President Will Request Joint Meeting to Adjust The Mine Wage Dispute

WASHINGTON, Oct. 12.—President Wilson today notified representatives of anthracite miners that he would request a joint meeting of operators and miners to be held at Scranton, Pa., October 18, for the purpose of adjusting any inequalities in the recent wage award.

The president in his message congratulated the miners for their promptness in complying with the award of the anthracite commission. The telegram was addressed to John Collins, Scranton; Thomas Kenedy, Hazelton, Pa.; C. J. Golden, Shamokin, Pa., and Phillip Murray, international vice-president of the United Mine Workers, Indianapolis.

SUPPLY OF GAS FOR INDUSTRIAL PLANTS WILL BE AVAILABLE

TEXHOMA COMPANY PURCHASES SIX-INCH PIPE LINE TO FIELD.

PLANNED TO HAVE LINE IN OPERATION AT ONCE

Texhoma Has Number of Gas Wells Ready To Be Connected Up.

Wichita Falls' industries are assured a fuel supply, operators in the Texhoma field are assured a market for gas and domestic users of gas in Wichita Falls are assured a larger gas supply by the action of the Texhoma Oil and Refining company in purchasing a six-inch pipe line from the Texhoma field to Wichita Falls to be used to carry gas for industrial uses in Wichita Falls. Announcement of the purchase was made today by W. B. Hamilton, general manager for the Texhoma company.

The pipe line purchased was that of the Texas company. It is a six-inch line and is admirably suited for carrying gas. The gas will be sold to industrial users only, such as the glass plants, the Wichita Mill and Elevator company, the refineries and other large users of fuel. It is not the intention to sell the gas to industrial consumers, but if there is a surplus after filling the industrial needs it will be offered the North Texas Gas company.

Expect to Operate Soon.

It is hoped to have the line in operation within a short time. The transfer of the property from the Texas company to the Texhoma company has already been signed.

The Texhoma company has a number of gas wells ready to be connected with the pipe line. There are a number of wells in the field owned by others. It is believed that satisfactory contracts can be made with the owners of these wells. It is estimated that there is now available more than thirty million feet of open-flow gas in the Texhoma field daily.

The Texhoma company has more than one thousand acres of leases in the new gas fields and contiguous leases are owned by Wichita Falls interests, so that the field may be claimed as Wichita Falls' own. The gas from the Texhoma pool is a dry gas with a higher heat value than the Petrolia gas.

The announcement of the acquisition of the pipe line by the Texhoma company and its plan to furnish gas to Wichita Falls' industries is regarded as one of the most important to the commercial life of Wichita Falls that has been made in a long time.

READ HARDING PAPER AT SOUTHERN TARIFF CONGRESS

NEW ORLEANS, Oct. 12.—Substitution of a "broad national outlook for the sectional feeling that has to some extent isolated her people and hindered their participation in the march of economic progress," was recommended as the necessary viewpoint of "every forward looking southerner," by Senator Warren G. Harding, republican presidential candidate, in a paper read before the opening session here today of the Southern Tariff Congress.

CHARGE CHINESE WITH LAXNESS TOWARD BANDITS

TOKIO, Oct. 12.—The Japanese foreign office has issued a statement charging laxness by the Chinese government is responsible for co-operation between Koreans and Chinese bandits on the Manchurian border.

The statement said Japan will make representations to the Chinese immediately.

PINE BLUFF FIRE THREATENS BUSINESS PART OF THE CITY

PINE BLUFF, ARK., Oct. 12.—Fanned by a high wind, fire is sweeping the southeast section of Pine Bluff. More than 50 houses had been burned at 3:00 p. m. and 30 more were on fire, with the blaze spreading rapidly toward the business section, a mile away. The fire started in a negro house at 2:00 p. m.

At 3:20 p. m. the fire leaped over a vacant spot of several blocks and three houses within half a mile of the business section were burning. Firemen, however, thought they had this blaze under control and that the fire could be checked on the new line.

LEAGUE OF NATIONS MAY WIELD A CLUB IN VILNA DISPUTE

LONDON, Oct. 12.—The league of nations may wield a club in the Vilna dispute between Poland and Lithuania. League officials today denounced the coup de force by which General Zeligowski seized the Lithuanian city. It was declared French and British authorities will investigate the circumstances immediately.

Repudiation of the Vilna episode by Polish authorities was declared insufficient today.

LOS ANGELES BANKS TO FINANCE COTTON CROP TO $2,500,000

LOS ANGELES, Oct. 12.—All banks of Los Angeles have joined in an arrangement to finance the cotton crops of California, Arizona and New Mexico to the extent of $2,500,000, according to an announcement today by J. Dabney Day, vice-president of the First National bank.

The Los Angeles banks under the plan adopted will advance the banks in cotton growing localities sums up to 29 cents a pound on Pima or long staple cotton and eight cents a pound on short staple stock to cover picking, ginning, baling, warehouse insurance expense. The loans will be made to local banks upon their endorsement of the growers' notes, agent here has agreed to accept and carry to maturity as eligible for discount, it was announced.

BOLSHEVIKI ARMY SUFFERING REVERSES AT SEVERAL POINTS; GEN. WRANGEL IN NEW ATTACK

RIGA, Oct. 12.—A preliminary peace treaty and armistice was signed by the Polish and Russian soviet peace delegates here at 7:10 o'clock tonight.

WARSAW, Oct. 12.—Ukrainian insurgents have occupied Kiev, the bolshevik forces that were holding the city abandoning it, according to advices received here.

SEBASTOPOL, Oct. 10.—General Wrangel, the anti-bolshevik leader, has launched his expected offensive against the new sixth army of the soviet forces, sheltered behind the Dneiper. General Wrangel is carrying out a pinching movement, converging on the town of Kakhovka, northeast of Kherson.

LONDON, Oct. 12.—Conditions along the south Russian front have assumed a serious aspect for the bolsheviki, according to advices received here. General Baron Wrangel's troops are continuing to advance north of Crimea and the Sea of Azov. Nikolaev, the principal Russian naval station on the Black sea, is said to have been captured by anti-bolshevik insurgents. Although no agreement looking to an armistice has been reached with Poland and large numbers of soviet troops are in a position to be rushed to south Russia, the soviet government is reported to have made peace proposals to General Wrangel.

General Lokhovizy, in command of anti-bolshevik forces in trans-Baikalia, recently placed his troops at the disposition of General Wrangel and now General Semenoff, who for the past two years has been fighting the soviet armies in Siberia, has taken a similar step.

General Budenny, leader of bolshevik cavalry during the recent offensive in Galicia, is said to have turned against the bolsheviki, and to be planning an attack on Kiev.

BEAUTIFUL MANIAC IS THE CHIEF EXECUTIONER

PARIS, Oct. 12.—A beautiful maniac is chief executioner for the bolsheviki, according to French prisoners returning here today.

The girl, described as a Lettish beauty with raven tresses and burning black eyes, kills her victims with a revolver, shooting them in the back of the head.

The French prisoners were repatriated after having spent a term in Butirki prison in Moscow. That institution, they said, was filled with 3,000 men from all ranks.

FOUR OF GOVERNORS TAKE COGNIZANCE OF BURNING OF COTTON

ARKANSAS AND ALABAMA EXECUTIVES HAVE ISSUED PROCLAMATIONS.

STATEMENTS BY GOVERNORS SOUTH CAROLINA AND GA.

Gin Near Fort Worth Is Reported To Have Been Destroyed Monday Night.

FORT WORTH, Oct. 12.—The gin of G. B. Moore at Pursley, Texas, burned last night and is believed to have been of incendiary origin. The loss is $6,000.

ATLANTA, GA., Oct. 12.—The shooting to death yesterday of a negro guard at a cotton gin in Arkansas, numerous fires of undetermined origin in which cotton has been destroyed and widespread threats of night riders to burn gins whose owners ignore warnings to discontinue operations until the staple reaches a price of 40 cents a pound, have resulted in the issuance of proclamations by Governors Brough of Arkansas and Kilby of Alabama and statements of their position by Governor Dorsey of Georgia and Cooper of South Carolina.

Governor Brough, upon being advised last night of the shooting of Nora Canada, in Lonoke county, issued a proclamation citing the killing and "lawlessness in some of our counties growing out of the prevailing low price of cotton." The governor called upon the state adjutant generals and sheriffs of counties "where there are likely to be disturbances," to use all power at their command to "suppress these night riding outrages." Posts of the American Legion also were urged to co-operate with the authorities.

Two Negroes Arrested.

The killing of Canada, until last night, had been regarded by the authorities as a possible outgrowth of night riding activities, as the owner of the gin at which the negro was killed is said to have received a warning to close it. Two negroes have been arrested and charged with the killing, however, and one of them is said to have confessed that the motive was robbery, refuting the theory that the shooting was an act of night riders.

In a proclamation citing the burning of gins and gin houses in Alabama, Governor Kilby has offered a reward of $250 for the arrest or the conviction of any person guilty of the destruction of property.

"This character of lawlessness deliberately violates one of the fundamental purposes for which government is established and threatens to substitute for orderly government a reign of terror and violence," the governor declared.

Deplores Act of "Fanatics."

Governor Cooper in a communication to I. W. Harris, solicitor of the 16th judicial circuit of South Carolina, deplored the acts of "fanatics" and gave assurance that should any situation develop which would require extra effort on the part of the state he would not hesitate to order it.

Replying to a question from a county sheriff that the offer by the state of a reward for the arrest of night riders in Georgia would have a beneficial effect, Governor Dorsey stated that threats against property in Georgia constituted a misdemeanor only, and that under the circumstances he was not authorized to post a reward. The governor declared, however, that in the event the property was destroyed, a felony would have been committed and that he would "be glad to offer the highest reward possible under law."

GOVERNMENT IS TAKING A HAND IN INVESTIGATION

SAN ANTONIO, Oct. 12.—The United States government is taking a hand in the wholesale burning of cotton gins and compresses in Texas by so called night riders, it was learned here late yesterday.

Several agents have been sent to Cameron where a million dollar fire destroyed 5,000 bales of cotton late Saturday night to determine whether the fire was of incidenary origin.

Agents are also working on other cases in this section of Texas, it was said.

Department of justice agents believe the fires to be the work of a large organization extending over the entire cotton district. The fires usually follow warning to farmers not to sell their cotton until prices are higher.

The warnings sent have been similar in construction and wording, agents state.

"Facts gathered by agents, if they show the compress fires are part of a program of intimidation by any organization will be laid before the grand jury and indictments sought," Louis A DeNettes, in charge of operations in Texas, Arizona and New Mexico, said.

WIDESPREAD DESTRUCTION IS FEARED IN GEORGIA

ATLANTA, GA., Oct. 12.—Widespread destruction by night rider terrorists was feared by cotton men here today. Douglas county authorities offered $300 reward for apprehension of the raiders who posted warnings on cotton gins that they would be burned if they operate while cotton prices are below 40 cents.

Sheriff Baggett of Douglas county appealed to Governor Dorsey for assistance. The governor declared he could do nothing until the lawless threats were carried out.

Guards are being employed at many gins. Posting threats in widely scattered sections of the cotton states has been reported here but authorities say they do not think the situation serious.

COX SURPRISED AND HIGHLY PLEASED WITH ST. LOUIS RECEPTION

AUDIENCE YELLS ITSELF HOARSE IN CHEERING FOR DEMOCRATIC NOMINEE.

CONTINUE EFFORTS TO BREAK REPUBLICAN RANKS

To Emphasize Opinion No Agency Of League Can Force Troops Into War.

By HERBERT W. WALKER
United Press Staff Correspondent.

EN ROUTE WITH GOVERNOR COX. Springfield, Ills., Oct. 12.—Surprised and highly pleased with the noisy ring accorded him at St. Louis last night, Governor Cox today was pushing his stump campaign eastward again through the northern half of Illinois.

His party left at 7:07 for Peoria, the first stop of the day, after spending five hours in the railroad yards here. Tonight the governor will speak at Lafayette, Ind., and will make several rear platform talks en route there.

Cox said that he had received encouraging reports of the Missouri situation during his stay in St. Louis.

"The state has been aroused by the definite proposal of Senator Harding to reject and turn his back on the league," he said. "I feel confident that the issue of peace will win in the state by a good safe majority."

Demonstration for Wilson.

The St. Louis audience yelled itself hoarse in cheering for democrat leaders. Cox was cheered nearly 20 minutes, while mention of President Wilson's name caused a demonstration of equal length.

With article 10 apparently being forced into the political spotlight by the speeches of both candidates, Cox is prepared to emphasize today that in his opinion no agency of the league can order American troops to war.

"All article 10 does in this respect is to state that in case of external aggression, the council of the league shall advise as to what action shall be taken," he said. "No where in the article can you find the word 'order' or even 'recommend.'"

Cox is continuing his efforts to force a break in the republican ranks between Harding and the pro-league leaders. He has fired a series of nine questions at ex-President Taft tending to show that he is on record as having strongly favored article 10, and attacked republican senate leaders who were fighting the treaty.

ARMENIANS PLUNGE INTO NEW WARFARE AGAINST THE TURKS

ERIVAN, ARMENIA, Oct. 9.—Armenia has plunged into new warfare against bands of Turks and Tartars Her army, commander by General Seboo, is estimated at 24,000 men, who for the most part have been conscripted since last spring. All are able-bodied, their ages running from 17 to 45 years.

The reason for the fighting is the fact that the interests of the Armenians and Moslems here cannot be reconciled. A bolshevik mission has been here since the conference at Baku of representatives of nations in Caucasia and trans-Caucasia, but the Armenians are afraid to go bolshevik, fearing they may be subjected to the same disorders that occurred at Baku recently. The only concrete result of the Baku conference has been a decision by soviet agents to discontinue present attempts to forcibly communize Islamic countries and they are confining themselves to propaganda which is principally anti-British.

Tartars and Persians have been attacking Armenia for the purpose of establishing a corridor from Baku to Angora, in Asia Minor.

Twenty-nine Americans are engaged in the work of feeding 25,000 orphans in Armenia, having their center of supplies at Alexandropol.

BAYLOR UNIVERSITY BUREAU FURNISHES MANY TEACHERS

WACO, Oct. 12.—Schools and colleges of Texas, New Mexico and Oklahoma and Louisiana thus far this school year have drawn on the teachers' employment bureau of Baylor university for 236 teachers. Calls for teachers have come from almost every large Texas county.

INDUSTRIES TIED UP BY ELECTRICAL STRIKE IN CITIES OF GERMANY

LEIPSIG, Oct. 11.—The municipal workers struck today and the city is without electricity, gas or water.

DRESDEN, Oct. 11.—The street car services in Dresden went out of commission today on account of strike of the electrical workers.

PLAN A WHOLESALE DRY GOODS FIRM OF A MILLION CAPITAL

PAPERS PERFECTING ORGANIZATION ARE SIGNED IN THIS CITY TODAY.

PLANS BEING PREPARED FOR A LARGE WAREHOUSE

Three Men Prominent In Business Affairs Behind Project But Names Are Withheld.

Papers organizing a wholesale dry goods business for Wichita Falls backed by a capitalization of $1,000,000 were signed in this city today; plans for the construction of a warehouse are being drawn and tentative steps are under way to have the entire business ready for the next fall trade in this territory.

Although their names cannot be made public at this time for business reasons, three men who are influential and prominent in the mercantile world of Texas are backing the new project. One is a citizen of Wichita Falls who has been connected with a business institution here that has paid some of the largest dividends ever checked out in this city.

Will Be Large Institution.

