# Fair Is Show Window for Best Crops and Livestock

## Community And County Displays More Extensive

Sixteen county and sixteen community exhibits are entered for annual fair exposition.

An increase of about fifty per cent in the number of exhibitors in both the county and community exhibits will be on display at the Panhandle-South Plains fair which opens tomorrow picture a "bigger and better" agricultural department.

Every available bit of space in the agricultural building will be utilized in an effort to crowd all of the numerous exhibits into the agricultural show room.

Sixteen county and sixteen community exhibits have been received. Arrangements for most of them began yesterday with the completion of the work scheduled for today.

**\$1,275 Premiums Offered**

Premiums totaling \$1,275 are to be given for the best county displays. The prizes range from \$200 for first place to \$25 for twentieth. Community exhibits range from \$50 for first place to \$15 for seventh. In addition to the first prize \$10 worth of livres will be donated to the winning exhibitor by the experimental station here.

D. F. Eaton, superintendent of the agricultural department of the fair, said yesterday that the department under his direction this year would be far surpassing that of any previous year of the fair. Mr. Eaton said that the agricultural building would be packed to capacity by the exhibits.

**4-H Exhibits Feature**

In addition to the county and community exhibits, the general exhibits, composed of anything grown in this section and entered by individuals, and the exhibits of the 4-H club of this section will be shown. This vast array of agricultural display will depict the development of the South Plains from the standpoint of agriculture and present to the thousands of fair visitors the present agricultural status of the section.

**Platform Enlarged**

Ten county and twelve community exhibits were entered in the fair last year as compared to sixteen each of this year. The display platform of the fair this year will be extended sixteen feet to meet the need of space for the exhibits on this year.

According to Mr. Eaton the exhibits of the 4-H club will be exhibited this year and will be improved from every standpoint.

A long list of exhibitors are listed in the individual and general exhibits, and are said to be drawing more interest this year than ever before.

Counties included in the list of exhibitors are: Lamb, Cochran, Crosby, Hockley, Lynn, Swisher, Terry, Bailey, Gaines, Dawson, Hale, Roosevelt, Potter, Scurry and Garza.

**MEET FOR 6TH TIME**

TEXAS AGGIES HAVE EDGE ON SEAWANE TIGERS IN WIN

(Special to The Avalanche-Journal)

**COLLEGE STATION, Sept. 29.**—When the Texas Aggie gridiron warriors meet the Seawane Tigers in Dallas October 6 at the opening of the opening day of the State Fair it will be the sixth time that the gridsters of the two colleges have met in the Fair Park Stadium. In four of the five games that have been played the Aggies have been victorious. The other game resulted in a 6 to 6 tie. Eleven of the Aggie gridsters have faced the Tigers in previous games. Bartlett, Petty, Burgess, Conover, Varnell, Davis, Reel, Alaback, Riter and Mills were all members of the team which downed the Seawane eleven 18 to 0, last year, and Colcia was a member of the team which defeated the Tigers 6 to 0 in 1928. Bartlett, Burgess, Petty and Davis have twice faced Seawane the boys from the mountains, as the four of them were also members of the 1926 eleven.

**OPENS BUSINESS HERE**

Lubbock Paper Company Inc. Established Here

Lubbock's newest wholesale concern is that of the Lubbock Paper Company, Inc., which was incorporated on Broadway and just opened for business.

Mr. McWhorter, the manager, announces the concern is a subsidiary of the Fort Worth Paper Company and that because of the growing importance of this territory and of Lubbock as a distributing center, decided to establish a home in this city.

**PLAINTIFF GETS VERDICT**

The jury in the case of G. A. Ochs versus Mrs. J. J. Baker, et al., such on note, held in the Ninety-Ninth district court, after being out for about an hour and a half, Sunday morning returned an instructed verdict for the plaintiff for the amount of the note, plus interest and attorney's fees.

Cases for next week will be set at 10 a. m. Monday by Judge McMillan and 34 petit juries have been summoned to appear at 1:30 p. m. Monday for the first week of the September term of the district court.

Since the Canada Colonization Association has been organized by January 1, 1929, it has placed 223 families on 64,000 acres.

## Fireworks Have Aerial Theme

Since the historical flight of Col. Lindbergh and the subsequent feat of ocean-crossing, new aerial time records, new dawn-to-dusk records, almost anything stamped "aerial" hits the public fancy. However, a series of aerial devices have long been known in the entertainment world and will become even better known here during the fair, each night.

Not only will there be cloud-searing shells of beautiful color, bombs that break noisily, mines that discharge showers of fire and rockets that twitch to great heights, but the displays will include devices known as pyrotechny as "tourbillons."

These operate much in the same manner as an airplane and its propeller, a steady charge of fire turns a small propeller which whirls rapidly, causing the device to rise in the air while a huge circle of golden fire envelopes the piece.

## Politics Afford Fireworks Theme

"You can lead a horse to water but you cannot make him drink"—but how about an elephant or a donkey?

In case you are not good at puzzles, the reference is to the republican and democratic mascots, and whether or not they will continue to shy at the "wet and dry" issue.

This political cartoon which will be the subject for a comical mechanical concert which will be fired during the fireworks displays at the fair next week, and a feature that promises to be as topical as it is laughable.

In the center of the firing range will be a fireworks replica of a drinking tank marked "prohibition." Presently the stolid old G. O. P. elephant comes shambling towards the vat, his legs affecting that peculiar movement of the huge down and his magnificent tail wagging. Then he sights the "prohibition" sign and begins backing off; then from the other side approaches the Democratic Donkey, and he too spots the "wet" label. First one starts for the tank, then the other marches boldly up but backs around and steers clear. The antics of the two mascots as they try to bluff each other is a riotous piece of comedy.

Other political numbers will be fired during the displays, which will introduce scores of new and novel pyrotechnic effects. Liquid goldballs, multi-colored clouds of gases released from fifty rockets, glowing wheels and many comedy whirling wheels and busy comedy ground and set piece effects will keep the entire length of the field and the skies above it a riot of flaming colored fire.

## Exhibitors Say Interest Is High

A. P. Collett, who has brought his fine exhibit of blooded dairy cattle to the Panhandle-South Plains Fair and Exposition, stated Saturday night that the people of the South Plains have evidenced more interest in fine livestock of all varieties than have the people of any other single section of the entire United States. And Mr. Collett has shown the stock at most of the principal fairs of the nation during the past quarter of a century.

"Not only that," he stated, "but the people of Lubbock and this section have a spirit of helpfulness, a good cheer, of hearty welcome, that is unsurpassed anywhere on the face of the globe."

Both Mr. Collett, who hails from San Angelo, and Mr. Largent, of Abilene, declared that more people saw their exhibits of fine stock at the fair here last year in one day, and more inquiries were made, than they experienced at either of the two other big regional fairs of West Texas during all of the two weeks of those fairs.

It requires 100,000,000 miles of wire to run the world's telephones. Of this wire mileage some 68,000,000 are found in North America. Germany with 10,000,000 has the second greatest mileage and Great Britain comes third with 7,000,000. Canada with 2,500,000 is fourth.

## New Building For Livestock Filled To Its Capacity

Some of the finest herds in entire state will be arrayed, along together with individual specimens.

With exhibits in virtually every class overflowing, the livestock department of the Panhandle-South Plains fair which opens here tomorrow will present the greatest array of livestock ever shown in this section.

The several thousands dollars in premiums in the various departments have drafted cattle of national reputation, and prize winning hogs, horses, cows and mules from all parts of the Southwest for the exposition here.

In addition to the large herds to be shown here this year many individuals over the section have entered small exhibits.

## Program of Entertainment That Excels Any Ever Offered For West Texas Fair Arranged Here

**Program of Entertainment That Excels Any Ever Offered For West Texas Fair Arranged Here**

With the completion of the new fabricated steel livestock building, one of the outstanding needs of the fair was met. Although only cattle will be housed in the building it is expected to be filled to capacity.

About half of the counties of the entire South Plains will enter 4-H club pig and calves exhibits according to Dr. Barr. He said that this department showed one of the greatest increases of any part of the fair. In previous years not more than one 4-H club livestock exhibit was shown.

**Festive Plans Filled**

Ray C. Mowbray, head of the poultry department, reports that this department will be filled to capacity.

Six or eight herds will be on display in the Hereford division, and four Jersey herd exhibits will be shown in addition to a number of individual exhibitors. Two herds have been listed in the Holstein department.

The space set aside for the hog exhibit, which was practically doubled this year, is expected to be filled. The exhibit has about 100 hogs and there isn't a thing on it or under it to keep the performers from being killed should they make a slip and fall. The amazing part of the exhibition is that two of the dare-devils are girls and unusually pretty. Like the men in the act, they succeed in holding the crowds spell-bound with their reckless daring. The fact that they are thorough athletes and know every inch of their rigging and every move they are engaged. Their rigging shoots their work and, perhaps, has saved them a number of times from falling to the ground. Paul Lorenzo, the featured performer, reaches the apex of daring when he stands on his head, hands free, on the top of the lowering apparatus. Another dare-deviler is where all four hang from the top bars supported only by the knees of one man.

## INTEREST IN FAIR Lack of Exhibit Does Not Dampened Ardor

Albert A. Pierce, superintendent of the County Line School, while in Lubbock Saturday expressed regret that the County Line community would not have an exhibit at the Panhandle-South Plains Fair and Exposition here next week. Reason for the community's failure to be presented at the fair this year, he said, was because of damage to early crops by hail and the fact that the crops have not yet obtained sufficient showiness for arrangement of an exhibit that will do justice to the section.

C. E. Merrell, of the Hardy Community, also a Lubbock visitor yesterday, stated his community would have no exhibit at the fair for a similar reason. Merrell said he is just the "flunky" of the community, and that lots of folks from thereabouts will be in Lubbock during fair week and that interest in the event is just as keen as when, during the past several years, the community has been represented with a booth.

Letter mails dispatched by the British air mail services in 1927 totalled 27,000 pounds compared with 17,000 pounds in 1926; and air parcels 74,000 pounds compared with 28,000 pounds in 1926.

## Cooking Still Woman's Pride Exhibits at Fair Will Prove That Modern Woman Has Lost None of Culinary Skill

It will take only one glimpse at the tempting show of cakes, pies, doughnuts, and loaves of bread exhibited at the Panhandle-South Plains fair and exposition, next week to prove that woman has lost none of her skill as a cook, despite the claims being made for the grandmothers.

Fair visitors will find that styles in women's cooking change, just as do styles in women's dresses. A comparison of the displays of baking at the fair with those of a decade or more ago at fairs everywhere would establish this point in a moment.

Bread styles change. Years ago loaves of bread baked for exhibit were cleaner uniform but were of every size and shape. There were round loaves, short loaves, square loaves, flat loaves, and all kinds of loaves baked in a hundred different ways. Today the modern loaf of bread is of a standard size, and weighs about a pound. There will be few odd-shaped loaves of bread at the fair.

The interest in club-work during recent years, and the emphasis placed on it, has brought on a generation of girls and young women with club work training who are much interested in fair work, as the many exhibits by them will show. Many prizes are expected to be won by them.

There are liberal prizes for all kinds of women's work, including canning and sewing.

## Best Exhibition In History Claim Of Fair Workers

**Best Exhibition In History Claim Of Fair Workers**

Liberal Premiums For Educational Displays Arouse Unprecedented Interests In Show.

The best-planned exhibition in history will be thrown open to the public by the Panhandle-South Plains Fair and Exposition on Monday, according to those in charge. The closing day will be on Saturday.

The liberal offer of premiums for educational displays has aroused wide interest in the exhibits, says Dr. I. E. Barr, president. "Visitors will find each department a complete little fair in itself."

A big exhibit of livestock is assured. Breeders of pure-bred animals are turning out in force to make the livestock show an unusually successful one. Show officials are co-operating with the livestock men in putting on an educational campaign to stimulate more interest in the raising of farm stock of high type, and heavy sales of breeding stock are expected to result from it.

Women and children will find much to interest them in the women's and children's departments. Boys and girls enrolled in club work have entered exhibits good enough to win prizes in many of the open classes, in competition with seasoned exhibitors. Many mothers will have to excel to beat their daughters when judges place the awards.

The entertainment program, which is being worked out in detail for each day, will present the best amateur and professional talent it has been possible to engage. Buildings and grounds are being hurried into shape for the opening day. Everything will be in spick-span condition.

## POSEY COMPETES Posey Opposes Other Clubs For Prizes

**POSEY COMPETES**

Posey Opposes Other Clubs For Prizes

(Special to The Avalanche-Journal)

**CROSBYTON, Sept. 29.**—The Democratic club of Crosbyton announces that it has secured the use of the Queen Theater for holding a big rally here next Tuesday afternoon, when Congressman Sam Rayburn, of Bonham, will speak to local voters, beginning at 2:30 o'clock.

W. M. Romaine, chairman of the Democratic club, states there is much interest manifested here toward Congressman Rayburn's visit to this city. Following the speech here, a committee of Crosbyton citizens will escort Rayburn to Post by automobile, where he will be met by a committee from Snyder, who will escort him to that city for a speech before a big rally scheduled there Tuesday night.

## Fair Board Gives Thanks to School

Appreciation for order of the school board decreeing half holidays during the fair, beginning with Tuesday, was voiced by members of the Fair Association directorate yesterday.

"We want Superintendent Duncan and the other members of the school board to know that we appreciate very deeply their action in decreeing the half holidays and also attitude in looking upon the fair as an educational institution—which it is, in the final analysis, what the fair was created to be," a statement from the Fair Association declared.

## Self-Appointed Advisor Speaks

**Self-Appointed Advisor Speaks**

District Attorney Bradley Gets Anonymous Letter Concerning Fair Attractions; Signed "Voters"

Somebody who seems terribly excited over something that might accidentally happen at the Panhandle-South Plains Fair and Exposition here all next week, took careful pains to write a letter to District Attorney Durwood Bradley yesterday about alleged fraudulent "Bucket Joints."

The letter, written in pencil, was painfully printed in capital letters and signed "Lubbock Voters."

In it the statement was made that if the district attorney did not do such and such, he would lose some votes, and a warning was included in the statement that he would be watched.

Mr. Bradley stated that it appeared to him that if anybody really knew of anything unfair to be at the fair, they should have mentioned enough to come out in the open, sign their name to the letter, or better yet, place before him any evidence they might possess. The letter followed:

"Lubbock, Texas, Sept. 28. Dear Sir: We, the voters of your fair city, wonder if you are going to allow them robbing bucket joints to run at the fair this year. Also then bucket joints roll down stores where you have as much chance to win as a snowball in hell. Now, you know as well as we do there is no chance to win unless they let you. There is a gag on the bucket joint where you pick balls into a bucket. The gag is concealed by canvas coverings. When the man looks to pick up the balls he pulls up on a board that fires it as the ball jumps out of the bucket. If he wants you to win he pushes down, that makes

## Crosby Prepares For Rayburn Talk

(Special to The Avalanche-Journal)

**CROSBYTON, Sept. 29.**—The Democratic club of Crosbyton announces that it has secured the use of the Queen Theater for holding a big rally here next Tuesday afternoon, when Congressman Sam Rayburn, of Bonham, will speak to local voters, beginning at 2:30 o'clock.

W. M. Romaine, chairman of the Democratic club, states there is much interest manifested here toward Congressman Rayburn's visit to this city. Following the speech here, a committee of Crosbyton citizens will escort Rayburn to Post by automobile, where he will be met by a committee from Snyder, who will escort him to that city for a speech before a big rally scheduled there Tuesday night.

## Children To Find Much of Interest In Fair Exhibit

Entertainment Features Arranged for Exposition Likewise Will Delight the Younger Folk.

The South Plains Fair, which starts tomorrow night will be termed a "Children's Fair."

Pupils in Lubbock school will be dismissed at noon each day during the fair, starting on Tuesday.

On Wednesday, officially known as "Children's Day," in the Panhandle-South Plains Fair and Exposition, children from throughout the surrounding territory and from towns in a wide radius will converge at the fair for the program dedicated especially to the younger set.

On this day exposition officials will allow free admission to children.

The free entertainment features arranged for the children, in the women's departments and in the exhibits of acrobats and circus, are unique in operation will doubt be interesting to the kids.

The displays of antiques and curios in the surrounding departments and the exhibits of acrobats and circus, are unique in operation will doubt be interesting to the kids.

### Lubbock County, Long a Stronghold Of Democracy, to Be Veritable Battle Ground of Politics During Campaign

#### "Regulars" and Anti-Smith Group Plan For Rallies During Coming Weeks; Have Joint Meet.

Lubbock county and the surrounding territory, for years one of the staunchest strongholds in the South, has become a veritable battle ground of politics as two opposing forces—the democrats and the anti-Smith group—fight for the supremacy of the section's votes.

Initial opposition to the democratic ticket, locally which at first was considered only a slight agitation, is now taken with more concern by the leaders of the party here. For the first time in many years the democrats are having to wage a campaign for the votes which in former elections were assured.

Both the groups have organized under the banners of the South Plains Democratic club and the Anti-Smith Association including all of this senatorial district, 24 counties.

The "Regulars" have been directing activities of the organization from headquarters located in rooms 408 and 409 of the Ellis building.

Speakers To Be Heard. Speakers have been placed on the stump here in favor of and against candidacy of Governor Alfred B. Smith, democratic presidential nominee, others will be brought here before the general election, November 6.

A joint open air auditorium, located on Texas Avenue between 13th and 14th streets, has been secured by the opposing organizations as a site assembly place for the political rallies. Work was begun yesterday in putting the auditorium in condition for the speaking this week.

Williams, Sweet Coming. The first speaking to be held in this place will be Monday night when Congressman Quinn Williams of Decatur, and Congressman Sam Rayburn, of Bonham, speak here under the auspices of the South Plains Democratic club in the interest of the national democratic ticket.

Ex-Governor Sweet, of Colorado, former democratic office holder, will speak at a rally of the anti-Smith group on Tuesday night. Record crowds are predicted for both speaking. Loud speakers are to be arranged at the scene of the rallies so that the speeches will be audible to all of the audience.

Former Governor Sweet will arrive in Lubbock tomorrow at noon and in the afternoon will address the women's branch of the Anti-Smith organization in the group's quarters on the south side of the courthouse square, or in larger quarters which will be announced later.

May Split Programs. In the event of conflicting speaking dates the night will be divided between the opposing groups, it was announced by Jess Levens, secretary of the democrats of this section, and Charles P. O'Neal, chairman of the anti-Smiths.

In addition to the speaking held here, similar rallies are being held throughout all of the South Plains.

Dr. J. Frank Norris, Port Worth, pastor, who spoke here last week was the principal speaker at rallies at Lamesa, Tahoka, and Snyder, against the candidacy of Governor Smith for the presidency.

Mr. O'Neal said yesterday that "back day" as the banner day of the exposition. Practically every retail store in Lubbock will be closed in honor of this day.

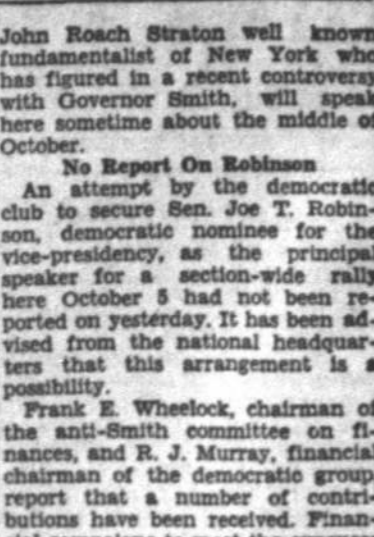

More stress has been laid on entertainment this year. A varied and brilliant fireworks display is to be given each night. Four world-famous vaudeville acts are scheduled for each day. Band concerts are to be regular features.

Shaded rooms are to be staged daily as a specialty entertainment. In Holiday Dress. The town last night was in holiday dress for the affair. Brilliant shooting and bright banners shot forth the "residence" of the chains were in evidence everywhere. The city is planning to extend the famed western hospitality to all visitors during fair week.

Many Bands to Play. Saturday, A. B. Davis, secretary-manager of the fair, announced that a great many bands will furnish music during each and every day of the Lubbock High School band, which has won many honors through recent months, to be on the grounds every day and every night. The famous Fort Kid's Cowboy band, which has recently won nationwide renown by moving pictures and newspaper publicity given it because of its unique apparel and high music, will be a feature of school day on Wednesday. The Abilene band plays Tuesday.

Every school "kid" on the Plains is in free at the fair on Wednesday. "Children's Day." A supply of 7,000 free tickets for those children has been sent to all teachers of the Plains country. If any pupils are, by any chance, failed to get their ticket, they can secure them from the fair office here.

### New Pastor Here

REV. C. J. MCCARTY Coming to Lubbock from Lockney, Rev. C. J. McCarty has taken over the pastorate at the Nineteenth Street Baptist church.

Standefor At Leveland. Dr. J. D. Standefor, of Abilene, last night spoke at an anti-Smith rally at Leveland at the Hockley County fair. Mr. O'Neal reports that the anti-Smith organization has extended to virtually all of the counties of this district.

Accompanied by a number of local Smith supporters, Judge Clark M. Mullican, chairman of the South Plains Democratic club, and Senator Pink L. Parrish spoke at a democratic rally at Lamesa yesterday afternoon. Large crowds are reported to have attended the speaking.

Although the republicans have taken little action locally they are cooperating with the anti-Smith group in bringing speakers here who favor the presidential candidacy of Herbert Hoover, republican standard bearer.

The anti-Smith democrats were given the use of their headquarters by E. McEroy, of this city, who is a second cousin to the republican candidate.

R. A. Baldwin, of Slaton, spoke at a Smith rally at Woodrow yesterday to a large audience.

Call Attention to Sheppard. While Lubbock democrats are centering their attention on the appearance here Monday night of two congressmen from Texas, G. Williams of Decatur, and Sam Rayburn of Bonham, and while they intend being present to hear these two speak, yet the call attention to the fact that Senator Morris Sheppard, author of the Eighteenth amendment, is to speak at Wichita Falls Monday night in the interest of the national democratic nomination for president and vice president.

Jess Levens, secretary of the South Plains Democratic club, stated Saturday afternoon that the place selected jointly Friday by his organization and the Anti-Smith South Plains organization, was being put in shape for Monday night's big rally of democrats.

Sweet Here Tuesday. On Tuesday night, Ex-Governor Sweet of Colorado will speak from the same platform for the anti-Smith, or Hoover voters.

Dates for speeches to be made in this territory by Congressman Rayburn and Williams were announced Saturday by Mr. Levens as follows: Congressman Rayburn will be at Tulla Monday afternoon at 3 o'clock here at 8 p. m.; and on Tuesday will speak at Crosbyton, 3 p. m. and at Snyder 8 p. m. going to Midland for an appearance at 3 p. m. Wednesday and to Big Spring at 8 p. m. same date.

