City Asks Bids On 14 Miles of Paving And Five Bridges

Bids will be received Aug. 31 on the city's $800,000 paving, bridges, and drainage programs, it was decided last night by the city council after the plans and specifications were explained and approved.

Work on part of the program should get under way this fall, James V. Curnutte, city engineer, said last night.

ESTIMATED COSTS

In explaining his 14-mile paving program, Curnutte said the cost to the property owner for hard-surfacing a 36-foot street will not exceed $3.75 a foot. The expense of paving is being divided three ways, among the city and the owners of property on both sides of the street.

On 46-foot paving, Curnutte estimated the cost would be about $4.17 a foot, and on 56 foot paving, $6.01 a front foot. Most of the wider paving will be in business areas.

Payment may be made in five equal installments, the frist due when the paving is completed, and the other four over a four-year period, with interest rates not to exceed six per cent.

The plan is so set up that paving units scheduled in the original program can be cut out at a later date without invalidating the entire contract, Curnutte said. The units might be eliminated should residents of a particular neighborhood fail to sign up with the contractor.

Under the contract that the city will let, the contractor will be responsible for collecting paving fees from the property onwers.

BASE OF CALICHE

All paving will be caliche base, covered with asphaltic top. On 36-foot streets, Curnutte's specifications call for six inches of compacted base. On a 46-foot width, he asks seven-inch base, and eight inches will be built up before 56-foot streets are hard-surfaced.

All streets will have concrete curbs and gutters.

"About 60 days will be required to complete the papers and then hearing will have to be held," Curnutte said. "If enough property owners sign up in the program, it may be started by the first of next year."

Curnutte gave a rough estimate of the cost of the paving program as $675,000, of which one-third will be paid by the city from a $350,000 tax bond issue voted by the city council Dec. 21, 1949, for street improvements.

In the drainage-and-bridges phase of the program, which will cost an estimated $125,000, three new bridges will be constructed, and two existing crossings will be widened, Curnutte said.

FIVE BRIDGES

At Avenue O and Twenty-fourth Street, a new culvert 36 feet wide, with four-foot sidewalks, will replace the narrow wooden structure now in use near the Church of Christ on Twenty-fifth Street.

Below the city hall, on Twenty-sixth Street, a low water structure will be widened to the width of the pavement, 56 feet, and two four-foot sidewalks will be constructed.

Also on Twenty-sixth Street, near the High School and the Snyder Steam Laundry, the old bridge will be widened to 56 feet, and four-foot sidewalks will be installed. This will eliminate the need for using the elevated foot path below the bridge which leads to the school yard.

The old one-way steel span on Twenty-seventh Street across Deep Creek will be replaced by a 36-foot bridge, consisting of six 25-foot spans. Similar to the bridge on Avenue S near the county jail, the new span on Twenty-seventh Street will end one of the city's worst traffic bottlenecks.

The fifth bridge will be constructed at Twenty-eighth Street and Avenue O, near the gymnasium, replacing the present narrow bridge over the creek.

Thenew bridge will be a 36-foot roadway with four-foot sidewalks.

STORM SEWERS

In addition to the bridges, the program calls for storm sewers to drain the area around the bridges and a few other low places in the city.

The city council also asked for bids on a storm sewer on Twenty-sixth Street at Avenue L, running west to the creek and draining the deep puddle which always forms in front of the High School during a rain storm.

The city engineer's department has been working three months on the programs which were presented last night to be surveyed by engineers here, while others in Curnutte's San Antonio office were working up the plans and specifications for the various structures to be built.

Union Wildcat Opens Field In Terry County

Union Oil Co. of California has opened a new oil field from a Pennsylvanian reef lime in East-Central Terry County as its No. 1 Laura A. Cotten, wildcat four miles southeast of Brownfield .

This project ran a 97-minute drillstem test in the top of the reef section at 9,911-70 feet.

Gas showed at the surface in six minutes. Drilling fluid started flowing in 33 minutes, and the well began to flow oil out of the drill pipe in 35 minutes.

The oil was flowed to pits 62 minutes through a ¾-inch bottom hole choke, at the estimated rate of 10 to 15 barrels per hour.

After the tool had been closed 30 minutes to take the pressure build up, the drill pipe then unloaded oil for two hours .

Operator then loaded the drill pipe with water to hold the pressure while the tester was being pulled out of the hole.

Open flowing bottom hole pressure was between 675 and 2,520 pounds. Shut-in bottom hole pressure after 30 minutes was 3,179 pounds.

Operator is preparing to core ahead from 9,970 feet.

Top of the Pennsylvanian reef lime is at 9,902 feet. Elevation is 3,262 feet.

Location is 660 feet from east and 1,980 feet from north lines of section 91, block T, D&W survey.

BORDEN EXTENSION

Top of the reef is slated to be reached at a one-half mile northeast outpost of the Vealmoor-Canyon field in Central-South Borden County. The project is Jake L. Hamon and Edwin L .Cox, both of Dallas, No. 1 T. J. Good.

On the swab it was reported to have recovered 16 barrels of oil an hour for 12 hours of testing. However, the well did not kick off and flow. Neither did it flow after being shut-in 12 hours after the swabbing test.

The extension is bottomed at 7,845 feet. Five and one-half inch casing is set at 7,806 feet, the top of the reef.

Location is 560 feet from north and east lines of southwest quarter of section 23, block 32, T&P survey, and five miles northeast of the Vealmoor field.

It is three-quarters of a mile northeast of Toklan Production Co. No. 1 McAdams, a recently completed flowing extension in that area.

PLUG KENT WELL

Sun Oil Co. has abandoned its No. 1 Wallace in Central-Southeast Kent County in barren Ellenburger dolomite. Total depth was 7,556 feet. Ellenburger was picked at 7,334 feet. The project encountered no fluid in the Ellenburger, nor were any possibilities of production developed in the upper zones.

Location was 660 feet from the south and east lines of section 46, block 97, H&TC survey, and five one one-half miles southeast of Clairemont.

City Sells $200,000 In Bonds to Columbian Securities Company

The city council last night sold $200,000 in bonds to the Columbian Securities Co. of San Antonio, represented at their meeting by Gordon Charlton of San Angelo.

The bonds are the last half of the $400,000 improvement bonds voted by the city last December.

Valuations at the time the bonds were voted would not permit more than half of them to be sold. The remaining $200,000 could be sold only after the 1950 valuations were completed.

Charlton said the bonds bear an average rate of interest of 2.79 per cent. They will be retired in this manner:

$5,000 a year for the first five years.

$7,000 a year for the next five years.

$8,000 a year for the next five years.

$10,000 a year for the last ten years.

Senate Group Will Study Ownership Of Land in Big Bend Park

WASHINGTON, Aug. 15. (AP) — A bill to authorize the secretary of the interior to acquire land within Big Bend National Park not now owned by the government is expected to be taken up by the Senate Interior Committee next Monday.

Th House passed the bill July 27. About 8,800 acres are involved.

No Laggards for Mail Call

Battle-grimed and weary GI's answer mail call on the fighting front in South Korea. Their attention is riveted on the mail clerk as he sorts through the letters from home. The young fighting man at right is a picture of expectancy.

Princess Elizabeth Presents England With Royal Daughter

By CHARLES WHITING
(Associated Press Staff)

LONDON, Aug. 15. — Princess Elizabeth, heiress presumptive to the British throne, gave birth today to her second child — a daughter.

The baby came at 11:50 a.m. (4:50 a.m. CST). An official announcement was issued one hour and four minutes later.

The royal birth provides a sister playmate for 21-month-old Prince Charles, next in line to his mother in succession to the British throne.

The new princess becomes third in line of succession.

The baby princess weighed six pounds, an official announcement disclosed.

BULLETIN

A bulletin issued by the royal physicians said:

"Her royal highness, Princess Elizabeth, duchess of Edinburgh, was safely delivered of a princess at 11:50 a.m. Her royal highness and her daughter are both doing well."

The bulletin was signed by Sir William Gilliatt, the princess' gynecologist, and by John H. Peel, Vernon F. Hall and Sir John Weir, the royal family's physician.

Queen Elizabeth had arrived at Clarence House just a few minutes before the birth of her second grandchild.

The little princess was born in Princess Elizabeth's Queen Anne style bedroom in Clarence House, the home of Elizabeth and Philip not far from Buckingham Palace. She is the first royal baby to be born there.

HUSBAND PRESENT

Her beaming father — home on leave from royal navy duties — immediately telephoned the news to King George VI, who is in Scotland on a grouse shooting vacation at Balmoral Castle.

Princess Margaret also is in Scotland, visiting friends.

Prince Charles spent the morning playing as usual with his nurse.

A patient and growing crowd of several hundred had waited expectantly outside Elizabeth's residence throughout the morning.

NO FLYING

United States Air Force units stationed in Britain were instructed by their commander not to fly over Clarence House until after the baby was born.

The British press called this a 'chivalrous gesture."

The whims of fate might some day put the new princess on England's throne.

AFL Dockmen Won't Unload Russian Meat

NEW YORK, Aug. 15. (AP) — AFL longshoremen here, angered by the Korean war, have slapped a boycott on $250,000 worth of Russian canned crab meat.

They say it can go back to Russia before they'll unload it from the British Liner Parthia.

The Parthia moves to Boston today, but will probably run into the same boycott there.

"You can rest assured we will not move the Russian cargo one inch," declared Daniel J.Donovan, vice president of the International Longshoremen's Assn. in Boston.

The crabmeat—80 tons packed in large wooden cases—is the property of the British government.

A United Kingdom trade official here said last night that Russia insisted Britain take it as part of a trade treaty deal that swapped British machinery for Russian timber.

Communists With Armor Pour Across Naktong River Line And Penetrate Seven Miles

Council Votes To Assess On Street Project

Declaring the urgent necessity of paving and repairing Avenue R and S, the city council last night passed an ordinance enabling it to make assessments against the property on those streets for the cost of curbs, gutter, and 16 feet of paving.

Building curbs and gutters on the two streets north of the square and paving 16 feet on each side of Avenue R is the city's part of the joint city and state paving project. The state will pave a 24-foot strip down Avenue R, and will repair and widen paving on Avenue S.

CURB MUST BE IN

Before the state can begin its work, the curbs and gutters have to be in, and right-of-way for the Clairemont Road assured as far out as eight miles from the city limits.

The ordinance passed as an emergency measure last night, changes the city's policy regarding work on Avenue R. The city must collect for the work, then pay the contractor.

At first it was hoped the city could collect by notifying property owners of their share of the cost and asking them to bring in their payments. This plan was partially successful, but a few property owners did not pay, and the assessment plan was approved last night in order to expedite the work.

THREE PAYMENTS

Under the ordinance, payment may be made in three equal installments. The first is due 30 days after the city council has accepted the contractor's work on the curbs and gutters. The second is due a year later, and the third two years later.

An ordinance also was passed calling for bids on the curb and gutter work on Avenue R and Avenue S. They will be opened Aug. 31, at the same time bids on the city-wide paving project are opened, and contracts will be awarded then.

In another phase of the Clairemont Road work, W. W. Park, city attorney, said today condemnation proceedings against unknown owners of property along the route will be underway the end of this week The highway department requires 10 additional feet of right-of-way on each side of the road north of Eighth Street.

Cotton Inspection

BATON ROUGE, La., Aug. 15. (AP) Any transient cotton pickers coming into this state from South Texas should be required to stand a cotton inspection to prevent spread of the pink bollworm, Commissioner of Agriculture W. E. Anderson said yesterday.

County Tax Receipts Estimated At $432,250 By Valuation Firm

The county government will probably have about $359,553 more to spend in the coming year than it had this year, according to the best available estimates of the Thomas Y. Pickett & Co., valuation engineers, of Dallas.

This estimate is based on the final valuation for 1949, which stood at $8,869,117 and was taxed at a rate of $1.22 per $100, and the expected 1950 valuation of about $47,500,000, which will be taxed at a rate of about 91 cents per $100.

COLLECTED $72,697

Last year's rate allowed the county to collect $72,697, while increased values this year will probably allow a collection of $432,250.

Actually the 1950 valuation is proposed by the engineers at a total of $49,030,120, but the engineers are expecting a valuation of approximately $47,500,000 after adjustments are made, Pickett said yesterday.

Almost four-fifths of the proposed total valuation will be in mineral values which will total $38,860,120 according to the proposal, and running second place in values is local property proposed at $5,000,000, oil, personal, and drilling equipment values make the third largest item in the proposal with a figure of $3,500,000. Next in order of valuation are the railroads, pipe lines, utilities, and intangibles and rolling stock.

