PUMPKIN CARVING ART

Contest entries in the Wellington PTO Halloween Carnival pumpkin carving were, top from left, Tim Hightower, Ashley Spillman (1st place), Jodi Wood (1st), and Amber DeVoss. Bottom from left: Marnie Spillman, Robin Henard (1st place) and Joe Michael Hughes.

Record Turnout Due at Election

Collingsworth voters will cast their ballots on Tuesday, Nov. 6, in a general election unprecedented in this county.

The largest turnout of voters in many years is expected, local political observers believe and its being a presidential election is only part of it.

More than the usual number of voters here appear undecided in the U.S. Senate race between Democrat Lloyd Doggett and Republican Phil Gramm to fill the post vacated when Senator John Tower retired.

Both Congressional candidates are paying close attention to Collingsworth.

Beau Boulter, R., flew into Wellington Tuesday afternoon, Oct. 30.

Congressman Jack Hightower, D., will be here Monday, the day before election.

Two write-in candidates, campaigning vigourously, turned election interest from the national to the county level, and the largest absentee vote in many years was an indicator of the potential in the voting precincts next Tuesday.

In the Sheriff's race, former Sheriff John Rainey who was nominated in the 1st Democratic Primary election to return to that office, is opposed by the incumbent, Sheriff Kenneth Maxwell.•

Maxwell filed as a write-in candidate for sheriff under an election law providing for this procedure.

Rainey's name will be on the ballot in the Democratic column. Maxwell's name will not be on the ballot, and his name must be written in one of the blank columns provided on the ballot, opposite the title office, "sheriff."

Thc second county race contested in this election is county tax assessor-collector.

Incumbent Ann Wauer is opposed by write-in candidate Patsy Barnett, a former deputy in the tax office.

Also in this race, Mrs. Wauer was nominated to be returned to the office and Mrs. Barnett filed under the provisions of the Texas Election Law.

Mrs. Wauer's name will be on the ballot, Mrs. Barnett's supporters must write her name in the space provided on the ballot.

Tuesday at noon 234 absentee votes by personal appearance and 153 votes by mail had been case, for a total of 387, Helen Gollihugh, county clerk, reported. At that time approximately 45 ballots that had been sent to those wanting to vote by mail had not been returned.

On election day, the polls will be open from 7 a.m. to 7 p.m.

"This large vote is due, I believe, to the vote-by-mail applications for ballots sent out by the Texas Democratic Party, who sent them (applications for ballots) to all Texas Senior Citizens. We have had a lot of over 65-year-old people to vote," Gollihugh said.

"Then we have had more requests by college students who are interested."

"Also the presidential race and the two local races to be determined are a factor," she said.

Candidates in the general election include these below, with the letter "D" indicating Demo-

Skyrockets Play at Clarendon Friday

Wellington Skyrockets travel to Clarendon Friday, Nov. 2, to meet the Bronchos, regarded as one of their most competitive 2-AA opponents. Game time will be 7:30.

In pre-season polls, Clarendon was picked to win the district. They had 7 returning starters from last year's team on offense and 5 returning starters on defense.

Clarendon opened the 1984 season with Canadian and lost not only their game but also their starting quarterback, Trent Sharp, with a dislocated elbow.

The Bronchos had only one win during the non-district season and that was to Floydada 6-0.

They opened district play against Memphis and were defeated 9-6. Then Sharp returned in the second conference game and Clarendon defeated Quanah 34-13. This past weekend, the Bronchos blanked Shamrock Irish 14-0.

Most of the Clarendon offensive unit are seniors, with only two juniors in the group.

Coach James Williams reviewed Clarendon's probable starting lineup:

One of the Bronchos outstanding backfield players is Rodney Smith, who gained over a 1,000 yards last year.

Fullback position is filled by Stanley Gardner, who has a lot of quickness and is a good running back. The other halfback is Dewey Mincey, with Sharp in quarterback position.

All of these are seniors.

A junior, Russell Alexander is at center and continuing in the line, right guard will be Ben Alderson, right tackle, Britt White, tight end Dean Cearly, left guard, Tim Cole, left tackle Rod Keown and left end Britt Hayworth. All are seniors except Hayworth.

"Most of these boys that play offense also double up and play defense," said Wellington head coach James Williams.

"We were probably eliminiated from the playoffs last week with our loss to Memphis, and it's real important for our kids to maintain their character and prepare for Clarendon as best they can."

From the injury standpoint, Geronimo Molina, center, received a knee injury Friday night against Memphis--the second loss from that position this season.

The Rockets had already lost Kendall Harris in the Quanah game and Molina came off the bench to replace him.

"Now we're going to have to move some people around. We're trying several boys in the workouts to determine who will be the best in the starting center position Friday night," said Williams.

"I look for this to be a typical Clarendon-Wellington football game.

"Last year the Bronchos came into our game rated No. 9 in the state and we defeated them and eliminated them from the playoffs and I'm sure this will be a big motivator for them, trying to avenge last year's loss," Williams said.

Looking over the district, there's not a lot of difference in the teams, as far as one being that much better than the others.

"We're going to have to play out of town so that means we will have to prepare a little more than for home games," said the coach.

Absentee Voting Deadline November 2

Helen Gollihugh, county-district clerk has reminded that 5 p.m. Friday, Nov. 2, is the deadline to vote absentee by personal appearance. It is also the deadline for her office to receive an application for an absentee ballot to be voted by mail.

Her office will be open from 9 a.m. until 5 p.m., including the noon hour.

Absentee ballots voted by mail must be back in her office by November 3.

Coffee Slated for Hightower Monday

Congressman Jack Hightower will be in Wellington Monday morning, Nov. 5, and will be honored at a coffee at 9 a.m. in the Heritage Room of Wellington State Bank.

"This is a public event, and we urge the people of our area to come and visit with our congressman for a few minutes," said Mrs. John Coleman, a past Collingsworth County Democratic Chairman.

"Jack will be circulating through the district on Monday, and he cannot be here long, but he will be here long enough for a brief word with us," she said.

Assisting Mrs. Coleman with the coffee will be Mrs. Buck Breeding, Mrs. Billye Owens, Mrs. Melvin Seale, Mrs. Zook Thomas, Mrs. Lynn Wright, Mrs. Dudley Phipps, and Mrs. Melvin Seale.

Boulter Campaigns Here Tues.

Republican Congressional candidate Beau Boulter and his wife, Rosemary, made a final campaign swing through Wellington Tuesday afternoon, flying into Wellington and meeting with supporters at the airport.

Boulter continued his attack on incumbent Jack Hightower as a big spender" in Congress.

"In spite of his claim to being conservative, Jack Hightower has continuously voted for increased taxes and higher spending," Boulter said. "In four years Hightower has voted for the President's budget only once, but he has supported Tip O'Neill 80% of the time on spending measures."

"We can vote to help the President in his efforts to continue the economic recovery by electing a congressman who will support his policies, or we can vote for higher taxes and soaring spending by sending him a congressman who will vote for the Democrat economic plan," Boulter said.

