere.

Injuries Deal SW Conference Teams Misery

By CLAYTON HICKERSON
By The Associated Press

Texas Christian, Arkansas and Texas A&M are likely to enter this week end's Southwest Conference games with crippling injuries barring regulars from the lineups.

The Arkansas Razorbacks, preparing for their game with Southern Methodist in Fayetteville, learned Wednesday that their ace fullback, Lewis Carpenter, definitely would not see action in Saturday's game.

Larry Hogue is due to replace Carpenter in the game with the Mustangs. Meanwhile End Ron Forrester, like Carpenter hurt in the game Nov. 1 with Texas A&M, took part Wednesday in the offensive scrimmages against SMU plays.

Most sorely hurt of all probably are the Texas Aggies who are due to take on Rice Institute without the services of Ray Graves, the great running and passing star of the Cadets. Graves received a bruised hip last week in the 2-13 loss to SMU.

Besides Graves, the Aggies have five guards and a tackle on the ailing list, darkening their hopes for a victory over the Owls.

Texas Christian, its big game with Texas coming up Saturday, halted scrimmage Wednesday after a wave of ankle injuries hit the Frogs, leaving three players "indefinite participants" in Saturday's big game.

They are Reserve Safety Man H. C. Knox, Tackle Claude Roach and Halfback John Harville. Teddy Vaught, end, and Tackle R. C. Harris also had ankles injured but are due to start against the Longhorns anyway.

At Dallas, the Mustangs placed special emphasis on stopping Arkansas' stellar Lamar McHan in a long workout Wednesday.

The Methodists had good news in the return of Frank Eidom, soph half, to the lineup, but Duane Nutt, John Kelley, and three linemen are not expected to make the trip to Arkansas.

Rice finished rough work for the Aggie tussle with a brisk scrimmage session Wednesday, and Coach Jess Neely said the workout was a "very satisfactory" one.

Light workouts were due Thursday and Friday for the Owls.

The Texas Longhorns, conference favorites, reported in fine physical shape for their encounter with the defending champion Christians and intended to take it easy the last two days of practice before the Fort Worth setto.

The Baylor Bears, going up against non-conference opposition in a game with the University of Houston Saturday, try out new pass plays Wednesday and tapered off Thursday and Friday.

Top 3A Teams Get Addition

DALLAS, Nov. 13 (AP)—Denison of District 3-AAA showed up on the Dallas news' statewide AAA schoolboy grid poll this week for the first time this season.

The North Texas school slipped into tenth spot after Kingsville dropped from the top ten and Texarkana moved up to ninth.

Otherwise there was little change in the selections made by sports writers in the state's eight AAA districts.

The News' top ten:
1—Temple (5-AAA)
2—Breckenridge (2-AAA)
3—Brownwood (2-AAA)
4—Edison of San Antonio (7-AAA)
5—McAllen (8-AAA)
6—Lufkin and Palestine, both 5-AAA, tied.
8—Lamesa (1-AAA)
9—Texarkana (4-AAA)
10—Denison (3-AAA)

Palestine and Lufkin, which played to a 7-to-7 deadlock a week ago, wound up in a tie for sixth place after both won impressive district victories last Friday night. Palestine was seventh and Lufkin eight last week.

Lamesa, slumped from sixth to eighth, despite a whooping 40-to-0 decision over non-district El Paso High.

Front-running Temple, though idle for the second time in three weeks, were named first on every ballot again. Breckenridge had the same distinction for second. Brownwood, though winning impressively, lost ground to Edison of San Antonio, which threatens to best its fourth place position before the season ends. McAllen was close behind, only four points out of fourth.

Cinder, Cage Men To Start Workouts Soon

Preliminary meetings of prospective basketball players and track men were held at the high school this week.

Gene Gibson, basketball coach, said about 70 boys have indicated that they will turn out for basketball practice Dec. 1. Included will be about four left from last year's A squad, which became the title team of District 5-AA. The squad will be playing in Snyder's new district, 1-AAA, this season.

The basketball coach has scheduled about 25 games for the season, 10 of them district games. The first will be with Lakeview here Dec. 8. He said his schedule is almost complete.

Mule Kayser, track coach, said he is beginning workouts for all boys interested who are on the football or basketball teams. He said he will hold workouts throughout the rest of the football season and during the basketball season, taking on participants in those sports as they finish their seasons.

Negro Game Is Set Nov. 28

Time for the annual Kiwanis Negro football game has been set for 8 o'clock Nov. 28 in the Tiger Stadium.

Tickets which cost $1.00 each, were to go on sale today for the tilt between the Douglass High School Lions of Lawton, Okla., and the Blackshear High School Steers of Odessa.

Proceeds from the game will go into the club's fund for underprivileged children in Snyder. Tickets are being sold at the Snyder National Bank West Texas State Bank Harris Pharmacy, and all members bers of the Kiwanis Club.

Last year the Douglass squad, led by 230-pound Fullback Robert Twiggs defeated the Carver Hornets of Midland 34-6 here. Twiggs is on the Douglass squad again this year.

Cotton Clover, sportscaster from Midland, will supply details of the game on the speaker system at the field.

Officials will be Bob Stone referee; Jerome Vannoy, umpire; LeRoy Crews, head linesman; Don Parsons, field judge. All are from Abilene.