MINERALS SOAR

The vast increase is due to mineral values, which jumped $36,652,670 above the 1949 valuation of only $2,207,450; oil personal and drilling equipment, which increased $3,290,520 over a small 1949 figure of $209,480; and pipe line valuations which more than doubled with a proposed value of $450,000 for this year as compared with $223,460 in 1949. The proposed valuation on utilities is $17,090 above last year's final value of $412,910. The value of intangibles and rolling stock as well as local property remained virtually the same.

Picket said today that all company representatives interviewed since yesterday morning had been "very well pleased with the valuations of their property and the proposed tax rate set by the commissioners court." Most of the representatives even complemented the court, he added.

Only two or three representatives of independent operators and royalty owners remain to be interviewed, Picket said, adding that he expected to be through with the valuation tomorrow. The valuations will be subject to adjustments then and a tax roll will be made accordingly and ready by Oct. 1, he said.

Commissioners Will Choose Airport Plans

The county commissioners will meet Thursday to choose detailed specifications for the construction of the county airport Winston Field.

The meeting was called by Edgar Taylor, county judge, at the request of John Wilson of the Ash-Wilson & Associates Engineering Co., who will present them with several alternatives in specifications along with approximate construction cost according to each plan.

CAA ADVISOR

Wilson said he whoud ask J. D. Church, of Big Spring, district airport engineer for the Civil Aeronautics Administration, to attend the meeting in an advisory capacity. It is not known yet whether Church can be here at that time.

The decisions to be made then by the court concern the design of an administration building, a hangar to be built by the county, water and sewer systems, other utility arrangements and building materials, Wilson said.

The airport project is actually progressing steadily and as rapidly as possible, Wilson said, despite an apparent standstill from the average layman's viewpoint while essential paper work is being processed.

"We are hoping to be able to begin actual construction in the early part of October," Wilson stated, "by which time the county's new tax roll will be completed, and bonds can be issued on a 10-year retirement basis. We are taking advantage of the time required to complete the 1950 tax valuation by proceeding with all preliminary work," he explained, "so there will be no delay after the valuation."

SAVING TO COUNTY

"The county will save a lot of money by issuing the bonds after the new valuation," Judge Taylor said, "and they can be sold more quickly and at a lower rate of interest because there is a greater demand for 10-year bonds than for 26-year bonds, which would be necessary if issued under the present valuation."

Another reason the bonds can be sold at a lower rate after the new tax valuation, he added, is that a greater demand will exist for bonds with a $45 million beaking than those with only an $8 million backing. The rate of accumulation of the interest and sinking fund—used only for the retirement of the bonds—can be set higher for an issue of bonds under a greater valuation.

The 1950 tax valuation is expected to be completed by Oct. 1, according to Thomas Y. Pickett, valuation engineer, of Dallas, who believes the county's taxable values will reach $47,500,000 after adjustments are made in the proposed valuation of $49,030,120. The present valuation is $8,869,117.

Bloody Fight Is So Far Indecisive

Submerged Bridge Is Used To Transport 3,000 Across River

By RELMAN MORIN
AP Staff

TOKYO, Wednesday, Aug. 16. — Red troops with tanks burst out on the Naktong defense line today below Changyong and surged to points seven miles east of the river.

They overran segments of the U. S. 24th Infantry Division in bitter fighting that piled up casualties on both sides.

Gen. MacArthur's headquarters in Tokyo early Wednesday announced his usual morning report would be omitted because there had been no change in the South Korean situation. The headquarters war summaries usually are hours behind field dispatches.

INDECISIVE

The Changnyong fighting was bloody but indecisive.

A field dispatch said the Reds surged six or seven miles east of the Naktong on their deepest penetration in the Changyong sector.

The Red gain was considered serious but an American divisional staff officer said:

"We are still confident we can push the Gooks back across the river but it may take time."

One Red battalion fought desperately to link with guerrillas behind the Americans.

Frontline reports said the Reds at Changnyong, 23 miles southwest of Taegu, rubbed out most of the gains made by the hard fighting 24th Division Monday.

TAEGU GOAL

Taegu is the South Republic's emergency capital and objective of 60,000 Reds poised in the Waegwan sector 12 miles northwest of Taegu.

Red tanks and armored cars hit hard in the Waegwan area. Trey availed themselves of a Russian-style submerge suspension bridge to move the rigiment, about 3,000 men, and tanks over the river against South Korean defenders. Such bridges are built just below the water's surface to hide them from observer detection and are capable of supporting armored river-crossings.

A U. S. 8th Army communique issued at 9:05 p. m. Tuesday 5:05 a. m. CST said the South Koreans successfully counterattacked the river-crossers near Waegwan and found that allied air support presumably had knocked out Red armored cars.

As the critical river front battle in the center shaped up, gallant U. S. Negro foot soldiers stormed the "Little Cassino" about seven miles northwest of Masan. Masan is a south coast port 27 air miles west of Pusan, No. 1 U. S. supply base on the southeast tip of the peninsula.

The fight went into hand-to-hand combat with bayonets and rifle stocks used as clubs. The Negroes, feed some 200 wounded U. S. artillerymen who had been pinned down by the Communists in last week's westward drive to Chinju by Marines and Army infantrymen, by the Communists in last week's westward drive to Chinju by Marines and Army infantrymen.

In the northeast, American troops captured Yuktong, nine miles west of Pohang air base on the sea of Japan coast.

Prominent Oil Man Is Shot

HOUSTON, Aug. 15. (AP) — Craig F. Cullinan, president of American Republics Corporation, was found shot to death in a third floor bedroom of his home today.

The pominent oilman was the first chairman of the board of directors of the Texas State University for Negroes established here in 1947. He resigned this post Jan. 19.

ILL, DESPONDENT

Justice of the Peace W. C. Ragan held an inquest but has not returned a verdict.

Homicide Detective B. M. Squyres said Cullinan's body was found on a bed, dressed in pajamas and a robe. Squyres said a .45 calibre pistol was found three feet from the bed. Squyres said Cullinan had one bullet wound to the heart.

The body was found by a son, Craig F. Cullinan, Jr., shortly after returning home from night duty as a police reporter for the Houston Post. Young Cullinan told detectives his father had been ill and despondent since Mrs. Cullinan's death a year ago.

The oilman was a native of Washington, Pa., and graduated from Yale University in 1917. He had been with Republics or associated interests since 1919.

Last year he was named a director of the National Industrial Conference.

UAW Official Says Marshall Plan Only Helps Wealthy Men

NEW YORK, Aug. 15. (AP) — A United Auto Workers leader says the Marshall Plan is a "miserable failure" as far as Europe's common man is concerned.

It mostly helps greedy factory owners, John W. Livingston, vice president of the big CIO union, said on his return here yesterday.

He headed a 12-man UAW-CIO group that toured western Europe for six weeks.

Virgin Mary Revealed To Farm Woman As Thousands Look On

NECEDAH, Wis., Aug. 15. (AP) — A back-country farm woman said today that at the stroke of noon (CST) she was granted a vision of the Virgin Mary, appearing to her for the seventh time. A multitude estimated officially at nearly 100,000 persons gathered for the occasion.

Mrs. Mary Anna Von Hoof said the Mother of God appeared to her and told her to "'pray and pray hard. The time is short.'"

Capt. Preston McEvoy, chief of the state traffic police detachment, said that "nearly 100,000" persons were jammed into five acres, standing in a blazing sun amid billowing clouds of sand, to witness the scene.

About 60 priests and 30 nuns were at the kneeling wall before the shrine and in front of the multitude. At 11 a.m.. (CST) Jo Ann, one of Mrs. Van Hoof's seven children, crowned a statue of the Virgin with roses. Several persons fainted.

The crowd had multiplied from 20,000 at midmorning with more than a hundred chartered buses and several special trains arriving.

The gaunt 41-year-old farm woman emerged and knelt alone before the shrine. A loudspeaker intoned the decades of the rosary.

After a moment Mrs. Van Hoof covered her face with her hands and went directly into the house. Afterward she relayed the message she said was given her by the Virgin.

The faithful flocked in from all parts of the United States. Their spiritual problem of attendance at Mass today—the Roman Catholic feast of the assumption of the Virgin Mary—had been eased earlier when Bishop John Treacy of the Diocese of La Crosse lifted his ban on special religious services at Necedah.

JAMMED ROADS

The visitors jammed every available highway leading into this little town of 1,000 on the Yellow River through yesterday and last night, despite admonitions from the Catholic hierarchy to members of their faith to stay away.

They came by automobile, bus and special trains from all parts of the country to crowd every inch of the farm where 57-year-old Fred Van Hoof, husband of Mary Anna, tries to eke out a living from barren, sandy soil.

Bishop John Treacy of the La Crosse Diocese, of which Mrs. Van Hoof's church is a parish, issued a pronouncement last week forbidding church-sponsored religious exercises at the farm. He warned that attendance of priests, nuns and lay Catholics "may bring dishonor to the traditional devotion of the Mother of God."

To this Mrs. Van Hoof replied, "I must go ahead with it or else our Blessed Mother will punish me."

HOLY DAY

Today is the feast of the Assumption of the Blessed Virgin a holy day of obligation for Roman Catholics and they are required to attend mass. Bishop Treacy has urged Catholics to attend mass at the Necedah parish church.

A shrine is painted white and stands about 29 feet in front of the home. In back of it are three small ash trees. It is in this little clump of trees that Mrs. Van Hoff contends she first saw the apparition last May 28 coming out of a blue mist.

She also contends she heard the voice of the Virgin Mary on one previous occasion but did not see her.

On two roads leading to the 120-acre farm are county and state policemen rejecting traffic and keeping order. On nearby land are about 10 stands at which soft drinks, sandwiches and religious goods are being sold at moderate prices.

SLEEP IN CARS

Hundreds slept in their cars. Others pitched tents alongside the highway. Still others jammed every inch of town to sleep on porches and lawns and wherever people would take them in.

Thousands visited the Van Hoof home Monday.

Mrs. Van Hoof appeared at the door of her home during the day and offered her blessings to the people.

British Air Opposition To Schuman Steel-Pool Proposal

STRASBOURG, France, Aug. 15 (AP) —Britain fought a lone and losing battle before Europe's unofficial parliament here today against the Schuman Plan to pool western Europe's steel and coal output.

British Laborites and Conservatives both had counter-plans restricting the pool's proposed authority and safeguarding national sovereignties. But they got scant heed from political leaders of 14 other nations represented in the European Council's Consultative Assembly.

RESUMES TODAY

The assembly's debate on the Schuman plan was scheduled to resume this afternoon with French and German speakers leading off.

West Germany's 18-man delegation already had voiced its support of French Foreign Minister Robert Schuman's proposal despite the bitter British opposition. The Germans asked only that limits on their steel production be lifted and that Germany have equal rights in the international coal and steel authority.

BRITISH STAND

British leaders from both parties argued that the individual governments should have a final veto over the international authority. They said, in effect, that Britain would never place her steel industry under what laborite Maurice Edelman yesterday termed an irresponsible, undemocratic and arbitrary authority.

The British, apparently, wanted to explain their stand fully before conclusion of the six-nation talks now under way in Paris on Schuman's proposal. It was considered here, however, that the assembly debate could have only an indirect effect on the Paris conferences.

Los Angeles Rent Ceilings To Remain In Effect 10 More Days

LOS ANGELES, Aug. 15. (AP) — Rent control stays on in Los Angeles for another 10 days despite a seething session in which the city council, bolstered by irate landlords, talked down National Housing Expediter Tighe Woods.

Ice water was thrown on hot tempers from 3,000 miles away as Federal Judge James Kirkland in Washington, D. C., issued a temporary restraining order yesterday preventing Woods from lifting controls.

FIRST TIME

"This is the first time I have been enjoined against approving a decontrol resolution," said Woods, declaring he would abide by any court ruling. Woods told newsmen that action on the matter now must await the outcome of the Aug. 24 hearing set by the court.

The injunction was issued on the complaint of the International Assn. of Machinists, (Ind.) with the backing of the Los Angeles Tenants Council representing AFL and CIO unions. The petition charged the city council had acted hastily without a proper public hearing when it passed the decontrol resolution last April 28.

Los Angeles is the first large city in the nation to ask for decontrol and Woods' intervention yesterday was greeted by loud boos from some 500 landlords outside council chambers.

They displayed signs advising Woods to "go home" and "you are not wanted here." But a few tenants showed up with signs reading: "Government of, by and for the landlords."

Woods was given police guard to make his exit from the chamber where the council flatly rejected his proposal that it adopt the Chicago plan letting neighborhood boards determine justifiable rent increases.

Indignant councilmen called Woods "a brash bureaucrat" and a giver of "unsolicited and unwelcome advice."

Escapee From State Boys' School Found After Man's Shooting

GATESVILLE, Aug. 15. (AP) — A Negro escapee from the Gatesville State School for boys was captured near here last night shortly after Walter Mack, about 55, was shot and critically wounded.