"Hightower has said that a tax increase may eventually be necessary to cure the deficit, that 'we may have to taste some

THE ISBELL SINGERS

Program of Gospel Singing on Saturday

A gospel singing featuring one of the popular groups of the Panhandle as well as area talent, will be held Saturday, Nov. 3, in Bura Handley Community Center. Starting time will be 7 p.m.

"This will be a full evening of entertainment for the whole family," said Tom Wilkins, who is organizing the event. "It is for everyone in the area who likes to hear these grass-roots religious songs," There is no admission charge and refreshments will be served.

The featured singers will be the Isbell Singers of Stinnett, a family group that appears throughout this part of the state and in other areas.

Other singing groups will be from this area.

The Vargas Family Singers will come from Samnorwood. Their songs in Spanish are already familiar to many here, as they have appeared frequently at Mision Bautista Mt. Sinai.

The Bishop Sisters, made up of 5 sisters, will present their own brand of gospel singing. In the group are Hattie Walker, Ruby Nash, Ruth Bishop, Bobbie Shrubs and Vera Mae Johnson.

They, too have sung in area churches and for other groups.

Two popular Wellington quartets will sing.

There will be the Pioneers, whose members are Marshall Peters, L.C. Sweat, Marilyn Phillips and Jeanice Adams.

Longest running of the quartets in the area is the Lighthouse Quartet, including Wilkins, Truett Holland, Donna Maxwell and Charlotte Myrick, with Larlu Hayes as accompanist.

When It Came To Voting For The American Farmer and Rancher Or Argentina Jack Hightower Voted For Argentina

The three votes Hightower made for the $8.4 billion IMF bailout

August 3, 1983 HR-2957; International Recovery and Financial Stability Act-final passage. This bill increased U.S. participation in the I.M.F. loan guarantee programs $8.4 billion over and above previously authorized U.S. contributions.

Jack Hightower voted "yes".

August 3, 1983 HR-2957; International Recovery and Financial Stability Act-Corcoran amendment. This measure attempted to remove the increase in the U.S. contribution to the I.M.F. and to direct the secretary of the Treasury to encourage the I.M.F. to help renegotiate their loans on more favorable terms.

Jack Hightower voted "no".

November 18, 1983 HR-3959; Supplemental Appropriations, Fiscal Year 1984. This procedural motion resulted in adoption of a Senate amendment for $24 billion in supplemental appropriations including the entire $8.4 billion increase for the I.M.F. contribution. Passage sent the measure to the President.

Jack Hightower voted "yes".

Hightower can't hide behind the President on this one, but he says he did. Why did he listen to President Reagan on this issue, but not on line-item veto? Why did he vote against the Reagan budget in favor of Tip O'Neill's substitute? Why does he vote against the President's trimmed budget requests, voting instead to increase federal spending 80% of the time?

President Reagan and I disagree on this issue and I think that's only healthy, but I should add the President is right many more times than Congress is.

The point is: Jack Hightower was wrong ... and you know it. We need a congressman who fights for our economic interests before those of Argentina.

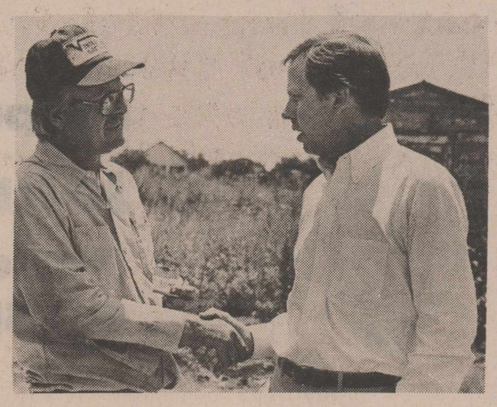

In this election year, let's make a change for the better—Beau Boulter.

We Do Have A Choice: BEAU BOULTER

On three separate occasions Hightower voted for an additional $8.4 billion for U.S. participation in the I.M.F. loan program. The money went first to pay interest on bad loans which some private banks had made to questionable foreign countries.

The American banker considers a loan request made by a farmer or rancher very carefully, so why should of all of us pay taxes to cover imprudent foreign loans a few bankers made? We play by the rules. So should international bankers.

The I.M.F. bailout was a dangerous precedent to set and one I will never vote to repeat.

Firecrackers Win Over Memphis 16-8 There Thursday

Wellington 8th Grade Firecrackers, playing at Memphis, defeated that 8th grade team 16-8 Thursday, Oct. 25.

This was a good victory for the Firecrackers, as Memphis had defeated them 42-8 the first time the teams met. "We felt like we came back and played pretty well over at their place," said Coach Gano Wilson.

This was mostly a defensive game.

"Several times we held them and they had to punt, and we took the ball down the field inside Memphis' 5 yard line twice, but couldn't punch it in."

In the second quarter, the Firecrackers finally scored on a three-yard dive play to Carter Nash, to make the score 6-0. Nash ran the ball around left end for the extra points, and the score was 8-0 at half time.

In the third quarter, Wellington scored again with Shane Black running over the right side for 35 yards. He also scored the extra point, running around right end. (16-0)

Memphis scored in the 4th quarter on a quarterback scramble and the try for extra point was good.

Clarendon will play here Thursday Nov. 1 with the 7th grade game starting at 4:30 and 8th grade following immediately afterward.

Wellington 8th grade defeated Clarendon in their first game this season and Wilson expects this week's contest to be a good game.

7th Grade Wins Over Memphis 36-8 Thursday

Wellington 7th grade football team defeated Memphis 7th graders 36-8 in a game played there Thursday, Oct. 25.

Wellington boys scored on their second possession in the 1st quarter, when they took the ball on the 40 yard line and worked it down to the 15. Then Jeff Thomas scored on a dive play to the right. The conversion attempt failed.

Later in the 1st, Thomas scored again on a sweep left and converted on a dive play to the right.

In the 2nd quarter, Jeff scored on a pitch to the fullback and again converted for the two points.

Kendell Ford added 6 more points in the 3rd quarter on a pitch to the left from the 45 yard out, then converted for the two points.

Memphis made its only score late in the 3rd on a sweep around left end, then made the two-point conversion.

Jeff made the Wellington team's last touchdown in the 4th quarter from the 12 yard line on a quick opening down the middle. The attempted conversion failed.

"The team is blocking better and hitting harder on defense," said Coach Bernard Smith after the game.

But they have their work cut out for them this week when they play Clarendon here. "We urge the football fans to come out and encourage them," Smith said.

JV Loses to Memphis

The Skyrocket Junior Varsity lost its game to a more agile and quicker Memphis JV 36-22 on Cyclone Field Thursday, Oct. 25.

Memphis scored first on a 50 yard run around end then made the extra points to take an early 8-0 lead.

On their first possession of the ball, the Rocket JV drove downfield and Chuck Brown scored on a 5-yard run, then made the extra points on a run up the middle to tie the game 8-8.