J. D. Parnell, retiring representative in the state legislature from the 101st district, who is handling the bulk of the legal and technical details for the three men referred to, is authority for the statement that the new wholesale dry goods house will be one of the largest, most solid and substantial institutions of its kind in the southwest.

"The establishment of this house in Wichita Falls," Parnell said, "will unquestionably encourage other wholesalers to locate here, and to create a market in this trade territory. It would be wise for the city at this time to plan for a wholesale and jobbing center, which might easily be done if interested men would acquire the necessary property both as an investment and as a matter of civic duty."

Factory Also Planned.

It was learned also that the men behind the project are contemplating the erection of a factory to manufacture overalls and a general line of work clothes in connection with the wholesale dry goods business. It was estimated roughly today by Parnell that the wholesale and factory plants combined will mean not less than 250 additional workers in Wichita Falls, and will bring here a payroll in the neighborhood of $450,000 yearly.

Although the plans have not been completed, it is understood that the wholesale house will be a three-story and basement brick structure. Local offices will be opened here very soon, and buyers will be sent into the eastern markets before the building is completed, in order that a complete stock of dry goods may be on hand for the fall business. It is planned to cover this entire trade territory, not excepting a wide trade area in Oklahoma.

Parnell, in referring to the manner in which the project was launched, stated that the local Chamber of Commerce, in the course of a quiet campaign to open up a wider trade territory for Wichita Falls, had been largely instrumental in interesting outside parties to make the investment here.

MASS MEETING CITIZENS ORGANIZE FOR PROTECTION

ANNISTON, ALA., Oct. 12.—A mass meeting of citizens here tomorrow will organize for the protection of cotton gins, threatened with destruction unless they are closed to retard production and force up the price of cotton. Notices have been posted on several gins in Calhoun county warning they must be closed by tomorrow or be destroyed.

BEGIN TAKIN GEVIDENCE IN THE C. C. MIMS TRIAL

FORT WORTH, Oct. 12.—Taking of evidence in the case of C. C. Mims, alleged bandit and bank robber, began at Eastland this morning. His effort yesterday to secure the quashing of the special venire was overruled by District Judge Hill. The defense, according to Mims' attorney, will be mental irresponsibility, due to epileptic attacks. The jury was completed late Monday.

PRACTICALLY TIED UP THE RIVER FRONT ACTIVITIES

NEW ORLEANS, Oct. 12.—Teamsters, draymen, loaders and unloaders had practically tied up river front activities here today with a strike for higher wages.

ATTEMPT IS MADE TO ASSASSINATE THE PRINCE OF SERBIA

BRUSSELS, Oct. 12.—An attempt to assassinate Prince Alexander, the prince regent, Serbia, was made at Sarajevo when a bomb was thrown under his train, the Montegren press bureau announced today. The explosion wrecked two of the coaches of the train but the prince was not injured.

Sarejevo was the scene of the assassion of Francis Ferdinand, crown prince of Austria Hungary, and his wife in June, 1914. This assassination started the war.

Prince Alexander is the second son of King Karagorgevitch of Serbia. His elder brother, George renounced his right as heir to the throne in 1919. Alexander then became heir apparent. Later he was made regent because of King Peter's ill health. Alexander was born in 1888. He is not married.

COVELESKIE FOR THIRD TIME TWIRLS INDIANS TO VICTORY OVER BROOKLYN DODGERS

LEAGUE PARK, CLEVELAND, October 12.—Cleveland, the American League pennant winners, are the world's baseball champions of 1920. They defeated the Brooklyns by a score of 3 to 0 today and won the big championship in baseball. The big Pole, Coveleskie, winning his third game of the series, held the Brooklyns helpless. The series ended with five victories for the Clevelands and two for the National Leaguers.

MAN O' WAR WINS MILE AND QUARTER RACE IN 2.03 FLAT

KENILWORTH JOCKEY CLUB, Windsor, Ontario, Oct. 12.—Man o' War, champion three year old of America, won the thoroughbred championship of the continent from Sir Barton over a course of a mile and a quarter here this afternoon in 2:03. His victory netted his owner, Samuel B. Riddle of Philadelphia, a $75,000 purse and a gold cup valued at $5,000. Man o' War, a heavy favorite in the betting, finished ahead by eight lengths.

Sir Barton led at the start but Jockey Clarence Kummer put Man o' War ahead at the first 16th pole and he was never in danger again.

Kummer galloped his mount to the seven-eighths pole a good two lengths ahead. Then with a burst of speed the riddle horse stretched his lead to a good eight laps.

The time for the distance, 2:03 flat, is a new record for Canada but does not equal the record set by Sir Barton and later tied by Man o' War. The old Canadian mark was 2:04 and a fraction.

PRESIDENT-ELECT OBREGON TO VISIT FAIR OCTOBER 15

DALLAS, Oct. 12.—General Obregon, president-elect of Mexico, will visit Dallas in connection with Mexican industrial and commercial activities at the Texas state fair October 15, according to a telegram received here today, signed by Obregon, and advice to Governor Hobby.

PRESENT DISTRICTS MANIFESTLY UNFAIR TO WEST TEXAS AS SHOWN BY COMPARING CENSUS FIGURES

Wichita county has less than half the representation, in the Texas house and senate, that she is entitled to, according to the returns of the 1920 census. That is to say, taking the average for the entire state, and comparing it with the representation accorded this section, Wichita county has less than half what her population should have.

The present plan of districting for the lower house of the legislature was adopted on the basis of the 1910 census, and was, at least, far more equitable than the old basis. The present senatorial districts date back to 1900, and Wichita county alone today has almost as many people as there were in the entire district.

It is certain that redistricting measures will come up in the next legislature, and proper steps should be taken, to see that this county and section are more fairly treated.

Districts Unfair.

The senatorial districts as at present constituted are ridiculously unfair to west Texas. There are 31 senatorial districts, so that the average population per district, based on the 1920 state total of 4,661,027, would be 150,356. The 29th senatorial district, which includes Wichita county, has a 1920 population of 340,589, or considerably more than twice the average. The district stretches from Clay county on the east and Jack and Throckmorton on the south, clear to the New Mexico line, including all of the Texas Panhandle.

Since the representative redistricting a few years ago, there is no such great disparity in the lower legislative house, but there is certainly room for improvement. The average number of inhabitants per legislator is 32,824. Wichita and Wilbarger counties, comprising the 101st district, have slightly over 73,000 population, or about two and a half times much as the average.

Delay a Discredit.

It is one of the disgraces of Texas legislative history that there has been no senatorial redistricting in recent years. As matters stand now, the average resident of east Texas has three times as much representation in the state senate as has the west Texan. The first, second, third and fourth districts, in north and northeast Texas, have a combined population of about 370,000, which is not a great deal more than the 340,000 of the 29th district. The 31st district, consisting of Denton, Wise and Montague counties, has a population of only 82,831, actually less than one-fourth as much as the 29th district.

When the present senatorial districts were created, the 29th district, it is true, was inhabited largely by prairie dogs and coyotes, but there is no shadow of excuse for permitting unequal representation to continue. Eleven senatorial districts have populations in excess of the average for the state as a whole, and these 11 include all of the west Texas districts. But when some fair redistricting plan is submitted, state senators from the tiny, under-populated east and south Texas districts will be in sufficient number to block it, if they wish to do so, and there is nothing in the history of state senators in Texas to make the outlook especially hopeful.

One Curious Feature.

One curious feature of the present districting system is that northwest Texas has more representation in congress than in the state senate. Congressman Parrish represents about 250,000 northwest Texans, while State Senator Bledsoe shoulders the legislative burdens of over 340,000.

Northwest Texas is of course not the only section that is unfairly treated. The 10 most populous senatorial districts, including all the western districts and several in other sections, have a total population of 2,435,000, or more than half the state's total. As there are 31 senators, this compilation means that 21 of them represent one-half the state, while the other 10 represent the remaining half. If you live in a thinly populated district you have over twice as much voice in the state senate as your brother who lives in Wichita county, or any county in the 10 most populous districts.

Examples Are Given.

The need for correction of the representative districting arrangement may be shown by a few examples:

The Wichita-Wilbarger district, with a population of 88,000, has one representative.

McLennan county, with 83,000 population, has three representatives.

Grayson county, with 74,000 population, has three representatives.

Travis county, with 57,000 population, has two representatives.

Numerous other examples might be cited.

So far as congressional representation is concerned, this section has no complaint. Each of Texas' 18 congressmen represents, on an average based on 1920 figures, 259,000 inhabitants, which is about 10,000 more than there are in this, the 13th district.

Number Remains the Same.

While the number of state senators must remain at 31, it remains to be seen whether any additional congressmen or legislators will be made possible. It is believed that Texas will get two more congressmen, a total of 20, in which case the district of which Wichita county is a part might be made smaller. At present, this district includes Denton and Wise counties, which have little, if any, community of interest, with the remainder of the district, and any revision of the congressional lines should be based on a recognition of that condition.

In the lower house of the legislature, any redistricting measure should provide at least one representative for Wichita county alone, and it is not unreasonable to expect that two will be found a fair number. When counties of less population already have three, two for Wichita county does not appear excessive, but this depends largely upon the total number of legislative districts created.

Many Wonder Why.

With such glaring inequalities in the districts as have been cited, those unfamiliar with legislative procedure may wonder why changes are not made; the answer is that, too often, a legislator's ambition and selfishness outweigh all other considerations with him. A state representative is usually unwilling for the representation of his community to be reduced, even though a reduction is clearly in order. Again, he may have ambitions for the state senatorial toga, and the state senator, in turn, may be looking forward to serving at Washington; he opposes, therefore, the creation of a district in which his chances for success might not be good.

This has been particularly true in recent years, when apparently a large number of Texas' legislators and senators had such aspirations. A large number of senators served a legislative apprenticeship in the house, but the senators who sought to go to congress were in almost every instance thwarted in their desires. Congressman Hudspeth is, the writer believes, the only Texas congressman who was a state senator. Congressmen Buchanan and Garner, and perhaps others, formerly were members of the lower Texas house, but did not serve as senators.

The situation is one that demands the earnest attention of west Texas legislators and senators when they convene in January; for west Texas is the section that is now under-represented.

STILL NEGOTIATING THE JAPANESE QUESTION

WASHINGTON, Oct. 12.—Negotiations over Japanese immigration and anti-Japanese immigrant in California were conducted at the state department today. Roland S. Morris, American ambassador to Tokio, and Shid Hara of Japan were carrying on the negotiations.

While the state department and the Japanese embassy maintain the strictest secrecy, negotiations were believed progressing toward a settlement.

Japan may take the position that all laws discriminating against her subjects already in the United States, such as the existing anti-alien law in California, must be wiped out, it was understood here today. The proposed California law for prohibition even of land leasing by Japanese also would be included in this demand.

The United States is not entirely satisfied with the "gentlemen's" agreement, in which Japan voluntarily undertakes to restrict immigration and wants an absolute prohibition of Japanese labor immigration.

WOMEN MORE DARING IN WATER THAN MEN

SAN ANTONIO, Oct. 12.—The female of the species is far more deadly—and daring—than the 'male—especially in the ol' swimmin' hole. Of the thirty-three rescues made this season at San Antonio's community swimming hole, twenty-seven were women, according to Anthony Curreon, life saver. Women are harder to save than men, said Curreon.

"They try to grab me around the neck and strangle me," he said. "So now I treat 'em rough, grabbing them by their hair and holding them at arm's length."

Curreon has one rule for the safety of swimmers, which he says would do away with pulmoters, life guards and first-aid treatment. It is: "Don't go in water over your head."

GOVERNOR GARDNER HAS MATCHED THE PRESIDENT

NEW YORK, Oct. 12.—Governor Gardner of Missouri today "matched the president" with a $500 contribution to the democratic national campaign fund, it was announced at democratic national headquarters. The largest amount received in a single morning was $17,000, which came in the mail today, it was stated.

CONDITION OF DAUGHTER OF ADMIRAL IS CRITICAL

WEIMAR, Oct. 11.—The condition of Fraulein von Scheer, daughter of Admiral Reinhardt von Scheer, who was wounded when her mother and a maid were assassinated in the admiral's villa Tuesday afternoon, still is critical.

"Lay off that 'natural advantage' stuff. Eastland depended on her advantages of that character up to two years ago, and it never did get her anywhere. Let us forget our natural advantages and depend a little more on pep and hustle."—Eastland Oil Belt News.

Natural advantages are perfectly good foundation, but they need the press agenting of the aforementioned pep and hustle. The chances are that even the marvelous loveliness of Marguerite de Valois—and nothing is more certainly a "natural advantage" than loveliness—would never have achieved perpetuation in the annals of French history had her personality not equaled or surpassed her beauty. Beautiful lips and eyes are powerful mediums through which personality achieves its success, but lips and eyes alone are poor agents. The probabilities are that too many members of the human family are vainly depending on unsupported natural advantages to carry them through the vicissitudes of earthly existence, while the fine old props of courtesy, kindness and sincerity are being utterly ignored.

NEW ROWENA CIRCLE OFFICERS ELECTED AT THURSDAY MEETING

New officers were elected for the year at the Thursday meeting of the Rowena circle, as follows:

Mrs. W. W. Shuler, president; Mrs. R. H. Ramsey, vice-president; Mrs. J. C. Leggett, secretary; Mrs. C. M. McFarland, secretary-recorder; Miss Louise Chatterton, treasurer.

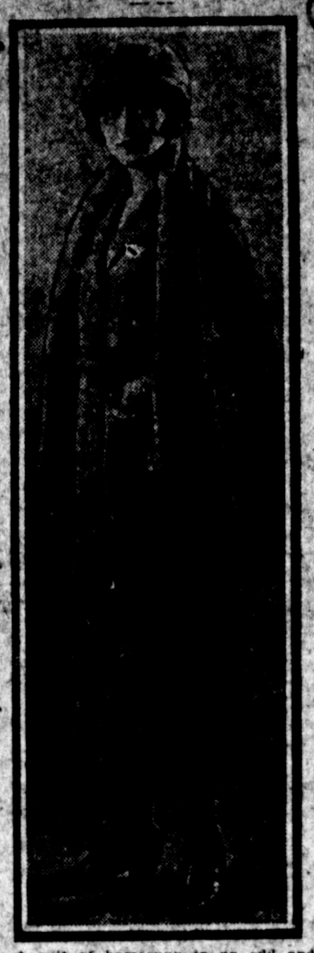

A new ruling was passed whereby all women members of the Homestead become members of Rowena circle without further action, and a motion carried providing for several special features of entertainment at social night meetings.

The meeting date of the circle was changed from Tuesday afternoon to Thursday at 3 o'clock. The meeting last week was held with Mrs. R. H. Ramsey at her home, 1208 Tyler street, with eight members present and a new member, Mrs. Dick, recently moved to the city. Following the business session the hostess, assisted by Mrs. J. C. Leggett, served a delicious refresh-course. The next meeting is to be held with Mrs. W. W. Shuler Thursday of this week.

NO CLUE TO THE ROBBERS WHO RAIDED POKER GAME

Efforts of the local detective department to locate the men believed to be responsible for the series of robberies and holdups in the residential districts last week have thus far been unavailing. Police are of the opinion that the two men alleged to have raided a poker game in a house on Brook street Sunday night are the same ones implicated in the robberies which occurred earlier in the evening.

The search has not been altogether fruitless, however, for while searching through the rooms of a local hotel detectives found a five-gallon jug filled with corn whiskey. The owner of this potential accumulation of wealth was turned over to federal authorities.

WICHITA COUNTY GIRLS AT C. I. A. ORGANIZE FOR "PEP" YEAR, SEVENTEEN MEMBERS

Wichita county girls at the College of Industrial Arts in Denton are organized for a "regular "pep" year at that college, according to a note from Miss Emma Carter, daughter of Mr. and Mrs. E. W. Carter of this city, and president of the Students' Council at C. I. A.