The boy, Walter Johnson, 15, of Austin, ran away from the school early yesterday. He was picked up by military policeman from Fort Hood several miles from Mack's home, and carrying Mack's rifle.

Two Perrin Soldiers Get Red Cross Awards

AUSTIN, Aug. 15. (AP) — Two service men at the Perrin Air Base, Sherman, have been awarded the Red Cross certificate of merit.

They are Pfc. George C. Miholakis and Corp. Bernard G. Ledwell.

The award was announced yesterday by H. D. Carmichael, Red Cross state relations officer in Texas. It was awarded for the men's actions in the saving of Staff Sgt. Vincent Podfruski's life last May at Lake Texoma.

Plant in Texarkana Picketed in Strike

TEXARKANA, Aug. 15. (AP) — Picket lines were set up yesterday when an undetermined number of workers walked out at the International Creosoting and Construction Co. here. Work was suspended.

The strike was called after the union, production and maintenance workers affiliated with the United Mine Workers (CIO) and management failed to agree on wages.

Nimitz Sees Korea As Test

SAN FRANCISCO, Aug. 15. (AP) —Two famed admirals—Nimitz and Halsey—say Communist aggression must be checked in Korea—or World War III is a certainty.

Fleet Adm. Chester W. Nimitz said "if this flouting of the United Nations" is successful in Korea "other attacks will follow throughout the world."

Adm. William F. Halsey concurred and added:

"If we remain firm, we probably can avert further conflagation."

Both spoke before the national convention of the Disabled American Veterans yesterday. Nimitz declared that United Nations forces, when they take the offensive, must not stop at the 38th Parallel.

Now a special consultant to the United Nations, he added:

"Wars are fought to destroy the enemy's will to fight and that cannot be done by stopping at the 38th Parallel."

Japanese Divided On Question Of Defense

TOKYO, Aug. 15. (AP) — The Newspaper Yomiuri said today a poll of 4,000 residents of large Japanese cities showed 37 per cent favor creating a defense army and 4 per cent oppose it. The others were undecided.

It also said the Japanese are undecided generally on the effect of the United Nations action in Korea.

Such polls normally relect Japanese sentiment with considerable accuracy.

Tokyo 'Peace' Rally Ends In Mass Riot

TOKYO, Aug. 15. (AP) — A Korean an Red "peace rally" exploded into a mass fist fight today and 18 police were hospitalized Japanese press reports said.

An estimated 300 police clashed with some 700 Koreans at Okayama, near Kobe. The rally was staged an organizations in defiance of a ed by Communist dominated Korepolice ban against demonstrations. Police tried to break up the meeting.

Five persons were arrested.

Police broke up another demonstration of 400 Koreans in Kobe Monday night but there was no violence.

600 Landed By Ship Aflame In St. Lawrence

TADOUSSAC, Quebec, Aug. 15. (AP) —The 7,000-ton cruise ship Quebec burned to the waterline last night after racing aflame in the St. Lawrence River to land safely some 600 persons aboard.

The 22-year-old vessel was owned and operated by the Canada Steamship Lines, whose cruise ship, Noronic, burned at her berth in Toronto last Sept. 17, taking a toll of 119 lives.

"COMPLETE LOSS"

Operators of the Quebec said she was a "complete loss."

A few among the 400 passengers and approximately 200 crew members on the Quebec reported minor injuries. A considerable amount of baggage was destroyed as the ship burned to the water's edge about four hours after she docked at this resort town at the mouth of the Saguenay River.

Still unexplained was the cause of the fire, discovered late yesterday afternoon as the passengers crowded the Quebec's decks watching the grandeur of the Saguenay cliffs. The ship sailed from Montreal Sunday night for Bagotville, some 40 miles up the Sageuenay River, a tributary of the St. Lawrence.

IN HOLD

The fire reportedly was discovered in a hold. As the crew fought unsuccessfully to bring it under control, the ship's master, Capt. C. H. Burch, made a 25-mile run to bring his vessel into port here.

There was no panic among the passengers. Although the vessel was equipped with a sprinkler system and a fire-proof bulkhead, the flames gutted the ship.

Man Is Stabbed In Side With Scissors

Raymond L. McKinley, 25, of 607 Twenty-ninth Street, was stabbed in the side with a pair of scissors late yesterday afternoon and taken to the Snyder Hospital for treatment, according to Chester Barrington, chief of police.

A 49-year old man was booked ther investigation, Barrington said, ly weapon and was held for furon a charge of assault with a dead-

REDS WATCH MOVIE JOKE

BERLIN, (AP) — An anti-Communist jokester got a laugh from a German movie audience at Wittenberge in the Russian occupation zone recently. A newsreel was being shown in which East Germany's Communist president, Wilhelm Pieck, was chatting with a group of Russian officers.

Out of te darkness the pranksters shouted: "Wilhelm, hold on to your watch." The audience burst into a storm of laughter. Jokes about Russians and their fondness for watches have been standard in Germany since the conquering Red Army came in 1945 to strip wrist watches off thousands of conquered Germans.

Police swarmed into the theatre and inspected the audience upon departure but the jokester escaped.

U. S., Canada And Britain Are Standardizing Naval Procedure

WASHINGTON, Aug. 15. (AP) —Naval representatives of the United States, United Kingdom and Canada have held preliminary talks on standardizing naval operations, and the discussions are to continue.

The Department of Defense announcing this today, said the talks are part of an over-all plan "for collaboration in the broader military standardization program among all the armed forces" of the U. S., U. K. and Canada.

SHERMAN OKAY

Adm. Forrest P. Sherman, chief of naval operations, has given his okay for continuance of the naval phase of the talks, the Defense Department said.

The aim is to work out a "gradual development of common designs and standards in arms, equipment and training methods," as well as tactics and operations, including amphibious landings.

By standardizing operations defense officials evidently feel the allied nations will work better together in any common defense effort.

ONE OF AIMS

The Defense Deparment pointed out that promotion of standardization of military equipment is one of the aims of the North Atlantic treaty military production and supply board. The department said further:

"The arrangements made will reduce the operational and technical obstacles to co-operation among the navies and will achieve the greatest possibly economy in the use of combined resources and efforts."

Co-operation efforts will not, however, impair the control of any country "in any activity in its territory," the Defense Department added.

Careful Skin Care Gives That Cool Look in Summer

It always is a challenge to women to try to capture that cool look during the summer time. It is a difficult beauty chore to accomplish, what with the usual increased outdoor activity during hot weather.

The cool look of crisp summer cottons doesn't counterbalance a hot, red face. So we should strive for cool looking skins whether we choose the pale or sun bronzed look.

A few beauty treatments, whipped up from things on hand in medicine chest and kitchen cupboard, will keep you fresh and well-groomed through the hottest days.

Try carrying a small bottle of good quality witchhazel in the purse for frequent face washings during the day. It will do wonders in keeping the face cool. Wrap a few cotton squares in cleansing tissue and keep them in your bag for these dab-up movements. It is a good idea to keep witch hazel in the refrigerator during the summer. Its icy coolness will be refreshing when you arrive home after work on a hot day.

If you are troubled with oily skin and humid weather puts an unbecoming shine on your nose, try a vigorous cleansing routine. Select a soft complexion brush and each morning briskly scrub your face with mild soap and warm water. Pay special attention to the area around chin and nose, where oil glands are most active, as you refresh and stimulate complexion to a radiant glow.

A cooling facial several times a week is wonderful for cleansing pores and tightening facial muscles. One that is particulary effectvie and simple to make is a cucumber mask. Soak cucumber peel and the juice of one lemon in a cup of water 15 minutes. After your morning cleansing ritual saturate a cotton square with this liquid and pat briskly over face and throat. While you are organizing your wardrobe for the day, allow the facial mask to dry. Splash it off with cold water. Then apply makeup with soft, gentle strokes to avoid overheating the skin.

FACE VALUE— Movie star Joyce Holden cools her skin with a daily face pack of powdered milk.

Another kitchen facial that works wonders is the egg mask. This, also, is particularly good for oily skin, as it has a tendency to dry and tighten pores. After skin is cleansed, wet a fresh cotton square with frothy, beaten egg white and rub over face, neck and throat. When this is completely dry, remove with cold water.

The girl with oily skin always should select summer cosmetics with a non-oily base.

If complexion is dry and flaky, use a good cold cream for daily cleansing rather than soap and water. You might even take a tip from the young member of the family and borrow his baby lotion for removing soil and stale makeup.

Reynolds Heir Still Sought Atop Mountain

LONE PINE, Calif., Aug. 14. (AP) —Young Christopher Reynolds may lie dead in the snow only 300 feet from his goal, the top of the nation's highest peak, Mt. Whitney.

A search party on the mountain's perilous east face operated on that theory today after Veteran Mountaineer Harold Gates saw through binoculars what appeared to be a faded shirt close to the summit.

Gates gave the location as directly across from Keeler Needle. Night closed in before searchers could set out yesterday.

LIBBY ARRIVES

Meanwhile, the young tobacco heir's mother, former torch singer Libby Holman, arrived in New York by plane from Paris. She was met at the airport by a nephew and an attorney, but was not immediately told that litle hope is held for 17-year-old Christopher. The boys started the climb nine days ago.

The body of young Reynolds' companion, Steven Wasserman, also 17, was brought off the mountain and met by his parents, Mr. and Mrs. William Stix Wasserman of Philadelphia.

The searching party reported finding a 10-foot nylon rope, frayed at the end, around Young Wasserman's waist—indicating that the rope may have been severed by the jagged cliff as the pair edged upward, closely linked together.

Wasserman's body was found at about the 11,500-foot level—some 3,000 feet below where Gates spotted the object that may prove to be young Reynolds. Gates was the man who first sighted Wasserman's body and directed searchers to it.

Today's search for the heir to a $7 million cigaret fortune will be made by five members of the Sierra Mountain Climbing Club who remained high on the peak all night to get a good start.

GOOD CLIMBERS

The two youths, both veterap Matterhorn (Swiss Alps) climbers, had worked at nearby Cerro Gordo Silver Mine this summer and planned to enter Harvard in the fall. Wasserman's father, millionaire broker and economist, blamed the previous Matterhorn climb —made with a guide—for his son's death.

"That trip gave him too much confidence in his own ability," said the father.

GI Decides He Doesn't Want His Old Helmet

WITH U. S. FIRST CAVALRY DIVISION IN KOREA, Aug. 15. (AP) — Corp. James Moore of Pleasant City, Ohio, couldn't find his helmet when ordered into battle last night against the North Korean Reds.

He grabbed another. Its head-gripping liner didn't fit well.

After a night of bitter fighting, Moore looked around for a replacement. He found one—but the helmet had holes in the front and back where a bullet had killed the GI wearing it.

Moore looked inside. The name read: "Corp. James Moore." It was his.

Former Convict Admits Three Slayings In Georgia Hills

GAINESVILLE, Ga., Aug. 15. (AP) A 30-year-old former convict faces trial in North Carolina for a day of killing that brought an angry mob of 4,000 to the door of the jail where he was being held.

Curtis Shedd of Walhalla, S. C., a confessed triple-slayer, was turned over to North Carolina authorities last night. He was charged with murder.

TELLS OF SHOOTING

Agent Woody Wilson of the Georgia Bureau of Investigation said Shedd told officers he shot John Boyter to death with a shotgun in the mountainous Georgia-Carolina border country near Clayton, Ga., and later killed the dead man's two daughters near Highlands, N. C.

Shedd implicated Mrs. Boyter in the slayings, Wilson said, and the woman was held for questioning, but was released last night, Wilson said he was convinced that Mrs. Boyter was not with Shedd the day of the slayings.

The former convict was arrested after Boyter's decomposed body was found near Clayton. Witnesses told of seeing Shedd with the 38-year-old GI trade school student.

ADMITS KILLINGS

Wilson said Shedd admitted slaying the father and two girls after hours of questioning. He later led the way to the spot where officers found the bodies of the two Boyter girls Jonnie May, 14, and Jo Ann, 8.

A motive for the slaying of Boyter has not been announced.

Wilson said Shedd told officers he had sexual intercourse with the older girl and then strangled her because he feared she would tell. Shedd related he then killed the younger child, Wilson said, because she had witnessed his sexual relations with her sister and had also seen her sister killed.

Western Union Workers Receive Pay Increases

DALLAS, Aug. 15. (AP) — A new contract calling for raises of three and four cents an hour for 35,000 Western Union employes over the nation has been approved by a large vote in southwestern states.

S. P. Oster, southwestern division officer of the Commercial Telegraphers Union, AFL, said last night that the new contract will run until April 1, 1952.

The contract also calls for expansion of pension and death benefit plans.

Vocational Educator Will Take New Post

AUSTIN, Aug. 15. (AP) — W. E. Lowry will leave his post as assistant commissioner for vocational education with the Texas education agency next month to take a new position.