Congressman Williams, besides speaking at Canyon on Monday afternoon at 3 o'clock and in Lubbock at 8 p. m. will go to Post for a speech at 3 p. m. Tuesday and to Sweetwater for another at 8 p. m. Tuesday.

The Tahoka band is to play. Buildings Are Building. The fair buildings will be building with exhibits, as there is not enough room in any of the buildings to care for the exhibits already known to be here. Information from fair headquarters, Saturday, reveals. There are 22 applications for space in the industrial building that were turned down because of lack of space and every application for space in the agricultural building, except those for the regular line of county, community, boy's club exhibits, and so forth, has been unacceptable.

Machinery exhibits are to be strung all the way from the front gate through the machinery building and back to the agricultural building.

There are farm implements of every description, of the modern variety, to inspect.

It looks like, officials say, that the livestock department will have so great a number of entries that the grounds, outside of the usual buildings, will be crowded. Those already entered will fill all the old buildings and new ones and carpenters have been busy for the last four days making new pens, etc.

2,000 Women's Exhibits. More than 2,000 exhibits were entered in the Women's Building, up to 4 o'clock Saturday afternoon, and a cry was sent to fair headquarters for more entry tags and additional supplies.

### Regional Scope Seen

Honorary vice presidents of the fair, whose efforts have aided in many ways, include, E. T. Daniels, Idalou; J. L. Suits, Lorenzo; J. D. Hord, Southland; J. E. McClung, O'Donnell; Frank B. Potter, Leveland; Charles W. Roberts, Ropesville; A. J. Roach, Seminole; J. P. Nystel, Abernathy; L. A. Wilson, Slaton; John D. Bird, Falls; N. A. Donges, Littlefield; George Samson, Post; C. C. Williams, Crosbyton; William A. Wilson, Lamesa; Maury Hopkins, Plainview; H. H. Haines, Amarillo; J. E. Shelton, Brownfield; Bob Crump, Shallowater; P. H. Bonner, Olton; L. E. State, Suddan; R. L. Brown, Muleshoe; Ed Bishop, Floydada; Fay Guthrie, Lockney; E. R. Gibson, Petersburg; Taylor White Tahoka; D. T. Knight, Amarist.

Department Heads. To the Department Superintendents and their assistants is due much of the praise for the success of the exhibits. These are: D. P. Eaton, agriculture; H. J. Bower, individual exhibits, agriculture; Mrs. James H. Goodman, women; W. P. Knox, Boy Scouts; Miss Mae Murfrees, Red Cross; R. M. Millhollin, livestock; W. L. Shangel, beef cattle; Roy B. Davis, dairy cattle; Dr. Y. J. Aiken, horse and mule; Douglas Pounds, swine; Don L. Jones, sheep; Dr. Y. J. Aiken, veterinary in charge; D. F. Eaton, boys and girls' clubs; Ray C. Mowery, poultry; Mrs. George C. Wolfarth, textiles; Mrs. J. B. Johnson, culinary; Miss Louise Baird, girls' clubs; Mrs. W. O. Stevens, plants and cut flowers; Miss Della Wilkinson, art; Mrs. S. J. McFarland, relics, antiques and curios.

Mrs. James H. Goodman director of the women's department, which will be one of the most attractively interesting of all, is assisted by Mrs. Hub Jones, Mrs. F. R. Friend and Mrs. W. B. Price.

W. C. Durant is offering a \$25,000 prize for the best plan of prohibition enforcement, and the enforcement men haven't even tried out poison gas yet!—Pampa Daily News.

I. E. Barr, president; J. J. Clements, vice president; M. B. Hillburn, treasurer; A. B. Davis, manager; M. O. Miller, advertising manager; G. O. Reeves, publicity manager; J. M.

deertul shape. More than 100 dogs are coming and there are scores of rabbits for them to chase. Stringers will be placed for bleachers on one side of the field and ample room for several thousand folks to watch will be provided. Practice up on your yelling proclivities, because there'll be plenty of use for them.

Officers of the Panhandle-South Plains fair and exposition have been working many months to make this year's fair, which is the fifteenth annual fair, be the greatest in all of Texas, excepting only the Dallas Fair and the Cotton Palace at Waco. From nothing, 15 years ago, these men and those who have labored with them behind the scenes, have watched Lubbock entertain increasing thousands. These officers are:

Call Attention to Sheppard. While Lubbock democrats are centering their attention on the appearance here Monday night of two congressmen from Texas, G. Williams of Decatur, and Sam Rayburn of Bonham, and while they intend being present to hear these two speak, yet the call attention to the fact that Senator Morris Sheppard, author of the Eighteenth amendment, is to speak at Wichita Falls Monday night in the interest of the national democratic nomination for president and vice president.

On Thursday the bands of Sudan, Lubbock and Littlefield will be a unique attraction and on Friday

# Horned Frogs Flash Aerial Attack To Down Hill Billies

## Mustangs Smother Howard Payne Yellow Jackets As Hume Leads Way

### Purple Team Uses Forward Pass To Beat Hill Billies

Reserves Play Leading Role As Frogs Come Back To Smother Rugged Team From Brownwood.

FORT WORTH, Sept. 29.—Superiority in football aerodynamics saw T. C. U. a 21 to 6 victory over the rugged and stubborn fighting Daniel Baker Hill Billies here today. Two of the Purple's touchdowns resulted directly from forward passes. The aerial attack played a prominent part in counting the third. A pass also converted one of the extra points scored. Before a crowd of 3,000 the Christians got away to a bad start, but after the first quarter scores, a "touch" in each of the other periods. Two young backs—Howard Grubbs and Ed Sain picked the Frogs up out of their early wallowing. Sain started in late in the second quarter when after a series of punts Toler made a 15-yard return to give T. C. U. the ball on the Daniel Baker 35-yard line. Sain was sent in to call the plays. The first was a 13-yard pass to Toler. The next was a short one to Harry Akers and the third was a long one to Akers who caught the ball on the line and fell across for the Frogs' first score.

Grubbs was in command of an eleven composed largely of second and third string men but he set them to work when they got possession of the ball on the T. C. U. 35-yard line and they staged a 63-yard parade to a touchdown in the third quarter. The line up: Daniel Baker Pos. T. C. U. Broad (C) 10 Alexander Head J. R. Williams (C) J. R. Head 10 Brumbelow Moore 10 Miller 10 Handler Cobb 10 Barr Johnson 10 Robertson Villa 10 Toler Dillard 10 Eddleman McWilliams 10 Thompson H. Miller 10 Griffith

### Longhorn Star Is Uncovered In Tilt With St. Edwards

Steers Have Little Trouble In Disposing With Saints In Austin Football Openers; Baldwin Stars.

AUSTIN, Sept. 29.—Texas University had little trouble today in disposing of another home town school, St. Edwards University, 22 to 6. In the local football season opener, in which a potential new Longhorn star, Dexter Shively, a last year's freshman from Dallas, was uncovered. Neither team did anything sensational. Substitutions clogged the game, although Coach Clyde Littlefield opened his line with most of the last year's veterans which he has sick. Shively, a half back, formerly of Terrell school at Dallas, turned in a game that compared well with some of Texas' late season backfield play last year. He scored three of the Longhorns' touchdowns and figures prominently in the major plays. The Longhorn defense will stand some improvement. Toward the last of the game, the Steers let the feet fly. St. Edwards' halfback, get away with four passes almost in succession. Neither side depended much on the aerial game, and neither was very good at it.

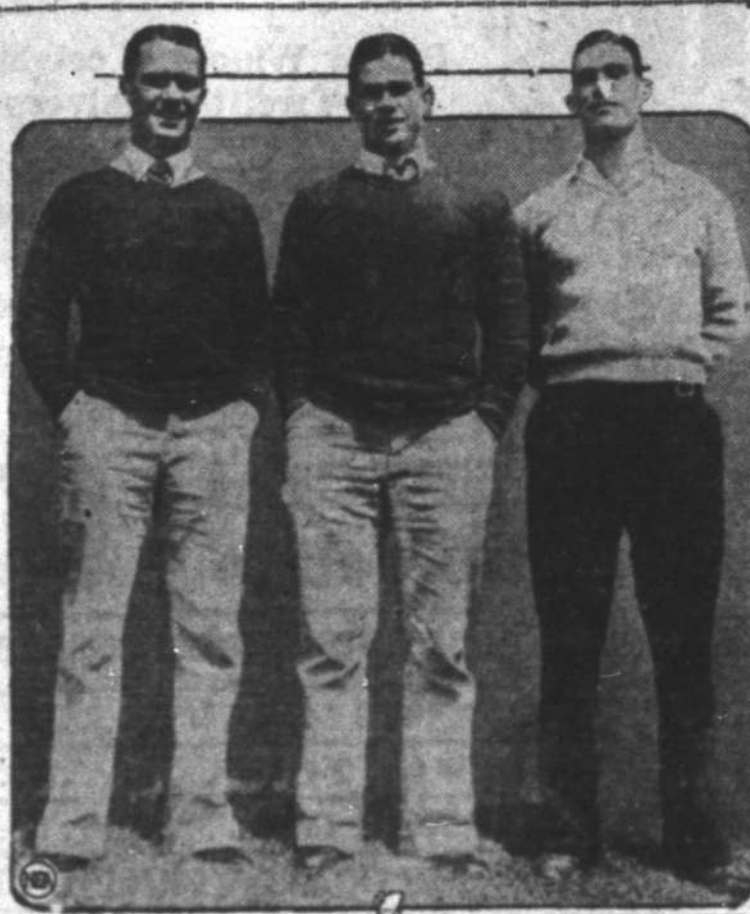

Baldwin performed in a way that if continued progressively through the season ought to pull him up to the expected standard which he has fallen somewhat short of as a college player. Dexter, Rose and other last year's veterans also performed creditably. It took the Longhorns until the second quarter to solve the rather surprising defense put up by Coach Jack Meagher's Saints. Captain Rufus King scored the first touchdown through center from about three yards after an eight yard run by Eddie Brewer.

Starting lineup: Texas Pos. St. Edwards Ford L. E. Brothman Crowley L. T. Erwin Phillips L. C. Jewett C. Saratny Sewell R. G. Hertenberger Brown R. T. Wainwright Hise R. E. Hannan Beiler Q. B. James Hughes L. H. Fingar Perkins R. H. Jennings King F. B. Kilday

THIRD GAME CALLED ROCHESTER, N. Y., Sept. 29.—The third game of the Little World series between Rochester and Indianapolis was called because of darkness today at the end of the fifth inning with the teams tied. The last inning was played in semi-darkness.

INDIANS WIN THIRD OKLAHOMA CITY, Okla., Sept. 29.—A hit batter with the bases full in the tenth inning gave the Oklahoma City Indians a six to five victory over the Tulsa Oilers in the third game of the Western League playoff series here today. Tulsa had won the first two games.

### Three Brothers Star On Same Team

A trio of brothers will perform on University of California football eleven this fall. Frank "Red" Gill, left, and Harry "Blackie" Gill, center are members of the varsity eleven, playing halfback and guard positions, respectively. The third Gill is Ralston, nicknamed "Rusty" and he is expected to prove a star for the yearling squad. The Gills enrolled from Santa Maria, Calif., where they starred in high school sports.

### Dog Races At South Plains Fair Expected To Draw Sportsmen From Many Sections Of The Southwest

More Than A Hundred Thoroughbreds On Hand For Opening Race Monday Afternoon; Interest High.

When the gates of the South Plains Fair swing open to the public tomorrow, a sporting attraction such as has never been witnessed in this section of the country will draw the vast throngs that will fill the grounds to the race track where the fleet, footed thoroughbreds bound from all sections of the country will be pitted in the races for the Kansas Jackrabbits. More than a hundred dogs have already arrived in Lubbock and more are expected before the first race starts tomorrow afternoon at 1:30 o'clock. N. J. Montgomery of Elberta is here with 18 dogs. At least twelve dogs from Amarillo are expected, among these being three thoroughbreds belonging to Percy Gibb. The Elk View Kennels of Elk City, Oklahoma have also entered dogs in the races.

With prospects for a large presentation of dog owners are especially anxious that owners of old blood hounds in this city enter the races in that class. E. E. Wolford, local sportsman, declared Saturday that the race course is in excellent shape for the races, stating further that the track is by far better than any course he has ever seen. Bleachers alongside the course have been erected to accommodate the crowds and everything is in readiness for the daily races which will start promptly at 1:30 and will last for two hours. A total of \$425 will be awarded the winning dogs in added money. In addition to this the winners will receive the loser's entry fee.

Stakes have been arranged for the following: All Age Cold Bloods. The purses will range from \$50 to \$150.

### AGGIES BEAT PIRATES Bible Crew Scores 3 Touchdowns In Third Quarter

COLLEGE STATION, Sept. 29.—Held scores in three quarters, the Texas Aggies rallied in the third quarter of their game with Southwestern University of Georgetown here today to drive across three touchdowns. Burgess carried the ball on each touchdown and Zarafonitis added the extra points by place kicks. In the second quarter the Pirates threatened the Aggies goal, taking it to within six yards of a touchdown at one time, but lost it on a fumble. Young, who fang Southwestern's passes was the outstanding offensive player in the Southwestern line-up.

### CROSBYTON 13; SPUR 9

(Special To The Avalanche-Journal) SPUR, Sept. 29.—The Crosbyton Indian Chiefs defeated Spur here today 13 to 9 in one of the hardest fought games ever staged on the Spur gridiron.

A spectacular 85 yard run by Hillard for the first Crosbyton touchdown was the feature of the game. The line plunging of Perser Crosbyton back, also gained favorable comment. Fickett of Spur was the outstanding defensive star of the game, making the majority of Spur's gains.

### Stragedy Is Kept Under Cover With West Point Near

Redman Hume Shows Power In S. M. U. Attack; May Shift to Quarter For Game With Army.

DALLAS, Sept. 29.—With almost all "high-powered" strategy under cover, Southern Methodist University defeated Howard Payne College of Brownwood, 31 to 0, here today. Howard Payne showed a stiff defense in the first quarter and held the Methodists scoreless. The Yellow Jackets wearied slightly in the second period, however, and Redman Hume crashed across the line for a touchdown in three plays from Payne's 33-yard line. A percent of bounds on Payne's seven-yard line, followed by a blocked punt, gave S. M. U. the ball on the 10-yard line, and Hume scored again. A moment later Boyd fumbled a punt behind his own goal line and Long fell off in the Methodist's third touchdown. A series of passes gave S. M. U. another touchdown a moment later, love carrying the ball the final two yards. Howard Payne's attempt to even matters by opening up an aerial attack gave the Mustangs their final touchdown. Hopper intercepted the ball, fumbled, and was tackled 30 yards to cross the line. In spite of his fumbles, Boyd played a magnificent game for Howard Payne and Wright, Betts and Shelton starred in the Yellow Jacket line.

Redman Hume, star ground game and scorer of the Mustang backfield, appeared in a new role today, alternating at quarterback with Sammy Reed. Sports writers believed that this might indicate a shift which would give Hume an opportunity to run the team against Army next week. Although most of the game was played in Howard Payne's territory the Yellow Jackets almost scored on the final play when Love, of the Yellow Jackets, dropped a loose pass behind the Mustang's goal.

### OWLS TAKE FIRST Rice Eleven Trounces Sam Houston Teachers

HOUSTON, Sept. 29.—The Rice Owls pried the lid off their 1928 football season today by trouncing the Bearkats of Sam Houston Teachers College of Huntsville, 24 to 6.

Rice charged through the pedal game line almost at will to roll up 24 first downs. The score probably would have been even larger had not the Houston Gridders fumbled numerous times when near their opponents' goal line. Bleaching almost wholly to straight football the Owls crossed the final chalk line twice in that manner. The other two markers were the result of intercepted passes.

TWO NEW CARS BOUGHT Two new automobile purchases were revealed in licenses issued Saturday at the county tax collector's office, as follows: J. W. Hawkins, city, Mrs. W. A. Sewell, Slaton.

ARLINGTON, Sept. 29.—North Texas Agricultural college defeated Texas Military school of Terrell here Saturday, 12 to 6. Both held scores in three quarters, the Texas Aggies rallied in the third quarter of their game with Southwestern University of Georgetown here today to drive across three touchdowns. Burgess carried the ball on each touchdown and Zarafonitis added the extra points by place kicks.

In the second quarter the Pirates threatened the Aggies goal, taking it to within six yards of a touchdown at one time, but lost it on a fumble. Young, who fang Southwestern's passes was the outstanding offensive player in the Southwestern line-up.

### Sewanee Brings Strongest Team To Meet Aggies

Mountaineers From Tennessee Are Light But Very Fast And More Experienced Than Texans

(Special To The Avalanche-Journal) COLLEGE STATION, Sept. 29.—When Coach Dana K. Bible's Texas Aggie charges meet the Sewanee Tigers of Dr. M. S. Bennett in their sixth annual tilt in Dallas State Fair of Texas, the Aggies will October 6, the opening day of the find themselves faced by a lighter though more experienced team than they are. The present Aggie squad as a whole averages slightly more than 172 pounds to the man while the Tiger squad weighs in at an average of 167 pounds. In the line the Aggies have their opponents bested by nearly ten pounds to the man as Chuck Bassett, Aggie line coach, has a squad of husky candidates seeking berths on the line who average 178 pounds. The Tiger line candidates average 167 pounds. In the backfield the average will probably vary between 155 and 165 pounds, depending on the combination which Coach Bible uses. The starting backfield against the Trinity Tigers averages a little more than 160 pounds to the man. Four men of the 1928 squad of Dr. Bennett's Tigers are playing their third year on the varsity squad and eleven were members of the squad which the Aggies met last fall. The four third year men are John Burton, 175 pound tackle; Jack Autin and William Schofield, halves, and Reuben Bean, full back. These men will be facing the Aggies for the third time. Only Three Veterans Of the nine lettermen on the Aggies' squad only three are playing their third year. Captain Battlett, Burgess, and Petty have all faced the Sewanee players twice before. The other six lettermen, with the exception of Colgin, received their first letters last year as members of the Southwest championship eleven. Colgin was a member of the Aggie eleven in 1926 but was not in school last fall. Of interest to Texas football fans is the fact that five members of this year's Tiger squad are Texas boys. Walter Smith, whose home is at Kaufman, and Charles Boyd, Abilene boy, are both playing their second year with the Sewanee eleven. Russell Ponder, San Antonio; William Ware, Austin and Charles Boyd, Galveston, are on the

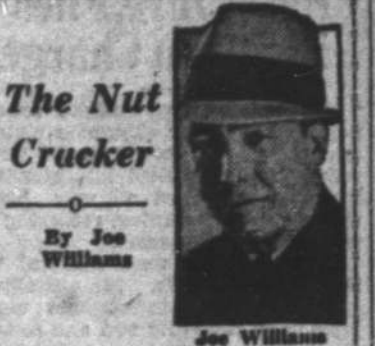

### The Nut Cracker

By Joe Williams See Williams

"Take nine players," says Connie Mack, "with ability, temperament and team spirit, and you have the stuff out of which champion outfits can be made." O'Goofy was reading that interview and wonders if Mack meant nine young players like Ty Cobb, Tris Speaker and Jack Quinn. When the A's opened the season, several of the games were mistaken for G. A. R. encampments. However, as Connie went from town to town, he peered into this grade and that, with the result that he has a nice young lot of ball players we don't mean Joe Boley or Eddie Collins, either. Anyway, he has one Double X special in Jimmy Fox. And the casual observer, looking at the bench while the Athletics are playing, might think he was in the supreme court. Several of the gentlemen sitting there often get mail addressed to Oliver Wendell Holmes. (Copyright, 1928, NEA Service, Inc.)

### CANYON LOSES TO OKLAHOMA

CANYON, Sept. 29.—Southwestern Teachers College of Oklahoma today defeated the West Texas Teachers College football team, 26 to 6. Thursday is regarded as an unlucky day for marriages in Scandinavian countries. Sewanee team for the first time. Aggies Perennial Winners During the five years that the Aggies and Tigers have clashed in annual inter-sectional meet, the Aggies have always come off victorious. In 1923 the Aggies won, 14 to 0. In 1924 the Aggies came off with the large end of a 7 to 0 score. But in 1925 the Tigers held the A. and M. eleven to a 6-6 tie. The following year the Aggies nosed out the mountain boys by a 6 to 3 score and last fall the Aggies won by the greatest margin of all, 18 to 0. The Aggies have scored a total of 81 points to the Tiger's 9. Only once have the Tigers been able to push the ball across the Aggie goal line, that was in 1923 when the game resulted in a tie. Rumors from the Tiger's mountain fair indicate the Sewanee eleven is one of the strongest in history and Coach Bennett has been quoted as saying that if the Tigers don't defeat Coach Bible's eleven this year, they will at least give them the hardest battle since the two teams began playing.

Walter Hagen says that Mr. Perkins, the British amateur champion, was the victim of the recent Jones devastation at Brae Burn, is the best British amateur he has seen. He says he is a better golfer than Roger Wethered or Cyril Tolley. He is a 26-year-old clerk from Birmingham. He never took a golf lesson and he wants to get a job and live in this country. Notre Dame has established such a reputation for its traveling football circus that Knute Rockne has been kidded with the charge that his men have to practice on flat cars. Rockne's boys do travel a lot, but some of the less advertised teams do considerable rambling around the country. Figures show, for instance, that Oregon State will cover 10,442 miles on five trips this fall. Stanford will go over 10,238 miles on four trips and Washington State will take seven trips of 8,636 miles of ground. Distance Not So Wide There are a lot of false impressions about the time taken from the class rooms for football trips. It doesn't take Notre Dame any longer to go to New York for the Army game than it takes for Princeton to go to Boston. And it will not be any more of a burden for Princeton to go to Columbus to

### Hooks and Slides

No Big Words Needed If all the good fancy words hadn't been used up years ago an elegant piece might be composed now about Bob Jones, the golfer. When he knocked off the British amateur champion, ten and nine, in the recent American championship tournament, he tied Jerry Travers' record by winning the amateur title four times and there's no telling how many more times he will win it. He's only 26 and he may never get as fat as the 280-pound Ducky Yates. Jones has won four out of the last five American amateur championships. He has won the British open once and the American open twice. He was second in the American open in 1924 and in 1925 and 1927 the best pro in the tournament had to take an extra play-off round to beat him. No fancy words are needed to pay tribute to his class when the figures show that he won 23 out of his last 25 starts.

Walter Hagen says that Mr. Perkins, the British amateur champion, was the victim of the recent Jones devastation at Brae Burn, is the best British amateur he has seen. ### Bruins Run Wild Over Pedagogues In Passing Game

Denton Team Makes 1 First-Down On Successence Eleven While Score 45 Points.

