Mrs. Morris Found Dead In Teeville Cemetery

Mrs. Preston Morris, 44, of the Cuthbert community in northwest Mitchell County, was found dead in the Teeville Cemetery near her home by her husband shortly before noon Tuesday.

She had been shot once in the chest with a Johnson .22/250 hunting rifle. Justice of the Peace Henry Doss ruled death was caused by a self-inflicted gunshot wound.

Sheriff Bill McGuire received a call from Morris about 11:25 a.m. and Doss made his ruling at 11:40. Morris had found his wife's body in the cemetery. Investigation was made by the Sheriff's Department.

The rifle was found about eight feet from her body which was in the family plot in the cemetery, 11 miles northwest of Colorado City.

Services for Mrs. Morris were held at 4 p.m. Wednesday at First United Methodist Church in Colorado City, the Rev. Bob Ford, pastor, officiating. Burial was in the Teeville Cemetery, directed by Kiker-Seale Funeral Home.

She was born Joy Fern Strain, Sept. 10, 1931 in Mitchell County. She married Preston Morris, Jan. 29, 1950 in Colorado City. She was a member of the First United Methodist Church and an active member of the hospital auxiliary, the Pink Ladies.

Survivors include her husband; her mother, Mrs. Ed Strain of Colorado City; three sons, Tommy, Kirk and Scott, all of Colorado City, and a brother, Waddell Strain of Colorado City.

Council, School Races Contested In Election

Absentee balloting ended Tuesday in the April 3 (Saturday) elections for school board members and city council members in Colorado City, Loraine and Westbrook and for three members to the hospital district board of directors.

The only contested elections are for the City Council in Colorado City and the school boards in Colorado City and Loraine.

When absentee voting ended Tuesday, 11 people had voted in the city council election and 15 cast absentee ballots in the CISD election. Only one vote was cast absentee in the hospital district election.

Candidates in the city council election in Colorado City will appear on the ballot in the following order:

--Marion Bassham.
--J. Lee Jones Jr.

--Arlond R. Straub.
--Larry Hamner.
Mayor Hamner and council members Bassham and Jones are incumbents to the three places open for election.

In the CISD board of trustees election, ballots will list candidates in the following order:

--Gene Blassingame.
--Jimmie Bolin.
--Eddie Swinney.

--Bob Motley.
--Billy A. Moore.
Incumbents are Motley and Bolin.

The seven candidates for two places on the Loraine school board are listed in this order on the ballot:

--Marshall McAdams.
--Rodney Hallmark.
--Eddie Galvan.
--Lester L. (Bud) Hill.
--Willis Taylor.
--Eugene Smith.

--A. A. Lujan.
The two incumbents, Bill Preston and Kenneth Merkel, did not seek re-election.

Two incumbents are seeking re-election to the Westbrook School board: Jerry Webb and James Dorn.

No one filed for election to the posts now held on the

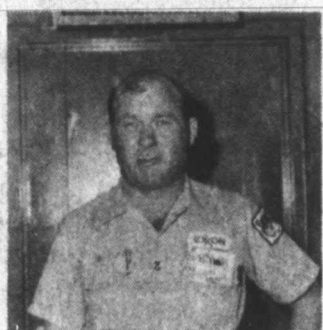

Loraine City Council by Donald E. Phillips and Mrs. Fay Hamilton. City Clerk S. H. Hart said that there will be a write-in vote for those places.

Also, no one filed for election to the Westbrook School board. See ELECTION, Page 11A

THE CITY COUNCIL election will be held at City Hall from 7 a.m. until 7 p.m. Saturday with the following candidates campaigning for election: Marion Bassham, Larry Hamner, J. Lee Jones Jr. and A. R. Straub. Mrs. Bassham, Hamner and Jones are incumbents on the council and Straub is campaigning for the first time.

The Record gave each candidate a chance to express views on the election, printed here with the exception of Straub's, who declined the offer.