The education agency announced yesterday that Lowry will become executive assistant to the president and dean of the school of education of Sam Houston State Teachers College, Huntsville.

Lowry has been head of the vocational education division here since his Army Air Force discharge in 1945.

Union Wildcat

(Continued from Page 1)

promise of a discovery from the Pennsylvanian lime, has been plugged and abandoned after extended testing.

An initial show for production failed to develop. The project was Thomas W. Boswell and Associates No. 1-A Solomon.

It was located 18 miles northwest of Colorado City and three miles southeast of the one-well Dunn-Canyon field.

The drillsite was 660 feet from north and west lines of section 72, block 97, H&TC survey.

Total depth reached was 8,311 in the Ellenburger. That zone made water and had no possibilities of oil or gas production.

Operators plugged back to 7,538 feet in the Pennsylvania lime and cemented a string of casing at that point. The pipe was perforated at 7,448-68 feet, and that zone was treated with a total of 20,000 gallons of acid.

The section then made some oil and some water. Operator reported that a total of 200 barrels of new oil plus 95 per cent water was produced during the extending period of testing.

A completion report on the well was filed with the Railroad commission so the 200 barrels of new oil could be sold and moved.

Then a plugging application for the failure was filed with the regulatory body.

MIDLAND WILDCAT

A 5,000-foot wildcat has been staked in Southeast Andress County four and one-half miles northeast of the nearest production in the Midland Farms field, by Anderson-Prichard Oil Corp. and Stanolind Oil & Gas Co.

It is their No. 1-H-15 David Fasken, 1,980 feet from south and west lines of section 15, block G&MMB &A survey, T-2-N, block 41, one and one-half miles northeast of Stanolind No. 1-J Midland Farms, a dry hole which had some shows in the San Andres but which were not enough to make an oil well.

The No. 1-H-15 David Fasken will test the Graburg and possibly the upper San Andres. It is the first of eight wildcats Anderson-Prichard and Stanolind have contracted to drill on their large spread of leases in the Midland Farms between now and April 1951.

Drillsite is 15 miles southeast of the town of Andrew.

SCHLIECHER WELL

Plymouth Oil Co. No. 1 Tomerson, Central-North Schleicher County wildcat found another thin streak of pay in the Cisco lime at 3,709-35 feet.

That zone was drillstem test for one hour and 45 minutes. There was a slight blow of air throughout the period.

Recovery was 50 feet of drilling mud, 285 feet of heavily oil and gas cut mud and 15 feet of slightly mud cut oil. There were no signs of formation water.

Open flowing bottom hole pressure reached a maximum of 90 pounds by the end of the test. Shutin bottom hole pressure, after 15 minutes was 520 pounds.

The prospector was deepened to 3,762 feet and a two hour drillstem test was run with the packer at 3,735 feet. Recovery was 360 feet of salt water. There were no shows of oil or gas.

The wildcat is now making hole below 3,838 feet in Cisco shale.

This project showed a little sign of oil and gas in the top of the Cisco in a drillstem test at 3,226-65 feet.

It is 660 feet from north and east lines of section 66, block H, GH&SA survey, and is 12 miles south of the Susan Peak field in Southeast Tom Green County.

The venture is projected to 6,500 feet to explore to the Ellenburger.

SALT WATER

Sinclair Oil & Gas Co. and Magnolia Petroleum Co. No. 1 G. R. Davis, Northwest Upton County wildcat developed a large amount of salt water, and only slight shows of gas in a drillstem test of the open hole at 13,238-336 feet, in the Ellenburger.

The tool was open one hour and 15 minutes. Recovery was 1,810 feet of salty gas cut mud and 9,720 feet of salt water. There were no shows of oil.

Operators are preparing to run electric surveys.

This project, located 660 feet from north and east lines of section 20, block 41, T&P survey, T-5-S, is six and one half miles southwest of the Pegasus field.

It tipped the Ellenburger at 13,105 feet on an elevation of 2,864 feet. The zone between 13,138 feet and 13,238 feet had a little show of oil and gas. That zone is now cased off with the 7-inch casing which is cemented at 13,238 feet.

It is expected that operators will test that interval through perforations in the casing after the water making zone below is cemented off.

FREE DISTILLATE

Cities Service Oil Co. No. 1 Waddell, northwest offset to Phillips Petroleum Co.'s recently completed discovery in Central-East Winkler County, has developed a large amount of gas and free distillate in the Fusselman drillstem test.

On a test at 9,236-77 feet, gas surfaced in eight minutes. Gas volume was estimated at 2,600,000 cubic feet per day.

Recovery was 50 feet of 58-gravity distillate and 639 feet of gas and distillate cut mud. Operator is drilling ahead in an attempt to get into the oil column and take another drillstem test.

The Phillips discovery, which is producing from the Ellenburger, also indicated for flowing production from the Fusselman zone of the Silurian.

The Cities Service No. 1 Waddell is 1,980 feet from south and 660 feet from east lines of southwest quarter of section 5, block B-7, psl survey, and six miles west of Notress.

NEAR SAN ANGLEO

Wilshire Oil Co. and Balboa Oil Co. No. 1 Lawernce D. Brooks, wildcat in extreme Central-East Irion County, was last reported bottomed at 7,190 feet preparing to take a drillstem test. The test will be over a cored section which yielded good shows.

On the core at 7,165-90 feet, recovery was 25 feet of solid lime: top 15 feet had good pin point porosity and good oil stain, and was bleeding gas; the bottom 10 feet was tight with some very thin shale streaks.

On the previous drillstem test in this lower Strawn section at 7,136-63 feet gas surfaced in 30 minutes then decreased by the end of the one hour test. Recovery was 10 stands of gas and 50 feet of heavily oil and gas cut mud, with no water.

The No. 1 Brooks is 660 feet from north and west lines of section 21, block 3, H&TC usrvey, and one and three-quarters miles west of the Tom Green County line.

COKE LOCATION

In Central-West Coke County one and one-half miles northeast of Bronte, Humble Oil & Refining Co. will drill its No. 1 Noah L. Pruitt, 660 feet out of the northeast corner of section 427, block 1-A, H&TC survey.

No. 1 Pruitt will be only one and one-half miles west of the Runnels County line. It will be two miles southeast of J. W. Wadley No. 1 Sam Gray, a 5,716-foot Ellenburger failure, and the same distance northeast of T. W. Murray and Louis Mabee No. 1 L. T. Youngblood on the Bronte townsite, which was abandoned at 5,210 feet in Strawn lime.

McQueen & Clevenger, contractors, are due to begin moving in rig immediately. The wildcat is scheduled to be drilled to the Ellenburger.

TWO VENTURES

Both Humble Oil & Refining Co. and Mid-Continent Petroleum Corp. have staked a wildcat location in Runnels County.

Humble's No. 1 W. W. Parramore, slated to be drilled to the Ellenburger in North-Central Runnels County, will be 1,980 feet from the north and east lines of section 47, block 63, HT&B survey. Drilling operations will start by August 28 and the project is scheduled for a 5,800-foot depth.

Drillsite will be on the west side of G. W. Strake's South Winters block of 11,212 acres, five and one-quarter miles southwest of Winters and two and three-quarters miles northeast of Continental No. 1 M. J. Barnhill, a 4-974-foot Ellenburger failure.

Mid-Continent will drill No. 1 Mary L. Sykes in Runnels County, 330 feet out of the northeast corner of tract 19, Marshall University survey 511, eight miles northeast of Winters in the northeast portion of the county.

This scheduled 5,200-foot wildcat will be on a 377-acre lease in the northwest part of the survey. Location is three and one-half miles northwest of G. B. Cree No. 1 O. C. Sykes, recent Gardner Sand discovery, and six miles southwest of J. D. Andrews and others (Jerry Rosenberg) No. 1 Ray V. Willis, Cisco sand pool opener.

Auto Accident Kills Beaumont Civic Leader

LUFKIN, Aug. 15. (AP) — Clarence K. DeBusk, general manager and vice president of the Beaumont Chamber of Commerce, was killed in an automobile collision here today. Two other prominent Beaumont residents were seriously injured and four Houston persons sustained less serious harts.

George Morgan, president of the Beaumont Natural Gas Co., and Pat Peyton, vice president of the American National Bank at Beaumont, passengers in DeBusk's automobile, were seriously injured. They are in a Lufkin hospital.

Mr. and Mrs. James Salmon and two children of Houston were in the other car and were less seriously injured. They are in a hospital. The Salmon family was en route home from Marshall.

The accident occurred at 12:45 a.m. when the automobiles collided inside the Lufkin city limits at an intersection.

DeBusk was well known throughout East Texas. He left Jacksonville to take the Beaumont job. He and his companions were en route to Beaumont from Lufkin when the accident occurred.

DeBusk, one of the state's most successful leaders in dam and waterway improvements projects, is widely known among West Texas river developers.

He has visited at public meetings and conventions here and over West Texas.

He was a resident of San Angelo in his early youth, his father being operator of a small store on N. Chadbourne St. near the railroad tracks.

Joan Causes Delay

HOLLYWOOD, Aug. 15. (AP)—Joan Crawford was reported recovering today from an emergency appendicitis operation performed at the Hollywood Presbyterian Hospital last night.

Her studio, Warner's, said filming of a picture on which she was due to start work in two weeks will be postponed until sheg ets well.

Engineer Sees Gas Turbine In Autos

LOS ANGELES, Aug. 15. (AP) — High speed gas turbine engines, burning cheap fuel and weighing one tenth as much as conventional types, will soon replace the piston engine in automobiles, says W. M. Brown, project engineer of the Kenworth Motor Truck Corp.

Addressing 300 delegates to the West Coast meeting of the Society of Automotive Engineers yesterday, Brown said turbines being tested in trucks have only 10 per cent as many moving parts as ordinary motors.

Bryan Youth Killed

BRYAN, Aug. 15. (AP) — Ollie B. Phillips, 19, who was married a week ago, was fatally injured yesterday when he fell from a truck. The truck's brakes locked and it left the highway out of control.

Famed Mexican Artist to Aid Expelled Group

LAREDO, Aug. 15. (AP) — Eight faculty members of an art school in San Miguel Allende, Mex., who were deported for lack of proper Mexican work permits believe they will be allowed to re-enter Mexico.

Th group, six of them U. S. citizens and two Canadian citizens, arrived here yesterday after being escorted by armed guards from Mexico.

Sterlin g Dickinson of Chicago heard of the school, said it was operated under the Mexican Ministry of Public Education but that the ministry of interior was responsible for their being forced to leave the country with virtually no notice. He said the only explanation given was that under regulations effective June 1 they had to have new work permits.

PROMISE REVOCATION

In Mexico City, Mexican Painter David Alfaro Siqueiros said the interior ministry had promised to revoke the expulsion orders.

However, the press section of the interior ministry said it could neither confirm no deny Sequeiros' statement, made after he talked with Adolfo Ruiz Corinez, minister of interior.

The eight were picked up late Saturday by immigration service agents. Mayor Julian Malo said they were charged with working for pay while in Mexico as tourists. Mexican law forbids tourists to work.

MISTREATED

Members of the party complained of mistreatment. Mrs. Ruska Pinto, wife of an instructor, said she was handled roughly and displayed bruises on her arm. The group is here only with the clothing they were wearing at the time of the arrest and have very little money.

Dickinson said they were kept prisoners on the train carrying them to the border and were not allowed to send telegrams. He commented that when they got near the border the guards changed and treated them kindly.

Attendance Awards Are Given at Lions Club

At the Lion's Club regular noon luncheon today eleven members were presented with perfect attendance buttons and eight new members were presented with certificates of membership.

Those receiving buttons for perfect attendance from eptember 1949 to May 1950 were: H. O. Beard, Forrest Beavers, Wayne Boren, T. M. Deffebach, Barber Martiz, K. O. Pittner, D. K. Ratliff Myron Rowe, Jay Rogers, W. J. Schiebel, and Bill Weaver.

Certificates of membership were presented to Edward Bolger, Bob Davie, Wilbur Ellis, Bob Kahn, Dillard Pope, Carl Taylor, George Stephens and Charles Mathis.

Eight guests were present at today's luncheon. Out - of - town guests were Dr. W. T. Jones of Lubbock; Thomas Pickett, Dallas; Guy Thomas, Abilene; J. C. Evans, Bill Collette, Rex Fields, H. H. Reed and E. J. Richardson all of Snyder.

O'Dwyer Might Be Named U.S. Ambassador

WASHINGTON, Aug. 15. (AP) — Mayor William O'Dwyer of New York had an appointment with President Truman today, possibly to talk about a job as ambassador to Mexico.

The mayor himself had no comment before leaving New York for Washington. But there has been speculation for a long time that he may get the Mexico City appointment.