On the next play, still in the 1st quarter, the Cyclone JV fumbled the kickoff and the Rockets came up with the ball. Brad Long scored on a 5-yard quarterback sneak then made the extra points and Wellington was ahead 16-8.

James McIntosh added a touchdown early in the 2nd quarter on a 15-yard run around end, but the try for extra points failed and the Rockets led 22-8.

The Cyclone made its next touchdown just before halftime on a long pass, and the score was 22-16, Wellington leading.

Memphis scored three more times in the second half. The Rockets had the ball inside the Cyclone 30 twice more but fumbled the ball.

"Had we gotten it in, it would have been a different ball game.

"James McIntosh played what was probably his best game of the year," said Coach Tommy Johnson, "and Brad Long also had a good game.

"All the kids played pretty good defensively. Memphis had so much speed it's hard to contain them. They have two or three juniors playing on their JV team and they are exceptionally fast.

"We contained them the first half but the 2nd half they broke our defense, but our kids never did quit. They kept trying the whole way."

Clarendon comes to Powell Field Thursday, Nov. 1.

"Wellington JV won the first meeting 38-20, but they have a really good team. They throw the ball quite a bit and have some good running backs. They are bigger than we are and we have a real good ball game due," said Johnson.

Contest Puts Spotlight on Fashions Made of Wool

BY NANCY JANES

Wool will hold the fashion spotlight here November 17 when the District 1 "Make-It-Yourself-With-Wool" contest is held at the Texas A&M University Agricultural Research and Extension Center at 6500 Amarillo Blvd. West.

The contest, a preliminary event in the national competition, is to focus attention on the beauty and versatility of wool, said Mrs. Sue Farris, district director for the Texas Agricultural Extension Service and coordinator of the local event.

The contest is open to any American citizen in the Panhandle, South Plains and Rolling Plains areas, Mrs. Farris said. There will be five age divisions in the district competition: Pre-teen, age 13 and under; Junior, ages 14-16; Senior, ages 17-20; Adult, ages 21 and above, and Professionals, ages 21 and above.

Each contestant must have sewn, knitted or crotched a garment after Jan. 1, 1984. These garments must have been loom, knitted or felted fabric or yarn which is 100 percent wool or of a blend containing at least 60 percent wool.

The district event will begin at 7:30 a.m. with a continental breakfast for contestants. This will be sponsored by area fabric stores and coordinated by Linda Hawkins, owner of the Fabric Mart in Amarillo. Contestants will be judged while modeling the garment and accessories, and then will be judged while off the contestant for construction techniques.

The contestants then will model their creations during a public fashion show at 11:15 a.m. in the auditorium of the Texas A&M center.

The deadline for entries is Nov. 2, Mrs. Farris noted. Entry forms and additional information are available at county Extension offices, she said.

District winners will advance to the state contest Dec. 1 at Texas Women's University in Denton. Junior and Senior winners at the state level advance to the finals Jan. 27-30 at the MGM Hotel in Reno, Nevada.

Prizes at the district and state contests will include sewing machines, fabrics, mohair stoles, scholarships, miscellaneous sewing items and gift certificates.

Other district contests will be open Nov. 10 at San Angelo, and Nov. 17 at Denton, Junction, Nacogdoches, Houston, Seguin and Fort Stockton.

"Samnorwood Sage" Available at the Leader

Copies of Lois Simpson's "The Samnorwood Saga" are now available at The Wellington Leader.

In a history conscious county, there is much to be learned from this story of all the schools north of Salt Fork River (plus one) that were consolidated into the Samnorwood Rural High School, now Samnorwood Independent School District.

The one extra school is Ella, so located geographically that it was closer to two schools in Oklahoma and to one other in Texas than it was to Samnorwood. Its children went to Shamrock School. Its story is in Samnorwood Saga.

This book would be an ideal early purchase for Christmas, to give to anyone who ever lived north of Salt Fork River and who doesn't have one.

The price is $20 plus tax.

Political notebook items: Amendment No. 2 on Tuesday's general election ballot deserves a For vote from us. That amendment will provide a permanent fund to help Texas universities outside the A&M and UT systems. It also broadens the scope of the A&M and UT's Permanent Fund to include all the campuses of the systems. It's a good idea for higher education in Texas and we ought to support it.

I don't know whether Democrat Sam Houston Clinton (could there be a better name for a Texas political candidate?) or Republican Virgil Mulanax would be the best choice for the Place 1 Judge of the Texas Court of Criminal Appeals. But Mulanax was the only statewide candidate to campaign in Wellington this election season, if that sort of thing determines who you want to vote for.

The most perplexing race for me this season is the Phil Gramm/Lloyd Doggett contest for U.S. Senate. Gramm seems to be more philosphically in line with our conservative tastes here in West Texas, but I suspect that Doggett would be more likely to look out for our rural and farm economy interests. If 500 more of us in Collingsworth County alone had voted for Kent Hance in the Democratic runoff, we could be voting next week for a candidate who would have filled both bills. We didn't and now we can't.

A friend of mine in his late 70's, a man whose quiet nature exudes a peace with his Maker, a man who would seem to me to be a likely candidate for the "Moral Majority," said to me last week that Jerry Falwell should stick to preaching the gospel and leave politics alone. "He's a politician, not a preacher."

Here's more on Ross Perot. Truitt Holland clipped a copy of an "Ask Adam" column in the Amarillo Globe-Times which gives Perot's answers to several of the questions raised by a column we quoted a few weeks ago:

"I want to know if Ross Perot's millionaire daughter, who missed 17 days of school last year for showing horses, was in public high school or private school.

"I understand that Ross Perot is the one who pushed the bill in the Legislature — and it passed — that children cannot have more than five days unexcused absences in secondary schools or the children will fail. This went into effect this school year.

"Will Perot's daughter miss that many days this school year?— R.K.

"ADAM read your statement to Nancy Voith, corporate communications spokesman for Perot's EDP Corp. in Dallas. She in turn asked "Perot's right-hand man," who found two questions and three factual errors.

"Question One: does Perot's daughter attend public or private school? She attends a private school.

"Question Two: Will she miss more than five days with unexcused absences this school year? God alone knows.

"As for the rest:

'Perot's daughter missed one day of school last school year, not 17. Strike One.

"She does not show horses. Strike Two.

"More than five unexcused absences will cause a failing grade in a particular class for that semester — not for the whole school year.

"Strike Three: Batter is out."

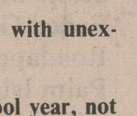

You'll feel safer after you read this:

If you're in the market for a cheap, brand new mattress I may have spotted a couple for you. The only problem with them is that they have exactly eighteen cigarette burns on each side. Herman Clyde Childress at Herman Childress Mattress Co. was lighting up on a mass scale Monday and placing each cigarette on one of each type of mattress that he manufactures. It's part of a consumer safety test required by the federal government. Eighteen non-filtered cigarettes (Pall Mall's in Herman Clyde's case) must be placed on each mattress and allowed to burn the length of the cigarette. To pass the test, the mattress cover must not char more than a 2-inch diameter around each cig. Then the test is repeated on the other side with a sheet on the mattress. "Consumer protection" usually conjures up images of Ralph Nader battling General Motors. It's always interesting to see the local fallout of our great national debates.