FIVE CANDIDATES are vying for election to two places on the Colorado Independent School District board of trustees: in order as they appear on the ballot, Gene Blassingame, Jimmie Bolin, Eddie Swinney, Bob Motley and Billy A. Moore. Four candidates took advantage of the Record's offer to print their views on the election and their comments appear below. Motley and Bolin are incumbents to the board.

Gene Blassingame

"I believe that the youth of our community is our most important asset," said Gene Blassingame, candidate for the Colorado Independent School Board.

"The education of our youth is the best way that we can help them prepare for the future."

Blassingame and his wife, Grace, of 1215 Cedar, owns and operates Blassingame Exxon at I-20 and Highway 208 with his brother Bill.

He was born and raised two miles north of Buford. Now 36, Blassingame is a 1958 graduate of Colorado High. Blassingame served in the Navy four years and then returned to Mitchell County and farmed for five years. He then moved away but returned four years ago.

"I'm running for election to the school board because I was born and raised here and I'm interested in the community. Since I think the school system is an important part of the community, I think I can help by being a part of the school board."

Gene Blassingame

Recognition To Be Made

Mildred Free, chairman of the Merchants Committee of the Chamber of Commerce, said that an announcement will be made soon of the "Salesperson of the Month" for the month of March and then announcements will be made monthly at the end of each month.

"At the end of the year, a 'Salesperson of the Year' will be honored with an award and presentation during the Chamber of Commerce banquet," she said.

"We want to stress the qualities of friendliness, cooperation and willingness to help customers with their needs and reward the people who are doing these things in their daily dealings," she said.

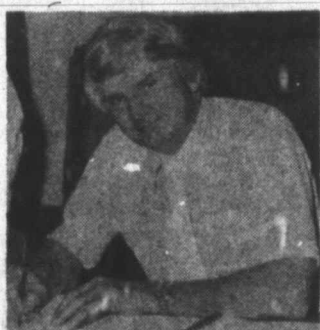

Jimmie Bolin

As a candidate for the Colorado City Independent School Board, I request your support in the April 3rd election. I am seeking my second term to the board. I believe that the past three years on the board has made me better qualified to perform as a school board member. I have had the opportunity to be on the board during a time that many changes in education have taken place. I believe that Colorado City now has the facilities necessary to offer to our students the opportunity to receive an education that will meet the students' desires, whether that be to continue their education at a higher level, or prepare themselves for a trade that will enable them to earn a living in life.

We are in a period where costs continue to go up. School finance has become a problem. Our Texas Legislature has made many changes in school finances. Local tax burdens have become greater. I believe that we are going to see many changes in education in the future. We as taxpayers need to express our needs to our Legislators to make changes that will help our school systems both financially and practical to the local needs. I believe that we need to continue to offer the best education to the students that we can afford. Colorado City schools are an asset to our community. We have had harmony in our school system between the board and administration. I believe that we have one of the best group of administrators that are located in any school district.

I want to support the majority of the people and work to improve our school system. I would like to have your vote and support for the next three-year term as a school board member.

Jimmie D. Bolin

Bob Motley

To the taxpayers of the CISD, I'd like to take this opportunity to thank them for their support in the past and ask for their support in the coming election. I'll continue to strive to make our school the finest we can have, to help make our athletic program one of the best in the state for the girls as well as the boys.

Bob Motley

Eddie Swinney

First of all let me say thank you to Mac McKinnon for providing this space to the candidates in the upcoming school board election.

Why do I want to be on the school board?

I have always been interested in the wellbeing of our young people and this will afford me an even better opportunity to work in their behalf. I really believe we have the best kids in the world right here and I believe they deserve the best we can provide for them as far as education is concerned. As a member of the school board, I can work for this.

Why do I think I should be elected to the school board? I have no ax to grind. All I want to do is work with the existing board and school officials to make CISD the very best.