Middleweight Knocked Out

DETROIT (AP) — Norman Hayes, who flicked the blood out of his eye and turned an apparent defeat into a technical knockout victory, day-dreamed today of the middleweight boxing titled.

Hayes, 160½ pounds, of Boston, stopped Joey DeJohn, 165, Syracuse, at 1:44 minutes of the third round of last night's nationaly-televised fight, scheduled for ten rounds.

DeJohn was confidently boring in, trying to widen a bleeding gash over Hayes' right eye when Hayes floored him with a right to the side of the head. Hayes dropped him twice more and Referee Johnny Weber stopped the fight.

Afterwards, Hayes, who has been unsuccessful recently against light-heavyweight, said, "from now on I'm sticking to the middle weights."

Hayes hopes for a chance at the middleweight title should Champion Sugar Ray Robinson retire as expected.

"This boy is the best in the middleweight class now," said Hayes' manager, Johnny Buckley, "and he's still a year away from his peak."

Buckley hopes to take Hayes to Paris for a bout with another leading contender, Charley Humez. Hayes lost a disputed split decision to Humez some time ago.

Perfect Whist Hand

FAKENHAM, England (AP) — A perfect whist hand — a complete suit to all four players—was dealt at a local whist drive last night by baker Edward Parker.

Slide rule experts calculated the odds against this were 2,235,197,406,895,366,368,301,560,000 to one.

Junior High In 26-7 Win

Junior High gridders won their last game of the season yesterday when Sweetwater got its dates mixed up and came here for the tilt a day early.

The two were scheduled to clash this afternoon, but the Sweetwater squad showed ap yesterday afternoon while Coach Jimmy Williams was drilling his team, so the Snyder eleven took to the field and trimmed the visitors 36-7.

Snyder scored twice before Sweetwater ever got its hands on the ball. After the visitors kicked off and Snyder had made one score, the Kittens kicked off to Sweetwater and End Powell Berry covered the ball before Sweetwater could get to it, then the Snyder team went on to score again. They scored all but one touchdown in the first half, while Sweetwater scored its one in the final minutes.

Floyd Blackwell, right halfback, scored twice, taking laterals from End Milton Ham after he had taken passes from Quarterback Ronnie Smith. Each scoring play went about 15 yards. Bobby Pollard, fullback and leading scorer for the season, scored twice, each time on long runs. He had another 90 yard scoring run called back on a clipping penalty. Robert Brooks, guard blocked a Sweetwater punt on the three yard line and End Richard Snyder picked it out of the air and went across for the score. It was the third punt blocked by Brooks this season. Billy Joe Hattaway contributed the sixth score.

The Kittens finished the season with a 6-2 record, losing twice to Lamesa by one point and defeating Rotan, Colorado City, and Sweetwater twice each.

Grandma Robs Again

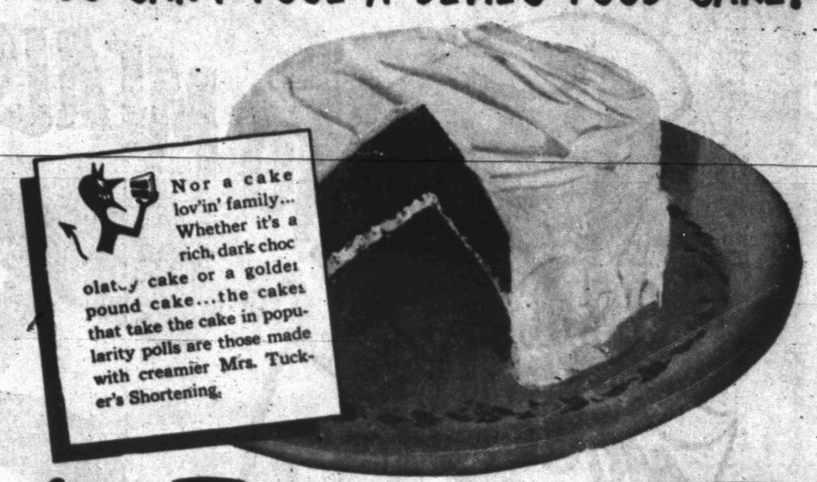

LOS ANGELES (AP) — Grandma has struck again.

She got $1,212 in a Wilshire Boulevard holdup Oct. 17, and yesterday she held up the Union Bank and Trust Company on South Hill Street, getting $2,000.

The gray haired woman of about 60 handed June North, 23-year-old teller, a note reading: "Act natural. There are three guns on you. Give me all your money and give me three minutes to get away."

A pound of sugar contains 1,794 calories.

BEST SYRUP NEWS IN MANY YEARS!

New Brer Rabbit reminds "old-timers" of real ribbon cane flavor.
And in syrup, it's flavor that counts!

FORT WORTH . . . Is there an "old-timer" in your family who is always harking back to the wonderful syrup folks used to enjoy in the "good old days"? The kind made from Ribbon Cane—that gave syrup a flavor that was simply glorious?

Today that marvelous "old-time" flavor is here again! Here to make your hot biscuits and corn bread, your pancakes and waffles a *brand-new* treat. Just try it, you'll see!

It's the new Brer Rabbit Syrup—a new flavor your family will simply dote on! The new Brer Rabbit Syrup combines lightness and sweetness in a delicious combination that modern Southerners vote "tops." Mild and light, it tastes just right—makes everything you put it on taste finer than ever!