The Wichita county girls, 17 in number, met Thursday evening of last week and organized a Wichita County Club, electing officers as follows: Miss Lois Fitzgerald, daughter of Mr. and Mrs. W. E. Fitzgerald, president; Miss Maurine Hickman, daughter of Mr. and Mrs. T. P. Hickman, vice-president, and Juanita Douglas of Electra, secretary-treasurer. Members of the club beside the officers include: Misses Ethel Marie Ancell of Electra, Lela May Chapman of Iowa Park, Emma H. Carter, Francis Cook, Lila Copeland, Lillian Closuit, Winnie Maye Giddings, Lottie Mae Gibson, Leona Maricle, Ethel Merle Mathis, Cecilia Roth, Mattie Lee Straus and Crystelle Waggoner of Wichita Falls, Ruth Willis of Iowa Park and Josephine Hagan of Electra.

The club has not completed plans for its year's work, Miss Carter stated, but the members intend to make it largely a social organization, the activities mainly to include hikes, picnics and movie parties.

A full page representation will be taken in the Daedalian, the college annual, of which Miss Fleet Staley, daughter of Mr. and Mrs. J. I. Staley of Wichita Falls, is business manager.

"There seems to exist a very sympathetic comradeship in the student body this year," Miss Carter says. "We haven't struck any snags in student government yet."

CULBERSON CLUB LUNCHEON WEDNESDAY; GUEST EXPECTED

Members and other women interested in the Women's Culbertson club who expect to attend the Culbertson luncheon at the William and Mary Wednesday noon are asked to notify Mrs. O. P. Maricle, phone No. 5614, at once, as it is necessary for the committee to know how many guests to prepare for.

Mrs. Myron Kessner of Dallas, who is to be the principal speaker of the luncheon meeting, is expected in Wednesday morning and will be a guest at the home of Mr. and Mrs. J. A. Richolt. No other out-of-town guests are expected.

BOB WAGGONER BUILDING

Don't Fail to Visit the Howell Store This Week

The Howell Store's special offerings for this week comprise the most wanted lines of Wearing Apparel for Women, Men and Boys, priced in such a manner as to offer every inducement to those who are looking for a saving in their fall and winter purchases.

Quality should mean just as much in a special sale as it does for every-day selling. The Howell Store "quality" is stressed just as much in these special sales as is the price, and it is because every article offered in these sales is of superior quality that we feel our discounts are of material advantage.

Our best selling point is the quality of our stock, coupled with the special prices. To best appreciate this, you must see the goods advertised.

COME TO OUR STORE THIS WEEK AND BECOME ACQUAINTED WITH THE QUALITY AND THE VALUES WE OFFER, NOT ONLY ON SALE, BUT AT ALL TIMES.

Splendid Values in Cloth Frocks For Immediate Wear

Right at present a smart Frock of Tricotine or Serge will serve the woman who likes to be well dressed for a multitude of occasions.

For this week's sale we have put special prices on all our woolen one-piece Frocks, including the plain tailored, the embroidered and beaded models and the combinations using the Satin and woolen fabrics in contrast. Each garment is strictly individual, and all are specially priced.

Coat Suits and Coats in Every Wanted Mode

Our Coat Suits and Wraps form another section of our specials for this week, and we have included every garment of these lines.

Those who prefer a certain amount of elaborateness in their Coat Suits will take an especial delight in our fur trimmed Suits. On some there is an added adornment of embroidery. All are in the most desirable of the new shades and materials.

Other Suits follow the most severely tailored lines. All are accepted as new and proper.

And on all we are offering for this week highly attractive prices. Our advice at this time is to take advantage of this sale now, as many others are doing.

Special Prices Also on Afternoon and Dinner Dresses

In another of our "revised prices" groups is our complete line of afternoon, dinner, reception and evening Frocks. These handsome gowns are in such a diversity of style and material that a choice can be found for any possible need.

This sale on these frocks affers great possibilities for the woman whose wardrobe does not already meet every social requirement. These prices are especially attractive. Come and make your purchase while there is a wide choice.

Stunning Blouses and Dainty Underwear

The complete wardrobe for any season demands at least one handsome Costume Blouse. Our Blouse Section is full of alluring new creations, and this week they are so priced as to make it possible to have two Blouses almost for the price of one, so advantageous is the saving.

Our Silk and Muslin Underwear also is included in this special sale. Gowns, Teddies, Vests, Camisoles and Brassieres are all especially attractive in the reduced prices.

"THE MIRACLE MAN" AT MAJESTIC THEATER TODAY

"The Miracle Man" is returning. His services have been secured for one day only and he will be seen at the Majestic theater today. This famous photoplay which was unanimously acclaimed to be the greatest film produced since "The Birth of a Nation" set the entire country talking when it was first offered for presentation last year and even now, after the advent of "Humoresque," it holds a unique place in the movie world. The plot is what has been described as being "different," but this only adds to its value, while the work of Thomas Meighan is the best that the famous actor ever did.

The film was secured for but one day only and is expected to draw capacity crowds to the Majestic during its short run here.

THOROUGHLY INTERESTING PICTURE AT THE OLYMPIC

"Something to Think About" has turned out to be just what its name implies and in addition to being a thoroughly interesting moving picture it is designed to inspire mental effort in all those who witness it. Like all of the Cecil B. DeMille productions, this film is out of the ordinary and treats an unusual subject in an unusual way. The performance given by the all-star cast is equalled only by the uniqueness of the story and the manner in which it is handled.

The work of Elliot Dexter and Gloria Swanson in "Something to Think About" can be placed in a class with that of Thomas Meighan and his co-stars in "The Miracle Man" and other justly famous pictures. Both of the leaders in the present film give splendid portrayals of their respective parts and are given excellent support by Theodore Roberts and Monte Blue in the lesser roles.

PAULINE FREDERICK SCORES TRIUMPH IN "MADAM X"

Pauline Frederick scores the most notable triumph of her career in "Madam X," the feature attraction now being offered at the Empress. For those who are fond of emotional pictures this film provides ample entertainment, while for those who desire thrills and intense situations, it is well stocked with scenes of this type. "Madam X" herself is a character which would appeal in any position, but played by Miss Frederick and in the surroundings provided by the movie studios it is doubly attractive.

This picture is a splendid interpretation of one of the most famous stage plays ever written and the chief role, on which depends the greatest success of the production, is handled by the most capable actress of its time since the days when Sarah Bernhardt was given the title role and won fame on the stages of London and Paris.

REVIVAL OF "ROBIN HOOD" SCORES GREAT SUCCESS

The present tour of the famous De Koven opera, "Robin Hood," which is to be presented at the Wichita theater on Monday and Tuesday, October 18 and 19, is a continuation of the revival which this play had at the Park theater, New York, early in February. When offered at the New York playhouse after an absence of several years it was greeted by capacity audiences and ran for weeks. Following this, Ralph Dunbar took the opera on tour and has already visited over 200 cities, with remarkable success.

The opera was written some 30 years ago and was first produced by the Bostonian Opera Co., later being transferred to New York after which it was sent on tour of the larger cities of the country. The production has been revived with increasing success for many years and now, after a decade of successful runs in every important theatrical center it is coming back stronger and more popular than ever.

The seat sale for the two night stand in Wichita Falls opens at the theater at 9:30 next Friday morning.

J. R. NICELY DIES AS A RESULT INFLUENZA ATTACK

J. R. Nicely, aged 28, died at the home of his brother-in-law, A. J. Johnson, 503 Austin, at 6:20 Tuesday morning. Mr. Nicely suffered an attack of influenza last fall and had been in ill health ever since, having been confined to bed for the last two months. His wife died early in the year from the effects of an attack of the "flu."

The body was removed to the Hines undertaking establishment and prepared for burial. It will be shipped to Whitewright, Texas, at 5 o'clock Tuesday evening and funeral services held at that place.

URGE CLOSE SUPERVISION OF THE SMALL CHILDREN

ST. LOUIS, Oct. 12—Close supervision over children during their early years to allow prompt application of corrective measures where physical defects exist, was stressed as an imperative need by speakers at the annual convention of the American Child Hygiene association in session here today.

Dr. Charles Hendee Smith of New York, in an address, asserted that heart disease stands first among the causes of death in adult life, and that a large proportion of it develops during school age.

DESPERATE PAPER SITUATION.

The acuteness of the crisis confronting the daily papers—and it is most serious among the smaller city papers—is instanced by a paragraph from the Navasota Examiner: "Navasota without a daily publication would probably be regarded as a calamity by some. If the acute condition of the paper market remains as it is or becomes worse, the Review will be forced to suspend its daily edition or raise the price of advertising to an almost prohibitive point. There is no other alternative, good folks." And State Press of the Dallas News, commiserating with the Navasota brother, gives some facts about the print paper situation that ought to be of interest to the general public as well as the newspaper fraternity, saying:

"The paper situation is little short of deplorable. There has been an advance of three cents a pound in print paper since the first of July, which is more than paper was selling for six years ago. That newspaper is so high-priced and other paper, including the ten thousand and one articles manufactured of paper, relatively cheap is indicative of a situation that needs to be looked into by law. News print is a very ordinary class of paper manufacture. It is a comparatively simple product, being to wood pulp manufacture about what cotton duck is to cotton manufacture. There must be some esoteric reason why this commonplace article is taking on fancy-work prices. The smaller daily papers cannot survive many more raises in the cost of their fundamental raw material. * * * Whether the shortage in news print is in any part artificial is a question that should be developed by the public authorities. If there are profiteering middlemen, they should be discovered. At a time when many other commodities are coming down, it seems altogether improbable that news print alone should be righteously going up."

But it is going up and apparently is harder to get than ever before.

The success of former Senator Hardwick in Georgia in winning the democratic gubernatorial nomination renders much more difficult the effort to explain his and Tom Watson's success by attributing them to local conditions. Hardwick, as did Watson, made the fight in Georgia on a straight-out opposition to President Wilson, himself a former Georgian. Local conditions may have helped to return Watson a winner in the senatorial primary and Hardwick a winner in the gubernatorial; but the magnitude of their victory is impressive and rather convincing that Georgia democrats are out of line with the national democracy, for their thrice-repeated repudiation—Attorney General Palmer got the Georgia delegation to San Francisco with a minority vote only because of a preelection agreement that in a three-cornered contest gave him the advantage over Watson and Hoke Smith—is in strong contrast with the results in every other democratic state in which the national administration has been an issue. In the results we don't see any encouragement for the republican hope of breaking into the solid South via Georgia; but we are constrained to admit that they indicate that anti-Wilson and anti-League democrats predominate in Georgia, because otherwise we cannot believe they would have put the sign of their approval on Watson, an ex-populist, and Hardwick, one of the "willful twelve."

Scrutiny of the census returns by states shows that the West and South have gained in a political way much more than the East and Middle West, every southern state with but one exception and every western state having made substantial population gains in the past decade while many of the eastern and middle western states have grown comparatively little. The west and south will show a greater strength in congress, when the new basis of representation is decided on by that body, and a corresponding gain nominate the national candidates, and in the electoral college, which decides between them. The south and west named a president in 1916, with the aid of only a few votes from other sections; in 1924 they may be able to do that of themselves without outside assistance, working solidly together. The interests of the west and south are pretty much the same, both being producing sections with their products largely the raw materials of farm, mine, ranch and lumber.

On Tuesday, October 5, $20,270,350 worth of bonds were sold on the New York Stock Exchange. More than half of them were Liberty and Victory bonds, and it is worthy of note that every single issue scored an advance, with the first issue gaining .98 and the second 4s, which have been draggy for months, going up a dollar, the best gain for the day. The tendency of the government bonds has been steadily higher for some time past. Those who invested at low prices already have a profit that is worth while, and they have the certainty that they will get par and accrued when settlement time comes. At present prices the bonds are paying from 3.94 all the way up to 6.02 per cent interest, and their returns are increased by tax exemption features.

Mr. Tumulty is not the only one "interested to learn how Mr. Taft, Mr. Wickersham and other prominent republicans who have advocated the League of Nations" will stand on Mr. Harding's position on that paramount issue. Senator Harding has at last thrown off the two-sided coat he has been wearing, showing one side to Taft and others favorable to the League and the other to Borah and other bitter-enders, and has joined Governor Cox in making the League the really big issue of the 1920 campaign, but only after getting Mr. Taft and others so far "out on a limb" in support of him that it will be difficult for them to go backward.

Other states change their relative standings in the census from time to time, but Nevada goes right on holding its own—at the tail of the procession, where it has been since statehood was granted it in 1864 because the republican party neded two more senators. New York continues just as regularly at the head of the list and there is no change in the first six states, New York, Pennsylvania, Illinois, Ohio, Texas and Massachusetts, although both Michigan and California—continuing their growth in the next decade as in the past—are likely to overtake Massachusetts when the next decennium rolls around.

Women in the New Jersey state democratic convention defeated a resolution offered by "Boss" Nugent of Essex county calling for liberal amendments to the Volstead act. The liquor fight—as was seemly in a state whose Governor's ambition has been to make it "as wet as the Atlantic ocean"—continued from the opening of the convention to its end. The New Jersey republican state convention also endorsed the Eighteenth amendment and demanded its enforcement. The sun do move, Brer Jasper!

There were so many of the "general public" in attendance at the public ball given by Houston citizens to the Confederate Veterans and auxiliary organizations, we read in a Houston dispatch, that the Vets and visitors were crowded out, necessitating another ball with police in attendance to insure the visitors' getting a chance on the floor. There evidently are folks in Houston so hospitable that they would crowd the guests completely out.

Texas democrats are apparently in no hurry to "kick in" for the national campaign fund, and national headquarters, facing an opposition generously financed, is calling loudly for more donations. If YOU haven't contributed, why not contribute today. Give your donation to your chairman, to a solicitor or, failing that, send it in to us for turning it over to the local chairman for forwarding to headquarters. The election is only about three weeks off.

Poor Wilson.

(From the St. Louis Post-Dispatch.)

Poor Wilson!

The thought rises impulsively when one reads the flippant, malicious, abusive and misleading statements of such men as Senator Spencer and Arthur Hyde, republican candidate for governor, concerning him and his work in trying to bring about a just peace and to construct an organization of nations to promote justice and peace in international relations.

Admitting all of President Wilson's faults and mistakes, certain great and beneficent things he did; certain other great and beneficent things he tried to do, above the plane of ethics and thought, beyond the full comprehension of the mass of his contemporaries and against the selfish aims of powerful material interests. Under his leadership we helped to win a great war for democracy against military imperialism; we achieved an unequalled record in war preparation and effort. He lifted our war aims above mere victory and its material fruits; he spiritualized our aims and defined our war effort as a supreme task in the service of humanity, justice, peace and progress. He put it on the plane of a war against injustice, against imperial conquest and selfish aggression—a war against war. After the war, he tried to realize the cherished dream of mankind by putting into concrete, workable form a league of people to substitute justice for aggression, reason for the sword, arbitration for force, open for secret diplomacy, co-operation for selfish alliances and to codify and enforce international law and the square deal. Every civilized nation except his own nation and our late enemies has accepted the league as the hope of the world for peace.

Nevertheless, he offended hidden but cherished imperialisms; he offended ambitious national aims; he offended selfish interests; he offended partisanship. The storm of criticism, opposition, partisan malice, hatred and abuse broke upon his head. All the good he had done, all that he had striven for, was forgotten or ignored. The pack yelped at his heels—the big dogs, the little dogs, the fox hounds, the wolf hounds, the stag hounds, the terriers, the fice dogs and the poodles snarled and barked. Although he himself is broken in heart and body from the superhuman task, the hunt goes on with added zest because the quarry is wounded and is unable to fight.

