A SHORT TREATISE ON INDIANS

For the third time in less than a year, which is three times too often, I have heard someone ask the Federal government to let Indians stay on reservations and why Indians are not permitted to vote. Texas, whose history is rich with Indian lore and which outsiders equate with the cowboys-and-Indians game, obviously needs a bit of education.

Indians are NOT forced to live on reservations. They may and do leave any time they wish. Major cities such as Chicago and Los Angeles have Indian populations numbering in the thousands. In fact, some who leave never return and some reservation lands have been sold to the general public.

Reservation land is held in trust for tribes by the federal government until such time as the members choose otherwise. The only factors that bind Indians to their reservations are cultural attachment to the tribe and land, lack of money, lack of proper or sufficient education, or hesitation to attempt a completely different way of life. Many of those who leave return by choice.

Indians have had the legal right to vote since they were declared citizens in 1924. As with Negroes, literacy laws prevented many from casting ballots, but that has been declared unconstitutional, and with the spread of formal education and increased mobility, the majority of Indians now speak, read and write English, as well as their native languages and in many instances Spanish.

Voting has long been instituted within tribes, and Indians take an interest in political elections on all levels. They have occupied a number of vital positions in the national government — vice-president, supreme court justice, senator, congressman, commissioner of Indian affairs, and others.

Indians are NOT vanishing. On the contrary, their rate of population increase is twice the national average. Statistics on actual numbers vary from 500,000 to more than a million Indians in the United States alone. More and better health care facilities have reduced infant mortality rates and lengthened life expectancy. Nutritional programs and preventive medicine have also helped, as well as modern utility installations and sanitation equipment.

As a group, Indians are NOT ignorant, lazy, dirty, superstitious or irreligious. One study showed the IQ of Hopi children to be well above the national average of 100, for instance, and Indian education is improving gradually. If an Indian seems slow-moving or exceptionally calm, it is because he has a different concept of time and does not bow to the pressures that give the rest of us ulcers and hypertension. Indians value cleanliness and good health, but many of them must still live without water or modern plumbing because of isolation or lack of money.

What we think of as superstitions are cultural and religious lore, and Indians are deeply religious people. Many are life-long professing Christians, while others adhere to traditional beliefs.

Indians do not all live in tepees, wear feathers, say "How," attack white people or stay drunk

all the time. If you still think so, shame on Hollywood for even suggesting it, and shame on you for believing it.

I want you to do two things. First, check the textbooks in your schools to see if they give Indians fair treatment, or if they even mention Indians. Second, write to the Bureau of Indian Affairs in Washington, D.C., and ask them to send you their complete packet on Indians. It's free.

Class dismissed.

Facilities at Wichita Falls state hospital and ways others can help were described by Sandra Brennan, assistant co-ordinator of volunteers in a program at Bradford PTA Tuesday evening. The slides and group discussion added interest. She told of tours which can be made by groups visiting the hospital.

Bradford pupils do something special at Thanksgiving, Christmas and Valentine for residents. The conduct an "Adopt a Patient" program, the only school in the area with such project. At special times they bring some of the residents to the school for a party and room visitation.

During the business period it was announced that an art exhibit is set up by the 4th grades in the back of the cafeteria; the Halloween carnival was a huge success; and the 4th grade room of Mrs. Denise Thayer sold the most tickets.

Music by 3rd grade pupils under direction of Mrs. Glenn Schell concluded the gathering.

Mr. and Mrs. Johnny Crawford of Iowa Park have announced the engagement of their daughter Kristie Suzanne and Patrick Lee Gaines. He is son of Mr. and Mrs. Laster (Toby) Gaines of Waurika, Okla.

Lightsey-Wagner Vows Exchanged

Miss Joanna Marie Lightsey and Wayne K. Wagner were married Saturday evening in Faith Baptist church in a beautiful ceremony. The Rev. Mr. Jacky Newton read the ceremony and directed their exchange of vows.

The bride is daughter of Mr. and Mrs. Jack R. Lightsey of Iowa Park. The bridegroom is son of Mr. and Mrs. Kenneth V. Wagner of St. Louis, Mo.

When given in marriage by her father the bride was wearing a white satin gown with empire bodice. A wide panel of lace adorned the front of the skirt. Her shoulder length veil was fastened to a satin bow. Her bouquet was of fringed carnations with ivy and baby's breath.

Mrs. Robert Burns of Wichita, Kans., was matron of honor. Mrs. Phil Travis was bridesmaid.

Robert Miller of St. Louis was best man and Joseph Douglas of Philadelphia, Pa., was groomsmen. Gary Wagner, brother of the groom, and Kerry Scobee were ushers.

Parents of the bride were hosts for the reception in the church. They were assisted by their daughter Dianna, Miss Rhonda Molder of Creede, Colo., and Miss Sandra Neifert.