When problems arise as they will from time to time, I will try to be fair in judgement, and honest in dealing, always trying to stand for what is right.

I have four children in Colorado City schools: Andy Jeff in high school, Andrea Jean in Hutchinson, Anita Jeannette and Alan James in Kelley.

Kids are precious to me. I love 'em. And if elected to the school board, I will try to do all the good for them I can and no harm at all.

Let me thank you in advance for voting for me.

Eddie Swinney

CHS Teams Host Golf Tourney

Tee Off time in the Fourth Annual Colorado City Record Invitational Golf Tournament is set for 10 a.m. today at Colorado Country Club.

About 85 golfers will be started shot-gun style around the course, representing 10 schools in the area: C-City, Ballinger, Winters, Hamlin, Jim Ned, Robert Lee, Slaton, Denver City, Merkel and Wylie.

The two CHS teams are hosting the event and also vying for the two team trophies which will be presented and the first and second place medalist trophies.

CHS players, coached by Grady Lurrow, are pictured here and will complete play about 4 p.m. when the awards will be made.

Marion Bassham

To all of the citizens of Colorado City, Texas: Thank you for choosing me as one of your city council members two years ago! It has been most interesting--"an eye-opener" of an experience. I most certainly will serve for another term if your vote so indicates.

I know that the capital improvements asked for in the recent bond election were reasonable and in some cases urgent. Thank you for your almost complete approval of our requests.

During the next two years, I will try, if re-elected, to make Colorado City:

- An attractive place to live.
 - A good place to work.
 - A healthy place to raise a family.
 - A safe place to play or relax.
 - A happy place in which to grow.
 - An interested and tolerant city for all people.
- Marion Bassham

Larry Hamner

During the past two years, I have learned a great deal about the operation of our city. When I ran for the office of councilman, I really had no idea that the operation of a city such as ours could be so complex and have as many decisions to be made that were crucial at the time. Also, I never knew that the city could, at times, run as smoothly as a precision piece of machinery, when you knew that the choice that you had made on a matter or issue was correct.

All of these things have been both an education of satisfaction and experience. I would like to use the experience and knowledge that I have gained to continue to serve you in the future.

I urge each and every citizen of the community to exercise your right as a citizen to please vote in our city election, as well as all of the April 3 elections.

Larry W. Hamner

For the past two weeks in 6th grade science we have been studying animal behavior. We have brought fish, spiders, ants, snakes and scorpions to class.

We studied the reactions of the ants when we put two different kinds in one tray. We also studied the hearing organs of a cricket and saw what they looked like.

We studied how the scorpions reacted when we clipped off their stinger. We brought the fish and preserved them so we can dissect them later. We studied the way snakes acted and also their scales.

We Honor Our Industries

Communities throughout the state will honor Texas business and industry April 1 - 7 during the 25th anniversary of Texas Industrial Week.

Activities and events highlighting the involvement of business and industry in community affairs are planned throughout the state.

This year's observance follows the recent announcement that Texas has the best business climate in the United States and that the state leads the nation in the number of manufacturing jobs.

The Department of Labor noted that Texas gained 150,000 manufacturing jobs during a recent eight-year study representing a 22.8% increase in manufacturing employment. Each 100 manufacturing jobs supports 68 additional non-industrial jobs and adds over \$1 million per year of personal income to a community.