WACO, Sept. 29.—Football's great forward passing attack and stone wall line, the Baylor Bears today registered their second victory of the season, trouncing the Denton Teachers, 45 to 6, at Carroll Field. The Teachers were able to make one first down against the Conference eleven, the only first down made against the Bear this season. The Bruins scored in every period except the first. The Teachers attempted nine passes, completing one for a gain of 15 yards. Five were intercepted by the Bears and three were grounded. Baylor completed nine passes. The line-up: BAYLOR—Pos. Denton Teachers Lucas L.E. Brown Griffith L.T. Crawford Winston L.O. Bishop Pariseau C. Henson Koch R.G. Moore Morris R.T. Smart Lewter R.E. Jones Gilliland Q.B. Echob Gulliland L.H. Cowley Noble R.H. Freeman Jones R.R. Siger

By quarters: Baylor.....0; 13; 19; 13—45 Denton.....0; 6; 0—6 Touchdowns—McClure 2, Douglas 2, Pruitt, Kierak, Wilson, Noble 2 in 4 attempts, Douglas 3 in 1 attempt, Potter 1 in 2 attempts. ### Twelfth Birthday Of Piggly Wiggly Will Be Observed

Five Local Stores Join With Others Of Nation For The Commemoration Of Anniversary Of Operation

National Piggly-Wiggly Week—commemorating the twelfth anniversary of this "serve self" system of groceries—will be celebrated by five stores scattered throughout the United States, Canada and the Hawaiian Islands during the week starting Monday.

Lubbock, home of the Piggly-Wiggly stores, will join in the celebration. The central office, at New York, keeps each owner and operator informed as to prices in offices at New York, Chicago and Los Angeles and buys direct from the manufacturers for the different operators. The home office also keeps operators informed as to the most successful merchandising and advertising ideas.

Lubbock Stores Best The five local store managers are determined that the Lubbock stores equal the best in the United States in service, stock and equipment, and to this end Frigidaire equipment is installed in all of them for refrigeration. Pictures represent the last word in convenience and attractiveness. Markets at each store are supplied with fresh meats daily

being made for expansion into European countries and South America. A nation-wide advertising campaign and special merchandising offers will feature National Piggly-Wiggly Week over the country. Piggly-Wiggly pioneered in the self-service plan of dispensing groceries. Likewise, the system pioneered in the idea of making neatness and cleanliness paramount. Orderly arrangement of stock was another idea emphasized at the start. An appeal to the thrift, taste, comfort and convenience of the housewife was incorporated in the original Piggly-Wiggly plan.

Are Locally Owned Piggly-Wiggly differs from other plans of self-service groceries in the fact that all stores are locally owned and operated. The local owner is therefore vitally interested in any home town civic development.

The central office, at New York, keeps each owner and operator informed as to prices in offices at New York, Chicago and Los Angeles and buys direct from the manufacturers for the different operators. The home office also keeps operators informed as to the most successful merchandising and advertising ideas.

Lubbock Stores Best The five local store managers are determined that the Lubbock stores equal the best in the United States in service, stock and equipment, and to this end Frigidaire equipment is installed in all of them for refrigeration. Pictures represent the last word in convenience and attractiveness. Markets at each store are supplied with fresh meats daily

from the McDonald Packing company, a local plant. The first Piggly-Wiggly store was opened in Lubbock on April 4, 1917. On a Saturday now it is estimated that 3,000 people pass through the Piggly-Wiggly turnstiles. Local operators plan to increase their stores in keeping with the demand. Local managers are: Number 1, Clifford Williams; No. 2, Roy Sides; No. 3, Dan Davis; No. 4, Henry Reeves, and No. 5, Charles Lackey.

### Crosby Jury Files Eighteen Charges

Durwood Bradley, district attorney, late Saturday afternoon stated that the Crosby county grand jury, which was impaneled last Monday morning, completed a very busy week at noon Saturday, returning a total of 18 indictments. About 25 men were included in the 18 indictments. Mr. Bradley said, as several indictments were joint ones, involving two and sometimes three men. One indictment was for murder, others returned being for forgery, embezzlement, theft, burglary of a private residence, driving a car while intoxicated, hog theft, cattle theft, and violations of the prohibition law. The latter violation was responsible for the largest number of indictments. Trial of the above named cases will probably obtain during the weeks of October 6 and October 13.

# Financial Conditions In Southwest Are Continuing Generally Sound, Is Report Given Out By Federal Reserve

### Retail Sales Are Said To Be Good; Cotton Takes A Slight Setback But Feed Supply Is Greater

DALLAS, Sept. 29 (AP)—Banking conditions in the Southwest continue generally sound, unfavorable weather has reduced prospects for agricultural production although indications point to crops in excess of a year ago, and merchandise distribution reflects a substantial improvement since August, report of the Federal Reserve Bank of Dallas, made public today.

Lack of moisture has caused some deterioration of ranges in sections of the Eleventh Federal Reserve district, but the physical condition of both livestock and ranges in the major areas of Texas, New Mexico and Southeastern Arizona has improved steadily and the outlook is good, according to the business summary. The volume of building operations showed a gain of 41 per cent over July, but was 13 per cent less than a year ago.

### Sales Are Larger.

Sales of department stores in larger cities were 11 per cent larger than the previous month, and wholesale distribution showed a seasonal increase, the report goes on. A substantial amount of the district's funds is being employed in the New York call money market and there is a marked trend toward centralization of financing by large corporations in the district.

The month witnessed a substantial improvement in the business mortality rate. Both the number of failures and amount of indebtedness involved reflected a sharp decline over July and were smaller than a year ago.

### Cotton Takes Setback

Due to unfavorable weather, the report continues, some deterioration in crops is reported, but with the exception of corn and oats, the production of all major crops will probably exceed that of the preceding year. Cotton has taken a setback since issuance of the Sept. 1 Department of Agriculture report which estimated Texas production at 4,100,000 bales, but the crop has spread rapidly over the state, except Northwest, West and West-center. Soil worms, boll weevil and in some sections, the cotton hopper and leaf worms have done considerable damage and may tend to reduce further the prospects of this year's production. Dry weather over a large area has caused premature opening of the bolls, which has retarded picking operations.

Cotton in North Louisiana and Southeastern Oklahoma also shows considerable deterioration due to dry weather and insect activity.

### Feed Supply Good

Although earlier prospects for feed crops have been reduced, most sections will produce a sufficient supply for next year's needs, according to the bank's summary. The Texas hay crop, based on Sept. 1 conditions, indicates a yield of 101,871,000 bushels compared with 119,347,000 in 1927. Orin sorghum promises a yield of only 51,274,000 bushels compared to a prospect of 64,544,000 bushels on August 1. No change is indicated in the rice crop, with an indicated production of 5,000,000 bushels.

### Sowing of Fall Wheat Has Begun

In Northwest, Texas and prospects are that acreage sown for wheat will exceed the 2,629,000 acres sown last fall.

### Livestock Report

Concerning livestock, the report says:

"In Northwest, West, and West-center Texas, New Mexico and Southwestern Arizona, conditions are fair to excellent, with ranges in some sections in a better condition than in many years. In this area rangeland has been plentiful, feed has grown rapidly and there is an ample supply of stock water. Pasture in most of these sections will be sufficient to carry the stock through the winter. In the South and Coast sections of Texas ranges are very dry, grass is and stock water is low. In these sections prospects for winter pasturage are very poor, but reports indicate there is sufficient feed available for stock on hand. While more rain is needed in most sections of East and Central Texas to provide adequate fall and winter feed, hay and feed crops generally are plentiful in these localities where rain has been sufficient. In those sections where range conditions are good, there is an active demand for all classes of livestock, and the market continues strong."

### Lumber Shipments Heavy

Shipments of lumber from pine mills exceeded production in August and were the heaviest of any previous month in recent years, the report continues. Stocks held at the close of the month were reduced below normal for the first time since last December.

### Oil Production Increased

The daily average output of crude oil in Texas fields amounted to 472,000 barrels which was 29,250 barrels less than in July. North Texas reported a decline of 24,250 barrels in daily average production and Central West Texas showed a 15-

BY MRS. FRANK HILL

### COUNTY FAIR SUCCESS

The Lynn County Fair, which was in progress Wednesday and Thursday of this week, was a big success in every way. Wednesday's crowd was estimated at from 4,000 to 5,000, and there were at least 3,000 here Thursday.

The exhibits were better than ever before. The community exhibits were especially good, and attracted much attention. The community's exhibiting were O'Donnell, T-Bar, Joe Bailey, Midway, Edith, Magnolia, New Lynn, Wilson, Dixie and New Home. There were also several home demonstration club exhibits, as well as exhibits of school work, flowers, fancy work, curio, etc. There were many fine cattle, sheep, hogs, chickens and turkeys on display.

The fair was formally opened with a school parade Wednesday afternoon at 1:30 o'clock, led by the Tahoka concert band and followed by fifteen or twenty floats and several hundred school children.

Other attractions, including public speaking by Dr. J. Frank Norris in behalf of Herbert Hoover for president, and Senator J. T. Holtzrock of Galveston, for Al Smith, football games, band concert, horse racing and carnival attractions.

### TABOKA GOING TO LUBBOCK

A large number of Tahoka and Lynn County citizens are going to Lubbock Friday, October 5th, which has been set aside as Tahoka Day at the Panhandle-South Plains Fair. The delegation will be accompanied by the Tahoka concert band.

### BAPTIST W. M. S.

The Baptist W. M. S. met in circles Monday. Circle A met with Mrs. W. M. Harris with eleven present. Circle officers were elected for the coming year.

After the business meeting punch and cake were served and were much enjoyed by all. Mrs. Chester Connolly and Miss Sherrod visited the circle. Circle B met with Mrs. Shepherd with five ladies present. They had a business meeting and elected circle officers. They will take up the book, "All the World, and All the World," for their study course.

Circle C visited the sick and new members in their circle.

### PERSONALS

Mrs. G. A. Napier, a pioneer of Tahoka and Lynn county, but a resident of Canyon for the past six years, was a business visitor in Tahoka this week.

Temple Brashear has been suffering the past week from blood poison in one of his hands. A small sore on the hand became infected and the condition of the member was quite serious for a few days.

J. M. Jones of Myra, Cooke county, spent several days here this week as the guest of E. A. Park, J. C. Penton and other friends.

R. C. Wood is constructing a handsome six-room residence in northwest Tahoka. It will have a beautiful stucco finish and will be one of the attractive residences of the city.

J. E. Kaughan is building a new six-room residence in South Tahoka. It will have a stucco finish and will be a very attractive home.

Miss Monte and Mabel Draper left Monday for Canyon where they will again attend the West Texas State Teachers' College.

Miss Beria Hill and Dimple Calloway left Monday morning to re-enter the West Texas State Teachers' College at Canyon for the ensuing session.

Miss Jeanette Cavness returned to Simmons University Monday, in which institution she will be a student this session.

## Technical Topics From Texas Tech

BY MARGARET TURNER Tech Correspondent

### WEEKLY CALENDAR

Sunday—The opening sermon of the year will be preached by Dr. L. N. D. Wells, pastor of the East Dallas church, in the gymnasium. The exercises begin at 8 o'clock.

Monday—Woman's Forum is to meet in Room 102 at 3 o'clock in a business session. Las Chaparritas club is to meet in its annual circus frolic. The affair is to be given at the home of Miss Pearl Hensley, 2116 15th street.

Tuesday—The second convocation of the year will be held in the gymnasium from 11 to 12 o'clock. The annual address by the president will be delivered to the student body.

Wednesday—Miss D'Ann Sammons and Anna Belle Collins are giving a Luncheon at the home of Miss Sammons, 2207 13th street from 3:30 until 5:30 o'clock to which all girls—ladies of the town are invited. Beneficent are to go to the Arena-Rites Tech girls pep squad.

Thursday—Call session of Amarillo Tech club and new students from Potter county at 4:30 o'clock. Band rehearsal is called and a full attendance urged.

Friday—State University and Texas Tech game at Austin. "Dad" Elliott is to arrive on the campus. Debates Plans Made. Miss Lulah Jo Pendleton, debate coach, has planned a big schedule for the year. A call meeting is announced for Wednesday evening to which every one interested in debate is urged to attend. At convocation Wednesday morning

Miss Elizabeth West, Lubbock, announces the arrival of some interesting books—on architecture. These will be of special interest to students of architecture, and date from 1880 until the present.

Miss Elliott, who will be on the Tech campus from the 6th to the 10th is bringing sponsored 2000 Christian Associations of the college. Her's a Northwestern alumna of 1902 and while in college was All-Western end in football, and captain of the track team. "Dad" Elliott has been on campus at the major state colleges and universities of America, and his suggestions in spiritual and moral issues, in conferences are to be held at the Tech. Mr. Elliott will address the Tech P. T. A. while he is here.

Miss Lulah Jo Pendleton, debate coach, has planned a big schedule for the year. A call meeting is announced for Wednesday evening to which every one interested in debate is urged to attend. At convocation Wednesday morning

The second convocation of the year will be held in the gymnasium from 11 to 12 o'clock. The annual address by the president will be delivered to the student body.

Miss Jeanette Cavness returned to Simmons University Monday, in which institution she will be a student this session.

A. L. Standerfer, who has been in the coal business at Lamesa for the past several years has removed to Tahoka and is opening a similar business here.

The T. Cowan home in the Midway community was destroyed by fire Friday afternoon.

Wilson High school defeated Lubbock Junior High school 48 to 0 on the local gridiron Tuesday at the Lynn County Fair.

Temple Brashear has been suffering the past week from blood poison in one of his hands. A small sore on the hand became infected and the condition of the member was quite serious for a few days.

J. M. Jones of Myra, Cooke county, spent several days here this week as the guest of E. A. Park, J. C. Penton and other friends.

R. C. Wood is constructing a handsome six-room residence in northwest Tahoka. It will have a beautiful stucco finish and will be one of the attractive residences of the city.

**SUMMARY**

Market unchanged to five points up today on the active months. Continued hedge sales and realizing forced a quiet market down some 12 points during Saturday's absence, but shorts covering and new buying interest ran it up a few points above Friday's close near the end and a net gain of five points was made in December New Orleans contracts. The heavy demand for cotton which carried prices upward during the past week is based on a belief widely held that the loss in crop prospects over the past month has been large. Private news on the situation averages about 14,000,000 bales for the total 1928 production and by some instances predictions are below that figure. A number of private experts will issue estimates on the crop within the next few days and the general tone is that they will also be bullish in nature. Few people still expect that the crop will equal the last estimate of 14,430,000 bales. We advise buying on any minor depression.

The New Orleans cotton exchange will return to regular trading hours beginning Monday, October 1 as follows, opening daily 9 a. m. closing daily except Saturdays at 2 p. m. closing Saturdays at 11:30 a. m.

Boston—The Garside bureau says expected to show a decline from two to four points more than usual during September.

Savannah, Ga.—The demand for the last few days has been very strong because a number of exporters and dealers were short of the market and needed cotton for September shipment.

New Orleans—Domestic cotton goods markets continue active with also good.

Charlotte, N. C.—The cotton goods market continued to show improvement during the past week. Large sales of gray goods are reported and some print cloth constructions sold through the end of the year with an increase in sales and unfilled orders and a further decrease in stocks.

Weather—Eastern forecast: South Carolina, Georgia, Alabama, and northwest Florida, mostly fair tonight and Sunday. Mississippi generally fair tonight and Sunday. Cooler in north portion. Western forecast, generally fair and cooler in Louisiana, Arkansas, Oklahoma, and West Texas.

R. E. STRONG, Mgr.

MANY FISH GRIDSTERS

Applications From 212 Candidates At Texas A. & M.

(Special to the Avalanche-Journal)

COLLEGE STATION, Sept. 29.—Freshman Coach James H. Henthorn of Texas A. and M. has applications from 212 candidates for his freshman gridiron squad. Because of the large number of candidates, the freshman coach is choosing those men who have had the most experience in high school and preparatory schools and equipping them first. One hundred men have been equipped and as those are thinned out more will be added until each candidate has been given a chance to prove his worth. The freshman team plays only one game during the season, that with the Allen Academy gridsters of Coach Percy Wilson, better known as the "Percy Wilson" team. The greater part of the time is spent in schooling the candidates in football fundamentals to prepare them for competition on the varsity squad during their sophomore "year" in school.

WINS WOMAN'S TITLE

Glenna Collett Wins Golf Championship

BY BRIAN BELL (Associated Press Sports Writer)

HOT SPRINGS, Va., Sept. 29. (AP)—Glenna Collett today took her place with four other women who have won the Women's Golf Championship of the United States three times, capturing the title by defeating Virginia Van Wie, 19-year-old Chicago girl 18 up and 12 of the 36 holes left to play.

LICENSES ARE GRANTED

Marriage licenses issued Saturday at the county clerk's office included the following:

R. H. Strickland and Miss Hattie Hoover, Travis R. Brown and Miss Louise Hall, Leandro Garcia and Miss Betorane Sanchez.

At The

Panhandle South Plains Fair

Make yourself at home

Keeping Pace with the time,

Those who remember our previous exhibits, will recall that each year our display was better than the year before, and this year will eclipse them all. Since our last fair we have installed new and modern machinery, and this year you will see a display of memorial art that is not recalled outside a few of the largest cities of our state.

Each memorial shown will be taken from our regular stock, and not bought for this occasion. Each year as our town and country steps ahead you will find us moving forward too, keeping pace with the times.

We invite you to visit our booth, and examine our work, also visit our yard while here, at our yard you will find an appropriate memorial at the price you want to pay, \$25.00 and up.

Tech Will Suffer If South Plains Goes Republican In November, Sen. Parrish Declares In Lamesa Rally

Situation Would Prove A Detriment To Section, He Says; Republican Party Is For Special Classes.

If the South Plains should, by any chance, give a majority of votes for the Republican party instead of the usual Democratic majority, at the general election in November, State Senator-elect Pink L. Parrish told a crowd of between 1,500 and 2,000 people at Lamesa Saturday afternoon, that fact will prove a detriment to the welfare of the section, the county and the Texas Technological college.

"It is logical to presume," said Senator Parrish, "that should such a calamity happen to this county, which I do not believe will, that when the matter of appropriations for Tech college comes up before the Texas state legislature, if we are known over the state as a Republican county, it will be fore-difficult for us to secure those appropriations."

Something Un-Texas. The South Plains will be looked upon as something un-Texas, something foreign. We can not hope to secure the same whole-hearted state-wide co-operation for Texas Tech, if Lubbock should go Republican in November, as we can when we give the usual old-time, dyed-in-the-wool Texas, Southern, genuine Democratic majority, like we have always done.

Senator Parrish continued his line of argument with calling attention to the fact, said to be well-known, that the Republican congress of the United States has been known to always favor more the solid Republican strongholds in northern and eastern states, than it has the communities of the Solid South.

G. O. P. for Special Classes. "Reason for this," he said, "is that the Republican party has, always been, and is to this day, and perhaps always will be the party of the special classes, as opposed to the masses of the American people."

"The Democratic party has always fought the fight for the common people, the masses, as against these classes. And the masses include the smaller business concerns, and those bigger businesses that have not ditched out to the Republican party for special protection in its campaigns."

He also referred to the statement made here Wednesday night by John Darrow, of Galveston, that the Potash deposits of this immediate section are being kept from development because the Republican party's policy of tariff protection does not include this industry, which is strictly a new and a Texas industry.

Teachers Religion. Parrish touched on the religious prejudice brought into the campaign to destroy Gov. Alfred E. Smith's strength in the Solid South, and also mentioned prohibition and farm relief.

Of farm relief he said: "The Republican party has been doing nothing for the farmers of America, except to make promises, and then sit there and do nothing. They have failed to keep those promises. It is time to put a party in power that has a record of doing things for the masses of the people, and that will solve the farm problem in the right way, without dealing out mere promises to try and solve them."

MOVIE ACTOR IS KILLED. LOS ANGELES, Sept. 29. (AP)—Arnold Kent, Italian screen actor run down by an automobile here last night, died of injuries late today.

A gray-green fish called the puffer defends itself when in danger by suddenly assuming the appearance of a balloon.

Subways Contract

(Continued from Page 1)

were found objectionable. Mayor Harley D. Woods, said that the relations between the city and the railway company were very cordial, only a few difficulties of a minor nature having arisen. Completed by June 1. Completion of the contract within the next 30 days is seen by Mayor Woods as a possibility. He stated yesterday that if present plans matured the subways would be open to traffic by June 1 of next year. Advertising for bids and the beginning construction will follow the final drawing up of the contract. With the completion of this project one of the outstanding needs of the city for the past many years will be met, Mayor Woods pointed out.

In addition to this action the city commission authorized the extension of the city sewer line in the southern section of the city to the amount of \$6,000.

Fire Equipment Added. Fire equipment was ordered added to the Lubbock fire department at a cost of \$2,500.

Relationship between the college students and the city were discussed by the commission and officials of the college. A closer co-operation between the two was voiced as a result of the meeting.

Property owners affected by the new zoning ordinance passed recently, were given until December 1 as the final day in which to meet requirements of the ordinance.

Revision of the city building code incorporating all of the knowledge of the latest city codes was discussed by the commissioners. A committee at work on this project announced that a report of the work would be presented to the commission within the near future.

that he can be delivered to Atlanta officers on American soil. It was pointed out that such is the usual procedure in cases where extradition is waived. Local officials, however, sought to guard against any change of Carnes' announced intention not to resist his removal here by having the extradition papers in readiness.

Business Affairs Cause Disappearance, Carnes Says. WINNIPEG, Man., Sept. 29. (AP)—Blackmailing acquaintances and tangled business affairs made a fugitive of Clinton S. Carnes, indicted today after he had been held for removal to Atlanta, Ga., where he is wanted for embezzlement and misappropriation of funds.

Carnes said, "I ran away because my affairs had got so black I could not bear it any longer. People who knew my past were continually blackmailing me and I finally got into such a fix that there was nothing else I could do."

"I never saw any such sum as a million dollars," said the former treasurer of the Home Mission Board of the Southern Baptist convention, who was said by some authorities to have obtained as much as \$1,000,000 although the indictments involve only \$150,000.

Carnes declined to answer when police asked him if he had taken any sum from the Mission Board funds.

He said he would not fight extradition to the United States. Milk is about 86 per cent water. Sunflower seeds yield a valuable food for cattle and poultry.

Yes, Sir, She's A Marvel!

NEA New York Bureau "Marvel Quivey? That's a good moniker for an actress, but what's the girl's real name? Folks were always asking that question and they never failed to marvel somewhat skeptically when it was explained that Marvel's real name was Marvel. So when Marvel left the west coast to star in a Broadway production, the determined to change her name to something less "theatrical." So here you see Miss Maria Manning. Just the same, she's the daughter of Claude E. Quivey, famed miniature painter.

Smith Presents Prohibition Views In City Famed For Excellent Beer; Speech Brings Cheer After Cheer

commend to Congress both modification of the Volstead Law and the prohibition amendment. Laughter and applause greeted the nominee when he remarked that in 1919 and 1920 million of Americans believed hard liquor could be banished from the country "by amending the Constitution and passing a law."