Former Bandsmen to Organize Sunday

Anyone who has ever played a band instrument and who is now out of school is invited to an organizational meeting of an "Exes Band" Sunday, Nov. 4 at 2 p.m. at the WHS Band Hall.

"You don't have to be a Wellington ex-student to participate," Jackie Wilkerson, one of the organizers, said. "We hope everyone who's ever been in band will come. They can bring their old horn, or we'll help them find one to play."

A practice session has also been set for Monday, Nov. 5 at 7 p.m. in the Band Hall.

"We may try to work some things up to play at the final football game, and we hope to play for some community activities, too," Wilkerson said.

Those wanting more information may call Jackie Wilkerson, 447-5760, Debra Belew, 447-24876 or Genarah Manuel, 447-5789.

"We must cut unnecessary spending. The size of the federal budget is still the issue for both Democrats and Republicans." Congressman **JACK HIGHTOWER**

Balancing the federal budget remains a top priority for Congressman Jack Hightower. He firmly believes the record federal deficit, which drives up interest rates and impedes full economic recovery, must be attacked on a bipartisan basis in the next Congress.

In 1983 Hightower helped reduce President Reagan's budget requests by more than $2.6 billion.

Hightower co-sponsored HJR 350, the constitutional amendment to require a balanced budget.

Hightower has opposed, however, radical proposals to balance the budget by drastic cuts in social security and national defense.

Hightower co-sponsored the Sunset Bill to require review of all federal agencies at least every ten years, with automatic dismantling if not reauthorized by Congress.

After voting to cut taxes and reduce spending, Congressman Hightower received the following commendation:

"Your vote for the Bipartisan Budget reflects a high degree of courage and commitment to America's economic well-being. This action will help achieve the spending reductions which are necessary to drive down inflation and restore the economy."

To The People Of Collingsworth County

Quail Population May be Down by 50% This Year

The Quail population in Collingsworth County may be down by as much as 50% this season, due to the extreme cold last winter and the heat and dry weather this summer, Game Warden Dennis Thomas reported while in Wellington.

"Dove hunting has been slow, but I'm seeing more dove now than I did earlier in the season," Thomas added.

"The deer and turkey population survived well. We seem to have plenty of them and they are in good condition, said the game warden. He attributes this to deer and turkey in this area being used to drier conditions and can survive it better."

The doven season will go through Friday, Nov. 9 This 70 day season comes under a new regulation of the Texas Parks and Wildlife Service.

The quail season will open Saturday, Nov. 3 and remain open until the last weekend in February, the 24th.

The bag limit is 12 per day and the possession limit is 36.

Thomas said the deer population in this county is up since he came to the area about 12 years ago.

There is a pheasant season for the county also, although there are not a huntable number of pheasants, according to Thomas.

The limit is three cocks per day, raised from two last year. This will be in December.

Cancer Society Moves Meeting to November 29

The November meeting of the Collingsworth County Cancer Society will be held on the last Thursday of the month, Nov. 29, as Thanksgiving falls on the regular date. In addition, there will not be a meeting in December.

These announcements were made by Edith Brown, president.

She stressed that anyone interested in the work of the cancer society is invited, but especially all those who have or have had cancer, or have a family member with cancer, are urged to become a part of the society.

She reminded that memorial gifts are accepted, as well as other donations, and may be made at Wellington State Bank.

Memphis Cyclones Hold Off Skyrockets

BY DICKIE JOHNSON

The Memphis Cyclones fought off a Wellington Skyrocket comeback on a rain-drenched Powell Field to take home a 15-12 victory Friday, October 26.

Memphis received the opening kickoff and returned the ball to the 27 yard line. The Cyclones picked up 3 first downs and advanced the ball into the Skyrocket's territory. On 4th down, quarterback Sam Carter dropped back to pass and was forced out of the pocket under a strong Skyrocket rush. Just before stepping out of bounds, Carter threw the bomb to Roy Henderson who was all alone in the end zone for the touchdown. Carter kept the ball around the right end for the 2 point conversion and the Cyclones led 8-0.

The Skyrockets began their first possession on the 30 yard line but the offense couldn't get untracked and punted.

After a punt exchange, the Skyrockets went to work again on their own 27 yard line. James Benton picked up a 1st down to the 40 and Johnny Nash got another 1st down on a gallup down to the Cyclone 35. The Skyrockets pounded the ball down to the Memphis 24 yard line but on a 4th down play the Cyclones held and took over on the 30 yard line.

With time running out in the opening period Cyclone Sam Carter broke around the right end and raced 67 yards for the touchdown. Carter also kicked the extra point and the Cyclones increased their lead to 15-0.

The Skyrockets returned the ensuing kickoff to the 37 yard line as the buzzer sounded to end the first quarter. James Benton carried the ball to midfield for a 1st down but the Cyclones again held the Skyrockets on 3 downs and Wellington was forced to punt.

Most of the second quarter was a defensive standoff with neither team being able to move the ball. After 3 more possession changes, Memphis was again in punt formation when Jamie McKay rushed in untouched and blocked the punt to give the Skyrockets the ball only 16 yards away from pay dirt.

Wellington pounded out a 1st down to the 6 yard line on a quarterback keeper by Michael Souder on 4th down and 1 foot to keep the drive alive. Facing another 4th down play at the goal line, Michael Mackey went in for the touchdown with 1:17 remaining in the first halt to put the Skyrockets on the board. The 2 point conversion was no good and the score stood at 15-6.

The Skyrockets came out strong on their first possession of the second half. Starting from their own 26 yard line, Johnny Nash broke through the middle down to the Memphis 44. After a pair of 1st downs to the 20 yard line, Michael Souder rolled to his left and hit James Benton racing down the sideline on a 20-yard pass for the touchdown. Again the extra point was no good and the score stood at 15-12 with 7:49 remaining in the third quarter.

Both defenses tightened up and neither team could gain any momentum. Memphis was held deep in their end of the field for most of the third quarter and played conservatively. The Cyclones didn't attempt any passes in the second half because of a strong Skyrocket secondary. After an exchange in possessions the Skyrockets were in punt formation and a bad snap resulted in Memphis taking over on the Skyrocket 26 yard line. The period ended with the score remaining 15-12.

The Skyrockets held Memphis on 4 downs and took over on the 22 yard line. Wellington fumbled the ball right back but again held the Cyclones on 4 downs.

Wellington got a little breathing room by picking up a 1st down out to the 25 yard line. The Cyclones picked up a pair of quarterback sacks and the Skyrockets again had to punt the ball away.

The Cyclones started to work on the clock and eeked out a 1st down to keep possession of the ball. On another 4th down play to keep possession, a strong Skyrocket blitz forced a fumble and Wellington had the ball at midfield with one more shot at the go ahead score.