What boots it to big partisan leader or the little partisan pack—the thousands of political yappers and spoils seekers—what Wilson has done or tried to do—what his task and its real import to mankind was? Partisan ends demand his undoing, and the turning of the minds of the people against him. No motive is too small, no purpose too mean to be attributed to him, and no misrepresentation of his work is too vile for use to confuse the public mind and mislead the ignorant. Selfishness, ignorance and falsehood are enthroned as gods for the worship of the people.

So we say, Poor Wilson! And if the American people stand for this gross injustice to and malicious abuse of the man who has done so much and striven for so much more of inestimable value to the world, we add, Poor America!

Just Folks

By EDGAR A. GUEST

The Wail of the After-Dinner Speaker.

Think not that I too bitterly complain,
I would not walk the easy path thru life,
I'm glad to bear my portion of its strife,
To know the rugged highways and the pain,
The disappointments and the clouds of doubt
Which come at times to test and try me out—
But, friend o' mine, of you I now beseech,
Don't call on me to make a little speech.

Let me sit here and eat my evening meal
Without that inward throb of fear and dread;
Let me be gay while I am breaking bread
And know the charm of fellowship is real;
I would enjoy the music and the wit
And not be deaf and lost to all of it;
Let him who likes the job get up to preach,
Don't call on me to make a little speech.

The hermit to his mountain cave retires
And spends his evenings bitterly alone,
Friends never come to make their friendship known
Or share the blazes of the wood he fires,
He eats his meal in silence dull and grim,
And yet sometimes I think I envy him!
When night comes on he's safely out of reach—
He's never urged to make a little speech.

My Ant Sue had a berthday yestidday and ma went down town yestidday afternoon and bawt a funny looking glass pitcher to give her for a present, and after suppir pop and ma started to go to Ant Sues house, and ma sed, O shah, Ive gone and left the pitcher up stairs, Benny, run up to my room and bring down that packidge on my bed and for mersey sakes if you were ever carefill be carefill this time.

Yes mam, I bet I wont drop it once, wat do you wunt to bet, ma, wat do you want to bet, pop? I sed.

Go up and get the pitcher, sed pop.

Wich I went up and did, and there was a loose rug in the hall rite outside ma's room and I fell down hard as enything, ony I held the pitcher up high like a life saver saving somebody frum drownding, and ma called up, Benny, O my goodniss, that 6 dolfer pitcher.

The confownded clown, sed pop. Meening me, and I called down, It aint broak, pop, I dident brake it, ma.

Better luck next time, sed pop. Meening it sourcastic, and I started to go down stairs wawking so carefill it was almost panefill, thinking, Holey smoaks, if I trip agen, good nite. Wich jest then wat did I do but trip agen, and I fell the rest of the way down, ony being about 5 steps, me thinking wile I was falling, G, its a good thing I was neer the bottom insted of the top. And I left go of the pitcher on account of needing my hands to help me stop falling, and it hit the carpit insted of the wall more by good luck than good intentions, and pop and ma ran and picked me up first, showing they thawt more of me than wat they did of the pitcher, and then ma quick took the rapping off and the pitcher was still the way it awt to be, me saying, Herray for me, it dident brake.

You go rite up to bed, sed pop.

Wy, pop? G, it dident brake, I sed, and pop sed, You better go up before you're helped up.

Wich I quick did. Proving it aint allways necessary to do eny axual damidge.

Useful Bill.

I watched Old Wilhelm as he wrought and knocked the stately yew trees cold, while down his regal dome of thought the sweat of honest effort rolled. Of old this Wilhelm seemed no good, when he was hoodooed by a crown; yet now he whacks up cords of wood—you cannot keep a man down. There is no noblergtask than his, now coal is sacree and hard to get; I watch him make his bucksaw whiz and cry, "Old Bill's our one best bet." When he was ruler of a realm he earned no high and rich reward, such as he earns while sawing elm and pulling down six bits a cord; now, when he goes to roost at night, he has no crimes o'er which to fret; the record of his day is white, and Wilhelm is our one best bet. If we'd all do as Wilhelm does and ply our bucksaws in the sun, the bats that in our belfries buzz would find their futile erranda done. We ply the swift and tireless jaw until its hinges creak and smoke, when we should wield the trenchant saw and pile up ricks of helpful oak.

WHY?—

Is the Double-headed Eagle the Emblem of Germany?

(Copyright, 1920, by Wheeler Syndicate, Inc.)

The origin of the device of the eagle on national and royal banners may be traced to very early times. It was the ensign of the ancient kings of Persia and Babylon. The Romans adopted many other figures on their camp standards, but Maris, in 102 B. C., made the eagle alone the symbol of the legions and confined the other figured to the cohorts. The emperors of the western Roman empire used a black eagle; those of the east, a golden one, and since the time of the Romans, almost every state that has assumed the designation of an empire has taken the eagle for its ensign.

Austria, Prussia, Russian, Poland and France all used this symbol, but the two-headed eagle signifies a double empire. The emperors of Austria, who claim to be considered the successors to the Caesars of Rome, used this double-headed bird—the eagle of the eastern emperors with that of the western—typifying the Holy Roman Empire, of which the emperors of Germans, merged into the House of Austria, considered themselves the representatives.

Charlemagne was the first to use this symbol, adding the second head to the eagle in 802, when he became master of the whole of the German empire and wished to donate that both Rome and Germany united in him.

Side Talks

By RUTH CAMERON

The Meanest Form of Self-defense.

There is a certain way which some people have of meeting rebuke or criticism which seems to me the meanest, most exasperating form of self-defense that I know.

I refer to the method of refutation by exaggeration.

Here is the sort of thing I mean: A wife reproaches her husband because he comes home late on an evening when he has promised to get home extra early and take her to the movies. He delayed for conversation not for business; his wife has to keep his supper for him and misses the movies which she has been looking forward to all day. He might say he was sorry, but it is about as easy for an elephant to get through the eye of a needle as for the average man to say he has been wrong. The king can do no wrong and every man is king in his own house. Therefore, he must defend himself. And so he says, "Yes, just because I'm a few minutes late once in a while I'm the worst husband in town. I guess you don't know when you're well off. I've a good mind to give you something to really complain of."

Now, she hasn't said he was the worst husband in town; she has simply said that he was mean to forget about his promise—which he was.

And to make a defense like that, which sidesteps the issue and tries to put your opponent in the wrong in an utterly unfair way, is the height of meanness—it is the blow below the belt in the family sparring match.

Maybe it's the husband who is the critic. He complains with justice that something was not properly cooked. Whereupon his wife, instead of finding out what the trouble is and making up her mind to do it better next time, dissolves in tears, declaring, "Nothing I do ever suits you. I wish I were dead," and so on and so on.

The new husband may respond with words of comfort to this effort to turn the tables, but the more accustomed benedict is apt to go out and slam the door.

Of course there are times when a single criticism coming as the last straw on top of constant fault-finding may precipitate such a counter-accusation. But we have all known people who used this method to fend off any attack at all.

A further development of the method is, "Yes, everything I do is wrong. Of course you're perfect, you wouldn't ever do anything that wasn't perfect."

It is very hard to defend one's self against such, unprincipled attacks. One's best defense lies in contemptuous silence, and the surety that it is only weakness that makes an opponent seize on such a good weapon.

HOROSCOPE

(Copyright, 1919, by The McClure Newspaper Syndicate.)

Tuesday, October 12.

Jupiter and Mars are in benefic aspect today, according to astrology. Uranus is strongly adverse. The Luminaries in the third house applying to the sextile of Mars. This is read as beneficial to railways and is believed to indicate increased efficiency and better working conditions.

The rising position of Neptune in square to Mercury and Venus in the fourth house is held to presage increase of vice and immorality.

There is a sign said to foreshadow many religious movements toward broader usefulness. New sects or cults will gain ground.

All the indications seem to promise increase of trade and extension of commerce.

Venus and Mercury in the fourth denote a mild autumn that is long in duration. There will be sudden cold following almost summer weather.

Warning is given that much illness may mark the winter and the best sanitary conditions should be demanded in every center of population.

The forecast for labor is most encouraging, for there will be great advances in the course of the next president's administration.

Defeat for a United States senator who has been unfriendly to the interests of western women whom he represented is prophesied, for his horoscope contains aspects denoting the end of public work.

The seers declare that congress will show many changes in membership the lower house having new representatives from many southern states.

While women will exercise tremendous influence in next month's election, few of them will be successful in obtaining public offices.

Education is to have a more significant impetus than ever before, owing to some utilitarian movement, it is predicted.

Inventors should delay important action today, which is most unfavorable, but they have promise of extraordinary success in the coming year.

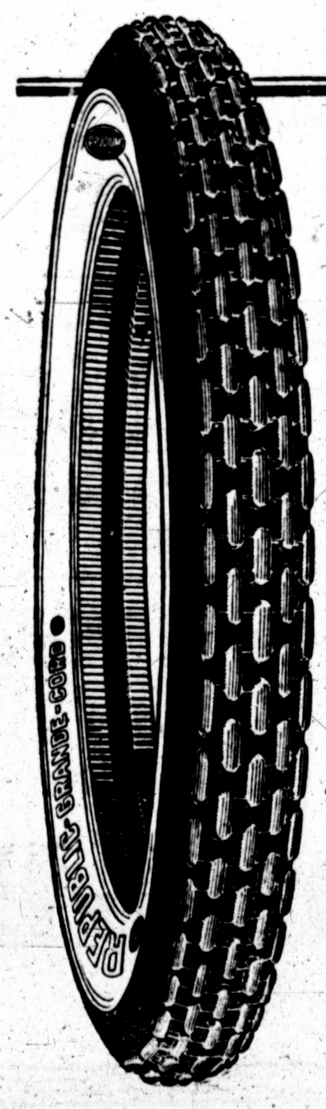

Persons whose birthdate it is have the forecast of an active and successful year.

Children born on this day will be alert and resourceful. They are likely to possess splendid judgment.

EXPERTS WORK ON UKRAINIAN TEXT OF ARMISTICE TERMS

COMPLICATIONS HAVE ARISEN DURING DELIBERATIONS OF DELEGATES.

SOVIET LEADERS ARE SATISFIED WITH TERMS

Much Pessimism Among Diplomats And Observers Not Participating In Conference.

PARIS, Oct. 12.—Experts were engaged today in completing the Ukrainian text of the armistice and preliminary text of the armistice and preliminary peace treaty between Poland and Russia and Ukraine. Completion of this work was the last preliminary to signature of the convention.

Many complications have arisen while the peace delegates have been deliberating on the terms of the preliminary treaty. Polish and Lithuanian troops have been fighting along the frontier between those two countries and there has been a general upsetting of stable conditions in the Baltic states, and many members of the big Polish delegation have been striving to prevent M. Dombski, chairman of the delegation, Polish peasants party, from strengthening their position in Warsaw.

Satisfied With Terms.

Both Adolph Joffe, head of the Russian soviet peace mission, and M. Dombski express satisfaction with the terms agreed upon. The bolsheviki insist the preliminary treaty is much less favorable than the peace offered Poland last February and the failure of the Poles to have a financial settlement included in the preliminary convention has been generally regarded as a soviet triumph. M. Joffe has had much experience at peace conferences, and the complete agreement reached by the members of the soviet delegation gave the bolshevik chairman an advantage from the first. At no time during the negotiations has the soviet mission shown a divided front.

Poland, however, obtained much more territory than it seemed likely the conference would grant when it opened, and many Polish observers regard the corridor shutting off Lithuania from Russia as a victory overshadowing any concessions made.

Diplomats Pessimistic.

While the principals in the negotiations insist the terms eventually will lead to the signature of a permanent treaty permitting restoration of normal conditions in central Europe, there is much pessimism among diplomats and observers not participating in the conference. The French are clearly dissatisfied and apparently desired a continuation of the war. The bottling up of Lithuania is generally regarded as a doubtful experiment and the occupation of Vilna by General Zeligouski's men has created a suspicion that the Polish government had knowledge of the plan, which has been supported by Polish landlords in Lithuania.

There is much speculation here as to whether the bolsheviki will be able immediately to throw large forces from the Polish front against General Wrangel in south Russia. Bolshevik delegates declare large forces already are opposing Wrangel and that no necessity exists for the dispatch of reinforcements to that front.

LIBRARIES OF AUSTIN ARE CIRCULATED THROUGH MAIL

AUSTIN, Oct. 11.—Three different libraries are circulated from Austin by mail. The state library has 26 sets of 50 books each which are loaned to communities for three-month periods. The librarian in charge observed that most of these libraries go into the rural communities and that there is a constant demand for them, which increases with the opening schools, which are the most frequent patrons, although libraries have been placed in country stores and other places where the rural population gathers.

The second library is the package library of the University of Texas and is composed of clippings and pamphlets on related subjects made into packages, which are loaned by mail free of charge, except the borrower must pay the postage both ways. Debating societies, literary societies and women's clubs are the chief patrons of this library.

The third circulating library is composed of approximately 100 assorted volumes on various subjects in the New York point print for the blind and a few volumes in the Braille print for the blind. This library, which is maintained and administered by the state library, is loaned free, and under federal postal laws no postage is charged for transmitting the volumes. The librarian in charge said that the heaviest demand for these books comes during the vacation time of the state institute for the blind which is located here.

FIRE PREVENTION DAY RESULTS IN A GENERAL CLEAN-UP OF THE CITY

VERNON, TEX., Oct. 12.—According to Marshal H. R. Bratton, fire prevention day last Saturday brought definite results in Vernon. Many property owners cleaned up accumulations of trash, examined flues and chimneys and made away with all fire breeding agencies. A careful survey of the downtown district the latter part of last week revealed conditions as satisfactory, and it is thought, too, that the residence sections are well cared for. Vernon was given a high rating by the state fire inspector several weeks ago

Special Session of Court.

VERNON, TEX., Oct. 12.—E. P. McGhee was re-elected special judge for a special session of the district court called for this week by Judge Nabors. Eight or 10 cases were disposed of last week, and there is still a considerable number on the docket.

Reduce Key Rate.

VERNON, TEX., Oct. 12.—A. P. Woolridge, state fire marshal, has written to Mayor Mason acknowledging the receipt of information concerning the city's new chemical truck and recent addition of 1,000 feet of new hose. Pending a re-inspection of fire prevention facilities here, the letter states, a supplement to the Vernon key rate, allowing credit for the new facilities, is being added. Definite information concerning the key rate reduction will be sent later.

Loses Football Game.

VERNON, TEX., Oct. 12.—Vernon high school lost its first football game of the 1920 season Saturday to Childress by the score of 13 to 0. Inexperience clearly counted against the locals, but forward passing kept them near the visitors' goal repeatedly. Curtis starred for Vernon and Newberry for Childress. Vernon plays Electra here next Saturday.

SENATOR REED DECLARES THAT THE PRESIDENT HAS CONFESSED

KANSAS CITY, MO., Oct. 12.—President Wilson has confessed that he did promise "to send the American army and navy across the sea," to guarantee boundaries of Rumania and Serbia, Senator James Reed said late yesterday in a statement attacking the white house version of the chief executive's Balkan speech now in controversy.

"For the life of me," Reed said, "I cannot see how the stenographic report produced in any manner, helps the president's case." It is, in fact, a complete verification of the body of the charge heretofore made.

"Was the president standing and looking into the face of the Serbian and Rumanian delegates and telling them they expected us to send armies and navies if any settlement of the covenant was not observed and at the same time not meaning to imply that the United States was assuming that obligation.