IN STORE TESTS . . . folks who tasted, praised its flavor

DALLAS: . . . "Taste this new syrup, ma'am,—and say how you like it?"

In stores through the Mississippi Delta and East Texas, people tasted the new Brer Rabbit Syrup . . . smacked their lips . . . and gave their delighted answers:

Ten to one—the chorus was "YES!"

Did they like the new Brer Rabbit "better than the syrup they were now using?"

Again the chorus was a resounding "Yes!" Almost 7 times as many said "Yes" as said "No!"

Even people who have used Brer Rabbit Syrup for years were outspoken in liking this new Brer Rabbit even better!

People like you—said things like this

In Houston:
"Sweet enough but not too sweet—has a new taste."
"Best flavor!"
"Mild and not too strong."
"Would be fine on cakes and waffles."
"Tastes just right."
"Best I've tasted—they've surely improved Brer Rabbit Syrup."

In New Orleans:
"Well, I'm mighty particular about syrup but I'll try your test . . . M-m-m, say, I *like* this Brer Rabbit."
"This tastes like real old-time syrup."
"Tastes like country syrup."
"This Brer Rabbit would be grand on biscuits and pancakes."

So said folks who *tried* the new Brer Rabbit. At your house—we think your family will say the same! This new, lighter, milder flavor, sweet but not too sweet—can bring new pleasure to your table, three times a day. Try Brer Rabbit, why don't you—first time you're in the store?

Local stores now stocking new flavor

Your grocer now has the new improved, lighter Brer Rabbit Syrup, packed under the old, familiar Brer Rabbit label.

DEALERS: To meet the demand for this improved new syrup, write or wire Penick & Ford Ltd., Inc., New Orleans 7, La.

Prominent sugar cane grower says "BEST EVER"

MR. VICTOR WINTZ, Annandale Plantation, White Castle, La. . . . shown with Mrs. Wintz and their three attractive little daughters. The Wintz family has lived in the South for many years. They know sugar cane! They know syrup! They think the new Brer Rabbit Syrup is the best yet!

Texan reminded of sugar mill days

"Everybody in this sugar cane country knows it takes the right sugar cane to get that old-time ribbon cane flavor," says Mr. S. K. Hays of Edom, Texas. "The new Brer Rabbit Syrup reminds me of the sugar mill days when I was a boy. And in syrup, it's the *flavor* that counts!"

Yes, Brer Rabbit has *recaptured* "old-time" syrup goodness! A pitcher of Brer Rabbit—on *your* table—will mean *Happy Eating!*

Makes Hot Biscuits a New Treat!

Your fine hot biscuits will win new praise, once folks taste them with new Brer Rabbit Syrup. It's sweet, but not too sweet. A light, *mild* syrup that doesn't hide the flavor of hot breads, pancakes and waffles . . . just makes them taste *perfect!*

IN SYRUP IT'S THE FLAVOR THAT COUNTS!

There are many syrups on the market but there's only *one* way to judge them—and that's on flavor. You'll find some have a strong taste, others an over-sweet taste. But Brer Rabbit—well, there's a syrup that tastes just right. And Brer Rabbit makes pancakes, waffles, hot biscuits and corn bread better than ever before.

TRY BRER RABBIT AND SEE FOR YOURSELF

NEW SYRUP A FINE ENERGY FOOD

Children burn up so much food energy in their active play, they need an *extra* supply, to grow on. Give them plenty of delicious Brer Rabbit Syrup! It's a fine "fuel food"... concentrated "energy" that is easily *digestible* and inexpensive, too.

LOOK FOR THE RABBIT!

For light, *mild* syrup try BROWN LABEL Brer Rabbit

For richer, fuller sugar cane flavor, try BLUE LABEL Brer Rabbit

BRAISED PORK BLADE STEAKS ARE ECONOMICAL
. . . serve with apples, or save the apples for dessert dumplings.

Fresh Pork Dishes, Apples, And Sauerkraut Salute Fall

Draw up a chair and enjoy a hearty meal these crisp fall days.

A menu styled for satisfaction and with the added attraction of purse-string pleasing might include a pork main dish. Pork will be on the plentiful list all next month, the U. S. Department of Agriculture reports, and that should make for better buying, too.

A happy family dinner combination might be pork plate steaks, those cut from the pork shoulder; baked acorn squash and cranberry sauce. Apples, a favorite companion of pork, could appear in dumplings for dessert.

Braising is the best method for cooking all pork steaks and chops because the slow thorough cooking in moist heat brings out the rich, full pork flavor and leaves the meat tender and juicy. To braise, place the steaks in a frying-pan and brown them on both sides in their own fat. Add a small amount of liquid, cover the pan tightly and let the meat cook over low heat about 45 minutes, or until well done.

For families, who like sauerkraut with their pork, a dinner of the pork, sauerkraut and apple trio will be popular. Combine them in fresh pork sauerkraut rolls for an economical fall supper.

Fresh Pork Sauerkraut Rolls

1 No. 2 can sauerkraut
2 cups chopped unpared apples
¼ teaspoon celery salt
2 teaspoons brown sugar
1½ pounds fresh pork butt, cut into 6 pieces and flattened
flour
⅛ teaspoon salt
½ teaspoon monosodium glutamate
2 tablespoons shortening

In a large bowl, combine sauerkraut, apple, celery salt and sugar; mix lightly but thoroughly. Spread ¼ cup drained sauerkraut mixture on each piece of meat. Roll and fasten with toothpicks. Dredge in flour, sprinkle with salt and monosodium glutamate.