"This is not a question of liquor or no liquor, prohibition or anti-prohibition," he added. "The question before the American people today is what is the best thing to do about it in the interest of this country."

Annals Republicans. The New York governor, who wound up his first stumping tour here tonight assailed the republicans for the way they have been enforcing prohibition, declaring that they had permitted patronage considerations to guide them and corruption to creep into enforcement. He also insisted that millions of Americans did not agree with Herbert Hoover in his declaration that prohibition was a "noble experiment," and asserted that the prohibition plank in the republican party meant nothing.

"I am perfectly satisfied that sane, reasonable, sensible and scientific definition of an intoxicant in the Volstead law would do more than any other one thing to take out of this country the hard liquor than can be found in every hamlet, village, town and city in the United States," Smith shouted to cheers. "Changes in the law I deem right."

In his speech tonight, Governor Smith also adverted to his acceptance speech in prescribing his remedy for the conditions about which he complained. He put it this way: "First, I recommend an amendment to the Volstead act which should contain a sane and sensible definition of what constitutes an intoxicating beverage, because upon its face the present definition does not square with common sense or with medical opinion. Each state could then provide for an alcoholic content not greater than that fixed by congress."

Amendment Falls. "It must be borne in mind that the 18th amendment does not prohibit alcoholic beverages; it prohibits intoxicating beverages, and no sensible man can truthfully be prepared to say that one-half of one percent of alcohol constitutes an intoxicant."

"I firmly and honestly believe that a great deal of the dangerous and poisonous hard liquor which has been driven out of this country if the people could be assured of an alcoholic beverage declared by common sense and science to be non-intoxicating. I further recommend an amendment to the 18th amendment. I placed it squarely upon the basis of the Jeffersonian principle of the right of each state to determine for itself what it wants to do about questions of local habits of life usually covered by local political laws."

"I fully, however, provided safeguards that will make impossible a return to the old conditions of sale in the saloons, depots, and rightly so, by the American people. Suggested Referendum. "I suggested a referendum for

the expression of the will of the people themselves, in the first instance. I would then regard it as the right of the state itself, subject to limitation which I outlined, to dispense to its own inhabitants alcoholic beverages as desired by the people of the state.

"No man who believes in state's rights, who believes in the fundamental principles of democracy, can find any fault with that. No state should be permitted to impose its will upon another state in matters of local concern. "What would the states that desire prohibition think about a proposal to amend the constitution to prohibit them to enact prohibition laws? They would justly resent it. That's the way the people of the other states feel about the 18th amendment."

In "Painting the Picture" of prohibition, as he described it, the democratic nominee declared it had produced a condition of "wholesale corruption," among officials of the government charged with its enforcement, has had a bad effect on the morale of American youth, has been "the great political pork barrel for the republican party," and has "driven men and women who, heretofore, were content with drinking light wines and beer to the use of strong liquor."

Drinking An Increase. "And liquor drinking in this country, instead of being on the decline," he added, "is on the upward move as a direct result of the attempt to prohibit alcoholic beverages entirely." At another juncture, Governor Smith inquired, "what is the answer of the republican to all of this?" then went on: "In the face of this record, the platform crosses over the whole thing by quoting the words of George Washington and of Abraham Lincoln and again pledges itself to the observance of vigorous enforcement of the 18th amendment. No truth, no candor, not even common honesty."

As for Herbert Hoover's contention that prohibition is a "great social and economic experiment," the democratic nominee declared that millions of people in the United States do not agree with his opinion on that score, and added that "you could get no better testimony for that than to look at the result on the referendum in so many thickly populated states."

Breeds Disrespect. Insisting that "the great army of the American people" oppose prohibition, Smith held that "the natural result of it is breeding throughout the length and breadth of the country a disrespect for all laws."

"No one can gainsay the fact," he continued, "that the prohibition law and the Volstead act have found a new line of endeavor in the underworld, they have brought out the bootleggers, and the bootleggers begot the hijackers, and the hijackers the racketeers so that gangland is interested in the maintenance of prohibition. Because of the operation they are benefited."

He declared that he regarded prohibition as a "great moral issue." Governor Smith appealed to people of America, regardless of party, to put aside any preconceived notions and to approach the question "fairly, without passion and without prejudice, with open eyes

Much Progress Is Made In Schools

Becton School Is Crowded After Employing Three Teachers; New Building Starts At Wolfarth.

So crowded has the Becton school, located north of Idalou, become, and so great has become the increase in enrollment of pupils, that the present school building is much too small and more teachers are needed according to W. M. Pevhouse, county school superintendent. E. P. Lewis, superintendent of the Becton school, sometimes known as the Bledsoe school, more than a week ago invited Superintendent Pevhouse out to that place and explained that with only five teachers the enrollment at the time was 175 and another teacher was needed. And, at a meeting of the Becton school board last week it was decided to employ a new teacher.

To Call Bond Issue. At the same board meeting a decision was reached to call for a bond issue election next summer for the purpose of raising sufficient funds to build two additional rooms for the school. The present school building is a \$19,000 structure.

At a meeting of the Becton school board next Wednesday, application for two women teachers will be considered, the enrollment at the school last week having reached 195 and one room to take care of the big increase having been temporarily made in the school's auditorium.

Start New Building. Excavations have been started for the foundation of the new \$20,000 school building to be erected at Wolfarth. It was started here Saturday. The building was authorized by a bond issue election held last summer and will include a gymnasium, its other features to make it one of the finest schools in the county outside of Lubbock and Stanton.

Prof. West, superintendent at Wolfarth, reports an enrollment of 150 students, with five teachers employed.

Apply for Classification. With \$500 worth of laboratory equipment and other improvements acquired this season, the County Line school is applying for classification and affiliation for high school work. Superintendent Albert A. Pearce, of that place, announced while in Lubbock Saturday.

There are now 160 pupils enrolled at County Line, with seven teachers employed. Construction Starts. Construction work on the new Hurlock school building will begin Monday morning, according to W. A. Funcher, superintendent of the school there, who was in Lubbock Saturday.

There are 69 pupils enrolled at the Hurlock school, Mr. Funcher said, and several are being held in a brick store building. The new building, with its equipment, \$12,000 and will possess five class rooms and an auditorium. The contract price for the building alone he said, is \$9,500, the Gein Building company, of Lubbock, being the contractor.

Tech Enrollment

(Continued From Page One)

W. Horn at the Admin. Building on the college campus last night. Several hundred freshmen attended this affair following their parade through the streets. Friday night open house was held by churches of the city for new students. A good attendance at programs planned for these occasions was reported from all the churches.

Opening Sermon Today. Opening religious services under college auspices will take place at 8 o'clock Sunday night when Dr. L. N. D. Wells, pastor of the East Dallas Christian church of Dallas, will preach. The sermon will be given at the gymnasium. The president's annual address to the student body will be given at the second convocation of the college year, to be conducted on October 3, next, Wednesday.

Distribution of Students. Distribution of enrollment for the term shows the school of liberal arts to be fair in the lead, the school of engineering next; the home economics school third, and the agriculture school fourth.

Table with 2 columns: School Name and Enrollment Count. Liberal Arts: 926, Engineering: 390, Home Economics: 112, Agriculture: 78, Total: 1506.

Hatcher

willing to sign a statement prepared by Mr. Pollard, because he had the same opportunity in addressing the convention but failed to do so, taking up the time of the delegates in talking about Andrew Jackson."

SPEAKS IN WICHITA

Senator Sheppard Makes Last Texas Speech. WICHITA FALLS, Sept. 29. (AP)—U. S. Senator Morris Sheppard will open the democratic campaign in Wichita county Monday night with an address at the municipal auditorium here. Delegates from many surrounding counties are expected. Senator Sheppard's speech will be his last in Texas, since he leaves soon for the north and east.

Germany produces 2000 varieties of sausages. and with open minds, to the end that some constructive solution of this important problem may be reached.

Padlock Mightier Than Hammer

Because of padlocks for liquor violations, placed on the grill room and Room 8 of the old Lincoln hotel at Milwaukee, builders of the new 25-story tower of the Milwaukee Gas Co. on the hotel's site must leave the two rooms intact until the court order expires. The decree doesn't expire until next summer, so the new tower will be built up around the rooms, which will be torn out later. The arrow in the foreground points to the grill room; the cube left standing in the rear is Room 8.

Piracy Story

which is north of Bias Bay, the notorious lair of Chinese pirates. All passengers were mustered on the decks and systematically searched, luggage and cargo trunks were robbed. For ten hours this went on until a great pile of loot was heaped on the decks ready to be taken ashore. Take \$60,000. The pirates disembarked in three lifeboats taking loot valued at \$60,000. Seven Chinese passengers also were taken along to be held for

Legion Convention At San Antonio Offers Round of Entertainment, Diversion; Many Notables to Attend

Gen. Pershing, Secretary Davis, Gov. Moody, Judge Landis and Others To Talk; Big Parade Set.

Hoover

(Continued from Page 1)

SAN ANTONIO, Sept. 29. (P)—Addresses by internationally known speakers, a parade of 60,000 persons, varied contests, music of 100 to 150 bands and drum corps, consideration of problems of vital national import, awarding of trophies and a round of varied entertainment are on the program for the tenth national convention of the American Legion, to be held in San Antonio, October 2-12.

The official program for the Legion convention sessions, to be held in the municipal auditorium has been received from National Adjutant James F. Barton by Philip R. Stapp, general legion convention director.

Many Notables Present. On Monday, opening day of the gathering, Field Marshall Circuit Court, of Great Britain; Gen. John J. Pershing; Secretary of War Dwight F. Davis and Frank T. Hines, director of the United States Veterans Bureau, will speak, Gov. Dan Moody, C. M. Chubb, of San Antonio, and Walton D. Hood, commander of the Texas Department of the Legion, will deliver welcoming addresses. Response on behalf of the legion will be made by Past Commander John R. Quinn, of California. Memorial services for the World War dead will be conducted at the end of the session with the noted opera star, Madame Martha Atwood, singing "There Is No Death."

Tuesday will be given over entirely to the convention parade, which will move at 11 o'clock. Gen. Beaumont B. Buck, Texas war hero, will be grand marshal with Past National Commander Howard P. Savage, of Illinois, as honorary grand marshal. Five or six hours is expected to be required for the parade. The rest of the day will be given over to the committee meetings and entertainment.

War Blinded—New Attends. Major George Quinn, war blinded member of the French chamber of deputies, will speak at the Wednesday morning session. Other speakers at that meeting will be William Green, president of the American Federation of Labor, and Assistant Secretary of War F. T. Trapese Davison.

Miss Mary Jordan, concert singer formerly of San Antonio, will be the soloist of the day, and will conduct the "Spirit of the A. E. F. Jubilation" as a special feature.

Judge Landis Talks. Judge Kenneth M. Landis, baseball commissioner will address the convention at its closing session on Thursday morning, October 11. The distinguished Legionaires will deliver a combined speech on "The Progress of the Convention of the American Legion." Madame Ella Benneke will be the soloist of the day.

Election of officers will take place at this session. Twelve candidates are already in the field for national commander. Five National vice commanders and a national chaplain will also be selected. Other national officers will be elected by the national executive committee on the nomination of the newly chosen national commander at a special meeting immediately following the adjournment of the convention.

On the entertainment program are a world's championship ship race, a decision prize fight, a Tuller Burgess show, an air show, dancing every night on Alamo Plaza and at various organization halls, a Spanish Fiesta, side trips to the Mexican border with bull fights and Spanish Fiesta and a 15-day tour of Old Mexico.

Polar Explorer And His Fiancee

On the eve of departure on an Antarctic expedition came news of the engagement of Captain Sir George Hubert Wilkins to Miss Suzanne Bennett, Broadway actress. They're shown here as the flyer-explorer explains to his fiancee what he hopes to accomplish in the South Polar area.

UTILITIES INCREASE

Steady Increase Is Shown By Survey

SAN ANGELO, Sept. 28.—A survey of utility consumers, recently completed in San Angelo reflects a steady increase ranging from 20 to 48 per cent since 1926. For January 1, 1928, to September 1, 1928, power meters increased from 1,806 to 2,531; light meters installed at the end of 1927 totaled 4,331 and on September 1, this year, there were 6,740 consumers. A boost of telephone connections from 4,747 in 1927 to 5,100, September 1, has necessitated changing to the automatic dial system, which will be cut over about September 29, according to advices from telephone officials. Water meters have increased from 4,100 to 5,079 in the nine months period. Building permits totalled \$4,097,862 and September 1, this year, the figure had already reached \$2,297,721.60, with several large contemplated projects planned during the final three months of the year.

Chairman Work's Statement. Chairman Work late today issued the following statement: "I have now had opportunity to investigate the origin of a circular letter containing references to religious questions which have been issued from a local committee office in Virginia. I am informed that the national committeewoman did not authorize the introduction of the religious question, that she has always opposed it as a campaign question. The Republican party does not countenance any appeal of this character."

4 READY FOR TRIAL

DALLAS, Sept. 28. (P)—Defense and prosecuting attorneys announced today that both sides would be ready for trial when the murder case against V. Ray Adams, charged with killing Orville Matthews on busy Dallas street corner over an election bid misunderstanding, is called Monday.

Labor Secretary Back To Labor

Secretary of Labor James J. Davis with his family returned from Europe the other day, ready to return to his labor in Washington. Left to right, as they arrived, are shown Mrs. Davis, James, June and Jessie.

Milk taken from the cow in the evening is better than milk taken in the morning.

Regular brushing of the gums as well as the teeth is essential for a healthy mouth.

There are no records to prove that children in ancient Greece or Rome ever played with toys.

In the middle ages cats were always kept in convents.

The term amperé hours means the quantity of electricity which passes in an electric circuit when a current of one ampere flows for one hour.

Psychologists say a man never craves for a smoke so much as he is reduced to his last match.

China's unused resources are said to be similar to those of the United States 400 years ago.

Roller skates were invented in Waco.

In Zealand the atmosphere is so clear that objects can be seen by starlight at a distance of seven miles.

TO MY OLD FRIENDS AND CUSTOMERS

I wish to thank each and every one of you for your loyal patronage and influence in the past twenty years of business. I have sold out to Mr. Ira Dook of Taboks, Texas, an old-time friend of many of you, and I ask each and every friend and customer of mine to stay with him, and support him as you have me. Again I thank you all, sincerely.

JOE GEORGE

LEGAL NOTICES

ELECTION PROCLAMATION TO ALL TO WHOM THESE PRESENTS SHALL COME: KNOW YE, that I, Chas. Nordyke, County Judge of Lubbock County, Texas, do by virtue of the authority vested in me under the Constitution and laws of this state, hereby order and direct that an election be held in the several voting precincts of Lubbock County, Texas, on Tuesday the 30th day of November, A. D. 1928, for the election of one District Clerk, one County Judge, one County Sheriff, one County Clerk, one Tax Assessor, one County Treasurer, one County Superintendent of Public Instruction, one County Surveyor, four County Commissioners, one each for Commissioners' Precincts No. 1, No. 2, No. 3 and No. 4, five Justices of Peace, Precincts No. 1, Precinct No. 2, Precinct No. 3, No. 4, No. 5, No. 6, No. 7, No. 8, Eight Constables for Justice of Peace Precincts No. 1, No. 2, No. 3, No. 4, No. 5, No. 6, No. 7, No. 8, Eight Public Weighers for Justice of Peace Precincts No. 1, No. 2, No. 3, No. 4, No. 5, No. 6, No. 7, No. 8. Said election will be held at the polling places at the several election precincts of Lubbock County and will be conducted by the officers holding same in strict accordance with this Proclamation.

Also for the adoption or rejection of the proposed Amendment to the State Constitution to be submitted at said election to the qualified voters of the State for their adoption or rejection in accordance with the joint resolution of the 40th Legislature as follows to-wit: For or against the Constitutional Amendment authorizing aid to confederate soldiers or sailors and their widows in indigent circumstances and authorizing tax levy therefor. For or against the Amendment to the Constitution authorizing the State of Texas exempting from taxation property owned by churches or strictly religious societies for the exclusive use as dwellings for the ministry. For or against the Amendment to Article 7, adding Section 16, providing that school officers, including Board of Trustees, of Higher Education, shall serve for a term not exceeding six years, and the Amendment to Section 8 of Article seven of the Constitution providing for the appointment of a State Board of Education.

NOW, THEREFORE, I, Chas. Nordyke, County Judge of Lubbock County, Texas, do hereby issue this, my Proclamation, ordering that said election be held at the polling places of the several Election Precincts of Lubbock County, and hereby further order and direct that said election of said Constitutional Amendments be held as is prescribed by the laws of this State and that said election be conducted by the officers holding the same in accordance with the law and that the returns of said election be made in strict conformity with the laws of this State and of the United States and in accordance with this Proclamation.

IN TESTIMONY WHEREOF, I have signed my name and cause the seal of the County Court of Lubbock, Texas, this 27th day of September, A. D. 1928. CHAS. NORDYKE, County Judge Lubbock County, Texas.

Listen, Voters!

Here's a striking indication of the changing times in the Orient, where they now have women politicians, administration scandals and everything modern. Miss Yoshiko Sunazuka is addressing a picnic of beer cases. She's giving her listeners the low-down on some alleged graft in the city government.

The Brown Derby Salutes The West

Democratic candidate Smith waved his brown derby when met by cheering crowds at Oklahoma City, Okla., during his trip through the west. Here are two scenes during the reception of New York's governor in Oklahoma's capital.

Looking Into Realty Purchases Information For The Man Who Buys A Lot Upon Which To Build A Home

The home builder who has in mind a site that appeals to him should visit the weather bureau before he signs on the dotted line, for the course of the prevailing winds around the property under consideration may make his home life happy or otherwise, says the National Association of Real Estate Boards in an article covering important do's and don'ts for lot seekers. Lots that are too exposed to the winter blasts and lots in districts where the air is filled with smoke will not make comfortable home sites, says the association report. Pick Your Territory. If you plan to build a modest bungalow, don't purchase a building site in a section where high priced houses have been erected or will be erected, says the real estate association. You may not be happy in a neighborhood where the living standards are higher than your living standards. You may not be comfortable living next door to a select family. Conversely, do not select a lot in a cheap district if you are planning to construct an expensive home because its resale may be a problem. Following is the cream of the association's advice on this subject. Note that some of the warnings are never brought to the attention of newspaper readers. Guard Against Error. Sellers of land must file plats with the city officials showing the size, shape, and dimensions of each lot but mistakes are given to occur in such figures given to buyers. It is advisable for even the small property owner to have his lot surveyed by a civil engineer, or require the seller to give him a certified survey, in order to make certain that the dimensions, size, and shape of the deed of sale accurately check with the dimensions filed in that plat in the recorder's office. A man who had not taken the precaution of checking this matter might find that his fifty foot lot in reality comprised only forty-five feet and if he made this discovery after constructing a building on his property it might cause him considerable embarrassment, especially if he had built over his property line. This warning is not based on a supposition of what might happen. Large and valuable buildings have been placed over the edge of land supposed to be the owner's property but actually a part of the adjoining lot. Be sure you know what you are buying. "Be careful of high or steep building sites. Rolling land may look attractive, but ascertain if it will be costly or difficult to build on it. Ask An Expert. Inquire from the city engineering department or from some engineer as to whether the sewer system in the section where you contemplate buying is laid deep enough. It is not uncommon for people to purchase lots in districts where the sewer system is faulty in this connection. Then it is necessary to go to the expense of raising the house on terraces in order to secure proper fall between the sewer system and the house plumbing. Remember that if you buy land that is too low, you will always have a drainage problem, and if you buy land that is too high the water mains will be above the freestanding line. Remember that an odd-shaped lot may prove hard to sell. Don't select a lot full of humps and hollows unless you are prepared to pay the cost of filling it, which may be as great as the cost of excavating. It is highly desirable that a lot purchased for home building purposes be in a restricted area where apartment buildings, two and three flat buildings, and business properties are barred. Commercial and business properties can depreciate the value of your holdings and make

DAILY MARKETS

NEW YORK STOCKS ... NEW YORK, Sept. 29. (P)—The stock market, having gone through a series of backing and filling movements all week, closed today with a surprising outburst of strength. The rally, which embraced nearly the entire list, was conducted with considerable violence in some of the high priced specialties which soared 5 to 18 points.

Trading was in an unusually large volume for a half holiday season. Total sales were 1,885,200 shares, with the ticker 11 minutes late at the close. There was nothing in the day's news to influence the upward price movement, which appeared to be founded on the speculative belief that the recent reaction had sufficiently corrected the top-heavy speculative position.

General Motors, in which William C. Durant is reported to have formed a large pool, returned to its old role as a market leader by climbing nearly 4 points to 215 7/8, and closing within a small fraction of the top. Chrysler crossed 120 for the first time this year and then eased to 119 3/4 up 2 1/4. Dupont, which has large General Motors holdings, scored an extreme gain of 10 points, and Motor Products which was under pressure earlier in the week, rallied nearly 6 points.

National Bellas Hess and Coty were the spectacular features, the former scoring 14 points to 114 and the latter 14 points to 160, both new high records. Rails were again in brisk demand on buying influenced by the belief that last quarter traffic and earnings will show substantial improvement over the corresponding period last year. Rock Island touched a new 1928 top at 128.

Establishment of a new low level by Italian exchange, at 322 1/2 cents was the only development of consequence in the foreign exchange market.

KANSAS CITY LIVESTOCK ... KANSAS CITY, Sept. 29. (U. S. D. A.) The week's cattle supply around the 11-market circuit approximated 210,000 exclusive of 65,000 calves, as compared with 202,300 last week. Choice grain fed steers and yearlings were a firm to higher basis early in the week, with choice grain fed steers in Chicago scoring 18.60, but a lower under-tone developed on Thursday and closing values were weak to unevenly lower. Other killing classes, with the exception of low priced cows, were under pressure at all times as declines of 25 to 75 cents effected. Hogs were tendered a general price decline of 1.50 to 1.75. Present prices were around 2.25 under the high points for the week and the lowest since the latter part of June. Such a sharp decline was attributed to the liberal marketing of unselected lightweights. Aggregate receipts were around 225,000, an increase of 67,000 from last week and 138,000 more than a year ago. Fat lambs were generally 25 to 30 cents lower than last week while feeding lambs at some centers are as much as 1.00 lower. Total offerings including today were 227,000 against 540,226 last week and 450,961 a year ago.

FORT WORTH LIVESTOCK ... FORT WORTH, Sept. 29. (P)—The hog market today continued to remain some of its early week losses, the tone being strong to higher. The bulk of the receipts sold from 9.25 to 10.10. Sows sold from 8.00 to 8.25 and pigs for 1.75. The cattle and sheep trades were nominal affairs.