Michael Souder connected to Johnny Nash on a pass play down to the 35 yard line to pick up a 1st down and stop the clock. But on the next play, Memphis's Dennis Jenkins picked off a Skyrocket pass to stop the drive.

The Cyclones then ran off the few remaining seconds to take home the 15-12 win.

Deeda Seal, center, was named 1984 WHS Football Queen at the homecoming game pep rally Friday. Lori Lacy, left, was first runner-up and Vanda Wood was second runner-up. Escorts, from left, are Michael Souder, Jamie McKay and James Benton.

Childress, Waco Savings and Loan Associations Announce Merger

CHILDRESS-Joint announcement is made by Russell V. Jones, President of First Federal Savings & Loan Assn. of Childress and J. Harry Jeanes, Chairman and Chief Executive Officer of First Federal Savings and Loan Assn. of Waco to Merge the two associations. Application has been filed with the Federal Home Loan Bank Board for their approval of this proposed merger with operations in Childress, Wellington and Memphis becoming the Childress Division of First Federal Savings and Loan Association of Waco.

Since both associations are mutual federal charters, there will be no sale or transfer of stock involved in the merger. First Federal of Waco, established in 1922 is the oldest and largest savings and loan association in Central Texas. Its assets exceed 356 million dollars. First Federal of Childress, established in 1934, has assets in excess of 40 million dollars. "Both our institutions have an operating philosophy of providing the best service possible to our local communities." Jones said. "The combining of the institutions assets will insure increased benefits to our customers."

Jones stated "We have been negotiating with Waco for over two years and are exicted about reaching an agreement to merge".

All of the present officers and staff will continue as well as the advisory directorship of C.C. Broughton, Jerry S. Dugan, John T. Forbis, John F. Inman, Russell V. Jones, H.A. Rogers and Truman O. Webb.

Russell V. Jones will continue as president and Pauline Johnsey and Bennie F. Foard will continue as vice presidents of the Childress division.

Approval of the merger by the Federal Home Loan Bank Board is expected by the end of the year.

Cost of the test is $15.

There's a lot you can do to make your home safer, and a less inviting target for burglars.

* * *

Put on good locks and use them. A deadbolt is far better than a simple key-in-the-knob type. Don't open the door to strangers. Don't leave a key under the mat.

* * *

Make it harder for a burglar to avoid detection: install good exterior lighting, and trim shrubs that might obscure a window. Cut back any branch that might lead to an upper-floor window.

* * *

Be a good neighbor--report broken street lights. Call the police if you see unfamiliar cars on the street or strangers hanging about.

* * *

Put a permanent identification mark or engraving on your valuables. This can be a valuable in recovering stolen articles.

* * *

Crime prevention protects the things you own; so does insurance. Let us help you with both at 1st Wellington Agency.

COLLINGSWORTH COUNTY AGENT REPORT

by Don Reeves

SOIL TESTING MORE IMPORTANT THAN EVER

Getting your soil tested has always been important, but now this proven practice is more important than ever, especially following this year's drought.

Since the drought reduced yields on fertilized crops, many fields may have carryover nitrogen.

To help producers monitor carryover nitrogen levels, the Extension Soil Testing Laboratory at College Station is now testing soil samples for nitrate nitrogen. The nitrate nitrogen analysis will determine the amount of available nitrogen present in the soil. These values help generate a fertilizer recommendation that will save producers money by allowing them to get more from their fertilizer dollars.

Gaining a profitable return from fertilizer depends on the supply of available nutrients already in the soil, such as the carryover from last year's drought. Soil testing can provide an estimate of this supply.

A soil test also will determine which nutrients are deficient in the soil for a particular crop so that the producer can fertilize to supplement the soil supply. It's only profitable to supply nutrients required for a particular crop.

Now is an excellent time to take soil samples. Soil test results can be obtained quickly at this time of the year due to a smaller soil sample volume than in the spring. And, once producers have test results, they can order fertilizer they need for the coming season. So, to plan the best fertilizer program, get your soil tested now.

The Russian composer, Sergi Prokofiev, composed an opera, "The Giant" when he was only 17 years old, using only the white keys.

Kiwanis Hear Program on Energy Awareness

The Wellington Kiwanis Club had a program October 19 which helped educate the membership and guests regarding resources and reserves of energy requirements. This prefaced the announcement that October 21-28 is American Energy Awareness Week with the theme "Partners for an Energy Efficient Tomorrow." John Coleman was program chairman.

Presenting and sponsoring the program was Lorene Jenkins, GFWC/1924 Study Club President, and Lennie Sims, club conservation chairman.

"Simply stated, whether it is water, gasoline, health or utilities that are the energy topics about which you know most or least, you owe it to yourself to be informed," began Mrs. Sims.

As Mrs. Sims related auto tips, "Gas-Saving Techniques That Work," Mrs. Jenkins "rode" in a roadster around in the audience.

Stating that growing demands on limited water supplies will result in the necessity of making choices, Mrs. Sims told that a 2000-acre farm can use as much water per day as a city of 50,000 does. If a particular water supply cannot support both, which has the priority, she questioned. She mentioned the revised Texas Water Plan with some of the planned actions and policy recommendations as of September 1984. Then the sources of water were identified to meet projected needs. In the High Plains of Texas, the Ogallala Aquifer is the primary water source, encompassing 35,000 square miles in 42 Texas counties and 176,940 square miles in eight Great Plains states.

In an announcement from Congressman Jack Hightower's office, it had been learned that H.R. 71 which deals with recharge of waters into the Ogallala Aquifer had passed both U.S. House and Senate, becoming Public Law 98-434 on September 28, 1984.

Local citizens had written letters in support of this bill. Reference to this had been included in GFWC/1924 Study Club's Westinghouse Energy Alert Legislation Report; the entry received multi-state and national recognition in June 1984.

Municipal water use and agricultural use were mostly mentioned with surface water, wastewater treatment, secondary recovery, desalinization, water importation, weather modification as possibilities to increase water available; i.e., studies indicate that there are 1.46 billion acre feet of capillary water in storage in the Ogallala Formation in Texas so releasing one-fourth of this would almost double the recoverable water reserves.

Since "rainfall enhancement" is sometimes sparse in this area called the "Greenbelt" by Indians of the southeast Panhandle, these views of latest topics seemed to be of interest to the audience. The speaker was especially articulate on the subject as she had been the only woman member of Lt. Governor's Council on Water, serving with then State Senators Man Sherman and Jack Hightower tower, as co-chairmen, and Kent Hance who, with Jack Hightower are currently U.S. Congressmen.

Research on wind energy has West Texas State Universty as a major contributor. News releases with photos from major Texas newspapers told this story as part of the visual aids.

Other visuals used "High Powered Energy" with cartoon-caricature images such as a light-bulb saying "Hang in There on Energy" or assisting the Statue of Liberty with "You Light Up My Life." Some of these may be viewed in the display in business windows, Coleman office, east side square.

Mrs. Jenkins conducted the "Watt's Up?" segment with an Energy Quiz distributed as Kiwanians arrived. Included were fun items as well as serious ones. An energy scramble and knock-knock questions went along with the quiz.