In a skillet, melt shortening over medium heat. Brown meat rolls on all sides. Remove from heat. Arrange browned meat rolls around edge of skillet and turn remaining sauerkraut mixture into center; cover. Bake in moderate oven (350 degrees) 1 hour, or until meat is tender. Serve piping hot.

Apples Make Stuffing

Pork roll-ups also can be made with tasty apple stuffing. The thrifty and wholesome fruit ingredients of this recipe provide provocative flavor contrast and make the meat go further. One large, thin slice of pork will serve four persons.

Pork Roll-Ups With Apple Stuffing

1 large thin slice fresh pork
2 medium red apples, chopped
¾ cup cooked prunes, chopped
1 small onion, chopped
3 strips bacon
1 cup soft bread crumbs
¾ teaspoon salt

Cut the bacon into tiny pieces and cook slowly in frying pan until crisp. Add chopped onion and cook 2 minutes. Mix together bread crumbs, chopped apples, prunes and salt. Add bacon, onion and bacon fat and toss together with a fork. If the mixture seems dry, add small amount of juice from cooked prunes.

Spread stuffing evenly on pork slice and roll up carefully. Tie with soft string. Place in baking pan and roast in slow oven (325 degrees F.) for 2 hours. If desired, roll may be basted with prune juice.

Pork shoulder as a roast assumes new interest when served with corn bread dressing. A 3 or 4 pound roast is best. Bone the roast and tie this stuffing inside:

CORN BREAD DRESSING

2½ cups corn bread crumbs
2 tablespoons dried onion
¼ cup raisins
1½ teaspoons salt
¼ teaspoon pepper
½ teaspoon celery seed
1 egg, beaten
¼ cup water

Dice 2 tablespoons pork fat (trimmed from roast) and add to corn bread crumbs along with remaining ingredients. Toss lightly to mix. Place the stuffed and tied roast on rack in an open roasting pan, fat side up. Roast in a slow oven (325 degrees F.) for 45 to 60 minutes per pound. (If using a meat thermometer, roast to an internal temperature of 185 degrees F.) Remove pork roast from pan and make gravy with drippings if desired. Makes 8 servings.

Polanese for Roast

Crusty brown pork roast prepared in the usual way will appear new surrounded with a sauerkraut polanese. To complete the menu add stuffed baked potatoes and a combination of canned applesauce and cubed canned cranberry sauce.

SAUERKRAUT POLANESE WITH PORK ROAST

3 lb. pork loin roast
Salt and pepper
2 bay leaves
1-1 lb. can of peas

Rub roast with salt and pepper and put on rack in open roasting pan with fat side up. Lay bay leaves on roast and bake in a moderate oven (350 degreesF.) until almost done (about 1½ hours.) Remove roast from pan and drain off most of the fat from the drippings. Put sauerkraut and peas in pan and mix well. Place roast on top of sauerkraut and return to oven 30 to 40 minutes. Arrange on serving platter with sauerkraut around roast. Serves six.

Pork tenderloin, the long tapering, tender pork muscle in the meat dealer's display counter, is easily prepared by cooking in one piece. It can be purchased in a form known as Frenched. This way the tenderloin is cut crosswise into slices and flattened. This cut is best braised in the same manner as the pork blade steaks. For a whole tenderloin allow from 45 to 60 minutes; 30 to 45 minutes for fillets.

A tasty variation of braising is cooking in cream. Brown individual servings of tenderloin in hot lard as in usual braising proceedure. Season with salt and pepper, then add one cup of cream. Cover the pan and let the tenderloin and cream cook slowly for about 40 minutes, or until the meat is well done. Place the slices on a warm platter, then thicken the liquid with flour. Let the gravy boil for 2 to 3 minutes, remove from heat and add a teaspoon of lemon juice. Pour the gravy over the meat for serving.

Brighten the Budget-Saver

The perennial budget - saver spareribs, may be prepared with pineapple and sweet potatoes. Served with steamed broccoli, a salad bowl, molded gelatin and a beverage, these spareribs will make a good Satuday night supper.

SPARERIBS WITH PINEAPPLE AND SWEET POTATOES

3½ lbs. fresh pork spareribs (cut in serving-size pieces
Salt and pepper
1 tablespoon cornstarch
¼ cup firmly packed brown sugar
One 9 oz. can crushed pineapple (undrained)
1-3 cup wine vinegar
½ cup cooking sherry
2 tablespoons soy sauce
5 or 6 servings boiled sweet potatoes