Crash Halts His World Flight Try

NEW London Bureau ... Here's George H. Stork, of Seattle, Wash., whose round-the-world flight was interrupted by a crash at Marselles, France, when his light airplane broke in two during a take-off. Stork, 36, has been around the world eleven times and is a veteran aviator.

In New York

NEW YORK, Sept. 22.—Funny things happen in this funny town. For instance—a couple of years ago, before all the world fell to playing the stock market, I made a modest drive therein and found a fellow who handled my messenger bag, along with a lot of other "small accounts." He was attached to a big Wall Street firm. Talking with him now and then, I began to wonder what he was doing "in the Street." He didn't seem to belong. He was a scholarly young man, who hinted at a broad intellectual background; there was something of the esthetic about him and a timidity that seemed to have no place in the world of bulls and bears. But so many funny things happen here that after a while, you stop asking questions.

One day I called up about some stock and was told that my "agent" had gone over to Europe for a time. Well, to get on with the story—the other day Tom Davin of the Macaulay publishing concern, called me up and asked me to come over to lunch. He wanted me to meet the author of "the most important biography of the year, in my opinion."

Of course, you've guessed the answer. The young scholar was none other than my friend the assistant broker who had used Wall Street's money to finance his literary effort. His name is Matthew Josephson.

I suppose there are a number of such bursters about Manhattan if coincidence offered the chance to running across them. Of course, there remains the case of the young man who opened a door in front of the Waldorf Astoria in order to put himself through school for the ministry. And there is the tall, strapping "doorman" of the Paramount Theater, who turned to be quite an important artist and married the banker's daughter in Biloxi, Mo. There was the taxi driver who turned out to be a prominent clergyman getting first-hand glimpses at the delights of a great city. There was that other taxi driver who was on his way to becoming a first-rate violinist. There was the negro postman of Harlem who wrote a play and saw it presented on Broadway—and acted in it.

Romance runs close to the surface in Manhattan and the shade of O. Henry still treads the pavement. On the other hand there are thousands who struggle from year to year in some mean position with their eyes pointed to the stars. There are beautiful young lady clerks who wait for a Broadway chorus opening. There are dapper young waiters who failed as actors. There are clerks and typists and reviewers and lamp-shade painters

Mussolini With His Hat Off

Do you ever wonder how Mussolini and the King of Italy get along together? Here they are—the kind at the left, saluting—out watching the recent Italian grand army maneuvers. Notice that Mussolini has his hat off.

PLEDGES ENFORCEMENT ... Curtis Says Party Will Be Impartial in Matter

ENID, Okla., Sept. 28. (P)—Before the Oklahoma women's Christian temperance union Senator Curtis of Kansas, republican vice-presidential nominee signed pledge of the republican party to "honest, faithful, fair and impartial enforcement of the liquor law and every other law of the country."

FIRE KILLS TWO MEN ... Forest Rangers Are Blinded By Smoke; Both Die

SAN BERNARDINO, Cal., Sept. 28. (P)—Two unidentified men, members of a fire fighting crew burned to death here late today when they were blinded by smoke and cut off from the main body of fire fighters engaged in fighting a blaze in Mill Creek, Santa Ana Canyon.

James Fennimore Cooper wrote 30 books in 30 years.

## Farm Relief Main Issue for Smith On Western Tour

### Presidential Campaign Swings Into Closing Days Of September At Fast Pace; Developments Many, Varied

#### Prohibition And Religion Share Attention From Speakers, With Relief Issue Yet Paramount

(By Associated Press)

In tones that reverberate from coast to coast, prohibition, religion and farm relief still command the double time march of the presidential campaign as it swings climactically through the closing days of September.

Campaigning in the West and back through the Canadian border states, this week Governor Smith addressed himself most earnestly to the farmer. He has talked of other things as well, but it was the farm relief issue to which he returned oftent.

Mr. Hoover does not refuse a drink. Even Chairman Rankin of the democratic national committee joined in the denial, saying he knew that the republican nominee did not serve liquor in his home.

Scarcely less unusual in a presidential campaign was a renewed outburst of dissension over the religious issue, centering about Mrs. Mabel Walker Willebrandt, assistant attorney general at Washington.

She denied her series of speeches to Ohio preachers had any other purpose than to spur them to op-

pose Smith because of his prohibition views, but even so, her disclaimer did not quiet controversy within her own party. While Walter Newton, of the republican speakers bureau, said he was only sorry Mrs. Willebrandt didn't have more time to devote to her speechmaking, Ohio's republican committeeman, Maurice Maschke described her activities as "well intended, but misguided."

Following a policy he adopted early in the campaign, Mr. Hoover remained silent on all of these subjects as he conferred with his aides at his Washington headquarters.

The reply to Senator Bruce was made by his secretary, George Akerson, who said Mr. Hoover had not taken a drink since he became a constitutional officer of the government. Chairman Work and Senator Norris replied to some of Governor Smith's western attacks on his opponent.

A constant roar of welcome and

socialism has accompanied Governor Smith throughout his western swing. Whether the cheering can be translated into votes remains for the ballot boxes to disclose, but certainly this visit to the western country has coincided with certain developments which have given so comfort to the republicans.

Senator Norris of Nebraska, an independent republican, ventured the opinion that Smith's Omaha speech ought to satisfy everyone who favored the principle of the McNary-Haugen bill, and that his Denver speech on waterpower was the most "progressive" ever delivered by a candidate for the presidency. Norris disagrees with the Smith prohibition specifications, and regards waterpower as the paramount issue.

From North Dakota a warning of serious trouble among the farmers was given Mr. Hoover by Senator Fraser, and at the same time the North Dakota governor, Walter E.

Maddock, was telling Governor Smith that 80 percent of the farmers of the state were ready to vote the democratic ticket.

The south appears to have been much in Mr. Hoover's thoughts during the present week. Interrupting preparation of the speech he will deliver on October 6 in Tennessee, he received a delegation of first voters from Virginia, and told them the republican party was big enough to look after the needs of every section of the country.

The present plans of the republican nominee will not take him beyond the border country but other the heart of the South, where the republican speakers are to go in usually placid political waters are all in commotion. Already Senator Borah has been stamping through the border states at Hoover's running mate, Senator Curtis, has returned to the same

### Baptists And Baylor Alumni Of All South Panhandle Region To Gather In Lubbock Monday, Opening Campaign

#### E. W. Provence, Tech Business Manager Is Chairman For This District; Session To Be All-Day

The first big assembly of South Panhandle Baptist and Baylor alumni, to launch the Greater Baylor University campaign in district 16, of which Lubbock is the center, will be held in this city on Monday, October 1.

Dr. T. V. Neal of El Paso, undisputed sector after a swing through the west.

standing speaker of West Texas and known throughout the state as a prominent Baptist leader, will make the principal address at the all-day conference, which starts at 10 o'clock at the First Baptist church.

E. W. Provence of Lubbock, now business manager of Texas Technological College, formerly occupying the same position at Baylor, is chairman of district 16 and will preside at the Monday meeting. Six Baptist associations will be represented by their campaign chairmen at the meeting. Chairmen of every county, city and church of the district will attend. The conference

is the seventh of eighteen to be held in Texas.

In addition to chairmen expected to attend, Rev. J. Pat Horton of Plainview and Rev. E. D. Morgan of Paducah, both speakers for the campaign will be present with a large number of laymen.

The popular campaign dates from Nov. 23 to Dec. 4. The Texas Baptist General convention dates from Nov. 13 to Nov. 18. "Baylor Sunday" will be observed Nov. 25 to inaugurate Greater Baylor campaign in larger Baptist churches of the state.

What is thought to be the world's biggest tortoise arrived at the London zoo recently, is three feet 8 inches long and is nearly one hundred years old.

There is in Fifth avenue, New York, a 12 story apartment building in which every door knob is gold plated. In one flat every hinge, door and key is of gold.

#### Bruce Created Storm Campaigning Over Prohibition Took An Astonishing Turn When Senator Bruce of Maryland Gave Currency To A Quickly Denied Story That

#### Commission And Engineer Tangle Over Equipment

#### Attorney General Is Asked For Ruling On Power To Authorize The Purchase Of Equipment

(By Associated Press)

AUSTIN, Sept. 28.—The deadlocked dispute of the state highway department and board of control over purchase of about \$200,000 worth of road machinery and equipment will be taken by Attorney General Claude Bullard for a ruling on whether the highway commission or board has the final say on what equipment shall be bought.

Ray L. Tinsell, purchasing member of the board, controlled, said today.

Tinsell received a letter from Gib Gilchrist, state highway engineer, declaring he was authorized to say for the highway commission that it could not accept changes in the provisions recommended by the control board.

The letter expressed opinion that right of the highway commission to its own machinery choices are upheld by rulings of the attorney general.

Up to Attorney General.

Tinsell said he would stick to his guns unless the attorney general decides that the board has no right to limit on its own preferences.

Gilchrist's letter and a statement from Tinsell both discussed the fact that the control board's recommendations total \$22,922.48 more than the highway department's.

"Had the highway department recommended the purchase of just what they advertised for, their recommendation would have been of an amount like ours," Tinsell said. "I believe that any fair-minded person will agree with me that when an advertisement is run for four weeks in four daily papers for a certain type of equipment that type should be bought and the person advertising should not step out and purchase something on which he had no competitive bid."

Changed Type of Truck.

"The highway department asked that it use and one-half to two ton trucks, and the best makes in the United States were submitted to them on this class of truck, but for some unknown reason the highway engineer seemed to ignore this fact, and recommended the purchase of 25 one-ton trucks at \$62 each.

"X X Now as to the \$22,000 difference, the truck recommended by the board of control in lieu of the one-ton truck, nationally known, and with service stations all over Texas—at price of \$1,692.31 each. It is the same truck which the highway bought last year and which has proved to have practically the lowest upkeep cost of any one and one-half ton truck that has been bought by the state. This accounts for practically \$22,000 of the difference in the board's recommendation and that of the highway department.

Operating Cost Lower.

"In comparison of the operation cost in Harris county, the tractor recommended by the board shows a cost of \$416 per hour, against a cost of \$713 per hour for the tractor recommended by the highway commission; and in the total number of hours work during April, May and June, 1928, the tractor the board wants to purchase a few of worked 24 hours, while the tractor of the highway department worked 733 hours.

Miss Bennett And Dr. Stiles Marry In City Saturday

Quiet Ceremony Is Read by Rev. G. D. Robinson And Friends of Couple Attend The Wedding.

Miss Margaret Bennett and Dr. G. D. Stiles were quietly married Saturday afternoon at 2 o'clock by Rev. G. D. Robinson, a life-long friend and college mate of the bride's father, at the Robinson home, 1407 10th street. The couple left for a honeymoon without announcing a destination and will be away for about a week.

Mrs. Bennett is a graduate of the University of California and a graduate of Trinity University at Washburn. She has studied art and music at Texas Christian university. She is a member of the Omega Psi Chi, a social organization at the Technological college.

Reception

assisted by Betty Richardson, Frances Campbell, Birdie Fay Partain and Catherine Royalty in serving lollypops. Mrs. J. C. Granbery had charge of the sophomore booth where pop corn was sold.

The receiving line was composed of Mr. and Mrs. H. W. Richardson, James who had charge of the health and Clarence Whitfield, president of the Methodist Student Federation, and H. Y. Price, president of the Epworth League.

Approximately three hundred students attended the First Baptist open house and were greeted by a receiving line composed of the president, Dr. W. R. White, and Mrs. White, and the heads of various departments in the church and Sunday school.

The business and professional girls class, of which Mrs. J. F. Hankins is teacher, served refreshments. E. W. Proctor was master of ceremonies and directed stunts and various entertainment features.

A football game, played with red and purple balloons, was an exciting entertainment feature. Short welcome talks were made by Rev. Walter F. Jennings.

Other entertainment features included the grand march, a contest and a "love story" in music. Special numbers were interspersed, given by Mrs. E. A. Mills, Miss Ethel Quirk, E. E. Mills, Miss D'Anna Sammons, the Paul Harrison and Miss Annah Jo Pennington and the C. E. band.

The business and professional girls class, of which Mrs. J. F. Hankins is teacher, served refreshments. E. W. Proctor was master of ceremonies and directed stunts and various entertainment features.

Slim Pocketbook Is Small Handicap In Wise Buying, Galli-Curci Says

This is the fifth of a series of the articles on "Dressing Economically," written exclusively for NEA Service and The Journal by Amelia Galli-Curci.

In order to dress smartly today it is not necessary to have a big bank account. Indeed it has nothing to do with a great outlay, if a woman plans to economize. Taste and wise buying will work wonders.

Smart dresses for day wear, cut and made along simple lines are really lovely, and do not come at a high price. There is one sad fact, however. To dress with economy a woman must have a slim figure.

One fur coat will carry a woman through several winters with due repairing and glazing. A raglan of smart cut will serve her between seasons, worn with a fur neck piece which I find much more comfortable than a fur-trimmed coat.

The clever girl or woman who wants to get through a season with a couple of evening dresses looks well before she leaps. She wants to have them absolutely becoming, but she avoids things that are too striking.

When I was a young girl in Milan and my father, meeting with business reverses, had gone to Boston America to make his fortune, I taught piano to support the family.

She was enthusiastic in her praise of the workmanship and variety of articles shown, contributing much to the success of the exhibit.

Four club girls will be sent to the fair, also. These are Geraldine Wicker, of Peary, a first year club girl; Helen Wilke, of New Hope, a second year girl, and Virginia Mathis, of New Hope, a third year girl.

Other entertainment features included the grand march, a contest and a "love story" in music. Special numbers were interspersed, given by Mrs. E. A. Mills, Miss Ethel Quirk, E. E. Mills, Miss D'Anna Sammons, the Paul Harrison and Miss Annah Jo Pennington and the C. E. band.

Approximately three hundred students attended the First Baptist open house and were greeted by a receiving line composed of the president, Dr. W. R. White, and Mrs. White, and the heads of various departments in the church and Sunday school.

The business and professional girls class, of which Mrs. J. F. Hankins is teacher, served refreshments. E. W. Proctor was master of ceremonies and directed stunts and various entertainment features.

Approximately three hundred students attended the First Baptist open house and were greeted by a receiving line composed of the president, Dr. W. R. White, and Mrs. White, and the heads of various departments in the church and Sunday school.

Few Socialities Are Recorded In Cities of Plains

Breakfast At Ralls Given In Compliment To Four Women by Mrs. J. Edd McLaughlin.

Few social affairs were recorded in towns of the South Plains last week. Fairs were given in several places and social affairs were postponed until a later date.

Among the lovely social affairs in Ralls last week was a breakfast at the Ralls Inn given on Wednesday morning by Mrs. J. Edd McLaughlin, honoring her sister-in-law, Mrs. A. S. Lewis, Jr., of Dallas.

The J. C. Dickey family, of Floydada, met in reunion last Sunday at the Dickey home. Among those who attended were Mr. and Mrs. C. J. Brunnett and children, of Amarillo; Mr. and Mrs. C. O. Knight, of Claude; H. M. Knight, of Long Beach, Calif.; H. A. Knight, of Stamford; Mrs. W. H. McInnis, of Wellington; Mr. and Mrs. A. L. Seoggin and children, Mr. and Mrs. Right Dickey, Mr. and Mrs. J. Ray Dickey and son, Mr. and Mrs. E. C. Reynolds and children; Mrs. Celia Ross and Mr. and Mrs. A. P. Horn, of Floydada.

The marriage of Miss Ruth Hamilton, daughter of Mr. and Mrs. H. H. Hamilton, of Plainview, and Roy Oswald, son of Mr. and Mrs. J. C. Oswald, of Plainview, was of interest in that city last week. The couple was married by Rev. J. Frank Morris on September 20 in Fort Worth and spent a honeymoon in Houston, Galveston and San Antonio.

A pretty affair in Snyder last week was a party given honoring Mrs. Harold Enfield, of Hollywood, Calif., by her daughter, Mrs. Frita B. Smith. Twenty-eight guests played bridge during Thursday afternoon.

Little Field Club Host to Teachers In Public Schools

Musical Program and Talks Are Given; Orchestra Music Is Played During The Dinner.

LITTLEFIELD, Sept. 29, 1928.—The Rotarians gave a dinner of exquisite appointments Thursday evening of this week, honoring the faculty of the Littlefield schools. The dining room, with its wealth of roses, dahlias, and other late summer flowers artistically arranged, was satisfyingly beautiful.

During the dinner the guests were entertained by an orchestra, which was furnished by Max McClure. R. E. McCaskill, president of the Rotary club, presided at the festive board, and a very delightful program was enjoyed.

An address of welcome, given by T. W. Potter, was responded to by F. O. Boles, principal of the high school. To the delight of all, Mrs. T. W. Potter sang Burchleigh's negro spiritual, "Deep River" and "Teach-a-cher's 'In the Garden of My Heart'."

Teachers were laid for the following: B. M. Harrison, F. O. Boles, Helen Ruth Moore, Mary Louise Thaxton, G. M. Irvin, Mary Pauline Porter, Mrs. M. M. Brittain, G. H. Helwig, Anne Louise Wiseman, Anne Benzel, J. E. Chisholm, Elsie Mitchell, Thelma Kilgough, Mrs. E. S. Rowe, Mrs. J. M. Tunnell, Lucille Lillogun, Jessie Hillman, Gladys Wales, Margaret Everheart, Mrs. Malloy Ester, Mrs. J. C. Tuttle, Ruth Matthews, Mrs. Janis Powers, Audie Terrell, Mrs. E. C. Harrison, Jimmie White, Mrs. R. A. ...

Wellington; Mr. and Mrs. A. L. Seoggin and children, Mr. and Mrs. Right Dickey, Mr. and Mrs. J. Ray Dickey and son, Mr. and Mrs. E. C. Reynolds and children; Mrs. Celia Ross and Mr. and Mrs. A. P. Horn, of Floydada.

A social event in Floydada last week was a bridge party given by Mr. and Mrs. L. C. Surginer on Thursday evening.

The marriage of Miss Ruth Hamilton, daughter of Mr. and Mrs. H. H. Hamilton, of Plainview, and Roy Oswald, son of Mr. and Mrs. J. C. Oswald, of Plainview, was of interest in that city last week. The couple was married by Rev. J. Frank Morris on September 20 in Fort Worth and spent a honeymoon in Houston, Galveston and San Antonio.

A pretty affair in Snyder last week was a party given honoring Mrs. Harold Enfield, of Hollywood, Calif., by her daughter, Mrs. Frita B. Smith. Twenty-eight guests played bridge during Thursday afternoon.

Wellington; Mr. and Mrs. A. L. Seoggin and children, Mr. and Mrs. Right Dickey, Mr. and Mrs. J. Ray Dickey and son, Mr. and Mrs. E. C. Reynolds and children; Mrs. Celia Ross and Mr. and Mrs. A. P. Horn, of Floydada.

BRIDGE MADE EASY

(Abbreviations: A—ace; K—king; Q—queen; J—jack; X—any card lower than 10.)

Expert versus Novice.—3. Another illustration of cautious play: Dummy—Diamonds A K 8 3 2. East—Q. Declarer—J 10 5 4. West—8 7 2.

On the first round of diamonds the declarer should play the diamond Jack and overtake with the diamond King to ascertain the probable location of the diamond Queen. This is a "feint" finesse and at the same time an effort to play for the drop of the possible singleton diamond Queen. If the Queen does not fall on the first round and east is blank of the suit, the declarer should return to his own hand in another suit and finesse the diamond 10.

At times, a finesse should be taken in a watchful manner as in the following illustration: Dummy—hearts, A K J 5 4. East—7. Declarer—8 3 2. West—7.

On the first round of hearts the declarer should lead the heart 4 and take with the King. Then he should return to his own hand in another suit. The fall of the cards guides him as to whether to finesse the heart Jack on the second round upon the card distribution.

It requires 100,000,000 miles of wire to run the world's telephones. Of this wire mileage some 68,000,000 are found in North America. Germany with 10,000,000 has the second greatest mileage, and Great Britain comes third with 7,000,000. Canada with 3,500,000 is fourth.

The Mersey tunnel, the ceremony of "holing through" which took place recently, will be the largest subaqueous tunnel in the world. Four lines of traffic will run through the tunnel, and the distance of three miles from the street level at Liverpool to Birkenhead will be negotiated under normal conditions in eight minutes.

Cast Is Selected For Next Theatre Play To Be Given

"Nothing But the Truth" To Be Presented; Date To Be Selected For Latter Part Of October.

A cast for "Nothing but the Truth" the first Little Theatre play to be presented this season has been selected by the casting committee of the organization and practice is starting for the production, which will be presented the latter part of October. Mrs. E. E. White is director.

Rev. Luther G. H. Williams, rector of St. Paul's Episcopal church, is to take the role of E. M. Ralston, one of the leading characters in the play, and Miss Bernice Phillips is cast as his daughter, Gwendolyn. Johnnie Jenkins is to play the part of Robert Bennett, Miss Ralston's lover. Others in the cast include the following: Dick Donnelly, J. R. Dallas; Clarence Van Dusen, John Edmanson; Sable, Mrs. John Edmanson; Sable, Mrs. Ruth Edmanson; Ethel Clark, Mrs. Leta Edgar; Mrs. Ralston, Miss Blanche Bean; maid, Miss Lou Alice Watson; Bishop Doosan, Benjamin Powell.

The play is a comedy in three acts written by James Montgomery and is a popular one for presentation.

TO POST PARTY

Lubbock Women Extended Invitations

Mrs. J. N. Powers of Fort, has asked several Lubbock women to attend a bridge party at her home on Wednesday afternoon of this week. She is entertaining a club on that afternoon and inviting a number of other guests. Those who have received invitations here are Mesdames Roy Dean McKinney, Frank Jones, Charles Read, M. L. Price, Lawrence Bacon, Kenneth I. Kimbrell, O. L. Slaton, Byron Dickinson, Dorrance D. Roderick, Miss Della Wilkinson and Miss Ruth Slaton.

The Mersey tunnel, the ceremony of "holing through" which took place recently, will be the largest subaqueous tunnel in the world. Four lines of traffic will run through the tunnel, and the distance of three miles from the street level at Liverpool to Birkenhead will be negotiated under normal conditions in eight minutes.

YOUR CHILDREN by Olive Roberts Barton ©1928 by NEA Service, Inc.

Mr. Featherwell had gone pretty shabby all summer. When his wife remonstrated, he said, "Oh, wait until fall. Then I'll get some real clothes. You're going to be proud of me this winter."

The next morning being Saturday, Mrs. Featherwell appeared at the breakfast table, all hatted and costed and ready to go. Billy and Tommy and Leola and June also looked too "wee-wee" and outdoorish for a day at home. It was evident that a shopping expedition in town impended.

Mr. Featherwell had not forgotten the shock that succeeded just such an expedition as this in the spring—the shock coming two weeks later when he opened his first-of-the-month bills.