At the White House, presidential Secretary Charles G. Ross confirmed O'Dwyer's appointment to see the President. But he added that he didn't know of any federal job that might be offered him.

O'Dwyer has visited in Mexico City; has many friends among high placed officials there and has entertained them in New York.

The New York Times said that Democratic officials say O'Dwyer's appointment now needs only a nod from President Truman to seal it.

O'Dwyer is serving his second term as mayor of New York. If he receives the appointment, Democratic officials in New York said he could resign as mayor in time for a special election to be held this fall; or he could stay on long enough to defer the election to November, 1951. In the latter case the city council president, Vincent R. Impellitteri, would become acting mayor.

The present ambassador to Mexico is Walter Thurston, a career diplomat.

SMU Endowment Fund Hiked By Royalties

DALLAS, Aug. 15. (AP) — The income from $1,500,000 worth of West Texas oil royalties recently purchased by Southern Methodist University will be added to the schools endowment fund.

Eugene McElvaney of Dallas, chairman of the SMU Executive Committee said last night that the purchase included 13 per cent of the mineral rights on 30,625 acres of the Mallet Ranch, in Hockley, Cochran, Terry and Yaokum Counties.

The purchase was made from Mrs. Helen DeVitt Jones and Tom Jones of Lubbock.

It can happen on your property - and if you don't carry Insurance you'll face a nasty law suit and probably a substantial judgement which you must pay.

Mrs. Huckabee Funeral Rites Set Tomorrow

Funeral services for Mrs. Velma Huckabee, 54, wife of Wray Huckabee, of Snyder, will be held at 2 o'clock tomorrow afternoon at the First Baptist Church with the Rev. E. K. Shepherd officiating.

Mrs. Huckabee, a resident of Scurry County 44 years, died about 9 o'clock yesterday morning as a result of multiple wasp stings suffered a few minutes earlier. She was given first aid treatment at her home and rushed to the Snyder Hospital Clinic where she died almost immediately after being admitted.

She is survived by her husband; a daughter, Mrs. Maxcine Collier, of Dallas; a brother, Joe Seabourn, of San Diego, Calif.; anf five sisters: Mrs. Effie Ramsey, 2511 Avenue W; Mrs. J. E. Davis, 1708 Twenty-eighth Street; Mrs. C. E. Trussell and Mrs. A. B. Ficke, 2311 Twenty-seventh Street, and Miss Ruth Seabourne, 2216 Twenty-sixth Street. Her son-in-law, Maurice Collier, of Dallas, will be here for the funeral.

Mrs. Huckabee was born May 24, 1896.

Pallbearers will be Ixon Joyce, G. M. Handback, Lyman Wren, Bill Harrell, P. J. Collins, Neal Musgoves, Oscar Rosson, and Holly Shuler. In charge of flowers are Mrs. Hugh Vandergriff, Mrs. Elmo Crowder, Mrs. G. V. Parks, Jr. and Mrs. A. R. Knight.

Services will be under the direction of the Bolger-Barnes Funeral Home. Burial will be at the Snyder Cemetery.

Two Plead Guilty, Pay Fines In County Court

Two men pleaded guilty to misdemeanor charges in county court yesterday and paid fines totaling $345, including court costs.

They were George Pogue, Jr., 38-year-old Snyder Negro, fined $123.50 for carrying a pistol, and Venon Mathews, 36, of Snyder, fined $273.50 for possession of liquor for purpose of sale in a dry area.

Officers of the sheriff's department said 34 pints of whisky, 535 12-ounce cans of beer, and two pints of gin were confiscated from Mathews. Both arrests were made over the week end.

Junior Chamber Names Member to Sponsoring Group for Youth Center

Lloyd Clark has been appointed to represent the Junior Chamber of Commerce on the Youth Council, it was announced today by Jack Kennedy, junior chamber secretary.

At the meeting of the organization held at the Country Club, last night, the Jaycees went on record favoring the Youth Center project, and voted to assist in every possible way with the Legion and Vet erans of Foreign Wars in their proposed community welfare program, Kennedy said.

Charles Hooser was elected to take care of the goat, "A.W.O.L." for the coming week.

Speaker At Oak Creek Dam Opening Will Be Conservation Head

Judge Guy C. Jackson, president of the Texas Water Conservation Association, will be the principal speaker at the celebration of the Oak Creek Dam dedication, set for 4 o'clock the afternoon of Aug. 27, according to word received here today from Sweetwater.

Scores of people from Snyder are slated to attend this event. Special road markers, directing the motorists to the scene are being set up by the Sweetwater Junior Chamber of Commerce.

Location of the dam is four miles southeast of Blackwell.

Cemetery Working Set For Aug. 25 at Pyron

This year's second semi-annual work project of the Pyron Cemetery has been set for Aug. 25, according to an announcement by Louie Brock, of Hermleigh, a trustee.

We are hoping to have a large crowd of cemetery workers, Brock said, and are urging all persons interested in the upkeep and beauty of the cemetery to be present. The people will bring basket lunches, he said.

For the second year in succession, Syracuse University's wrestlers and boxers ruled their respective eastern tournaments.

Albuquerque Knocks Pampa For Two Loops

(By The Associated Press)

Albuquerque slapped down the West Texas-New Mexico League leading Pampa Oilers twice last night and put a tighter grip on fourth place—five games out.

The Dukes took the opener from the Oilers, 11-5, then grabbed the nightcap, 3-1. Lubbock, three games off the pace in third place, whipped Clovis, 7-6, second place Lamesa fell to Amarillo, 8-11, and Borger ran over Abilene, 18-3.

Albuquerque scored six times in the seventh frame of the first game to whip Pampa. The Dukes chalked up three runs in th ninth to edge the Oilers in the second.

Consecutive homers by Don Moore and Mike Dooley in the 10th inning gave Lubbock its win.

Frank Murray gave Amarillo its victory, driving in six runs with a homer, triple and single.

Borger pounded out 19 hits in its attack against Abilene. Five Abilene errors also aided in the scoring.

Early Wynn Gives Indians The Solid Push Needed For Pennant

By RALPH RODEN
(Associated Press Staff)

Early Wynn's contribution to the Cleveland Indians' pennant drive is even greater than his record indicates.

The 30-year-old righthander has turned in 13 victories, but seven of them have been over the other first division teams—Detroit, New York and Boston.

Only Bob Lemon, ace righthander, has a better record on the Cleveland team.

Lemon, who goes after his 19th victory today in the final of a two-game series against the pace-setting Tigers, has scored eight of his triumphs against first division teams. Five of Lemon's conquests have been over the fourth-place Boston Red Sox. Wynn has beaten the Sox only once but holds three triumphs over Detroit and New York.

Wynn considerably brightened the Indians' pennant outlook last night as he turned back the Tigers, 3-2, in a ten-inning thriller before 60,120 fans in Cleveland's Municipal Stadium. The triumph moved the runner-up Tribe to within 2 1-2 games of the bengals.

DRAMATIC GAME

The game was one of the most dramatic of the season. The Indians scored a run in the second inning and Wynn nursed this slender margin until the ninth.

In the ninth, with one out, Hoot Evers beat out a slow bounder over the mound for a single. Johnny Groth followed with a home run into the lower left field stands and a deep gloom settled throughout the stands.

The vast throng began to move silently towartl the exit gates as Hal Newhouser retired the first two Indians in the last of the ninth. But Al (Flip) Rosen brought them back in a hurry by socking a home run well over the left field fence to tie the score. The belt was Rosen's 31st of the year.

The Tigers threatened in the tenth but Wynn struck out George Kell with a runner on second to end the bid and the Indians quickly broke up the game in their half of the inning.

Allie Clark got things underway with a double to right. Speedy Bob Avila went in to run for Clark. Jim Hegan was intentionally passed and Wynn sacrificed the runners along. Newhouser then purposely walked Ike Boone to load the bases.

Manager Lou Boudreau then went against "the book" and sent left-handed hitting Dale Mitchell up to bat for righthanded hitting Bob Kennedy. Mitchell sent a high bounder to short. Connie Berry fired the ball home but the speedy Avila slid under the throw to win the game.

The game was the only one in the American League.

Action in the National League also was slight. In the only games played, the Chicago Cubs nipped the St. Louis Cardinals, 7-6, and the improving Cincinnati Reds thrashed the Pittsburgh Pirates, 13-8.

NATIONAL LEAGUE

Cincinnati	00(11)	000 110—13	12 3
Pittsburgh	10 0	131 200— 8	13 0

Ramsdell, Fox, Smith and Howell; Lombardi, Pierro, Dickson, McDonald and McCullough, Mueller.

St. Louis	000	200 220—6	9 0

Brecheen, Munger and D. Rice; Lade, VanderMeer and Owen.

AMERICAN LEAGUE

Detroit	000	000 002—2	7 1
Cleveland	010	000 001 1—3	8 0

(10 innings)

Newhouser and Robinson; Wynn and Hegan.

Farouk Expected To Be In Marseille Today

DEAUVILLE, France, Aug. 15. (AP) —Egypt's King Farouk was expected to arrive today in Marseille, en route to this English channel resort.

The Egyptian king reportedly was coming here "incognito" for a Franco-Egyptian celebration Aug. 20. He was expected in Marseille today aboard the royal yacht and was to travel here by automobile immediately on arrival.

The celebration is being sponsored by French artists to express their appreciation for the welcome Eygpt has given them in the past.

Class A Teams Start Fall Practice Today

(By The Associated Press)

More than 200 Texas high school football teams swing into the grind today.

The Class A division of the Interscholastic League—the only one that does not have spring training—can start fall practice Aug. 15. The other divisions—City Conference, Class AA and Class B—which have spring training open the campaign Sept. 1.

There are 851 schools in football this year with 225 in Class A. Most of these schools will exercise their prerogative and open training today.

Some high school games will be played in Texas as early as Sept. 1.

Ruffs Are Out To Skin Fort Worth's Cats

By BILL HITCH
(Associated Press Staff)

The Beaumont Roughnecks, with their hustling plays and explosive rallies, plus the aid of Houston's Jerry Witte's big bat, are breathing down the neck of the Texas League leading Fort Worth Cats today.

The Roughnecks bumped out 12 hits and exploded for eight runs in the sixth frame to best Oklahoma City 11-8 last night. Jerry Witte's second homer of the evening, in the ninth frame, gave Houston a 3-2 victory over the Cats.

Beaumont is only one and one-half games behind the Cats and coming fast.

Dallas took the opener of a twin bill from San Antonio, 4-0. The Missions bounced back to blank Dallas 1-0 in the second game. Shreveport whipped Tulsa, 6-3.

Gil McDougald paced the Roughneck attack at the plate with four-for-five, including a homer and a triple. Harry Schaeffer was the winning pitcher, after he relieved starter Ernie Nevel in the sixth. Leroy Wheat was the loser.

Witte had homered in the fifth inning to start a mild rally and give Houston a 2-2 tie with Fort Worth. The two round-trippers were Witte's 20th and 21st of the year.

Gerald "Red" Fahr allowed Tulsa only seven hits as he elbowed the Sports to their victory. Jack Hussey's two-run homer put the Sports in front in the fourth inning, and they added pairs in the sixth and seventh. Dewey Williams and pinch-hitter Bill Martin homered for the Oilers. Bob Curley, who pitched only six innings, drew the loss.

Dallas' Bob Buhl faced only 24 batters in shutting out San Antonio. Lew Morton slapped a two-run homer for the Eagles. Frank Biscan held the Eagles in check as he gave up three hits in the nightcap. Joe Frazier singled to drive in San Antonio's lone run in the third—but was enough to whip the Eagles.

Tonight the clubs wind up their series before moving on.

FIRST GAME

Dallas	202	000 0—4	8 1
San Antonio	000	000 0—0	2 0

Buhl and Aylward; Hudson, Pavlick, Herrera and Balch.

Charles Ready For Title Tilt With Beshore

BUFFALO, N. Y., Aug. 15. (AP) — Ring-rusty but confident Ezzard Charles returns to action tonight, and almost prohibitative favorite to blast longshot Freddie Beshore out of his path to a lucrative crack at Joe Louis.

Sharp-shooting Ezzard is rated at least 1 to 5 to belt the day lights out of Beshore and hold on to his NBA heavyweight championship. The 15-round title fight starts at 9 p.m. (EST) in Memorial Auditorium.

Sidelined by a rib and heart injury for almost six months, the 29-year-old champion aims to renew his ring campaign in a different role.

Hitherto an efficient but cautious performer, Charles plans to turn "tiger" tonight and gun for an eye-catching and quick kayo.

A spectacular job against the 26-year-old Harrisburg, Pa., challenger will bolster Charles' box office appeal against the comebacking Louis. The International Boxing Club wants to match the two in Yankee Stadium Sept. 27.

ONE-SIDED?