Since energy also deals with health, Mrs. Jenkins told some of the latest health tips in this category which dealt with the audience. She mentioned "Myths and Misperceptions: Exploring the New World of Energy" telling how energy myths originally served a purpose yet were harmless. Later, others led to false conclusions and harmful policies. She gave brief examples of myths and then the factual explanations.

In summary, the program-duo panel encouraged people to "take another step and be aware of legislation dealing with these energy aspects of your life."

Because the air at the end of the day is generally dustier than it is at the beginning of the day, the setting sun usually appears redder than the rising sun.

Court Studies Transportation Assistance Act

Collingsworth County Commissioners covered a wide range of business in their meeting Monday, Oct. 8.

Charlene Poteet, secretary to County Judge Zook Thomas, was authorized to attend a meeting in Lubbock to qualify for "Administrator, Drinkers Program Evaluation." James R. Bowen, Veterans' Service Officer was authorized to attend the regular VSO conference to be held in San Antonio Oct. 23 to 26.

The Commissioners discussed the Transportation Assistance Act, a program for 80% federal and 20% local funding proposed for Panhandle Transit, a transit service being organized by the Texas Panhandle Community Action Corporation to serve rural Panhandle area.

It is called "especially suitable for senior citizens and handicapped persons," but is open to the general public.

Regular trips will be scheduled. It will be available to assist persons in trips for medical shopping or essential business pruposes.

Recent legislation was discussed which allows Texas Department of Public Safety troopers to collect fees of $3 when the DPS officer is the arresting officer in certain traffic violations, if a ticket is given and the case is a misdemeanor.

County Judge Zook Thomas presided at the session.

Rhonda McClendon on Abilene Hospital Staff

Rhonda McClendon, LVN, of Abilene, formerly of Wellington, has begun work at the new Humana Hospital in Abilene. She is assigned to the medical floor.

Miss McClendon is the daughter of Mr. and Mrs. Leon McClendon.

The 5-story hospital facility has been open two and one-half months and has a 160 bed capacity, her mother said.

Prayer Vigil Set for Election Eve

A prayer vigil will be held at the Abundant Life Fellowship on Monday, Nov. 5, the evening before the general election, and will be open to all men and women who would like to come and pray for the nation.

It will begin at 7 p.m. and continue for as long as there are those who want to pray.

"We are having this vigil," said the Rev. Dan Denissen, pastor, "because the Bible tells us to pray for all who are in authority, that we may lead a quiet and peacable life in godliness and reverence."

There will be individual prayers, prayers as a group, and a short message by the pastor. "But the focus will be on prayer," said Rev. Denissen.

"We are not endorsing any candidate, but we want the freedom to lead a quiet and peacable life."

"This vigil is open to all who would like to come and pray," reminded the pastor.

Music Teachers Hear Karnes at Arlington

Ben Karnes will be guest speaker and performer Thursday, November 1st for the Arlington Music Teachers Association, where he will present his method of teaching pop music and jazz. A similar program was given by Karnes in the spring to the Hurst Sonata Club.

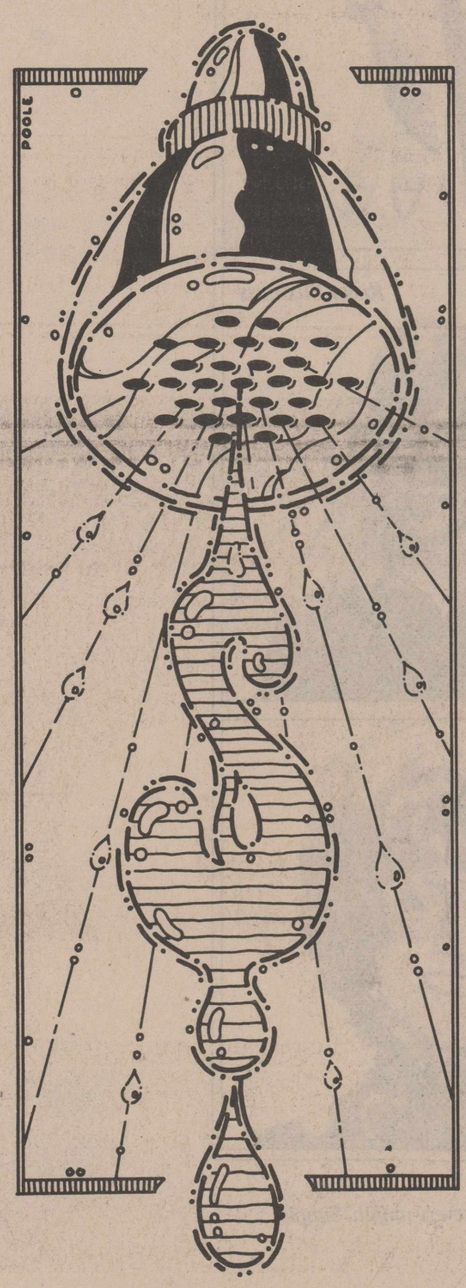

For the past 12 years Karnes has lived in Dallas, where he has taught, served as a church musician and entertained in some of the area's most exclusive restaurants, clubs, and hotels.

He was one of 18 musicians chosen in 1981 to perform on 18 grand pianos in the Monster Piano Concert of Classics in McFarlin Auditorium at Southern Methodist University, under the direction of famed conductor-pianist Eugene Liszt.

Karnes recently opened a music studio in Wellington. He also teaches in Shamrock.

The RESPECTED WORD

The bible is a book translated into every known language. It is the word that men have died for, in order that it may be available to all men. It is the textbook for God's people.

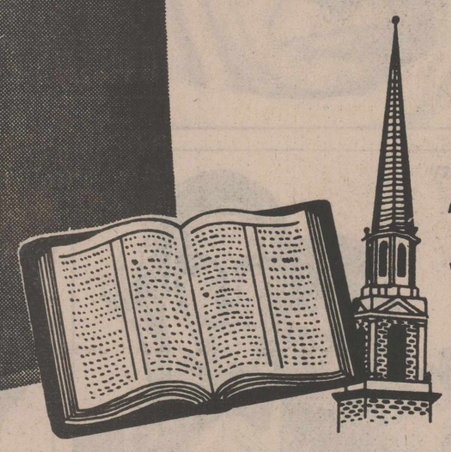

The bible, itself, is not worshipped, but is respected, for it is the story of God and his relationship to man. It is man's guide for worship and daily living.

Attend church regularly, study, and seek God's will in your life.

"I wait for the Lord, my soul doth wait, and in his word do I hope."

● ● ●

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Jack Hightower Stands on Strong Record as District 13 Congressman

Congressman Jack Hightower is waging an aggressive campaign throughout the 13th District to win re-election to the U.S. House of Representatives, where he has served the Panhandle and Northwest Texas since 1975.

Hightower, a conservative Democrat, is running on a solid record of experience in five Congresses. He is a member of the House Appropriations Committee and the Defense and Agriculture subcommittees, and his conscientious service has resulted in millions of dollars in savings for taxpayers.