So the wheat-cakes lost their appeal a bit when he saw the signs of another non-stop flight. "Bessie, business hasn't been so good all summer," he began lamely.

"Oh, cut that out, Ed," said Mrs. Featherwell. "I know it all by heart. But here are four children to clothe and excuse me for living myself, too. It's the change of season when every self-respecting family has to buy new clothes for cold weather. The children need every-

thing from crowns to socks and I'm not going to be all fall getting it done. You can count on at five and we'll go to the Casino for dinner and then to the movies."

Mr. Featherwell's silence was evidently taken for consent, and the family departed.

The next March Mrs. Featherwell said, "Ed, I do wish you'd get yourself some decent new spring clothes. You've looked like a scarecrow all winter. That old blue overcoat—"

Need I finish the story?

UTILITIES INCREASE

Steady Increase Is Shown By Survey

SAN ANGELO, Sept. 28.—A survey of utility consumers, recently completed in San Angelo reflects a steady increase ranging from 20 to 48 per cent since 1926.

For January 1, 1928, to September 1, 1928, power meters increased from 1,906 to 2,331; light meters installed at the end of 1927 totaled 4,331 and on September 1, this year, there were 6,740 consumers.

A boost of telephone connections from 4,917 to 12,277 to September 1, has necessitated changing to the automatic dial system, which will be out over about September 29, according to advice from telephone officials. Water meters have increased from 4,100 to 5,570 in the nine months period.

Building permits totaled \$4,807,000 and September 1, this year the figure had already reached \$2,397,721.50, with several large contemplated projects planned during the final three months of the year.

New and inexpensive glass breakfast sets add zest to guest trays. One can laquer old tin trays some neutral shades, like cream, to better set off a flamingo or butterfly yellow set.

For First Monday Buys A Charming FALL FROCK A special offering that once demonstrates our superiority in value giving as well as the advantages we are able to present because of our Eastern buying connections. They're smartly developed from velvet flat crepe, satins and sport jersey and velvet and georgette combinations. They're super values, and the character of the designing, the smart styles, and new colors together with the wonderfully low price, should interest every woman on the South Plains, because of the sensational values. We advise early shopping, for it is a tremendous opportunity to save, and still secure a smart dress for many sports occasions. JARETT'S FASHION SHOP 1105 Broadway

Attractive In Appearance— Perfect In Performance— NEW PROCESS GAS RANGES are the answers. Our Fifth Carload of New Process Gas Ranges are in Transit. **FIRST PRESBYTERIAN CHURCH**  
Corner Fourteenth and N  
Rev. Jack M. Lewis, Pastor  
Sunday school begins promptly at  
9:30. Promotion Day will be ob-  
served. Special program. We es-  
pecially invite the students of the  
college to come today and join the  
young people's class of Dean J. M.  
Gordon.

Morning worship will begin at 11.  
The pastor will address his sermon  
to the young people in particular.  
The subject will be, "Taking a  
Mountain." The choir will sing an  
anthem, "Holy Spirit, Faithful  
Guide," by Mattie. Mr. Blocher  
and Mr. Brown will sing "The  
Gifts" by Faure as a duet.

The young people of the college  
and the town are urged to remem-  
ber the Christian Endeavor meet-  
ing. It will be held early in order  
that the young people can attend  
the union service at the college. The  
Junior Endeavorers will meet at  
8:30 and the Intermediate at 9:15.  
There will be no evening service  
in this church on account of the  
union service at the college.

**JUNIOR CHRISTIAN ENDEAVOR**  
Subject—Living for Jesus at  
Babb.  
Scripture Lesson—John 18:24-30.  
Leader—Maydell Hampton.  
Prayer.  
Song—"What a Friend We Have  
in Jesus."  
Traverse verse.  
Song—"Kind Words Shall Never  
Die."  
Roll call.

Senior prayers.  
Prayer drill.  
Speaker's talk.  
Blackboard talk—Katherine Bell.  
Questions for discussion:  
1. What should be our main pur-  
pose during this school year?  
2. What are some of the dangers  
that beset young Christians at  
school?  
3. How will the first sentence in  
our Christian Endeavor pledge help  
us at school?  
4. What has been the biggest  
temptation I have met at school?  
5. Can schools playmates be won  
for Christ if they can't respect us?  
6. Why do "actions speak louder  
than words"?

7. Do you think Christian charac-  
ter counts for much with your  
teachers?  
8. From "Was It Thou?"—Marion  
Phillips.  
Benediction.

**SENIOR CHRISTIAN ENDEAVOR**  
Subject—"Goals for Our Society"  
Quiet music—Miss Jennie Robi-  
son.  
Call to worship—Dolores Lynn.  
Hymn—"O Worship the King."  
Prayer—Day.  
President's talk—Elbert Hester.  
Reports of committee chairmen:  
1. Lookout—Hubert Hopper.  
2. Missionary—Stan Womack.  
3. Social—Mary Louise McNeil.  
4. Finance—Theresa Wadell.  
5. Prayer meeting—Corrine  
Overstreet.  
6. Publicity—Dolores Lynn.  
Discussion.  
Senior prayers.  
Talk—Margaret Cooper.  
Benediction.

**FIRST METHODIST CHURCH**

Services are held regularly each  
Sunday at 11 a. m. and on each  
Wednesday at 8 p. m. when testi-  
monies of healing are given. Sun-  
day school is held at 9:45 a. m.  
for pupils under the age of twenty.  
The subject of the lesson for to-  
day is "Christian Science," and the  
Golden Text is from Isaiah 52:7:  
"How beautiful upon the mountains  
are the feet of him that bringeth  
good tidings, that publisheth peace:  
that bringeth good tidings of good,  
that publisheth salvation; that saith  
unto Zion, Thy God reigneth!"  
A reading room is maintained at  
the church where all authorized  
Christian Science literature may be  
read free, purchased or borrowed.

and is open on Tuesday and Friday  
afternoons from 2 to 5 o'clock.  
The public is cordially invited to  
attend the service and enjoy the  
reading room.

order to take care of the increased  
attendance.  
At 11 a. m. Dr. L. N. D. Wells, of  
Dallas, will occupy the pulpit.  
The Junior Endeavor Society  
meets at 6:30 p. m. The Senior  
Endeavors meet at 7 p. m.  
At the eleven o'clock service, Mrs.  
Joe Coursey will sing "The Good  
Shepherd" and the choir will fur-  
nish other special music.  
No preaching service at the eve-  
ning hour account of the Conven-  
tion sermon at the Tech college at  
8 p. m. when Dr. Wells will de-  
liver the sermon.

**BIG YEAR SEEN**  
Three Days of Freshman  
Enrollment at Canyon  
CANYON, Sept. 28.—With three  
days of Freshman enrollment clos-  
ing, the West Texas State Teachers  
College is now enrolling upperclass-  
men in what promises to be the  
best year of history at the college.  
This is the nineteenth year of  
the school and every year has seen  
substantial growth in attendance,  
standardization and recognition or  
all three. President J. A. Hill has  
expressed his gratification with the  
splendid quality of the 1923-24 stu-  
dent body as shown in the first  
meetings which have been held this  
week.  
Enrollment will continue through  
the first day of October, at which  
time instruction begins.  
Seventy members of the faculty  
are back in their places after vaca-  
tions and leaves of absence.  
A merit-in is a method of en-  
graving.

**REVELATION WRECKED ORIENT**  
Reason for the Orient road prov-  
ing a failure to its original stock-  
holders was the Villa revolution in  
Mexico. Stillwell had organized, sur-  
veyed and started building the line,  
which when completed on its origi-  
nal course, will shorten the route  
from Kansas City and the middle  
west to the Pacific coast, at Topo-  
lepe, Mexico, by more than 1,000  
miles, and was building on it at  
both the United States and the  
Mexico ends, when Villa's control  
of northern Mexico stopped all op-  
erations.  
All Texans are familiar with the  
many years the Orient had to fight  
to keep breathing, because of  
drouths and conditions beyond the  
control of man. And all of us are  
familiar with the "come-back" the  
road has made and its recent pur-  
chase by the Santa Fe system.  
Predicted Oil Field.  
But all of us are not aware of  
the fact that five years ago, when  
Arthur E. Stillwell made a trip over  
the line that he then predicted that  
within two years of this trip great  
oil fields would be discovered along  
its route through West Texas and  
that it would come into its own.  
That prediction was before oil had  
been found near San Angelo.  
Stillwell's building of the Kansas  
City Southern railway, from Kansas  
City to the shores of Lake Sabine,  
at the southern extremity of Texas,  
marks the beginning of Texas port  
development. No port of conse-  
quence existed on the Texas coast  
at the time he decided to build  
the railroad at Lake Sabine, 15  
miles from the Gulf and founded a  
town that he named Port Arthur,  
occupying the port of Galveston. He

## Stilwell Typified The West Railroad Pioneer Who This Week Was Founder Of Many Roads; Built Seaport

There has been no man in Amer-  
ica whose activities were more closely  
related to the grand sweep of the  
westward march of population  
during the past thirty years than  
Arthur E. Stilwell, whose death in  
New York city at the age of 83 was  
announced last week.  
And perhaps no man better typi-  
fies the spirit of the plains country  
than did he.

Stillwell was called a dreamer.  
And he admitted the name.  
Deer as Well as Dreamer  
But the records of his accomplish-  
ments prove him to have been a  
doer as well as a dreamer. He not  
only built the Kansas City Southern  
railway, and more than a dozen  
other railroads, through promot-  
ing them in the face of money pan-  
ics and conditions ordinarily consid-  
ered impossible to overcome, but he  
built towns and cities and dug ship  
channels.

Of his entire list of promotion  
endeavors, which totalled the rais-  
ing of more than \$160,000,000 in  
stocks, only one of those endeavors  
proved a loss to the men who in-  
vested in his organization. And  
that one project is the one most  
closely related to the plains coun-  
try, the Kansas City, Mexico and  
Orient railway.

**EXTENSION WORK BIG**  
Increase in Enrollment For  
Fall Courses  
CANYON, Sept. 28.—Extension  
activities promise to furnish a  
large amount of work for the West  
Texas State Teachers College this  
year. The opening days saw fifty  
four students enrolled for corre-  
spondence work.  
Those in charge of this work state  
that the enrollment includes a large  
number of teachers, a number of  
college students who are out earn-  
ing money with which to continue  
their college work, and citizens in  
various walks of life. Ambitious  
mothers who wish to keep up with  
their children are among those  
taking courses in English, history,  
psychology and other subjects.  
Classes are being arranged in  
towns near Canyon in order to  
accommodate persons who cannot  
go away to college, teachers in the  
schools, business men who wish to  
do some studying and others. These  
courses usually carry college credit  
if that is desired.

**TINY CUSHIONS**  
An era of comfort is upon us and,  
therefore, such little aids as tiny  
cushions which easily fit into the  
small of the back are chic. Every  
room should have a couple of these  
little shaped pillows, preferably  
made of quilted bits of silk or of  
modernistic new fabric in pleasing  
pattern.

# Now a mattress sale without equal

## The Famous EDLOW Inner-Spring Mattress at a Very Special Price for 6 Days Only

Here is a mattress that will not sag—will not stretch—will not harden—a mattress that is permanently resilient, supremely comfortable, longer lived. Unlike the average mattress, the Edlow does not become hard and packed and sunken-in where bodies lie. It is always fresh and sweet because air cushions permit the circulation of fresh, sweet air IN the mattress. It is as far ahead of the ordinary mattress as the incandescent light is ahead of the candle.

**640 Cantilever Springs**  
Keep the Edlow Soft, Resilient, Restful

One Edlow INNER-SPRING Mattress will last you permanently. It will never lose its resiliency and will always seem as fresh and new as the day you bought it. Make it a point to see the cut-open Edlow today.

Under each of the forty bands of this mattress, between layers of jointed section layers, is an Edlow Spring Unit—each unit consisting of 16 cantilever type springs, made of the highest grade piano wire, as strong as it is light. (The springs, in all, weigh less than 4 pounds.)

In this Special Selling Event you buy the Edlow at a price far less than regular—at a price, indeed, that you would ordinarily pay for just an average mattress with none of the Edlow's merits.

**Buy your Edlow Mattress in this sale—you'll never regret it!**

# \$23.85

## The EDLOW Inner-Spring Mattress

### ALL OVER THE UNITED STATES

This campaign is being conducted to acquaint people with the wonderful advantages of this new mattress that features a new kind of construction. Special concessions in price are being made to encourage its purchase, for we as well as the manufacturers have unlimited confidence in the ability of this new type mattress to produce that character of satisfaction that will create new customers for the stores that sell them.

This is a special offer and a special price. Even if you are not in the market just at present for a mattress, you owe it to yourself to familiarize yourself with the merits of this fine mattress.

# "Chicago", Film Version Of Great Play, Features This Week At Palace

## Many Stars Will Display Art For Movie Fans Here

Charlie Murray, Dick Dix and Other Headliners To Be Offered By Operators In Lubbock

"Chicago," screen version of a stage play which swept New York like wildfire during the season of 1927, comes to the Palace this week and probably this is the week's headliner of cinema attraction.

Bearing a hint of future screen delicacy, further announcement of the approaching engagement here of "The King of Kings" Cecil B. DeMille's super picture, was made yesterday.

Starting the week in "Vamping Venus," First National comedy, which starts a run at the Palace today, Charlie Murray carries the humorous side of the story, and supporting are Louise Fazenda, Thelma Todd, Russ Powell and Spec O'Donnell.

## Richard Dix In Baseball Story

Mike Reedy, Oldest Player In Baseball, Will Be Seen In "Warming Up" At The Palace

The name of Mike Reedy went down on another contract today. Mike Reedy is the oldest baseball player in the United States and he is in baseball again.

It came about when word went through the studio that Richard Dix, the Paramount star, was to start a picture of the baseball diamond. Reedy, 78, in some mysterious way managed to get the tip ahead of them and he came to Dix and said "Easy Come, Easy Go," and wasn't thinking much about the forthcoming production.

## Rains Continue Near San Angelo

Intermittent Showers Offer Scant Cheer To Tourists Stranded In That Part Of State

SAN ANGELO, Sept. 29.—Intermittent heavy and light showers, which started falling here last Friday, continued through Thursday and heavily overcast skies offered little encouragement to stranded tourists wishing to leave for their homes.

Sometimes the most rapid butter can be prepared if broken up and stirred into fresh milk. Allow it to absorb the milk, then drain, wash with cold water and work it into the butter.

## Hollywood Is Filming Much-Talked Companionate Marriage Book Movie

Betty Bronson . . . . . cast in the film version of "Companionate Marriage."

## "Vamping Venus" To Start Sunday

Charlie Murray Carries The Role Of Politician In First National Comedy, At Palace

"Vamping Venus," the First National comedy which comes to the Palace Theatre today opens in New York today and jumps back to ancient Greece, taking the characters in the modern sequences and showing them as mortals and immortals of the golden days.

Charlie Murray, who plays a New York politician, becomes the political dictator of Greece.

Louise Fazenda, who plays his nagging wife, is Circe, the enchantress, in the Greek scenes.

Thelma Todd is a cabaret dancer in New York and becomes Venus.

Russ Powell, the cabaret proprietor, becomes Bacchus, Joe Bonomo, the strong man in the cabaret, is Hercules. Spec O'Donnell, a messenger boy, becomes Mercury, and other characters take like parts.

The comedy situations in such a story are unlimited, and the fun flows merrily through the picture. It is a "natural" spot for Murray and Miss Fazenda, famed as fun makers for the screen, and both take advantage of every situation that gives cause for mirth.

"Vamping Venus" was directed by Eddie Cline. It is from an original story by Bernard McConville, and was adapted for the screen by Howard J. Green.

While humor predominates, the picture boasts an artistic background seldom seen in a comedy. There are magnificent sets, hundreds of players and a story that holds interest from start to finish.

"Vamping Venus" has been termed the comedy hit of the year.

## BUCK PRIVATES

A comedy riot of the army of occupation mostly occupied with a devastating pair of eyes. Full of mirth, humor, fun, pathos and embarrassing moments.

## 'Chicago' Screen Version Of Play Here Wednesday

Phyllis Haver Is Leading Character In Story Of Chicago Underworld; To Be At The Palace

It is a far cry from the role of the high born and regal Countess De Launay in "The Fighting Eagle" that of the selfish and hateful Roxie Hart in the special De Mille studio production, "Chicago," which comes to the Palace Theatre on Wednesday next.

Probably no screen actress can point to a more diversified series of roles than Miss Haver, who portrayed the chief feminine parts in "Up in Mabel's Room," "Nobody's Widow," "Dan Juan," "The Little Adventurers," "No Control," "The Nervous Wreck," "The Way of All Flesh" and "The Fighting Eagle."

Her selection by Mr. De Mille for the outstanding character creation of "the most beautiful jazz singer in the latest honor to come to Miss Haver."

A recent issue of Photoplay devotes one of its feature pages to an interview concerning the rapid rise of Miss Haver in recent months, which she explains in part as follows:

"I can hardly believe the success I've had this year—it has arrived so gradually for me. I've been working forever, almost since the day I was born. I've been in Douglas Kansas. My mother and I left there when I was four and came to Los Angeles. When I was fourteen I was playing a piano in a picture show, and the next year I was getting up at six in the morning and riding on a trolley nearly two hours to get to Sennett's work and work all day for twelve dollars a week."

White-silk blouses should be rolled in towels until ironing, never hung out to dry. The ironing of the white-silk in the rinse water—it is as effective as any of the colors.

Joseph von Sternberg and Sid Grauman "cheering the rag" over cups of coffee. . . . Either Balfour or the man with two other women, beautiful but apparently not of filmland. . . . Sally Eilers and Sue Carol just coming in with boy friends. . . . they're two of the most "cup and coming" girls in the cinema village. . . . Johnny Walker showing a friend how he would walk a tight rope—if he had one. . . . over in a corner, Olive Borden earnestly engaged in conversation with Phil Schaner. . . . Phil doesn't seem able to see it, but you can't blame him for that. . . . the crowd's starting to thin out. . . . some late arrivals. . . . apparently a bit woozy. . . . and drinking several cups of black coffee. . . . and so far on into the night until dawn begins breaking and the street-lights are turned off.

After the rest of Hollywood goes to sleep for the night, Henry's becomes the bright spot of the boulevard. . . . here is where the movie folk congregate. . . . It is their own gathering place where they can get away from the ever-gazing eyes of tourists and movie-struck flappers. Henry, himself, short, stout and jovial, mixes among "the folks" . . . calls them all by their first names. . . . talks to them. . . . and they like it. . . . less important actors leave feeling that they are really somebody in the village after all. . . . Henry's closest friend probably is Charlie Chaplin. . . . night after night Chaplin can be seen here. . . . sometimes engaged in serious conversation. . . . other times feeling in gay spirits. . . . and clowning for the amusement of those at his table. . . . Charlie is just as funny off the screen as he is on it. . . . I watched him one night

and the man with two other women, beautiful but apparently not of filmland. . . . Sally Eilers and Sue Carol just coming in with boy friends. . . . they're two of the most "cup and coming" girls in the cinema village. . . . Johnny Walker showing a friend how he would walk a tight rope—if he had one. . . . over in a corner, Olive Borden earnestly engaged in conversation with Phil Schaner. . . . Phil doesn't seem able to see it, but you can't blame him for that. . . . the crowd's starting to thin out. . . . some late arrivals. . . . apparently a bit woozy. . . . and drinking several cups of black coffee. . . . and so far on into the night until dawn begins breaking and the street-lights are turned off.

## Horner A Friend Of Smaller City And Show Lovers

Charles Horner, who was principally responsible for the production of "Naughty Marietta," to be at the Palace Theatre on Wednesday, Oct. 10, for twenty-five years has been closely associated with the musical, entertainment and dramatic field, both nationally and in Kansas City, where he maintains his head office.

Charles Horner, who was principally responsible for the production of "Naughty Marietta," to be at the Palace Theatre on Wednesday, Oct. 10, for twenty-five years has been closely associated with the musical, entertainment and dramatic field, both nationally and in Kansas City, where he maintains his head office.

For years Mr. Horner has managed renowned artists, Schumann-Heink and Padewski appear under his direction.

And last summer Mrs. Schumann-Heink conducted a five weeks Master Course for singers at the Horner Institute. It was the first time this famous artist ever undertook the instruction of others. Gifted singers and building headlines came from every state in the union and several out of the class are already on their way to fame and fortune.

Mr. Horner spends considerable time in his New York and Chicago offices. For years he has made an annual trip to Europe. Time and time again he has been identified with the most beautiful productions in musical comedy, light opera, grand opera and the revues.

But he has long regretted that the few road shows that are able to make expenses on tour fall far below the degree of excellence that he believes the public would like to enjoy.

In his opinion, hundreds of progressive cities are deprived of first-class productions. This is not solely the fault of managers but of the unfortunate system under which they have been compelled to operate. The expenses connected with sending out a large production make the undertaking extremely hazardous.

For months before sending his metropolitan production of "Naughty Marietta" on tour, Mr. Horner and his associates have worked to overcome the difficulties that have defeated so many managers.

First, guaranteed bookings were made with reputable organizations and colleges, universities and theater owners.

The picture revolves around Harold, his conquest of the city and of his "sweetie" Lillums, and his eluding of the school vamps, Giggles. These and the other characters in the film, first came into fame in Carl Ed's celebrated newspaper comic strip of the same name, from which the picture is adapted.

The title role is portrayed by Arthur Lake, one of the best-known juvenile comedians, while Lillums is played by Mary Brian of "Piper Pan" fame. The role of Giggles is enacted by Alice White. Lester Littlefield is Dad Jenks, Jack Duffy is Grandpa, Teen, Jack Egan is Horace Teen, and Hedda Hopper is the Widow Hazzit.

## High School Life Is Movie Subject

A rollicking and hilarious story of high school activities in a small town with a great cast of youngsters is the First National farce comedy "Harold Teen," showing at the Lindsey Theatre Monday.

The picture revolves around Harold, his conquest of the city and of his "sweetie" Lillums, and his eluding of the school vamps, Giggles. These and the other characters in the film, first came into fame in Carl Ed's celebrated newspaper comic strip of the same name, from which the picture is adapted.

The title role is portrayed by Arthur Lake, one of the best-known juvenile comedians, while Lillums is played by Mary Brian of "Piper Pan" fame. The role of Giggles is enacted by Alice White. Lester Littlefield is Dad Jenks, Jack Duffy is Grandpa, Teen, Jack Egan is Horace Teen, and Hedda Hopper is the Widow Hazzit.

First, guaranteed bookings were made with reputable organizations and colleges, universities and theater owners.

WE ALL DO FADE AS A LEAF

FALL is here. The summer has passed away and the leaves are falling. Have you noticed the difference there is in the falling leaves? Some get more and more beautiful as they fade. That may seem a queer thing to say, but you notice the leaves of the beautiful runner that covers the fences in some places.