"How absurd it is to protest, that we have not promised to send our armies and navies across the ocean."

Quotes From Speeches.

Reed quoted from speeches by President Wilson and his interview with the foreign relations committee and from speeches of British leaders as backing up the senator's contention that President Wilson has made it plain America would contribute its share of an international military force to protect the boundaries of all league members.

Reed explained that he had no interest in the fortunes of his colleague, Senator Spencer, but had entered the controversy because his own veracity had been attacked by the white house in declaring the junior senator's statement "false." Spencer, Reed explained, had quoted from the latter's charges that President Wilson had promised American forces would protect territorial integrity of league members.

Reed said the charges, first printed in this country six months after President Wilson's Balkan speech, had been made in Paris, and later repeated by himself in the senate, had gone undenied for so long that the promise had been taken as "confessed."

Declares Harding Is a Bush Leaguer in Game of Nations

CHICAGO, Oct. 12.—The question of whether the 41 member nations of the League of Nations will disband to join a proposed "association of nations" was put to Senator Harding today by Congressman Frank E. Doremus, chairman of the mid-western headquarters of the democratic committee.

"Press reports state that on his return from his western trip, Senator Harding found some misapprehension existing regarding his exact position on the League of Nations," Mr. Doremus said in a statement.

"He is again talking vaguely about an 'association of nations' ignoring the fact that the League of Nations is already set up and includes 41 countries.

"Does Senator Harding think these 41 nations will disband and join his association?

"The only inference that can be drawn from the senator's remark is that he is a bush leaguer, playing with Mexico, Turkey and bolshevistic Russia."

LOWELL, ARIZONA, IS VICTIM OF BIG FIRE

BISBEE, ARIZ., Oct. 11.—The town of Lowell, a Bisbee suburb, today is seeking to bring order out of chaos caused by a disastrous fire which last night destroyed half of the town, sweeping through a dozen or more business places and causing a loss which Fire Chief Wilson estimated at a quarter of a million dollars.

CAPTURE TRUNK WITH 110 POUNDS OF OPIUM

CHICAGO, Oct. 11.—A trunk containing 110 one-pound cans of opium was captured in a railway station her last week and has uncovered what federal authorities say is an international opium smuggling ring, and caused the arrest of three men in San Francisco and two men in New York, it was announced here today.

SAVING BANK FORCE OF TWO THOUSAND ON STRIKE

VIENNA, Oct. 11.—Two thousand men, making up the entire clerical staff of the postoffice saving bank, struck today, demanding more rapid promotion and better working conditions. The daily turnover of thi bank approximates 1,000,000,000 crowns and the strike is strongly resented by the public, which attempted to storm the building today.

CONDITIONS IN MEXICO ARE RAPIDLY IMPROVING

AUSTIN, Oct. 12.—Conditions in Mexico are rapidly improving, according to Dr. M. S. Handman, professor of sociology at the University of Texas, who spent the summer vacation period studying in Mexico City.

"The revolutionary period has passed," he said. "I believe a new era has set in which promises to bring much benefit to the people of that country."

FREED ON THE CHARGE OF IMPERSONATING OFFICER

TOPEKA, KANS., Oct. 12.—Robert Hill, charged with having been implicated in the Elaine, Ark., race riots almost a year ago, was freed of the charge facing him in the federal court of impersonating a United States officer by Judge John C. Pollock, sitting at Leavenworth. According to Hugh Fisher, local attorney for the negro, this will give him his freedom as long as he remains in Kansas.

BOTH MANAGERS ARE OPTIMISTIC BEFORE ENTERING SEVENTH GAME OF THE PRESENT WORLD SERIES

CLEVELAND, Oct. 12.—The battered and bruised Brooklyn Dodgers and the Cleveland Indians, thrice victors over their National league rivals in as many days, were ready to face each other today in the seventh game for the baseball championship of all hemispheres with the Easterners determined to force the annual classic into further games and the Westerners confident that after today there would be no more world series contests until 1921.

With the world's championship possibly depending upon today's game, Manager Wilbert Robinson of the Robins and Tris Speaker, guiding hand of the Indians, were undecided early in the day as to what hurlers they would select, but indications were that "Rube" Marquard would face the sluggers of the junior circuit and that Stanley Coveleskie would be given the task of carrying Cleveland through to a world's championship in seven games.

Begs to Pitch Again.

Coveleskie, twice conqueror of the Flatbush players in the present series, begged Manager Speaker to send him to the mound, but George Uhle, side-arm hurley, who received his first training on the sand lots of Cleveland, also yearned for a chance in the big battle, and Speaker, with only one game in three needed, listened attentively to the youngster's plea. Final decision would not be made, however, until just before the game, he said.

Robinson also indicated that he might change his selection before game time, intimating that Burleigh Grimes, who shut out Cleveland in the second game, but was knocked out of the box Sunday, might be given another chance. The probability was, however, that Marquard would be the final choice.

Brooklyn Aces Hit Hard.

Speaker felt that he had the edge on Brooklyn in the pitching even should Coveleskie lose today. He still had Bagby to fall back on, with Uhle and Morton in reserve and Mails ready to go in again if necessary. Brooklyn, however, has not a pitcher who has not been pounded by Cleveland. Grimes, Marquard, Smith, Mamaux, Cadore and Pfeffer have either lost games or been hit hard. The National leaguers, who came into the series with a pitching staff famous for its aces, today were handicapped for hurlers, according to Speaker's view.

"Today's game will be the last," he said. "We are not going back to Brooklyn for any more games because it won't be necessary. When the last out is made this afternoon, the series will be finished."

Expect Coveleskie.

The manager's statement convinced Cleveland that Coveleskie would be the choice, despite the fact that he has pitched two hard games and has had only two days' rest. But the home folks were ready to give their townsman, Uhle, all the support a baseball crazy mob of more than twenty-five thousand can give. The history-making game of Sunday and the wonderful pitching battle yesterday with Cleveland victorious in each, found the city today ready to believe anything except that Brooklyn could win.

In the Brooklyn camp there was a different tale. With Manager Robinson and Captain Zack Wheat doing everything possible to straighten out the frayed plumage, the players were ready to meet the Indian on his own ground and were absolutely certain that tonight both clubs would be journeying eastward for a final set-to on the Dodgers' home soil. The terrific hitting when hitting was needed, the impregnable fielding when pitchers wobbled and the terrific array of curves thrown by the hurlers when fielding was poor, which have brought three straight contests to the local crew, apparently meant nothing to the Dodgers.

"Got to Have It."

"We've got to have this game and when we have to have something we usually get it," said Mr. Robinson today, and his remark echoed the spirit of the entire team.

Facing the prospect of not seeing another game for at least a year, Cleveland fans were out hours before the game, forming a long line at the bleacher gates. The watchful waiters, however, lacked some of the enthusiasm which characterized their presence on previous nights. Apparently they were out because they considered it their duty to see Cleveland win a world's championship, for every man in line seemed to feel that the series practically ended when Evans nabbed the long fly which ended yesterday's contest, 1 to 0, with the youthful Walter Mails as the winning pitcher.

BAYLOR BEARS PERFECTING NEW STYLE OF PLAYING

WACO, Oct. 12.—The Baylor Bears devoted all their time this week to perfection of their new style of play and to a close study of the style of the game Rice Institute is expected to use in Saturday's game. Coach B. F. Bridges was highly pleased with the team's showing in the game against Austin college last week. He expressed the opinion that a team with one evening's scrimmage to their credit, playing the style of game that the Bears did against the Kangaroos, should have no trouble against the strongest teams in the state after a week or so of good hard practice.

All the men on the Bear squad are in the best condition. No serious injuries were suffered in last Saturday's game against Austin college. The men are counting on beating the Rice Owls by at least two touchdowns.

Two Aces to Race For Largest Purse in Sport's History

WINDSOR, ONT., Oct. 12.—This Canadian border city today seeks to divide honors with Cleveland as the sporting heart of the universe. With a world's baseball championship at stake, a couple of hundred miles away across Lake Erie, 35,000 devotees of the sport of kings, gathered here from both sides of the international line to see another championship decided by Man o' War, premier 3-year-old of America, and the Canadian-owned 4-year-old champion, Sir Barton, meet at weight for age over a course of a mile and a quarter. Wickford, a George J. Long horse, also is entered, an eleventh-hour starter.

Three things are at issue in this race, enthusiastically billed by horse fans as "the greatest ever." First, there is the thoroughbred championship of America. Second comes a $75,000 purse, the largest ever given for a horse race in America. The terms of the match are that the winner takes all. And, third, there is a $5,000 gold cup.

Large Crowd Gathers.

These three things have brought to Windsor one of the largest crowds that ever gathered on this side the Detroit river. Ferry boats and shuttle trains from Detroit, where thousands rested last night, began pouring their throngs across the border soon after daylight. With enlarged stands capable of seating 25,000 and room for 20,000 more in the enclosure of the Kenilworth Jockey club, host to the year's racing classic, opened its gates hours before the maiden 2-year-olds in the day's first race faced the barrier for a six-furlong gallop as an opener for Windsor's biggest day of sport.

From the barred and guarded windows in their exclusive bungalows, a stone's throw from the track, Sir Barton and Man o' War watched the gathering crowds when not engaged in receiving the ministering attentions of their corps of obsequious attendants.

Trained to the Second.

The two great horses are trained to the second, their attendants announce, and on past performances there seems to be but little to choose between them. Both have a record of 2:01 4-5.

They face the barrier, though at weight for age, Man o' War with the 120 pounds prescribed for 3-year-olds in October, having six pounds the better of Sir Barton. The latter's 126 pounds impost is equalled by that of Wickford, the added starter, whose entry at the eleventh hour last night turned today's match into a three-cornered affair.

Earl Sande, the riding "ace" of the stables of Commander J. K. L. Ross, is confident that he can ride Sir Barton to victory, but Clarence Krummer, with the leg up on Man o' War, is equally confident he will take the championship and the purse to the American side of the border.

Conditions Favorable.

Weather and track conditions favor neither horse above the other. Both prefer a hard, fast track, but both can, if necessary, travel in the mud. A few drops of rain and lowering skies yesterday gave promise of more to come, but last night a cool autumn wind cleared the heavens and early today there was every prospect of good going.

Samuel Riddle of Philadelphia, owner of Man o' War, has announced that, win or lose, he will retire the great son of Fair Play Mahuba from the track after today's race and the knowledge that this is his last appearance has added interest to the match.

The horses will go to the barrier, it is expected, shortly after 3 o'clock, Eastern standard time, in the fourth race of the afternoon. Positions are assigned when lots are drawn just before the race.

WINDSOR, ONT., Oct. 12.—The two "aces" in the sport of Kings met here today to decide which is trump.

Man o' War, the champion 3-year-old, and Sir Barton, 4-year-old star, will race at Kenilworth track for the largest purse ever offered for a horse race in any country—$75,000 and a $5,000 gold cup to the winner and nothing to the loser.

The two horses will go to the post in the fourth race. The races start at 1:30 o'clock, which will bring the fourth race up between 3 and 3:30 o'clock eastern standard time.

A third entry in the race will be Wickford, carrying 126 pounds.

The race ranks in interest with the great equine duals of history. Man o' War was favored in the betting due to his wonderful record and the fact that Sir Barton will be carrying 126 pounds to Man o' War's 120.

Determines The Champion.

The meeting of the champions at a mile and a quarter will really determine the thoroughbred champion of America. Exterminator, the only other horse which ranks with the two entries, showed best at a great distance.

A great crowd started flocking toward the track at dawn today. Although arrangements were made to accommodate many thousands, the crowds in Windsor and Detroit hotels last night indicated the track would not be able to care for all who wished to see the race.

Both horses were bred in Kentucky. Man o' War, by Fair Play-Mahuba, was unbeaten in nine starts as a 3-year-old. He lost only once in nine starts as a 2-year-old and that was due to a bad ride. He holds three American and two world's records for a mile or more. His earnings now total $162,325, and if he wins today they will pass the record of Domino, of $200,000. Domino was the greatest earner of the American turfs. Man o' War is owned by Samuel D. Riddle, of Philadelphia.

In Canadian Horse.

Sir Barton, by Star Shoot-Lady Sterling, made no spectacular showing as a two-year-old. He won the Kentucky derby as a maiden and established his championship of the 3-year-olds, by winning the Preakness, Metropolitan, Withers, Belmont and Realization. His gross earnings were $89,000 last season. He is owned by the Canadian sportsman, J. K. L. Ross, of Montreal.

Clarence Kummer, who has ridden Man o' War in all his three-year-old races, except two when he was injured, will have a leg up on the champion. Earl Sande, contract jockey with the Ross stable, will pilot Sir Barton.

Indications early today were the race would be run on a fast track. A heavy fog had settled over the park during the night but at 8 o'clock today indications were that it would be clear.

The winning jockey will receive a special reward of $5,000 from the owner.

Huge sums were wagered on the result, the odds being mostly quoted at 5 to 1 with Man o' War picked to win.

"CHILD STUDY" FEATURED IN I. C. A. AT DENTON

DENTON, Oct. 12.—The College of Industrial Arts here, which is the state college for women, enjoys the distinction of being one of the largest colleges for women in the United States and of offering a unique course of study under the title "Child Study," which is not offered in any other college or university in the country.

The course consists of lectures, library readings and psychological laboratory work and is intended to fit the young woman for being the mistress of a home and the mother of a family. The course consists of a brief history of the "Development of Child Study;" of a thorough study of infancy and the growth and development of the baby from month to month psysically and mentally; then follows a study of childhood which considers the mental capacities and interests of children at different ages and requires the actual presence of children in the laboratory. For this laboratory observation and experimentation, the children of the kindergarten of the college are used. Child instincts, capacities and interests are fully gone into, as are also heredity, environment, and subnormal and defective children, the moral and religious nature of the children.

Among the important aspects of this course is an investigation and discussion of suitable reading material for children of different ages. It is asserted by authorities of the college that all normal women have an ambition to become mothers.

DODGER'S ACE REWARDS HONESTY

David Callaway, nine year old Brooklyn boy, found a pocketbook belonging to Burleigh Grimes, containing more than $100. David and his father called at Ebbets field and returned the money to Grimes. As a reward Grimes gave David a ticket to the world series and at the third game presented him with an autographed baseball.

BATTLING LEVINSKY SCHEDULED TO FIGHT CARPENTIER TONIGHT

JERSEY CITY, N. J., Oct. 12.—Georges Carpentier, French war hero and European heavyweight champion tonight will engage in a 12 round bout with Battling Levinsky, American light-heavyweight title holder. Under the New Jersey boxing law, no decision is permitted. The contest, regarded as a tryout for the French boxer to determine whether he would make a suitable opponent for Jack Dempsey, world's champion, will be held in the open air in Jersey City baseball park. Fair, mild weather is forecast. Equal in height, the two boxers are also expected to weigh about the same, probably slightly under 175 pounds. The American has a slight advantage in reach.

Kid Lewis, European welterweight champion, and Marcel Thomas, holder of the French welterweight title, will meet in a six round preliminary bout.

"THE MAN OF DESTINY."

Carpentier, known by many as "The Man of Destiny," will hardly put his destiny to any rigid test in the Levinsky meeting.

But he may at least open up the trail and clear out some of the debris that now waits between him and Dempsey.

By dropping Levinsky within a few rounds he will then be accepted as the next challenger, and all the hub-bub and hullabaloo of a Dempsey-Carpentier battle will begin to rumble back and forth across the world. Perhaps, after all, it might be just as well to let them go to it as soon as possible—provided, of course, that Levinsky doesn't upset the preserves.