"I want to make government work for people, not against them," Hightower said. "In this Congress, we've had the nay-sayers whose only contribution has been to vote 'no' on everything and be for nothing, and we've had those on the other side who want government to do more and more for everyone at whatever cost. Neither of these extremes provide the solutions to our national problems. I have worked with other consturctive members to try to create sensible agreements in Congress on legislation the President will sign, and which will be good for the country."

Hightower has served with three Presidents—two Republicans and one Democrat. He has won repeated praise for his bipartisan approach to national defense and budgetary issues and for his support of reductions in taxes and spending.

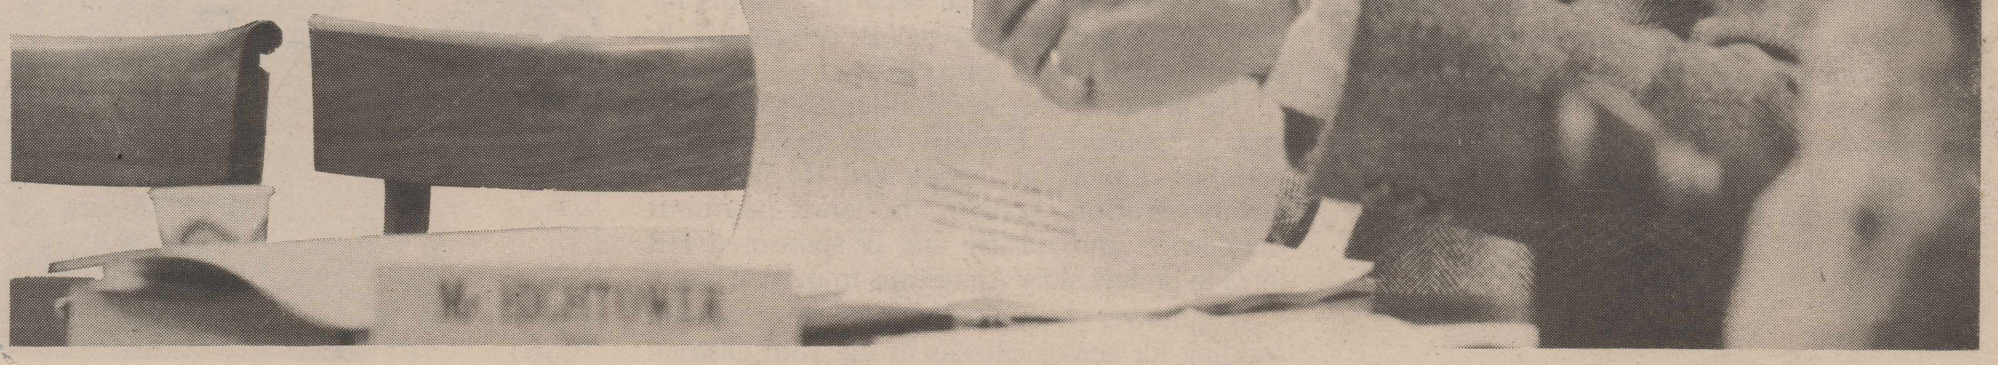

A Congressional Quarterly analysis of his voting record since his first election rated him a consistently high 75 to 89 percent fiscal conservative. He was a founding member of the Conservative Democratic Forum.

Keep

JACK HIGHTOWER

our Congressman!

Balanced Budget is Top Priority

Balancing the budget remains a top priority for Congressman Jack Hightower. He has stated, "We must cut unnecessary spending. The size of the federal budget is still the issue for both Democrats and Republicans." Hightower firmly believes the record federal deficit, which drives up interest rates and impedes full economic recovery, must be attacked on a bipartisian basis in the next Congress.

- In 1983 Hightower helped reduce President Reagan's budget requests by more than $2.6 billion.
- Hightower co-sponsored HJR 350, the constitutional amendment to require a balanced budget.
- Hightower has opposed, however, radical proposals to balance the budget by drastic cuts in Social Security and national defense.
- Hightower co-sponsored the Sunset Bill to require review of all federal agencies at least every ten years, with automatic dismantling if not reauthorized by Congress.

After voting to cut taxes and reduce spending, Congressman Hightower received the following commendation from President Ronald Reagan, "Your vote for the Bipartisan Budget reflects a high degree of courage and commitment to America's economic well-being. This action will help achieve the spending reductions which are necessary to drive down inflation and restore the economy."

Hightower Opposes Congressional Pay Raises

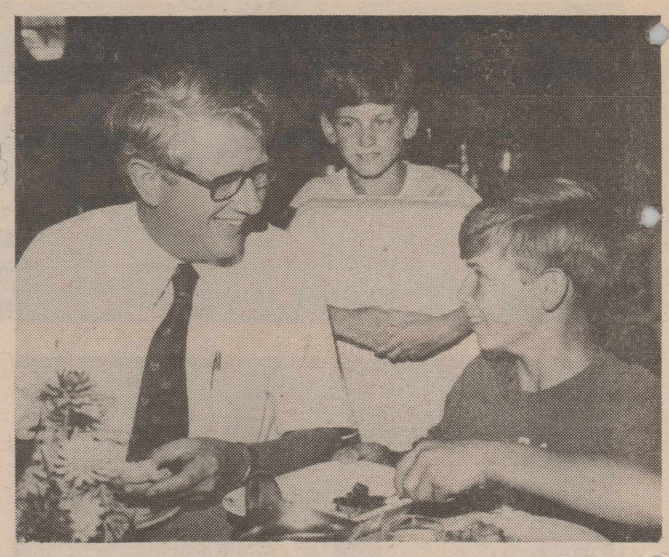

Congressman Jack Hightower pledges to continue his opposition to Congressional pay raises, believing that members of the House and Senate should set an example of restraint.

"The federal government has a deficit of $195 billion and no concrete plans for achieving a balanced budget in the foreseeable future," Hightower pointed out. "With that kind of deficit, and with eight million Americans unemployed, I oppose any effort to provide pay raises for members of Congress whether they are in President Reagan's budget or not."

A three and a half percent Congressional pay raise was included in the President's budget for this year as part of a cost-of-living raise for all federal employees.

In 1977 Hightower voted for legislation to require both the House and Senate to vote on any proposals raising their own pay. Over the next six years he voted against other pay raise or benefit increase proposals, and also helped kill a proposal to raise the House Outside Earnings Limit from $9,100 to $25,000.

Hightower also has opposed passage of a bill to raise the business tax deduction for members of Congress, refused to take the additional allowed deduction on his own income tax, and co-sponsored the successful repeal of the bill.

Hightower Speaks Out for School Prayer Amendment

On the school prayer issue, Jack Hightower advocates, "a good, solid, well-written constitutional amendment to restore public school prayer," and he signed a discharge to force the prayer amendment out of committee.

He has stated, "I don't want anyone to force students to say a particular prayer, but I think the people of this district and the nation want it clearly reaffirmed that voluntary prayer in school is constitutional."