Consider the names in the major league roster today. No longer the old "American" names supreme. Side by side with the Speakers and Cobbs and Collins there are Lazzeri, Miljus, Cohen, Jablonowski, Gehrig, Durocher, Grabokski, Strelecki, Picinich, Mostil, Genewich—you could go on all day. It is a tremendous significant change.

Some politicians are discovering previously unknown virtues in Tammany. A vice-presidential candidate has recently remarked, "Considered as a whole, the record of Tammany is not so offensive. It is one of friendship to the South." He then made special references to Charles O'Connor and Samuel J. Tilden.

Two hundred and three Presbyterian young people from New York, Pennsylvania and New Jersey took a straw vote one the presidential candidates at a recent conference held in Blairtown, N. J. The vote was unanimous for Herbert Hoover.

ELEVENTH HOUR REPENTANCE

Farmers of the northwest must have been somewhat amused by the recent address of Senator Nye of North Dakota in which he predicted that a farm relief measure would be passed at the short session of congress regardless of which party won the national election.

While it is not unlikely the republicans would desire to get credit for farm legislation if Smith were elected, Senator Nye should not overlook the fact that President Coolidge will remain chief executive until the end of the short session on March 4.

Senator Nye's remarks were probably intended for campaign purposes, but there is little probability that the American farmers, after waiting eight years for that promised relief, will place much faith in the eleventh hour prediction of the North Dakota senator.

BASEBALL, AN AMERICANIZER

The foreign language information service of New York points out that no word in our language is adopted more quickly by immigrants from Europe than the word "baseball."

In some tongues it becomes "base ballo;" in others "beis bole." But it always means the same thing. The immigrant takes to baseball like the proverbial duck to water, and bids fair, in the future, to supply an ever-increasing share of fans and players.

But it took something more than an idea to put it across. The idea came readily enough, but Willie spent three years working with the contraction before he could make it do as he wished. He used 25,000 cigarettes in repeated tests.

Many words have flows over the wheel since the Smith-Hoover contest began, and many claims made as to the election outcome. But Mr. Rogers comes near the real crux of the whole fight for the presidency.

Two young men were traveling on the same train and formed a speaking acquaintance. At the end of the first day one of them returned from the washroom to his seat clean and attired in fresh linen.

Some question has arisen in New York as to whether a harmonica is a musical instrument or a toy. Evidently the questioners have not heard the youthful experts who play the harmonica with bell attached, an eloquent right hand acting as a swell or muffler. A musical instrument? Why, it's a whole orchestra!

Chicago florists did a business of sixteen million dollars last year. Gunmen believe in "saying it with flowers"—afterward!

In this day and time, when everybody is torn up with politics, the first of the month doesn't pack near as much of a threat as it used to. Maybe we're just naturally getting hardened to trials and tribulations.

You can't tell from looking at their backs whether the ladies are young or old.

There's Apt To Be Such A Thing As Overdoing It

PRESS COMMENTS

READY TO SMOKE

William Cohen, a 25-year old New Yorker, is on his way to England at the expense of a group of English manufacturers who have become interested in a little trinket William has invented.

PERFECTION ITSELF

How did you get such a perfect fit for your tailor?

NO FAULT OF HIS

Lady: "My poor man! How did you come to be in such a state?"

DECORATIVE SCREEN

Screens made from the bright chints of cretonne of the curtains make a decorative bed roof addition.

ELECTORAL SURVEY

Will Rogers has made an electoral survey and finds that ten persons ask, "Who is going to pitch for the Yankees tomorrow?"

CLEAN ALL THE TIME

Two young men were traveling on the same train and formed a speaking acquaintance.

GOOD LOOKING ENTRANCE

If homes and communities impress strangers by the manner of entrance presented to them and if good appearances are the big influence in making the stranger remain for the second look, then the new station the Quahak, Acme & Pacific is going to be worth a lot to Florida.

SO THINK WE

While the Sunday schools of the City may not be reaching as many people as they should, there is a great deal of interest being manifested in the Sunday school work and some of the churches are spending large sums of money to equip the plants for better taking care of the people, and hence will increase the number that can be served by their organization.

WE THINK THERE SEEMS TO BE NOTHING TO A NAME WITH A GREAT MANY PEOPLE THIS YEAR.

WE THINK THE GOVERNMENT WILL FIND THAT THE COTTON CROP IS GOING TO BE A SHORT ONE THIS YEAR, AND THERE IS ANYTHING IN THE OLD STORY AND DEMAND IDEAS THERE ought to be a mighty good price for cotton this year.

WE THINK THE RURAL COMMUNITIES HAVE LITERALLY INCREASED IN POPULATION, WHEN WE SEE THAT ONE RURAL SCHOOL HAS AN INCREASED ENROLLMENT OF 186 FROM LAST YEAR.

WE THINK THE COLORED PEOPLE OF LUBBOCK APPRECIATE EVERY CONSIDERATION SHOWN THEM, AND THEY APPRECIATE LIGHTS, WATER AND SEWER, AND WE THINK SO LONG AS THEY ARE CITIZENS OF THE TOWN THEY ARE ENTITLED TO IT, AND WE THINK THAT THE MEXICAN PORTION OF THE CITY SHOULD HAVE THE SAME CONSIDERATION, AND THE CITY COMMISSION IS DOING EVERYTHING THEY CAN TO FURNISH EVERY PART OF THE TOWN WITH WATER, LIGHTS AND SEWER, AND THAT WILL MEAN A CLEANER TOWN AND A MORE SALUBRITY CITY.

LAUGHS

A Tall Story

Old Farmer: Don't talk to me about crop failures; why, when I was working over in Skunk county right 40 years ago, the only way to get the sprayers had to get down on their knees to reach them."

Neley

Four o'clock in the morning says the Detroit News, is that period of otherwise solemn stillness when the milk man's horse sounds like the last act of "Ben Hur."

Aha!

Have you stopped growing at ethical, Daddy? The only way to get it, yes, sorry.

The Only Time

Does your motor always knock like that? Oh, no, only when it's running.

Our Sunday Morning Sermon

GOD IS GOOD

By WILLIAM BOOTH I have been thinking about the goodness of God. The Psalmist was right when he said, "Truly God is good to Israel, even to such as are of a clean heart."

The very word rendered "god" in our language means "good." God is not only good, but He is "The Good." Not only is He good Himself, but He is the Author of all good.

The world in which we live was good when it came from His holy hand. It is mountains and valleys, oceans and rivers, trees and flowers, beasts and birds, and every living thing, including our first parents, Adam and Eve, were good when first He called them into existence.

Surely, God knows a good thing when He sees it and we read in the Bible that when He looked down on the beautiful world He had created, He pronounced it "very good."

What a glorious world it was! And yet, in this more glorious world it would have become had man continued good! But, alas! as with so many hearts since then which God by His grace has made like Paradise, the Devil entered Eden with his temptations, despoiled the inhabitants, induced them to cast away their confidence, and so brought in the misery that has followed.

But God, in the overflowing benevolence of His heart, arranged for the bad work of Satan to be counteracted and overcome. The effect of the sinners was to increase the glory of Jesus Christ to live and suffer, in order that man, who had so cruelly rebelled against Him, might be pardoned, and that the law he had broken and disgraced might be honored.

And, above all, are you setting your hearts on the things of this world, and are you trying to make them good? Are you trying to make your hearts good? Are you trying to make your lives good? Are you trying to make your homes good? Are you trying to make your friends good? Are you trying to make your neighbors good? Are you trying to make your world good? Are you trying to make your life good? Are you trying to make your soul good? Are you trying to make your eternity good? Are you trying to make your God good? Are you trying to make your heaven good? Are you trying to make your hell good? Are you trying to make your life good? Are you trying to make your soul good? Are you trying to make your eternity good? Are you trying to make your God good? Are you trying to make your heaven good? Are you trying to make your hell good?

What is Your Aim? May I ask whether you, my friends, who are here today, have found in this more glorious world it would have become had man continued good! But, alas! as with so many hearts since then which God by His grace has made like Paradise, the Devil entered Eden with his temptations, despoiled the inhabitants, induced them to cast away their confidence, and so brought in the misery that has followed.

Do you possess a good heart? Are you leading a good life? Are you doing good work? Are you trying to make people good? Are you trying to make your hearts good? Are you trying to make your lives good? Are you trying to make your homes good? Are you trying to make your friends good? Are you trying to make your neighbors good? Are you trying to make your world good? Are you trying to make your life good? Are you trying to make your soul good? Are you trying to make your eternity good? Are you trying to make your God good? Are you trying to make your heaven good? Are you trying to make your hell good?

Are you seeking this object by teaching them the true idea of goodness, and, above all, are you setting them an example of goodness yourselves? Are you, by your prayers, pulling down from Heaven the spirit of goodness upon them? Are you trying to make your homes the holy, happy and useful places which

God desires them to be; that is, are you making them good? Are you trying to make the people around you good? Is this your aim in the meetings and with your neighbors and workmates? Are you trying to win back the purity, usefulness and God some souls who have returned to their evil ways?

Making Others Good Oh, if God has made you good, you must delight in the good life of making other people good! I cannot bring myself to believe that you have a good nature, a good religion, a good hope, unless this is your aim, your delight, your every-day practice. Does not the Apostle Paul tell us that if any man have not the spirit of Christ, he is none of His? And we all know that the spirit of Christ was the spirit of goodness, and that it was the spirit that brought Him from Heaven, not only to save a world of sinners from Hell, but to make them good, that is, useful and holy and fit for Heaven. The Bible tells us that "without holiness—that is, without true goodness—no man shall see the Lord."

If you are not good in temper, in disposition, in conversation, in employment; in fact, in everything connected with your heart and life, you must seek to be made good right away. Go to God, He, and make you good. Then, if you know how to go to Him, you will not. I will tell you. Kneel down here and now, in submission before Him, and:

(a) Tell Him that you give up everything in your heart and life which you have reason to believe is bad and wrong and opposed to His glory and the well-being of those about you; that you turn away from it forever.

(b) Tell Him that you will be a lover and friend of all and everything that is good; in yourself, in your home, in your work, your friends and your pleasures.

(c) Tell Him that you not only believe that He can, but that through the sacrifice of Jesus Christ, He does, here and now, make you good. Tell Him, that He forgive your sins, adopt you into His family, and enlists you as soldiers of the cross.

(d) Go right on, in the spirit of this surrender, wherever you may be, and whatever may happen, until you are a doer of the truth, and, you realize in your innermost soul that God has made you good.

My comrades, it is a beautiful thing to be good—beautiful in the sight of God and beautiful in the sight of good people around you; but to have the consciousness of being good on a doubtful and without a foundation to your own hearts.

I suppose it is a pleasant sensation to feel that you are rich. I do not know what that pleasure is so far as my own experience goes.

See SUNDAY SERMON, Page 8

Today's Poem

THE WHEAT FIELD

Two grains of wheat fall side by side here. He'll see the good wheat in my ear. And marvel that I've grown so tall.

The farmer by his reaper stood and looking at his golden field said: "This year brings a banner yield. For every blade of it is good."

He neither praised the beautiful ear nor blamed the one that was so small. With one swift glance he judged it all. And summoned his labor for the year.

Perhaps when life is understood, Our God may never ask to know The strong from weak, the swift from slow. But judging all will still be good. —EDGAR A. GUEST.

### Personal Attacks On Hoover, Smith Won't Hold Water

Charges That Nominees Are Unfitted For Office They Seek Fall Flat When Put Before Public

By RODNEY DUTCHER  
NEA Service Writer

WASHINGTON, Sept. 29.—All is considered fair in politics, except by certain rare men who seldom get very far.

Both sides in a national campaign uniformly and to an almost incredible degree, act like a lot of dumb cows.

Consider the second point first. An experienced and practical politician just remarked to your correspondent that he had never seen so many "boners pulled" by both sides in a national campaign as in the last couple of months.

Herbert Hoover said the other day through his press conference spokesman, that "whispering campaigns" were as old as politics.

It ought to be pointed out that personal charges have been brought against both candidates and those who made in the open, they have fallen rather flat.

### HOW'S SHE HITTING

By ISRAEL KLEIN  
Editor, NEA Service

The spark plug has been one of the most neglected parts of the motor, despite its relatively high importance. Now, with the coming of high compression engines, and the existence of so many different types, this little ignition unit is even more important.

It has to be of the right sort for the particular motor you are operating, or you won't get the efficiency you should be deriving from your car.

Here, for example, is a spark plug that is much too short. With the ignition points set so far back in the cylinder head, some of the unburned gases will stay behind in this little pocket during the exhaust stroke, with the result that the plug will become fouled and ineffective.

The gases that remain behind, due to the increased space in the combustion chamber, from a short spark plug, will also prevent proper firing of the fresh incoming charge.

Here, on the other hand is a plug that is too long. Extending so far into the combustion chamber, the plug is exposed to the full heat of the explosion. This explosive temperature causes the electrodes to become red hot, resulting in pre-ignition and all its familiar difficulties—knocking, loss of power, missing and back-firing.

Compression ratios of engines differ more today than they used to. Besides, the rate of cooling of an engine and its speed vary with the make or model and have much to do with the choice of the proper kind of spark plug.

Greater heat is generated in the motor today, what with the development of higher compression ratios attacks like those of William Allen White and the Rev. John Bronch Streeton to the slanderous accusations of drunkenness and subservience to the Pope.

The candidates and the important national campaign managers, of course, do not go into personalities. But from there, on down the line, the ethical plane of the campaign sinks lower and lower.

### Average Of Sixty Miles An Hour Is Made In Long Run

Studebaker Claims Record With 30,000 Mile Test Made In 30,000 Minutes, By President Eight

The sensational performance of four strictly stock Studebaker President eight automobiles in traveling 30,000 miles in less than 30,000 minutes, is a tribute to the genius of Studebaker's engineering staff, according to Gough Motor company, Studebaker-Erskine distributor in this city.

"Studebaker has broken so many records for endurance and speed in the past year that it is difficult to keep track of them all," said Mr. Gough. "It started about a year and a half ago when the Studebaker Commander traveled 5,000 miles in 4,900 minutes.

The number of types for racing cars is even greater, this company having developed some 20 models for these very high compression jobs.

WHITETARRELL SCHOOL OPENS  
LITTLEFIELD, Sept. 29.—The Whitetarell school, about ten miles south from Littlefield, opened for the year's work on Monday of this week. The starting enrollment was 218 pupils. This school has grown in three years from an enrollment of about a dozen pupils with one teacher, to a six teacher school with over two hundred enrolled.

records—all made by strictly stock cars under the supervision of the American Automobile association. "No cars could do what the President eight has done unless it was properly designed, unless its materials were thoroughly tested, unless it was built with split-hair precision and thoroughly tested and inspected before it was released from the factory."

"Studebaker maintains its own private research and experimental laboratories. Here a large corps of skilled technicians make countless laboratory tests every year. Studebaker keeps 700 inspectors on the job and these men make thousands of inspections on Studebaker and Erskine cars during their manufacture. More than 1,500 mechanical operations are not to vary more than one one-thousandth of an inch—415 operations are held to a tolerance of one half-thousandth of an inch."

Studebaker engineers also make extensive use of the corporation's millions dollar proving ground, where every improvement is given a thorough test under actual road conditions before it is finally approved, according to Mr. Gough.

FRESH TOMATOES  
Fresh tomatoes should be used lavishly now. An inexpensive luncheon dish is made of tomatoes stuffed with cottage cheese and chopped green peppers and cucumbers. Serve with parsley. French dressing.

BRIGHT WINDOW  
A rather drag dining room was made quite cheerful by painting a flower pot stand a Chinese lacquer red and all the pots holding greenery the same bright red.

### BUILDS NEW TIRE

Miller Company Announces Brand New Product

Following several months of laboratory and practical road tests, the Miller Rubber company announces an addition to its line in a new design, six-ply, heavy duty, passenger balloon tire, designed for motorists who demand the superlative in tire luxury.

Built to supply demand of more luxurious tires on today's speedier cars, Miller engineers claim that the new six-ply tire offers the relentless punishment of three safety and economy. The carcass is built of six piles of high test, long staple cotton, cord with extra heavy cushioning of the highest grade rubber between each ply. Tread improvement includes two running strips

near the edges of the tread, and in the center, between the running strips, the tread is fashioned in a deeper, thicker tread. On each side of the running strips the shoulder tread extends well down on the sidewall.

The growing importance of the cement industry in the economic life of Texas is evidenced by the announcement of the Atlas Portland Cement company that it has completed plans for the immediate construction of a plant near Waco, with an initial annual production of approximately one million barrels per year, this being the first Atlas plant in the state.

A torch has been devised that cuts steel in a sunken ship at any depth.

## Licked the 3 Enemies of Long Tire Wear

Miller has produced the tire of Super-Wear. Tire building genius had long sought to accomplish this. But not until Miller engineers discovered the 3 outstanding causes of short tire life was such a tire made possible.

Miller devoted months of research discovering these enemies—then licked them with 3 Scientific Improvements—unique in all tire history.

**One-Piece Tread and Sidewalls**  
Gone for all time is fear of cracking joints and the destruction that followed with old ways. Now the husky Miller tread reaches all the way around the tire with One-Piece Tread from toe to toe. All joints and hinging centers are eliminated—no chance whatever for cracking.

**Geared-to-the-Road, Road-Shaped Tread**  
The broad, road-shaped contact surface of the Miller exclusive Geared-to-the-Road Tread runs even with the road. With light or heavy load the entire width of this famous tread is on the road—taking wear evenly, therefore slowly. Uneven, spotty tread wear is banished.

**"Uniflex" Cord Construction**  
Insures uniform flexibility of all parts—completing a perfectly balanced tire. Built to resist curb and rut jolts—recovers from blows to normal shape with the quick lively action of real rubber—leaving One-Piece Tread and Sidewalls, Bead and Uniflex Cord carcass secure and intact. Thus—miles are added to the life of all Miller Tires.

### UNION BUS TERMINAL SCHEDULES

Table with multiple columns listing bus routes, destinations, and departure times for various lines including North Plains Coaches, South Plains Coaches, and Texas Motor Ways, Inc.

The Bus Regulation Will A. A. A. Object

Organization of Directors of The Interstate Commerce Commission Will Push Legislation At Coming Session of Congress

WASHINGTON, Sept. 28.—Plans for securing favorable action on legislation to regulate the interstate operation of motor bus lines will be made at the semi-annual meeting of the board of directors of the bus division of the American Automobile Association, at the Hotel Winton, Cleveland, Ohio, September 28, it was announced today.

The A. A. A. bus division, it was stated, has been advised by members of congress engaged in studying the need for bus control legislation, that the outlook is more promising for action in the final session of the eightieth Congress. It was recalled that the Interstate Commerce Commission has already recommended that Congress ask legislation to protect the rights of regularly operated bus lines from the operating methods of irresponsible owners, who are unable to guarantee proper service to patrons.

The bus division directors, the statement continues, will continue to advocate a plan of control of bus lines by state utilities commissions, with right of appeal to the Interstate Commerce Commission. Announcement was also made that the legislative committee will meet with the directors and will hold meetings with a similar committee of the American Electric Railway association, which will hold sessions in Cleveland at the same time.

Bus Division Statement

The statement by the bus division continues: "Steady progress has been made in adapting the motor bus to the transportation needs of the country. Its importance in the field can be seen by the fact that more than two and one-half billion passengers were carried by buses in 1922. School buses alone carried more than 300,000,000 passengers. The motor coach is the natural result of the demand created by the private passenger car for swift, comfortable and economical travel. At the same time, it makes it possible to open up new territories at a time when new railroad construction is practically at a standstill. Many steam and electric lines have realized this and substitution of the

Toy Autos Help Engineers Figure Out How To Stop Accidents Of Motor Cars

C. E. Bishop, engineer of the automotive division of the U. S. Bureau of Standards at Washington, is shown here with the toy truck and auto used for the laboratory study of skidding. The inclined plane is the "hill" and the lines are arrows are the engineers' methods of determining the direction and degree of skidding.

laboratory investigation into the mysteries of skidding. Here is one extensive cause for many accidents on our highways that engineers so far have been unable to fathom. The scientists of the Bureau of Standards have therefore decided to unravel this mystery by the simple expedient of operating skidding automobiles under laboratory control.

The safest way to do this was to use toy automobiles and place them on an inclined plane resembling hill conditions. The truck, for instance, has brakes controlled by tiny electro-magnets at each wheel. These can be set at any required brake pressure and the truck started down the "hill."

The toy "hill" can be raised or lowered to simulate various grades. Over the surface of this "hill" is a large sheet of paper over which ordinary tracing paper is placed. As the truck rolls down the hill and goes into a skid, the movements of all four wheels is traced on the paper. Knowing the brake pressure on the wheels, the engineers can study the forms of skids from the tracings on the paper. Not content, however, with this

Chrysler To Make Commercial Cars

Two Trucks Will Be Manufactured Starting Immediately, According To An Announcement Of Factory

Definite knowledge that Chrysler is the organization which will build and market the new line of Fargo commercial cars and trucks became available today in a statement that it will soon announce two lines of

laboratory "game," the engineers have taken their own automobiles out on the highway and attempted in practice what they had already seen done on a smaller scale. The road, of course, is kept clear and the driver is an expert, whenever these practical tests are made.

The first thing learned is that skidding results when the front wheels of an automobile are turning and the rear wheels are locked suddenly. The center of gravity of the car may continue in a straight line ahead, but the car itself will make a complete turnabout. If the front wheels are directed straight ahead and the rear wheels are locked suddenly, even on a wet pavement, there is little likelihood of a skid. Despite this fact the engineers say it is dangerous to try to "straighten out" the car while it is skidding by turning the front wheels in the opposite direction to the skid.

On the contrary, the front wheels should be directed with the skid, so the bearing surfaces of the front wheels will help curtail the skid.

Most Braking In Front. In the case of four-wheel brakes, it is found that skidding can be avoided on wet pavement if from 80 to 70 per cent of the braking power is applied to the front wheels, and the rest to the rear wheels. This is contrary to present practice. It would not permit easy control of the steering wheel, with the front wheels under such great braking pressure.

But the scientists say that steering can be regained almost immediately, if the car is to be stopped in an emergency, by momentarily releasing the brake, steering the car and then almost immediately applying the brakes again.

If most of the braking pressure is in front, also, care must be maintained at all times and sudden stops avoided. A sudden stop, under such conditions, would throw the occupants of a car forward with a dangerous jolt.

vehicles bearing that name. They are of half ton and three quarter ton capacity.

These two cars are but the first of the new series which eventually is also to include one, one and one half and two-ton units.

The half ton model is to be known as the Fargo Packet, and the three quarter the Fargo Clipper. Both differ materially from other commercial vehicles, particularly in approved appearance, in design, and in greater performance capacity.