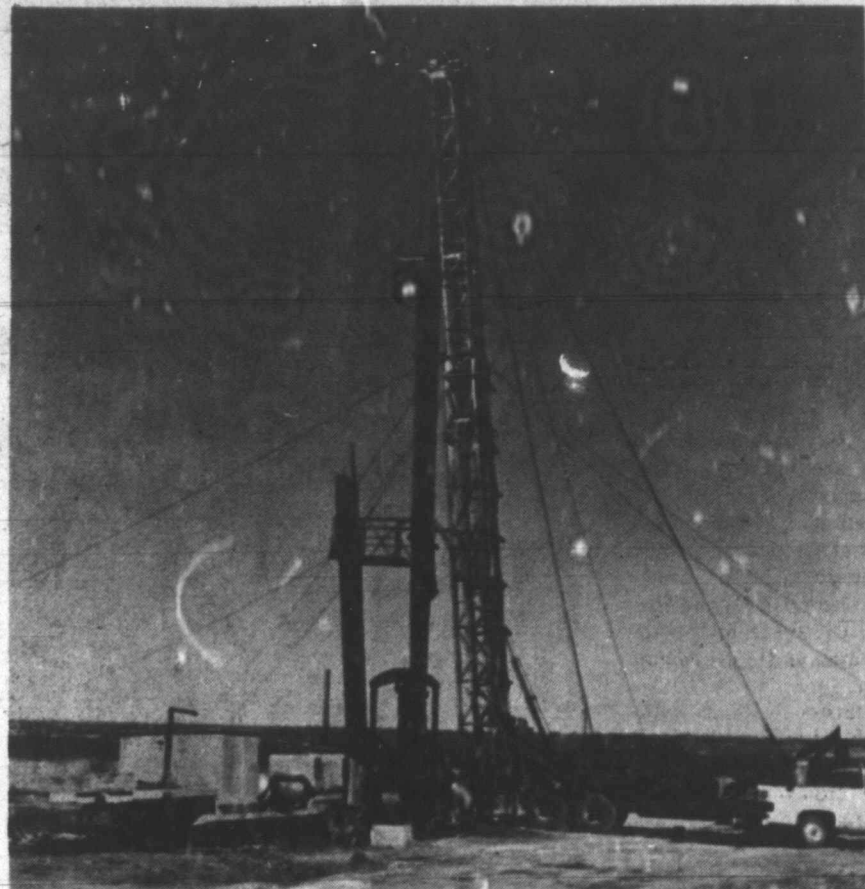

Texas Industrial Week was established in 1951 by a concurrent resolution of the Texas Legislature.

Governor Dolph Briscoe, in proclaiming this year's observance, noted that the state's economy continues to remain sound with the location of 192 major new industries and the expansion of 287 existing ones within the last year.

"This growth did not just happen but is the result of individuals and organizations across the state working to maintain our favorable business climate," he said. "Texas Industrial Week provides an opportunity to demonstrate our appreciation of these contributions and to encourage business and industry to continue to help improve the economic conditions of our state's citizens. I urge all citizens to give due recognition to business and industry in Texas and to demonstrate our support for the free enterprise system."

Eddie Alberts of Colorado City, a longtime employee at Union Texas Petroleum Division Perkins LPG gas processing plant near Silver, informed the Record recently that the plant reached one hundred per cent production again Feb. 22 after being in partial production for about two months.

The clean-up and restoration followed an explosion and fire Dec. 22 which partially destroyed the plant's cooling tower and killed two men.

program of services to the handicapped was issued today by George Womack of Colorado City, who is the County Easter Seal Representative for Mitchell County.

The Easter Seal Society provided treatment and services for 10,768 physically handicapped children and adults in Texas last year, and this program needs to be expanded. Many people are going without services that would increase the productivity of their lives and make them happier. Increased public support of the Easter Seal Society will enable more and more of these people to be reached.

The Society is carrying out a continuing program to seek out the disabled who are doing without service and see that they receive the help they need. The Easter Seal Representative is the person to contact for services from the Easter Seal Society.

The Easter Seal Society of Texas helps support treatment facilities in Texas where crippled children and adults who are not eligible for help from any other source are treated, regardless of their ability to pay. A complete referral program to ensure equal rehabilitation services to every person in Texas is a major Easter Seal Society service.

The Easter Seal Appeal continues through Easter Sunday, April 18 and full support by every citizen was urged.