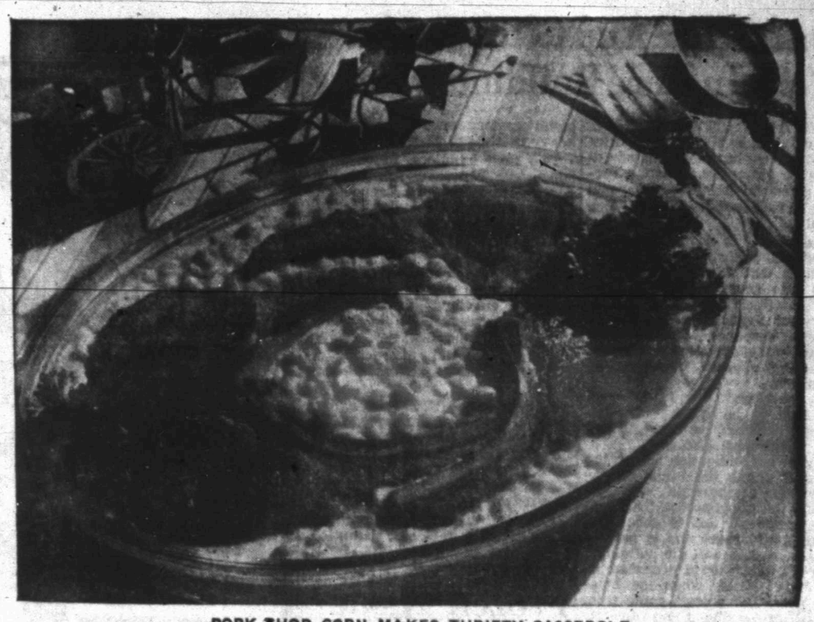

Sprinkle spareribs lightly with salt and pepper. Arrange, meaty side up, in a single layer in shallow pan. Mix cornstarch and sugar thoroughly in a saucepan; stir in pineapple vinegar, sherry and soy sauce; stir over medium heat until mixture boils and thickens. Pour sauce over spareribs. Bake in moderate (350 F.) over 1 hour, basting occasionally. Arrange sweet potatoes around spareribs. Continue baking ½ hour, basting occasionally. Makes 5 or 6 servings.

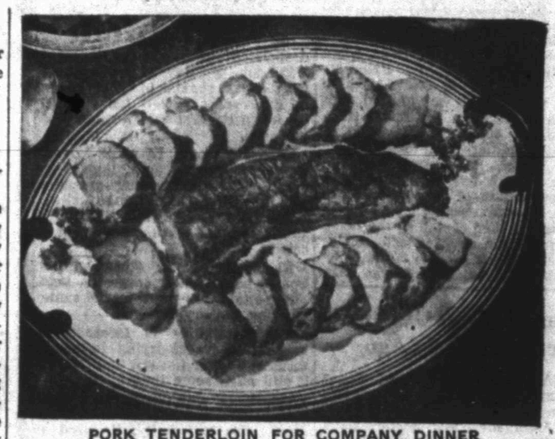

BAKED SPARE RIBS FOR SAVORY DISH
. . . cooked with pineapple, sweet potatoes

Post Office And Court Can't Work In Same Building Quietly

SALT LAKE CITY (AP) — U. S. District Judge Willis W. Ritter started a one-man noise abatement campaign yesterday to halt a racket in a federal building mail room which he said sounded "like a bowling alley."

To enforce his desire for quiet, the judge had Postmaster David R. Trevithick and 25 postal employes hailed into court.

To Trevithick he gave a lecture. Supervisor Francis Newman, got a $100 fine, suspended, and 24 other workers were cited for contempt.

Handling of mail was held up for an hour.

All concerned promised to do their best to be quiet, but Postmaster Trevithick indicated he had some misgivings. Said he:

"My sworn obligation under the law is to move the mails as expeditiously as possible with the facilities at my disposal. The condition which all this is about has existed for 20 years and is part of the basic structure of the building."

A civil trial was in progress before Judge Ritter when the noise "like a bowling alley" came from a mail processing room directly beneath the courtroom. He directed the bailiff and deputy U. S. marshals to investigate and put a stop to the racket.

"The noise seemed to get worse," Judge Ritter recalled later when questioning Lester E. Peterson, clerk in charge of the mail handling room which was glutted with an accumulation of mail from Tuesday's Armistice Day holiday.

Mail handlers and supervisors were hailed into court from the work floor a few at a time until the processing of mail — and the noise — had ceased.

Peterson then explained the noise came mostly from mechanically operated doors on two freight elevators and from floor trucks with metal casters used to move the heavy mail bags about.

Two mail handlers, followed by supervisor Newman and an officer walked into court. Each of the handlers dropped a bulky package to the floor, interrupting a witness.

Newman incurred his suspended fine when he accepted responsibility for the package dropping, explaining the packages contained stamped envelopes for which he personally was responsible.

The judge described the noise as "intolerable" and distracting to everyone in the courtroom," then said:

"Of course the U. S. court cannot suspend operation of the post office ...and, we cannot suspend operation of the court. That is why I have a proposal to make to see if the post office cannot be run with less noise.

"Some of the noise sounds to me like a careless, reckless, slamming, banging of packages."

Frozen Tissue Is Kept Alive

By ALTON L. BLAKESLEE
Associated Press Science Reporter

St.Louis (AP)—New Skin sprinkled from a salt shaker to cover burns is a prospect raised today in a report to the National Academy of Sciences.

The skin would be quick-frozen, dried under a vacuum, then powdered and stored under vacuum. But the skin would remain alive, able to provide a living cover as a first step in skin-grafting over severe burns.

Blood vessels or other human spare parts might also be kept alive, intact, for years by the same freezing and drying.

The possibility is foreseen in success in freeze-drying influenza virus and other tissues, and finding it still alive some time later.

This work was described by Dr. Donald Greiff, professor of biology at St.Louis University. He used a specially-built apparatus to freeze the virus or tissue with dry ice and acetone, and dry it under low pressure to vaporize the liquid. Cooperating in the project are Drs. Henry Pinkerton, Herman Blumenthal and Masahiro Chiga.

