Assembly Set Feb. 24

Dancing and acrobatics in a new and original act will be presented by Ray Romaine and Claire at an assembly Thursday, Feb. 24 in Hart schools. The 2 p. m. performance is arranged by Southern School Assemblies Agency.

Admission is 25 cents for junior high and high school students and 15 cents for elementary students.

Romaine began his career as a physical training instructor in the Canadian Army. He developed his own hand balancing act.

The two met in New York and after a USO tour of Japan, Korea and the South Pacific, were married in Sydney, Australia. They have appeared on TV in America, England, Sweden and Canada. They performed in over 35 different countries on all five continents in a four-year globe circling tour.

IT DIDN'T HURT VERY MUCH - - this young man was one of a number who received free immunizations last week to prepare him for school. The immunization clinic was sponsored by the Amarillo Department of Health.

Hart Youngsters To Compete In Houston Livestock Show

A record number of entries and premium money will make this year's Houston show the largest livestock show in the world. Among the entries are a number of local Future Farmers and 4-H Club members.

Local 4-H'ers who have entries in the show are Lana Tucker, Larry Cox, Vic Hart, Cary McLain, Terry Hill, Dean Hill and Kent Hill.

Bill Hobby Asks Opponents To Explain Part In Bank Bill

Bill Hobby, candidate for the Democratic nomination for Lieutenant Governor, took his campaign to East Texas this week.

Touring 17 communities, Hobby met and spoke to thousands of voters.

In addition to fulfilling his pledge of taking the campaign to the people, Hobby said the driving tour allows him to hear first-hand the problems which concern Texans the most.

Since announcing his candidacy last summer, the 40-year-old Houston newspaperman has travelled 40,000 miles throughout the state. Hobby said he will continue to travel the state from now until the May 6 primary election.

Hobby formally filed for Lieutenant Governor last week in Austin. At a press conference there, he called on two of his opponents to explain their parts in the passage of the banking bills which have figured prominently in the current stock scandal in Austin.

State Senators Ralph Hall and Wayne Connally both signed the floor report which permitted the now-notorious bills to be voted on without a committee hearing.

By allowing the bills to pass the Senate without a public hearing, Hobby said Hall and Connally are "either incompetent or dishonest."

"I prefer to think that it was merely incompetence and not dishonesty that led to their action," Hobby said. But, he added, the voters will require an explanation.

The stock show is here and I hope you will all come eat at the concession stand sponsored by the 4-H clubs at the American Legion Hall. The Home Demonstration Club women are donating pies - other food will be chili, barbecue beef, candy, cookies and drinks.

We had a real good County Program Building Committee meeting last week. This group of people meets with Charles and me annually to hear reports of activities conducted in 1971 and the plans for 1972. This committee plans to work on community improvement and estate management programs in 1972-73.

The Town and Country Home Demonstration Club had a very good Mexican food luncheon last week. There were also some very tasty weight watchers foods.

Monday I will be in Amarillo attending a training meeting on 4-H. We have an area 4-H specialist, Ed Garnett, at Amarillo so we will be able to have his services to help us strengthen our 4-H program in the county.

I am giving the program for Home Demonstration clubs this month on family life. I met with Bethel yesterday and will be at Flagg Friday.

I enjoyed visiting with Frank Barnes, grade school principal at Hart and with Emmett Broderson at North Elementary here about our 4-H T. V. electric series that will be in March. There will be six programs on Channel 4 starting March 11. Anyone interested in their child watching it please encourage them. They will be shown at 12:30 p. m. and are 30 minutes long. I saw one of them recently and enjoyed it. The teachers will be reminding the children to watch. Nazareth school will also participate, Charles visited them.

This week was a full week for all the students with their six weeks tests. And also, for all of the FFA and 4-H boys and girls. Good luck to all the participants in the stock show.

The next few weeks will be filled with lots of hard work and practice for all the track stars. So everybody watch out on the roads for some flying maroon sweat-suits.

CHECK FOR BAGWORMS -- Now is the time for homeowners to check for bagworms on trees, advises Dr. Weldon Newton, Extension entomologist. Bagworms can now be easily detected while trees are bare. The insects can completely defoliate a tree next season if they are not controlled. Full grown worms or eggs may be found in the bags during the winter. On small trees, bagworms can be hand picked. Larger trees with bagworms should be sprayed in May or June with diazinon, carbaryl or trichlorfon.

Volleyball Tournament Scheduled In Muleshoe

The Muleshoe Jaycees set dates for their Ninth Annual Volleyball Tournament to be held in the Muleshoe High School Gym.

The annual tournament will be held Monday thru Saturday, March 13 thru 18. The Jaycees have made plans to hold the best tournament ever. As last year, there will be four places awarded in both men and women divisions. Trophies for First, Second, Third and Consolation will be presented and as in the past the Jaycees will select and present trophies to an all tournament team. The All-Tournament Teams will be selected for both men and women. It will be composed of three spikers and three set-up men on each team. A panel of judges will select the teams on athletic ability and sportsmanship.

Entry fee will remain the same as in the past, $7.00 per team. Entry information is out early this year so that teams will have ample time to practice, and interested teams may organize.

For more information or entries contact Mark Gist, 272-4830 or Ronnie Gustin, 272-4261 in Muleshoe.

PROFITABLE PASTURES -- Profitable pastures have to be planned, contends Dr. Neal Pratt, Extension agronomist. A key management practice is proper fertilization according to soil test recommendations. Cross-fencing is also an effective tool to improve production. Weed control can boost grazing during the summer months. Another major aspect is to plant grass species and varieties adapted to the area. Record keeping is one of the most important factors in forage production, contends Pratt.

MOST POISONOUS

Most poisonous of all snakes is the King Cobra.

LOW TEMPERATURE

Cooking meat at low temperatures has many advantages. A low temperature makes the meat more juicy and therefore improves flavor, requires less fuel and results in more servings from a cut of meat.

When does a baby start to think?

Nobody knows, but thoughts come by association. Baby eagerly responds to the sight of a bottle. Experience proves that the bottle offers both satisfaction and comfort.

Because baby does learn by association, it is important that parents expand their children's horizons. A very small child will respond to a simple prayer. And a child of three will enjoy attending Church School geared for youngsters of that age.

Religious instruction and guidance is not only for the mature — it is needed regularly by everyone. The spiritual life of your child needs constant cultivation and the mind needs day by day development.