Burrows: soft, free fashions

The spring collection of Stephen Burrows is not a big one, consisting mostly of knits and dresses. Burrows feels that it's a time for live-in clothes for the whole day, the kind you just reach into the closet and put on and you're ready to go.

"I'm not into that long torso look at all," states Burrows. "I like more curves, more flow than those tubular tops allow. By fall I'll be into straight skirts, mostly wrapped, because American women love lightness that leaves them athletically free."

"Layering takes away from freedom, and using multiples to put a costume together takes time," he continues. Burrows feels that inconvenience out-modes ideas faster than anything else.

His spring clothes are either covered up or exposed; nothing in between.

PJ's win fashion editors' ok's

FASHIONABLY GOWNED IN PJ's . . . striking California design from Michael Novarese draws smiles of approval from editors attending the Metro press breakfast during Press Week. The silk crepe pajamas featured bold print designed with a cowl neck and enticing side split to display the leggy California suntan.

Fabrics go both light and hardy

Hard-working fabrics like twill, duck, denim, heavy cotton do their job in sportswear this spring. This is the cotton season, with every weight from batiste and voile to rough homespun, from the wrinkle muslin look to glazed chintz.

Knits go soft and light: terry knit, jersey, velour, fine gauge single knit, sheer cotton lisle. Polyesters try for the real silk look in Honan, shantung, pongee and dobby weaves. Suits and coats crafted in crisp linen, double faced wools, corduroy and cord.

Versatile fashions ideal in the home or on the town

California designer, Michael Novarese, designed his colorful, carefree spring '76 fashions to be ideal for double duty.

They are elegant for at-home entertaining, or perfect for glamour trekking 'bout town.

Michael Novarese fashions, all distinctly with his own personal flair, favor bold, dramatic prints — dashing styles executed with verve and vim.

Novarese's attention to

detail is very apparent in his use of fine Swiss embroidery and figure flattering tucks on sheer wool and hand painted designs on silk gauze.

However, his facility for detail does not overshadow the need for practicality. Women with an active social schedule which takes them in and out of the home will feel equally comfortable in a Novarese creation — no matter where they go.

Khaki kicks

ON SAFARI or on the town this handsome khaki chino suit in cotton is sure to win a roar of approval. A green-and-white cotton plaid shirt complements this suit by Dimitri of Italy.

"SUITED" FOR THE LIMELIGHT are actor George Hamilton and his wife Alana; in tailored classics by Dimitri of Italy. The men's double breasted ecru silk shantung suit stands out in any crowd as does the women's three-piece white cotton gabardine suit.

Classic interpretations that provide last word in chic

Fashion takes on fresh excitement with Piero Dimitri's spring and summer collection.

Long known for his classic interpretations, he's done a collection that is unsurpassed.

His striped gabardine suits, in the palest of colours, are the last word in chic.

The double breasted suit, a definite Dimitri statement, with higher and less exaggerated lapels are indicative of his master tailoring and tremendous fashion insight.

Suits of natural fibers such as silks, "Canapa," a treated canvas and 100% cotton — all take on a new verve and style.

Dimitri's contribution to the sportswear idea: — Reversible suits of the purest cotton, in black and khaki, shirtsuits in avocado; hooded jackets in Cire, all coordinated with flawlessly tailored ladies outfits.

A Dimitri signature in this collection — zippered closures on pockets, etc. — completes this very exciting collection.

Stormy weather wear

THE BIG RAINWEAR NEWS this spring is the debut of the light, light belted trench by the House of Malcolm Kenneth, a division of After Six, Inc. Unlined in treated poplin with deep pockets this is the cool way to swagger through a storm in comfort... no sweat!

Seductively suede

THE SUEDED PIGSKIN JACKET by Bert Paley, Ltd., a division of After Six, Inc., is the sportive way to look great for a spring ramble. Leather stripes of green and brown add a racy note. Teamed with a turtleneck sweater and your favorite jeans or slacks, you're dressed and ready for "bird watching" or a day's fun.