They reveal, according to the statement, many developments indicating that Chrysler plans to establish its leadership in the commercial vehicle field along the same lines as it has done with its passenger cars. From the appearance standpoint both lines will show many of the influences of modern distinctive passenger car design, as developed by Chrysler.

The new Fargo express models will be sold by the Fargo Motor division of the Chrysler corporation.

According to J. E. Fields, vice president in charge of sales of the Chrysler corporation, Chrysler's decision to build commercial cars is a long-considered move. "We believe our success in this new field is assured from the start," he says. "Chrysler's tremendous success in revolutionizing the passenger car field practically forced it to enter the commercial field. Business and industrial organizations in the last four years, have made request upon request for commercial cars which would be designed and manufactured in accordance with Chrysler principles.

"Both the Fargo Packet and the Fargo Clipper have been developed to meet a market which, up to now, has been supplied only in a limited way by custom builders at prohibitive prices. Consequently, we immediately find an opportunity to serve a market not heretofore adequately served by other manufacturers.

Supercharger To Aid New Type Of Motor, Forecast

Two-Cycle Engine Will Be Brought In To Take The Place Of Four-Cycle One Of Present Time, Claim

By NEA Service

NEW YORK, Sept. 29.—The next step in the economy of motoring will be adoption of the supercharger, predicts Louis Schwitzer, automotive engineer. And with this innovation will come the two-cycle engine, replacing the present four-cycle motor and further reducing the cost of motoring.

"The supercharged engine will increase the economy in road miles

per gallon of fuel," says Schwitzer. "It will lead to a successful, flexible and economical two-cycle engine, which, in his opinion is the ultimate engine for automotive work."

A supercharger is an apparatus applied to a motor that forces the fuel mixture into the engine when it is going so fast that it could not of its own accord draw in sufficient of the mixture to keep it running properly.

"Probably 80 per cent of all passenger automobiles are driven 50 per cent of the time at less than 25 miles an hour," says Schwitzer. "The average car, traveling 30 miles an hour, requires from 12 to 15 horsepower. Most of the engines used in these cars will develop from 55 to 65 horsepower."

"Why are such large engines used? Because excess power is necessary for acceleration and hill-climbing. Much smaller engines can be used if they are equipped with superchargers. The advantages are manifold. For the same car speed

and engine speed, the inertia forces and bearing loads will be smaller, the engine life longer and the maintenance cost less.

"The fuel economy will be better on account of long periods of operation with nearly full-open throttle when running without a supercharger. Better acceleration will be obtained and top speeds will be reached more quickly."

Vinegar will remove most stains from the hands.

### United States Is Firmly Entrenched In Foreign Market

#### Business Conditions On The Continent Is Improving Generally, According To Hupp Sales Chief

Business conditions are generally improving everywhere in Europe and the American Automobile industry is now well established in all the markets according to Fred B. Hupp, export manager of the Hupp Motor Car corporation.

Mr. Hupp's views are based on personal observation during an extensive foreign trip which in the past ten months has taken him to Europe, Australia and Africa and brought him in close contact with business men of all large countries from England to New Zealand.

Conditions Unfavorable "Unfavorable conditions, which are important factors in the prosperity of many of the countries I visited, had generally been very unfavorable until within the last few months but they have changed distinctly for the better," Mr. Hupp said after his return to Detroit.

South Africa is largely dependent on the amount of rain, and when it was there they had been suffering from prolonged droughts. Recent good rains have come and the heating of weather conditions on the volume of their trade is indicated by the increased number of orders they are sending for American cars.

In Australia the general opinion of business men I met was that by late fall the worst of the depression they were experiencing would be over, while in New Zealand they were already around the corner and export were showing a favorable trade balance over imports.

The American automobile is now well entrenched in the export field. This is due to the power and sturdy construction of our cars, which find most favor because they can stand the strain of the rough roads they have to negotiate.

When summer calls for tent, camp stove and automobile, the mineral-minded folks hike for Arkansas. At filling stations, around hotel lobbies and in tourist camps, the talk is about marble, granite, gold, and even diamonds which are supposed to be hid away in the time-worn Ozarks.

Most of the conversation, of course, is about oil, for this is no dream. Arkansas is becoming one of the great oil-producing states and geologists believe the best of the pools are untouched.

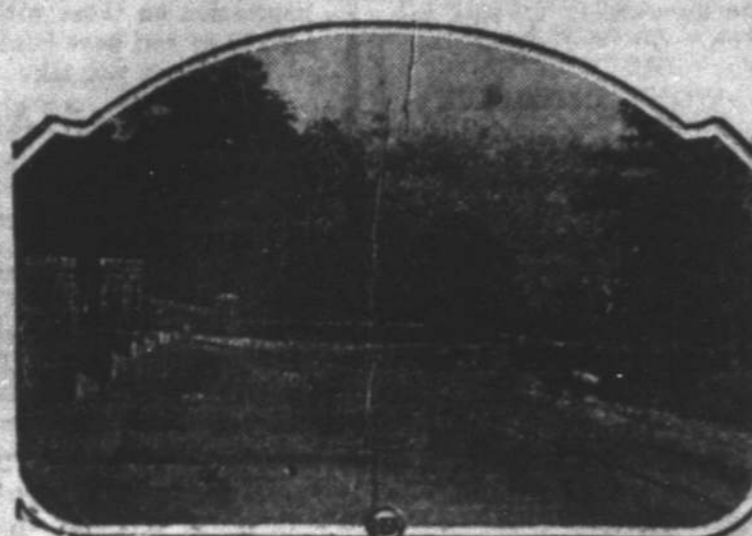

But Arkansas has much more than oil and minerals. Driving westward from Memphis, you pass through a fertile belt on the way to Little Rock, using state highway No. 1. The first counties

of the country will make the trip to San Antonio by automobile, traveling comfortably, conveniently and economically," Mr. Brooks said. "These main purposes will be attained the conversation, but on the way they will enjoy experiences that long will be remembered."

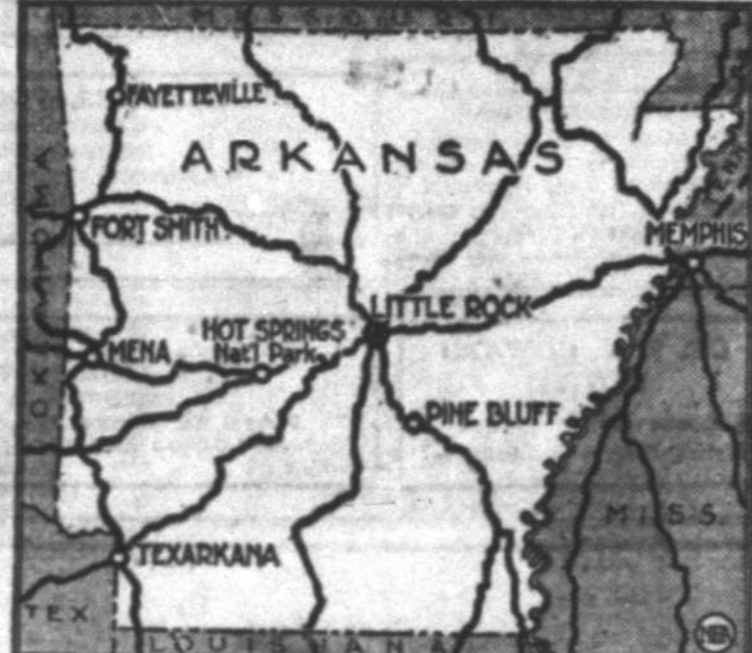

These years ago this month American soldiers, tramping to victory and the abolition of roads of France, gazed with envy at passing transport trucks, little realizing they were to return to a country that a decade hence, would boast of some 25,000,000 motor cars.

### There's Scenic Beauty In Mountains Of Arkansas; New Motor Paradise Is Found

There's beauty in every mile of the winding road to Hot Springs, as this photo shows.

Map shows the main roads through Arkansas

By NEA Service  
LITTLE ROCK, Ark., Sept. 28.—When summer calls for tent, camp stove and automobile, the mineral-minded folks hike for Arkansas. At filling stations, around hotel lobbies and in tourist camps, the talk is about marble, granite, gold, and even diamonds which are supposed to be hid away in the time-worn Ozarks.

Most of the conversation, of course, is about oil, for this is no dream. Arkansas is becoming one of the great oil-producing states and geologists believe the best of the pools are untouched.

But Arkansas has much more than oil and minerals. Driving westward from Memphis, you pass through a fertile belt on the way to Little Rock, using state highway No. 1. The first counties

of the country will make the trip to San Antonio by automobile, traveling comfortably, conveniently and economically," Mr. Brooks said. "These main purposes will be attained the conversation, but on the way they will enjoy experiences that long will be remembered."

These years ago this month American soldiers, tramping to victory and the abolition of roads of France, gazed with envy at passing transport trucks, little realizing they were to return to a country that a decade hence, would boast of some 25,000,000 motor cars.

### Shipments High At Graham Plant

#### Trucks Find Increasing In Popularity, According To The Sales Records Of The Manufacturers

Shipments of Graham Brothers trucks from Dodge Brothers factories in August, set a new record for any month in 1928, exceeding July this year by 10 per cent, and a 60 per cent increase over August, 1927. The figures represent the combined shipments of the plants in Detroit, Toronto, Evansville, Ind., and Stockton, California, the latter plant reporting the best month in history.

"We accept this record as conclusive evidence of general public acceptance of Graham Brothers six cylinder trucks, commercial cars, health and pleasure resort of international fame.

First National Park. As one would expect, Hot Springs is a beautiful city in a beautiful location, a city of hotels, bath houses and hospitals. Nearly one hundred years ago the United States government set aside nearly 2,000 acres surrounding the numerous hot springs as our first national park and the health-giving waters are still under the supervision of federal authorities.

After leaving the springs city on state highway No. 6 en route to Mena, the tourist basks in the natural scenery of the southern Ozarks. A wide scenic region it is, a favorite section for years among local fans and landscape painters. And there are mines and quarries of everything from grindstones to the purest marble, from coal to aluminum.

Most of the highway is graded and a large share of it gravelled, but it is mountain driving of some degree all the way. The recompense is found in the marvelous sweep of beauty when national forests are viewed from worn peaks, in the cold springs of mountain water by the roadside, in the nooks molded by nature for comfortable camping, in the herds of cows and milk goats grazing on slopes and in ravines.

A short drive over good roads from Mena reaches the Oklahoma line. You have to cross and drive northward on Oklahoma state highway No. 11 to reach Fort Smith, one of the Arkansas mineral cities. All the way you see oil derricks or hear of early drillings into sure gusher pools. Oil is the religion of the natives along the Arkansas-Oklahoma line.

More mountain driving is encountered east of Fort Smith on state highway No. 64 but nowhere is there a more impressive profusion of flowers and singing birds than along these mountain lanes. Gradually, the roads become better and the steep slopes shorter until at Mulberry, you hit an improved road.

From here to Little Rock, around Russellville and Morrilton and Conway, one finds not the old trade in lumber and cotton but a new revenue from farm dairies and modern poultry farms.

When you motor through this land of variety, you'll discover in the fine roads, the new factories, the new agriculture, the new colleges and the new vision of the people the real secret of the new stride of this old state.

### THE WORLD HAS A NEW AND FINER MOTOR CAR

## EVERY WORD you hear about the new Nash "400" is a GOOD WORD!

A LOT of talk about the new motor cars, a lot of things being said both "pro" and "con"— But every word you hear about the new Nash "400" is good! No one can look at the slender grace, the smart modern style of the new "400" Sedan Body without a feeling of genuine admiration. And the new Twin Ignition motor! Here is the engineering marvel of the year. You'll be amazed at the difference between this and older motor types— Easy steering, too, in the Nash "400". People everywhere are saying it's the easiest steering car they ever laid hands on. And the motor car industry's greatest valued Bijor chassis lubrication; Hondaile hydraulic shock absorbers; bumpers front and rear; and a long list of other important features. The whole would be saying—and they mean every word of it—Nash has built the car of the year. Be sure to see it, and drive it.

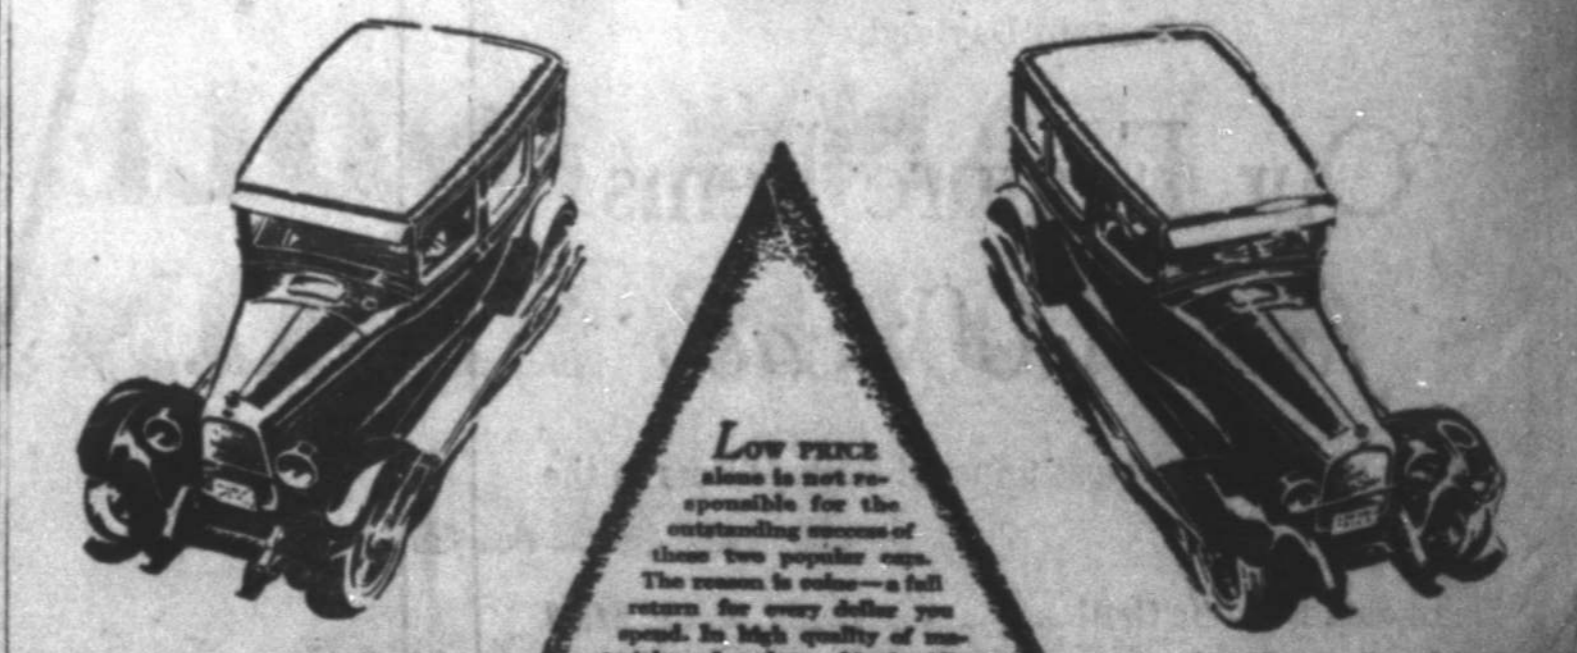

# NASH "400"

- IMPORTANT FEATURES—NO OTHER CAR HAS THEM ALL
- Twin-ignition motor
  - 12 Abrax-type spark plugs
  - High compression
  - Beaumont and Lovjoy shock absorbers (exclusive Nash invention)
  - Sedan Bodies
  - Aluminum alloy pistons (over 1000)
  - New double drop frame
  - Torsional vibration damper
  - World's easiest steering
  - 7-bearing crankshaft (exclusive Nash patent)
  - Bijor centralized chassis lubrication
  - Electric clocks
  - Interior mailboxes chrome plated over nickel
  - Short turning radius
  - Longer wheelbases
  - One-piece Sedan bumpers
  - Clear vision front pillar posts
  - Nash Special Design front and rear bumpers

**Tourist Aid Improving Of World's Opinion**

Americans and British are getting better acquainted due to changes in tourist types.

By MILTON BRONNER  
SEA Service Writer

LONDON, Sept. 29.—America and Britain are getting better acquainted, and it's the "middle class tourists" who are effecting the change.

In the tourist season just closing, 40,000 Americans have visited England, and they represent a different class from those who came across before the war.

Most Americans who came to England before the war had leisure, and they visited in the "old money" way, staying in Scotland or living in the big London hotels. Court and country travel was their aim.

Travel to Learn.

Since the war, and especially this year, a new type of American has appeared, not overburdened with money, but traveling to see and learn. To be sure there are still the rich folk, but the vast majority of the 40,000 this year have been people who came in tourist cabins.

They see the classic lake district, the Loch Katrine and Loch Lomond and the Trossachs. They explore the lovely wilds of Devonshire and pay pilgrimages to Shakespeare's town of Stratford-on-Avon—75 per cent of the visitors there being Americans.

They go to Kenilworth which Walker Scott wrote one of his great novels. They go to Stone-Forge to visit that "God's acre" which inspired Gray's Elegy. They motor over to Chalfont St. Giles to see the humble little thatched cottage in which Milton composed some of his finest poetry.

In London they swarm to all the places of interest—the Tower, with its bloody history and its strong room where the royal jewels are on show; Westminster Abbey; Parliament House; the squares where there are statues of Washington and Lincoln.

In Historic By-ways.

You find them poking up queer little by-ways off Fleet street where Samuel Johnson lived and to lunch in the famous little restaurant where Johnson consumed oceans of food.

Good street, with its expensive shops, doesn't know them. The night clubs with their high priced menus and their closely guarded doors, never see them. They are not on speaking terms with dukes or earls, but they have had pleasant conversations with Cockney bus conductors.

They are enriched in real knowledge of England and the English when they take ship for home. In five years they can save enough to come back and see some more.

The lordly headwaters in the big hotels don't get any kick out of their coming. Nor the dealers in priceless antiquities. But the thinking men who direct England's destinies are glad to see them.

**New Dodge Senior Is Well Received**

Many Unfilled Orders Are On File At Factory In Detroit; Has Finer Motor And Is More Attractive

Universal public acceptance of the new Senior Six models recently announced by Dodge Brothers Corporation is reflected by a bank of thousands of unfilled orders on file at the factory from dealers over the country. Production on the six body types is being pushed on over time schedules to eliminate all possible delays in retail deliveries.

"Typical Dodge dependability with a new era in motor car style was the verdict of those who first drove the new Senior Six," is the report. "Its appearance, mechanical refinements and added luxury have made an immediate appeal to the buying public. Its smooth powerful performance is more than meeting the expectations of those who purchased following the introduction of the car.

"Interior appointments of the car are attracting most favorable comment from women who demand the latest refinements in upholstery

and finish. Graceful exterior body lines have been attained at no sacrifice to comfort or roominess for every passenger."

Metropolitan and smaller city dealers alike reported the enthusiastic reception accorded the new Senior when it was first displayed. In many points, sales have exceeded the first factory shipments.

The car's roadability—whether in city traffic or in faster driving along highways—is featured by ease of control equaled in only the higher priced cars. Increased power has been matched with superior four wheel hydraulic brakes to insure maximum safety.

**Chevrolet Makes Jaunt Up Africa**

Hazardous Endurance Test Staged By Standard Product Is Concluded At Cairo In August

News of the conclusion of what was perhaps the most hazardous endurance test ever undertaken by an automobile—the famous Chevrolet trek up through the center of Africa from Cape town to Cairo—has just reached the United States in the form of the following brief cable from General Motors, South African Ltd. "Chevrolet expedition reached Cairo August 6. All the way by road, no boats, no rail. Greatest achievement of its kind in automotive history. Sedan and truck in excellent mechanical condition."

As this is written the expedition, consisting of a standard Chevrolet sedan and truck, manned by four adventurers, has in all probability, crossed the Bosphorus to Constantinople. Twenty four large European cities are to be visited before it arrives in London. Ten thousand miles will have been traversed when it concludes its history making trip in Stockholm.

The Coolidge message, which informed the world of the finish of the 4,000 Cape Town-Cairo journey in the astonishing time of 153 days, was lacking in detail, but it sufficed, for the time being, to satisfy American Chevrolet officials that no trail however perilous is too difficult for a standard Chevrolet car.

Of the earlier stages of the perilous undertaking there was no lack of detail. From the day the expedition set forth from Cape Town, March 7, at the height of the rainy season, vivid accounts of the trek were sent back to civilization at intervals. The party is not lacking in competent historians. Besides C. H. V. Lacey, the chief,

**Big Crowds See Fair At Bledsoe**

Cochran County And Others In Texas And New Mexico Are Represented In Exhibit Display

BLED SOE, Sept. 29.—The Frontier Fair held at Bledsoe last Friday and Saturday was attended by large crowds. The exhibits were good and not only represented the whole of Cochran county, but several communities of New Mexico as well. A good showing of grain sorghums, corn, watermelons, pumpkins, cotton and a great variety of garden vegetables were in evidence. It was pictured very vividly what can be raised on this Cochran county land.

Some good dairy cattle, pigs, and poultry were shown. Morton won the prize for the best community exhibit, and Whiteface placed second. Prize for the best individual farm exhibit went to J. B. Passmore, and second to D. O. Bilberry of New Mexico. Broncho riding, horse races, Ford races, and basketball games provided outdoor amusements.

An art exhibit sent out by The Colonial Art company of Oklahoma City was also a feature. The \$5.00 prize for the best baby at the baby show was awarded to the little son of Mr. and Mrs. J. B. Statton of New Mexico. The \$5.00 prize for the prettiest girl baby went to the little daughter of Mr. and Mrs. C. A. Barnes of Bledsoe.

In the basketball games, Morton defeated Bledsoe in the first game and lost to Bledsoe in the second. The party includes Gordon Makepeace, newspaper man; Wallie Wilson, expert wireless operator, and Billie Williams, famous cinematographer. Published accounts of the journey were made possible from time to time through the co-operation of the famous South African Argus group of newspapers.

In two games with Tatum, N. M. Bledsoe won both.

Friday night a pageant was presented on the large stage in the school auditorium. This was an historical representation of the different eras of Texas history from the time of Columbus to the present time. The program opened with the crowning of Miss Nell Jones of Bledsoe as queen.

**WON'T INTERFERE**

Santa Fe Not To Protest New Texas Railroad

SAN ANGELO, Sept. 29.—That the Santa Fe railroad will in no way interfere before the interstate commerce commission concerning the construction of the Gulf and West Texas railroad, has been the assurance given R. W. Morrison, president of the San Antonio road for which stock is now being subscribed here.

The favorable attitude with which the Santa Fe looks upon the Gulf and West Texas proposed line is further evidenced by the fact that it has intimated a part of its trackage around Edon and Brady may be used by the new line. However, that particular arrangement will be further considered when the proposition is further advanced.