Glycerine is a second possibility for suspended animation of living tissues kept in cold storage. It can act like an anti-freeze to preserve frozen tissues, said Drs. B. J. Luyet and P. M. Gehenio of St. Louis University.

Bathing live tissues in glycerine seems to prevent death by preventing formation of a large amount of ice crystals in tissues when they are frozen, the scientists said.

Bemoans Loss Of Family Doctor Of Years Ago

MIAMI, Fla. (AP) — Dr. Fount Richardson of Fayetteville, Ark., told members of the Southern Medical Association that doctors have lost the art of "treating from the heart."

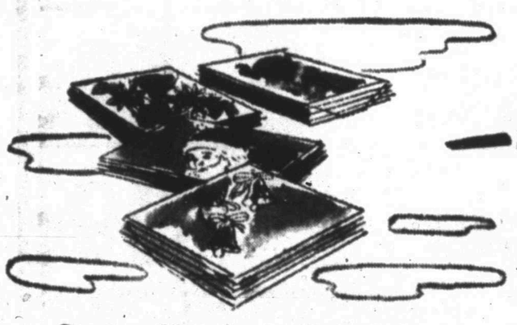

In the early part of the century, Dr. Richardson said yesterday, the physician was loved and respected as a social worker and a community leader as well as a healer.

"Then he began to specialize. He lost the art of treating families. He was not to be disturbed at night and on afternoons off.

"He had no time for community problems, leaving them to the social worker and the politician. He had no time for charity.

When this happened, Dr. Richardson said, public agencies moved into the medical field to treat the indigent and the move toward socialized medicine had started.

DOGGY COLLAR, EH?—A white wing collar with black bow tie was one of the items a Paris dog show named "Au Chien Elegant" displayed in its "winter collection" of apparel and chic accessories the well-dressed dog should have.

Mystery Lady In Cuban Death

HAVANA, Cuba (AP) — A beautiful Spanish-born television star was a mystery figure today in the fatal shooting of Julio Cesar Gonzalez Rebull, president of the Havana newspaper "El Crisbol."

She is Maria del Carmen Pereda, 30, whom Cuban television writers recently voted the nation's top television announcer and mistress of ceremonies.

Gonzalez Rebull, a handsome man of 45, was shot to death Tuesday night as he entered the woman's apartment. She also was shot in the jaw.

Police said the man who did the shooting identified himself as Matias Mateo Carreno, 52, a Spanish banker and insurance expert who came to Cuba in 1951. He set up a savings bank after his arrival but recently sold it and entered the construction business.

Police told the Court of Instruction their investigation showed Mateo Carreno and the television star had lived together several months. Recently, however, she moved to another apartment, where the shooting occurred.

Police said the evidence indicated that Mateo Carrneo went to the apartment, forced the woman to telephone Gonzalez Rebull, and shot the newspaper executive on his arrival.

The publisher's chauffeur, hearing shots, rushed to the apartment, overpowered Mateo Carreno and called the police.

Police said that both Mateo Carreno and the woman gave what the officers described as obviously false accounts of the shooting.

Mateo Carreño, according to police, said he went to the apartment to collect a document but was told by the woman that a man was to bring it there. When the man — Gonzalez Rebull — arrived, Mateo Carreno said, "he seemed angry at my presence, attacked me, and I shot him."

Police said Miss Del Carmen made no attempt to explain why she was shot.

102 Golfers Start On International Tourney

LAREDO, Nov. 13 (AP)—A field of 102 golfers starts the first round of medal play today in the third annual International Golf Tournament.

Lonnie Wendland of McAllen turned in an 18-hole qualifying score of 70 yesterday to take medalist honors.

Five other golfers shot 75s to tie for runner-up honors. They were Rex Lattimore, Laredo; Allen Willis, San Antonio; Ken Lawson, San Antonio; Meme Sanchez, Laredo, and Pepe Palacios, Laredo.

STEPPING OUT—Queen Elizabeth II appears to have enjoyed the show as she leaves London's Empire Theatre after a royal film showing and stage presentation.

Social Drinker Said In Danger Of Alcoholism

By FRANK CAREY
Associated Press Science Reporter

MIAMI, Fla. (AP) — The "social drinker" who imbibes two highballs every night before dinner may be in danger of becoming an incipient alcoholic, a psychiatrist from Richmond, Va., said today.

Dr. Howard R. Masters said "it has always been my belief that the normal, well-integrated individual who drinks socially will not become an alcoholic unless through disease, injury or conditioning there is some personality change for which he not entirely responsible."

But, he told the Southern Medical Association there's a possibility that regular drinking every night before dinner can build up such a "conditioning" in a "normal social drinker."

Such an individual, he added, might establish a "conditioned reflex demand" for alcohol so that "when an environmental situation becomes intolerable and he is physically or psychologically unable to meet the situation, he may become an incipient alcoholic and potentially a sick man."

The doctor read a prepared address at the closing session of the SMA's 46th annual meeting.

Speaking of the "problem" of alcoholism to business, industry, and also to the professions, the Medical College of Virginia doctor asserted:

"Any time an individual drinks enough to be absent or late to his work and low on the job he is drinking too much and, if this is a regular or frequently recurring thing, he may be classified as alcoholic."

It is estimated, he said, that there are between three and five million "excessive" drinkers in the United States, "and of these some 800,000 or more are chronic excessive drinkers and may be classified chronic alcoholics."