The bride was graduated from IPHS last spring and has been employed in the Wichita Falls office of U.S. Rep. Graham Purcell.

The groom is a high school graduate from St. Louis. He has been at Sheppard AFB and has been assigned to Whiteman AFB, Mo., where the couple will live.

Your C of C

Don Hughes, co-ordinator for the Chamber of Commerce project, reports the response to the call for assistance for the Harold Swanson family has been magnificent. A year's supply food for the family has been given and stored; and \$1600 in cash has been turned in, with more being paid in at intervals.

The schools, churches and civic organizations in addition to many individuals have participated and seemed glad to do so.

Thanksgiving Feed

Iowa Park Masonic Lodge will celebrate Thanksgiving in a special way. The families of all Masons, Eastern Stars, Rainbow Girls, and especially Masonic widows in the area are being invited to dinner with all the trimmings.

The food will be eaten in the Lodge dining room at 700 West Washington at 6:30 p.m. Wednesday, Nov. 15.

An interesting program will follow the meal.

Carl Barnhill presented the program for Noon Lions the past Tuesday. Aided by his retarded assistant Lion Maples, he showed slides with recorded explanations prepared by Texas Farm Bureau.

The slides showed how today's efficient farmers and ranchers produce safe, wholesome, nourishing food and natural fibers like Cotton, wool and mohair to meet needs of America with a surplus for export to other nations.

Food and Fiber Month is being observed in November. Barnhill told his fellow Lions: "Four of every ten Texans derive their incomes directly or indirectly from agriculture."

Parents are announcing the engagement and state that February has been set as the wedding month of Miss Marcia Nan Thompson and Michael Keith Kelly. She is daughter of Mrs. Lavere Thompson and late Mr. Thompson. He is son of Mr. and Mrs. Jack Gee Kelly.

They are both graduates of Iowa Park high school where they earned many honors and took part in extracurricular activities. She is employed with McClurkans in Wichita Falls. Michael has completed boot training in San Diego, Calif., and is stationed at the naval base in Memphis, Tenn.

Bird Lore

by Layfette Stankewitz

A drive through the Wichita Mountains reveals some of the most brilliant autumn foliage I have ever seen. Everywhere we looked was so beautiful. Although there was much red and orange, thanks to the sumac and oaks, the dominant colors were various shades of yellow.

I don't think I have ever seen a more bountiful crop of acorns, juniper seeds and red haw berries — the birds should have good eating.

Although the Wichita Refuge is maintained primarily for big game animals, its lakes and woodlands provide varied habitat for a wide range of bird species. The bird list contains 241 species of both eastern and western residents, and migrants. Birds are in greatest variety during migration periods. A checklist can be obtained free from Refuge headquarters.

We saw the red and yellow shafted flicker everywhere. These birds have fallen into disfavor among a large number of both city dwellers and country residents because of their habit of drilling holes in the gable ends of buildings. And reading from Bent's "Life Histories of North American Woodpeckers" nothing short of death will cause them to cease drilling operations until one and in some cases three or four holes have been cut through the outer wall. It is not known whether these holes are made for roosting places or simply through a nervous energy. It is noted however, that when they eventually have succeeded in completed the work they spend much time in them, especially on rainy days.

We are always excited when we see our eastern bluebirds because 10 years ago this feathered friend was on the brink of extinction. The English sparrow and starling had driven them from their natural habitats, but man has helped by providing housing.

I think the kinglets, the chickadees and the titmice stole the show. I have often read that the male ruby crowned kinglet has a scarlet crown patch but it is concealed unless he becomes excited. Apparently the sight of another male did the trick because we saw the flashy red patch several times.

We saw many interesting birds and our group tallied 32 species. My love of nature is one gift I prize highly and I'm always thankful for an opportunity to see such beauty as our wildlife refuges afford.

Burk 21 Hawks 14

Iowa Park Hawks finally ran up against a football team that had their number. This strange turn of events happened last Friday night at Burkburnett. Final score was 21-14, and fans on both sides were agreed that they had seen one of the best played games ever played by high school teams in Texas.

Burk got on the board first with a 63 yard drive in nine plays. The Bulldogs had held the Hawks to no first down to that point.

Burk threatened often in the remainder of the half but strong defensive play staved off any further scoring by the Bulldogs.

With the second stanza about to close, Iowa Park pulled up even when Frazier hit Mike Ehler for a 57-yard pass and run play into scoring territory. Halftime came with the score knotted at 7 all.

The Hawks, usually a second half scoring machine, didn't have it against Burk. The Bulldogs got another lead early in the third quarter when the Hawk defensive line was split open and allowed a 64 yard scoring run.

However the Green and White quickly balanced the account with a sustained drive of 54 yards in six plays.

Iowa Park never pulled ahead in the entire game. And the 4th quarter was a show of ball control to write home about. Burk used 8 minutes 22 seconds to negotiate 80 yards of territory. Line plunges, end runs, and passes where necessary kept the drive going, and it finally paid off with a 4 yard plunge to paydirt.