The Frenchman is the outstanding champion of Europe and possibly Asia.

He is the best boxer and the best fighter on the Eastern Continent.

There isn't any one else even fairly close.

He may not be rugged enough physically to whip Dempsey—but if he is willing to take the gamble his fighting rank beyond the Atlantic has earned him the challenging right.

WHY THE DESTINY?

Why "The Man of Destiny" title? At the age of nineteen Carpentier was moving rapidly on his way to pugilistic premiership.

Even as a kid he was giving promise of crown-wearing days. He was probably the greatest nineteen-year-old fighter the game has ever seen—certainly much further advanced at nineteen that Dempsey was at the same age.

Shortly after this he was forced to step from the ring into the midst of a war that lasted four and a half years and that killed off one million, seven hundred thousand of his countrymen.

He was one of the lucky ones to survive.

And then, hardly a year after the war had ended he was again champion of Europe through his ability to stop Joe Beckett, of England, in less than a round.

We'll agree that Beckett was no Bob Fitzsimmons. At any rate, he was a fairly tough customer, weighing 195 pounds. And he was the best man England had to offer.

AFTER THE GOAL.

Now they have planted one man between him and his final drive for the main goal.

This man is Levinsky—not the toughest man he could have met, but a pretty good trial horse who knows how to box, one who is clever, experienced and game.

If Levinsky can last out the twelve rounds, Carpentier's stock will crumble swiftly. For Levinsky couldn't last three rounds with Dempsey.

It may mean that Harry Wills will be the next challenger and that the young Frenchman will have to wait.

Knowing all this, the European champion isn't likely to drift along without trying.

He must know that win or lose a match with Dempsey will be worth from $150,000 to $200,000 for his share.

That will be quite enough to leave the wolf stymied at the door with the golden knob.

And, after all, who knows?

Here is a fast man who can hit. A fast man who can hit can be beaten by a fast man who can hit harder—but there is always the chance that the former will plant the old haymaker first.

Dempsey has never met a test of this sort. He found in Willard a slow man who could hit, but who never got the chance—and in Levinsky a fast man who couldn't hit.

These are some of the features which make Carpentier's first appearance more than worth while. There is more drama than fight in the air—more of a human story than a fighting yarn

Look Out for Rheumatism As Winter Approaches

So many cases of Rheumatism come from a tiny disease germ that infests the blood, that physicians are beginning to realize that this source of the disease is becoming quite prevalent. Of course a disease that has its source in the blood cannot be reached by local remedies applied to the surface.

One remedy that has given splendid results in the treatment of Rheumatism is S.S.S., the fine old blood remedy that has been sold by druggists for more than fifty years. S.S.S. acts by driving out of the blood the disease germ that causes Rheumatism, thus affording real relief.

Begin taking S.S.S. today and if you will write a complete history of your case, our medical director will give you expert advice, without charge. Address Chief Medical Adviser, 151 Swift Laboratory, Atlanta, Ga.

UNIVERSITY HAS WEALTH OF ATHLETIC MATERIAL

AUSTIN, Oct. 12.—Texas university has a wealth of athletic material among this year's freshmen, according to Clyde Littlefield, freshman coach, who said: "not only has the university the material for the best freshman football team in the state, but it also has the pick of high school athletes, among them some of best track, basketball and baseball men in Texas."

Ninety-five freshmen signed up for tryouts for a place on the freshman team, and a three-game schedule has been arranged, as follows:

Southwestern Military academy of Dallas at Austin, October 30; University of Texas Shorthorns at Austin November 13; Terrell Military academy of Dallas at Dallas November 20. One other game will be scheduled.

The "Shorthorn," or ineligible squad, of the university, also reported 40 strong and contains transfers and other ineligibles who made reputations on various gridirons. The scrimmage with the regulars or Longhorns, squad and are rounding into excellent condition. A five-game schedule for this team is being arranged, but no engagement has been announced.

PLEASED WITH THE DEMONSTRATION OF NEW COTTON PICKER

The many citizens of Wichita Falls who witnessed the demonstration of the Price-Campbell cotton picking machine on the farm of Dan Smith, near Lake Wichita yesterday afternoon, came away impressed with the thought that they had been privileged to see the inauguration of a new era for the cotton regions of the world and of a social, industrial and economic revolution in the south.

The machine, which is operated by two men, runs along a row of cotton about as fast as a team of horses would walk across the field. In appearance it resembled a tractor, or perhaps more nearly a road-grader, for one of the men rides at the rear to press the picked cotton down into the bags in which it is deposited, as one man rides at the rear of a road-grader to operate its mechanism.

Description of Action.

Hanging low underneath, so as to almost touch the ground, are two steel cases or boxes between which each stalk of cotton must pass as the machine goes forward astride the cotton-row. In each of these steel cases are two perpendicular rods or standards which revolve twice in one minute, the two on the left side making clock-wise revolutions and those on the right making counter-clock-wise revolutions.

Standing out horizontally from these four standards are 416 steel spindles, or 104 on each standard, each about nine inches long, which make 500 revolutions per minute. The two standards in front are placed opposite each other and the two at the the rear are placed opposite each other so that they operate in pairs. The steel cases containing them are open on the sides next the cotton row and the two standards comprising each pair are so near together that their spindles overlap each other as they revolve around the standards, though they are set so that they do not strike together but, the spindles on one standard pass between those on the other.

Come in Contact.

These rapidly turning spindles being so close together and so numerous, come into contact with every part of the cotton plant as they pass it but they do not bruise it in either leaf nor boll as the machine is running forward with the same speed as the backward stroke of the spindles. Their contact with the plant amounts to a mere caress at all points save where there is ripe cotton-fibre and this clings to the first spindle that encounters it with just enough tenacity to free it from the hull and it is carried into the steel case where it is swept from the spindle and dropped upon a broad belt by which it is taken to the rear of the machine and deposited in a canvas bag.

The machine-picked cotton does not differ in quality nor appearance from that which is picked by hand except that it is more free from trash, as the machine does not take any portion of the hull, while the hand picker frequently does.

Theodore Price Present.

Theodore H. Price, of New York city, editor of Finance and Commerce, and president of the Price-Campbell Co., which has spent about a million dollars on the development of the machine, who was present at yesterday's demonstration, says that it is the invention of Angus Campbell, a Scotch Canadian, who has been working on it for 10 years.

"It has taken practically one year to make a single experiment and correct a single error," said Mr. Price. "When we got the machine so that we thought it would work we had to wait till the cotton crop was ready to gather, then we shipped the machine to the south and tried it out in a cotton field. Naturally it was found to have some imperfection or other and it was reshipped to New York and the error rectified. By that time the cotton crop was gathered and we had to wait till the following fall to try out our improvement. That is the reason it has taken so long and cost so much."

Makes Statement.

Speaking generally of the new machine's relation to the cotton problem, Mr. Price said, "At the present average price of picking seed cotton, which is $2.00 per 100 pounds, it is costing $6.00 per 100 pounds to pick the lint, as it takes 100 pounds of seed cotton to yield 33 pounds of lint cotton at the gin. This makes the price of picking the lint cotton six cents a pound or $30.00 a bale. Thirty dollars per bale for this year's crop of 12,000,000 bales makes a total of $360,000,000.00, which is the present direct cost of picking the American crop.

"The Price-Campbell machine will do the work for one-fifth of this sum or $72,000,000.00, thus effecting a direct saving of nearly $300,000,000.00 in the cost of producing the crop. The indirect saving is much greater than this, for with the machine it is possible to pick the cotton as soon as it is open and thus avoid the deterioration due to exposure to the weather, which results in making a large proportion of the cotton "low grade" with a value of hardly more than half that of good grade cotton, and sometimes even below the cost of picking by hand.

"The advent of the machine means also an industrial revolution in the south, for it will release nearly all the labor now engaged every fall and winter in cotton-picking and permit it to go into constructive work and domestic service, and best of all it will emancipate the millions of children who are now necessarily kept out of school to help gather the cotton crop and are thus deprived of education upon which their ultimate happiness, efficiency and usefulness depends."

Covers One Acre an Hour.

The machine covers about one acre per hour and picks about 90 per cent of the cotton. It misses that which is very near the ground, but this difficulty will be overcome by an improvement that has been devised and will be applied to the next machine constructed. It picks more cleaner than the average hand picker and as it is in its earliest stage of development there is little doubt that the cotton crop of future years will be picked with little cost and with practically no waste.

Mr. Price says that it should not be necessary for each cotton farmer to own a machine as one machine should be able to pick all the cotton in a neighborhood and they will doubtless be owned and operated as threshing machines are now, the owner of the machine picking the cotton at a stipulated price per pound.

Negotiations are under way for the manufacture of the machines at Wichita Falls by the Wichita Falls Motor Co. They run by gasoline power and can be used as a tractor without running the picking mechanism. When this is in operation the whirling spindles make a shrill humming noise which can be heard at a distance of half a mile.

CONTINUE QUESTIONING FRIEND OF MURDERED MAN

LOS ANGELES, Oct. 12.—Questioning of Mrs. R. C. Peete, friend of J. C. Denton, murdered mine broker, was to be continued by representatives of the district attorney's office here today.

Deputy District Attorney Doran expects to quiz Mrs. Peete regarding her occupancy of the house, where Denton's body was found, hidden away in a cellar room. His information may be turned over to the grand jury in lieu of calling Mrs. Peete before it.

ENGINEER IS KILLED IN COLLISION IN KANSAS

TOPEKA, KAN., Oct. 12.—Word was received here of a head-on collision between a southbound Santa Fe passenger train and a work train at McGraw Station, three miles south of Newton, yesterday afternoon. Engineer John R. Kendall, of Emporia, engineer of the work train, was killed and slightly wounding his fireman. Train employes said the work train was trying to make a siding and lacked a few feet of being clear.

RUBE MARQUARD IS RELEASED FROM THE BROOKLYN DODGERS

LEAGUE PARK, CLEVELAND, Oct. 12.—Rube Marquard cannot play baseball with the Brooklyn club again, Charles Ebbets, owner, declared this evening. Having been found guilty of ticket scalping, Ebbets said Marquard will not be used next year by the Robins. Ebbets indicated there would be no attempt to withhold Marquard's world series money. He believes the Rube has been sufficiently punished by the notoriety he has been given.

IT WAS ALL A "FRAMEUP" IS MARQUARD'S COMMENT

CLEVELAND, Oct. 12.—"It was all a 'frameup'," declared "Rube" Marquard today in commenting on his conviction of ticket scalping.

"They didn't have a thing on me; if they did, they would have done more than fine me a dollar."

Manager Robinson said "I don't think Marquard was guilty of any wrong whatever."

CLEVELAND, Oct. 12.—"Rube" Marquard, star southpaw pitcher of the Brooklyn Dodgers, was found guilty of ticket scalping when arraigned in municipal court here today and was fined $1 and costs.

Marquard's attorney did not appeal the sentence and Marquard paid the fine and costs. The costs were $3.80.

In imposing sentence, Judge Silbert said: "You acted like a real rube and I am fully convinced of your guilt."

Marquard was arrested in a hotel when he offered to sell six world series tickets. The pitcher told officers that his offer was a joke and that he in reality purchased them for his brother.

The officer who made the arrest said he heard a man ask Marquard whether he had any tickets for sale. He said Marquard pulled six tickets from his pocket and offered them for $350. The man said the price was too high. Another man approached Marquard with a similar question and again Rube pulled out the tickets and offered them for $350.

John Heidler, president of the National league, said he will take no official action against Marquard.

PUBLIC IS SERVED SOUP MADE OF $1500 PIGEONS

NEW YORK, Oct. 12.—Fifteen-cent soup made of 1,500 pedigreed pigeons has been served recently in East Side eating places. Police discovered this epicurean irregularity today after arresting a 16-year-old boy on complaint of a pigeon fancier that his coops of prize-winning birds had been persistently robbed. He valued the pigeons at $1,500.

KIRBY AGAIN PRESIDENT SOUTHERN TARIFF CONGRESS

NEW ORLEANS, Oct. 12.—John H. Kirby of Houston, Texas, was re-elected president at the closing session today of the Southern Tariff congress. Arthur J. Draper of Charlotte, N. C. was named vice-president; J. A. Arnold of Fort Worth, secretary, and John T. Scott of Houston, treasurer.

It was decided to establish offices in Washington to make possible the keeping of facts bearing on cost of production and marketing of Southern products constantly before congress.

DALLAS, TEX., Oct. 12.—Authorities today were trying to learn the cause of a fire which last night gutted the two-story building owned by Sharfstein Company, women's ready-to-wear wholesalers, and caused damage of about $75,000.

EXPECT A GRADUAL DECLINE IN PRICES

Estimate Practically All Commodities Will Be Affected During Winter And Spring.

CHICAGO, Oct. 12.—Eleven hundred purchasing agents from the United States and Canada today continued their convention here and further discussion of expected price reductions was expected to come up.

The delegates yesterday were unanimous in expressing the belief that a gradual decline in the price of practically all commodities would be seen during the winter and spring, until by early summer prices would be back to the pre-war level.

"Prices of most commodities will have dropped at least 20 per cent by spring," J. P. Davis, vice-president of the Chicago Purchasing Agents' Association, said. "Cotton goods and similar merchandise will drop 35 per cent as will steel and foodstuffs."

The agents here, it is estimated, have a buying power of $10,000,000,000.

Girls Go on Strike When Required to Don Khaki Pants

NEW ORLEANS, LA., Oct. 12.—The question of whether employers have the right to force girl workers to wear trousers excited considerable interest here today. Thirty-two girl employes of the Penick & Ford Molasses Packing Plant walked out because, they said, the management insisted on their donning khaki pants.

SEVEN MEN SENTENCED TO DIE ARE MAKING A FIGHT FOR THEIR LIVES

CHICAGO, Oct. 12.—With the time set for death only a few days away, seven men, convicted of murder and sentenced to hang here, were fighting desperately for their lives today.

Unless they succeed in obtaining court orders staying execution, or are reprived by Governor Lowden, five of the men will be placed in death cells tomorrow afternoon. The other two, scheduled to hang Friday, will be sent to the death cells Thursday afternoon.

The supreme court today granted a writ of supersedeas in the case of Joseph Castango and Samuel Ferrara, two of the seven scheduled to hang here for murder Thursday and Friday. The others will be hanged according to schedule, Sheriff Peters announced.

The five scheduled to hang Thursday are:

Nicholas Viana and Frank Campione, members of an alleged gang of murderers; Sam Ferrara and Joe Constanza, convicted of murdering a holdup victim, and J. H. Reese, negro, who killed his wife with a hatchet.

The two to be hanged Friday are:

Frank Haenzel, convicted of killing his wife, and Frank Zeker, convicted of killing two men in a hold-up.

Originally 12 men were sentenced to hang Thursday and Friday of this week, but reprieves and communtations have cut this down to seven.

GIRL IS BEING HELD PENDING INVESTIGATION

Lucile Webb, the little girl who was picked up in Burkburnett and who vows she is 16 years of age, is being held by the county juvenile officer while investigation as to her identity is being made.

It is said that she has told several conflicting stories which leads officials to believe that her story that her father and mother are dead are untrue.

Tuesday she related the story that she had run away from a Baptist institution in Georgia. A telegram has been sent to that institution in an effort to establish her identity.

PLAN PERMANENT MEMORIAL FOR MEN WHO BLAZED TRAIL

SAN ANTONIO, Oct. 12.—Erection of a permanent memorial in testimony of the work and achievement of the men who blazed the trails of commerce into Texas was proposed at a meeting here of the Old Trail Drivers' association, an organization whose membership includes old cowmen of Texas, New Mexico and Oklahoma. The shaft, 100 feet high, would be placed on the Alpine drive, a scenic highway through Brackenridge park in the heart of San Antonio, and the trail over which cattle were driven in the late 60's and 70's from southwest Texas and Mexico to Kansas and other markets.