Judge Clears Self In Court

DAYTON, Tenn. (AP) — An investigation was scheduled today in connection with a verdict of innocent which Sessions Judge Harold Duncan gave himself and five others on gaming charges.

The investigation was ordered yesterday by Circuit Judge Alan S. Kelly of South Pittsburgh, Tenn., who said he also had revoked an order by Duncan to return 21 slot machines to the owners.

Sheriff Mack Thurman of Rhea County reported yesterday that Duncan was arrested at a poker game by his chief deputy when the deputy was sent to get a warrant for three men charged in the slot machine seizure.

Duncan had been seen at the game earlier, Thurman said.

The judge said he was "only told to come in" and was not arrested. He admitted he signed a $250 appearance bond.

"I presided at the hearing and charges against all six cited, including myself, were dismissed. The other five testified they were not playing poker, but were playing rummy. They also said I was not playing ..." he added.

Thurman said he testified he saw all the defendants playing.

Judge Kelly said he asked the district attorney general's office to investigate both matters.

Duncan charged the raid was "political" and stemmed from his statement to the County Court that he was "going to stop the sheriff from drawing fees from the General Sessions Court."

Thurman denied both charges. "There is very little truth in it," he said.

Shower Being Installed In County Jail

Workmen have just finished installing four shower stalls in the county jail and are reconditioning and repairing the roof of the three-story building and are rewiring electrical circuits.

Edgar Taylor, county judge, and the county's four commissioners inspected the jail yesterday afternoon and reported work was continuing satisfactorily.

The work is the conclusion of a move made early in the spring when the court ordered forced air heaters and showers. Delivery of the showers, however, was delayed until a few days ago, the judge said. The heaters, also installed recently, are now in operation.

The county grand jury several times condemned the old jail as unsanitary and unsafe. Prior to installation of the showers, prisoners had no bathing facilities.

The commissioners are also looking into the possibility of purchasing a cell block for the third floor, which was never completed for cells. Judge Taylor said it was believed a cell block could be purchased and installed, and if so, separate wards will be made there for women, juveniles, and lunacy cases. Presently, there is a small room for women and one large room which is unused on the third floor.

Mr. and Mrs. Earl Henry, 811 Twenty - fourth Street, returned Tuesday from Marceline, Mo., where they visited three weeks with their son and daughter-in-law, Mr. and Mrs. Billy M. Henry, and four sons including Kevin Earl, who was born recently.

Presidential Switches Can Be Dangerous

WASHINGTON (AP)—We are in a curious period of U. S. history.

Harry S. Truman is president of the United States even though 33 million voters have said they want a change. And he will continue to be president, with full authority and responsibility, until Dwight D. Eisenhower takes over on Jan. 20.

It's an awkward situation.

Any cabinet officer or other administrator who makes a decision or issues a statement knows he does so on borrowed time. Any diplomat abroad realizes he is speaking for an administration which has had a no-confidence vote by the people.

Fortunately, Truman and Eisenhower appear to be making the best of it.

At Truman's invitation, Eisenhower has named a couple of go-betweens, and doubtless will name more. The transition should be as painless as possible.

In the past the problem has been more acute, for two reasons.

First, until the 20th Amendment to the Constitution advanced the inauguration date from March 4, the time lag was greater.

Second, not all out-going presidents and presidents-elect have displayed such willingness to co-operate as have Truman and Eisenhower.

Herbert Hoover says in his memoirs that he begged Franklin D. Roosevelt to co-operate and that Roosevelt wouldn't. Hoover thinks this helped accelerate the slide into the depression.

Undoubtedly the most critical presidential switch came in 1860 when Lincoln took over from Buchanan.

The South was seceding, a nation was crumbling. The head of the Army, Gen. Winfield Scott, said fearfully:

"A dog fight now might cause the gutters to run with blood."

Buchanan seemed to be going in circles. He thought no state had the right to secede, but also that the government had no right to keep it from seceding.

He therefore did little or nothing.

Lincoln didn't help him. Buchanan had invited Lincoln to come to Washington if he wanted to, but Lincoln stayed home in Springfield, Ill.

Some historians feel this period of indecision may have prolonged the Civil War.

There's not much chance that the time lag between election and inauguration will be shortened soon. The dates can be changed only by another constitutional amendment.

In surface mining, "overburden" is the soil and rocks that lie atop the seams of coal. They must be removed before the coal can be taken out.

Cole of California's "Man Trap" swimsuit with sheer black organdy coat looks more like the proper attire for the boudoir than the swimming pool. Modeled by Katherine Cassidy the suit is made of black satin lastex with a wide open laced front. It was shown at the California National Press Week, sponsored by the California Fashion Creators in Los Angeles.

Boy Who Shot Sister Put With Another Sister

LOS ANGELES (AP) — Fourteen-year-old Marion Drews, who shot and killed his sister, Thelma, 12, accidentally last month while watching television, has been taken from his mother's custody.

Superior Judge William B. McKesson yesterday ordered the boy placed in the care of a married sister who lives in another city.

The widowed mother, Mrs. Bertha Drews, 38, said she bought the fatal weapon as a protection against prowlers.

Senator Long Needs Recipe For Peckerwood

WASHINGTON (AP) — Got a good recipe for peckerwood dressing? Send it to Sen. Long (D-La). He needs it.