The prospects of a one-sided battle plus two postponements caused by Charles' injury has hurt the ticket sale. Promoter Dewey Michaels is looking for a crowd of around 10,000 and a gate of "over $60,000."

The show will not be televised nor broadcast and that may bring on a late rush for tickets.

Charles is down to receive 40 per cent of the net gate while Beshore will collect 17½.

Off his record Beshore (26-6 and 1 draw) doesn't seem to rate with Charles (66-5 and 1 draw) but the former gob has a bobbing and weaving style that could cause Charles some rouble. Frddie is strictly a foward moving body-puncher and that's the kind of an opponent that has bothered the champion most.

"If Freddie can get past the first eight rounds then you may see the biggest heavyweight upset since Jim Braddock took Maxie Baer," said Ralph Gold ,Beshore's manager.

"We're going to belt him out," was the prediction of Jake Mintz, Charles' voluble manager. "Ezzy knows the spot he's in. He knows he needs to win sensational to get the big chips with Louis. He's mean and ready."

Fort Worth	002	000 000—2	5 0
Houston	000	020 001—3	6 0

McCahan and Staples; Garlock and Fusselman.

Mrs. Hilton Shuff, Route 1, Box 42, Ville Platte, Louisiana, has a son, a daughter, a husband, a small garden and her housework to keep her busy from morning until night. She says she isn't a bit tired after such a day now that she is taking HADACOL to give her system those precious Vitamins B1, B2, Niacin and Iron. Before taking HADACOL her system suffered a deficiency of these.

Here is Mrs. Shuff's statement: "I have been sick and weak for some time. When you are a housewife on the farm you have lots of work to do—not hard work but work that is tiring, specially when you are sick. At night I couldn't rest—and food, no matter what I ate, didn't agree with me. Then my sister told me about HADACOL—she said HADACOL would really make me feel better. I took her advice and began taking HADACOL. I felt better after the third bottle. So far I have taken 15 bottles of HADACOL. I eat anything I want to, I sleep well every night and my housework doesn't tire me at all. Anything I say about HADACOL would be an under-statement. I think HADACOL is wonderful."

You, Too, Can Be Helped

as have thousands of other fine folks if you, too, suffer a deficiency of Vitamins B1, B2, Niacin, and Iron, which HADACOL contains. HADACOL helps build up the hemoglobin content of your blood when Iron is needed) to carry these precious Vitamins and Minerals to every organ and every part of your body—to the heart, liver, kidneys and lungs, even to the eyes, hair and nails.

Give HADACOL a chance today. Refuse substitutes. Don't let anyone tell you something else is "just as good." Insist on the genuine HADACOL. No risk is involved . . . because HADACOL is sold only on a strict money-back guarantee. You'll feel great with the first few bottles you take or your money will be refunded. Trial size, only $1.25; Large Family or Hospital size, $3.50. Adv.

Palermo Might Give Self Up

PHILADELPHIA, Aug. 15. (AP)—Frank (Blinky) Palermo, manager of lightweight champion Ike Williams, is expected to surrender to police today in connection with a South Philadelphia gun battle.

Attorneys for Palermo and James Singleton, 42, both of Philadelphia announced late yesterday both men would be surrendered to police, probably in time for arraignment at the morning session of Central Station Police Court.

A third man wanted by police in connection with the gun battle, Joseph Coffey, 45, of Philadelphia, was returned to Philadelphia last night after waiving extradition at Margate, N. J. He was arrested in the New Jersey city earlier.

Inspector Richard Doyle has identified Coffey as a "strong arm man" for one of Philadelphia's largest numbers banks.

Doyle said the bank is operated by Palermo and Singleton and ordered their arrest, along with that of Coffey, on charges of violation of the firearms act, reckless use of firearms, atrocious assault and battery with intent to kill and conspiracy.

Lemuel B. Schofield, attorney for Singleton and Coffey, said he and Morton Witkin, Palermo's attorney, had "advised these men, through their friends to surrender."

Witkin added: "Mr. Palermo is a boxing promoter and manager. He is not a numbers racketeer. He denies all such charges levelled against him."

Doyle said the shooting stemmed from a "welsh" on a 75-cent numbers bet that should have paid the bettor $350. No one was hurt in the exchange of shots.

John Dagrosa, eastern Pennsylvania representative of the State Athletic Commission, promised "proper action" when the outcome is determined. Dagrosa said the commission could revoke or suspend Palermo's license if there is a "concrete case."

NCAA Issues Blacklist For 1950 Football

CHICAGO, Aug. 15. (AP) — The National Collegiate Athletic Association Council has recommended suspension of six schools from NCAA membership for reported violation of the "sanity code."

The schools were not notified. However, it was indicated other schools might be added to the list. The action was taken yesterday.

Disciplinary action must be voted upon at the full NCAA convention in Dallas, Tex., Jan. 10-13. Suspension bars disciplined schools from competition with other NCAA members and from association championships.

The council, in a weekend session here, heard a report on 11 suspected violators of the code since the last NCAA convention in New York in January. The other five cases must await further investigation.

Four of these were said to be about to accept the provisions of a strict limit on financial aid to the controversial code which places athletes.

A majority vote of the estimat necessary to blacklist the six reed 312 NCAA members will be ported offenders. The code permits tuition only to athletes on the basis of need.

Of the seven schools previously cited for code violations, Boston College and Maryland returned to good standing. The Citadel resigned at the New York meeting and Virginia, Virginia Tech, Villanova and Virginia Military Institute still are blacklisted.

The council studied eight suggested changes in the code and approved one for presentation to the Dallas meeting. It declined to name the proposed change.

MAN EATING LION KILLED

KHARTOUM, Anglo-Egyptian Sudan (AP) — Natives finally have speared to death "Asad the Assassin," a man-eating lion who killed seven humans but ran away when an angry housewife pulled his tail. Three persons mauled by the lion are in serious condition at Sourcess Uubu hospital.

For weeks the killer had been stalking the Zande Country of Equatoria Providence, South Sudan. He got has name from the Arabic work for lion—"asad."

The villagers finally tracked the lion down and killed him with spears. Examination of the body showed he was very large, old and—like most man-eaters, had teeth missing which caused him to turn to easily killed human prey.

BLIND GARDENER

DES MOINES, Iowa (AP) — One of the best gardeners in Wadena, Ia., is Fremont Clark, 51. Clark, who has been totally blind for many years, does all of his gardening from a kneeling position. He does an efficient weeding job.

Lamotta Is Matched Against Dauthuille

NEW YORK, Aug. 15. (AP) — Jake LaMotta will defend his middleweight crown next month in Detroit.

The champ signed yesterday to meet France's Laurent Dauthuille in Olympia Stadium Sept. 13.

He Won't Take the Cake By Auto

ST. ANNE, Ill. — (AP) —E. E. Atherton, Jr., a farmer who is just as handy in front of a stove as he is behind a plow, was disappointed when his cake failed to win first prize at the 1949 state fair in Springfield. He attributed his loss to the fact that the angel food cake bounced around during his auto trip to the fair. "This year," he says, "I'm going to bake the cake in Springfield."

Tom Brown Added To Davis Cup Netters

NEW YORK, Aug. 15. (AP) — Unheralded Tom Brown of San Francisco has a chance to be a hero when the American Davis Cup tennis team defends its title against Australia at Forest Hills, N. Y., Aug. 25-27.

He and three veterans of the international classic were named yesterday for the four berths on the squad. As expected, the others nominated by the cup selection committee were Ted Schroeder of La Crescenta, Calif.; Gardnar Mulloy of Coral Gables, Fla., and Billy Talbert of New York.

A sprained right ankle kept Budge Patty, the Wimbledon champion from Los Angeles, from making the team, according to John H. Bishop, chairman of the committee.

Add a little cooking sherry to sweet and sour red cabbage for a delicious flavor change. Season with salt and pepper after the cooking sherry has been added.

Engagement of Miss McGlaun, Mr. Worley

Mr. and Mrs. W. A. McGlaun, 1200 Twenty-fifth Street, announce the engagement of their daughter, Miss Clarice McGlaun, to Dwight Grant Worley.

Mr. Worley is the son of Mr. and Mrs. C. C. Worley, 849 Thirteenth Street.

The nuptials will be held Aug. 31.

Both Miss McGlaun and Mr. Worley will be sophomores at Abilene Christian College, Abilene, in the fall.

Toombs-Randell Vows Exchanged Here August 4

A double ring ceremony Aug. 4 united Mr. and Mrs. Leon Toombs, Jr. The Rev. W. W. Adcock, pastor of the First Methodist Church, officiated at the ceremnoy.

Mrs. Toombs is the former Miss Patricia Randell, the daughter of Mr. and Mrs. H. A. Randell. Mr. Toombs is the son of Mr. and Mrs M. L. Toombs, Merkel.

The bride wore a baby blue organdy street length dress, with white shoes and a corsage of Rubrum lillies.

The bride's attendant, Miss Billie Abbott, Abilene, wore a street length dress of pink eyelet embroidery, white accessories, and a corsage of white carnations. Cpl. Dusty Randell, brother of the bride, was best man.

A reception was held in the home of Mr. and Mrs. Lewis Atkins, 106 Milburn Street, following the marriage. Traditional three-tiered cake and punch were served. Out-of-town guests attended from Merkel, Abilene and New Mexico.

The couple left immediately after the reception for a honey-moon in New Mexico. The bride wore a dressmaker's suit of tan linen with burnt-orange accessories.

After the trip, the couple will make their home here. The groom is employed by the Texas highway engineers.

PERSONALS

Mrs. William Haney, had as a guest her nephew Bob Steele, from Tulsa. Mrs. Haney drove back to Tulsa with him, where she will visit her people for a few days.

Mr. and Mrs. Frank Strom and daughter, Miss Carol Strom, and Mrs. W. L. Hayley have returned from a vacation trip to Five Oaks Ranch near Uvalde. They were guests of Mrs. W. B. Hamilton, Camp Woods, and Mr. and Mrs. V. L. Durnell, Houston, owners of the ranch. Mrs. Hayley is a sister of Mrs. Hamilton.

Mrs. Homer Graham, 320 Twenty-eighth Street, went to Lubbock, Amraillo and Wichita Falls last week. Accompanying her was Mrs. Bob Sides. The women visited friends in the various cities.

Cpl. Dusty Randell from Larson Air Force Base, Wash., is here visiting with his parents, Mr. and Mrs. H. A. Randell, 2106 Twenty-sixth Street.

Mr. and Mrs. Wayland G. Holt, 1901 Avenue O, are away on a three-day vacation. They will visit in Brownfield, Tex., and drive on to Ruidoso, N.M.

Mrs. Homer Graham expects her sister-in-law, Mrs. Lucille Berry from Houston, to visit with her sometime this week. Mrs. Berry will stay an indefinite length of time.

Mr. and Mrs. Simon Best, 300 Twenty-eighth Street, are entering the fourth week of an extended vacation trip to points of interest in the western states. Accompanying them are Mr. Best's sister and family, Mr. and Mrs. Charlie Stracner from Sweetwater, and Mrs. Best's sister Mrs. Mirrie Martin from Uvalde.

Visitors in the home of Mr. and Mrs. E. G. Strickland, 2806 Avenue C, are their cousins, Mr. and Mrs. Allen Johnson from Tulsa.

Mr. and Mrs. Roland Bell, Jr., returned yesterday from a three weeks' tour of the west where they visited buyers in the flower industry and stopped at scenic points of interest.

Mr. and Mrs. S. W. Angel, 1311 Twentieth Street, had as visitors for several days, Mrs. Angel's niece and family, Mr. and Mrs. Marvin Edwards and two children from Upland, Calif. The Edwards left for their home today.

Youths Believe Draft Office Here Should Know All Answers

Sometimes during the past few weeks Forrest Beavers, county superintendent, has found himself wondering whether his office is going to be one of the casualties of the Korean war.

Ever since the first hint of a bigger draft army, the office has been attracting a stream of young men who forgot to register, want to know when they're going to be drafted, or haven't let the defense department know they've acquired a family.

WAS EASY JOB

Beavers has been responsible for registering local men since the new draft law went into effect in August, 1948, and to begin with it wasn't such a big job. Scurry County is part of a three-county board, with headquarters in Sweetwater, and all business except the actual registering is referred to the Sweetwater office.

Somewhere along the line things got out of hand. Snyder probably has more 18 to 25-year-old men than any other town of its size in the country ,and they sometimes seem to know less about the draft law than anybody else.

Having to tear a long legal-looking report out of a typewriter to fill out registration cards for an uncertain 18-year-old is bad enough, but functioning as an information bureau is the biggest and most thankless job of all.

Beavers and his assistant, Miss Mable Glass, find the long and varied list of questions potential draftees ask a little exasperating especially as they get no information themselves.