During the final 2 minutes the Hawks fought valiantly to score, but succeeded only in getting the ball deep in Bulldog territory.

Final home game of the season will feature Weatherford trying to balance the account with us. We managed a 12-10 victory at Weatherford last fall.

Murphy Reunion in Tennessee

John Murphy returned the past week from a four weeks vacation in Tennessee sight-seeing and enjoying a family reunion. John and sister Mrs. Susie Held of Nashville and brothers Dr. Eugene Murphy of Asheville, N.C., and Ben H. Murphy of Nashville spent the time together in the Nashville area.

Mrs. Held lives on a farm at Mt. Pleasant, a town like Iowa Park, in the family home restored to a condition like it was 66 years ago.

They attended services of the Spencer Hill church of Christ, where the family worshipped in the days when John was a boy.

Murphy especially enjoyed the tour of Andrew Jackson's home,

the Hermitage, going into every building on the 625-acre spread. He walked down the winding stairs and never missed a step. John noted particularly the cast-iron cooking vessels, the kind his mother used.

From the observation tower he viewed the entire city, a beautiful panorama. The governor's mansion is just that, a mansion, but no more elaborate than homes of Johnny Cash and Minnie Pearl, which he saw in passing.

The trip to Tennessee was made by plane.

Mr. and Mrs. Bob Birk and sons went to Munday last Sunday to visit her parents Mr. and Mrs. Travis Lee and to attend the 90th birthday celebration of Melissa's great aunt Miss Shelly Lee. This was the first trip of Paul, 8 lb and Patrick 10 lb, to visit their grandparents in Munday.

THE STATE OF TEXAS

To: Donald Terry Cornelius, Respondent, Greeting;

You are hereby commanded to appear before the Honorable 78th District Court of Wichita County at the Court House thereof, in Wichita Falls, Texas, at or before 10 o'clock A.M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 11th day of December, A.D. 1972, then and there to answer Plaintiff's Petition filed in said Court, on the 27th day of October, A.D. 1972, in this cause, numbered 93,162-B on the docket of said court and styled In Re: Billy Eugene Goodwin, et ux, Petitioners.

A brief statement of the nature of this suit is as follows, to-wit: This is a petition for adoption wherein Billy Eugene Goodwin and wife, La Joyce Goodwin, ask for leave to adopt a minor child named Ernest Lee Cornelius. If this citation is not served within ninety days after the date of issuance, it shall be returned unserved.

The Officer executing this process shall promptly execute the same according to law and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Wichita Falls, Texas, this the 27th day of October, A.D. 1972.

One of the circles of United Methodist women's organization is named for Joyce Hill, a missionary. She is now one of the executive secretaries of the board of missions and is in charge of the work in Argentina, Bolivia, Chile, Cuba, Ecuador, Peru and Uruguay.

For the program Tuesday in Randolph Duvall Clark Memorial Chapel Mrs. M. L. Hines gave highlights of the life of Joyce. The two are personal friends and Joyce became a "live missionary" and one they were glad to honor when local women learned of her dedication and work. Joyce was born and reared in Canadian.

Assisting in program presentation were Miss Ethyle Kidwell, Mrs. George Trammell and Mrs. Judy Baker.

Mrs. S. B. Keeter directed business and called for reports. The group voted to accept as a project the purchasing and collecting of a box of supplies Mrs. Larry George needs for a class of girls in the mission school in Mrewa, Rhodesia where she and Larry are teaching. If any of the women of the church would like to contribute some of these articles it will be appreciated: buttons of any size or color, thread, pot-holders, zippers, lace, girls' dress patterns and material for dresses size 2, muffin tins, whisks, domestic science books. One of the circles will provide 20 wrist pin-cushions.

Mr. and Mrs. W. A. George will pack and send these supplies on Nov. 17.

At your service

Electricity that helps broaden the path to knowledge.

Project a herd of charging elephants onto a movie screen, and a student sees what is happening in a far away world.

Play an album of Beethoven's symphonies, and the composer suddenly becomes more in a student's mind than just a name in print.

Let a student watch the world of single-celled creatures through the illumination of a microscope, and he'll take a closer look at the world around him.

Test his ability against an electronic speed-reading machine, and he almost surely will respond to the spirit of the challenge.

Educators today are much aware of the value of audio-visual equipment in the classroom. Modern education is a sight-and-sound world in which electricity helps bring history, geography, literature and languages to life.

Electricity is hard at work for you just about any-

where you go these days. And the use of electricity is expected to increase in the years ahead.

When additional power is needed, we'll be ready to provide it to schools and to all our customers.

But getting ready and staying ready is an increasingly expensive, never-ending job at Texas Electric. Our construction expenditures are at a record high for facilities necessary to keep an adequate and reliable power supply at your service.