Funds with which the monument would be erected would be raised through the sale of a book, "The Old Trail Drivers of Texas," written by George W. Saunders, president of the association, and through private subscription from cattlemen of the present day as well as the old-timers.

INTERNATIONAL CHAMBER OF COMMERCE ADJOURNS

PARIS, Oct. 12.—The board of directors of the international chamber of commerce today adjourned its two-day session after approving the holding of the second convention of the full membership in London next June. The directors approved plans for expansion and expressed pleasure at the sympathetic attitude of the chamber of commerce of the various nations toward the league of nations.

WANT MILLION AND HALF TO EXPAND FOREIGN TRADE

WASHINGTON, Oct. 12.—Appropriations approximating $1,500,000 will be asked of congress at the next session for the expansion of foreign trade, according to the estimates under consideration today by the bureau of foreign and domestic commerce.

Officials declared increased funds were needed because of the changing conditions of America's commerce.

CONGRESSMAN JOE CANNON SUSTAINS BROKEN WRIST

TWO CONSTABLES IN IRELAND ARE KILLED TWO ARE WOUNDED

BALLINDERRY, IRELAND, Oct. 12.—Constables Kenny and Crawford were shot dead and a sergeant and two other constables were badly wounded when a police motor car running between Roscommon to Ballaghaderen, county of Mayo, was fired upon today.

SPEECH IS REGARDED AS A DECLARATION OF WAR

LONDON, Oct. 12.—Leaders of the sinn fein movement regard the speech made at Carnarvon, Wales, on Saturday by Premier Lloyd George as almost a "declaration of war on Ireland," says the Dublin correspondent of the London Times.

There are many signs, continues the correspondent, that the executive department in that city intends to bring matters to a head as quickly as possible by a concentrated campaign against disorder which by inflicting general hardships on the country may make crime and lawlessness "truly unpopular." Projected measures are said to include complete stoppage of the Irish railways, drastic reduction of the postal service until all railway workers agree to return to work and until there is a cessation of raids on the mails.

DRIVER OF LORRY KILLED; THREE SOLDIERS WOUNDED

CORK, Oct. 11.—An attack on a military lorry in the Mallow district of Cork today resulted in the death of the driver and the wounding of three soldiers.

FEAR FOR RENEWAL OF DISORDERS IN ULSTER

BELFAST, Oct. 12.—A report that a brother of the late Commissioner Smyth of the Royal Irish constabulary has been killed near Dublin, as was the commissioner in Cork last summer, has caused a sensation here. If the Major Smyth who was killed proves to be a relatives of the late commissioner, it is feared there will be a renewal of the disorders in Ulster.

SINN FEIN ATTACKS ON POLICE ARE CONTINUED

LONDON, Oct. 12.—Sinn Fein attacks on police and British officials continued yesterday with the shooting of one soldier and the kidnapping of Warden Griffin of the Cork jail.

The soldier was killed near Kanturk, county Cork, and six others were wounded in an ambush at cross roads.

The only move made by the government during the day was the arrest of Father O'Flanigan, "vice president of the Irish republic," his arrest immediately following Premier Lloyd George's announcement that stern measures would be adopted if necessary, was taken to mean the government is ready to proceed with such a program.

Three outbreaks occurred in Belfast last night, after much sniping at police. Police broke up the mobs.

FREQUENT EARTHQUAKES PUZZLE TO SCIENTISTS

They Regard the Disturbances as a Geological Anomaly and Suggest No Reason at All.

WASHINGTON, Oct. 12.—Frequent earthquakes in North and South America and Europe during the last few months have puzzled government scientists. They regard the disturbances as a geological anomaly for they say that the greatest seismic disturbance is known defilitely to be in February, March and April. Their opinion coincides with that of Father Tondorf, director of the Georgetown University Seismic observatory.

The government scientists have no particular scientific reason to suggest for the frequency of the recent earth disturbances. They are making no special study of the earthquakes and their opinion is that geology is too young a science and too little is known of it for anyone to attempt an explanation of the cause of the anomaly.

Geologists recognize that the earth's surface is in a state of continual unrest and they explain that whenever the accumulated force passes the "breaking point" earthquakes follow. The disturbances which recently have occurred in three continents are regarded by scientists as movements of the earth's crust and yet they say that some of the shocks may have extended to a depth of 200 miles.

Fault lines or weak places in the earth are well known to the geologists, according to G. P. Merrill, curator of the national museum, who explains that because of this knowledge a general prediction regarding the area of a disturbance can be made by the scientists. But, he adds, "no sane man" would attempt to say exactly where or when, for a fault may extend for several hundred miles.

NEW YORK TO HAVE NEW DOUBLE-DECKED SUBWAY

Plan Proposed by Construction Commissioner to Provide for Traffic Increase for 25 Years.

NEW YORK, Oct. 12.—This city will have a new double-decked subway running most of the length of Manhattan Island if the plans proposed by John H. Delaney, transit construction commissioner, to provide for the increase in traffic in the next 25 years are put into effect.

It will be necessary to resort to this double-deck subway construction, in the opinion of the commissioner, because the congested section of Manhattan borough has only 11 north and south arteries to serve more than 100 cross streets.

His plans call for an eight-track, double-deck, line on the west side of the city from the Battery to 155th street running under Eighth and Amsterdam avenues. Only four tracks would be constructed at first but these would be so located that another four-track unit could be built under or on top of it.

Mr. Delaney also proposes the building of another north and south subway of four to six tracks under Fifth and Madison avenues, on the east side, and extending from the Battery to the Harlem river. Both these arteries would have connections extending to the boroughs of the Bronx, Brooklyn or Richmond.

The commissioner advocates the construction of 42 new single-track river tunnels. As the present system has 34 such tunnels, this would make a total of 76 tunnels.

He says that passenger traffic on the surface of the main arteries, north and south or crosstown, will soon have to be discontinued because of the great increase of traffic of vehicles and pedestrians; with the result that all passenger traffic on these streets would be forced into subways or on elevated lines.

BOY SCOUTS ON CROSS-CONTINENT HIKE

These two young chaps of Brooklyn, N. Y., started recently on their long hike to San Francisco and back. They have a message from Mayor Hylan of New York to deliver to Mayor Rolfe of San Francisco. They will go by way of the southern route and will work on their journey in order to pay their expenses.

SENATOR HARDING IS LEAVING TODAY FOR LAST SPEAKING TRIP

By RAYMOND CLAPPER.
United Press Staff Correspondent.

MARION, OHIO, Oct. 12.—Refreshed by a full day's rest on the front porch, Senator Warren G. Harding was to leave Marion this afternoon on his speaking trip, his last tour of the campaign.

He will make night speeches at Chattanooga tomorrow; Louisville Thursday; Indianapolis Friday and St. Louis Saturday. Day speeches are scheduled for a score of points.

Announcement from New York that the speaking trip into the east had been called off confirmed intimations prevalent here for several days. Senator Harding for various reasons objected to it. Madison Square Garden had been reserved for the night of October 27.

Some of Harding's advisors feared complications at New York, the chief one being the possibility that Eli Root, a strong league advocate, might preside at the meeting and thus emphasize a divergence of views on the league between himself and Senator Harding.

Believing his attitude on the league had been misrepresented in some press dispatches sent on his Des Moines speech, Senator Harding issued a formal statement restating his position.

VESSEL IS REPORTED STRANDED ON A REEF

SAN FRANCISCO, Oct. 12.—A vessel believed to be the Mexican gunboat Progreso was reported in wireless dispatches from the steamer Steelworker to be stranded on a reef off the coast of Lower California, but in no immediate danger, the naval communications service announced early today. The Steelworker reported the steamer Annette Rohlfs landing by the Progreso.

RAILROAD HAS BEEN PAID THIRTY-TWO MILLIONS AS GOVERNMENT RENTAL

CHICAGO, Oct. 12.—The Chicago, Milwaukee & St. Paul railroad has been paid a sum, understood to be thirty million dollars, in settlement with the United States railroad administration for the period it was operated under federal control.

It is the first of the major lines to reach such settlement.

GOVERNOR RETURNS AND WILL CONSIDER BILLS ON HIS DESK FOR APPROVAL

AUSTIN, Oct. 12.—Governor W. P. Hobby returned to Austin today after a week in Houston, El Paso and Dallas. Several bills passed by the last legislature, including those proposing regulation of employment agencies, are still on the governor's desk. His secretary said that future plans relating to the proposed trip to Laredo have not been matured.

ASKS FOR DIVORCE AND CUSTODY OF HIS CHILD

BENTON, ILL., Oct. 12.—Asking the custody of his dead child, W. H. Warner of Lyon, Iowa, has instituted divorce proceedings against Mrs. Ollie Warner, who resides in Mount Vernon, Ill.

Papers in the complaint show the child is buried in Hamilton county, Ill. The father in his petition asks that he be awarded custody of the child and further allowed to exhume the body and have it moved to Iowa for reburial.

TUBERCULOSIS DISCUSSED BY OKLAHOMA CONFERENCE

OKLAHOMA CITY, Oct. 12.—Tuberculosis was to be thoroughly discussed here today by delegates attending the third annual public health conference which opened at noon today. United States Senator Robert L. Owen was to deliver the address. His theme being "Responsibility of the State in Safeguarding the Public's Health."

Many other prominent health officials were to talk.

CREDIT EXPANSION BEING CONSIDERED BY FARMERS

WASHINGTON, Oct. 12.—Representatives of farmers organizations from all parts of the United States began a two days' meeting here today to consider credit expansion which they say is necessary for movement of the crops already produced and for continuation of production. The meeting is expected to devise a policy to meet the downward trend of prics for farm products which the farmers claim has created a serious situation.

TWO PEOPLE KILLED AND ONE INJURED IN A QUARRY EXPLOSION

HANNIBAL, MO., Oct. 12.—Two men were killed and one injured in an explosion in the quarries of the Atlas Portland Cement company at Hasco, three miles south of Hannibal, this morning, according to first reports of the accident.

ANNOUNCE REVISION OF POPULATION STATISTICS

WASHINGTON, Oct. 12.—Census reports give Little Rock, Ark. (revised), 65,030; increase 19,093, or 41.6 per cent. Previously announced as 64,997.

Allegheny county, Pennsylvania, containing Pittsburgh (revised), 1,185,758; increase, 167,295, or 16.4 per cent, previously announced as 1,184,832.

All Three Babies Mentioned in Times Find Good Homes

"I don't know why we have to spend our money to build orphanages," Miss Katherine Henricle, district agent for the Texas Children's Home, said at noon Tuesday. "I believe there's a motherheart yearning for every child born into the world that has been defrauded of its own mother."

Jack, the beautiful baby boy, and Hazel and Nelleen, the two little girls, brought from Fort Worth here Monday afternoon by Miss Henricle were "spirited away" by prospective adoptive parents before most people had read the story in Monday's Times.

"I pinned my hat on while I finished the story," one of the "mothers" told Miss Henricle.

Dozens of women visited the Day Nursery Monday evening and Tuesday morning, and all were disappointed when they found the children were gone. All three babies are "visiting," according to the Texas Homes' plan of adoption, in the homes of prominent Wichita Falls citizens. The children were exceptionally attractive, all three having curly hair and fair skin. Billy, the "Sunny Jim" baby boy, eight months old, was yellow haired and dark eyed, while the two little girls, two and four years old, were brown-eyed with bronze-brown curls.

SAYS UNITED DRUG CO. STRAW VOTE IS "TAINTED"

NEW YORK, Oct. 12.—Charging the national straw vote now being taken by the United Drug Company of Boston is "tainted," chairman George White of the democratic national committee, today issued a statement "publicly calling upon the officers and directors of the company to end the poll at once."

TWO PEOPLE DEAD FROM DRINKING WINE AT PARTY

COUNCIL BLUFFS, IOWA, Oct. 11—Two men died here early this morning from poison in some form, taken during a wine party. It is reported that six others are dead, but authorities have been unable to verify this report.

FATHER OF COUGHLIN BOY IS INCLINED TO DOUBT CONFESSION

NORRISTOWN, PA., Oct. 12.—George Coughlin, father of baby Blakely Coughlin, today was inclined to doubt the confession of August Pasquale that he had accidentally smothered the infant and buried it near Egg Harbor, New Jersey.

Weary and nervous, Coughlin today hoped the confession was false and the child was alive.

Long confinement in a cell was believed by the Coughlin family to have unnerved Pasquale so he told a wild story. It was pointed out Pasquale made other confessions which proved untrue.

State police, however, believed Pasquale's confession authentic.

SEARCH MAY BE SHIFTED TO SCENE NEAR HOME

HARRISBURG, PA., Oct. 12.—Search for the body of baby Coughlin may be shifted from Egg Harbor, N. J., to the vicinity of the Coughlin home at Norristown, Pa., it was indicated at the offices of the Pennsylvania state constabulary today.

Major Lynn G. Adams, to whom the alleged kidnapper, August Pasquale, confessed he accidentally smothered the child, left Harrisburg today. Confidentially came the intimation there was a new clue indicating the body had been buried near the Coughlin home or thrown into the river near there.

CARRIES SEARCHERS TO A SPOT ALONG THE RIVER

HARRISBURG, PA., Oct. 12.—August Pasquale, self-confessed kidnaper of Blakely Coughlin, today took Captain Samuel Gearhart of the state police to a spot along the Schuylkill river below Norristown, where he declared he had thrown the body of the child and a diver found a piece of rail and some string which he alleged he had tied to the child when he hurled it into the stream, according to a statement today to Major Lynn G. Williams, superintendent of the state police.

The search for the body is being continued by the diver, the major said.

Major Adams also said Pasquale had confessed to killing a woman about 60 years old in Philadelphia last spring.

HOME OF MAILS STAGES CELEBRATION OVER HIS VICTORY OVER DODGERS

SAN FRANCISCO, Oct. 12.—"Buster" Mail's home town is all "het up" over the way the Brooklyn Dodgers got theirs yesterday.

"Buster" was born in San Quentine, California, near San Francisco. His home is a pretty little place on the outside of the walls of he state penitentiary.

Prisoners at the penitentiary yesterday joined in the chorus which went up when the score was flashed on the prison bulletin board.

Mare Island navy yard and Sacramento were other points which backed Mails to the limit. Mails' father works at the navy yard.

FIFTH KILLING IS STAGED IN KANSAS CITY WITHIN THE PAST SEVERAL DAYS

KANSAS CITY, MO., Oct. 12.—William Mathews, 38, taxi driver, was shot and instantly killed last night by Nathan Washington, negro porter, West End hotel, who escaped. The murder, fifth here in ten days, followed an argument in a wash room, according to Phillip Brock, cattleman from Lotus, Kan., who saw the shooting.

TERRY'S TEXAS RANGERS ARE HOLDING A REUNION

AUSTIN, Oct. 12—Terry's Texas Rangers' association, with Maj. George W. Littlefield presiding over less than fifty of the remaining veterans of this famous Civil war force, began an annual two-day reunion here today.

DEAN OF MEDICAL SCHOOL, TULANE UNIVERSITY, DEAD

NEW ORLEANS, Oct. 12.—Dr. Isadore Dyer, dean of the medical school of Tulane university and credited with important discoveries in the treatment of leprosy and malignant skin diseases, died at his home here today, aged 54. He had been ill for some time with heart trouble.