IN DARK THEMELVES

They don't know what a various classifications mean or who is classified how. They don't even know who gets drafted, because all such affairs are carried on through the Sweetwater office.

They no longer open the letters that come to them. All communications should be sent to the local board, which is in Sweetwater, so they just forward the letters on.

For those who ask in person, however, they have some answers. A person who has married since registering should send a photostatic copy of his marriage license to his local board. (If he registered in Snyder, that's Sweetwater.) The board should be notified of any additions to the family—after they arrive, not before, as they sometimes have to explain.

ADDRESS CHANGES

Changes of address should be sent to local boards, too. Failure to do this sometimes causes mix-ups—like the one involving a young man who received notice one day that he was to have to report to his local board in Brooklyn the day before. When something like this happens, the victim had just as well go straight to the Sweetwater draft office, as only there can anything be done about it.

The local board can replace a lost registration card and is the only agency that can.

Beavers wishes people knew that his only official job is to register 18-year-olds and newly discharged service men. Even that takes time of course, but would probably not interfere with county school duties as much as the long explanations that have to be made—usually explanations as to why the inquirer must go to either his local board or the Sweetwater board for whatever he wants.

Mr. and Mrs. Waldo Montgomery, 2903 Avenue T, entertained Mrs. Montgomery's family, Mrs. A. H. Austin and two sons, Jack Austin and Chester Austin, in their home last week. Also visiting with Mr. and Mrs. Montgomery were their daughter and family, Mr. and Mrs. R. E. Coffey from Houston. The group went through the Carlsbad Caverns Sunday.

Mrs. Jack Yeaman, who has recently undergone surgery at Root Hospital, Colorado City, is now recuperating at her home, 2306 Thirty-second Street. She is reported doing very well.

Accident Takes Another Child

LOS ANGELES, Aug. 15. (AP) — With the traffica ccident death of her daughter, Penny Clark, tragedy again has taken a brutal swing at pretty Nedra Clark, widow of Buddy Clark, the crooner.

Penny, a laughing seven-year-old dashed across a busy intersection to join playmates yesterday and ran directly in front of an oncoming car.

The child's nurse, Ruth Shackelford, told police she called to Penny, but the child apparently didn't hear her. The driver, Edward Cheetham, 28, of Santa Monica, was not held.

It was the third major tragedy for the grief-torn Mrs. Clark, 31, who once was selected as America's most beautiful brunette.

Singer Clark, Penny's father, only 37, was killed in an air crash last Oct. 1.

But before that, Mrs. Clark had seen her first husband, William M. Evans, go berserk after she divorced him in 1941 and stab their two-year-old son and her mother to death. A button which deflected the blade saved her own life. Evans is serving a life term in Illinois State Penitentiary.

Mrs. Clark, now left childless, was recently awarded $450 a month from Clark's shrinking estate, estimated at about $26,000. However, she sold their former Encino home for $19,000 net, she told the court, and has a $2 million suit pending against the operators of the plane which carried the singer to his death.

UAW Workers Strike Called

DETROIT, Aug. 15. (AP) — A strike at Packard today put a sudden end to three months of labor peace in the automobile industry.

The CIO United Auto Workers, in what the company management promptly referred to as a "pressure move," called a walkout of Packard's 8,000 employes last midnight.

The strike came as Packard was getting up headway in production of its new 1951 car model.

It was the first strike of consequence in the industry since Chrysler and the UAW came to terms to conclude a 100-day stalemate last spring.

In comparison, however, the Packard strike was much less severe as regards over-all effects. The Chrysler walkout directly or indirectly idled 150,000 men, including Chrysler's own 85,000.

Packard and the UAW had been in a contract dispute over issues of pensions, insurance, and a cost-of-living pay increase.

Earlier yesterday the union served notice it would strike at midnight, and the deadline passed without a settlement after 12 consecutive hours of negotiations.

The company-union contract had been extended on a day to day basis since its formal expiration last June.

The company said that negotiations would resume today with the aid of a federal mediator.

As the strike took effect, Packard immediately issued a statement charging the union with a "pressure move" to enforce contract demands.

The union made no reply at the time.

Packard, however, said it had offered the UAW a five cents an hour wage increase, a $100 to $117.50 a month pension plan modeled after the General Motors agreement, and an insurance program.

Waxahachie Victors Of American Legion

SAN ANTONIO, Aug. 15. (AP) — Waxahachie is the new state American Legion baseball champion.

It whipped St. Thomas of Houston, 7-2, and 4-0, yesterday to annex the title. William Foster relieved starter Thomas Gibson in the sixth inning of the first game. His mates jumped on St. Thomas for a run in the opening fame and six more in the third and fourth. Gibson was credited with the victory.

Foster hurled the second game and faced 32 batters. He struck out 11, walked only one and gave up four hits.

Waxahachie will participate in the national Region Six American Legion Tournament at Baton Rouge, La., beginning Saturday.

Women's Western Golf Tourney Underway

CHICAGO, Aug. 15. (AP) — Star feminine shooters from 47 states squared off today in the opening match play round of the 50th Women's Western Amateur Golf Tourney.

Yesterday's medalist Polly Riley of Fort Worth, Tex., who toured Exmoor Country Club with a one-under-par75 , opposed Bonnie Randolph of Columbus, Ohio.

Runner-up to Miss Riley was Dot Kielty of Long Beach, Calif., with a par-matching 76.

Just barely scraping into the match-play showdown was Betty MacKinnon, Mt. Pleasant, Tex., who survived a playoff among the 84 shooters. Miss MacKinnon beat off Rena Nelson, Chicago, and Bobby Dawson, Orinda, Calif., in a "sudden death" excursion over three holes.

Miss MacKinnon today faced Mrs. F. D. Mayer, Chicago, who qualified with 81.

REAL ESTATE M

FARM & RANCHES M5

New Mexico Ranch Land

The following list of ranches are all extra good and are priced proportionally to the number of cattle they will run, location, agricultural potentalities and mineral status. Some of these prices sound very high but the higher the price per acre for the deeded land the more lease they carry.

24 SECTION RANCH

9695 acres deeded, balance lease. Watered by shallow wells and windmills, creeks and springs. Has a large modern adobe house at headquarters, plenty of barns, corrals, shoots and scales. Located in a valley surrounded by hills which afford good protection for livestock. It is a good year around ranch that will carry 400 mother cows. It also carries most of its mineral rights, some of which the owner wishes to retain. The price is $25.00 per acre for the deeded land and it is stocked with good cattle which could also be boughht when ranch is sold.

29 SECTION RANCH

15130 acres deeded, 960 acres State lease, 560 acres Gov. lease. This is nice rolling prairie country, watered by shallow wells, tanks and running creek; plenty of pastures; four room rock house, shoots, corrals, bunk house located near the center of the ranch. It is good for 600 cows and carries 8000 acres of mineral rights, 1000 acres of which the owner wishes to retain. Price $16.00 per acre for the deeded land.

20 SECTION FARM AND RANCH

7860 acres deeded, 2760 acres state lease and about 2560 acres Taylor Grazing lease and free range; has two good sets of improvements and two camps; 1400 acres in farm; fenced in several pastures; watered by springs, tanks, wells and windmills. Practically all the deeded land is nice level plains land. The lease covers valleys and nice canyons with timber which makes good protection for stock in winter. It also has considerable deer on it. It carries practically all its mineral rights and the price is $30.00 per acre for the deeded land.

7 SECTION RANCH

2760 acres deeded, 960 acres Gov. lease, 800 acres private lease; good fences, corrals and shoots; two room rock house; watered by wells and windmills, springs and creek. This is a nice open country with some protection for stock; carries most of its mineral rights and the price is right on it, $12.50 per acre for the deeded land. Good for about 125 cows. The above described ranches are all located here in the vicinity of House, New Mexico and are priced right and are actually for sale at the price quoted. For further information contact

Feminine Voice Now Heard on Police Airwaves

To her numerous titles, Mrs. J. Lawrence Devers, already a deputy sheriff, adds that of sheriff's department radio dispatcher. Shown above at her desk in the courthouse, Mrs. Devers is photographed using the new radio communication system recently installed in patrol cars of the city police and the sheriff's department. Both radio systems use the same transmitter in the northeast section of town, but both offices have their own microphone.—(J. Lawrence Devers photograph).

Four Die In. B-29 Crash

FORT WORTH, Aug. 15. (AP) — Four crewmen were killed when a crippled B-29 bomber crashed in a field near here yesterday afternoon, then burst into flames only 200 feet from a cluster of small frame houses.

Eight crewmen escaped with minor injuries.

The four-engined bomber, from Barksdale Air Force Base, Shreveport, La., apparently was attempting to land at Carswell Air Force Base, two miles south of the crash scene.

FLAMES SHOOT

The plane hit and began flaming as it plowed crazily along the ground for almost half a mile.

Three charred bodies were removed from the nose section of the plane and one from the center section.

Barksdale field said three of the dead were:

Capt. Bernard J. McKenna, navigator, of Staten Island, N. Y.; First Lt. Michael J. Joyce, navigator, son of Mrs. Catherine Joyce of Arlington, Mass.; First Lt. Armand S. Trepanier, observer, son of Mr. and Mrs. R. A. Trepanier, of Holyoke, Mass.

NAME WITHHELD

The name of the fourth victim was withheld until next of kin were notified.

Witnesses said something appeared wrong with the ship's landing gear and the craft apparently went out of control while the pilot was attempting to land.

The plane carried no bombs.

One witness said two gas tanks were jettisoned from the bomber as it passed over Lake Worth, near the air base. The bomb bay doors were still down when the ship struck the ground.

One whole wing of the bomber was sheared off.

Several persons told of seeing the nose wheel and one of the main wheels down in landing position as the bomber approached Carswell Field. They said the other main wheel was only partly down.

Just before the impact the pilot raised both main wheels.

CIRCLES FIELD

Witnesses said the plane circled over Carswell for about an hour as the pilot struggled to get the faulty left main landing gear down.

Wreckage littered an area about half a mile long.

Mrs. D. F. Wells of Indian Oaks Community was sitting by a window opposite the field when the crash came. She said it was burning as it slid along the ground and finally came to a halt about 75 yards from her house.

Two men, their faces black with smoke, tumbled from the plane and ran towards her, she said. She ran to meet them.

"They just wanted a drink," she said. "There was a tall man with curly hair and a little fellow. They both had on flying overalls, they said 'water. . .we want water.'"

GIVEN WATER

Mrs. Wells gave them a pitcher of ice water. They drink it and raced back to the blazing plane.

Before they left, Mrs. Wells said "The little fellow, he was bleeding a little from the face, he turned to the tall man and threw his arms about his shoulder and said:

"'Oh, God bless you, God bless you. . .'"

One report said that the pilot of the plane had to be restrained by other crew members from reentering the flaming plane to aid the men still inside.

Police Seek Solution To Mystery Of Man Found Half Starved

MERRILL, Wis., Aug. 15. (AP) — An emaciated Merrill man lay in a hospital bed today while police tried to figure out what had happened to him since July 7.

On that day Herbert Zyduck, 43, left for Merce, Wis. Yesteday he was found, half-conscious and half-starved, in his car on an abandoned road near Lac Du Flambeau in the Wisconsin northwoods.

A town marshal found Zyduck after berry pickers told of seeing the automobile. While being returned here by ambulance, Zyduck groaned but did not talk, authorities said.

Hospital attendants said the man's weight was down to about 100 pounds. Zyduck, father of five children, used to weigh about 165.

'Wrong Number' Star Charged With Cruelty

LOS ANGELES, Aug. 15. (AP)—Actress Agnes Moorhead's husband demands $200,000 in community property in a counter divorce suit.

Radio-television Actor Jack G. Lee charged the actress yesterday with extreme cruelty and asked that he be given all the property including securities, three automobiles, two Ohio farms and a home here.

Miss Moorhead in her divorce action last May said all property was acquired by her earnings and should be considered as hers alone. Both she and Lee are 47. They married in 1930.

Ransom Takes Tam O'Shanter Purse Money

CHICAGO, Aug. 15. — "Daddy" Henry Ransom never had it so good before.

He made $11,000 yesterday in polishing off Detroit's Chick Harbert by three strokes, 69-72, in a playoff for the Tam O'Shanter "world" pro golf championship.

Ransom's first prize was a treasure chest unmatched in golf history. Harbert's solance was $5 000 The difference of $6,000 was decided in a four-hour match followed by 10,000 awed spectators.

Now and then in this unwieldy crowd, which got in free and saw some of the most sensational golf in years, a glimpse could be had of Mrs. Ransom. She was with her 20-months-old son, Henry, Jr., and nine-year-old daughter, Marsha. They wanted to see what "daddy" was doing the same as the rest.

Well, "daddy" caught fire.