In the recent election campaign Long, a Stevenson supporter, said in a talk that if the Republicans were returned to power the country would be back on a diet of "fried rabbit and peckerwood dressing."

Well, as might be expected, he's had several letters asking for the recipe. Unfortunately, he doesn't have one.

"It's an expression I picked up from an old timer down in Louisiana," he told a reporter.

"But the dressing, well, make it just like any dressing — with peckerwood and stuff."

"Yeah," said Bruce Tucker, his administrative aide. "Sawdust and seasoning."

(The dictionary says peckerwood is a woodpecker).

Juveniles Are Paroled Here

Two teen-age boys were paroled this week to the custody of their parents after charges were filed in juvenile court accusing them of attempting to steal a tail light off an automobile.

Edgar Taylor, county judge and judge of the juvenile court, said he paroled the boys, one 14 and the other 15 years old, to their parents. They had not previously been before the court.

They were apprehended in connection with an attempt to remove a tail light lens from a parked car near a church while services were being held. The boys were driving a pickup, the judge said, but one admitted trying to take the lens because a similar one on his father's car was broken.

They were arrested by city police.

Scientists Are Out In Gulf Checking Red Tide

FT. MEYERS, Fla. (AP)—Scientist are setting out to determine if the acres of dead fish seen floating in the Gulf of Mexico the past few days are caused by the dread red tide.

Three marine life experts of the U. S. Fish and Wildlife Service flew from Galveston, Tex., to Sarasota and a laboratory ship is on the way to join them.

Reports of dead fish are similar to those in 1947 when the red tide killed tons of fish along the Florida West Coast and ruined the summer vacation season in some places

The red tide is a tiny marine organism known as dinoflagellate. Some scientists say these organisms kill fish by entering the gills and strangling them; others say they do it with poison.

All vegetable products were at one time sugar in the leaves of green plants.

NEGRO MASONIC INSTALLATION

Reading the installation ceremony for the newly elected officers of the local Negro chapter of the Masonic Lodge is John Baker, right, Worth Master. The installation took place Sunday when ten new officers were put in office. (Joe Dave Scott Photograph.)

Yankee Leaves Land Of South

TUPELO, Miss (AP) — Newll Anderson and his pretty wife were on their way back to their native North Dakota today because, the 26-year-old newsman said, he had been warned to leave here on grounds that he is a Yankee.

The couple started driving to Fargo, N. D., late yesterday about one hour ahead of the ultimatum which Anderson said was set by two hooded men after they roughed him up on a wild automobile ride Monday night.

"We don't like foreigners coming in here and you'd better get out of town," Anderson said the men told him.

Anderson, who had been circulating manager of the Tupelo Journal for six weeks, said he had received anonymous telephone threats for two weeks.

Mayor George Maynard said that "the business of him (Anderson) being a 'damn Yankee' had nothing to do with his leaving. There is something more behind it."

Maynard and other civic leaders in this Northeast Mississippi town of 15,000 said they would get the true facts of the case "in order to remove the unjustified black eye against Tupelo and the South."

Anderson said he and his wife had been offered around-the-clock police protection for 30 days if they decided to stay.

"We got to thinking about what would happen after those 30 days and decide to leave," he added.

Mrs. Anderson, who is expecting their first child next Arpil, said, "besides, I couldn't go up to town to shop without a patrolman going along."

Winter Wonderland For Los Angeles Planned

LOS ANGELES (AP) — With apologies to New York City's Rockefeller Center, Los Angeles' Pershing Square is going to be transformed into a polar park Dec. 1.

An ice rink will be put into operation for exhibition skating right in the heart of downtown Los Angeles. The Business Men's Association is providing the 40 by 60-foot ice plot.

Christmas trappings will transform the tropic-like park into a winter wonderland.

Illinois Wonder Boy Aging At Thirty-eight

CHICAGO (AP)—William G. Stratton, aging "boy wonder" of Illinois politics, still can lay claim to being the state's youngest governor-elect since 1883.

Stratton, 38, brought a long political record into his successful campaign against Lt. Gov. Sherwood Dixon who was Gov. Adlai E. Stevenson's personal choice for the office.

In 1940, at 26, Stratton was labeled the "boy wonder" when elected congressman-at-large. He stood then with the Republican non-interventionists. Today he remains close to the conservative wing of the GOP.

Now state treasurer, Stratton says he has "a number of bills in mind" for presentation to the next legislature meeting in January but isn't ready to disclose a detailed program.

He makes one promise: "definitely, there will be no tax increases."

Stratton, incidentally, will receive an annual salary of $25,000—more than twice the amount received by Stevenson. The increase, effective in January was voted by the 1951 legislature.

Stratton's father, the late William J. Stratton, was a GOP leader and served as Illinois secretary of state from 1928 to 1932. Stratton twice sought the office once held by his father but lost each time—once in the party primary. These were his only defeats in races for statewide office.

In 1946, he won his second term as congressman-at-large, defeating the Democratic incumbent by 365,000 plurality. During World War II Stratton served in the Pacific as a Navy lieutenant.

Stratton has been married twice. He claimed desertion in divorcing his first wife in 1949. He had married her in 1934 after his graduation from the University of Arizona. He married again 18 months later.

He and his 28-year-old wife, Shirley, have two homes—a small apartment near the state capitol in Springfield, and a nine room, white stucco Victorian mansion in Morris, a Northern Illinois city of 9,000. Living with them are his two teen-age daughters by his frist wife.