U. S. ATTORNEY IN MINE STRIKE CASES QUITS DEPARTMENT

INDIANAPOLIS, Oct. 12.—Dan W. Simms, special assistant attorney general in the cases pending against coal operators and officials of the United Mine Workers of America, indicted under the Lever act last winter, has resigned, it became known here today.

Mr. Simms while admitting that he had sent his resignation to Attorney General Palmer at Washington, declined to discuss the case. It is understood, however, that Mr. Simms' resignation was due to a disagreement with the attorney general over procedure and evidence to be used in the coal cases.

It is understood that Mr. Simms received a letter from Mr. Palmer a few days ago placing certain restrictions on the evidence to be used, and that Mr. Simms' resignation followed closely upon the receipt of this letter. Just what the restrictions were is not known and Mr. Simms declined to discuss the case at least until action had been taken on his resignation.

MAN WHO PERSONALLY NOTIFIED ABRAHAM LINCOLN OF NOMINATION IS DEAD

SPRINGFIELD, ILL., Oct. 12.—Clinton Conkling, aged 78 years, who personally notified Abraham Lincoln in this city of his nomination for president, died here this morning after a long illness of cancer of the stomach.

GEN. FELIX DIAZ IS ON HIS WAY TO HAVANA

SAN ANTONIO, Oct. 12.—Gen. Felix Diaz, ordered deported by President De la Huerta, is on his way to Havana, according to a local Mexican newspaper. A dispatch reports he sailed yesterday from Vera Cruz on the French ship Flandes.

General Diaz did not oppose being taken on board ship, the article says, but stated he would continue to fight deportation.

ARREST MAN CHARGED WITH EMBEZZLEMENT OF FUNDS OF SALOONS

PHOENIX, ARIZ., Oct. 12.—W. W. Curry, proprietor of a shooting gallery in Mesa, Ariz., left there under arrest last night for Waco, Texas, to stand trial on a charge of embezzlement of between $35,000 and $40,000 from saloons he managed and from the Waco fire department. Officers said Curry's arrest ended a nation-wide search since 1915. He waived extradition.

FARMS AND RANCHES

EXCURSION TO RIO GRAND VALLEY
Saturday, Sept. 16th, we will conduct an excursion to the famous Rio Grande valley. If you have never seen this wonderful valley, the California of Texas, it will be a wonder and revelation to you.

You will see the richest soil in the world, a climate that is eternal spring, where crops are successfully planted and harvested every month in the year; where cotton makes from bale to bale and half, corn 90 to 100 bushels, alfalfa 8 and 10 cuttings a year; where onions, cabbage, tomatoes, oranges and grape fruit make from $500 to $1,000 to acre; where farm labor is so cheap that your gross and net incomes are nearly together.

You must see it to be able to accept these statements. We give you a low rate on our special train. See us for particulars.

NEWS FROM THE COURTS

ONE INDICTMENT IS RETURNED BY GRAND JURY

Judging solely from the length of time that witnesses are kept in the room where the special grand jury, empaneled oMnday, is in session, this body is making a careful and thorough investigation as charged by Judge Martin.

A stupendous amount of work lays before the grand jury and estimates are made that, in all probability, they will not conclude their work in less than a month's time.

One witness, it is said, refused to disclosed all he knew about a certain incident which the jury was investigating and he was taken before Judge Martin late Monday afternoon. The witness was told that he should appear before the body again Tuesday morning and if satisfactory answers were not given he should be brought before the judge again. The man in question was not brought to appear before the court, Tuesday.

Late Monday afternoon just before adjournment the grand jury returned one true bill in open court. The name of the man said to have been indicted was not disclosed as it was stated that he was not as yet under arrest.

FEDERAL COURT WILL BE RECONVENED NEXT MONDAY

Federal Judge Robert T. Ervin of Mobile, Ala., who held federal court here for two weeks, will return to Wichita Falls Monday and federal court will reconvene. Civil cases will be taken up at this session and the court will remain at work for two weeks.

SECOND ATTEMPT TO ROB TAX COLLECTOR'S OFFICE

Court house attaches marvel at the brazenness and boldness of the men who entered the county tax collector's office and robbed the small safe of about $150 last week.

It has been discovered since that the following night the same persons again entered the same office and this time attempted to rob the large safe in the same office.

It is said that they tampered with the time lock on the safe to such an extent that the services of an expect locksmith had to be secured in order to make repairs.

The belief is common that the burglar or burglars tampered with the lock to such an extent that they had destroyed its working properly in the hopes that it would not be noticed and that they would return the next night and easily gain entrance in the safe. It was noticed, however, and the combination lock on the safe was employed. It is believed that by the use of the combination lock the plans of the burglars were frustrated.

PLACED UNDER ARREST BY FEDERAL AUTHORITIES

J. A. Herridon was placed under arrest Monday and five gallons of whiskey are reported as having been found. He waived preliminary hearing and U. S. Commissioner Lants set his bond at $350.

FOUND GUILTY OF VIOLATING STATE PURE FOOD LAW

Tom Kikas was found guilty by a jury in the county court of law Monday for violation of the pure food law and he was fined $25 and costs. Several other persons who were charged with short measure in the sale of gasoline were found not guilty by the jury.

The county court of law was very busy all day Monday having disposed of one non-jury case and four jury cases.

JUDGE SCURRY RESUMES HEARINGS IN 78th COURT

Judge Edgar Scurry of the 78th district court resumed his duties at the court house Tuesday morning after a week's absence. He immediately set about trying non-jury cases.

FIND FOR THE PLAINTIFF IN THE DAVENPORT CASE

The jury in the case of E. D. Davenport vs. American Refinery Co. found for the plaintiff and rendered a judgment of $350. The suit was for personal injuries and damages alleged to have been incurred in a smash-up. The case was tried in the county court of law before Special Judge Ed Napier.

FINED $25 FOR ALLEGED VIOLATION PURE FOOD LAW

A fine of $25 and costs was assessed in the case against G. G. Carson, proprietor of a restaurant, in the county court of law Tuesday. He was charged with having offered for sale meat which was in such condition as to incur a violation of the pure food law.

MILL OPERATING AT HALF ITS CAPACITY

Explain That They Cannot Export Flour Because Of Ruling Of Federal Board.

The Wichita Mill and Elevator company is operating the big mill at Wichita Falls at half capacity owing to the lack of demand for the finished product of the flour mill. This situation is said to obtain all over the country and mills everywhere in America are curtailing their production.

The millers allege that they cannot export flour because the federal shipping board has placed a differential of 25 cents per hundred on flour as against wheat. Thus it is possible to ship the raw material, wheat, but not the manufactured product, flour.

J. CHESTER POWELL COMES TO TAKE UP BOYS WORK FIRST CHRISTIAN CHURCH

J. Chester Powell, formerly of Wichita Falls, but recently of Archer City where he was engaged in the abstract business, has been called by the First Christian church here to take charge of the boys' work and to act as assistant pastor.

The church has realized for some time that the work had grown to such proportions that one or more assistants to the pastor was necessary and have been in search of the right man to take the position. It was unanimously agreed that Mr. Powell was that man, and although he had organized a growing business in Archer City, he finally agreed to take the work here.

Mr. Powell is both by ability and temperament exceptionally qualified to do just the class of work among the young people of the church that is required. He was formerly employed for some time with one of the banks in this city.

ROUND TRIP RATE TO DALLAS FAIR IS $7.91

The railroad companies have instituted a special excursion rate of one and one-half fare, plus war tax, to Dallas, during the fair. This rate will be good to and including October 26. The cost of a round trip ticket from Wichita Falls to Dallas under this rate is $7.91. This sum pays the war tax as well as the mileage, and the tickets can be routed direct to Dallas or by way of Fort Worth.

CALL MASS MEETING OF COTTON FARMERS

Cotton farmers of Wichita county are called to meet in mass meeting at the court house at Wichita Falls at 2 p. m. Saturday, October 16. The call is issued by the American Cotton association. J. L. McConkey is chairman of the executive committee of the local division of this association.

Mr. McConkey announces that there is widespread interest among the cotton growers of Wichita county in this movement and urges a full attendance at the meeting Saturday, where important announcements will be made.

POLO CLUB SECURES 15 ACRES OF GROUND AND STABLE BUILDING

The Wichita Polo Club today closed a deal with J. D. Parnell whereby the club will rent 15 acres at Call Field; obtain the use of one of the big aviation hangars as a stable for a score of polo ponies and will be enabled to lay out one of the finest polo fields in the southwest.

The club, which numbers some 15 or 20 polo enthusiasts, is arranging to bring several fast polo teams to this city for games. Fort Sill already has been booked to play here early next month, and there is a possibility the local club will cross mallets with a Dallas team next week at the state fair grounds.

Wichita Falls has a number of crack polo players, men who have played the game in many parts of the country before coming to Texas. Only a few weeks ago James Minick, a member of the local club, went to Colorado Springs with a string of polo ponies of his own training—and not only sold every pony in one of the oldest polo centers in the west but showed an individual brilliancy in his own playing that brought an invitation to play with the Colorado Springs club.

Parnell also is completing arrangements to turn over one of the Call Field hangars and a number of acres to the national guardsmen here, for cavalry use. It is more than probable that the cavalrymen will organize a polo team also.

Among the members of the Wichita Polo Club are H. A. Robbins, Warren Jennings, Rhea Nixon, Zeb Nixon, Cecil Wilfong, Charlie Francis, J. D. Paskins, R. A. Anderson, Dr. John Fletcher, Frank McDowell, Shields Meyser, James Minick and Julian McFall.

FARMER CONFESSES THAT HE MURDERED HIS TWO DAUGHTERS

LANSING, MICH., Oct. 12.—Earl Roop, a farmer living near here, today confessed, according to Sheriff Silsbe, that late yesterday he chloroformed his two daughters, aged two and three years, and buried their bodies in the bed of a river nearby. Later he surrendered to the sheriff at Mason and made the alleged confession.

Sheriff's officers went to the river, led by Roop, and uncovered the bodies.

Despondency, according to the alleged confession, was the motive for the crime. Roop is held on a charge of murder.

SOVIET'S RUSSIAN FAILURE DAUNTS GERMAN RADICALS

By CARL D. GROAT.
United Press Staff Correspondent.

BERLIN, (By Mail.)—Radicalism has had a severe setback in Germany.

This setback to radicalism has resulted from a campaign of education over the true situation in Russia brought back by the more conservative of the German socialist delegates to the Moscow conference.

They have shown that Russia is no workmen's paradise. By concrete evidence, they have convinced many German radicals that sovietism and bolshevism are not the cure-all they once believed. They have shown how a group of German workers who went to Russia, under misapprehensions have now nothing but disillusionment and homesickness.

They have been ill-treated and are nearly starved. And, this story has left its imprint on the German worker. It is destined to lead to a split in the independent socialist party at its October convention, when the communists will go into one group and the more conservative into another.

On the other hand, the reactionaries are active and becoming more unified. An organization with the title "Orgesch" (Organization Escherich) has been formed with branches over the whole land, whose purpose is to keep intact the Einwohnerwehr (though not under that name.

This body has hidden its arms, and proposes to hang on to them. In case of need, the old Einwohnerwehr members would be called out, but as Orgesch men. Included in this group are landowners, factory owners and in general the reactionary elements of the community. It is particularly strong in east Prussia among the junkers, and has a strong standing in Bavaria. Pomerania and other places where the opposition to disarmament is strong.

The possibility of a "Putsch" from this direction is ever present.

Naturally, too, there is always a chance of the communists starting something. But, the split in the independent ranks and the repulse of the red Russian brothers has worked as a cold douche upon the hot heads who want to do some more world-revolting in Germany.

The main danger from the "left" side lies in the prospect of much unemployment during the winter. Hunger and worklessness may cause an upset of serious proportions, but at the moment the prospects for reddism and bloodshed have been considerably reduced.

TEST OF ILLUMINOUS CABLES ARE SATISFACTORY

PARIS, Oct. 12.—Tests of illuminous cable by which steamers may enter and leave port during heavy fogs have been attended by Admiral Fournier and the minister of the navy, who have reported them to have been entirely successful. It has been decided to install one of these cables in the principal French ports and the Matin says the placing of one across the English channel is being considered.

FORMER KING FEARS TAX GATHERER AND IS SPENDING HIS WEALTH

BERLIN.—Former King Ferdinand of Bulgaria, fearing the inroads of the tax-gatherer, is enjoying his wealth by spending it.

At Mergentheim, which he is visiting for the sake of the magnesia springs, he leads a jovial and unconcerned existence in striking contrast to the cloistered seclusion of the former German emperor at Amerongen.

Under the name of Count von Murany, says a writer in the Zwoelf-Uhrblatt, Ferdinand is residing at the Kurhaus together with his suite composed of chaplain, chamberlain, chauffeur, footman, valet and private secretary. His lavish penditure has made him popular in the town and surrounding country, where the villagers see in him an emblem of the "good old times" and greet him with cheers as he drives past in an automobile.

The fact that the British government has released the former king's sequestrated property is known to all and has earned for him the reputation, frequently embarrassing, of being fabulously rich. His chief purchases are books, bronzes, pictures and jewels. His secretary has a difficult task in keeping off the host of people who want private audiences on business. A chimney-sweep, for instance, has discovered the secret of turning chimney smoke into high-class boot polish and wants King Ferdinand to advance him 3,000 marks for the exploitation of the invention.

Someone also has invented an everburning match and he wants money from the king to convert his theory into practice. The secretary has much trouble to make it clear that his master has finally retired from business. Other aspirants to munificence avoid the economically-minded secretary and waylay Ferdinand on his motor excursions.

A man whose ambition in life was to shake hands with royalty received one day a card ostensibly from the Count Veon Muranny inviting him to an audience. Overjoyed, he hurried to the Kurhaus in frockcoat and tall hat. The victim of a hoax did not obtain the longed for audience, but instead four new 50-mark notes which Ferdinand sent out to him as consolation money.

QUALIFIED VOTERS OF CITY ARE CASTING BALLOTS ON BONDS

Qualified property owning voters in Wichita Falls Tuesday were voting on the bond issues aggregating more than a million and a half dollars to public improvements. Only a light vote had been polled early in the day. While little opposition was expected to the bonds an effort was being made to get out a good vote as this would help in the sale of the bonds.

The bond issues voted on include the following:

$700,000 sanitary sewer.
$260,000 storm sewer.
$340,000 street improvement.
$200,000 water extension.
$ 25,000 incinerator.
$ 75,000 hospital improvement.
$ 25,000 parks and cemetery.

REPORT THE CONDITION OF CASTLE MORE FAVORABLE

Reports received Tuesday morning from the physician attending Larry Castle, stage employe of the Wichita theater who was accidentally shot by another workman Saturday night, indicated that Mr. Castle was greatly improved and that, although his condition is still extremely serious, it is believed that he has a chance for life.

He regained consciousness and seemed much stronger Tuesday than at any time since the accident. The operation performed Sunday to relieve the pressure on the spine was completely successful and Mr. Castle's improved condition is attributed in large measure to this. No effort was made to extract the bullet which is still lodged in Mr. Castle's back. His left lung was severely injured and he is still paralyzed from the waist down, but the improved condition Tuesday is regarded as favorable to his chances of recovery.

COLUMBUS DAY BEING CELEBRATED IN CITY

The 428th anniversary of the discovery of America by Christopher Columbus was celebrated in Wichita Falls Tuesday.

The anniversary was celebrated as a festival at the Catholic church, a special program including a sermon by Father Boniface being carried out. In the afternoon the pupils at St. Mary's academy were given a holiday. Tonight the Knights of Columbus will be hosts at a dance at the Arcadia academy.

Appropriate exercises were also given in the public schools. The banks of the city were closed for the holiday.