Big Spring and Snyder Chambers Plan Joint Highway Celebration

Jimmie Green, manager of the Big Spring Chamber of Commerce, will meet with the Board of Directors of the Scurry County Chamber of Commerce at 7:30 o'clock Friday night, to discuss plans for a joint celebration in connection with the opening of the Snyder-Big Spring road.

"Others who wish to attend this meeting, which will be held at the chamber headquarters here, are invited," R. A. Schooling, president of the chamber, said.

Japs Rush For Jobs

TOKYO, Aug. 15. (AP) Japanese rushed to apply for jobs with the newly-created reserve police force. The national rural police said 109,668 had applied for the 75,000 places.

Bombing Near Soviet Border Show American Determination

By ELTON C. AY
AP Military Affairs Reporter

WASHINGTON, Aug. 14. — The United States has given Russia a new and unmistakable token of its determination to fight the Korean war even at the risk of open Soviet intervention.

A mission of American Air Force superfortresses, in a strike on a North Korean city, slammed down more than 500 tons of bombs so close to Russian Siberia—17 miles—that the distant rumble of the attack probably was heard across the border.

This week-end bombing mission to the North Korean port city of Najin was one of the most daring and delicate operations of the war.

TOUCHY

The difference between putting bombs down on a North Korean target or, through accident and error in navigation, having them fall on Soviet territory was a matter of about five minutes flying time for a big formation maneuvering at a speed of more than three miles a minute.

But there was an even greater calculated risk. How would Russia react to the appearance of American planes, bombed and armed for combat, so close to her doorstep.

There was this to remember. On April 8, before there was any shooting war anywhere and in a different part of the world, four Russian fighters shot down a United States Navy patrol plane over the waters of the open Baltic. This attack occurred more than 30 miles from the nearest Russian territory, in an area supposedly free to sea or air navigation by any nation and was made when the United States was at war with no one.

MORE THREATS

Moscow thereafter let it be known that more action of the same kind could be expected if foreign planes got too close to its Iron Curtain.

Whatever the reason, there was no indication that the Soviet Air Force reacted to the Najin mission. Information received here said nothing of the sighting by the bomber mission of non-American aircraft.

All operations in the Korean war presumably are carried by direction or approval of Gen. Douglas MacArthur's Far Eastern command. It in turn receives its broad strategic directives from the joint chiefs of staff here. The joint chiefs' strategy is, of course, geared to the high overall policy defined at diplomatic level.

Thus it must be assumed the decision to carry the air war to the very edge of Russian territory has the sanction of the top policy-shapers.

GOOD GROUNDS

The reason for hitting Najin seems to have been based on solid military grounds. It is a rail center and port town through which North Korean supplies and reinforcements have been moving. During recent weeks, the enemy has been moving men and material southward along this coastline in a series of short water hops using small coastal steamers and other craft and moving usually by night.

The B-29 bombers during the last seven weeks have pretty well worked over profitable strategic targets in Korea. Oil refineries and some manufacturing centers have been plastered often and heavily. With these targets at least temporarily scratched, the bombing program called for shifts to other smaller but important strategic targets—like Najin.

This northward movement of the stategic bomb line necessarily carried with it the calculated risk that the North Koreans' sponsor and neighbor, RUSSIA MIGHT REACT, was the choice between letting the North Korean transportation and manufacturing centers continue to feed help to the front or taking a chance of trouble with the Soviets. The question had to be decided sooner or later.

On the purely air operational side of the picture, the Najin strikes depended on the most precise kind of airmanship to hit the target—and not something just beyond it.

USED RADAR

A communique said only that "three successive waves of superfortresses" made the bombing run, aiming by radar because a cloud cover obscured the target.

On the basis of usual B-29 mission procedure, this would look like a mission of about 70 to 80 superfortresses.

In light of the potentialities that could have developed, it is quite possible the bombers had fighter protection while over the northern area, perhaps rendezvousing with the fighter force as they approached the coastline.

There was one factor that helped the Air Force in the attack on Najin on Saturday. The city is almost ideal for invisible bombing by radar. The coastline and the line of the river flowing into the harbor provide sharp delineation on a radar screen, giving the bombardier a "view" almost as good as he would have with his eyes. The favorite altitude for B-29 radar bombing usually is around 20,000 feet.

It is not likely that Russians manning the Siberian border line failed to know of the approach of the superfortresses to Najin nor of their movements after reaching the target. A big bomber formation at medium-high altitude and only a score of miles distant would register very clearly on any radar aircraft detection network along the Russian border.

Tritium for Hydrogen Bombs Is World's Costliest Matter

By HOWARD W. BLAKESLESS
Associated Press Science Editor

NEW YORK, Aug. 14. —The hydrogen bomb is running a faster schedule than its predecessor A-bomb.

Calling in the Dupont Company to do much the same job for H-bombs as for A-bombs shows the difference. For H-bombs the Duponts were called in six months after President Truman's starting order last January. For A-bombs the company was not called for several years.

For A-bombs the Duponts made plutonium, a new metal. For H-bombs, they evidently will make tritium, a new hydrogen gas, triple ordinary weight.

MOST EXPENSIVE

Tritium is probably the most expensive substance ever made in quantity. The only published estimate of cost is nearly $450 million a pound.

Why use tritium? There are two other forms of hydrogen, deuterium which is double weight, and ordinary. Deuterium, known as heavy water, is not very expensive. Ordinary hydrogen is dirt cheap.

All three produce heat enough to form a bomb by fusion to form helium atoms. Ordinary hydrogen can't be used because it fuses too slowly. Bomb fusion must take place within a few millionths of a second. Deuterium is fast, perhaps fast enough. But tritium is faster.

TIE-UP

The industrial resources needed to make much tritium are so great that scientists have said H-bombs may weaken the United States, by interfering with making more essential weapons. Even if an H-bomb is a thousand times more powerful than an A-bomb, dozen A-bombs will do about the same amount of damage.

Making a hydrogen bomb may be difficult, but it is not mysterious. H-bombs are the oldest nuclear bombs. All scientists knew th principles of hydrogen bombs long before an A-bomb was even dreamed of, as the process by which the sun and stars make their heat.

Hydrogen was not considered practical because the fusion won't start until temperatures are a million or more degrees. The A-bomb unexpectedly furnished the starting heat. Immediately scientists of every nation, Russia included, knew how to make H-bombs.

Wave of Crime By Teen-Aged Gangs in Texas

By WILLIAM C. BARNARD
Associated Press staff

How goes life with Texas youth? Here are some current cases in the news. What do you think causes these tragic situations, involving teen-age-hoodlums from 11 to 17 years old?

An 11-sear-old "Billy The Kid, Jr." tried to hold up Pablo Castillo's grocery store in San Antonio. Barefooted, overalls rolled up, the boy entered the store, asked for a drink of water, surveyed the scene while drinking, pulled a pistol from his belt. Castillo told deputies Sam Sanders and Toney Wiatt he was quicker on the draw. He grabbed his own gun, told the brat to drop his. Later the boy sat in the sheriff's office seared and about to cry, while they sent for his father.

GANG WAR

Texarkana police say they have broken up gang war among teenagers armed with home-made guns powerful to kill a mule. Police Chief Jack Runnels said 13-15 year-olds planned to fight it out in a gravel pit with weapons modeled after pistols, shotguns and rifles made of wood, lead pipe and adhesive tape. They fired shells or rocks with a gun powder propellent charge touched off by firecrackers.

WEST TEXAS

Three 17-pear old thugs are believed responsible for numerous burglars and thefts in eight cities throughout West Texas. Two of them admitted breaking into a bank at Trent, but couldn't find any money. They robbed a store and a cafe, stole an auto, a dozen batteries from tractors, radiators, a sledge hammer and other tools, copper wire and ran off with a trailer. The young gangsters operated in Midland, Snyder, Abilene, Merkel, Sweetwater, Big Spring, San Angelo and elsewhere. One of the youths was under suspended sentenced for forgery. He had been tried under only one forgery charge because his first two forged checks were written before he was 17 years old. Another of the trio was arrested for burglary when 15 years old, and had escaped from the state reformatory at Gatesville.

EL PASO ATROCITY

Finally, an El Paso atrocity: a juvenile gang in the border metropolis is blamed for the death of a 19-year-old war veteran as he chatted innocently with friends in front of a corner drugstore. Doctors tried futilely to save the youth's life by removing a home-made revolver slug from his brain. The veteran fell with a gaping wound in his head as an auto full of young hoodlums whizzed past the sidewalk group, which at first thought firecrackers were being hurled at them. Police took five of a South El Paso juvenile gang into custody. This is the third El Paso death this year attributed to juvenile gangs.

The dead veteran was to report back for military duty this week.

School Teacher Kills Self On Toll Bridge

CAMDEN, N. J., Aug. 15. (AP)—Jeanette Lafferty, 25-year-old school teacher, stopped at the toll house on the Delaware River bridge yesterday, paid the toll and then parked her car, picked up a 22-caliber rifle and killed herself.

Police found an unsigned note in the car saying:

"I'm done living. God put me on earth and he is taking me off because I failed miserably."

Miss Lafferty had taught fifth grade at Woodbury, N. J., for two years. Last Sunday she returned to her home after attending a summer school session at Cornell University.

CIO To Oust Three Sympathetic Unions

LONG BEACH, Calif., Aug. 15. (AP) — The CIO National Executive Board will oust three Communist-leaning unions at its Aug. 29 meeting, O. A. Knight, oil workers union president, predicts.

Knight was chairman of the CIO trial board which heard Red charges against Longshore, Marine Cooks and tewards and Fishermen's Unions. "We learned some astounding things," he told his union's annual convention here yesterday as he made the prediction.

Gunmen Watch Liquor Control Board Laws

LONG BEACH, Calif., Aug. 15. (AP) — Two gunmen who stole $90 from liquor store owner, John Burr, yesterday evidently have some respect for the law, after all.

One of the bandits lifted a bottle of whiskey from the shelf and started to take a drink.

"Not here," cautioned his companion. "This is an off-sale place. It's against the law."

So the pair left — with the whiskey.

Legion Sets Goal For New Members; Names Man to Youth Council

An objective of 500 members for 1951 was set at a meeting of the Kite-Lane American Legion Post, held last night at its clubhouse.

"There are about 2,000 eligible war veterans in Scurry County, and it is the plans of the post to enroll as many as we can for our 1951 membership," Hilton Lambert, post commander, said.

Marvin Hanback, vice-commander of the post, has been named membership chairman, and a special committee will be named to assist him in the drive. Membership dues in the Legion are being accepted starting today, said Hanback.

The 1950 membership of the post is around 275.

George R. Killam, post adjutant, was named to represent the Legion at the meeting of the Youth Council, set for 7 o'clock Thursday night at the Chamber of Commerce, when definite policies for administering the Youth Center will be discussed.

Dr. D. K. Ratliff, past post commander, was appointed to represent the post on a committee of other civic groups that will name "The Man of the Month," starting in September.

The post is also planning to erect a flagpole in front of the Legian-V. F. W. clubhouse.

Westinghouse Hikes TV Set, Radio Price

SUNBURY, Pa., Aug. 15. (AP) — The Westinghouse Corporation's television and radio division will charge more money for some 1951 model television sets and radios.

The company, citing sharp rises in production costs, said eight TV models will cost $10 to $30 more and five radio models $1 to $30 more. Prices for TV models with 12 1-2 and 12-inch tubes will be unchandeg as will be 10 radio models.

Seven Die In Spain

SANTANDER, Spain, Aug. 15. (AP) —Seven persons were killed and 42 injured last night when a suburban bus hurtled off a highway and rolled down a 50-foot embankment near here. The bus driver was avoiding a truck.

Dean's Wife Hope's He Is Alive, Well

BERKELEY, Calif., Aug. 15. (AP) —The wife of Maj. Gen. William F. Dean, 24th division commander missing in Korea, is still hopeful that he is alive and well.

Mrs. Dean arrived from Tokyo by plane yesterday.

She said she heard rumors that the general is safe, but nothing definite.

Later in the fall, she plans to visit a daughter June (wife of Lt. R. C. Williams) in Puerto Rico and a son, William, Jr., at West Point.

"But," she added, "if good news comes, I will hurry back to Japan."

Houston Man Charged In Amarillo Burglary

AMARILLO, Aug. 15. (AP) — G. W. Clayton of Houston was charged here yesterday in connection with the $6,000 burglary of a food store here July 23, 1949.

Specifically Clayton was accused of receiving $200 for cutting open a safe which had been taken from the store.

Two persons already have been convicted in the burglary.

Man Booked For Asking

HOBOKEN, N. J., Aug. 15. —Last night firemen asked a driver to move his double-parked car, in order to get their fire engines through a one-way street.

They said he responded by jumping on the running board of one of the fire engines and shouting, "Where do you think you're going, to a fire?"

He was booked on a disorderly conduct charge.