Hightower, Friend of Producers and Royalty Owners

Fighting for energy independence and against discriminatory taxation on producers and royalty owners, Hightower opposed the windfall profits tax in 1979 and is working for its repeal. He helped win major exemptions for independents in the 1981 tax cut bill.

Hightower was the first Texas Congressman to oppose the northeastern proposal for a 30% tax on each barrel of domestic oil.

He has earned a 100% positive vote rating from the IPAA throughout his time in Congress.

Hightower Fights Government Waste in the Military

Jack Hightower has "declared war" on government waste in the military from his seat on the U.S. House Appropriations Committee's sub-committee on the Department of Defense.

During a Washington hearing last year The San Antonio Light (June 23, 1983) quoted the Texan as demanding to know "who's minding the store?" when evidence of sloppy bookkeeping at Fort Sam Houston, Texas came to light.

Hightower sharply told a deputy secretary of defense, a Rear Admiral, and three high level Pentagon officials "the person who let the situation in San Antonio develop the way it did ought to pay themselves. If that person wears a star, he ought to lose it. And if there is evidence of criminal culpability it ought to go before a Grand Jury," Hightower said in a heated exchange.

"What I want to know is who's running the store? Somebody somewhere is stealing us all blind," he added.

Hightower consistently has fought waste and mishandling of the taxpayers' dollars since he was first elected to Congress.

"You may be sure that I will continue to do that always," the Congressman said.

Jack Hightower Tirelessly Fights for Farmers

Jack Hightower is a founder of the House Farm Crisis Group and drafted the Farm Crisis Act to help raise commodity prices. He has fought unfair provisions in the Administration's farm program and investigated charges of incorrect cotton classing by USDA officials.

Additionally, he has worked for expanded markets for agricultural exports.

As a member of the House Appropriations Committee, he is in a position to do as much as possible to help the farmers achieve a fair return for their investments. He led the successful effort for emergency aid after record crop damage due to hailstorms and rain and intervened with the Farmer's Home Administration to help 900 farmers avoid foreclosure.

Protecting Social Security is Top Priority for Hightower

Maintaining Social Security benefits remains a primary concern for Congressman Hightower. He has consistently opposed administration's proposals to cut benefits to current social security recipients.

Because he is aware that many people in District 13 rely on Social Security benefits for their livelihood, Hightower is committed to keeping this issue a top priority.

He voted to keep a minimum benefit floor and co-sponsored HR 801 to remove outside earnings limits for recipients. He supports administration reform to end payment duplication and misuse and co-sponsored HR 3973 to protect older Americans from mail fraud.

Hightower has also worked to maintain funding for senior citizens in the 13th District.

Hightower Opposes Presidential Line-Item Veto

Congressman Jack Hightower opposes legislation to grant the President authority for line-item veto, believing it to be a serious violation of the principle of separation of powers.

"I can understand the desire of any President to have this power, because it would give him considerably more influence in the budget process," Hightower said. "However, those of us who may applaud the present administration's efforts to reduce domestic spending might find the line-item veto backfiring on us in future years."

Hightower pointed out that once this power is transferred to the executive branch there would be no restriction on what a future President might want to do with it.

"We could have a President who might want to slash a Congressional defense budget, or one who might want to do away with large segments of the farm program," he said.

Hightower added that he recognizes shortcomings in the present budget system, "but I would rather put up with these problems than run the risk of too much executive power, regardless of whether the President is a Democrat or a Republican."

Hightower Commended by the Coalition for Peace Through Strength

Congressman Jack Hightower has won national plaudits from the VFW and the Coalition for Peace Through Strength for his consistent support of a bipartisan program for a stronger national defense.

He was named by President Reagan as an official observer in the Guatemalan elections and supports the defense of Central America.

In addition to his work to increase the defense role of Sheppard Air Force Base in Wichita Falls, which has become the number one training base for NATO, Hightower is also a member of the Appropriations Subcommittee of the Department of Defense. He continually works toward a stronger defense while at the same time seeking, and finding, ways to slash wasteful spending in our military complex.

- ACREAGE SET-ASIDE ANNOUNCEMENTS (H.R. 3914) — Directed the Agriculture Department to make earlier announcements of federal acreage limitation and set-aside programs so as to better assist farmers in making important planting decisions. Many producers complained to me of late USDA announcements which forced them to make decisions late and without timely information.

- SOCIAL SECURITY DISABILITY BENEFITS REFORM (H.R. 3755) — Established a specific statutory standard which must be met before a Social Security Disability Insurance beneficiary can be removed from the rolls. I have assisted several constituents whose benefits were wrongly cancelled who were indeed disabled; this legislation, once passed and signed by the President, should allievate this national problem.
- CLEAN WATER ACT (H.R. 3282) — Reauthorized the Clean Water Act through FY88. Authorized new efforts to clean up waters with severe toxic pollution and extended deadlines for industries to comply with certain clean water standards.
- CRIME LEGISLATION — Legislation was passed to provide for criminal penalties for consumer product tampering such as occured in the Tylenol poisoning cases; also, legislation was approved to provide block grant assistance to state and local law enforcement agencies, to make the theft of prescription drugs a federal offense, and to prevent crimes by participants in the federal witness protection program.
- IMMIGRATION REFORM AND CONTROL ACT (H.R. 1510) — Would grant legal status to aliens who entered the U.S. illegally before 1982, established heavy fines for employers established heavy fines for employers who hire illegal aliens, and set up a program to legally admit aliens for temporary farm labor. This legislation has passed both houses but has not been approved by conference committee. I voted against the bill when it came up in the House and have spoken out against the amnesty provisions of the bill in particular.
- FLOOD CONTROL PROJECT FUNDING (H.R. 3678) — This bill contains vital funding for the Lake Wichita/Holliday Creek and Red River Chloride Control projects important to our district, another in a series of key steps moving us closer to actual construction. The Senate must now pass it.
- MILITARY CONSTRUCTION APPROPRIATIONS (H.R. 5898) — Appropriated funds for FY85 for military construction and military family housing. - PROHIBIT CREDIT CARD SURCHARGES (H.R. 5026) — Prohibits merchants from imposing surcharges on goods and services purchased with a credit card until May 31, 1985, and required a study of the issue first.
- ESTABLISH SELECT COMMITTEE ON HUNGER (H. Res. 15) — Established a select House committee to coordinate the previously-fragmented approach to this problem, to review Executive Branch recommendations relating to hunger, and to suggest effective legislative action. I was honored to be asked to serve on this panel, one of only two Texans on this 17-member committee.

"The Capitol is the cornerstone of our government. It has been my pleasure to serve with three presidents there during the time I have been your Congressman. Two were Republicans, one a Democrat. I have helped each of them when I could, consistent with my own responsibility to represent the people of this district, not hesitating to be a part of the loyal opposition when I thought they were wrong. Regardless of who is president in the future, I will continue to serve with, and help him, whatever his name or his party, in order that America may remain strong and free."
